Documentation of Public Hearing

Project Location
Dallas County

Interstate Highway 30 (I-30) East Corridor
CSJs: 0009-11-252 and 0009-11-251

Project Limits
From I-45 to Ferguson Road

Hearing Location
In-Person Hearing: Fair Park - Briscoe Carpenter Livestock Center
1403 Washington Street, Dallas, TX 75210
Virtual Public Hearing: https://www.keepitmovingdallas.com/I30EC

Hearing Date and Time
In-Person Hearing: Thursday, June 29, 2023, 5:30 p.m. to 7:30 p.m.
Virtual Public Hearing: Thursday, June 29, 2023, at 5:30 p.m.
through Friday, July 14, 2023 at 11:59 p.m.

Translation Services
Services were available, but none requested.

1	ALLEN, Ross	7/13/23	Online Comment Form	I adamantly oppose the addition of more lanes to I-30. We have ample evidence from around the country and around the world that car centrism is bad for our communities, bad for housing costs, awful for emissions and heat island effect, and most importantly, that adding lanes has only a temporary effect. Use this money for transit, for denser communities, for dedicated bus lanes, for ANYTHING BUT MORE PRIVATE VEHICLE LANES. DFW is a wasteland of concrete highways. Please invest in better mass transit and reducing vehicle trips instead of wasting more valuable land on highways.	Comments noted. TxDOT and the City of Dallas have several goals for the I-30 reconstruction that might not be easily identified in reviewing the design plans. The proposed project design includes adding capacity for vehicles to address the clear past and expected future trends in population growth and greater traffic congestion. The project will improve mobility and safety while also enhancing connectivity, sustainability, and economic development opportunities. Mobility encompasses more than the number of freeway mainlanes but also includes the city streets, transit opportunities, and facilities for bicyclists and pedestrians. The city streets will be consistent with the city's complete streets guidelines and allow for wider sidewalks and buffered bicycle lanes. The schematic drawings shared with the community have been worked on closely with the City of Dallas and every effort was made to minimize the need for additional ROW and displacements. The current I-30 is elevated near Fair Park and at the same grade as the adjacent neighborhoods as you travel east with the I-30 mainlanes going over the city cross streets. With the proposed project, the mainlanes of I-30 will be depressed and go under the city streets. With the depression of the mainlanes and the city streets going

1 (cont'd)					over, the interstate will act less as a barrier, allow the reknitting and better connectivity with surrounding neighborhoods and be more sustainable. In addition, although additional ROW is needed for the project, there are areas that could become surplus ROW and be redeveloped for non-transportation uses after construction is completed.
2	BAKER, William	7/5/23	Online Comment Form	For the most part looks good. Please save the Gulf Oil/Hickory Street Annex as it appears you are doing.	Throughout project development the minimization of impacts to the Gulf Oil property has been a priority. Expected impacts would not affect any structures on the property but would be limited to approximately 0.0077 acre (or 0.34 percent) along the fringe of this 2.26-acre property.
				We need a Westbound on-ramp from Dolphin Road. Going past three lights all the way past Grand Ave. is too long.	Comment noted. Adding a westbound entrance ramp at Dolphin Road would require removal of the westbound exit ramp currently in the project design. This would require all westbound exiting traffic to use the ramp east of Dolphin Road to service four cross streets and two side streets, which would create a greater traffic challenge along the frontage road as well as other aspects of the project design.
				The traffic circle at Lindsley looks like a great idea - also removes the cut through on-ramp traffic from Ash going West.	Comment noted.

3	BARTON, Lorlee	6/29/23	Comment Form	We are a non-attainment environmental area- this will only exacerbate. Adding lanes, as research shows, never makes it better- they just fill up. Times are changing. Younger generation is abandoning cars. Traffic counts have only increased by a very small percentage. Any fool can get an answer- The wise man knows how to ask the question- You asked the question- how can we move cars- You should have asked- how can we move people- Boondoggle- Boondoggle	Comments noted. TxDOT and the City of Dallas have several goals for the I-30 reconstruction that might not be easily identified in reviewing the design plans. The proposed project design includes adding capacity for vehicles to address the clear past and expected future trends in population growth and greater traffic congestion. The project will improve mobility and safety while also enhancing connectivity, sustainability, and economic development opportunities. Mobility encompasses more than the number of freeway mainlanes but also includes the city streets, transit opportunities, and facilities for bicyclists and pedestrians. The city streets will be consistent with the city's complete streets guidelines and allow for wider sidewalks and buffered bicycle lanes. The schematic drawings shared with the community have been worked on closely with the City of Dallas and every effort was made to minimize the need for additional ROW and displacements. 3 (cont'd)					over, the interstate will act less as a barrier, allow the reknitting and better connectivity with surrounding neighborhoods, and be more sustainable. In addition, although additional ROW is needed for the project, there are areas that could become surplus ROW and be redeveloped for non-transportation uses after construction is completed.
4	BRETEL, Calvin	7/12/23	Online Comment Form	I drive the I-30 corridor every single day for work. 7 days a week. As it is right now, July 12, 2023, it is wholly inadequate to handle the amount of traffic from sunup to sundown. The highway absolutely needs to be widened with additional lanes to not only handle the current amount of vehicles, but be wide enough to handle the projected traffic 25-50 years in the future.	Comment noted.
5	Baylor Scott & White Health Services **Comment 5(a)** from Mark Fryar, Director of Campus Planning	6/29/23	Comment Form	Please review access from 45/345 Northbound/Southbound to I-30 Eastbound. Baylor University Medical Center has faithfully asked for exits to any of 1st, 2nd, or Exposition to expedite ambulance access to our emergency department. The proposed design only provides exits to Haskell. This design is worse than the current access condition and will delay patient care significantly. Please consider a revision providing access in this phase. We at Baylor Scott & White Health have been communicating this request for several years now.	Comments noted. TxDOT Project Manager, Nathan Petter, P.E., met with Baylor Scott & White representative, Charles Shelburne, on 7/18/2023 to discuss the comments received. It was explained how the access from I-45/I-345 to 1st, 2nd, or Exposition streets is not feasible with current design criteria. The history of past discussions where this was discussed with Baylor Scott & White including the June 2021 Public Meeting was explained in the 7/18/2023 meeting as well. Nathan Petter invited Charles Shelburne to reach back out if there were any further concerns that could be discussed.

5 (cont'd)	Baylor Scott & White Health Services **Comment 5(b)** from Charles Shelburne, Vice President Campus Planning	7/13/23	Emailed Comment	I was out of town during the public meeting and looking at the plans, had a couple of notes, I will also add to the public comment. Not sure if this changed or the details are just being noticed, however below are our concerns. General: Direct access from all directions (I345 and I30) to the Baylor Scott & White Dallas hospital, a level one trauma center that see over 115,000 patients annually in our emergency department alone, is critical. Any delay in access via additional intersections or U turns to proceed can impact emergent patient outcomes.	TxDOT Project Manager, Nathan Petter, P.E., met with Baylor Scott & White representative, Charles Shelburne, on 7/18/2023 to discuss this comment received.
				Specific concerns: West bound from I30 / access to 1st and 2nd did not change from previous concepts however 1st and 2nd are now one way vs. two-way previously. Why the change? East bound I30 - Access will be from future exit west of IH345, looks like at approximately 75 / 45 exit just west of Good Latimer bridge. - Only exit east of IH345 is Peak - Please confirm and clarify exactly where the exit will be Northbound I45 & Southbound 75 /345 (eastbound I30 flyover connections) - Exit will be Peak, no access to 1st, 2nd, Commerce etc. - Most concerning, you will drive by the hospital without access, even with controls this will complicate access to hospital and delay care. Let me know if you would like to set up a time to review.	TxDOT Project Manager, Nathan Petter, P.E., met with Baylor Scott & White representative, Charles Shelburne, on 7/18/2023 to discuss this comment received. It was explained how the access from 45/345 to 1st, 2nd, or Exposition is not feasible with current design criteria. The history of past discussions where this was discussed with Baylor Scott & White including the June 2021 Public Meeting was explained in the 7/18/2023 meeting as well. It was discussed that 1st and 2nd Avenues are shown as one-way to match their current condition per the City of Dallas thoroughfare plan. If the City of Dallas were to amend their thoroughfare plan to show 1st and 2nd Avenues as two-way a change could be made at that time. Nathan Petter invited Charles Shelburne to reach back out if there were any further concerns that could be discussed.

5 (cont'd)	Baylor Scott & White Health Services **Comment 5(c)** from Charles Shelburne	7/13/23	Online Comment Form	**NOTE:** Commenter repeated the general and specific concerns from **Comment 5(b)** above in a second submittal of an online comment form on 7/13/23; see **Comment 5(c)** in **Section E** of this report.	See the response to **Comment 5(b)** above as the commenter repeated the same material as in the email submitted the same day.
6	CARROLL, Olga	7/14/23	Online Comment Form	Against this project. Not much difference from a current state. One additional lane in each direction is not going to help much. Reversible lanes don't work as the traffic is always heavier in the opposite direction. Reversible lanes are opened for a very limited time. They are just a waste. Most of the money is going to go into putting up bridges- how is this going to significantly help the traffic in I-30??? Very unprofessional proposal. Absolutely against. Need other ideas.	Comments noted. TxDOT and the City of Dallas have several goals for the I-30 reconstruction that might not be easily identified in reviewing the design plans. The proposed project design includes adding capacity for vehicles to address the clear past and expected future trends in population growth and greater traffic congestion. The project will improve mobility and safety while also enhancing connectivity, sustainability, and economic development opportunities. Mobility encompasses more than the number of freeway mainlanes but also includes the city streets, transit opportunities, and facilities for bicyclists and pedestrians. The city streets will be consistent with the city's complete streets guidelines and allow for wider sidewalks and buffered bicycle lanes. 6 (cont'd)					neighborhoods as you travel east with the I-30 mainlanes going over the city cross streets. With the proposed project, the mainlanes of I-30 will be depressed and go under the city streets. With the depression of the mainlanes and the city streets going over, the interstate will act less as a barrier, allow the reknitting and better connectivity with surrounding neighborhoods, and be more sustainable. In addition, although additional ROW is needed for the project, there are areas that could become surplus ROW and be redeveloped for non-transportation uses after construction is completed.
7	CHAVEZ, Herlinda	6/29/23	Comment Form	My concern with the round about at Lindsley & Munger is the children that use that area to get to/ from the elementary school. The high grass/ weeds currently in that area had been reported numerous times to the city and TxDOT	Overall safety considerations were weighed in designing the intersection of Munger Boulevard with Lindsley Avenue and the I-30 westbound frontage road four-way street intersection. A roundabout intersection is a nationally-recognized, safe solution to complex intersections such as the six sources of traffic converging at or exiting the I-30/Munger/Lindsley intersection with appropriate spacing between the streets. This is because the design requires vehicles to enter the traffic circle at a low speed to accommodate passing around the circle and stopping for pedestrians at the crosswalks on each of the intersecting roadways.

Commenter Number	Commenter Name	Date Received	Source	Comment(s)	Response
8	CHEEVER, Michael	6/29/23	Comment Form	I like the traffic circle at Lindsley/Barry/Munger.	Comment noted.
9	DART from Kay Shelton, Vice President Capital Planning	7/14/23	Mailed letter	1. Section 2.2 - Be more specific in this section. Rather than "A Dallas Area Rapid Transit (DART) bridge with a pedestrian bridge connection to the Santa Fe Trail next to it would also be constructed", suggest restating that the existing DART at-grade, double-track Green Line would be reconstructed as a bridge over the proposed project.	Revisions consistent with the commenter's recommendations will be made in the final Environmental Assessment.
				2. Section 4.3.1 - This section states: "To reduce I-30 congestion through TDM, multiple entities including TxDOT, the City of Dallas, the NCTCOG, and DART developed plans to enhance rail, bike, and pedestrian transportation modes and the NCTCOG and DART developed plans for rail extensions in the region. It is expected that the enhanced rail system would be operational by 2045 and would accommodate many trips in and around the I-30 corridor." Note that while there are some regional rail corridors in the NCTCOG Mobility 2045 MTP, DART does not have any programmed rail expansion projects in its 20-year financial plan in this area. However, DART is developing plans to increase bus transit frequency systemwide and is also advancing a system modernization program.	Comments noted. Revisions consistent with the commenter's recommendations will be made in the final Environmental Assessment.
				3. Section 5.1.2 - The DART-owned property at 555 2nd Avenue is shown as a displacement. This is a critical DART property currently used for materials management and operation and maintenance purposes. Track-bound equipment is connected via a track under the existing I-30 bridge to the Central Rail Operating Facility (CROF). The proposed I-30 project would severe [sic] this connection. Appropriate mitigation will be required to keep DART whole and replace the function in an alternate location that is accessible via track connection to CROF. Assuming this real estate impact cannot be avoided, DART will	Comments 3 – 5 from DART are noted. TxDOT met with DART on March 3, 2022, to discuss the project including the property impacts at 555 2nd Avenue. The schematic drawings showing the property impacts and Green-line reconstruction at IH-30 were shared at that time as well. TxDOT invites DART representatives to continue to meet and discuss the coordination of project final design plans to make all practicable

Commenter Number	Commenter Name	Date Received	Source	Comment(s)	Response
9 (cont'd)				begin to identify potential mitigation options that will maintain our functional requirements and discuss options at future coordination meetings with TxDOT. 4. The proposed project must not impact the CROF tracks adjacent to the eastbound frontage road and all design and construction adjacent to the facility must be closely coordinated with DART staff. 5. The proposed project will require that the existing at-grade Green Line tracks be reconstructed as a bridge over I-30. The Green Line provides critical access for southeast Dallas residents and also plays a major role in access to Fair Park for events including the annual State Fair. The design and construction phasing of this new bridge will need to be closely coordinated with DART design and operational staff so that it is done in a manner that avoids or minimizes any disruption to service, especially during State Fair periods.	accommodations for DART facilities and services as the I-30 East Corridor Project development continues. Please contact Nathan Petter, P.E., TxDOT Project Manager for the I-30 East Corridor Project at (214) 320-6243 or Nathan.Petter@txdot.gov.
				6. DART bus route 16 travels along Ferguson Road to access I-30 into downtown Dallas. It does not appear that this route can enter the I-30 managed lanes near Dolphin. DART would like to work with TxDOT on future projects to identify direct access opportunities to enhance bus connectivity into managed lanes to help provide more competitive travel times.	Comment noted. TxDOT invites DART to participate as a stakeholder in all its projects to optimize connectivity with DART services to communities.
				7. Ensure the roundabout at the Lindsley/Barry intersection is designed to accommodate the operational envelope for large transit buses. Consider the inclusion of an apron, an area between the central island and the travel way that is mountable by larger vehicles, but not used by passenger vehicles.	Comment noted. Final design will consider including an apron as described in the comment to ensure the roundabout can accommodate large transit buses.
				8. DART owns the railroad corridor east of Dolphin Road and west of Lawnview Avenue. "Schematic Roll 3" incorrectly labels this as KCS RR. Interactive ESRI based map incorrectly shows the railroad corridor parcels stopping at IH-30 and should be updated to	Comment noted. The design schematic will be updated to correct the labeling of the railroad corridor as a DART facility and to depict it as a continuous rail line. Further

Commenter Number	Commenter Name	Date Received	Source	Comment(s)	Response
9 (cont'd)				show the railroad corridor is continuous. This is an active freight corridor that will continue operations. The project must not affect the active operating condition. Design approval and construction coordination will be required by DART and operating freight carrier(s). An updated overpass agreement (road over rail) will be required between DART and TxDOT. Debris shields will likely be needed during construction. Flagging will also be required by contractor during construction.	coordination with DART as outlined in the comment will be included in the project's final design plans.
				9. DART supports sidewalks along all frontage roads and streets crossings to support safe pedestrian access to area transit stops.	Comment noted. Including sidewalks or shared use paths, where safe and practicable, throughout the I-30 East Corridor Project area has been an important aspect of project design.
10	EADES, Richard	7/14/23	Online Comment Form	My only concern is the traffic circle at the intersection of Barry Avenue and Lindsley. Having lived in New Jersey and witnessed multiple traffic circles there, those configurations often lead to vehicle accidents due to confusion about right of way. Alternate designs might be more efficient and safer.	Comment noted. Overall safety considerations were weighed in designing the intersection of Munger Boulevard with Lindsley Avenue and the I-30 westbound frontage road four-way street intersection. A roundabout intersection is a nationally-recognized, safe solution to complex intersections such as the six sources of traffic converging at or exiting the I-30/Munger/Lindsley intersection with appropriate spacing between the streets. This is because the design requires vehicles to enter the traffic circle at a low speed to accommodate passing around the circle and stopping for pedestrians at the crosswalks on each of the intersecting roadways.
11	EASTLAND, Kendal	7/13/23	Online Comment Form	I-30 needs this upgrade. It's been too many years where the freeways have been updated. It's time for I-30.	Comment noted.

Commenter Number	Commenter Name	Date Received	Source	Comment(s)	Response
12	ESTRADA, Nicole	7/14/23	Online Comment Form	I commute on this highway to and from downtown Dallas for personal outings and to get from the east side of the metroplex to the cities such as Grand Prairie, Arlington, and Fort Worth. The stretch of highway between the I30 and 80 merge into downtown has seen an influx of traffic over the past 10 years so I am definitely for the expansion of the I30 corridor between I45 and Ferguson Rd.	Comment noted.
13	FAHOUM, Elias	7/13/23	Online Comment Form	The city of Dallas along with TXDOT should not be considering adding extra lanes onto the highway as a method of reducing congestion. It rarely works and this plan will not be a magical exception to that trend and will largely benefit no one, especially those living in the community. This project will fundamentally not help any of the problems faced currently unless it is supplemented with functioning alternative and public transit options which we do not find present in the entire metroplex	Comments noted. TxDOT and the City of Dallas have several goals for the I-30 reconstruction that might not be easily identified in reviewing the design plans. The proposed project design includes adding capacity for vehicles to address the clear past and expected future trends in population growth and greater traffic congestion. The project will improve mobility and safety while also enhancing connectivity, sustainability, and economic development opportunities. Mobility encompasses more than the number of freeway mainlanes but also includes the city streets, transit opportunities, and facilities for bicyclists and pedestrians. The city streets will be consistent with the city's complete streets guidelines and allow for wider sidewalks and buffered bicycle lanes. The schematic drawings shared with the community have been worked on closely with the City of Dallas and every effort was made to minimize the need for additional ROW and displacements. The current I-30

13 (cont'd)					is elevated near Fair Park and at the same grade as the adjacent neighborhoods as you travel east with the I-30 mainlanes going over the city cross streets. With the proposed project, the mainlanes of I-30 will be depressed and go under the city streets. With the depression of the mainlanes and the city streets going over, the interstate will act less as a barrier, allow the reknitting and better connectivity with surrounding neighborhoods, and be more sustainable. In addition, although additional ROW is needed for the project, there are areas that could become surplus ROW and be redeveloped for non-transportation uses after construction is completed.
14	FIGUEROA, Stephanie	7/14/23	Online Comment Form	Yes! Let's do it. Expand the lanes! As someone who drives from Garland to downtown Dallas everyday for work I know how painful the commute is now. It's only going to get worse as more people move to Texas. I vote GO with this plan!	Comment noted.
15	GILMORE, Ralph	6/21/23	Phone Call	Nathan Petter, P.E., TxDOT Project Manager for this project, received this phone call and summarized the commenter's concerns as follows: "Just spoke with Ralph Curtis Gilmore (214-426-2958) who received the Hearing notice in the mail. He asked if any of his properties were being impact by ROW acquisition. The list he gave me were: • 4609, 4818, and 4822 Garland Ave • 4934 and 4938 Parry Ave • 5111 and 5118 Philip Ave"	Nathan Petter, P.E., prepared the following summary of his response he provided to the commenter during the phone call: "I informed him that we are not proposing any ROW acquisitions for these properties with the project at this time. He asked why he received a notice, and I informed him that it was to let him know of the Public Hearing on 6/29 and I encouraged him to attend if he'd like to see what we are proposing for the corridor."

16	HANEY, Eric	7/13/23	Online Comment Form	Traffic volumes have been flat or decreasing on this section of I-30 for decades. Increasing vehicular lanes widens the gulf between South Dallas, increases pollution in neighborhoods that already have adverse health impacts, and is overall a recommitment to harmful transportation practices. I urge TxDOT to consider their impact on the urban core of one of the nation's largest cities more than the ability to move through-traffic incrementally faster.	Comments noted. TxDOT and the City of Dallas have several goals for the I-30 reconstruction that might not be easily identified in reviewing the design plans. The proposed project design includes adding capacity for vehicles to address the clear past and expected future trends in population growth and greater traffic congestion. The project will improve mobility and safety while also enhancing connectivity, sustainability, and economic development opportunities. Mobility encompasses more than the number of freeway mainlanes but also includes the city streets, transit opportunities, and facilities for bicyclists and pedestrians. 17	_____, Henry (no surname given)	7/13/23	Online Comment Form	I am all for adding more connectivity across divisive infrastructure, but adding lanes to a freeway is proven NOT to improve congestion. History shows that humans tolerate about 30 minutes of commute time regardless of mode. You will end up with more commuters participating in the same or worse traffic, more smog, more emissions, more complainers, and more lost time. Give it 5 years and see the results for yourself - it's been demonstrated in Massachusetts, Maryland, Washington, California, Colorado, and even in Texas. This is not the exception! What may actually improve travel times is supporting more freedom of modal choice instead of further subsidizing the MOST EXPENSIVE mode of travel.	Comments noted. TxDOT and the City of Dallas have several goals for the I-30 reconstruction that might not be easily identified in reviewing the design plans. The proposed project design includes adding capacity for vehicles to address the clear past and expected future trends in population growth and greater traffic congestion. The project will improve mobility and safety while also enhancing connectivity, sustainability and economic development opportunities. 18	HURST, Jackson	6/30/23	Online Comment Form	I approve and support TxDOT's I-30 East Corridor from I-45 to Ferguson Road Project. I have reviewed the Draft Environmental Assessment and I support the findings in the Draft EA for TxDOT's I-30 East Corridor from I-45 to Ferguson Road Project. The aspect that I love about TxDOT's I-30 East Corridor from I-45 to Ferguson Road Project is that I-30 will be widened from 4 lanes to 5 lanes with 2 reversible Managed Lanes in the center median from I-45 to Ferguson Road. The widening of I-30 will improve safety, reduce congestion, and improve travel times with the addition of 2 reversible Managed Lanes.	Comment noted.

Commenter Number	Commenter Name	Date Received	Source	Comment(s)	Response
19	KLEITCHES, John	7/14/23	Online Comment Form	I can't wait. I love the below grade design. It will help reduce the traffic noise we hear constantly, even at night. It should also reduce homeless encampments once the I-30 bridges are removed. The below grade design coupled with the addition of cross over access for 5 streets that currently don't have it should encourage neighborhood cohesion, business development, and pedestrian traffic. I currently avoid I-30 as much as possible due to the unpredictability of traffic congestion. At any time of day, any day of the week the traffic could be at a complete stop.	Comment noted.
20	LOPEZ, Genaro	7/14/23	Online Comment Form	Why not build all roundabout instead of lights... Seems that those are better for traffic.	Generally, signalization of four-way intersections with heavy traffic is the safest design alternative. Overall safety considerations were weighed in designing the intersection of Munger Boulevard with Lindsley Avenue and the I-30 westbound frontage road four-way street intersection. A roundabout intersection is a nationally-recognized, safe solution to complex intersections such as the six sources of traffic converging at or exiting the I-30/Munger/Lindsley intersection with appropriate spacing between the streets. This is because the design requires vehicles to enter the traffic circle at a low speed to accommodate passing around the circle and stopping for pedestrians at the crosswalks on each of the intersecting roadways.
21	LYKE, J.B.	6/29/23	6/29/23	Traffic circle is so superior to 4way stop. Yea! Thank you.	Comment noted.

Commenter Number	Commenter Name	Date Received	Source	Comment(s)	Response
22	MANKIN, Roger	6/20/23	Phone Call	Nathan Petter, P.E., TxDOT Project Manager for this project, received this phone call and summarized the commenter's two concerns as follows: "Roger Mankin called me. Said he owns 3103 Culver St. He asked if we were looking to acquire any of his property or if he's eligible for relocation." "He asked where the construction would occur. . ."	Nathan Petter, P.E., prepared the following summary of the responses he provided to the commenter during the phone call: Regarding the question about potential property acquisition: "I informed him that we were not planning to need to acquire any property from him at this time and that therefore he is not eligible for any kind of relocation." As to the question about where construction activities would occur: ". . . and I informed him it would all be within existing TxDOT ROW for this specific location and that we are proposing a new frontage road behind his property from Winslow to Dolphin and also proposing a noise wall here as well."
23	MCELYA, Martin	7/13/23	Online Comment Form	Do not expand I-30 with more lanes. There is no evidence whatsoever that this will reduce congestion or benefit our city. Through induced demand, every new lane simply creates new traffic. The city destroyed countless communities in the past to carve canyons of concrete that divide our communities and force us to rely increasingly on unsustainable practices like automobile dependence and suburb development while more and more people die from car accidents and climate change every day. Do not continue this pernicious, expensive, destructive, and ultimately deadly and racist practice. All of this time and money should be spent on pedestrian improvements, mass transit, and dense communities.	Comments noted. TxDOT and the City of Dallas have several goals for the I-30 reconstruction that might not be easily identified in reviewing the design plans. The proposed project design includes adding capacity for vehicles to address the clear past and expected future trends in population growth and greater traffic congestion. The project will improve mobility and safety while also enhancing connectivity, sustainability, and economic development opportunities. Mobility encompasses more than the number of freeway mainlanes but also includes the city

Commenter Number	Commenter Name	Date Received	Source	Comment(s)	Response
23 (cont'd)					streets, transit opportunities, and facilities for bicyclists and pedestrians. The city streets will be consistent with the city's complete streets guidelines and allow for wider sidewalks and buffered bicycle lanes. The schematic drawings shared with the community have been worked on closely with the City of Dallas and every effort was made to minimize the need for additional ROW and displacements. The current I-30 is elevated near Fair Park and at the same grade as the adjacent neighborhoods as you travel east with the I-30 mainlanes going over the city cross streets. With the proposed project, the mainlanes of I-30 will be depressed and go under the city streets. With the depression of the mainlanes and the city streets going over, the interstate will act less as a barrier, allow the reknitting and better connectivity with surrounding neighborhoods, and be more sustainable. In addition, although additional ROW is needed for the project, there are areas that could become surplus ROW and be redeveloped for non-transportation uses after construction is completed.
24	MILONE, Luke	7/13/23	Online Comment Form	I approve of this project. The quicker we can expand the roads the quicker we grow	Comment noted.

25	MPO DFW **Comment 25(a)** from Michael Morris, P.E., Director of Transportation	6/29/23	Letter Provided at Public Hearing	It is important to highlight the five elements that make this freeway improvement important and therefore necessary to advance to construction. 1. Limited right-of-way take minimizing residential and commercial purchases. This reduces project cost, increases project support and promotes environmental stewardship.	Comment noted.
				2. The current IH 30 corridor has complicated operational barrier movements due to limited roadway capacity. The new design eliminates these operational difficulties.	Comment noted.
				3. The new design eliminates elevated freeway structures reducing the obstruction between neighborhoods, including Deep Ellum, East Dallas and Fair Park. It is critical in the new federal legislation to demonstrate the sensitivity of reknitting previously established neighborhoods.	Comment noted.
				4. The IH 30 freeway corridor has proposed additional capacity and safety enhancements. It is anticipated the project will have lower emissions and greater reliability. Meeting future demand is critical.	Comment noted.
				5. The Regional Transportation Council has congestion management components in this corridor, detailed in the Mobility 2045 Plan, that enhance the Dallas-Fort Worth mobility, safety and air quality scores. The Regional Transportation Council has included the TxDOT design in the Mobility 2045 Plan and this project on IH 30 from IH 45 to Ferguson Road is also included in the Air Quality Conformity Report for the Dallas-Fort Worth region.	Comment noted.
	MPO DFW **Comment 25(b)** from Michael Morris, P.E.,	7/14/23	Verbal Comment Line	Hello, my name is Michael Morris. I'm the Director of Transportation at the North Central Texas Council of Governments. Our office is at 6166 Flags Drive. It is also the home of the Regional Transportation Council for the Metropolitan Planning Organization for the Dallas-Fort Worth Region. My	Comment noted.

25 (cont'd)				phone number is 817-695-9241. Planning organization. There's five points I wish to make on the I-30 project from 45 to Ferguson Road. The first comment is how nice the geometric design of the Interstate 30 project is with regard to environmental stewardship, with very limited right of way takes as part of the freeway improvements. I think that's a critical element when evaluating the environmental impact of this particular project.	
				Second, are the very complicated operational movements of barriers. Eliminating these operational difficulties make for success with regard to congestion relief, and potential safety implications. The new design eliminates all of these operational difficulties replacing the highly operational components with fixed permanent elements as part of the dynamic elements associated with the operations of the freeway and its express lanes.	Comment noted.
				Third, and again focusing on the environmental stewardship, the project eliminates the elevated freeway structures along the corridor. Depressing those are creating better context sensitive design for the neighborhoods.	Comment noted.
				Fourth, additional capacity is introduced with greater safety enhancements. It's critical in this region that's growing at a million people every 7 years that we consider the future demand, established over the next 20 to 30 years, into the construction of our projects today. It's critical that these improvements address the increased demand which is included in the environmental stewardship and the design of the project.	Comment noted.
				And lastly, the Mobility Plan contains congestion management components associated with this particular project that greatly equate with the mobility, safety and air quality benefits, all part of the	Comment noted.

25 (cont'd)				environmental stewardship that one would need to consider in the review of this design.	
	MPO DFW **Comment 25(c)** from Samuel Simmons, Senior Transportation Planner	6/29/23	Letter Provided at Public Hearing	Interstate Highway 30 is a regionally significant transportation corridor that sustains the local, regional, and state economy. In the North Central Texas region, this corridor serves as a principal route for local commuters traveling to/from the Dallas and Fort Worth central business districts and provides access to several key highways and transportation facilities. This location also provides access to/ from local destinations including Deep Ellum and Fair Park. The proposed improvement to this segment of IH 30 are vital for the management of congestion in this corridor. The recommended improvements include the addition of mainlanes, construction of managed lanes, frontage roads, cross street bridges, and reconstruction of access ramps. In addition, this project will also include shared use paths and sidewalks to accommodate bicyclists and pedestrians. Collectively, these project recommendations will support improved mobility, accessibility, connectivity, and safety, as well as increased economic development attractiveness and enhanced quality of life to be enjoyed by the area residents.	Comment noted.
	MPO DFW **Comment 25(d)** from Samuel Simmons	6/30/23	Phone Call	My name is Samuel Simmons. My phone number is 817-704-2523; address is 6166 Flags Drive, Arlington, Texas. I'm calling today representing the Regional Transportation Council and the North Central Texas Council of Governments, together serving as the Metropolitan Planning Organization for the Dallas-Fort Worth area interstate highway. In the North Central Texas region, this corridor serves as the principal route for local commuters traveling to and from the Dallas and Fort Worth Central Business districts and provide access to several key highways and transportation facilities. This location also	Comment noted.

25 (cont'd)				provides access to and from local destinations including Deep Ellum and Fair Park. The proposed improvements to this segment of I-30 are vital for the management of congestion in this corridor. The recommended improvements include the addition of mainlanes and construction or managed lanes. The recommended improvements to this section of I-30 are consistent with Mobility 2045 Update. Because of the original significance of this project, the North Central Texas Council of Governments is going to provide any assistance in the planning design and implementation of this project.	
26	Murphy, Christopher	7/5/23	Online Comment Form	Instead of widening our freeways, especially since traffic has declined due to COVID, I think TxDOT should use this opportunity to expand mass transit on Dallas. A rail line down 30 would actually do something to help add alternatives to driving. Also, why can't we turn 30 into an actual park instead? Dallas has lots of highways already, it would be amazing to turn the freeway into a park, and remove the pollution and the noise from people speeding at 100 miles per hour down the freeway at night (which sound barriers won't stop)	Comments noted. TxDOT and the City of Dallas have several goals for the I-30 reconstruction that might not be easily identified in reviewing the design plans. The proposed project design includes adding capacity for vehicles to address the clear past and expected future trends in population growth and greater traffic congestion. The project will improve mobility and safety while also enhancing connectivity, sustainability, and economic development opportunities. Mobility encompasses more than the number of freeway mainlanes but also includes the city streets, transit opportunities, and facilities for bicyclists and pedestrians. 27	OLIVARES, Debra	7/12/23	Online Comment Form	As a resident of the area for more than 20 years, I have seen congestion build increasingly along interstate I 30. I am extremely excited about this project for my community!	Comment noted.
28	ORTEGA, Marga	7/13/23	Online Comment Form	I think this is a great idea, it is so difficult to get from East Dallas to downtown or the west areas without encountering traffic. I hope it can be done on time.	Comment noted.
29	RAMOS, Isaac	7/14/23	Online Comment Form	What this area needs is more service roads. Through most of this area there is not a direct service road. To avoid an accident you have to get off the road and navigate through the neighborhoods. I'm sure this is a nuisance to those in the community as well.	Throughout project development the creation of frontage road segments has been a high priority for the reasons noted by the commenter. Due to specific site constraints within the project corridor, however, it is not practicable to have continuous frontage roads without increasing the

Commenter Number	Commenter Name	Date Received	Source	Comment(s)	Response
29 (cont'd)					amount of right of way acquisition and displacements of adjacent properties. TxDOT has sought to balance the need for frontage roads with the need to minimize impacts to adjacent properties.
30	REVELES, Martin	6/29/23	Comment Form	More consideration/ analysis needs to be done to the proposed round about on the intersection of Lindsley & Munger. Too many hazards and safety risks are visible. Many with bystanders/ children walking by in the area to school or around the neighborhood.	Overall safety considerations were weighed in designing the intersection of Munger Boulevard with Lindsley Avenue and the I-30 westbound frontage road four-way street intersection. A roundabout intersection is a nationally-recognized, safe solution to complex intersections such as the six sources of traffic converging at or exiting the I-30/Munger/Lindsley intersection with appropriate spacing between the streets. This is because the design requires vehicles to enter the traffic circle at a low speed to accommodate passing around the circle and stopping for pedestrians at the crosswalks on each of the intersecting roadways. Please see the response to
31	RUMOHR, Suzanne	7/13/23	Online Comment Form	As a regional traveler, I am fully against any proposal to add more lanes to an urban highway. Past highway widenings have demonstrated over and over that widening highways to improve congestion doesn't work. Please do not displace homes and businesses or waste more taxpayer dollars for a project that won't deliver on what it claims it will. I support the addition of any pedestrian or bicycle facilities that are missing or need safety improvements. I support the addition of sound walls.	Comments noted. TxDOT and the City of Dallas have several goals for the I-30 reconstruction that might not be easily identified in reviewing the design plans. The proposed project design includes adding capacity for vehicles to address the clear past and expected future trends in population growth and greater traffic congestion. The project will improve mobility and safety while also enhancing connectivity, sustainability,

32	SAFAVIMATIN, Parvin	6/22/23	Phone Call	Nathan Petter, P.E., TxDOT Project Manager for this project, received this phone call and summarized the commenter's two concerns as follows: "Just spoke with Parvin Safavimatin 214-494-2122 regarding property she owns at 1703 Chestnut St. She asked if she was being impacted by the project." "She asked when construction might get started."	Nathan Petter, P.E., prepared the following summary of the responses he provided to the commenter during the phone call: Regarding potential property impacts: "I informed her that yes we are looking to acquire property from that location which includes displacing the building." As to the expected timing of construction: "I explained that construction timeline was currently unknown, but we are currently planning on 2026-2027. I explained to her that we have not yet started the ROW acquisition process but that once we began appraisals our ROW staff would be reaching out to her to begin the process."
33	SHELTON, Jeff	7/14/23	Online Comment Form	Lamar Advertising Company (through various subsidiaries) maintains numerous outdoor advertising sites that are directly impacted by the proposed I-30 East Corridor Project. At each of these locations, Lamar maintains real property interests. The Texas Department of Transportation indicates that only twelve billboards (with various owners) are directly affected by the I-30 East Corridor project. To reiterate, Lamar is the owner of real property interests at multiple outdoor advertising sites, which are directly impacted by the proposed project, but which are not identified by TxDot. Lamar maintains that ALL of its sites within the proposed project are directly impacted. The proposed plans show various alterations to roadway elevations, and additional overpasses and noise retention walls being constructed. The proposed project would cause a	In carrying out its responsibilities as agent for the Federal Highway Administration (FHWA) TxDOT adheres to the federal and state laws and policies governing transportation projects. TxDOT's review of proposed right of way needed to construct the improvements to I-30 within project limits would require the displacement of 12 billboards. Acquisition services for these properties would be provided in accordance with the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (Uniform Act) and the TxDOT Right of Way Manual. Compensation and any associated

Commenter Number	Commenter Name	Date Received	Source	Comment(s)	Response
33 (cont'd)				reduction in at least 25 percent of the market value of EACH of Lamar's real property interests at its outdoor advertising sites. Lamar asserts that it is entitled to compensation for the taking, damaging, and destroying of its property interests impacted by the proposed project. Lamar asserts that a Takings Impact Assessment is required pursuant to Section 2007.042 of the Government Code to assess the impact of any locations that are impacted by the proposed project, but which are not formally condemned. To the degree such an assessment has been conducted, Lamar requests that it be provided a copy of same, through Jeff Shelton, 625 109th St, Arlington, TX 76011, [redacted]. If such an assessment has not been conducted, Lamar asserts that it is required. Lamar notes that an Environmental Constraints Map was provided, and environmental impacts were assessed. However, no such Takings Impact Assessment map was provided, and again, is required. Lamar further asserts that all requirements of Section 2007, generally addressing the Private Real Property Rights Preservation Act, must be met. These comments are notice by Lamar Advertising Company of their intent to seek compensation for any and all damage to their property interests, including but not limited to filing a lawsuit and/or claim in any court and/or pursuant to the Private Real Property Rights Preservation Act.	damages of the displaced properties would be independently appraised and evaluated by a 3rd party appraiser during the ROW acquisition process. All property owners from whom property is needed are entitled to receive just compensation for their land and property. In accordance with these policies, TxDOT will make every effort to reach a just and equitable agreement in the purchase of all right of way needed for the project. As noted above, TxDOT's planning and design of the proposed improvements for the I-30 East Corridor Project are accomplished with the oversight and authorization of the FHWA. In addition, the environmental review, consultation, and other actions required by Federal environmental laws for this project are being, or have been, carried-out by TxDOT pursuant to 23 U.S.C. 327 and a Memorandum of Understanding dated December 9, 2019, and executed by FHWA and TxDOT. Accordingly, TxDOT seeks to ensure that project planning activities comply with the National Environmental Policy Act (NEPA) and other federal laws and policies as FHWA's agent in such matters.

34	SHEPPARD, Eric	7/13/23	Online Comment Form	I-30 does not need more lanes. Time and time again we have seen lanes added only to induce demand, force more jobs and homes further out of the urban core and do nothing to prevent traffic in the long term. The expansion would also destroy many homes and business currently near I-30 and increase the distances between the neighborhoods separated by I-30, making it harder for pedestrians and cyclists. I support the desire to reconnect the neighborhoods that were split by the creation of I-30, but oppose the creation for more lanes.	Comments noted. TxDOT and the City of Dallas have several goals for the I-30 reconstruction that might not be easily identified in reviewing the design plans. The proposed project design includes adding capacity for vehicles to address the clear past and expected future trends in population growth and greater traffic congestion. The project will improve mobility and safety while also enhancing connectivity, sustainability, and economic development opportunities. Mobility encompasses more than the number of freeway mainlanes but also includes the city streets, transit opportunities, and facilities for bicyclists and pedestrians. The city streets will be consistent with the city's complete streets guidelines and allow for wider sidewalks and buffered bicycle lanes. The schematic drawings shared with the community have been worked on closely with the City of Dallas and every effort was made to minimize the need for additional ROW and displacements. What do you think will happen to the property and will any be available outside the ROW?	owners that is necessary for the project, but we do not dictate to the current property owner what they do with the remainder that we do not acquire. Let me know if you have any other questions or concerns in advance of the hearing. Thanks"
37	SPEARS, C.	7/13/23	Online Comment Form	I support this improvement. We need less traffic congestion that causes road rage and this road improvement will help with that.	Comment noted.
38	T _____, Rob (full surname not given)	7/13/23	Online Comment Form	Adding more lanes and expanding highways is proven to be a negative for communities. The principles of induced demand mean that traffic congestion is not reduced. Expanded highways just mean worse health effects for those unfortunate enough to live near the highway, more divided communities, and more pollution. Economically this project saddles a great debt on future generations, both to pay off the bonds required to build it and to pay for added maintenance of a larger road. This project is a negative for the area, it makes the city and Texas as a whole a worse place to live going forward.	Comments noted. TxDOT and the City of Dallas have several goals for the I-30 reconstruction that might not be easily identified in reviewing the design plans. The proposed project design includes adding capacity for vehicles to address the clear past and expected future trends in population growth and greater traffic congestion. The project will improve mobility and safety while also enhancing connectivity, sustainability, and economic development opportunities. Notice
Draft Environmental Assessment and Virtual Public Hearing with In-Person Option

INTERSTATE HIGHWAY 30 (I-30) EAST CORRIDOR
From I-45 to Ferguson Road
CSJs: 0009-11-252 and 0009-11-251
Dallas County, Texas

The Texas Department of Transportation (TxDOT) and the City of Dallas are proposing to reconstruct and widen the I-30 East Corridor from I-45 to Ferguson Road in Dallas County, Texas. This notice advises the public that a draft environmental assessment (EA) is available for public review and that TxDOT will be conducting an online virtual public hearing on the proposed project with an in-person option. The purpose of the hearing is to present the proposed project and receive public comment.

Virtual Hearing*
Thursday, June 29, 2023, at 5:30 p.m. through
Friday, July 14, 2023 at 11:59 p.m.
www.keepitmovingdallas.com/I30EC
*Not a live event

In-Person Hearing*
Thursday, June 29, 2023, 5:30 p.m. to 7:30 p.m.
Location: Fair Park – Briscoe Carpenter Livestock Center
1403 Washington Street, Dallas, TX 75210
*Open House format
Served by DART Green Line, and bus routes 18 and 23

The virtual hearing will consist of a pre-recorded video presentation with both audio and visual components. The same information (including the Draft EA) will be available with both the virtual and in-person hearing options. To log onto the virtual public hearing, go to the web address shown above during the date/time period indicated. **The virtual hearing is not a live event.** If you do not have internet access, you may call (214) 320-6243 between the hours of 8 a.m. and 5 p.m., Monday through Friday, to ask questions and access project materials.

The in-person hearing will take place at the location shown above and will follow an “open house” format. Attendees will be able to view the presentation on a large screen, review hard copies of project materials, ask questions of TxDOT staff and/or consultants and leave written comments.

The proposed project would widen this section of I-30 from eight mainlanes (four in each direction) to ten mainlanes (five in each direction) and add two reversible managed lanes in the center median. The total distance is approximately 5.0 miles. The proposed mainlanes would be depressed to a lower elevation than the proposed frontage roads. Access ramps throughout the project corridor would be reconstructed. The project would construct new cross street bridges across the depressed mainlanes as part of the reconstruction. A DART bridge and adjacent pedestrian bridge would also be constructed. Sidewalks would be constructed or reconstructed on both sides of all street crossings at I-30, and a shared use path would be constructed alongside the outer frontage road lanes in most cases. The typical proposed ROW width would vary from approximately 300 feet to 500 feet. The proposed project would generally follow the existing alignment; however, portions of I-30 would be shifted to the north and/or south to accommodate expansion for adding capacity to the facility. The total proposed ROW acreage is estimated at approximately 11 acres.

The proposed project would, subject to final design considerations, require additional right of way and potentially displace five residences, 11 non-residential buildings and 12 billboards. Relocation assistance is available for displaced persons and businesses. Information about the TxDOT Relocation Assistance Program and services and benefits for those displaced and other affected property owners, as well as information about the tentative schedule for right-of-way acquisition and construction, can be obtained from the TxDOT district office by calling (214) 320-6675 or by visiting the project website.

The proposed project is anticipated to displace the following properties protected under Section 4(f) of the Department of Transportation Act of 1966: the Cabell's Inc. historic building located at 710 Exposition Avenue, the commercial building at 820 Exposition Avenue and the residence at 4937 Lindsley Avenue. The proposed project would not adversely affect but would have minimal, non-structural (*de minimis*) impacts to the following historic properties protected by Section 4(f): (1) Gulf Oil Distribution Facility District at 501 2nd Avenue; (2) 4809 Ash Lane; (3) 820 and 8332 Exposition Avenue; and (4) 5115 Philip Avenue. TxDOT anticipates making a *de minimis* determination for these uses under Section 4(f). Public comment on the effects of the proposed project on the activities, features, or attributes of all historic resources noted above may be submitted as described below.

The proposed project would involve construction in wetlands and an action in a floodplain.

The draft EA, maps and drawings showing the project location and design, tentative construction schedules, and other information regarding the proposed project will be on file starting June 29, 2023 and available for inspection Monday through Friday between the hours of 8 a.m. and 5 p.m. at the Dallas District office at 4777 East Highway 80, Mesquite, TX 75150. Project materials are also available online. These materials will also be available in hard copy form for review at the in-person hearing option.

The virtual public hearing and in-person option will be conducted in English, and the slide presentation with be presented in both English and Spanish. If you need an interpreter or document translator because English is not your primary language or you have difficulty communicating effectively in English, one will be provided to you. If you have a disability and need assistance, special arrangements can be made to accommodate most needs. If you need interpretation or translation services or you are a person with a disability who requires an accommodation to attend and participate in the virtual public hearing or in-person option, please contact the TxDOT Public Information Office at (214) 320-4480 no later than 4 p.m. , by Friday, June 23, 2023. Please be aware that advance notice is required as some services and accommodations may require time for TxDOT to arrange.

Comments from the public regarding the proposed project are requested and may be submitted by mail to the TxDOT Dallas District Office, Attn: Nathan Petter, P.E., 4777 East US Highway 80, Mesquite, TX 75150 or by email at Nathan.Petter@txdot.gov. Verbal comments may be submitted by calling (940) 331-5139. **All comments must be received or postmarked on or before Friday, July 14, 2023.** Responses to comments received will be available online at the project website once they have been prepared.

If you have any general questions or concerns regarding the proposed project or the hearing, please contact the TxDOT project manager, Nathan Petter, P.E., by phone at (214) 320-6243, or by email at Nathan.Petter@txdot.gov.

The environmental review, consultation, and other actions required by applicable Federal environmental laws for this project are being, or have been, carried-out by TxDOT pursuant to 23 U.S.C. 327 and a Memorandum of Understanding dated December 9, 2019, and executed by FHWA and TxDOT.

Aviso

Borrador de Evaluación Ambiental y Audiencia Publica Virtual con Opción Presencial

INTERSTATAL 30 (I-30) CORREDOR ESTE
Desde I-45 Hasta Ferguson Road
CSJs: 0009-11-252 y 0009-11-251
Condado de Dallas, Texas

El Departamento de Transporte de Texas (TxDOT, por sus siglas en ingles) y la ciudad de Dallas está proponiendo la reconstrucción y expansión del corredor I-30 Este, desde I-45 hasta la calle Ferguson en el condado de Dallas, Texas. Este aviso informa al público que el borrador de la Evaluación Ambiental (EA) está disponible para revisión publica y que TxDOT conducirá una audiencia virtual publica sobre el proyecto propuesto con opción presencial. El propósito de esta audiencia es para presentar la propuesta del proyecto y recibir comentarios del público.

Audiencia Virtual
Jueves, 29 de junio, 2023, de 5:30 p.m. hasta el viernes, 14 de julio, 2023 11:59 p.m.
www.keepitmovingdallas.com/I30EC
*Evento no es en vivo

Audiencia en Persona
Jueves, 29 de junio, 2023, de 5:30 p.m. a 7:30 p.m.
Ubicacion: Fair Park – Briscoe Carpenter Livestock Center
1403 Washington Street, Dallas, TX 75210
*Formato Casa Abierta
Servido por DART Green Line, rutas de autobús 18 y 23

La audiencia pública virtual, consiste en una presentación en video pregrabado con componentes de audio y visual. La misma información (incluida en el borrador EA) estará disponible en ambas opciones virtuales y presencial. Para ingresar a la reunión virtual, visite a la página que se muestra en la parte de arriba durante la fecha y la hora indicada. **La audiencia virtual no es un evento en vivo.** Si no tiene acceso a internet, puede llamar a (214) 320-6243 entre las horas 8 a.m. y 5 p.m. de lunes a viernes, para hacer preguntas y acceder materiales del proyecto.

La audiencia en persona será en la ubicación que se muestra arriba y tendrá un formato de “casa abierta”. Asistentes podrán ver la presentación en una pantalla grande, revisar copias de los materiales, hacer preguntas al personal de TxDOT y/o a los consultores y dejar comentarios escritos.

El proyecto propuesto ampliaría esta sección de I-30 de ocho carriles principales (cuatro en cada dirección) a diez carriles (cinco en cada dirección) y agregaría dos carriles administrados (managed lanes en inglés) reversibles en la mediana central. La distancia total es de aproximadamente de 5.0 millas. Los carriles principales propuestos se deprimirían a una elevación sustancialmente más bajas que las carreteras frontales propuestas. Rampas de acceso por el corredor del proyecto serian reconstruidas. El proyecto construiría nuevos puentes transversales a través de los carriles principales deprimidos como parte de la reconstrucción. Un puente DART y un puente peatonal adyacente también seria construido. Banquetas serian construidas o reconstruidas en ambos lados de todas las carreteras que cruzan I-30, y en la mayoría de los casos un camino de acceso compartido seria construido a lo largo de los carriles exteriores de la carretera frontal. La anchura típica del derecho de paso (ROW, por sus siglas en inglés) propuesto varia aproximadamente de 300 pies a 500 pies. El proyecto propuesto generalmente seguiría su alineación existente; sin embargo, porciones de I-30 se desplazarían hacia el norte y/o el sur para acomodar la expansión y agregar capacidad a la carretera. La superficie total de ROW propuesto se estima en aproximadamente 11 acres.

El proyecto propuesto, sujeto a consideraciones del diseño final, requeriría de derecho de paso adicional y el desplazamiento potencial de cinco residencias, 11 edificios no residenciales y 12 carteleras. Asistencia para reubicación está disponible para negocios y personas desplazadas. Información sobre el programa de asistencia de reubicación de TxDOT, y sobre servicios y beneficios para desplazados y dueños de propiedades, además de

información sobre el calendario tentativo para adquisición de derecho de paso y construcción, se pueden obtener en la oficina del distrito de TxDOT llamando al (214) 320-6675.

El proyecto propuesto está anticipando el desplazamiento de las siguientes propiedades históricas debajo de la Sección 4(f) del Department of Transportation Act of 1966: el Cabell's Inc. edificio histórico ubicado en 710 Exposition Avenue, el edificio comercial en 820 Exposition Avenue y la residencia en 4937 Lindsley Avenue. El proyecto propuesto no afectara negativamente, pero tendría un impacto mínimo, no estructural (*de minimis*) en las siguientes propiedades históricas protegidas por la Sección 4(f): (1) Gulf Oil Distribution Facility District en 501 2nd Avenue; (2) 4809 Ash Lane; (3) 820 y 8332 Exposition Avenue; y (4) 5115 Philip Avenue. TxDOT anticipa hacer una determinación *de minimis* para estos usos debajo de la Sección 4(f). Comentarios públicos sobre los efectos del proyecto propuesto en las actividades, las características o atributos de todos los recursos históricos mencionados anteriormente pueden enviarse como se describe a continuación.

La propuesta del proyecto implicaría construcción en humedales y acción en el llano de inundación.

El borrador EA, mapas y dibujos mostrando la ubicación y diseño del proyecto, los cronogramas tentativos de construcción y otra información sobre el proyecto propuesto serán archivados y disponibles para su inspección de lunes a viernes entre las 8 a.m. y 5 p.m. en la oficina del Distrito de Dallas de TxDOT,4777 East Highway 80, Mesquite, TX 75150. Los materiales del proyecto estarán disponibles en la página de internet. Estos materiales también estarán disponibles en papel para su revisión en la audiencia en persona.

La audiencia virtual y presencial se llevarán a cabo en inglés, la presentación de diapositivas será conducida en inglés y en español. Si necesita un intérprete o traductor de documentos porque el inglés no es su idioma principal o si tiene dificultades para comunicarse eficazmente en inglés, se le proporcionara uno. Si tiene una discapacidad y necesita ayuda, se harán arreglos especiales para satisfacer la mayoría de las necesidades. Si necesita servicio de interpretación o traducción o si es una persona con una discapacidad que requiere una adaptación para asistir y participar en la reunión pública virtual o en persona, comuníquese con la oficina de información pública de TxDOT al (214) 320-4480 a más tardar de las 4 p.m., el viernes, 23 de junio, 2023. Tenga en cuenta que se requiere notificación anticipada ya que algunos servicios y adaptaciones requieren tiempo para que TxDOT los organice.

Comentarios del público con respecto a la propuesta del proyecto son solicitados y se pueden enviar por correo a la oficina de TxDOT en el Distrito de Dallas, Attn: Nathan Petter, P.E., 4777 East US Highway 80, Mesquite, TX 75150, o por correo electrónico a Nathan.Petter@txdot.gov. Comentarios verbales pueden ser enviados llamando al (940) 331-5139. **Todos los comentarios deben de ser recibidos antes o para el viernes, 14 de julio, 2023.** Respuestas a los comentarios escritos recibidos estarán disponibles en la página del proyecto una vez que estén preparados.

Si tiene preguntas generales o preocupación sobre el estudio propuesto, o audiencia pública contacte al manejador de proyecto de TxDOT, Nathan Petter, P.E., al (214) 320-6243, o por correo electrónico a Nathan.Petter@txdot.gov.

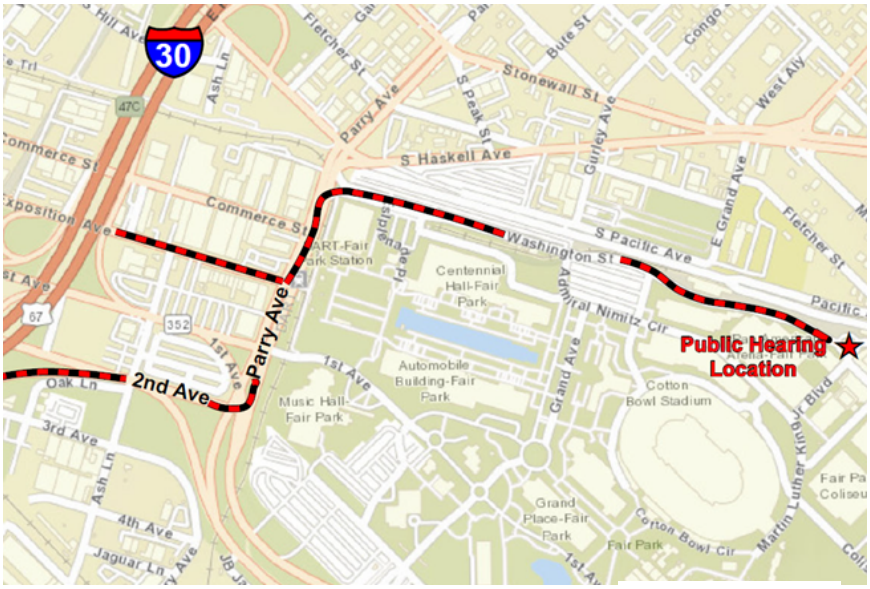
La revisión Ambiental, consulta y otras acciones requeridas por las leyes ambientales federales aplicables para este proyecto están siendo, o han sido llevadas a cabo por TxDOT de conformidad con 23 U.S.C. 327 y un Memorando de Entendimiento fechado 9 de diciembre de 2019 y ejecutado por FHWA y TxDOT.

Texas Department of Transportation

VIRTUAL PUBLIC HEARING with an IN-PERSON OPTION

Interstate Highway 30 (I-30) East Corridor

From I-45 to Ferguson Road



TxDOT will host a Virtual Public Hearing with an In-Person Option about the Interstate Highway 30 (I-30) East Corridor.

For more information about the project, visit www.keepitmovingdallas.com/I30EC. The same materials will be presented at the in-person and virtual public meeting.

Notice
Draft Environmental Assessment and Virtual Public Hearing with In-Person Option

INTERSTATE HIGHWAY 30 (I-30) EAST CORRIDOR
From I-45 to Ferguson Road
CSJs: 0009-11-252 and 0009-11-251
Dallas County, Texas

The Texas Department of Transportation (TxDOT) and the City of Dallas are proposing to reconstruct and widen the I-30 East Corridor from I-45 to Ferguson Road in Dallas County, Texas. This notice advises the public that a draft environmental assessment (EA) is available for public review and that TxDOT will be conducting an online virtual public hearing on the proposed project with an in-person option. The purpose of the hearing is to present the proposed project and receive public comment.

Virtual Hearing*
Thursday, June 29, 2023, at 5:30 p.m. through
Friday, July 14, 2023 at 11:59 p.m.
www.keepitmovingdallas.com/I30EC
*Not a live event

In-Person Hearing*
Thursday, June 29, 2023, 5:30 p.m. to 7:30 p.m.
Location: Fair Park – Briscoe Carpenter Livestock Center
1403 Washington Street, Dallas, TX 75210
*Open House format
Served by DART Green Line, and bus routes 18 and 23

The virtual hearing will consist of a pre-recorded video presentation with both audio and visual components. The same information (including the Draft EA) will be available with both the virtual and in-person hearing options. To log onto the virtual public hearing, go to the web address shown above during the date/time period indicated. **The virtual hearing is not a live event.** If you do not have internet access, you may call (214) 320-6243 between the hours of 8 a.m. and 5 p.m., Monday through Friday, to ask questions and access project materials.

The in-person hearing will take place at the location shown above and will follow an “open house” format. Attendees will be able to view the presentation on a large screen, review hard copies of project materials, ask questions of TxDOT staff and/or consultants and leave written comments.

The proposed project would widen this section of I-30 from eight mainlanes (four in each direction) to ten mainlanes (five in each direction) and add two reversible managed lanes in the center median. The total distance is approximately 5.0 miles. The proposed mainlanes would be depressed to a lower elevation than the proposed frontage roads. Access ramps throughout the project corridor would be reconstructed. The project would construct new cross street bridges across the depressed mainlanes as part of the reconstruction. A DART bridge and adjacent pedestrian bridge would also be constructed. Sidewalks would be constructed or reconstructed on both sides of all street crossings at I-30, and a shared use path would be constructed alongside the outer frontage road lanes in most cases. The typical proposed ROW width would vary from approximately 300 feet to 500 feet. The proposed project would generally follow the existing alignment; however, portions of I-30 would be shifted to the north and/or south to accommodate expansion for adding capacity to the facility. The total proposed ROW acreage is estimated at approximately 11 acres.

The proposed project would, subject to final design considerations, require additional right of way and potentially displace five residences, 11 non-residential buildings and 12 billboards. Relocation assistance is available for displaced persons and businesses. Information about the TxDOT Relocation Assistance Program and services and benefits for those displaced and other affected property owners, as well as information about the tentative schedule for right-of-way acquisition and construction, can be obtained from the TxDOT district office by calling (214) 320-6675 or by visiting the project website.

Attachment included in email sent to Elected Officials

The proposed project is anticipated to displace the following properties protected under Section 4(f) of the Department of Transportation Act of 1966: the Cabell's Inc. historic building located at 710 Exposition Avenue, the commercial building at 820 Exposition Avenue and the residence at 4937 Lindsley Avenue. The proposed project would not adversely affect but would have minimal, non-structural (*de minimis*) impacts to the following historic properties protected by Section 4(f): (1) Gulf Oil Distribution Facility District at 501 2nd Avenue; (2) 4809 Ash Lane; (3) 820 and 8332 Exposition Avenue; and (4) 5115 Philip Avenue. TxDOT anticipates making a *de minimis* determination for these uses under Section 4(f). Public comment on the effects of the proposed project on the activities, features, or attributes of all historic resources noted above may be submitted as described below.

The proposed project would involve construction in wetlands and an action in a floodplain.

The draft EA, maps and drawings showing the project location and design, tentative construction schedules, and other information regarding the proposed project will be on file starting June 29, 2023 and available for inspection Monday through Friday between the hours of 8 a.m. and 5 p.m. at the Dallas District office at 4777 East Highway 80, Mesquite, TX 75150. Project materials are also available online. These materials will also be available in hard copy form for review at the in-person hearing option.

The virtual public hearing and in-person option will be conducted in English, and the slide presentation with be presented in both English and Spanish. If you need an interpreter or document translator because English is not your primary language or you have difficulty communicating effectively in English, one will be provided to you. If you have a disability and need assistance, special arrangements can be made to accommodate most needs. If you need interpretation or translation services or you are a person with a disability who requires an accommodation to attend and participate in the virtual public hearing or in-person option, please contact the TxDOT Public Information Office at (214) 320-4480 no later than 4 p.m. , by Friday, June 23, 2023. Please be aware that advance notice is required as some services and accommodations may require time for TxDOT to arrange.

Comments from the public regarding the proposed project are requested and may be submitted by mail to the TxDOT Dallas District Office, Attn: Nathan Petter, P.E., 4777 East US Highway 80, Mesquite, TX 75150 or by email at Nathan.Petter@txdot.gov. Verbal comments may be submitted by calling (940) 331-5139. **All comments must be received or postmarked on or before Friday, July 14, 2023.** Responses to comments received will be available online at the project website once they have been prepared.

If you have any general questions or concerns regarding the proposed project or the hearing, please contact the TxDOT project manager, Nathan Petter, P.E., by phone at (214) 320-6243, or by email at Nathan.Petter@txdot.gov.

The environmental review, consultation, and other actions required by applicable Federal environmental laws for this project are being, or have been, carried-out by TxDOT pursuant to 23 U.S.C. 327 and a Memorandum of Understanding dated December 9, 2019, and executed by FHWA and TxDOT.

Audiencia en Persona
Jueves, 29 de junio, 2023, de 5:30 p.m. a 7:30 p.m.
Ubicacion: Fair Park – Briscoe Carpenter Livestock Center
1403 Washington Street, Dallas, TX 75210
*Formato Casa Abierta
Servido por DART Green Line, rutas de autobús 18 y 23

La audiencia pública virtual, consiste en una presentación en video pregrabado con componentes de audio y visual. La misma información (incluida en el borrador EA) estará disponible en ambas opciones virtuales y presencial. Para ingresar a la reunión virtual, visite a la página que se muestra en la parte de arriba durante la fecha y la hora indicada. **La audiencia virtual no es un evento en vivo.** Si no tiene acceso a internet, puede llamar a (214) 320-6243 entre las horas 8 a.m. y 5 p.m. de lunes a viernes, para hacer preguntas y acceder materiales del proyecto.

La audiencia en persona será en la ubicación que se muestra arriba y tendrá un formato de “casa abierta”. Asistentes podrán ver la presentación en una pantalla grande, revisar copias de los materiales, hacer preguntas al personal de TxDOT y/o a los consultores y dejar comentarios escritos.

El proyecto propuesto ampliaría esta sección de I-30 de ocho carriles principales (cuatro en cada dirección) a diez carriles (cinco en cada dirección) y agregaría dos carriles administrados (managed lanes en inglés) reversibles en la mediana central. La distancia total es de aproximadamente de 5.0 millas. Los carriles principales propuestos se deprimirían a una elevación sustancialmente más bajas que las carreteras frontales propuestas. Rampas de acceso por el corredor del proyecto serian reconstruidas. El proyecto construiría nuevos puentes transversales a través de los carriles principales deprimidos como parte de la reconstrucción. Un puente DART y un puente peatonal adyacente también seria construido. Banquetas serian construidas o reconstruidas en ambos lados de todas las carreteras que cruzan I-30, y en la mayoría de los casos un camino de acceso compartido seria construido a lo largo de los carriles exteriores de la carretera frontal. La anchura típica del derecho de paso (ROW, por sus siglas en inglés) propuesto varia aproximadamente de 300 pies a 500 pies. El proyecto propuesto generalmente seguiría su alineación existente; sin embargo, porciones de I-30 se desplazarían hacia el norte y/o el sur para acomodar la expansión y agregar capacidad a la carretera. La superficie total de ROW propuesto se estima en aproximadamente 11 acres.

El proyecto propuesto, sujeto a consideraciones del diseño final, requeriría de derecho de paso adicional y el desplazamiento potencial de cinco residencias, 11 edificios no residenciales y 12 carteleras. Asistencia para reubicación está disponible para negocios y personas desplazadas. Información sobre el programa de asistencia de reubicación de TxDOT, y sobre servicios y beneficios para desplazados y dueños de propiedades, además de

información sobre el calendario tentativo para adquisición de derecho de paso y construcción, se pueden obtener en la oficina del distrito de TxDOT llamando al (214) 320-6675.

El proyecto propuesto está anticipando el desplazamiento de las siguientes propiedades históricas debajo de la Sección 4(f) del Department of Transportation Act of 1966: el Cabell's Inc. edificio histórico ubicado en 710 Exposition Avenue, el edificio comercial en 820 Exposition Avenue y la residencia en 4937 Lindsley Avenue. El proyecto propuesto no afectara negativamente, pero tendría un impacto mínimo, no estructural (*de minimis*) en las siguientes propiedades históricas protegidas por la Sección 4(f): (1) Gulf Oil Distribution Facility District en 501 2nd Avenue; (2) 4809 Ash Lane; (3) 820 y 8332 Exposition Avenue; y (4) 5115 Philip Avenue. TxDOT anticipa hacer una determinación *de minimis* para estos usos debajo de la Sección 4(f). Comentarios públicos sobre los efectos del proyecto propuesto en las actividades, las características o atributos de todos los recursos históricos mencionados anteriormente pueden enviarse como se describe a continuación.

La propuesta del proyecto implicaría construcción en humedales y acción en el llano de inundación.

El borrador EA, mapas y dibujos mostrando la ubicación y diseño del proyecto, los cronogramas tentativos de construcción y otra información sobre el proyecto propuesto serán archivados y disponibles para su inspección de lunes a viernes entre las 8 a.m. y 5 p.m. en la oficina del Distrito de Dallas de TxDOT,4777 East Highway 80, Mesquite, TX 75150. Los materiales del proyecto estarán disponibles en la página de internet. Estos materiales también estarán disponibles en papel para su revisión en la audiencia en persona.

La audiencia virtual y presencial se llevarán a cabo en inglés, la presentación de diapositivas será conducida en inglés y en español. Si necesita un intérprete o traductor de documentos porque el inglés no es su idioma principal o si tiene dificultades para comunicarse eficazmente en inglés, se le proporcionara uno. Si tiene una discapacidad y necesita ayuda, se harán arreglos especiales para satisfacer la mayoría de las necesidades. Si necesita servicio de interpretación o traducción o si es una persona con una discapacidad que requiere una adaptación para asistir y participar en la reunión pública virtual o en persona, comuníquese con la oficina de información pública de TxDOT al (214) 320-4480 a más tardar de las 4 p.m., el viernes, 23 de junio, 2023. Tenga en cuenta que se requiere notificación anticipada ya que algunos servicios y adaptaciones requieren tiempo para que TxDOT los organice.

Comentarios del público con respecto a la propuesta del proyecto son solicitados y se pueden enviar por correo a la oficina de TxDOT en el Distrito de Dallas, Attn: Nathan Petter, P.E., 4777 East US Highway 80, Mesquite, TX 75150, o por correo electrónico a Nathan.Petter@txdot.gov. Comentarios verbales pueden ser enviados llamando al (940) 331-5139. **Todos los comentarios deben de ser recibidos antes o para el viernes, 14 de julio, 2023.** Respuestas a los comentarios escritos recibidos estarán disponibles en la página del proyecto una vez que estén preparados.

Si tiene preguntas generales o preocupación sobre el estudio propuesto, o audiencia pública contacte al manejador de proyecto de TxDOT, Nathan Petter, P.E., al (214) 320-6243, o por correo electrónico a Nathan.Petter@txdot.gov.

La revisión Ambiental, consulta y otras acciones requeridas por las leyes ambientales federales aplicables para este proyecto están siendo, o han sido llevadas a cabo por TxDOT de conformidad con 23 U.S.C. 327 y un Memorando de Entendimiento fechado 9 de diciembre de 2019 y ejecutado por FHWA y TxDOT.

In-person Public Hearing
(Open House)

Fair Park, Briscoe Carpenter Livestock Center

1403 Washington St Dallas, TX 75210

Thursday
June 29, 2023

5:30 p.m. to 7:30 p.m.
Public Hearing

No admission or parking fees will be charged. This is a free event.

From I-30 Heading East

- Take Exit 47 toward Fair Park & 2nd Ave.
- From the ramp enter 2nd Ave and keep to the left when the road splits, and head for the traffic light at Parry Ave.
- Turn left onto Parry Ave and proceed past the lights at 1st Ave & Exposition Ave.
- After crossing the DART tracks take an immediate right turn into Fair Park Gate 3 and onto Washington St.

From I-30 Heading West

- Take Exit 47C toward Fair Park & 1st Ave.
- From the ramp keep to the right on the ramp loop, following the sign to Fair Park.
- The ramp enters Exposition Ave, which you follow, passing under I-30.
- When you reach the traffic lights at Parry Ave turn left onto Parry Ave.
- After crossing the DART tracks take an immediate right turn into Fair Park Gate 3 and onto Washington St.

Virtual Public Hearing
(Not a live event)

The Virtual Public Hearing can be viewed at any time beginning Thursday, June 29, 2023, at 5:30 p.m. and remain online through Friday, July 14, 2023, at 11:59 p.m. You can access the Virtual Public Hearing by scanning the QR code on this page using a phone or a tablet or by visiting:

DALLAS INTERNATIONAL FILM FESTIVAL

'Best of DIFF 2023' featured in Uptown

Fest winners get encore presentation today and Thursday

"Some people travel, some people are seeing other movies, some sell out. This is an opportunity to see what they missed."

James Faust, DIFF 23 artistic director

By TOMMY CUMMINGS
Staff Writer
tcummings@dallasnews.com

The Dallas International Film Festival is taking a curtain call Wednesday and Thursday when a lineup of award-winning films from the festival screen at Violet Crown Cinema in West Village Uptown for "Best of DIFF 2023."

Into The Spotlight (Best Texas Feature) and *Bad Press* (Best Documentary Feature) will be presented Wednesday. *Chocolate Lizards* (Best Narrative Feature) and *Simón* (Audience Award for Best International Feature) screen Thursday. Visit Violet Crown's website for showtimes.

It's the first time DIFF has offered an encore for its prize winners. This year's festival ran from April 28 to May 5 and screened more than 100 films from more than 60 countries.

"Some people travel, some people are seeing other movies, some sell out," said James Faust, DIFF 23 artistic director. "This is an opportunity to see what they missed."

Directed by Thaddeus D. Matula of Dallas, *Into The Spotlight* follows the 2021-22 season of an arts program at Highland Park United Methodist Church that brings together adults with intellectual and developmental disabilities to write, design and perform an original musical.

The film is also competing in the Ignite Film Festival in Marlborough, England. Next month, it plays at the Micheaux Film Festival in Los Angeles, the BraveMaker Film Festival in Redwood City, Calif., and the Deep in the Heart Film Festival in Waco. In August, it heads to the Greenpoint Film Festival in Brooklyn, N.Y.

Chocolate Lizards is a comedy-adventure film that follows Erwin Vandeveer, played by Rudy Pankow, who finds himself stranded in Buffalo Gap, Texas, with Merle Luskey, played by Thomas Haden Church, a former Dallas resident who attended the University of North Texas. The movie also stars Brad Leland, a veteran actor and Allen resident.

Bad Press premiered at DIFF and won the Special Jury Award for Freedom of Expression. The documentary traces the battle for a free press within the Muscogee Creek Nation, a sovereign tribe in Oklahoma.

Simón, released in 2018, follows a Venezuelan freedom fighter who seeks political asylum in the United States after being persecuted by the government.

DIFF is the signature program of Dallas Film, a nonprofit established in 2006.

PUBLIC SAFETY BRIEF

GRAND PRAIRIE

Suspect, 18, arrested in deadly weekend shooting

A disturbance escalated into a deadly shooting Saturday afternoon in Grand Prairie, leaving one teenager dead and another behind bars.

Officers responded about 5:30 p.m. to the 4400 block of Lake Ridge Parkway, where the shooting occurred, according to police. The victim, 17-year-old Erick Munoz, had already been taken by friends to a hospital, where he died.

Detectives identified the suspect as Anthony Moran, 18, and arrested him Sunday.

Police said in a statement they believe Munoz and Moran were involved in a disturbance nearby that "escalated," leading to the shooting.

Moran was being held at the Grand Prairie jail Tuesday, with bail set at $1 million, according to police.

It is unclear whether he has an attorney.

Texas Department of Transportation

Notice
Draft Environmental Assessment and Virtual Public Hearing with In-Person Option
INTERSTATE HIGHWAY 30 (I-30) EAST CORRIDOR
From I-45 to Ferguson Road
CSJs: 0009-11-252 and 0009-11-251
Dallas County, Texas

The Texas Department of Transportation (TxDOT) and the City of Dallas are proposing to reconstruct and widen the I-30 East Corridor from I-45 to Ferguson Road in Dallas County, Texas. This notice advises the public that a draft environmental assessment (EA) is available for public review and that TxDOT will be conducting an online virtual public hearing on the proposed project with an in-person option. The purpose of the hearing is to present the proposed project and receive public comment.

Virtual Hearing*
Thursday, June 29, 2023, at 5:30 p.m.
through
Friday, July 14, 2023 at 11:59 p.m.
www.keepitmovingdallas.com/I30EC
*Not a live event

In-Person Hearing*
Thursday, June 29, 2023, 5:30 p.m. to 7:30 p.m.
Location: Fair Park – Briscoe Carpenter Livestock Center
1403 Washington Street, Dallas, TX 75210
*Open House format
Served by DART Green Line, and bus routes 18 and 23

The virtual hearing will consist of a pre-recorded video presentation with both audio and visual components. The same information (including the Draft EA) will be available with both the virtual and in-person hearing options. To log onto the virtual public hearing, go to the web address shown above during the date/time period indicated. **The virtual hearing is not a live event.** If you do not have internet access, you may call (214) 320-6243 between the hours of 8 a.m. and 5 p.m., Monday through Friday, to ask questions and access project materials.

The in-person hearing will take place at the location shown above and will follow an "open house" format. Attendees will be able to view the presentation on a large screen, review hard copies of project materials, ask questions of TxDOT staff and/or consultants and leave written comments.

The proposed project would widen this section of I-30 from eight mainlanes (four in each direction) to ten mainlanes (five in each direction) and add two reversible managed lanes in the center median. The total distance is approximately 5.0 miles. The proposed mainlanes would be depressed to a lower elevation than the proposed frontage roads. Access ramps throughout the project corridor would be reconstructed. The project would construct new cross street bridges across the depressed mainlanes as part of the reconstruction. A DART bridge and adjacent pedestrian bridge would also be constructed. Sidewalks would be constructed or reconstructed on both sides of all street crossings at I-30, and a shared use path would be constructed alongside the outer frontage road lanes in most cases. The typical proposed ROW width would vary from approximately 300 feet to 500 feet. The proposed project would generally follow the existing alignment; however, portions of I30 would be shifted to the north and/or south to accommodate expansion for adding capacity to the facility. The total proposed ROW acreage is estimated at approximately 11 acres.

The proposed project would, subject to final design considerations, require additional right of way and potentially displace five residences, 11 non-residential buildings and 12 billboards. Relocation assistance is available for displaced persons and businesses. Information about the TxDOT Relocation Assistance Program and services and benefits for those displaced and other affected property owners, as well as information about the tentative schedule for right-of-way acquisition and construction, can be obtained from the TxDOT district office by calling (214) 320-6675 or by visiting the project website.

The proposed project is anticipated to displace the following properties protected under Section 4(f) of the Department of Transportation Act of 1966: the Cabell's Inc. historic building located at 710 Exposition Avenue, the commercial building at 820 Exposition Avenue and the residence at 4937 Lindsley Avenue. The proposed project would not adversely affect but would have minimal, non-structural (*de minimis*) impacts to the following historic properties protected by Section 4(f): (1) Gulf Oil Distribution Facility District at 501 2nd Avenue; (2) 4809 Ash Lane; (3) 820 and 8332 Exposition Avenue; and (4) 5115 Philip Avenue. TxDOT anticipates making a *de minimis* determination for these uses under Section 4(f). Public comment on the effects of the proposed project on the activities, features, or attributes of all historic resources noted above may be submitted as described below.

The proposed project would involve construction in wetlands and an action in a floodplain.

The draft EA, maps and drawings showing the project location and design, tentative construction schedules, and other information regarding the proposed project will be on file starting June 29, 2023 and available for inspection Monday through Friday between the hours of 8 a.m. and 5 p.m. at the Dallas District office at 4777 East Highway 80, Mesquite, TX 75150. Project materials are also available online. These materials will also be available in hard copy form for review at the in-person hearing option.

The virtual public hearing and in-person option will be conducted in English, and the slide presentation with be presented in both English and Spanish. If you need an interpreter or document translator because English is not your primary language or you have difficulty communicating effectively in English, one will be provided to you. If you have a disability and need assistance, special arrangements can be made to accommodate most needs. If you need interpretation or translation services or you are a person with a disability who requires an accommodation to attend and participate in the virtual public hearing or in-person option, please contact the TxDOT Public Information Office at (214) 320-4480 no later than 4 p.m., by Friday, June 23, 2023. Please be aware that advance notice is required as some services and accommodations may require time for TxDOT to arrange.

Comments from the public regarding the proposed project are requested and may be submitted by mail to the TxDOT Dallas District Office, Attn: Nathan Petter, P.E., 4777 East US Highway 80, Mesquite, TX 75150 or by email at Nathan.Petter@txdot.gov. Verbal comments may be submitted by calling (940) 331-5139. **All comments must be received or postmarked on or before Friday, July 14, 2023.** Responses to comments received will be available online at the project website once they have been prepared.

If you have any general questions or concerns regarding the proposed project or the hearing, please contact the TxDOT project manager, Nathan Petter, P.E., by phone at (214) 320-6243, or by email at Nathan.Petter@txdot.gov.

The environmental review, consultation, and other actions required by applicable Federal environmental laws for this project are being, or have been, carried-out by TxDOT pursuant to 23 U.S.C. 327 and a Memorandum of Understanding dated December 9, 2019, and executed by FHWA and TxDOT.

Stop Living With Joint Pain and Get Back To The Things You Enjoy!

When Dealing With joint Pain You Have Options

ReMed has been treating joint pain since 1991. Our patients range from seniors to Legendary Professional athletes. We have numerous options to not only treat your pain but in certain situations can actually reverse the damage. Our most popular treatments are covered by most major health insurance!

Option 1: Cortisone Injection

Cortisone injections have been used for decades to treat inflammation with in and around a joint. It is extremely effective and in most cases offers virtually immediate pain relief. This treatment is covered by most insurance!

Option 2: Hyaluronic Acid (Gel) Injection

Hyaluronic Acid has been used to treat knee problems since the 1970's. It's primary use is to alleviate Osteoarthritis. It is incredibly effective and is covered by most major insurance companies and can be performed twice a year.

Option 3: Platelet Rich Plasma Homologous

Traditional PRP therapy involved drawing a small amount of your blood, which is medically processed to increase platelet density, then injected into a joint to speed up healing This type of PRP is different being that it utilizes umbilical cord tissue to provide a support matrix abundant in young growth factors supporting repair in the patient. In many cases, this form of PRP is more effective due to rich biological materials and growth factors. This is a level 3 Regenerative medicine. It is not covered by insurance. However, it is a perfect option for senior citizens. ($1,000 Per Joint)

Option 4: Wharton's Jelly (Stem Cells)

This tissue is approximately 10x more effective as PRP Wharton's Jelly is capable of rebuilding damaged, cartilage, meniscus, tendon, ligaments, muscle and other soft tissue. These day 1 strength cells have the potential to replicate into different cell types, and reverse years off damage. This is a level 4 Regenerative medicine. This treatment is not covered by any insurance. ($1500-$4900 per joint)

Feel free to call **214-438-5194** for a phone consultation. We are happy to answer all of your questions, help you decide which option may be best for you, verify your insurance benefits and schedule you for an initial exam. Should you choose to do so. There is no pressure. We are here to help!

TEXAS

El costo del juicio a Ken Paxton

Proceso contra el fiscal pegará en los bolsillos de los texanos

Por LAUREN MCGAUGHY y ALLIE MORRIS/DMN

JUAN FIGUEROA/DMN

El procurador general de Texas, Ken Paxton es acusado de aceptar sobornos y abusar de su poder para ayudar a un donante de su campaña, entre otros presuntos delitos. En la esta foto del 8 de noviembre de 2022, aparece junto a la senadora Paxton, su esposa, celebrando su reelección al cargo.

Austin — El costo financiero del juicio político contra el fiscal general Ken Paxton es una incógnita y dependerá de la duración del proceso.

Los abogados contratados por los regentes del juicio en la Cámara de Representantes que alegarán que Paxton debe ser removido de su cargo ganarán $500 la hora, mas gastos de viaje, revelan documentos públicos a los que tuvo acceso *The Dallas Morning News*.

Los senadores estatales, que fungirán como jurado, recibirán estipendios diarios.

Y aunque el principal abogado de Paxton ha dicho que no se le pagará con dinero público, no ha explicado cómo será remunerado su equipo, que integran seis funcionarios que pidieron permiso de ausencia en la fiscalía para integrarse al equipo legal de su jefe.

Los senadores son los que tomarán la decisión de si Paxton puede seguir en el cargo de fiscal general del estado.

Actualmente, Paxton está suspendido de sus funciones sin goce de sueldo.

Republicano por tres periodos en el cargo y cercano al expresidente Donald Trump, Paxton es acusado de aceptar sobornos y abusar de su poder para ayudar a un donante de su campaña, entre otros presuntos delitos.

Paxton ha negado toda fechoría.

El juicio en el Senado deberá empezar el 28 de agosto y sería el primer juicio político del estado en casi medio siglo.

Precio del abogado

El Comité de Investigaciones Generales de la Cámara de Representantes contrató a Rusty Hardin y Dick DeGuerin, dos prominentes abogados de Houston, para formular el argumento de que Paxton debe ser removido de su cargo.

Hardin y DeGuerin, además de cualquier asociado que contraten para ayudar, podrán facturar al estado $500 la hora, mas gastos de viaje, indica una copia de sus contratos a las que tuvo acceso *The News* a través de una solicitud de transparencia pública.

En los acuerdos no se especifica un tope de gastos.

Hardin, conocido por representar a atletas de alto perfil como Wade Boggs, Scottie Pippen y Roger Clemens, dijo que su equipo está trabajando en el juicio político por una fracción de lo que se cobra normalmente.

Generalmente él cobra $1,500 la hora, y los socios de su despacho $850 la hora, detalló.

Hardin dijo que a final de cuentas sus servicios jurídicos serán mucho más baratos que los $3.3 millones que Paxton pidió para resolver la demanda de delatores que derivó en el juicio político en su contra.

"Si hablamos de quién representa un gasto para los contribuyentes, nosotros nos quedamos muy atrás", dijo Hardin.

Dinero extra para legisladores

Aparte de los gastos por servicios legales, los senadores estatales, incluida la esposa de Paxton, Angela Paxton, republicana que representa al condado de Collin, recibirán un estipendio diario de $221 durante el juicio, confirmó la secretaria del Senado Patsy Spaw.

Por los 31 senadores, el costo ascendería a casi $7,000 por día.

Noticia de Reunión Pública

FARM TO MARKET ROAD (FM) 740 / FM 548
Desde Interstate Highway (I-20) hasta FM 1641
CSJ(s): 1091-02-025, 2588-01-025
Condado de Kaufman, Texas

El Departamento de Transporte de Texas (TxDOT) y el Condado de Kaufman están proponiendo la reconstrucción y ampliación de FM 740 / FM 548 de I-20 a FM 1641 en Mesquite y Forney dentro del Condado de Kaufman. Este aviso informa al público que TxDOT llevará a cabo una reunión pública virtual en persona y en línea sobre el proyecto propuesto.

Reunión en perso na (Open House)
Martes, 11 de julio de 2023
5:30 p.m. a 7:30 p.m.
Cafetería de Forney High School
1800 College Avenue, Forney, TX 75126

Reunión virtual*
Martes 11 de julio de 2023, a las 5:30 p.m.
antes del miércoles 26 d e jul io de 2023 a las
www.keepitmovingdallas.com/projects/fm-roads/FM740FM548
*No es un evento en vivo

La reunión virtual consistirá en una presentación de video pregrabada e incluirá componentes de audio y visuales. Para iniciar sesión en la reunión pública virtual, vaya al sitio web del proyecto mencionado anteriormente en cualquier momento durante las fechas y horas indicadas. Si no tiene acceso a Internet, puede llamar al (214) 320-4431 entre las 8 a.m. y las 5 p.m., de lunes a viernes, para hacer preguntas y acceder a los materiales del proyecto durante el proceso de desarrollo del proyecto. Tenga en cuenta que los materiales no estarán disponibles hasta el 11 de julio de 2023 a las 5:30 p.m. Además, TxDOT está proporcionando una opción de reunión pública en persona para las personas que deseen participar en persona. Los asistentes en persona podrán ver la misma presentación entregada en la reunión pública en línea que se reproducirá en una pantalla, revisar los materiales del proyecto, hacer preguntas al personal y/o consultores de TxDOT y dejar comentarios por escrito.

El proyecto propuesto incluye la reconstrucción y ampliación de FM 740 / FM 548 de una carretera rural de dos carriles a una carretera urbana dividida de cuatro carriles con medianas elevadas, bordillo y canalón, un puente que se ensancha en el cruce de Mustang Creek y un camino de uso compartido de 10 pies de ancho a ambos lados de la carretera por aproximadamente 4.04 millas. La carretera pasa por las ciudades de Mesquite y Forney. El ancho de derecho de paso (ROW) FM 740 / FM 548 existente varía de 60 pies (a lo largo de FM 740) a 150 pies de ancho (a lo largo de FM 548). Cuando se necesita ROW propuesto, el ancho es generalmente de 130 pies de ancho.

El proyecto propuesto, sujeto a la consideración final del diseño, requeriría aproximadamente 8.5 acres de ROW adicional y potencialmente desplazaría 3 estructuras residenciales y 1 comercial. La asistencia para la reubicación está disponible para las personas desplazadas y las empresas. La información sobre el Programa de Asistencia para la Reubicación de TxDOT y los servicios y beneficios para los desplazados y otros propietarios afectados, así como información sobre el cronograma tentativo para la adquisición y construcción de ROW, se puede obtener de la oficina del Distrito de Dallas de TxDOT llamando al (214) 320-6675 o en línea en el sitio web del proyecto.

Cualquier documentación o estudio ambiental, cualquier mapa y dibujo que muestre la ubicación y el diseño del proyecto, cronogramas de construcción tentativos y otra información relacionada con el proyecto propuesto están archivados y disponibles para su inspección de lunes a viernes entre las 8 a.m. y las 5 p.m. en la oficina del Distrito de Dallas de TxDOT en 4777 East Highway 80 Mesquite, Texas 75150. Los materiales del proyecto también estarán disponibles en línea en el sitio web del proyecto.

La reunión pública virtual y la opción en persona se llevarán a cabo en inglés. Si necesita un intérprete o traductor de documentos porque el inglés no es su idioma principal o tiene dificultades para comunicarse eficazmente en inglés, se le proporcionará uno. Si tiene una discapacidad y necesita ayuda, se pueden hacer arreglos especiales para satisfacer la mayoría de las necesidades. Si necesita servicios de interpretación o traducción o si es una persona con una discapacidad que requiere una adaptación para asistir y participar en la reunión pública, comuníquese con la Oficina de Información Pública del Distrito de Dallas al (214) 320-4480 a más tardar a las 4 p.m., el jueves 6 de julio de 2023. Tenga en cuenta que se requiere notificación anticipada ya que algunos servicios y adaptaciones pueden requerir tiempo para que TxDOT los organice.

Se solicitan comentarios del público con respecto al proyecto propuesto y pueden enviarse por correo ala Oficina del Distrito de Dallas de TxDOT, Atención: Jordan Mrayyan, P.E., 4777 East Highway 80 Mesquite, Texas 75150 o por correo electrónico a Jordan.Mrayyan@txdot.gov. Los comentarios verbales se pueden enviar dejando un mensaje de voz al (972) 646-1366. Todos los comentarios deben recibirse antes del miércoles 26 de julio de 2023. Las respuestas a los comentarios recibidos estarán disponibles en el sitio web del proyecto una vez que se hayan preparado.

Si tiene alguna pregunta o inquietud general con respecto al proyecto propuesto o la reunión, comuníquese con el gerente del proyecto de TxDOT, Jordan Mrayyan, P.E., por teléfono al (214) 320-4431, o por correo electrónico a Jordan.Mrayyan@TxDOT.gov.

La revisión ambiental, la consulta y otras acciones requeridas por las leyes ambientales federales aplicables para este proyecto están siendo, o han sido, llevadas a cabo por TxDOT de conformidad con 23 U.S.C. 327 y un Memorando de Entendimiento con fecha del 9 de diciembre de 2019, y ejecutado por FHWA y TxDOT.

Texas Department of Transportation

Aviso
Borrador de Evaluación Ambiental y Audiencia Publica
Virtual con Opción Presencial
INTERSTATAL 30 (I-30) CORREDOR ESTE
Desde I-45 Hasta Ferguson Road
CSJs: 0009-11-252 y 0009-11-251
Condado de Dallas, Texas

El Departamento de Transporte de Texas (TxDOT, por sus siglas en ingles) y la ciudad de Dallas está proponiendo la reconstrucción y expansión del corredor I-30 Este, desde I-45 hasta la calle Ferguson en el condado de Dallas, Texas. Este aviso informa al público que el borrador de la Evaluación Ambiental (EA) está disponible para revisión publica y que TxDOT conducirá una audiencia virtual publica sobre el proyecto propuesto con opción presencial. El propósito de esta audiencia es para presentar la propuesta del proyecto y recibir comentarios del público.

Audiencia Virtual
TJueves, 29 de junio, 2023, de 5:30 p.m. hasta el viernes, 14 de julio, 2023 11:59 p.m.
www.keepitmovingdallas.com/I30EC
*Evento no es en vivo

Audiencia en Persona
Jueves, 29 de junio, 2023, de 5:30 p.m. a 7:30 p.m.
Ubicacion: Fair Park – Briscoe Carpenter Livestock Center
1403 Washington Street, Dallas, TX 75210
*Formato Casa Abierta
Servido por DART Green Line, rutas de autobús 18 y 23

La audiencia pública virtual, consiste en una presentación en video pregrabado con componentes de audio y visual. La misma información (incluida en el borrador EA) estará disponible en ambas opciones virtuales y presencial. Para ingresar a la reunión virtual, visite a la página que se muestra en la parte de arriba durante la fecha y la hora indicada. **La audiencia virtual no es un evento en vivo.** Si no tiene acceso a internet, puede llamar a (214) 320-6243 entre las horas 8 a.m. y 5 p.m. de lunes a viernes, para hacer preguntas y acceder materiales del proyecto.

La audiencia en persona será en la ubicación que se muestra arriba y tendrá un formato de "casa abierta". Asistentes podrán ver la presentación en una pantalla grande, revisar copias de los materiales, hacer preguntas al personal de TxDOT y/o a los consultores y dejar comentarios escritos.

El proyecto propuesto ampliaría esta sección de I-30 de ocho carriles principales (cuatro en cada dirección) a diez carriles (cinco en cada dirección) y agregaría dos carriles administrados (managed lanes en inglés) reversibles en la mediana central. La distancia total es de aproximadamente de 5.0 millas. Los carriles principales propuestos se deprimirían a una elevación sustancialmente más bajas que las carreteras frontales propuestas. Rampas de acceso por el corredor del proyecto serian reconstruidas. El proyecto construiría nuevos puentes transversales a través de los carriles principales deprimidos como parte de la reconstrucción. Un puente DART y un puente peatonal adyacente también seria construido. Banquetas serian construidas o reconstruidas en ambos lados de todas las carreteras que cruzan I-30, y en la mayoría de los casos un camino de acceso compartido seria construido a lo largo de los carriles exteriores de la carretera frontal. La anchura típica del derecho de paso (ROW, por sus siglas en inglés) propuesto varia aproximadamente de 300 pies a 500 pies. El proyecto propuesto generalmente seguiría su alineación existente; sin embargo, porciones de I-30 se desplazarían hacia el norte y/o el sur para acomodar la expansión y agregar capacidad a la carretera. La superficie total de ROW propuesto se estima en aproximadamente 11 acres.

El proyecto propuesto, sujeto a consideraciones del diseño final, requeriría de derecho de paso adicional y el desplazamiento potencial de cinco residencias, 11 edificios no residenciales y 12 carteleras. Asistencia para reubicación está disponible para negocios y personas desplazadas. Información sobre el programa de asistencia de reubicación de TxDOT, y sobre servicios y beneficios para desplazados y dueños de propiedades, además de información sobre el calendario tentativo para adquisición de derecho de paso y construcción, se pueden obtener en la oficina del distrito de TxDOT llamando al (214) 320-6675.

El proyecto propuesto está anticipando el desplazamiento de las siguientes propiedades históricas debajo de la Sección 4(f) del Department of Transportation Act of 1966: el Cabell's Inc. edificio histórico ubicado en 710 Exposition Avenue, el edificio comercial en 820 Exposition Avenue y la residencia en 4937 Lindsley Avenue. El proyecto propuesto no afectara negativamente, pero tendría un impacto mínimo, no estructural (*de minimis*) en las siguientes propiedades históricas protegidas por la Sección 4(f): (1) Gulf Oil Distribution Facility District en 501 2nd Avenue; (2) 4809 Ash Lane; (3) 820 y 8332 Exposition Avenue; y (4) 5115 Philip Avenue. TxDOT anticipa hacer una determinación *de minimis* para estos usos debajo de la Sección 4(f). Comentarios públicos sobre los efectos del proyecto propuesto en las actividades, las características o atributos de todos los recursos históricos mencionados anteriormente pueden enviarse como se describe a continuación.

La propuesta del proyecto implicaría construcción en humedales y acción en el llano de inundación.

El borrador EA, mapas y dibujos mostrando la ubicación y diseño del proyecto, los cronogramas tentativos de construcción y otra información sobre el proyecto propuesto serán archivados y disponibles para su inspección de lunes a viernes entre las 8 a.m. y 5 p.m. en la oficina del Distrito de Dallas de TxDOT,4777 East Highway 80, Mesquite, TX 75150. Los materiales del proyecto estarán disponibles en la página de internet. Estos materiales también estarán disponibles en papel para su revisión en la audiencia en persona.

La audiencia virtual y presencial se llevarán a cabo en inglés, la presentación de diapositivas será conducida en inglés y en español. Si necesita un intérprete o traductor de documentos porque el inglés no es su idioma principal o si tiene dificultades para comunicarse eficazmente en inglés, se le proporcionara uno. Si tiene una discapacidad y necesita ayuda, se pueden harán arreglos especiales para satisfacer la mayoría de las necesidades. Si necesita servicio de interpretación o traducción o si es una persona con una discapacidad que requiere una adaptación para asistir y participar en la reunión pública virtual o en persona, comuníquese con la oficina de información pública de TxDOT al (214) 320-4480 a más tardar de las 4 p.m., el viernes, 23 de junio, 2023. Tenga en cuenta que se requiere notificación anticipada ya que algunos servicios y adaptaciones requieren tiempo para que TxDOT los organice.

Comentarios del público con respecto a la propuesta del proyecto son solicitados y se pueden enviar por correo a la oficina de TxDOT en el Distrito de Dallas, Attn: Nathan Petter, P.E., 4777 East US Highway 80, Mesquite, TX 75150, o por correo electrónico a Nathan.Petter@txdot.gov. Comentarios verbales pueden ser enviados llamando al (940) 331-5139. **Todos los comentarios deben de ser recibidos antes o para el viernes, 14 de julio, 2023.** Respuestas a los comentarios escritos recibidos estarán disponibles en la página del proyecto una vez que estén preparados.

Si tiene preguntas generales o preocupación sobre el estudio propuesto, o audiencia pública contacte al manejador de proyecto de TxDOT, Nathan Petter, P.E., al (214) 320-6243, o por correo electrónico a Nathan.Petter@txdot.gov.

La revisión Ambiental, consulta y otras acciones requeridas por las leyes ambientales federales aplicables para este proyecto están siendo, o han sido llevadas a cabo por TxDOT de conformidad con 23 U.S.C. 327 y un Memorando de Entendimiento fechado 9 de diciembre de 2019 y ejecutado por FHWA y TxDOT

Notice
Draft Environmental Assessment and Virtual Public Hearing with In-Person Option
Interstate Highway 30 (I-30) East Corridor
From I-45 to Ferguson Road
CSJs: 0009-11-252 and 0009-11-251
Dallas County, Texas

The Texas Department of Transportation (TxDOT) and the City of Dallas are proposing to reconstruct and widen the I-30 East Corridor from I-45 to Ferguson Road in Dallas County, Texas. This notice advises the public that a draft environmental assessment (EA) is available for public review and that TxDOT will be conducting an online virtual public hearing on the proposed project with an in-person option. The purpose of the hearing is to present the proposed project and receive public comment.

Virtual Hearing*	**In-Person Hearing***
Thursday, June 29, 2023, at 5:30 p.m. through	Thursday, June 29, 2023, 5:30 p.m. to 7:30 p.m.
Friday, July 14, 2023 at 11:59 p.m.	Location: Fair Park – Briscoe Carpenter Livestock Center
www.keepitmovingdallas.com/I30EC	1403 Washington Street, Dallas, TX 75210
*Not a live event	*Open House format
	Served by DART Green Line, and bus routes 18 and 23

The virtual hearing will consist of a pre-recorded video presentation with both audio and visual components. The same information (including the Draft EA) will be available with both the virtual and in-person hearing options. To log onto the virtual public hearing, go to the web address shown above during the date/time period indicated. The virtual hearing is not a live event. If you do not have internet access, you may call (214) 320-6243 between the hours of 8 a.m. and 5 p.m., Monday through Friday, to ask questions and access project materials.

The in-person hearing will take place at the location shown above and will follow an "open house" format. Attendees will be able to view the presentation on a large screen, review hard copies of project materials, ask questions of TxDOT staff and/or consultants and leave written comments.

The proposed project would widen this section of I-30 from eight mainlanes (four in each direction) to ten mainlanes (five in each direction) and add two reversible managed lanes in the center median. The total distance is approximately 5.0 miles. The proposed mainlanes would be depressed to a lower elevation than the proposed frontage roads. Access ramps throughout the project corridor would be reconstructed. The project would construct new cross street bridges across the depressed mainlanes as part of the reconstruction. A DART bridge and adjacent pedestrian bridge would also be constructed. Sidewalks would be constructed or reconstructed on both sides of all street crossings at I-30, and a shared use path would be constructed alongside the outer frontage road lanes in most cases. The typical proposed ROW width would

vary from approximately 300 feet to 500 feet. The proposed project would generally follow the existing alignment; however, portions of I30 would be shifted to the north and/or south to accommodate expansion for adding capacity to the facility. The total proposed ROW acreage is estimated at approximately 11 acres.

The proposed project would, subject to final design considerations, require additional right of way and potentially displace five residences, 11 non-residential buildings and 12 billboards. Relocation assistance is available for displaced persons and businesses. Information about the TxDOT Relocation Assistance Program and services and benefits for those displaced and other affected property owners, as well as information about the tentative schedule for right-of-way acquisition and construction, can be obtained from the TxDOT district office by calling (214) 320-6675 or by visiting the project website.

The proposed project is anticipated to displace the following properties protected under Section 4(f) of the Department of Transportation Act of 1966: the Cabell's Inc. historic building located at 710 Exposition Avenue, the commercial building at 820 Exposition Avenue and the residence at 4937 Lindsley Avenue. The proposed project would not adversely affect but would have minimal, non-structural (de minimis) impacts to the following historic properties protected by Section 4(f): (1) Gulf Oil Distribution Facility District at 501 2nd Avenue; (2) 4809 Ash Lane; (3) 820 and 8332 Exposition Avenue; and (4) 5115 Philip Avenue. TxDOT anticipates making a de minimis determination for these uses under Section 4(f). Public comment on the effects of the proposed project on the activities, features, or attributes of all historic resources noted above may be submitted as described below.

The proposed project would involve construction in wetlands and an action in a floodplain.

The draft EA, maps and drawings showing the project location and design, tentative construction schedules, and other information regarding the proposed project will be on file starting June 29, 2023 and available for inspection Monday through Friday between the hours of 8 a.m. and 5 p.m. at the Dallas District office at 4777 East Highway 80, Mesquite, TX 75150. Project materials are also available online. These materials will also be available in hard copy form for review at the in-person hearing option.

The virtual public hearing and in-person option will be conducted in English, and the slide presentation with be presented in both English and Spanish. If you need an interpreter or document translator because English is not your primary language or you have difficulty communicating effectively in English, one will be provided to you. If you have a disability and need assistance, special arrangements can be made to accommodate most needs. If you need interpretation or translation services or you are a person with a disability who requires an accommodation to attend and participate in the virtual public hearing or in-person option, please contact the TxDOT Public Information Office at (214) 320-4480 no later than 4 p.m. , by Friday, June 23, 2023. Please be aware that advance notice is required as some services and accommodations may require time for TxDOT to arrange.

Comments from the public regarding the proposed project are requested and may be submitted by mail to the TxDOT Dallas District Office, Attn: Nathan Petter, P.E., 4777 East US Highway 80, Mesquite, TX 75150 or by email at Nathan.Petter@txdot.gov. Verbal comments may be submitted by calling (940) 331-5139. All comments must be received or postmarked on or before Friday, July 14, 2023. Responses to comments received will be available online at the project website once they have been prepared.

If you have any general questions or concerns regarding the proposed project or the hearing, please contact the TxDOT project manager, Nathan Petter, P.E., by phone at (214) 320-6243, or by email at Nathan.Petter@txdot.gov.

The environmental review, consultation, and other actions required by applicable Federal environmental laws for this project are being, or have been, carried-out by TxDOT pursuant to 23 U.S.C. 327 and a Memorandum of Understanding dated December 9, 2019, and executed by FHWA and TxDOT.

TEXAS DEPARTMENT OF TRANSPORTATION

I-30 East Corridor from I-45 to Ferguson Road - notice of draft environmental assessment and virtual public hearing with in-person option

Location: Dallas
Date: 06/29/23
Purpose: TxDOT and the City of Dallas are proposing to reconstruct and widen the I-30 East Corridor from I-45 to Ferguson Road in Dallas County, Texas. This notice advises the public that a draft environmental assessment (EA) is available for public review and that TxDOT will be conducting an online virtual public hearing on the proposed project with an in-person option.

International Bridge Trade Corridor (IBTC) - notice of availability of final environmental assessment

Location: Hidalgo County
Date: 06/15/23
Purpose: The Hidalgo County Regional Mobility Authority (HCRMA), in cooperation with the TxDOT Pharr District, as the lead agency, has issued a final environmental assessment (EA) for the proposed International Bridge Trade Corridor (IBTC) project, and that the final EA is available for public review.

I-30 East Corridor from I-45 to Ferguson Road

Notice of draft environmental assessment and virtual public hearing with in-person option

Virtual: Thursday, June 29, 2023, by 5:30 p.m. CT

In-person option: Thursday, June 29, 2023, 5:30 p.m. to 7:30 p.m. CT

Public comment deadline	All comments or testimony must be received by **Friday, July 14, 2023**.
Virtual details	The virtual public hearing will be posted on the Keep It Moving Dallas webpage beginning Thursday, June 29, 2023, by 5:30 p.m. Please note, this is not a live event. The materials can be viewed at your convenience. The virtual hearing will consist of a pre-recorded video presentation with both audio and visual components. The same information (including the Draft EA) will be available with both the virtual and in-person hearing options. If you do not have internet access, you may call (214) 320-6243 between the hours of 8 a.m. and 5 p.m., Monday through Friday, to ask questions and access project materials. Additionally, TxDOT is providing an in-person hearing for individuals who would like to participate in person instead of online. In-person attendees will be able to review the same materials and presentation as the online public hearing.
In-person details	**Thursday, June 29, 2023** 5:30 p.m. to 7:30 p.m. Fair Park – Briscoe Carpenter Livestock Center 1403 Washington Street Dallas, TX 75210 The in-person hearing will follow an “open house” format. Attendees will be able to view the presentation on a large screen, review hard copies of project materials, ask questions of TxDOT staff and/or consultants and leave written comments.

Purpose	The TxDOT Dallas District and the City of Dallas are proposing to reconstruct and widen the I-30 East Corridor from I-45 to Ferguson Road in Dallas County, Texas. This notice advises the public that a draft environmental assessment (EA) is available for public review and that TxDOT will be conducting an online virtual public hearing on the proposed project with an in-person option. The purpose of the hearing is to present the proposed project and receive public comment.
Description	The proposed project would widen this section of I-30 from eight mainlanes (four in each direction) to ten mainlanes (five in each direction) and add two reversible managed lanes in the center median. The total distance is approximately 5.0 miles. The proposed mainlanes would be depressed to a lower elevation than the proposed frontage roads. Access ramps throughout the project corridor would be reconstructed. The project would construct new cross street bridges across the depressed mainlanes as part of the reconstruction. A DART bridge and adjacent pedestrian bridge would also be constructed. Sidewalks would be constructed or reconstructed on both sides of all street crossings at I-30, and a shared use path would be constructed alongside the outer frontage road lanes in most cases. The typical proposed ROW width would vary from approximately 300 feet to 500 feet. The proposed project would generally follow the existing alignment; however, portions of I-30 would be shifted to the north and/or south to accommodate expansion for adding capacity to the facility. The total proposed ROW acreage is estimated at approximately 11 acres. The proposed project would, subject to final design considerations, require additional right of way and potentially displace five residences, 11 non-residential buildings and 12 billboards. Relocation assistance is available for displaced persons and businesses. Information about the TxDOT Relocation Assistance Program and services and benefits for those displaced and other affected property owners, as well as information about the tentative schedule for right-of-way acquisition and construction, can be obtained from the TxDOT district office by calling (214) 320-6675 or by visiting the project website. The proposed project is anticipated to displace the following properties protected under Section 4(f) of the Department of Transportation Act of 1966: the Cabell's Inc. historic building located at 710 Exposition Avenue, the commercial building at 820 Exposition Avenue and the residence at 4937 Lindsley Avenue. The proposed project would not adversely affect but would have minimal, non-structural (de minimis) impacts to the following historic properties protected by Section 4(f): (1) Gulf Oil Distribution Facility District at 501 2nd Avenue; (2) 4809 Ash Lane; (3) 820 and 8332 Exposition Avenue; and (4) 5115 Philip Avenue. TxDOT anticipates making a de minimis determination for these uses under Section 4(f). Public comment on the effects of the proposed project on the activities, features, or attributes of all historic resources noted above may be submitted as described below.

	The proposed project would involve construction in wetlands and an action in a floodplain. The draft EA, maps and drawings showing the project location and design, tentative construction schedules, and other information regarding the proposed project will be on file starting June 29, 2023 and available for inspection Monday through Friday between the hours of 8 a.m. and 5 p.m. at the Dallas District office at 4777 East Highway 80, Mesquite, TX 75150. Project materials are also available on this webpage. These materials will also be available in hard copy form for review at the in-person hearing option.
Accessibility	The virtual public hearing and in-person option will be conducted in English, and the slide presentation with be presented in both English and Spanish. If you need an interpreter or document translator because English is not your primary language or you have difficulty communicating effectively in English, one will be provided to you. If you have a disability and need assistance, special arrangements can be made to accommodate most needs. If you need interpretation or translation services or you are a person with a disability who requires an accommodation to attend and participate in the virtual public hearing or in-person option, please contact the TxDOT Public Information Office at 214-320-4480 no later than 4 p.m. , by Friday, June 23, 2023. Please be aware that advance notice is required as some services and accommodations may require time for TxDOT to arrange.
Hearing materials	• Notice • Notice (Español) • Flyer • Flyer (Español) • Draft Environmental Assessment
How to make a comment	Submit written comments: • Email as shown in the notice • By mail: Dallas District Office Attn: Nathan Petter, P.E. 4777 East US Highway 80 Mesquite, TX 75150 • Provide verbal testimony: Call 940-331-5139 and leave a voicemail All written comments and verbal testimony must be received on or before Friday, July 14, 2023. Responses to verbally provided testimony and comments will be prepared by TxDOT, included as part of the hearing and project record, and made available online on this webpage.

Memorandum of Understanding	The environmental review, consultation, and other actions required by applicable Federal environmental laws for this project are being, or have been, carried-out by TxDOT pursuant to 23 U.S.C. 327 and a Memorandum of Understanding dated Dec. 9, 2019, and executed by the Federal Highway Administration and TxDOT.

Interstate Highway 30 (I-30) East Corridor Public Hearing Comment Form

COMMENTS (Please Print): COMENTARIO (Por Favor Escriba):	I adamantly oppose the addition of more lanes to I-30. We have ample evidence from around the country and around the world that car centrism is bad for our communities, bad for housing costs, awful for emissions and heat island effect, and most importantly, that adding lanes has only a temporary effect. Use this money for transit, for denser communities, for dedicated bus lanes, for ANYTHING BUT MORE PRIVATE VEHICLE LANES. DFW is a wasteland of concrete highways. Please invest in better mass transit and reducing vehicle trips instead of wasting more valuable land on highways.

COMMENTS (Please Print): COMENTARIO (Por Favor Escriba):	for the most part looks good. Please save the Gulf Oil/Hickory street Annex as it appears you are doing. We need a Westbound on-ramp from Dolphin Road. going past three lights all the way past Grand Ave. is too long. The traffic circle at Lindsley looks like a great idea - also removes the cut through on-ramp traffic from Ash going West.

COMMENTS (Please Print): COMENTARIO (Por Favor Escriba):	I drive the I-30 corridor every single day for work. 7 days a week. As it is right now, July 12, 2023, it is wholly inadequate to handle the amount of traffic from sunup to sundown. The highway absolutely needs to be widened with additional lanes to not only handle the current amount of vehicles, but be wide enough to handle the projected traffic 25-50 years in the future.

Hi Charles,
Your comments have been received. The schematic has not changed since the last discussions with yourself, DEF, State Fair, Fair Park First, the City, and NCTCOG but I'd be happy to address each question below. It might be easiest in a meeting format. I'm open most of the afternoon on Tuesday 7/18 if that works for you. Please let me know.
Thanks Nathan Petter

Subject: RE: Please Join Us--TxDOT Public Hearing on I-30 East Corridor
Nathan

I was out of town during the public meeting and looking at the plans, had a couple of notes, I will also add to the public comment. Not sure if this changed or the details are just being noticed, however below are our concerns.

General: Direct access from all directions (I345 and I30) to the Baylor Scott & White Dallas hospital, a level one trauma center that see over 115,000 patients annually in our emergency department alone, is critical. Any delay in access via additional intersections or U turns to proceed can impact emergent patient outcomes.

Specific concerns:

West bound from I30 / access to 1st and 2nd did not change from previous concepts however 1st and 2nd are now one way vs. two-way previously. Why the change?

East bound I30

- Access will be from future exit west of IH345, looks like at approximately 75 / 45 exit just west of Good Latimer bridge.
- Only exit east of IH345 is Peak
- Please confirm and clarify exactly where the exit will be

Northbound I45 & Southbound 75 /345 (eastbound I30 flyover connections)

- Exit will be Peak, no access to 1st, 2nd, Commerce etc
- Most concerning, you will drive by the hospital without access, even with controls this will complicate access to hospital and delay care.

Let me know if you would like to set up a time to review. Thank you,

Charles Shelburne

Commenter #6: CARROLL, Olga

Interstate Highway 30 (I-30) East Corridor Public Hearing Comment Form

COMMENTS (Please Print): COMENTARIO (Por Favor Escriba):	Against this project. Not much difference from a current state. One additional lane in each direction is not going to help much. Reversible lanes don't work as the traffic is always heavier in the opposite direction. Reversible lanes are opened for a very limited time. They are just a waste. Most of the money is going to go into putting up bridges- how is this going to significantly help the traffic in I-30??? Very unprofessional proposal. Absolutely against. Need other ideas.

Commenter #9: DART - from SHELTON, Kay

Dallas Area Rapid Transit
P.O. Box 660163
Dallas, TX 75266-0163
214-749-3278

July 14, 2023

Mr. Nathan Petter, P.E.
TxDOT
Dallas District Office
4777 E. Highway 80
Mesquite, TX 75150

Subject: Public Hearing Comments on I-30 East Corridor from I-45 to Ferguson Road

Dear Mr. Petter,

Thank you for the project overview provided to DART staff on March 3, 2022, while the schematic was in early development. We received the public hearing notice in the mail and have reviewed the draft schematic and environmental document and offer the following comments:

1. Section 2.2 - Be more specific in this section. Rather than "A Dallas Area Rapid Transit (DART) bridge with a pedestrian bridge connection to the Santa Fe Trail next to it would also be constructed", suggest restating that the existing DART at-grade, double-track Green Line would be reconstructed as a bridge over the proposed project.
2. Section 4.3.1 - This section states: "To reduce I-30 congestion through TDM, multiple entities including TxDOT, the City of Dallas, the NCTCOG, and DART developed plans to enhance rail, bike, and pedestrian transportation modes and the NCTCOG and DART developed plans for rail extensions in the region. It is expected that the enhanced rail system would be operational by 2045 and would accommodate many trips in and around the I-30 corridor." Note that while there are some regional rail corridors in the NCTCOG Mobility 2045 MTP, DART does not have any programmed rail expansion projects in its 20-year financial plan in this area. However, DART is developing plans to increase bus transit frequency systemwide and is also advancing a system modernization program.
3. Section 5.1.2 - The DART-owned property at 555 2nd Avenue is shown as a displacement. This is a critical DART property currently used for materials management and operation and maintenance purposes. Track-bound equipment is connected via a track under the existing I-30 bridge to the Central Rail Operating Facility (CROF). The proposed I-30 project would severe this connection. Appropriate mitigation will be required to keep DART whole and replace the function in an alternate location that is accessible via track connection to CROF. Assuming this real estate impact cannot be avoided, DART will begin to identify potential mitigation options that will maintain our functional requirements and discuss options at future coordination meetings with TxDOT.
4. The proposed project must not impact the CROF tracks adjacent to the eastbound frontage road and all design and construction adjacent to the facility must be closely coordinated with DART staff.
5. The proposed project will require that the existing at-grade Green Line tracks be reconstructed as a bridge over I-30. The Green Line provides critical access for southeast Dallas residents and also plays a major role in access to Fair Park for events including the annual State Fair. The design and construction phasing of this new bridge will need to be

Commenter #9: DART - from SHELTON, Kay

closely coordinated with DART design and operational staff so that it is done in a manner that avoids or minimizes any disruption to service, especially during State Fair periods.

6. DART bus route 16 travels along Ferguson Road to access I-30 into downtown Dallas. It does not appear that this route can enter the I-30 managed lanes near Dolphin. DART would like to work with TxDOT on future projects to identify direct access opportunities to enhance bus connectivity into managed lanes to help provide more competitive travel times.
7. Ensure the roundabout at the Lindsley/Barry intersection is designed to accommodate the operational envelope for large transit buses. Consider the inclusion of an apron, an area between the central island and the travel way that is mountable by larger vehicles, but not used by passenger vehicles.
8. DART owns the railroad corridor east of Dolphin Road and west of Lawnview Avenue. "Schematic Roll 3" incorrectly labels this as KCS RR. Interactive ESRI based map incorrectly shows the railroad corridor parcels stopping at IH-30 and should be updated to show the railroad corridor is continuous. This is an active freight corridor that will continue operations. The project must not affect the active operating condition. Design approval and construction coordination will be required by DART and operating freight carrier(s). An updated overpass agreement (road over rail) will be required between DART and TxDOT. Debris shields will likely be needed during construction. Flagging will also be required by contractor during construction.
9. DART supports sidewalks along all frontage roads and streets crossings to support safe pedestrian access to area transit stops.

Thank you for the opportunity to comment. As you progress, regular coordination meetings will be necessary to review design, ensure that real estate and operational impacts are avoided or minimized, and make certain appropriate mitigation is included as part of the I-30 East Corridor project. Should you have any questions, please contact me at kshelton@dart.org.

Sincerely,

Kay M. Shelton

COMMENTS (Please Print): COMENTARIO (Por Favor Escriba):	My only concern is the traffic circle at the intersection of Barry Avenue and Lindsley. Having lived in New Jersey and witnessed multiple traffic circles there, those configurations often lead to vehicle accidents due to confusion about right of way. Alternate designs might be more efficient and safer.

COMMENTS (Please Print): COMENTARIO (Por Favor Escriba):	I commute on this highway to and from downtown Dallas for personal outings and to get from the east side of the metroplex to the cities such as Grand Prairie, Arlington, and Fort Worth. The stretch of highway between the I30 and 80 merge into downtown has seen an influx of traffic over the past 10 years so I am definitely for the expansion of the I30 corridor between I45 and Ferguson Rd.

COMMENTS (Please Print): COMENTARIO (Por Favor Escriba):	The city of Dallas along with TXDOT should not be considering adding extra lanes onto the highway as a method of reducing congestion. It rarely works and this plan will not be a magical exception to that trend and will largely benefit no one, especially those living in the community. This project will fundamentally not help any of the problems faced currently unless it is supplemented with functioning alternative and public transit options which we do not find present in the entire metroplex

Subject: IH-30 East Corridor Property Owner- multiple locations

Just spoke with Ralph Curtis Gilmore who received the Hearing notice in the mail. He asked if any of his properties were being impact by ROW acquisition.
The list he gave me were:

- 4609 Garland Ave
- 4818 Garland Ave
- 4822 Garland Ave
- 4934 Parry Ave
- 4938 Parry Ave
- 5118 Philip Ave
- 5111 Philip Ave

I informed him that we are not proposing any ROW acquisitions for these properties with the project at this time. He asked why he received a notice and I informed him that it was to let him know of the Public Hearing on 6/29 and I encouraged him to attend if he'd like to see what we are proposing for the corridor.

Thanks, Nathan Petter

Interstate Highway 30 (I-30) East Corridor Public Hearing Comment Form

COMMENTS (Please Print): COMENTARIO (Por Favor Escriba):	Traffic volumes have been flat or decreasing on this section of I-30 for decades. Increasing vehicular lanes widens the gulf between South Dallas, increases pollution in neighborhoods that already have adverse health impacts, and is overall a recommitment to harmful transportation practices. I urge TxDOT to consider their impact on the urban core of one of the nation's largest cities more than the ability to move through-traffic incrementally faster.

COMMENTS (Please Print): COMENTARIO (Por Favor Escriba):	I am all for adding more connectivity across divisive infrastructure, but adding lanes to a freeway is proven NOT to improve congestion. History shows that humans tolerate about 30 minutes of commute time regardless of mode. You will end up with more commuters participating in the same or worse traffic, more smog, more emissions, more complainers, and more lost time. Give it 5 years and see the results for yourself - it's been demonstrated in Massachusetts, Maryland, Washington, California, Colorado, and even in Texas. This is not the exception! What may actually improve travel times is supporting more freedom of modal choice instead of further subsidizing the MOST EXPENSIVE mode of travel.

COMMENTS (Please Print): COMENTARIO (Por Favor Escriba):	I approve and support TxDOT's I-30 East Corridor from I-45 to Ferguson Road Project. I have reviewed the Draft Environmental Assessment and I support the findings in the Draft EA for TxDOT's I-30 East Corridor from I-45 to Ferguson Road Project. The aspect that I love about TxDOT's I-30 East Corridor from I-45 to Ferguson Road Project is that I-30 will be widened from 4 lanes to 5 lanes with 2 reversible Managed Lanes in the center median from I-45 to Ferguson Road. The widening of I-30 will improve safety, reduce congestion, and improve travel times with the addition of 2 reversible Managed Lanes.

Interstate Highway 30 (I-30) East Corridor Public Hearing Comment Form

COMMENTS (Please Print): COMENTARIO (Por Favor Escriba):	I can't wait. I love the below grade design. It will help reduce the traffic noise we hear constantly, even at night. It should also reduce homeless encampments once the I-30 bridges are removed. The below grade design coupled with the addition of cross over access for 5 streets that currently don't have it should encourage neighborhood cohesion, business development, and pedestrian traffic. I currently avoid I-30 as much as possible due to the unpredictability of traffic congestion. At any time of day, any day of the week the traffic could be at a complete stop.

Subject: IH-30 East Corridor Property Owner 3103 Culver St

Roger Mankin called me. Said he owns 3103 Culver St. He asked if we were looking to acquire any of his property or if he's eligible for relocation. I informed him that we were not planning to need to acquire any property from him at this time and that therefore he is not eligible for any kind of relocation. He asked where the construction would occur and I informed him it would all be within existing TxDOT ROW for this specific location and that we are proposing a new frontage road behind his property from Winslow to Dolphin and also proposing a noisewall here as well.

Thanks,

Nathan Petter

COMMENTS (Please Print): COMENTARIO (Por Favor Escriba):	Do not expand I-30 with more lanes. There is no evidence whatsoever that this will reduce congestion or benefit our city. Through induced demand, every new lane simply creates new traffic. The city destroyed countless communities in the past to carve canyons of concrete that divide our communities and force us to rely increasingly on unsustainable practices like automobile dependence and suburb development while more and more people die from car accidents and climate change every day. Do not continue this pernicious, expensive, destructive, and ultimately deadly and racist practice. All of this time and money should be spent on pedestrian improvements, mass transit, and dense communities.

Commenter #25: MPO DFW - (a) from MORRIS, Michael

METROPOLITAN PLANNING ORGANIZATION
FOR THE DALLAS-FORT WORTH REGION

Regional Transportation Council

North Central Texas Council of Governments

Statement of Support (#2)
IH 30 from IH 45 to Ferguson Road

Submitted on June 29, 2023 by Michael Morris, P.E., NCTCOG Director of Transportation
on behalf of the Regional Transportation Council, the
Metropolitan Planning Organization for the Dallas-Fort Worth region.

It is important to highlight the five elements that make this freeway improvement important and therefore necessary to advance to construction.

1. Limited right-of-way take minimizing residential and commercial purchases. This reduces project cost, increases project support and promotes environmental stewardship.

2. The current IH 30 corridor has complicated operational barrier movements due to limited roadway capacity. The new design eliminates these operational difficulties.

3. The new design eliminates elevated freeway structures reducing the obstruction between neighborhoods, including Deep Ellum, East Dallas and Fair Park. It is critical in the new federal legislation to demonstrate the sensitivity of reknitting previously established neighborhoods.

4. The IH 30 freeway corridor has proposed additional capacity and safety enhancements. It is anticipated the project will have lower emissions and greater reliability. Meeting future demand is critical.

5. The Regional Transportation Council has congestion management components in this corridor, detailed in the Mobility 2045 Plan, that enhance the Dallas-Fort Worth mobility, safety and air quality scores.

The Regional Transportation Council has included the TxDOT design in the Mobility 2045 Plan and this project on IH 30 from IH 45 to Ferguson Road is also included in the Air Quality Conformity Report for the Dallas-Fort Worth region.

About the Regional Transportation Council
The Regional Transportation Council (RTC) of the North Central Texas Council of Governments has served as the Metropolitan Planning Organization (MPO) for regional transportation planning in the Dallas-Fort Worth area since 1974. The MPO works in cooperation with the region's transportation providers to address the complex transportation needs of the rapidly growing metropolitan area. The 12-county Dallas-Fort Worth Metropolitan Planning Area includes Collin, Dallas, Denton, Ellis, Hunt, Hood, Johnson, Kaufman, Parker, Rockwall, Tarrant and Wise counties. The RTC's 44 members include local elected or appointed officials from the metropolitan area and representatives from each of the area's transportation providers. More information can be found at www.nctcog.org.

About the North Central Texas Council of Governments
The North Central Texas Council of Governments (NCTCOG) is a voluntary association of local governments established in 1966 to assist local governments in planning for common needs, cooperating for mutual benefit, and coordinating for sound regional development. NCTCOG's purpose is to strengthen both the individual and collective power of local governments and to help them recognize regional opportunities, eliminate unnecessary duplication, and make joint decisions. NCTCOG serves a 16-county region of North Central Texas, which is centered around the two urban centers of Dallas and Fort Worth. Currently, NCTCOG has 240 member governments including 16 counties, 169 cities, 19 school districts, and 27 special districts.

Commenter #25: MPO DFW - (b) from MORRIS, Michael

Verbal Comment Transcribed Voicemail*
July 14, 2023

Hello, my name is Michael Morris.

I'm the Director of Transportation at the North Central Texas Council of Governments. Our office is at 6166 Flags Drive. It is also the home of the Regional Transportation Council for the Metropolitan Planning Organization for the Dallas-Fort Worth Region. My phone number is 817-695-9241. Planning organization.

There's five points I wish to make on the I-30 project from 45 to Ferguson Road.

The first comment is how nice the geometric design of the Interstate 30 project is with regard to environmental stewardship, with very limited right of way takes as part of the freeway improvements. I think that's a critical element when evaluating the environmental impact of this particular project.

Second, are the very complicated operational movements of barriers. Eliminating these operational difficulties make for success with regard to congestion relief, and potential safety implications. The new design eliminates all of these operational difficulties replacing the highly operational components with fixed permanent elements as part of the dynamic elements associated with the operations of the freeway and its express lanes.

Third, and again focusing on the environmental stewardship, the project eliminates the elevated freeway structures along the corridor. Depressing those are creating better context sensitive design for the neighborhoods.

Fourth, additional capacity is introduced with greater safety enhancements. It's critical in this region that's growing at a million people every 7 years that we consider the future demand, established over the next 20 to 30 years, into the construction of our projects today. It's critical that these improvements address the increased demand which is included in the environmental stewardship and the design of the project.

And lastly, the Mobility Plan contains congestion management components associated with this particular project that greatly equate with the mobility, safety and air quality benefits, all part of the environmental stewardship that one would need to consider in the review of this design.

This is Michael Morris.

Thank you for your time

Commenter #25: MPO DFW - (c) from SIMMONS, Samuel

METROPOLITAN PLANNING ORGANIZATION
FOR THE DALLAS-FORT WORTH REGION

Regional Transportation Council

North Central Texas Council of Governments

Statement of Support
IH 30 from IH 45 to Ferguson Road

Submitted on June 29, 2023 by the Regional Transportation Council and the North Central Texas Council of Governments, together serving as the Metropolitan Planning Organization for the Dallas-Fort Worth area

Interstate Highway 30 is a regionally significant transportation corridor that sustains the local, regional, and state economy. In the North Central Texas region, this corridor serves as a principal route for local commuters traveling to/from the Dallas and Fort Worth central business districts and provides access to several key highways and transportation facilities. This location also provides access to/from local destinations including Deep Ellum and Fair Park. The proposed improvements to this segment of IH 30 are vital for the management of congestion in this corridor. The recommended improvements include the addition of mainlanes, construction of managed lanes, frontage roads, cross street bridges, and reconstruction of access ramps. In addition, this project will also include shared use paths and sidewalks to accommodate bicyclists and pedestrians. Collectively, these project recommendations will support improved mobility, accessibility, connectivity, and safety, as well as increased economic development attractiveness and enhanced quality of life to be enjoyed by area residents.

The recommended improvements to this section of IH 30 are consistent with *Mobility 2045: The Metropolitan Transportation Plan for North Central Texas – 2022 Update*. Because of the regional significance of this project, the North Central Texas Council of Governments is willing to provide any assistance in the planning, design, and implementation of this project.

Interstate Highway 30 (I-30) East Corridor Public Hearing Comment Form

COMMENTS (Please Print): COMENTARIO (Por Favor Escriba):	Instead of widening our freeways, especially since traffic has declined due to COVID, I think TxDOT should use this opportunity to expand mass transit on Dallas. A rail line down 30 would actually do something to help add alternatives to driving. Also, why can't we turn 30 into an actual park instead? Dallas has lots of highways already, it would be amazing to turn the freeway into a park, and remove the pollution and the noise from people speeding at 100 miles per hour down the freeway at night (which sound barriers won't stop)

COMMENTS (Please Print): COMENTARIO (Por Favor Escriba):	As a regional traveler, I am fully against any proposal to add more lanes to an urban highway. Past highway widenings have demonstrated over and over that widening highways to improve congestion doesn't work. Please do not displace homes and businesses or waste more taxpayer dollars for a project that won't deliver on what it claims it will. I support the addition of any pedestrian or bicycle facilities that are missing or need safety improvements. I support the addition of sound walls. If the segment needs major maintenance/reconstruction, I can live with that, though I think there are more productive uses for the footprint it occupies. At most, reconstruct the road within its current footprint. Please do not add to its footprint.

Subject: IH-30 East Corridor Property Owner- 1703 Chestnut St

Just spoke with Parvin Safavimatin regarding property she owns at 1703 Chestnut St. She asked if she was being impacted by the project. I informed her that yes we are looking to acquire property from that location which includes displacing the building. She asked when construction might get started. I explained that construction timeline was currently unknown but we are currently planning on 2026-2027. I explained to her that we have not yet started the ROW acquisition process but that once we began appraisals our ROW staff would be reaching out to her to begin the process.

Thanks Nathan Petter

Commenter #33: SHELTON, Jeff

Jotform

Interstate Highway 30 (I-30) East Corridor Public Hearing Comment Form

COMMENTS (Please Print): COMENTARIO (Por Favor Escriba):

Lamar Advertising Company (through various subsidiaries) maintains numerous outdoor advertising sites that are directly impacted by the proposed I-30 East Corridor Project. At each of these locations, Lamar maintains real property interests. The Texas Department of Transportation indicates that only twelve billboards (with various owners) are directly affected by the I-30 East Corridor project. To reiterate, Lamar is the owner of real property interests at multiple outdoor advertising sites, which are directly impacted by the proposed project, but which are not identified by TxDot. Lamar maintains that ALL of its sites within within the proposed project are directly impacted. The proposed plans show various alterations to roadway elevations, and additional overpasses and noise retention walls being constructed.

The proposed project would cause a reduction in at least 25 percent of the market value of EACH of Lamar's real property interests at its outdoor advertising sites. Lamar asserts that it is entitled to compensation for the taking, damaging, and destroying of its property interests impacted by the proposed project. Lamar asserts that a Takings Impact Assessment is required pursuant to Section 2007.042 of the Government Code to assess the impact of any locations that are impacted by the proposed project, but which are not formally condemned. To the degree such an assessment has been conducted, Lamar requests that it be provided a copy of same, through Jeff Shelton, 625 109th St, Arlington, 76011. If such an assessment has not been conducted, Lamar asserts that it is required. Lamar notes that an required. Lamar notes that an Environmental Constraints Map was provided, and environmental impacts were assessed. However, no such Takings Impact Assessment map was provided, and again, is required. Lamar further asserts that all requirements of Section 2007, generally addressing the Private Real Property Rights Preservation Act, must be met. These comments are notice by Lamar Advertising Company of their intent
o seek compensation for any and all damage to their property interests, including but not limited to filing a lawsuit and/or claim in any court and/or pursuant to the Private Real Property Rights Preservation Act.

Interstate Highway 30 (I-30) East Corridor Public Hearing Comment Form

COMMENTS (Please Print): COMENTARIO (Por Favor Escriba):	I-30 does not need more lanes. Time and time again we have seen lanes added only to induce demand, force more jobs and homes further out of the urban core and do nothing to prevent traffic in the long term. The expansion would also destroy many homes and business currently near I-30 and increase the distances between the neighborhoods separated by I-30, making it harder for pedestrians and cyclists. I support the desire to reconnect the neighborhoods that were split by the creation of I-30, but oppose the creation for more lanes.

Public Hearing Comment Form

Interstate Highway 30 (I-30) East Corridor

From I-45 to Ferguson Road
Dallas County, Texas
CSJs: 0009-11-252, etc.
Thursday, June 29, 2023

The Texas Department of Transportation (TxDOT) is seeking your comments on the proposed project. All written comments are welcome. **All written comments must be received or postmarked by Friday, July 14, 2023.** Written comments may also be submitted by email to Mr. Nathan Petter, P.E., at Nathan.Petter@txdot.gov.

Please Print

My husband and I are excited for the new beautifully displayed highway 130. Your team did great job to cause as little impact on displaced residence & businesses. This will benefit the communities As a whole and more of FAIR PARK will be utilized for community events. The new walkways + bike lanes across the bridges will be welcomed, not to mention how it will cut down on noi & keep more people moving through downtown faster & hopefully with less accidents. We vote YES! And want this project to start SOONER than later. THANK you.

Per Texas Transportation Code, §201.811(a)(5), please check each of the following boxes that apply to you:

- ❑ I am employed by TxDOT
- ❑ I do business with TxDOT
- ❑ I could benefit monetarily from the project or other item about which I am commenting

The environmental review, consultation, and other actions required by applicable Federal environmental laws for this project are being, or have been, carried-out by TxDOT pursuant to 23 U.S.C. 327 and a Memorandum of Understanding dated December 9, 2019, and executed by FHWA and TxDOT.

Subject: RE: I-30 East Corridor

Hi Mr. Smith.

Based on the Federal requirements for the noise study criteria, this area at I-45 and Chestnut does not qualify for noise abatement. We will have further information at the Public Hearing if you have any questions.

For the properties at 2909 Dawson and 1703 Chestnut, we are looking to acquire some property from those owners that is necessary for the project but we do not dictate to the current property owner what they do with the remainder that we do not acquire.

Let me know if you have any other questions or concerns in advance of the hearing Thanks

Nathan Petter

Subject: I-30 East Corridor

Nathan,

I have property at 2900 Dawson @ Jeffries and I have a couple of questions.

Will there be a sound barrier wall (like I-30 near Sylvan & the Post Office) along the at grade level? I-45 past Chestnut, where the new road will have to stay higher due to the Mill Creek crossing.

What is the plan for 2909 Dawson, directly across Dawson from us? It is the metal covered house, and the backyard is shown in the ROW. It looks possible to have the structure remain with no backyard. We are wondering if the entire property is taken, if the part outside the ROW might be available.

Similar question about the current auto repair shop northeast of us, address 1703 Chestnut.

It looks like a major portion of the building will be taken to make the Dawson - Chestnut corner. What do you think will happen to the property and will any be available outside the ROW?

I'll see you next Thursday at the meeting. Keith Smith, P.E.

Commenter #38: T (incomplete surname), Rob

Interstate Highway 30 (I-30) East Corridor Public Hearing Comment Form

COMMENTS (Please Print): COMENTARIO (Por Favor Escriba):	Adding more lanes and expanding highways is proven to be a negative for communities. The principles of induced demand mean that traffic congestion is not reduced. Expanded highways just mean worse health effects for those unfortunate enough to live near the highway, more divided communities, and more pollution. Economically this project saddles a great debt on future generations, both to pay off the bonds required to build it and to pay for added maintenance of a larger road. This project is a negative for the area, it makes the city and Texas as a whole a worse place to live going forward.

Interstate Highway 30 (I-30) East Corridor Public Hearing Comment Form

COMMENTS (Please Print): COMENTARIO (Por Favor Escriba):	I fully support the I-30 East Corridor project as presented. As an East Dallas resident, I used I-30 on a regular basis and definitely see the need for a massive improvement. Plus, the submerged freeway design is the best choice to eliminate noise, unsightly views of traffic and improved pedestrian/bike access to connect north & south areas.

TxDOT.gov (Keyword: #EndTheStreakTX)

#EndTheStreakTX Toolkit

PROJECT DESCRIPTION

The proposed project would widen I-30 from I-45 to Ferguson Road from eight mainlanes (four in each direction) to ten mainlanes (five in each direction) and add two reversible managed lanes in the center median. The total distance is approximately five miles. The proposed mainlanes would be depressed to a lower elevation than the proposed frontage roads. Access ramps throughout the project corridor would be reconstructed. The project would construct new cross street bridges across the depressed mainlanes as part of the reconstruction. A DART bridge and adjacent pedestrian bridge would also be constructed. Sidewalks would be constructed or reconstructed on both sides of all street crossings at I-30, and a shared use path would be constructed alongside the outer frontage road lanes in most cases. The typical right of way width would vary from approximately 300 feet to 500 feet.

ENVIRONMENTAL

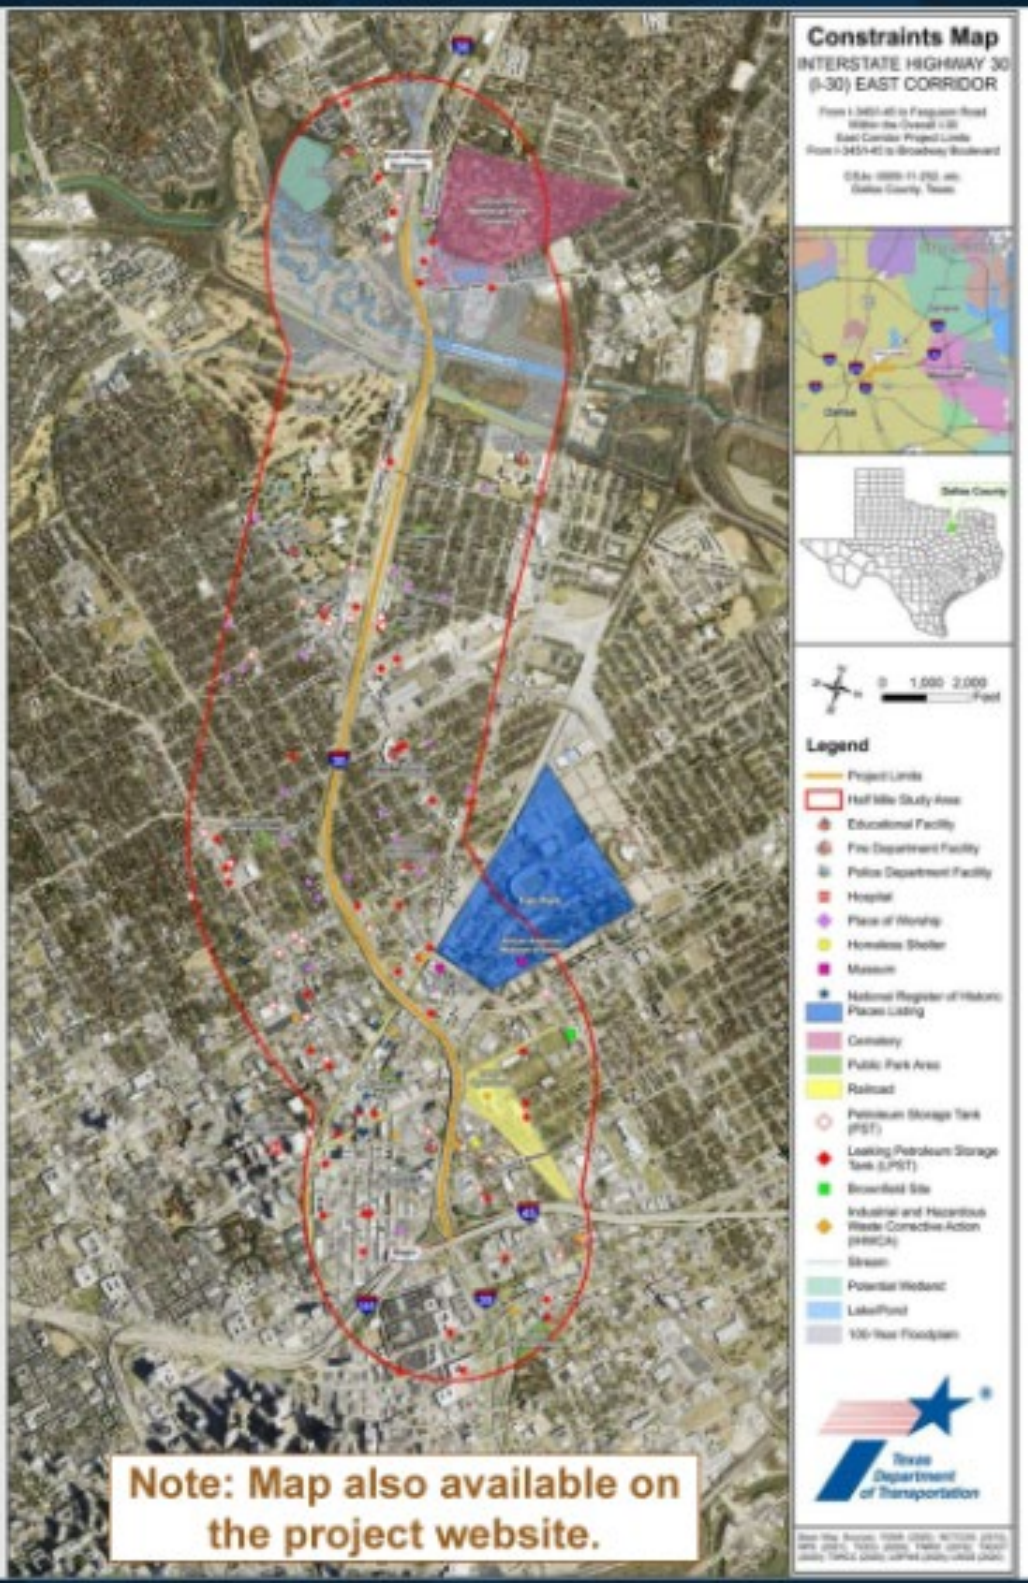
Review and Approval of Environmental Document

National Environmental Policy Act (NEPA) Assignment to the Texas Department of Transportation

The environmental review, consultation, and other actions required by applicable Federal environmental laws for this project are being, or have been, carried-out by TxDOT pursuant to 23 U.S.C. 327 and a Memorandum of Understanding dated December 9, 2019, and executed by FHWA and TxDOT.

La revisión ambiental, consultas y otras acciones requeridas por las leyes ambientales federales aplicables para este proyecto están siendo o han sido, llevado a cabo por TxDOT – en virtud de 23 U.S.C. 327 y un Memorando de Entendimiento fechado el 9 de diciembre del 2019, y ejecutado por la FHWA y TxDOT.

Environmental Constraints Map



Environmental Impacts Addressed

Traffic Noise

- *Preliminary noise mitigation analysis results: seven noise barriers are proposed.*
- *These noise barriers are pending further evaluation for constructability.*
- *Final decision to construct will be made after polling all benefited receptors and receptors adjacent to the proposed walls*
- *Noise barrier height may vary from 10 to 18 feet high depending on further analysis and noise barrier workshops.*

Cultural Resources & Section 4(f) Properties

- *Project would affect historical resources protected by Sec. 4(f):*
  - ***Cabell's Building at 710 Exposition Avenue,***
  - ***Commercial building at 820 Exposition Avenue, and***
  - ***Single-family residence at 4937 Lindsley Avenue.***
- *TxDOT is coordinating with the State Historic Preservation Officer (SHPO) and with historic preservation groups and individuals.*

Section 4(f) Process

Section 4(f) is a federal regulation set up to protect the use of public land in projects. This federal regulation requires TxDOT to inform and gather input from the public.

Section 4(f)

Section 4(f) of the U.S. Department of Transportation Act of 1966 stipulates that TxDOT cannot approve the use of land from:

- **Publicly owned parks or recreational areas**
- **Wildlife and waterfowl refuges**
- **Public and private historic sites**

Unless the following conditions apply:

There is no feasible and prudent avoidance alternative to the use of that land; and the action includes all possible planning to minimize harm to the property resulting from such use;

OR

TxDOT determines that the use of the property will have a de minimis, minimal impact.

Above: Properties with adverse affects under Section 4(f)

PROTECTED PROPERTIES

TxDOT determined the project will have an adverse effect on the following resources and is conducting individual Section 4(f) analyses:

- *The **Cabell's Building at 710 Exposition Avenue**, which is both individually eligible and a contributing resource within the recommended Commerce/Exposition Historic District;*
- *A **commercial building at 820 Exposition Avenue**, within the recommended Commerce/Exposition Historic District, and;*
- *The **Craftsman bungalow at 4937 Lindsley**, within the recommended Mt. Auburn/Santa Fe Historic District.*

TxDOT will conduct and provide final 4(f) analysis documentation once the State Historic Preservation Office (SHPO) and other consulting parties have reviewed determinations of eligibility and effect under Section 106. Under Section 106, agencies must consider the effects of their actions on historic properties, defined as resources that are included in, or eligible for inclusion in, the National Register. Through consultation, TxDOT will identify ways to mitigate the project's adverse effects, as well as notify the Advisory Council on Historic Preservation about any potential adverse effects.

HISTORICAL RESOURCES

TxDOT conducted a historic resource survey of properties that fall within the I-30 East Corridor Area of Potential Effect. This is a step in the National Environmental Policy Act (NEPA) process, as well as under Section 106 of the National Historic Preservation Act. See the survey reports below for additional information about this project. Learn more about how TxDOT reviews project effects to historic properties in the Connecting People to the Past brochure

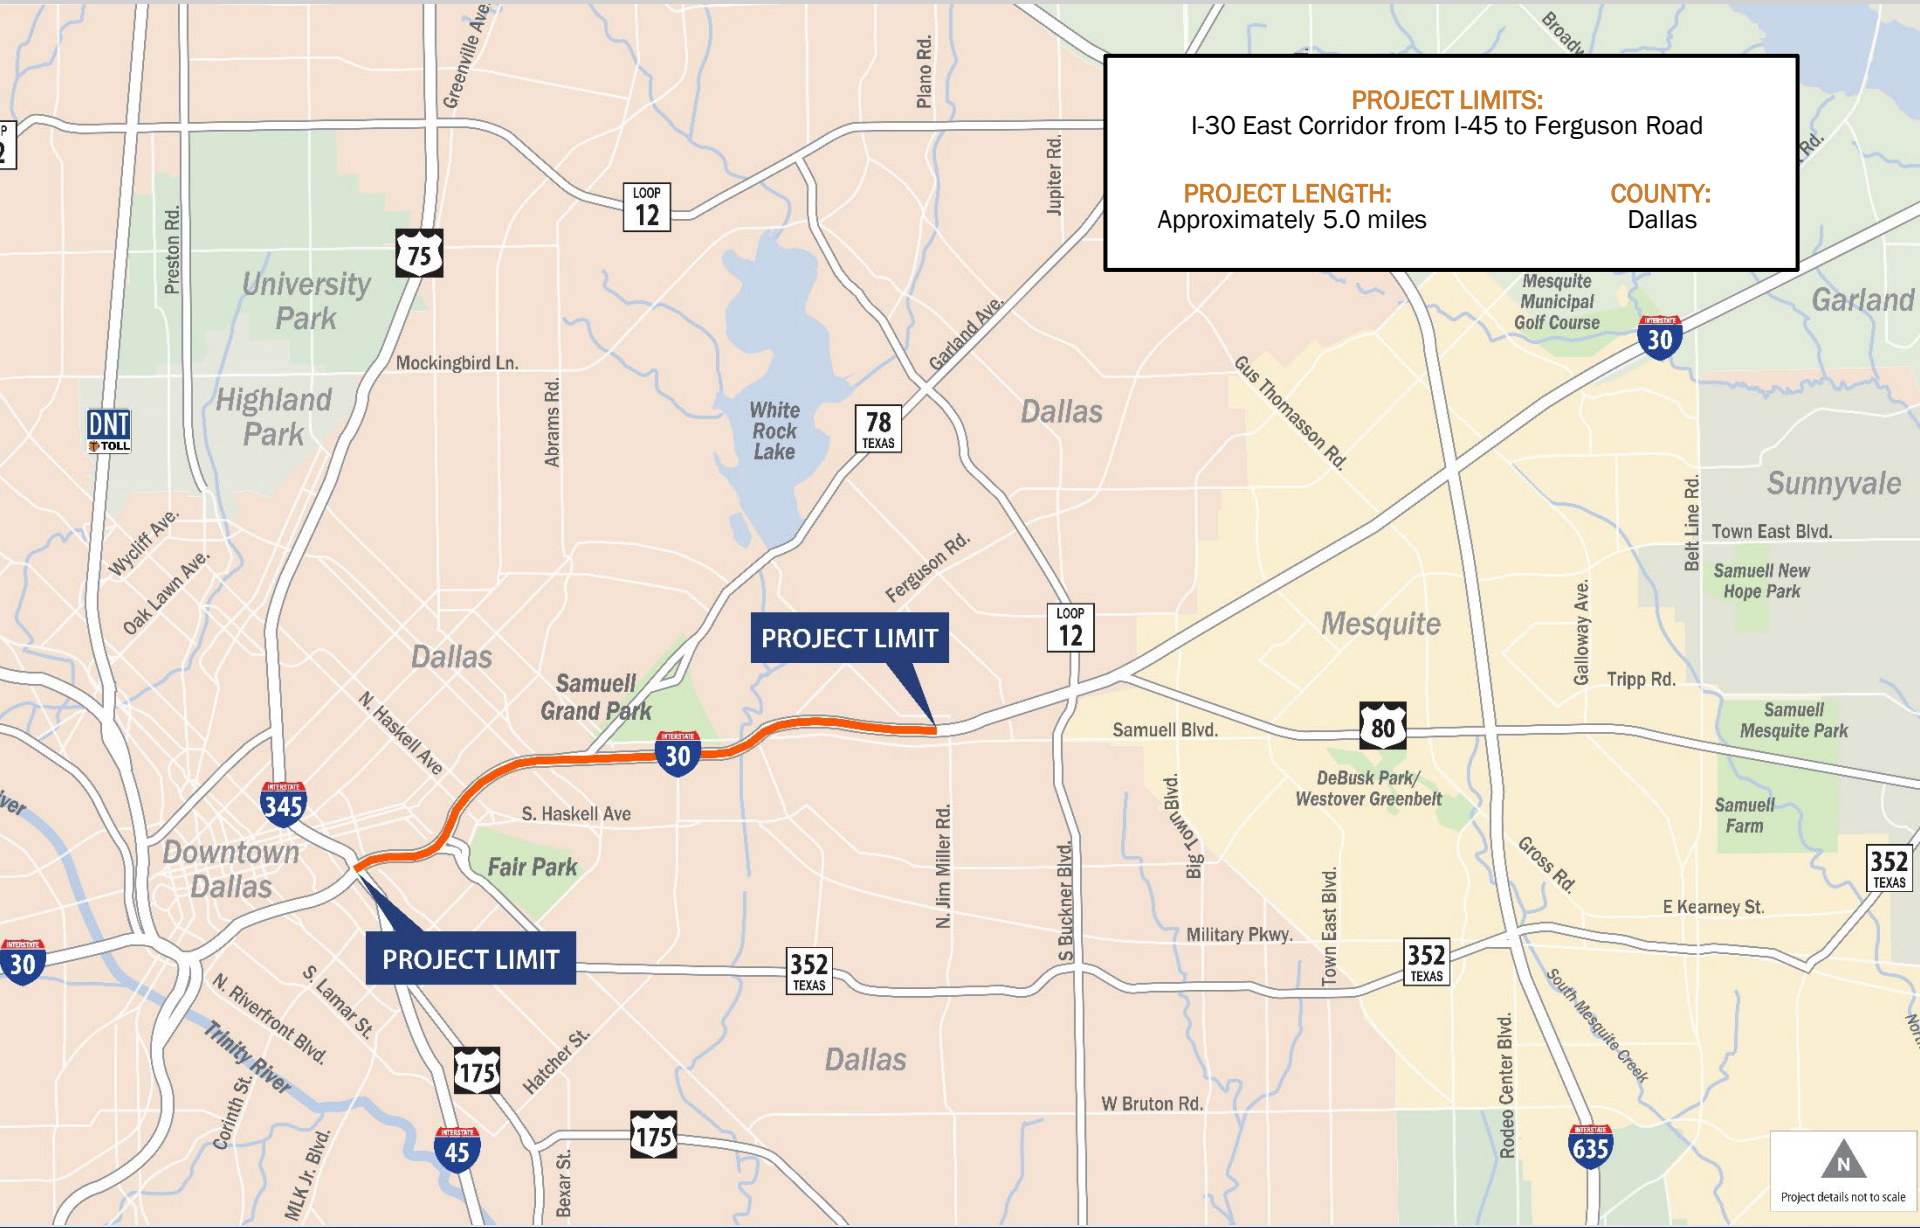
Project Location



Project Purpose and Need

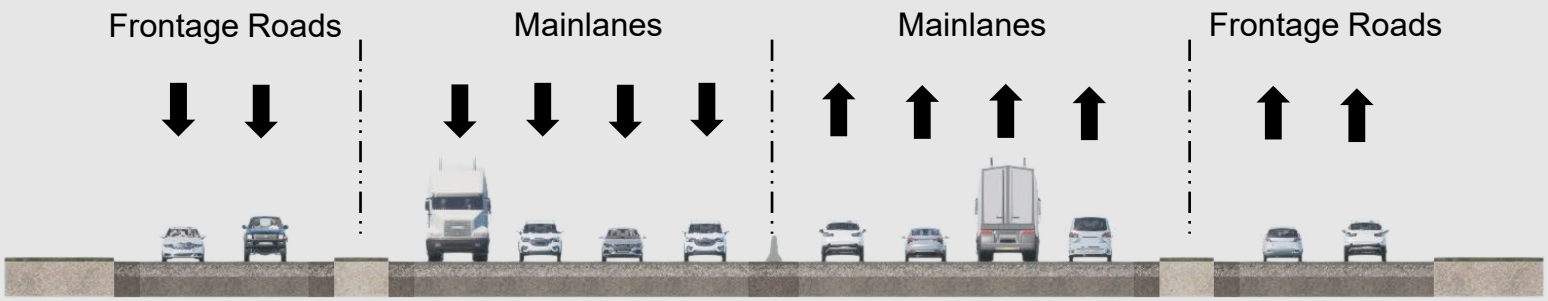
Project Purpose:

- The purpose of the proposed project is to:
  - meet current roadway design standards and current and future traffic demand;
  - reduce congestion and increase safety;
  - improve mobility and access for all modes of transportation;
  - and improve connectivity between neighborhoods on either side of I-30.

Project Need:

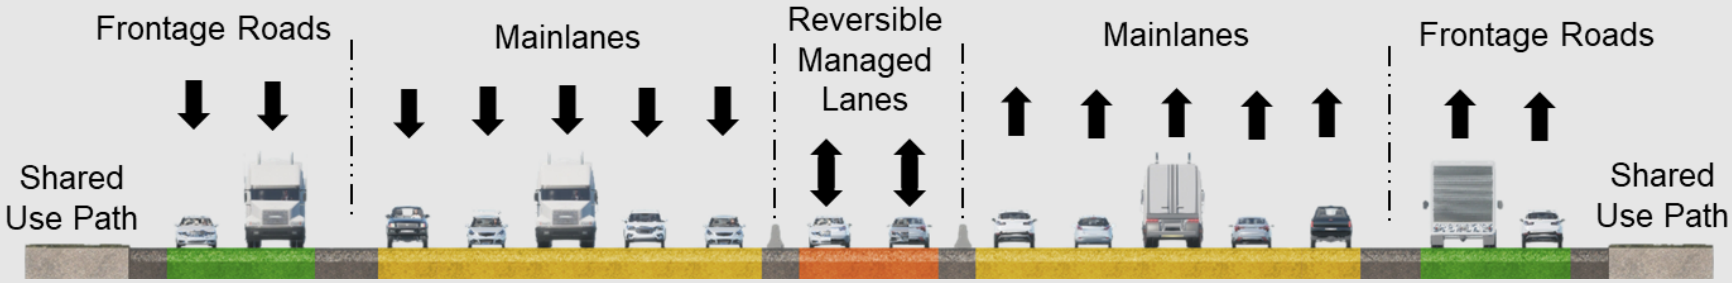
- The proposed project is needed because the I-30 segment from I-45 to Ferguson Road:
  - does not meet current design standards due to aging infrastructure;
  - does not meet current and future traffic demand, resulting in congestion;
  - does not accomplish local or regional goals of increased mobility, improved access for all modes of transportation, and improved safety along the I-30 corridor; and
  - provides limited options for vehicles and pedestrians to traverse I-30 resulting in a lack of connectivity between neighborhoods on either side of I-30.

Typical Sections



Existing Typical Section:

- Four existing mainlanes in each direction
- Existing contraflow HOV system during peak hours



Proposed Typical Section:

- Five proposed mainlanes in each direction
- Two to three frontage road lanes in each direction
- Two reversible managed lanes in the center median

Anticipated Ready to Let Date*

2027

Estimated Construction Cost

Approximately $1.02 Billion

**Project is partially funded for construction and cannot let until full funding is identified; however, right of way acquisition can proceed even if the project is not funded for construction.*

National Environmental Policy Act (NEPA) Assignment to the Texas Department of Transportation

The environmental review, consultation, and other actions required by applicable Federal environmental laws for this project are being, or have been, carried-out by TxDOT pursuant to 23 U.S.C. 327 and a Memorandum of Understanding dated December 9, 2019, and executed by FHWA and TxDOT.

La revisión ambiental, consultas y otras acciones requeridas por las leyes ambientales federales aplicables para este proyecto están siendo o han sido, llevado a cabo por TxDOT – en virtud de 23 U.S.C. 327 y un Memorando de Entendimiento fechado el 9 de diciembre del 2019, y ejecutado por la FHWA y TxDOT.

Proposed Right of Way (ROW) & Displacements

- Approximately 11 acres of new right of way and 3.7 acres of surplus right of way
- Potential displacements include five residences, 12 non-residential buildings, and 12 billboards
- All ROW acquisition would be completed in accordance with the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, as amended

Please visit the project website for more information about the Uniform Act and TxDOT Relocation Assistance Program Information

ESCANEAR

Ubicación del Proyecto

Propósito y Necesidad del Proyecto

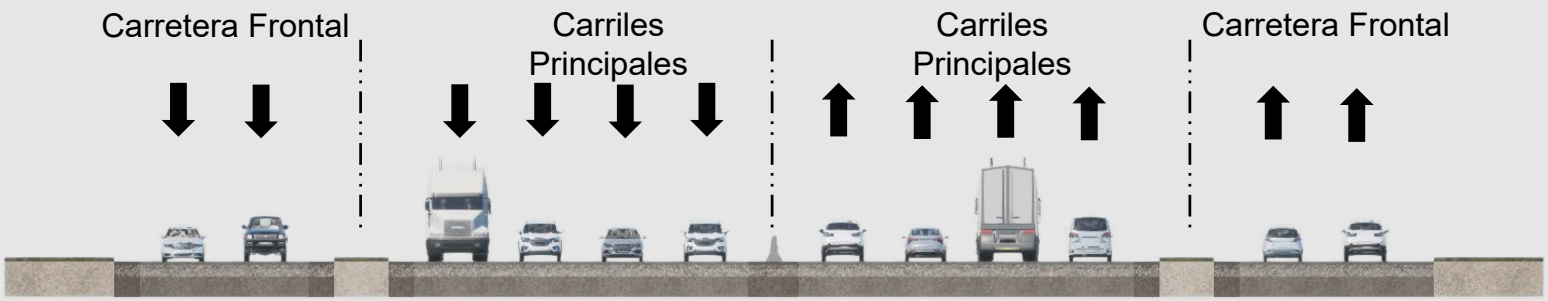
Propósito del Proyecto:

- El propósito del proyecto propuesto es:
  - satisfacer estándares actuales de diseño de carreteras y las demandas de tráfico actuales y futuras;
  - reducir el congestionamiento e incrementar la seguridad;
  - mejorar movilidad y acceso para todos los tipos de transporte;
  - y mejorar la conectividad entre vecindarios en ambos lados del I-30.

Necesidad del Proyecto:

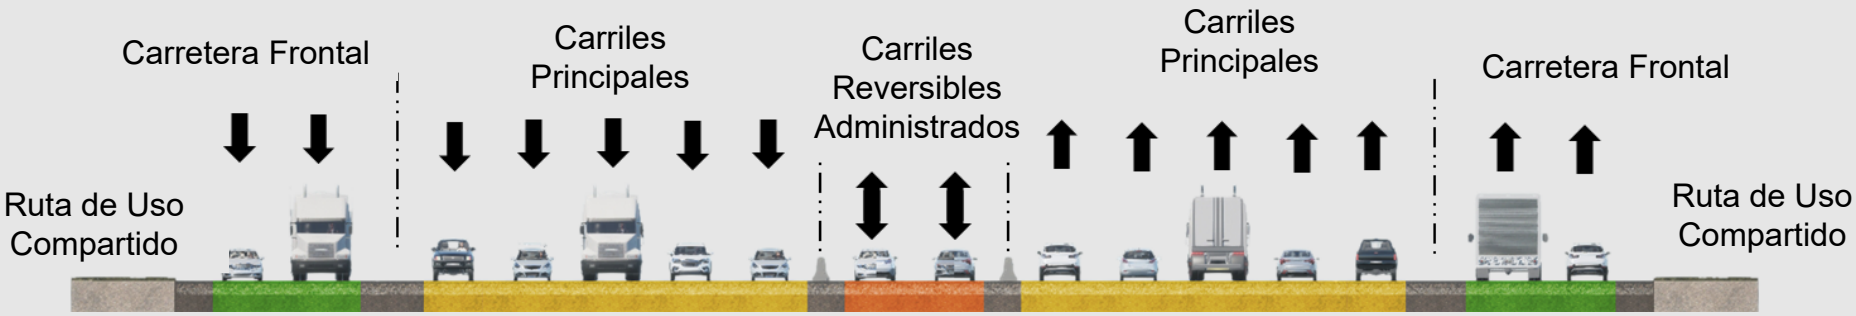
- El proyecto propuesto es necesario porque el segmento del I-30 desde I-45 hasta Ferguson Road:
  - no satisfice los estándares actuales de diseño por envejecimiento de infraestructura;
  - no satisface actuales y futura demanda de tráfico, resultando en congestión;
  - no cumple con las metas locales o regionales de aumento en movilidad, mejora de acceso para todos los tipos de transporte, y mejora de seguridad a lo largo del corredor I-30 y
  - da opciones limitadas para vehículos y peatones para atravesar I-30 resultando en una falta de conexión entre vecindarios en ambos lados de I-30 .

Secciones Típicas



Sección Típica Existente:

- Cuatro carriles principales en cada dirección
- Sistema de contraflujo de HOV existente durante hora pico



Sección Típica Propuesta:

- Cinco carriles principales propuestos en cada dirección
- Dos a tres carreteras frontales en cada dirección
- Dos carriles reversibles administrados en la mediana central

Fecha Anticipada para Licitación*

2027

Estimación de Costo de Construcción

Aproximadamente $1.02 Mil Millones

**El Proyecto esta parcialmente financiado para su construcción y no puede ser licitado hasta que los fondos sean completamente identificados; sin embargo, adquisición de derecho de vía puede proceder aunque el proyecto no tenga los fondos completos para su construcción.*

The environmental review, consultation, and other actions required by applicable Federal environmental laws for this project are being, or have been, carried-out by TxDOT pursuant to 23 U.S.C. 327 and a Memorandum of Understanding dated December 9, 2019, and executed by FHWA and TxDOT.

La revisión ambiental, consultas y otras acciones requeridas por las leyes ambientales federales aplicables para este proyecto están siendo o han sido, realizados por TxDOT – en virtud de 23 U.S.C. 327 y un Memorando de Entendimiento fechado el 9 de diciembre del 2019, y ejecutado por la FHWA y TxDOT.

Derecho de Vía Propuesto (ROW) & Desplazamientos

- Aproximadamente 11 acres de nuevo derecho de vía y 3.7 acres de derecho de vía sobrante.
- Desplazamientos potenciales incluye cinco residencias, 12 edificios no residenciales, y 12 carteleras
- Toda adquisición de ROW seria hecha de acuerdo a la Ley de Asistencia Uniforme de Reubicación y a las Políticas de Adquisición de Bienes Raíces de 1970 como esta enmendado

Por favor visite la página del proyecto para más información sobre la Ley de Asistencia Uniforme e información sobre el Programa de Asistencia para Relocalización de TxDOT

Reportes Técnicos para Cumplir con NEPA

- Calidad del Aire
- Impacto Comunitario
- Recursos Culturales
- Sitios de Materiales Peligrosos
- Efectos indirectos & Acumulativos
- Ruido de Trafico
- Vegetación & Vida Silvestre
- Recursos de Agua

Ruido de Trafico

- Resultados preliminares del análisis de mitigación del ruido se proponen siete barreras de ruido.
- Estas barreras de ruido tienen pendiente su evaluación para determinar su constructibilidad.
- La decisión final de construirlas se tomará hasta después de escuchar a todos los receptores beneficiados y a los receptores cercanos a la barrera propuesta.
- La altura de la barrera del ruido puede variar de 10 hasta 16 pies de altura según los análisis posteriores y talleres sobre barreras de ruido.

Recursos Culturales & Propiedades de la Sección 4(f)

- Proyecto afectaría recursos históricos protegidos por Sec. 4(f):
  - **Edificio Cabell's en 710 Exposition Avenue**,
  - **Edificio comercial en 820 Exposition Avenue**, y
  - **Residencia unifamiliar en 4937 Lindsley Avenue**.
- TxDOT está coordinando con el Oficial del Estado de Preservación Histórica (SHPO, por sus siglas en ingles) y con grupos e individuos de preservación histórica.

Línea de Tiempo del Proyecto

El periodo para hacer comentarios para la audiencia pública termina el **viernes, 14 de julio, 2023**

** Calendario está sujeto a cambios en espera de la coordinación y la participación publica*

Solicitamos sus Comentarios

Por favor envié sus comentarios sobre el proyecto presentado en esta Audiencia Publica usando cualquiera de los cuatro métodos presentados a continuación a no más tardar de la fecha límite,
14 de julio, 2023

Virtual Public Meeting
English Video
Presentation Narration

SLIDE 1 – Welcome Slide

Hello and welcome to the public hearing for the I-30 EAST CORRIDOR Project from I-45 to Ferguson Road presented by the Texas Department of Transportation, or TxDOT. We appreciate your interest in this project and welcome each of you. For those of you viewing this presentation online, you may pause it at any point to allow more time to review the information.

SLIDE 2 – End The Streak

November 7, 2000 was the last deathless day on Texas roadways and over 80,000 people have lost their lives since then. That's a streak we want to break. Help TxDOT End the Streak of roadway fatalities by buckling up, driving the speed limit, putting down your phone, and never driving under the influence of alcohol or other drugs.

SLIDE 3 – Travis Campbell, P.E. Welcome Video

I'm Travis Campbell, Director of Transportation Planning and Development for the TxDOT Dallas District. Thank you for joining us as we conduct this virtual public event. Understanding how our projects impact communities is important to TxDOT. The following presentation will provide instruction on how you can connect with us and provide vital input about this project. We will continue to work closely with stakeholders, communities, and the public as we move forward. Thank you for your time and interest in improving our transportation system and we look forward to receiving your comments.

SLIDE 4 – Public Hearing Purpose and Changes to Public Hearing Protocol

You may have attended previous public hearings conducted by TxDOT. Due to changes in TxDOT public involvement protocols, we will not have a live speech or take comments from the floor at this public hearing. In lieu of a live speech, we are showing this pre-recorded presentation. Verbal comments will still be accepted on our voicemail line. For the benefit of

those who have never participated before, I will explain why the Department conducts a public hearing.

A public hearing has four essential purposes:

1. To inform the public of the status of planning efforts on the project and to present the recommendations based on studies performed to date.
2. To describe the project so those attending can determine the project's potential to affect their lives and property.
3. To provide the public an opportunity to view information and express their views.
4. And finally, to develop a record of public views and participation to accompany recommendations for subsequent decisions.

This public hearing is being held in compliance with both federal and state laws. Documentation of this hearing will be made available for the official record. Following this hearing, TxDOT will proceed with the preparation of the final environmental documentation. Your statements and comments will be addressed in this document and will be given full consideration in the preparation of the final recommendation and design for the I-30 EAST CORRIDOR Project.

SLIDE 5 – Viewing the Project Information

The design schematic and environmental documentation for the I-30 EAST CORRIDOR Project are available for inspection and reproduction at the TxDOT Dallas District Office, located at 4777 East US Highway 80 in Mesquite, Texas, 75150. In addition, the design schematic may be viewed at www.keepitmovingdallas.com/I30EC for a direct link to the posted materials or by visiting www.keepitmovingdallas.com under "Public Hearings / Meetings". The information on this website is the same information being shown in this presentation.

SLIDE 6 – Project Location

The I-30 EAST CORRIDOR Project limits are from I-45 to Ferguson Road. The total project length is approximately 5 miles located in Dallas County, Texas. The project limits are shown on the map on this slide. The orange color indicates the project limits.

SLIDE 7 –Project Purpose and Need

The purpose of the proposed project is to meet current roadway design standards and current and future traffic demand; reduce congestion and increase safety; improve mobility and access for all modes of transportation; and improve connectivity between neighborhoods on either side of I-30.

The proposed project is needed because the I-30 segment from I-45 to Ferguson Road does not meet current design standards due to aging infrastructure; does not meet current and future traffic demand, resulting in congestion; does not accomplish local or regional goals of increased mobility, improved access for all modes of transportation, and improved safety along the I-30 corridor; and provides limited options for vehicles and pedestrians to traverse I-30 resulting in a lack of connectivity between neighborhoods on either side of I-30.

SLIDE 8 – Typical Sections

The existing I-30 highway includes four general purpose lanes in each direction and one reversible high occupancy vehicle, or HOV, lane. The existing general-purpose lanes and HOV lane are on an elevated bridge structure from I-45 to Haskell Avenue, with overpass bridges from Peak Avenue to Dolphin Road. The frontage roads vary from two to three lanes in each direction and are discontinuous within the project limits. The proposed project would widen this section of I-30 from eight mainlanes (four in each direction) to ten mainlanes (five in each direction), add two reversible managed lanes in the center median and two to three-lane

discontinuous, one-way frontage roads. The project would construct new cross street bridges across the depressed mainlanes as part of the corridor's reconstruction. Additional project renderings are shown on the project website.

SLIDE 9 – Projected Cost and Schedule

The I-30 EAST CORRIDOR Project's anticipated Ready to Let Date is 2027. "Letting" is when TxDOT notifies the construction community that TxDOT is ready to receive bids for constructing the project. Construction on a project begins after the letting process is complete. The total estimated construction cost for the project is approximately $1.02 billion. The project is partially funded for construction and cannot let until funding is identified; however, right of way acquisition can proceed even if the project is not funded.

SLIDE 10 – Review and Approval of Environmental Document

Prior to December 16, 2014, the Federal Highway Administration, or FHWA, reviewed and approved documents prepared under the National Environmental Policy Act, known as NEPA; however, on December 16, 2014 TxDOT assumed responsibility from FHWA through a Memorandum of Understanding to review and approve certain assigned NEPA environmental documents. This Memorandum of Understanding between TxDOT and FHWA was updated on December 9, 2019.

Environmental studies were conducted for the proposed I-30 EAST CORRIDOR Project to support receiving environmental clearance in accordance with NEPA. These environmental analyses are necessary to identify, avoid, and minimize effects to the Human and Natural Environments.

Technical environmental documentation was approved for further processing by TxDOT and was coordinated with other public agencies. Notices for this public hearing were advertised

in the *Dallas Morning News, Al Dia, Dallas Weekly,* on the TxDOT.gov website under "Hearings and Meetings Schedule" and on www.keepitmovingdallas.com under "Public Hearings/ Meetings". The TxDOT Public Information Office also prepared a news media release to advertise the public hearing. The TxDOT environmental assessment is available for your review on the project website.

SLIDE 11 – Right of Way

Approximately 11 acres of new right of way would be required for the proposed project. The project would render approximately 3.7 acres of existing right of way surplus to transportation needs, making it available for other uses. The proposed project would, subject to final design considerations, require additional right of way and potentially displace five residences, 12 non-residential buildings and 12 billboards. All of the right of way acquisition would be completed in accordance with the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, as amended. Brochures, including two booklets titled "The Purchase of Right of Way" and "Relocation Assistance", are also available on the project website. These booklets contain detailed information to inform you of your rights and provide information about TxDOT's right-of-way acquisition process.

SLIDE 12 – Environmental Review / Impacts Addressed

The technical documentation for this project addresses the potential environmental impacts identified during the preliminary engineering of the proposed project. These areas of potential impacts included natural, social, and cultural resources. This slide shows a list of all resources that were evaluated during the environmental analyses. The following slides include a summary of key aspects of these studies that we would like to highlight for you.

SLIDE 13 – Environmental Review

Based on traffic noise analysis results, noise barriers would be feasible and reasonable at seven locations within the corridor and noise barriers are proposed at these locations, which are shown on exhibits at this public hearing and on the website. These noise barriers are pending further evaluation for constructability, and the final decision will not be made until completion of the project design, utility evaluation, constructability assessment, and polling of all benefited and adjacent property owners and residents.

Properties that are historic resources were found to be eligible for protection under a federal law known as Section 4(f); however, the proposed project would potentially have no adverse effect on identified historic properties with the exception of the following:

- The Cabell's Building at 710 Exposition Avenue
- A commercial building at 820 Exposition Avenue
- A residence at 4937 Lindsley Avenue

TxDOT is concurrently providing information on this project to the State Historic Preservation Officer (SHPO) and to previously identified groups and individuals with an interest in historic preservation and the historic resources and neighborhoods along the project corridor.

SLIDE 14 – Project Timeline

The project timeline is shown on the screen. The public comment period for the public hearing ends on Friday, July 14, 2023. Following this public hearing, documentation of this hearing will be reviewed by TxDOT for final environmental clearance and design approval. If there are no major issues arising from this hearing that cannot be addressed in a reasonable time frame, final environmental clearance is anticipated by the end of 2023. This concludes the environmental portion of the presentation.

SLIDE 15 – We Request Your Feedback

Comments will be accepted in a variety of ways as shown on the screen. If you would like to leave a verbal comment, please call the number listed. Comments must be received or postmarked by **Friday, July 14, 2023,** to be part of the official public hearing record.

All substantive comments and questions will be fully considered and responded to in the project record and made part of the final environmental document for this proposed project. This document will then be made available for public review online at the project website.

SLIDE 16 – Thank You

We sincerely appreciate your participation and interest in the I-30 EAST CORRIDOR Project. Your questions, comments and concerns will receive careful consideration. Thank you, this concludes the presentation.

Virtual Public Meeting
Spanish Video
Presentation Narration

DIAPOSITIVA 1 – Diapositiva de Bienvenida

Hola y bienvenidos a la audiencia pública para el proyecto del CORREDOR ESTE de I-30 desde I-45 hasta Ferguson Road presentado por el Departamento de Transporte de Texas, o TxDOT por sus siglas en ingles. Apreciamos su interés en este proyecto y les damos la bienvenida a cada uno de ustedes. Para aquellos que están viendo esta presentación en línea, puede pausarla en cualquier punto para permitir más tiempo para revisar la información.

DIAPOSITIVA 2 – End The Streak

7 de noviembre, 2000 fue el último día sin muertes en las carreteras de Texas y desde entonces más de 80,000 personas han perdido sus vidas. Es una racha que queremos romper. Ayude a TxDOT acabar con la racha de muertes en carreteras por abrochándose el cinturón, manejando al límite de velocidad, dejando su teléfono, y nunca manejando bajo la influencia de alcohol u otras drogas.

DIAPOSITIVA 3 – Travis Campbell, P.E.Video de Bienvenida

Soy Travis Campbell, director de planeación y desarrollo de Transporte para TxDOT en el Distrito de Dallas. Gracias por acompañarnos mientras llevamos este evento publico virtual. Entendiendo como nuestros proyectos impactan a las comunidades es importante para TxDOT. La siguiente presentación proveerá instrucciones sobre como contactarnos y proveer aporte vital sobre este proyecto. Seguiremos trabajando en estrecha colaboración con las partes interesadas, comunidades, y el público a medida que avanzamos. Gracias por su tiempo e interés en mejorar nuestro sistema de transporte y esperamos recibir sus comentarios.

DIAPOSITIVA 4 – Propósito de Audiencia Pública y Cambios al Protocolo de Audiencia Publica

Es posible que haya asistido previamente audiencias públicas conducidas por TxDOT. Debido a cambios en el protocolo de participación pública de TxDOT, no habrá discurso en vivo ni

tomaremos comentarios del público en esta audiencia pública. En lugar de un discurso en vivo, estaremos mostrando esta presentación pregrabada. Comentarios de voz estarán siendo aceptados en nuestra línea de mensaje de voz. Para el beneficio de aquellos que no han participado antes, explicare porque el Departamento conduce una audiencia pública.

Una audiencia pública tiene cuatro propósitos esenciales:

1. Para informar al público sobre el estatus de esfuerzo de planificación en el proyecto y presentar las recomendaciones basadas en estudios hechos a la fecha.
2. Para describir el proyecto para que aquellos que asistan puedan determinar el potencial del proyecto para afectar sus vidas y propiedades.
3. Para darle al público una oportunidad de ver la información y expresar sus puntos de vista.
4. Y finalmente, para desarrollar un historial público de vistas y participación para acompañar recomendaciones para decisiones posteriores.

Esta audiencia pública se lleva a cabo en cumplimiento con ambas leyes federales y estatales. Documentación de esta audiencia estará disponible para el historial oficial. Después de esta audiencia, TxDOT procederá con la finalización de preparación de documentación ambiental. Sus declaraciones y comentarios serán atendidos en este documento y se le dará plena consideración en la preparación de la recomendación final y el diseño para el Proyecto del CORREDOR ESTE I-30.

DIAPOSITIVA 5 – Observando la Información del Proyecto

El diseño de esquema y documentación ambiental del proyecto del CORREDOR ESTE I-30 están disponibles para inspección y reproducción en la Oficina de TxDOT en el Distrito de Dallas, ubicada en 4777 East US Highway 80 en Mesquite, Texas, 75150. Además, el diseño del esquema puede ser visto en www.keepitmovingdallas.com debajo “Public Hearings /

Meetings" o visitando www.keepitmovingdallas.com/I30EC para un link directo a los materiales. La información en esta página es la misma que se muestra en esta presentación.

DIAPOSITIVA 6 – Ubicación del Proyecto

Los límites del proyecto del CORREDOR ESTE I-30 son desde I-45 hasta Ferguson Road. La longitud total del proyecto es de aproximadamente 5 millas ubicado en el Condado de Dallas, Texas. Los límites del proyecto son mostrados en el mapa en esta diapositiva. El color naranja indica los límites del proyecto.

Diapositiva 7 –Propósito del Proyecto y Necesidad

El propósito del proyecto propuesto es para satisfacer el estándar actual de diseño de carreteras y demandas de tráfico actuales y futuras, reducir la congestión e incrementar la seguridad; mejorar la movilidad y acceso a todos los tipos de transporte; y mejorar la conexión entre vecindarios en ambos lados de I-30.

El proyecto propuesto es necesario debido al segmento de I-30 desde I-45 hasta Ferguson Road no satisfice estándares de diseño actuales debido a envejecimiento de infraestructura; no satisfice demanda de tráfico actual ni futura, resultando en congestión; no cumple con las metas locales o regionales para incremento de movilidad, mejora de acceso a todos los tipos de transporte, y mejora de seguridad a través del corredor I-30; y da opciones limitadas para vehículos y peatones para atravesar I-30 resultando en una falta de conexión entre vecindarios en ambos lados del I-30.

DIAPOSITIVA 8 – Secciones Típicas

La autopista existente I-30 incluye cuatro carriles de propósito general en cada dirección y un carril reversible de alta ocupación, o carril HOV. Los carriles generales existentes y carril HOV están en una estructura de puente elevada desde I-45 hasta Haskell Avenue, con puentes de

paso elevado desde Peak Avenue hasta Dolphin Road. Las carreteras frontales varían de dos a tres carriles en cada dirección entre los límites del proyecto. El proyecto propuesto ampliaría esta sección del I-30 de ocho carriles principales (cuatro en cada dirección) a diez carriles principales (cinco en cada dirección) con dos a tres carreteras frontales en cada dirección y agregar dos carriles administrados en la mediana central. El proyecto construiría nuevos puentes de cruce de calles a través de los carriles principales deprimidos como parte de la reconstrucción del corredor. Se muestran representaciones adicionales del proyecto en la página web.

DIAPOSITIVA 9 – Calendario y Proyección de Costo

La fecha anticipada para licitación de contratos del CORREDOR ESTE I-30 es el 2027. "Licitación" es cuando TxDOT notifica a la comunidad que TxDOT está listo para recibir ofertas para la construcción del proyecto. La construcción de un proyecto empieza después que el proceso de licitación esta completo. El costo total estimado de construcción es de aproximadamente $1.02 mil millones. El proyecto esta parcialmente financiado por construcción y la licitación no puede seguir hasta que los fondos sean identificados; sin embargo, la adquisición del derecho de vía puede proceder incluso si el proyecto no está financiado.

DIAPOSITIVA 10 – Revisión y Aprobación de Documentación Ambiental

Antes del 16 de diciembre, 2014, La Administración Federal de Carreteras (FHWA, por sus siglas en ingles), reviso y preparo documentos bajo La Ley Nacional de Política Pública Ambiental (NEPA, por sus siglas en ingles); sin embargo, el 16 de diciembre, 2014 TxDOT asumió responsabilidad de FHWA bajo un Memorándum de Entendimiento para la revisión y

aprobación asignada de documentos ambientales de NEPA. Este Memorándum de Entendimiento entre TxDOT y FHWA fue actualizado el 9 de diciembre, 2019.

Estudios ambientales fueron conducidos para el proyecto propuesto del CORREDOR ESTE I-30 para apoyar la recepción de la autorización ambiental en acuerdo con NEPA. Estos análisis ambientales son necesarios para identificar, evitar, y minimizar efectos en los Ambientes Humanos y Naturales.

Documentación técnica ambiental fue aprobada para su procesamiento posterior por TxDOT y fue coordinada con otras agencias públicas. Avisos para esta audiencia pública fueron anunciados en *Dallas Morning News, Al Dia, Dallas Weekly,* en la página de TxDOT.gov debajo de "Hearings and Meetings Schedule" y en www.keepitmovingdallas.com debajo de "Public Hearings/ Meetings". La Oficina de Información Pública de TxDOT también preparo un comunicado de prensa para anunciar la audiencia pública. El borrador ambiental de TxDOT está disponible para su revisión en la página de internet del proyecto.

DIAPOSITIVA 11 – Derecho de Vía

Aproximadamente 11 nuevos acres de derecho de vía y 3.7 acres de derecho de vía sobrante serian requeridos para el proyecto propuesto. El proyecto propuesto estaría sujeto a consideraciones sobre diseño final, requiere derecho de vía adicional y potencialmente el desplazamiento de cinco residencias, 12 edificios no residenciales y 12 carteleras. Toda la adquisición de derecho de vía sería completada de acuerdo con la Ley de Asistencia Uniforme de Reubicación y Políticas de Adquisición de Bienes Raíces de 1970, como es enmendado. Folletos, incluyendo dos libretas tituladas "Compra de Derecho de Vía" y" Asistencia para Relocalización", también están disponibles en la página de internet del proyecto. Estas

libretas contienen información detallada para informarle sobre sus derechos y dar información sobre el proceso de adquisición de derecho de vía de TxDOT.

DIAPOSITIVA 12 – Revisión Ambiental / Impactos Abordados

Documentación técnica para este proyecto aborda el impacto potencial ambiental que se ha identificado durante la ingeniería preliminar del proyecto propuesto. Las áreas potenciales de impacto incluyen natural, social y recursos culturales. Esta diapositiva muestra una lista de todos los recursos que fueron evaluados durante el análisis ambiental. Las siguientes diapositivas incluyen un resumen de aspectos claves de estos estudios que nos gustaría destacar para usted.

DIAPOSITIVA 13 – Revisión Ambiental

Basado en el resultado de un análisis de ruido de tráfico, las barreras de ruido serian factibles y razonables en siete ubicaciones en el corredor y barreras de ruido están siendo propuestas en estas ubicaciones, las cuales se muestran en las exhibiciones de esta audiencia pública y en la página de internet. Estas barreras de ruido están pendientes para evaluación adicional para la constructibilidad, y la decisión final se hará hasta completar el diseño del proyecto, evaluación de utilidades, evaluación de constructibilidad, y encuestas de todos los receptores beneficiados y receptores adyacentes a la barrera de ruido. La altura de la barrera de ruido varia de diez a doce pies de altura dependiendo de los análisis posteriores y los talleres de ruido.

Se encontró que propiedades que son recursos históricos son elegibles para protección debajo de la ley federal que se conoce como Section 4(f); sin embargo, el proyecto

propuesto potencialmente no tendría ningún efecto adverso en las propiedades históricas identificadas con excepción de las siguientes:

- El Edificio Cabell's en 710 Exposition Avenue
- Un edificio comercial en 820 Exposition Avenue
- Una residencia en 4937 Lindsley Avenue

TxDOT actualmente está proporcionando información sobre este proyecto a el Oficial de Estado de Preservación Histórica (SHPO, por sus siglas en ingles) y a grupos e individuos que fueron previamente identificados con interés en la preservación y recursos históricos vecindarios a lo largo del corredor del proyecto.

DIAPOSITIVA 14 – Línea de Tiempo del Proyecto

La línea de tiempo del proyecto se muestra en la pantalla. El periodo de comentarios públicos para la audiencia pública termina el viernes, 14 de julio, 2023. Después de esta audiencia pública, documentación será revisada por TxDOT para la autorización ambiental y aprobación de diseño. Si no surgen problemas importantes de esta audiencia que no se puedan abordar en un marco de tiempo razonable, autorización ambiental se anticipa para el final del 2023. Esto concluye la porción ambiental de esta presentación.

SLIDE 15 – Solicitamos sus Comentarios

Se aceptarán comentarios en varias formas como se muestran en la pantalla. Si quiere dejar un comentario verbal, por favor llamar al número listado. Comentarios deben ser recibidos o

sellados no más tardar del **viernes, 14 de julio, 2023,** para que sean parte del historial oficial de la audiencia pública.

Todos los comentarios sustantivos y preguntas serán completamente consideradas y respondidas en el historial del proyecto y harán parte del documento ambiental final para este proyecto propuesto. Este documento estará disponible para la revisión publica en línea en la página de internet del proyecto.

DIAPOSITIVA 16 – Gracias

Agradecemos sinceramente su participación e interés en el proyecto del CORREDOR ESTE I-30. Sus preguntas, comentarios y preocupaciones recibirán cuidadosa consideración. Gracias, esto concluye la presentación.

Project Partners Unified Statement

TECHNICAL WORKGROUP:

Texas Department of Transportation

City of Dallas

North Central Texas Council of Governments

Workgroup's Purpose: Unified approach to I-30 East Corridor goals by:

- Conducting inclusive, transparent, and collaborative public involvement;
- Working collaboratively with stakeholders;
- Evaluating recommendations from previous studies;
- Providing the best solution for: safety, reliability, and operability, that includes strategies to improve equity (e.g., access/connectivity);
- Producing defendable results, leading to a preferred alternative.

Workgroup Actions: Focus on sharing information on projects, such as:

- Planned TxDOT transportation alternatives in Dallas;
- City street network and design directives/guidelines;
- NCTCOG's regional traffic model and metro transportation plan.

The workgroup supports TxDOT's process and is committed to working together for the duration of the I-30 East Corridor Project.

Project Purpose and Need

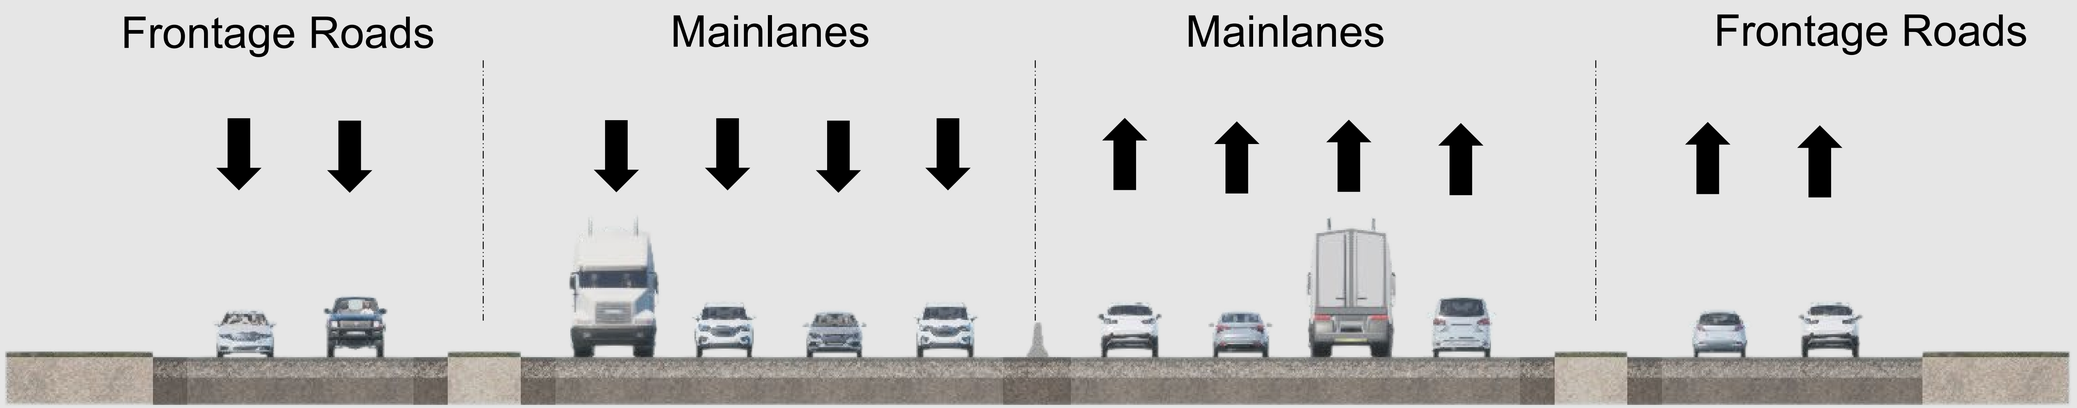
Project Purpose:

- The purpose of the proposed project is to:
  - meet current roadway design standards and current and future traffic demand;
  - reduce congestion and increase safety;
  - improve mobility and access for all modes of transportation;
  - and improve connectivity between neighborhoods on either side of I-30.

Project Need:

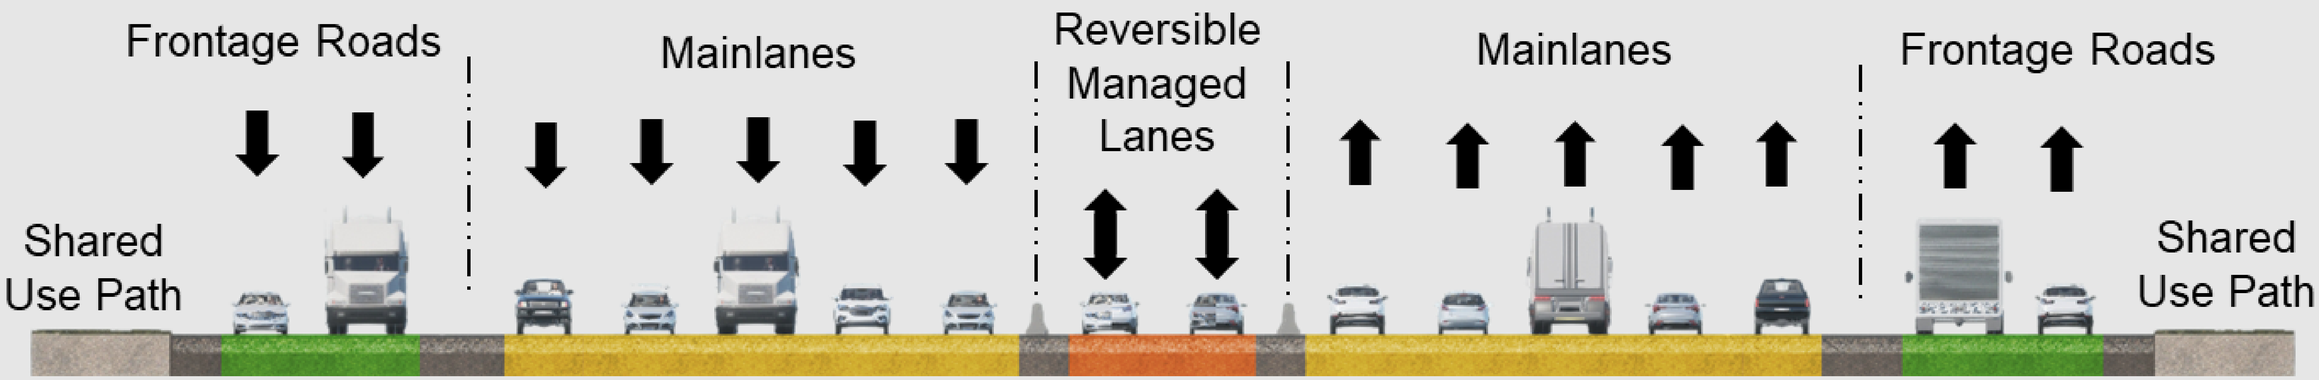
- The proposed project is needed because the I-30 segment from I-45 to Ferguson Road:
  - does not meet current design standards due to aging infrastructure;
  - does not meet current and future traffic demand, resulting in congestion;
  - does not accomplish local or regional goals of increased mobility, improved access for all modes of transportation, and improved safety along the I-30 corridor; and
  - provides limited options for vehicles and pedestrians to traverse I-30 resulting in a lack of connectivity between neighborhoods on either side of I-30.

Typical Sections



Existing Typical Section:

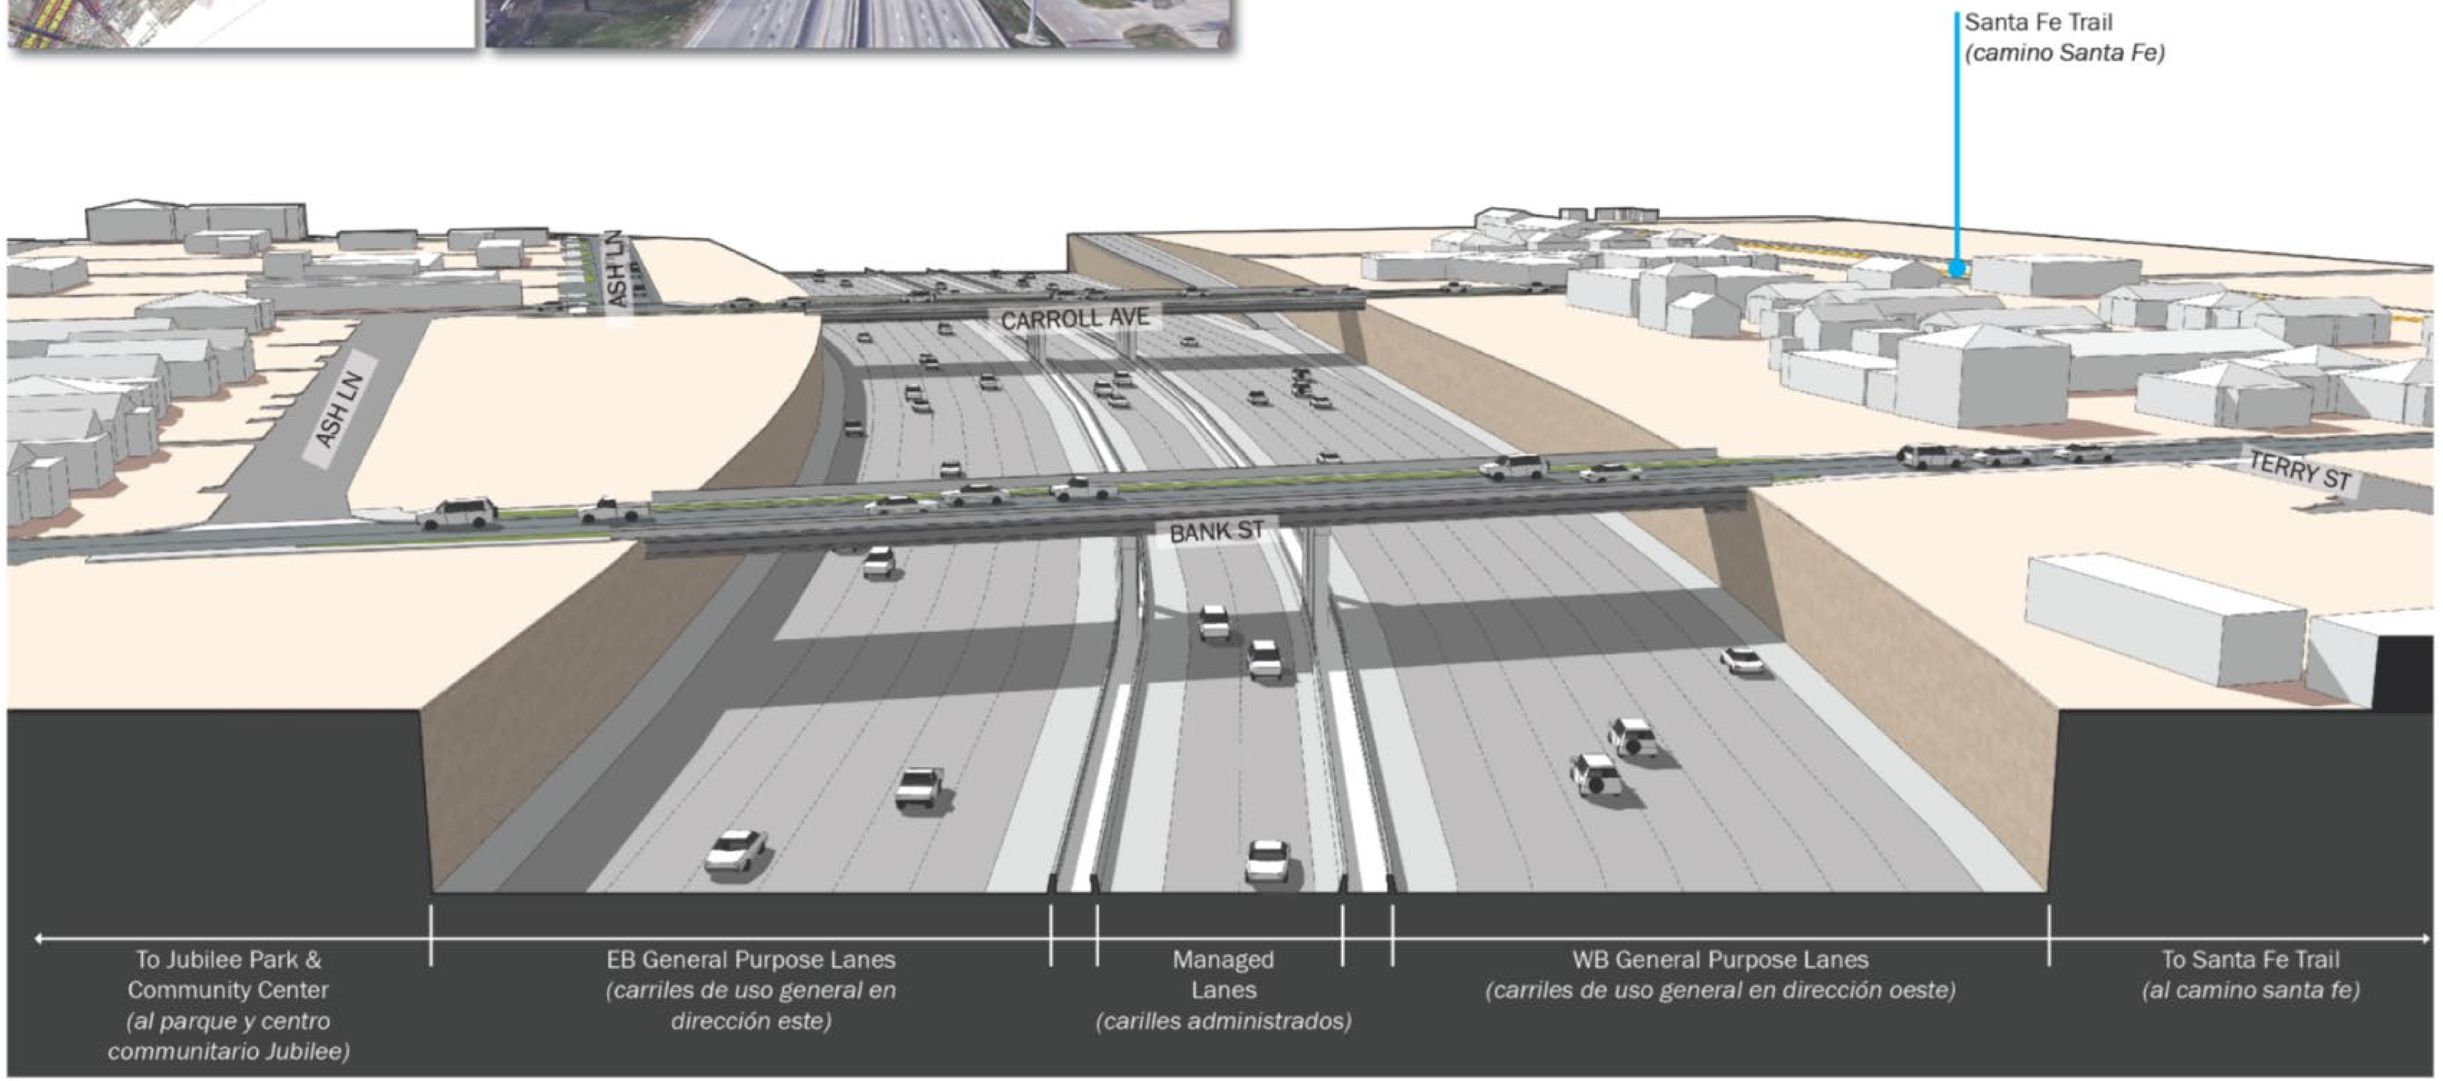
- Four existing mainlanes in each direction
- Existing contraflow HOV system during peak hours



Proposed Typical Section:

- Five proposed mainlanes in each direction
- Two to three frontage road lanes in each direction
- Two reversible managed lanes in the center median

Proposed I-30 Section of Bank Street



Proposed I-30 Section of Barry Avenue

Review and Approval of Environmental Document

National Environmental Policy Act (NEPA) Assignment to the Texas Department of Transportation

The environmental review, consultation, and other actions required by applicable Federal environmental laws for this project are being, or have been, carried-out by TxDOT pursuant to 23 U.S.C. 327 and a Memorandum of Understanding dated December 9, 2019, and executed by FHWA and TxDOT.

La revisión ambiental, consultas y otras acciones requeridas por las leyes ambientales federales aplicables para este proyecto están siendo o han sido, llevado a cabo por TxDOT – en virtud de 23 U.S.C. 327 y un Memorando de Entendimiento fechado el 9 de diciembre del 2019, y ejecutado por la FHWA y TxDOT.

Environmental Impacts Addressed

Traffic Noise

- *Preliminary noise mitigation analysis results: seven noise barriers are proposed.*
- *These noise barriers are pending further evaluation for constructability.*
- *Final decision to construct will be made after polling all benefited receptors and receptors adjacent to the proposed walls*
- *Noise barrier height may vary from 10 to 18 feet high depending on further analysis and noise barrier workshops.*

Cultural Resources & Section 4(f) Properties

- *Project would affect historical resources protected by Sec. 4(f):*
  - ***Cabell's Building at 710 Exposition Avenue,***
  - ***Commercial building at 820 Exposition Avenue, and***
  - ***Single-family residence at 4937 Lindsley Avenue.***
- *TxDOT is coordinating with the State Historic Preservation Officer (SHPO) and with historic preservation groups and individuals.*

Section 4(f) Process

Section 4(f) is a federal regulation set up to protect the use of public land in projects. This federal regulation requires TxDOT to inform and gather input from the public.

Section 4(f)

Section 4(f) of the U.S. Department of Transportation Act of 1966 stipulates that TxDOT cannot approve the use of land from:

- **Publicly owned parks or recreational areas**
- **Wildlife and waterfowl refuges**
- **Public and private historic sites**

Unless the following conditions apply:

There is no feasible and prudent avoidance alternative to the use of that land; and the action includes all possible planning to minimize harm to the property resulting from such use;

OR

TxDOT determines that the use of the property will have a de minimis, minimal impact.

Above: Properties with adverse affects under Section 4(f)

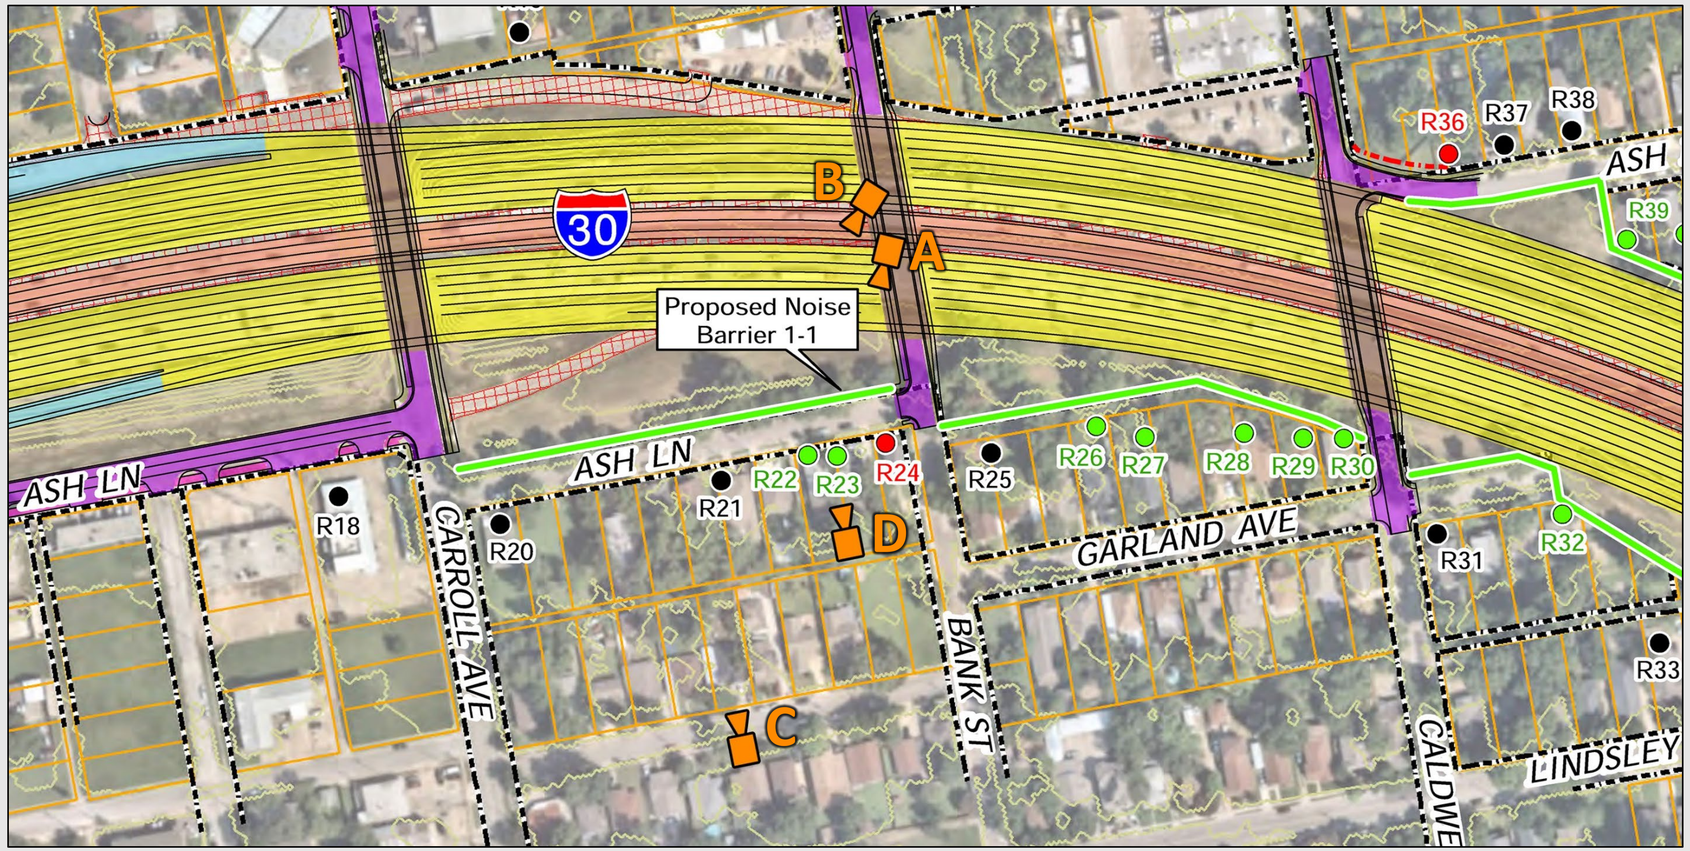
PROTECTED PROPERTIES

TxDOT determined the project will have an adverse effect on the following resources and is conducting individual Section 4(f) analyses:

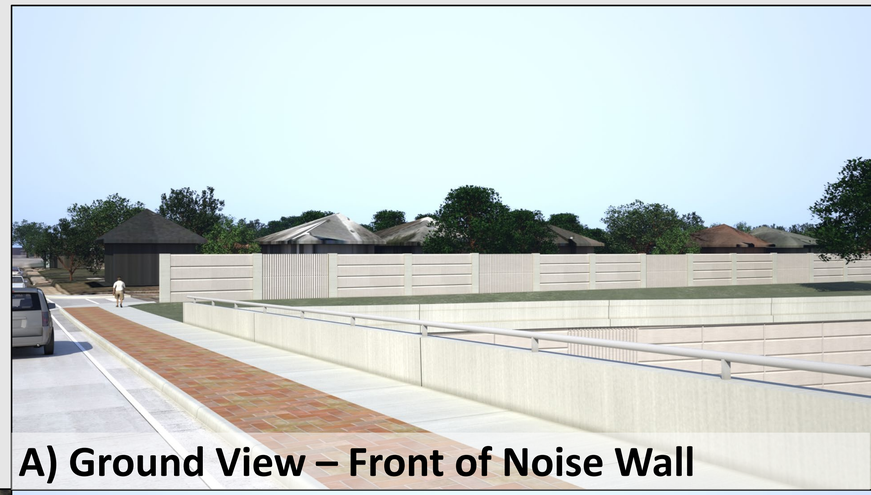
- *The **Cabell's Building at 710 Exposition Avenue**, which is both individually eligible and a contributing resource within the recommended Commerce/Exposition Historic District;*
- *A **commercial building at 820 Exposition Avenue**, within the recommended Commerce/Exposition Historic District, and;*
- *The **Craftsman bungalow at 4937 Lindsley,** within the recommended Mt. Auburn/Santa Fe Historic District.*

TxDOT will conduct and provide final 4(f) analysis documentation once the State Historic Preservation Office (SHPO) and other consulting parties have reviewed determinations of eligibility and effect under Section 106. Under Section 106, agencies must consider the effects of their actions on historic properties, defined as resources that are included in, or eligible for inclusion in, the National Register. Through consultation, TxDOT will identify ways to mitigate the project's adverse effects, as well as notify the Advisory Council on Historic Preservation about any potential adverse effects.

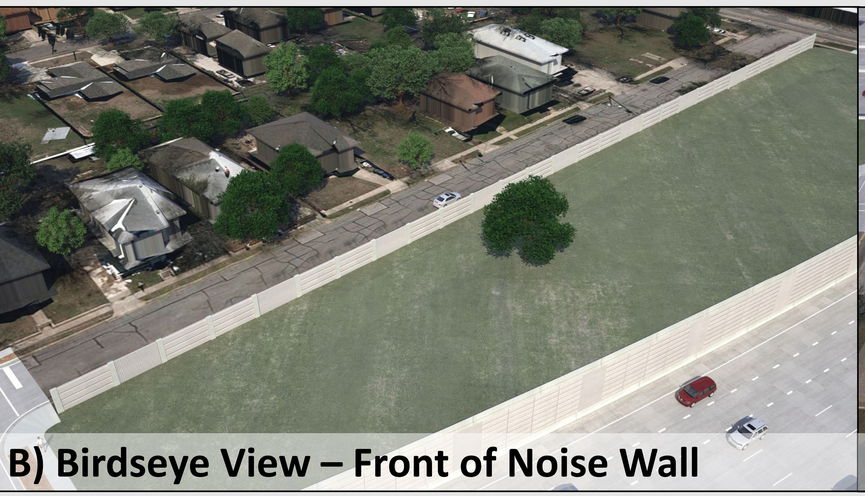
Conceptual Rendering Noise Wall 1-1



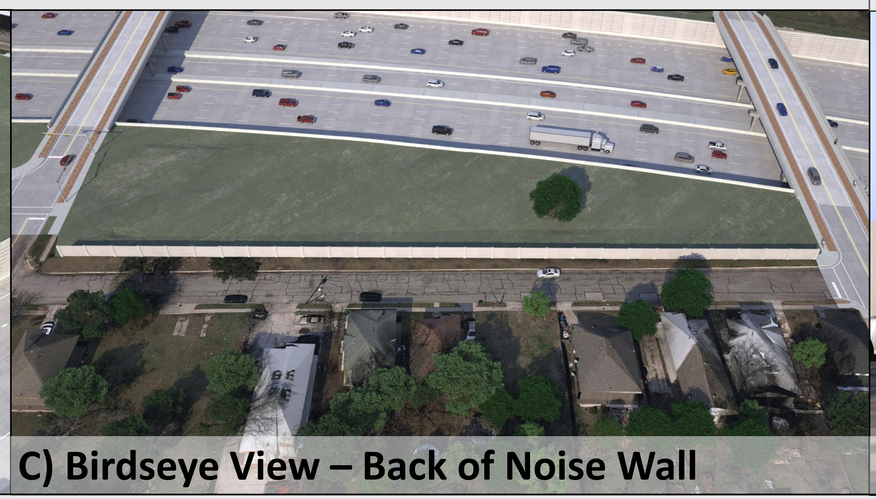
Note: These potential noise wall renderings are conceptual only. The exact location and looks of any potential noise wall will be further refined and voted on during future noise wall workshops.



A) Ground View – Front of Noise Wall



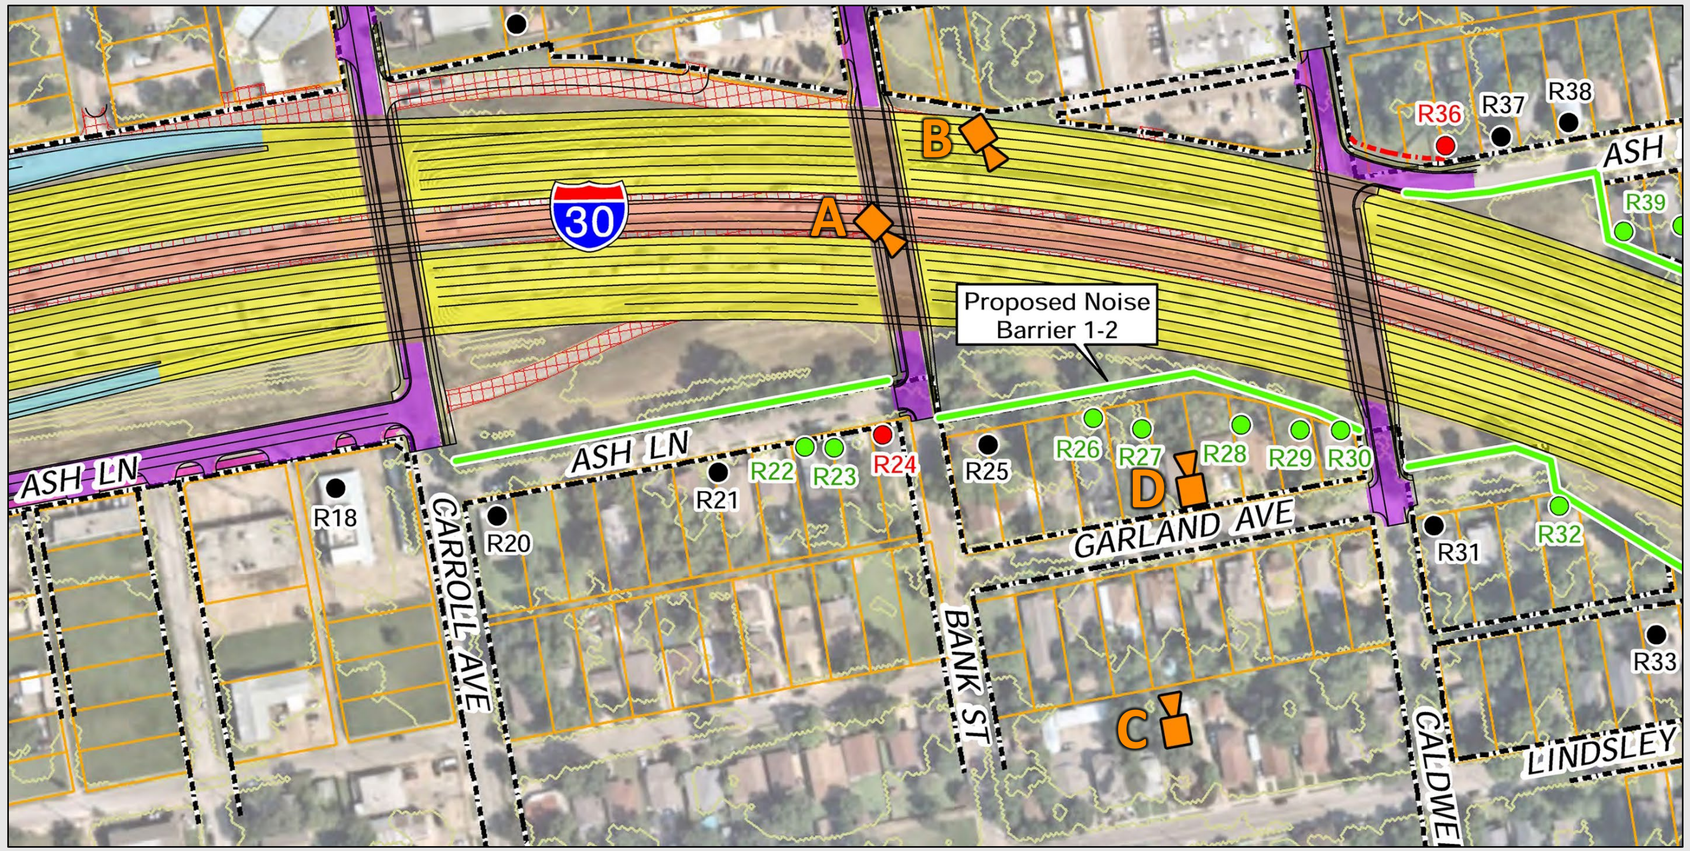
B) Birdseye View – Front of Noise Wall



C) Birdseye View – Back of Noise Wall

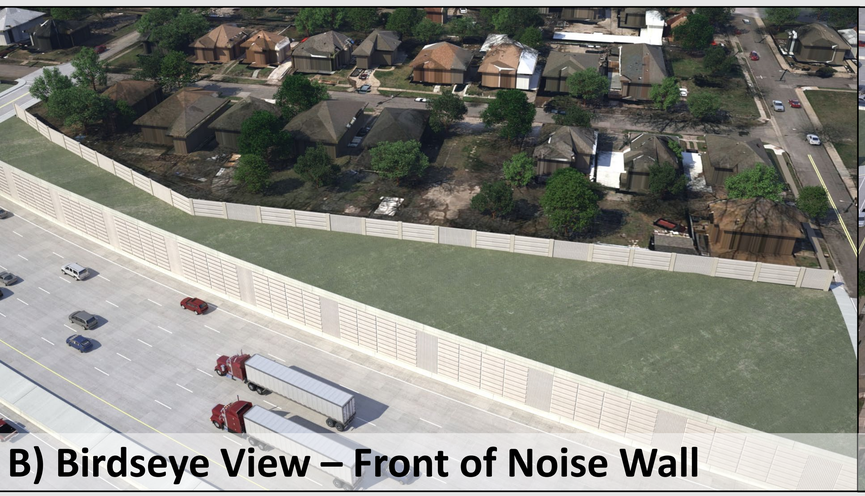
D) Ground View – Back of Noise Wall

Conceptual Rendering Noise Wall 1-2



Note: These potential noise wall renderings are conceptual only. The exact location and looks of any potential noise wall will be further refined and voted on during future noise wall workshops.

A) Ground View – Front of Noise Wall

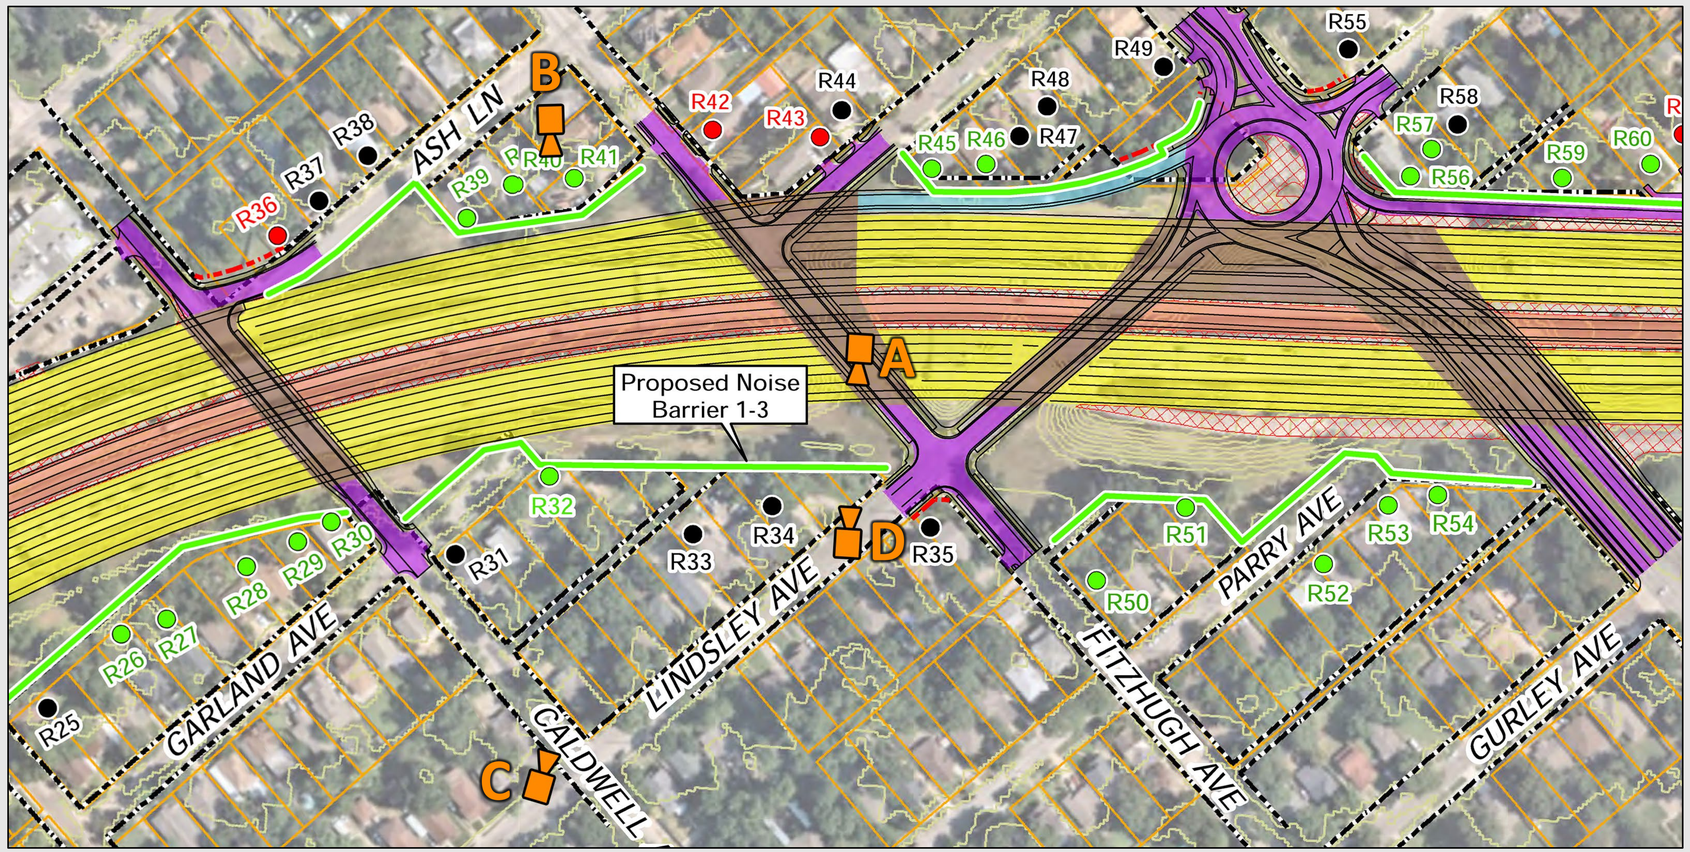


B) Birdseye View – Front of Noise Wall

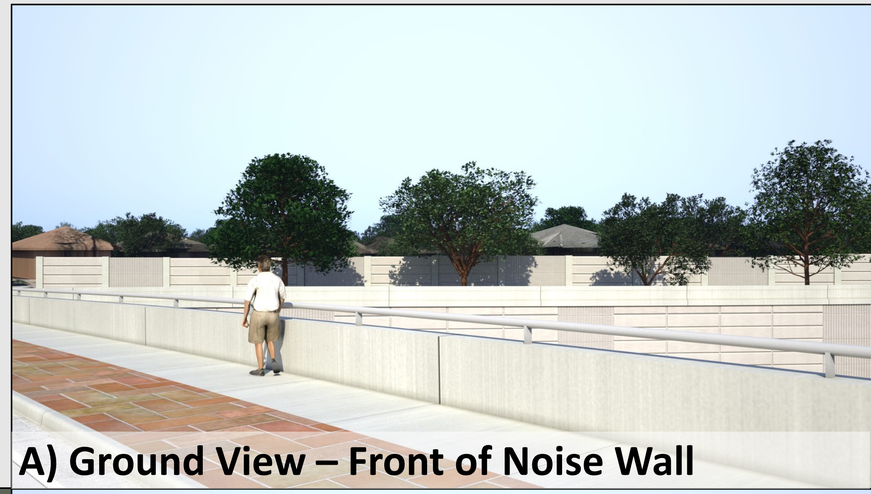
C) Birdseye View – Back of Noise Wall

D) Ground View – Back of Noise Wall

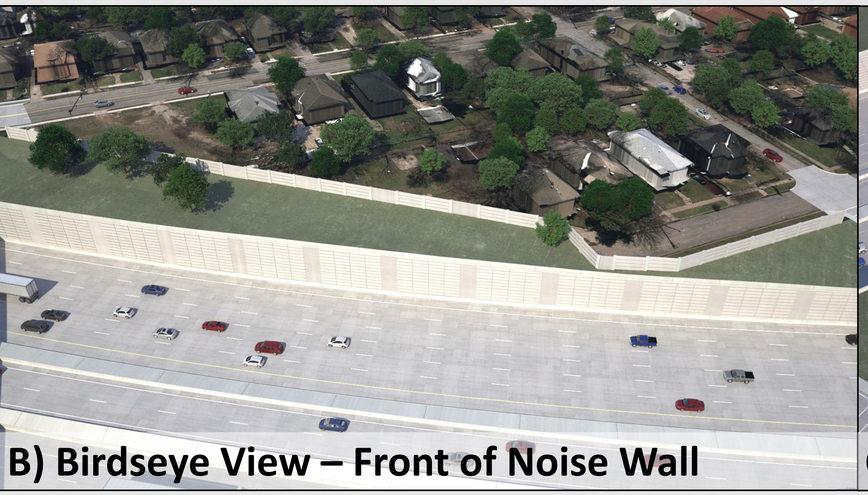
Conceptual Rendering Noise Wall 1-3



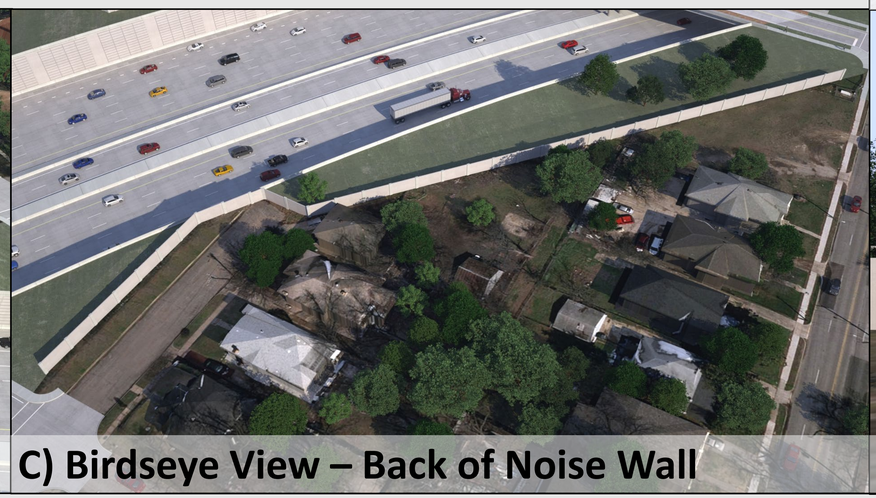
Note: These potential noise wall renderings are conceptual only. The exact location and looks of any potential noise wall will be further refined and voted on during future noise wall workshops.



A) Ground View – Front of Noise Wall



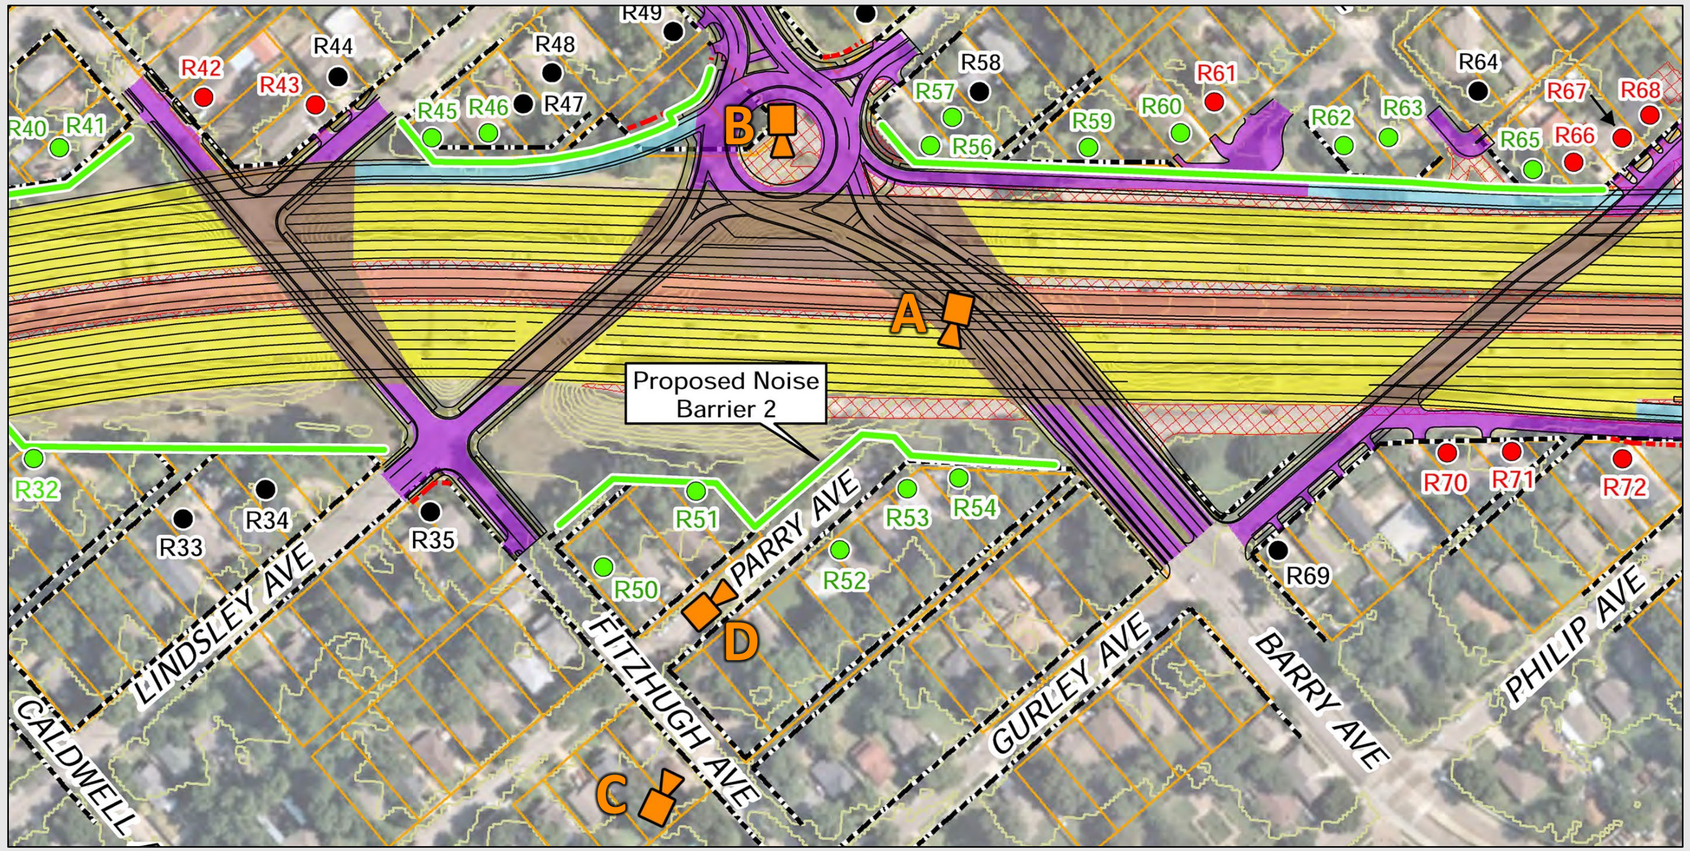
B) Birdseye View – Front of Noise Wall



C) Birdseye View – Back of Noise Wall

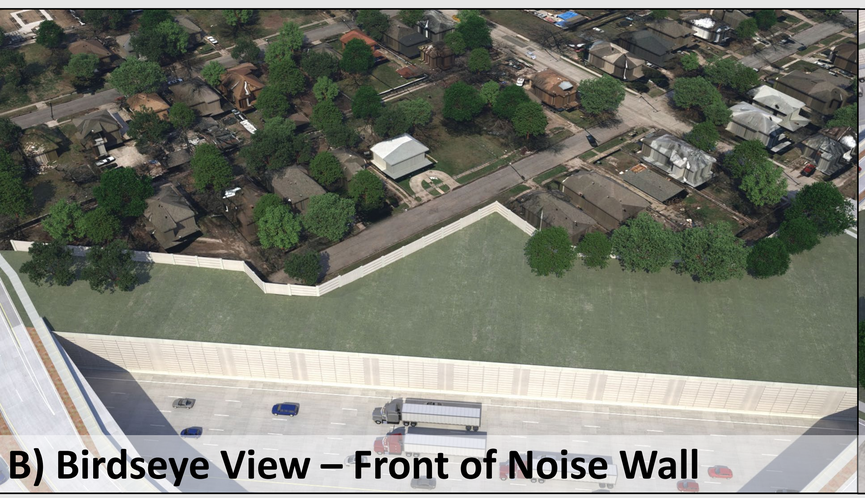
D) Ground View – Back of Noise Wall

Conceptual Rendering Noise Wall 2

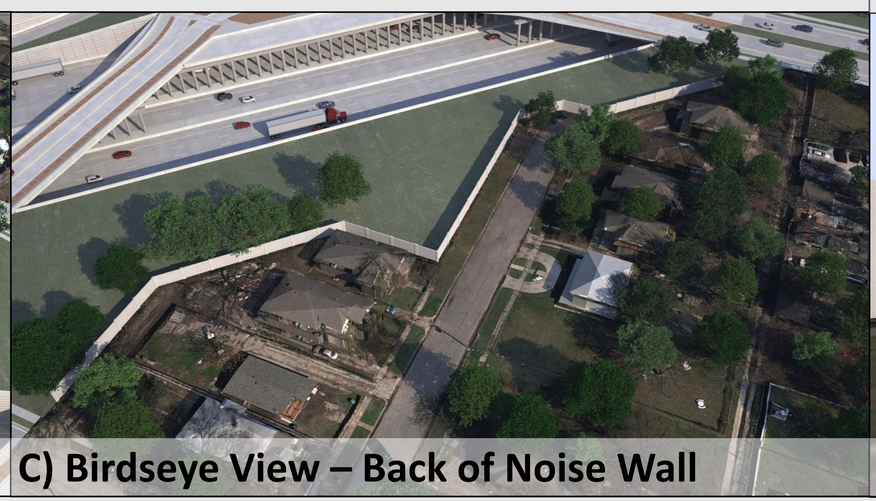


Note: These potential noise wall renderings are conceptual only. The exact location and looks of any potential noise wall will be further refined and voted on during future noise wall workshops.

A) Ground View – Front of Noise Wall



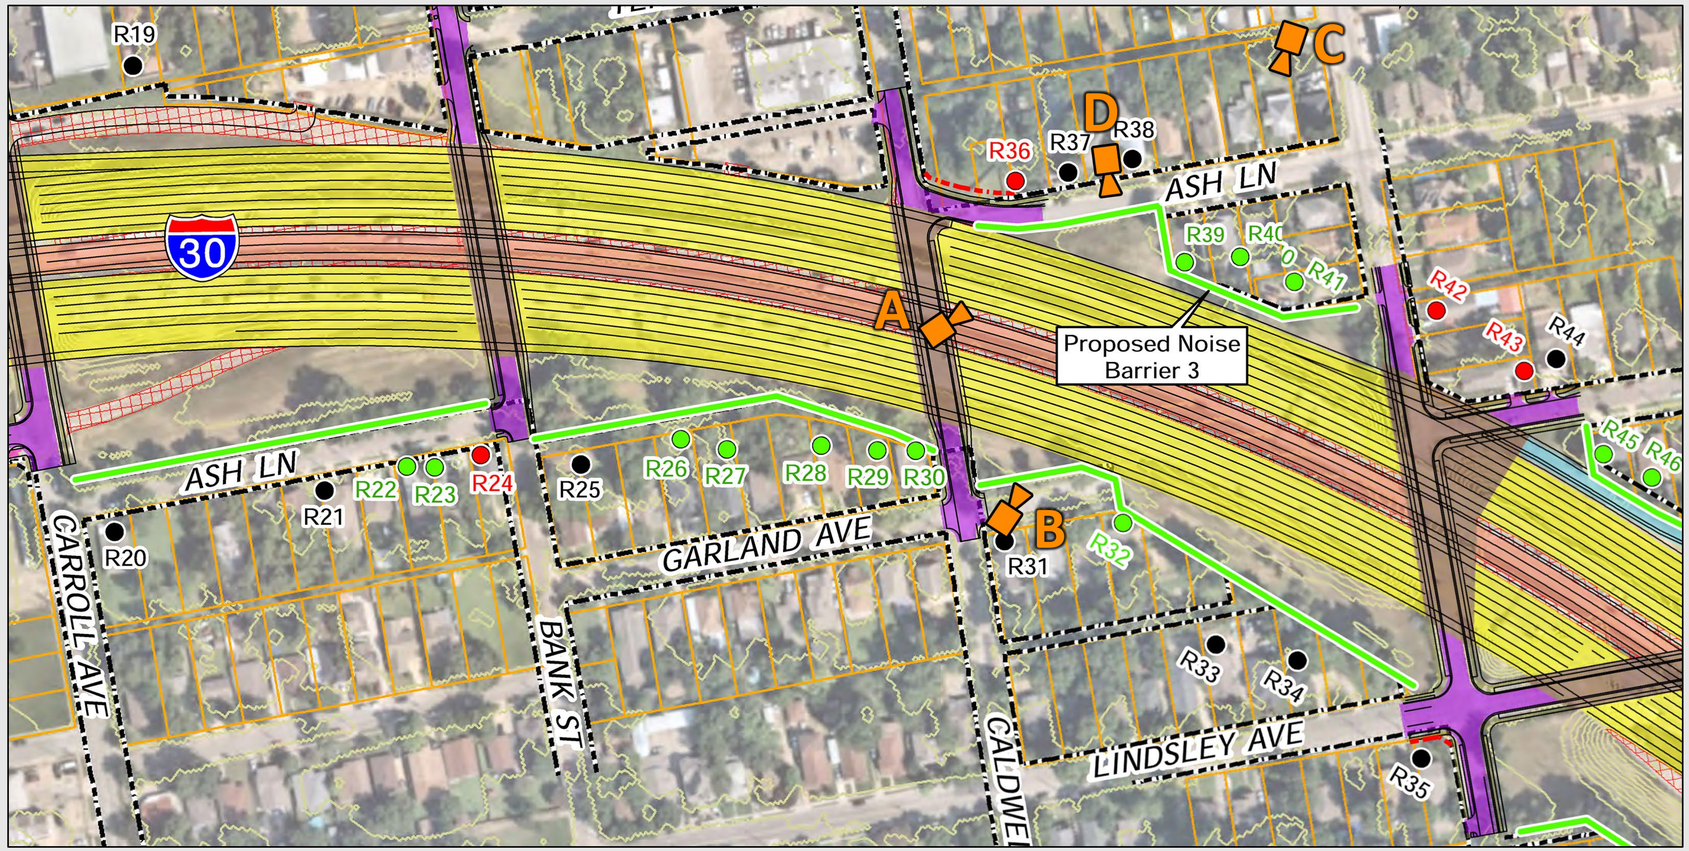
B) Birdseye View – Front of Noise Wall



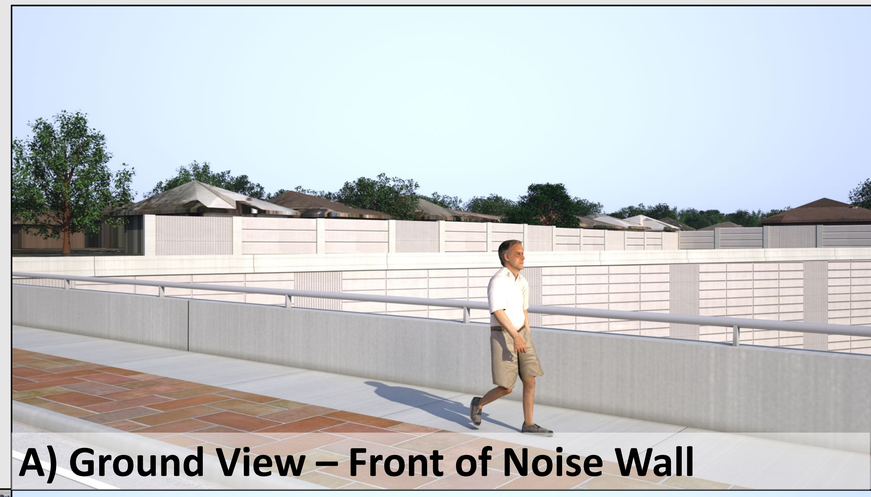
C) Birdseye View – Back of Noise Wall

D) Ground View – Back of Noise Wall

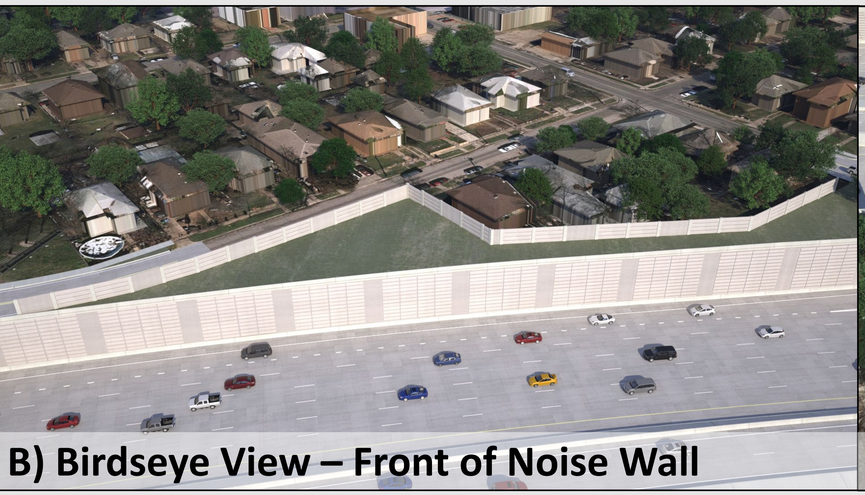
Conceptual Rendering Noise Wall 3



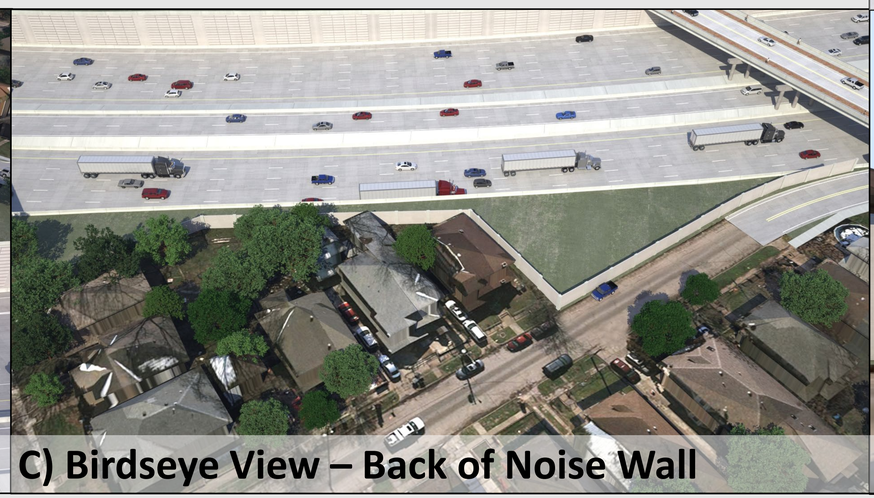
Note: These potential noise wall renderings are conceptual only. The exact location and looks of any potential noise wall will be further refined and voted on during future noise wall workshops.



A) Ground View – Front of Noise Wall



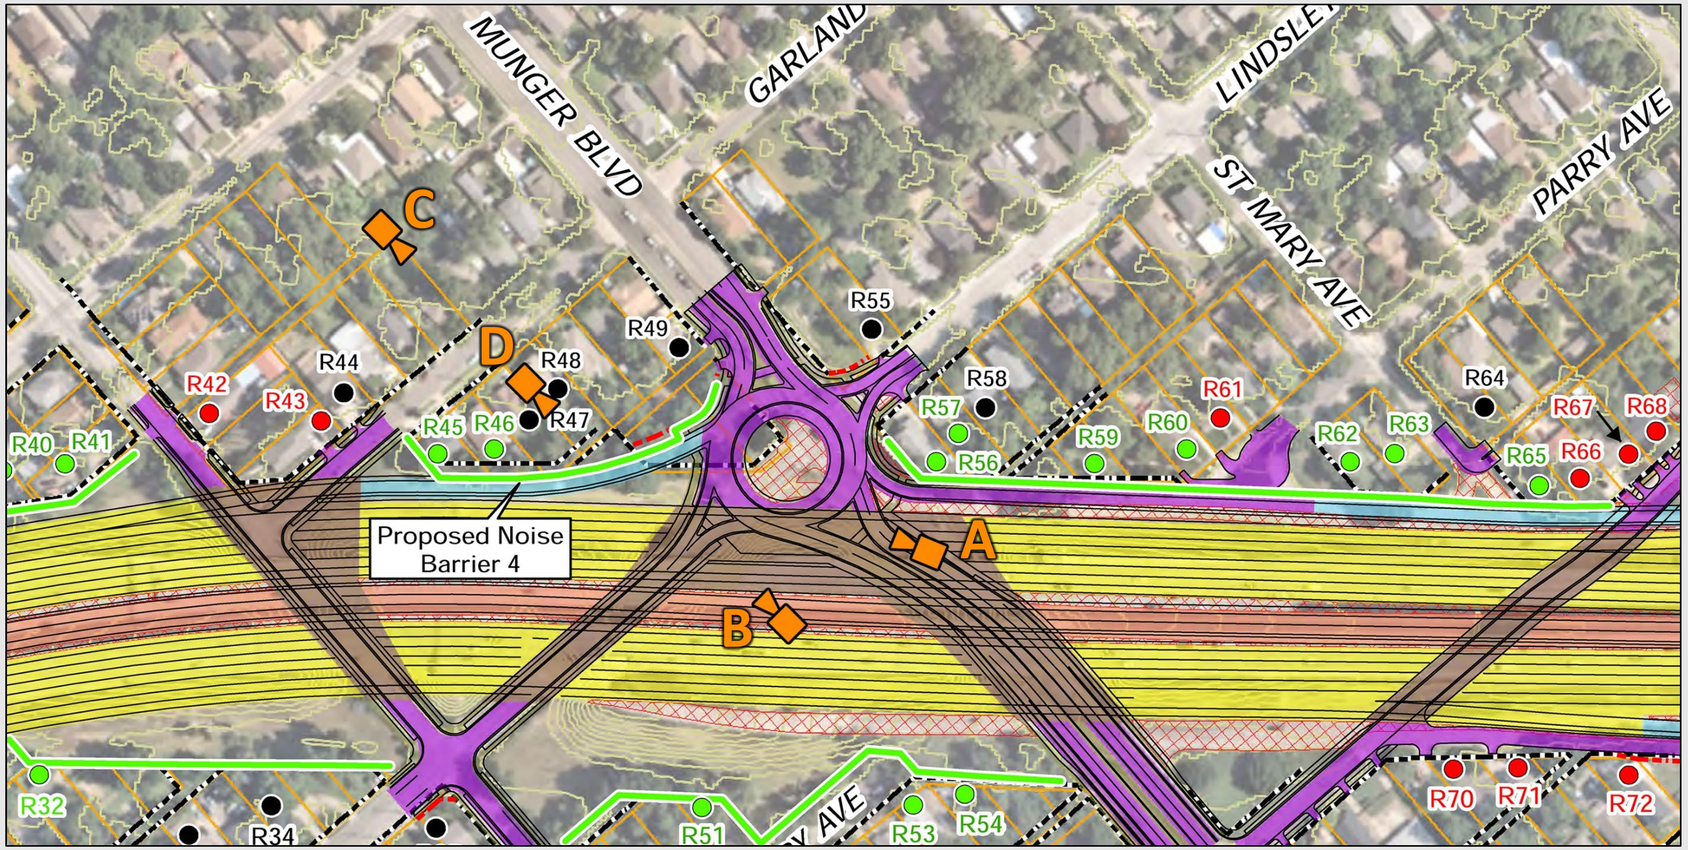
B) Birdseye View – Front of Noise Wall



C) Birdseye View – Back of Noise Wall

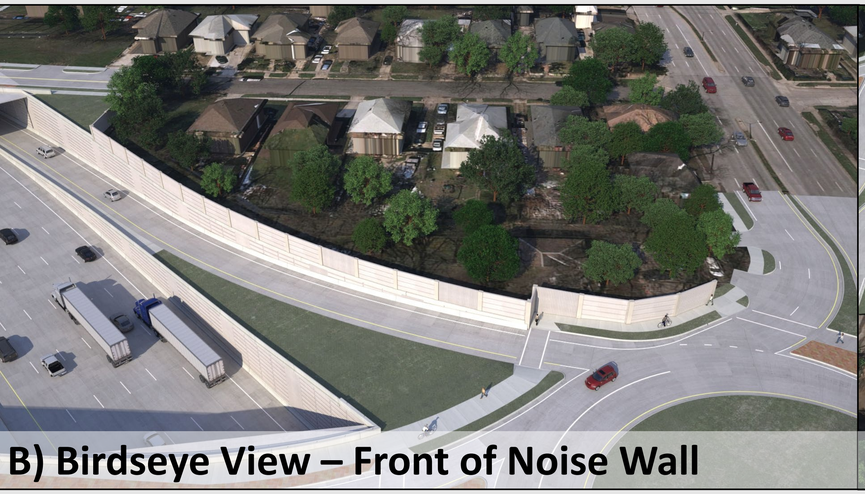
D) Ground View – Back of Noise Wall

Conceptual Rendering Noise Wall 4



Note: These potential noise wall renderings are conceptual only. The exact location and looks of any potential noise wall will be further refined and voted on during future noise wall workshops.

A) Ground View – Front of Noise Wall

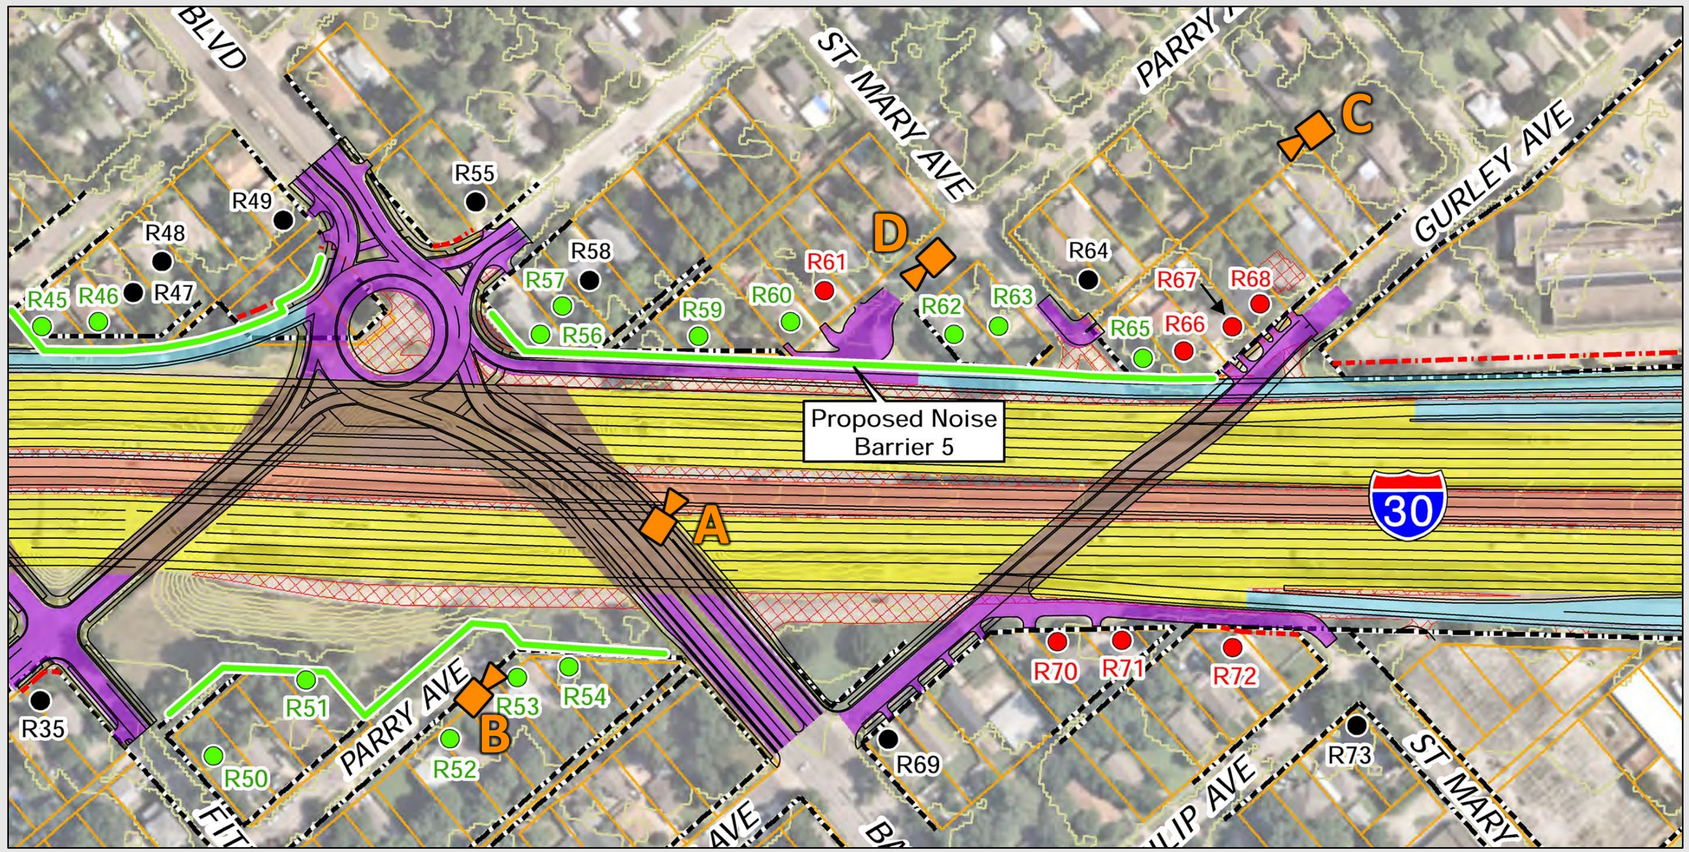


B) Birdseye View – Front of Noise Wall

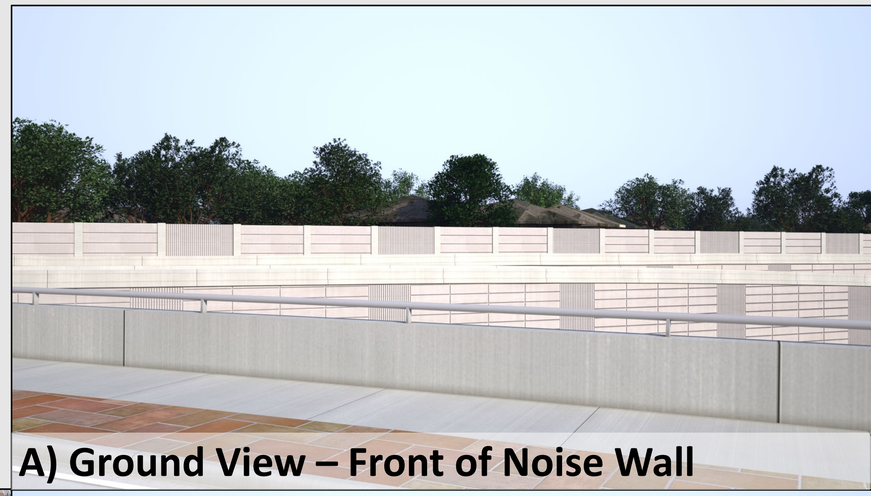
C) Birdseye View – Back of Noise Wall

D) Ground View – Back of Noise Wall

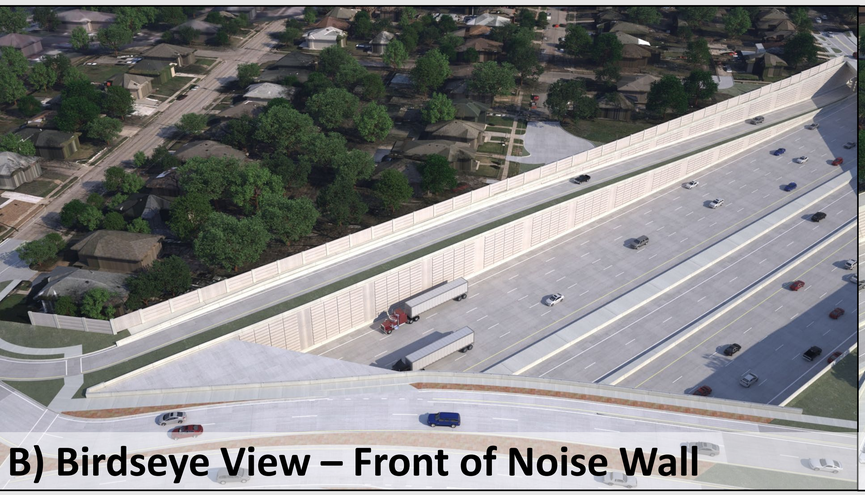
Conceptual Rendering Noise Wall 5



Note: These potential noise wall renderings are conceptual only. The exact location and looks of any potential noise wall will be further refined and voted on during future noise wall workshops.



A) Ground View – Front of Noise Wall

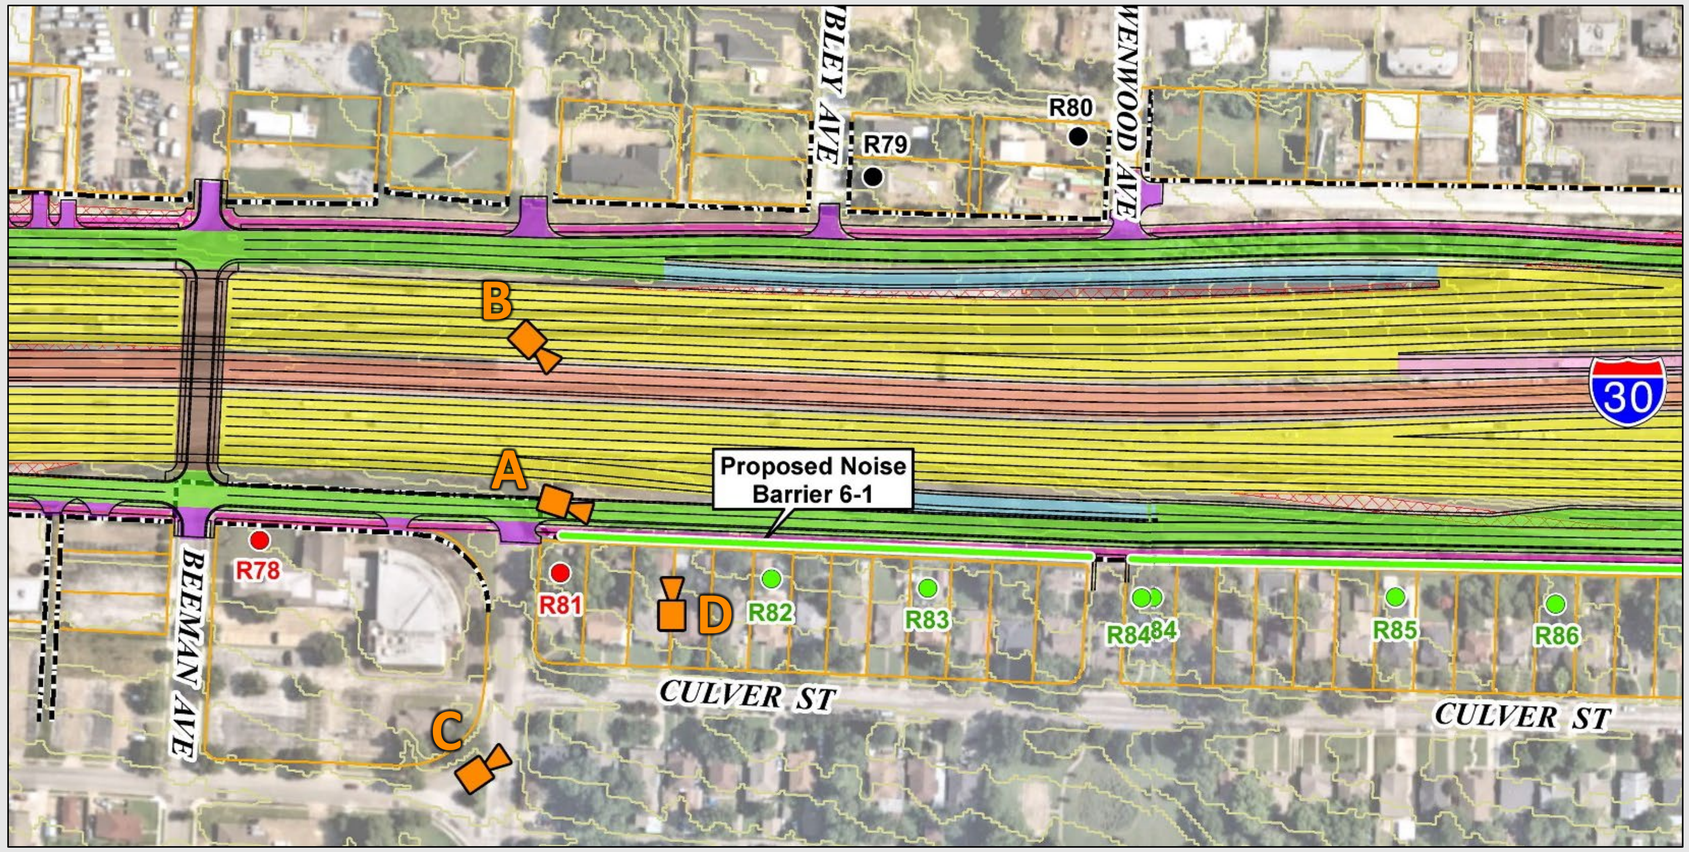


B) Birdseye View – Front of Noise Wall

C) Birdseye View – Back of Noise Wall

D) Ground View – Back of Noise Wall

Conceptual Rendering Noise Wall 6-1



Note: These potential noise wall renderings are conceptual only. The exact location and looks of any potential noise wall will be further refined and voted on during future noise wall workshops.

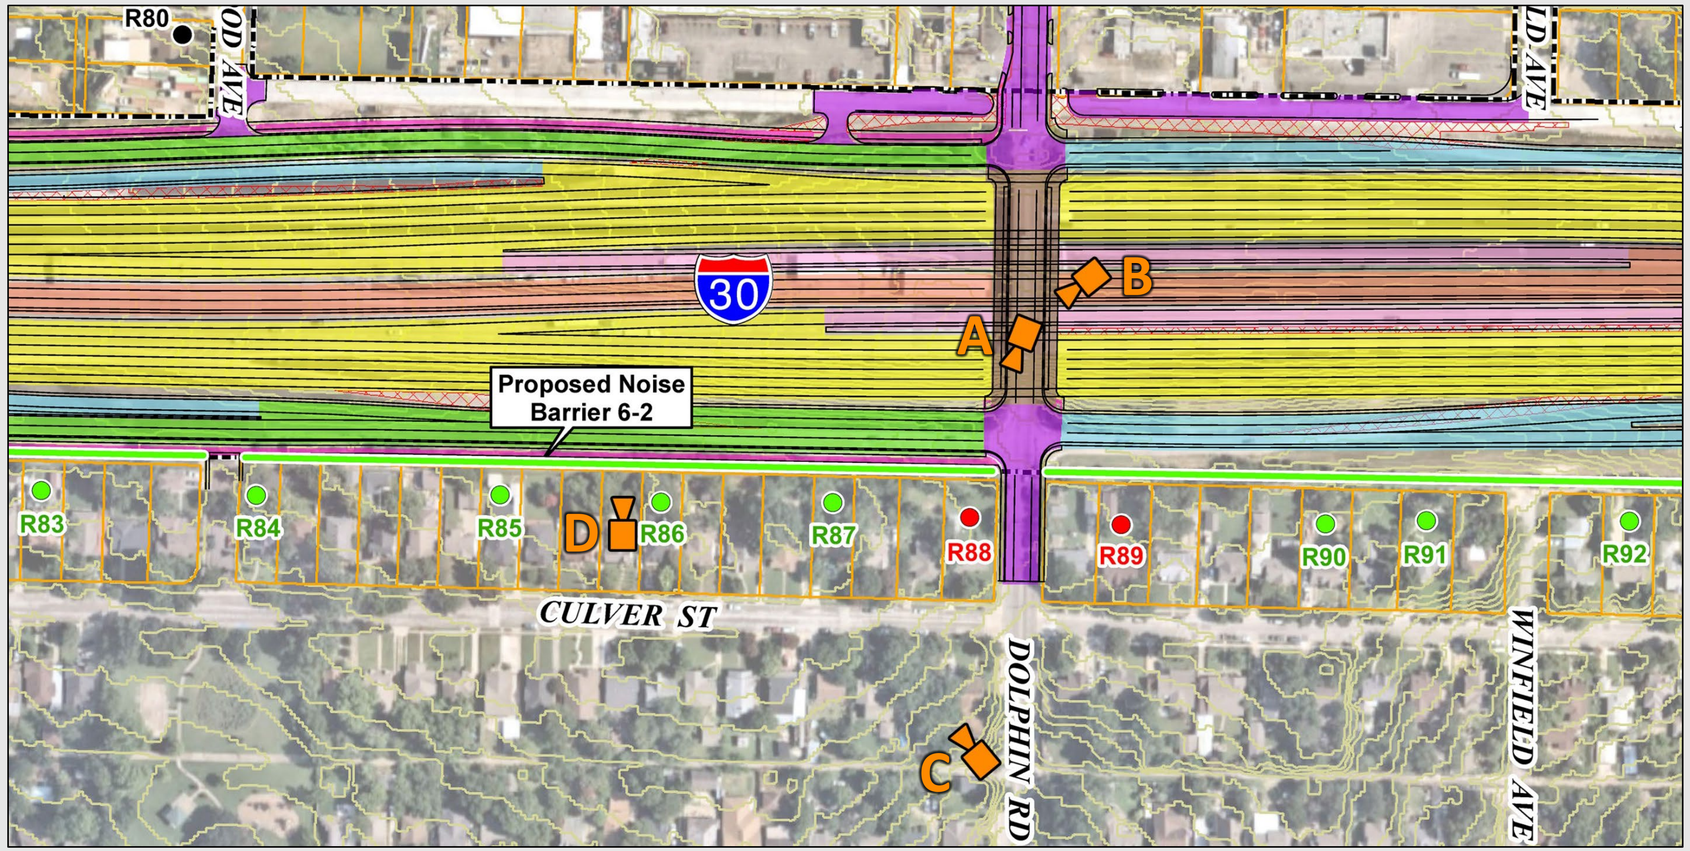
A) Ground View – Front of Noise Wall

B) Birdseye View – Front of Noise Wall

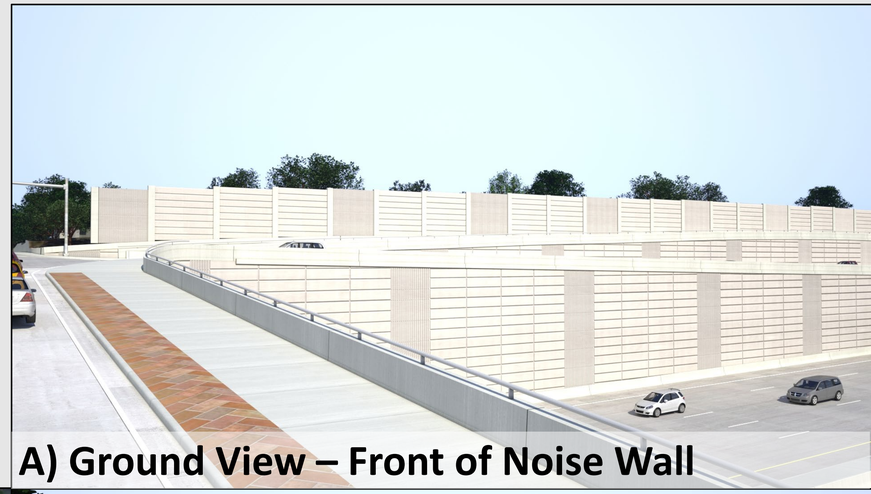
C) Birdseye View – Back of Noise Wall

D) Ground View – Back of Noise Wall

Conceptual Rendering Noise Wall 6-2



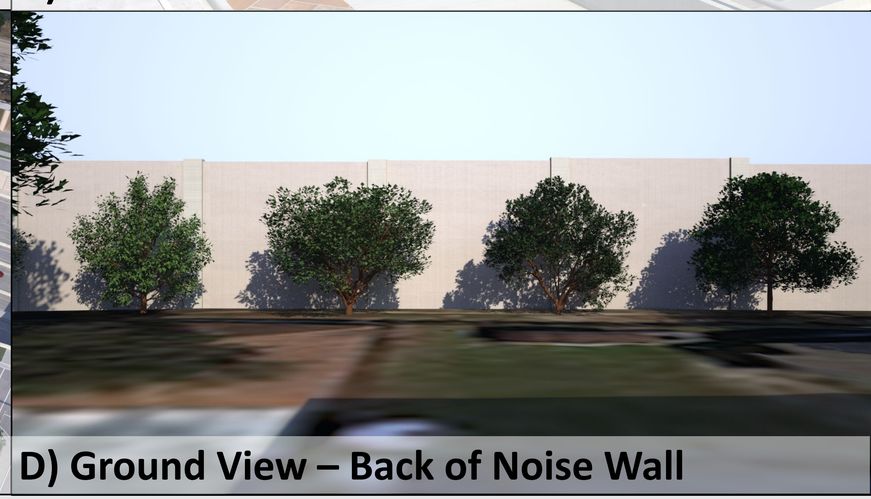
Note: These potential noise wall renderings are conceptual only. The exact location and looks of any potential noise wall will be further refined and voted on during future noise wall workshops.



A) Ground View – Front of Noise Wall

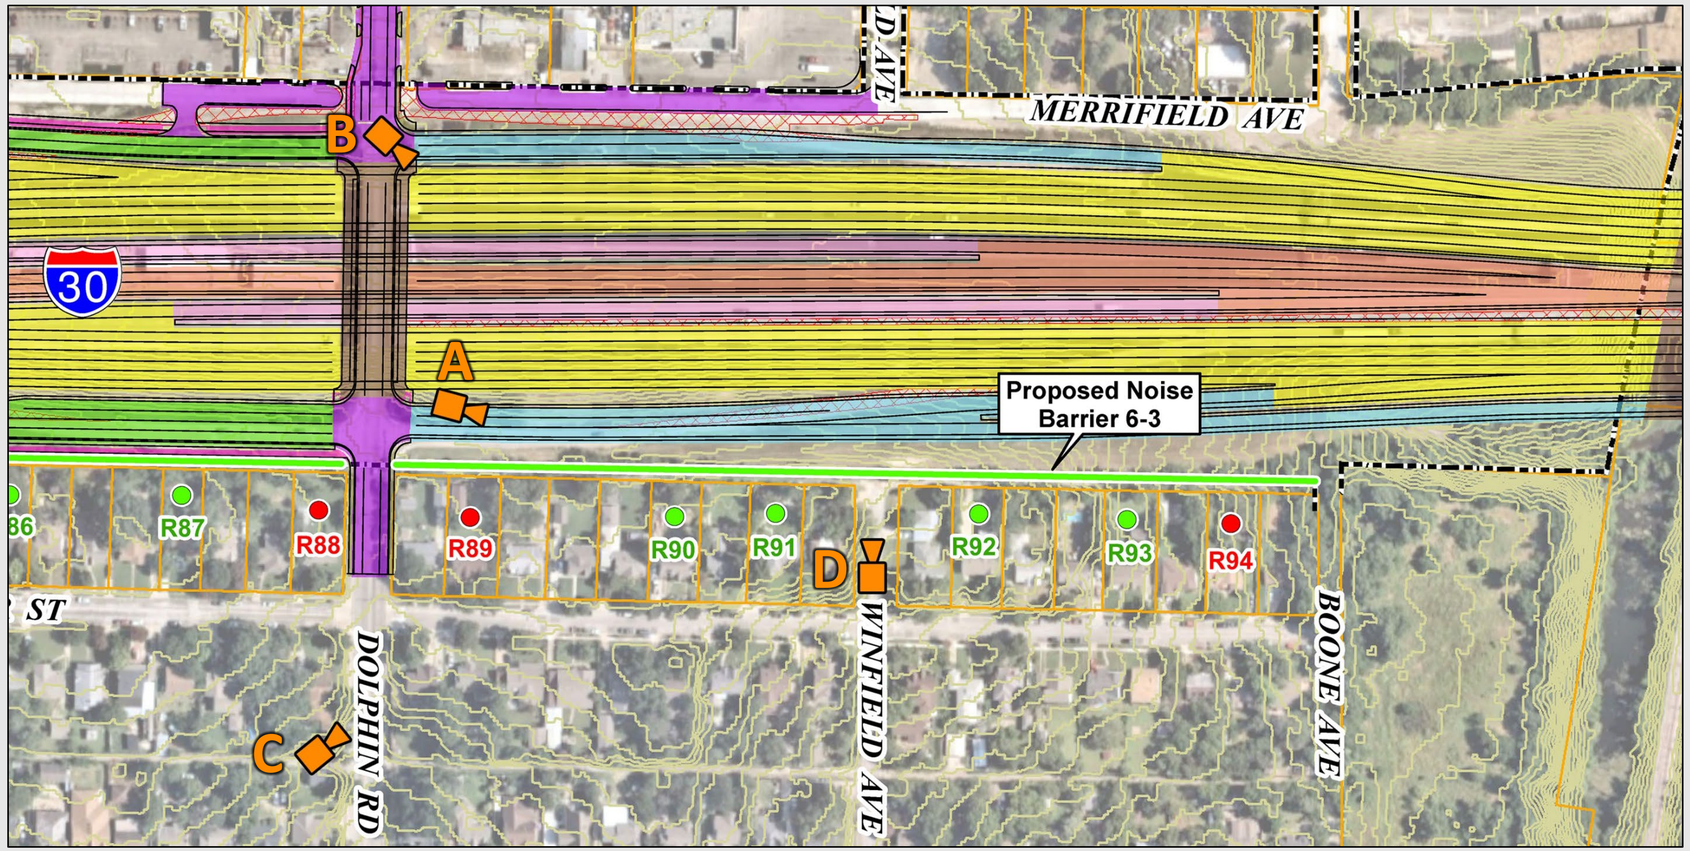
B) Birdseye View – Front of Noise Wall

C) Birdseye View – Back of Noise Wall

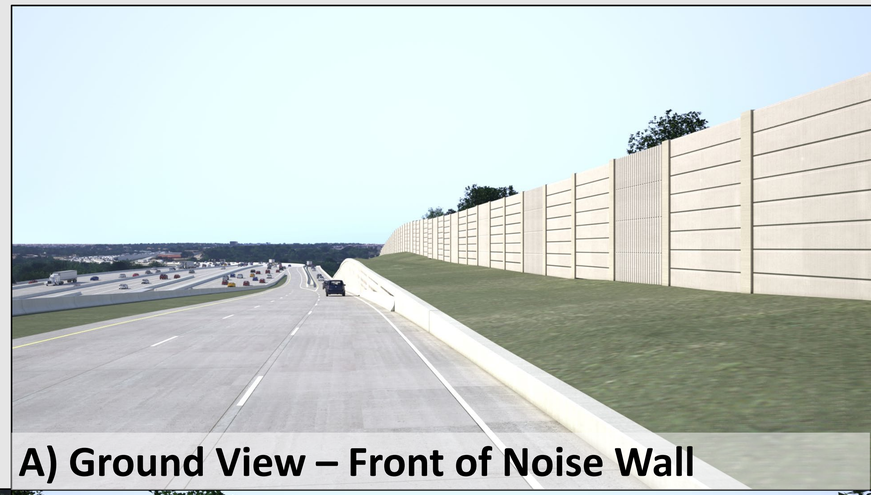


D) Ground View – Back of Noise Wall

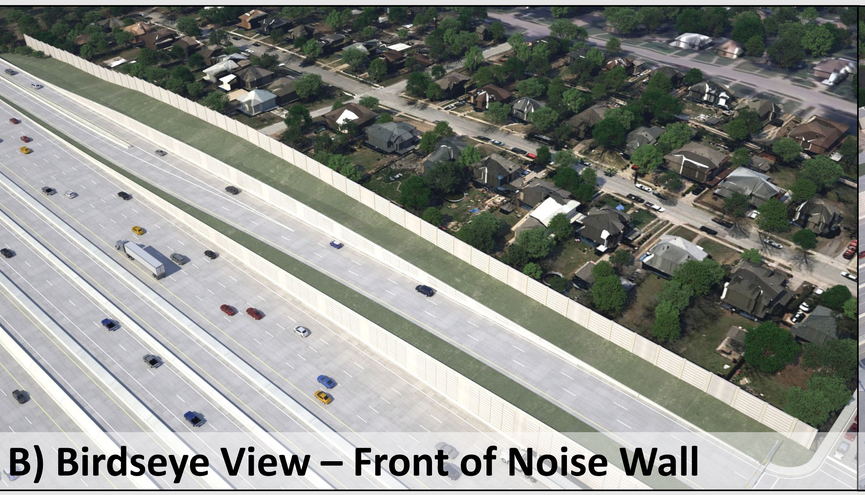
Conceptual Rendering Noise Wall 6-3



Note: These potential noise wall renderings are conceptual only. The exact location and looks of any potential noise wall will be further refined and voted on during future noise wall workshops.



A) Ground View – Front of Noise Wall

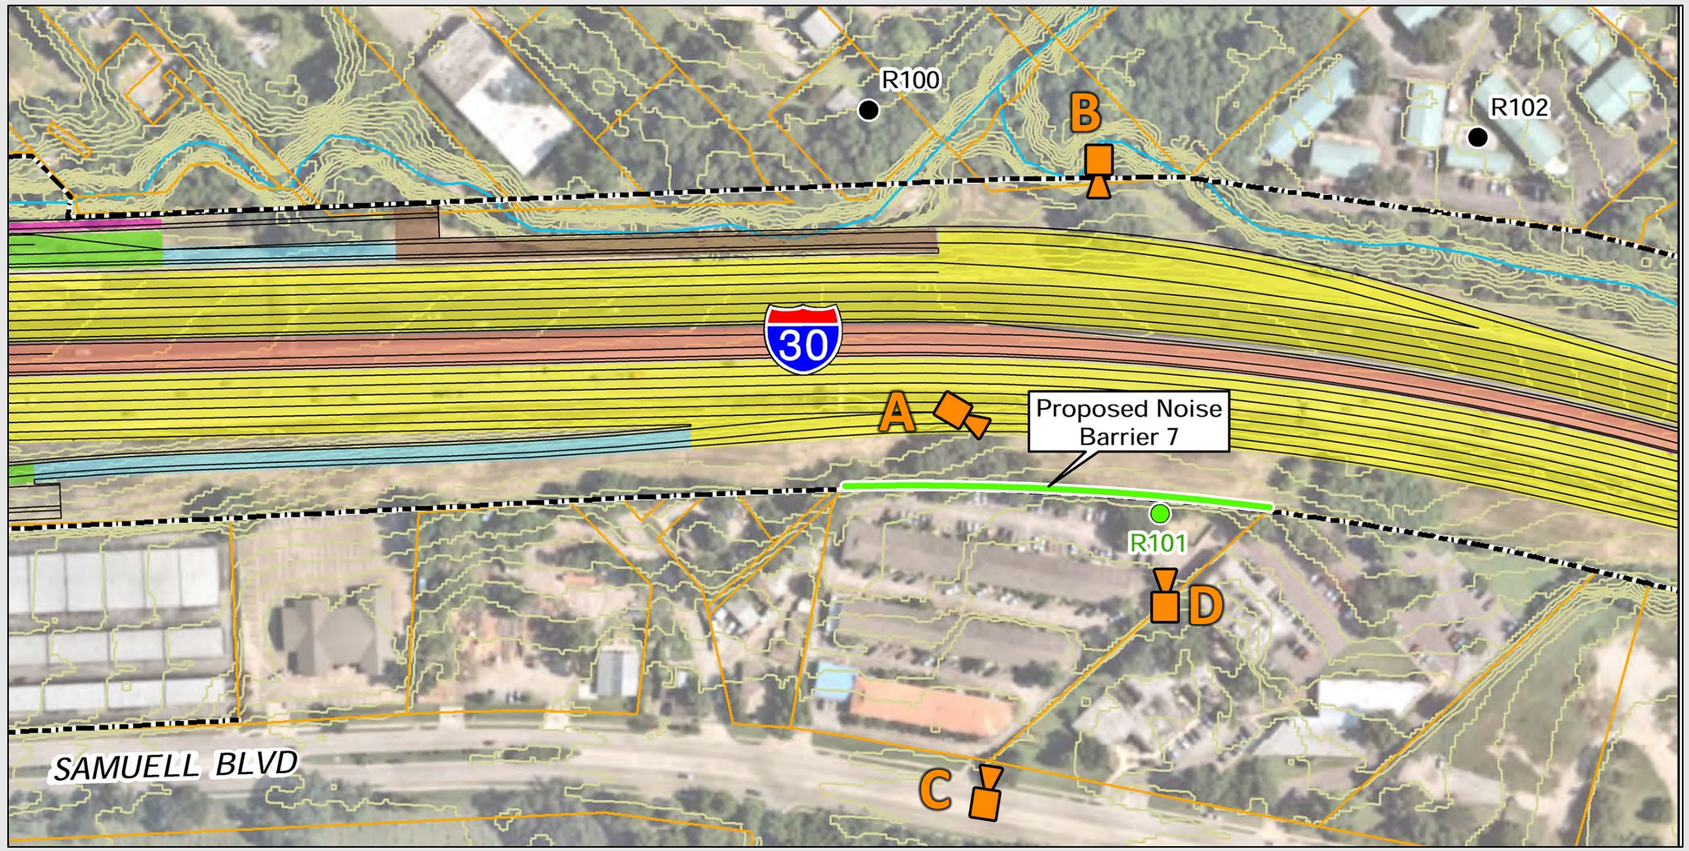


B) Birdseye View – Front of Noise Wall

C) Birdseye View – Back of Noise Wall

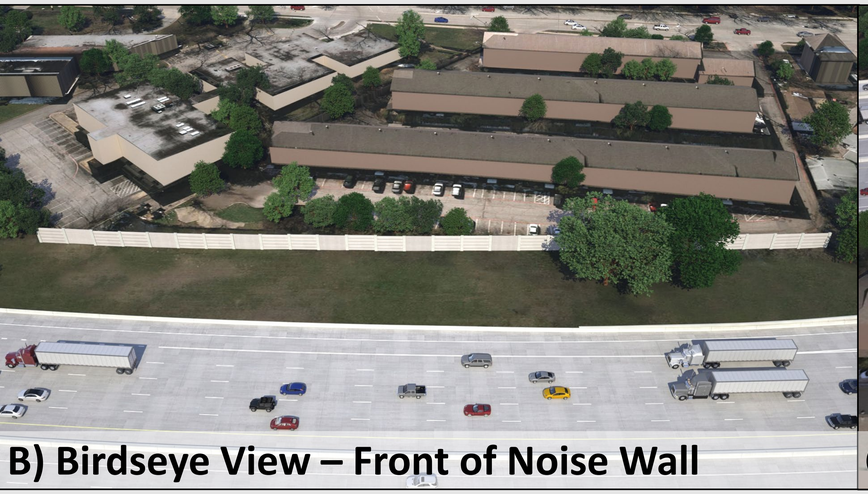
D) Ground View – Back of Noise Wall

Conceptual Rendering Noise Wall 7



Note: These potential noise wall renderings are conceptual only. The exact location and looks of any potential noise wall will be further refined and voted on during future noise wall workshops.

A) Ground View – Front of Noise Wall



B) Birdseye View – Front of Noise Wall

C) Birdseye View – Back of Noise Wall

D) Ground View – Back of Noise Wall

Project Schedule and Cost

*Anticipated Ready to Let Date**

2027

Estimated Construction Cost

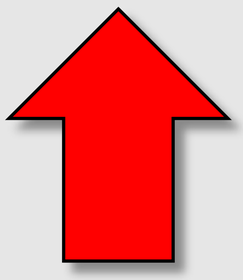
Approximately $1.02 Billion

**Project is partially funded for construction and cannot let until funding is identified; however, right of way acquisition can proceed even if the project is not funded for construction*

Project Timeline

The public comment period for the public hearing ends on July 14, 2023.

Alternatives Development with City of Dallas	Schematics and Environmental Studies & Public Meeting	Environmental Review And Finalize Schematic	Public Hearing	Environmental Clearance ROW Acquisition Begins	Anticipated Ready to Let
Spring 2019 to Fall 2021	Fall 2021 to Summer 2022	Fall 2022	June 29, 2023	Late 2023*	2027*



We are here

*Schedule is subject to change pending coordination and public involvement

How to Submit Your Comments

Please submit your comments regarding the project presented at this Public Hearing by using any of the four methods below by our deadline, **July 14, 2023.**
