Please provide us with your contact information.	Do you support the building of a freeway regardless of alignment?
Name	Open-Ended Response
Birgit Mendoza	No
Amy Nardi	Yes
Denise Broyles	No
Jenny Martin	yes
Andrea Evans	No, absolutely NOT!!!
Lana Casica	Yes!
Tony Keefer	No
Danna Demma	I do but not on 380
Brentney Hamilton	No
Janis Cable	No. Alignment must NOT disrupt economic impact of the cities with businesses along 380. Especially smaller communities like Lowry Crossing, Princeton & Farmersville.
Jenny Little	
Jennifer Potter	yes
Dina Davenport	Absolutely, but no cross roads into the Stonebridge development.
Gary Deese	Yes
Amanda Jackson	
Cindy Cash	No do not take our road frontage
Ashly Caserotti	yes
Matthew Jeanes	No
Heather Mordue	No
James Larkin	No.
Lance Casesotti	Yes
Christine Correa	
Andrew Mericle	No
Eric Fortner	Yes
Jackson Gamble	No
Joe Lichter	It is hard to interpret "regardless of alignment".

Please provide us with your contact information.	If US 380 is constructed as a freeway, which alignment do you prefer? (select all that apply)

Jerry Williams			Property Owner			Daily
Valerie Bixler			Property Owner			Daily

Please provide us with your contact information.	Do you have any concerns with the existing US 380?
Name	Open-Ended Response
Kathy Dellinger	Yes! It's dangerous! Speeds are too fast, it's too dark and residents are walking on the grass along the stretch...very dangerous. Sidewalks are necessary!
Kristen Hoar	yes - no median, cross traffic making turns, congestion, speed
Marjorie Grounds	Yes! Extremely heavy traffic; hundred of 18 wheeler trucks and rock-haulers; trucks hauling everything from construction equipment to concrete pillars for highway construction.
Rick	Too much traffic
Tommy M Lorell II	
James Peeeeeterson	To congested
R Campbell	Yes, how will my commute be affected during construction if this project gets approved?
Sean Sojack	It is dangerous and congested.
Heidi Lario	no
eddie marak	Yes, it is very congested especially around 75
John Powell	Yes - too much traffic, not enough lanes & turn lanes
James Olsen	Too small to handle growing traffic
Jim Murray	Some
Judith Gearheart	
Brad Swisher	Heavy traffic due to intersections.
Craig Fisher	Yes. It is a dangerous road in Princeton. Too many driveways have been permitted, and there are lots of congestion.
Jerry Williams	Congestion
Valerie Bixler	I always have. 380 has always been dangerous but this is probably due to careless drivers

Please provide us with your contact information.	If US 380 is congested, what alternative routes do you take?
Name	Open-Ended Response
Kathy Dellinger	I'm home full time...It's usually not too congested while I travel 380.
Kristen Hoar	lots of back roads but very inconvenient
Marjorie Grounds	Custer Rd., Virginia Pkwy., Lake Forest Dr.
Rick	Virginia
Tommy M Lorell II	
James Peeeeeterson	Virginia or Eldorado
R Campbell	I take the country road
Sean Sojack	Virginia and Eldorado
Heidi Lario	Virginia, Harden, Ridge
eddie marak	Depends on where I am going, but most of the time there are not alternate routes. If coming from the south I take White Ave, or Virginia/Louisiana. Some times I take Wilmeth if coming from the north.
John Powell	FM roads to Stacy
James Olsen	There are NO good alternatives
Jim Murray	
Judith Gearheart	Eldorado
Brad Swisher	Eldorado, Virginia
Craig Fisher	From Princeton I head south on farm to market roads into Parker, and on to Plano.
Jerry Williams	Virginia Pkwy
Valerie Bixler	back roads

Please provide us with your contact information.	What solutions would you suggest in the US 380 Corridor?
Name	Open-Ended Response
Kathy Dellinger	We need a slower speed limit from just before Harden to Custer on 380. If the speed limit can be 45 closer to 75 highway then it should be adjusted up to Custer because of all the subdivisions along that path. Turn in lanes... traffic is going so fast, most speeding, it gets to be very dangerous trying to turn into ones subdivision. More stoplights, they may be close together but it's been done in Denton. Definitely need more lighting, very difficult to see at night when it's so dark And you get the glare from the oncoming traffic, very dangerous. If we had sidewalks from Prosper to 75 we can definitely cut down traffic by walking.... especially now that 380 is getting shops and theaters, we can walk to those destinations!
Kristen Hoar	- By-pass!! not redoing the existing road - The bypass would not interfere with existing traffic - less homes affected by the by-pass - If the do fix existing road, they need to figure out traffic and the length of time for construction because it will be a nightmare!
Marjorie Grounds	The blue/yellow bypass would be the most beneficial to the construction traffic and the least disruptive to homes and neighborhoods.
Rick	Make 380 freeway with feeder roads
Tommy M Lorell II	
James Peeeeeterson	Build a freeway
R Campbell	Provide affordable mass transit (buses & bus stops in major inner city roads) Install safe turning lanes, perhaps by adding median barriers or raised medians. *Building a freeway, in my opinion will only cause increase in privat vehicles to ownership that would lead to more traffic congestion & even more noise & air pollution & maybe come with some vehicle ownership regulation?
Sean Sojack	
Heidi Lario	Finish the original grid plan.
eddie marak	A loop/bypass would be nice, to route the through traffic around and keep 380/University available for traffic specific to University
John Powell	more lanes no red lights - loop around current business areas
James Olsen	Blue
Jim Murray	
Judith Gearheart	Fix 380 on 380
Brad Swisher	Make it a Freeway
Craig Fisher	I think an alternate route is needed to relieve traffic on 380. The type of land use, and intensity of development along 380 in Princeton is not condusive to high speeds and large amounts of traffic. An alternative route should be preferred so the current 380 can become a local thoroughfare for Princeton, not a regional highway. If a freeway is built in the current right-of-way many neighborhoods and businesses would be adversely affected. Put the freeway north of Princeton. In the meantime dedicated left-turn lanes are needed in areas of intense development, like near Wal-Mart in Princeton. That suicide middle turn lane is terrible.
Jerry Williams	I'd like to see a loop north of 380 that connects somewhere in SB Ranch and Princeton. Loop should pass close to Trinity Falls and North of New Hope
Valerie Bixler	- double deck through traffic from Hunt Co to Denton on top - finish the Outer Loop first - You need to think farther ahead in the future. By the time you begin any of these proposed projects they will be obsolete - taking traffic off of the main/existing 380 & feeding it back on farther down the highway will only cause congestion where the intersections converge - focus on the people who currently live here - not on those who may move here in the future

Please provide us with your contact information.	Do you support the building of a freeway regardless of alignment?
Name	Open-Ended Response
Kathy Dellinger	As long as it is not in a McKinney residential area!
Kristen Hoar	yes to some degree
Marjorie Grounds	No!
Rick	Yes
Tommy M Lorell II	
James Peeeeeterson	yes
R Campbell	NO
Sean Sojack	Yes
Heidi Lario	no
eddie marak	Yes, it needs to be done. I know there are a lot of residents who purchase what they thought of as country home, but progress is inevitable. They do not want a route running through their neighborhoods, but have no concerns for the residents currently affected by the continuing of 380 congestion.
John Powell	yes
James Olsen	no
Jim Murray	yes
Judith Gearheart	No bypass
Brad Swisher	Yes
Craig Fisher	No. The alignments cutting through intensely developed areas through McKinney and Princeton are not good. Those areas should be by-passed.
Jerry Williams	Yes
Valerie Bixler	No, I am agaist any and all bypasses. These impact neighborhoods that have been established, some for decades. Think about the people who already live here.

Please provide us with your contact information.	If US 380 is constructed as a freeway, which alignment do you prefer? (select all that apply)

Please provide us with your contact information.	Do you have any concerns with the existing US 380?
Name	Open-Ended Response
James Grounds	Too much truck traffic.
Randy Smith	Too much traffic for the existing lanes. Very dangerous
James Grounds	
Scott S. Bechthold	safety - people driving to fast - little law enforcement
Denise Caillouet	
Jimmy Estes	Traffic too great for highway
John MacDonald	Too busy with dangerously high speeds through McKinney.
Richard & Lucia Morgan	No.
J. Barroso	Yes, we need to do something with that much slow traffic and solve those many accidents.
Brian Fielding	Yes. Traffic congestion w/ poorly synchronized lights without traffic sensors.
Tom Stevens	yes
Monika Arris	Traffic is terrible. Takes to long to get through. Accidents seem to be more frequent. High speed road without center median is scary.
Vicki Stevens	yes - too much traffic and not safe
Doug Garber	There is heavy traffic but it's not the worst road around.
april morris	No
Jim McGuinness	There are a lot of traffic lights; more overpasses/underpasses should be built.
Andrew Sisson	yes, congestion
William McIntosh	No
James Rogers	
Liz Brence	No.
Edgar Zuniga	Yes, too much traffic. Intersection of 380 and US75 is quite a mess during rush hours
Meredith Pellegrini	Not wide enough for existing traffic. Too many lights/ Stops and Starts.
Erin L. Sisson	Traffic speeds & entering traffic
Jeff Mundt	Yes - main concern/traffic seems to be Community Dr. to Hwy 5
Leyda Mendez	congestion
Kevin Arnold	Too many stoplights, speed limit too slow
Chad & Lindsay Sande	Of course! Too congested, people drive too fast and pass on medians & shoulders

Please provide us with your contact information.	If US 380 is congested, what alternative routes do you take?
Name	Open-Ended Response
James Grounds	Lake Forrest or Hardin to Virginia Pkwy
Randy Smith	I do not have alternatives to get to McKinney, Frisco, Plano
James Grounds	
Scott S. Bechthold	New Hope Rd & other back roads
Denise Caillouet	
Jimmy Estes	Keep 380 in present location
John MacDonald	Ridge to White to Redbud or Ridge to Wilmeth.
Richard & Lucia Morgan	121 Sam Rayburn Tollway
J. Barroso	No choice at all!
Brian Fielding	Airport Road, Hwy 5
Tom Stevens	Monte Carlo
Monika Arris	Virginia, but I'll eventally have to get on 380. It can't always be avoided.
Vicki Stevens	Monte Carlo
Doug Garber	982 & Parker Rd
april morris	Virginia or rockhill road
Jim McGuinness	I avoid congested times, but really have not noticed that much congestion.
Andrew Sisson	none
William McIntosh	
James Rogers	
Liz Brence	Custer Road, Bridge, Hardin Hwy 75
Edgar Zuniga	Virginia
Meredith Pellegrini	Typically FM546
Erin L. Sisson	none
Jeff Mundt	White or Wilmeth
Leyda Mendez	Virginia, El Dorado
Kevin Arnold	In most cases, no other feasible alternatives
Chad & Lindsay Sande	Any I can find, typically Bridgefarmer to McKinney or Back Rds to New Hope

Please provide us with your contact information.	What solutions would you suggest in the US 380 Corridor?
Name	Open-Ended Response
James Grounds	The blue/yellow bypass would help. We live ONE street off of US 380 so we are very concerned with outcome.
Randy Smith	I would prefer the Yellow route first, Blue route 2nd, Red route 3rd.
James Grounds	
Scott S. Bechthold	Yellow Alignment
Denise Caillouet	
Jimmy Estes	Enlarge 380 in place
John MacDonald	Make 380 a highway akin to 121.
Richard & Lucia Morgan	Leave "as is".
J. Barroso	More lanes, 1 lane just for heavy trucks - clear and bigger signs so driver don't book others cause can't see the small signs. Special side lane for broken cars or were police stop someone and like that they don't block traffic.
Brian Fielding	
Tom Stevens	
Monika Arris	Add Center median, widen road, add service roads to decrease lights on a high speed road
Vicki Stevens	
Doug Garber	My first suggestion would have been to plan this a decade ago. If you can't support traffic without disturbing the property of long time land owners then you should forget the new road and work with the road we have
april morris	
Jim McGuinness	Fewer lights and more restricted access with overpasses and underpasses.
Andrew Sisson	take or build on the 'yellow' route or expand existing 380 route on the south side (pink). The Red or Blue routes run directly over my home and business. I would be forced to find a new home.
William McIntosh	Tucker Hill's position is NO to all alignments due to potential loss of homes and devaluation of our neighborhood as a whole and adverse environmental and health implications. Notwithstanding our recommendation, if any freeway construction occurs on the existing 380 footprint adjacent to Tucker Hill, it must impose minimal right-of-way and noise pollution by means of cantilevered access lanes; a depressed throughway; and sound barriers. Also, if any bypass option is chosen, it must be located as far west of Tucker Hill as possible; west of future Stonebridge; not on or bordering Tucker Hil
James Rogers	
Liz Brence	- Leave it alone - Make it 2 levels in places to avoid taking out homes/businesses. - Make a loop going north along Custer Road
Edgar Zuniga	Overpass or underpass at the 75 HWY intersection
Meredith Pellegrini	Either making it a freeway, or creating a freeway that is close/parallel
Erin L. Sisson	Build yellow, pink or green proposed expansion/alternate routes.
Jeff Mundt	- Please don't cut Erwin Park in half! - East of Airport property is better than Airport Road
Leyda Mendez	To use high level bridges in the most congested intersections.
Kevin Arnold	I like the freeway bypass concept. Having driven many, many times between McKinney and Denton, I question why any possible feeeway improvements wouldn’t extend into Denton County.
Chad & Lindsay Sande	Better medians More police presence in ticketing

Please provide us with your contact information.	Do you support the building of a freeway regardless of alignment?
Name	Open-Ended Response
James Grounds	NO!! We live too close to US 380 now. They need to build a sound barrier wall on the South side at the Kensington Stonebridge subdivision.
Randy Smith	Yes. The freeway is the fastest and safest method to solve congestion
James Grounds	
Scott S. Bechthold	No
Denise Caillouet	
Jimmy Estes	380 needs to be enlarged in place
John MacDonald	Yes!
Richard & Lucia Morgan	No
J. Barroso	
	Not necessarily - where possible freeway - where not possible graded/separate intersections or 6 lane divided.
Brian Fielding	
Tom Stevens	yes
Monika Arris	Yes
Vicki Stevens	yes
Doug Garber	NO, not regardless of allignment
april morris	Yes
Jim McGuinness	I support changes to 380, but not the addition of a parallel freeway.
Andrew Sisson	Collin County needs better access and I support the building of a Freeway
William McIntosh	No
James Rogers	No
Liz Brence	No!
Edgar Zuniga	Yes
Meredith Pellegrini	Yes
Erin L. Sisson	yes, it is dangerous & heavily traveled, northern expansion is inevitable.
Jeff Mundt	Yes
Leyda Mendez	No.
Kevin Arnold	I support a freeway for which the western end starts before the Stonebeidge community. I believe there's too many residential communities along 380 that would be severely negatively impacted if the freeway extended along the current length of 380.
Chad & Lindsay Sande	No, I support the alignment which affects homeowners the least. Not commercial interests the most.

Please provide us with your contact information.	If US 380 is constructed as a freeway, which alignment do you prefer? (select all that apply)

Please provide us with your contact information.	Do you have any concerns with the existing US 380?
Name	Open-Ended Response
James William Culpon	380/75 congestion.
Lisa McNeese	The speed is too high and with the addition of Costco, Kroger and other retail centers, increased traffic concerns me.
Kim Canales	Not really; the intersection of 380 and 75 tend to be congested, and could benefit from better signage and traffic signal control.
PHILIP M	Yes, Far to much traffic. Traffic is so backed up on my way to and from work on 380 and Airport Rd that traffic is stopped passed the turn left lane and are stopped right on 380 while cars behind them are going 60mph at these cars
Jeff Nelson	Congestion near US75
Dakota Cryer	Yes, with the growing population in Collin County, there needs to be a better thoroughfare for East/West travelers.
Dan Wigger	No.
Tony Rulli	Yes. The over crowding from all the new construction between Lake Forest and 75 is a big concern.
NS Mendoza	Too many traffic lights as you near Hwy 75 in either direction. A limited access freeway with service roads on either side makes much more sense as the city evolves and grows.
Stacy Apple	Yes - timing of lights
Patrick Herron	
Srini Bhupathiratu	Yes. I would like to understand why army lands are not being considered for alignment and aquisiton
Rich Waldschmidt	Through truck traffic is too heavy for the developed area of US 380
Amber Epperson	Traffic congestion on 380 is terrible, and there are no alternate routes for large trucks. Make the road through McKinney very dangerous.
Mary Fisher	No
Jennifer Allison	Lights are poorly timed. Lack of right turn lanes clogs intersections. Backup from traffic near 75 because everyone tries to merge at the last minute.
Shelly Spaulding	
GAIL P WONG	
Kenneth Seguin	Yes, will not be sufficient to handle traffic caused by population increase.
Norm Hedrich	Only getting busier, something needs to be done. I don't see how you can jam a freeway into the existing roadway, I think you have to build a route north of existing roadway.
Scott Zanetell	Yes, proposed routes impacting environment, open space and Erwin Park.
Bridgett Watkins	Yes, over populated
David Apple	untimed lights and lack of any traffic engineering has left the 10 light section around 75 overcrowded
Sophie	Too many 18 wheelers and cars driving too fast.
Caroline Black	
Qi	Speed limit is too high
Emery Hirvela	It is getting busy with little law enforcement, so drivers are eckless

Please provide us with your contact information.	If US 380 is congested, what alternative routes do you take?
Name	Open-Ended Response
James William Culpon	Custer/Stonebridge Drive to Virginia or 121.
Lisa McNeese	Virginia or Eldorado Parkways
Kim Canales	Primarily Virginia or El Dorado.
PHILIP M	Hwy 5 and 121 or just the side roads into town.
Jeff Nelson	Virginia
Dakota Cryer	FM 1827, FM 2933, Hwy 5, Wilmeth Rd, Airport Rd/Industrial.
Dan Wigger	First Street and then head East. Or get off DNT at Rock Hill and head east to Preston, then North to First St. to head to East Prosper.
Tony Rulli	Virginia, Eldorado, Wilmeth, Rockhill (west)
NS Mendoza	Virginia perhaps.
Stacy Apple	rt 5 or airport
Patrick Herron	North Route: 380 to Harden then North to Wilmeth South Route: Ridge or Custer to 121
Srini Bhupathiratu	
Rich Waldschmidt	Virginia Parkway
Amber Epperson	I take ridge rd as an alternate route because I travel east on 380.
Mary Fisher	
Jennifer Allison	Take Hardin to White/Community going east. Go north behind Collin college going west.
Shelly Spaulding	
GAIL P WONG	
Kenneth Seguin	Virginia Parkway or Eldorado.
Norm Hedrich	Lot of times don't even go, go to 121 and Custer area to shop.
Scott Zanetell	Custer Road North through Westin or Prosper.
Bridgett Watkins	Hardin to Wilmeth, not many choices
David Apple	not many available - Wilmeth Rd, or rt 5
Sophie	Custer
Caroline Black	
Qi	Custer
Emery Hirvela	Louisiana

Please provide us with your contact information.	What solutions would you suggest in the US 380 Corridor?
Name	Open-Ended Response
James William Culpon	Blue
Lisa McNeese	I think a bypass is preferable to assist commuters through or around 380 and 75
Kim Canales	Examining traffic flow signaling flow and possible improvement first. That might be a low tech / low cost solution.
PHILIP M	Over passes at intersections or a double highway like 635.
Jeff Nelson	Bypass 380 around McKinney
Dakota Cryer	A road way with limited access & exit points without traffic lights.
Dan Wigger	That it get extended on the existing path from DNT/380 east to 75. Widen what already exists and do not create any bypass extensions north of existing 380 to get to 75.
Tony Rulli	Expedite the Collin County Outer Loop. At a minimum go from DNT Extension to east of Farmersville. Reduce speed on 380 from Custer to Harden to 50mph. That would remove a lot of commercial and through traffic.
NS Mendoza	Expedite a freeway construction, award the contractor for completing the work ahead of schedule and below budget, and include a wide bridge over Hwy 75 as in Plano.
Stacy Apple	traffic engineering - light timing
Patrick Herron	
Srini Bhupathiratu	NO
Rich Waldschmidt	Complete the Collin County outer loop! ASAP
Amber Epperson	Needs to be widened
Mary Fisher	Keep it at 380, not through residential ateas.
Jennifer Allison	Add more right/left turn lanes to improve traffic flow. Time lights better. Reconfigure the 380/75 intersection.
Shelly Spaulding	
GAIL P WONG	
Kenneth Seguin	Implement expansion into a freeway with service roads (Pink or Green route). Next choice would be Red route by pass.
Norm Hedrich	Put a parallel expressway to north of the existing 380 all the way through Collin and Denton counties to at least 35.
Scott Zanetell	Widen existing route all the way to I-75.
Bridgett Watkins	
David Apple	TIme the lights better - East and West should have priority - from Lake Forest to the light on 5 at speed limit we should be able to carry 40-50 cars through the lights
Sophie	Build a highway to the north of 380 where there is less houses.
Caroline Black	
Qi	Build a major road or highway to the north of 380 since there are more development to the north.
Emery Hirvela	By pass north

Please provide us with your contact information.	Do you support the building of a freeway regardless of alignment?
Name	Open-Ended Response
James William Culpon	yes
Lisa McNeese	No
Kim Canales	Alignment is a critical factor. I'm not generally for putting in a new freeway, especially if it means construction will take as long as 75 has. The design of the El Dorado / 75 intersection is terrible - stupid design.
PHILIP M	Yes
Jeff Nelson	Yes, if it is a bypass of McKinney. No if it is the current route.
Dakota Cryer	Yes
Dan Wigger	No.
Tony Rulli	There should not be a Freeway between Custer and Highway 5, under no circumstances. Too many existing homeowners and business would be disrupted.
NS Mendoza	No. Only if it is built where 380 exists now.
Stacy Apple	no
Patrick Herron	No, we should keep the existing routes and not consume other land for by-pass.
Srini Bhupathiratu	Yes
Rich Waldschmidt	No.
Amber Epperson	Something has to be done, but I am concerned about traffic flow around area neighborhoods.
Mary Fisher	No.
Jennifer Allison	Not sure
Shelly Spaulding	
GAIL P WONG	
Kenneth Seguin	Yes
Norm Hedrich	Yes, something has to be done or this roadway will be an even worse choke point in the future. Have to consider at least from 35 to 75, just doing something in Collin will not work.
Scott Zanetell	Absolutely not.
Bridgett Watkins	Yes
David Apple	No
Sophie	NO. Make 380 a highway will greatly damage our house value and quality of life.
Caroline Black	No
Qi	NO
Emery Hirvela	No

Please provide us with your contact information.	If US 380 is constructed as a freeway, which alignment do you prefer? (select all that apply)

Please provide us with your contact information.	Do you have any concerns with the existing US 380?
Name	Open-Ended Response
Pedro J. Méndez	The US 380 is a very busy route and the areas serve by this road is growing extremely fast making it a night mare to commute. The increase in traffic lights have created a lot of traffic jams. The addition of new businesses and new shopping centers is increasing faster than we can manage.
Robert A King	Traffic congestion and accidents due to people driving well below the posted speed limit, combined with an abundence of traffic lights, and cruising in the passing lane.
Jim Welch	Too congested. Too many lights. Too many new businesses being constructed along 380 which will add to the congestion.
Provo	Just at the bottle neck at 75 and 380
Chris Self	Yes, ongoing wrecks in front of our neighborhood..Tucker Hill. Also, if expanded, noise & reduction in property value
Patsie vaughan	
Amy Owen	
Lori Stowers	
Regina Paley	The number of large trucks using it
Jeff Kennedy	My only concerns are the back-ups that occur at 380 and Preston, 380 and DNT, and 380 and 75. The first two should be remedied by the overpasses that are being built, but i'm not sure if there are any plans for something similar at 380 and 75.
Shannon Humphrey	
David Counts	Congestion of 380 continues to increase and alternate solutions will be required
Henry Smith	Too many lights, not enough capacity.
Sharon Hix	Speed limits
Raju Datla	Yes, lot of traffic increase
Larry Pereira	Yes. VERY, VERY congested going between Stonebridge Drive and Route 5. Major highway should NOT be going through such commercial area between Ridge Rd & Route 5 (for now). In the near time-frame, the initiation of the congestion will start from Custer (instead of Ridge Rd).
Teri Chapin	no
Scott McGowan	Past the Dallas North Toll there is just too much traffic. From 289 to Community everything flows well and then bottlenecks. Adding a lane in both directions and having some overflow routes through prosper would help.
Greg Gordon	I have concerns both for safety and congestion.
Bryce Thompson	Major congestion.
Andrew Young	I am against any theft of personal property through the use of eminent domain.
Annie Jones	This existing 380 is very dangerous. It needs to have a median in the middle, in Princeton, like it does in McKinney. The speed also needs to be reduced to 45.

Please provide us with your contact information.	If US 380 is congested, what alternative routes do you take?
Name	Open-Ended Response
Pedro J. Méndez	Virginia Parkway
Robert A King	Hwy-121
Jim Welch	Virginia, El Dorado, 121, Stacy and Main
Provo	Virginia
Chris Self	Stonebridge, Custer, Lake Forest, Hardin, Ridge Rd
Patsie vaughan	
Amy Owen	Virginia
Lori Stowers	
Regina Paley	Virginia Parkway
Jeff Kennedy	Preston down to Rockhill
Shannon Humphrey	
David Counts	None, 380 is my only option
Henry Smith	Eldorado Pkwy
Sharon Hix	None. Where do you go to get to McKinney without getting on 380???
Raju Datla	
Larry Pereira	I reside in Stonebride, off Ridge Rd (between Eldorado & Virginia). - Not a lot of choices in terms of a Highway to go East. - Going west, I take Virgina West to Custer North, to 380 West.
Teri Chapin	Virginia
Scott McGowan	Rockhill Road
Greg Gordon	If going west on 380 is congested I will take Virginia and Rock Hill roads to Preston & NDT
Bryce Thompson	CR 458 to 1377 to FM75
Andrew Young	HWY 121 or eldorado
Annie Jones	The New Hope Road

Please provide us with your contact information.	What solutions would you suggest in the US 380 Corridor?
Name	Open-Ended Response
Pedro J. Méndez	Enhance current road (Pink alignment) and perhaps use bridges in the more congested intersections.
Robert A King	Convert 380 into a limited-access freeway with a speed limit of at least 75mph.between Greenville and Decatur.
Jim Welch	Complete new freeway around the existing highway. Could leave the existing highway as a business route.
Provo	
Chris Self	Tucker Hill's position is NO to all alignments due to potential loss of homes and devaluation of our neighborhood as a whole and adverse environmental and health implications. Notwithstanding our recommendation, if any freeway construction occurs on the existing 380 footprint adjacent to Tucker Hill, it must impose minimal right-of-way and noise pollution by means of cantilevered access lanes; a depressed throughway; and sound barriers. Also, if any bypass option is chosen, it must be located as far west of Tucker Hill as possible; west of future Stonebridge; not on or bordering Tucker Hill.
Patsie vaughan	
Amy Owen	I like the Blue route, but think it should link to 380 at a different location/cross street.
Lori Stowers	
Regina Paley	A loop around McKinney starting at Custer Road
Jeff Kennedy	Make the existing 380 a true freeway without any bypass alignments
Shannon Humphrey	
David Counts	A by-pass that offloads traffic prior to Custer and routes thru thraffic to the north
Henry Smith	Make it a freeway
Sharon Hix	Bridges instead of red lights..traffic moved better when there where less stops for red light and big rigs should always stay to the right...please everyone Slow Down...
Raju Datla	Build freeway
Larry Pereira	I like the Blue configuration the best because it also provides relief to Princeston and Farmersville bu solving the same problem for those two Cities (ie. kills THREE birds with the same stone...).
Teri Chapin	Keep it out of Stonbridge Ranch Community, try going North!
Scott McGowan	Add more lanes and a couple of new roads to bypass some of the traffic. A straight loop with few exits would help.
Greg Gordon	A freeway with parallel access roads to eliminate any traffic lights along the 380 route. However if an alternate route north of the exist 380 route is selected then the western termination point should be west of Custer and not near Stonebridge Drive or Rigid Drives
Bryce Thompson	Along the North side of 380.
Andrew Young	You should widen the existing road and leave personal property alone.
Annie Jones	1 - We need a I 35 - I30 East-West bypass to the north of Hwy 380. 2 - We need to reduce speed inside all city limits to 45 and under. 3 - It needs noise abatement. Even with the present Hwy 380, in Princeton, we can't sleep with the windows open because of the noise. We live in the Forest Grove subdivision.

Please provide us with your contact information.	Do you support the building of a freeway regardless of alignment?
Name	Open-Ended Response
Pedro J. Méndez	I support a freeway but my preference is the Pink alignment. We must protect the current houses and I believe the pink alignment is the option with less impact to the residents when compared to the other alignments.
Robert A King	Yes.
Jim Welch	Yes.
Provo	
Chris Self	NO
Patsie vaughan	
Amy Owen	
Lori Stowers	
Regina Paley	I support it depending on alignment
Jeff Kennedy	I support making 380 a freeway as it lies today, but i do not support any bypass alignments
Shannon Humphrey	
David Counts	No freeway along existing 380. Freeway ok on north bypass
Henry Smith	Yes
Sharon Hix	Yes,,Something needs to be done. I don't feel save driving and everyone needs to Slow down.
Raju Datla	Yes
Larry Pereira	Yes.
Teri Chapin	No
Scott McGowan	Yes. Do it now and do it right the first time. Don't build it and then rip it up to add another lane. Build as many roads as you can. Regardless it won't be enough, we know that. You might as well plan on building it to OK because it will be solid development within the next 30 years.
Greg Gordon	NO
Bryce Thompson	If I do not have a vote then yes.
Andrew Young	No
Annie Jones	Yes, but not in the middle of the cities: the green & pink alignments are awful & would be way too expensive to displace all those businesses.

Please provide us with your contact information.	If US 380 is constructed as a freeway, which alignment do you prefer? (select all that apply)

Mandra Caplinger	Commuter		Property Owner			Daily

Please provide us with your contact information.	Do you have any concerns with the existing US 380?
Name	Open-Ended Response
John Girdzus	YESSSSSSSSSSSSS!
M Patty Laster	Yes, it is very busy and congested. Our daughter will be driving to MNHS next year and we are very concerned with her traveling 380 and most likely will have her drive an alternate route
Gayla Johnson	Two lanes is not enough. Would like expanded to 3 lanes each side and get rid of the middle turning lane. It causes to many accidents.
Johnny Harris	Yes, too much traffic
Charles Henry	Congested, no effective traffic controls upon entering, or exiting 380. Abnormal amount construction commercial trucks. Seems to be no speed control.
Mike Goldstein MD	Yes too congested in Princeton
James Morrell	Yes - Accidents, heavy usage & trucking.
Mary Mikula	Heavy traffic
yvonne engel lambeth	lights are poorly timed which creates congested traffic flow.
	I avoid the section of 380 that is in Denton County at all costs. I presume Collin County will become the same bottleneck with more shopping centers and neighborhoods developed
Melody Talbot	Too much traffic and big trucks
yvonne engel lambeth	traffic lights create traffic congestion due to the poor timing.
Jason towers	Not able to keep up with current demand
Brian	no
yvonne lambeth	The traffic lights are poorly timed.
Brett Talbot	Traffic congestion and big trucks
Suzy Sumrall	Noise it generates both in my yard and inside my home.
Ruth Wolf	The speed of traffic with the traffic lights that have been put in since I moved here plus the extra people, which isn't great.
Richard Tenner	Yes, it is already too congested
Mary Nugent	Can get congested at times, I avoid it & take other ways around
Rick Dietz	congestion
Mandra Caplinger	Yes, too many people and not enough road to accommodate those drivers. Also, too many red lights in Princeton that seem to stop up traffic.

Please provide us with your contact information.	If US 380 is congested, what alternative routes do you take?
Name	Open-Ended Response
John Girdzus	Take indirect routing.
M Patty Laster	Virginia Parkway to Hardin to MNHS
Gayla Johnson	Unless I'm going to Allen or Rowlett there is not an alternative route
Johnny Harris	547
Charles Henry	No other way out of Tucker Hill.
Mike Goldstein MD	No pptions
James Morrell	
Mary Mikula	Virginia Parkway
yvonne engel lambeth	121/Custer. Ridge/Virginia or Eldorado
Melody Talbot	I have to take it
yvonne engel lambeth	121 to Custer. Virginia or Eldorado/Ridge
Jason towers	North of 380
Brian	lake forest
yvonne lambeth	Virginia.
Brett Talbot	custer to virginia to 75 stonebridge to virginia to 75
Suzy Sumrall	I go south -- route depends on where I am going.
Ruth Wolf	
Richard Tenner	use Eldorado Parkway
Mary Nugent	I'll go south of 380 via Custer, Ridge, Stonebridge, Lake Forest, Oreston, Coit
Rick Dietz	Virginia or Hardin/Wilmeth
Mandra Caplinger	Bridgefarmer to FM 546 then to Airport Road. 1827 to 408 then to Longneck Road.

Please provide us with your contact information.	What solutions would you suggest in the US 380 Corridor?
Name	Open-Ended Response
John Girdzus	As a minimum, re-locate the segment between HYW 75 and the North Dallas Tollway further north. The noise and speeds of some vehicles is a nuisance and disturbance to residence residing in the northwest corner of the Stonebridge HOA area and other neighborhoods ass well. The local police/Mckinney jurisdiction have done little to curb or limit the current problem. Their response has been .... you can expect it with the rapid growth. From our residence/inside our home, we hear the commercial trucks using their jake brakes, speeding motorcyclists thinking they are doing a motor cross, high performance autos speeding like they racing at Indy, etc. Checkout the number of accidents between Stonebridge Ranch Dr and Custer Dr. on 380.
M Patty Laster	We need a freeway to help this. On a completely other note, we would support new, nice restaurants on 380 (and not just support downtown)
Gayla Johnson	No freeway between Princeton and McKinney expand to 3 lanes
Johnny Harris	Widen, add over pass's, add lanes
Charles Henry	Specifically at Tucker Hill: No alignments due to potential loss of homes and devaluation of our neighborhoods a whole. In the event any freeway construction occures on the existing 380 footprint adjacent to Tucker Hill, it must impose minimal right of way and noise pollution by means of cantilevered access lanes, a depressed through-way, and sound barriers. Also, if any bypass option is chosen, it must be located as far west of Tucker Hill as possible, west of future Stonebridge, not on property bordering Tucker Hill.
Mike Goldstein MD	
James Morrell	I would prefer to have a freeway with side roads similar to US 75. However cost may be issue. Then bypass to north is 3rd choice.
Mary Mikula	Reroute traffic not having business in the 380 section from Lake Forest to Highway 5
yvonne engel lambeth	If a freeway has to be created. The blue plan with the link at Custer is the most logical. NOT Stonebridge drive where the bulk of your tax money comes from.
Melody Talbot	I would suggest a bypass, but further west
yvonne engel lambeth	additional lanes
Jason towers	Create a new freeway (not a toll road)
Brian	use 380
yvonne lambeth	Additional lanes and smart traffic lights timed based on actual traffic and not forecasted traffic.
Brett Talbot	A by pass but further west as to not impact as many current residents and businesses. By pass at Dallas north freeway or Coit Rd.
Suzy Sumrall	Leave it alone and build something further north.
Ruth Wolf	Toll Road like 121 vs the other proposed ideas. I live right off of Stonebridge Drive and Virginia Parkway in Mckinney
Richard Tenner	create the proposed outer loop
Mary Nugent	Keep it the way it is and do overpasses underground whatever brilliant engineers come up with as a freeway
Rick Dietz	the Yellow route would remove the "through town" congestion and would seem to improve access to the rapidly developing area NE of McKinney proper (near and north of New Hope area). I'm also a land owner in Waterstone Estates and plan to move out that direction.
Mandra Caplinger	1. Synchronizing the red lights through Princeton would help a little. 2. A freeway bypass is needed to relieve the traffic on 380.

Please provide us with your contact information.	Do you support the building of a freeway regardless of alignment?
Name	Open-Ended Response
John Girdzus	No.
M Patty Laster	Depends on the alignment
Gayla Johnson	building a freeway yes I do. Changing 380 into a freeway, NO.
Johnny Harris	yes
Charles Henry	No
Mike Goldstein MD	
James Morrell	Yes
Mary Mikula	Unsure
yvonne engel lambeth	No. Frisco/Plano has way more business along Preston road and they have not created a freeway to negatively impact the value of the residential properties. McKinney unique by nature will need to be changed if we are boxed in by 121/75 and 380 freeways.
	Yes
Melody Talbot	No
yvonne engel lambeth	no
Jason towers	Yes
Brian	yes
yvonne lambeth	I would prefer not to have a freeway in my backyard as any sensible property owner would
Brett Talbot	NO!
Suzy Sumrall	NO
Ruth Wolf	If you mean make 380 a toll road like 121, I think so.
Richard Tenner	no
Mary Nugent	I really don't want any bypass in McKinney that affects homes
Rick Dietz	Yes
Mandra Caplinger	Yes.

Please provide us with your contact information.	If US 380 is constructed as a freeway, which alignment do you prefer? (select all that apply)

Please provide us with your contact information.	Do you have any concerns with the existing US 380?
Name	Open-Ended Response
Long Nguyen	Well it is becoming more congested lately and turning it to a freeway seems the best option.
Don Potash	Not really
Debbie Snyder	It's very congested and has a lot of truck traffic
Susan Fritz	
Lee Price	Yes. Getting worse by the week.
Jerry Rabenaldt	
Mark McReynolds	
Hong Mao	Yes, too many traffic lights
Mike Farish	Just the growing traffic and congestion from Community to Hwy 75.
Robert Benson	
Luke Harmon	Yes.
Doug Fiene	Yes - To congested
Pam Grayson	Yes, it's a very dangerous highway.
Ken Overton	Yes, traffic volume during rush hour from Bridge Farmer Rd to Airport Rd
Ted Carson	Speed limit is too fast!!!! Cars and trucks are not prepared to stop at the existing lights and often run them.
Richard Pedretti-Allen	Congestion
Linda Falke	No
Russellann Wilson	I hate 380 and avoid using it, particularly between Hardin and 75. The 75/380 quadrant is extremely congested
Patricia Beckett	
Larry Costello	Yes too much traffic, not safe, son got killed on it
Steven Lalumandier	To heavy traffic and traffic flow is poor
Emily Kissel	380 is wide enough but the roadway doesn't effectively move cars out of the flow of traffic when exiting the roadway.
None provided	Yes. I think it is too high speed for amount of separation of passing traffic
Lolo Wong	Too much traffic
Ryan	Yes. Needs to be widened.
Ivan D. Hafley	It's ability to handle projected growth

Please provide us with your contact information.	If US 380 is congested, what alternative routes do you take?
Name	Open-Ended Response
Long Nguyen	The alternate from 380 is Virginia or Eldorado which is not much faster. 380 is still the best option
Don Potash	Virginia Parkway or Eldorado Dr.
Debbie Snyder	Virginia parkway
Susan Fritz	
Lee Price	Virginia
Jerry Rabenaldt	
Mark McReynolds	If congested between Community and 75 in McKinney I'll go down Community to White and then cross over to 75. In general, traffic patterns are smooth.
Hong Mao	No choice
Mike Farish	Avoid or cut through on White to Community.
Robert Benson	
Luke Harmon	Custer south to 121
Doug Fiene	Virginia Pkwy / Rock Hill Road, Panther Creek, Fish Trap Rd
Pam Grayson	There are no good alternative routes.
Ken Overton	South then west over Lavon
Ted Carson	Going to Plano take Custer. Going to Frisco or west take Eldorado to NDT
Richard Pedretti-Allen	I go south to 121 and take that up to the Cotton Mill and cut over to Airport Dr., then north to 380.
Linda Falke	Custer
Russellann Wilson	I live off Eldorado so I always try to take Eldorado to 75 and then go North to 380. If I am going west, then I take Lake Forest to 380 and turn left.
Patricia Beckett	
Larry Costello	All the back roads in the County
Steven Lalumandier	White Ave to Hardin to Virginia Pkwy to Lake Forest
Emily Kissel	South to Virginia or Eldorado.
None provided	N/A. At the moment not a heavy user of 380
Lolo Wong	White Street
Ryan	Virginia
Ivan D. Hafley	I've never had this problem

Please provide us with your contact information.	What solutions would you suggest in the US 380 Corridor?
Name	Open-Ended Response
Long Nguyen	I think making it a freeway where there are less lights, would speed things up a bit
Don Potash	Non, keep it the way it is
Debbie Snyder	Putting in an additional highway parallel to 380 further down 75 toward Melissa
Susan Fritz	
Lee Price	
Jerry Rabenaldt	
Mark McReynolds	
Hong Mao	Build a freeway on current US380, which has shortest path to connect cities around.
Mike Farish	The Blue and Red plan.
Robert Benson	
Luke Harmon	Freeway
Doug Fiene	By Pass
Pam Grayson	It should be a freeway.
Ken Overton	Widen 380, but NOT limited access freeway Yellow, red, blue routes divert traffic around Princeton downtown which will hurt business. If freeway, will ultimately relegate Princeton to backwater town - killing growth of the town.
Ted Carson	STOP all new home construction in Prosper, McKinney, Frisco, and Little Elm. Let us maintain the small town community that we sought when buying our homes in McKinney.
Richard Pedretti-Allen	Northern bypass
Linda Falke	Widen if necessary. Do not diviate to the smaller roads thru subdivisions. The community of Stonebridge is very active outdoor recreational for families! There is Custer to go North South with lights. If you must add another thoroughfare North South then use Hardin. Do not use Stonebridge or Ridge or Lake Forest. These are around our lakes, golf courses etc.
Russellann Wilson	I would love to see it become a freeway that connects to 75 easily, with good frontage roads and an access point for Stonebridge (maybe Lake Forest or Ridge). This gives easy access to the heart of Mckinney while keeping the integrity of the area.
Patricia Beckett	
Larry Costello	Raised thru lanes in town, use of undeveloped (farm) land
Steven Lalumandier	I'm very open to a combination of what is best versus cost versus time to implement
Emily Kissel	Improve the existing infrastructure with adaptive traffic signal control systems, relocated driveways, increased and enhanced turn bays, improved on-site traffic circulation at retail centers and grade separated intersections at Hardin, Lake Forest and Custer.
None provided	
Lolo Wong	Alternative highway North of 380
Ryan	Not to connect to Stonebridge Drive or Ridge Road. Those are main residential areas in neighborhood that has tons of children playing. Those roads are already busy enough. More traffic going through Stonebridge will not be a good option.
Ivan D. Hafley	Freeway with a freeway loop around McKinney

Please provide us with your contact information.	Do you support the building of a freeway regardless of alignment?
Name	Open-Ended Response
Long Nguyen	Yes
Don Potash	No
Debbie Snyder	As long as it doesn't run through Stonebridge Ranch. We already get a lot of cut through traffic due to congestion on 380
Susan Fritz	
Lee Price	Yes
Jerry Rabenaldt	
Mark McReynolds	
Hong Mao	Yes, definitely
Mike Farish	Most likely.
Robert Benson	
Luke Harmon	yes
Doug Fiene	Yes
Pam Grayson	Yes.
Ken Overton	NO
Ted Carson	NO!!!!!!!!!!!!
Richard Pedretti-Allen	Yes.
Linda Falke	
Russellann Wilson	Yes
Patricia Beckett	
Larry Costello	Yes
Steven Lalumandier	Yes
Emily Kissel	Tucker Hill's position is NO to all alignments due to potential loss of homes and devaluation of our neighborhood as a whole and adverse environmental and health implications. Notwithstanding our recommendation, if any freeway construction occurs on the existing 380 footprint adjacent to Tucker Hill, it must impose minimal right-of-way and noise pollution by means of cantilevered access lanes; a depressed throughway; and sound barriers. Also, if any bypass option is chosen, it must be located as far west of Tucker Hill as possible; west of future Stonebridge; not on or bordering Tucker Hill.
None provided	I am sure it will be greatly needed
Lolo Wong	No. I do not. Go north.
Ryan	No
Ivan D. Hafley	Yes

Please provide us with your contact information.	If US 380 is constructed as a freeway, which alignment do you prefer? (select all that apply)

Please provide us with your contact information.	Do you have any concerns with the existing US 380?
Name	Open-Ended Response
Corey Anne Snowert	No
Laura Allen	Congestion is an issue and safety. Need to create an outer loop to reduce traffic -especially trucks
Herbert Hailes	Not enough lanes to keep Texas moving here in Collin/Denton.Counties.
Lance Tyson	No
Diane Andor	Yes, it should have been widen before they let everyone build on it.
	Very congested
Will B Wende	Far too busy and dangerous.
Delilah Parker	lots of traffic
Gretchen Benner	congested
Stacy Musho	Yes it does get conjested in certain sections
Archie Pitts	
David Lawrence Coggiola	Have it go WAY North of Stonebridge Ranch!
Heather Solomon	
Mike Bolick	Yes. Hazardous - many accidents. Folw through McKinney is bad as is going to Denton.
Robbin Schmitt	Traffic getting down 380 to 75 is an issue.
Lora Cryer	Yes, the traffic and accidents that occur on a daily basis on 380 is an ongoing concern that can be fixed with proper infrastructure.
Corey Gravelle	Yes. My concern is it's not freeway between 75 and Denton
Glyn Weston	It is extremely dangerous with people doing U turns and crossing 6 lanes of cars.
Nancy Brockman	Too many accidents.
Brandie Sellers	Yes there is too much congestion and the lights make it take forever to get anywhere. McKinney to Denton takes way too long.
Holly Harris	Yes
T Rissman	Traffic/trucks
Kayleigh Rambo	Safety Issues
Amy	It needs an outer loop to the north to relieve traffic
Derrel Ferguson	not bad now, but in 5-10 years will be jammed
Brian Kleve	Yes, it is becoming way to congested.
Melissa Vance	

Please provide us with your contact information.	If US 380 is congested, what alternative routes do you take?
Name	Open-Ended Response
Corey Anne Snowert	Virginia or Sam Rayburn Tollway
Laura Allen	Virgina
Herbert Hailes	Eldorado westbound.
Lance Tyson	121 to Plano, north on DNT
Diane Andor	Monte Carlo
	If a freeway will be built it should be relocated towards Prosper, before the intersection of Custer and 380. This area should not be dealing with a freeway problem. There's more space in Prosper than in this area in McKinney. Neighbors in this area will oppose. Freeway needs to be relocated before Custer.
Will B Wende	White ave, Virginia ave
Delilah Parker	I haven't. Was rerouted through country south of 380 once during accident.
Gretchen Benner	
Stacy Musho	Virginia, Custer
Archie Pitts	
David Lawrence Coggiola	Tollway
Heather Solomon	
Mike Bolick	If going to Denton or Princeton have to slog through it.
Robbin Schmitt	Will jump off 380 at Hardin and take White to 75.
Lora Cryer	New Hope Road
Corey Gravelle	El Dorado or other streets south of 380 that run east/west
Glyn Weston	Virginia Parkway
Nancy Brockman	Virginia
Brandie Sellers	121, or if I am going across McKinney from my house at Eldorado/Ridge I take Eldorado to 75 and go north, which is less convenient than if 380 were a great highway
Holly Harris	547
T Rissman	neighboring streets
Kayleigh Rambo	380 to Hardin - Wilmeth to 75
Amy	I'll take Custer/Eldorado pkwy
Derrel Ferguson	There aren't any
Brian Kleve	
Melissa Vance	

Please provide us with your contact information.	What solutions would you suggest in the US 380 Corridor?
Name	Open-Ended Response
Corey Anne Snowert	Leave it the way it is. No Changes.
Laura Allen	Investing in an outer loop taking traffic to the north
Herbert Hailes	Not a civil engineer so I can't say, especially for lack of detail information sent in email.
Lance Tyson	Massive public transportation project. Don't solve vehicle congestion with more roads for more cars. Invest in public, sustainable options. Keep McKinney clean.
Diane Andor	
Will B Wende	an expanded 'freeway' to the north
Delilah Parker	
Gretchen Benner	loop around McKinney but starting west at Custer
Stacy Musho	Add a couple of additional lanes
Archie Pitts	
David Lawrence Coggiola	
Heather Solomon	
Mike Bolick	Widening and bypass around McKinney.
Robbin Schmitt	Turn it into a freeway
Lora Cryer	
Corey Gravelle	Make it a 4 freeway similar to the Sam Rayburn (Freeway, not Tollway), with 3 lane access roads on both sides.
Glyn Weston	US380 needs to have access roads like the major highway it has become. Basically it needs to be more like US75 or 121. This will improve safety and also the traffic will flow better since there will not be traffic lights or people trying to turn across oncoming traffic.
Nancy Brockman	More lights to lessen the freeway feel
Brandie Sellers	Make a highway NOT a tollroad which goes north of existing 380 near Stonebridge and Tucker Hill and other residences
Holly Harris	Widen, add lanes, add over pass's
T Rissman	Highway similar to 121
Kayleigh Rambo	
Amy	Build outer loop to the north of 380 and the east/west, north/south arterial roads that lead up to it.
Derrel Ferguson	
Brian Kleve	I believe 380 should be a highway/freeway with frontage roads to allow for better travel. This should be extend at least from East side of Mckinney to I-35.
Melissa Vance	

Please provide us with your contact information.	Do you support the building of a freeway regardless of alignment?
Name	Open-Ended Response
Corey Anne Snowert	No. Not if it is going to impact our communities. We have beautiful residential communities such as Stonebridge Ranch and Tucker Hill. We do not need a freeway destroying the area and lower our home values. McKinney is supposed to be Unique by Nature. That is why I came to McKinney in the first place. Making these changes will force many home owners out of our beautiful community.
Laura Allen	No
Herbert Hailes	Absolutely Yes.
Lance Tyson	Only after all public transportation options have been exhausted. Let's be leaders in this space.
Diane Andor	yes
Will B Wende	yes
Delilah Parker	yes
Gretchen Benner	no Loop should start at Custer or further west
Stacy Musho	No
Archie Pitts	
David Lawrence Coggiola	No. Stick to the northerly route!!
Heather Solomon	
Mike Bolick	Something needs to be done, but a poor choice in alignment would not have my support since it could make matters even worse. I would prefer the blue alignment to start west of custer to bypass that heavy stretch.
Robbin Schmitt	Yes
Lora Cryer	The yellow alignment seems to be the least invasive to existing, developments while still providing a solution to the ongoing problem.
Corey Gravelle	Yes. Absolutely!
Glyn Weston	Yes - I think a freeway is the right strategic solution. All other options are really just temporary solutions.
Nancy Brockman	No
Brandie Sellers	I think for the future of our area it is necessary
Holly Harris	Yes
T Rissman	Yes
Kayleigh Rambo	Yes
Amy	No
Derrel Ferguson	yes, but only if it serves far north of existing 380.
Brian Kleve	Yes, but obviously alignment is important.
Melissa Vance	

Please provide us with your contact information.	If US 380 is constructed as a freeway, which alignment do you prefer? (select all that apply)

Please provide us with your contact information.	Do you have any concerns with the existing US 380?
Name	Open-Ended Response
Don Maher	congestion. Speed vs, congestion and the number of stops. Very unsafe. I try not to use it.
Tracy Lynne Turner	Yes, dangerous
Zach Smith	Very congested from about Trade Days to Highway 75, and still plenty of traffic around 380 and tollway due to construction.
Mike Quist	Yes, it is a highway designed like a road. It's trying to balance high rates of speed with no ramps to get on and a ton of traffic lights.
Cyril Reif	Congestion as you get closer to McKinney and congestion at the Dallas Tollway
Ron Blume	New shopping stores at Hardin and 380 will significantly impact traffic for us.
Justin Brown	Unable to handle existing traffic volume
John Hurlbut	Yes, the interchange at 75 and 380 is always backed up. It is hard to stop at all lights when going 55-60 mph. Especially for trucks/trailors carrying a load.
Steve Lapekas	Yes; congestion at 380 & Preston, 380 & 75.
Todd Huthmaker	
sheri	traffic is horrible, lights are not timed, travelling on it takes more than twice the amount of time it should
Linda Wilcox	yes -- too much traffic; too many access points
Crystal Kirsch	It's dangerous with current speed limit and lack of turn-lanes for some neighborhoods and businesses. Drivers regularly drive faster than the posted speed. I won't let my teen drivers drive on it.
Alfredo Castillo	Too many stop lights
David Allen	It is very crowded currently
Jeff Benton	Tollway ending at 380 -very congested trying to go any direction when exiting the NDT.
Bill Floyd	There is too much congestion and traffic lights are slowing the travel. The junction of 380 and 75 is a mess.
Reed Fontenot	Yes, it is getting too crowded in McKinney and Princeton.
Daniel McCoulskey	Yes - way too busy. If I have to go Tom denton from a mcKinney, I will often drive significantly further to avoid 380
Beth price	
ERIC KAISER	No
Matt Burden	Yes, too many lights.
clarence landers	no
Bonnie Woolam	Yes. Traffic is highway in nature on a through road type structure. Traffic is too thick, fast, dangerous for the road. Too much truck traffic mixed with commuters to not be a freeway
Reinaldo Medina	Need to be modernize. Today is a rural with an urban mix. Need to be standardized.
Danielle Marvin	Safety
Margaret Reynolds	Yes, congestion, accidents, too close to residential
Cynthia Goodwin	Too many commercial trucks.
Nelson Smith	Congestion, especially between Preston & Denton

Please provide us with your contact information.	If US 380 is congested, what alternative routes do you take?
Name	Open-Ended Response
Don Maher	121
Tracy Lynne Turner	Virginia
Zach Smith	If need to head East or South, might take Virginia or Eldorado, but those streets are slowly becoming more congested as well.
Mike Quist	I take the back roads primarily by my house. I am very concerned with there is an accident on the 380 and all of the congestion goes onto roads not designed for that kind of volume
Cyril Reif	
Ron Blume	Virginia, White, Eldorado
Justin Brown	FM1827 to 2933
John Hurlbut	Back roads north of 380.
Steve Lapekas	Virginia Parkway, El Dorado Parkway
Todd Huthmaker	
sheri	virginia, 121
Linda Wilcox	Virginia Parkway; White Ave
Crystal Kirsch	Virginia Pkwy, take north/south roads to get to other east/west options. Will take the tollway south versus going over to 75 to go south. Or I just drive on 380 and wait.
Alfredo Castillo	121
David Allen	Virginia / Rockhill Road
Jeff Benton	Custer to 121
Bill Floyd	Virginia Parckway, which is starting to get more congested.
Reed Fontenot	Neighborhood streets
Daniel McCoulskey	121 to 35
Beth price	
ERIC KAISER	Custer to 121
Matt Burden	Yes, south on Custer to 121
clarence landers	virginia pky or eldorado
Bonnie Woolam	Eldorado, 121, 82 depending on where we are going
Reinaldo Medina	Inside Stonbridge, via Virginia.
Danielle Marvin	Blue and yellow
Margaret Reynolds	Virginia, 75, 121
Cynthia Goodwin	Virginia
Nelson Smith	Not many alternatives, but I also use Virginia Pkwy

Please provide us with your contact information.	What solutions would you suggest in the US 380 Corridor?
Name	Open-Ended Response
Don Maher	loop McKinney Princeton and prosper a connect with 380 on feeders . need a 121 style freeway with adequate access roads
Tracy Lynne Turner	Bypass
Zach Smith	Realistically? Not an expert, but probably need to widen it to a degree. Not sure if a bypass would serve the current problems on 380, but would help development to the Northern cities.
Mike Quist	Turn it into a Highway. Section it off for select on/off ramp areas, create over passes, and add a barrier in the middle to prevent head on crashes.
Cyril Reif	It needs to bypass McKinney and the Dallas Tollway needs to go over 380.
Ron Blume	Quit building new businesses on 380 until an alternative route for 380 has been identified and a plan has been implemented.
Justin Brown	Northern and southern bypasses
John Hurlbut	South expansion to widen it 380.
Steve Lapekas	Lessen access, bypass.
Todd Huthmaker	
sheri	raised freeway access
Linda Wilcox	create service roads from McKinney to Denton
Crystal Kirsch	Turn 380 into a limited access highway with access roads. Leave the route the same as it currently follows.
Alfredo Castillo	Make it a freeway. Add a second level or similar to the new 365
David Allen	Alternative Outer Loop
Jeff Benton	Move it north from current location
Bill Floyd	Make 380 a full freeway/tollway like 121. We need another east/west thorough fare in Collin County and most of the growth will be above 380.
Reed Fontenot	Freeway, alternate loops around McKinney
Daniel McCoulskey	Limited access higheay
Beth price	Small roads such as Stonebridge or Ridge should not be used as intersecting roads. Only major roads such as Custer that do not go through neighborhoods should be considered
ERIC KAISER	BLUE or YELLOW route. East of Custer to 75 is a great road already, and having a freeway just ruins the existing development. Blue or Yellow actually helps that area as well as the areas in North Mckinney (vacant land) become more valuable.
Matt Burden	It will need to be a freeway soon or we will have major traffic problems as population grows noth.
clarence landers	go further north because thats where growth is going to exist
Bonnie Woolam	Needs to be a freeway. Growth of the area does not allow for lesser alternatives in my opinion. Should have been on this track 15-20 years ago
Reinaldo Medina	Expand the 380. Like 121. Having an external loop will have an impact on rural neighborhood. It is better to have an expanded planed 380.
Danielle Marvin	
Margaret Reynolds	Reroute away from reaidential
Cynthia Goodwin	Have trucks and commercial vehicles not stopping between Custer and 75 make a mandatory turn onto Custer and then 121 back to 75.
Nelson Smith	I like the freeway option

Please provide us with your contact information.	Do you support the building of a freeway regardless of alignment?
Name	Open-Ended Response
Don Maher	yes
Tracy Lynne Turner	Yes
Zach Smith	For the good of McKinney I would, but selfishly I do NOT - I live in Tucker Hill, towards the front of the neighborhood, and my house and property would be negatively impacted if 380 were to be built into a freeway in that area. Either our property would have to be bought out or the freeway would be VERY close to our house, depending on how wide it goes. If the city of McKinney and/or the builder would somehow assist in the process so that I am fairly compensated I would better understand the freeway option and be for it...but as is, since it adversely impacts me I cannot be in favor for any changes to 380 to take place, at least around the Tucker Hill area.
Mike Quist	yes. I think the 380 should have been a freeway from the start
Cyril Reif	Yes, but only with a re-alignment to bypass McKinney
Ron Blume	No
Justin Brown	Yes
John Hurlbut	No - I will only support if the alignment does not create new highways by my house.
Steve Lapekas	Yes.
Todd Huthmaker	
sheri	if it doesn't hurt local businesses and helps drive times
Linda Wilcox	yes
Crystal Kirsch	No, I do not support the bypass routes
Alfredo Castillo	It depends
David Allen	No - making 380 a Freeway or expanding it is not the solution
Jeff Benton	Yes
Bill Floyd	Yes, but prefer it to be on the exisiting route.
Reed Fontenot	I support the Blue line proposal
Daniel McCoulskey	Yes
Beth price	No
ERIC KAISER	NO
Matt Burden	Yes
clarence landers	no
Bonnie Woolam	Yes
Reinaldo Medina	Yes
Danielle Marvin	I'm not sure.
Margaret Reynolds	No
Cynthia Goodwin	No
Nelson Smith	Yes

Please provide us with your contact information.	If US 380 is constructed as a freeway, which alignment do you prefer? (select all that apply)

Please provide us with your contact information.	Do you have any concerns with the existing US 380?
Name	Open-Ended Response
Michelle Payne	Congestion and safety
jeffrey lewis	
Ferdinand Ter Haar	Yes, increased congestion
Chris Nickell	Congestion Accidents
John Blair	Becoming tooooo busy
Eric Thompson	Safety with high speeds, commercial traffic mixed with local traffic.
MELODY BARELA	Of course, it is way too congested and growth is just adding to the congestion.
Rebecca Stivers	yes, it seems there are fatal accidents here regularly.
Margaret Reynolds	Overcrowded, too close to residents, not a long term viable option
Michael helton	No
Tammy Campbell	The intersection at 75 tends to back up
Michael Johnson	Too many traffic lights
Shawn McCluskey	Yes too close to my house
Brian Dennis Ovens	High congestion
Jane	Congested, the median is dangerous in some places that don't have grass or curbs. Too many stop lights and not correctly timed to keep traffic flowing. Currently they're putting in sidewalks & I just can't believe you're wanting to put pedestrians right next to this busy highway!! That's clearly insane & waste of taxpayer money.
David/Lisa Stephenson	Our mailbox is on 380 & too many accidents between Lake Lavon and Highway 5/Airport Rd
Johnny Feagin	Not really
G. Callahan	It is loud, and our house is nearby.
Kelly Parra	Yes, too many accidents happening at Tremont and 380.
Melissa A Brown	Dangerous intersection at FM1827 and 380, too many people cutting through FM1827 to avoid some of Princeton.
Stephany Campbell	There's quite a bit of traffic currently and the new businesses aren't going to help it any. The main areas of concern seem to be between Hwy 5 and Hardin.
Kelly Harmon	Congestion
robert Soltysik	Safety of traffic patterns, number of construction trucks, lack of speed enforcement
marc mcdowell	no
Ryan Contreras	
Charles Patmore	Yes. There are not enough lanes. It needs to be widened.

Please provide us with your contact information.	If US 380 is congested, what alternative routes do you take?
Name	Open-Ended Response
Michelle Payne	Stonebridge/Lake Forest/ Hardin/Virginia
jeffrey lewis	
Ferdinand Ter Haar	Virginia Pkwy to US 75
Chris Nickell	Bridge Farm on 982 to (unreadable)
John Blair	El Dorado
Eric Thompson	
MELODY BARELA	Virginia Pkw or Preston
Rebecca Stivers	Virginia Rd.
Margaret Reynolds	Virginia, 121, 75
Michael helton	Virginia
Tammy Campbell	Hardin to appropriate cross streets or up HW5
Michael Johnson	
Shawn McCluskey	Hwy 78 - Long way around
Brian Dennis Ovens	none as I work off of 380
Jane	There aren't many alternatives once you're on it. Some North or South alternatives are just as bad & time consuming.
David/Lisa Stephenson	South of 380 & off 9825 to 546 (unreadable) only easier. East/west option o 75/121
Johnny Feagin	
G. Callahan	back roads
Kelly Parra	White
Melissa A Brown	Back farm roads to come up Throckmorton to avoid section from 1827 to Airport RD.
Stephany Campbell	Wilmeth, Virginia
Kelly Harmon	CR 337 to CR 336 to FM 2933 to CR 331 to CR 274 to TX 5 to US 380
robert Soltysik	Virginia Pkwy
marc mcdowell	121
Ryan Contreras	
Charles Patmore	75/121

Please provide us with your contact information.	What solutions would you suggest in the US 380 Corridor?
Name	Open-Ended Response
Michelle Payne	A loop to divert traffic off 380
jeffrey lewis	
Ferdinand Ter Haar	Build a freeway north of 380
Chris Nickell	A bypass - north or south of 380- at least 1 mile from 380
John Blair	Go North where growth is occurring
Eric Thompson	An alternate freeway or tollway to support commercial traffic.
MELODY BARELA	Freeway!
Rebecca Stivers	
Margaret Reynolds	Reroute north around the residential
Michael helton	Leave it alone
Tammy Campbell	
Michael Johnson	
Shawn McCluskey	Go north more property to build on.
Brian Dennis Ovens	
Jane	Make it a "real" highway with service roads. AND NOT A TOLL ROAD!!!! I'm tired of the roads & I used to drive 121 until NTTA took over when the state fell short. I'm over paying $8+ a day to go to & from work. That's another can of worms. Totally screwed all people living/driving that route.
David/Lisa Stephenson	All ideas should route traffic north of 380 as growth will continue across that corridor.
Johnny Feagin	I prefer the green alignment, but would prefer the pink alignment over any of the other three. I just want to be left alone!
G. Callahan	Why can't there be an outer loop that goes from 75 north of 380 all the way over to Preston Road?
Kelly Parra	Underground!
Melissa A Brown	I like the yellow alignment
Stephany Campbell	Add an East/West highway to relieve congestion
Kelly Harmon	better alternative route to lessen traffic flow
robert Soltysik	The bypasses proposed are as shortsighted as McKinney was 10 years ago. A bypass that starts around Custer road will help for about one year. When land in Prosper is developed the traffic problem will just be pushed west. Any bypass should connect to main artery roads, like Hwy 289 or NDT. The bypass idea is not a long term solution. Making 380 a more managed highway will be the best overall solution until the outer loop is completed.
marc mcdowell	bypass tunnels
Ryan Contreras	
Charles Patmore	Keep the solution to 380 ON 380. This may effect businesses, but will not displace hundreds of families off of their private property that they reside on. The choice is clear. NO LOOP. This will also keep us out of a long, drawn out and expensive legal battle.

Please provide us with your contact information.	Do you support the building of a freeway regardless of alignment?
Name	Open-Ended Response
Michelle Payne	No!
jeffrey lewis	yes
Ferdinand Ter Haar	yes, but in the northern alignment options
Chris Nickell	It needed
John Blair	Not through McKinney as it currently travels. North only for current and future growth. Look at the growth north of 121 after it was created
Eric Thompson	Yes. Either a freeway or a tollway.
MELODY BARELA	Yes
Rebecca Stivers	No
Margaret Reynolds	No, only if moved to more reasonable route. Current route in Mckinney is in the middle of neighborhood areas and will ruin property values.
Michael helton	No
Tammy Campbell	I wouldn't want to see 543 used as an alternative
Michael Johnson	
Shawn McCluskey	Not really, but is needed
Brian Dennis Ovens	
Jane	Yes, unless the "alignment" is not a ridiculous one.
David/Lisa Stephenson	No
Johnny Feagin	No. I do not faver limited access roadways. If taxpayer money is used to build a road, every citizen should have access to it.
G. Callahan	Only if it goes north, would not like a freeway coming close to Custer Road at 380.
Kelly Parra	No
Melissa A Brown	Yes, I think a freeway is inevitable. Would prefer good noise reduction techniques to minimize traffic sounds.
Stephany Campbell	No.
Kelly Harmon	no
robert Soltysik	yes, but only along the existing highway.
marc mcdowell	no
Ryan Contreras	
Charles Patmore	No--I believe that 380 should have added lanes. That is all.

Please provide us with your contact information.	If US 380 is constructed as a freeway, which alignment do you prefer? (select all that apply)

Claudia Zimmerman	Commuter		Property Owner	Nearby resident		Daily
Cameron Slate	Commuter			Nearby resident		Weekly

Please provide us with your contact information.	Do you have any concerns with the existing US 380?
Name	Open-Ended Response
Traci Smith	Speed limit too high.
Brenda Watson	I travel 380 daily - there is traffic, however people's homes and land should not be taken to widen this highway.
Ann Glazer	I think it is important to anticipate the growth of the area.
Ann Glazer	I think it is important to anticipate the growth of the area.
Carrie Arnold	turning left out of Auburn Hills
Angela Nyberg	No concerns.
Charles E Henry	
Michael Swim	Congestion at US 75 intersection; otherwise flows well
Corbin Hanson	safety
Jessica Hanson	Safety - People crash in front of our neighborhood every few weeks it seems. It's scary to wait to turn into our neighborhood at the light, while cars and trucks drive past me at 60+ mph, shaking the car!
Rick Hanson	380 is dangerous in many areas! We see about an accident a month in front of our neighborhood, sometimes fatal. The speed limits are not followed either and patrol should be strengthened.
Pete Zamecnik	none
Sandra Edinger	Yes. There is too much traffic.
Claudia Zimmerman	
Cameron Slate	

Please provide us with your contact information.	If US 380 is congested, what alternative routes do you take?
Name	Open-Ended Response
Traci Smith	
Brenda Watson	I take 121 to 35 or 75 north.
Ann Glazer	75 to exit 42, Wilmeth Rd.
Ann Glazer	75 to Wilmeth.
Carrie Arnold	Virginia
Angela Nyberg	I take no alternate route.
Charles E Henry	
Michael Swim	Will avoid the US 75 intersection via Wilmeth Road to Hardin Blvd
Corbin Hanson	other roads or accept congestion
Jessica Hanson	I can live with the congestion or take and neighboring roads
Rick Hanson	Existing roads south of 380 & 121.
Pete Zamecnik	I have never had to take an alternate route
Sandra Edinger	Usually side roads, which are also becoming more congested.
Claudia Zimmerman	
Cameron Slate	

Please provide us with your contact information.	What solutions would you suggest in the US 380 Corridor?
Name	Open-Ended Response
Traci Smith	Tucker Hill's position is NO to all alignments due to potential loss of homes and devaluation of our neighborhood as a whole and adverse environmental and health implications. Notwithstanding our recommendation, if any freeway construction occurs on the existing 380 footprint adjacent to Tucker Hill, it must impose minimal right-of-way and noise pollution by means of cantilevered access lanes; a depressed throughway; and sound barriers. Also, if any bypass option is chosen, it must be located as far west of Tucker Hill as possible; west of future Stonebridge; not on or bordering Tucker Hill.
Brenda Watson	Instead of going wider, there needs to be a plan to make HOV lanes of 3 or more people going down the middle that are stacked on top of each other. These can be toll lanes that are paid for. This would eleviate the need to expand and take peoples businesses and homes.
Ann Glazer	Widen 380.
Ann Glazer	Widen 380.
Carrie Arnold	a freeway
Angela Nyberg	Increase the lanes in their current location.
Charles E Henry	
Michael Swim	Simple widening of 380 along existing route
Corbin Hanson	Tucker Hill's position is NO to all alignments due to potential loss of homes and devaluation of our neighborhood as a whole and adverse environmental and health implications. Notwithstanding our recommendation, if any freeway construction occurs on the existing 380 footprint adjacent to Tucker Hill, it must impose minimal right-of-way and noise pollution by means of cantilevered access lanes; a depressed throughway; and sound barriers. Also, if any bypass option is chosen, it must be located as far west of Tucker Hill as possible; west of future Stonebridge; not on or bordering Tucker Hill.
Jessica Hanson	Tucker Hill's position is NO to all alignments due to potential loss of homes and devaluation of our neighborhood as a whole and adverse environmental and health implications. Notwithstanding our recommendation, if any freeway construction occurs on the existing 380 footprint adjacent to Tucker Hill, it must impose minimal right-of-way and noise pollution by means of cantilevered access lanes; a depressed throughway; and sound barriers. Also, if any bypass option is chosen, it must be located as far west of Tucker Hill as possible; west of future Stonebridge; not on or bordering Tucker Hill.
Rick Hanson	Tucker Hill's position is NO to all alignments due to potential loss of homes and devaluation of our neighborhood as a whole and adverse environmental and health implications. Notwithstanding our recommendation, if any freeway construction occurs on the existing 380 footprint adjacent to Tucker Hill, it must impose minimal right-of-way and noise pollution by means of cantilevered access lanes; a depressed throughway; and sound barriers. Also, if any bypass option is chosen, it must be located as far west of Tucker Hill as possible; west of future Stonebridge; not on or bordering Tucker Hill.
Pete Zamecnik	Build another east-west thoroughfare just North of Prosper
Sandra Edinger	The intersection of 380 and 75 is a complete mess. This needs to somehow be reworked. 380 should also be expanded.
Claudia Zimmerman	
Cameron Slate	

Please provide us with your contact information.	Do you support the building of a freeway regardless of alignment?
Name	Open-Ended Response
Traci Smith	No!
Brenda Watson	I don’t care about alignment- I care about taking people’s land first, then taking business land, then traffic, then how pretty the freeway looks in that order.
Ann Glazer	No.
Ann Glazer	No.
Carrie Arnold	I support a freeway, but not "regardless of alignment"
Angela Nyberg	Do not support any alignment that would go through anyone's existing personal home -- if that person will not willingly agree to cash price offered by the state for their personal property. We watched a single mom be bullied out of her home so that the Trinity Falls development could go in. That is no morally right.
Charles E Henry	
Michael Swim	No
Corbin Hanson	no
Jessica Hanson	No. We need a solution to please all which is safe.
Rick Hanson	No. I can accept a longer commute due to increased traffic.
Pete Zamecnik	no
Sandra Edinger	I am in support of building a freeway, but alignment needs to be taken into consideration.
Claudia Zimmerman	
Cameron Slate

Alyson Johnson			Property Owner	Nearby resident		Daily
David C Johnson	Commuter			Nearby resident		Daily

Please provide us with your contact information.	Do you have any concerns with the existing US 380?
Name	Open-Ended Response
Jamie Shepard	No center median in most areas and high speed limits get very dangerous
	No
Geoffrey Diener	
Donna Priestley	It's getting very busy! I hope the bridges are finished soon
Scott Roller	congestion is getting worse
Cody Hooper	I would like to see it finished and possibly made better as the traffic still backs up onto Hwy 75
Stephanie Diener	
Amanda	Distracted drivers, need more police presence
Clarissa Brown	Yes! Its congested and due to new shopping development in the 380/75 area, it will only get worse.
Teresa barton	No
Carolee Colclaser	So many cars. Lots of lights through McKinney that takes forever to get through.
Kenny & Edith Armstrong	Congested
Alyson Johnson	No
David C Johnson	Traffic safety could be improved at Tremont and 380 by installing a flashing yellow warning light that would alert travelers to an upcoming red light. This would give them time to slow down and stop rather than trying to accelerate through a red light.

Please provide us with your contact information.	If US 380 is congested, what alternative routes do you take?
Name	Open-Ended Response
Jamie Shepard	Eldorado
	Virginia pkwy
Geoffrey Diener	
Donna Priestley	Custer
Scott Roller	Rural roads north of 380 through Mckinney.
Cody Hooper	121 and Preston
Stephanie Diener	The only time I have a problem is when they have a traffic delay due to the current construction between Preston and the Tollway. I will take Custer to 380 instead of the tollway or Preston.
Amanda	Bridgefarmer, 407
Clarissa Brown	The route behind the northern shopping area at 380/75.
Teresa barton	Virginia
Carolee Colclaser	I take Frontier as far east as possible. To Lake Forest.
Kenny & Edith Armstrong	Wilmeth
Alyson Johnson	Virginia pkwy
David C Johnson	380 is not congested when I use it.

Please provide us with your contact information.	What solutions would you suggest in the US 380 Corridor?
Name	Open-Ended Response
Jamie Shepard	
	I am ok with change. Just don't need another tollway just to get around
Geoffrey Diener	Tucker Hill's position is NO to all alignments due to potential loss of homes and devaluation of our neighborhood as a whole and adverse environmental and health implications. Notwithstanding our recommendation, if any freeway construction occurs on the existing 380 footprint adjacent to Tucker Hill, it must impose minimal right-of-way and noise pollution by means of cantilevered access lanes; a depressed throughway; and sound barriers. Also, if any bypass option is chosen, it must be located as far west of Tucker Hill as possible; west of future Stonebridge; not on or bordering Tucker Hill.
Donna Priestley	
Scott Roller	Bypass as currently proposed is good.
Cody Hooper	Make it 75 mph and widen it to 4 lanes each way. Make 75 and 380 more like Spring valley for any major Hwy crossing.
Stephanie Diener	Tucker Hill's position is NO to all alignments due to potential loss of homes and devaluation of our neighborhood as a whole and adverse environmental and health implications. Notwithstanding our recommendation, if any freeway construction occurs on the existing 380 footprint adjacent to Tucker Hill, it must impose minimal right-of-way and noise pollution by means of cantilevered access lanes; a depressed throughway; and sound barriers. Also, if any bypass option is chosen, it must be located as far west of Tucker Hill as possible; west of future Stonebridge; not on or bordering Tucker Hill.
Amanda	
Clarissa Brown	Identify alternate routes for commuters, develop alternate routes for commuters and don't expand just to "expand". There is no need to displace families if alternative routes are identified.
Teresa barton	Widen it
Carolee Colclaser	Widen 380 and have frontage roads.
Kenny & Edith Armstrong	
Alyson Johnson	Not turning 380 into a major hwy.
David C Johnson	My position, consistent with Tucker Hill's position, is NO to all alignments due to the potential loss of homes and devaluation of our neighborhood as a whole and adverse environmental and health implications. While I support neither the expansion of 380 nor the addition of a bypass, I do recommend improving 380 by means such as grade-separated intersections, adaptive traffic signal control systems, increased and enhanced turn bays, improved on-site traffic circulation, and an upgraded US-75 interchange that could include roundabouts. Safety would also be improved at 380 and Tremont by installing a warning flashing yellow light ahead of the stoplight to alert travelers to the need to come to an upcoming stop (rather than speeding up through the intersection). Notwithstanding my recommendation, if any freeway construction occurs on the existing 380 footprint adjacent to Tucker Hill, it must impose minimal right-of-way and noise pollution by means of cantilevered access lanes; a depressed throughway; and landscaped sound barriers. Adverse impacts on existing homes and home values are not acceptable. Ingress/egress off of Stonebridge would be required first. Also, notwithstanding my recommendation, if any bypass occurs, it must be located as far west of Tucker Hill as possible; west of future Stonebridge; and neither on nor bordering Tucker Hill.

Please provide us with your contact information.	Do you support the building of a freeway regardless of alignment?
Name	Open-Ended Response
Jamie Shepard	Yes
Geoffrey Diener	I do not support the building of anything that would have a negative impact on Tucker Hill.
Donna Priestley	No
Scott Roller	•Not opposed to the by-pass with any of the current proposed alignments. •Opposed to any change in proposed alignments that brings the By-Pass west of Custer Road as it reconnects to 380. •Request consideration of the impact of the proposed by pass on First Street, Prosper Trail and Frontier Parkway in Prosper due to possible “cut through” traffic to connect with proposed by pass versus expanding the current alignment of 380
Cody Hooper	That depends on what you mean by regardless of alignment It is not answerable without first seeing your ideas.
Stephanie Diener	I don't support anything being built that would have a negative impact on Tucker Hill. It is an incredibly unique community and I would hate to see anything taken away from this development.
Amanda	
Clarissa Brown	No!
Teresa barton	No
Carolee Colclaser	Yes
Kenny & Edith Armstrong	
Alyson Johnson	No
David C Johnson	No. NONE of the existing alignment proposals is acceptable. If a freeway is to be constructed, it must be done as a bypass in the immediate vicinity of Custer Road.

Please provide us with your contact information.	If US 380 is constructed as a freeway, which alignment do you prefer? (select all that apply)

Please provide us with your contact information.	Do you have any concerns with the existing US 380?
Name	Open-Ended Response
Stephanie N Johnson	Yes, the intersection of 380 and Tremont is currently unsafe. This could be improved by the installation of a flashing yellow light ahead of the existing light that would warn oncoming traffic of the need to slow down and stop.
David J Johnson	380 is unsafe outside of Tucker Hill as currently implemented. A flashing warning light ahead of the stop light would help to alert drivers that they will need to slow down and stop.
Cindy Leggette	
Matt Mullikin	No
K. Scott Williams, DDS	Increasing traffic volumes
Tiffany	Too many car accidents.
Richard Karch	Speed needs to be lowered, improve safety, traffic signal at Gray Branch
Natalie Payne	Needs turn lanes so people can get off the road without slowing down other traffic

Please provide us with your contact information.	If US 380 is congested, what alternative routes do you take?
Name	Open-Ended Response
Stephanie N Johnson	I do not experience congestion when using 380.
David J Johnson	It is not congested when we use it.
Cindy Leggette	
Matt Mullikin	
K. Scott Williams, DDS	I do not have any. I live right off 380.
Tiffany	546
Richard Karch	I take Ridge, Lake Forest or Hardin to Virginia or Eldorado.
Natalie Payne	121, much faster than stopping at every light on 380

Please provide us with your contact information.	What solutions would you suggest in the US 380 Corridor?
Name	Open-Ended Response
Stephanie N Johnson	Note: Having had time for further in-depth review of all options, I am hereby amending my previous survey vote. My position, consistent with Tucker Hill's position, is NO to all alignments due to the potential loss of homes and devaluation of our neighborhood as a whole and adverse environmental and health implications. While I support neither the expansion of 380 nor the addition of a bypass, I do recommend improving 380 by means such as grade-separated intersections, adaptive traffic signal control systems, increased and enhanced turn bays, improved on-site traffic circulation, and an upgraded US-75 interchange that could include roundabouts. Safety would also be improved at 380 and Tremont by installing a warning flashing yellow light ahead of the stoplight to alert travelers to the need to come to an upcoming stop (rather than speeding up through the intersection). Notwithstanding my recommendation, if any freeway construction occurs on the existing 380 footprint adjacent to Tucker Hill, it must impose minimal right-of-way and noise pollution by means of cantilevered access lanes; a depressed throughway; and landscaped sound barriers. Adverse impacts on existing homes and home values are not acceptable. Ingress/egress off of Stonebridge would be required first. Also, notwithstanding my recommendation, if any bypass occurs, it must be located as far west of Tucker Hill as possible; west of future Stonebridge; and neither on nor bordering Tucker Hill.
David J Johnson	Note: Having had time for further in-depth review of all options, I am hereby amending my previous survey votes. Also, notwithstanding my recommendation, if any bypass occurs, it must be located as far west of Tucker Hill as possible; west of future Stonebridge; and neither on nor bordering Tucker Hill.
Cindy Leggette	
Matt Mullikin	Tucker Hill's position is NO to all alignments due to potential loss of homes and devaluation of our neighborhood as a whole and adverse environmental and health implications. Notwithstanding our recommendation, if any freeway construction occurs on the existing 380 footprint adjacent to Tucker Hill, it must impose minimal right-of-way and noise pollution by means of cantilevered access lanes; a depressed throughway; and sound barriers. Also, if any bypass option is chosen, it must be located as far west of Tucker Hill as possible; west of future Stonebridge; not on or bordering Tucker Hill.
K. Scott Williams, DDS	Tucker Hill's position is NO to all alignments due to potential loss of homes and devaluation of our neighborhood as a whole and adverse environmental and health implications. Notwithstanding our recommendation, if any freeway construction occurs on the existing 380 footprint adjacent to Tucker Hill, it must impose minimal right-of-way and noise pollution by means of cantilevered access lanes; a depressed throughway; and sound barriers. Also, if any bypass option is chosen, it must be located as far west of Tucker Hill as possible; west of future Stonebridge; not on or bordering Tucker Hill.
Tiffany	
Richard Karch	Develop all arteries north of 380 between Custer and 75 as the city had previously planned. Also develop Laud Howell and the Outer Loop where the massive growth is predicted. Leave 380 as it is with safety enhancements.
Natalie Payne	Needs turn lanes so people can get off the road without slowing down other traffic

Please provide us with your contact information.	Do you support the building of a freeway regardless of alignment?
Name	Open-Ended Response
Stephanie N Johnson	No. NONE of the existing proposed alignments is acceptable. The only freeway option that would work is a bypass in the immediate vicinity of Custer Road.
David J Johnson	No. NONE of the existing proposed alignments is acceptable. A different alignment (e.g., a bypass at Custer Road) would be needed in order to implement a freeway solution.
Cindy Leggette	
Matt Mullikin	No
K. Scott Williams, DDS	NO
Tiffany	
Richard Karch	NO!!!! I do not support making 380 a limited-access highway or any alignment that encroaches on Tucker Hill. Notwithstanding our recommendation, if any freeway construction occurs on existing 380 adjacent to Tucker Hill, it must impose minimal right-of-way and noise pollution by means of cantilevered access lanes, depressed throughway, sound barriers and a new entrance to Tucker Hill off the future Stonebridge Drive. Also, if any bypass option is chosen, it must be located as far west of Tucker Hill as possible, west of future Stonebridge, not on or bordering Tucker Hill.
Natalie Payne	As long as it does not come up to pecan ridge housing developement and lower the value of my home.

Judith Schurr	Commuter			Nearby resident		Daily

Please provide us with your contact information.	Do you have any concerns with the existing US 380?
Name	Open-Ended Response
Amy Roller	It gets very congested especially close to 75.
Judy Glazer	
Cynthia Hall Ashby	The speed limit is too high. People run red lights constantly and there have way too many traffic accidents at our entrance/exits.
Ruth Emanuel	Yes
James Emanuel	Yes
Sieglinde Schupp	No
William Powell	The current approach is not adequate and is unsafe. I avoid 380 if possible due to excessive traffic, too many lights, and too much uncontrolled access directly onto 380 which allows cars to pull out of businesses at slow speeds into quickly moving traffic.
James Levins	
Linda Backlund	The congestion and traffic backup is horrible during peak travel times. Any accident turns the road into a gridlock nightmare.
Matthew Gore	
Rachael	Major! It's like a speed zone
Gwen Owens	Terrible traffic flow. Daily accidents. Heavy backup.
Marti Gistaro	Traffic driving too fast. Numerous accidents at the entrance to Tucker Hill
Gabrielle smith	Traffic/congestion/construction
Bruce Tiff	Too busy and congested
Judith Schurr	Yes I drive ever day to my daughter's house and she lives off 380. The speed limit is already too fast. Making it a freeway would just increase the speed and make me have to cross more traffic to get where I need to go. I do not want a freeway.

Please provide us with your contact information.	If US 380 is congested, what alternative routes do you take?
Name	Open-Ended Response
Amy Roller	Bloomdale Road to Wilmeth
Judy Glazer	Exit 42 Wilmeth Road
Cynthia Hall Ashby	Lake forest, Custer, Stonebridge
Ruth Emanuel	None available. 380 is the only egress from Tucker HIll
James Emanuel	None available. 380 is the only egress from Tucker Hill
Sieglinde Schupp	121
William Powell	Frontier Parkway or Prosper Trail if heading west and/or north. 164/943/Wilmeth Rd. if going out to 75. Custer or Lake Forest south to the Sam Rayburn tollroad. I am now in the habit of taking any back route I can find to stay off of 380 if possible.
James Levins	Hardin, Custer, Coit to ElDorado
Linda Backlund	Eldorado or Virginia
Matthew Gore	
Rachael	There are none!
Gwen Owens	Hwy 78
Marti Gistaro	There are no other options.
Gabrielle smith	Preston
Bruce Tiff	121 or McKinney Ranch Pkway
Judith Schurr	None, the only entrance to the neighborhood I'm going to is off 380.

Please provide us with your contact information.	What solutions would you suggest in the US 380 Corridor?
Name	Open-Ended Response
Amy Roller	Bypass beginning east of Custer. Congestion gets worse around Lake Forest Drive.
Judy Glazer	Widen 380
Cynthia Hall Ashby	Tucker Hill's position is NO to all alignments due to potential loss of homes and devaluation of our neighborhood as a whole and adverse environmental and health implications. Notwithstanding our recommendation, if any freeway construction occurs on the existing 380 footprint adjacent to Tucker Hill, it must impose minimal right-of-way and noise pollution by means of cantilevered access lanes; a depressed throughway; and sound barriers. Also, if any bypass option is chosen, it must be located as far west of Tucker Hill as possible; west of future Stonebridge; not on or bordering Tucker Hill.
Ruth Emanuel	Bypass with alignment away from the Tucker Hill boundary
James Emanuel	Realign bypass away from Tucker Hill boundary
Sieglinde Schupp	121
William Powell	There really needs to be a northern parallel route that goes from the Prosper/Celina area all the way over to 75. Either Prosper Trail or Frontier Parkway make a lot of sense to me. With the new Prosper High School going in on Prosper Trail/Bloomdale/123, that stretch of 123 will need to be developed anyway. That could be widened and extended all the way to 75.
James Levins	Underpass near Tucker Hill
Linda Backlund	expand roads, build thoroughfares
Matthew Gore	
Rachael	More highways
Gwen Owens	Making it an elevated highway with access roads
Marti Gistaro	Tucker Hill's position is NO to all alignments due to potential loss of homes and devaluation of our neighborhood as a whole and adverse environmental and health implications. Notwithstanding our recommendation, if any freeway construction occurs on the existing 380 footprint adjacent to Tucker Hill, it must impose minimal right-of-way and noise pollution by means of cantilevered access lanes; a depressed throughway; and sound barriers. Also, if any bypass option is chosen, it must be located as far wet of Tucker Hill as possible; west of future Stonebridge; not on or bordering Tucker Hill.
Gabrielle smith	
Bruce Tiff	Widen to have main lanes with no traffic lights and services roads.
Judith Schurr	Build the freeway further North where there is open space not through the middle of our town.

Please provide us with your contact information.	Do you support the building of a freeway regardless of alignment?
Name	Open-Ended Response
Amy Roller	Not opposed to the by-pass with any of the current proposed alignments. However, we are opposed to any change in proposed alignments that brings the By-Pass west of Custer Road as it reconnects to 380. We would request consideration of the impact of the proposed by-pass on First Street, Prosper Trail and Frontier Parkway in Prosper due to possible “cut through” traffic to connect with proposed by pass versus expanding the current alignment of 380
Judy Glazer	No
Cynthia Hall Ashby	The freeway I would support would be out further and coming at least from 75 to the tollway. One of the worst areas is through Prosper to the tollway and when this freeway dumps onto 380 east of the intersection of Custer and 380 it will be a nightmare. I think it would help to enlarge the width of some of the other east/west roads first as well as to take Stonebridge north of 380. Custer is proposed to widen and that should help people have other options. Just doesn’t make any sense to have a bypass for the portion of 380 just for McKinney and not to North Dallas Tollway. The bottleneck where it is proposed to land at 380 will be unbearable. How is it Prosper can just say no?
Ruth Emanuel	No
James Emanuel	No
Sieglinde Schupp	Tucker Hill's position is NO to all alignments due to potential loss of homes and devaluation of our neighborhood as a whole and adverse environmental and health implications. Notwithstanding our recommendation, if any freeway construction occurs on the existing 380 footprint adjacent to Tucker Hill, it must impose minimal right-of-way and noise pollution by means of cantilevered access lanes; a depressed throughway; and sound barriers. Also, if any bypass option is chosen, it must be located as far west of Tucker Hill as possible; west of future Stonebridge; not on or bordering Tucker Hill.
William Powell	Absolutely. It is essential to the future of the area. Some argue it will encourage growth and ruin the area, but the growth is here regardless and is not going to go away just because the freeway does not get built. Safety, convenience, etc all suggest that the freeway is the best option. I would add that provided good bike/pedestrian routes, as well as drastically expanding public transportation (possible metro rail, etc) are very important to included in any planned expenditures.
James Levins	No
Linda Backlund	Yes as long as it isn't a tollway again. There are too many tollways.
Matthew Gore	
Rachael	Yes
Gwen Owens	Yes, but have seen no maps of proposed routes
Marti Gistaro	No
Gabrielle smith	Yes
Bruce Tiff	maybe
Judith Schurr	No, I do not support building a freeway. Local people do not need it and we don’t want it through our neighborhoods.

Please provide us with your contact information.	If US 380 is constructed as a freeway, which alignment do you prefer? (select all that apply)

Lynn						

Please provide us with your contact information.	Do you have any concerns with the existing US 380?
Name	Open-Ended Response
Jw baxter	No
Jill Schurr	Yes, I'm concerned someone is going to build a freeway through my neighborhood. Put it further North where there is still open space. Turning 380 into a freeway will just add to traffic not relieve it. I was 380 to stay the way it is through McKinney. I drive it every day and it's not bad at all. Once the light at the tollway is finished it will be much better.
James Rushing	
Linda Beene	No. I have lived in McKinney 25 years. I consider it to be a good east-west street within the city. Plus many of my merchants/restaurants are located on this street.
C. Mike Keith	Unsafe intersections. Frequent accidents at Custer & 380.
Tom Greenwald	No
Michael and Lisa Cusick	None as existing
Staci tucker	Too many accidents
Margaret K Cue	Needs to expand
Paul Clark	Tucker Hill's position is NO to all alignments due to potential loss of homes and devaluation of our neighborhood as a whole and adverse environmental and health implications.
Heather Adams	The speed limit. With more businesses popping up it does not need to be 55mph.
	Not a safe road
Dwyane Ward	congested
Kasian	
Ralph Thompson	Too much traffic for the current raodway
Cortnie Davis	I don't mind 380 (in my area) as is, honestly. The McKinney portion of 380 is very drive-able! Towards Denton it can get squirrelly but otherwise a great road option.
Cortnie Davis	
Pamela Sardo	I am sending petition that opposes relocating 380 south in Farmersville to multiple emails (including stephen.endres@txdot.gov among others). Accidents throughout Rt 380 and lack of easy access from Princeton Meadows development (across from Walmart) in Princeton (I recommend stoplight there) and lack of easy access from Rt 547 to 380 (I recommend stop light there)-**I DO NOT WANT 380 to MOVE SOUTH of existing location in Farmersville- due to noise concern, decrease in property value and increase in taxes from relocationg rather than expanding existing location
Lynn	

Please provide us with your contact information.	If US 380 is congested, what alternative routes do you take?
Name	Open-Ended Response
Jw baxter	Very difficult as this is the only sizable east-west corridor in the are
Jill Schurr	I don’t have an alternative, the only exit from my neighborhood is on to 380. If there is traffic then I try to make my way over to Virginia.
James Rushing	
Linda Beene	
C. Mike Keith	I typically go west from Custer on El Dorado, Main, or SH 141.
Tom Greenwald	Hwy 121
Michael and Lisa Cusick	Never feel 380 is too congested, even during rush hour.
Staci tucker	Virginia
Margaret K Cue	Local streets
Paul Clark	
Heather Adams	Virginia Pkwy
	El Dorado
Dwyane Ward	There are not any
Kasian	
Ralph Thompson	Hwy 121 / Toll Road
Cortnie Davis	I don't - I just leave earlier :)
Cortnie Davis	
Pamela Sardo	south down 547 to Fate & Josephine & Nevada and down 78 and down 2nd street in Princeton to Lucas
Lynn	

Please provide us with your contact information.	What solutions would you suggest in the US 380 Corridor?
Name	Open-Ended Response
Jw baxter	Slight improvements and build an east-west freeway/tollway 5-10 miles north of 380, offering long term growth for the area
Jill Schurr	NO to all alignments due to potential loss of homes and devaluation of our neighborhood as a whole and adverse environmental and health implications. Notwithstanding our recommendation, if any freeway construction occurs on the existing 380 footprint adjacent to Tucker Hill, it must impose minimal right-of-way and noise pollution by means of cantilevered access lanes; a depressed throughway; and sound barriers. Also, if any bypass option is chosen, it must be located as far west of Tucker Hill as possible; west of future Stonebridge; not on or bordering Tucker Hill.
James Rushing	
Linda Beene	Tucker Hill's position is NO to all alignments due to potential loss of homes and devaluation of our neighborhood as a whole and adverse environmental and health implications. Notwithstanding our recommendation, if any freeway construction occurs on the existing 380 footprint adjacent to Tucker Hill, it must impose minimal right-of-way and noise pollution by means of cantilevered access lanes; a depressed throughway; and sound barriers. Also, if any bypass option is chosen, it must be located as far west of Tucker Hill as possible; west of future Stonebridge; not on or bordering Tucker Hill.
C. Mike Keith	
Tom Greenwald	
Michael and Lisa Cusick	Overpasses at key intersections. No other changes
Staci tucker	Highway like 121
Margaret K Cue	Widen 380 add lanes
Paul Clark	If any freeway construction occurs on the existing 380 footprint adjacent to Tucker Hill, it must impose minimal right-of-way and noise pollution by means of cantilevered access lanes; a depressed throughway; and sound barriers. If any bypass option is chosen, it must be located as far west of Tucker Hill as possible; west of future Stonebridge; not on or bordering Tucker Hill.
Heather Adams	Slow the speed limit and put in some more stop lights.
	Fly overs for intersections
Dwyane Ward	Elevate thru town from airport road to an exceptionable point on west side to create by-pass for all thru traffic
Kasian	
Ralph Thompson	Build a freeway or tolled highway similar to Hwy 121 Toll Road
Cortnie Davis	
Cortnie Davis	
Pamela Sardo	I recommend stoplight at intersection of 380 and Princeton Meadows and due to lack of easy access from Rt 547 to 380 (I recommend stop light there)-**I DO NOT WANT 380 to MOVE SOUTH of existing location in Farmersville- due to noise concern, decrease in property value and increase in taxes from relocating rather than expanding existing Rt 380 location which would be far less expensive. I support pink and green alignment - I OPPOSE red, blue and yellow proposals
Lynn	

Please provide us with your contact information.	Do you support the building of a freeway regardless of alignment?
Name	Open-Ended Response
Jw baxter	No
Jill Schurr	No, I previously submitted a survey saying I would but that was before I realized that all options would go through my neighborhood in one way or another. Ignore my previous response, I do not support a freeway.
James Rushing	
Linda Beene	NO! I live in Tucker Hill, and it would severely impact our neighborhood.
C. Mike Keith	• Not opposed to the by-pass with any of the current proposed alignments. • Opposed to any change in proposed alignments that brings the By-Pass west of Custer Road as it reconnects to 380. • Request consideration of the impact of the proposed by pass on First Street, Prosper Trail and Frontier Parkway in Prosper due to possible “cut through” traffic to connect with proposed by pass versus expanding the current alignment of 380.
Tom Greenwald	No
Michael and Lisa Cusick	No! It is, and will not be necessary if the remaining primary and secondary roadway infrastructure is completed in Frisco, Prosper and McKinney, and the outer loop is constructed.
Staci tucker	No bypass options are supported
Margaret K Cue	no
Paul Clark	NO.
Heather Adams	Not sure - don't feel like I have all the information to make a decision, but I am 100% against kicking a family out of their home.
	No, depends on alignment
Dwyane Ward	Yes
Kasian	
Ralph Thompson	YES!
Cortnie Davis	Homeowners should not be displaced to accommodate freeways.
Cortnie Davis	
Pamela Sardo	I only support expansion of current location- I do NOT support building new location. I have sent email petition to txdot staff and others.
Lynn

Please provide us with your contact information.	Do you have any concerns with the existing US 380?
Name	Open-Ended Response
Darrell Girouard	Yes
Gail Anderson	Speeding motorists, no police
Staci tucker	
michael	No concerns at this time
Ernest Pages	It is congested from McKinney to points west
Adam	Turning left across the highway is dangerous. Too many serious accidents. Also too much traffic in the morning going east. It always backs up at Airport drive.
Christine Scarbo	Right now it feels unsafe, particularly turning right (into business or gas station). Frequently congested.
Marjorie Youngblood	Yes, congestion is bad
MARYLYNN Creme	Speed is a concern; trucks cannot stop at lights many times, and people speed up just to stop at the next light in 60 seconds.
Yvonne Moore	Yes. The medium isn't safe. The Walmart and McDonald's are two examples of how the lack of a good medium causes issues for the traffic flow.
Lindsey	Going through McKinney is time consuming due to low speed li.its and congestion.
Cortney Romans	Yes
Keith and Rhonda Pryor	Driving on the existing 380 between Princeton and McKinney is dangerous. Very Dangerous!!! Almost weekly there is a major accident.
Nadine Winterrowd	Number of deaths by accidents Traffic jam to a stop daily in princeton.
Jeff Kennedy	
Jill Kunde	No - just speeding of gravel trucks & construction vehicles
Jill Kunde	
John Schaeffer	Yes, 25 years ago it was possible to synchronize traffic lights so that once you stop at one light, if you go the speed limit, you can make it through the rest of them.
Donny and Barbara Mason	YesNone
Al Mauceri	Very dangy
Kate Kohl	No

Please provide us with your contact information.	If US 380 is congested, what alternative routes do you take?
Name	Open-Ended Response
Darrell Girouard	There is no good alternative the 380 route needs to be fixed.
Gail Anderson	
Staci tucker	
michael	Eldorado Pkwy
Ernest Pages	121 to north toll way
Adam	
Christine Scarbo	Eldorado or surface streets.
Marjorie Youngblood	Ridge, Custer, Lake Forest
MARYLYNN Creme	Virginia which is 40 mph right now
Yvonne Moore	982 is the only alternative for us.
Lindsey	I don't have an alternative option. I just give myself more time.
Cortney Romans	First Street. Preston Road
Keith and Rhonda Pryor	I will go south to FM 548 or North to 1827. Then around to either 2933 or back down to 380.
Nadine Winterrowd	78, I30, usually anything but 380 now. I rather drive than sit. That's why I live in the country dont mind the drive. Peaceful drives.
Jeff Kennedy	
Jill Kunde	Wilmeth Rd & Frontier Parkway
Jill Kunde	
John Schaeffer	I will go up Preston road if going to Oklahoma or down custer.
Donny and Barbara Mason	
Al Mauceri	
Kate Kohl	I live on 380. On it every day

Please provide us with your contact information.	What solutions would you suggest in the US 380 Corridor?
Name	Open-Ended Response
Darrell Girouard	Widening 380 and restricting access to as few areas as [possible to keep traffic flowing.
Gail Anderson	Lower speed and more police
Staci tucker	
michael	
Ernest Pages	Focus on the outerloop, extend north toll way to the outer loop
Adam	It needs to be a divided highway with entrance and exit ramps. This will prevent turning left across busy traffic.
Christine Scarbo	I think the community has to bite the bullet and expand 380 into a 121-type highway (even toll road) before the area gets any more developed. Anything short of this is a patch that won't support the growth and economic development of the area.
Marjorie Youngblood	If there is to be a bypass, start it at Dallas North Tollway; widen Custer, Frontier Parkway, & Prosper Trail.
MARYLYNN Creme	reduce the speed on 380, give trucks an alternative route,or slow them down so everyone can stop safely.
Yvonne Moore	1. Control the growth in the area. Limits that would support the current roads. 2. Define alternatives above and below 380.
Lindsey	Bypass around McKinney with limited access to allow higher speeds. More public transportation options.
Cortney Romans	Make it a Freeway with limited access
Keith and Rhonda Pryor	I think building the highway is the only option. My wife and I support the yellow plan the most because it seems to disrupt fewer people during construction.
Nadine Winterrowd	Widen the road and get rid of the endless median/turnlane No toll road Have cross walks for pedestrians.
Jeff Kennedy	
Jill Kunde	Tucker Hill's position is NO to all alignments due to potential loss of homes and devaluation of our neighborhood as a whole and adverse environmental and health implications. Notwithstanding our recommendation, if any freeway construction occurs on the existing 380 footprint adjacent to Tucker Hill, it must impose minimal right-of-way and noise pollution by means of cantilevered access lanes; a depressed throughway; and sound barriers. Also, if any bypass option is chosen, it must be located as far west of Tucker Hill as possible; west of future Stonebridge; not on or bordering Tucker Hill.
Jill Kunde	
John Schaeffer	Keep the proposed bypass route, ...there is plenty of land to make it around without crossing or crowding neighborhoods.
Donny and Barbara Mason	Widen existing US 380 to 6 lanes
Al Mauceri	
Kate Kohl	New Outer loop 5-7 miles north

Please provide us with your contact information.	Do you support the building of a freeway regardless of alignment?
Name	Open-Ended Response
Darrell Girouard	NO! A road going around 380 and disrupting the local roads and communities is not the answer. Just creating a problem in another area. Fix the road that is there and limit things that disrupt the flow, using bypasses if possible and eliminating lights where you can and creating frontage roads.
Gail Anderson	No
Staci tucker	
michael	no
Ernest Pages	No. The alignment needs to take into account areas of future growth which are north as well a the impact to the quality of life of the already settled neighborhoods. The elimination of water access areas for roads will destroy the communities. I cant say for example that the expansion of 820 near North Richland Hill helped the community. It's not just about traffic expediency. Mega roads negatively affect the very fabric of society and in the end makes us all worse off.
Adam	Yes
Christine Scarbo	Yes - but bypass routes are not efficient.
Marjorie Youngblood	No, do support building LAR as far east of Prosper as possible.
MARYLYNN Creme	no
Yvonne Moore	No. Based on how I read this question. Taking away peoples property is wrong. You need to work with what is available.
Lindsey	Yes.
Cortney Romans	Yes
Keith and Rhonda Pryor	We are not sure we support an alignment regardless of it's path but we DO support building a freeway. We believe it's the only viable option to make the area safer for travel.
Nadine Winterrowd	No. Not regardless for sure. Make the existing highway work not create another one. Anything off the 380 highway is already effected. Dont disturb downtown's or residents.
Jeff Kennedy	
Jill Kunde	No
Jill Kunde	
John Schaeffer	
Donny and Barbara Mason	No I definitely “Do Not”!
Al Mauceri	No
Kate Kohl	No. Absolutely not

Please provide us with your contact information.	If US 380 is constructed as a freeway, which alignment do you prefer? (select all that apply)

Please provide us with your contact information.	Do you have any concerns with the existing US 380?
Name	Open-Ended Response
Jennifer Beyer	No
Jack Kohl	
Laurie kohl	No.
Jimmy Le	No it functions well
Chris Calverley	The congestion and safety of the highway are of most concern to myself and my family.
Don Gobel	Traffic congestion which needs more right turn lanes, timed traffic signals and flyovers for busy intersections.
Angela Lanehart	
Anthony Lackman	
Paul Zarate	yes, I am sure in the future it will become more congested. It will need to be widened in the future.
Lisa Lee	So crowded already
Tracy Nuttall	No
David Mince	Level of congestion and future area growth impact on traffic flow.
Kimberly Milano	Areas with turn lanes could be safer and the speed limit should be slowed.
Angee Webb	Yes. Heavy traffic and a lot of wrecks at Tremont.
Susan h	
Evan Williams	
Tracy Barber	Drive time from Farmersville to McKinney has almost doubled in the last decade. I've started shopping more in towns east and south of Farmersville to avoid driving west on 380. The center turn lane is a suicide lane. The number of wrecks will continue to increase as the population grows. We need a safer alternative. Turning left to the grocery store should not be a life threatening experience.
Mike Santimaw	No

Please provide us with your contact information.	If US 380 is congested, what alternative routes do you take?
Name	Open-Ended Response
Jennifer Beyer	Rarely is it congested enough for me to seek an alternate. If I do, it is when I am coming from the shopping at 380 and 75, and I might go down Central Expressway to Virginia and then up to Custer.
Jack Kohl	It is only congested during rush hours. Expansion is not necessary!
Laurie kohl	I live on 380, no choice but to take it.
Jimmy Le	Virginia, custer
Chris Calverley	I sometimes take TX-78 to George Bush Turnpike or detour down different Collin County Roads.
Don Gobel	At this time there are no good alternative routes since east-west roads like Wilmeth, Bloomdale, Laud Powell do not "go through"
Angela Lanehart	
Anthony Lackman	
Paul Zarate	Hardin, lake forest, custer, Stonebridge,
Lisa Lee	Back roads in prosper
Tracy Nuttall	Custer or Preston to 121
David Mince	Rockhill Drive, Custer or Preston Rd
Kimberly Milano	Eldorado, Virginia.
Angee Webb	Prosper trail or Virgina
Susan h	
Evan Williams	
Tracy Barber	Highway 78 south to Wylie or Rockwall Highway 380 east to Greenville
Mike Santimaw	Not usually an issue for me

Please provide us with your contact information.	What solutions would you suggest in the US 380 Corridor?
Name	Open-Ended Response
Jennifer Beyer	
Jack Kohl	New outer loop 5-7 miles up
Laurie kohl	New outer loop 5 -7 miles up
Jimmy Le	I think 380 should be left to function like northwest highway. A 3 lane street with lights. Not at freeway. Use the outer loop to get traffic east west as well as widen smaller east west streets like the current work in Virginia. Tucker Hill's position is NO to all alignments due to potential loss of homes and devaluation of our neighborhood as a whole and adverse environmental and health implications. Notwithstanding our recommendation, if any freeway construction occurs on the existing 380 footprint adjacent to Tucker Hill, it must impose minimal right-of-way and noise pollution by means of cantilevered access lanes; a depressed throughway; and sound barriers. Also, if any bypass option is chosen, it must be located as far west of Tucker Hill as possible; west of future Stonebridge; not on or bordering Tucker Hill.
Chris Calverley	I think the highway needs to be realigned and make portions of the existing highway Business 380.
Don Gobel	Complete Outer Loop to direct more "non-local" east-west traffic off US380; complete Wilmeth, Bloomdale and Laud Powell so that "local" east-west traffic has alternate routes from US380. More right turn lanes and flyovers for busy intersections.
Angela Lanehart	
Anthony Lackman	
Paul Zarate	expand 380 if needed
Lisa Lee	High occupancy lane
Tracy Nuttall	Wouldn't the proposed outer loop reduce volume of traffic on 380?
David Mince	Improvements to Custer Rd North of 380
Kimberly Milano	My position is NO to all alignments due to potential loss of homes and devaluation of our neighborhood as a whole and adverse environmental and health implications. Notwithstanding that recommendation, if any freeway construction occurs on the existing 380 footprint adjacent to Tucker Hill, it must impose minimal right-of-way and noise pollution by means of cantilevered access lanes; a depressed throughway; and sound barriers. Also, if any bypass option is chosen, it must be located as far west of Tucker Hill as possible; west of future Stonebridge; not on or bordering Tucker Hill.
Angee Webb	Tucker Hill's position is NO to all alignments due to potential loss of homes and devaluation of our neighborhood as a whole and adverse environmental and health implications. Notwithstanding our recommendation, if any freeway construction occurs on the existing 380 footprint adjacent to Tucker Hill, it must impose minimal right-of-way and noise pollution by means of cantilevered access lanes; a depressed throughway; and sound barriers. Also, if any bypass option is chosen, it must be located as far west of Tucker Hill as possible; west of future Stonebridge; not on or bordering Tucker Hill.
Susan h	
Evan Williams	
Tracy Barber	We need an interstate type road sooner rather than later.
Mike Santimaw	None needed

Please provide us with your contact information.	Do you support the building of a freeway regardless of alignment?
Name	Open-Ended Response
Jennifer Beyer	No
Jack Kohl	No
Laurie kohl	No. Absolutely not
Jimmy Le	No
Chris Calverley	I am in support of a freeway, but not in its current alignment. Cities that are just now growing will have significant losses in homes and business. It could be detrimental to the economy.
Don Gobel	No - transportation modes for people and the delivery of goods will continue to change over the next few years where less vehicles and roadways will be needed; less commuters as more work from home
Angela Lanehart	
Anthony Lackman	No
Paul Zarate	no
Lisa Lee	Yes
Tracy Nuttall	Depends on where the new bypass is located
David Mince	Depends on the alignment. I do not support any alignment that would include a bypass option that impacts Custer or areas West of Custer.
Kimberly Milano	Absolutely not. The worst stretch of 380 is near the toll road and near 75 the area in between isn't even overly congested and when traffic lights are timed properly I never sit in traffic between those two areas. Hardin east to 75 and college west to 75 are insane. I Traverse these roads everyday at rush hour and do not have an issue where the proposed freeway is being suggested.
Angee Webb	No
Susan h	
Evan Williams	
Tracy Barber	
Mike Santimaw	No. Alignment and effects are extremely important

Please provide us with your contact information.	If US 380 is constructed as a freeway, which alignment do you prefer? (select all that apply)

Please provide us with your contact information.	Do you have any concerns with the existing US 380?
Name	Open-Ended Response
Willard Hart	There is lots of color construction. Traffic can be horrible at DNT.
Angela Moss	It is congested and dangerous at times
Angela Moss	
Staci	Crowded
Lora	Local residents' homes; Erwin Park
Chad Price	Yes it needs help to not be bottlenecked
Lynae Ellison	Too many lights to stop an already bad flow of traffic and congestion , lots of big trucks.
Leigh Pye	It's dangerous. People drive too fast. Need to slow drivers down, perhaps with medians and stoplights.
Denise Bland	No
Catherine Dutton	High congestion. Many lights. I commute to Denton and it often takes an inordinate amount of time to just exit McKinney
Elizabeth Hombal	
Sandra cutler	
Ashley Bonilla	
Mike Istre	Congested traffic and in the years to come this will only increase.
Susan Grayson Hill	Other than congestion
Rebecca	
Clint Connally	Congestion, too many red lights and unsafe drivers.
Ashleigh Fanninh	Safety
Brittany Neal	
Yvonne Lerma	Accidents
Megan Ball	Speeding, distracted driving, large trucks are al big concerns when driving down 380
Laura Sheppard	It runs (380) directmy behind my house. I'm only protected by a soundwall, that barely muffled the noise now.
Maris Opfar	
Andrea Opfar	
Angela Frazier	It is a death trap. Semi and construction trucks go way too fast.
Kevin Caddell	Heavy congestion & traffic safety.
Kelly Dillon	Safety. Entering and exiting while traffic on 380 travels at a high rate of speed. Traffic on west bound 380 going from Preston to the Dallas North Tollway to go south into Frisco. It can often take me 10-20 minutes to get through the short distance and the stop light due to congestion.
Allison	Congestion, too many stop lights, dangerous drivers.
Debbie Neal	Yes it is getting way too long to get anywhere -- too much bumper to bumper traffic
Debbie	Yes--need more lanes and more red lights
Michael Skains	It's very congested. Turning left out of Community is very difficult as traffic in the right lane backs up heading towards 75.

Please provide us with your contact information.	If US 380 is congested, what alternative routes do you take?
Name	Open-Ended Response
Willard Hart	1st Ave in Prosper
Angela Moss	Rockhill Parkway to North Dallas Tollway, Virginia, Eldorado, or 121 to 75
Angela Moss	
Staci	Custer or preston
Lora	Preston to Choate Road
Chad Price	Other highway
Lynae Ellison	To/From McKinney- Frontier(1461) because it goes almost directly to my home.
Leigh Pye	I avoid 380 at all costs. Preston to Rockhill if going to DNT. County roads to get to places on west side of Prosper.
Denise Bland	
Catherine Dutton	For my daily commute, I don't take alternative routes. I stay on the road and hope it clears up. When I'm traveling toward 75, I will often drive down Taylor Burke to get to the freeway instead of 380.
Elizabeth Hombal	Virginia pkwy and Eldorado
Sandra cutler	
Ashley Bonilla	Bridgefarmer Highway 5
Mike Istre	Preston, NTTA, Ridge, Lake Forest
Susan Grayson Hill	Cross streets...Custer/coit/Preston to frontier or prosper trail or elderado
Rebecca	Virginia or white street
Clint Connally	White St., Virginia and Eldorado
Ashleigh Fanninh	Hardin to White to 75
Brittany Neal	
Yvonne Lerma	Avoid
Megan Ball	Virginia or try to weave around the side roads
Laura Sheppard	Virgina pkwy or Eldorado pkwy
Maris Opfar	Lake forest to Virginia or lake forest to wilmeth.
Andrea Opfar	Virginia.
Angela Frazier	Teal through Hollyhock subdivision to Panther Creek and then Tollwat.
Kevin Caddell	Generally none.
Kelly Dillon	Rockhill from DNT to Preston. It is the best new road completely recently!
Allison	White St, Virginia, or El Dorado.
Debbie Neal	Back streets
Debbie	Out from my house to Monty Carlo to back routes
Michael Skains	Community to Wilmeth, community to Virginia or White

Please provide us with your contact information.	What solutions would you suggest in the US 380 Corridor?
Name	Open-Ended Response
Willard Hart	Create and execute a long term plan knowing there is retail coming & residential living just north of 380 in Prosper.
Angela Moss	I would be opposed to any change in alignment that would bring the bypass west of Custer Rd.
Angela Moss	
Staci	Don't fix 380. That would be a nightmare for everyone that uses that road to get home or go to work
Lora	
Chad Price	Create overpasses at cross streets
Lynae Ellison	Make it more of an actual highway with overpasses at major intersections.
Leigh Pye	Widening, adding medians, frequent stop lights, lots of wide turn lanes, wide shoulders.
Denise Bland	Freeway
Catherine Dutton	
Elizabeth Hombal	
Sandra cutler	
Ashley Bonilla	Improve existing layout, add lanes and center barrier
Mike Istre	The 3 alternatives presented at the meetings lately are reasonable.
Susan Grayson Hill	Expansion
Rebecca	I'm against widening the existing 380. The thought of those businesses being effecting is very saddening to me.
Clint Connally	Create and overpass at each mahor intersection.
Ashleigh Fanninh	Expansion of 380
Brittany Neal	
Yvonne Lerma	Median barrier with concrete divider minimum.
Megan Ball	Absolutely not widening the existing 380. It would displace hundreds of residents and businesses and just doesn't seem to make any sense, cost wise, especially with so much new development coming to the roadway right now.
Laura Sheppard	
Maris Opfar	Widening 380 or raised expressway.
Andrea Opfar	Widen the existing roadway, use over passes like the one being built at 380/Preston to bypass business traffic.
Angela Frazier	Creating a freeway north of Prosper/380 through celina
Kevin Caddell	Either widening or adding double decking for express lane travel. Which will also maintain support for existing businesses along the highway while preserving outlying farm land & rural buildings.
Kelly Dillon	A freeway with access roads and limited entrances. Businesses and maybe some homes will need to be moved and their land purchased. It's a part of growth. More people will be impacted if it is not done.
Allison	Keep 380 along the same path but raise it onto overpasses for major intersections to resemble a highway.
Debbie Neal	More red lights and more lanes
Debbie	More lanes and more lights
Michael Skains	More parallel routes to take the traffic or turn it into a freeway.

Please provide us with your contact information.	Do you support the building of a freeway regardless of alignment?
Name	Open-Ended Response
Willard Hart	My support will depend on the alignment.
Angela Moss	Yes but I request consideration of the impact of the proposed by pass on First Street, Prosper Trail and Frontier Parkway in Prosper due to possible “cut through” traffic to connect with proposed by pass versus expanding the current alignment of 380
Angela Moss	
Staci	A freeway needs to be built somewhere
Lora	No
Chad Price	As long as it doesnt effect homeowners
Lynae Ellison	Alignment? Not sure what that means. 380 should be the freeway it was meant to be. Any other type bypass would disrupt existing neighborhoods too greatly.
Leigh Pye	
Denise Bland	No
Catherine Dutton	Yes.
Elizabeth Hombal	No
Sandra cutler	
Ashley Bonilla	Yes
Mike Istre	Yes
Susan Grayson Hill	No
Rebecca	
Clint Connally	No.
Ashleigh Fanninh	No
Brittany Neal	No. I do not want the alignment or construction close to my neighborhood.
Yvonne Lerma	Nor if it impacts homes. It needs to keep the same footprint but needs to be like 121.
Megan Ball	I support it if it is not expanding the width of 380(north or south)
Laura Sheppard	NO
Maris Opfar	No
Andrea Opfar	No!!! I support the green and pink options. As a Heatherwood resident, I have no interest in having a highway at the exit/entrance of my neighborhood.
Angela Frazier	No
Kevin Caddell	Yes.
Kelly Dillon	Yes, but I have a preference in alignment.
Allison	No.
Debbie Neal	Yes
Debbie	Yes
Michael Skains	Will depend on alignment as some of the proposed routes don't seem like they would do much to alleviate congestion due to business traffic.

Please provide us with your contact information.	If US 380 is constructed as a freeway, which alignment do you prefer? (select all that apply)

Please provide us with your contact information.	Do you have any concerns with the existing US 380?
Name	Open-Ended Response
Kent Hicks-Hsueh	safety and traffic accidents
Susan Peters	No
Barbara Burke	Crowded sometimes
Ardis Lo	Lots of accidents Traffic exceeds roads abilities
Carla Phifer	
Nicholas Lee	Yes, traffic and safety. Seems there should be a cost evaluation on savings from reduced traffic accidents.
Isaac Neal	
Peggy Hughes	Congested
	yes I don't want the by pass
Ryan Elmore	
Deborah Ennen	Heavy truck traffic.
Georgette Guernsey	Too congested
Ernest Clayton	There is a lot of traffic and area is growing.
Jeanne Ingebretsen	Accidents and congestion
Holly Draper	Traffic at 380 and the Tollway is terrible and I have no other way to go west.
Jeanne Ingebretsen	We need a center divide to reduce the accidents. In crease the size of the 380 from 2 lanes to 4 lanes
Linda De Mattei	Needs to be improved along the existing alignment, especially McKinney so as to not impact Diverting into Town of Prosper roads. This has happened in other communities I have lived in.
Ralph Doty	
Gregg Swartz	Yes. Congestion at intersections with Preston Rd and all the construction.
Sarah Zimmermann	
Melanie	It’s dark and needs more lights
Tori Kaiser	
Emily Helvey	Yes, the traffic conditions are concerning and the backed up traffic in the afternoons are a nightmare.
Marvin Yanof	380, as it exists today, will not be able to handle traffic that's predicted in the future.
Ana Jordan	The light at lovers at 380. Seems like it’s too close to the light at preston. Not needed.
Srinivas Muntha	No
Jen Mason	no
Jessi Miller	No
David mathews	Traffic is terrible and lots of unsafe intersections.
JC Diaz	Property owner that backs up to 1st street near Custer intersection.
Merja Oliveri	Increased traffic
Leslie hooker	Traffic congestion
	concerned that more signals will be installed
R Leigh	

Please provide us with your contact information.	If US 380 is congested, what alternative routes do you take?
Name	Open-Ended Response
Kent Hicks-Hsueh	Community or Wilmeth
Susan Peters	We find parallels
Barbara Burke	None
Ardis Lo	1461
Carla Phifer	
Nicholas Lee	Custer, 1st, Coit
Isaac Neal	
Peggy Hughes	Virginia
	I dont
Ryan Elmore	
Deborah Ennen	Prosper Trail or Virginia depending on where I am going. .
Georgette Guernsey	Ridge Rd to Virginia
Ernest Clayton	Custer to HWY 121
Jeanne Ingebretsen	New hope to back side of Princeton and Farmersville
Holly Draper	I have no alternate routes if I am going to the Collin courthouse or Denton courthouse other than 380. I go to both often for work.
Jeanne Ingebretsen	I go thru new hope , back roads in Princeton and Farmersville to arrive on 78
Linda De Mattei	Backroads through neighborhoods, which I do not like to do.
Ralph Doty	First st or Viginia
Gregg Swartz	Preston Road to Rockhill or North to Frontier Parkway.
Sarah Zimmermann	
Melanie	Custer or Coit and cut over
Tori Kaiser	
Emily Helvey	We avoid 380 at those times when possible. South on 423 to Panther Creek and Eldorado are good options.
Marvin Yanof	First Street to Prosper
Ana Jordan	Rockhill Road
Srinivas Muntha	121
Jen Mason	1st street
Jessi Miller	1st or Main
David mathews	Rockhill road
JC Diaz	No other way out of my neighborhood
Merja Oliveri	
Leslie hooker	Peterson or Coit, cr 88/125 to 543 to 75
	white
R Leigh	

Please provide us with your contact information.	What solutions would you suggest in the US 380 Corridor?
Name	Open-Ended Response
Kent Hicks-Hsueh	
Susan Peters	Expand 380 in its current location- More lanes, HOV, express toll lane Build overpasses at the lights- look at Hwy 288 south of Houston
Barbara Burke	Double deck. Upper for pass through. Lower for local traffic.
Ardis Lo	Over passes
Carla Phifer	
Nicholas Lee	East of prosper, not near Custer as this would cut through too many homes.
Isaac Neal	
Peggy Hughes	Need more roads
	expand where it's at.
Ryan Elmore	
Deborah Ennen	Bypass that comes out on 380 east of Custer Rd.
Georgette Guernsey	Make it a toll road
Ernest Clayton	Keep construction where the road is now. Do not go around city and upsetting home and land owners.
Jeanne Ingebretsen	Expand width
Holly Draper	I wish Bloomdale came all the way through to Custer. I also need a cut through to go west without hitting the 380 / Tollway light.
Jeanne Ingebretsen	Increase lanes from 2 on each side to 4 on each side to start. Remove all semi traffic to a truck frontage road.
Linda De Mattei	Improve existing alignment, frontage road wherever possible. Do NOT bypass. No, only
Ralph Doty	Consideration of the impact of the proposed by pass on First Street, Prosper Trail and Frontier Parkway in Prosper due to possible “cut through” traffic to connect with proposed by pass versus expanding the current alignment of 380
Gregg Swartz	Do NOT build any overpasses anywhere near existing developments, especially near First Street and Whitley Place.
Sarah Zimmermann	
Melanie	
Tori Kaiser	
Emily Helvey	The infrastructure should have been planned before the explosion of new neighborhoods and businesses. The lack of planning is a headache for all in this area.
Marvin Yanof	Not opposed to bypass with current alignments.
Ana Jordan	Not so much construction at one time.
Srinivas Muntha	
Jen Mason	
Jessi Miller	Better access to the tollway
David mathews	That’s not my area of expertise
JC Diaz	Move 1st street away from whitley place
Merja Oliveri	
Leslie hooker	Widening
	stop building
R Leigh	

Please provide us with your contact information.	Do you support the building of a freeway regardless of alignment?
Name	Open-Ended Response
Kent Hicks-Hsueh	yes
Susan Peters	I only support expansion of the current 380. I do not support bypasses.
Barbara Burke	No
Ardis Lo	No
Carla Phifer	
Nicholas Lee	No
Isaac Neal	No. Alignment is important to me.
Peggy Hughes	I am fine with the 3 proposals. I am not ok with any new proposal that would include Custer
	no
Ryan Elmore	
Deborah Ennen	No not if the bypass ends west of Custer.
Georgette Guernsey	No
Ernest Clayton	No, unless the freeway stays where it is.
Jeanne Ingebretsen	No
Holly Draper	It depends where it is.
Jeanne Ingebretsen	No
Linda De Mattei	No. Only follow 380's original path.
Ralph Doty	Not opposed to the by-pass with any of the current proposed alignments.
Gregg Swartz	No.
Sarah Zimmermann	
Melanie	
Tori Kaiser	
Emily Helvey	No.
Marvin Yanof	No. The only freeway considered should be US 380
Ana Jordan	Yes
Srinivas Muntha	No
Jen Mason	no, opposed to any alignments where the by pass west of custer
Jessi Miller	Opposed to any change in proposed alignments that brings the By-Pass west of Custer Road as it reconnects to 380.
David mathews	Not necessarily, but most likely.
JC Diaz	sure
Merja Oliveri	
Leslie hooker	Yes
	not sure
R Leigh	

Please provide us with your contact information.	If US 380 is constructed as a freeway, which alignment do you prefer? (select all that apply)

Please provide us with your contact information.	Do you have any concerns with the existing US 380?
Name	Open-Ended Response
Julie hunter	No
Stacy Waguespack	No
Brown Joshua	Not presently, but realize with the expected population growth over the next 20+ years something will need to be done.
Chase Frederick	Concerns with traffic patterns at peak hours
Bill Guernsey	Too crowded, especially at Hwy. 75
Nicholas Miller	Yes. Congestion at Preston and the DNT intersections.
Bryan Richards	Only the congestion around 380 & 75
Andrea Bourne	
John Kendig	Not opposed to the by-pass with any of the current proposed alignments. •Opposed to any change in proposed alignments that brings the By-Pass west of Custer Road as it reconnects to 380. •Request consideration of the impact of the proposed by pass on First Street, Prosper Trail and Frontier Parkway in Prosper due to possible “cut through” traffic to connect with proposed by pass versus expanding the current alignment of 380
Brenda Istre	Yes, traffic is getting heavy and will continue with the growth of the county.
Judy R Barnes	
Ben Daniel	I personally think if you are smart, 380 isn’t much of a problem. But with the volume of cars and today’s impatience, you don’t see “smart” people. Everyone is in a rush and that’s what makes the issues. There’s simply too many of those people on the road.
Gabbe Bimson	Traffic concerns on First Street. Preston Trail and /or Frontier Parkway and Custer
Marlene Diaz	
Rachelle Mossinger	Do not want it anywhere near Whitley Place. Custer, First Street or Prosper Trail.
Patrick Bennett	
Chase Frederick	
Robert Welch	Not terribly, but I know many people who won't drive on it at all
Torrie Levins	Many wrecks at the light on 380 and Tucker Hill entrance
Lisa Juliano	Too many fatal wrecks. Speeding cars.
nancy schroeder	
Jennifer Noonan	congestion at the intersection of 75/380.
Matthew L Osborne	It is getting to be too crowded with cars and a bit dangerous.
Lainie Ereno	Needs to have less stop lights, widened for future traffic.
Todd Huffman	Not opposed to the by-pass with any of the current proposed alignments. •Opposed to any change in proposed alignments that brings the By-Pass west of Custer Road as it reconnects to 380.
Heather Powell	Yes impact on Propser in regards to cut thru traffic issues on First, Prosper Trail and Frontier pkwy
Stacey Gomez	Yes. I am not for the bypasses. Would cause increased traffic near our quiet neighborhood and change the area for the worse

Please provide us with your contact information.	If US 380 is congested, what alternative routes do you take?
Name	Open-Ended Response
Julie hunter	Rock hill or 1461 through prosper. McKinney usually just take prosper trail as it goes through all the dips and turns.
Stacy Waguespack	
Brown Joshua	Not opposed to the by-pass with any of the currently proposed alignments.
Chase Frederick	Custer to Virginia or Preston
Bill Guernsey	Virginia
Nicholas Miller	Rock Hill to DNTonce
Bryan Richards	If I'm going to 75 380 is usually the best route regardless, otherwise Custer to 121 or Prosper Trail to Preston
Andrea Bourne	
John Kendig	Not opposed to the by-pass with any of the current proposed alignments. •Opposed to any change in proposed alignments that brings the By-Pass west of Custer Road as it reconnects to 380. •Request consideration of the impact of the proposed by pass on First Street, Prosper Trail and Frontier Parkway in Prosper due to possible “cut through” traffic to connect with proposed by pass versus expanding the current alignment of 380
Brenda Istre	I usually take Custer, Lake Forest, or Preston when 380 is congested.
Judy R Barnes	
Ben Daniel	I will go around the south side of the McKinney airport and once I managed a northern route.
Gabbe Bimson	North into Celina
Marlene Diaz	
Rachelle Mossinger	Frontier
Patrick Bennett	
Chase Frederick	
Robert Welch	I don't really ever have to fail over to another road.
Torrie Levins	121 via Custer or Preston
Lisa Juliano	I don't.
nancy schroeder	
Jennifer Noonan	Usually take a north/south route to another east/west street.
Matthew L Osborne	Eldorado, Virginia, Sam Rayburn
Lainie Ereno	CR 123 east from Prosper or Fish Trap road west of Prosper
Todd Huffman	Heading east: 1st Street from Custer to Tollway or Virginia from Custer to Preston to Tollway. Heading west: Custer to Virginia to 75 or Prosper Trail to Weylmouth to 75
Heather Powell	First, Frontier pkwy and Prosper Trail
Stacey Gomez	I don’t find it to be congested. I use Custer or the tollway usually

Please provide us with your contact information.	What solutions would you suggest in the US 380 Corridor?
Name	Open-Ended Response
Julie hunter	I believe the 380 corridor would be best served by putting resources into the outer loop.
Stacy Waguespack	
Brown Joshua	Find a solution East of Custer Road that impacts the fewest residents.
Chase Frederick	Not opposed to the by-pass with any of the current proposed alignments.
Bill Guernsey	Keep expansion/by-pass east of Custer
Nicholas Miller	Once construction at Preston and DNT are complete, it should relieve traffic. Cloverleaf overpass systems at major cross-roads relieve traffic and require no lights.
Bryan Richards	Not running a freeway right behind my house would be a good start.
Andrea Bourne	
John Kendig	Not opposed to the by-pass with any of the current proposed alignments. •Opposed to any change in proposed alignments that brings the By-Pass west of Custer Road as it reconnects to 380. •Request consideration of the impact of the proposed by pass on First Street, Prosper Trail and Frontier Parkway in Prosper due to possible “cut through” traffic to connect with proposed by pass versus expanding the current alignment of 380
Brenda Istre	I am not opposed to the 3 bypass options presented in the recent meetings.
Judy R Barnes	
Ben Daniel	I think going around Princeton is a must. I’d think we should come into the north side of McKinney with a separated turn off to go south & north on 75 or continue over 75 (like the bridge going over 289) with large intersections for the turn offs to manage the congestion.
Gabbe Bimson	Bypass north of Frontier Parkway
Marlene Diaz	
Rachelle Mossinger	NOT by Whitley Place
Patrick Bennett	
Chase Frederick	
Robert Welch	
Torrie Levins	1) Make the bypass by Princeton 2) make another east west route further north but before 82 3) Expand 75 and 121
Lisa Juliano	A center median that can't be crossed over -- do away with the suicide lanes. Slower speed.
nancy schroeder	
Jennifer Noonan	Reengineer 75/380 intersection with possible elevated on-ramps. Create overpasses over congested intersections along existing 380.
Matthew L Osborne	I support what is going on now, with widening and the building of fly-overs
Lainie Ereno	Do not make a bypass. Widen Custer Rd to 6 lanes, widen CR123 for future heavy traffic.
Todd Huffman	Request consideration of the impact of the proposed by pass on First Street, Prosper Trail and Frontier Parkway in Prosper due to possible “cut through” traffic to connect with proposed by pass versus expanding the current alignment of 380
Heather Powell	By pass needs to be East of Custer towards Tucker Hill and as far as Lake Forest or beyond...Prosper does not want the traffic issues that this by pass would definitely bring upon any community. We bought in to Prosper for the small feel community and were told this was the direction, this by pass would create serious issues for Whitley Place residents and take that small country feel completley away.
Stacey Gomez	Keep as is

Please provide us with your contact information.	Do you support the building of a freeway regardless of alignment?
Name	Open-Ended Response
Julie hunter	I believe it would make travel was and faster but I believe there are other solutions that would impact less people. Restricting growth or speeding up the outer loop.
Stacy Waguespack	
Brown Joshua	No, I am opposed to any change in proposed alignments that brings the by-pass West of Custer Road as it reconnects to 380.
Chase Frederick	Opposed to any change in proposed alignments that brings the By-Pass west of Custer Road as it reconnects to 380.
Bill Guernsey	No
Nicholas Miller	Not visible or audible from my home
Bryan Richards	No
Andrea Bourne	
John Kendig	No
Brenda Istre	I do not want to see a highway built that will crossover Custer and connect into Prosper. Plus I am concerned with people using Prosper Trail and Frontier as shortcuts to the bypass.
Judy R Barnes	
Ben Daniel	If you “do something no matter what,” I’d almost say yes. But I think there’s always a choice and the alignment studies need to take into consideration all pros and cons.
Gabbe Bimson	No
Marlene Diaz	I am in agreement with any of the proposed freeway option, not in agreement with any other options.
Rachelle Mossinger	NO
Patrick Bennett	
Chase Frederick	
Robert Welch	Not necessarily, not at the expense of destroying people's homes and property
Torrie Levins	No
Lisa Juliano	Yes
nancy schroeder	
Jennifer Noonan	no
Matthew L Osborne	It would of course depend on whether the alignment were to affect my home or neighborhood.
Lainie Ereno	No
Todd Huffman	We want a freeway, just don’t want it to go through our neighborhood.
Heather Powell	Yes i support it as long as it does not affect Prosper in any capacity. Keeping it east of Custer is fine.
Stacey Gomez	No

Please provide us with your contact information.	If US 380 is constructed as a freeway, which alignment do you prefer? (select all that apply)

Please provide us with your contact information.	Do you have any concerns with the existing US 380?
Name	Open-Ended Response
Viviana Baca-Curac	
Dennis DeMattei	Needs to be improved along the existing alignment.
John Kearns	Additional traffic, cut through traffic, noise
Nat Velez	I am concerned about the frequent accidents.
Amy Wheeler	
mark jones	•Not opposed to the by-pass with any of the current proposed alignments.
Tim Best	
Ellen Landel	Speeding, careless weaving drivers!
Keren Vest	Traffic congestion, dangerous drivers driving to fast and running red lights.
Larry Kelsey	Wrecks
Heather Wood	
Deborah L Phillips	Today traffic is increasing but is manageable.Most of the traffic congestion is near the I-75 intersection.
Becky Riddell	
Ben Pruett	Yes, TxDOT feasibility study and its recommendation(s).
Nicholas Nordman	Not built to ha dlenthe growth or current traffic
Brandi Hudspeth	Speed limit is too high for the amount of lights - accidents at intersections weekly. I don't feel as safe driving 380 vs other roads.
Todd Schoel	Yes, traffic congestion and construction
Tammy Biggio	While 380 is often busy, it never creates undue delay unless there is a wreck. However, I appreciate the growth around the area will put a strain on 380 traffic.
Janine Angrisano	Too many trucks and construction vehicles.
Sandra	
Summer sipes	
Cheryl Coxwell	
debbi s	it gets very "tight" and busy in McKinney at HWY 75 both directions on 380.
Cholette Burks	

Please provide us with your contact information.	If US 380 is congested, what alternative routes do you take?
Name	Open-Ended Response
Viviana Baca-Curac	Virginia/Rockhill
Dennis DeMattei	side streets
John Kearns	First Street and Frontier
Nat Velez	Custer to 121 Roads in Prosper I avoid 380 when ever possible
Amy Wheeler	Usually Custer to El Dorado
mark jones	
Tim Best	Smaller roads like Coit to approach 380. I also use 121/SRT.
Ellen Landel	I typically do not have to go very far on 380, and will take the nearest north/south route.
Keren Vest	Lake Forest, Hardin and Virginia
Larry Kelsey	
Heather Wood	
Deborah L Phillips	none
Becky Riddell	
Ben Pruett	Virginia Pakway, Eldorado Parkway and Stacey Road depending on my destination.
Nicholas Nordman	I use 389 to go east/west if going south go on Coit
Brandi Hudspeth	Prosper Trail to Preston or Tollway. Coit to Virginia or Custer down to 121
Todd Schoel	No options in my situation. I commute to Greenville TX and back 5 days a week.
Tammy Biggio	I generally stay on the congested 380. However, I often take the Wilmeth exit during high traffic times and cut over to Hardin then back to 380. This avoids the worst part of 380 which is at 75. If Wilmeth was more than a winding 2 lane road I would probably take it all the way to Custer.
Janine Angrisano	121 across and then Lake Forest North
Sandra	
Summer sipes	
Cheryl Coxwell	
debbi s	
Cholette Burks	

Please provide us with your contact information.	What solutions would you suggest in the US 380 Corridor?
Name	Open-Ended Response
Viviana Baca-Curac	Having the bypass go north of Frontier Parkway makes the most sense as most of the growth is going north to Celina at this point.
Dennis DeMattei	Widen the existing route.
John Kearns	Request consideration of the impact of the proposed by pass on First Street, Prosper Trail and Frontier Parkway in Prosper due to possible “cut through” traffic to connect with proposed by pass versus expanding the current alignment of 380
Nat Velez	
Amy Wheeler	Have no problem with any of the proposed improvements as they currently stand.
mark jones	Opposed to any change in proposed alignments that brings the By-Pass west of Custer Road as it reconnects to 380. ay in Prosper due to possible “cut through” traffic to connect with proposed by pass versus expanding the current alignment of 380
Tim Best	Better timed stop lights. It seems that the lights favor the intersecting roads during rush hour.
Ellen Landel	There are areas that could be widened in the business district.
Keren Vest	
Larry Kelsey	Use Custer Road to swing around to the north of Tuckerhill
Heather Wood	
Deborah L Phillips	I am opposed to any change in proposed alignments that brings the By-Pass west of Custer Road as it reconnects to 380. I would request consideration of the impact of the proposed by pass on First Street, Prosper Trail and Frontier Parkway in Prosper due to possible “cut through” traffic to connect with proposed by pass versus expanding the current alignment of 380.
Becky Riddell	
Ben Pruett	A Limited Access Highway is needed to relieve traffic.
Nicholas Nordman	Turn into a true highway like it should be
Brandi Hudspeth	It needs to expand and continue as a larger road system (interstate) through McKinney to 75
Todd Schoel	First of all there must be a moratorium or strict limitations on all city of McKinney building permits. City of McKinney continues compound this situation. Designated tractor trailer lanes. Intelligent traffic management systems. Eventually widen and modernize US 380.
Tammy Biggio	I would suggest that the outer loop be completed and McKinney consider limiting development north of 380 to 1 acre plus lots in more areas like fairview.
Janine Angrisano	To improve it at 380 and not proceed with a bypass option that would be detrimental to this beautiful, unique portion of McKinney.
Sandra	
Summer sipes	
Cheryl Coxwell	
debbi s	
Cholette Burks	

Please provide us with your contact information.	Do you support the building of a freeway regardless of alignment?
Name	Open-Ended Response
Viviana Baca-Curac	380 is not really congested enough to support a freeway in my opinion. More emphasis should be put on expanding the DNT northwards. The fewer impact you have to existing homeowners, the better.
Dennis DeMattei	No
John Kearns	Not opposed to the by-pass with any of the current proposed alignments. Opposed to any change in proposed alignments that brings the By-Pass west of Custer Road as it reconnects to 380.
Nat Velez	No. I believe that we need to consider the impact to property owners and residents of Prosper as people will utilize our side streets to avoid or bypass. Additionally, bypass options that dimisnish the quality of our home environments is not acceptable.
Amy Wheeler	Opposed to anything bringing the by-pass west of Custer road
mark jones	Request consideration of the impact of the proposed by pass on First Street, Prosper Trail and Frontier Parkway
Tim Best	Yes
Ellen Landel	NO
Keren Vest	
Larry Kelsey	NO
Heather Wood	
Deborah L Phillips	I do not support any alignments that would impact Custer Road or impact traffic on Prosper Trail and Frontier Parkway.
Becky Riddell	
Ben Pruett	I absolutely oppose the Blue, Red and Yellow bypass alignments, and any configuration that would venture further to the west and closer to Custer Road. Under no circumstances would I support a McKinney bypass entering the Town of Prosper. I do support a combination Green and Pink alignments building out University (US 380) to a limited access highway/freeway. Another alternative alignment that should be considered is following TxDOT's proposed RED alignment (McDonald Street/Highway 5 to Monte Carlo Blvd.) from US 380 to US 75. It would then continue northwest with a proposed new alignment from US 75 and join the Collin County Northern Outer Loop at its most southeasterly point west of Lake Forest Dr. (CR 167) and County Road 125.
Nicholas Nordman	Only on the alignment of the current 380
Brandi Hudspeth	Alignment matters for quality of life for neighborhoods near 380. I do not support an alignment that will negatively impact the value of neighborhoods and investments near Custer and Bloomdale (CR 123) due to McKinney's poor planning and lack of willingness to expand 380 as it should be from Denton to 75.
Todd Schoel	Yes
Tammy Biggio	I would support the freeway at the current 380 or possibly the red alignment as it seems to be further away from existing developments. Not blue or yellow!!
Janine Angrisano	No. Keep improvements in the 380 corridor.
Sandra	
Summer sipes	
Cheryl Coxwell	
debbi s	
Cholette Burks

Erwin Wardojo	Commuter		Property Owner			Daily

Please provide us with your contact information.	Do you have any concerns with the existing US 380?
Name	Open-Ended Response
Stacy Tate	Too congested
Dana Hagedorn	I believe the current US 380 speed limit should be reduced to 45 mph or less from 75 to Custer Road. I also believe large vehicles, trucks, hazardous vehicles should not be allowed to travel on this road.
Brianne Stark	Lots of accidents and lots of traffic
Dana Hagedorn	
Tim Biggio	While 380 is often busy, it never creates undue delay unless there is a wreck. However, I appreciate the growth around the area will put a strain on 380 traffic.
Paula Banales	Too many lights, too congested with new businesses and houses. I use to commute to Denton for 6 years from McKinney, 380 became too congested that I had to find another job. The commute went from 40 min to no less than an hour but normally 75 min.
Shannon Cole	Too crowded and way too many traffic lights.
Matt Lear	
Stefani Lear	Too many trucks.
Coleen Posey	Congested and dangerous
Ashley Leffingwell	If there's a wreck, it backs up everything
Erwin Wardojo	Congestion

Please provide us with your contact information.	If US 380 is congested, what alternative routes do you take?
Name	Open-Ended Response
Stacy Tate	White, Hardin, Ridge,
Dana Hagedorn	I take the roads that go north and south, I believe that if these roads were improved as they are planned that this would help greatly in the congestion on 380
Brianne Stark	Hwy 5 if possible
Dana Hagedorn	
Tim Biggio	I generally stay on the congested 380. In my experience that is just as fast as going north or south to a parallel path. However, if Wilmeth or Bloomdale or other nearby east-west roads were 4 lanes I would likely take them instead of 380 during high traffic times. Wilmeth in particular is now a winding 2 lane road so not much benefit from staying on 380.
Paula Banales	75 to 121 or Virginia
Shannon Cole	Wilmeth or Bloomdale, or Virginia to Lake Forest
Matt Lear	Custer
Stefani Lear	Custer
Coleen Posey	
Ashley Leffingwell	A bunch of the backroads. Whatever google maps tells me - Preston/Coit, Virginia,
Erwin Wardojo	White, Prosper Trail

Please provide us with your contact information.	What solutions would you suggest in the US 380 Corridor?
Name	Open-Ended Response
Stacy Tate	Fix 380 on 380
Dana Hagedorn	Tucker Hill's position is NO to all alignments due to potential loss of homes and devaluation of our neighborhood as a whole and adverse environmental and health implications. Notwithstanding our recommendation, if any freeway construction occurs on the existing 380 footprint adjacent to Tucker Hill, it must impose minimal right-of-way and noise pollution by means of cantilevered access lanes; a depressed throughway; and sound barriers (wall/trees). Also, if any bypass option is chosen, it must be located as far west of Tucker Hill as possible; west of future Stonebridge; not on or bordering Tucker Hill.
Brianne Stark	
Dana Hagedorn	
Tim Biggio	I realize that this is a difficult issue and no matter which route is selected, someones home or business is impacted. I believe that most residents expect existing roads to increase in size over time rather than have areas taken over and changed to a freeway. For these reasons I believe that existing 380 should be expanded. Some additional points to consider (go below grade, express lanes, save businesses, smarter City planning): --At "pinch points" like in front of Tucker Hills, 380 could be lowered down below ground level (like 75 near Mockingbird/or the new 635). This is likely more expensive but balances traffic needs with residential esthetics and noise reduction. It also uses existing right of way. I am not a Tucker Hills resident but since 3 of the 5 routes go in front of their entrance, this should be considered. --Having even 4 lanes below grade with minimal exists as express lanes would allow through traffic to speed along from Custer to 75. This is similar to how Austin, TX takes traffic up and over, but using the more visually appealing underground construction for express lanes. Consider a partnership with The Boring Company (Musk) to reduce cost. --I believe that bypassing 380 will also mean a significant reduction in the customer traffic for all of the businesses along existing 380. When the 121 business was bypassed by the expansion of 121 freeway, all that is left are empty buildings and low end car dealerships. All the former businesses customers now drive around. This impact associated with the yellow, blue and red routes should be considered. --McKinney could stop granting building permits right up along 380. By continuing to allow building so close to existing 380, the City is increasing the likelihood of a bypass ultimately moving business customers away. It seems short term property tax receipts are more important than sound long term City planning. --McKinney should change its minimum residential lot size north of 380 to at least 1 acre. This is similar to Fairview, TX and would dramatically reduce the expected growth in cars being added to roads and infrastructure.
Paula Banales	Make a highway over existing for people that want to go through straight to Denton.
Shannon Cole	Double decker it like 635
Matt Lear	Tucker Hill's position is NO to all alignments due to potential loss of homes and devaluation of our neighborhood as a whole and adverse environmental and health implications. Notwithstanding our recommendation, if any freeway construction occurs on the existing 380 footprint adjacent to Tucker Hill, it must impose minimal right-of-way and noise pollution by means of cantilevered access lanes; a depressed throughway; and sound barriers. Also, if any bypass option is chosen, it must be located as far west of Tucker Hill as possible; west of future Stonebridge; not on or bordering Tucker Hill.
Stefani Lear	Tucker Hill's position is NO to all alignments due to potential loss of homes and devaluation of our neighborhood as a whole and adverse environmental and health implications. Notwithstanding our recommendation, if any freeway construction occurs on the existing 380 footprint adjacent to Tucker Hill, it must impose minimal right-of-way and noise pollution by means of cantilevered access lanes; a depressed throughway; and sound barriers. Also, if any bypass option is chosen, it must be located as far west of Tucker Hill as possible; west of future Stonebridge; not on or bordering Tucker Hill.
Coleen Posey	
Ashley Leffingwell	A better highway system.. more lanes? Or a better alternate so 380 is the only highway to rely on in that area
Erwin Wardojo	Expand Virginia and eldorado to 6 divided lanes from 75 to DNT

Please provide us with your contact information.	Do you support the building of a freeway regardless of alignment?
Name	Open-Ended Response
Stacy Tate	No
Dana Hagedorn	No .
Brianne Stark	
Dana Hagedorn	
Tim Biggio	I only support the building of a freeway to improve traffic on 380 AFTER (a) some of the other east-west roads have been upgraded to 4 lanes (taking a lot of people living north of 380 to the DNT and 75 without 380), (b) McKinney changes its residential minimum lot sizes in the feasibility area to be at least 1 acre lots (like Fairview) thereby significantly reducing growth in number of cars, and (c) new traffic studies are done to show the improvement that making these other two changes have made.
Paula Banales	Yes
Shannon Cole	No
Matt Lear	Not with current alignments.
Stefani Lear	Not with current alignments.
Coleen Posey	No
Ashley Leffingwell	No
Erwin Wardojo	No

Please provide us with your contact information.	Do you have any concerns with the existing US 380?
Name	Open-Ended Response
Jenni Antosca	I drive on 380 every single day twice a day to take my kids to school at McClure Elementary. It is so crazy busy!!!! I can't even imagine how bad it is going to be with all the new development going on!
Michellef Hrapkiewicz	no
Dennis Brown	no
KERRIE L BEAVERS	Too much traffic going too fast. People running lights and causing accidents. Rock haulers and construction traffic makes the roadway so dangerous.
Venky Venkatesan	
Larry Richardson	Yeah it's crowded but a majority of traffic is due to new residential & commercial construction.
Kevin Brown	Yes, primarily just west of 75. Alternative entrances to shopping areas needed. The current traffic light just west of 75 seems to create more problems than it helps.
RICHARD CLAYTON LANDEL	Excessive speeding and most dangerous truck traffic creating numerous accidents. Very unsafe.
RICHARD CLAYTON LANDEL	
Lindy Carter	Getting busier
b gamrod	you cant turn left on airport rd in morning without fear of being rear ended. Same as turning off 380 to 1827 in afternoons. Need turning lanes bigger.
Eva Elkins	Trucks can only use the inside lane is what needs to happen.
Deanna Elkins	I do not have any concerns with 380 except for the amount of 18 wheelers/construction trucks on 380. 380 needs a slower speed from Custer east through McKinney.
Jared Critchfield	Yes, too many lights and congestion
Joe Morabella	
Jeff Hodges	Only that it is becoming more and more congested.
Richard Hagen	Traffic is very heavy
Janice West	
Mark & Joyce Buchanan	
Paul Davis	YES
Eric Saenger	Yes too much traffic
Judy Saenger	traffic already bad

Please provide us with your contact information.	If US 380 is congested, what alternative routes do you take?
Name	Open-Ended Response
Jenni Antosca	Small back roads that gets me from Hardin to lake forest.
Michellef Hrapkiewicz	can only take 380. Neighborhood is only accessed via 380
Dennis Brown	the tollway ,Sam Rayburn
KERRIE L BEAVERS	FM546
Venky Venkatesan	I avoid traveling 380 if congested
Larry Richardson	
Kevin Brown	Wilmeth, county road to Lake Forest.
RICHARD CLAYTON LANDEL	Several arterial roads thru nearby neighborhoods.
RICHARD CLAYTON LANDEL	
Lindy Carter	Lake Forest to 121
b gamrod	Thru new hope over small roads to hwy 5 but u stupidily are building in the flood plain before u widen 380. Same to Denton. U build to hwy and cant widen because all the businesses u want. Why not widen then put every business up to 380. Because you did that u have 2 look 4 other routes. Just stupid usual txdot.
Eva Elkins	I still take 380
Deanna Elkins	Never bothers me.
Jared Critchfield	Side routes through Prosper
Joe Morabella	Virginia & El Dorado are parallel with multiple cross streets
Jeff Hodges	Coit south or Custer south
Richard Hagen	I go south to White St, Virginia, Eldorado
Janice West	
Mark & Joyce Buchanan	
Paul Davis	FM 547 to 1178-78
Eric Saenger	roads to S of 380 both E-W & N-S
Judy Saenger	try to stay off 380 as much as possible

Please provide us with your contact information.	What solutions would you suggest in the US 380 Corridor?
Name	Open-Ended Response
Jenni Antosca	Bridges...more lanes....alternate routes
Michellef Hrapkiewicz	time the lights and reduce the speed limit.
Dennis Brown	Adding more lanes to 380, cleaning up the intersection at hwy 75 exit ramp south. This seems to be the biggest bottle neck now.
KERRIE L BEAVERS	Restrict heavy equipment traffic. Physical median instead of the turn-lane median. Loop around outside of cities.
Venky Venkatesan	Green or pink alignment is best.
Larry Richardson	The biggest point I want to make as I believe that a big % of traffic on 380 (morning & evening) is due to construction workers/vehicles traveling up from South Dallas and then heading over to new residential/commercial construction in Frisco/Prosper/Mckinney. So these vehicles are coming up North on 75, then going West on 380. So any northern loops (alignment 3 & 4) to me wont solve 380 traffic, as none of these vehicles will go out of the way to travel further North on 75 (out of the way).
Kevin Brown	Elevated offramps
RICHARD CLAYTON LANDEL	I oppose the 5 suggested alignments as presented to date by TxDOT. due to potential loss of existing new homes and devaluation of our neighborhood as a whole as well as adverse environmental and health implications. If any bypass option is chosen, it must be located far west of Tucker Hill community as possible.west of future Stonebridge extension not on or boarding Tucker Hill. If any freeway construction occurs on the existing 380 footprint adjacent to Tucker Hill, it must impose minimal right-of-way and noise pollution by means of cantilevered access lanes, a depressed throughway and adequate sound barriers.
RICHARD CLAYTON LANDEL	
Lindy Carter	pink and green alignments
b gamrod	Build wider hwy on road east of airport. Widen that and run parallel to 380. Hook in to 380 in Lavon area.
Eva Elkins	Trucks should only use the inside lane.
Deanna Elkins	- Slower speed limits - trucks (i.e) 18 wheelers/construction should stay in right hand lane
Jared Critchfield	North or Laud Howell
Joe Morabella	Build the Collin County Loop
Jeff Hodges	Another east/west option further north More lanes in the current north/south roads
Richard Hagen	Build Freeway loop as follows - outer loop - Start north of Denton going east between Prosper and Celina to north of McKinney/south of Melissa, north of New Hope & Princeton & down to 380 at either side of Lake Lavona This layout would avoid the high cost of tearing up McKinney.
Janice West	
Mark & Joyce Buchanan	
Paul Davis	More merging lanes and more overheads
Eric Saenger	need public transportation network double deck through McKinney/75 area
Judy Saenger	

Please provide us with your contact information.	Do you support the building of a freeway regardless of alignment?
Name	Open-Ended Response
Jenni Antosca	Depends
Michellef Hrapkiewicz	no
Dennis Brown	
KERRIE L BEAVERS	Yes
Venky Venkatesan	Yes.
Larry Richardson	I see a freeway/loop to help 380 being a must but feel like it needs to be further North like Frontier Rd.
Kevin Brown	Would not prefer it, but better than displacing home owners.
RICHARD CLAYTON LANDEL	No
RICHARD CLAYTON LANDEL	
Lindy Carter	no
b gamrod	No. That's stupid. Just build something to do something is really dumb. Keep this process going.
Eva Elkins	The loop needs to be moved outside of the city of McKinney.
Deanna Elkins	There needs to be an outer loop around McKinney instead of adding a freeway (380) or bypass. Tucker Hill is affected by all these 5 proposals in a negative way
Jared Critchfield	No
Joe Morabella	It is absolutely unnecessary. Blue/Red/Yellow go thru floodplains. The Collin County Loop is still in play. That makes 2 roads within miles of each other.
Jeff Hodges	Yes
Richard Hagen	Yes
Janice West	
Mark & Joyce Buchanan	yes
Paul Davis	No
Eric Saenger	Yes
Judy Saenger

Please provide us with your contact information.	Do you have any concerns with the existing US 380?
Name	Open-Ended Response
Wes & Paula Murdock	traffic - unsafe - no turn lanes into neighborhoods
Darrel Copeland	Speed control especially truck traffic. Congestion at tollway and Preston as corridor develops
Jorge A. Rullan	Yes
Bob Seei	Not at this time. Future?
John Grant	Congestion, noise & capacity to handle future growth.
Debra Praschan	Congestion
Viktoriya McClellon	yes
Will Pry	Beginning to become overcrowded
Julie Guerra	no
Charles Clark	excessive congestion
Jenna Ursone	None
Bill Terrell	yes congested
Victoria Mohsenin	
Henry Bell	1) Over crowed 2) Unsafe especially at 380/Custer. 3) truck traffic blocks all 3 lanes instead of just one or two 4) Speed limit is too high for the number of stop lights
Emily Lane	
Tami Johnston	Congestion.
Michele Larche	Congestion at 75, lots of speeders between 75 and Custer
Barbara S. Thompson	Yes
Tamlyn Clyde	Yes - businesses are being built too close to it.
Darla I Hopson	Speeding
Farhan Khan	Started seeing congestion in past 5 years
Darla I Hopson	Speeding
Mark Woodall	
Allison Welch	Yes! It can be very dangerous but most of that right now is because of construction. Issues are being addressed at the Preston & 380. Traffic going west is awful.

Please provide us with your contact information.	If US 380 is congested, what alternative routes do you take?
Name	Open-Ended Response
Wes & Paula Murdock	if going to 75 - no options
Darrel Copeland	Custer to 121
Jorge A. Rullan	DNT/Custer
Bob Seei	El Dorado, 1st St Prosper, 2nd St Prosper, Rock Hill Rd., Virginia Etc.
John Grant	- Custer & Coit down to 121 - Going East/(unreadable) take Virginia
Debra Praschan	There isn't a good one.
Viktoriya McClellon	Rockhill
Will Pry	Virginia Parkway in McKinney
Julie Guerra	Virginia Pkwy
Charles Clark	Co 88 FM 423, FM 1461 Fish trap Rd., Preston Rd.
Jenna Ursone	.
Bill Terrell	usually go to the south to Virginia. However, If I have business or shopping on 380 I just stay on.
Victoria Mohsenin	
Henry Bell	Custer south and cut across an east/west route
Emily Lane	
Tami Johnston	Custer to El Dorado.
Michele Larche	
Barbara S. Thompson	I have to drive on 380
Tamlyn Clyde	none
Darla I Hopson	Eldorado
Farhan Khan	Take 380 @ the moment.
Darla I Hopson	Eldorado
Mark Woodall	Custer to Virginia Pkwy Stonebridge to Virginia Pkwy
Allison Welch	Virginia/Rockhill. Or Fishtrap going west.

Please provide us with your contact information.	What solutions would you suggest in the US 380 Corridor?
Name	Open-Ended Response
Wes & Paula Murdock	Whatever would be the option that would affect the least amount of people & businesses.
Darrel Copeland	The Dallas area is essentially a series of concentric loops. It would seem thru 380 corridor given the existing amount of development to treat the area between the N Dallas Tollway and 75 as a freeway similar to Northwest Highway in Dallas. Buy ROW to the north in more rural part of county near Celina to build a limited access highway that can be returned to 380 east of 75 and west of N. Dallas Tollway. Less intrusive to existing development, and fulfills primary goal of East/West access to N. Dallas Tollway and lesser extent 75.
Jorge A. Rullan	Highway & options red or blue
Bob Seei	I guess? - widen using both sides till outer loop is built?
John Grant	- Timing of lights - For large intersections, consider overpass to alleviate congestion. - Add right turn lanes - @ 380 & 75, prioritize an interchange to alleviate traffic - improv. other east/west arteries to provide options to 380
Debra Praschan	Please complete the already planned outer loop.
Viktoriya McClellon	make it into freeway
Will Pry	widen 380 or use upper/lower decks
Julie Guerra	
Charles Clark	More alternative routes
Jenna Ursone	.
Bill Terrell	Make 380 more efficient - 1. create turn lanes 2. go over or under at major intersections 3. build out East & West arterials - Bloomdale &Wilmeth. This is probably the jurisdiction of McKinney but if these roads were built out to 4 or 6 lanes a great deal of local traffic would be diverted from 380 4. widen 380 where possible
Victoria Mohsenin	
Henry Bell	1) Widen US 380 2) Put overpass above major intersections 330 Consider an overpass like in Austin in the areas between Hardin and McDonald
Emily Lane	
Tami Johnston	Widening would be beneficial.
Michele Larche	Sorry, I have none.
Barbara S. Thompson	overpasses over main cross streets
Tamlyn Clyde	double decker freeway
Darla I Hopson	Widen 380 Build overpass at intersections with traffic lights Make it a toll rd
Farhan Khan	Long term: Elevated freeway conversion with frontage road connectivity Mid term: Grade seperations @ major connections like DNT, Preston, ... Short term: Signal coordinations/turn bays/ geometric improvement to intersections
Darla I Hopson	Widen 380 Build overpass at intersections with traffic lights Make it a toll road
Mark Woodall	Run Blue Route via Stonebridge. This an already existing road/annex. And will be widened anyway. Do not route road directly adjacent to westside of Tucker Hill subdivision.
Allison Welch	Fix 380 in its current location. Do not bypass thru Erwin Park.

Please provide us with your contact information.	Do you support the building of a freeway regardless of alignment?
Name	Open-Ended Response
Wes & Paula Murdock	NO!
Darrel Copeland	No
Jorge A. Rullan	No
Bob Seei	No
John Grant	Support the idea of a freeway BUT must make sense to existing properties.
Debra Praschan	No
Viktoriya McClellon	yes
Will Pry	No
Julie Guerra	No
Charles Clark	yes
Jenna Ursone	Yes, but update the existing 380
Bill Terrell	No, this gives you free license to do anything that may harm existing neighborhoods
Victoria Mohsenin	
Henry Bell	Yes
Emily Lane	
Tami Johnston	No
Michele Larche	That’s pretty open and not very specific, so no.
Barbara S. Thompson	No!
Tamlyn Clyde	N
Darla I Hopson	No
Farhan Khan	Yes, that's not only going to cater the growing need but will bring economic wealth and development to area
Darla I Hopson	No
Mark Woodall	NO!
Allison Welch	I don’t know.

Please provide us with your contact information.	If US 380 is constructed as a freeway, which alignment do you prefer? (select all that apply)

Lori Lauer			Property Owner			Daily
Terry Reishus						
Laurie K. Rullan			Property Owner			Daily
Christina Dorton			Property Owner	Nearby resident	Live in Tucker Hill	Daily
Lawrence & Georgene Wood			Property Owner			Weekly
Tracey George	Commuter					Weekly
David Cox	Commuter	Business Owner	Property Owner	Nearby resident		Daily
Elizabeth G Autry	Commuter					A couple times a year
Jennifer Cox	Commuter	Business Owner	Property Owner	Nearby resident	None specified	Daily
Yasmin & Alan Haslem			Property Owner			

Please provide us with your contact information.	Do you have any concerns with the existing US 380?
Name	Open-Ended Response
Darla I Hopson	Speeding
LaVorise R. Dahlman	
Dawnda Daniel	No
Steve Glass	Future Growth
Lynette Terrell	can be congested during peak hours
Dave Hazlett	Yes - Amount of congestion
James McClellan	Yes, too busy and slow
Gary Pierce	few concerns
Tony Musick	Yes
Carl Rau	Yes - Difficult to drive East to McKinney. I avoid intersection of 380 & 75
Bill Gross	Yes. Overcrowded.
Connie Paul	Huge increase in fast traffic since I live right off 380 - Red Bud Estates
Lori Lauer	Only the current speed limit and lack of street lights (Traffic)
Terry Reishus	Crowded & Dangerous What are you doing to align with Denton County
Laurie K. Rullan	Yes
Christina Dorton	YES, To many trucks and the speed is too high!
Lawrence & Georgene Wood	Yes
Tracey George	
David Cox	Yes, high traffic volume
Elizabeth G Autry	
Jennifer Cox	Yes, high traffic volume
Yasmin & Alan Haslem	NO

Please provide us with your contact information.	If US 380 is congested, what alternative routes do you take?
Name	Open-Ended Response
Darla I Hopson	Eldorado
LaVorise R. Dahlman	Custer to Virginia Pkwy Stonebridge to Virginia Pkwy
Dawnda Daniel	Coit to rockhill
Steve Glass	Virginia
Lynette Terrell	usually just stay on 380 if I have business on 380. Otherwise I go south to Virginia Parkway
Dave Hazlett	DNT & 121
James McClellan	North through pilot point
Gary Pierce	Here lies the problem ... there are almost no other routes. If the 2004 Thoroughfare Plan was complete, then there would be adequate options for East / West travel.
Tony Musick	
Carl Rau	I will go south from Prosper on Coit, Independent, Custer, Ridge Road and maybe Hardon. Then I drive East on Virginia Pkwy, El Dorado or Stacy. Then I go North on 5 to Industrial Rd. and then Airport Rd to 380 East
Bill Gross	1461, Frontier Pkwy, Wilmuth/Bloomdale
Connie Paul	Custer to Rockhill or Coit or DNT to SRT
Lori Lauer	It is never congested
Terry Reishus	There is none east west
Laurie K. Rullan	Custer & Coit
Christina Dorton	We don't have any alternatives because we only have one entrance into Tucker Hill.
Lawrence & Georgene Wood	Wilmuth Rd to Central or Hwy 5 to Wilmuth
Tracey George	
David Cox	121, 75, DNT
Elizabeth G Autry	
Jennifer Cox	121, 75, DNT
Yasmin & Alan Haslem	

Please provide us with your contact information.	What solutions would you suggest in the US 380 Corridor?
Name	Open-Ended Response
Darla I Hopson	Widen. Overpasses thru lighted intersections.
LaVorise R. Dahlman	Run Blue Route via Stonebridge. This is an already existing road/annex and will be widened anyway. Do not route road directly adjacent to west side of Tucker Hill subdivision.
Dawnda Daniel	More overpasses
Steve Glass	create bypasses outside of developed areas. less expensive land and encourages growth in other areas
Lynette Terrell	- make turn lanes to help traffic keep moving - use over or under passes for through traffic - widen 380 where you can - encourage McKinney or whoever is responsible to build out the northern routes, Bloomdale & Wilmeth. We have no easy, local choice to the north of 380, this would help tremendously to ease the traffic on 380
Dave Hazlett	
James McClellan	Freeway
Gary Pierce	Add a lane to eastbound US380 and add a lane to the westbound US380. Do not convert US380 to a limited access highway. Concentrate on the Collin County Outer Loop as the limited access highway with 6-8 lanes.
Tony Musick	Expand 380, as wide as possible. Everyone is already used to the highway in its current location and its normal for any highway to expand as the communities around it grows. The current homes that would be impacted by this would not take as much of a hit because its always been there versus homeowners that have bought a home in other communities such as Heatherwood who bought in their community because of the location away from 380.
Carl Rau	Blue
Bill Gross	It seems like the Yellow Alignment in Princeton switching to the Blue Alignment @ US75 would a good Alternative. My Preferred Route is Pink/Green all the way across.
Connie Paul	The overpass @ Preston is a nice example Have an option, another large road for people going from East, Princton to W. Denton A non stop freeway fro commuters to travel straight through so people coming out of neighborhoods can get on their way easier
Lori Lauer	No Corridor Slow down speed on 380 Add traffic lights Enforce speed limits
Terry Reishus	Take it farther north for freeway Land Howell? You need another major route east west between Denton and McKinney
Laurie K. Rullan	Blue or Red & toll road
Christina Dorton	Tucker Hill's position is NO to all alignments due to potential loss of homes and devaluation of our neighborhood as a whole and adverse environmental and health implications. Not withstanding, our recommendation, if any freeway construction occurs on the existing 380 footprint adjacent to Tucker Hill, it must impose minimal right of way and noise pollution by means of cantilevered access lanes; a depressed through way; and sound barriers. Also, if any bypass option is chosen, it must be located as far west of Tucker Hill as possible; West of future Stonebridge; not on or bordering Tucker Hill.
Lawrence & Georgene Wood	Complete Outer loop first
Tracey George	
David Cox	
Elizabeth G Autry	
Jennifer Cox	
Yasmin & Alan Haslem	underground Tunnel

Please provide us with your contact information.	Do you support the building of a freeway regardless of alignment?
Name	Open-Ended Response
Darla I Hopson	No
LaVorise R. Dahlman	NO!
Dawnda Daniel	
Steve Glass	No, the alignment needs to take many Transportation, Economic, Social, Environmental issues into consideration
Lynette Terrell	no, absolutely not Please do not destroy neighborhoods!
Dave Hazlett	yes
James McClellan	Any of these alignments are fine.
Gary Pierce	I support building the Collin County Outer Loop as a limited access freeway, ONLY. I do not support any of the proposed alignments that change US380 into a freeway.
Tony Musick	Yes
Carl Rau	I support Blue, Red and Yellow in that order. I do not support Pink or Green.
Bill Gross	Yes
Connie Paul	Yes city is expanding WAY too quick prefer blue but the others are OK
Lori Lauer	Absolutely Not
Terry Reishus	Yes
Laurie K. Rullan	Yes
Christina Dorton	NO
Lawrence & Georgene Wood	No - Thank you for presenting options for the different alignments & giving us the opportunity to pick an option?
Tracey George	No
David Cox	NO
Elizabeth G Autry	
Jennifer Cox	NO
Yasmin & Alan Haslem	NO

Please provide us with your contact information.	If US 380 is constructed as a freeway, which alignment do you prefer? (select all that apply)

Please provide us with your contact information.	Do you have any concerns with the existing US 380?
Name	Open-Ended Response
Dennis Croysdale	No, The amount of traffic is acceptable to me. I travel to Hardin and then south to White which takes me to Hwy 75 where I go south to Richardson
Clif Hardew	Conjestion, widing 380 will destroy homes and businesses.
Ruth Gibbs	Slow drivers cause traffic to stack up. Drivers are using the existing left turn lane as a third lane causing a very dangerous situation. Too many big trucks going to dump and locations between Princeton and McKinney.
Bill Walker	
Bethanne Johnson	It just feels dangerous because it's so congested and chaotic.
Celeste Hardon	Traffic congestion not only during rush hours, but all day.
Sara	Traffic, ease of getting to new restaurants and shopping.
Allison Shores	
Casey	
Scott D. Owens	Yes, for what has already been completed.
Sy Shahid	Yes. Congested and unsafe
Cristie Blazer	Bypass 380 (Yellow) or Blue
Dave Clarke	Yes - heavy congestion and daily accidents create a very driving environment
Steffanie Shepherd	Yes.
Tawana Hendricks	Congestion, wrecks
Suzanne Powell	congestion, safety
Tonya Mercer	Yes, while it is beautiful, it is very dangerous and deadly.
Jennifer Patrick	Backups from light to light. Need flyovers
Jim Terilli	Too much traffic....Lots of accidents
John Brittigan	Congestion
Rick Mabus	It’s a little crowded.
Chris Moore	
Brett Burkett	There are insufficient connected sidewalks for pedestrians.
Debra Selvidge	No
Peter Shelley	No.

Please provide us with your contact information.	If US 380 is congested, what alternative routes do you take?
Name	Open-Ended Response
Dennis Croysdale	I take Virginia Pkwy to get to 75.
Clif Hardew	a bypass north of McKinney completing the outer loop would help
Ruth Gibbs	New Hope cut off to the North or around McKinney Airport on the south.
Bill Walker	
Bethanne Johnson	
Celeste Hardon	
Sara	Fishtrap
Allison Shores	
Casey	
Scott D. Owens	SRT to DNT to 380
Sy Shahid	Industrial Blvd
Cristie Blazer	Blue or Yellow alignment Bypass 380
Dave Clarke	Virginia Pkwy, Wilmeth Rd.
Steffanie Shepherd	White, Virginia, Bloomdale
Tawana Hendricks	Virginia
Suzanne Powell	county Roads east of Bloomdale.
Tonya Mercer	Back county roads
Jennifer Patrick	Virginia or Bloomdale
Jim Terilli	Usually take Virginia Parkway
John Brittigan	White, Virginia, El Dorado
Rick Mabus	Is not that bad to take alt routes
Chris Moore	
Brett Burkett	El Dorado, Wilmeth, White
Debra Selvidge	south on Custer or Lake Forest Drive to Hwy 121
Peter Shelley	I also go down Lake Forest/Custer/Coit to the 121.

Please provide us with your contact information.	What solutions would you suggest in the US 380 Corridor?
Name	Open-Ended Response
Dennis Croysdale	I would leave the 6 lane US 380 the way it is. Any freeway in lieu of the current 380 would destroy the character of McKinney, i.e. split it into a North McKinney and a South McKinney, much like 75 does with East McKinney and West McKinney. The reduction in travel time anticipated in 20 years is not worth destroying a city character
Clif Hardew	
Ruth Gibbs	Make the existing left turn lane a raised median. Post signs that slow drivers stay to the right. Make a two lane left turn lane going west at 380 & Airport Rd.
Bill Walker	Pink or Green
Bethanne Johnson	
Celeste Hardon	
Sara	
Allison Shores	
Casey	
Scott D. Owens	Do not move forward with adding flyons at ONT & Hwy 380. Access roads going N&S already are there. People would just exit future DNT at exit for 380 and come to existing light and go to their planned route, either east or west on 380. Flyons area waste of taxpayer money, they cause hazardous driving conditions (freezing) during the winter
Sy Shahid	Definitely a northern bypass
Cristie Blazer	Bypass 380 (Yellow) or (Blue)
Dave Clarke	- widen existing corridor to 8 lanes/Freeway option - do interim improvements to add turning lanes and signal improvements
Steffanie Shepherd	Widen where possible & build the outer loop. Stay east of private lake in Walnut Grover. Green, Red & pink are preferable but blue & yellow are fine as long as they stay away from Walnut Grove subdivision.
Tawana Hendricks	
Suzanne Powell	Make 380 limited access rd. with feeder roads to access business.
Tonya Mercer	I'm not fully in the know of all solutions but somewhere between Princeton and Farmersville would be acceptable.
Jennifer Patrick	Fly overs or finish the outer loop
Jim Terilli	Less Red Lights
John Brittigan	I prefer a bypass to the north for thru traffic
Rick Mabus	Maybe do an underground route like Spring Valley on US75
Chris Moore	
Brett Burkett	Buying up property along the pink/green alignment would probably lead to the most disenfranchisement of the community that this would ultimately, ostensibly serve. That said, all of the alignments share the same issue: they necessitate automobile traffic High density, public transportation could be scaleable to increasing population which would both alleviate burdens on existing roadways and decrease the likelihood that we have to visit this again in 20 years when we reach capacity. A combination of street widening plus public transit will best answer our traffic problems.
Debra Selvidge	Double deck portions such as the cross over with Hwy 75 similiar to what they are doing at Preston Road. Those are the two worst spots but Hwy 121 is not as busy and would be a good alternative as it reaches both the Tollway and Hwy 75. Plus it's already built.
Peter Shelley	Don't build more roads, just widen the existing 380. There is plenty of land to do so. We also do NOT need another road north of the 380.

Please provide us with your contact information.	Do you support the building of a freeway regardless of alignment?
Name	Open-Ended Response
Dennis Croysdale	NO, for the reasons previously stated
Clif Hardew	Yes as long as it is outside north of McKinney and Princeton
Ruth Gibbs	Depends on alignment. An outer loop would be desirable and making existing 380 a Business 380 for Princeton and Farmersville. 380 gets a lot of traffic from much further east of Farmersville.
Bill Walker	
Bethanne Johnson	
Celeste Hardon	Yes
Sara	
Allison Shores	
Casey	
Scott D. Owens	
Sy Shahid	Yes
Cristie Blazer	
Dave Clarke	Opposed to bypass options
Steffanie Shepherd	Yes, as long as it's one of the 5 that were presented or a combination, and as long as it stays out of Walnut Grove subdivision.
Tawana Hendricks	Not sure - we have so many wrecks on 380 as it is.
Suzanne Powell	East-west roads must be improved - if must bypass - put it on 1461 - much less developed than 123/Bloomdale
Tonya Mercer	Mixed emotions on a freeway. Maybe an alternate FM road but freeway seems a little excessive.
Jennifer Patrick	NO.
Jim Terilli	Yes.....build it ASAP!!!
John Brittigan	Yes
Rick Mabus	Sure but DO NOT IMPACT THE PARKS OF MCKINNEY, ESPECIALLY ERWIN PARK.
Chris Moore	
Brett Burkett	No. We cannot have an attitude of "we need it at all costs" which seems to be implied here. The presentation slides seem to favor this as the "only" option downplaying (disregarding?) the benefits of public transport/pedestrian ways.
Debra Selvidge	Not at this time. If there's going to be that much growth I'm not sure why you won't consider building a bypass farther north where you don't have so many residential areas yet.
Peter Shelley	NO NO NO NO NO NO

Please provide us with your contact information.	If US 380 is constructed as a freeway, which alignment do you prefer? (select all that apply)

Please provide us with your contact information.	Do you have any concerns with the existing US 380?
Name	Open-Ended Response
Shannon Burkett	Not enough Pedestrian-friendly features (Pedestrian bridges, hike-bike trails, etc....
Margaret O'Neal	crowded
Eric Loller	Yes. It is slow during rush hour but it is also dangerous as I have seen several deadly crashes on 380 over the years. This is directly impacted by the high rate of speed and the fact that there are many lights and side roads that people have to use to turn onto 380 from a dead stop.
Jeffrey Dorton	yes, it has too many large trucks on the road and poses a hazard for other car drivers
Jackie Taylor	Too fast - would like the speed limit lowered around residential & business
Gordon O'Neal	too many lights, too many cars
Mirna Cervantes	Heavy traffic at all times, way too many street lights, pedestrians crossing lanes. No exit lanes for right turning business or residential homes, mostly between highway 5 and Hardin Blvd.
Holly Pry	Yes
Henry Kohrs	Heavy congestion
Ted Sprunger	Traffic especially trucks
Sandra Graham	
Mark Watjen	There are too many cars on it.
Renee Joyce	Yes! Many...effecting residential areas with homes and families with children
Diana Daugherty	My concerning is how an further expansion will effect the established business on US 380.
David Cota	Yes the speed limit is too high through existing residential & commercial zones and truck traffic is too heavy through the same zones.
Lawrence Gibson	
heidi kyle	Yes
Naresh Panjala	Growing traffic is my concern to reach US 75. its taking 10-15 mins to reach US 75.
Sherri Mancill	No
Kelly Harmon	

Please provide us with your contact information.	If US 380 is congested, what alternative routes do you take?
Name	Open-Ended Response
Shannon Burkett	White Rd., Wilmeth, El Dorado
Margaret O'Neal	Wilmeth - Bloomdale
Eric Loller	1377 and airport road to 121.
Jeffrey Dorton	no alternative available. I live in Tucker Hill. Only access to neighborhood if from 380.
Jackie Taylor	Virginia/Rock Hill Prosper Trail
Gordon O'Neal	Wilmeth Rd.
Mirna Cervantes	White or highway 5
Holly Pry	Depends on my ultimate destination
Henry Kohrs	FM 546
Ted Sprunger	Virginia or ElDorado
Sandra Graham	Virginia Eldorado
Mark Watjen	Its a secret. I don't want anyone else to know.
Renee Joyce	Custer South or Hwy 75 North South.
Diana Daugherty	
David Cota	It depends on whether I'm traveling north out of town or using 380 locally. Since I live on 380 alternatives for local usage are limited. If I'm going out of town and traveling north I will take 289 north to Hwy 82 instead of using 380.
Lawrence Gibson	If heading to Frisco for work: Airport road to 121. If heading to 35 to go North (OK/KS) I will take hwy 69 to hwy 82 to Gainesville.
heidi kyle	Virginia Parkway
Naresh Panjala	
Sherri Mancill	Hardin to White
Kelly Harmon	

Please provide us with your contact information.	What solutions would you suggest in the US 380 Corridor?
Name	Open-Ended Response
Shannon Burkett	Invest in a robust Public transportation system! The problem w/ building a freeway or re-aligning/widening 380 is that it is a temporary fix, like pinching a severed artery. It might do you good for a time, but eventually you'll have to come up w/ a more permanent/useful solution. Building a new road/roads encourages development. This, in turn, brings new people/cars to the region & strains Roadways during peak travel times. It's a positive feedback loop. Training your citizens to use/depend on pub. trans. reduce the need for cars. You need busses! lots of em', not those shitty little shuttles.
Margaret O'Neal	Complete 121 extension to the east Complete Collin Co Outter Loop
Eric Loller	This needs to be a full blown freeway with on ramps and service roads. Or an alternate route for heavy traffic needs to be constructed as a freeway.
Jeffrey Dorton	Tucker Hill's position is NO to all alignments due to potential loss of homes and devaluation of our neighborhood as a whole and adverse environmental and health implications. Notwithstanding our recommendation, if any freeway construction occurs on the existing 380 footprint adjacent to Tucker Hill, it must impose minimal right-of-way and noise pollution by means of cantilevered access lanes; a depressed throughway; and sound barriers. Also, if any bypass option is chosen, it must be located as far west of Tucker Hill as possible; west of future Stonebridge; not on or bordering Tucker Hill.
Jackie Taylor	Please stay away from Heatherwood subdivision Too dangerous of a road so close to family neighborhood & elementary school.
Gordon O'Neal	complete 121 extension to the east (closer to Princeton) complete Collin Co. Outer Loop
Mirna Cervantes	Overpass for non exiting vehicles that just need to drive to get to 75.
Holly Pry	- Expand/widen US 380 in its current footprint. - Continue with ongoing development of the outer loop. It makes no sense to build a bypass when the outer loop is in such close vicinity & is already underway. - Preserve the unique nature of the beautiful neighborhoods - family homes - already existing that would be destroyed by bypass - All of the bypass options are unacceptable - would put major freeway next to well-developed neighborhoods and schools.
Henry Kohrs	Widening
Ted Sprunger	Continue Blue Alternative North of Present 380 to West of Custer Road before Rejoining Existing 380
Sandra Graham	
Mark Watjen	Send the all the people who moved here back to where ever they came from.
Renee Joyce	
Diana Daugherty	
David Cota	Create an outer loop primarily for truck traffic and east/west traffic from 75 to I 35 far enough north and west of Tucker Hill so as not to impact our development. No existing residential developments or businesses along 380 should be impacted. Since 380 from 75 to 35 has developed into a residential/commercial zone over the past 20 years, it is important to push east/west & heavy truck traffic north of this zone. This will then allow the speed limit to be reduced to 50 mph for safety reasons.
Lawrence Gibson	If it is converted to a FWY that it follow the existing 380 route.
heidi kyle	Lower the speed limit
Naresh Panjala	Building of a loop freeway to US 75 is really helps
Sherri Mancill	Continuation of Wilmeth and Bloomdale
Kelly Harmon	

Please provide us with your contact information.	Do you support the building of a freeway regardless of alignment?
Name	Open-Ended Response
Shannon Burkett	You can't reduce a problem of this scale to a simple "yes" or "no" answer, therefore I refuse to respond. If you're going to do it, you're going to do it.
Margaret O'Neal	Not if it destroys family farms and local businesses and quality of life in the area. We are a 5th generation on our farm.
Eric Loller	Only if property owners and businesses are properly compensated if their boundaries are encroached upon.
Jeffrey Dorton	no
Jackie Taylor	NO
Gordon O'Neal	No, not if it destroys family farms, local businesses, etc.
Mirna Cervantes	Yes PLEASE
Holly Pry	No. Not regardless of alignment. The green/pink alignment is the only one I support.
Henry Kohrs	2 of the alternative routes cut behind my development. Road noise is already high. Would prefer widening vs. alternative routing.
Ted Sprunger	
Sandra Graham	no
Mark Watjen	What does this even mean? If you mean seizing private land without consent, no, I do not support that. if you compensate land owners for their land AND have their approval, yes. Please, the most direct route possible with roundabouts. These are awesome, please use them. No lights or electricity.
Renee Joyce	Yes...depending on the alignment
Diana Daugherty	no
David Cota	No
Lawrence Gibson	No-very much opposed to any alignment that goes North of existing HWY380 in McKinney.
heidi kyle	no
Naresh Panjala	Yes i really support the building of a freeway.
Sherri Mancill	No
Kelly Harmon	

Please provide us with your contact information.	If US 380 is constructed as a freeway, which alignment do you prefer? (select all that apply)

John R. Wood			Property Owner			Daily
Robin			Property Owner			Daily
Terry Copeland			Property Owner	Nearby resident		A couple times a year

Please provide us with your contact information.	Do you have any concerns with the existing US 380?
Name	Open-Ended Response
Elizabeth Barrett	Traffic is heavy traffic throughout the week. The road noise is very loud for us.
Paul Henderson Powell	yes
Pete Pulis	Yes
Donald Daugherty	It's busy, but not overwhelming. I only travel a short distance on 380 several times a day.
Heather Brister	The traffic congestion is increasing. Our commute has slowly increased in time over the last several years, and the number of traffic accidents has increased as well.
Amanda Hurlbut	Yes! It is extremely dangerous with high speeds and many lights controlling the traffic.
Mark Foley	
Shannon Etier	
Barry Farris	The speed limit needs to be lowered and truck access needs to be limited to certain lanes.
M. Nugent	Yes
John R. Wood	
Robin	The speed limit needs to be lowered and trucks need to use only certain lanes.
Terry Copeland	No, it is working as designed

Please provide us with your contact information.	If US 380 is congested, what alternative routes do you take?
Name	Open-Ended Response
Elizabeth Barrett	Stonebridge Dr. To Virginia or Custer roads
Paul Henderson Powell	1461
Pete Pulis	Side streets
Donald Daugherty	White Street in McKinney
Heather Brister	We don't really have much of an alternative. If things get really backed up, we will take Bridgefarmer, but we do not travel that route very often. It goes in the opposite direction of our destination.
Amanda Hurlbut	I would love to take roads north of McKinney that run east to west. However, the city of McKinney has not build these out. The farm roads are just that - farm roads. The towns of Prosper and Celina at least have roads north of 380 that run east to west. McKinney is way behind the game on this and I believe that is why we are seeing so much congestion. I would take Wilmeth - not build out. Bloomdale over to Custer. Even Laud Howell. Yet, there are residences and lots of people commuting from these areas. We just need a basic infrastructure.
Mark Foley	
Shannon Etier	Eldorado or Virginia for east west travel.
Barry Farris	None, we have no other exit out of Tucker Hill.
M. Nugent	Depending on which direction I am driving I might take Virginia Parkway, Eldorado, 1461, 455 or 121 east and west; Custer, Lake Forest, Coit, 75, Preston or Tollway north and south.
John R. Wood	
Robin	We have no other way out of Tucker Hill except 380.
Terry Copeland	There are many alternate routes that can be taken

Please provide us with your contact information.	What solutions would you suggest in the US 380 Corridor?
Name	Open-Ended Response
Elizabeth Barrett	I would suggest a northern extension of 380 or a beltway around McKinney. I would not like to have 380 turned into a freeway with four or five lanes of traffic.
Paul Henderson Powell	Loop north of McKinney that ties into County Rd 125 and CR 88 all the way to I 35. eventually. Makes better sense than all the bypasses previously presented and is a solution that is achievable. May revise the outer loop or tie into that existing right of way.
Pete Pulis	
Donald Daugherty	not sure the best solutin
Heather Brister	A bypass northo of the existing 380 would be beneficial.
Amanda Hurlbut	Fix 380 on 380. Build out roads that run east to west north of 380. Wilmeth, Bloomdale, Laud Howell, etc. Why should we even consider building a bypass when we don't even know how having actual roads in this area will affect congestion and traffic?
Mark Foley	
Shannon Etier	Tucker Hill's position is NO to all alignments due to potential loss of homes and devaluation of our neighborhood as a whole and adverse environmental and health implications. Notwithstanding our recommendation, if any freeway construction occurs on the existing 380 footprint adjacent to Tucker Hill, it must impose minimal right-of-way and noise pollution by means of cantilevered access lanes; a depressed throughway; and sound barriers. Also, if any bypass option is chosen, it must be located as far west of Tucker Hill as possible; west of future Stonebridge; not on or bordering Tucker Hill.
Barry Farris	Tucker Hill's position is NO to all alignments due to potential loss of homes and devaluation of our neighborhood as a whole and adverse environmental and health implications. Notwithstanding our recommendation, if any freeway construction occurs on the existing 380 footprint adjacent to Tucker Hill, it must impose minimal right-of-way and noise pollution by means of cantilevered access lanes; a depressed throughway; and sound barriers. Also, if any bypass option is chosen, it must be located as far west of Tucker Hill as possible; west of future Stonebridge; not on or bordering Tucker Hill.
M. Nugent	I agree with your study that a freeway is necessary
John R. Wood	Notwithstanding our recommendation, if any freeway construction occurs on the existing 380 footprint adjacent to Tucker Hill, it must impose minimal right-of-way and noise pollution by means of cantilevered access lanes; a depressed throughway; and sound barriers. Also, if any bypass option is chosen, it must be located as far west of Tucker Hill as possible; west of future Stonebridge; NOT on or bordering Tucker Hill.
Robin	Tucker Hill's position is NO to all alignments due to potential loss of homes and devaluation of our neighborhood as a whole and adverse environmental and health implications. Notwithstanding our recommendation, if any freeway construction occurs on the existing 380 footprint adjacent to Tucker Hill, it must impose minimal right-of-way and noise pollution by means of cantilevered access lanes; a depressed throughway; and sound barriers. Also, if any bypass option is chosen, it must be located as far west of Tucker Hill as possible; west of future Stonebridge; not on or bordering Tucker Hill.
Terry Copeland	

Please provide us with your contact information.	Do you support the building of a freeway regardless of alignment?
Name	Open-Ended Response
Elizabeth Barrett	Not making a freeway out of the existing 380.
Paul Henderson Powell	No.
Pete Pulis	No
Donald Daugherty	To some extent. I'm concerned about the businesses near US 75 intersection.
Heather Brister	To some extent, yes. I don' think simply widening the current road will solve the problem long-term. A freeway does make the most sense.
Amanda Hurlbut	No absolutely not. I do not support a freeway anywhere but on 380. This is based upon my experience with 380 in the town of Denton. Denton has a north and south loop that was created to help divert traffic. The south loop has businesses along it is it is just as congested as 380. The north loop is empty. It was meant to serve as a way for commuters to bypass the busy 380 intersections in Denton. But the problem is that no one uses it. It sits empty most of the time and thus the loop never actually solved the problem of the congestion and traffic on 380. I am only in favor of fixing 380 on the existing 380. I realize this will affect businesses, but businesses are some of the main reasons why 380 is starting to get busy.
Mark Foley	
Shannon Etier	No
Barry Farris	No
M. Nugent	No
John R. Wood	Tucker Hill's position is NO to all alignments due to potential loss of homes and devaluation of our neighborhood as a whole and adverse environmental and health implications. If any freeway construction occurs on the existing 380 footprint adjacent to Tucker Hill, it must impose minimal right-of-way and noise pollution by means of cantilevered access lanes; a depressed throughway; and sound barriers. Also, if any bypass option is chosen, it must be located as far west of Tucker Hill as possible; west of future Stonebridge; not on or bordering Tucker Hill.
Robin	No
Terry Copeland	No

Please provide us with your contact information.	Do you have any concerns with the existing US 380?
Name	Open-Ended Response
LeighAnn Wood	
Shaun Foreman	
Thomas Reyes	Traffic congestion in some locations
Debbie Brewer	There are too many accidents on hwy 380 from McKinney to Princeton.
Dongho Kim	
Jimi Kim	
Deborah King	accidents. need more lights to slow it down
Judy Cota	
Sheila Foster	I live in Farmersville, 16 miles from work, and sometimes it takes me an hour to get to the office. The middle turn lane is dangerous. The speed limit is too fast and there are too many points of entry/people stopping to turn off the highway.
Jamile Ashmore	accidents
MARSHA	75 N exiting onto 380 is still extremely congested, even with the improvements that have been made. An Over/Under at this intersection would alleviate this congestion.
Donald Anderson	No police patrols
Cindy Wade	Too many car going too fast.
Naomi Boudreaux	Yes - traffic is increasing
JAY SMITH	yes
Tom Hise	
Courtney Matz	
emy varghese	
Sandra Graham	
Amy Bendik	Crowded
Amy Gooding	
Angel Drabek	
Angela Drabek	
Leilani Bonds	No
Dona Bewley	
Tim White	just too many vehicles and not enough concrete
	yes

Please provide us with your contact information.	If US 380 is congested, what alternative routes do you take?
Name	Open-Ended Response
LeighAnn Wood	
Shaun Foreman	
Thomas Reyes	Hwy 121
Debbie Brewer	I'll take Bridgefarmer road
Dongho Kim	
Jimi Kim	
Deborah King	Virginia
Judy Cota	
Sheila Foster	1377, 461 and Monte Carlo.
Jamile Ashmore	Virginia, 121
MARSHA	121
Donald Anderson	Nonelea
Cindy Wade	I usually don't take alternative routes unless its totally shut down.
Naomi Boudreaux	Wilmeth to CR943 to CR164 to FM1461
JAY SMITH	246
Tom Hise	I take Community to Wilmeuth or Taylor Burek if I am traveling north or Harden to Virginia or El Dorado if traveling South
Courtney Matz	
emy varghese	
Sandra Graham	Virginia Eldorado
Amy Bendik	There aren’t alternatives. I live right off 380.
Amy Gooding	I don’t have an alternate available. I live right on 380
Angel Drabek	75 and back roads
Angela Drabek	Back roads to 75
Leilani Bonds	Custer
Dona Bewley	I take FM 2933 to Hwy 5. And use Wilmer Road.
Tim White	FM 546
	fm1471, I just try to stay away from 380 altogether

Please provide us with your contact information.	What solutions would you suggest in the US 380 Corridor?
Name	Open-Ended Response
LeighAnn Wood	If any freeway construction occurs on the existing 380 footprint adjacent to Tucker Hill, it MUST impose minimal right-of-way and noise pollution by means of cantilevered access lanes; a depressed throughway; and sound barriers. Also, if any bypass option is chosen, it must be located as far west of Tucker Hill as possible; west of future Stonebridge; NOT ON OR BORDERING TUCKER HILL.
Shaun Foreman	
Thomas Reyes	Adding an additional lane or two?
Debbie Brewer	Adding additional street lights and reducing the speed from Mckinney into Princeton.
Dongho Kim	
Jimi Kim	
Deborah King	
Judy Cota	
Sheila Foster	Construct an elevated highway over the current 380 for people who are not stopping in Princeton. You could have an on-ramp and exit ramp in Farmersville at 78, on-ramp and exit ramp in Princeton off of 982, on-ramp and exit at Bridgefarmer, on-ramp and exit at 75. Kind of like in Austin, how the upper level of 35 is designed.
Jamile Ashmore	Traffic flow and safety improvements on current 380. Fast-track construction of outer loop and other east/west roads (e.g., Wilmeth, Bloomdale, Frontier).
MARSHA	Over/Under at the 75/380 intersection. Widen 380 from McKinney to Denton.
Donald Anderson	Better police presence
Cindy Wade	I think overpasses are good. But really just don't want to deal with construction for several years.
Naomi Boudreaux	
JAY SMITH	widden 380
Tom Hise	A Freeway North of 380, Having 2 good choices is better than 1 or none
Courtney Matz	
emy varghese	
Sandra Graham	
Amy Bendik	Tucker Hills position is NO to all alignments due to potential loss of homes and devaluation of neighborhood as a whole and adverse environmental health implications. Notwithstanding our recommendation, of any freeway construction occurs on the existing footprint adjacent to Tucker Hill, it must impose minimal right-of-way and noise pollution by means of cantilevered access lanes; a depressed thoroughway; and sound barriers. It must be located as far west of Tucker Hill as possible, west of future Stonebridge, not on bordering Tucker Hill.
Amy Gooding	
Angel Drabek	
Angela Drabek	
Leilani Bonds	
Dona Bewley	
Tim White	northern bypass
	I dont see any good alternatives, my suggestion is you develope the outer loop to releive congestion

Please provide us with your contact information.	Do you support the building of a freeway regardless of alignment?
Name	Open-Ended Response
LeighAnn Wood	Absolutely NO!! Tucker Hill's position is NO to all alignments due to potential loss of homes and devaluation of our neighborhood as a whole and adverse environmental and health implications.
Shaun Foreman	
Thomas Reyes	NO. If a freeway is not aligned with the current location, I am against it.
Debbie Brewer	No
Dongho Kim	
Jimi Kim	
Deborah King	NO....
Judy Cota	No
	no
Sheila Foster	Yes.
Jamile Ashmore	No
MARSHA	Yes; however, I do not support another toll road. The 3 we have is sufficient
Donald Anderson	No
Cindy Wade	Undecided. I don't live in the area that would be affected. But would like a straight shot to work. Definitely no tolls though.
Naomi Boudreaux	
JAY SMITH	yes
Tom Hise	Yes
Courtney Matz	
emy varghese	
Sandra Graham	no
Amy Bendik	
Amy Gooding	No
Angel Drabek	No
Angela Drabek	No
Leilani Bonds	No
Dona Bewley	
Tim White	yes
	no

Please provide us with your contact information.	If US 380 is constructed as a freeway, which alignment do you prefer? (select all that apply)

Please provide us with your contact information.	Do you have any concerns with the existing US 380?
Name	Open-Ended Response
Andy reitinger	Congestion
Margaret ONeal	
Debbie Stephan	Soeeds are too fast in Mckinney
Christine Stephan	Speeds are too fast between tollway and 75
Kim Carmichael	
Carol Schmidt	Unsafe, needs median barriers
Sammy W. Bock	
Chakosha Powell	The amount of traffic, the speeding cars and the amount of u-turns required.
Steve Palomino	None between Custer and Community that I drive everyday. I think the overpass at Preston is ridiculously complicated and expensive. The traffic going west toward Denton is crazy.
Cathy Weatherly	Congestion and dangerous
Erin Larew	
Leslie Roddy	The build of of traffic, the range of speed limits from low to high, back to low, etc., the visibility of turning onto 380 from an interesecrion, the short to no turning lanes in certain areas, traffic light timing
Edward Sommer	TRUCKS & Traffic signals that are NOT synchronized I in order to keep the traffic moving.
Patricia Morgan	Heavy construction trucks, heavy traffic flow, accidents several times s week.
Katherine Morgan	Heavy traffic, car accidents, traffic flow
Jack powers	Crowding
Jennifer Gray	
Matt Watson	The future growth of McKinney will make traffic on this road very heavy.
Amra Ljubijankic	

Please provide us with your contact information.	If US 380 is congested, what alternative routes do you take?
Name	Open-Ended Response
Andy reitinger	Back roads north of 380
Margaret ONeal	Hyway 5 to 121
Debbie Stephan	Eldarado
Christine Stephan	Eldarado
Kim Carmichael	We do not have congestion in our area. Custer is a good close alternative for traveling south.
Carol Schmidt	
Sammy W. Bock	
Chakosha Powell	Stonebridge/Virginia pkwy
Steve Palomino	
Cathy Weatherly	Lake Forest, Ridge
Erin Larew	
Leslie Roddy	I can't bypass 380 due to the location of my kids schools.
Edward Sommer	Virginia Pkwy
Patricia Morgan	
Katherine Morgan	
Jack powers	75 to other east/west routes
Jennifer Gray	
Matt Watson	Hardin to Virginia or Eldorado
Amra Ljubijankic	

Please provide us with your contact information.	What solutions would you suggest in the US 380 Corridor?
Name	Open-Ended Response
Andy reitinger	Bypass
Margaret ONeal	380 a freeway
Debbie Stephan	Widen all sections to 6 lanes and over pass at tollway. Then build the wider collin loop. You already have 121 to the south.
Christine Stephan	Overpasses similar to preston rd at major intersections.
Kim Carmichael	Tucker Hill's position is NO to all alignments due to potential loss of homes and devaluation of our neighborhood as a whole and adverse environmental and health implications. Notwithstanding our recommendation, if any freeway construction occurs on the existing 380 footprint adjacent to Tucker Hill, it must impose minimal right-of-way and noise pollution by means of cantilevered access lanes; a depressed throughway; and sound barriers. Also, notwithstanding our recommendation, if any bypass option occurs, it must be located as far west of Tucker Hill as possible; west of future Stonebridge; not on or bordering Tucker Hill.
Carol Schmidt	Bleed most of the traffic off by spur towards 121 toll way
Sammy W. Bock	
Chakosha Powell	Not sure I have suggestions besides more lanes
Steve Palomino	Make a bypass north, from DNT to 75. Land should have been purchased for this long ago, but now it's going to have to be a bit further north than what's best. Something going from 380 and DNT diagonally up to 75, through Irwin Park would work, but I think you were to slow in buying land.
Cathy Weatherly	Make 380 into a highway
Erin Larew	
Leslie Roddy	Even the road in the low visibility areas (turning onto 380 after an incline/hill. Allow for longer ramps to merge onto 380 at the hills where visibility is low, widen it to at least 6 lanes (3 on each side), make turning lanes longer and more accessible to merge into before having to slow down to turn, slow speeds down and keep them uniform through the areas of high concentration of stop lights. Post more traffic signals where stop signs are, especially at the top or after the decline of a hill and place lights up high so people traveling up the incline can see, post more warning signs through the stretch of 380 being considered for construction,
Edward Sommer	Sync the lights, enforce truck traffiic,
Patricia Morgan	Tucker Hill's position is NO to all oalignments due to potential loss of homes and devaluation of our neighborhood as a whole and adverse environmental and health implications. Notwithstanding our recommendation, if any freeway construction occurs on the existing 380 footprint adjacent to Tucker Hill, it must impose minimal right-of-way and noise pollution by means of cantilevered access lanes; a depressed throughway; and sound barriers.
Katherine Morgan	Tucker Hill's position is NO to all alignments due to potential loss of homes and devaluation of our neighborhood as a whole and adverse environmental and health implications. Notwithstanding our recommendation, if any freeway construction occurs on the existing 380 footprint adjacent to Tucker Hill, it must impose minimal right-of-way and noise pollution by means of cantilevered access lanes; a depressed throughway; and sound barriers.
Jack powers	
Jennifer Gray	
Matt Watson	Divided highway in Prosper and Frisco when possible and in McKinney, loop from Custer to Bloomingdale.
Amra Ljubijankic	

Please provide us with your contact information.	Do you support the building of a freeway regardless of alignment?

Please provide us with your contact information.	Do you have any concerns with the existing US 380?
Name	Open-Ended Response
Dolisa Douthitt	
Ron Jones	Yes. Very congested and a lot of accidents.
Matthew Linnenburger	Traffic is heavy, and with commercial and residential developments in work, it will only get worse.
Matt Fisher	Traffic near 75.
Christopher Trinkle	Congestion
Anand Pandey	Construction
Danny Stillman	Tucker Hill's position is NO to all alignments due to potential loss of homes and devaluation of our neighborhood as a whole and adverse environmental and health implications. Notwithstanding our recommendation, if any freeway construction occurs on the existing 380 footprint adjacent to Tucker Hill, it must impose minimal right-of-way and noise pollution by means of cantilevered access lanes; a depressed throughway; and sound barriers. Also, if any bypass option is chosen, it must be located as far west of Tucker Hill as possible; west of future Stonebridge; not on or bordering Tucker Hill.
Chuck Colberg	
Lisa Burns	Worsening traffic congestion
Andi Wilk	Left hand turns
Robert midkiff	No
Gary Sanders	No
	Not really
Julie blankenship	Very busy and thru trafgic
Siva Mikkilineni	It is going to get congested
James Fish	18-wheeler traffic
James Fish	Too many 18-wheelers
Joan Fish	18-wheelers need to be banned if they have no business on 380

Please provide us with your contact information.	If US 380 is congested, what alternative routes do you take?
Name	Open-Ended Response
Dolisa Douthitt	Have to take 380 to exit our community.
Ron Jones	Eldorado, Virginia.
Matthew Linnenburger	White
Matt Fisher	123 to wilmeth
Christopher Trinkle	121
Anand Pandey	I don't have any alternate route
Danny Stillman	Virginia or Eldorado
Chuck Colberg	
Lisa Burns	
Andi Wilk	No real options
Robert midkiff	
Gary Sanders	Airport road to hwy 5 to 75 south, SOUTH
	It isn’t congested
Julie blankenship	Virginia
Siva Mikkilineni	I drive in the east side of 75 and is not congested yet.
James Fish	Stonebridge or Custer to Virginia or El Dorado
James Fish	Custer or Stonebridge to Virginia or El Dorado
Joan Fish	Custer to Virginia or El Dorado

Please provide us with your contact information.	What solutions would you suggest in the US 380 Corridor?
Name	Open-Ended Response
Dolisa Douthitt	Tucker Hill's position is NO to all alignments due to potential loss of homes and devaluation of our neighborhood as a whole and adverse environmental and health implications. Notwithstanding our recommendation, if any freeway construction occurs on the existing 380 footprint adjacent to Tucker Hill, it must impose minimal right-of-way and noise pollution by means of cantilevered access lanes; a depressed throughway; and sound barriers. Also, if any bypass option is chosen, it must be located as far west of Tucker Hill as possible; west of future Stonebridge; not on or bordering Tucker Hill.
Ron Jones	Outer loop. No more expansion of 380.
Matthew Linnenburger	Build out Wilmeth or Bloomdale to go all the way from Custer to 75.
Matt Fisher	Expand and develop 380.
Christopher Trinkle	Pink and Green alignment only
Anand Pandey	Finish up construction.
Danny Stillman	
Chuck Colberg	
Lisa Burns	No stoplights Denton to Mckinney
Andi Wilk	Decrease the traffic west of farmersville
Robert midkiff	By pass west and north of 380
Gary Sanders	Widen the existing 380 and put in an overpass to go SOUTH ON 75. A SOUTH LOOP (the way most people are going) NOT NORTH (the way the fewest people are going) NORTH LOOP ALREADY BEING BUILT
	Go north with wider roads, makes no sense to destroy current development along 380 in McKinney.
Julie blankenship	Keep the same route just have it look like Sam Rayburn do businesses in mckinney aren't bypassed and neighborhood housing not affected
Siva Mikkilineni	Follow a 2 step process - Expand the current highway on both sides & then convert to freeway.
James Fish	Tucker Hill's position is NO to all alignments due to potential loss of homes and devaluation of our neighborhood as a whole and adverse environmental and health implications. Notwithstanding our recommendation, if any freeway construction occurs on the existing 380 footprint adjacent to Tucker Hill, it must impose minimal right-of-way and noise pollution by means of cantilevered access lanes; a depressed throughway; and sound barriers. Also, if any bypass option is chosen, it must be located as far west of Tucker Hill as possible; west of future Stonebridge; not on or bordering Tucker Hill.
James Fish	Ban 18-wheeler through traffic
Joan Fish	Tucker Hill's position is NO to all alignments due to potential loss of homes and devaluation of our neighborhood as a whole and adverse environmental and health implications. Notwithstanding our recommendation, if any freeway construction occurs on the existing 380 footprint adjacent to Tucker Hill, it must impose minimal right-of-way and noise pollution by means of cantilevered access lanes; a depressed throughway; and sound barriers. Also, if any bypass option is chosen, it must be located as far west of Tucker Hill as possible; west of future Stonebridge; not on or bordering Tucker Hill.

Please provide us with your contact information.	Do you support the building of a freeway regardless of alignment?
Name	Open-Ended Response
Dolisa Douthitt	No
Ron Jones	No.
Matthew Linnenburger	No.
Matt Fisher	I am against the Red, blue, and yellow alignments.
Christopher Trinkle	No. Against reb blue and yellow
Anand Pandey	Yes
Danny Stillman	No
Chuck Colberg	
Lisa Burns	Yes
Andi Wilk	Regardless iis a pretty big word
Robert midkiff	No
Gary Sanders	No
	No
Julie blankenship	No
Siva Mikkilineni	Yes.
James Fish	No.
	No
James Fish	No
Joan Fish	No

Please provide us with your contact information.	Do you have any concerns with the existing US 380?
Name	Open-Ended Response
Deborah Maicach	Not really. The only real problem I run into is back up at 75.
Stephanie L Davis	In Creekview Community, I personally seen people trying to turn into 7-11 on the exit (Not the Entrance) side of the road. I have also seen people cutting straight across from Walmart to enter into Creekview for 7-11 and Starbucks. This is just too congested for the entire Creekview Community!
Robert Bailey	Lack of enforcement of speeding and traffic light violations.
Mike Jordan	Access on and off at Teel
Ron Ryan	Yes, to get to US75 from Lake Forest in the morning or evening timeframe is already bad and can't imagine what it will be like in a few more years.
Steve Bouldin	Yes, much of the congestion could be relieved on a short term basis by calibrating the traffic signals. it takes so long to get from Lake Forest to I-75 because traffic has to stop at every light in between
Joseph Hreha	It is dangerous! Trucks pull into traffic without yielding. Constant traffic jams. Lots of accidents around Airport Road.
Allison Clark	Yes! Super congested and uncautious drivers.
Jared Wright	No, but I do not travel the road during peak commute times.
Jeff schmidt	Safety foremost
Steven Lalumandier	
Wilda Pyne	Too many trucks and cars. Very heavy traffic most of the time. With all the new stores opening it is only going to,get much worse. Nobody seems to be planning.
Maryann Kamer	
Vijay Aagi	
Aaron Wright	Too many stop lights. Too congested.
Gary rees	Very crowded.....people use the left lane as the slow lane instead of as a passing lane
Mary Stevenson	Yes! It has been congested for many years.
Jeremy Karlovich	traffic flow. lights are timed.
Lisa Griffin	
Randall Wilkinson	congested, dangerous, and slow
Harlan Stauffer	From Custer to Highway 75 it is a parking lot most of the time
Tracie Moon	Yes too many accidents
Rick Reeder	Not as much as most folks. This is a fast-growth area, and I'd rather drive 380 than Hwy. 75 or 121.

Please provide us with your contact information.	If US 380 is congested, what alternative routes do you take?
Name	Open-Ended Response
Deborah Maicach	White, Wilmeth, Virginia
Stephanie L Davis	There are no alternative routes!
Robert Bailey	CR 466 and FM 1377 and connecting roads
Mike Jordan	First street to either Coleman or Preston or Fishtrap to Fm423
Ron Ryan	I usually take the back roads north of hwy380
Steve Bouldin	
Joseph Hreha	Tarvin to 1827 to 2933 to 331 to mcyntire to 5 to wilmeth.
Allison Clark	White.
Jared Wright	Virginia Parkway
Jeff schmidt	Via Lowrey crossing or through Princeton
Steven Lalumandier	
Wilda Pyne	Wilmeth or White but they are only a partial solution.
Maryann Kamer	
Vijay Aagi	
Aaron Wright	Virginia or 1461 if practical.
Gary rees	White ave. Va.Pkwy. eldorado
Mary Stevenson	Any I can find.
Jeremy Karlovich	Panther Creek to Tollway to Rockhill.. and vice versa
Lisa Griffin	North and south streets
Randall Wilkinson	No alternate routes currently available that are useful
Harlan Stauffer	south to Virginia and take it east
Tracie Moon	I don’t
Rick Reeder	It depends on where the congestion is. If it's in McKinney, I take back streets until I pass the congested area.

Please provide us with your contact information.	What solutions would you suggest in the US 380 Corridor?
Name	Open-Ended Response
Deborah Maicach	Overpass 75
Stephanie L Davis	Move the exit from Walmart from directly across from the Creekview Community to further down the Walmart Parking lot!
Robert Bailey	TX 78 upgrades would help especially from HWY 121 South to Garland Monte Carlo extension around Princeton is okay except for school area NW of town Roadways around the new Collin County CC will have to be improved and would help if these improvements tied into TX 78 at both ends looping around the new school. Limited traffic access medians need to be considered in Princeton and Farmersville. Businesses hate them but they definitely have helped everywhere I've experienced them.
Mike Jordan	
Ron Ryan	Stop the city of McKinney from issuing more building permits along hwy380 and make plans to widen the current road.
Steve Bouldin	I believe TX Dot should step up the completion date of the Collin County Outer Loop and force traffic that is going to Greenville on the Loop and maintain a traffic flow on 380 at a slower speed limit. Also, revamp 380 to be a freeway
Joseph Hreha	A closed access loop to the north from west side of lake lavon to somewhere a few miles west of 75. Like the yellow plan.
Allison Clark	
Jared Wright	Utilizing existing right of way where possible to minimize both land purchase and total maintenance costs.
Jeff schmidt	Widen existing, ramp over 1827 intersection and turn northwest west toward 75
Steven Lalumandier	
Wilda Pyne	Make 380 a freeway with access roads and no signal lights.
Maryann Kamer	
Vijay Aagi	
Aaron Wright	Overpasses over the major intersections and access roads rather than re-routing.
Gary rees	Hov lane. Double decking. Widening..
Mary Stevenson	Underground freeway or toll road that pays off the road and then provides maintenance. Provide for disabled, elderly and/or poor or biz commuters by providing rail or subway. Provide for bicycles so that they can get across the road and not impede traffic. Trade Days traffic and noise is unacceptable. Neighborhoods along 380 will need noise barrier fencing.
Jeremy Karlovich	To be done quick and done right the first time!
Lisa Griffin	
Randall Wilkinson	Expand 380 or double deck (like in Frisco)
Harlan Stauffer	Get it widened and have fewer traffic lights
Tracie Moon	Create an outside loop.
Rick Reeder	Widen the existing corridor. It already exists, so creating a new route sounds defeating to me. With all the fast growth, even a new route will become congested without proper widening, etc. So leave the route where it is and work on improving it.

Please provide us with your contact information.	Do you support the building of a freeway regardless of alignment?
Name	Open-Ended Response
Deborah Maicach	No
Stephanie L Davis	No, Too congested as it is and the freeway will make it much worse for Creekview residents!!!!
Robert Bailey	A freeway would be great but can it be afforded and how long would it take?
Mike Jordan	Yes
Ron Ryan	No, I do not favor a bypass around the current 380 route.
Steve Bouldin	Yes as long as it does not displace any homeowners of their houses or property. The red, blue and yellow plans seem to do that. Again, the solution is dual - revamp 380 as much as possible and step up on the completion of the Collin County Outer Loop forcing much of the through traffic around McKinney.
Joseph Hreha	No, I would not consider alignment with the current 380 as being a viable plan. 380 should become a business route instead of a thru-way.
Allison Clark	Noooooo!
Jared Wright	No.
Jeff schmidt	Yes
Steven Lalumandier	
Wilda Pyne	It should follow the current route and widen as necessary.
Maryann Kamer	
Vijay Aagi	
Aaron Wright	No
Gary rees	NO.....and especially NO TOLL roads...380 should be a freeway
Mary Stevenson	Don't like the idea of bypasses through Mckinney and princeton. We will have an outer loop. That will be the bypass needed. People don't want their homes/farms ripped up and more than necessary and I agree. We need to maintain the "unique by nature" aesthetic as much as possible. That's why underground is my idea to provide the needed expansion and keep it out of direct sight with minimal adjustment for families and biz.
Jeremy Karlovich	yes!!
Lisa Griffin	Yes
Randall Wilkinson	Yes
Harlan Stauffer	yes
Tracie Moon	No
Rick Reeder	No. Building a freeway can be very invasive to property owners; To me, the best choice is to improve what is current rather than create a whole new "highway" when one already exists.

Please provide us with your contact information.	If US 380 is constructed as a freeway, which alignment do you prefer? (select all that apply)

Please provide us with your contact information.	Do you have any concerns with the existing US 380?
Name	Open-Ended Response
Cathy Feagin	I have no problem at with the existing US 380.
Jean Allen	Can back up near FM 1827 and Airport. Lots of accidents and too many people run the red light at 1827 especially large trucks. Our end of 380 isn't too bad but it's treacherous west of the DNT.
Reggie Jones	Overcrowded and stop lights make for a long congested commute to Sam Rayburn Tollway
Louise Daley	It is a very dangerous highway. Have witnessed at least two fatalities in 7 years.
Neil Baker	
Beau Lollar	Too many lights, too much truck traffic, insufficient shoulders & turn lanes, and cannot handle the current traffic much less continuing growth to the region.
Frank Bures	Yes, getting more congested especially at the Hardin Road intersection
Rebecca Zottneck	No. It is sometimes congested, but not horribly.
Jaimee Baker	Traffic near I 75
Lee Adami	
shanna davis	Therea no median. People use the turn lane as a 3rd lane and drive it for up to a mile just to get go their turn which causes wrecks. Princeton is too congested
Jill Dinges	People approaching signal lights too fast or not paying attention when a light changed
JOSHUA G LEE	No
shanna davis	No median and people use the turn lane as a 3rd lane which causes accidents. It's too congested in Princeton
Jim Grounds	Reroute truck traffic.
Paula Murdock	speed, safety due to no turn lanes into neighborhoods and businesses.
Brian Barello	too congested in the afternoon and evenings. Speed limit too high. should be 45
Heather Powell	Noise control, traffic issues within Prosper
Renee Powell	
Brian Barello	Highway in the evening in Princeton is always backed up and its only getting worse
Heather Powell	Just to improve the path between Preston and Dallas toll as quick as possible because the back up is a major problem daily
Shannon Blake	
Jennifer Baxter	No - you guys picked great possible routes.
Darla I Hopson	Speeding
Sherry Brumley	Traffic and safety
JAMES H FOY	Congestion
Rick Justiss	
Lindy Jones	No
Harold W Kinamon	Dangerously overcrowded
Tony Gray	It will get worse before it gets better.

Please provide us with your contact information.	If US 380 is congested, what alternative routes do you take?
Name	Open-Ended Response
Cathy Feagin	Different way's to drive through the country.
Jean Allen	Sam Rayburn tollway, neighborhood streets through McKinney and Frisco.
Reggie Jones	None!
Louise Daley	I try to never to. Be on 380 during peak times.
Neil Baker	
Beau Lollar	Prosper Trail, Virginia Parkway, Eldorado Parkway, & 121
Frank Bures	
Rebecca Zottneck	
Jaimee Baker	Community ave, wilmeth
Lee Adami	
shanna davis	Monte Carlo or the back way thru New Hope
Jill Dinges	Virginia Pkwy
JOSHUA G LEE	Eldorado
shanna davis	Monte Carlo or the back way around thru New Hope
Jim Grounds	Virginia Parkway or Eldorado
Paula Murdock	if going to 75...none
Brian Barello	4th street, 982 and other Princeton town roads
Heather Powell	First, prosper trail and frontier pkwy
Renee Powell	
Brian Barello	I take 4th street to Monte Carlo , going into Plano, Mckinney I take 982
Heather Powell	First Street, prosper trail or frontier pkwy
Shannon Blake	
Jennifer Baxter	Weston Road to 75
Darla I Hopson	Eldorado
Sherry Brumley	Virginia
JAMES H FOY	TX 78
Rick Justiss	
Lindy Jones	
Harold W Kinamon	Various
Tony Gray	Not many options from Farmersville to McKinney

Please provide us with your contact information.	What solutions would you suggest in the US 380 Corridor?
Name	Open-Ended Response
Cathy Feagin	Leave 380 itself alone & build a Corridor around somewhere else. I live in Farmersville Tx & I like my small country town. Wanta it to stay this way.
Jean Allen	Make it a proper highway with over/underpasses.
Reggie Jones	New roads, widening,
Louise Daley	Widen 380 and build overpass over 75.
Neil Baker	
Beau Lollar	Remove stop lights. Direct connectors to all major grade-separated highways (DNT, I35, Loop 288, & 75). Direct connectors where necessary for other major intersecting roads (420, 289, Custer, 78, 377, 720). Direct route should've been set aside 20-30 years ago like 82 is up north. 380 should continue as a grade separated highway from US 287 in Decatur to I-30 in Greenville.
Frank Bures	360 needs to be mad a freeway on the existing freeway on the existing roadway
Rebecca Zottneck	
Jaimee Baker	
Lee Adami	
shanna davis	A median, it'll force people to wait to turn when they need to. Need to feel safe to make a left or right turn without the fear of getting hit
Jill Dinges	Removing signals for more of a freeway style road
JOSHUA G LEE	Widening the existing roadway.
shanna davis	Median, forcing people to wait until they get to where they need to turn. To be able to turn left or right without fear of getting run into
Jim Grounds	Do what you're doing and work on a bypass.
Paula Murdock	a by pass but not on the original 380 road. the yellow and blue options are the most logical.
Brian Barello	expand it to 6 lanes but dont change the direction
Heather Powell	
Renee Powell	
Brian Barello	leave it alone but make it 6 lanes and make the lights in the evening more friendly to traffic. 2nd street in Princeton seems to be a major traffic jam
Heather Powell	
Shannon Blake	
Jennifer Baxter	Alignment 3
Darla I Hopson	Widen 380, make overpasses at lighted intersections, would be happy to pay toll to save our northern neighborhoods and trees
Sherry Brumley	New freeway bypass
JAMES H FOY	Add Freeway
Rick Justiss	
Lindy Jones	Expand the current road at 380/75. Everything ele has already been expanded.
Harold W Kinamon	Widen
Tony Gray	Loop around.

Please provide us with your contact information.	Do you support the building of a freeway regardless of alignment?
Name	Open-Ended Response
Cathy Feagin	FREEWAY???? I don't want a FREEWAY anywhere near my little country town of Farmersville. I was born here & ain't leaving.
Jean Allen	I do not like rerouting the existing 380 up north. I'm not interested in looping around the city.
Reggie Jones	Yes
Louise Daley	No
Neil Baker	
Beau Lollar	Yes! This should already be set aside with the frontage roads in place like 121 was years ago. Then the highway would be easy to build. Some people may be mad but this must be done for the greater good of the region.
Frank Bures	Would prefer to see the freeway on the existing roadway
Rebecca Zottneck	No
Jaimee Baker	
Lee Adami	Yes
shanna davis	Not sure....but something needs to be done
Jill Dinges	No
JOSHUA G LEE	No
shanna davis	Not sure....but i know something needs to be done
Jim Grounds	Yes.
Paula Murdock	only alignment is the blue and yellow
Brian Barello	no, depends on alignment
Heather Powell	No if it's going to affect the roads close to Prosper. We were told when we bought in Prosper that 380 alignment would not affect our neighborhood of Whitley Place. I am concerned that things are changing now so yes I am very concerned.
Renee Powell	
Brian Barello	NO.
Heather Powell	Yes
Shannon Blake	
Jennifer Baxter	Yes
Darla I Hopson	NO
Sherry Brumley	Yes
JAMES H FOY	yes
Rick Justiss	No
Lindy Jones	No
Harold W Kinamon	Yes
Tony Gray	Yes

Please provide us with your contact information.	If US 380 is constructed as a freeway, which alignment do you prefer? (select all that apply)

Please provide us with your contact information.	Do you have any concerns with the existing US 380?
Name	Open-Ended Response
Harold W Kinamon	Very dangerously overcrowded.
Kevin Voigt	Specifically 380 and 75 need the improvements.
Karla Tripp	Congestion, trucks, need more turn lanes
Emily Hornsby	Not particularly
Randy Waguespack	Yes light timing is not good near 75
john powell sr	It is a hazard.
Kandace OToole	
Suresh Kumar	Too many stop lights.
David Bruce	Yes too much traffic
	No
Kenneth ferguson	Idiots driving to wreakless and the center turn lane
Briah Nunn	
Robin Weissflog	Yes, with all of the construction of businesses and new homes, the traffic is horrible!
Kelly Broussard	It needs to be wider and faster.
Alyssa Taylor	
Amber Payne	
Jennifer Patrick	Traffic congestion at intersection of 380 & 75, and continuing congestion east of 75 to Princeton
Terri McDaniel	no
Lou Gehm	I Don't mind traveling 380 to the tollway or 75. If I were traveling further to the west, I would choose an alternate route
Connie Ener	Too many wrecks in Princeton between Bridge Farmer Road to east of the High School; congestion at 982 & 380 traffic signal.
Leahanne Coats	Too many stop lights
Ashley Jones	
Norm Heersink	Explosive population growth area.
Sybil Sheppard	The existing 380 runs directly behind my house. There is a "soundwall", but it insufficient. Also, it is extremely dangerous with people driving 60-70mph, mixed with slow-moving large trucks. Makes for a disaster.
Kati Bass	
Jared Bizzell	No
Beth Malakoff	No
Laura Swiecki	
Michael Orpen	
Amna Mahmood	Not in particular
Michael Hernandez	Stop lights and retail popping up causes more congestion

Please provide us with your contact information.	If US 380 is congested, what alternative routes do you take?
Name	Open-Ended Response
Harold W Kinamon	Various
Kevin Voigt	Many east/west arterials and wish we had a few more.
Karla Tripp	Wilmeth road
Emily Hornsby	El Dorado
Randy Waguespack	El Dorado Parkway
john powell sr	FM 546 to Bridgefarmer rd
Kandace OToole	Virginia or El Dorado
Suresh Kumar	Sit through traffic.
David Bruce	
	No
Kenneth ferguson	Fm546
Briah Nunn	
Robin Weissflog	
Kelly Broussard	75 to 121
Alyssa Taylor	
Amber Payne	
Jennifer Patrick	Bloomdale/Wilmeth or White St.
Terri McDaniel	McIntyre/1827
Lou Gehm	121, Virginia Pkwy, or North on Custer then east or west
Connie Ener	Back way to McKinney by McKinney Airport
Leahanne Coats	None. There is no efficient alterative
Ashley Jones	
Norm Heersink	121
Sybil Sheppard	Virginia or Eldorado Parkways
Kati Bass	121
Jared Bizzell	Not congested unless there is construction or an accident. I find 380 going west to Denton has the heaviest traffic because you go from 6 lane to 4 lane highway.
Beth Malakoff	121 or roll road
Laura Swiecki	Highway 121
Michael Orpen	
Amna Mahmood	RD123 and Prosper Trail
Michael Hernandez	N/A, just pick travel time

Please provide us with your contact information.	What solutions would you suggest in the US 380 Corridor?
Name	Open-Ended Response
Harold W Kinamon	Widen existing right of way.
Kevin Voigt	Finally build the already approved and planned for Outer Loop. Much I35 north traffic would use the Outer Loop taking significant pressure off 380 for freight transit. This option better supports the northwest sector growth which is a major growth contributor for McKinney. How does a bypass returning traffic to 380 help the growing NW sector? Build the Outer Loop!
Karla Tripp	More turn lanes, freeway
Emily Hornsby	Make it more of a "Main Street" with urban, multi-use development. We need public transportation options!
Randy Waguespack	Widen and change light timing
john powell sr	Extend 121 to Princeton
Kandace OToole	Expand 380
Suresh Kumar	Bypass for through traffic from DNT to Princeton.
David Bruce	using the existing loop that is under development...land is already purchased and should be finished
	Flyover on 380 itself
Kenneth ferguson	Speed isn't the issue it's the way people drive more law enforcement in in marked cars and issuing tickets
Briah Nunn	
Robin Weissflog	
Kelly Broussard	Upper deck of 380 for express travel
Alyssa Taylor	
Amber Payne	
Jennifer Patrick	Flyovers at major intersections similar to 380 & Preston Rd. (289) and complete the outer loop.
Terri McDaniel	elevated bypass over existing highway
Lou Gehm	Bigger Better east/roads in Prosper and McKinney north of 380
Connie Ener	Build a By-Pass similar to what was done in Midlothian, TX many years ago.
Leahanne Coats	Freeway in place of existing highway. Bypass for stoplights
Ashley Jones	
Norm Heersink	A parallel route between 380 & 82.
Sybil Sheppard	A North outer loop between DNT and 75
Kati Bass	
Jared Bizzell	Widen 380 from Denton county line to Denton.
Beth Malakoff	Make Highway that connect Celina and Melissa
Laura Swiecki	Keep 380 on 380 - NO bypass
Michael Orpen	
Amna Mahmood	Fix 380 on 380
Michael Hernandez	

Please provide us with your contact information.	Do you support the building of a freeway regardless of alignment?
Name	Open-Ended Response
Harold W Kinamon	Yes
Kevin Voigt	Fix 380 on 380. The impact the business is temporary. History shows infrastructure improvements like this ultimately benefit those businesses. You cannot displace homeowners permanently.
Karla Tripp	no
Emily Hornsby	Absolutely not. A freeway will destroy Old Town McKinney. The reason there has been such a popular resurgence down there is because it is NOT part of the freeway storm that is North Dallas. Walking, trolleys, biking... all of these things are integral to daily life down there. A freeway will not solve the problem. It will exacerbate the issue.
Randy Waguespack	Maybe
john powell sr	yes
Kandace OToole	No
Suresh Kumar	No, freeway should be on the North.
David Bruce	Yes as long as it takes the route of effecting the least amount of land/home owners!
	On 380 yes
Kenneth ferguson	Just widen one that's there
Briah Nunn	
Robin Weissflog	
Kelly Broussard	Yes
Alyssa Taylor	
Amber Payne	No
Jennifer Patrick	absolutely not. If there HAS to be a freeway, I support pink or green only. 1 100% oppose all bypass alignments.
Terri McDaniel	no
Lou Gehm	No
Connie Ener	380 should be a limited access highway from Denton to Hunt County, even if it's stacked over the current 380 footprint.
Leahanne Coats	If the route is closely aligned enough to the existing highway to make up the time with the speed limit increase then yes
Ashley Jones	
Norm Heersink	It depends.
Sybil Sheppard	No
Kati Bass	
Jared Bizzell	No
Beth Malakoff	No
Laura Swiecki	I support the building of a freeway on the pink and green alignments only
Michael Orpen	Yes
Amna Mahmood	NO
Michael Hernandez	Yes

Please provide us with your contact information.	If US 380 is constructed as a freeway, which alignment do you prefer? (select all that apply)

Please provide us with your contact information.	Do you have any concerns with the existing US 380?
Name	Open-Ended Response
Eric Cullum	
Brian Bizzell	Yes, all of US 380 needs to be 6 lane in Denton County to 75. DNT and 380 should have cloverleaf on/off ramps.
Gil Brice	Traffic west of 75 is getting worse.
Michelle Seyl	
Christopher Giese	None right now. Too many stop lights in the future once traffic gets worse.
rick hiatt	yes
Jerry Bradley	Too congested
Jessica Alteeman	
Amy H	
Michele Foster	
Laura Gomez	the safety
David Nelke	Needs to be widened
Stormy Scott	Congested and slow
Valerie Fitzau	Current US380 alignment is capable of accommodating the volume of traffic with some improvements.
Erin Lorance	
Frank Etier	Congestion, Traffic Light Timing, Safety, Future ability to meet traffic load.
Ernest Clayton	
Michael	congested, to many signals, dangerous with people pulling out in front not yielding right of way
Andrew Malakoff	No
Leahanne Coats	
Jeff Vasquez	no
Bryan Ryder	No.
David Ryder	No
Joley Payne	Through Princeton to McKinney there are several areas where it is dangerous to cross 380 because of speed or inability to see oncoming traffic.
Julie Ryder	Speed is more of a problem than traffic. If you leave earlier or later you can avoid traffic congestion.
Tracy Bailey	
Shanda Smith	
Shawn Harmon	Yes, increased traffic and new businesses

Please provide us with your contact information.	If US 380 is congested, what alternative routes do you take?
Name	Open-Ended Response
Eric Cullum	
Brian Bizzell	I've never had an issue of 380 being congested except for when construction is going on due to growth.
Gil Brice	Sometimes, Virginia.
Michelle Seyl	
Christopher Giese	Eldorado or Sam Rayburn Tollway
rick hiatt	East bound to my residence - Harding/Wilmeth West Bound to my residence - Hwy 5/Wilmeth or Bloomdale
Jerry Bradley	not many good alternatives
Jessica Alteeman	Eldorado or 121
Amy H	
Michele Foster	
Laura Gomez	I stick to 380 but will turn on Ridge or Hardin depending on which way I am headed
David Nelke	Depends on where at on 380. Numerous reroutes available.
Stormy Scott	Virginia parkway
Valerie Fitzau	My primary alternate route is via El Dorado.
Erin Lorance	
Frank Etier	White Ave. Custer Rd South. Coit Rd South.
Ernest Clayton	
Michael	None, there's not an alternative
Andrew Malakoff	Toll roads south
Leahanne Coats	
Jeff Vasquez	other side streets
Bryan Ryder	White Ave., El Dorado
David Ryder	White Ave, El Dorado
Joley Payne	545 through Melissa and Blue Ridge, Monte Carlo in Princeton.
Julie Ryder	I avoid travel during peak times. If I travel during peak times I leave earlier to avoid back ups. I use the White Ave exit.
Tracy Bailey	
Shanda Smith	
	Bloomdale/Wilmeth to 75 - mostly because it is beautiful country, Hardin or Lake Forest to Virginia to 75, Prosper Trail to Preston
Shawn Harmon	Virginia to Lake Forest or North Custer to Preston Trail

Please provide us with your contact information.	What solutions would you suggest in the US 380 Corridor?
Name	Open-Ended Response
Eric Cullum	
Brian Bizzell	Build the outer loop from I35 to US75 now instead spending money and time on an awkard loop.
Gil Brice	Turn 380 into a highway like many other major corridors have been transformed in the DFW area.
Michelle Seyl	
Christopher Giese	Build 380 to function similarly to Sam Rayburn Tollway (but no tolls).
rick hiatt	A far North side bypass
Jerry Bradley	Make 380 a Freeway, build bypasses where ever possible
Jessica Alteeman	Farther North. Laid Howell
Amy H	
Michele Foster	
Laura Gomez	Pink and Green alignments
David Nelke	Widen the existing road to match tollway designs
Stormy Scott	
Valerie Fitzau	Focus on building out the outer loop and improving currently existing east-west connectors. ie ...improving traffic flow on US 380.Do not allow approving any more traffic lights. Reduce existing congestion via overpasses at key intersections. Add in more lanes or access routes to existing US 380.
Erin Lorance	Improve the existing 380 without altering the current route and displacing families.
Frank Etier	Limited access bypass of McKinney starting near Custer Road, heading north, and reconnecting with 380 near Airport Road or further East if needed.
Ernest Clayton	
Michael	Limited access and build a new highway from Rockwall to McKinney while staying north of Farmersville allowing the area to prosper
Andrew Malakoff	Freeway connecting prosper to mellisa
Leahanne Coats	
Jeff Vasquez	Expand the highway where it is now, it has been known for many years now that the highway would need to be widened at some point as the city grows.
Bryan Ryder	Widen the existing road. No bypasses
David Ryder	Widen the existing road
Joley Payne	
Julie Ryder	Widen the existing 380, no bypasses.
Tracy Bailey	
Shanda Smith	
	Focus efforts on fixing 380 ON 380, since most of 380 is already commercial. Commercial and retail belong on a freeway...homes do not. Especially when those homes are seized to force a freeway that none of the residents want. Focus on efforts to expedite the OUTER LOOP which would not affect existing homes. Make Wilmeth and Bloomdale 4 lane roads, fine, but neither should be considered for a freeway, thereby destroying many, many homes in the process.
Shawn Harmon	Further north closer to Melissa

Please provide us with your contact information.	Do you support the building of a freeway regardless of alignment?
Name	Open-Ended Response
Eric Cullum	
Brian Bizzell	No
Gil Brice	No. I would not support any freeway that used a path other than the current path of 380.
Michelle Seyl	
Christopher Giese	No
rick hiatt	no
Jerry Bradley	Yes
Jessica Alteeman	Yes
Amy H	
Michele Foster	
Laura Gomez	yes
David Nelke	No... absolutely DO NOT touch the Erwin Park area or other recreational areas along the corridor!!
Stormy Scott	No
Valerie Fitzau	No I do not support building a freeway for any of the proposed alignment options except for enhancements to the current US 380.
Erin Lorance	No
Frank Etier	I do not support a freeway in the current 380 alignment from Custer Road to Airport Road. The disruption to McKinney during construction would be overwhelming.
Ernest Clayton	
Michael	Yes
Andrew Malakoff	No
Leahanne Coats	
Jeff Vasquez	no, I would support expanding 380 in its current route
Bryan Ryder	No.
David Ryder	No
Joley Payne	I support a freeway that will disrupt fewer homeowners and their property
Julie Ryder	I support the widening of existing 380.
Tracy Bailey	
Shanda Smith	
	Absolutely not. Freeway alignment along 380 and the Outer Loop are acceptable. Freeway alignment through existing homes, neighborhoods, and private farm and ranch land are NOT acceptable.
Shawn Harmon	no

Please provide us with your contact information.	If US 380 is constructed as a freeway, which alignment do you prefer? (select all that apply)

Please provide us with your contact information.	Do you have any concerns with the existing US 380?
Name	Open-Ended Response
Tommy Vawter	Congestion and all the stops. It has an enormous number or stop lights for what is suppose to be a freeway.
Samantha Hurst	
Kay Hodges	No
Dustin tarrant	
Crystal Kirsch	
Liz miller	Yes the open median and the speed of traffic.
April Best	The amount of stop lights on my way to work causing backing up. Without these lights I am confident my travel time from McKinney to Denton would be reduced significantly
Wm Scott Withrow	Too much traffic and not managed well. Need to have left lane for passing or something similar.
Sarah Tucker	
Joe McKee	
John Reynolds	Heavy traffic, large trucks make it very dangerous.
Caitlin Skidmore	There is a lot of traffic and as we continue to grow it will only get more congested.
Lindsey Rodriguez	Not enough lanes to allow for the growth that is here and definitely not good enough for future residents. Which could chase away potential residents and frustrate or perhaps cause people to sell. Also I think it might increase accidents and car insurance as well as general unhappiness in an already hellish commute.
Anne lewis	
Bonnie Smith	It's not the road, its the careless drivers.
Katie Townsend	Already very congested between Lake Forest and 75, concerned it is going to become worse.
Ashley Swadley	
Whitney Martinez	Yes, it is congested and feels a bit dangerous with all the traffic and only stop lights.
Wesley Holland	
Daniel Rogers	The roadway needs to be a controlled access highway. The speed limit is too high on the roadway to allow for entrance into private drives. There needs to be a safer alternative design to assist drivers in entering the roadway.
Chasidy Myers	It is too stop and go. There are plenty of lanes so it's not super congested, it just has too many lights.
Grant Brill	Existing roadway does not have a setback that will allow for expansion. Heavy truck traffic and lots of business access makes the road dangerous.
Mary Dellinger	Yes! Canyon Crest Drive, where we live, is a block in from 380...if it is widened, what happens to us home owners?!
Darla I Hopson	Speeding

Please provide us with your contact information.	If US 380 is congested, what alternative routes do you take?
Name	Open-Ended Response
Tommy Vawter	There isn't another choice initially. I may turn off on 720 going west or 423/DNT if I am going into Frisco or other southern destinations.
Samantha Hurst	I do not take another route unless a detour has been set up.
Kay Hodges	I wait on the congestion to clear.
Dustin tarrant	
Crystal Kirsch	
Liz miller	380 because I have no alternative
April Best	I don't. There is no efficient Alternate route that I am aware of that wouldn't take more time. Even while congested.
Wm Scott Withrow	cr 982 on west side of Princeton. Whatever gets me thru north of 380 between Princeton and Farmersville
Sarah Tucker	Virginia
Joe McKee	
John Reynolds	Wilmeth Rd.
Caitlin Skidmore	Virginia
Lindsey Rodriguez	720, 423, 288 or Preston any road going south as this is where all the stuff and jobs are.
Anne lewis	
Bonnie Smith	Hwy 78
Katie Townsend	Virginia or Eldorado
Ashley Swadley	
Whitney Martinez	I take many different back roads to get where I need to go.
Wesley Holland	Monte Carlo Blvd. through Princeton to FM 1377 to FM 2756 to 78 S.
Daniel Rogers	Eldorado
Chasidy Myers	It depends on where I'm going. Sometimes 380 is faster.
Grant Brill	No alternative route available
Mary Dellinger	380 is usually not so congested that I change my route.
Darla I Hopson	Eldorado

Please provide us with your contact information.	What solutions would you suggest in the US 380 Corridor?
Name	Open-Ended Response
Tommy Vawter	I know they take time and a lot of construction but overpasses at the current intersections would help.
Samantha Hurst	More lanes
Kay Hodges	Additional lanes.
Dustin tarrant	
Crystal Kirsch	
Liz miller	Slower speeds and closed medians. Perhaps more lights to slow traffic some
April Best	Bypassing the lights While avoiding a tollway.
Wm Scott Withrow	More lanes and turn lanes. Slower traffic use right lane or a complete new road with limited on/off to get thru traffic moving
Sarah Tucker	More turn lanes.
Joe McKee	
John Reynolds	Widen only.
Caitlin Skidmore	I do think a freeway would be helpful. In McKinney, where the route will affect what seems to be the most already-populated areas, I think the blue or yellow (which is not an option on the next page for McKinney, but I would choose it along with blue) routes would be best. These routes have the smallest effect on current desirable neighborhoods and also keeps the retail that is new and/or under construction that will keep more dollars here in McKinney v. going to Allen or Frisco, etc. for Hobby Lobby, TJ Maxx, etc.
Lindsey Rodriguez	I am not sure I have any as my background isn't in city planning but I hope there are some methods of relief. Perhaps expandin turn lanes going to south bound roads so those staying on 380 aren't bottlenecked by those trying to exit.
Anne lewis	
Bonnie Smith	More traffic lights between McKinney and Lake Lavon since this is where most of the wrecks are happening.
Katie Townsend	Widen it in areas where congestion is largest.
Ashley Swadley	
Whitney Martinez	Of course expansion and a conversion into a possible freeway needs to be considered.
Wesley Holland	
Daniel Rogers	Controlled access highway.
Chasidy Myers	I would suggest to put a few overpasses over some lights like they are doing at 380 and Preston.
Grant Brill	Need to connect the outer loop to Denton and the 35 corridor to reduce traffic, finish Dallas North Tollway expansion all the way to outer loop.
Mary Dellinger	Whatever does happen, I really would like the speed limit to be lowered! From Custer to past Hardin....why we slow down closer to 75 but not by the residences should be addresses. I'm always concerned that I'm going to be rear ended by a too fast moving driver. All subdivisions should have a separate turn in lane....we don't!
Darla I Hopson	Widen 380, charge Toll

Please provide us with your contact information.	Do you support the building of a freeway regardless of alignment?
Name	Open-Ended Response
Tommy Vawter	Yes.
Samantha Hurst	no
Kay Hodges	No. That's part of the reason we moved this far out of Dallas.
Dustin tarrant	
Crystal Kirsch	
Liz miller	Yes
April Best	Yes. If it would save commute time and is still a semi-direct route.
Wm Scott Withrow	Yes if it relieves congestion and handles projected growth
Sarah Tucker	Yes and no. There needs to be a freeway, but I am 100% against the pink and green proposals due to the many neighborhoods and businesses going in on 380 that will help drive the sales tax numbers up for McKinney. Why would we spend millions of dollars bringing Costco and other large corporations into McKinney only to demolish their business a year later?
Joe McKee	
John Reynolds	No.
Caitlin Skidmore	No, not regardless of the alignment.
Lindsey Rodriguez	I haven’t read about it but I suppose I could when I could read more info
Anne lewis	I do not support running huge highways through Lucas and fairview
Bonnie Smith	NO!!!
Katie Townsend	No. I'm not interested in living less than 1 mile from a freeway or being surrounded by construction for the next ??? years.
Ashley Swadley	
Whitney Martinez	No! Even if it is more costly to build, every measure to avoid confiscated private property should be made. You shouldn't have to go through people's house's. I don't support that.
Wesley Holland	
Daniel Rogers	Yes
Chasidy Myers	No
Grant Brill	Yes
Mary Dellinger	Not in a residential area.
Darla I Hopson	NO

Please provide us with your contact information.	If US 380 is constructed as a freeway, which alignment do you prefer? (select all that apply)

Please provide us with your contact information.	Do you have any concerns with the existing US 380?
Name	Open-Ended Response
Kelli Moore	
Justin Velez	75 to Custer Road getting too congested. Businesses are being added without road improvements.
RG	Congestion and lack of barriers - not safe
Laurie Sanmann	
Crystal Weatherly	Dangerous and always congested
	Will become entirely too congested, and dangerous!
Corey thornton	Yes congestion
Chrisy Acuna	Crowded, slow, dangerous, hard to get on/off near 75 & stores
Amanda Mcmullan	I think it would be safer with medians instead of just a middle lane. There are too many deadly accidents and accidents in general.
Chrisy Acuna	Crowded, slow, dangerous, hard to get into surrounding stores
Christopher Ray Scott	No but y'all are coming with good ideas to reduce traffic and make good businesses succeed!
Bob Davis	Too fast for the number of lights
Stacie Spiker	Dangerous
Michael Williams	Need a high speed highway.
Christopher Ray Scott	Just no way into the new shopping complex on Preston, have to make a wrap around on Coit to inter, expected see an outstanding improvement over the next few years. Doing an amazing job bringing more businesses out there, just need to get the highway fixed! Awesome job getting a bridge over Custer and Dallas North Toll way gunna be a big improvement!
Daniel Mostrom	No
Matt Hamilton	Too many lights. Not a highway/freeway.
Wesley Sundarsingh	No
Stephanie Williams	Safety!!!!
Kris Davis	Traffic
L	Heavy traffic and people Who drive under the posted speed and cause others to lane change to much to get around them. Currently avoiding purchasing a home off 380 because of traffic.
Alicia knight	It's already busy enough. Lots of traffic through a supposed to be small, country town.
Sandra	Traffic
Cody	Too congestive and people travel too fast
Megan Cummings	
Adam Margherio	
Chris Davis	None at this time
Kenzie	Scary road

Please provide us with your contact information.	If US 380 is congested, what alternative routes do you take?
Name	Open-Ended Response
Kelli Moore	
Justin Velez	Custer Rd.
RG	Fish Trapneeds
Laurie Sanmann	
Crystal Weatherly	Lake Forest
	Eldorado Custer to Hwy 121
Corey thornton	There aren't many alternatives from Farmersville to west mckinney
Chrisy Acuna	Wilmeth to N Community White Hardin
Amanda Mcmullan	Bridge farmer
Chrisy Acuna	Wilmeth to the N Community
Christopher Ray Scott	I take the main roads Custer independence Coit Preston or 720
Bob Davis	El dorado
Stacie Spiker	
Michael Williams	
Christopher Ray Scott	Custer, Coit, Preston, Independence or F.M 720.
Daniel Mostrom	Never have issues with congestion
Matt Hamilton	Ouch. Not really one
Wesley Sundarsingh	Custer road
Stephanie Williams	
Kris Davis	Preston road
L	From where I am traveling there really aren't any other options.
Alicia knight	Bridgewater road to allen/fairview
Sandra	Back roads
Cody	Rock hill
Megan Cummings	
Adam Margherio	
Chris Davis	White Ave which is very rarely traveled
Kenzie	

Please provide us with your contact information.	What solutions would you suggest in the US 380 Corridor?
Name	Open-Ended Response
Kelli Moore	
Justin Velez	Make 75 to N. Tollway a freeway.
RG	Needs a thoroughfare freeway without traffic lights from Hwy 75 to Hwy 35
Laurie Sanmann	
Crystal Weatherly	
Corey thornton	As Princeton and Farmersville grow .. too many lights ... need an hov or elevated roadway to bypass the lights
Chrisy Acuna	Make it a raised freeway with limited access Keep current location DONT destroy Erwin Park! That is a precious, irreplaceable resource
Amanda Mcmullan	Medians, more lanes, more lights.
Chrisy Acuna	Make it a raised freeway with service roads
Christopher Ray Scott	Have two turn lanes for both sides and make more bridges on busy streets to reduce traffic, possibly make tunnels for miles to have more traffic. Make those toll roads to bring in more ideas and strategics. Should make 380 a toll way all the way through. Could also reduce alot of traffic, save lives, and alot of money in the long run.
Bob Davis	More dense urban planning and reasonable mass transit options
Stacie Spiker	
Michael Williams	Leave Erwin park alone.
Christopher Ray Scott	Have two turn lanes for the right side instead of one. Have shorter lights to decrease back ups, make it even. Also depends on which light. Preston and Custer last 3 seconds so not that short. Maybe a minute for each light make it worth the wait, but not too long. Also, do more green arrows for turn lanes, yeile lights are a waste with consistent traffic, I waited 3 lights on Custer I was backed up so far.
Daniel Mostrom	
Matt Hamilton	New path to the north
Wesley Sundarsingh	
Stephanie Williams	
Kris Davis	Add more lanes
L	Take a northern route route from East Princeton and go west as far as possible before reconnecting with 380
Alicia knight	Leave as a 4 lane, heading out of town kind of road. Not a major industrialized, "next frisco" congested freeway.
Sandra	More lanes. Different exits
Cody	Build a highway 4-5 miles North. Less lights on 380.
Megan Cummings	
Adam Margherio	
Chris Davis	Limit growth to McKinney. Getting as big as you can as fast as you can is not healthy to a city. The future traffic and school problems can be limited by having responsible growth instead of this race to big numbers. Ask yourself why 300k ppl in McKinney is your goal. Really...ask yourself.
Kenzie	

Please provide us with your contact information.	Do you support the building of a freeway regardless of alignment?
Name	Open-Ended Response
Kelli Moore	
Justin Velez	Yes, except do not create a bypass. Fix 380. Make McKinney responsible.
RG	Not sure what this question means?
Laurie Sanmann	
Crystal Weatherly	No
Corey thornton	Yes
Chrisy Acuna	Not regardless, no. No blank slate but Yes, it needs to improve and it will cost $
Amanda Mcmullan	
Chrisy Acuna	Not sure what you mean “regardless of alignment”. It needs to be a freeway w/o lights and safer entrance/exit.
Christopher Ray Scott	Yes
Bob Davis	No
Stacie Spiker	Don't build over Erwin park. Its so busy here we need spots where we can appreciate nature, take our children, where wild life can live. In a Republican but I still feel we need these great spots.
Michael Williams	So long as Erwin park isn’t impacted.
Christopher Ray Scott	You have my respect!
Daniel Mostrom	No
Matt Hamilton	Yes
Wesley Sundarsingh	No
Stephanie Williams	
Kris Davis	
L	Yes
Alicia knight	Yes
Sandra	Yes
Cody	Yes
Megan Cummings	
Adam Margherio	
Chris Davis	No
Kenzie

Please provide us with your contact information.	Do you have any concerns with the existing US 380?
Name	Open-Ended Response
	Not really
Michael Morland	Too much traffic.
Bonnie Kwolek	Very congested and too many accidents. Only going to get worse with increased population expected.
jingyuan zhang	
Brittany Johann	Bad traffic causing reckless driving.
Jing Ren	
Jessie S	The intersection of 380 and airport needs some reworking especially for those attempting to turn south onto Airport from westbound 380. Other than that I don't often find that 380 through east McKinney to be too terribly congested.
Lindsey Parija	There are some parts that have left turn lanes that only allow 4-5 cars and then it blocks all of the cars in the lane beside it from being able to pass and it dangerous.
Chris	
Victoria Marrufo	Impact my current commute?
Shelby Meehan	Busy
Sheldon	Too many traffic lights
Dustin Parkinson	Hopefully it doesn't become a tollway.
Meg	
	Too much construction around the tollway interchange, y'all need to get that finished.
Katie Walton	Too busy and dangerous
Bryan Kile	Yes, US 380 should be controlled/limited access highway.
Christyn	The traffic lights can be long!
Caitlin Skidmore	
Letitia Phillips	Too much traffic and lots of wrecks
Lisa Heath	It's usually very congested. I miss the days when it was more of a highway instead of broken up by so many lights as it is now.
Barbara Jones	Traffic congestion won't go away, the population is just going to keep growing if we think long term.
Nate Thomas	Yes. Too many stop lights.
Janelle Posey	
Mary A Routzahn	Yes, it is very heavily traveled and the areas along it are growing.
Greg Grimes	Too many stop lights.
Chris	Yes, it needs widening as soon as possible.
Colette McCadden	No divided median

Please provide us with your contact information.	If US 380 is congested, what alternative routes do you take?
Name	Open-Ended Response
	It isn't congested
Michael Morland	121 Tollway
Bonnie Kwolek	Virginia, in McKinney, to 75
jingyuan zhang	
Brittany Johann	Hardin, Eldorado, White, hwy 5... just to minimize time on 380
Jing Ren	
Jessie S	I use it everyday in morning traffic. If it's very bad I will take an alternative route via a multitude of country roads that pops me out at throckmorton. Sometimes I'll avoid 380 by taking 5 to industrial to airport
Lindsey Parija	121
Chris	
Victoria Marrufo	380 is the main route
Shelby Meehan	
Sheldon	Whatever GPS says to do
Dustin Parkinson	Custer to 121
Meg	
	Virginia Parkway, Hardin, Community to get around the 75 intersection
Katie Walton	Tollway or Preston
Bryan Kile	I use US 380 or other arterial roadways.
Christyn	Eldorado or Preston.
Caitlin Skidmore	Virginia
Letitia Phillips	Prosper Trail
Lisa Heath	none
Barbara Jones	121
Nate Thomas	Eldorado, Fishtrap
Janelle Posey	
Mary A Routzahn	121, Eldorado, and Virginia in McKinney.
Greg Grimes	I don't
Chris	Limited choices for moving East/West both for 380,and Collin county in general. I do whatever Waze tells me to do.
Colette McCadden	There is no good alternative route to Denton; Virginia Parkway is an alternative route if driving to McKinney

Please provide us with your contact information.	What solutions would you suggest in the US 380 Corridor?
Name	Open-Ended Response
	Go north, don't destroy current development, spur new development
Michael Morland	Adding more lanes.
Bonnie Kwolek	A new route west of Stonebridge, even west of Custer.
jingyuan zhang	convert to free way.
Brittany Johann	Expand it?
Jing Ren	convert to free way
Jessie S	I'm not sure a solution is necessarily required other than the reworking if a handful of intersections. All of the options of rework are too close to things I care about, like my home, north of New Hope and Erwin Park where I frequently ride.
Lindsey Parija	
Chris	
Victoria Marrufo	
Shelby Meehan	Northern bypass
Sheldon	Less traffic lights Faster speed limit
Dustin Parkinson	Widening
Meg	
	Stop building housing in an already congested area. Build an outer loop further north of 380 to pick up some of the traffic and send it to 75 or the tollway
Katie Walton	
Bryan Kile	Widening, multi-level roadways, provide additional arterial roadways that can hold more traffic.
Christyn	No traffic lights.
Caitlin Skidmore	
Letitia Phillips	
Lisa Heath	overpass for traffic (similar to the one in Austin) for those trying to go from McKinney to Denton with no stops in between
Barbara Jones	
Nate Thomas	Make it a highway
Janelle Posey	
Mary A Routzahn	Going far north up to Melissa, Anna or farther.
Greg Grimes	Widen existing roadway.
Chris	Whoever these Collin County "anti-toll" people are, they do not have a full understanding that the greater majority, often the silent majority, just want options to move. Congestion costs state taxpayers tens of millions of dollars, annually, and TxDot needs every available option on the table for funding, building, and maintaing roads. That should include tolling where appropriate, and it is not always appropriate. However, to remove that option entirely is a mistake. The population can only grow so far north, and eastern Collin county is about to experience explosive growth. With that growth will come change. As to the people attempting to stand in the way of 380expanding or realignment, get on board with the growth, it is inevitable. Plan and act accordingly.
Colette McCadden	

Please provide us with your contact information.	Do you support the building of a freeway regardless of alignment?
Name	Open-Ended Response
	No
Michael Morland	
Bonnie Kwolek	
jingyuan zhang	yes
Brittany Johann	I'm not sure what "regardless of alignment" means
Jing Ren	Yes
Jessie S	No
Lindsey Parija	No
Chris	
Victoria Marrufo	No
Shelby Meehan	No.
Sheldon	Yes
Dustin Parkinson	
Meg	
	no
Katie Walton	
Bryan Kile	I support the improvement of the existing highway 380, not a bypass.
Christyn	As long as it does not encroach in neighborhoods.
Caitlin Skidmore	
Letitia Phillips	
Lisa Heath	
Barbara Jones	No
Nate Thomas	Yes. Absolutely
Janelle Posey	
Mary A Routzahn	Not if it causes homeowners to loose their homes and land.
Greg Grimes	No
Chris	Unequivocally.
Colette McCadden	No

Please provide us with your contact information.	If US 380 is constructed as a freeway, which alignment do you prefer? (select all that apply)

Please provide us with your contact information.	Do you have any concerns with the existing US 380?
Name	Open-Ended Response
Randall Shaver	I can be tough to get on during peak times unless you are at a traffic light.
Gwen Ray	Speed of 18 wheelers
Doug Pemberton	
M. White	Do not want the noise and traffic of a freeway next to my house.
Michael Dover	
Laura Arouca	The speed limits need to be adjusted around residential areas, more exit / turn lanes into subdivisions.
Meghan Metcalf	
M. White	Concerned about the traffic getting loud.
Stacy Horton	Congestion, lack of adequate turning lanes at signal lights. Poor traffic light timing.
Mehreen Haq	Very congested.
Gary H. Woolverton	Overcrowded and unmanaged. The trucks and work vehicles seem to slow the traffic down considerably.
Aimee Daughety	crowded
Katie	
Christie Olivarri	Yes. Idiot drivers who don't obey traffic laws
Aaron orme	Congestion in the cities it passes through
Whitney Walker	
Laura	
Bernd Fitzau	The current 380 alignment is just fine. Congestion is only a concern from 7am to 9am and 4pm to 6pm due to commuter traffic. If Mcknney would stop putting a traffic light every 100 yards and would finally start improving other east-west roads there would be no need for all this. If any improvement is needed, there is plenty of room along the current 380 alignment to widen the existing highway.
Cole Young	Yes
Hana Noland	Too many lights Accidents daily Needs to have bridges over lights
MARK HEISTAND	Yes
Ashley Hoffman	
Nicholas Valliere	
Dennis Lynch	Yes
Nicholas Valliere	It is unsafe and congested
Lucas Williamson	traffic flow is slow in AM
	too many stoplights and heavy congestion due to lack of preparation. It should have been made a raised highway with exits a long time ago
Alex	
Christine Smith	
Elizabeth Dale	
Michael Longley	Congested traffic especially at peak hours and speeding vehicles.
Tiffany cassidy	Turning left on 547 from WB 380 is so dangerous. There needs to be a designated turn land, not the center lane
Lori Dobransky	Congested and more businesses are being built which will impact travel

Please provide us with your contact information.	If US 380 is congested, what alternative routes do you take?
Name	Open-Ended Response
Randall Shaver	Virginia Parkway
Gwen Ray	Prosper Trail to 123 to 164 to 1007 to Wilmeth
Doug Pemberton	Virginia or Eldorado
M. White	Virginia Parkway
Michael Dover	
Laura Arouca	Virginia, Eldorado
Meghan Metcalf	
M. White	Virgina Parkway
Stacy Horton	Fishtrap, or if a known wreck, go down to eldorado. Sill have to drive on 380 for most of drive
Mehreen Haq	Side streets
Gary H. Woolverton	Virginia or Eldorado
Aimee Daughety	virgina
Katie	
Christie Olivarri	Fish Trap
Aaron orme	There are none from where I am at.
Whitney Walker	
Laura	
Bernd Fitzau	Virginia Parkway, Eldorado Parkway
Cole Young	121 sam rayburn, 121 business 82 highway
Hana Noland	Fishtrap
MARK HEISTAND	No alternative
Ashley Hoffman	I can't, really. I drive from UNT to Celina. There's not really any other way to get there that's faster.
Nicholas Valliere	
Dennis Lynch	Virgina, Wilmeth
Nicholas Valliere	Virginia to the south.
Lucas Williamson	Virginia pkwy
	75 to Wilmeth to Bloomdale/123/Prosper Trail
Alex	
Christine Smith	
Elizabeth Dale	The only time I take an alternative route is when there's a wreck and the route I take depends on where the wreck is.
Michael Longley	Unfortunately, no very good alternatives - Virginia Pkwy and Eldorado are poor alternatives.
Tiffany cassidy	
Lori Dobransky	Virginia to lake forest.

Please provide us with your contact information.	What solutions would you suggest in the US 380 Corridor?
Name	Open-Ended Response
Randall Shaver	Another east west road to the north to reduce traffic on existing 380
Gwen Ray	Don't abuse your power of eminent domain
Doug Pemberton	Need a total bypass, Today there were just too many heavy duty trucks causing slowness, congestion, and danger.
M. White	
Michael Dover	
Laura Arouca	
Meghan Metcalf	
M. White	Would like the traffic re-routed away from 380 and Custer.
Stacy Horton	More lanes, add turning lanes. Utilize the middle Lane topically used for turning left, however there are no roads to turn left onto.
Mehreen Haq	The pink and green route sounds good. I would hate to see the Red, Blue and Yellow corridor wind in and out close to residential areas.
Gary H. Woolverton	Bypass city with a six-lane freeway
Aimee Daughety	expand 380 instead of rerouting it
Katie	
Christie Olivarri	Widening from 720 east on 380
Aaron orme	Bypass roads oand or raised freeway with limited offramps
Whitney Walker	
Laura	
Bernd Fitzau	Use the current alignment, which has plenty of available space along its sides, to widen and improve current 380. Why is TxDot hellbent on putting a freeway in hundreds of peoples backyards and confiscate private citizens property for a freeway that has a current alignment. The only bottleneck on US380 is between Custer Road and Highway 5 in Mckinney and those bottlenecks could easily be remedied if the city of Mckinney would give up its opposition to this scenario.
Cole Young	no stop signs/lights and feeder roads
Hana Noland	Make it a highway without lights but NOT a tollway
MARK HEISTAND	Freeway aligned with existing 380
Ashley Hoffman	DNT/380 construction is taking too long. The amount of congestion is worse than before you guys started tearing it up.
Nicholas Valliere	
Dennis Lynch	Take traffic of 75 at virginia with flyovers to 380
Nicholas Valliere	To move US 380 to the north beginning at Preston Rd. and bypassing McKinney
Lucas Williamson	
	highway with exits if possible. if not, do a bypass north near Weston
Alex	
Christine Smith	
Elizabeth Dale	I drive from McKinney to Bridgeport regularly and the congestion is between Denton and McKinney. If a bypass is built it needs to start somewhere between Denton and Prosper, long before you get to McKinney. Something that aligns with FM 1461.
Michael Longley	North of existing 380.
Tiffany cassidy	
Lori Dobransky	Expand existing 380

Please provide us with your contact information.	Do you support the building of a freeway regardless of alignment?
Name	Open-Ended Response
Randall Shaver	No
Gwen Ray	NO
Doug Pemberton	Yes to building a freeway, but it needs to bypass current 380
M. White	no
Michael Dover	
Laura Arouca	No
Meghan Metcalf	
M. White	no, would not like a freeway on the current 380 location.
Stacy Horton	Yes
Mehreen Haq	Only the Pink and Green alignment
Gary H. Woolverton	Yes
Aimee Daughety	No
Katie	
Christie Olivarri	Yes
Aaron orme	Yes
Whitney Walker	
Laura	
Bernd Fitzau	No, the cost of the proposed freeway will far exceed the 1.5 billion USD mark. With the Collin County Outer Loop in the works there is absolutely no need to spend that amount of money and commit Collin county residents to such a huge expense.
Cole Young	Yes
Hana Noland	Yes
MARK HEISTAND	No
Ashley Hoffman	No. I think that the existing 380 needs to be widened, and shouldn't divert from its existing alignment.
Nicholas Valliere	
Dennis Lynch	No
Nicholas Valliere	No
Lucas Williamson	
	yes, but not a fair question. where is goes through does matter to homeowners.
Alex	
Christine Smith	
Elizabeth Dale	No, not regardless of alignment.
Michael Longley	No.
Tiffany cassidy	
Lori Dobransky	No

Please provide us with your contact information.	If US 380 is constructed as a freeway, which alignment do you prefer? (select all that apply)

Matt Hatch	Commuter		Property Owner	Nearby resident		Daily
Gerald Bushnell			Property Owner			Daily

Please provide us with your contact information.	Do you have any concerns with the existing US 380?
Name	Open-Ended Response
Jessica Raiden	
Mary Day	No.
Laura Johnson	Dangerous and too much traffic
Cresta Garland	
VALERIE Nguyen	The bypass
Kim Sanders	Congestion and safety
Szlachtowski, Patrick	No
Kelli Ratcliff	
Jennifer Sanders	No
Pat Arter	No
Monte Self	Speeding trucks running lights, drivers texting, multiple accidents, untimed lights.
Brooke Allen	
Melissa Kasali	
Ryan Needham	It would be nice to make the overpass like at Preston and 380 at main lights
Annetta Walsh	It's getting more and more congested every day. With stores underway it can only get worse.
Robin Semadeni	No
Sourav Parija	No
Mike Shepherd	Some concerns
Mike Shepherd	
Lesley Hobby	Speed and red light runners
Jennifer Swilling	Congested at certain times
Jody Fiess	no, it has traffic, but no more that other comparable thuroghfares
Matt Hatch	Yes, it is heavily congested at certain times of the day, and unsafe to motorists and pedestrians.
Gerald Bushnell	no

Please provide us with your contact information.	If US 380 is congested, what alternative routes do you take?
Name	Open-Ended Response
Jessica Raiden	
Mary Day	n/a - rarely too congested
Laura Johnson	720
Cresta Garland	
VALERIE Nguyen	
Kim Sanders	
Szlachtowski, Patrick	Virginia, Rockhill Parkway, to DNT.
Kelli Ratcliff	
Jennifer Sanders	
Pat Arter	
Monte Self	Stonebridge, Ridge, Lake Forest, Custer, Hardin
Brooke Allen	
Melissa Kasali	
Ryan Needham	I don’t
Annetta Walsh	Virginia or Eldorado
Robin Semadeni	
Sourav Parija	HArdin
Mike Shepherd	Virginia
Mike Shepherd	
Lesley Hobby	Virginia parkway or El Dorado Parkway
Jennifer Swilling	Virginia
Jody Fiess	121
Matt Hatch	I take Virginia Pkwy., Wilmeth Rd. or White Ave.
Gerald Bushnell	Virginia

Please provide us with your contact information.	What solutions would you suggest in the US 380 Corridor?
Name	Open-Ended Response
Jessica Raiden	
Mary Day	Remove it as a truck route.
Laura Johnson	expanding to make more lanes and a safer Left turn lanes
Cresta Garland	
VALERIE Nguyen	
Kim Sanders	No more tollways
Szlachtowski, Patrick	Make a by-pass to the north before housing is built.
Kelli Ratcliff	
Jennifer Sanders	
Pat Arter	
Monte Self	Move the "bypass" to Laud Howell Pkwy and connect with 1461 to the Dallas North Toll Road and reduce the speed on 380 to cause the trucks and through traffic to go to "bypass. This would allow business to survive and businesses to flourish. Complete North South roads to connect with Laud Howell Pkwy 2.5 miles to North and go through least occupied area for homes to cover growth in NW area.
Brooke Allen	
Melissa Kasali	
Ryan Needham	Preston and 380s overpass
Annetta Walsh	Take it north of us and connect with Laud Howell
Robin Semadeni	
Sourav Parija	
Mike Shepherd	Widen where possible with more turn lanes. Expedite the outer loop. 6 lane roads implemented on Bloomdale, Wilmeth to help alleviate congestion.
Mike Shepherd	
Lesley Hobby	Do not effect people’s property.
Jennifer Swilling	
Jody Fiess	alternative than barreling through neighborhoods
Matt Hatch	A freeway solution where 380 connects east of Princeton and goes north around McKinney and then reconnects west of McKinney and Custer Rd.
Gerald Bushnell	

Please provide us with your contact information.	Do you support the building of a freeway regardless of alignment?
Name	Open-Ended Response
Jessica Raiden	
Mary Day	No.
Laura Johnson	yes
Cresta Garland	
VALERIE Nguyen	No
Kim Sanders	
Szlachtowski, Patrick	No
Kelli Ratcliff	
Jennifer Sanders	No
Pat Arter	
Monte Self	NO, not at all!!!!!!!!!!!!!!!
Brooke Allen	
Melissa Kasali	
Ryan Needham	Not a bypass
Annetta Walsh	No
Robin Semadeni	No
Sourav Parija	No
Mike Shepherd	No
Mike Shepherd	
Lesley Hobby	No.
Jennifer Swilling	No
Jody Fiess	absolutely not
Matt Hatch	I support the building of a Freeway that is free and no tolls.
Gerald Bushnell	yes

Please provide us with your contact information.	If US 380 is constructed as a freeway, which alignment do you prefer? (select all that apply)

Please provide us with your contact information.	Do you have any concerns with the existing US 380?
Name	Open-Ended Response
Leslie Fossen	People drive too quickly and, especially trucks, are unable to stop in time at lights, causing accidents. Increased commercial businesses mean that there are more people turning and switching lanes suddenly, again leading to accidents and near misses. Hills in McKinney can make backups at traffic lights hard to see.
Jenn	Congested, so much construction, only 2 lanes each direction, needs to be overpasses at DNT intersection
John Lario	No.
Gisele M Moncure	speed limit is too high
Mark Welsh	Speeds are too fast and too many accidents occur at intersections. It needs work - but can't be done in its current borders
Jennifer Howard	No
Marco Gonzalez	
Mark Blain	No. It's busy but the traffic flows nicely.
Aaron Pollard	Traffic during rush hour
Paul Pankewicz	Poor traffic control. Many acvidents
Kimberley K Jones	Yes, My teenagers have to travel and drive it daily to get to High School and College
Wendell Samuel	Intersection of 75 & 380 is terrible. Cross streets that intersect 380 are dangerous.
Michael Liverance	No concerns with the existing US 380
Amol Wadpalle	A lot of traffic and heavy vehicles on the road. The road is also narrow which adds on to the chaos
Lucas Hirsch	No
Ashley Vantrump	No
Doreen	
Scott Anderson	Yes. Too many lights along with growing population numbers
Brad Thomason	East of 75 all the way through Princeton needs to be dealt with somehow. If there was a connecting ramp at 380/75 to send people north around that part it would be nice. Would ease congestion in that area.
kesar	Congested during commute hours. Need to expand it and fast pace construction
James Johnson	Not enough lanes once the Costco and other businesses open.
Jennifer Sanders	Yes - congestion, addition of businesses
John meehan	Traffic is becoming unreasonably heavy during peak travel hours due to increased population.
Jim DuBois	Slow moving lots of traffic
Amber Wilson	
Chris polito	No
John and Karen Rodgers	Congested traffic is expected in our growing community.
Loretta English	Yes. The mix of commercial traffic and no other alternatives for residents is lethal. Build a huge loop and pull this traffic out of the mostly residential paths!!

Please provide us with your contact information.	If US 380 is congested, what alternative routes do you take?
Name	Open-Ended Response
Leslie Fossen	Virginia Pkwy
Jenn	Frontier, Eldorado
John Lario	Virginia, 75, Hardin
Gisele M Moncure	im fine with it the way that it is, I take custer to 121
Mark Welsh	I take side roads, like Ridge, Stonebridge or Lake Forest to Virginia - then over to 75 or Custer
Jennifer Howard	Virginia
Marco Gonzalez	
Mark Blain	Virginia
Aaron Pollard	
Paul Pankewicz	Virginia parkway
Kimberley K Jones	Virginia or Eldorado.
Wendell Samuel	White Street, Virginia, Rockhill Rd.
Michael Liverance	Today, I do not find the congestion level of US 380 to be a hindrance where an alternate route is necessary.
Amol Wadpalle	There are very few alternate routes. I take Custer to go south.
Lucas Hirsch	Side roads
Ashley Vantrump	Side roads
Doreen	
Scott Anderson	121
Brad Thomason	None. There aren't really any.
kesar	build a overpass all along 380. Increase public transport connectivity. Remove tolls on SRT and DNT so it can be fully utilized. Introduce co-ordinated or traffic lights in the area. Encourage car pooling
James Johnson	Virginia.
Jennifer Sanders	Lake Forest, Hardin, White, 121
John meehan	Residential side streets as applicable. Other options are not usually feasible.
Jim DuBois	No real alternatives
Amber Wilson	
Chris polito	El dorado
John and Karen Rodgers	We take Hardin, Wilmeth, White Ave., Eldorado, Virginia, etc.
Loretta English	Virginia Pkwy.

Please provide us with your contact information.	What solutions would you suggest in the US 380 Corridor?
Name	Open-Ended Response
Leslie Fossen	Lower speed limit between Custer and Hwy 5 to 45. Add more lights and turning lanes for streets and business entrances. Build a freeway further north.
Jenn	More lanes and more overpasses over major intersections
John Lario	DO NOT DESTROY COMMUNITIES!
Gisele M Moncure	
Mark Welsh	A whole new highway needs to be built. Too much (good) development is happening in McKinney and an expanded freeway-style 380 will destroy retail and residential property that make McKinney unique.
Jennifer Howard	Widen it and add overpasses
Marco Gonzalez	
Mark Blain	Make it a freeway with side roads on the existing path
Aaron Pollard	Widen the current 380 and install overpasses
Paul Pankewicz	Widen it. Time lights better
Kimberley K Jones	Over pass over 380 or loop around
Wendell Samuel	Overpasses at intersections and a barrier divide of east/west bound lanes
Michael Liverance	With the growth of the population along US 380 in the coming years, I can see a dire need to bypass US 380 altogether running a route north.
Amol Wadpalle	The existing road should be made broader. Restrict the time of heavy vehicles on the road. Reduce speed limit or need a service road if opting to covert 380 as a freeway.
Lucas Hirsch	
Ashley Vantrump	
Doreen	
Scott Anderson	A bypass freeway
Brad Thomason	No real issues west of 75, but 75/380 needs to be dealt with badly.
kesar	Encourage car pooling
James Johnson	Double decker freeway, like in Austin. Or an underground freeway.
Jennifer Sanders	Improve existing 380 Corridor by adding overpass lanes (as what was done at Preston) for thru traffic or underpass lanes (as was done on 635).
John meehan	Interconnected, live condition adjusted traffic signals.
Jim DuBois	Limited access highway. Fewer stop lights.
Amber Wilson	
Chris polito	I don't see an issue with it. I'm on it everyday at 7:30 am and 5:00 pm. Never have congestion issues
John and Karen Rodgers	I would like to see Wilmeth extended from Lake Forest to Hardin. I would like 380 to just stay the same
Loretta English	Don't add patches of bypass! Build a huge loop (see loop in El Paso). No tolls, this is not Houston!! We can't afford to pay more tolls. Again, see El Paso's loop. Heading northbound, the loop should exit 75 around the 121 exchange at Fairview, and circle behind the Heard museum, around the airport (great access to the airport), cross 380 around New Hope, cross 121/75 in Melissa, through the farmlands and connect with the DNT in Prosper. Think of the future expansion of the North area! Don't just patch the situation! Build the loop!!!

Please provide us with your contact information.	Do you support the building of a freeway regardless of alignment?
Name	Open-Ended Response
Leslie Fossen	Yes but I think it would be better to the north where construction will cause less disruption.
Jenn	Yes
John Lario	NO!
Gisele M Moncure	no
Mark Welsh	No - it can't be expanded in its current form. Common sense says it needs to be re-routed along the proposed blue or yellow paths.
Jennifer Howard	No
Marco Gonzalez	
Mark Blain	Only if it's on current routes. No bypass
Aaron Pollard	Yes
Paul Pankewicz	No
Kimberley K Jones	No
Wendell Samuel	Yes
Michael Liverance	No, I do not support a freeway along the current US 380 roadway. I do support a freeway reroute north of the current US 380 roadway.
Amol Wadpalle	Yes
Lucas Hirsch	Yes
Ashley Vantrump	No. Not in the least
Doreen	
Scott Anderson	Yes
Brad Thomason	No.
kesar	yes
James Johnson	No. I do not want one that runs through Bloomdale. It's not conducive for the current neighborhoods or schools.
Jennifer Sanders	No
John meehan	Alignment is critical.
Jim DuBois	Yes
Amber Wilson	
Chris polito	No
John and Karen Rodgers	No.
Loretta English	Yes

Please provide us with your contact information.	If US 380 is constructed as a freeway, which alignment do you prefer? (select all that apply)

Please provide us with your contact information.	Do you have any concerns with the existing US 380?
Name	Open-Ended Response
thomas P patterson	it's congested now plus there is no straight quick direct path to Rockwall/Rowlett area or Hwy 30.
Vishal patel	Biggest concern is 380/Preston and Dnt intersections. They are horrible.
Kimberly Waldorf	No
Kristi Hicks-Hsueh	The intersection at 380/75 where the Chic fil A is very busy and congested during work days and weekends. Also the intersection across from Race trac and bed bath beyond is very busy you have to use the parking lot to get around it.
Zheng Lu	the most of slowness on 380 is on the cross with 75. We should build one better way to connect 380 to 75.
Stephen Kilpatrick	road noise
Gary Laing	No. Most days it is not any busier than any other route.
Reese Harris	Too much traffic
Kim Pereira	
Swaminathan Jayaraman	Request a RIGHT ONLY or EXIT LANE into Prestwyck subdivision from East 380
Tracy Penton	It is extremely dangerous.
Whitney Martinez	It is congested and seems dangerous with the heavy traffic and just lights.
Fernando	Yes.
Jeremy Bingham	Between princeton and mckinney the speed limit is very high for a heavily used, undivided highway with new additions built nearby. 380 Also becomes severely backed up at 75 during busier times.
Shannon Murphy	Congestion, dangerous to cross coming out of my neighborhood.
Grant Kemp	Not really but I do hear that it's pretty dangerous with truckers speeding through
andrew hansen	Too many stop lights.
Elisa Clinton	
Jennifer	
Ashlie	Safety. It seems like there are always really bad car accidents along 380.
David L Routzahn	It has far too much traffic each day. With the increase in population and the addition of major businesses along US 380, the number of cars and overall traffic just continues to get worse.
Kent	
Dale Tatem	
Ken and Monica Paradis	Yes, too congested. Additionally, the tuemrn into our neighborhood, Ridgecrest between Stonebridge Ranch and Ridge will become more dangerous with additional traffic flow.
Ernesto Zayas	The current 380 is not enough for the existing developments in the area. Traffic congestion is part of my routine every day and the lack of effective connections to other major tollways such as DALLAS North Tollway is concerning.
Lynn Bender	It’s dangerous. There are so many accidents.
Jay Wojnas	The 380/75 intersection
Rony Peterson	Rush hour and safety at all hours. With people slowing to turn and people going so fast there have been many accidents. Also, the lights allowing a turn on yellow seems to cause issues.

Please provide us with your contact information.	If US 380 is congested, what alternative routes do you take?
Name	Open-Ended Response
thomas P patterson	121 tollway
Vishal patel	Virginia/Rockhill
Kimberly Waldorf	
Kristi Hicks-Hsueh	Community or the service roads.
Zheng Lu	W White Ave or Virginia Pkwy
Stephen Kilpatrick	121
Gary Laing	121. I try to avoid 121 as much as possible due to the tolls.
Reese Harris	
Kim Pereira	
Swaminathan Jayaraman	
Tracy Penton	Eldorado or Virginia to 75
Whitney Martinez	I take many different back roads to avoid it.
Fernando	75 and or Frontage
Jeremy Bingham	Airport rd to industrial to Hwy 5 to 121 if south, mcdonald/5 to Weston rd of north. East/west no viable alternatives
Shannon Murphy	982 to Branch to Allen Bridge farmer to McKinney
Grant Kemp	I am typically coming north on the tollway so I go to 121/Stonebridge rather than tollway to 380
andrew hansen	Eldorado, Wilmeth rd, White ave, Virginia
Elisa Clinton	
Jennifer	
Ashlie	Virginia or 121
David L Routzahn	Cross US 380 on Community or Hardin to then use Eldorado, White or Virginia to move East or West. Sometimes just using Highway 5 to go south is better.
Kent	
Dale Tatem	
Ken and Monica Paradis	Ridge to Virginia Pkwy to 75 Ridge to Sam rayburn 121 to 75 Custer to 121 to DNT
Ernesto Zayas	I use 75 to Sam Rayburn Tollway.
Lynn Bender	
Jay Wojnas	Virginia
Rony Peterson	I cut through whatever side street is closest. Most lead out of a neighborhood to a major road. There are a few that don't but my gps doesn't take me through those.

Please provide us with your contact information.	What solutions would you suggest in the US 380 Corridor?
Name	Open-Ended Response
thomas P patterson	Improve the flow of 380 by completing current construction that's underway
Vishal patel	Widen 380 by 1 lane both sides
Kimberly Waldorf	
Kristi Hicks-Hsueh	Make better intersections or larger roads but don't cut into people's homes to do it. Sorry don't really have a good answer for this issue.
Zheng Lu	freeway and overpass.
Stephen Kilpatrick	
Gary Laing	widen 380. Or elevate 380 with a bypass. I don't mind the toll roads as long as the FREEways are available too right along with it as what is going on with 635 or 35.
Reese Harris	Look at other studies
Kim Pereira	
Swaminathan Jayaraman	Request a RIGHT ONLY or EXIT LANE into Prestwyck subdivision from East 380
Tracy Penton	Unfortunately, i think we need to add more stop lights to add some safety. We drive 380 east and west of McKinney.
Whitney Martinez	Work together as a community to find a way to expand it without confiscating people's property.
Fernando	To reroute away from populated areas.
Jeremy Bingham	Divided beyond princeton, ramp entrance/exit near 75.
Shannon Murphy	Add red lights to assist getting out of neighborhoods. Widen the highway.
Grant Kemp	A raised freeway kind of like 635
andrew hansen	US 380 should be a tollway, with no stop lights. Straight through.
Elisa Clinton	
Jennifer	
Ashlie	More lanes on 380. Maybe building up and having access roads on the sides like the highways(75 and 121)
David L Routzahn	With the increased growth of Collin County and the McKinney area, I believe that the new 380 Bypass should be significantly North (by many miles) of the existing 380 corridor.
Kent	
Dale Tatem	
Ken and Monica Paradis	Loop or bypass similar to Denton's loop 288 And new Waco loop
Ernesto Zayas	This should be a freeway/tollway between McKinney and Denton ...even on a northern alignment.
Lynn Bender	Make 380 into a highway with a service road.
Jay Wojnas	Bypass 380/75 intersection
Rony Peterson	I like the freeway concept. Creating side roads for those needing to get off and keeping the main 380 moving.

Please provide us with your contact information.	Do you support the building of a freeway regardless of alignment?
Name	Open-Ended Response
thomas P patterson	I support it being a freeway only in it's current alignment
Vishal patel	No
Kimberly Waldorf	No
Kristi Hicks-Hsueh	yes and no. I do want to see improvements in roads to lessen the traffic issues but not if it forces people to move out their houses or causes residents issues.
Zheng Lu	YES
Stephen Kilpatrick	Yes121
Gary Laing	NO. Alignment 2 is the ONLY option. Any expansion of 380 should ONLY be along 380. The other proposed routes appear to be haphazard at best.
Reese Harris	No
Kim Pereira	
Swaminathan Jayaraman	Yes
Tracy Penton	I don't want to see Erwin park to be tampered with. I feel we need to preserve that as part of our community and what we have to offer our residents.
Whitney Martinez	No! I do not support this if it means taking away someone's property to do it.
Fernando	Not if the freeway alignment runs into and over Pecan ridge Estates
Jeremy Bingham	Yes
Shannon Murphy	Yes
Grant Kemp	Yes
andrew hansen	NO
Elisa Clinton	No
Jennifer	
Ashlie	Not regardless of alignment? More information is needed to answer this.
David L Routzahn	No I do not. If it significantly interrupts existing roads where there is already high populations or schools or businesses, that is a poor choice.
Kent	
Dale Tatem	No
Ken and Monica Paradis	Not regardless of alignment, impact to community and property is important
Ernesto Zayas	Yes
Lynn Bender	I'm not sure what this question is asking. What does "regardless of alignment" mean?
Jay Wojnas	Yes
Rony Peterson	Yes.

Please provide us with your contact information.	If US 380 is constructed as a freeway, which alignment do you prefer? (select all that apply)

Please provide us with your contact information.	Do you have any concerns with the existing US 380?
Name	Open-Ended Response
Aaron	No
Karol Monge	It's starting to get congested with all the new businesses going up
Jaclyn Paz	Yes, with all the new businesses coming the traffic will be congested along with the accidents.
John Gantz	Road is to small to hold current traffic and definitely will be overly congested once new establishments are in place west of 75.
Chad Harris	Yes
Andrew Michelson	Yes. No sound barriers to keep noise down at my address
Nermin Duratovic	No
Maloree Tennison	No
Roxanna	Too many accidents on 380. Speed is too high for the close proximity of residential homes.
Lisa Harris	It does get congested on the small portion I drive it
Justin Lisenby	Number of red lights. Speed is too low.
Joel	To congested
Carole Mulrooney	Cars, businesses off 380 and cars doing 75 mph down the road. Too many accidents waiting to happen.
Diana Lewis	Yes. People do not know how to ise the middle turn lane that is not actually a lane but for turning only. People will cut into this lane in front of oncoming traffic and cause fatalities
Erik Reishus	I usually try to avoid taking 380 east towards 75 during peak times due to the congestion. It is only going to get worse.
	Trafic
Laura Bryant	Yes
Brittany Webster	Too much traffic, dangerous driving conditions
Randall hickman	Congestion at 75/380. Ability to make an unprotected left turn into businesses and shopping centers.
Roxanne Ledbetter	Timing of traffic lights
Justin Foster	Too many stoplights, too many cars on it during rush hour
Kristen astolfo	No
Ashley Jernigan	
John	Speed limit is too high. It should be lowered from Bridgefarmer to past the highschool. 45 tops! Maybe even From Airport road in McKinney all the way through Princeton.
Jennifer Swilling	
Shane Johnson	Stop lights

Please provide us with your contact information.	If US 380 is congested, what alternative routes do you take?
Name	Open-Ended Response
Aaron	I don't see it as congested
Karol Monge	I leave McKinney on the 75
Jaclyn Paz	Virginia Parkway or El Dorado
John Gantz	I either go through Stonebridge or select a secondary shopping venue in Frisco or Plano
Chad Harris	Wilmeth
Andrew Michelson	Virginia
Nermin Duratovic	None, i only take 380
Maloree Tennison	I don't
Roxanna	Eldorado
Lisa Harris	I normally avoid and stick to 75 and 121
Justin Lisenby	North or south roads
Joel	Fm 546 or Lucas rd
Carole Mulrooney	Hwy 121 or 75
Diana Lewis	I will take farm roads
Erik Reishus	Virginia
	None there are no alternatives
Laura Bryant	White Or Virginia
Brittany Webster	Bridgefarmer road to Lucas
Randall hickman	Wilmeth. White st.
Roxanne Ledbetter	Eldorado Parkway or Hwy 121 tollway.
Justin Foster	Don’t really have alternate routes. Sometimes go all the way west to 720 and cut down to Little Elm/423
Kristen astolfo	Preston road
Ashley Jernigan	
John	I know the south and north routes
Jennifer Swilling	
Shane Johnson	Farm to market roads

Please provide us with your contact information.	What solutions would you suggest in the US 380 Corridor?
Name	Open-Ended Response
Aaron	N/A
Karol Monge	Anything but a freeway running through my neighborhood
Jaclyn Paz	I would be ok with adding additional lanes.
John Gantz	Widening the lanes, adequate timed traffic lights, beter egress from residential housing. Leaving Ridgecrest subdivision you cannot go west on 380, you must go East and make a U turn at the light after crossing 3 lanes of traffic. Totally absurd and dangerous.
Chad Harris	Expand/improve current US380 road
Andrew Michelson	Bypass
Nermin Duratovic	Build more lanes
Maloree Tennison	Not down Bloomdale
Roxanna	Reduce speed limit, add turn lanes into residential neighborhoods with entrances on 380.
Lisa Harris	I lived in MD. PA and VA and I have seen bypasses go in that are not horrible 4 lanes no lights with traffic circles to keep cars moving
Justin Lisenby	Overpasses on 380. Raised speed limit to 65. Fewer lights.
Joel	Make it a freeway
Carole Mulrooney	
Diana Lewis	Take out the middle turn lane that is for both lanes of traffic and widen the road especially for towns like Princeton that had seen a surplus in residents since the new construction homes.
Erik Reishus	Improve the current alignment. I fear that not enough traffic will be diverted with the bypass and the congestion and safety concerns will still exist.
	Alternative routes going from different locations. One would be from Eldorado to 380 straight across without having to go through 423
Laura Bryant	Overpasses/bypasses like those being built at Preston and DNT
Brittany Webster	Alternative loops or highway options. Wider roads
Randall hickman	Elevated roadway for those that want to simply travel east or west. Bypass utilizing laud Howell pkwy or outer loop.
Roxanne Ledbetter	Expand Hwy 380 to six lanes between Custer and the DNT.
Justin Foster	Need many more flyovers of intersections. Would be best to design it like 121 but without the tolls.
Kristen astolfo	
Ashley Jernigan	
John	Slower speeds! More lanes. Maybe an upper deck...
Jennifer Swilling	
Shane Johnson	Bypasses

Please provide us with your contact information.	Do you support the building of a freeway regardless of alignment?
Name	Open-Ended Response
Aaron	N/A
Karol Monge	No
Jaclyn Paz	No, I live right off of 380 and don't want to have it become a freeway. My sons' school is right off Ridge and that is just too close
John Gantz	No
Chad Harris	Yes. In the current location
Andrew Michelson	No
Nermin Duratovic	No, as i live right off of 380 with children, and would not like to have a freeway in my backyard.
Maloree Tennison	No
Roxanna	Yes
Lisa Harris	No I am worried about having a 6 lane major highway in my backyard in pecan ridge and the noise and property values of my home
Justin Lisenby	Yes
Joel	Yrs
Carole Mulrooney	No
Diana Lewis	YES!!!!
Erik Reishus	I would like to see a freeway, but in its current alignment only.
	No
Laura Bryant	No
Brittany Webster	Yes
Randall hickman	No-alignment matters to me due to impact on my property and other people's properties. I think most people will utilize an alternative route that makes sense for them whether a specific one is built or not.
Roxanne Ledbetter	No
Justin Foster	Yes, absolutely. We must have a freeway to alleviate traffic issues. This freeway should go from McKinney all the way to Denton.
Kristen astolfo	No
Ashley Jernigan	
John	For the most part
Jennifer Swilling	
Shane Johnson	No

Please provide us with your contact information.	If US 380 is constructed as a freeway, which alignment do you prefer? (select all that apply)

Please provide us with your contact information.	Do you have any concerns with the existing US 380?
Name	Open-Ended Response
	too congested
Yuen Tung Mostrom	No
Shawn Turner	Yes. It's congested at busy hours.
Paige Smith	Safety, slow because of numerous lights particularly on West side of 75.
Jennifer Lajoie	No
Marjorie Gerik	Just the speed limit through Princeton should go WAY down. Also, more stoplights to help people get out of the subdivisions and businesses.
Leslie Hemenway	To many lights. Fast speed with so many lights and trun offs.
Bryant Oatis	No
Amy	Always a traffic jam and needs additional lanes west of Tollway
Matt Morrison	It's way too congested and needs to become a limited access freeway.
Michaela Harris	Traffic, accident rate
Peggy Reilly	
Oscar Trevino	No
Sherry White	No
Kristie DeLuna	too much traffic, it is at a standstill every day
Sara Binning	Congestion, lack of barrier divider.
DANE HARRIS	Turn lanes back up and stop traffic. All it needs is to be widened and have dedicated longer turn lanes
Evan Price	Big trucks in left lane
Jamie	No
	Too many stoplights, too much congestion. No parallel arterials west of TX289.
Cara Harms	There needs to be a concrete median divider to prevent people using the middle turn lane as a lane to drive in. So many accidents could be prevented this way. All the 18 wheelers are a concern as well, but not really sure where else they could drive.
Henry B. Gomez	It's dangerous. There seems to be a major accident weekly if not more frequently. I can see why my car insurance went up when I moved near 380.
Megan Beasley	It's very dangerous and the traffic flow is horrible. The middle lane being open is what I believe causes so many fatalities. I worry about driving on 380 when it's not congested because I feel during the less busy times that's when the severe accidents occur bc people end up on the other side of the road.
Jamie Monson	No.
Jeff Fronsee	Very busy! But do NOT want it to cut through our beautiful new neighborhood of Pecan Ridge! Our property worth would definitely go down!
Shane Dovile	Suicide lane. Really need curbs to seperate different flowing traffic
Jesse Peterson	Shared center turn lane creates dangerous situations as businesses move into Princeton and the need to make left turns from either directions increases. Also, U-turns on the 70mph stretch between Farmersville and Greenville nearly cause an accident a few times a week by turning into the lanes of much faster oncoming traffic. The left turn lane (westbound) at Airport Rd. is too short and turning traffic backs up into the left lane of travel.

Please provide us with your contact information.	If US 380 is congested, what alternative routes do you take?
Name	Open-Ended Response
	to some destinations there are few alternate routes. that would help.
Yuen Tung Mostrom	
Shawn Turner	Rockhill Road, Virginia Pkwy, Prosper Trail/FM123, FM1461
Paige Smith	121
Jennifer Lajoie	
Marjorie Gerik	From where we live we don't have many options. Maybe FM 546. Mostly I just deal with it.
Leslie Hemenway	Eldorado and Virginia - 121
Bryant Oatis	
Amy	I don't bc there isn't many choices that will truly speed up the commute
Matt Morrison	Virginia or Eldorado
Michaela Harris	Wilmeth Road
Peggy Reilly	Virginia, 121
Oscar Trevino	Community, Hardin, White, Virginia, Eldorado
Sherry White	Haven't lived here long enough to figure out all the routes. Moved here from Bedford.
Kristie DeLuna	there are no other routes to get around the lake from Paloma Creek to the Colony
Sara Binning	
DANE HARRIS	Virginia
Evan Price	Virginia El Dorado
Jamie	Virginia or 121
	White, Redbud, Community, Wilmeth
Cara Harms	Bridgefarmer to Airport Drive. There aren't many alternatives.
Henry B. Gomez	My wife and I usually just wait in the traffic.
Megan Beasley	I typically just wait on 380
Jamie Monson	Virginia or 121
Jeff Fronsee	Back roads; Virginia or Eldorado
Shane Dovile	Florence Dr
Jesse Peterson	I have found no good alternatives on my commute between Princeton and Greenville.

Please provide us with your contact information.	What solutions would you suggest in the US 380 Corridor?
Name	Open-Ended Response
Yuen Tung Mostrom	
Shawn Turner	3 lanes each way. Service road.
Paige Smith	Widen and/or add options to avoid the stop lights for those headed a longer distance on 380.
Jennifer Lajoie	
Marjorie Gerik	I suggest leaving 380 like it is to keep our homes, businesses and small town feel intact. Maybe make it Business 380 from Princeton through Farmersville. Then build a loop from McKinney up North and around. Leave Princeton alone please!
Leslie Hemenway	Not sure
Bryant Oatis	The pink and green path.
Amy	More like a highway
Matt Morrison	
Michaela Harris	Freeway with exits in existing space
Peggy Reilly	More turn lanes.
Oscar Trevino	Wider
Sherry White	Use the existing pathway and widen it where necessary. In McKinney, this wouldn't be any more difficult than what I have seen the City of Colleyville doing with their widening of highway 26.
Kristie DeLuna	an interstate to connect 35 to the Northwest Tollway, or some alternative routes that also go East/West
Sara Binning	
DANE HARRIS	Put the bypass miles north instead of putting a major highway in people's backyard and harming noise, air and light quality.
Evan Price	Route further North
Jamie	Widening existing route or leaving as is.
	A bypass loop around McKinney. Alternate routes to US75 and US380.
Cara Harms	Concrete median barriers, widen each side to three lanes, maybe even a frontage road?
Henry B. Gomez	Find a way to add more lanes or add more routes to hot spots that aren't just county road options.
Megan Beasley	I think we need an additional lane, buy out the trashy businesses and homes that lead up to Princeton and put an additional lane on each side. I also think the middle lane needs a concrete median that controls where traffic is able to turn. Hopefully that would eliminate the problem of ending up on the other side of the highway
Jamie Monson	None, leave as is.
Jeff Fronsee	Just NOT going through neighborhoods!
Shane Dovile	Expand by adding 2 lanes on each side and putting in a median between sides.
Jesse Peterson	Expand the four lane from Airport Rd. through Princeton to a six lane and make it divided.

Please provide us with your contact information.	Do you support the building of a freeway regardless of alignment?
Name	Open-Ended Response
Yuen Tung Mostrom	No. A high priority must be placed on preventing disturbance to current residents of prospective routes.
Shawn Turner	Sounds like a trick question. No. Depends on alignment.
Paige Smith	No. Re-routing too far off current path destroys businesses and city planning already based on 380. I would like to avoid moving too far north and losing peace/quiet of the few remaining pieces of rural(ish) land in Northern Collin County.
Jennifer Lajoie	No
Marjorie Gerik	Yes, but not through Princeton.
Leslie Hemenway	I would like to see a freeway but NOT at all costs.
Bryant Oatis	No, I do not support the red and blue line paths.
Amy	Sure
Matt Morrison	Yes
Michaela Harris	No
Peggy Reilly	No
Oscar Trevino	No
Sherry White	No, I do not. There is enough noise from I-75 already to add 380 bisecting it in a different manner and causing more noise disruption to more residential areas.
Kristie DeLuna	yes
Sara Binning	
DANE HARRIS	Yes, but not in our backyards. Don't put our mortgage underwater
Evan Price	Yes
Jamie	No.
	Yes.
Cara Harms	Possibly. Maybe.
Henry B. Gomez	Anything that would make 380 safer and alleviate congestion I would be in favor of.
Megan Beasley	Yes but do it as quickly as possible bc there's only one feasible way into Princeton. Taking backroads is going to be a huge headache if construction takes forever which I feel like is how construction goes in DFW
Jamie Monson	No
Jeff Fronsee	Yes, but no... NOT regardless of alignment...
Shane Dovile	Not sure what is ment by this but I do support a freeway style 380 not a tollway!!!!
Jesse Peterson	Yes.

Please provide us with your contact information.	If US 380 is constructed as a freeway, which alignment do you prefer? (select all that apply)

Please provide us with your contact information.	Do you have any concerns with the existing US 380?
Name	Open-Ended Response
Steven Morse	Yes. Takes forever in the morning and evenings to get anywhere. Slow traffic. Too many vehicles
Amy Buckley	Traffic, accidents and more drivers in the very near future as shops & restaurants open
Christian Parrish	
David	Too many traffic lights
phillip chaney	need more lanes
Mary Dieter	Lots of traffic, lots of construction
Dale M Childers	Nope
Michelle Koczan	The traffic is horrible. It takes me over an hour to get to work each day and closer to an hour and a half to get home. The light at Navo is very poorly timed trying to get into Paloma Creek.
Valerie Potash	Do not want it to turn into a freeway!! It'll ruin the countryside and small town feel of this area.
Dustin Mitchell	Traffic
Christian Lacroix	Traffic keep increasing
Dave ling	We need to be prepared for growth and not with tollroads
Stephanie Barnes	Yes
Adam Odegard	Expanding to lessen the load on 380. It take on average 30 mins to go 5 miles during heavy commute time of the day.
Samuel Oh	As new developments are being built, there needs to be more control of the traffic as some of the cross sections do not have signal lights and can be very dangerous streets. I see auto accidents very frequently on 380.
Barbara Pitt	It is too few lanes for the amount of cars on the road.
Lia Brewer	The high number of fatality accidents, lack of safe entrance/exits
James	
Dianna H	Congestion during peak hour
Sara Thomas	
Phil	Needs to be 3 lanes wide. And remove the stop lights. it's a highway, not a side street. Or put a HOV/managed lanes to bypass all the lights and maintain speed.
Nick Heilig	Yes - many wrecks
Lisa Dunnette	
Thomas Russell	No
Leandra Crum	Middle lane is a game of chicken during rush hour traffic between McKinney and Princeton. Monte Carlo/380 EB in the evenings are the worst for those trying to get in the middle lane to turn onto Monte Carlo from 380. It is hard to transition from the main lane of 380 navigating the light, and trying to gauge when it is ok to enter the turn lane. Some people get in the turn lane far back and some people merge closer to the light. All the while dodging those trying to turn left out of the gas station.
Maureen Macaulay	
	Congestion near Hwy 75

Please provide us with your contact information.	If US 380 is congested, what alternative routes do you take?
Name	Open-Ended Response
Steven Morse	Eldorado
Amy Buckley	I don't. It's usually too late and I'm stuck in the middle of it.
Christian Parrish	Service road or eldorado.
David	Surface streets as much as possible
phillip chaney	720 and 423
Mary Dieter	Virginia & Rockhill Parkways or El Dorado
Dale M Childers	I don't. I take 380
Michelle Koczan	Fishtrap
Valerie Potash	I take Eldorado or Virginia
Dustin Mitchell	No options
Christian Lacroix	Some options using North routes
Dave ling	Virginia parkway
Stephanie Barnes	Hardin to 121
Adam Odegard	Fishtrap. Eldorado Pkwy
Samuel Oh	I do not take alternative routes.
Barbara Pitt	I take 423 to Panther Creek to the DNT. 380 is my only route out of my neighborhood to my work.
Lia Brewer	Monte Carlo
James	
Dianna H	Hwy 5 or just stay on it
Sara Thomas	
Phil	423 south to El Dorado, to the tollway.
Nick Heilig	Virginia
Lisa Dunnette	
Thomas Russell	75s
Leandra Crum	I take the New Hope/Woodlawn
Maureen Macaulay	
	Hardin to White to Hwy 75

Please provide us with your contact information.	What solutions would you suggest in the US 380 Corridor?
Name	Open-Ended Response
Steven Morse	Flyovers. Widen it.
Amy Buckley	Get working on it yesterday! Some new stores are already open!
Christian Parrish	
David	Need a freeway similar to what the 121 is now
phillip chaney	bridge from south poloma to eldorado
Mary Dieter	Blue, red or yellow alignment options.
Dale M Childers	Put a highway over 380 for thru traffic like they do in Japan.
Michelle Koczan	
Valerie Potash	Keep it a 6 lane highway but not a freeway!!
Dustin Mitchell	More trough access
Christian Lacroix	Blue Line
Dave ling	A freeway or flyover but not a toll way. Take some of these high taxes and build a road. We have $500m in highshcool football stadiums but have to pay tolls to drive on most freeways. Its crazy
Stephanie Barnes	Would like to understand all options
Adam Odegard	Widing lanes for future growth. At a minimum of at least three lanes if not four. Keep a consistent speed limit so traffic flows better.
Samuel Oh	I do not know.
Barbara Pitt	Add two lanes to each side of the road.
Lia Brewer	Divide & raise like 121
James	
Dianna H	An overpass to go over hwy75 to release the traffic in that area. Starts before sams and ends around Hardin.
Sara Thomas	
Phil	3 lanes each direction with a HOV/managed lanes option, I dont care if I have to pay tolls. My time is more valuable to me.
Nick Heilig	Blue option
Lisa Dunnette	
Thomas Russell	No clue
Leandra Crum	Medians, limited access.
Maureen Macaulay	Use the blue or yellow plans to move the highway bypass further north.
	Depressed highway with the narrowest possible row in order to preserve neighborhoods along 380

Please provide us with your contact information.	Do you support the building of a freeway regardless of alignment?
Name	Open-Ended Response
Steven Morse	Yes. Just no more tolls
Amy Buckley	YES!
Christian Parrish	
David	Not regardless of alignment but I do support a freeway.
phillip chaney	yes
Mary Dieter	I only support the blue, red or yellow alignment options.
Dale M Childers	No.
Michelle Koczan	yes
Valerie Potash	No, I moved out here 12 years ago because of the quaintness of McKinney.
Dustin Mitchell	No
Christian Lacroix	We need to consider the development of our city while respecting the existing and upcoming residents. a freeway seems to be the best option to take the load of traffic. The blue line seems to be the best options out of the 5.
Dave ling	No, i think we should look at the alignment
Stephanie Barnes	No
Adam Odegard	Yes!
Samuel Oh	No
Barbara Pitt	No
Lia Brewer	Not sure
James	
Dianna H	
Sara Thomas	
Phil	Yes!!
Nick Heilig	Partial to bypass options due to the number of homes and businesses affected if it is in the current alignment of 380
Lisa Dunnette	
Thomas Russell	No
Leandra Crum	YES-in every way shape or form.
Maureen Macaulay	Only if the blue or yellow routes are used. I do not want the expansion of 380. I feel that having a bypass that moves north of the current 380 is a better solution.
	No

Please provide us with your contact information.	If US 380 is constructed as a freeway, which alignment do you prefer? (select all that apply)

Please provide us with your contact information.	Do you have any concerns with the existing US 380?
Name	Open-Ended Response
Jamie Ebnit	The speeding and the right turns with no turn lanes. Terrible when people doing 80 and you're trying to turn and they honk.
Matt Nielson	It gets way to busy especially during rush hour. Also there are quite a few lights so it can take a while to travel
Chuck Kaylor	Congested with too traffic
AC Hamilton	Pressure from local residents/business owners preventing needed road growth from happening
Laura Bushnell	Yes, the speed - traffic doesn't really slow down till from the West till about Lake Forest, and the when you head West it's like Mad Max from Lake Forest.
LK Lytle	Congestion, safety, rock haulers everywhere, speed demons, not "expandable" enough for anticipated traffic.
Angela Figura	Congestion, accidents
Sherrie & Jeff Erickson	Too congested, too many stop lights!
Tiffany moore	Extremely congested going through mckinney and Princeton. Also dangerous!
Steve Mosley	It needs improvements; needs to be widened.
Brandy Laplante	The level of fatalities on this highway are insane. We need more lanes. We also need alternate routes. I live in Paloma creek and the only way to the Dallas N. toll way is on 380 until you get to 423 then you can take that to panther creek. We need an alternate route that would allow residents an option off of this dangerous route.
Harold Robertson	Very crowded and needs less lights/overpasses.
Sherry	
Michael Gillan	Yes, congestion
Lisa Kay Gillan	Lots of traffic especially Trade Days weekend
Cindy Feldt	Safety, pollution, noise
Matt burkhart	Traffic. Accidents. Center turn lanes.
Michelle DeMarco	The speed limit is to high for the amount of raffia and the 18 wheelers don’t stop in time when they encounter a red light.
Luis E Oliveri	Traffic increase
PAT NOLAN	Yes, it needs interchanges, not traffic lights in McKinney
Audrey Dickman	The traffic is outrageous
Mike Fuller	
Judy Tisdale	
Mark Kasperowicz	Yes, no overpasses at intersections; too few lanes.
Jay Robertson	
Andrew	380 needs more Stop lights and needs to be widened in areas
Adriane Villarreal	Traffic is heavy and too fast. Lots of accidents especially with left turns without the assistance of a light. Heavy trucks can't stop at lights easily and take time coming up to speed impacting the flow of traffic.
Jennifer Layman	Need more/longer turn lanes at 380/75 intersection heading east (so much congestion and people driving erratically to not wait in line). Right turn lanes on each light (i.e. to go into Collin college).
Eric Pursell	Too much traffic through little elm area!!

Please provide us with your contact information.	If US 380 is congested, what alternative routes do you take?
Name	Open-Ended Response
Jamie Ebnit	Virginia
Matt Nielson	to get to US 75 I will take Taylor-burke rd.
Chuck Kaylor	Rockhill/Virginia
AC Hamilton	Travel on Virginia St. or Eldorado through McKinney, then north to 380 at a point further west of 75
Laura Bushnell	Virginia and Custer on down to 121
LK Lytle	Fishtrap Road/1st Street in Prosper, or 121 to Bus 121 to I-35
Angela Figura	Panther creek to 423 but end up back on 380 because that's the only way
Sherrie & Jeff Erickson	Bloomdale /hwy 423, Lake Forest, Custer (all alternate routes into Frisco)
Tiffany moore	I take white to Tennessee to bypass the 380/75 intersection.
Steve Mosley	NA
Brandy Laplante	Panther creek, eldorado, but they don't go past 423 for through traffic.
Harold Robertson	
Sherry	
Michael Gillan	Virginia or Eldorado
Lisa Kay Gillan	White
Cindy Feldt	Virginia, Ridge, Harden
Matt burkhart	None available
Michelle DeMarco	Virginia is my only other alternative. I work at off 380 between stone bridge and community.
Luis E Oliveri	Just 380.
PAT NOLAN	
Audrey Dickman	I can't take an alternative route bc of the lake.. the other routes take me way north
Mike Fuller	
Judy Tisdale	
Mark Kasperowicz	Lake Forest to 121. Country Rd 123 to Custer and down to 121.
Jay Robertson	
Andrew	If 380 is Congested I proceed south on Beauchamp or North on Monte Carlo
Adriane Villarreal	There are no alternatives
	Side streets
Jennifer Layman	Either down lake forest and down back roads that lead to Melissa road. Or to Virginia to 75.
Eric Pursell	I don't really have any alternate routes as the only entrance to my neighborhood is off of 380.

Please provide us with your contact information.	What solutions would you suggest in the US 380 Corridor?
Name	Open-Ended Response
Jamie Ebnit	
Matt Nielson	I like the yellow alignment best closely followed by the red
Chuck Kaylor	Dig below (a la 635)
AC Hamilton	Create a highway using the alignment that allows for the most future growth
Laura Bushnell	Divert trucks north or south, too many large trucks.
LK Lytle	Go farther north and build a loop road (think of what PGBT is to 635, with Beltline between: 380 could eventually be a "Beltline").
Angela Figura	Widening, traffic lights, protected medians
Sherrie & Jeff Erickson	To move it further North.
Tiffany moore	
Steve Mosley	
Brandy Laplante	Expand the road to 4 lanes in each direction. Add alternate roads that run parallel to 380 for the full length of the highway. If it needs to be north due to the lake so be it.
Harold Robertson	Like 121 with no lights \ with sound barriers.
Sherry	
Michael Gillan	Bring it up to outer loop standards. It's time has come.
Lisa Kay Gillan	
Cindy Feldt	A northern bypass. Get the 18 wheelers off 380.
Matt burkhart	Widening to 6 or 8 lanes, lowering speed limit through princeton. Medians
Michelle DeMarco	They need to build a bypass further to the north to allow the through traffic and trucks to pass through safely.
Luis E Oliveri	Expand 380
PAT NOLAN	Interchanges, not traffic lights
Audrey Dickman	Build a Hwy that goes across the lake. Increasing the lanes or speed would not seem to work with schools and businesses along it.
Mike Fuller	
Judy Tisdale	
Mark Kasperowicz	Fix 380 on 380. I vote for Green or Pink. Overpasses at intersections. Widen existing 380 where possible.
Jay Robertson	
Andrew	More stop lights, better timed stop lights, and wider roadway in areas. A speed study would be good for Princeton's section of 380
Adriane Villarreal	A highway bypass to the north of existing 380 turning the existing road into Business 380
	Wilmeth street needs to be build between Lake Forest and Hardin. This will ease some traffic going east for 75 on 380.
Jennifer Layman	Solutions listed above, and my alternative route on lake forest to Melissa road as long as they could expand the roads to more than 1 lane and heighten roads so they don't flood. Maybe making 1461 extend to hwy 75.
Eric Pursell	please make it at least 6 lanes and time the lights better.

Please provide us with your contact information.	Do you support the building of a freeway regardless of alignment?
Name	Open-Ended Response
Jamie Ebnit	Yes
Matt Nielson	Yes
Chuck Kaylor	Yes
AC Hamilton	Yes
Laura Bushnell	No!
LK Lytle	No. A new freeway should not take small acreage homes. It should be farther north - maybe between Celina and Prosper tiers.
Angela Figura	Yes
Sherrie & Jeff Erickson	Were not opposed to a freeway, as long as it's not in our back yard.
Tiffany moore	Yes.
Steve Mosley	No
Brandy Laplante	I would need to see what it would entail.
Harold Robertson	Yes
Sherry	
Michael Gillan	No, need to protect the unique qualities of Downtown McKinney. Instead route 380 out east away from downtown and spur new development on the eastern edge of McKinney.
Lisa Kay Gillan	
Cindy Feldt	No
Matt burkhart	No
Michelle DeMarco	No. Building a freeway over the existing 380 would just add more congestion. It would turn into the mess Plano has has for the last 10 years. There is no room to build an 8 lane highway and have access roads.
Luis E Oliveri	Only if you expand 380.
PAT NOLAN	nO
Audrey Dickman	Not if it is along the current 380 path
Mike Fuller	
Judy Tisdale	
Mark Kasperowicz	No. I support Green and Pink only.
Jay Robertson	
Andrew	I support building a freeway but I believe it needs to stay where 380 currently is.
Adriane Villarreal	Yes
Jennifer Layman	I think you need to consider the people who've built their houses north of 380 and have lived there a majority of their lives. My dad spent A LOT of time and hard work building his own house and additional barns on his property and planted trees and landscaped. It devastates me to think that someone could carelessly make decisions about my parents' future and not even come close to compensate them for what they have invested.
Eric Pursell

Please provide us with your contact information.	Do you have any concerns with the existing US 380?
Name	Open-Ended Response
Laura Labunski	Yes. It is horribly accident-prone. I am terrified for my children to drive it someday.
Terry peacock	Many. Too many trucks that don't drive on the right side allowing cars to move. Dangerous intersection at Braswell high school. Many stoplights that are not alway coordinated.
Barbara Probst	No
Jack Sumrall	Yes. Heavy traffic and many trucks.
Joseph	No barriers
Todd Eades	unsafe and too much traffic
Phillips	No
Aaron Longhofer	Timing of lights causes back ups.
Jake Carpenter	No
James Pisanich	Yes. The speed is too fast for a road with frequent traffic lights. However, the time it takes to travel on 380 is way too long for the short distances being traveled. This really needs to become a fully functioning highway with service roads or if the lights will persist then please lower the speed limit to something around 45 mph.
kristine mcguire	
Ronnie	
Betsy Kennon	It's congested, need more lanes.
Daniel Trocke	Way to crowed at Preston rd and 75 HWY.
Quentin Steele	There are no viable east and west boumd roads between Denton and Prosper. Traffic is heavely conjested with no alternate routes 380. My suggestion would be to
Michael Reed	
Enid Pagan	
Chris Burns	Existing issues are with the 1385 traffic light causing such a large back up all times of the day. I also have a concern about the new change to 380/423 EB with the traffic shift of 2 turn lanes, there is not adequate room to shift back to normal traffic lanes after the intersection.
Renold	No
Danielle	West of tollway is horrible. The lights make getting anywhere near impossible. What should be a 5-10 minute drive turns into 20.
j	yes
Taylor witt	Traffic and accidents are terrible and are only getting worse
Stephanie Garcia	
Kimberly Burgess	

Please provide us with your contact information.	If US 380 is congested, what alternative routes do you take?
Name	Open-Ended Response
Laura Labunski	Frontier Parkway or Eldorado
Terry peacock	Fish trap if possible also will cut through the Hollyhock community and go to 423 then panther creek to the tollway.
Barbara Probst	Wilmeth
Jack Sumrall	El Dorado and other e/w roads
Joseph	Monte Carlo
Todd Eades	Virginia Parkway or Eldorado
Phillips	I don't take an alternate route.
Aaron Longhofer	There is no alternative east west freeway this far north.
Jake Carpenter	Virginia and Wilmeth / 1st Ave
James Pisanich	I do not have any options but to take 380. I am stuck in the Paloma Creek hoa off of 380. The only exit we have is 380. I am strongly considering selling my home this November once I will have been there 2 years to move closer to work. It takes me 30 minutes to an hour depending on traffic to travel 10 miles down 380 towards loop 288 every day to and from work. MY work commute is right at 30 miles but often takes me 1 hour and 15 minutes to 2 hours each way. 2/3's to 3/4's of that time is dedicated to the awful 380 congestion during rush hours in the morning and afternoon.
kristine mcguire	
Ronnie	
Betsy Kennon	Fishtrap
Daniel Trocke	I normally go north at Hardin and cut over to 75.
Quentin Steele	Fishtrap Rd
Michael Reed	Hardin or Community to cross, then Wilmeth or White to get to 75.
Enid Pagan	
Chris Burns	There are no options between Denton and DNT. Fishtrap is technically an option but often worse than 380
Renold	
Danielle	423 and fish Trap road
j	
Taylor witt	Eldorado or Virginia
Stephanie Garcia	
Kimberly Burgess	Navo Rd North to Fishtrap

Please provide us with your contact information.	What solutions would you suggest in the US 380 Corridor?
Name	Open-Ended Response
Laura Labunski	To eliminate streetlights and to pattern it after George Bush or Sam Rayburn-make it a tollway
Terry peacock	I think we need four lanes to accommodate future growth. Overhead lanes at the high school
Barbara Probst	Overpass at 75 and 380 to alleviate congestion at that intersection. Otherwise, nothing
Jack Sumrall	A new e/w highway thru less populated areas that would relieve 380 of some car traffic and hopefully much truck traffic
Joseph	Service road
Todd Eades	A bypass north of McKinney
Phillips	Widen the road; make it a toll road
Aaron Longhofer	Build a other east west freeway 10 to 15 miles north of 380.
Jake Carpenter	
James Pisanich	1. make it highway with service roads. 2. put in overpass roads that will allow traffic to continue to flow without the need to stop at a light (see Preston and 380). 3. Add addtional lanes to all surrounding roads such as FM-720 that is only 1 lane each way and really needs to be 3 lanes each way with an additional turning lane. 4. Additional roads that do not exist to for those living on 380 to get to the nearby cities/towns. For example 380 and FM-423 is continuously clogged because that is the only way that about 10,000 homes in the area have to get to Frisco, Little Elm, Plano, Dallas etc. We have no other choice but to sit through the congestion. We previously had access to "Fishtrap" road as a parallel to US-380 but that has since been closed down to prevent through traffic and only made the traffic on 380 worse. I find it rediculous that we only have FM-423 and FM-720 as routes to Little Elm from 380. There needs to be an additional road that is parallel to 423 and 720 (north/south access).
kristine mcguire	
Ronnie	
Betsy Kennon	Needs to be 4 lanes.
Daniel Trocke	Make a by pass that is a little north. Like at 123rd and Lake Forest. Or make Frontier Parkway go all the way through to 75.
Quentin Steele	1. Develope Fishtrap road west of the tollroad to 4 or 6 lanes and have it connect straight thru to Hwy 377. 2. Widen 380 to 6 lanes. 3. Connect Rockhill Pkwy from Tollway to 423.
Michael Reed	
Enid Pagan	
Chris Burns	The current plan appears to be a great option but by time it completes in 7 years with the current proposal, it could too little too late? We do need more options north and south of 380 to ease local traffic. The lake impacts quite a bit obviously, but the lack of side roads connection east and west is an issue
Renold	Flyovers,
Danielle	Freeway west of the tollway connecting to tollway while not being to close to the existing homes and ruining the neighborhood. Freeing up 380 for neighborhood use.
j	
Taylor witt	On ramp off ramp system to bypass lights
Stephanie Garcia	
Kimberly Burgess	

Please provide us with your contact information.	Do you support the building of a freeway regardless of alignment?
Name	Open-Ended Response
Laura Labunski	
Terry peacock	Absolutely. A freeway is desperately needed.
Barbara Probst	No
Jack Sumrall	No
Joseph	Yes
Todd Eades	YES
Phillips	No
Aaron Longhofer	Yes
Jake Carpenter	No
James Pisanich	yes, build a freeway and build it now. Please please please build a freeway. I would prefer that is is in the same location as the current US-380 or if not then the access to said new freeway be very close.
kristine mcguire	
Ronnie	No
Betsy Kennon	Yes
Daniel Trocke	Yea
Quentin Steele	Yes! Toll Free!
Michael Reed	Yes, 380 should probably bypass University (which should operate like Business 380).
Enid Pagan	
Chris Burns	I do support a freeway
Renold	Yes
Danielle	Yes
j	
Taylor witt	Yes
Stephanie Garcia	
Kimberly Burgess

Please provide us with your contact information.	Do you have any concerns with the existing US 380?
Name	Open-Ended Response
Gracette Baltonado	traffic
Vanessa Brazier	Always congested and always traffic! Takes me almost an hour to drive 8 miles
Heather Leo	Traffic
Terry Butler	congestion
Nancy Bridges	Not enough officers patrolling it. Speeders and stoplights. Reduce the speed limit to 45 or 55.
Tami Haynes	
Megan Coffelt	Yes it is VERY congested. In the mornings and evenings the traffic easily adds 20-30 minutes to my commute. Up to over an hour if there is a car accident or construction.
Chris McGuire	Congestion, red light cameras causing accidents, minimal times for left turns.
Mitch Stouffer	Traffic and speed sufficient to get east to west quickly.
Adam Berry	Increasing congestion and stop lights. There are no alternatives.
Amberly	Main concern is it only a 2 lane road.
	Too many stoplights.
Debra Weatherford	Congested
Cindy Amundson	The lights need to be synced better.
Steven Doss	Access to existing (and currently under construction) businesses in McKinney (East and West of US 75).
Heather Burns	This proposed freeway does NOTHING to fix the real issue, which is WEST of the toll way. To the East of the toll way they already have 3 lanes going each way. You need to put your resources to where they are really needed.
Erik Gillespie	Recently, Middle “turn” lane is abused as a passing lane leading to fatal head on crashes. Signals are not synchronized for continuous travel.
Noah Bretz	Too congested, especially in Princeton (where I live)
Tommy Lovell	380 should stay on 380 going through Farmersville and no diverted around the city which will have a negative impact on the downtown area.
Heather Burns	Traffic flow is a night mare!
Mike miles	
Michael Marshall	To assist with my 380 commute and others. 18 wheelers should only be allowed in center lane unless turning at a particular intersection on 3 lane wide and left lane on 2 lane wide. This would free up more travel lanes
Chad Teague	I really have zero concerns with 380 and I drive on it daily. If it is backed up for some reason, I take Hwy 5, 121, or I-75.

Please provide us with your contact information.	If US 380 is congested, what alternative routes do you take?
Name	Open-Ended Response
Gracette Baltonado	
Vanessa Brazier	423 or through Holyhock
Heather Leo	City Streets
Terry Butler	back roads
Nancy Bridges	Hwy 5 to Exchange (S) or 121 (N)
Tami Haynes	
Megan Coffelt	If I can't get to the tollway quick enough I will take 423.
Chris McGuire	I don't have much of an option. I have to take 380.
Mitch Stouffer	121
Adam Berry	US 75 and TX121 or 82 in Sherman.
Amberly	Depends on where I am going. Sometimes there is not an alternative.
	428
Debra Weatherford	None available
Cindy Amundson	I take Colt or Custer thru a lot of farm roads to get home. I would take highway 5; but, it is being worked on and is highly congested.
Steven Doss	White Street from Community Ave to US 75 in McKinney
Heather Burns	
Erik Gillespie	Fm546 to Bridgefarmer. County Road 407 to Monte Carlo
Noah Bretz	Bridgefarmer or Airport/Industrial
Tommy Lovell	
Heather Burns	423 to Panther Creek
Mike miles	There really aren't any alternate routes off 380. If you're stuck trying to get to DNT southbound, 423 is the ONLY way.
Michael Marshall	I don't. It's 380 or 380.
Chad Teague	Hwy 5, 121, I-75

Please provide us with your contact information.	What solutions would you suggest in the US 380 Corridor?
Name	Open-Ended Response
Gracette Baltonado	adding more lanes
Vanessa Brazier	I would of suggested y'all thought about the traffic before building more and more houses and businesses. At this point now what can y'all do? Not much really.
Heather Leo	Widen the road
Terry Butler	widen existing, overpasses at major intersections
Nancy Bridges	Take the tolls off of Sam Rayburn so all people can use it.
Tami Haynes	
Megan Coffelt	More lanes, better timing on stop lights, and more entrances and exits for Paloma Creek South.
Chris McGuire	Widen or add more lanes
Mitch Stouffer	Unsure
Adam Berry	A limited access highway connecting Denton to McKinney
Amberly	
	Flyovers and a north Collin county loop ASAP.
Debra Weatherford	Good luck
Cindy Amundson	Shift it farther north that's where everyone is moving because the housing is still affordable.
Steven Doss	'Bypass' solution north of developed McKinney. Expansion of existing US 380 is not feasible due to the high level of development.
Heather Burns	
Erik Gillespie	Expand to 6 lanes across with cemented medians and dedicated turn lanes, or eliminate center turn lane From SH5 to SH78
Noah Bretz	Keep existing road, build new freeway around towns
Tommy Lovell	
Heather Burns	It needs to be widened to cover all the new homes/businesses going in. Traffic is only going to continue to increase.
Mike miles	I hate center medians but they might be the only option.
Michael Marshall	Alt route needs to be a straight corridor from one end to the other. From Farmersville to Denton.
Chad Teague	I don't really see a problem with 380. Like any roadway, it gets a little congested at 5:00 pm, but not to the point that we need to put money into fixing a problem that doesn't exist.

Please provide us with your contact information.	Do you support the building of a freeway regardless of alignment?
Name	Open-Ended Response
Gracette Baltonado	yes
Vanessa Brazier	Depends on where it runs
Heather Leo	Yes
Terry Butler	no regardless of alignment
Nancy Bridges	No. We have Sam Rayburn, although it is not free.
Tami Haynes	
Megan Coffelt	If that's what is necessary, yes.
Chris McGuire	Sure
Mitch Stouffer	Yes
Adam Berry	Yes
Amberly	
	Yes
Debra Weatherford	Whatever works
Cindy Amundson	Yes
Steven Doss	No. A freeway (or other LAR) should only be constructed as a bypass. You missed the boat on the current alignment being a LAR).
Heather Burns	
Erik Gillespie	Yes alwhile maintain current alignment as a "backup" way to navigate in case of the freeway shut down.
Noah Bretz	Yes
Tommy Lovell	
Heather Burns	Yes. While I don't look forward to the nightmare of the construction, it needs to be done ASAP!
Mike miles	No.
Michael Marshall	No, and I don't support any idea of toll.
Chad Teague	I do not support building a freeway. According to the McKinney Chamber of Commerce, approximately 100,000 people leave McKinney every day to go south towards Dallas/ Plano. Most of the solutions presented for 380, and 380 itself, go East to West where relatively very few people are traveling. I know there is growth to the north and east of McKinney, however, those individuals are going to be traveling north to south and not east to west. I have property and a business, La Cour Venue, along the red and yellow options. These options don't really seem to divert the flow of traffic at all in my opinion. They are simply bypassing McKinney altogether and not providing an efficient solution to what some people view as a problem. If 380 is not widened, people are still going to congest the area by going to those businesses. The red and yellow options would destroy my business: an event venue where patrons are seeking something outside of the city away from traffic and amongst the trees McKinney has built their reputation on all these years.

Please provide us with your contact information.	If US 380 is constructed as a freeway, which alignment do you prefer? (select all that apply)

Please provide us with your contact information.	Do you have any concerns with the existing US 380?
Name	Open-Ended Response
Elizabeth	Accidents and traffic
Nicholas Linscomb	Center lane traffic and turning lanes.
Abdelilah	
M O	
Teresa Johnson	The lights are not timed correctly. Also, the road is not capable of servicing the high volume of traffic. It's only going to get worse with new housing development.
Clint Jenkins	Too much congestion
Josh Deen	Yes. Not enough lanes for the volume of traffic. Lights poorly timed.
Riche	It's slow due to all the lights that have been added over the last decade. But I think when the current over pass construction near preston/toolway is done it will greatly help. Maybe just add more overpasses along other parts of 380.
Tiffany Fisher	
Zach Jackson	It’s too small for the amount of traffic and the traffic lights are not configured for optimal traffic thru put.
Justin Kuntz	Heavy traffic flow. Cars travel within CTWTL at speed when traffic backs up; causing dangerous conditions for cross traffic.
Harun Celik	
Norman Self	Yes
Francisco Penalver	Yes. 380 is just a two lane road on each side. My biggest concert is the population is increasing dramatically and my 10 minute commute to work is easily 30 minutes on most days. Second, my other concern is the amount of accidents that happen on the stretch of McKinney and Princeton. Cars frequently go from one direction (such as east) and wonder on to the opposite side. It seems like monthly there are fatal crashes. Perhaps a separation wall is needed as well as an expansion.
James Messick	
Paige Scott	Over crowded, slow
Wade Ledbetter	Too many stop lights from Hardin to 75 going east-bound. Traffic backs up east bound past Community because the entrance from 380 to Towne Crossing was poorly planned and there isn't enough time for east-west bound traffic to go through the intersection.
Whitney Hale	Yes, congestion at 380 and hwy 75
Amanda	Keeping up with traffic concerns. Every time y’all widen the roads, it wasn’t enough and then y’all have to start all over again. Expand more than enough! Speed limits too! Too many accidents on 380. It does NOT need to be a toll road.
Ron Tabor	Yes, to much traffic.
Leah Griffin	It is dangerous due to unprotected driveway entrances into facing retail locations and very short protected left turn lanes that over fill during peak driving. Traffic lights are NOT synchro for optimum traffic flow. Additionally, reflective paint and signage not used to identify islands making turning a slower process as drivers need to educate themselves on the fly as each turn is sharp and inadequately flagged. Curbs should be painted with white reflective paint for easy sight and avoidance. Islands at drive way entrances should be set back into the throat so wide turns can be accommodated. Drive ways into retail establishments should re-routed to become side entrances as much as possible to minimize unexpected braking and near rear end collisions can be avoided. I think best practices from other high growth areas should be leveraged in evaluating the best way forward for correcting 380 congestion challenges. I think outside the box thinking is required such as smart technology to improve traffic flow.
Nate Kuhns	Interchanges at tollway and 75 need improvements
David White	Congested during busy hours

Please provide us with your contact information.	If US 380 is congested, what alternative routes do you take?
Name	Open-Ended Response
Elizabeth	121
Nicholas Linscomb	
Abdelilah	
M O	
Teresa Johnson	I don't have an alternative. Fishtrap is worse.
Clint Jenkins	Fm 1827 Fm 1377 Fm 982
Josh Deen	Fishtrap Rd, Panther Creek Pkwy, Rockhill Rd
Riche	None. All other routes r just as conjested.
Tiffany Fisher	
Zach Jackson	There are none :(I live off of 380
Justin Kuntz	Myrick Rd to Bridgefarmer to FM 546 to Airport Dr to US 380.
Harun Celik	
Norman Self	I just stay on 380 and wait it out.
Francisco Penalver	546
James Messick	
Paige Scott	I have none.
Wade Ledbetter	White, Virginia, Eldorado, Taylor Burk, Wilmeth
Whitney Hale	Virginia Pkwy
Amanda	Back roads (fishtrap) if possible
Ron Tabor	Virginia Pkwy or El Dorado.
Leah Griffin	Panther Creek, Elderado Parkway
Nate Kuhns	Virginia
David White	No

Please provide us with your contact information.	What solutions would you suggest in the US 380 Corridor?
Name	Open-Ended Response
Elizabeth	
Nicholas Linscomb	
Abdelilah	
M O	
Teresa Johnson	Maybe some more development of roads going east/west. A back way out of Paloma Creek to 423 would be nice I realize the stupid lake is in the way.
Clint Jenkins	Make it a limited access roadway or add more lanes. Make over passes for thru traffic to avoid stopping at the red lights
Josh Deen	Overpasses over SH289 and DNT, as well as expanding to 8 lanes
Riche	Add more overpasses at mayjor instersection to avoid all the lights.
Tiffany Fisher	
Zach Jackson	Turn it into a highway and remove the stop lights.
Justin Kuntz	Raised median with LTL; 6 lanes of traffic; right turn lanes at intersections
Harun Celik	
Norman Self	Widen 380 or double deck it like I35 in Austin
Francisco Penalver	An expansion of 380, as well as an alternate route to bypass McKinney.
James Messick	
Paige Scott	To widen 380
Wade Ledbetter	Close Raytheon entrance on US 380 and remove that traffic light on US 380. Remove the stop light at RaceTrac and put in a permanent median to prevent left turns. Move the stop light further eastward to the other entrances to Towne Crossing/Cameron Crossing. Provide two left turn lanes at the new eastbound entrance into Towne Crossing. Provide a protected right-turn lane from NB75 service road to EB380.
Whitney Hale	
Amanda	Widen and make some overpasses so most traffic can go over all of the traffic signals while others cAn go through those signals more easily.
Ron Tabor	BUILD THE BYPASS!
Leah Griffin	I want 380 to be improved with the various suggestions that make it a viable with on ramps and off ramps and a combination of my above suggestions. I don't like a double decker approach as I have seen the property value and cut off from community challenges.
Nate Kuhns	Build out roads north and south to be like Main St in Frisco, 4-6 lanes for Virginia, 123, and frontier. Extend 123/Wilmeth and Frontier to go over to 75.
David White	Widening 380

Please provide us with your contact information.	Do you support the building of a freeway regardless of alignment?
Name	Open-Ended Response
Elizabeth	
Nicholas Linscomb	
Abdelilah	Yes
M O	
Teresa Johnson	Maybe.
Clint Jenkins	YES
Josh Deen	Yes.
Riche	Not really
Tiffany Fisher	
Zach Jackson	Yes
Justin Kuntz	Yes. Wrecks are increasing in frequency and US 380 needs to either be widened or a new route needs to be developed.
Harun Celik	
Norman Self	No
Francisco Penalver	yes.
James Messick	
Paige Scott	I'm not sure.
Wade Ledbetter	Not particularly. I think the problem is more due to poor traffic flow in and out of Towne Crossing and Cameron Crossing and not enough time on the east-west lights going under 75.
Whitney Hale	
Amanda	Not sure what this question means. Yes, a freeway would be great depending on where it is.
Ron Tabor	Yes.
Leah Griffin	I think the plan should include the immediate planning and implementation of the Outer Loop. I have lived in Los Angels and I know first hand what real traffic congestion looks like. I also know that you will do some "crazy" thing like drive 11 miles north out of your way if it saves you time. In LA you learn that time is money and if driving a little out of your way is actually faster you do it. You don't measure your commute in miles in LA you measure it in drive time! Let's get the Outer Loop going so we can leverage our opportunity to get cheap land and before we encounter the outer edge of growth and can actually plan a optimum route! In addition fix the existing all be it an imperfect 380 to our very best. I don't support a "By Pass for 380 in any shape.
Nate Kuhns	I support the idea of connecting 75, future tollway and 35 North of current developments around Laud Howell. I do not support a bypass around current 380 as it would hurt local business and put an unneeded highway through and next to current landowners property.
David White	No

Please provide us with your contact information.	If US 380 is constructed as a freeway, which alignment do you prefer? (select all that apply)

Patti calhoun	Commuter					A couple times a year

Please provide us with your contact information.	Do you have any concerns with the existing US 380?
Name	Open-Ended Response
Rob Carpenter	
Dawn Ricks	The stretch of 380 going west from Custer to Coit not having a stop light into the adjacent neighborhood seems dangerous, consideringnrhw speed limit. Coming East from Coit to Custer into the Prestwyck neighborhood will end up dusastrous sooner than later.
Morgan Bird	No
Bennett Ayers	Needs better pedestrian crossings
Brenna Ballarino	No
William Bainum	getting to be too many stoplights along 380. Travel time is getting longer
Amanda Gilbert	
Brandi Kerns	No
Micah McDaniel	Way too many stoplights, especially between Custer/75
Robert J Simpson	No
Mel Bird	
Keith & Marcie Roeschley	Traffic has increased. When the road was widened last year we were led to believe that no more widening would occur and that the speed limits were to be dropped.
Lisa DeVine	
Tram Yeany	Too many accidents, not a lot of sidewalks or lights protecting pedestrians if they have to go across 380. 380 before First Monday needs turn in lanes, more turn in lanes and lights.
	Yes
Michael Gage	Too many stop lights.
Nick Mills	Too busy, too many lights.
Lisa CeBallos	
Sharon Eaves	The speed limit varies too much and traffic gets very congested at a few locations. The traffic lights also seem designed to slow everything down.
Eric trahan	
	Congestion. Many accidents. New businesses going up, concerns for same traffic issues as Walmart/Custer/Lowe's area in Prosper/McKinney where I witness an accident about 75% of the time I am in that areas.
Korey Scott	It is congested, but that is expected with growth.
Robin Ward	Insufficiently sized to accommodate the growth and current/future traffic from west McKinney to I35E.
Rebecca Hawkins	It does get very backed up during busy hours.
R Turner	Too much traffic and too few safe access points
Patti calhoun	

Please provide us with your contact information.	If US 380 is congested, what alternative routes do you take?
Name	Open-Ended Response
Rob Carpenter	Virginia Avenue, Wilmeth
Dawn Ricks	Rockhill/Virginia
Morgan Bird	Virginia
Bennett Ayers	Wilmeth
Brenna Ballarino	To get to south of McKinney I take 380 & go down lake Forrest to 121 or take 380 or backroads to the Dallas tollway
William Bainum	Rockhill road and FM423
Amanda Gilbert	
Brandi Kerns	Nothing
Micah McDaniel	Eastbound - Wilmeth to 75; or 380 to Harden to Virginia (or White) Westbound - 75 to Wilmeth
Robert J Simpson	I don't find it congested honestly.
Mel Bird	
Keith & Marcie Roeschley	We have no alternative. There is only one way out of our neighborhood.
Lisa DeVine	Lake Forest to 121
Tram Yeany	Lake Forest to 121, Lake Forest to Eldorado, Lake Forest to Virginia, 380 to Hardin to White to 75
	There is no alternative route from north 75 to Custer st
Michael Gage	
Nick Mills	El Dorado, Virginia, White
Lisa CeBallos	
Sharon Eaves	There are not alternate routes unless an accident has shut down 380 and then I take small side roads to get around the accident.
Eric trahan	
	Depends. I'll take Coit/Preston/Stonebridge/Ridge/Lake Forest/Custer to Virginia. Occasionally I will take Preston or Custer to 1461 if I would rather take a more scenic route.
Korey Scott	I take the back roads from Lake Forest/Heatherwood neighborhood, Community, Prosper Trail.
Robin Ward	Rock Hill Road if I am going east. Going west there are no acceptable alternative routes. The traffic from Prosper to Denton is so bad, I just avoid going west at all.
Rebecca Hawkins	My typical route to work is Lake Forest down to 121 rather than 380 to 75.
R Turner	South to Eldorado or Virginia Parkway
Patti calhoun	

Please provide us with your contact information.	What solutions would you suggest in the US 380 Corridor?
Name	Open-Ended Response
Rob Carpenter	Traffic light upgrades to ones with artificial intelligence that can use adaptive technologies. Adapt curbing changes, turn lanes, limit access to and from 380 (i.e. interchange with 75 in which a dozen right turns exist into shopping areas/gas stations/etc)
Dawn Ricks	From DNT East add a thorough fare and expand the lanes. Also, cominhg from Little Elm to DNT expand the lanes.
Morgan Bird	Anywhere BUT Erwin Park!
Bennett Ayers	Widen existing route or add an upper level
Brenna Ballarino	Opening up Virginia wider so we have another way to travel parallel to 380
William Bainum	include provisions for light rail in the ROW for any future alignments.
Amanda Gilbert	
Brandi Kerns	
Micah McDaniel	
Robert J Simpson	I would suggest that the Pink or Green Route be developed if it comes to that
Mel Bird	
Keith & Marcie Roeschley	Build a new highway further north. Drop the speed limit as we were told was going to happen so that traffic would move to the new highway or use 121.
Lisa DeVine	Keep 380 existing and update the road and lights.
Tram Yeany	4-5 Lanes plus turning lanes and more lights, lower the speed limit. North of Bloomdale
	Direct route from Sherman to west McKinney
Michael Gage	
Nick Mills	Solutions similar to what is being done at the intersection of 380 and 289; overpass bridges over major intersections. Namely the DNT intersection. 2 lights 50 feet from each other? Come on, now, who thought that would be a good idea.
Lisa CeBallos	
Sharon Eaves	There needs to be 2turning lanes at airline. One of the existing straight lanes could be turned into turn left or go straight. 60 is too fast for most of the road between Princeton and McKinney, especially when there are so many businesses.
Eric trahan	
	Prefer to widen the lanes and not add more business to the smaller roads (like 1461/Custer)
Korey Scott	A loop around the north part of McKinney, Celina, Prosper.
Robin Ward	Slower controlled growth and faster expansion of 380 although neither options are probably possible.
Rebecca Hawkins	I haven't given it much thought.
R Turner	Expand 380 while access is still available
Patti calhoun	

Please provide us with your contact information.	Do you support the building of a freeway regardless of alignment?
Name	Open-Ended Response
Rob Carpenter	An expedited path is needed. Whether that is a freeway or limited access roadway (think point to point with flyovers at key north/south interchanges).
Dawn Ricks	No
Morgan Bird	It depends on the damages it would cause and how it would also effect the people in its path. If it's impact is negative, it's jot worth it. The very people that are being "helped" are in the end being the ones being hurt.
Bennett Ayers	yes
Brenna Ballarino	No
William Bainum	yes
Amanda Gilbert	
Brandi Kerns	No
Micah McDaniel	No
Robert J Simpson	No.
Mel Bird	
Keith & Marcie Roeschley	No.
Lisa DeVine	Yes
Tram Yeany	
	Yes
Michael Gage	
Nick Mills	As long as it's free. NO MORE TOLLWAYS. And if there will be a tollway, build it similar to how 635 is designed.
Lisa CeBallos	
Sharon Eaves	Yes, this traffic problem is going to continue to worsen unless a freeway is built soon.
Eric trahan	
	Not regardless of alignment.
Korey Scott	Yes, however, putting the bypass behind the Heatherwood neighborhood for only 2 miles will not be beneficial. That traffic will still spill out and congest at Custer and 380. We need a better option.
Robin Ward	Yes.
Rebecca Hawkins	I would certainly consider a freeway, but I wouldn't say "regardless of alignment".
R Turner	No, both issues must be looked at in unison
Patti calhoun	

Please provide us with your contact information.	If US 380 is constructed as a freeway, which alignment do you prefer? (select all that apply)

Please provide us with your contact information.	Do you have any concerns with the existing US 380?
Name	Open-Ended Response
Jon Powell	It has too many traffic lights not allowing for traffic flow and creates rediculous travel times
Aaron Hendricks	People drive too fast for the amount of traffic/stops. US 380 is becoming too populated with residential and commercial developments for people to be driving 60-70mph.
Linda Elliott	
James Theo Teague	
Renee Finch	
Mohamed	Not enough lanes for the population.
Ross Edman	After living in Dallas I think 380 is one of the better roads I've travelled in the metroplex. The places I notice the most problems are by 75 and CCCC. Those lights back to back are necessary but it gets so congested even in off hours. In the last 6 months I have also noticed the commute time has almost doubled just because of traffic on 380 and tollway. I am concerned over the next 3 years that could become even worse.
James Kaue	Will soon need be a huge population and need of expansion
Ed lee	Yes, should have planned ahead. Made a divided highway with overpasses and service road.
Joe Jenkins	
Jenny Claggett	
Shirley Dietz	Traffic, congestion,
Shane LeClair	Congestion
Christian Satterthwaite	Too many accidents, too much traffic to and from work.
Brad Johnston	Congestion is getting worse.
Angela shivers	Yes. However, my concerns are mentioned as part of this study.
Felipe T	
Jason Vaughn	Fatal Accidents & Traffic.
Breana Marie Haag	Congestion due to traffic lights and high volume of cars on the roadway due to traffic.
Mark Carroll Stevenson	TRAFFIC
Quinton Mioch	Large number of heavy construction vehicles. High traffic volume in close proximity to homes, school routes. Speeding. 380/75 junction is always severely congested. Concerned over how we will access all new businesses under construction in that area.
Lauren Brock	It is congested sometimes.
Elise Williams	No
Kate Watson	Lights could be timed better for better flow, and flyovers to alleviate congestion at major intersections would be great.
Kristina Skoyles	There are too many traffic lights. It is extremely dangerous and congested.

Please provide us with your contact information.	If US 380 is congested, what alternative routes do you take?
Name	Open-Ended Response
Jon Powell	Virginia parkway Eldorado parkway The problem with these are they both have school zones
Aaron Hendricks	
Linda Elliott	Wilmeth to I-75
James Theo Teague	
Renee Finch	
Mohamed	Eldorado pkwy
Ross Edman	Just sit in traffic. No alternative routed unless I take Custer or Coit but those are slow.
James Kaue	I have to take 380
Ed lee	Not really any good alternatives
Joe Jenkins	
Jenny Claggett	
Shirley Dietz	1461 as far east as I can
Shane LeClair	75 or 121
Christian Satterthwaite	Bridgefarmer
Brad Johnston	Go south to 121 or take other East-West routes (Virginia Street, Main Street, Eldorado).
Angela shivers	
Felipe T	
Jason Vaughn	121
Breana Marie Haag	None, it's the only road for most sections between Denton and the McKinney areas
Mark Carroll Stevenson	ANY I CAN FIND
Quinton Mioch	Custer road to 121 westbound
Lauren Brock	I take 380 anyway, sometimes I go south to white.
Elise Williams	None
Kate Watson	I usually just wait it out unless my destination is close and accessible by side streets.
Kristina Skoyles	Main Street and Preston

Please provide us with your contact information.	What solutions would you suggest in the US 380 Corridor?
Name	Open-Ended Response
Jon Powell	Create through way with no traffic lights allowing traffic to flow uninterrupted. Look at hwy 1 north of Boston as an example.
Aaron Hendricks	Build a new freeway as far north in Collin County (Celina) as possible. No part of the current 380 should become a freeway. Once built, trucking should be limited along US380 to prevent US380 from becoming a freeway.
Linda Elliott	Turn in lanes to businesses, timing of the lights, overpasses at the major intersections.
James Theo Teague	
Renee Finch	
Mohamed	Increasing lanes and adding a small median to prevent accudents
Ross Edman	Right now, I don't have many. I didn't know what to expect from this survey.
James Kaue	Enlarge and increase speed
Ed lee	
Joe Jenkins	
Jenny Claggett	Expansion of the existing 380 - not the alternate bypass proposal involving CR123 or Wilmeth.
Shirley Dietz	Freeway? Idk
Shane LeClair	Expand expand expand
Christian Satterthwaite	More lights, more lanes
Brad Johnston	Keep 380 on the present path but expand the number of lanes.
Angela shivers	
Felipe T	
Jason Vaughn	Overpasses
Breana Marie Haag	Overpasses at major intersections to avoid the build up of traffic
Mark Carroll Stevenson	PUT THE "FREEWAY" UNDERGROUND - MAKE SOME TOLL LANES FOR EXPRESS ACCESS AND MAKE SURE YOU ALLOW FOR EAST/WEST MASS TRANSIT IN SOME FORM (SUBWAY, RAIL or BUS). MAKE SOME BICYCLE ONLY LANES SO LOCAL PEOPLE CAN NAVIGATE THE STRUCTURE WITHOUT IMPEDING TRAFFIC.
Quinton Mioch	Build a loop to divert traffic north from current 380 from west of Custer road to east after 75
Lauren Brock	Make 380 a true highway. The city and businesses are built up around it being the main highway. So many new businesses are banking on it. And it doesn't ruin other more beautiful parts of mckinney with another highway.
Elise Williams	Would like to see the freeway diverted to the existing outter loop north of 1461
Kate Watson	Improvements to existing 380 like flyovers at big intersections, widening & more turn lanes where possible, and the timing of the lights to be improved for better flow.
Kristina Skoyles	Turn it into a limited access highway. This will bring more growth to the area and improve land values regionally.

Please provide us with your contact information.	Do you support the building of a freeway regardless of alignment?
Name	Open-Ended Response
Jon Powell	No, alignment matters to me.
Aaron Hendricks	No. Our neighborhood backs up to US380 near Coit Rd, so I do not want 380 to turn into a freeway. There's already enough traffic, and accidents frequently occur due to the high-speed nature of traffic flow. I support the building of a new freeway as far to the north as possible so traffic is eased on 380. I would prefer 380 to resemble Preston Rd (45mph limit) rather than a freeway. I would like to lower the speeds on the current 380 once a new freeway is built to the north.
Linda Elliott	No
James Theo Teague	
Renee Finch	
Mohamed	Yes as long as it doesn't turn into a tollway
Ross Edman	Worried it would be too close to my house and drive property value down but I also see the value in it. I'm torn about supporting it. I do not support a toll road. Toll roads are outrageous in DFW with no public transportation alternatives existing.
James Kaue	No I want aligned on 380
Ed lee	Yes
Joe Jenkins	
Jenny Claggett	I support expansion of the existing 380.
Shirley Dietz	No. Alignment choice makes all the difference
Shane LeClair	No. I'd enhance/expand/repurpose existing roadways
Christian Satterthwaite	Yes
Brad Johnston	No. If the "alignment" involves re-routing 380 closer to residential areas than it already is, I am against any change. You should focus on completing the new loop between Celina and Prosper first and foremost.
Angela shivers	Yes
Felipe T	
Jason Vaughn	No
Breana Marie Haag	Please, give me a freeway and fix the road no matter what it takes
Mark Carroll Stevenson	YES
Quinton Mioch	No.
Lauren Brock	I support it, but not at the cost of McKinney residents who have chosen where they want to live relative to the current 380, and whose property values would go down with many of the other alignments. So, I do not support regardless of alignment.
Elise Williams	I do not want it on road 123
Kate Watson	No, unless it's the CC Outer Loop. I see no need for 380, a bypass 2m north, then an outer loop 2m north of that. Scrap the bypass plan, improve existing 380 footprint, expedite the outer loop plan, and leave McKinney unique by nature!
Kristina Skoyles	No. There should not be a bypass option. The freeway should be built on the existing road.

Please provide us with your contact information.	If US 380 is constructed as a freeway, which alignment do you prefer? (select all that apply)

Please provide us with your contact information.	Do you have any concerns with the existing US 380?
Name	Open-Ended Response
	Yes. Too congested through McKinney into Frisco
Jeff Gustafson	Traffic
Pam Whitaker	No
Elizabeth Arnold	Yes, too many large trucks, traveling too fast.
Sierra Smith	
Lyn innes	
Katie Schroeder	The traffic lights at 380/community to 75 are timed poorly. One turns green and the next immediate one is red.
Jatinder Judge	No
Valinda Bruce	Too many traffic lights!
Reid Bush	Lights slow traffic to a crawl, no safe Right turn lanes, crowded left turn lanes
Hillary dietrick	
Kristina Yarbrough	The community has outgrown it and it needs to be a highway with at least 3 lanes each way. The biggest concern with that is it will take years to build correctly.
Amy Tackett	No
S inman	
Me west	Speeds, no middle divider between oncoming traffic
Katie Morris	Safety; over-crowding of cars.
Michael Hancock	Safety concerns due to no median, stoplights, lots of entrances/exits,
Kristen Johnson	No other than its busy
Kiran Patel	No
Ed Kaylor	Traffic flow at major intersections. With new Prosper HS @ Coit and 380 this will impact traffic at this intersection at peak times.
Stanton Lauderdale	
Oliver	Too much traffic
Michelle Hall	
Kathy Thedford	Too many lights
Kitty Turner	Truckers
Trent Patterson	Travel time
James patrick	Too many vehicles, too much traffic
Ryan Dahle	No, it is exactly what I thought it was going to be when I bought my home.

Please provide us with your contact information.	If US 380 is congested, what alternative routes do you take?
Name	Open-Ended Response
	Custer south to panther Creek or eldorado
Jeff Gustafson	Virginia
Pam Whitaker	I don’t
Elizabeth Arnold	Virginia
Sierra Smith	
Lyn innes	
Katie Schroeder	Lake forest to 121, Hardin to Virginia to 75.
Jatinder Judge	Lake forest and virginia
Valinda Bruce	Back roads/country routes
Reid Bush	546
Hillary dietrick	
Kristina Yarbrough	Virginia/Rockhill; Eldorado; Panther Creek; in Prosper - fish trap; first street was n prosper.
Amy Tackett	Virginia
S inman	
Me west	Suck it up and drive it anyway
Katie Morris	I drive from Decatur to McKinney/Frisco often. There's usually not another alternative unless I know the back roads or take the toll.
Michael Hancock	Eldorado
Kristen Johnson	75 to 121
Kiran Patel	121 to 35
Ed Kaylor	Virginia, Preston, Custer.
Stanton Lauderdale	Virginia or Custer. Neither are good options
Oliver	Virginia. Eldorado
Michelle Hall	
Kathy Thedford	Prosper Trail Eldorado
Kitty Turner	None I wait
Trent Patterson	75 & 121
James patrick	White, virginia
Ryan Dahle	Virginia eldorado south on custer

Please provide us with your contact information.	What solutions would you suggest in the US 380 Corridor?
Name	Open-Ended Response
	Bypass the traffic lights with overpasses.
Jeff Gustafson	Overpass in key places. Improve east west roads north of 380
Pam Whitaker	Widen and increase speed limit on alternative parallel roads
Elizabeth Arnold	
Sierra Smith	
Lyn innes	
Katie Schroeder	Outer loop, but not a 380 bypass
Jatinder Judge	
Valinda Bruce	It should be a controlled access freeway.
Reid Bush	Limited access
Hillary dietrick	
Kristina Yarbrough	I suggest that it be turned into a four lane highway each way with access roads that are minimum of three lanes wide. Do not make it another toll road.
Amy Tackett	Lower speed limit,
S inman	
Me west	Widening, more trim lanes, middle divider and more over/underpasses
Katie Morris	Less apartment complexes along 380 that bring high traffic; more turn lanes; proper, divided medians for safety; complete the Outer Loop from Denton County into Collin County.
Michael Hancock	
Kristen Johnson	Widen it or expand it
Kiran Patel	Not much
Ed Kaylor	Overpasses at major intersections; loop around intersections with overpasses.
Stanton Lauderdale	Repave. Build an outer loop well north that ties in to 75 and DNT and bypasses completely
Oliver	Construct the bypass.
Michelle Hall	
Kathy Thedford	Overpasses
Kitty Turner	
Trent Patterson	Expansion of 380 is sections along with construction of overpasses.
James patrick	6 lane freeway on bloomdale
Ryan Dahle	Continuous flow intersections. We had this type of intersection on a highway in utah. Relieved congestion immensely. https://en.m.wikipedia.org/wiki/Continuous-flow_intersection

Please provide us with your contact information.	Do you support the building of a freeway regardless of alignment?
Name	Open-Ended Response
	Yes
Jeff Gustafson	No
Pam Whitaker	No
Elizabeth Arnold	No
Sierra Smith	
Lyn innes	
Katie Schroeder	No
Jatinder Judge	
Valinda Bruce	I would prefer using the existing route & creating the highway right where it currently is, maybe even duplicating something like they have on I-35 through Austin with a raised second level highway that could work as a bypass/expressway with limited exits. The only other alignment I liked is the Blue Alignment Route which seems to encroach the least for homeowners.
Reid Bush	No
Hillary dietrick	
Kristina Yarbrough	I do support the building of a freeway not a toll road.
Amy Tackett	No
S inman	
Me west	No. Do it once and do it right...even if it's more difficult and more expensive than just creating a bypass
Katie Morris	The only freeway that I support is the Outer Loop. That's what will make the most impact on 380 traffic. A short five-mile bypass only in McKinney does nothing to help the true commuters that often travel between Denton and McKinney.
Michael Hancock	No, Erwin park should not be affected
Kristen Johnson	I support not disrupting nature at Erwin Park
Kiran Patel	No
Ed Kaylor	Possibly.
Stanton Lauderdale	Yes
Oliver	No. Not on existing 380
Michelle Hall	
Kathy Thedford	Not informed enough to say
Kitty Turner	
Trent Patterson	No.
James patrick	Yes
Ryan Dahle	Yes we need a freeway for future, but it needs to be further north and planned for future development.

Please provide us with your contact information.	If US 380 is constructed as a freeway, which alignment do you prefer? (select all that apply)

Please provide us with your contact information.	Do you have any concerns with the existing US 380?
Name	Open-Ended Response
James R Boyd	Yes, the traffic is heavy! Too many cars and GRAVEL TRUCKS!
Michelle Pustka	It's so congested and people take stupid risks trying to make left turns on to 380.
Alissha Romero	No
	very congested
Lisa Barringer	It needs to be wider.
Raymond Robinson	Not if it remains in the current location.
Larry Hoffman	Too crowded, too many lights, insufficient capacity
John Robinson	Not if it stays were it is.
Lisa Barringer	Just needs to be wider.
Joyce Wilson	Construction and badly timed lights.
David Deyell	
Martha harpole	No
Dawn Shertzer	Stop lights and accidents cause congestion during rush hour traffic
Tonia Tindell	Need traffic light at the entrance/exit of our neighborhood as well as an alternative way out of the neighborhood. Only one in/out and it's extremely dangerous.
Erika Voth	The current traffic and construction is slowly increasing my commute time and is making me seek alternate routes to and from work.
Tonia Tindell	Dangerous. Traffic light needed at the entrance/exit of our neighborhood as well as an alternative way out. There is only one road in and out.
Brett Wiklund	Not in McKinney.
Byron Magruder	too many stops signs, growing congestion
Troy smith	No
Carrie Donahey	Congestion
Curtis Smith	Too many lights. Needs to be streamlined
Carrie Donahey	Near 75 too much traffic
Hollie Jones	
Amy	Congestion
Nick Nordman	Not capable of handeling the current traffic load and not going to be able to keep up with growth.
Tamara Guzman	A little busy near 75
Katherine Monzon	No
Frank Hall	1.Too many stop lights 2.Should not have people slowing to turn right off 380 (ie the turn into 3rd Monday trade days etc)
Peggy Schaaf	The growth along 380 will continue to cause more congestion
Michael Vance	Yes
Linzee Bearl	No
Mark Couto	congestion is slowing up the commute as well as making the traffic light into hazardous areas.
Cynthia k morse	no

Please provide us with your contact information.	If US 380 is congested, what alternative routes do you take?
Name	Open-Ended Response
James R Boyd	There aren't any! I just get off as soon as possible. If I'm going to US-75, I get on at Lake Forest-380 (BAD_BAD INTERSECTION) and then get off at HARDIN and head toward US-75
Michelle Pustka	There really isn't one. I live right off the highway any have to ride all the way west.
Alissha Romero	I don’t take an alternate route. I just wait it out.
	there are not many options, but the back roads that turn into prosper trail is my second route
Lisa Barringer	1827
Raymond Robinson	Monte Carlo
Larry Hoffman	Virginia, Stacy
John Robinson	FM 1827
Lisa Barringer	1827
Joyce Wilson	White or Virginia
David Deyell	Virginia or Eldorado Parkways
Martha harpole	1461
Dawn Shertzer	Wilmeth
Tonia Tindell	982 to 546
Erika Voth	I will cut across to Eldorado Pkwy and take it into Frisco for work.
Tonia Tindell	2nd Street (982) to 546.
Brett Wiklund	Virginia, Hardin,
Byron Magruder	virginia sometimes but that is often congested as well during peak traffic hours
Troy smith	
Carrie Donahey	
Curtis Smith	Side streets like el dorado, rock hill, fishtrap
Carrie Donahey	Whatever’s nearby
Hollie Jones	
Amy	I have taken 121 through Melissa and back through Blue Ridge.
Nick Nordman	Coit and independence and Custer
Tamara Guzman	Virginia. 121.
Katherine Monzon	Virginia
Frank Hall	None, I just wait
Peggy Schaaf	Lake forest to 121, Ridge to 121. Then to 75 if needed. Also, Custer going south
Michael Vance	Lake Forest to 121
Linzee Bearl	None. It's not congested east of the tollway
Mark Couto	I don't, I just wait it out.
Cynthia k morse	none

Please provide us with your contact information.	What solutions would you suggest in the US 380 Corridor?
Name	Open-Ended Response
James R Boyd	Run it farther North from Custer to East of McKinney!
Michelle Pustka	Feeder roads and /or overpasses.
Alissha Romero	Widen 380.
	build more roads period
Lisa Barringer	Widen it.
Raymond Robinson	Expand the current location.
Larry Hoffman	Greater capacity or outer loop. Need a bypass to Princeton/Farmersville
John Robinson	Expand the current Hwy 380
Lisa Barringer	Expand it, let the businesses suck it up short term for long term benefits.
Joyce Wilson	Either overpasses on 380 or Outer Loop
David Deyell	A bypass around existing 380
Martha harpole	
Dawn Shertzer	Highway with on/off ramps
Tonia Tindell	Traffic lights in city limits of Princeton, medians, increased police presence.
Erika Voth	Create a raised highway so that stop and go traffic is eliminated unless you exit to the below service road.
Tonia Tindell	Traffic lights inside the city limits of Princeton. Medians, increased police presence.
Brett Wiklund	Widening of Virginia is a start. Connecting Harden to a E/W road that goes S of Trinity Falls.
Byron Magruder	a bypass or loop for through traffic
Troy smith	Pink and green
Carrie Donahey	Hwy straight through
Curtis Smith	Needs to be a loop built further out. Would help with congestion now but also future
Carrie Donahey	Hwy straight through
Hollie Jones	
Amy	
Nick Nordman	Need to turn into a true freeway with over passes
Tamara Guzman	Overpass over 75
Katherine Monzon	Widen 380
Frank Hall	Double decker highway
Peggy Schaaf	Widen 380. If you must go north then you should go a few miles north of Bloomdale. You won't get support if you go along Bloomdale.
Michael Vance	No where near residential areas.
Linzee Bearl	Please don't build the bypass near 123
Mark Couto	Need a bypass in McKinney. A North/South freeway paralleling 75. Additionally a East/West freeway allowing the traffic from/to Farmersville/Greenville to bypass Princeton. Basically Princeton will need a bypass soon.
Cynthia k morse	

Please provide us with your contact information.	Do you support the building of a freeway regardless of alignment?
Name	Open-Ended Response
James R Boyd	YES!
Michelle Pustka	Yes. The area is exploding with growth. Don't build something with taxpayer money then have it be obsolete in a few years. Do it once, do it right.
Alissha Romero	I do not support thte 380 bypass!
	yes this is 2018 roads and freeways are needed for growth
Lisa Barringer	Regardless of alignment? NO!!! The current blue, green, and red go right down the middle of our family farm. NOT ACCEPTABLE IN ANY WAY!
Raymond Robinson	No
Larry Hoffman	Yes
John Robinson	No
Lisa Barringer	Regardless of alignment, NO. Along existing 380 corridor, YES.
Joyce Wilson	No
David Deyell	No
Martha harpole	No
Dawn Shertzer	Yes
Tonia Tindell	No
Erika Voth	I do support it. But do not support potentially forcing people from their homes.
Tonia Tindell	No
Brett Wiklund	No.
Byron Magruder	Yes
Troy smith	Yes
Carrie Donahey	No
Curtis Smith	Yes
Carrie Donahey	No
Hollie Jones	
Amy	Yes
Nick Nordman	Yes
Tamara Guzman	No. Northern bypass seems silly since most people are going south towards Dallas
Katherine Monzon	No
Frank Hall	No
Peggy Schaaf	No, I am retired and can work around it. A Freeway paralleling 380 would probably meet with the least resistance.
Michael Vance	No
Linzee Bearl	NO
Mark Couto	yes
Cynthia k morse	no

Please provide us with your contact information.	If US 380 is constructed as a freeway, which alignment do you prefer? (select all that apply)

Please provide us with your contact information.	Do you have any concerns with the existing US 380?
Name	Open-Ended Response
Tiffany Davis	Dangerous, noise level, congestion
Stephanie Edwards	Traffic backup between Princeton and McKinney
Betty Dean	Yes it's not wide enough
Mario J Olivarri	yes traffic is outrageous
	Too many stoplights
Joel Brzezinski	yes. volume of traffic from 75 to Hardin
Diane O'Neal	not at this time, but as McKinney grows, it will become an issue.
Darryl Colon Garcia	I worry about reduced quality of life and pollution as my house is very near Bloomdale Rd. I live in Robinson Ridge. I also worry about property values being greatly affected by the proposed bypass.
	Traffic
Frank Branham	Congestion
Danice	Traffic
Lan Hy	Too much traffic, trucks traveling at high speeds. Congestion at 380/75 interchange, it is just very poorly planned.
Hollie Lewis	The congestion during rush hours is insane. The longest part of my commute. The entries to the many subdivisions in Princeton need lights. It's incredibly dangerous leaving our subdivisions.
Trent Vines	
Paul Pankewicz	Yes. Too congested and dangerous
Stacie	I believe the speed limit should be lowered
Kirsten weissert	No. Shouldecwidened
Kevin Foster	Not enough lanes to allow traffic to flow during morning time and after work. Also, not having raised medians causes way too many wrecks that could be avoided.
Leslie Duke	Amount of traffic, no flow of the lights, and congestion issues
Jonathon Clayton	High speed nightmare.
Ann Busbee	
Peggy Schaaf	Congested traffic
Ann Busbee	
Dan Squires	Yes, there are some congestion points and lack of bicycle lanes

Please provide us with your contact information.	If US 380 is congested, what alternative routes do you take?
Name	Open-Ended Response
Tiffany Davis	Historic District of Mckinney, Waddell, Virginia, West
Stephanie Edwards	380 to Bridgefarmer to 546
Betty Dean	I can always find a work around Custer Panther Creek Preston lots of options
Mario J Olivarri	there are no alternatives
	Fm roads to the north
Joel Brzezinski	cut over at Custer to go South
Diane O'Neal	Virginia Pkwy. or Eldorado
Darryl Colon Garcia	I have never had an instance where I had to take an alternate route and I commute daily through 380. If I were to take one I'd take Lake Forest Dr.
	Fm 982 to bethany
	Airport road, or go over lake lavon
Frank Branham	Custer (2478) to 121
Danice	
Lan Hy	I have no other options. I would love to take anything other than 380.
Hollie Lewis	There are no other routes to get to my home.
Trent Vines	
Paul Pankewicz	Virginia Parkway
Stacie	I take 380 regardless if it congested or not
Kirsten weissert	I don't take alternatives
Kevin Foster	I usually have to sit in traffic because where I am traveling to is off 380 most of the time.
Leslie Duke	Monte Carlo, FM 1827, CR 548, or FM 545
Jonathon Clayton	Airport road or new hope road
Ann Busbee	
Peggy Schaaf	Sometimes Virginia
Ann Busbee	
Dan Squires	543/168/166/1461/preston or DNT

Please provide us with your contact information.	What solutions would you suggest in the US 380 Corridor?
Name	Open-Ended Response
Tiffany Davis	Widen existing 380 to a freeway and add additional outside loop through collin county
Stephanie Edwards	maybe an overpass to bypass stoplights to relieve some of the backup. And bypasses around the town centers of Princeton and farmersville
Betty Dean	Widen what we have
Mario J Olivarri	highway around the town like in austin
Joel Brzezinski	widen 380 or other alternative
Diane O'Neal	a loop around McKinney
Darryl Colon Garcia	Fix 380 ON 380. This will be the best alternative long term as there will be greater economic opportunities for development along 380. You can't put a bandaid on the city of McKinney's lack of good planning 10-15 yrs ago. Doing these alignments on the proposed routes will affect MANY homeowners that chose these areas due to their rural feel and nice scenery. The alignments will end up feeding into 380 anyway which is your main bottleneck. It's just not fair at all for us property owners.
	Going south of existing hwy and building a new bridge if need be
Frank Branham	I personally liked the grade separated intersections option.
Danice	
Lan Hy	Development of other arterial roads to relieve the stress placed on 380. Bloomdale and further north to be exact. Build our Stonebridge and Custer going north. Two major developments are being planned in the northern part of McKinney and they need the roads to support it. It makes absolutely no sense that 380 is the only major road. When an accident occurs, as it often does, I've found myself stuck with no other options because there are no alternative roads I can take.
Hollie Lewis	Make the center lane a median or add concrete barriers to keep people from driving down the turn lane in Princeton.
Trent Vines	
Paul Pankewicz	Widen 380
Stacie	A over pass at the 75 & 380 intersection
Kirsten weissert	Widen 380
Kevin Foster	Widen it. Install raised medians throughout. Add alternative routes that are timely won't get just as congested as 380 does.
Leslie Duke	A loop around the south side of Princeton to highway 5
Jonathon Clayton	Widen it, add lights, put no turn on red signs, especially at Monte Carlo. Keep cement trucks and 18 wheelers in the right lane only.
Ann Busbee	
Peggy Schaaf	Expansion of US 380
Ann Busbee	
Dan Squires	outer loop at north end of collin county - pull people north to go e/w across vs coming south to 380

Please provide us with your contact information.	Do you support the building of a freeway regardless of alignment?
Name	Open-Ended Response
Tiffany Davis	Yes
Stephanie Edwards	Not a true freeway, maybe an overpass to bypass stoplights to relieve some of the backup?
Betty Dean	No
Mario J Olivarri	no
Joel Brzezinski	no
Diane O'Neal	No, only if it would be a loop around McKinney.
Darryl Colon Garcia	I'm not that familiar with the freeway option so can't comment. I'm more concerned about the alignments.
	I believe the town the freeway would go through do not have the infrastructure in place to support the increasing numbers on their roads. I believe that should be addressedfirst
Frank Branham	I'm hesitant, only because these seem to turn into toll roads and we have too many of those already.
Danice	No
Lan Hy	No
Hollie Lewis	It’s according to if it affects my home.
Trent Vines	
Paul Pankewicz	No
Stacie	No!!!!!
Kirsten weissert	No
Kevin Foster	I'm not completely sure what this question is asking. Regardless of alignment?
Leslie Duke	Possibly. Depends on where and costs.
Jonathon Clayton	Yes.
Ann Busbee	No
Peggy Schaaf	No
Ann Busbee	
Dan Squires	yes with the correct alignment

Please provide us with your contact information.	If US 380 is constructed as a freeway, which alignment do you prefer? (select all that apply)

Please provide us with your contact information.	Do you have any concerns with the existing US 380?
Name	Open-Ended Response
Tracy Thomas	Yes, it needs to be fixed. A bypass will not solve the problem. 380 will bottleneck when it hits McKinney due to the expansion of 380 in Prosper and it will stop short of any potential bypass. Businesses don't want to be bypassed. We need to be looking at long term accessibility. It's too late to deal with a temporary solution. And my neighbors should not have to lose their homes due to any lack of poor planning.
Nicole Devlin	People running red lights and people pulling onto 380 in front of oncoming traffic going 55-60mph.
Taylor Stone	Too many red lights
Lisa	
Catherine Winegard	Traffic and the number of accidents, especially at Airport Rd. and Lake Forest
Monica Gilbert	
ryan rousser	Very dangerous!
Lauren Musick	It needs to be widened by 75
Brad Mills	The quality of the road, ex: bumpy, potholes etc.
Barbara Ritterbusch	going to be very congested with all the construction completed
Justin Hicks	
Kailee	Not enough traffic lights at major intersections, traffic always built up! Tons of accidents!
Clarenda Jordan	Yes , traffic noise needs to be minimized.
	Yes. I hate it and I'm moving. Daily accidents. Too many huge trucks
Steve French	No right turn lanes at major intersections. Especially eastbound.
Charlette L Vitz	Yes! When Laude Howell was closed off it caused more traffic and more big trucks. With so many lights it is hard with all the big trucks slowing down traffic if they stop for light. Then you have other big trucks not stopping going thru at high rate of speed. It also causes fast drivers to change in and out of lanes so they can go speed limit or faster. Another suggestion is no yeilding to u-turns on Stonebridge and 380. You only have so much time to get thru light turning off 380 to Stonebridge and when someone is making U-turn you almost rear-end or get re-ended from car behind you since you slow down so they can make u-turn. When you are are on Stonebridge and you are turning right on 380 and you have to yield to people making u-turn it is so dangerous.. Everyday I see a near miss.
Marc McWhorter	Yes, it needs to be widened and used as the main east/west route.
Michelle Kinison	60 mph speed limit. U-Turns at LaCima The left/east turn from Lovers - westbound doesn't see/stop at light, eastbound traffic swerves in lane too soon
James paris	No
Sara	Yes! They are building huge apartment complexes and massive neighborhoods where residents must use 380 and it is not being widened.
Daniele Krug	High speeds, congestion
Ashley Jacobs	Not enough traffic lights at major intersections which causes too many wrecks. Especially in front of the new apartment communities.
	construction, all the time. never goes away
Cecila Hardin	Increasingly crowded with commercial traffic

Please provide us with your contact information.	If US 380 is congested, what alternative routes do you take?
Name	Open-Ended Response
Tracy Thomas	Virginia or El Dorado to get to 75
Nicole Devlin	Lake Forest to 121 or other side roads.
Taylor Stone	
Lisa	
Catherine Winegard	White Ave to Tennessee
Monica Gilbert	
ryan rousser	Virginia
Lauren Musick	Virginia
Brad Mills	No other routes
Barbara Ritterbusch	Virginia Ave
Justin Hicks	
Kailee	Fishtrap road
Clarenda Jordan	I don't know
	Laud Howell or White
Steve French	Virginia/Bloomdale
Charlette L Vitz	I am going from Stonebridge to Highway 5 so any other route I would take like Virginia would have construction and traffic.
Marc McWhorter	Down to SH121
Michelle Kinison	1st street Prosper to Preston (heading east from my house) 1st street to Coit or Custer heading west
James paris	I use 380 to get to the tollway early, early in the morning. It is not congested at that time. The only other time I use it is if I am going somewhere on 380.
Sara	428
Daniele Krug	Backroads, streets through town
Ashley Jacobs	455
	can't take any.
Cecila Hardin	Virginia

Please provide us with your contact information.	What solutions would you suggest in the US 380 Corridor?
Name	Open-Ended Response
Tracy Thomas	Making 380 a limited access roadway. In the long term businesses will appreciate it and will thrive more due to accessibility. In the meantime, many businesses along 380 are in buildings that they lease, so with ample time they would be able to relocate if need be.
Nicole Devlin	Maybe something similar to 635, where people can bypass the streetlights to get to one end to the other. While the outer lanes are aligned with the streetlights.
Taylor Stone	Turn it into a freeway double decker
Lisa	
Catherine Winegard	Better timing on traffic lights and reduced speed west of Hardin
Monica Gilbert	
ryan rousser	bypass
Lauren Musick	Widening the existing highway and widen surrounding roads to 6 lanes
Brad Mills	Expand the road another lane
Barbara Ritterbusch	coordinate the light at the expressway better. Very short green going East most of the time
Justin Hicks	
Kailee	widen the roads!
Clarenda Jordan	
Steve French	Limited access freeway on existing route.
Charlette L Vitz	I think it should go Preston and connect to Laude Howell to connect across to 75. I have lived off 380 for 20 plus years and it was not this bad until Laude Howell was closed off. Could Dallas tollway some how exit to 75. Maybe Preston or Coit
Marc McWhorter	Widen 380 and convert to main east/west route and use Laud Howell as planned.
Michelle Kinison	Slow down the speed limit!
James paris	If something must be done, improve the existing road.
Sara	PLEASE make all of 380 overpasses!!!! Also widen 380 by Savannah and Providence Village.
Daniele Krug	
Ashley Jacobs	Adding traffic lights in front of apartment communities. Adding toll road in the middle or on top of 380.
	finish your construction
Cecila Hardin	Widen 380, last option would be a loop much like the one north of Denton but ONLY if it left Erwin Park intact

Please provide us with your contact information.	Do you support the building of a freeway regardless of alignment?
Name	Open-Ended Response
Tracy Thomas	No.
Nicole Devlin	Considering I live here, any alignment that effects my neighborhood visually and economically is not ideal. No one wants a highway in their backyard, especially in a housing development considered relatively new. I bet no one would have bought a house here had they known a highway would be run behind their home.
Taylor Stone	
Lisa	
Catherine Winegard	A freeway yes but it should in no way infringe on the area surrounding Erwin Park
Monica Gilbert	
ryan rousser	yes
Lauren Musick	No
Brad Mills	No.
Barbara Ritterbusch	no
Justin Hicks	
Kailee	No, unless the freeway ran only over 380
Clarenda Jordan	No
Steve French	
Charlette L Vitz	No...I live in Wren Creek and the noise from loud cars and big trucks echo all day and night. I wish there was a noise limit like there use to be on all vehicles. We also hear big trucks breaking at lights or down shifting. The walls on 380 that back up to our neighborhood do not make a difference so having a freeway would be worse.
Marc McWhorter	No, only along the current 380 route.
Michelle Kinison	
James paris	The only option I would support is improving the existing road. I don't see any reason to use any of the suggested routes other than the existing road. It doesn't help anything to do a "bypass" for no farther than it will be. And, nobody would use it. Everyone is going South and won't use the road farther North.
Sara	YES!!!!!!!!!!
Daniele Krug	No
Ashley Jacobs	No
	sure
Cecila Hardin	No

Please provide us with your contact information.	If US 380 is constructed as a freeway, which alignment do you prefer? (select all that apply)

Please provide us with your contact information.	Do you have any concerns with the existing US 380?
Name	Open-Ended Response
imran haq	no
Sherri Vittatoe	yes, speed and lack of lights and major intersections
Sarah Van Trump	Not any concerns
KRISTEN CARRELL	
Cecila Hardin	Becoming increasingly congested, especially with commercial traffic
Desire' Albion	Yes - too crowed. Need bypass ASAP.
Jon OToole	380 is congested at the major intersections like US 75, Coit and the Dallas North Tollway.
barry hicks	finish the construction
Rick Tremaine	
Leslie Scicchitano	No
Jill Dyer	
Rachel Nichols	Congestion, Light Timing, throughput, lack of buildout of tertiary parkways nearby.
Carol Tremaine	No, but I understand the growing population and the need for alternatives for bypass traffic.
Mark L Compton	Congestion and the number of accidents that keep happening
Katie Ebrahimi	It's manageable for the most part. I have bigger concerns with a massive overhaul and the impact on the community.
John Hodack	I do not wish all that traffic going through my subdivision.
Burnie Chambers	A highway with congestion that often leads to accidents. With rock haulers and semis running this highway it is very dangerous made more so by the businesses opening from 75 on west plus the hospital
resident on street	noise, increased accidents, poor access to my neighbordhood
Matt	None. It's a busy road but so is 75 and all other highways.
Sally Riche	
Linda. Jenkins	It's extremely crowded & everyone drives too fast on it.
Vanessa Deaton	Currently the traffic is terrible, especially at the 380 and 75 intersection. When the new business open at 380 and Hardin, it will be worse along that stretch.

Please provide us with your contact information.	If US 380 is congested, what alternative routes do you take?
Name	Open-Ended Response
imran haq	virginia
Sherri Vittatoe	Virginia Parkway
Sarah Van Trump	During rush hour times, I usually go north south (not east/west) to get to where I need to go.
KRISTEN CARRELL	
Cecila Hardin	Virginia
Desire' Albion	White to Harden - then 380. If Wilmeth was extended to US75, that would be a better alternative.
Jon OToole	Virginia Ave., Laud Howell Road.
barry hicks	it's not bad until the intersection at 75, and still not terrible
Rick Tremaine	city streets
Leslie Scicchitano	Custer to 121
Jill Dyer	
Rachel Nichols	Lake forest to 121, Hardin to White, Bloomdale to Wilmeth, Bloomdale (dirt road) to bloomdale on 75.
Carol Tremaine	Wilmeth, Harden, White.
Mark L Compton	depends on the direction of my destination. Going South, I will take Lake Forest or Custer. West is either 1461 or El Dorado pkwy. North is also 1461 to Preston/289. East does not really have alternate route
Katie Ebrahimi	A variety depending on time of day, but mostly I stay on 380
John Hodack	I take ridge or 75
Burnie Chambers	Virginia which is also congested.
resident on street	none
Matt	It’s not that bad to avoid and take others routes.
Sally Riche	
Linda. Jenkins	Laud Howell Parkway
Vanessa Deaton	Bloomdale or White

Please provide us with your contact information.	What solutions would you suggest in the US 380 Corridor?
Name	Open-Ended Response
imran haq	overpasses like prosper st 380 tollway, 380 preston
Sherri Vittatoe	upper deck, toll lane in the center for through traffic
Sarah Van Trump	We do not need a bypass. We need improvements made to 380. We need 380 to be a straight line road with over passes like what prosper is doing at 380 and preston.
KRISTEN CARRELL	
Cecila Hardin	Loop for commercial traffic such as the one north of Denton
Desire' Albion	Blue Line - Bypass
Jon OToole	Flyovers like what is being placed at the 380 and Preston intersection, use Laud Howell Parkway as a bypass or complete the Outer Loop that has been promised for years and seems to be TXDOT and Collin County's "Bridge to Nowhere."
barry hicks	finish the construction
Rick Tremaine	– Completing the planned Outer Loop between I-35 and US 75 would create a much needed northern thoroughfare. The time to reach the planned Outer Loop from US 380 and I-35 would take minutes, contributing to lessened traffic congestion. – A portion of the Outer Loop east of US 75 has already been completed, so we hope you'll collaborate with our neighboring cities to finish the work already planned.
Leslie Scicchitano	
Jill Dyer	
Rachel Nichols	Widening the footprint of the existing 380, More turn lanes, better light timing, finishing out Wilmeth to 75 (as a regular neighborhood roadway, as well as finishing out 123 as a regular roadway. NO BYPASS.
Carol Tremaine	Complete the planned Outer Loop between I-35 and US 75 would create a much needed northern thoroughfare. The time to reach the planned Outer Loop from US 380 and I-35 would take minutes, contributing to lessened traffic congestion. – A portion of the Outer Loop east of US 75 has already been completed, so we hope you'll collaborate with our neighboring cities to finish the work already planned.
Mark L Compton	In the interim, connect both sides of Wilmeth Rd north of 380 and make it a 6 lane road. Make Bloomdale and Laud Howell pkwy 6 lane roads from US75 to Custer. Then start planning to make 380 a limited access freeway or maybe even do an elevated road like outside of Austin
Katie Ebrahimi	Alternative routes to lessen the congestion.
John Hodack	Widen the street to help traffic flow
Burnie Chambers	A northern by-pass for trucking.
resident on street	
Matt	Maybe find another lane otherwise Leave as is.
Sally Riche	
Linda. Jenkins	
Vanessa Deaton	More alternate (back ways) routes to 380. A route north of 380 to circle around the congestion and avoid 380 and 75.

Please provide us with your contact information.	Do you support the building of a freeway regardless of alignment?
Name	Open-Ended Response
imran haq	yes
Sherri Vittatoe	no
Sarah Van Trump	Yes. Make improvements to 380. No bypasses.
KRISTEN CARRELL	
Cecila Hardin	No
Desire' Albion	YES
Jon OToole	No, I support building a freeway that doesn't use ANY alignment on what is currently Bloomdale Road in McKinney.
barry hicks	no
Rick Tremaine	No
Leslie Scicchitano	No
Jill Dyer	
Rachel Nichols	NO. KEEP 380 ON 380.
Carol Tremaine	No
Mark L Compton	No, I would like it done with the least impact to current homeowners
Katie Ebrahimi	Absolutely not.
John Hodack	No. I would want to existing freeway expanded and updated
Burnie Chambers	Maybe but I don't know enough details at this time. Need to know about frontage roads and exits.
resident on street	no, alignment is important first...
Matt	Not necessary
Sally Riche	
Linda. Jenkins	No
Vanessa Deaton	Yes

Please provide us with your contact information.	If US 380 is constructed as a freeway, which alignment do you prefer? (select all that apply)

Please provide us with your contact information.	Do you have any concerns with the existing US 380?
Name	Open-Ended Response
Ann Skaehill	75/380 is a mess. We need an underpass like they made at Spring Valley and 75. Let the through traffic go through. I think the biggest problems are on 380 from Lake Forest to Highway 5.
Alexis Oakes	None, other than having a freeway built over it.
Doug Jenney	There are too many lights near 380 and 75 and the exit from 75 to 380 is not long enough.
Christie Thornton	My only concern is the need for bigger turn lanes...or even double turn lanes. With cars turning off 380, it can back it up a bit as not all can get through with one green turn signal.
Narelle Bailey	Congestion.
John Glenn	
Bob and Angel Ess	Too much heavy construction traffic
Charlette Vitz	
Theresa Mills	It's a death trap
michael weissert	no
Amy Landreth	
Mark Kinney	To crowded
Tamika Noffsinger	
Danielle Queen	Trucks - commercial and semi Speeds No lights on the highway for better visibility
Matt Shertzer	Stop lights slowing down travel
Erik Jason Lowe	Traffic, lack of turn lanes, 18-Wheeler's/construction related trucks/dump trucks/cement trucks all driving too fast in all lanes.
George Lewellyn	Yes...there have been way to many accidents including fatalities that have significant impact on flow. Additionally too much traffic is on Lake Forest because of the lack of 380 capacity
Mitchell Wyatt	Heavy traffic, dangerous intersections.
Chris and Lynn Cooper	yes
Lindsey wyatt	Too small for the amount of traffic
Jenn Weimer	Too congested at almost all Times of day
Mohammad S Islam	No
Eric Johnson	Overcrowded. Will get worse with Commerical business comming in. At Hwy 75 the amount of intersections is too much and is dangerous
Dallas McKee	
Michiko Gasser	It is too conjested.
Roger Kromis	It is getting busier with the new construction.
	Dangerous
Tina Decker	Congestion from eastbound 380 between Hardin and 75.
Laura Cortez	It is too small for all the current/future traffic

Please provide us with your contact information.	If US 380 is congested, what alternative routes do you take?
Name	Open-Ended Response
Ann Skaehill	We LOVE to take the back roads through Prosper/County/McKinney. It's absolutely beautiful out there.
Alexis Oakes	Surrounding roads
Doug Jenney	none. Have to take 380 as my home is near 380 and 75.
Christie Thornton	When 380 is congested I take Lake Forest up to Virginia or Eldorado to cut across. I also sometimes take 123/Bloomdale but really 380 is not congested all the time...I just give myself more time knowing I could be stopped at lights on 380 when traveling that way.
Narelle Bailey	Hardin, Custer, Lake Forest
John Glenn	
Bob and Angel Ess	None at the moment
Charlette Vitz	
Theresa Mills	There aren't any alternatives in the area
michael weissert	not an issue
Amy Landreth	
Mark Kinney	Fm428 Fish trap Cr 123
Tamika Noffsinger	
Danielle Queen	Lake Forest, Custer, Preston, 75, 380 to Coit to Rock hill to DNT
Matt Shertzer	Side roads
Erik Jason Lowe	Bloomdale and Wilmeth
George Lewellyn	I take Lake Forest, Hardin or Custer as North South routes.
Mitchell Wyatt	Virginia/Rock Hill or Prosper Trail/Bloomdale
Chris and Lynn Cooper	i take 380
Lindsey wyatt	Preston to first, eldorado
Jenn Weimer	Wilmeth-prosper trail
Mohammad S Islam	Side roads
Eric Johnson	Burke/Community/White
Dallas McKee	
Michiko Gasser	Virginia
Roger Kromis	I take Wilmeth or Virginia.
Tina Decker	Getting to 75 is tough at times, but I usually just sit through it.
Laura Cortez	CR123/ CR 164

Please provide us with your contact information.	What solutions would you suggest in the US 380 Corridor?
Name	Open-Ended Response
Ann Skaehill	As mentioned above I think an underpass could be a viable option at 75/380. Also, perhaps 380 needs to become an actual highway so folks traveling from Frisco through McKinney don't have to mess with any traffic lights.
Alexis Oakes	Keep it the way it is. Traffic is everywhere, not matter what.
Doug Jenney	Build tiered highway over existing 380 (like in Austin), where travelers who need to get through McKinney to Denton can take higher road. Those who need to get to local business can take the existing low road.
Christie Thornton	I think 380 should be fixed ON 380. Adding another highway would take away homes- which is not necessary- and the lifestyle I want for my family as it would back up to my neighborhood (Heatherwood) and not ideal for my children to live so close to a freeway. The noise, traffic, and all that it would bring. I think expanding 380 or even doing more ramps- like the one at 380 & Preston would help the congestion greatly. I think if you look at 121 through the Lewisville/Coppell area- that is perfect example. 380 should be fixed ON 380 and no additional freeways needed. We have enough of those and the unique nature of McKinney should be preserved...it is why we moved here 17 years ago!!
Narelle Bailey	New tollway/freeway, E to W Bypass from Dentin, north through Anna or Van Alstyn towards E. TX
John Glenn	
Bob and Angel Ess	Routing commercial traffic to a bypass route
Charlette Vitz	
Theresa Mills	Stop building houses. The infrastructure isn't there to support additional residents.
michael weissert	n/a
Amy Landreth	
Mark Kinney	Widen it and put over passes at every traffic signal
Tamika Noffsinger	
Danielle Queen	Add lights
Matt Shertzer	4 lane highway with overpasses over the intersections
Erik Jason Lowe	Widen 380. Add overpasses at most congested intersections
George Lewellyn	380 needs to be widened or even have a second level that can separate local from thru traffic.
Mitchell Wyatt	Bloomdale Bypass north of 380
Chris and Lynn Cooper	improve 380
Lindsey wyatt	Add more lanes to accommodate traffic
Jenn Weimer	Widen
Mohammad S Islam	NA
Eric Johnson	Dig it out at Hwy 75 like 75 and Valley View. Actually change the name as this is no longer a Hwy
Dallas McKee	
Michiko Gasser	Northern alignment
Roger Kromis	make the existing highway controlled access with a service road.
Tina Decker	
Laura Cortez	Improve the Country roads Pass through underneath 380

Please provide us with your contact information.	Do you support the building of a freeway regardless of alignment?
Name	Open-Ended Response
Ann Skaehill	Not regardless of alignment, no.
Alexis Oakes	I absolutely do NOT support to freeway.
Doug Jenney	No, I don't support building regardless of solution. 380 must be solved, not bypassed. Bypassing 380 does NOT solve the problem for McKinney growth. Bypassing 380 only solves commuting to Denton and 75, without solving 380's issues, which need to be solved to handle McKinney's growth.
Christie Thornton	No. I think building 380 into more a freeway is ok- but no additional freeway needed. The "bypass" won't give as much relief as more retail comes to McKinney....they will be stopping there anyway. Don't do anything additional- just work on improving 380 ON 380. Pushing back retail is much more logical if necessary. McKinney is unique by nature...keep it that way!
Narelle Bailey	North of Prosper, McKinney, and Melissa
John Glenn	
Bob and Angel Ess	Yes
Charlette Vitz	
Theresa Mills	No
michael weissert	not sure
Amy Landreth	
Mark Kinney	No
Tamika Noffsinger	
Danielle Queen	Not if it goes in my backyard and tears up beautiful quiet farmland. No
Matt Shertzer	Yes
Erik Jason Lowe	No.
George Lewellyn	I support a freeway as long as it is not to the immediate North of the Heatherwood community as the traffic will be too heavy and the noise and safety issues will be increased in addition to property devaluation.
Mitchell Wyatt	Yes
Chris and Lynn Cooper	take care of 380 proper
Lindsey wyatt	Yes
Jenn Weimer	Not regardless of alignment. I would like minimal impact to parks and residential communities
Mohammad S Islam	NA
Eric Johnson	Yes
Dallas McKee	
Michiko Gasser	Yes
Roger Kromis	no
Tina Decker	
Laura Cortez	No!

Please provide us with your contact information.	If US 380 is constructed as a freeway, which alignment do you prefer? (select all that apply)

Please provide us with your contact information.	Do you have any concerns with the existing US 380?
Name	Open-Ended Response
Victoria Dilley	No
Peter Dilley	No
Xiaoning Yang	No
Dale Gasser	Widening the existing US380 would not be feasible due to the vast number of business that would be negatively affected!
Mike Martineau	Too many lights
Jim Healer	Congestion is already a problem. This project should have been begun years ago. My primary point of interest is the segment between Custer Rd and SH 5.
Larry Thompson	Yes. Not designed to handle current traffic levels. Very bad congestion at 380 and 75, and 380 and FM982 in Princeton.
Terri Silver	very crowded at times and hard to get out of shopping centers
chris lorance	Congestion.
Thomas Wiesle	The amount of red lights slows traffic tremendously.
Rick Nguyen	Too congested
Lilia Schmitt	
Michael Z Taylor	
Michael	It has become ridiculous over the last 14 years. It was a good alternative, but its not currently all that useful due to traffic lights.
Michael Decker	The stop and go traffic is getting bad, especially at rush hour (s).
Jeanie King	extreme congestion, especially between Hardin and US 380
David Kunde	No - Leave as is..... seems to flow fine.
Kendall	Yes, speed & lack of alternate routes.
Ashley Hall	Not enough lanes and increasing number of traffic lights
Diana Wimberly	
Mark Bunker	not really - congested nearing US 75
John Duease	the rapid growth of retail along 380 coupled with the always growing population of Collin County will only lead to increased traffic congestion on this major artery
Cindy O'Hargan	Speeders
Logan Geisler	
Steven Vance	No
j	only that it won't handle growth
Bodie Wilson	Slight congestion, but just needs to be wider and not moved

Please provide us with your contact information.	If US 380 is congested, what alternative routes do you take?
Name	Open-Ended Response
Victoria Dilley	
Peter Dilley	
Xiaoning Yang	Aldorado
Dale Gasser	Virginia.
Mike Martineau	Lake forest
Jim Healer	If Eastbound, Virginia Pkwy or Wilmeth Rd. If Westbound, either Virginia Pkwy/Rockhill, Southbound Custer Rd, or Northbound Custer Rd.
Larry Thompson	FM982 if going South. Also Airport to Industrial.
Terri Silver	I take White rd from Hardin to 75
chris lorance	I live north of 380, therefore I take an east/west route that is north of 380
Thomas Wiesle	CR123
Rick Nguyen	Lake Forest and 121
Lilia Schmitt	Back roads - Lake Forest to 121 or 380 to Tollway
Michael Z Taylor	
Michael	Various back roads to avoid 380 as much as possible
Michael Decker	I don't. I bare it.
Jeanie King	White Ave
David Kunde	I have rarely seen it congested except at 75. Have used Wilmeth or Bloomdale Roads when I know 75/380 might be congested.
Kendall	FM 423
Ashley Hall	Virginia or El Dorado
Diana Wimberly	
Mark Bunker	east-west roads to the North or South
John Duease	Virginia St or Eldorado in McKinney
Cindy O'Hargan	Wilmeth/Bloomdale to the east and CR123 to Prosper Trail to the west.
Logan Geisler	
Steven Vance	380 is rarely congested enough to consider alternate routes. But if an alternate route is necessary, I will usually take Virginia
j	eldorado parkway
Bodie Wilson	none, I take it

Please provide us with your contact information.	What solutions would you suggest in the US 380 Corridor?
Name	Open-Ended Response
Victoria Dilley	Continue along the 380
Peter Dilley	Extend the freeway down the 380 as already done in Frisco/Prosper area, these bypasses add more time, cost to construct than a straight run down the 380 to the 75.
Xiaoning Yang	Improve on existing alignment
Dale Gasser	Construct a northern bypass route.
Mike Martineau	Widen 380
Jim Healer	Elevated thoroughfare, definitely interested in realigning northward from just west of Custer Rd round the north side of current development through less populated areas to avoid heavy negative impact to homes and businesses along the existing alignment. On the segment for which I am most concerned (Custer to SH5), I would like to try to soften the impact on existing neighborhoods between Custer and Lake Forest as well as prevent the significant disruption of businesses along the existing alignment such as the new businesses being built on Hardin and 380.
Larry Thompson	Turn it into a freeway.
Terri Silver	raise 380 like they are doing at Preston at Custer, lake Forest and 75 to ease congestion and add access roads to local businesses
chris lorance	Improve the tertiary east/west options both North and South of 380.
Thomas Wiesle	Overpasses at the red light intersections
Rick Nguyen	Fix 380 with more lanes
Lilia Schmitt	Expanding 380 or building the bypass further North where neighborhoods aren't impacted
Michael Z Taylor	I am in favor of the red or blue alignment.
Michael	Build a freeway ... the key word being FREE and not TOLL. Please pay for it with our taxes.
Michael Decker	An elevated bypass like other cities in the great state of Texas. Coming from sprawled out Northern Virginia, the elevated bypass infrastructure immediately impressed me in many cities in Texas.
Jeanie King	Bypass
David Kunde	More left/right turn lanes into business and neighborhoods on 380. Also should look to build alternate/parallel routes to the north at Frontier Parkway or Bloomdale Road.
Kendall	Additional routes to get people to where they are going.
Ashley Hall	Widen 380 and do not increase traffic lights; Perhaps more turn lanes to prevent delays
Diana Wimberly	
Mark Bunker	Referring to the study conducted in August 2016, I vote for making intersection improvements and Not turn it into a freeway with access roads. Instead, focus on the east/west and North/south roads to the north of 380 in McKinney, which is where the growth is. Note: Please delete my previous survey as I was not informed at that time. This is my current stance.
John Duease	a limited access bypass for commuters (not shoppers) to be able to quickly move between cities in Collin County
Cindy O'Hargan	Move further north and put a road in there.
Logan Geisler	
Steven Vance	Widen 380 to make it able to handle more traffic. This will cause the least impact to the community
j	make it parkway style, fewer lights
Bodie Wilson	just widen existing road

Please provide us with your contact information.	Do you support the building of a freeway regardless of alignment?
Name	Open-Ended Response
Victoria Dilley	No
Peter Dilley	No
Xiaoning Yang	Yes
Dale Gasser	Yes, as long as it is a northern route.
Mike Martineau	Yes
Jim Healer	Yes. However, If no realignment, then make sure it's elevated between Custer and SH5. I would prefer realignment northward. In order of preference, focusing on the segment between Custer Rd and SH 5: 1) Blue or Yellow (except modify the northward turn by starting it just west of Custer Rd. to make it a shallower curve) 2) Red 3) Green or Pink
Larry Thompson	Yes
Terri Silver	no, there needs to be better options
chris lorance	No
Thomas Wiesle	No
Rick Nguyen	No
Lilia Schmitt	No
Michael Z Taylor	Yes.
Michael	Yes.
Michael Decker	Pretty much.
Jeanie King	no, avoid current housing additions
David Kunde	No - absolutely not on 380!! This would be an economic disaster for homes and business that have already invested to be there. 380 does not need to be a freeway. Too much business development and housing already exists along 380 in McKinney. The horse has left the barn. Move North for alternate routes
Kendall	Not necessarily.
Ashley Hall	Maybe
Diana Wimberly	
Mark Bunker	No. In my opinion, it is too late given all of the development along US 380 through McKinnney. I have done a lot of road trips throughout Texas and the U.S. and very few towns allow a divided highway to go right through their town. If done, it needs to be a depressed highway to minimize the impact to the surrounding communities.
John Duease	yes
Cindy O'Hargan	I don't know.
Logan Geisler	NO!
Steven Vance	No
j	no
Bodie Wilson	no, not regardless I support it to widen and use existing roadway

Please provide us with your contact information.	If US 380 is constructed as a freeway, which alignment do you prefer? (select all that apply)

Please provide us with your contact information.	Do you have any concerns with the existing US 380?
Name	Open-Ended Response
Jeff Box	All of the lights going through McKinney
john chao	Only the entrance to/exit of US75/US380 areas
Daniel Debord	Needs to be restricted access
Leslie W Herstad	
Matt S Runnels	
Julie Espinoza	Traffic congestion, too many 18-wheelers slowing traffic down, extremely dangerous and getting worse every day.
Benjamin Rakofsky	
Carly D. Snead	Too many lights. Varying speeds through different sections. No turn lanes in various areas.
Belinda Patterson	Congestion around hey 75
Megan Patterson	Very Congested
Mary Madison Sewell	Too many lights, too much construction, not enough lanes, people drive about 20 under the speed limit. The problem for me is with Denton through Mckinney.
Brett Patterson	Congested
Paul Dee Patterson	Is congested at 380 and 75
Jacqueline Bragg	Too congested
Francisco Britt	bottleneck to/from Dallas Tollway; travelling east from Coit to Highway 75 slow due to traffic lights not synchronized.
Rich	
Shawna Nevins	No
Christopher Bandy	There's too many lights which aren't synchronized or intelligent. Some days my commute is five minutes longer because I sit at red lights with absolutely no traffic.
Lisa	
Chris Wilson	Too many semi’s
Jeanne Ballard	yes, it is already congested at peak traffic hours
Paul Mijatovich	
David Gunnels	It is becoming too congested
Daniel Kitchens	Congestion at peak hours.
Lindsey Flesher	Only on each far end. Example Dallas North Tollway and 380 gets congested and 75 and 380 gets congested. Other than that my travel is good daily on 380.
	Too many 18 wheeler trucks!
Everett Shell	As long as it stays 3 lanes or 4 that will be good.

Please provide us with your contact information.	If US 380 is congested, what alternative routes do you take?
Name	Open-Ended Response
Jeff Box	Head on hw 78 south to 544 or Bush turnpike. Have only experienced congestion east of Lake Lavon once...caused by a wreck.
john chao	US380 is not quite congested, only during rush hours.
Daniel Debord	Main rd
Leslie W Herstad	VIRGINIA
Matt S Runnels	
Julie Espinoza	FM408, Wilmeth Rd
Benjamin Rakofsky	
Carly D. Snead	I have to go way north, which usually takes up so much time, it's "faster" to just sit in the traffic.
Belinda Patterson	County Roads, White Blvd
Megan Patterson	121, VIrginia
Mary Madison Sewell	I just sit and wait. There's really not alternate route for where I come from and where I'm going. It would be a waste of time to go out of the way.
Brett Patterson	121, VIrginia
Paul Dee Patterson	County Roads
Jacqueline Bragg	DNT to 121 to Lake Forest, DNT to Old Main St, Eldorado Road or Rockhill
Francisco Britt	going East from Lake Forest to Highway 75 I take Wilmeth and back roads; going west to merge into Dallas Tollway I take Preston south (also gets congested) and then take Rock Hill west to merge into Dallas Tollway. Coming north on Tollway connection to 380 is horrible... taking Rock Hill to Preston is just as bad.
Rich	380 does not get that congested that I need to divert to another route.
Shawna Nevins	I have never seen it be too congested for me to use another route.
Christopher Bandy	Virginia Parkway
Lisa	
Chris Wilson	Virginia or Eldorado Pkwy
Jeanne Ballard	Hardin to White to get to I 75
Paul Mijatovich	
David Gunnels	Virginia to the south
Daniel Kitchens	Virginia
Lindsey Flesher	Preston or Custer Rd.
	Coit Road, Virginia Pkwy., Rockhill Rd.
Everett Shell	I usually head south to HWY 75 or Sam Rayburn HWY 121. I take roads down to get to those.

Please provide us with your contact information.	What solutions would you suggest in the US 380 Corridor?
Name	Open-Ended Response
Jeff Box	If transportation changes described by Stanford University futurist Tony Seba at https://youtu.be/2b3ttqYDwF0 take place, you might not need the expanded road.
john chao	Consider to add one lane on each side near US75/US380, ie, from Community Ave to US75/College St. to US75 sections, similar to Virginia Pky
Daniel Debord	Improve to a freeway
Leslie W Herstad	Upgrade US 380
Matt S Runnels	
Julie Espinoza	We need a road like 121 Sam Rayburn that goes from Farmersville to Denton with no lights. TXDoT should give this project to NTTA as they could complete it much faster.
Benjamin Rakofsky	
Carly D. Snead	I like the freeway idea, but I worry about the construction making things even worse and the impact to homeowners and businesses.
Belinda Patterson	Build out Wilmeth and Bloomdale roads from 75 to Custer
Megan Patterson	Expand existing 380 and time lights better
Mary Madison Sewell	I would suggest overpasses or redirecting some of the traffic off of the highway, and take out some of the lights. I also think the speed limit needs to increase.
Brett Patterson	Expand existing 380 and time lights near 75
Paul Dee Patterson	Better timing of lights. Building out Wilmeth and Bloomdale roads East West from Custer to 75. Fix 380 by widening and overpasses.
Jacqueline Bragg	
Francisco Britt	Extend Dallas Tollway north to alleviate traffic going north past 380; improve merging from Dallas Tollway to 380 east by having at least two lanes that don't have to wait for light..just yield. Improve synchronizing for 380 going east from Preston to Highway 85
Rich	Widen or make 380 a double decker.
Shawna Nevins	Widen current 380
Christopher Bandy	Reduce red light intersections by going under them. Synchronize all red lights. Add sensors and tune them to minimize needless red light waiting.
Lisa	Lower the speed limit and monitor it better. The zig zagging of people who think they're in more of a hurry than everyone else is the worst problem and causes the majority of the issues.
Chris Wilson	Outer loop like the one near Denton connecting 380 to I 35
Jeanne Ballard	a loop further north than CR125 like CR129 or CR170
Paul Mijatovich	
David Gunnels	Widening
Daniel Kitchens	
Lindsey Flesher	To provide a few turn lanes on the current 380. To also widen or support better traffic flow at 75/380 and the DNT/380 intersections only. Sync the lights. Also limit 18 wheelers and dump trucks to one lane. The trucks cause lots of congestion.
	Widen it.
Everett Shell	Making 380 an actual HWY, similar to what they did with 121

Please provide us with your contact information.	Do you support the building of a freeway regardless of alignment?
Name	Open-Ended Response
Jeff Box	No. Hard to see that traffic from east of Lake Lavon will ever be heavy enough to justify the red/yellow/blue routes south of Farmersville.
john chao	no, I hope "smart growth" will gradually open up (161) Wilmeth Rd, (123/164) Bloomdale in Mckinney within next 3 to 5 years to alleviate US380 without much burden on taxpayers $$.
Daniel Debord	No
Leslie W Herstad	NO
Matt S Runnels	
Julie Espinoza	YES, it is the only solution to the major problems of 380.
Benjamin Rakofsky	
Carly D. Snead	No; the alignment is crucial.
Belinda Patterson	No
Megan Patterson	No
Mary Madison Sewell	Yes.
Brett Patterson	No
Paul Dee Patterson	No.
Jacqueline Bragg	Provided it is NOT a toll road, yes. We pay THOUSANDS of dollars per year because we have no other free alternative
Francisco Britt	Yes; if the goal is to speed up traffic I am all for it.
Rich	No Bloomdale ByPass
Shawna Nevins	Yes
Christopher Bandy	No
Lisa	No
Chris Wilson	No.
Jeanne Ballard	not sure what this means
Paul Mijatovich	
David Gunnels	Undecided
Daniel Kitchens	No
Lindsey Flesher	No
	No
	No
Everett Shell	Yes

Please provide us with your contact information.	If US 380 is constructed as a freeway, which alignment do you prefer? (select all that apply)

Please provide us with your contact information.	Do you have any concerns with the existing US 380?
Name	Open-Ended Response
Adhappan Thiagarajan	
Lesha wood	Ready for the construction to be done
Dawn Offutt	Congestion and safety.
Kavya Runnels	
Faith Dignan	Too many construction vehicles in all lanes. Should be limited. Also all lights should offer left turns on yield to increase traffic flow.
Matthew Reis	It will get too busy and congested with traffic.
Holly Stengel	Yes can support growth over next 40 years.
Melissa Guyton	
Bradley Holcomb	Lights and not enough lanes.
Roland Feldman	
Katherine Ponder	It is not a true highway; the lights interrupt the flow, and narrowing lanes interrupt the flow. Either slow down the speed limit or address the constraints. I have had dear friends who lost family members on this road.
Allie Jackson	The traffic on 380 from Hardin Blvd down to 75 is horrible. The congestion is just getting worse. Especially right at 75 and 380.
Larry Price	No
Chris Pheil	Yes. Hardin to 75
Jill Price	No
Terrie Smead	Too many lights
Jill Price	No
Meagan Whaley	To much construction
Christine Sehler	
	Too much traffic
Sandra White	No
Pierre Alfred	No.
Kristian Olivares	
Ryan	No
Ashtyn Castellon	Construction cannot keep up with the growth of Collin and Denton county.
Katie Callaway	No, but I do not use 380 to commute to work.
Tony Carter	Complete existing construction projects, which include adding multiple lanes, etc.
Laurie Fiette	There is too much traffic and accidents on the stretch between McKinney and Farmersville. Don’t like the center turn lane.
Susan Patterson	No

Please provide us with your contact information.	If US 380 is congested, what alternative routes do you take?
Name	Open-Ended Response
Adhappan Thiagarajan	
Lesha wood	121
Dawn Offutt	There isn't any.
Kavya Runnels	
Faith Dignan	
Matthew Reis	FM 1461, CR161
Holly Stengel	Hardin / thru Erwin farms to prosper trail
Melissa Guyton	
Bradley Holcomb	Harden to Virginia rd
Roland Feldman	
Katherine Ponder	I just slog along.
Allie Jackson	Hardin Blvd to White Ave to get to 75.
Larry Price	Virgina
Chris Pheil	Lake Forrest to 121
Jill Price	Virginia
Terrie Smead	Virginia
Jill Price	Virginia
Meagan Whaley	Custer to 121 or eldorado
Christine Sehler	
	We take Hardin to White St. to US 75
Sandra White	None really, maybe Virginia but since it’s under expansion- no
Pierre Alfred	Custer or Lake Forest to access 121
Kristian Olivares	
Ryan	Hardin, white, community
Ashtyn Castellon	75, 121, Custer, or Preston Rd
Katie Callaway	
Tony Carter	380 is alternate to 121 for me.
Laurie Fiette	FM 546 or East Lucas Road
Susan Patterson	Hardin to 121 or Custer to 121

Please provide us with your contact information.	What solutions would you suggest in the US 380 Corridor?
Name	Open-Ended Response
Adhappan Thiagarajan	Build Over bridges in 380 itself.
Lesha wood	We need a route north of celina
Dawn Offutt	I don't know.
Kavya Runnels	
Faith Dignan	Limit construction vehicles to one or two lanes and allow turns with yield light instead of sitting and waiting for green.
Matthew Reis	
Holly Stengel	Build up, build a new toll road directly above the existing corridor. Would not affect neighborhoods but would support growth projection over next 40 years.
Melissa Guyton	
Bradley Holcomb	Widen with bridges at intersections. No tolls.
Roland Feldman	380 needs to stay north of 121 and connect to 75 to access 121
Katherine Ponder	See above.
Allie Jackson	More lanes, and maybe sync up the lights so you don’t get stopped at every single light due to traffic not getting through the lights in time.
Larry Price	Widen 380
Chris Pheil	Double decker from 75 in McKinney to 35 in Denton
Jill Price	Widen 380
Terrie Smead	Super road with cross streets tunneled under
Jill Price	Widen 380
Meagan Whaley	I dunno
Christine Sehler	
	Elevate the existing route like Austin did with 35.
Sandra White	Unsure
Pierre Alfred	Add lanes to current US 380. Construct a roadway from N Ridge RD that connects to where CR-161 and Wilmeth Rd meet.
Kristian Olivares	
Ryan	Idk
Ashtyn Castellon	Over passes seem like they will work well at major intersections. Higher speed limits in certain areas.
Katie Callaway	While I understand the need for changes to be made to improve traffic flow with the expanding population, I do not support any bypass route along Bloomdale/123. This is due to the close proximity of Bloomdale to the Heatherwood neighborhood and Baker Elementary. I feel that it is unsafe and environmentally dangerous to have a freeway within feet of homes in which children play outside and walk to school. If a bypass is determined to be necessary, this should cut through a more northern route such as Laud Howell in which there is not such a large residential presence. To avoid a bypass completely, I support work on 380 (green or pink routes) as well as building out the east/west corridors as initially planned. Additionally, the outer loop would help alleviate traffic that wishes to bypass 380.
Tony Carter	Outer loop proposed.
Laurie Fiette	Synchronize the lights, have actual turn lanes instead of center turn lane, widen it.
Susan Patterson	Widen 380

Please provide us with your contact information.	Do you support the building of a freeway regardless of alignment?
Name	Open-Ended Response
Adhappan Thiagarajan	No. This would raise the noise pollution and air pollution. This project would not make "McKinney Unique by nature". We want to preserve the nature
Lesha wood	No
Dawn Offutt	No
Kavya Runnels	
Faith Dignan	No
Matthew Reis	No
Holly Stengel	No, homes should not be impacted by the chosen growth strategy.
Melissa Guyton	
Bradley Holcomb	Yes
Roland Feldman	No. 380 needs to be widened and stay north of 121.
Katherine Ponder	No
Allie Jackson	I'm not sure.
Larry Price	Only if it means widening 380
Chris Pheil	Yes
Jill Price	Only if the alignment stays away from Erwin Park.
Terrie Smead	No
Jill Price	No
Meagan Whaley	No
Christine Sehler	
	yes
Sandra White	No
Pierre Alfred	No. Especially if it uproots families from their current homes.
Kristian Olivares	
Ryan	Yes but don't interfere with the back roads, keep 380 on 380
Ashtyn Castellon	Yes
Katie Callaway	Yes, as long as the freeway is not along Bloomdale/123.
Tony Carter	Not near me, no I do not support freeway regardless of alignment.
Laurie Fiette	No, I think the alignment matters.
Susan Patterson	No

Please provide us with your contact information.	Do you have any concerns with the existing US 380?
Name	Open-Ended Response
Heather Fleske	Its very busy. In some area it is very unsafe to get on 380, especially if making a left turn across traffic.
Andrew Fleske	Too many stop lights to make it an effective path from my house to work. The congestion forces multiple cycles of the stoplight at certain intersections.
Jerry Brown	Traffic is terrible from Denton through McKinney.
	No
Mayra Maldonado	The congestion on 380 is a constant and growing problem.
Sunny Moore	Traffic, congestion, dangerous, lack of division of opposite direction of traffic.
Howard Strokes	Stop light timing
Gregory Valdman	I don't have any concerns. 3 lanes in each direction is fine.
Cindy Hicks	The existing 380 is not engineered properly to handle traffic flow. It needs to be improved.
Anthony Kan	observe heavier traffic flow
Vincent Gunn	Traffic volume, ingress/egress, noise, safety.
Mohammad Islam	No
Sheka	Construction Everywhere. One section needs to be finished before trying to mess up another part and create more traffic.
brett carlson	Improve the existing infrastructure.
Robert A.	No concrete barriers from hwy 423 in Frisco and I-35 in Denton. Need for dedicated turning lanes.
	Just solve 380 problems on 380 and NOT INTERFERE WITH FAMILIES AND THERE HOMES OR BUSINESS. THESE PEOPLE HAVE WORKED HARD TO GET THE HOMES THEY HAVE THAT'S INSANE TO DO THAT TO PEOPLE.IF YOU WOULDNT WANT YOUR HOUSE TORN DOWN BECAUSE OF A ROADWAY THEN OTHER PEOPLE DONT EITHER!!!!!!
Adam	
Justin Gemmell	No
RICHARD CLAYTON LANDEL	Yes. Truck traffic is out of control - speeding, loose objects falling off them on to road - extremely dangerous . Autos drag racing at all times of day. Desperately needs policing.

Please provide us with your contact information.	If US 380 is congested, what alternative routes do you take?
Name	Open-Ended Response
Heather Fleske	I avoid traveling on 380 during peak traffic times.
Andrew Fleske	Prosper Trail - it runs directly behind my house and only has 2 stops between Lake Forest and Preston, however is a very poor road from Heatherwood subdivision to Custer. I would rather take 380 if it were a highway.
Jerry Brown	Usually, if I have to be on 380, I grit my teeth and bear it.
	123
Mayra Maldonado	On a daily basis I exit White off 75 due to exit for 380 is dangerous; too many cars are backed up trying to exit 380. Sometimes we go South on Custer because the intersection of 75 & 380 is too congested.
Sunny Moore	Fishtrap
Howard Strokes	Virginia Pkwy
Gregory Valdman	W White Ave
Cindy Hicks	White and El Dorado for east / west travel.
Anthony Kan	depends on where I am going. Usually frontage routes or country road.
Vincent Gunn	Lake Forest or Hardin south to 121 or 75
Mohammad Islam	
Sheka	There is no alternate route for me.
brett carlson	
Robert A.	None.
	whatever other road is available. It's not a big deal. Just widen 380 is all you need to do!!!!!!.
Adam	
Justin Gemmell	White, Virginia, El Dorado
RICHARD CLAYTON LANDEL	adjoining neighborhood roads

Please provide us with your contact information.	What solutions would you suggest in the US 380 Corridor?
Name	Open-Ended Response
Heather Fleske	
Andrew Fleske	Make 380 a highway, maybe even elevated to have less impact on the 380 businesses.
Jerry Brown	All of the solutions affect me negatively, since I seem to have beeyards immediately in the path or directly next to, any solution. If I had to suggest one, it would be to keep any solution to the 380 issue located in the current 380 corridor, and let the Collin County Outer Loop route through traffic around Prosper and McKinney.
	Build and elevated highway on 380
Mayra Maldonado	Building a limited-access freeway would keep the existing problems from happening again on any new construction.
Sunny Moore	Widening, overpasses, turn lanes
Howard Strokes	Add a second deck to 380 with double occupancy lanes.
Gregory Valdman	Improve existing 380.
Cindy Hicks	1) Focus on immediate progress on the Collin County Outer Loop. Otherwise we will end up land locked as development moves rapidly northward. 2) Focus on significant improvements to the current route of US 380. I do not in any way support the 380 bypass approach. Immediate focus should be on how to improve the current route for 380. Consider grade separated intersections, improved light timing, improved right turn and exit lanes, widening. 3) Consider mass transit options. 4) Consult with experts in dense urban settings regarding best practices for freeways and traffic flow. What can we learn from others that have gone before us successfully? 5) Consider impact not just on traffic / drivers. Also consider how to maintain the beauty of McKinney, avoid impact to current property owners, avoid negative environmental impacts.
Anthony Kan	Expand on existing US 380
Vincent Gunn	Need a freeway loop between 75 and 289 that bypasses East and West McKinney to the north. Ideally loop would extend to Dallas North Tollway and 35 another loop for the Dallas metroplex. This model would allow 380 to be left "as is".
Mohammad Islam	Make four lane
Sheka	
brett carlson	Fix/repair the existing infrastructure.
Robert A.	Expand the corridor and correct the turning lanes and center barrier needs.
	WIDEN 380 IS ALL YOU NEED TO DO FIX 380 ISSUES ON 380 AND NOT TEAR DOWN PEOPLE'S HOUSES!!!!!!.
Adam	
Justin Gemmell	An elevated bypass system on 380 from a few miles east of 75 to a few miles west of 75, similar to what Austin has done on I-35/HWY 290. You maintain the original ground level 380 so there is not lose of business to those, but allows parties doing business a few miles down the road to not have to travel miles out of their way on a bypass or sit through all the traffic lights in the 380/75 area. This limits the amount of new land purchased as well as minimizes the disturbance to the existing residential areas or the beautiful countryside north of 380.
RICHARD CLAYTON LANDEL	Build below grade (ie Tx Express freeway)

Please provide us with your contact information.	Do you support the building of a freeway regardless of alignment?
Name	Open-Ended Response
Heather Fleske	no
Andrew Fleske	No, the freeway needs to be in the pink and green alignments only to be most effective and direct.
Jerry Brown	No, I do not support the building of a freeway *regardless of alignment*. I support the conversion of the current 380 route into a freeway.
	No
Mayra Maldonado	I support the building of a freeway as long as it does not affect my quality of life.
Sunny Moore	Yes
Howard Strokes	No
Gregory Valdman	Alignment of the great importance for me.
Cindy Hicks	No - I do not support the building of a freeway regardless of alignment. Impact on current property owners and the environment should be taken into consideration. It is not just about impact on drivers. I support building the Collin County Outer Loop ASAP.
Anthony Kan	No. Fix 380 on 380
Vincent Gunn	I would conditionally support a freeway solution if the plan accomodates a east/west freeway to the north of McKinney that bypasses 380 and northern McKinney and which intersects with the 75, 289, Dallas North Tollway, and 35 freeways. This solution would can be built out over a period of years and adds another loop to the Dallas Metroplex to accomodate future growth north while preserving 380 in it's current state for intra-city traffic and growth.
Mohammad Islam	NA
Sheka	No.
brett carlson	If you can improve the existing road.
Robert A.	Yes.
	No!!!!! Fix 380 on 380 and nowhere else!!!!!.
Adam	
Justin Gemmell	only is it stays on the existing 380
RICHARD CLAYTON LANDEL	no, no, no

Please provide us with your contact information.	If US 380 is constructed as a freeway, which alignment do you prefer? (select all that apply)

Please provide us with your contact information.	Do you have any concerns with the existing US 380?
Name	Open-Ended Response
Josiah McDaniel	It's congested in certain points, mostly East of US75.
Allie Hale	
Emily Freiley	Not enough lighting, disjointed progress with Denton county. Not enough alternatives.
Lismary	No
Rachael Scicchitano	No
Riccardo P Scicchitano	
Riccardo R Scicchitano	I have no issues w 380 as it's similar to many other major rods in DFW (Preston / NW Highway etc)
Toby Jones	Large increase in traffic going from Princeton to McKinney. Seems like there is a wreck at least once a month at certain intersections.
Sara Marie Reed	I live in the Creekview neighborhood and the entrances and exits into our neighborhood are very dangerous.
Alex Monroe	
Dana Wilson	Yes, with the amount of lights and the current speed limits it creates an unsafe environment.
Dorothy Hembree	Too many vehicles for current or future growth
Tiffany Laine	None really. Less Ted lights would make it move faster, but I don't really have a problem with 380 traffic.
Pinal	Congested and need improvement
Rachana Patel	NO
Billy Clinton	No
Chris Jones	No.
Brent Begleu	Traffic is intense....especially prior to 75. The back ups can be ridiculous.
Rachel Martelle	Traffic
Shiva	Not right now but might be in future.
Christy Wallace	Yes.
Curtis Clark	Busy

Please provide us with your contact information.	If US 380 is congested, what alternative routes do you take?
Name	Open-Ended Response
Josiah McDaniel	Wilmeth between US75 and McDonald. Otherwise I use 380.
Allie Hale	
Emily Freiley	None - there are no alternatives
Lismary	
Rachael Scicchitano	Back roads and neighbor hoods
Riccardo P Scicchitano	
Riccardo R Scicchitano	back roads north or Eldorado or Virgina
Toby Jones	Bridgefarmer Rd to 546 to Hwy 5
Sara Marie Reed	I usually just wait in traffic. If 380 is shut down, I will take FM 546.
Alex Monroe	
Dana Wilson	121, hwy5 or side streets.
Dorothy Hembree	Virginia Parkway or White
Tiffany Laine	If it's congested I take the north/south running roads to a quicker path.
Pinal	I am avoiding 380.
Rachana Patel	121
Billy Clinton	White ave
Chris Jones	Hwy 5
Brent Begleu	There really are no good alternatives routes
Rachel Martelle	
Shiva	i think Blue Alignment.
Christy Wallace	There are none I know to take. I tough it out or stay home.
Curtis Clark	No other alternative

Please provide us with your contact information.	What solutions would you suggest in the US 380 Corridor?
Name	Open-Ended Response
Josiah McDaniel	Pink and Green alignments only . . . improve 380 on 380. Don't build a highway through people's homes. There are so many terrible parts to DFW, 380 doesn't have to be a flawless route. Widen it up East of US75, build an overpass over Hardin, Lake Forest, Custer, and Coit, and you will solve many of the issues.
Allie Hale	
Emily Freiley	Build up/connect alternative parallel streets - enforce truck laws as most of the traffic issues are caused by the giant 18 wheelers who seem to only be able to go 5 mph
Lismary	
Rachael Scicchitano	
Riccardo P Scicchitano	
Riccardo R Scicchitano	Build express lanes above it or below like 635 and where needed overpasses similar to whats being constructed at Preston to alleviate spot congestion.
Toby Jones	A major piece of the project needs to be the connection to the 121/75 intersection (South McKinney), since the majority of the traffic needs to go to South on 75 or West on 121.
Sara Marie Reed	I like the idea of a freeway with service roads, but I'm concerned about how the alignment will affect my home and property value.
Alex Monroe	
Dana Wilson	Widen US 380 in it's current route.
Dorothy Hembree	I have only seen possible routes in the newspaper, and they were not specific enough to make a good judgement. I need more information.
Tiffany Laine	Creating a highway on 380. NOT as a bypass north or 380
Pinal	I suggest to develop 380 like 635 texexpress road. so no need alternate route.
Rachana Patel	Learn from 635 development and have an underground toll road for the ones trying to bypass mckinney traffic. People going to access mckinney business will still use 380. Plus the different routes will create even more congestion whenever it merges into 380.
Billy Clinton	Widen 380 . Access roads by 380 to allow 380 to be a freeway.
Chris Jones	Keep 380 away from existing residential neiborhoods like Bloomdale. Wilmeth goes through an industrial area but end up close to residential area going east after hwy 5.
Brent Begleu	All of Collin county needs to take the approach Prosper has taken and expand 380.
Rachel Martelle	
Shiva	Alignments with freeway would work.
Christy Wallace	From Airport Road through to Lake Lavon bridge should be widened, fill the center left turn only lane into median with vegetation & mark designated, protected left turn lanes. An overhead freeway from Monte Carlo through Princeton with entrance/ exit ramps with service roads to connect to secondary farm roads. Or an outside freeway loop around through the north countryside.
Curtis Clark	Widening Tunnel at 75 and 380 intersection

Please provide us with your contact information.	Do you support the building of a freeway regardless of alignment?
Name	Open-Ended Response
Josiah McDaniel	No. Building the bypass using the Red, Blue, and Yellow alignments will hurt our property values. Please reconsider these routes and just improve 380 as it was placed when EVERYONE bought these homes.
Allie Hale	
Emily Freiley	Yes
Lismary	
Rachael Scicchitano	No
Riccardo P Scicchitano	No
Riccardo R Scicchitano	No, it will harm local business along 380. Spend tax dollars on something that will support the local economy, not take traffic away from it
Toby Jones	Yes, the amount of traffic is only going to increase.
Sara Marie Reed	I support a freeway but the alignment is important to me.
Alex Monroe	
Dana Wilson	No.
Dorothy Hembree	Yes
Tiffany Laine	No
Pinal	yes
Rachana Patel	no
Billy Clinton	No
Chris Jones	No. Although population is growing, 380 east of hwy 75 is not growing and existing businesses don't seem to be prospering due to the low income area. Leave 380 alone and add lanes.
Brent Begleu	I am opposed to a freeway along the bloomdale route. This would be very close to many residential neighborhoods and would likely not solve the 380 congestion issues as it is so far out of the way. I feel that the best solution is to find a way to expand 380 throughout all of Collin county.
Rachel Martelle	
Shiva	Yes
Christy Wallace	No. I live in Creekview across from Walmart and the situation is already impacting our neighborhood. I live on the west side & have been told for going on 6 years there was going to be a new road behind my house. If the proposals eliminating all the new businesses near us plus many of the houses on the south side of our development are enacted I would lose my home, my investment & that would make me very uneasy. Building a freeway which would displace homeowners in great numbers is a poor solution.
Curtis Clark	Yes

Please provide us with your contact information.	If US 380 is constructed as a freeway, which alignment do you prefer? (select all that apply)

Please provide us with your contact information.	Do you have any concerns with the existing US 380?
Name	Open-Ended Response
Misti Greer	It is dangerous. I drive from Pecan ridge neighborhood to Baylor Scott & White Mckinney everyday and there are often wrecks at 380 and Lakeforest
Holly Garrett	No
Jill Schurr	Yes, traffic is increasing and I have safety concerns.
Heather Dorantes	Congested, not enough lights on the Denton county side, speed limit too high
Kandace	No
Ashley Bechtold	The amount of accidents on 380 in Princeton.
Ashley Bechtold	I am concerned with the build up if traffic at high travel times and the amount of accidents that occur in the Princeton area.
James Rooney	Yes, too many construction vehicles (semi's, concrete mixers, dump trucks, etc.) add greatly to congestion.
Julie Covington	
Birgit Mendoza	No
Tony Keefer	NO
Dianne Brown	Too much traffic. Can't get up to the speed limit. Bunching going eastbound right before US 75.
D. Scott Brown	Yes, too much traffic and don't get up to the speed limit.
christina schneider	It will not be big enough in a few years to handle all the traffic.
Marvin Schneider	It will not be sufficient to handle future traffic need efficiently.

Please provide us with your contact information.	If US 380 is congested, what alternative routes do you take?
Name	Open-Ended Response
Misti Greer	Hardin
Holly Garrett	121
Jill Schurr	I can't take an alternative. The only exit from my neighborhood is onto 380. I have to drive it for at least a few miles every day.
Heather Dorantes	Fishtrap, panther creek, el dorado
Kandace	Virginia or el dorado
Ashley Bechtold	Virginia pkwy
Ashley Bechtold	If possible Virginia pkwy
James Rooney	We routinely take Virginia to the South and CR 123 and Wilmeth east to 75, or west to Custer.
Julie Covington	
Birgit Mendoza	
Tony Keefer	Do not use alternate route
Dianne Brown	* Virginia/Rockhill to the Dallas North Tollway. * Custer to 121. * Hardin to 121. * Hardin to Virginia to US 75.
D. Scott Brown	* Virginia/Rockhill to Dallas North Tollway. * Custer to 121. * Hardin to 121. * Hardin to Virginia to US 75.
christina schneider	There is not another option.
Marvin Schneider	None.

Please provide us with your contact information.	What solutions would you suggest in the US 380 Corridor?
Name	Open-Ended Response
Misti Greer	I am concerned about a freeway being so close to my house (bloomdale and laud Howell surround my neighborhood). I feel like making 380 more like 75 would be better.
Holly Garrett	Not sure
Jill Schurr	If there has to be a freeway then they should dig down and put the access road on top. That would be far less disruptive to the community.
Heather Dorantes	Widen, medians, turn lanes, lights.
Kandace	Lawd Howell, or expand 380
Ashley Bechtold	The outer loop is the only viable option.
Ashley Bechtold	The loop would be the best option in my mind as it will impact communities the least. At this time the loop and expanding the current 380 are the best options for my neighborhood. Blue, yellow and red put my community in a pocket surrounded by 75 and a freeway. The blue option puts a freeway directly in front of an elementary school.
James Rooney	380 Freeway: build overpasses at major thoroughfares/crossings, such as Lake Forest, Custer, 289 (Preston), DNT, and 423 (Main).
Julie Covington	
Birgit Mendoza	Lower the speed limit.
Tony Keefer	Keep as is.
Dianne Brown	* Turn existing 380 into a Freeway from Denton to US 75. * Widen/extend FM 1461 East/West to a 3 lane road in each direction from the Dallas North Tollway to US 75. * Widen/extend Prosper Trail in Prosper and Bloomdale Road in McKinney to a 3 lane road in each direction from the Dallas North Tollway to US 75. * Extend First Street in Prosper to Wilmeth Road in McKinney and widen to a 3 lane road in each direction from the Dallas North Tollway to US 75. * Widen Rockhill/Virginia to a 3 lane road in each direction from the Dallas North Tollway to US 75. * Widen Eldorado to a 3 lane road in each direction from the Dallas North Tollway to US 75. * Plan and Build the Outer Loop Freeway now before businesses/homes build up around the roadway like TXDOT waited too long and now there's a lot of businesses along 380 that will be displaced if it's turned into a Freeway. * If a Bypass option is chosen, the red option through McKinney would be the best.
D. Scott Brown	* Turn existing 380 into a Freeway from Denton to US 75. * Widen/extend FM 1461 East/West to a 3 lane road in each direction from the Dallas North Tollway to US 75. * Widen/extend Prosper Trail in Prosper and Bloomdale Road in McKinney to a 3 lane road in each direction from the Dallas North Tollway to US 75. * Extend First Street in Prosper to Wilmeth Road in McKinney and widen to a 3 lane road in each direction from the Dallas North Tollway to US 75. * Widen Rockhill/Virginia to a 3 lane road in each direction from the Dallas North Tollway to US 75. * Widen Eldorado to a 3 lane road in each direction from the Dallas North Tollway to US 75. * Plan and Build the Outer Loop Freeway now before businesses/homes build up around the roadway like TXDOT waited too long and now there's a lot of businesses along 380 that will be displaced if it's turned into a Freeway.
christina schneider	Enlarge it, but DO NOT MOVE IT. Keep it where it is.
Marvin Schneider	Build a freeway BUT do not alter its current path.

Please provide us with your contact information.	Do you support the building of a freeway regardless of alignment?
Name	Open-Ended Response
Misti Greer	Yes, just not surrounding my house.
Holly Garrett	No
Jill Schurr	No. It would be like turning Custer or Preston into a freeway. There is a lot of open land to the North (by the Courthouse) where and E/W freeway would be far less disruptive for business and residents.
Heather Dorantes	No
Kandace	No
Ashley Bechtold	No, blue, yellow and red place our neighborhood in a pocket of 75 and the 380 proposed. Blue places a freeway right in front of an elementary school and right next to houses and a park. We already have automobile noise from 75 and it is loud, add 380 then we will never have peace and quiet. Putting the freeway will force people to move from their homes and that is not easy as you cannot find a comparable house for price in the area.
Ashley Bechtold	No, blue, yellow and red are out of the question for our neighborhood and community.
James Rooney	No, we do not support the Bloomdale/CR123 route through north McKinney.
Julie Covington	
Birgit Mendoza	No
Tony Keefer	No
Dianne Brown	Yes.
D. Scott Brown	Yes
christina schneider	No. I support a freeway, but it needs to stay where it is. Do NOT create new roads.
Marvin Schneider	No. I support the freeway but ONLY if it remains on its current path. Enlarge the current easement and build it in place.

Please provide us with your contact information.	If US 380 is constructed as a freeway, which alignment do you prefer? (select all that apply)

Please provide us with your contact information.	Do you have any concerns with the existing US 380?
Name	Open-Ended Response
Lydia La Fratta	The lack of enforcement of the speed limit-- until people stop going 75 in a 55 zone and swerving in and out and cutting people off (and until law enforcement actually starts enforcing the speed limit), 380 is always going to be a dangerous drive. The speed limit should definitely be much lower. I hate sitting in the left turn lane at Ridge Rd in McKinney and having my car rattle as trucks rush past going 75.
Mark Kasperowicz	Too much congestion at stoplights. Not enough lanes. Too many stoplights.
Mark Kasperowicz	Not enough overpasses (to bypass the stoplights).
Brennan Palmer	Yeah it needs a few more lanes. Just widen if.
Scott Jones	Impacting my neighborhood on the north side of 380
Keith Harty	Need to be expanded to handle future traffic influx.
Jared Canuteson	The existing thoroughfare doesn't support the current traffic counts. Even the expanded 6-lane divided configuration will not be adequate for the predicted expansion of Collin County, which will likely exceed Dallas County within 20 years. Collin County needs 380 to ultimately be a managed access highway.
Sharon Harty	Yes. Traffic and stoplights.
Ulysses Roman	Has been getting too congested recently. In need of immediate expansion.
Brett Giesler	There are some turnoffs without a dedicated turn lane, which makes things difficult. Also. It's treated as a high way. But it not layout or planned like one.
Joe Seguin	Too many stop lights.
Jessica Land	It needs restructuring to hold additional capacity
John D. Thomas	Too many accidents, congestion, slow speeds through city centers
Tim Kihm	Congested at rush hour and on weekends at stoplights between 75 and DNT.
	N0 county roadswith the new construction.
Robert Benson	Yes, heavy commercial vehicles, general roadworks and unfinished right of ways
Bree Kihm	No. There is traffic, but I feel it is what I expect it to be.
alissa askins	Yes, the 380HWY that already exists needs overpasses at the lights to make the highway more efficient
Gianise Lewis	Congestion at DNT and 380 and 380 and 289.
Nermin Duratovic	No
RICHARD LANDEL	Violent and reckless truck traffic at very excessive speeds with limited to no police patrolling or protection. Majority of non truck traffic constantly at speeds well above posted limits as well.
Paul Sheppard	Too much traffic and is dangerous.
Kevin Caddell	
Joan Fish	Overcrowding
David Kirkwood	Too congested
	Traffic lights are too close together. If a light is green often times you can't go because the light ahead is backed up so far.
Jayson Barker	

Please provide us with your contact information.	If US 380 is congested, what alternative routes do you take?
Name	Open-Ended Response
Lydia La Fratta	Virginia, tollway
Mark Kasperowicz	South on Lake Forest to 121, or across Bloomdale Rd to DNT.
Mark Kasperowicz	South on Lake Forest, to 121.
Brennan Palmer	121 and 75. Or virgina.
Scott Jones	Wilmeth
Keith Harty	121 or Virginia
Jared Canuteson	Rockhill, Eldorado, Prosper Trail, Frontier Parkway
Sharon Harty	75, 121
Ulysses Roman	None. Stick through the traffic.
Brett Giesler	Fish trap road or teel parkway.
Joe Seguin	Custer rd
Jessica Land	It depends on where I am going. Generally I take back roads north or Virginia and Custer south.
John D. Thomas	Side streets
Tim Kihm	Rock Hill east from DNT, to Custer
	County Roads
Robert Benson	I always attempt to avoid 380. Using various streets such as Coit and Custer, as well as Preston.
Bree Kihm	Wilmeth in McKinney to the north or Virginia/Rockhill to the South.
alissa askins	I do not take alternate routes
Gianise Lewis	Coit south to 121 or Preston to Rockhill to DNT
Nermin Duratovic	Dont have too many issues with congestion.
RICHARD LANDEL	rural back roads
Paul Sheppard	Virginia Parkway and Wilmeth
Kevin Caddell	
Joan Fish	Have to take 380
David Kirkwood	Eldorado to Custer
	Through Celina and Aubrey
Jayson Barker	

Please provide us with your contact information.	What solutions would you suggest in the US 380 Corridor?
Name	Open-Ended Response
Lydia La Fratta	Put in turn lanes, lower the speed limit, think before building new retail. McKinney is quickly becoming another Plano with all the building, which I don't like. It's no longer "unique by nature". The grade separated intersections could be okay- would need more info. I like traffic lights, because it at least forces people to slow down once in awhile.
Mark Kasperowicz	Fix 380 on 380 by turning 380 into a freeway, with overpasses at all possible intersections.
Mark Kasperowicz	More overpasses (to bypass stoplights). Widen 380.
Brennan Palmer	Widen it or put it underground.
Scott Jones	Widen when possible or double stack
Keith Harty	Widen the existing 380 and make an interchange at 75 with continuous lane(s) to tie into 121 toward Bonham.
Jared Canuteson	Expand 380 to be managed access highway with service roads.
Sharon Harty	If 380 was like 121, with a highway plus service road, that would be awesome.
Ulysses Roman	Start expanding at an extremely fast pace to keep up with future demands.
Brett Giesler	Offramps or clovers instead of typical side feeder roads, so you can exit without slowing traffic on 380.
Joe Seguin	Build a highway farther north in Celina instead
Jessica Land	Improve and increase what is currently in place. Do not place a freeway in our backyards.
John D. Thomas	North of Frisco, McKinney, south of New Hope, North of Princeton and south of Farmersville. Stay away from Fairview.
Tim Kihm	Build stoplight overpasses at existing stoplights for through traffic, similar to what exists in Frisco/Plano on Preston and at the 121intersection.
	Expansion requires land. There’s no room left to expand.
Robert Benson	Not sure I have the answer, however if a "By pass" of sorts could allow larger trucks to have such a dominant role, it would allow more "general " population traffic...
Bree Kihm	Adding in more overpasses where feasible to allow thru traffic to flow on 380.
alissa askins	Widening of the existing 380HWY and passes at the lights. If you added overpasses at the lights it would help so much.
Gianise Lewis	More turn lanes from 380 to DNT as well as to Preston
Nermin Duratovic	
RICHARD LANDEL	Leave as is with lower enforced speed limits. Exclude thru trucks by diverting to north with a possible new allingnment devoted as a "trucking route" running from 75 well north of 380 to the tollway.
Paul Sheppard	Build a bypass around McKinney. L
Kevin Caddell	
Joan Fish	Loop far to the north of McKinney for through traffic
David Kirkwood	Extend 6 lanes each way, or build a bypass.
Jayson Barker	

Please provide us with your contact information.	Do you support the building of a freeway regardless of alignment?
Name	Open-Ended Response
Lydia La Fratta	No, I do not. Freeways in Texas are the worst. Too many people speed, and too many people cut you off trying to get to their exits last minute. People merging in don't have enough space, and it's hard to let them in. I can't count the number of times I've almost died on 75 or the tollway-- and I've only lived here for a year. It is also way too costly to build a freeway.
Mark Kasperowicz	No. Fix 380 on 380. I do not support any other alignments. Particularly because several of the alignments abut Bloomdale (my backyard, literally).
Mark Kasperowicz	I do not support the outer loop running parallel to 380 as some of the alignments run across "Bloomdale" which would put the freeway in my backyard (literally). Fix 380 on 380.
	Yes
	Yes
Brennan Palmer	No! Keep it where it is. Don’t put it north and ruin the homes and countryside.
Scott Jones	No
Keith Harty	No. I support the improvement of the existing 380 only.
Jared Canuteson	Yes.
Sharon Harty	Makes the most sense to me to improve the existing 380. The other options would level some people's homes.
Ulysses Roman	Yes
Brett Giesler	No, alignment is important as it's a main east/West thoroughfare.
Joe Seguin	No
Jessica Land	No, I am completely against building a freeway in the backyard of residents and our elementary school.
John D. Thomas	We need a freeway but any alignment? No. There are reasonable alternatives that will satisfy the needs.
Tim Kihm	No, a full fledged freeway on 380 is not needed. Just overpasses for through traffic to avoid stoplights.
	No
Robert Benson	No
Bree Kihm	No.
alissa askins	NO
Gianise Lewis	Yes
Nermin Duratovic	No
RICHARD LANDEL	I do not
Paul Sheppard	Yes
Kevin Caddell	
Joan Fish	No
David Kirkwood	Yes, the way I've seen it's been drawn up
	Yes
Jayson Barker

Please provide us with your contact information.	Do you have any concerns with the existing US 380?
Name	Open-Ended Response
Rita Springer	Yes
Gloria Hurtado Díaz	No
Sourav parija	No
Benjy Green	Congestion, number of lights, speed
Jane Champion	
Jon Wilson	No
Aojing Lu	
Audrey Anderson	
Tamika Noffsinger	
Mitch Phillips	The ability to handle the traffic and get places quickly.
Nick Salazar	With the addition of new housing developements along 380 between DNT and FM1385 there has been an increase in traffic. In addition there have been half a dozen new stoplights installed between 1385 and HWY 75. 380 can and should be turned into a major highway with a service rd.
Jenny Allen	
Morgan	Too much congestion, a lot of big trucks that have issues starting quickly at stop lights which delays traffic.
Darren Thompson	Extremely heavy at 75 intersection. Too many lights that do not seem to give long enough right away to main thoroughfare.
Kayla Mullican	
David Pratt	It is congested and it will become more congested.
Michelle Mills	
Cameron	Many intersection need to be re-engineered. Many designated turn lanes need to be installed for efficiency and safety
Lacey Combs	It is crowded at certain times of the day
Jessica Pannell	
Jessica Pannell	Yes! Too many large trucks that throw rocks and other objects damaging cars. I have children and I am nervous taking them on this road. I purposely go the long way to avoid 380. Also turning out from the businesses along 380 is risky, not to mention trying to get all the way across. It causes many car to sit in the middle. Example is the Walmart and Lowe's area at Custer. Very unsafe!
Sara Lewis	Yes
Tim Payne	Congestion and safety

Please provide us with your contact information.	If US 380 is congested, what alternative routes do you take?
Name	Open-Ended Response
Rita Springer	New hope
Gloria Hurtado Díaz	
Sourav parija	Hardin
Benjy Green	Virgina or El Dorado
Jane Champion	
Jon Wilson	121 SAM Rayburn Tollway, Virginia parkway, Eldorado parkway.
Aojing Lu	Virginia, El Dorado, 121
Audrey Anderson	
Tamika Noffsinger	
Mitch Phillips	Prosper Trail
Nick Salazar	Fishtrap Rd.
Jenny Allen	
Morgan	Neighborhood streets
Darren Thompson	Wilmeth
Kayla Mullican	Preston/Rockhill or Main/Stacy going East
David Pratt	I take 543 to 168 to 166/Lake Forest
Michelle Mills	
Cameron	El dorado
Lacey Combs	Wilmeth
Jessica Pannell	
Jessica Pannell	Virginia Stonebridge Preston Prosper Trail Custer
Sara Lewis	Hardin south
Tim Payne	Occasionally, I will take the variety County roads that dog legs around the Wilmeth Rd route from Lake Forest to 75. Often times, I drive from to Virginia, El Dorado, or 121 down Lake Forest. To go into Propser I take Bloomdale or 1461 instead of 380. I would take Wilmeth to Prosper or 75 if the road was completed all the way.

Please provide us with your contact information.	What solutions would you suggest in the US 380 Corridor?
Name	Open-Ended Response
Rita Springer	A bridge to by pass Walmart and 982 to by pass the lights if they are traveling through town only. And widening 380 with service roads.
Gloria Hurtado Díaz	To make it wider.
Sourav parija	
Benjy Green	Overpasses at major intersections AND a north loop that goes from 75 between Prosper and Celina and connects with flyovers to the extended DNT
Jane Champion	
Jon Wilson	Widen 380 in its current route.
Aojing Lu	Leave it as is.
Audrey Anderson	
Tamika Noffsinger	
Mitch Phillips	
Nick Salazar	Less lights. Turn it into a full highway east/west with a service rd.
Jenny Allen	
Morgan	
Darren Thompson	Add a lane and elevate the intersections. It is the intersections that slow down everything and create much worse traffic. This would get results closer to an actual freeway without demolishing all the businesses or by doing a bypass which does the same to residential.
Kayla Mullican	
David Pratt	I recommend the Bloomdale path to connect with 195 east go 75 and then continue to Princeton by passing the north edge of New Hope.
Michelle Mills	
Cameron	Many intersection need to be re-engineered. Many designated turn lanes need to be installed for efficiency and safety
Lacey Combs	Widen existing 380, find a way to build on a existing traffic roadway instead of destroying land and home to build a new one through
Jessica Pannell	
Jessica Pannell	Service road access. Not combining turning lanes all the way down. People get confused who is turning where. Example by chic fila at 380 and 75. Also an example of not a safe way to get out on 380 and too many cars sitting in the middle like at Custer and 380.
Sara Lewis	Outer loop needs to be developed to divert all northern commuters heading south west and 380 needs to be widened.
Tim Payne	Extend 121 to 380 just west of Princeton. This helps move traffic from the east away from McKinney, Prosper, and Frisco. It will also eeds to stay on the current route. It will affect more people and businesses than the bypasses will, but there was always an expectation that it will be expanded. A freeway needs 400 feet of ROW. 380 already has 180 feet of ROW. Building a bypass will take an additional 180 feet of land from property owners for the ROW for 10 or 12 miles than if the current route was expanded. That is less tax revenue. There will be a lot of retail and commercial businesses that will be lost from the tax roles but that will move to other areas and create new construction and have higher appraisals than before and ultimately increase tax revenue. Complete the Ridge Rd., and the Wilmeth, Bloomdale, and Laud Howell routes from Preston to 75.

Please provide us with your contact information.	Do you support the building of a freeway regardless of alignment?
Name	Open-Ended Response
Rita Springer	. I support widening 380. I don't think we need that many roads through such a small area as Princeton. Not right off of 380. That's why widening 380 will be a better plan. Or go through New Hope that would take all the people in the north east part of Collin off of 380. They are building a lot of houses on FM 75 and they could take the same road from hwy 5 in Mckinney. Through Princeton a bridge could be built to by pass from at least Walmart's or even Monte Carlo. Also 982 is the back way that a lot of people use to get to Allen and east Plano. If there was more a a freeway thru there a lot of people would use it to get to east Collin County or to hunt county.
Gloria Hurtado Díaz	No. If there is a need to build a freeway, it shouldn't affect the residency areas.
Sourav parija	
Benjy Green	Yes to support growth. Don't be like Austin and think if you don't build the infrastructure people will stop coming. Prepare!
Jane Champion	
Jon Wilson	No
Aojing Lu	No.
Audrey Anderson	
Tamika Noffsinger	
Mitch Phillips	No.
Nick Salazar	Hell yes. It's the only way we can survive 30 years from now.
Jenny Allen	
Morgan	
Darren Thompson	No
Kayla Mullican	No
David Pratt	Yes
Michelle Mills	
Cameron	I Support keeping a designated us highway in its existing alignment
Lacey Combs	I support a freeway on the existing 380 hwy. I do not support a new development where homes will be destroyed
Jessica Pannell	
Jessica Pannell	I am not sure that I am educated enough on this to give an answer. I will definitely continue to read and follow this information. I will also review the link attached.
Sara Lewis	NO
Tim Payne	Yes

Please provide us with your contact information.	Do you have any concerns with the existing US 380?
Name	Open-Ended Response
Jason Hofmeister	Yes, traffic
Kerstin Marek	continued fatal crashed
Trevor Sontz	Heavy traffic congestion.
Amanda Fernandez	There is a lack of adequate turn lanes to help with traffic flow (into neighborhoods/businesses along 380). The road does not support the number of cars efficiently and safely!
Patricia Morgan	Too much traffic
Lan Hy	The trucks driving at fast speeds makes it very dangerous. Also, because there are no other major roads north of us, it's the only option for commuters, so when an accident happens, everyone is stuck.
Katherine Morgan	Too many accidents
Jared Duncan	congestion. people using turning lane and shoulders as lanes to travel on.
Mike Giles	Yes. Traffic is terrible on 380 now at many times of the day.
Sarah Schwartz	
John Worley	3 agencies appear to be trying to resolve the congestion on US380 without the knowledge of each other
Carrie Sheppard	Construction, 18 wheelers, slow traffic in left lane
Jill Nugent	No. The Outer Loop will be coming.
Holly Horne	No
Joe Bechtold	Congestion
Kaye Galloway	Just crowded! If expanded, it would be a disaster!
Sudarshan Nagaraj	Extremely dangerous to drive on this road
Kelly Ragan Maier	Congestion, danger in traffic. It must be expanded into a freeway.
stanley jurries	too much traffic
Jeremy Lafon	Not enough lanes. If there's a wreck going either direction, plan on an additional 30 min time from mckinney to Princeton
Debra Dahlen	Amount of traffic and traffic noise
Lee Dahlen	Too much traffic and traffic noise

Please provide us with your contact information.	If US 380 is congested, what alternative routes do you take?
Name	Open-Ended Response
Jason Hofmeister	Wilmeth or Virginia
Kerstin Marek	
Trevor Sontz	121 or other local roads north/south of 380.
Amanda Fernandez	Custer, 123/Bloomdale, 164, 943, Wilmeth
Patricia Morgan	
Lan Hy	None, there are no other real options at this point. We need other roads to be built out.
Katherine Morgan	
Jared Duncan	alternate routes are even longer than congestion on 380. I'm forced to sit and wait.
Mike Giles	Virginia (except now when it is worse than 380), Wilmeth, Eldorado
Sarah Schwartz	I don't. 380 is the most direct route.
John Worley	FM982 to FM546 to FM3286 to FM1378
Carrie Sheppard	Virginia/ Rockhill
Jill Nugent	N/A
Holly Horne	Never dealt with congestion on 380
Joe Bechtold	Wilmeth and bloomdale
Kaye Galloway	Bloomdale east, curves into Wilmeth, easy to get on 75 there
Sudarshan Nagaraj	Ridge road
Kelly Ragan Maier	There is no other option than to take it given where I live and work.
stanley jurries	go to other businesses to avoid 380. Use US 82 via Sherman to travel West of DFW area.
Jeremy Lafon	546 to 982 around all the non sense on 380
Debra Dahlen	There isn't any
Lee Dahlen	There aren't any good alternatives

Please provide us with your contact information.	What solutions would you suggest in the US 380 Corridor?
Name	Open-Ended Response
Jason Hofmeister	Expand 380 with extra lanes where possible, build 380 over intersections to eliminate traffic lights, complete outer loop faster.
Kerstin Marek	
Trevor Sontz	Bridges/tunnels at intersections to keep continuous traffic flow.
Amanda Fernandez	Make 380 a freeway (NOT a tollway though). At a minimum proper turn lanes need to be added into neighborhoods and businesses along 380. BUILD OUT the arterial roads north of 380 to 4-6 lanes NOW... Wilmeth, Bloomdale/123 and 1461 from Preston Road to US 75. These arterial roads would help tremendously with the traffic on 380. The residents north of 380 do not have east/west roads that are not deteriorating to travel east/west besides 380.
Patricia Morgan	Upgrades that do not destroy our neighborhood
Lan Hy	Build out east/west roads north of 380. More dedicated right turn lanes. Better timing of lights. Keep the trucks off or slower speed. Fix the intersection at 380/75, it's the only part of 380 that gets congested.
Katherine Morgan	Upgrading it to support more traffic, WITHOUT destroying residential communities
Jared Duncan	
Mike Giles	There are businesses that depend on 380 business; the traffic is untenable. Altern 1 - Excluding the financial cost, the tight portions of 380 (from US 75 east & west) should be vertically stacked (See Wichita Falls vertical addition of their highway). Most of 380 can be done with regular roadway expansion since the room is available; the rest should be done vertically. Altern 2 -if 1 is too expensive, then retain the current 380 as business 380 and do a 380 loop coexisting with the outer loop. None of the current work-around proposals are acceptable. They all wipe out homes and home values for current citizens. As a stop-gap, Wilmeth and Bloomdale should be completed through to the Denton County line and east for several miles. This will take the immediate pressure off the current 380.
Sarah Schwartz	needs frontage road type lanes for turning
John Worley	The NCTCOG Spur 399 Extension, tied to the TXDOT US380 west of the Airport and Farmersville Bypass
Carrie Sheppard	Overpasses over intersections
Jill Nugent	Fix 380 on 380- Build above 380 if/where needed.
Holly Horne	Expand/fix the existing route of 380 if it's too small to handle traffic
Joe Bechtold	Green and pink alignment all the way through Collin county
Kaye Galloway	To Choose Something and get started!!
Sudarshan Nagaraj	Upgrade existing alignment to freeway, elevated expressway or other innovative approach to retain the alignment in McKinney section
Kelly Ragan Maier	It would not be wise to simply expand the current footprint. This means that a bypass to the north of McKinney is a necessity. The wisest place to turn north is not offered in any current path. It needs to turn north to the west of Custer Rd through the LandPlan property, then cross Custer on the south side of the Walnut Grove Cemetery. After this adjustment, the Yellow plan makes the most sense.
stanley jurries	Fix 380 through McKinney. Avoid impact to personal property owners.
Jeremy Lafon	Keep it the way it is but add a lane on each side.
Debra Dahlen	Widen existing road or create northern bypass route like the yellow alignment option.
Lee Dahlen	Widen existing road or create a loop way to the north like the yellow alignment option.

Please provide us with your contact information.	Do you support the building of a freeway regardless of alignment?
Name	Open-Ended Response
Jason Hofmeister	No
Kerstin Marek	
Trevor Sontz	Yes if it can be pushed further north or come up with an expansion of 380 that does not affect current property owners.
Amanda Fernandez	No, I support the freeway on the current footprint of 380. I do not support a freeway in my backyard!
Patricia Morgan	No
Lan Hy	No
Katherine Morgan	No
Jared Duncan	yes.
Mike Giles	I support building a freeway, but I would never give the government unlimited decision-making power. Governments have botched things too many times.
Sarah Schwartz	Only if it is built on existing 380
John Worley	Of course not. The alignment, whether through homes or riverbeds, is the most important aspect.
Carrie Sheppard	Yes
Jill Nugent	No- I only support adding levels to the current footprint of 380, no additions, no bypass.
Holly Horne	No
Joe Bechtold	No, only green and pink alignment
Kaye Galloway	Yes
Sudarshan Nagaraj	I only support freeway in the current alignment or an alignment that doesn't go right next to the existing neighborhood which will destroy the quality life for families
Kelly Ragan Maier	Yes.
stanley jurries	Only if it goes through the existing 380 alignment.
Jeremy Lafon	As long as I don't have to pay and it doesn't affect my land value (creekview) I don't care.
Debra Dahlen	No
Lee Dahlen	No

Please provide us with your contact information.	If US 380 is constructed as a freeway, which alignment do you prefer? (select all that apply)

Please provide us with your contact information.	Do you have any concerns with the existing US 380?
Name	Open-Ended Response
Cody Sisson	
Russell Meggie	The current HWY 380 is not built for the number of cars that on this highway on a daily bases.
Jackie L Tejada	yes, need more turning lanes in McKinney. Need to add another line on each side thru McKinney.
Medina Duratovic	No
Christina york	Congestion in traffic hours
Tim Karamas	
Tim Karamas	
Kathy Seei	I realize that it will not meet the future needs of Collin County as the county grows
Jennifer Garnant	
Ron Garis	
	Traffic and accidents
Scott Oberle	1. The volume of traffic is too great due to what appears to be through traffic, specifically trucks, as opposed to local traffic. 2. Traffic moves too fast because many vehicles exceed the 55 MPH speed limit. 3. There are many accidents and it seems speed is a factor because speeding vehicles cannot stop or opt not to stop before traffic lights turn red. I can see the US 380 and Tremont Blvd. intersection from my home office and witness many accidents at that location. 4. The noise level increases dramatically when the traffic volume increases. The increasing number of trucks in particular generate a great deal of noise which greatly detracts from an otherwise peaceful planned community, Tucker Hill. 5. There are no sidewalks or bicycle paths along US 380 which isolates Tucker Hill from other neighboring planned communities such as Stonebridge Ranch. This makes it outrageously unsafe to walk or ride our bicycles to the nearby retail area at Virginia Parkway and Stonebridge Drive where many restaurants, 3 banks, a grocery store, a dry cleaners and the West McKinney Post Office are located.
Courtney Currie	The amount of congestion
June Smith	too crowded now
George Smith	Yes - traffic is already tough
Christopher Swam	No
Jim Morgenthaler	
January Rowe	At 75/380 area it gets congested at heavy traffic times.
Ryan Mullins	Congestion and too many traffic signals
Mary Hartnett	Not really, it seems better now that it was 5 years ago.
Andy Mondy	Yes. It's a dangerous road. There no center divider. I believe this road needs to be a limited access highway
Lauren Brock	
Sathu Subbiah	traffic
Emma Joersz	
Brock Gresham	Too many stop lights

Please provide us with your contact information.	If US 380 is congested, what alternative routes do you take?
Name	Open-Ended Response
Cody Sisson	Virginia parkway and Wilmeth
Russell Meggie	I use Virginia Pkwy when 380 is too congested
Jackie L Tejada	Prosper Trails and Virginia Parkway
Medina Duratovic	I turn on different intersections like eldorado instead of airport
Christina york	982/ 546
Tim Karamas	
Tim Karamas	
Kathy Seei	Virginia or Eldorado to the south - seldom go north
Jennifer Garnant	
Ron Garis	
Scott Oberle	If US 380 is at a standstill due to an accident, we have no alternate routes, as this is the only way into and out of Tucker Hill and we are stuck. Our only alternative would be to walk down the shoulder of the highway. If we are able to actually get onto US 380, we go south on either Custer Road or Ridge Road to Virginia Parkway where we can go east or west.
Courtney Currie	Wimeth Road
June Smith	none
George Smith	in prosper - 1st street over to custer then south
Christopher Swam	121
Jim Morgenthaler	
January Rowe	Virginia
Ryan Mullins	County Road 123/Bloomdale, as it is next to my neighborhood. C.R. 164, C.R. 943 and Wilmeth road.
Mary Hartnett	Virginia or Eldorado or Hwy 121
Andy Mondy	There are not really any alternates
Lauren Brock	
Sathu Subbiah	virgina pway
Emma Joersz	
Brock Gresham	Lake Forest

Please provide us with your contact information.	What solutions would you suggest in the US 380 Corridor?
Name	Open-Ended Response
Cody Sisson	
Russell Meggie	Expand 380 to a freeway
Jackie L Tejada	Need more turning lanes in McKinney. Need to add another line on each side thru McKinney.
Medina Duratovic	Build more alternative roads instead of a freeway directly behind someones backyard. I would not want to get rid of businesses that were just built because of a freeway. Defeats the purpose of even having them buit.
Christina york	Blue model
Tim Karamas	Make a no growth or slow growth amendment and preserve the quality of life for residents who have been here for years
Tim Karamas	Make a no growth or slow growth amendment and preserve the quality of life for residents who have been here for many years
Kathy Seei	Transfer money to northern loop already being planned by NTTA and accelerate that project - how long will it take and what resources will it take to complete this project?
Jennifer Garnant	
Ron Garis	straightline freeway
Scott Oberle	The best solution would be to build a bypass to the north where there is still a significant amount of open land. In studying the map, that would be a route through the southeast quadrant of Prosper and the northwest corner of McKinney, running from US 380 in a northeasterly direction towards US 75. My home and the entire Tucker Hill community would be adversely affected by the proposed blue, red, green or pink alignments and I am therefore strongly opposed to any of these alignments.
Courtney Currie	I support a bypass but not one going right behind our house. Turning that area into a 4-6 lane relief kills home values and increases traffic in our neighborhoods.
June Smith	freeway
George Smith	Freeway needs to be built
Christopher Swam	Collin County Loop further North. This proposal does not address northern growth and is impacting (noise pollution and congestion) of recently established communities. Less developed areas North offer better options.
Jim Morgenthaler	
January Rowe	
Ryan Mullins	Move the bypass further North away from the Bloomdale/CR123 route. If built on Bloomdale/CR 123, McKinney will lose very valuable commercial property opportunities that could develop on both sides of the bypass.
Mary Hartnett	To make elevated intersections like in Frisco at Preston and Hwy 121. Anything else makes no sense. I do not understand why that option was rated an F.
Andy Mondy	Widening it. Have a southern route and possibly a norther route.
Lauren Brock	
Sathu Subbiah	red alignment
Emma Joersz	
Brock Gresham	A highway

Please provide us with your contact information.	Do you support the building of a freeway regardless of alignment?
Name	Open-Ended Response
Cody Sisson	
Russell Meggie	Yes, I support building 380 should be a freeway, but on it existence path.
Jackie L Tejada	yes
Medina Duratovic	No
Christina york	No
Tim Karamas	NO
Tim Karamas	NO
Kathy Seei	Think reallocation of funds to northern loop is more fiscally responsible and less disruptive when you consider the cost of lawsuit battles, engineering, etc.
Jennifer Garnant	
Ron Garis	
	No
Scott Oberle	No, I do not support the building of a freeway unless the alignment takes into consideration the many newer homes, planned communities and businesses that have been built within the past 15 years on both sides of US 380 between US 75 and Custer Road in McKinney. US 380 runs through the heart of McKinney and turning it into a freeway would basically destroy a growing business community that is vital to the northwest part of McKinney.
Courtney Currie	No
June Smith	yes
George Smith	YES
Christopher Swam	No
Jim Morgenthaler	
January Rowe	
Ryan Mullins	No, I think it should only be built further north into the ETJ of McKinney. Thus providing more land to be developed for commercial purposes. You build a freeway, lots of businesses will flock to it, especially with the growth projections of Collin County.
Mary Hartnett	NO! Going north also makes no sense. Getting going on putting in the Outer Loop if you want to build new freeway.
Andy Mondy	No. Alignment is important
Lauren Brock	
Sathu Subbiah	yes
Emma Joersz	
Brock Gresham	Would like it to be a FREEway. Not a tollroad

Please provide us with your contact information.	If US 380 is constructed as a freeway, which alignment do you prefer? (select all that apply)

Please provide us with your contact information.	Do you have any concerns with the existing US 380?
Name	Open-Ended Response
Sarah Doss	
Amy Sanford	Yes. The red proposal is problematic and would create even more noise and congestion in a more rural area
Julie Landsaw	It really
Libby	The speed of which people drive on 380 is alarming. I have witnessed several accidents with the last 2.5 years.
Aaron Garner	
Willenea peterson	congested at major intersections. It is also very dark in some places and need better lighting.
Rob Landsaw	Highly overcrowded and slow commute.
Sara Snellings	Speeds are too fast and too many accidents.
Kara Schofield	
John Grant	Some congestion and future growth impact
Jeannie Jung	A lot of truck traffic and there are a lot of accidents.
Nancy Preston	
Kim Ryan	accidents
John	Current construction. Everything seems to be moving along nicely, but just the usual construction delays are my only current concerns.
santiago	traffic is horrible, current road design is not sufficient with future construction and growth
Nancy Preston	Yes, there are too many accidnts.
Lloyd Brim	Very few.
Emily Kissel	380 is highly inefficient. Please see solutions comment for concerns in report.
Andrea Horvath	The construction and semi traffic is horrible.
Herbert Oduor	It's Congested at intersections with other freeways
Linda Otuke	yes the road is congested
TeRon Lawrence	Yes. Traffic congestion. Not suitable to commercial development. Safety.
Tracy Gerik	Traffic and accidents
Connie Oberle	No
Delores Morgan	Busy for turning off & on hwy at non-intersections
Robert H Morgan	No

Please provide us with your contact information.	If US 380 is congested, what alternative routes do you take?
Name	Open-Ended Response
Sarah Doss	
Amy Sanford	Various
Julie Landsaw	Do not use it in peak hours
Libby	Wilmeth Road, County Rd. 123
Aaron Garner	
Willenea peterson	Virginia parkway and Wilmeth RD
Rob Landsaw	
Sara Snellings	Hardin, White, Lake Forest, Ridge, 121
Kara Schofield	
John Grant	Custer or Coit down to 121 for work.
Jeannie Jung	Eldorado or Virginia Pkwy
Nancy Preston	
Kim Ryan	Virginia, Custer, 121
John	Preston or Coit to travel North/South
santiago	county road and fm roads, try not to use at peak hours
Nancy Preston	Eldorado
Lloyd Brim	Rockhill
Emily Kissel	121 or a southern surface street (Virginia or Eldorado)
Andrea Horvath	Lake Forest to 121; Virginia to 75
Herbert Oduor	I go up custer and make a right on main st
Linda Otuke	bloomdale road fishtrap road
TeRon Lawrence	Travel south on Coit, Preston, or DNT to alternate E/W artery.
Tracy Gerik	County backroads
Connie Oberle	Stonebridge, Custer, Ridge
Delores Morgan	Coit/Custer
Robert H Morgan	Custer South then East-West as necessary

Please provide us with your contact information.	What solutions would you suggest in the US 380 Corridor?
Name	Open-Ended Response
Sarah Doss	
Amy Sanford	
Julie Landsaw	
Libby	I suggest that highway become an elevated highway similar to highway 121.
Aaron Garner	
Willenea peterson	Traffic signals synchronized to keep traffic moving
Rob Landsaw	380 bypass
Sara Snellings	
Kara Schofield	
John Grant	The current alignments do not consider the option of aligning to the immediate west of Custer. This is a currently undeveloped area that would not impact existing home owners. As a resident of Tucker Hill, all of the current alignments directly incur on our existing and planned development.
Jeannie Jung	The existing route seems the most least likely to impact homes.
Nancy Preston	
Kim Ryan	Fast track the outer loop or another new major artery North of 380.
John	I would like to see several additional loops north of 380. I prefer 380 to remain a slower thoroughfare with stoplights, max speed limit 45 or 50 to support all of the businesses along the route. By having several loops in the area, businesses can grow around each loop, and we all avoid having multi-lane highway veins with blighted area immediately adjacent.
santiago	in the mckinney area it needs to be built as a second floor, double decker, on top of the existing 380. express lanes
Nancy Preston	Widening towards the south, sound barriers when passing neighborhoods.
Lloyd Brim	Perhaps use tunnels in high traffic sections.
Emily Kissel	Please see Google slides for recommendations. https://docs.google.com/presentation/d/1z9sKfB-EANpDTjEPV84EIbjEfLFVEy26BV804otzv5Y
Andrea Horvath	Widening the existing 380 - less homes are affected by this.
Herbert Oduor	widen 380
Linda Otuke	improve on the current road make it like 635 with an overpass or underpass
TeRon Lawrence	Limit intersections to allow higher throughput.
Tracy Gerik	Expand 380 from 4 to 6 lanes with dividers and Yellow Freeway alignment.
Connie Oberle	I think the State needs to consider a careful alignment that includes narrowing or Lowering 380 to limit the impact on current communities. I do not think that homes that are less than a year old should be taken out when a smaller highway in that segment of the road would be sufficient.
Delores Morgan	Build freeway
Robert H Morgan	Build Freeway with access roads

Please provide us with your contact information.	Do you support the building of a freeway regardless of alignment?
Name	Open-Ended Response
Sarah Doss	
Amy Sanford	I am not against it. Not adamantly for it. Against the red proposal near fairview.
Julie Landsaw	Yes
Libby	I only support improvement of highway 380 and the outer loop. I do NOT support a bypass.
Aaron Garner	
Willenea peterson	I support freeway, but only certain alignments
Rob Landsaw	No, the red alignment provides the best traffic easement and goes through the least amount of residential areas.
Sara Snellings	Not really
Kara Schofield	
John Grant	Only if the alignment is reasonable.
Jeannie Jung	No. I live too close and the noise issues are a huge concern.
Nancy Preston	I would like the bypass that is blue or yellow to be pushed west to follow the line that is the original plan for stonebridge rd, rather than cfut so close to Tucker Hill. I am very concerned about any options that take out the front of Tucker Hill neighborhood or cut through the neighborhood.
Kim Ryan	No
John	No. I support creating multiple East-West thoroughfares to avoid one high traffic road that will cause blight to its immediate surroundings.
santiago	no
Nancy Preston	no
Lloyd Brim	No, absolutely not.
Emily Kissel	I support building the outer loop, connecting 121 and optimizing the existing alignment of 380. 380 should function more like Preston Road in Frisco.
Andrea Horvath	I support of the building of a freeway if it keeps the same footprint of 380 (not a bypass) and sound walls are built to protect neighborhoods.
Herbert Oduor	yes but no bypass
Linda Otuke	no just improve on the current road make it like 635 with an overpass or underpass
TeRon Lawrence	Yes. Much more concerned with roadway type than alignment, since I rarely travel east of Prosper on 380
Tracy Gerik	Yes
Connie Oberle	NO
Delores Morgan	yes
Robert H Morgan	Yes

Please provide us with your contact information.	Do you have any concerns with the existing US 380?
Name	Open-Ended Response
Mary Remington	NO
Adam Schmidt	growth and congestion
Bryant Knepp	growing congestion
Frances van Tassell	Only during rush hours, when traffic congestion can be extensive. After 380 became a six-lane road from Preston eastward, with new turn lanes, the traffic congestion that I experience almost daily is much less and safety is greatly improved.
Ted Kopinski	The turn in lane to Tucker Hill is very dangerous. You sit at the stop lights waiting to enter while cars pass at 60+ miles per hour. The car shakes as they pass at mere inches away.
Lori Lauer	Absolutely - it will destroy my ability to enjoy my home.
Heather Thrasher	It's not wide enough and there are too many traffic lights.
Hal Deatherage	It is way over-crowded. Marginally unsafe. Inefficient for both business access and transportation.
Joe Mirabella	none at all
Greg Bradley	My major concerns are west of the DNT. How is it that US 380 is a divided highway from Decatur to Greenville except for the densely populated portion between Hwy 377 and DNT.
Angela Johnson	
Jill Kopinski	Just that we only have one entrance to Tucker Hill. That apparently won't be fixed by this matter.
Richard Thrasher	too congested already. too many traffic lights to allow the smooth flow of current volume. constant construction which has not alleviated the problem as of yet--volume has far outpaced small increases in lane availability.
Stanley Youngblood	yes
Gary jackson	In the mckinney 75 intersection thru hwy 5 very congested - also the area from 423 thru hwy 288 loop is congested
Rheanell Farrill	
Sean D Beavers	Many. The stretch of 380 from Airport Road in McKinney to Princeton has become particularly dangerous. Speeds in excess of 80 mph are common. Traffic accidents are frequent. Now, with construction and material landfills along this stretch of 380, dump trucks, gravel trucks, and cement mixers make driving 380 quite aggravating and dangerous.
Jim Cate	Congested from Princeton to Denton.
Amanda Wardojo	
Valerie Rodriguez	No, I drive it West towards Frisco every day.
Debbie Dodson	No

Please provide us with your contact information.	If US 380 is congested, what alternative routes do you take?
Name	Open-Ended Response
Mary Remington	I have not experienced congestion on Hwy 380; the outer Collin County loop will provide relief to any potential congestion in the future.
Adam Schmidt	Virginia Parkway or Eldorado
Bryant Knepp	Eldorado
Frances van Tassell	Fish Trap Road
Ted Kopinski	
Lori Lauer	380 is not congested. I have never needed to take an alternative route.
Heather Thrasher	CR 123, CR 1461, Rockhill, Prosper Trail, Frontier
Hal Deatherage	El Dorado across Frisco, through Little Elm, then over the toll bridge on the lake.
Joe Mirabella	Virginia and El Dorado parallel 380, multiple cross streets take you to either
Greg Bradley	Fishtrap Road west of DNT. First Street East of DNT.
Angela Johnson	
Jill Kopinski	There is no other entrance.
Richard Thrasher	Virginia or El Dorado in Mckinney. First street and Fishtrap in Prosper
Stanley Youngblood	avoid 380/us75 intersection
Gary jackson	El dorado, in mckinney for east west FM roads thru celina up to 423 and west to 35 to get to 35
Rheanell Farrill	
Sean D Beavers	I go the back way-FM 546 to airport road and then Industrial to hiway 5.
Jim Cate	Roads in McKinney that run east to west.
Amanda Wardojo	
Valerie Rodriguez	The congestion happens mostly at Preston and 380 and DNT and 380. It doesn't happen any where else.
Debbie Dodson	

Please provide us with your contact information.	What solutions would you suggest in the US 380 Corridor?
Name	Open-Ended Response
Mary Remington	Leave as is due to the outer loop plan for the future or possibly look to add one lane of traffic on each side of Hwy 380.
Adam Schmidt	none at this time
Bryant Knepp	some grade separated, some bypass
Frances van Tassell	Continue building six lanes on 380 from Preston to Denton, with turn lanes as often as feasible. Build overpasses over high-traffic intersections like is currently under progress for 380 and Preston Road. Overpasses for Preston, the Tollway, and Highway 423 would help greatly. Adding overpasses and more turn lanes would greatly help with safety and traffic congestion.
Ted Kopinski	Use Coit or Custer as they will be expanding anyway.
Lori Lauer	We don't need a corridor.
Heather Thrasher	Make it a freeway
Hal Deatherage	I don't have one! I do know that Collin and Denton Counties do NOT have adequate, rapid east-west freeways. We don't need another toll road, either.
Joe Mirabella	leave it alone. Build the Collin County Loop
Greg Bradley	Widen 380 and make it a freeway.
Angela Johnson	
Jill Kopinski	PLEASE consider turning up Custer. It will need to be widened in the near future anyway as Preston Rd. was. People who live off Custer expect it to get larger. All 3 of the plans tonight ruin Tucker Hill. One even takes the land for building phase. You could also follow the power lines from Coit to Custer nobody wants to live under those.
Richard Thrasher	Make it a freeway. This is the only viable long term option currently suggested
Stanley Youngblood	LAR for as far east of Custer as possible. If bypass, start west of Prosper, say at Dallas North Tollway
Gary jackson	Bypass in 75 area- widening and less traffic lights between 423 and denton
Rheanell Farrill	
Sean D Beavers	I think the blue alternative seems the most likely to be chosen, because I think it makes the best concessions for all the bullet points.
Jim Cate	Green/Pink Alignment
Amanda Wardojo	
Valerie Rodriguez	
Debbie Dodson	Widen

Please provide us with your contact information.	Do you support the building of a freeway regardless of alignment?
Name	Open-Ended Response
Mary Remington	NO
Adam Schmidt	about 50/50. generally support it but first time been faced with it in my backyard so concerns with property value, noise, access to and from my neighborhood
Bryant Knepp	Yes
Frances van Tassell	No. My rationale is that turning highway 75 into a freeway did nothing for solving the rush-hour congestion along that freeway so I see no logic in thinking that a freeway would solve rush-hour congestion on highway 380. I travel 380 from Custer to Denton almost daily and other than rush hour, there often is little traffic, only increasing numbers of traffic lights. Overpasses could help cut down travel time by avoiding some of those major intersections with traffic lights.
Ted Kopinski	Only if the alignment doesn't ruin the neighborhood.
Lori Lauer	Absolutely not.,
Heather Thrasher	yes
Hal Deatherage	Yes.
Joe Mirabella	No. Too expensive, not necessary, destructive of the community, the Red/Blue/Yellow routes go through flood lands
Greg Bradley	Yes
Angela Johnson	
Jill Kopinski	No. I know it will be needed, but when we bought in the area we avoided Preston, Coit and Custer understanding they would expand.
Richard Thrasher	yes
Stanley Youngblood	No
Gary jackson	no- I thought we were building a collin county outer loop that would be next " freeway"
Rheanell Farrill	
Sean D Beavers	Not necessarily. I do believe that the freeway and/or a 380 bypass is necessary, and maybe in conjunction with the Collin County outer loop idea. But "regardless" is a tough sell, because there are always right ways and wrong ways to go about things.
Jim Cate	Yes
Amanda Wardojo	
Valerie Rodriguez	No
Debbie Dodson	No

Please provide us with your contact information.	If US 380 is constructed as a freeway, which alignment do you prefer? (select all that apply)

Please provide us with your contact information.	Do you have any concerns with the existing US 380?
Name	Open-Ended Response
Jeremy McKee	380 is absolutely terrible. I try to stay below 380 any chance I can get. Occasionally we visit Aubrey, Prosper and commute to Mckinney weekly. This is one of the most dreaded drives I take do to traffic and the number of accidents on that road.
Michael Mitchell	The volume of traffic and speed limit.
Nina Nisbet	Yes, traffic and how fast people are going! Nobody drives the speed limit of 60 mph. These people are driving around 75-80 mph on a daily basis.
Erick Chapman	It is congested.
Adam Khastehdel	Traffic Noise Lack of barriers between directional lanes Turn lanes into businesses Speeding
Ashley Khastehdel	How close the lanes are to each other- oncoming traffic/head on collisions. Turn lanes into businesses Speeding Traffic
Brandon Johnson	No
Tabbitha Bix	We need more tuning lanes especially at stop lights, more stop lights, longer green arrows for turning lanes at existing lights.
Allison Stewart	No.
	Way too many people moving to McKinney. Semis go way to fast on 380 but they don't care.
Susan Armstrong	High speeds combined with many large, controlled intersections is a dangerous combination.
Erinn Grossi	Traffic near 75 is congested during peak driving times & on weekends.
Nathan Gosser	No concerns
Stark Langs	yes, congestion
Casey Fox	No
Kristi	Too many trucks
Tommy	No, it will be more congested with the business growth, but leave earlier or take alternate route.
Robert Bowland	Congestion, congestion, congestion. Why not timed lights?
Heidimarie	
regina murphy	too many stoplights causing more and more congestion
Alice	
Jeni Woods	No, except that it has been under construction for at least the last 2 years and seems like it will never be completed.
Paige mcgee	Congestion
Terah Wiekamp	No

Please provide us with your contact information.	If US 380 is congested, what alternative routes do you take?
Name	Open-Ended Response
Jeremy McKee	I dont.
Michael Mitchell	Eldorado Parkway
Nina Nisbet	I go the opposite direction and will take rural road to Lucas and then to Plano.
Erick Chapman	Sam Rayburn tollway
Adam Khastehdel	Preston to whatever E/W street needed Rock hill to tollway White to 75
Ashley Khastehdel	Rock hill to tollway Preston to whatever street needed to go E/W Virginia
Brandon Johnson	Virginia
Tabbitha Bix	982, Monte Carlo
Allison Stewart	El Dorado
	Wilmeth back road by Erwin Farms.
Susan Armstrong	White Avenue, Taylor Burk drive
Erinn Grossi	Hardin to White to 75, or I take back roads to Wilmeth to get onto 75.
Nathan Gosser	Wilmeth
Stark Langs	
Casey Fox	75
Kristi	Google Maps
Tommy	Lake forest Ridge Harden
Robert Bowland	
Heidimarie	
regina murphy	Virginia
Alice	
Jeni Woods	Preston or Coit to Rockhill Rd or Eldorado; If the DNT were extended into Celina/beyond (as was originally planned) then other streets would also be an option to get to the DNT instead of just 380.
Paige mcgee	Back roads
Terah Wiekamp	Virginia

Please provide us with your contact information.	What solutions would you suggest in the US 380 Corridor?
Name	Open-Ended Response
Jeremy McKee	limited access freeway or widen the current lanes. As the population expands we have to increase this infrastructure.
Michael Mitchell	
Nina Nisbet	I would vote for the freeway plan. That would cost money, but the major factor is this frees up the congestion and would be considered the safer alternative.
Erick Chapman	
Adam Khastehdel	
Ashley Khastehdel	A very northern (Laude Howell) access road/bypass
Brandon Johnson	Make sure to not take land from people.
Tabbitha Bix	3 lanes both directions at least through town
Allison Stewart	
	Lower the speed limit for 18 wheelers. 55 is to fast for them to be able to stop!!! Start not only giving speeding violations but fines for dangerous reckless driving!!
Susan Armstrong	Lower speeds if there are going to be so many stoplights and intersections.
Erinn Grossi	380 overpass, like at Preston Road.
Nathan Gosser	None. The only bad areas are around the 75.
Stark Langs	make it a highway and remove stop lights
Casey Fox	
Kristi	Creating a loop around that area so the trucks can bypass around this area
Tommy	Double decker over the existing 380
Robert Bowland	Timed lights, especially during commute times--once you get in a group you go the entire way as long as you maintain the proper speed (baring emergency vehicles).
Heidimarie	
regina murphy	stop building so many businesses in such a small space
Alice	
Jeni Woods	Finishing the construction so it's not constantly closed to 1 lane (or 2 lanes with no shoulder). Finishing the DNT so there's not a permanent backup at the 380/DNT interchange. Installing better traffic lights at 380 & Preston Rd - it is almost impossible to see if they are red or green unless you are right under them (not sure why) which is a dangerous situation and really slows down traffic. Improving the traffic flow around 75 & 380, which is always a congested mess.
Paige mcgee	
Terah Wiekamp	

Please provide us with your contact information.	Do you support the building of a freeway regardless of alignment?
Name	Open-Ended Response
Jeremy McKee	Yes. and if it involves eminent domain with regards to my property I want lots of money.
Michael Mitchell	yes
Nina Nisbet	Yes, yes, I would!
Erick Chapman	No. Only if the alignment goes up north of the existing Hwy 380. Once you get into West McKinney there are many homes and schools already aligned to Hwy 380.
Adam Khastehdel	No
Ashley Khastehdel	No
Brandon Johnson	As long as it can be routed to minimize taking houses from residents.
Tabbitha Bix	Not at all
Allison Stewart	No
	NO
Susan Armstrong	Regardless of alignment? Not enough information there, sorry. I support another freeway, but I can't answer a question worded like that without more info.
Erinn Grossi	No
Nathan Gosser	Would not like a freeway built.
Stark Langs	no
Casey Fox	No
Kristi	No
Tommy	No
Robert Bowland	no
Heidimarie	
regina murphy	no
Alice	
Jeni Woods	Maybe somewhere else, but freeways always make property values decrease and generally worsen the area, bringing in traffic, crime, etc. The areas never stay as nice as they were before the freeway, and most people can't relocate so they're stuck. California is a perfect example of formerly good, safe residential areas becoming devalued and rundown when a new freeway is built.
Paige mcgee	No
Terah Wiekamp	

Please provide us with your contact information.	If US 380 is constructed as a freeway, which alignment do you prefer? (select all that apply)

Chris Shook			Property Owner			Daily

Please provide us with your contact information.	Do you have any concerns with the existing US 380?
Name	Open-Ended Response
Greg Cummings	None.
Jenny Gosser	No
Lendsey Miller	
Amanda Harkness	No
Lynn Voigt	Speed of semi trucks Traffic
Lara Kessler	
Stephanie Riddell	
Sharilyn Garner	
Erika Dennis	There speed limit is to high for the business and residential growth. Making a highway does not resolve the congestion.
Aaron	
Laura Sisson	Too many lights make it too long to get to 75
Karla Trip	trucks not stopping, congestion, turn lanes (not enough)
Lisa Smith	Yes, especially between the tollroad and Denton. Severely congested and difficult to navigate.
Kevin Voigt	380/75 is the major issue. I don't see the congestion of great concern east of 75 or west of 75. Appreciate the need to accommodate "anticipated" growth, but if 380 is the issue...then the focus should be exclusively on 380
Kevin Combs	No
Matthew Howe	You're duplicating efforts and wasting money. The intersection at the toll-way & 380 seems to have a new traffic pattern everyday and now it appears that they are going to being construction on an overpass.
Deidre Easley	
Tasia Johnson	Not enough lanes. It can be dangerous turning out of the cypress Bend neighborhood onto 380 during high traffic hours.
Paul Freeland	No
Kaitie Hieb	
Courtney Smith	
Courtney Smith	
LANE DOUGLAS	Extremely heavy traffic mornings and afternoons. Usually wait several minutes to get on or exit via left turn.
John Fernandez	Yes, the congestion is only getting worse.
joseph gebbia	no
Chris Shook	No, currently it could use some relief at the Industrial and 380 interchange.

Please provide us with your contact information.	If US 380 is congested, what alternative routes do you take?
Name	Open-Ended Response
Greg Cummings	75/121
Jenny Gosser	Virginia or Wilmeth
Lendsey Miller	
Amanda Harkness	
Lynn Voigt	Virginia Parkway
Lara Kessler	
Stephanie Riddell	I don’t have a choice!
Sharilyn Garner	
Erika Dennis	75, Lake Forest, Coit. Many other roads can be used.
Aaron	
Laura Sisson	Virginia or Wilmeth as I live near Wilmeth.
Karla Trip	Wilmeth to 75
Lisa Smith	I take the back country roads since that is where I live. I try to avoid 380 but that isn't always feasible.
Kevin Voigt	Outloop. Wilmeth. Laud Howell.
Kevin Combs	
Matthew Howe	Frontier to 380
Deidre Easley	
Tasia Johnson	
Paul Freeland	121
Kaitie Hieb	
Courtney Smith	Louisiana and highway 5
Courtney Smith	
LANE DOUGLAS	none
John Fernandez	McKinney is lacking infrastructure, thus, our only options are Prosper Trail/Bloomdale and Frontier Trail/FM 1461.
joseph gebbia	121
Chris Shook	None.

Please provide us with your contact information.	What solutions would you suggest in the US 380 Corridor?
Name	Open-Ended Response
Greg Cummings	
Jenny Gosser	I do not experience issues when I drive 380
Lendsey Miller	
Amanda Harkness	
Lynn Voigt	More stop signals forcing traffic, especially semi trucks, to slow down.
Lara Kessler	
Stephanie Riddell	
Sharilyn Garner	
Erika Dennis	Expand in a different direction by guiding the traffic a different path. This could be done in several ways. Also, we are a residential community and the speed limit with accident ratios would on increase with a highway or fast speed limit.
Aaron	
Laura Sisson	Lane that provides access to 75 without stopping at all the lights for the businesses.
Karla Trip	More turn lanes, over (or under) roads at some intersections
Lisa Smith	Stop building new businesses and homes until it is corrected. It either requires widening or could it be raised like Hwy 121 near The Colony.
Kevin Voigt	Address 380 itself. The businesses that would be TEMPORARILY impacted would ultimately receive a benefit from these improvements. To displace families from their homes is PERMANENT and will meet strong resistance.
Kevin Combs	Make 380 bigger.
Matthew Howe	spend the money on a train or viable mass transit system to help ease the pressure
Deidre Easley	Please note that I oppose the proposed Red Route (specifically 399/McKinney Airport leg). Dropping south into Fairview will affect us in ways that no residents desire. We moved here for peace and quiet. Not road or airport noise. Thank you.
Tasia Johnson	
Paul Freeland	Expansion
Kaitie Hieb	
Courtney Smith	
Courtney Smith	
LANE DOUGLAS	Expressway loop around Princeton and McKinney.
John Fernandez	McKinney is behind the 8-ball and needs to halt further development along US-380. Their actions are ultimately killing options for an alignment away from our home. Laud Howell/Frontier Parkway/FM 1461seems to be a more viable option that effects less homes that are already built. BUILD OUT WILMETH, BLOOMDALE, FRONTIER TRAIL and get local commuters to use other roads besides US-380. The City' current actions are to wait for developers to upgrade infrastructure piece-by-piece, rather than accomplishing this upgrade before its truly needed. When fully developed and upgrades, a Bypass along Bloomdale will be redundant with all other roads including the Outer Loop and other major arterial roads.
joseph gebbia	more lanes
Chris Shook	Relief from Industrial Rd to 75, especially at Industrial.

Please provide us with your contact information.	Do you support the building of a freeway regardless of alignment?
Name	Open-Ended Response
Greg Cummings	While a freeway/bypass would help alleviate current and potential congestion issues on 380, it should absolutely not be constructed at the expense of residences, farms, ranches and private property. McKinney has done a great job maintaining it's relative seclusion and 'unique by nature' attitude and environment. A bypass running through and near residences would totally diminish property values, create dangerous conditions near schools (to include the yet to be built Prosper ISD expansions) and raise crime in the area.
Jenny Gosser	No
Lendsey Miller	
Amanda Harkness	No
Lynn Voigt	NO
Lara Kessler	
Stephanie Riddell	No!!!!
Sharilyn Garner	
Erika Dennis	No.
Aaron	
Laura Sisson	No. I do not support a freeway on several of the alignment options.
Karla Trip	no
Lisa Smith	Depends
Kevin Voigt	Improve 380. It is the problem. It should also own it's own solution.
Kevin Combs	NO
Matthew Howe	No
Deidre Easley	No
Tasia Johnson	Yes
Paul Freeland	YES! This is a vital corridor for North Texas and all of the corporate and residential growth happening here not expanding would be a mistake.
Kaitie Hieb	
Courtney Smith	yes
Courtney Smith	
LANE DOUGLAS	Yes
John Fernandez	No-a few alignments put a freeway less than 100 feet from my home. (Grove Cove Drive, Heatherwood HOA, McKinney)
joseph gebbia	no
Chris Shook	No.

Please provide us with your contact information.	If US 380 is constructed as a freeway, which alignment do you prefer? (select all that apply)

Please provide us with your contact information.	Do you have any concerns with the existing US 380?
Name	Open-Ended Response
Joe Rider	Extreme safety concerns. Feels like major accidents almost daily from lake forest to custer
Ellen Landel	Excessive speed, dangerous weaving habits of drivers, excessive truck useage
Joseph Delarosa	
James Edward Smith	With no median there have been several cross lane head on wrecks over the years. No current protection of a median for children getting on and off school buses. Lower speed limit needed between Princeton and Mckinney
Tiffany	Its fine
t	
Marcia Jones	Congestion during peak commuting hours. Need light at Cypress Bend neighborhood entrance.
Stephan Ware	Congested at busy times. Slow for long distances
Terry Reishus	Crowded and dangerous
Maria Mercer	
Shelly	Traffic, dangerous, hard to turn out onto 380 from areas without traffic lights, lots of 18-wheelers, etc.
John Tedesco	
Trey Raybourn	Too congested. Too high of speed through residential and business access areas.
Cindy Cruz	Safety, no Center lane protection
Cindy Broughton	It's busy
Sid MacAllister	Congestion
Matt Adell	
Todd Strouse	Congested
Leah Edwards	
Gina Ellis	We do not want this traffic near Fairview/Lucas. The traffic problems and congestion would trickle down into neighborhoods etc. thus lowering our property values and increasing potential for crime.
Katy White	Congestion at times
Bri Westbury	Yes,it is horribly congested at HWY 75 and needs to have elevated access roads for easy onboarding/off boarding rather than backing up at the light
Nancy	yes

Please provide us with your contact information.	If US 380 is congested, what alternative routes do you take?
Name	Open-Ended Response
Joe Rider	
Ellen Landel	I don't have to go very far east or west on 380 out of Tucker Hill and will use the nearest north/south route
Joseph Delarosa	
James Edward Smith	982 to Lucas, then to Allen, Plano or Dallas
Tiffany	Its not that busy where i travel. Leave it alone
t	
Marcia Jones	407
Stephan Ware	Prosper Trail / El Dorado
Terry Reishus	Freeway but not below Laud howell
Maria Mercer	
Shelly	Virginia Pkwy
John Tedesco	Virginia Prkwy, Eldorado Prkwy
Trey Raybourn	No alternate route available.
Cindy Cruz	Fm roads
Cindy Broughton	121
Sid MacAllister	Bridge Farmer road to FM 546 into McKinney
Matt Adell	
Todd Strouse	Airport Blvd
Leah Edwards	
Gina Ellis	I do not use 380 often.
Katy White	Smaller thoroughfares
Bri Westbury	None.
Nancy	

Please provide us with your contact information.	What solutions would you suggest in the US 380 Corridor?
Name	Open-Ended Response
Joe Rider	A bypass that runs parallel to 380 to the north and actually exyends at least to preston anything short of that just dumps traffic back in to an already congested and dangerous roadway
Ellen Landel	I live on the first block of Tucker Hill closest to 380. Since my home would be directly impacted either by being torn down or have a sound barrier right at my back alley driveway an expansion of the current roadway would be totally unacceptable. The reason we purchased in Tucker Hill less than 18 months ago was because it was a truly unique neighborhood. We had no idea that an expansion of 380 was being planned and were not told of this when we purchased. We understand 380 does need traffic relief and could be in favor of a bypass that would run as close to Custer road northbound as is feasible.
Joseph Delarosa	
James Edward Smith	A southern and northern side bypass, and completion of the Collin County outer loop
Tiffany	Don't build it
t	
Marcia Jones	Widening.
Stephan Ware	STRAIGHT LINE FREEWAY. Alignments Green or Pink ONLY
Terry Reishus	You need to put farther north than proposals. By the time, maybe 10 years, that will all be developed. You need to have at least 2 east west traffic movers thru Collin and Denton counties. They should be coordinated for long term growth and not just a Collin county band aid.
Maria Mercer	
Shelly	
John Tedesco	
Trey Raybourn	If no improvements are made, the speed limit needs to be lowered and widen it to 6 lanes.
Cindy Cruz	Adjustments in speed limits, better lighting, center divider
Cindy Broughton	
Sid MacAllister	Bypass Princeton to the south
Matt Adell	There is no need to dip into Fairview area to make a bypass around the McKinney Airport (the Red Alignment). Fairview and Lucas are fighting hard to keep our simple country feel and things like this will detract and inevitably change the way we live.
Todd Strouse	McKinney Bypass
Leah Edwards	
Gina Ellis	I don't know but we do not want this traffic near Fairview or Lucas.
Katy White	
Bri Westbury	Focus on improving the outer loop and the congestion will remedy itself. The loop needs to be the top priority. If there is any new access roads made, it will only bottleneck and congest again once it reaches the highway
Nancy	

Please provide us with your contact information.	Do you support the building of a freeway regardless of alignment?
Name	Open-Ended Response
Joe Rider	No
Ellen Landel	
Joseph Delarosa	
James Edward Smith	No, would still not keep up with grow the and detract from the small areas community appeal that has attracted most to the area. A Lake Lavon bridge from 982 to Wylie would relieve more traffic long term, along with a north connection to the outer lop and a southern bypass around Princeton and East Mckinney
Tiffany	No
t	
Marcia Jones	Not sure
Stephan Ware	NO.
Terry Reishus	Use existing 380 for freeway. Moving a bi-pass just a little north on Bloomdale makes absolutely no sense to me as it is only a band aid and it will not alleviate traffic by the time the bi-pass is built.
Maria Mercer	
Shelly	
John Tedesco	Yes I fully support it
Trey Raybourn	Yes
Cindy Cruz	No, the alignment does matter. If the freeway can be constructed with with damaging farmland and the scenic views.
Cindy Broughton	No
Sid MacAllister	My concern, IS the alignment.
Matt Adell	No.
Todd Strouse	Yes
Leah Edwards	
Gina Ellis	N/A
Katy White	No, I do not support the red alignment.
Bri Westbury	
Nancy	

Please provide us with your contact information.	If US 380 is constructed as a freeway, which alignment do you prefer? (select all that apply)

Please provide us with your contact information.	Do you have any concerns with the existing US 380?
Name	Open-Ended Response
Chad Rowell	Congestion during high traffic times
Lisebeth Rhoades	traffic flow and ability to turn right
Jared Maier	Congestion, danger in driving on the road. An accident involving a semi occurred next to me two weeks ago with my child in the car.
Marie Snyder	380 is dangerous, and congested most of the time. The middle lane, aka. suicide lane is horrible.
Nick Patton	
Greg Sweet	
Bridgette Wallis	Yes, through McKinney there are many hazards that cause accidents. There are very fast drivers, few turn lanes, and few right turn offs to businesses and developments.
Robyn MacAllister	There is somewhat traffic. I don't experience much when I go to work or home.
Andrew Griffin	The amount of 18-wheelers and other large vehicles. They can impede the flow of traffic when there are too many. Perhaps cities could implement a rule to keep large vehicles within the right two lanes, leaving the leftmost lane open for passing traffic.
Robyn MacAllister	
Daniel Wildes	Yes too congested. I drive out of the way to avoid it.
	Dangerous. Issues every day
Craig McCloud	Traffic in Princeton.
Kevin Johnson	The part that I travel mostly is ok, between Lake Forest and Custer. Going East get more congested though
Brandon Bell	lack of medians, too many drive connections, congestion
Amanda Witt	
	Lots of traffic in the mornings and evenings. If the highway is shut down, there is no alternate route to the east.
Paige Segovia	Yes, that middle turn lane is not safe
Tani Pratt	

Please provide us with your contact information.	If US 380 is congested, what alternative routes do you take?
Name	Open-Ended Response
Chad Rowell	New Hope Road, Monte Carlo
Lisebeth Rhoades	none
Jared Maier	I have to take it bc I live off of it.
Marie Snyder	FM 546 and/or CR 406
Nick Patton	
Greg Sweet	
Bridgette Wallis	I take the 75 or the 121
Robyn MacAllister	
Andrew Griffin	I don't. I have to sit through the traffic. If I am in McKinney I might take Virginia.
Robyn MacAllister	
Daniel Wildes	From my home I take wilmeth/back roads to 75 and the reverse to get home.
Craig McCloud	
Kevin Johnson	I take CR123
Brandon Bell	546, monte carlo
Amanda Witt	Backroads
	Back roads through Princeton and new hope.
Paige Segovia	I am limited- i dont have any other routes unless I go up 75 and take 121 to 78 then come back down which probably adds 50 miles to my drive home. I could possibly take 78, but that has been under construction for years and is a night mare.
Tani Pratt	1461 (Frontier)

Please provide us with your contact information.	What solutions would you suggest in the US 380 Corridor?
Name	Open-Ended Response
Chad Rowell	We need to provide better alternatives to US 380 in order to get to McKinney, Allen, or Anna from Princeton. I believe adding freeways or major highways in addition to the current 380 would be helpful. We need to lessen the traffic on 380, which may not be possible due to our growth, but I fear we will have major and worse issues on 380 if construction begins without valid alternatives during construction. If possible, I would suggest leaving 380 as it currently is, while you build alternative routes to and from Princeton, then after completion (if necessary), begin making adjustments to 380.
Lisebeth Rhoades	
Jared Maier	Build a bypass starting west of the Lowes in Prosper, go around the north side of McKinney and Princeton, south side of Farmeraville. Connect it to 121 by going beside the airport.
Marie Snyder	Add more lanes, and existing corridor.
Nick Patton	
Greg Sweet	
Bridgette Wallis	I think the bypass is a silly idea for many reasons. That whole NW sector is supposed to be nature and sf housing. There's a huge flood plain that would cost so much to go through financially and environmentally. I really think something should be done with the existing 380 footprint. I have no idea what. I am trying to find out how much ROW currently exists and how much is needed. The outer loop and some combo of 380 improvements would help this situation. I'm really hoping the existing 380 gets improved shortly and not in 10 years. That road is dangerous.
Robyn MacAllister	The yellow route proposals makes the most SENSE. It alleviates the traffic and is an actual alterative route to another highway. It also impacts the least amount of people. The blue and red bypass proposals would go through people's homes and ruins families around it!!! From what I saw, it would take people off 380 for a bit and throw them back on. Make no sense. Again, the yellow proposal actually is an ALTERNATE ROUTE that can alleviate this "congestion".
Andrew Griffin	Grade separated intersections at points like Custer, lake forest, hardin, etc. and a multi level interchange at highway 75.
Robyn MacAllister	
Daniel Wildes	Make 380 similar to 121 and build out wilmeth bloomdale and roads north that flow east west to relieve congestion.
	Medians. Cops
Craig McCloud	
Kevin Johnson	Maybe a few more intersections like what is being built at Preston and 380. I am no opposed to some sort of bypass, but not one that goes through people’s homes. Your failure to plan shouldn’t cause those to be homeless.
Brandon Bell	improvement to existing road and more alt routes
Amanda Witt	More stop lights, lower speed limits
	Develop alternative routes east and west to the south of 380.
Paige Segovia	widening takes forever and causes congestion- we lived thru the last construction to widen 380 towards Greenville, but it has been successful, A new road, a loop, with fewer stop lights would be good- but if they start building commercial businesses on a loop, then we defeat the purpose of the loop
Tani Pratt	Move the bypass to the Outer Loop. Trying to use Bloomd is not a wise decision. There are several homes and neighborhoods that would be effected. Another is there is an elementary school in one neighborhood and these children walk and ride their bikes home. Also with buses coming in to pick up kids to take them to middle and high school. Then you have your high school drivers that use that rode to the high school. This bypass or freeway alignment endangers the well being of our neighborhood and more importantly the safety of our children that will be living near it.

Please provide us with your contact information.	Do you support the building of a freeway regardless of alignment?
Name	Open-Ended Response
Chad Rowell	No, if you convert 380 into a freeway, I believe it would be disastrous for Princeton. There is too much already built up on 380 through Princeton to move forward with this. I support the building of a freeway if it takes a northern route where there is still open land.
Lisebeth Rhoades	no
Jared Maier	Yes.
Marie Snyder	Build a freeway, use existing corridor.
Nick Patton	
Greg Sweet	
Bridgette Wallis	I support building a freeway on the existing 380 footprint. Not bypasses that seem to be silly and costly.
Robyn MacAllister	No, especially blue or red proposals. Might I add that would butt up against my backyard! Meaning I could walk and see the damn bypass! NO. I will never support a freeway regardless of alignment.
Andrew Griffin	Yes. 100%. Mckinney is going to be a big city, and we need big city infrastructure.
Robyn MacAllister	
Daniel Wildes	No. I support expanding 380
Craig McCloud	
Kevin Johnson	Absolutely not
Brandon Bell	yes
Amanda Witt	Yes
	Yes
Paige Segovia	maybe. No one wants to loose their home or land to a freeway. we still need to preserve people property and farm/pasture land. Could a freeway be built and accomplish that goal. I travel from 380 and 36 every day to 75 and Arapaho in Richardson. Most people out where we live have to drive in to a job to be able to support ourselves. There are few jobs close to us and those that are available pay minimum wage. ALSO NO TOLL ROADS... PLEASE. The amount of tax money we pay to our county and on a gallon of gas should be paying for the roads, no more toll roads.
Tani Pratt	No as stated in the above question.

Please provide us with your contact information.	If US 380 is constructed as a freeway, which alignment do you prefer? (select all that apply)

Please provide us with your contact information.	Do you have any concerns with the existing US 380?
Name	Open-Ended Response
Kristen Robinson	
Debra West	My concern and dislike is the 60 mile an hour stops.
Shawn Fort	Yes
Rahul Pupala	Traffic Accidents especially in front of our development of Tucker Hill
Shelley Nunley	Too much traffic and too many inattentive drivers
Dawn Ventre	There are content accidents
Virginia Cotten	Traffic can be congested during rush hours. The U.S. 75/ 380 Connection is difficult.
EA McDowell	No
Chris Armstrong	Yes. The traffic load produced by businesses and neighborhoods would seem to demand a limited access highway. That traffic is being forced down a 6-lane divided roadway.
Kristin Schultz	Yes
Vijay sagi	Yes, traffic moves very slow
Andy Budke	Yes, as someone who drives it everyday, there is already a lot of traffic and congestion. The amount of traffic signals makes it almost not drivable during rush hour, a signal bypass option is needed (whether it's a freeway or overpass & underpass at select intersections). There are intersections without decel lanes, which is dangerous at the speeds people are travelling. The number of intersections, volume of traffic, and speeds which people drive don't make 380 feel safe... seems like there are always accidents.
Bryan Brunson	Traffic congestion along Highway 380 to and from McKinney to Princeton is becoming more and more congested.
Stuart Williams	Traffic. I live 0.25 miles south of the existing Hwy 380, so taking another east west roadway is out of the way for me. Another east west highway would ease congestion on the existing HWY and make it more accessible for all of the people that live directly off the road.
Dan Smith	Yes, it is too congested and once you pass airport road going East if there is a wreck it is extremely difficult to make it to Princeton
Marty Duer	To much traffic
Marisa Loya	
Matthew Hammond	I have concerns about any proposed route that would require displacing residents or that would require eminent domain seizure of private property. If the city wants it, then they need to cough up the land to do so. Use the existing 380 corridor only - widen it if you must, but don't include any plan that takes people's land away from them.
Dana Davison	Speed and congestion lead to some close calls with accidents because of the slow incoming and off-turning traffic as well as the limited use of medians
Emily McKee	The amount of users creates extreme congestion most of the business day on week days. The lights and other people turning off the road sneak up on people and I see accidents at least twice a week due to this.
Eric Jeske	Yes, traffic is increasing daily and we are way behind on solving the issue
Amanda McIntire	Yes, I believe a lower speed limit through Princeton and between Princeton and McKinney would increase public safety by giving drivers more reaction time.
Sally Figueroa	

Please provide us with your contact information.	If US 380 is congested, what alternative routes do you take?
Name	Open-Ended Response
Kristen Robinson	
Debra West	400 to Bridgefarmer and down to 546
Shawn Fort	small county roads north and south of 380 however due to my route sometimes those are not acceptable alternates
Rahul Pupala	Virginia Parkway
Shelley Nunley	Depends on where the problem is
Dawn Ventre	Virginia Pkwy
Virginia Cotten	121 and it is getting very congested during peak driving hours.
EA McDowell	Eldorado
Chris Armstrong	Virginia Parkway, SH 121
Kristin Schultz	
Vijay sagi	
Andy Budke	Virginia Pkwy / Eldorado Pkwy
Bryan Brunson	I typically do not take an alternate route travelling between McKinney and Princeton along US 380.
Stuart Williams	Virginia.
Dan Smith	You can go through Lucas or go around New Hope
Marty Duer	Back roads to 546 or 982
Marisa Loya	
Matthew Hammond	It's not ever congested between Princeton and Farmersville. Between McKinney and Princeton, Highway 5 is another option.
Dana Davison	I do not take any alternative routes as I do not know of any.
Emily McKee	Eldorado or Virginia
Eric Jeske	Virginia Parkway west of US-75 and Airport Drive/Industrial Blvd east of US 75
Amanda McIntire	I 466 to 1827 to go to McKinney but I work in Princeton so I use 380 daily.
Sally Figueroa	

Please provide us with your contact information.	What solutions would you suggest in the US 380 Corridor?
Name	Open-Ended Response
Kristen Robinson	
Debra West	Make a highway with exit to side streets NO TOLL ROAD,
Shawn Fort	widening, medians
Rahul Pupala	NO BYPASS - it is unfair to rip apart the beautiful Mckinney landscape. to change developement that has been in the work with the city for over a decade all so a few people dont have to deal with 380 extension, I bought my house a 1/2 mile from 380 and paid for my location, not right to do to hard working taxpayers
Shelley Nunley	A road north of 380 and a road south of 380
Dawn Ventre	NO BYPASS - I had taken this survey before I realized you moved the bypass line 500 ft from my front door, This is ridiculous as there is a huge empty expanse of land to the east that has no development owned by Billingsly who has blocked all development of stonebridge making traffic unbareable for our neighborhood
Virginia Cotten	Construct an overpass between 75 and Hwy 5. The offset requirements are already established along the business section of 380 in McKinney.
EA McDowell	Bypass tunnels
Chris Armstrong	Build a service road were possible - before it's too late.
Kristin Schultz	Median
Vijay sagi	Freeways
Andy Budke	I think a freeway is needed... options to bypass traffic signals with overpass / underpass. Better timing of signals for now. More medians and better landscaping.
Bryan Brunson	I viable solution would be widening US 380, and potentially add frontage road similar to other lard highways.
Stuart Williams	Build another east west freeway, north of the existing HWY 380.
Dan Smith	
Marty Duer	No idea
Marisa Loya	
Matthew Hammond	Widen the existing roadway.
Dana Davison	Medians, more limited access like no driveways but still have turns on to streets
Emily McKee	creating a freeway to cut down on stop and go traffic due to stop lights
Eric Jeske	Raised median from Frisco to Princeton. Limit access drives and spacing, widen road where possible. Limit traffic signals and stops
Amanda McIntire	Lower speed limit, a traffic light at 380/458, more Collin county police presence, speed reduction earlier east of Princeton High School between the bridge and 458.
Sally Figueroa	

Please provide us with your contact information.	Do you support the building of a freeway regardless of alignment?
Name	Open-Ended Response
Kristen Robinson	
Debra West	Maybe
Shawn Fort	yes
Rahul Pupala	Extend 380 Don't Destroy this beautiful landscape with a bypass road
Shelley Nunley	Unsure
Dawn Ventre	Expand the current 380 and NO BYPASS for our beautiful Mckinney
Virginia Cotten	Maybe----if it does not cut up farms and homes.
EA McDowell	No
Chris Armstrong	YES!!!
Kristin Schultz	Yes
Vijay sagi	Yes
Andy Budke	Yes
Bryan Brunson	Yes, in order for the surrounding areas to continue to develop building a freeway is required. In addition to this the land adjacent to US 380 will need to be rezoned in the near future.
Stuart Williams	Yes.
Dan Smith	YES
Marty Duer	maybe
Marisa Loya	
Matthew Hammond	Only between McKinney and Princeton. It is wholly unnecessary anywhere east of Princeton.
Dana Davison	Yes, I believe something needs to be done as the community around grows
Emily McKee	Yes, a freeway would allow for less stop and go traffic. making commuting a much more enjoyable experience.
Eric Jeske	Yes
Amanda McIntire	Yes, however a southern loop around Princeton would be ideal.
Sally Figueroa	

Please provide us with your contact information.	If US 380 is constructed as a freeway, which alignment do you prefer? (select all that apply)

Please provide us with your contact information.	Do you have any concerns with the existing US 380?
Name	Open-Ended Response
Michael Orpen	No
Jennifer Jordan	Not wide enough for the traffic and runs through town where kids are trying to get to school.
Joe Helmberger	Congested, Congested, Congested
Bill Martin	No
Amy king	Traffic and the amount of accodents between princeton and mckinney
Melissa Cody	
Brad Davis	My only concern is that it is the only E/W thoroughfare through McKinney
Michaelle Ray	Yes. There are too many people who make left turns into 380. So dangerous.
Jack Jaquez	na
kayla	biggest concern is the lack of structure withing center turn lanes. entering businesses on opposite sides of the roadways can be difficult without structured and protected turn lanes. having medians and turn lanes on 380 inside princeton city limits specifically could dramatically reduce crashes in my opinion.
Georgia Casas	There are to Many accidents and not enough lanes for the growing population and businesses. To much traffic.
Jesus Hernandez	Yes, to many people use the center lane the wrong way.
Blair Jourdonais	Constant accidents but dont think its the road at fault.
Kyle Slaton	The amount of accidents that occur is the main concern.
Tiffany Jourdonais	My only concern is the distracted drivers. They are the reason for the number of accidents. I believe the speed and the road itself are fine. It does get quite congested around 7:30 am and 5 pm... I generally just try to avoid it at those times
Angel lowrance	
Cassie wilson	The entrance to walmart in princeton. And the intersection at Monte Carlo
Amanda Devine	Yes the congestion and there are no alternative routes out of princeton
Diane petty	Ynsafe center lanes need medians
Dena Edwards	380 is very dangerous! We live in Creekview across from Walmart in Princeton. It is hard to get in and out of our neighborhood. There are many accidents and have been quite a few fatal accidents on 380. When traffic backs up people drive down the highway on the shoulders and in the turning lane so they don't have to wait.
Lisa wade	People use the left turn lane for wrong reasons, slow drivers in the left lane and distracted drivers.
Verena	Accidents
Houston Nutt	Yes
Kristen Freeman	Regular accidents at 380 and Airport / 1827

Please provide us with your contact information.	If US 380 is congested, what alternative routes do you take?
Name	Open-Ended Response
Michael Orpen	It’s never congested enough to take an alternate route
Jennifer Jordan	Monte Carlo
Joe Helmberger	FM 982 or SH 78
Bill Martin	
Amy king	There are non for me
Melissa Cody	I'll take a North/south road to get a bit south Nd then cut back to 75
Brad Davis	That’s the problem. The outerloop route would help a lot. If McKinney would build just one road (Wilmeth, Bloomdale, Laud Howell, through the city many people would take those roads i stead of 380.
Michaelle Ray	There r no alternative routes to McKinney that make sense.
Jack Jaquez	none
kayla	982 south toward lucas
Georgia Casas	546 to 982
Jesus Hernandez	Back roads
Blair Jourdonais	New hope road.
Kyle Slaton	Take the back roads around the airport in Mckinney to go east to Princeton.
Tiffany Jourdonais	It depends on where I am going.
Angel lowrance	
Cassie wilson	The road by Exxon through town to 6th street and on to 1377.
Amanda Devine	I do not have very many options
Diane petty	
Dena Edwards	I take Fm 75 North of Princeton to CR 408 to 1827 to Fm 2933 to CR 331 to get to McKinney when 380 is congested and also I take that route every evening to avoid traffic and very careless drivers.
Lisa wade	Bridgefarmer
Verena	Through Lucas
Houston Nutt	
Kristen Freeman	2nd street to Lucas - or just sit on 380 it doesn't take too long to get from 1827 to Airport

Please provide us with your contact information.	What solutions would you suggest in the US 380 Corridor?
Name	Open-Ended Response
Michael Orpen	Expand prosper trail and 123 so they aren't two lane roads but NOT a freeway. Keep it residential.
Jennifer Jordan	Three lanes both sides maybe down the line a high way with Service Roads
Joe Helmberger	Access management, additional lanes and construction of additional facilities
Bill Martin	Expand it in width.
Amy king	Adding a lane if possible each way or offering a new roadway to the frisco/mckinney area that is so hugely growing
Melissa Cody	Expand 380, fire the previous planners in McKinney that allowed businesses to build right on the road. If a double decker hwy is possible I believe that ia a good option. Move forward the building of the outer loop.
Brad Davis	Keep existing alignment but build additional thoroughfares
Michaelle Ray	Make the current 380 a divided highway. And add a freeway as fast as possible.
Jack Jaquez	na
kayla	besides medians to control traffic flow, underground roadways similar to ones at spring valley and us 75 in Richardson would be a possible alternative. allowing traffic that needs to flow through from McKinney to Greenville to still utilize the route but without impeding the residents of princeton. also, I think banning 18 wheelers on 380 inside princeton except for local deliveries could also be helpful. 380 is used as a highway for cross county traffic and other routes are not utilized thay don't directly intersect the heart of a town.
Georgia Casas	Add more lanes and maybe stop lights.
Jesus Hernandez	
Blair Jourdonais	
Kyle Slaton	Lowering the speed limit starting at Monte Carlo and through Princeton.
Tiffany Jourdonais	I think the road itself is fine the way it is. Although I think a traffic light at the high school (student parking lot) would be a great addition.
Angel lowrance	
Cassie wilson	Turning out one way from Wal-Mart so maybe some sort of median
Amanda Devine	
Diane petty	Widen reduce speed add stoplights at subdivision entrances
Dena Edwards	Medians or dividers in the Highway and lower speed limits. No left turn from the Walmart Parking lot in Princeton to go West toward Mckinney. More law enforcement on a consistent basis.
Lisa wade	Pull over people who are going 55 in the left lane or using there phone.
Verena	No turn lane, lower speed limt
Houston Nutt	Widen the existing 380
Kristen Freeman	Widen the existing road - fix the traffic light issues past McDonald to ease congestion, get rid of the speed trap between Airport and McDonald, 2 turn lanes onto Airport from 380 heading west.

Please provide us with your contact information.	Do you support the building of a freeway regardless of alignment?
Name	Open-Ended Response
Michael Orpen	No especially if it runs through the Heatherwood development
Jennifer Jordan	Yes
Joe Helmberger	ABSOLUTELY
Bill Martin	No. KEEP 380 where it is - keep the traffic where the business is - STAY OUT OF OUR NEIGHBORHOODS.
Amy king	Yes as long as effected residents are compensated fairly if directly effected with their actual homes
Melissa Cody	No
Brad Davis	I would support a freeway with existing alignment
Michaelle Ray	Yes
Jack Jaquez	yes
kayla	no. peoples homes and property need to come first. I believe adding a freeway through princeton isn't the answer. I am happy to see growth and development to the city and understand traffic has to go somewhere. what is needed is to make a strategic route for drivers to go from Greenville to Denton that isn't tolled and allows as little disruption or inconvenience to homeowners as possible.
Georgia Casas	Not sure. If it affects the neighborhoods I feel this would be an issue and certain precautions should be taken to prevent some noise
Jesus Hernandez	Yes
Blair Jourdonais	
Kyle Slaton	Yes
Tiffany Jourdonais	It would depend on the design plans. I'm not sure a freeway is necessary and may cause more issues
Angel lowrance	Yes
Cassie wilson	Um yes and know it has its positives and negatives. I only drive 7 miles to work and 7 miles home but if I have to go into mckinney I dread it at certain times of I know its a high traffic time.
Amanda Devine	Yes
Diane petty	Yes
Dena Edwards	I'm not sure. I can't picture 380 as a freeway. There is not enough room and there are already too many businesses to make room for a freeway. A freeway North of Princeton would displace too many families and from the looks of the maps the roads would be too curvy.
Lisa wade	I support it if it does not go near my house.
Verena	Yes
Houston Nutt	No
Kristen Freeman	No I do not - considerations need to be taken to the residents that live out here and the reasons we moved this far out to the "country". I do not want a highway, freeway or major thoroughfare close to my house bringing lights, noise and more commercial businesses to my backyard.

Please provide us with your contact information.	If US 380 is constructed as a freeway, which alignment do you prefer? (select all that apply)

Ronda Matherly					Relative sibling.	Weekly

Please provide us with your contact information.	Do you have any concerns with the existing US 380?
Name	Open-Ended Response
Kiele Caubel	Only that the exit lane from 75 northbound off to 380 back up even on non-peak hours which is a bad design of both the exit off the freeway and whole intersection that need a redisign, but otherwise No - there are rarely times that there is any traffic back ups or delays of concern comparative to others like it around the DFW area.
Lindsey Gill	It's very congested through major intersections. Lots of wrecks due to high speed limit & people running lights, especially 18 wheelers.
Diana Nutt	Yes,
David Brian Russ	Too many lights
Brandy Kusterbeck	Fatalities. Speed limit with SEVERAL neighborhoods entering on to it. Limited protected crossings. People driving in the turn lane.
Melanie Cottongame	Safety through Princeton. There need to be raised medians to lessen the amount of wrecks.
Don Snekvik	Speed are too high.
Sarah	
Catherine Frank	Yes, congested and too many traffic lights.
Brittany Shake	Signal timing, lack of medians, congestion
Sherry Sadler	too many red lights through McKinney
Adam Funkhouser	Safety with red light runners and head on collisions
Yvonne A Thomsen	extremely dangerous to turn off of, or onto
Robert	
Amanda Matherly	The traffic is terrible. Drivers are constantly distracted and not paying attention to the changing lights while driving at high speeds. The school busses dropping off kids is becoming an issue when drivers don't pay attention to the sudden stop.
Angela Lanehart	Congestion and safety
Emilee powell	
Ronda Matherly	Traffic so backed up. Accidents almost daily.

Please provide us with your contact information.	If US 380 is congested, what alternative routes do you take?
Name	Open-Ended Response
Kiele Caubel	I may cut over an intersection or two, but usually only if there is a wreck blocking more than one lane when this occurs which has been only twice in four years living in the North Frisco, McKinney, Prosper and Celina area...
Lindsey Gill	Wilmeth, Bridgefarmer, not many other options going towards Princeton.
Diana Nutt	South on Lakewood to 121
David Brian Russ	121
Brandy Kusterbeck	Monte Carlo, Bridgefarmer
Melanie Cottongame	Monte Carlo
Don Snekvik	Virginia
Sarah	Bridgefarmer rd or fm 982
Catherine Frank	Little alternatives available, commute requires some travel on 380.
Brittany Shake	Monte Carlo, FM 546, Florence Dr.
Sherry Sadler	mcIntyre rd wilmeth rd
Adam Funkhouser	I go north on highway 5 to mellisa and back track
Yvonne A Thomsen	942 (think thats the #) to Allen/Lucas
Robert	
Amanda Matherly	546, Bridgefarmer, 407, Monte-Carlo. If coming from Dallas, will opt to drive through Wylie if traffic is too bad
Angela Lanehart	If going to Dallas (work) from Princeton I take Simpson Rd to Myrick Lane to Bridgefarmer to 546 and come in behind McKinney airport.
Emilee powell	Airport road
Ronda Matherly	Back roads. CR 1827

Please provide us with your contact information.	What solutions would you suggest in the US 380 Corridor?
Name	Open-Ended Response
Kiele Caubel	Only enhancements I could suggest if the state really feels they have to do something is to enhance the existing 380 pathways and design. There certainly could be an upper deck level built with lanes with limited exit ramps for non light traffic between 75 and DNT kind of thing...allowing for some more traffic capacity and faster commute through area for longer/further commuters that are really just passing through. But essentially only enhancing the existing 380 path.
Lindsey Gill	Possibly making it a freeway? I know the issues are common for a highway though.
Diana Nutt	Stay out of Fairview TX
David Brian Russ	Make it Highway with frontage roads similar to 121. NO TOLLS
Brandy Kusterbeck	Median, reduced speed limit, police presence, more stoplights
Melanie Cottongame	
Don Snekvik	Elevated express lanes
Sarah	
Catherine Frank	Expand existing with some possible bypass areas
Brittany Shake	Limit driveway permits and add medians
Sherry Sadler	not sure yet
Adam Funkhouser	There is no good solution. Who ever you misplace along the way just make sure they are over compensated for everything.
Yvonne A Thomsen	make it a real freeway with exits (on/off ramps) etc.
Robert	
Amanda Matherly	The bypass from Hwy 5 through to CR 456 should alleviate a lot traffic from 121.
Angela Lanehart	Traffics lights at entrance to major subdivisions and slower speed limit.
Emilee powell	
Ronda Matherly	Double decker.

Please provide us with your contact information.	Do you support the building of a freeway regardless of alignment?
Name	Open-Ended Response
Kiele Caubel	Only if it is along the existing 380 path otherwise no. After evaluating and considering the negative impacts on the community and research on the building of additional and new highway impacts I can not. While I appreciate that traffic and population migration may be inevitable it is not ok to continue to urbanize farming and ranch land and destroy nature areas and their iconic Texas landscape views, nor contribute to their demise by adding emissions through them, or ruining both the quiet and safety of communities and neighborhoods just for the sake of saving someone (who usually is just passing through and does not live in those neighborhoods impacted) literally only a few minutes of commute time - is an injustice and insult. Studies have shown that increasing the highways does not actually effectively fix or resolve congestion issues and that actual savings time for any commuters is offset nearly one to one for additional traffic it draws. I am fully convinced that the negative environmental and community cost to any kind of bypass or expansions to a full blown "highway" beyond the existing 380 path and route at least between 75 and DNT (as this is the area in which I am most familiar, live and travel through) has anywhere near the offset of benefits. I am really hoping this is not just another case of a government land grab move and tax money spend as it is just not sustainable to continue to destroy our land ecosystems and agricultural productivity as well as communities for the very people you might claim some of this "progress" and work is for. Consideration should also not just be for the land and property itself that will be taken and used, but also then any of the adverse impacts of the development and changes to the remaining land, property and communities surrounding it. By continuing to build out "bypass" paths and roads, the state only continues to encourage urban sprawl that is destroying land and quiet communities as well as discouraging use of and development of alternative transportation options. We should not contribute to induced demand in this area as it struggles already with flooding and drainage issues. Adding this additional traffic and structures will hurt the land and those who live there, not improve it. Past benefits of investing in this kind of new "infrastructure" may have been seen or considered beneficial in the past, but certainly does not mean that it will now or in the future as recent research has found that the economic benefits of newer highways built are typically negligible. Tax money is best spent fixing the existing 380 roads and pathways and not expanding off of it.
Lindsey Gill	No, I think alignment is important. I know you cannot please everyone but I think it needs to make sense.
Diana Nutt	I have major concerns with the building of the freeway & the impact of the small towns & property owners involving this loop.
David Brian Russ	Yes
Brandy Kusterbeck	Yes
Melanie Cottongame	No, a proposed version goes right through our house and land.
Don Snekvik	Yes
Sarah	
Catherine Frank	
Brittany Shake	Yes
Sherry Sadler	yes
Adam Funkhouser	I hope it doesn’t go next door to my house but i understand progress just hope I’m taken care of.
Yvonne A Thomsen	No. I moved north of 380 to be out in the country. If 380 or any other freeway were moved up near me, I would most likely sell and move away. I came out here for peace and quiet, not noisy roads.
Robert	
Amanda Matherly	I don't know that widening 380 is going to be a viable solution
Angela Lanehart	YES!!!
Emilee powell	No
Ronda Matherly	Yes

Please provide us with your contact information.	Do you have any concerns with the existing US 380?
Name	Open-Ended Response
Amber Gurney	No
Taylor	
Nan Guynes	Congestion and no way around there is none
Laura	
Jeff Fenneman	No, the main problem with highway 380 is in Denton County. Adding a "freeway" around McKinney is not the issue at all and will not help the real problem of congestion on Highway 380 from DNT to US377 in Cross Roads. Collin county is already building an overpass on 380 at the Preston intersection and there appears to be work at 380 and the DNT intersection. The issue is clearly 380 in Denton county and not 380 from Custer to McKinney. I have found very minimal traffic from Custer eastbound on highway 380 to McKinney and 6 lanes divided will be sufficient for several decades and if not forever.
Kelli Jeffrey	It is slow and congested at times and at other times it flows just fine.
Machelle Sontheimer	Yes, traffic time has doubled over the last couple years. And, more accidents which is safety concern & takes upto 2 hours to go a few miles.
Bill Glass	yes, it is dangerous and congested especially in Princeton. Glad to see the widening and raised median.
Rich Hooper	It is very congested and unsafe, especially the center turn lanes.
Vivian Wood	Congestion and safety
Theresa Geisler	With increasing business and new residents the current 380 will not be able to provide appropriate transportation in the next coming years
Erin	congestion and entering traffic
Andy	too much traffic
Erin	on route entrering traffic, sppeds and intersections
Wayne Fawks	Too much traffic!
Toni Fawks	Yes, congested
Andrew Sisson	yes, congestion
Tim Cotton	Yes we need center barriers to reduce the suicide lanes thus reducing chances for collisions.
john	the safety of the drivers
Mark Waterman	
Kennedy Cotton	My neighborhood sits on the hearth of 380. The traffic flow is hectic and a death trap; how will any of the new plans limit/ stabilize the continuous increase of traffic?
Ken Overtopn	During rush hour(s) the section between Bridgewater and Airport roads backs up. Widening 380 across the flood basin and adding a additional turn lane from westbound 380 to southbound Airport would help.

Please provide us with your contact information.	If US 380 is congested, what alternative routes do you take?
Name	Open-Ended Response
Amber Gurney	Back roads
Taylor	121
Nan Guynes	
Laura	
Jeff Fenneman	380 is not congested from Custer to McKinney. I am positive a traffic survey would indicate as such. The minor congestion on 380 is at 75 Southbound in the morning rush hour, improving the turn lanes in McKinney would fix this issue and not a freeway. The majority of that traffic originates from Lake Forest eastbound and any bypass would not address the correct issue. Building a loop around McKinney similar to 288 Northbound in Denton at this point would be a significant waste of tax payer dollars. The bypass in Denton did not work to reduce traffic congestion on 380 in Denton. Loop 288 has very minimal traffic on it, so it is reasonable to deduce building a similar road in McKinney would have similar results. Also, there are several alternatives to 380 in McKinney such as: Virginia, El Dorado, and even Custer to Highway 121.
	CR 123 / Bloomdale
Kelli Jeffrey	Virginia or Eldorado
Machelle Sontheimer	I try to avoid 380 if at all possible. Depending on which way I'm going, I take: 1827, Airport, FM75, 1377, Monte Carlo, Wilmeth, McIntyre (274), 331, 2933
Bill Glass	there isn't a good one.
Rich Hooper	Myrick Lane
Vivian Wood	1827 Industrial/El Dorado Custer/VA/Redbud
Theresa Geisler	Lake Forest, Custer road, DNT Depends on where I'm going.
Erin	none
Andy	no other routes
Erin	none
Wayne Fawks	North to Melissa or South to Fairview
Toni Fawks	Small side roads, sometimes going almost to Melissa
Andrew Sisson	none
Tim Cotton	Bridgefarmer Road, 2nd Street out of Princeton or Hwy 78
john	county roads up into New Hope over to McMillian
Mark Waterman	CR2933, Woodlawn Rd (CR 331), McIntyre Rd, Wilmeth Rd
Kennedy Cotton	Sadly, if 380 is congested and I am trying to exit my neighborhood, the only alternative would be to go back home. Besides waiting in traffic, back-roads behind All-sups, and Monte Carlo are the alternative routes.
Ken Overtopn	South through Princeton the west across Lake Lavon.

Please provide us with your contact information.	What solutions would you suggest in the US 380 Corridor?
Name	Open-Ended Response
Amber Gurney	Widening the road would help. No need for new ones to ruin historic property.
Taylor	
Nan Guynes	Expansion
Laura	
Jeff Fenneman	Do not make a bypass road for McKinney for US380. TxDot should address the issues of 380 from DNT to Cross Roads. Also, once the construction is complete at the intersections of Preston and DNT on 380 the commuters will be more likely to commute southbound on the DNT and not even use US75 through McKinney. Do not make the huge mistake like Denton did. The significant growth is not in McKinney or Denton cities proper. The growth is in Prosper, Little Elm, Savannah, Providence Village, Paloma Creek, and Cross Roads that border 380. The best solution for 380 would be to build an alternative route about 5 miles north connecting McKinney and through all the above stated cities to Denton. This would without a doubt fix the problem on 380. I would encourage TxDot to build this road north of 380 before all the neighborhoods and business are built. Building a controlled access freeway North of 380 and parallel from McKinney would definitely fix the problem. The North Texas Tollway authority has already identified this need for a freeway between McKinney and Denton to run parallel and north of US380. I would suggest a joint venture between TxDot and the NTTA to complete this road.
	Bypass, trying to expand 380 will be a nightmare.
Kelli Jeffrey	Trucks in the right lane only. The trucks is what makes it so slow. Move them to the right lane only and the other two for passing lanes. Or build bridges up over the existing lanes so you have cars moving on top and bottom. Maybe do this only in spots of congestion or large growth
Machelle Sontheimer	Make US 380 a major Freeway as best you can. If unable to make freeway in cities because of ROW, at least have 6 lane divided roads as loops (possible freeways later) to feed to the north and south of 380.
Bill Glass	I like the blue path.
Rich Hooper	Widen 380 and provide dedicated turn lanes
Vivian Wood	Freeway
Theresa Geisler	I believe widening the exsisting 380 will allow adequate flow of traffic and continue to allow the new businesses to have a steady flow of customers
Erin	
Andy	building a freeway
Erin	
Wayne Fawks	Alternative roads and expansion
Toni Fawks	Needs alternative routes and or widening 380
Andrew Sisson	expand existing route on the south side (pink)
Tim Cotton	Overpass or some type of freeway
john	through the east side, keep the same route and elevate. The second option go as far north as possible.
Mark Waterman	
Kennedy Cotton	
Ken Overtopn	Synchronize traffic signals from 75 east through Princeton Widen 380 across the flood basin east of Airport Rd and add a additional turn lane from westbound 380 to southbound Airport would help. Using flyovers or underpasses for north/south intersections would help as well

Please provide us with your contact information.	Do you support the building of a freeway regardless of alignment?
Name	Open-Ended Response
Amber Gurney	No
Taylor	No
Nan Guynes	Yes
Laura	
Jeff Fenneman	No. A freeway as proposed through McKinney is not a good idea and would have minimal effect on traffic. Just look at loop 288 in Denton that was suppose to ease traffic on 380 in Denton. It was not successful and Denton county ended up improving highway 380 in Denton to reduce traffic. Do not make the same mistake. Do it the right way and build a freeway that is parallel to US380 and North to connect McKinney, Prosper, Dallas North Tollway, Savannah, Paloma Creek, Providence Village, and Cross Roads Texas. This is the fix for the growth on highway 380, not bypass roads for cities that are seeing the smallest amount of growth. Please.
Kelli Jeffrey	Nope - not unless you don't want to impact any residents
Machelle Sontheimer	There must be a freeway somewhere! Collin county is not building the infrastructure to help support the growth on the East side of Central (75).
Bill Glass	I do not support a freeway on the current alignment or the south bypass. I do support a freeway with a north bypass.
Rich Hooper	Yes
Vivian Wood	YES!
Theresa Geisler	No. I live off the main road all of these studies are looking at developing (Bloomdale,123) I moved out here because mckinney slogan is unique by nature and I wanted the serene beauty it has to offer up north. Please think about the ability to widen 380....the quickest way from point A to B is a straight line!
Erin	
Andy	yes
Erin	it is needed
Wayne Fawks	YES
Toni Fawks	Yes
Andrew Sisson	yes
Tim Cotton	Support freeway but not regardless of the alignment. There should be some considerations for landowners and businesses where possible
john	yes
Mark Waterman	yes
Kennedy Cotton	No, I do not support the building of a freeway regardless of the alignment.
Ken Overtopn	NO. A freeway, while potentially addressing traffic, diverts business from the street-level establishments, specifically in this case Princeton. A freeway, specifically the yellow, red, or blue routes will bypass Princeton and will significantly negatively impact economic growth of Princeton. We need a "micro" solution to improve flow, not a "macro" solution involving a freeway bypassing Princeton altogether,.

Please provide us with your contact information.	If US 380 is constructed as a freeway, which alignment do you prefer? (select all that apply)

Please provide us with your contact information.	Do you have any concerns with the existing US 380?
Name	Open-Ended Response
Karen Overton	
tamara	yes, safety and the flow of traffic
Jerry Vrba	Too much traffic near my home
Kenneth J. Roose	2200+ people/day cutting through CR 557 from US 380 to Hwy 78
Marc Dondero	Yes, congestion and all lights timed to stop traffic at practically each one.
Kyle Sutton	Increasing traffic problems
Derek Hennigar	The current form of US 380 in Princeton causes a lot of congestion and flow problems. US 380 in Princeton is rather dangerous for traffic that must turn left (even with a middle turning lane). Coming out of Cypress Bend subdivision, is a difficult and dangerous proposition that can take several minutes to turn onto US 380.
Adam Ruef	I avoid going past Hwy 5 when driving west.
Robin Roose	Too congested in McKinney and Princeton. No problems in Farmersville.
Claud Fleener	Yes - congestion and accidents
Jenny Machalicek	Traffic fatalities, traffic volume, inconsistency in observed speed limits, inability to enforce speed limits, overall poor driving skills.
Brent Thomas	Yes, Congestion and safety are a growing concern
Maria Mercer	Not really - since I travel from Custer to DNT. Prosper and Frisco have planned appropriately and are managing the congestion well. It is only McKinney that has failed to plan.
Daniel Wildes	Yes. Needs to be a freeway similar to Hwy 121.
Julie Boyd	what about the current homes. and what about the home values. Or other traffic that you will be causing closer to residential areas
Randel Johnson	get rid of the middle lane and expand what is already there
RICHARD LANDEL	Yes. Most drivers do not adhere to speed limits from 75 to the tollway going in both directions. Very dangerous with leittle if any policingand numerous violent accidents.
Ryan Lynn	My main concern is safety. People drive recklessly because of being preoccupied with their phones and also being in a hurry due to the amount of traffic on this route. I don't know the data, but anecdotally speaking, this roadway feels unsafe due to the middle "suicide" lane.
David Barnett	No
Pamela Dixon-Faught	only that the traffic is bad at rush hours and there are many accidients.
Kevin Corcoran	The road is too narrow with too many traffic lights and cross streets for the amount of traffic.
Karla Tripp	yes, all the heavy trucks, some don't stop at lights. Very slow traveling, especially going east toward 75.

Please provide us with your contact information.	If US 380 is congested, what alternative routes do you take?
Name	Open-Ended Response
Karen Overton	Lake Lavon
tamara	Bridgefarmer road
Jerry Vrba	Simpson Road and through Lowry Crossing
Kenneth J. Roose	
Marc Dondero	121 or other country road options
Kyle Sutton	982 to 546
Derek Hennigar	I do not have an alternative route as my subdivision immediately borders US 380.
Adam Ruef	Airport Blvd/Industrial Blvd to get to Allen/Plano; Hwy 5/Wilmeth/Hardin to get west of 75
Robin Roose	In McKinney, I take the airiport rd to McDonald to by pass 380
Claud Fleener	Bridgefarmer Road or East through New Hope
Jenny Machalicek	Secret County Roads ;)
Brent Thomas	FM 1461
Maria Mercer	Custer to 121
Daniel Wildes	124 east bound to 161 to lake forest north to 164 east to 943 south to wilmeth east to 75. This is more miles, same amount of time, much less hassle. most of the congestion issues would be solved by building out wilmeth and bloomdale into 4-6 lanes from 75 and west.
Julie Boyd	It is never that bad the big highways like 75, 635, and 35 and so on are worse
Randel Johnson	only from princeton to mckinney
RICHARD LANDEL	Virginia Pkwy (south of 380)
Ryan Lynn	I don't have any alternative routes to my house.
David Barnett	75 to 121
Pamela Dixon-Faught	I depends on where I am going but I do not have to travel 380 for work so I usually just don't go during congested hours.
Kevin Corcoran	Lake Forest ave, Wilmeth Ave, Bloomdale, Prosper trail.
Karla Tripp	Wilmeth road to CR 123 (live north of 380)

Please provide us with your contact information.	What solutions would you suggest in the US 380 Corridor?
Name	Open-Ended Response
Karen Overton	Pink or Green alignment is strongly preferred, using grade separated intersections. (Any alignment other than pink or green comes much too close to my home.)
tamara	overpasses or a freeway
Jerry Vrba	Please consider the blue red and yellow options only. The pink and green options destroy too many existing business and homes that are right off this route.
Kenneth J. Roose	Widen existing US 380
Marc Dondero	Better timing of traffic lights and loop around McKinney
Kyle Sutton	Diversion of traffic around "town" areas
Derek Hennigar	Widen US 380 to six lanes. I would also have turning lanes separate from the traffic that is already moving 60+ MPH.
Adam Ruef	McKinney bypass immediately; Princeton bypass in the next few years; wait and see how Farmersville fairs, no need to improve Farmersville in the forseeable future
Robin Roose	Divided highway or by pass.
Claud Fleener	By pass Princeton and go north of McKinney
Jenny Machalicek	I'm all for the freeway! McKinney has thrived building around the existing US 75, Why would current municipalities think they are any different? In fact, this would be a City Planner's dream; and this is a case that obviously many residents will be unhappy (NIMBY) but those are the same people that will complain about congestion/wrecks/fatalities....build it. They will come to love it.
Brent Thomas	Expanding 380 by going below or above ground
Maria Mercer	Absolutely NO ByPass! Right turn lanes (Between Lake Forest and 75, there are 24 right turns eastbound and 31 right turns west bound, including none at Trade Days.) • Build out E/W arterial roads • Build over and under at intersections, similar to the new overpass at Preston and 380 • Widen 380 where possible • These improvements may result in less congestion on 380 as people divert to the arterial roads and the Outer Loop
Daniel Wildes	turn 380 into a limited access freeway similar to 121 with high count of access lanes. build out wilmeth, custer, lake forest, bloomdale, and one additional road north of bloomdale into 4-6 lanes west of 75 to allow flow into growing population NW of 75/380. I do not want a bypass that destroys neighborhoods and the reason we moved to McKinney from Allen in the first place.
Julie Boyd	Speed limits Traffic light readjustment median
Randel Johnson	expand what is already there
RICHARD LANDEL	Construction of bypass north of existing 380 road
Ryan Lynn	Overpass intersections would be helpful. Any way to eliminate the need for stoplights on a main throughway would reduce the number of accidents.
David Barnett	Extend the Collin County Outer Loop to the DNT
Pamela Dixon-Faught	I would suggest a freeway.
Kevin Corcoran	Expanding the road into a highway as it is dedicated to be similar to I-75.
Karla Tripp	Turn lanes. OUTER loop for non-local traffic, something that connects to DNT and also I35 east

Please provide us with your contact information.	Do you support the building of a freeway regardless of alignment?
Name	Open-Ended Response
Karen Overton	No. A freeway will impact too many landowners and business owners. The grade separated intersections is a much better solution.
tamara	yes
Jerry Vrba	I only support the blue, red and yellow options. I would not support the green and pink options that will put even more traffic through my neighborhood and take away my back road options by making it impossible to cross the highway.
Kenneth J. Roose	No
Marc Dondero	No
Kyle Sutton	Only if it does not come directly through Princeton
Derek Hennigar	Yes, but we should keep the number of displaced residents and businesses to an absolute minimum.
Adam Ruef	No. Three lanes each direction with routes around congested area.
Robin Roose	no
Claud Fleener	Yes
Jenny Machalicek	Abso-freaking-lutely. And, in case you are wondering, I am 52 years old and not afraid of change.
Brent Thomas	No, 380 is a state highway I expect it to be expanded like 121
Maria Mercer	I do not support building a By-Pass that causes people to lose their homes. Specifically, the Blue and Yellow alignments are horrible. Right turn lanes (Between Lake Forest and 75, there are 24 right turns eastbound and 31 right turns west bound, including none at Trade Days.) • Build out E/W arterial roads • Build over and under at intersections, similar to the new overpass at Preston and 380 • Widen 380 where possible • These improvements may result in less congestion on 380 as people divert to the arterial roads and the Outer Loop
Daniel Wildes	No - I support the building of a freeway along the 380 current path, not through or next to my neighborhood.
Julie Boyd	Yes if it would be in the interest of homeowners and the current community that is there
Randel Johnson	no
RICHARD LANDEL	no
Ryan Lynn	Mostly yes, but I would still want to consider which alignment is proposed.
David Barnett	Only at the Collin County Outer Loop going due west to DNT
Pamela Dixon-Faught	I would not prefer the red alignment specifically around the airport as it has a great negative impact on my family.
Kevin Corcoran	No, I believe it should follow the current footprint of 380. Building along Bloomdale with the number of residences, schools and parks that would be affected is not a desirable option to me.
Karla Tripp	no. need to focus on OUTER loop, dumping traffic back into Custer (if one of the bypasses) doesn't help the issues all the way to Denton.

Please provide us with your contact information.	If US 380 is constructed as a freeway, which alignment do you prefer? (select all that apply)

Please provide us with your contact information.	Do you have any concerns with the existing US 380?
Name	Open-Ended Response
David Quiroz	Too many signals, a lot of construction traffic, too much regular traffic with no viable alternative routes. It is the only viable route going east from McKinney.
Jamie Williams	It will need expansion
TEST	
Sandi	Yes. The many deadly wrecks. And the timing of the lights going through Princeton and McKinney. There are times when I catch every one of them red.
Lori Johnson	Insufficient stop lights through McKinney. Not enough right turn lanes, causing cars to turn right with high speed traffic coming from behind.
Harvey Graham	Do improvements along existing route.
Emily Elkins	No
Kurt Tegge	the traffic during the morning commute between 75 and Lake Forest (and vice versa in the evening) is extremely congested and difficult to navigate. it is especially difficult trying to get on south bound 75 from 380 as there is only one right turn lane and that can get backed up passed the CVS on the south side of the 380
Patrick Mashburn	High rate of accidents and speeding
Cary Grossi	No
Troy Stephan	Speed Limits are too fast between hwy 75 and DNT. Should be 50 mph max.
Kasey Soape	
ALEXANDER MILANO	Safety. Speed limit is too high. Traffic light timing is terrible.
Holly Shirley	
Katherine Morgan	Too much traffic, large trucks, too many accidents
Jason Williams	No
Mike Powell	Stop lights are often out of sync, causing stopping at each intersection. Commercial trucks are often in all lanes causing congestion and slow downs. Frequent red light runners at 380 and Lake Forest.
Jamile Ashmore	number of accidents
Chris Clark	Due to the time of my usual commute, I don't experience the traffic too much on 380. However, I am aware that the traffic is a growing problem. My main issues are safety, congestion between Preston and the DNT and at the 75/380 interchange.
Vanessa Blanco	No

Please provide us with your contact information.	If US 380 is congested, what alternative routes do you take?
Name	Open-Ended Response
David Quiroz	I usually take Wilmeth to Hwy 5/Hwy 75 or go down community to White. I also take FM 546 when I need to go to East.
Jamie Williams	Other roads
TEST	
Sandi	2nd street, Bridgefarmer, Airport Road
Lori Johnson	Ridge/Stacy to 121, Custer, Eldorado to DNT, White to 75
Harvey Graham	
Emily Elkins	The congestion does not bother me as we have congestion on all other roads I drive on a daily basis.
Kurt Tegge	Virginia, Wilmeth
Patrick Mashburn	None
Cary Grossi	Prosper trail (Widen that to four lanes and that will help a lot)
Troy Stephan	Its only congested during rush hour in sections. Otherwise its fine outside of those windows. All roads in DFW are congested during those times.
Kasey Soape	
ALEXANDER MILANO	Down Custer, ridge or stonebridge to a different east west road.
Holly Shirley	
Katherine Morgan	
Jason Williams	Hasn’t seemed to be an issue and I work on and live on 380, driving it multiple times a day.
Mike Powell	Virginia Pkwy
Jamile Ashmore	Virginia; 121;
Chris Clark	There are no alternative routes when leaving my neighborhood. If I'm experiencing congestion at the DNT/380 interchange, I go south on Preston and then west on one of the main streets to get to the tollway. There aren't any good alternative routes to the north. If I experience congestion at 75/380 I cut through major streets to the north or south depending on where I am going. If you are going to Princeton or Denton (longer distances on 380) from McKinney, there really are not good alternative routes.
Vanessa Blanco	

Please provide us with your contact information.	What solutions would you suggest in the US 380 Corridor?
Name	Open-Ended Response
David Quiroz	Extend state HWY 121 to the Princeton area. Eliminate the many of the traffic signals along 380 between state hwy 5 and Hardin Blvd. Go the bypass route as upgrading the current 380 to a hwy through the main part of McKinney would destroy too many businesses that provide services to McKinney. Extend and expand Wilmeth so that it can offload some of the traffic from the 380.
Jamie Williams	Put a bypass over the existing 380. Do not veer heavy and fast traffic through or behind residential neighborhoods.
TEST	
Sandi	Fix the timing of the lights so traffic can flow more smooth. Build a safer, wider road.
Lori Johnson	If working with the existing 380, build up rather than expand. Create more feeder roads for back ways to major highways.
Harvey Graham	Do improvements along existing route.
Emily Elkins	Create a bypass that does not affect any existing neighborhoods for 18 wheel trucks that only need to get to HWY 75
Kurt Tegge	Follow what Frisco and Prosper have already started on for their sections of 380, widen and elevate
Patrick Mashburn	A median that cannot be crossed Traffic lights synchronized Protected turns
Cary Grossi	Put additional "fly over's" like the one you have at Preston and 380 and eventually DNT and 380
Troy Stephan	Leave it alone and build the wider loop around Collin county. We have 121 just to the south as a current high speed East West route. Disturbing homes and business to create another 121 in the form of the proposed 380 expansion is crazy and a waste of tax $$. This is further compounded by the close proximity of the two.
Kasey Soape	
ALEXANDER MILANO	Slow down traffic expand OTHER ROADS. not 380. 35 to austin isn't even 6 lanes everywhere. There are too many homes and businesses on 380 to expand it more. Studies have shown adding lanes does not even improve traffic flow. If this is a 10-15yr plan. What about self driving vehicles (not a supporter of this, just an observation) that will supposedly improve traffic flow.
Holly Shirley	
Katherine Morgan	Road improvement to handle high volume traffic
Jason Williams	Please do not change the footprint of 380
Mike Powell	Sync lights. Have lights green longer for traffic on 380 and shorter for traffic crossing 380. Over/under passes at 380 and Custer; 380 and Coit; 380 and 75. Improve traffic controls between Community Ave and US 75 (Entrances and exits from the shopping centers in this area, on both sides of 380, are very difficult).
Jamile Ashmore	Improve east / west roads north and south of 308; convert current 380 to limited access business Hwy; build outer loop north and designate as HWY 380 that trucks must use.
Chris Clark	My frustration is that it seems that we've waited too long to come up with a solution. Someone is going to be tremendously impacted by any of the routes I see. As I stated earlier in my comments, there are not ANY true alternate routes to the north due to the lack of development. I would like to see more options to the north to alleviate some of the traffic in addition to some bypasses or possibly a limited access freeway.
Vanessa Blanco	

Please provide us with your contact information.	Do you support the building of a freeway regardless of alignment?
Name	Open-Ended Response
David Quiroz	Yes.
Jamie Williams	Only a freeway built on the existing 380.
TEST	
Sandi	Yes.
Lori Johnson	I don't have enough info at this time.
Harvey Graham	No
Emily Elkins	No
Kurt Tegge	No
Patrick Mashburn	Yes it would be safer
Cary Grossi	NO!
Troy Stephan	Absolutely Not. We have a freeway. Its HWY 121. You need to be thinking of broader growth occurring to the north and focus on the Collin Cty Loop. You are chasing your tail with this proposed 380 expansion.
Kasey Soape	
ALEXANDER MILANO	No. Traffic needs to be slowed. The worst traffic on 380 that i ever see is at preston, the tollroad and just east and west of 75 (college to the east and hardin to the west) Other areas are fine between mckinney and prosper. People need to slow down and traffic lights need improved timing and sensors.
Holly Shirley	
Katherine Morgan	No, prefer alignment to the south where Tremont intersects 380
Jason Williams	Not at all
Mike Powell	No. I support improving the existing footprint of 380 without a Bypass. Also, I feel completing the Outer Loop and connecting Hwy 121 North of 380 with Hwy 121 South of 380, via Hwy 5, would help reduce traffic flow on 380.
Jamile Ashmore	No
Chris Clark	Not necessarily. I see the need, but my neighborhood (Tucker Hill) will be ruined by some (maybe all) of the current proposed alignments. Many people in the neighborhood just purchased their homes to find about this only a few months after that purchase. Some of the alignments will ruin the amenity/community center and pool as well as recently developed commercial area.
Vanessa Blanco	No

Please provide us with your contact information.	If US 380 is constructed as a freeway, which alignment do you prefer? (select all that apply)

Please provide us with your contact information.	Do you have any concerns with the existing US 380?
Name	Open-Ended Response
Darla I Hopson	Yes, it is too congested with big trucks making runs out of and to Denton. Passenger cars plus big trucks going to fast and both driving aggressive. I try to avoid it using any available alternative.
Barbara Sano	Yes.
Michael Biggs	It is dangerous in Princeton because the East and West bound traffic is not divided.
rob	no, its not bad compared to other cities we have lived in
Steven Hitt	Any concerns would be eliminated if east and west roads like Bloomdale, Laud Howell, Wilmeth were completed from Preston or Custer to the east past US75 and roads like Custer, Stonebridge, Ridge and Lake Forest were extended north to 1461 (Laud Howell). These 4 lane roads would relieve traffic on 380 tremendously and are already in the city's 20/40 plan. Much like is being done from Preston to Custer, 380 could also widened and raised at points and prevent unnecessary destruction of residential property values. It appears to me that not enough out of the box thinking is being used as the TXDOT options simply appear to mimic the city's unimaginative thinking. There are much better, lower cost, less destructive options out there and already in the 20/40 plan.
Vitaliy Tsymbalyuk	No
Ashley Bechtold	
Tina Marr	Yes, too much traffic (due to no other east-west arterial roads north of 380) and too high speed.
Matt Mullikin	Nope
Nathan Blair	Not enough right turn lanes. Backups to turn left onto 380 at 75 and at Lake Forest.
Whitney	Reduce speed limit. Once construction is completed towards the West in Prosper/ Frisco I think 380 will be much better!
Kim Carmichael	Yes safety concerns, weekly accidents occur in front of the Tucker Hill neighborhood.
Stefanie Williams	Traffic accidents near the sticker Hill neighborhood
Greg Horne	Yes. Too congested and will only get worse.
Robert Paul Carpenter	Speeds, number of new businesses built between Ridge and 75. Inattentive drivers, lack of turn lanes, inconsistent rules (U Turns, Left Turn Yield vs. Green only). Lack of police presence, congestion near 75. Excessive construction traffic.
Matthew Akins	Yes - too much traffic at 75 / 380
Randall Wilkinson	Traffic and accidents
Marlee Needham	It is congested but the overpass that was made at Preston is going to be great
Heidi Lario	No.

Please provide us with your contact information.	If US 380 is congested, what alternative routes do you take?
Name	Open-Ended Response
Darla I Hopson	North and South road, Custer and Lake Forest. I then get on Eldorado or Virginia for east bound.
Barbara Sano	Usually will go on Eldorado to the south.
Michael Biggs	Monte Carlo, FM 546
rob	
Steven Hitt	CR123, FM1461, Bloomdale from Lake Forest to Wilmeth to 75.
Vitaliy Tsymbalyuk	380 is hardly ever congested if I were to take another route I would take Custer I commute to work daily and have had no problems on 380
Ashley Bechtold	
Tina Marr	CR123/Bloomdale/Prosper Trail heading west and CR123 backroads to 75
Matt Mullikin	None
Nathan Blair	White; Wilmeth/county roads
Whitney	Keep as is.
Kim Carmichael	Custer, Stonebridge, 75, Ridge
Stefanie Williams	Has never been an issue for me and I travel it twice daily on my commute to and from downtown Dallas.
Greg Horne	I typically just stay on 380.
Robert Paul Carpenter	Virginia and other east-west roads. White if near Hardin and 75.
Matthew Akins	Wilmeth
Randall Wilkinson	There really are none from where I live.
Marlee Needham	I don’t
Heidi Lario	Virginia

Please provide us with your contact information.	What solutions would you suggest in the US 380 Corridor?
Name	Open-Ended Response
Darla I Hopson	We do need a solution. But not at the cost of raking people's homes and land away. Stop building houses where there are no roads to support the population. Greed caused this. Make 380 a double with the upper being a toll road or carry it far enough NORTH that people who just invested ALL they had into a new home or land that has been in their families for generations to build a road. I would have purchased in another town had I known this was coming. Speeds on 380 should be lowered and enforced with STEEP fines as a deterrent. I would gladly pay a toll fee to keep our home and beautiful surroundings. It's why we chose McKinney as our home.
Barbara Sano	Do a bypass and not take a freeway through McKinney, such as what was done in Denton. When we go that direction to see my daughter, we always use the bypass.
Michael Biggs	We absolutely need an East - West freeway. We also need a North South freeway in Princeton with another bridge over Lavon.
rob	the upper north loop that was in the works from years ago or widening 380
Steven Hitt	See my comments above. The city council of McKinney and its planning department have sat on their butts for too many years while driving growth and have not been constructing/extending many roads that would greatly relieve 380 traffic. The residential property should not be punished for their failures.
Vitaliy Tsymbalyuk	none
Ashley Bechtold	
Tina Marr	Make improvements as have been completed on Preston with more turn lanes, go over some intersections, etc...
Matt Mullikin	Blue option
Nathan Blair	Widening and improvement of existing 380
Whitney	Keep as is and increase addition of turn lanes.
Kim Carmichael	Widening Custer going north, as well as continuing Stonebridge north
Stefanie Williams	None.
Greg Horne	The yellow route looks good.
Robert Paul Carpenter	Take bypass road north of existing neighborhoods. Do not impact existing medium density areas as there are available options north with little impact. Force heavy multi-axle trucks and semis to use bypass.
Matthew Akins	Interchange between 75 & 380
Randall Wilkinson	Double Deck
Marlee Needham	Not to make bloomdale a six lane highway - my house backs up to that. Do what you did at Preston and 380 at the rest of the stops
Heidi Lario	Do NOT destroy or mess up Tucker Hill.

Please provide us with your contact information.	Do you support the building of a freeway regardless of alignment?
Name	Open-Ended Response
Darla I Hopson	NO. The red and blue alignments will never be acceptable.
Barbara Sano	Not through the heart of McKinney businesses.
Michael Biggs	Yes. We need this immediately. In three or four year 380 will be a parking lot.
rob	no
Steven Hitt	Absolutely Not!!!! Alignment is everything and other viable options exist. 90% of 380 traffic is not pass through traffic so this bypass will not solve the issue. Only real solution is widening and raising 380 with two lane service roads when needed.
Vitaliy Tsymbalyuk	No
Ashley Bechtold	
Tina Marr	No it is not needed as it is too close to Outer Loop and won't help the 380 issues as it will not span from a highway to a highway and will just move the problem from one area to another and it will ruin McKinney and make it just a throughfare and not a place to live and enjoy.
Matt Mullikin	Blue option
Nathan Blair	Yes
Whitney	No.
Kim Carmichael	No
Stefanie Williams	No.
Greg Horne	No. The red and blue route place the highway on my land. I just built a house and have been here 2 months. I don't want my house 50 feet away from highway.
Robert Paul Carpenter	No.
Matthew Akins	Yes
Randall Wilkinson	No
Marlee Needham	Of the freeway on 380 YES not the alternate route on bloomdale
Heidi Lario	NO!

Please provide us with your contact information.	If US 380 is constructed as a freeway, which alignment do you prefer? (select all that apply)

STUDY TEAM TEST						

Please provide us with your contact information.	Do you have any concerns with the existing US 380?
Name	Open-Ended Response
Darrell Hale	Needs to be a freeway/LARS.
Shalana Evert	The speed limit and the amount of wrecks that happen in a weekly basis. I think the speed limit should be reduced and enforced.
James C6	Why are there no plans to widen 380 west of the Denton/Collin county border? There has been just as much if not more growth in this area and it is the only stretch from Decatur to McKinney that hasn't been widened.
Leslie Allcorn	It is gets busier everyday and accidents seem to happen more frequently.
Saenz	No
LaBron Sharp	Over crowded
Janie Oyakawa	Traffic and dangerous intersections
Janie Oyakwa	Yes high traffic and dangerous intersections
Bill Cheek	No
Steve Kerby	Yes - too much traffic. Businesses built too close to road...too many direct entrances into businesses from the hwy.
Mark Lunsford	Yes. Very congested already. I agree with the conclusion that the expressway is the best long term option
Don Mullins	It is too busy.
Kathy Mitchell	The concrete medians are way less safe than the open center lanes were. We have people making crazy u turns and darting across the highway now. Plus? Nowhere to break down!
William Byrnes	No
Samuel wilson	380 and 75 intersection is horrible. Need more bridges and less lights on 380
Dr. Shallenberger	Far too much high speed traffic that interferes with residential access from growing residential and business development between Custer Road and US 75.
Gary Hurt	Too much traffic on 380. I have lived in Princeton all my life and the population has out grown the amount of traffic that 380 can handle.
Ellen Landel	Excessive speed, heavy truck traffic
Sarah Kile	No
Chris Russmann	Many safety problems with this road! And massive congestion at times for a road without any alternative without going 15 miles out of the way
Ashley Ballard	There are not enough lanes. Daily congestion at airport road and 380. We need a quicker less contested way to 75 that is NOT A TOLL ROAD!!!
John Grant	
Timothy & Julie Ready	Red light needed at US380 and Cypress Bend
Jimmy Le	Concerned about expansion of 380 between 75 and Custer. This would be difficult for many business and residential areas.
Deborah King	Yes. There are accidents outside of our neighborhood every week. I live in Tucker Hill. It is dangerous.
STUDY TEAM TEST	

Please provide us with your contact information.	If US 380 is congested, what alternative routes do you take?
Name	Open-Ended Response
Darrell Hale	Arterials and side streets.
Shalana Evert	I live right off of 380 so I would have to take Custer or Ridge to Eldorado pkwy. I also take Custer to 121 when needed.
James C6	There are absolutely none. Fishtrap used to be an alternative getting to North Dallas Expressway but housing developments have restricted its use as a thoroughfare.
Leslie Allcorn	I have no other alternatives. 380 is the ONLY access to my neighborhood.
Saenz	Lake Forest, Harden
LaBron Sharp	County roads
Janie Oyakawa	Virginia
Janie Oyakwa	Va Parkway
Bill Cheek	
Steve Kerby	Virginia and White
Mark Lunsford	
Don Mullins	We have not alternate route. Our development only enters / exits at US380.
Kathy Mitchell	I live ON 380 so I have no alternative
William Byrnes	
Samuel wilson	Virginia
Dr. Shallenberger	There are no other feasible routes at this time. The only exit from our development (Tucker Hill) dumps directly onto 380. The traffic control at our development's entrance clearly favors east/west traffic at times of the day when commuters/travelers vie for travel space on 380.
Gary Hurt	none
Ellen Landel	Nearest north/south route
Sarah Kile	Virginia Parkway or CR 123
Chris Russmann	There are no good ones only for small sections of ot
Ashley Ballard	I have no alternate route
John Grant	
Timothy & Julie Ready	Mostly wait it out.
Jimmy Le	Virginia or eldorado
Deborah King	Go to Virginia or southern street
STUDY TEAM TEST	

Please provide us with your contact information.	What solutions would you suggest in the US 380 Corridor?
Name	Open-Ended Response
Darrell Hale	Need to turn 380 into a full LARS along the pink or green routes and build up or down (superstreet concept) at the 75/380 area both east and west of 75 as necessary.
Shalana Evert	Because I live off of 380, I don't want it to become a major freewsy but to become more like Preston Road. I would like to see a freeway created further north of 380 and away from any homes and businesses.
James C6	Widen 380 from Crossroads east to Collin county to 6 lines like the rest of 380. This should be done way before any improvements to 380 in Collin county are considered. FM 423, El Dorado, and many other side roads are 6 lanes. Its criminal funding for 380 is going to Collin county while east Denton county is ignored.
Leslie Allcorn	Traffic light sychronization , speed zone control and turn lanes.
Saenz	If any, double decker ramp on parts of 380.
LaBron Sharp	Interstate option
Janie Oyakawa	Unsure
Janie Oyakwa	Unsure
Bill Cheek	Make bypass starting at tollway through farmerville.
Steve Kerby	Build the outer loop. Improve 380. Build out all N/S/E/W streets to their full 6 lane CITY street plan. (Lake Forest, Stonebridge, Custer, Hardin, Wilmeth, Bloomdale.
Mark Lunsford	
Don Mullins	Any of the proposed northern bypasses for the Hwy 5 to Custer Road section.
Kathy Mitchell	Bridges to bypass busy intersections like the bypass for the 289 and SH 122 intersection.
William Byrnes	Stop development east of Coit rd
Samuel wilson	More bridges on 380. Make 380 better and don't waste money on bypass.
Dr. Shallenberger	If land is available, build east/west overpasses with frontage roads providing reasonable entry/exit to/from businesses and residential areas situated along 380.
Gary Hurt	Freeway
Ellen Landel	Reduce/enforce speed limits, coordinate lights better, limit truck traffic
Sarah Kile	FM 543
Chris Russmann	A bypass from 1569 and 69 in Greenville just south of blue ridge to Weston road through prosper and tie in in 35 over ray Roberts damn
Ashley Ballard	How about a double decker road like Austin has? No toll road!!!
John Grant	
Timothy & Julie Ready	Lower speeds in community areas. More police presence. Yes a freeway is needed but should almost be a outer belt, not parallel with US380. Not green or pink.
Jimmy Le	The yellow proposal seems to cause the least negative impact both east and west of 75
Deborah King	Have bypass west of Custer. Impacts less homeowners.
STUDY TEAM TEST	

Please provide us with your contact information.	Do you support the building of a freeway regardless of alignment?
Name	Open-Ended Response
Darrell Hale	Yes.
Shalana Evert	No
James C6	Not if all municipalities aren't treated equally.
Leslie Allcorn	No
Saenz	I do not support building out 123 as a bipass. I don't see that helping as much as adding ramps to the existing 380. We've lived here for 10 years & managed the traffic just fine. People will find a way or start leaving earlier to accommodate!
LaBron Sharp	Yes
Janie Oyakawa	Yes
Janie Oyakwa	Yes
Bill Cheek	No
Steve Kerby	NO. especially dislike any thought of a 380 freeway "bypass" that cuts close to existing homes/subdivisions.
Mark Lunsford	Yes, although I believe that the options using the current straight path are best
Don Mullins	No. I could not support widening the existing US380 from Hwy 5 to Custer Road.
Kathy Mitchell	No
William Byrnes	No
Samuel wilson	380 yes. Bypass no.
Dr. Shallenberger	???
Gary Hurt	Yes
Ellen Landel	NO
Sarah Kile	No
Chris Russmann	Yes
Ashley Ballard	As long. As it's not a toll road
John Grant	
Timothy & Julie Ready	No
Jimmy Le	I need more information to answer this
Deborah King	Would prefer no freeway
STUDY TEAM TEST	

Please provide us with your contact information.	If US 380 is constructed as a freeway, which alignment do you prefer? (select all that apply)

Please provide us with your contact information.	Do you have any concerns with the existing US 380?
Name	Open-Ended Response
Wyndi Marston	
Adam Lamprecht	Between the Dallas North Tollway and 75 has become increasingly more heavily traveled and the number of near collisions has become more frequent. The commuter traffic that mixes with the local/shopper traffic is dangerous. Given the local college, shopping, high-school and new residential development this would be a prime area to develop separated bike lanes that allow for controlled traffic of bikes without having to share a lane (or a painted separated shoulder lane) with the fast moving automobile traffic.
Joseph Creme	Yes, the speed limit it too high and the accident rate is overwhelming.
DeLou Douthitt	380 is busy. The large trucks are a big problem using all lanes. They should only be in the right lane and it should be enforced.
Brenda Schlafke	Too much congestion
Kenneth Cole	Too much traffic is funneled into 380/75 intersection from north and west. It will only get worse. A bypass to the north is needed.
J. Allen	It cannot handle freeway-sized traffic as Collin County grows. Too slow, too small. Plus, Spur 399 needs to be extended.
Shiva	
	No
Walter Chen	I do not. The only concern is left hand turn from 380 into Tucker Hill. The number of drivers who do not know the left hand turn light is dynamic and changes in duration based on time of day and day of week and traffic conditions. Maybe include a timer to show how much longer until next dynamic light change will minimize people taking illegal turns.
John Cisar	That it not be widen or expanded any more
Richard Jackson	Not at present.
Cathy Cheek	Just that the lights should be aligned
Jerry Brown	No shoulders, traffic too fast or too slow, no police giving tickets to 18 wheelers running red lights
Christy Meaney	
Ann Hoenshell	Yes.
Nancy preston	
Debra	too much traffic speed limit is too high
Eric Farrar	Speed limit is currently too fast for the size of the road. Unsafe
Jessica Contreras	Congestion beginning at Hardin and going east

Please provide us with your contact information.	If US 380 is congested, what alternative routes do you take?
Name	Open-Ended Response
Wyndi Marston	
Adam Lamprecht	Eldorado Prkwy is my only other known option unless I wanted to take 121 farther south of my target destination and then the Dallas North Tollway back north....very expensive option.
Joseph Creme	Virginia.
DeLou Douthitt	I live in Tucker Hill and 380 is our only way out of the neighborhood.
Brenda Schlafke	
Kenneth Cole	Mostly White Avenue or Wilmeth Road.
J. Allen	121/Sam Rayburn, Eldorado
Shiva	
	Prosper trail or first street
Walter Chen	I take Hardin or Lake Forest or Custer to go south and take Virginia or El Dorado or 121 to get to 75.
John Cisar	
Richard Jackson	Depends. When congested by a significant wreck, I use country roads/routes to the north (when heading that direction) and southern alternatives (Custer, Ridge, Lake Forest, Hardin, etc.) when heading that direction. Rerouting, however, is RARELY necessary.
Cathy Cheek	
Jerry Brown	
Christy Meaney	
Ann Hoenshell	I don't have an alternate route. I live on 380.
Nancy preston	
Debra	Ridge, Lake Forest, Custer
Eric Farrar	No alternatives since my neighborhood is directly off of 380
Jessica Contreras	Virginia

Please provide us with your contact information.	What solutions would you suggest in the US 380 Corridor?
Name	Open-Ended Response
Wyndi Marston	
Adam Lamprecht	I see re-alignment freeway as the long term solution and possibly some select grade separated intersections to improve safety in areas. Starting to divert 380 north at Custer is I think a minimum point. Diverting north around Prosper (or improving the east-west roadway north of Prosper would be even better given the development underway and coming soon in this area).
Joseph Creme	Reduce the speed limit. Limit trucks to the right lane only.
DeLou Douthitt	I don't support turning 380 into a freeway.
Brenda Schlafke	
Kenneth Cole	A bypass to the north must be added. A tie-in from 121 to airport road, or a new road, would help to the south.
J. Allen	Blue alignment seems least disruptive and most feasible to build.
Shiva	
Walter Chen	Use the money and build the Collin County loop instead of widening 380. Connect Custer, Lake Forest, and Hardin to the loop. Force all 18-wheelers coming from the east to take North Texas Tollway and connect to the loop. The solution already exists.
John Cisar	Leave as is. Build alternate routes north of 380
Richard Jackson	Appropriate traffic light timing. Limited lane usage by large commercial trucks. A four lane widening is possible; a limited access highway is ludicrous.
Cathy Cheek	Align the lights and restrict truck access and commercial development. Bullied alternative route north of mckinney
Jerry Brown	Widening 380
Christy Meaney	
Ann Hoenshell	A bypass to the North of 380
Nancy preston	
Debra	slower speed limit flashing lights between Ridge and Treemont to warn you of upcoming light more enforcement of traffic laws
Eric Farrar	Expanding more east-west routes further north.
Jessica Contreras	Slower speed

Please provide us with your contact information.	Do you support the building of a freeway regardless of alignment?
Name	Open-Ended Response
Wyndi Marston	
Adam Lamprecht	Yes. Especially if it provides freeway traffic north of McKinney to keep the heavy commercial development and residential areas to the slower stop and go pace traffic and the long-distance faster moving traffic separated.
Joseph Creme	NO.
DeLou Douthitt	A bypass around the city for those people traveling through.
Brenda Schlafke	It is inevitable, but I do not support thoughts of a toll road. I do believe that with the congestion, there needs to be a smooth alignment. So many outsiders moving in the area and by not having a smooth alignment, this will prove to have more wrecks and stop n go congestion with the incoming drivers.
Kenneth Cole	Not at 75/380 intersection. That would only add to the funnel effect.
J. Allen	Yes
Shiva	
	Not sure what alignment means
Walter Chen	No - I do not support the building of a freeway.
John Cisar	No
Richard Jackson	NO, not if it is 380. East/west traffic need to be relieved the same way north/south traffic is successfully handled - with more east/west corridors. Think of how many options there are to quickly move north/south in McKinney/Prosper/Frisco area - Hwy 5, Hwy 75, Hardin, Lake Forrest, Ridge, Custer, Coit, Hillcrest, Preston. For east/west we do need a highway - a NEW highway - further north, that can go all the way through McKinney, Prosper and Frisco, to the northern loop in Denton. It would be minimum impact on current residents/businesses and is necessary for future growth further north.
Cathy Cheek	No.
Jerry Brown	No
Christy Meaney	
Ann Hoenshell	I support a bypass north of 380.
Nancy preston	
Debra	only if it goes north of the existing 380 It would be nice if it ran from 75 to Preston or North Dallas Tollway
Eric Farrar	No.
Jessica Contreras	No

Please provide us with your contact information.	If US 380 is constructed as a freeway, which alignment do you prefer? (select all that apply)

Please provide us with your contact information.	Do you have any concerns with the existing US 380?
Name	Open-Ended Response
Joanne Thompson	The lights are not synchronized which causes traffic jams and back ups all along this road. I also feel that large trucks should not be allowed on this road and should be moved further north where it is less populated and less developed.
Joe webb	Traffics and wrecks
Gabino Hernandez	Long stops at traffic signals
Stefani Lear	The number of trucks on 380. Get rid of the trucks and a lot of problems go away.
Rickie and Laura Glenn	The speed limit is too high. Not enough signal lights,
Brian Gallimore	yes, it is too small, too slow, too dangerous
Marcus	No
Corrie brock	Safety of drivers
Lynn Windle	Yes. Excessive speed. Poorly policed for speeders, red light runners and drunk drivers.
Jane ayers	No
Amanda Epperhart	In certain areas, yes. The area around 75, Preston and DNT are heavily congested. All other areas are fine.
Kenneth Jacks	
Shelli	Very dangerous Car was totaled from a red light runner
Randy Carr	
K. A. Keats	
	Congestion, dangerous intersections
Jerry Roush	Accidents at Tucker Hill entrance.
Lindsey Flesher	My concerns are only on the ends of 380 near 380/75 and 380/Tollway. It's way too congested with the dump trucks and semis and work trucks. Traffic on these ends gets pretty deep.
Rebekah Cooksey	Congestion and danger!! People are terrible at stopping at the lights - esp at Preston / 380. I hope the overpass there helps!
Kaete Demro	
David Carmichael	No
Stuart Mayo	Too many cars use Bridgefarmer Rd. as a cut thru. There needs to be alternatives.

Please provide us with your contact information.	If US 380 is congested, what alternative routes do you take?
Name	Open-Ended Response
Joanne Thompson	none as I live right off of 380 and both entrances to my subdivision are off of 380.
Joe webb	Prosper trail
Gabino Hernandez	
Stefani Lear	Custer
Rickie and Laura Glenn	None other available
Brian Gallimore	bridgefarmer road to 546
Marcus	None, I continue down 380.
Corrie brock	I go down lake forest or just continue on 380.
Lynn Windle	None. I stick it out.
Jane ayers	N/a
Amanda Epperhart	I take back roads to the South such as White and Virginia Parkway.
Kenneth Jacks	Custer
Shelli	Rock hill
Randy Carr	
K. A. Keats	
	121 to Tollway to I35
Jerry Roush	
Lindsey Flesher	Custer to Virginia
Rebekah Cooksey	Virginia Parkway
Kaete Demro	
David Carmichael	South on Custer to 121
Stuart Mayo	I live in Lowery Crossing I use Hwy 546

Please provide us with your contact information.	What solutions would you suggest in the US 380 Corridor?
Name	Open-Ended Response
Joanne Thompson	The 380 corridor should go through Prosper and/or Celina on either N. Preston Rd. or the North Dallas Tollway as these roads are already built for heavy traffic. This would completely bypass McKinney and have the least impact to businesses and homes that are already here.It doesn't make any sense to tear down businesses that are currently being built right now on 380 to tear them down in 10 years, It also doesn't make sense to ruin home values of existing properties when Prosper/Celina don't have anything but open land that could be used for this bypass. Preston or the North Dallas Tollway could easily meet up with the outer loop and alleviate the heavy traffic that already exists on 380.
Joe webb	Something parallel to 380
Gabino Hernandez	Change road so there are traffic signal bypasses
Stefani Lear	Change 380 from a state highway to University Drive and make the outer loop 380
Rickie and Laura Glenn	By pass should begin West of Custer and extended to tollway
Brian Gallimore	turn 380 into a freeway
Marcus	IT DOES NOT NEED TO HAPPEN
Corrie brock	Widening 380 and not creating a bypass in my backyard. The people complaining about the traffic would not benefit from this bypass. It disrupts homes and lives and does not address the issues with 380. Widen it if possible so that people can still access what is needed off of those roads.
Lynn Windle	A FAR NORTH bypass which hasn't even been considered. I live in Heatherwood and I want that bypass as far away as possible. As it is 380 is only 2 miles away.
Jane ayers	Keep as is
Amanda Epperhart	Additional overpasses or duplicate what was done with George Bush Tollway between 75 and DNT.
Kenneth Jacks	Focus on the existing feeder roads for possible expansion as alternate routes.
Shelli	
Randy Carr	Not widening 380, and taking the proposed route further West of Tucker Hill/Tremont Blvd.
K. A. Keats	
	Raise the road over busy intersections like what was done at Preston/121
Jerry Roush	Bypass to the North
Lindsey Flesher	Have lights synced so travel would not get so congested.
Rebekah Cooksey	The option of elevated bypass of busy intersections (like Preston overpass will be). I also think a freeway should be strongly considered.
Kaete Demro	
David Carmichael	If it must be expended then widen 380. Don't do bypass North.
Stuart Mayo	widen to 6 lannes

Please provide us with your contact information.	Do you support the building of a freeway regardless of alignment?
Name	Open-Ended Response
Joanne Thompson	I would support the building of a freeway if it completely bypasses McKinney. It can easily be done West and North of McKinney as there is plenty of wide open land there and this area will have the least impact to current property and business owners.
Joe webb	No
Gabino Hernandez	Yes
Stefani Lear	No
Rickie and Laura Glenn	No
Brian Gallimore	yes
Marcus	NO
Corrie brock	Absolutely not. The freeway would be directly behind my home and in my neighbors front yards. I understand growth, but utilize existing outlets and those like the outer loop to alleviate traffic. Cutting a route through neighborhoods and planned schools is not the best answer. We didn't build here to be disrupted by a freeway. There is no benefit to the citizens of McKinney to build this freeway here. Use the outer loop or widen 380. Leave it out of my backyard for the sake of my little children.
Lynn Windle	No. If it's going through my backyard, I don't support it.
Jane ayers	No
Amanda Epperhart	No.
Kenneth Jacks	No
Shelli	Unsure
Randy Carr	No!
K. A. Keats	
	Yes
Jerry Roush	Yes
Lindsey Flesher	No
Rebekah Cooksey	Yes
Kaete Demro	
David Carmichael	No
Stuart Mayo	Yes, just don't put it threw Lowery Crossing I did not buy a house in the country to live under a freeway

Please provide us with your contact information.	If US 380 is constructed as a freeway, which alignment do you prefer? (select all that apply)

Please provide us with your contact information.	Do you have any concerns with the existing US 380?
Name	Open-Ended Response
Kirra Phillips	The only thing that concerns me at times is the timing of lights and the high speed.
Brandon Cate	Yes, cars are speeding causing significant number of accidents in and around Tucker Hill neighborhood enters NEC.
William & Suzanne Gates	too busy and too high speed limits too many 18 wheelers
	I know people killed and injured on the road. People drive to fast and run red light all the time
Melissa Wojnicki	NO
Stephen Remington	They should limit the heavy vehicle/18 wheeler traffic on 380. Trucks should be prevented from using the left lane.
Mark Bunker	No
Matt Nichols	low capacity compared to the amount of traffic it carries during rush hour.
Donald Anderson	Speed limits are too high
Aaron Swain	no
Lou Ann Jackson	noise from traffic
	Too much traffic too close to Tucker Hill
Susie Miles	No
Kasey Soape	Too many semis and construction trucks using all lanes
Tiffany Appleby	
Susie Miles	No
David Burgess	Yes, it's gotten very congested, especially where it intersects US 75.
Terri Silver	Just time the lights better to control traffic
Ben Silver	It is fine and needs to have the lights timed better
Bobby Lajoie	no
David Dispenza	Auto and truckTraffic at US 380 and 75 (and nearby intersections) is frequently over capacity
Susan Rowland	High speeds. Trucks ignoring traffic lights. Speed limits.
Carhy Andersen	Speed limit too high.
Lauren	
George Hu	
Ryan Contreras	Yes, it is way to busy, congested and frequently has accidents.
Megan Motley	Too crowded, not enough lanes, too many lights
Bri Westbury	

Please provide us with your contact information.	If US 380 is congested, what alternative routes do you take?
Name	Open-Ended Response
Kirra Phillips	I must use 380 because my neighborhood entrance is located on 380.
Brandon Cate	Go further north to have it enter into Preston road and or Tollway future extension
William & Suzanne Gates	have to start out on 380
	Back roads, Rockhill or Fish Trap, CR 123/Prosper Trail, depending on where I'm going,
Melissa Wojnicki	NOTHING - MY HOME IS RIGHT OFF OF 380
Stephen Remington	121/Sam Rayburn, Custer, Ridge, 75
Mark Bunker	
Matt Nichols	CR 164, CR 943 and Wilmeth rd.
Donald Anderson	N/A
Aaron Swain	none
Lou Ann Jackson	none. I live directly off 380
	No other chouce
Susie Miles	McDonald Wilmeth
Kasey Soape	Custer to 121
Tiffany Appleby	
Susie Miles	McDonald/Wilmeth
David Burgess	If going East, I go via County Road 943.
Terri Silver	We live right off bloomdale so we take it to Custer
Ben Silver	bloomdale road to custer
Bobby Lajoie	none. Traffic isn't that bad
David Dispenza	US 75 to Wilmeth to St Hwy 5
Susan Rowland	Virginia when possible.
Carhy Andersen	
Lauren	
George Hu	
Ryan Contreras	Virginia and El Dorado
Megan Motley	412 to milrany ln
Bri Westbury	

Please provide us with your contact information.	What solutions would you suggest in the US 380 Corridor?
Name	Open-Ended Response
Kirra Phillips	It seems like the blue zone option makes most sense from a feasibility standpoint.
Brandon Cate	North loop should cut between Prosper & Celina. You are not resolving anything by having it dump back on 380 at Tucker Hill or even Custer. Think long term.
William & Suzanne Gates	how to bypass big trucks
	Better watch on speeding cars, red light runners
Melissa Wojnicki	PLEASE PLEASE PLEASE DO NOT destroy Tucker Hill. We just purchased this home and it is our forever home, if you do the expansion here it will ruin this neighborhood.
Stephen Remington	Make a county outer loop that goes around the county and does not impact any local neighborhood or business. They should go north of McKinney and join 380 at Preston or Custer, but not further East.
Mark Bunker	Bypass to the North.
Matt Nichols	Widening and double deck some sectons.
Donald Anderson	
Aaron Swain	none
Lou Ann Jackson	retaining walls to protect home owners from noise level of traffic.
	Go around
Susie Miles	Corridor?
Kasey Soape	No heavy trucks
Tiffany Appleby	
Susie Miles	Corridor?
David Burgess	I would like to see 380 double decked, with the upper deck being for express/through traffic. It could start around Custer, go OVER 75, and then go back to surface highway past 5 (McDonald).
Terri Silver	I honestly don't understand the logic of building a bypass to alleviate the "thru" traffic from 380, but then dumping it all back out long before the overpass that was just built at Preston. Common sense tells you that it will only back up again unless it connects to another highway (I.e. what the outer loop is supposed to do)
Ben Silver	I would recommend we explore using the outer loop and not have it impact so many neighborhoods in North Mckinney
Bobby Lajoie	keep what is existing
David Dispenza	Freeway
Susan Rowland	Limit zoning for large retailers.
Carhy Andersen	Something north. Connect 75 to DNT
Lauren	
George Hu	
Ryan Contreras	Build out Wilmeth to take some of the traffic off of 380. And/or build a by-pass to get through traffic off of 380 residential and business.
Megan Motley	The yellow pathway gives quicker access and keeps lighter traffic on New Hope road and 380
Bri Westbury	

Please provide us with your contact information.	Do you support the building of a freeway regardless of alignment?
Name	Open-Ended Response
Kirra Phillips	No. I am extremely concerned about what the proposed red zone would do to the safety, property value and overall flow of my neighborhood, Tucker Hill. The proposed red zone change would in effect have the road at my front door. There seem to be other viable options that would alleviate congestion and not encroach on an entire master planned community.
Brandon Cate	Where? No freeway on 380. Build a freeway now on the Northern loop described above.
William & Suzanne Gates	no
	Undecided
Melissa Wojnicki	NO!
Stephen Remington	No, I am in favor of a bypass or loop , but there is insufficient room for the easment to support a freeway.
Mark Bunker	No. There are too many businesses along 380. Ihad a freeway is desired, there needs to be a Bypass to the North.
Matt Nichols	No
Donald Anderson	No
Aaron Swain	NO
Lou Ann Jackson	no
Susie Miles	No
Kasey Soape	No
Tiffany Appleby	
Susie Miles	No
David Burgess	Not regardless. Sorry, but it needs to make sense and affect residential areas minimally.
Terri Silver	No no no no no
Ben Silver	No, we should expore widening the existing 380 and time the lights better to help traffic flow through the 75 corridor
Bobby Lajoie	no
David Dispenza	yes
Susan Rowland	No. Alignment is crucial.
Carhy Andersen	Only if it connects directly to NDT
Lauren	
George Hu	
Ryan Contreras	I support a by-pass not turning 380 into a freeway.
Megan Motley	Yes
Bri Westbury	

Please provide us with your contact information.	If US 380 is constructed as a freeway, which alignment do you prefer? (select all that apply)

Please provide us with your contact information.	Do you have any concerns with the existing US 380?
Name	Open-Ended Response
Stacey Vansant	Property values
Kelli Orpen	No
Bill Bennett	The current 380 has way too much traffic. I support the ByPass idea 100%. Even if the current 380 was widened, that is only one road. By adding the bypass, now two routes. Big accident, you have an option.
Jill Kunde	Truck Traffic and speed
Rebecca Easterwood	None other than traffic gets congested at times
Alana M. Cohen	I currently live a few blocks south of 380. The road is very crowded/dangerous and I avoid taking it. I am more concerned with the building of a freeway which could lead to the possibility of losing my home.
P Standish	NO
Pamela Nishimoto	Safety. Known multiple people killed and/or gravely injured on 380 in the 14 years we've lived here. Inadequate design for traffic flow past, present and definitely future. I avoid 380 and warn others to do likewise. Large trucks barreling thru at unsafe speeds, tail-gating drivers, and seen MANY drivers blow thru red lights and stops
Jamie Boyd-Johnson	No.
Nancy Swift	Some proposals will degrade property values of home owners in Tucker Hill needlessly.
Charles Johnson	Would support widening the highway along it's current route.
Sherry Joplin	Overly congested, dangerous, hard to exit neighborhood.
P Standish	No
Russell & Roxanne Fuentes	It's a bit sluggish at the moment but I can see that due to all of the construction at the moment
Jeff Dorton	Very dangerous road with too many big rigs driving too fast
RICHARD LANDEL	YES. EXCESSIVE SPEEDING, ACCIDENTS AMD MINIMAL POLICE PATROL. VERY DANGEROUS
Evan Price	
Shannon Raines	Very dangerous and crowded
Tara Voigt	No
Shannon	Please install signal warnings as you approach the intersection of 380 & Tremont Blvd. There have been several accidents here.
Tim Skauge	none at this time
Edward Sommer	Yes. 1) Multiple accidents weekly. 2(Large trucks blocking all 3 lanes from Preston through I-75. 3) Excessive speeding. 4) Loud traffic noise 24x7.

Please provide us with your contact information.	If US 380 is congested, what alternative routes do you take?
Name	Open-Ended Response
Stacey Vansant	
Kelli Orpen	Take back roads
Bill Bennett	Not a lot of choices. Going west from Mckinney using Virginia as far as I can. Going east Industrial. Just few options.
Jill Kunde	I don't- I drive 380
Rebecca Easterwood	I use Hwy 5 aka McDonough to Wilmeth to 75
Alana M. Cohen	I tend to drive through the neighborhoods to avoid 380.
P Standish	Custer to 1461
Pamela Nishimoto	Anything possible. Gotten pretty good at finding creative options. HOPEFUL your plans don't take those safer alternatives off the table...
Jamie Boyd-Johnson	I don't find 380 to be congested except for wheh their is construction.
Nancy Swift	Stone Bridge
Charles Johnson	
Sherry Joplin	Virginia
P Standish	1461
Russell & Roxanne Fuentes	Lake Forest to Virginia Parkway
Jeff Dorton	I don't have an alternative because I live in Tucker Hill
RICHARD LANDEL	VIGINIA RD, ELDARADO
Evan Price	Custer, Ridge, Stonebridge Drive.
Shannon Raines	I would take 380 until I hit community road and take the back way
Tara Voigt	I love taking Wilmeth
Shannon	There is no alternative to enter & exit Tucker Hill. If my destination is not Tucker Hill, then I will use Virginia or Eldorado to go East/ West.
Tim Skauge	no alternates
Edward Sommer	I must use 380. There are no alternate routes in or out of my subdivision. We are sometimes trapped in the subdivision while frequent traffic accidents are being cleared.

Please provide us with your contact information.	What solutions would you suggest in the US 380 Corridor?
Name	Open-Ended Response
Stacey Vansant	
Kelli Orpen	Expand back roads to 4 lane roads but NOT a highway. Keep it residential
Bill Bennett	Bypass is best. Yellow route preferred but others are doable.
Jill Kunde	Better Timed stoplights, truck lane
Rebecca Easterwood	Plan a route in the flood plains that do NOT have established ranches/farms. Don't disrupt the ranches.
Alana M. Cohen	I think that the corridor should be diverted north into less populated areas.
P Standish	Widen 1461 and Custer road
Pamela Nishimoto	*NO MORE TOLLROADS in North Texas. Crazy ridiculous costs already for essential driving. And made worse knowing funds don't even stay here for future transit needs. When and IF any addl rolls, KEEP THE MONEY AT HOME for future planning! Folks will be more likely to drive on tolls IF they know funds actually doing some possible good locally... *Improved traffic flow. *Lights timed to actual traffic - not "perceived" (ie: diff in summers when kids out of school, etc. Been stuck MANY times for long periods at stoplights when NOBODY coming in any other direction... espec late at night) *Improved enforcement for speeders, drunk drivers, testers, etc *Do NOT allow big trucks - and if they MUST be on the roadways, they NEED to be in the slow lanes ONLY and NOT allowed to pass on the left. Unsafe truckers AND construction crews have caused MANY accidents. Killed friends. And nearly killed others...
Jamie Boyd-Johnson	Leave it alone!
Nancy Swift	Blue or yellow proposal
Charles Johnson	Widen the existing highway.
Sherry Joplin	Widen 380. No Bypass.
P Standish	
Russell & Roxanne Fuentes	Concentrate on making improvements to the existing Hwy.
Jeff Dorton	Eliminate big rigs from being able to use 380 and reduce speed limit to 40mph
RICHARD LANDEL	REDUCE SPEED LIMITS WITH DRASTIC RADAR ENFORCEMENT, ADDED POLICE PATROL (FINES WOULD CERTAINLY OFFSET ADDITIONAL COSTS
Evan Price	Trucks not allowed in the left lane. No bicycles permitted at any time.
Shannon Raines	An over pass, right over 380.
Tara Voigt	Move it north to connect 75 to DNT. It makes no sense to put less than 2 miles north of 380
Shannon	Creating some sort of bypass starting north of Denton & terminating around Farmersville. Existing 380 could become "Business 380."
Tim Skauge	Reviewing options, I select the Yellow Alignment
Edward Sommer	1) KEEP THE TRAFFIC MOVING BY TIMING THE LIGHTS! Please please please do a feasibility study. 2) DOT signs forcing all 10,000 GVW trucks to route around 380. Limit traffic to cars and small trucks only. Commercial vehicles with business in the corridor can get permits to use 380 on an as needed basis.

Please provide us with your contact information.	Do you support the building of a freeway regardless of alignment?
Name	Open-Ended Response
Stacey Vansant	
Kelli Orpen	NO!
Bill Bennett	Yes, 100% Yes!
Jill Kunde	No
Rebecca Easterwood	Not if it cuts off my entire front pasture as the blueprints show on some. It would take 1/2 my pasture and I would have a main road about 400 feet from my house. I do not want this. We worked hard to buy this property for retirement and do not want the road going through our property. Let us keep it rural.
Alana M. Cohen	Yes, but I would hope the alignment would be north of the current 380 location.
P Standish	NO
Pamela Nishimoto	Definitely depends on how it impacts local communities. Long-range planning and solutions NEED to be expedited to avert further damaging impacts to cities, towns, businesses and homeowners. Seen NEGATIVE impacts before of “future planning” and properties being taken by imminent domain and then land lying empty for decades
Jamie Boyd-Johnson	NO!
Nancy Swift	No, the alignment governs a good decision
Charles Johnson	No. I would not support the building of more freeways through country roads/ farmland.
Sherry Joplin	I agree we need a freeway. I don’t especially want it on top of my house.
P Standish	NO
Russell & Roxanne Fuentes	I am not in favor of the blue line bypass - that would be a devastation to the homes in that area!!
Jeff Dorton	No
RICHARD LANDEL	ONLY IF ALIGNMENT IS MOVED NORTH OF CURRENT 380 ROUTE. TO RECONFIGURE CURRENT 380 WOULD BE MOST HARMFUL TO NUMEROUS RESIDENTS AND BUSINESSES CREATING SIGNIFICANT FINANCIAL IMPACT ON BOTH
Evan Price	No
Shannon Raines	No I do not support
Tara Voigt	Not needed. Go to Los Angeles and experience real traffic. This is child’s play
Shannon	No. I believe there must be better traffic control options available as an alternative to a freeway. I do not wish to hear the sound of a freeway or have the pollution a freeway would bring.
Tim Skauge	yes. population is growing.
Edward Sommer	No. Regardless of alignment is a blank check. Show me the options and I'll weigh in.

Please provide us with your contact information.	If US 380 is constructed as a freeway, which alignment do you prefer? (select all that apply)

Please provide us with your contact information.	Do you have any concerns with the existing US 380?
Name	Open-Ended Response
Renee Joyce	Yes...safety! My daughter was hit by a driving running a red light while she was turning behind a first car on a 15-20 second protected green arrow at 60 miles per hour in Tucker Hill Subdivision. There are nearly two wrecks at this intersection per week/month. Fatality is in the future. My 18 year old had blood on her brain and had a sever concussion. Very dangerous strip of road.
Larry Boone	I don't want the bypass route to be anywhere close to my country home.
Michael Allcorn	The increase in thru traffic is getting ridiculous. There needs to be different route for this thru traffic, not expanded lanes for more traffic. 380 is the only way we can get out of our neighborhood onto a street and currently there are about 2-3 wrecks per week in front of our neighborhood (Tremont/380). The thru traffic always has the "pedal to the metal" with no regard for safety, run red lights, and etc. to get thru West McKinney. We don't need this nor do we want this traffic. There must be a better option to relief the growing traffic other than expanding lanes.
Greg Schupp	I do not have issues today
Evan Elkins	No
Divakar Kamath	Extremely concerned at the number of near fatal accidents that occur at Tremont and 380 entrance to Tucker Hill. Almost one day a week. I am petrified to be honest that some one will jump the light and hurt me or one of my family. They are sick and tired of me warning them every time they leave the house. This is a very serious matter.
Deanna Elkins	No
Lindsey Argabright	Congestion
David Bruce	Congestion is bad
Kathy Morgan	Too much traffic & accidents
Courtney McDonald	Yes, the congestion and traffic lights.
Rick Miller	Yes, congestion between Lake Forest and 75 that will get worse with the new businesses at 380 and Hardin.
Bev Cyranowicz	Yes its a very dangerous road to travel on. And extremely congested. There is so much traffic it takes forever to get around Mckinney and more houses just keep going up. Its effecting quality of life in this town
Paul Jackson	Congestion as McKinney continues growing in population
Robert Means	380 has become very congested during peak hours, wait times at stop lights between college street and 75 can be very long, traffic backs up
Bev Cyranowicz	I live north of 380. 380 is a very dangerous road. And now with more stores going in it is only going to get worse. Doesnt seem to matter where you go in mckinney you are stuck in traffic. And yet more houses keep getting built. What a mess. It is effecting quality of life in this town
Moises Mercado	Yes, traffic is awful
Barry Farris	Speeds are too high.
Debbie Lindstrom	I live in Red Bud Estates. We have one entrance to our neighborhood. It is right off of 380. It is difficult to turn left out of the neighborhood.
Eric J Fry	Unsafe/Dangerous. Too congested.
Janna Bristing	
Dustin Marr	Existing 380 is busy but it is only because there are currently no good east west routes to the north.
Janet Hudson	Speed enforcement is spotty, lights are not coordinated, constant construction is destroying vehicles.

Please provide us with your contact information.	If US 380 is congested, what alternative routes do you take?
Name	Open-Ended Response
Renee Joyce	Yes and traffic travels at a very high speed Roth residential neighborhoods. Also a high School is being place off of clit which will bring younger drivers on an already dangerous road!
Larry Boone	I take back roads when 380 is congested (121 through Melissa)
Michael Allcorn	Zero! None! There is one road in and one road out of Tucker Hill (Tremont at 380).
Greg Schupp	Eldorado or Virginia
Evan Elkins	The congestion does not bother my communte
Divakar Kamath	We have no other access but to take 380 first and exit on Ridge or Stonebridge or Custer.
Deanna Elkins	I normally take Custer to 121, Stonebridge Drive to 121
Lindsey Argabright	Back roads
David Bruce	
Kathy Morgan	There are none
Courtney McDonald	Rock hill/Virginia
Rick Miller	164 to 943 to Wilmeth
Bev Cyranowicz	Lake forest and or hardin to white or Virginia and jordan and wilmeth
Paul Jackson	Ridge Road
Robert Means	I will take side streets to avoid the light at 75 and 380
Bev Cyranowicz	Lake forest and or hardin to white or Virginia
Moises Mercado	Down lakeforest
Barry Farris	No other alternative.
Debbie Lindstrom	Custer Road, Hardin, Preston Road or Community
Eric J Fry	I don't there are no artery's south to Bush. I'm stuck like everyone else making their way to 75 to get south.
Janna Bristing	
Dustin Marr	
Janet Hudson	Virginia Parkway.

Please provide us with your contact information.	What solutions would you suggest in the US 380 Corridor?
Name	Open-Ended Response
Renee Joyce	Service Ramps coming out of subdivisions and flashing protected lights in residential area with speed decreasing I. Those pocketed areas.
Larry Boone	I would recommend the BLUE route
Michael Allcorn	Route East/West thru traffic via a northern and/or southern loop. Look at Denton - 380 thru town is routed via Loop 288, not thru the middle of town.
Greg Schupp	Do not under any circumstances, put a freeway through existing 380. Go around into rural area to reach 75. Unfair to existing homeowners
Evan Elkins	None. Leave 380 the same.
Divakar Kamath	Blinking lights, CAMERAS with heavy penalty for going thru red lights, Slow down signs and Warnings of penalty.
Deanna Elkins	Make it where you do not cut into the Tucker Hill community. This is very devastating to all the residents who live in this beautiful community.
Lindsey Argabright	Blue alignment
David Bruce	Please take the route that least effects land owners north of 380
Kathy Morgan	Widen and build under passes
Courtney McDonald	More service roads and bridges with exits, less lights and stopping
Rick Miller	Join the two sections of Wilmeth Road. Develop a four or six lane from Custer and 1461 then connect 1461 with a new road To continue 1461 straight east to 75.
Bev Cyranowicz	Follow the 121 structure minus tolls. Taxes are plenty high enough already. 380 needs to be wider with feeders on the sides. People trying to get to 75 get stuck in store traffic.
Paul Jackson	Build a bypass from farther north of 380 in relatively undeveloped areas of Collin County. Bypass would be good from Dallas North Tollway to Princeton.
Robert Means	an over or under pass at the light at 75/380 would dramatically increase traffic flow
Bev Cyranowicz	Its not an easy fix but maybe with sticking with the format of other roads. Do the one way sides and a larger 2 way in the middle like 121. Some people travel on 380 just to get to 75 And are stuck in all the store traffic. But no tollway.
Moises Mercado	More over passes, it seems that Frisco and prosper are doing things right with their overpasses.
Barry Farris	Yellow or blue suggested routes.
Debbie Lindstrom	I do not have any solutions. There is an obvious need for some relief. Especially with the projected growth.
Eric J Fry	Another major artery from 380 to Bush in between Farmersville and Princeton. This would relieve congestion on 380.
Janna Bristing	
Dustin Marr	Expand current footprint of 380.
Janet Hudson	Elevated freeway

Please provide us with your contact information.	Do you support the building of a freeway regardless of alignment?
Name	Open-Ended Response
Renee Joyce	No unless it is done with safety first and cosmetics in the residential areas second.
Larry Boone	yes
Michael Allcorn	I support the building of a different or new freeway but I do NOT support expanding lanes on 380.
Greg Schupp	Not if it follows 380 though or anywhere close to Tucker Hill
Evan Elkins	NO!
Divakar Kamath	ABSOLUTELY NOT.
Deanna Elkins	No
Lindsey Argabright	No
David Bruce	Depends on which plan you adopt!
Kathy Morgan	No
Courtney McDonald	No, would need to see what alignment is necessary
Rick Miller	No, not without qualifications of where it will be.
Bev Cyranowicz	Depends on the specifics. Not if it effects my neighborhood in McKinney. If it effects 380 only then yes. But not looking forward to MORE construction for years and years. Maybe roads should of been fixed first before adding movie theaters and more stores.
Paul Jackson	No
Robert Means	no, depends on alignment, if 380 is widened my business that has been in its present location for 60 years will be taken out as it is located too close to road already
Bev Cyranowicz	Depends on the specifics
Moises Mercado	No I don't feel it is necessary, instead invest the money in making 380 better
Barry Farris	No
Debbie Lindstrom	Although not ideal, I do not see any other alternatives. I just hope that it won't encroach into our neighborhood--but rather curve to the north where there are wetlands.
Eric J Fry	Yes!
Janna Bristing	
Dustin Marr	No, do not destroy neighborhoods and green space to put in a freeway because of poor planning on the part of past McKinney City Leaders. Keep 380 where it is.
Janet Hudson	Yes

Please provide us with your contact information.	If US 380 is constructed as a freeway, which alignment do you prefer? (select all that apply)

Please provide us with your contact information.	Do you have any concerns with the existing US 380?
Name	Open-Ended Response
Cedric Cascio	
Judy Cota	Speed
Sean Oakes	no
Kyndra Tyler	Yes. Not enough lanes. Too many accidents. There needs to be a traffic light in front of Baylor Hospital and the new Kroger's.
Cade Reynolds	Yes
Rene' Mullins	
Cedric Cascio	Too congested between Custer and Princeton
Rene' Mullins	
Zach Smith	
Rick Moon	
Ellen Landel	- speed limits are not adhered to - heavy use of 380 by large trucks
Nichole Earls	
Dawn Ventre	Yes their are many accidents daily and the speed limit is way too fast, trucks carrying heavy loads are unable to stop At red lights making conditions dangerous
DAWN WALKER	speed limit is to high through town AND I dont see folks get speed tickets or tickets for using phone while driving on 380.
Julie parker	
Charles E Henry	Congested. Lack of speed control. Heavy truck traffic
Angee webb	Too many work construction trucks and traffic. We also have a lot of wrecks at our neighborhood entrance- 380 and tremont
Emily Kissel	The traffic is getting heavier with each new commercial development. Cars slow to a near stop before turning in to a right hand parking lot of a business causing all cars traveling on 380 behind them to slam on their breaks. The accidents out front of my neighborhood, Tucker Hill, are almost daily and it's only a matter of time before someone is killed by the numerous red light runners at the intersection.
Joan Fish	Numerous accidents exiting our development onto 380 most involving 18-wheelers.
James Fish	Numerous accidents as we exit our development onto 380, most involving 18-wheelers.
Jim Rose	Increased usage
laurie Novosad	Heavy traffic and frequent accidents at the entrance of Tucker Hill neighborhood Heavy congestion at 380 & 75
Anthony Lackman	Destroying the front of Tucker Hill with a new road is unacceptable
Whitney Wooten	
Christine FLatley	No
Christine FLatley	No
Jennifer Cheek	No I drive it daily and don't have any issue.
Colleen Vance	No
Marti Gistaro	There are too many large trucks traveling above the speed limit making it almost impossible for them to slow for traffic light at TUCKER Hill

Please provide us with your contact information.	If US 380 is congested, what alternative routes do you take?
Name	Open-Ended Response
Cedric Cascio	
Judy Cota	
Sean Oakes	Virginia or Eldorado
Kyndra Tyler	I take Lake Forest
Cade Reynolds	Virgina Parkway or Rock Hill
Rene' Mullins	No choice
Cedric Cascio	Wilmeth Road to 943 to 164 to Lake Forest, and vice-versa
Rene' Mullins	
Zach Smith	
Rick Moon	
Ellen Landel	I use 380 primarily to get to the nearest north south route
Nichole Earls	
Dawn Ventre	Virginia pkwy
DAWN WALKER	WHITE AVE, VIRGINIA WHEN SOUTH OF 380 BUT THERE AREN'T E/W ROADS NORTH OF 380 STILL.
Julie parker	
Charles E Henry	None. No other way out, or in Tucker Hill than US 380
Angee webb	Prosper trail or Virginia
Emily Kissel	I take Custer or Lake Forest down to Virginia.
Joan Fish	No option available as we must exit our development onto 380.
James Fish	Only option is to enter 380.
Jim Rose	St HWY 121
laurie Novosad	Rarely will take Virginia via Stonebridge from Tucker Hill When going 380 -> 75, I cut across to white from Harden
Anthony Lackman	
Whitney Wooten	
Christine FLatley	Do not take alternative routes
Christine FLatley	I do not use alternative routes
Jennifer Cheek	
Colleen Vance	Side streets
Marti Gistaro	There are no alternative routes for me to get to my development

Please provide us with your contact information.	What solutions would you suggest in the US 380 Corridor?
Name	Open-Ended Response
Cedric Cascio	
Judy Cota	Remove truck traffic
Sean Oakes	Expand current 380, no bypass
Kyndra Tyler	more lanes and more traffic lights. People speed on there every day.
Cade Reynolds	A by-pass starting right after Custer.
Rene' Mullins	
Cedric Cascio	Avoid impact to existing neighborhoods, Potential developments can always work around the corridor, existing homeowners cannot.
Rene' Mullins	
Zach Smith	
Rick Moon	
Ellen Landel	Lowering speed limit and/or enforcing speed limit.
Nichole Earls	
Dawn Ventre	Please go around the current 380, if you build a highway those residents currently entering on and off 380 will only be impacted with more dangerous roads, the blue and yello aliegnment seem to be better options
DAWN WALKER	PUT IN ALL E/W ROADS, WILMETH ,BLOOMDALE, LAUD HOWELL AND OUTER LOOP THAT HAVE BEEN IN THE PLANS FOR YEARS AND MAYBE HAVE LANES THAT GO UNDERGROUND AT 75/380 LIKE THEY DID AT 75 AND SPRING VALLEY. DECREASE SPEED LIMIT THRU TOWN. ADD RT TURN LANES AT TRADE DAYS AND OTHER NEEDED PLACES.
Julie parker	
Charles E Henry	Develop a North Belt By Pass.
Angee webb	Don’t do it!
Emily Kissel	The addition of right turn bays in front of every retail parking lot so cars can safely exit the flow of traffic. Providing commuters with a nonstop toll road or freeway loop to cut across the northern part of the metroplex.
Joan Fish	Direct 18-wheelers onto an alternate route.
James Fish	Eliminate 18-wheeler traffic by directing them to an alternate route.
Jim Rose	Loop around McKinney
laurie Novosad	Bypass from somewhere west of Custer to 75
Anthony Lackman	
Whitney Wooten	
Christine FLatley	Widen 380
Christine FLatley	Wide to add additional lanes
Jennifer Cheek	Reduce commercial development along 380, reduce the speed limit and develop alternative routes that don’t impact current home and landowners.
Colleen Vance	Over passes like they are building at 380 and Preston.
Marti Gistaro	Rerout trucks to a by pass or limit trucks to the left lane

Please provide us with your contact information.	Do you support the building of a freeway regardless of alignment?
Name	Open-Ended Response
Cedric Cascio	
Judy Cota	No
Sean Oakes	I support a freeway on current 380, no bypass
Kyndra Tyler	Not sure
Cade Reynolds	Yes...got to be done
Rene' Mullins	
Cedric Cascio	Yes
Rene' Mullins	
Zach Smith	
Rick Moon	
Ellen Landel	Obviously I could not support the freeway using the current 380 route as my home is a stones throw to 380 now, it would be devastating for my home value and for one of the prettiest neighborhoods in North Texas. With all of the current and planned new build of commercial developments it seems ludicrous to wipe out so much of that in order to retrofit a freeway in the current space. I am in favor of any alignment that takes the traffic further north as that is where future development will occur anyway.
Nichole Earls	
Dawn Ventre	Nope I only support it if we move it around the current 380 which is dangerous enough
DAWN WALKER	I DON'T SEE THE NEED FOR IT. JUST PUT IN ALL THE 6 LANE E/W ROADS THAT HAVE BEEN PLANNED OUT FOR YEARS N OF 380 FROM CUSTER TO 75, WILMETH, BLOOMDALE, LAUD HOWELL, AND OUTER LOOP.
Julie parker	Not if disrupts Tucker Hill!!!!
Charles E Henry	No
Angee webb	No
Emily Kissel	Yes
Joan Fish	No
James Fish	No
Jim Rose	No
laurie Novosad	Traffic decompression is necessary *** this survey does not include all the options in McKinney which were presented on 4/26!
Anthony Lackman	No.
Whitney Wooten	
Christine FLatley	No
Christine FLatley	No
Jennifer Cheek	No. The majority of the current proposals negatively impact too many landowners they have invested significantly in their homes. Many if the options would devastate individuals financially.
Colleen Vance	No
Marti Gistaro	Not sure a freeway is the answer. Perhaps more east/west four lane streets like you see in Plano such as Legacy

Please provide us with your contact information.	If US 380 is constructed as a freeway, which alignment do you prefer? (select all that apply)

Please provide us with your contact information.	Do you have any concerns with the existing US 380?
Name	Open-Ended Response
Geoffrey Diener	No
Elon Reynolds	Too much traffic!
Amy Limas	Yes. Placement of traffic lights and potential widening and/or bypass options
John Grant	Too much congestion, traffic, accidents, and speeding.
Laurie kohl	It is too fast and too dangerous. Far too many accidents. Planning has been laughable. It was expanded and great near Preston and the DNT then it was all changed to make overpasses. HUGE WASTE OF MONEY!!
Stacey Vansant	Speed limit.
Lan Hy	Too much traffic on 380 and too many accidents due to this traffic and high speeds. We've had 7 accidents just outside our gates in the last four months. Without alternative roads and bypasses, it's the only option people have and will just become more congested and dangerous.
ALEXANDER MILANO	Yes speed of traffic, accidents daily, and amount of drivers.
Kevin Johnson	
Emily Schreck	No
Kip Carr	We live in Tuckerhill. Too much traffic at high speeds. Wrecks occur daily on this road. I'm terrified for my family when I here sirens. My kids will start driving in a couple years and I'm worried they will be killed trying to get in and out of the neighborhood
Robert Midkiff	Too many vehicles and fast speeds.
Dana Hagedorn	Speed limit needs to be lower, too many racks at traffic light and people speeding
Christi Crump	Wrecks daily-high speed driving-
Mark King	No
Robert Rodriguez	Nope
Cheryl Eady	Accidents at Tucker Hill entrance.
Katie Cooper	No
Kathy Moore	Absolutely. In the last month there has been an accident weekly at our neighborhood intersection due to improper timing of stop lights, traffic speed, and distracted drivers. The amount of traffic is overwhelming and unbelievable.
JP Findley	No
Carl Martin	Poor signal timing, lack of flashing yellow lights for turns

Please provide us with your contact information.	If US 380 is congested, what alternative routes do you take?
Name	Open-Ended Response
Geoffrey Diener	
Elon Reynolds	Virginia Parkway
Amy Limas	It is mostly clear west. Going East, I detour at Hardin to reach 75 south
John Grant	None, there are no alternatives. It's the only way in and out of our community.
Laurie kohl	I try to get off as soon as possible. Usually Custer to 121.
Stacey Vansant	
Lan Hy	I don't have a choice, the only way into and out of our community is US 380. There are no other options right now.
ALEXANDER MILANO	
Kevin Johnson	
Emily Schreck	White or Custer
Kip Carr	I have no choice, it's the only way in and out of the neighborhood
Robert Midkiff	I don't have a choice. I have to get on 380 because it's the only way out of our subdivision.
Dana Hagedorn	Virginia Parkway
Christi Crump	Only route to take
Mark King	It's not congested
Robert Rodriguez	I focus on timing my trips. I either leave earlier or later.
Cheryl Eady	
Katie Cooper	380...certain times of day there are a lot of cars, but traffic seems to still move through pretty quickly.
Kathy Moore	Eldorado runs parallel to 380 all the way from Hwy 5 west to the Eldorado bridge in Little Elm. Other roads I use to navigate around 380 are: Weston Road, Stonebridge Road to alma, Ridge, Custer north to 1st or frontier in Prosper and then west...sometimes linking to Fishttap road if I'm headed further west. When driving 75/central I Haven't exited at 380 in almost 2 years. I take the Bloomdale road exit or Virginia and then make my way over to lake forest or ridge to get to Tucker Hill which is right on 380.
JP Findley	1st or Prosper Trail
Carl Martin	Virginia/ Rockhill

Please provide us with your contact information.	What solutions would you suggest in the US 380 Corridor?
Name	Open-Ended Response
Geoffrey Diener	
Elon Reynolds	The 'BLUE' bypass option. I suggest considering the Rutherford Branch area NW of 380/Custer as an alternative to move the 'BLUE' bypass option north of 380.
Amy Limas	I suggest not disrupting existing neighborhoods and focus on ways around using undeveloped land. City planners failed to properly plan. I suggest they aim to minimize the consequences of their gross negligence
John Grant	Bypass to divert traffic or build up roads that run parallel to 380 so it's not the only artery for east/west.
Laurie kohl	Don't infringe on the existing neighborhoods. Lower the speed. Don't add any more lanes.
Stacey Vansant	Flashing lights on traffic lights
Lan Hy	Bypass to get traffic off current 380 route for commuters just trying to get through. Development of roads north of 380 that currently run parallel to it.
ALEXANDER MILANO	Blue and yellow would be ideal for me and my family.
Kevin Johnson	
Emily Schreck	
Kip Carr	Additional traffic needs to be routed off this road. Widening it would only exaserbate the problem
Robert Midkiff	Laudhowell bypass would clearly ease congestion on 380 and wipe out the fewest homes and businesses
Dana Hagedorn	Build a highway further north by Melissa and Anna That would go all the way from 75 to the toll road. Do not let large trucks drive on 380, they cost so much Issues.
Christi Crump	Slower speeds! Shouldn't be a highway-
Mark King	
Robert Rodriguez	Leave 380 as it is, don't build on a city that is "Unique by Nature".
Cheryl Eady	
Katie Cooper	Creating an overpass for those going east over the 75 would elevate the only real issue which is the cluster at the 75/380 signal.
Kathy Moore	NOT in front of Tucker Hill. Please route the traffic: especially the 18 wheeler traffic that is so dangerous NORTH of 380.
JP Findley	East of Preston - the traffic is fine. West of Preston is a mess.
Carl Martin	Flashing yellow lights for all turns off of 380

Please provide us with your contact information.	Do you support the building of a freeway regardless of alignment?
Name	Open-Ended Response
Geoffrey Diener	No
Elon Reynolds	I consider only the 'BLUE' bypass option to be a significant improvement over the current alignment.
Amy Limas	No. Alignment is of utmost importance especially to those who stand to incur significant losses due to the potential decrease in home values.
John Grant	No
Laurie kohl	No.
Stacey Vansant	No
Lan Hy	No
ALEXANDER MILANO	No. Absolutely not.
Kevin Johnson	
Emily Schreck	No
Kip Carr	No....the alignment greatly concerns me as I'm afraid that TxDot will believe the widening the road across the front of the neighborhood will somehow help congestion
Robert Midkiff	No until I know more.
Dana Hagedorn	I only support if it is further north. Do not support it been on the other side of our neighborhood. I do not support Adding to 380
Christi Crump	No!
Mark King	No
Robert Rodriguez	Nope, just a waste of money.
Cheryl Eady	No
Katie Cooper	No
Kathy Moore	No: no freeway through McKinney on 380. I would only support a freeway NORTH in the rural and undeveloped areas.
JP Findley	Not sure
Carl Martin	No

Please provide us with your contact information.	If US 380 is constructed as a freeway, which alignment do you prefer? (select all that apply)

Karin Kerby	Property Owner					Daily

Please provide us with your contact information.	Do you have any concerns with the existing US 380?
Name	Open-Ended Response
Holly Rudnick	Dangerous
Al Mauceri	It's dangerous
Janet Anders	Too much traffic on a highway with 55 mph speed limit, no right turn lanes, and horrible intersections.
Erik Reishus	
Mark Sedwick	Traffic
Andrew Busbee	It is no worse than Preston road, which is a major North/south route I take daily, and that is not being considered for expansion. Yes, it has it's high traffic times, but for the most part it is not terrible. My concern is more with the impact to property owners and residents who will be financially impacted by a highway in their front or back yard. Use the existing corridor and stop putting the burden on property owners to take a hit.
Tim Hawkins	There are too many stoplights on a major highway. You could save yourself the need for a bypass by incorporating more overpasses like the one being built at 380/Preston (I believe).
Jennifer Sedwick	Traffic does back up.
Courtney Sparks	Heavy traffic, high frequency of accidents, increased commercial development will bring more traffic
Bruce Joseph Goss	The expansion by Dallas North tollway
Amanda Ellis	yes. the existing US 380 needs to be decongested. Via more lanes, over/under like Preston and 380 is constructing or some other way along the existing path.
John Bodily	yes
Doris Langford	unsafe, congestion
Oscar Slotboom	Existing road is inadequate
Lismary Delgado	No
Kimberly Hendrix	Yes the large volume of traffic and the number of accidents are rapidly increasing.
Chris Self	Too many accidents at 380 & Tremont. Trucks run signal light & speeding
Virgil W. Newman Jr	Congestion
Julia Lewis	Yes. It can be hazardous trying to exit business parking lots in McKinney.
Charles Pyne	Too congested
Karin Kerby	could use less turns into roadside businesses - perhaps more turn lanes

Please provide us with your contact information.	If US 380 is congested, what alternative routes do you take?
Name	Open-Ended Response
Holly Rudnick	Rockhill
Al Mauceri	No other exist
Janet Anders	Virginia, Bloomdale (CR 123/Prosper Trail), Eldorado
Erik Reishus	
Mark Sedwick	N/s connectors to the e/w connector roads
Andrew Busbee	If congested I will take Frontier parkway which only has 2 stop signs. It is an easy East West alternative, and once the outer loop is created it will become a primary route for us.
Tim Hawkins	Virginia or a way around
Jennifer Sedwick	I usually go south to Virginia/eldorado and over
Courtney Sparks	CR-164
Bruce Joseph Goss	Only drive on it for about 7 miles in one way or 10 the other. Custer drive to 121. Going 121 to 360 anyway.
Amanda Ellis	I don't
John Bodily	On my daily route I have no alternatives because I work at Raytheon which is on 380 and there are no east-west routes north of 380.
Doris Langford	there are no good alternatives north of 380
Oscar Slotboom	
Lismary Delgado	I do not use 380
Kimberly Hendrix	Depending on where I am trying to get to I will either go south to Virginia/Eldorado, sit in traffic on 380 or try and take back county roads.
Chris Self	Custer, Stonebridge, Lake Forest
Virgil W. Newman Jr	Virginia
Julia Lewis	Virginia or Bloomdale.
Charles Pyne	White Ave
Karin Kerby	Virginia Pkwy

Please provide us with your contact information.	What solutions would you suggest in the US 380 Corridor?
Name	Open-Ended Response
Holly Rudnick	Not sure
Al Mauceri	
Janet Anders	Make 380 a freeway and keep it in the current pathway with NO bypass.
Erik Reishus	
Mark Sedwick	Complete the outer loop. Take the thru traffic off of 380. An extra 4 miles at 70 MPH will not matter to those thru drivers. They will do it to save time.
Andrew Busbee	Clearly the grade separated intersections are the best choice for the residents of the area and taxpayers in McKinney. The road already exists, and the impacts to the citizens will be minimized. The outer loop will take a significant portion of the east/west traffic. Building another east/west highway (bypass) that will impact residential property only a couple miles away from the outer loop does not make sense. Focus on getting the outer loop up and running versus doing a short term solution that will not be needed once the loop is created. It will have destroyed property values and cost taxpayers $$$$$ for nothing.
Tim Hawkins	You could save yourself the need for a bypass by incorporating more overpasses like the one being built at 380/Preston (I believe).
Jennifer Sedwick	I think the outer loop needs to be finished to see how that impacts the traffic. And the main east west corridors finished out to the wider lane, but slower traffic. I believe it will greatly ease the congestion.
Courtney Sparks	Tiered approach along current 380 similar to 635 express lanes
Bruce Joseph Goss	widening the exist by making an elevated bridge or add extra lanes
Amanda Ellis	Complete the Outer Loop. Double deck 380 Do over under interchanges like Preston and 380 is currently constructing.
John Bodily	City needs to build out east-west arterials. There are NO options north of 380. Expand 380 in its current alignment to a freeway. Consider alignments further north than CR-123 (Bloomdale) that don't run directly adjacent to an existing neighborhood.
Doris Langford	We need a freeway that bypasses the majority of McKinney and Princeton. The current 380 should become Business 380
Oscar Slotboom	Freeway is needed
Lismary Delgado	
Kimberly Hendrix	McKinney needs to build out the east/west roads north of 380. If roads like Wilmeth, Bloomdale, or Laud Howell were completed to 75 it would reduce traffic on 380. This should have been done when all the new neighborhoods started getting approved.
Chris Self	Build Yellow illustrated route to Custer & NOT Stonebridge
Virgil W. Newman Jr	Outer loop from DNT through prosper-mellisa
Julia Lewis	The freeway is going to be a "must-do'. Look at 635! This country is on track to be like Dallas County in traffic.
Charles Pyne	380 Freeway
Karin Kerby	Improvements to intersections and additional lanes where possible. Future approvals of businesses immediately along the hwy should be stopped - or set back further to allow for expansion of 380. Finally - build-out of existing plans for N/S and E/W roads. Specifically Wilmeth and Bloomdale - quickly expand them to the planned 4-6 lane city streets (perhaps purchase right of ways for future widening)

Please provide us with your contact information.	Do you support the building of a freeway regardless of alignment?
Name	Open-Ended Response
Holly Rudnick	Depends
Al Mauceri	No
Janet Anders	I support the freeway in the current pathway. Then, if we can't come to an agreement, I would be willing to consider other options that don't impact many homes or put a bypass along side neighborhoods.
Erik Reishus	
Mark Sedwick	No, not regardless. It makes no sense to build a bypass to take the thru traffic off of 380 to dump it back onto 380 long before the overpass built at Preston. There will be a huge backup created at that drop off point. The outer loop is designed to do exactly what is intended. Connect highways so the thru traffic continues uninterrupted. Alternatively, complete 380 as an actual highway.
Andrew Busbee	No, I do not. The cost seems to outweigh the benefits. We should be focusing on building the outer loop which will become a major east/west artery. The outer loop will take a significant portion of the east/west traffic, and building another east/west highway that will impact residential property only a couple miles away does not make sense. Focus on getting the outer loop up and running versus doing a short term solution that will not be needed once the loop is created. It will have destroyed property values and cost taxpayers $$$$$ for nothing. McKinney is supposed to be "Unique by Nature," but 3 of the proposed routes go right through some of the most picturesque parts of the area.
Tim Hawkins	No - several of the proposed freeways run right on top of a very desirable McKinney neighborhood.
Jennifer Sedwick	No not regardless of alignment. I think the alignment is important. Taking it through peoples homes and backyards should not be an option. Now is the time to obtain the land that is still land, therefore negatively effecting the least amount of people.
Courtney Sparks	Yes
Bruce Joseph Goss	somewhat
Amanda Ellis	no. I do not support CR 123 being an alignment route. It will bottle neck at Prosper. It seems as though 3/5 options are for CR 123 without regard to future traffic considerations. Completion of the Outer loop should take top alignment route priority. Otherwise, there will be too many large roads in too close proximity.
John Bodily	No. Three of the proposed alignments pass directly adjacent to my neighborhood (Heatherwood). I DO NOT support building a freeway on one of those alignments.
Doris Langford	yes
Oscar Slotboom	Yes, but I prefer the straight and direct alignment on the existing US 380
Lismary Delgado	No
Kimberly Hendrix	No! I do not support any type of bypass. If the current alignment can't be changed to a freeway another solution is needed. All options that bypass 380 run 3 blocks behind my house in Heatherwood. The increase in traffic and noise would cause issues.
Chris Self	No
Virgil W. Newman Jr	Adjusting 380 is not enough, there needs to be a route north developed NOW to move traffic outside the area that is passing through from Denton and to handle the McKinney Growth. We need to plan ahead now, not band-aid 380 only.
Julia Lewis	Yes, a FREEWAY, not a TOLLWAY. We have a lot of people in this county that cannot afford to pay tolls for a road that they will also pay to build.
Charles Pyne	Do not understand
Karin Kerby	NO. The "freeway" should be the outer loop - all others should be no larger than current 6 lane city streets with speeds less than 50 mph.

Please provide us with your contact information.	If US 380 is constructed as a freeway, which alignment do you prefer? (select all that apply)

Please provide us with your contact information.	Do you have any concerns with the existing US 380?
Name	Open-Ended Response
Phillip Blackmon	
Charlie Philips	Traffic congestion
Charlie Philips	
Jessica Christensen	It is very congested at 75 and 380. I tend to avoid it at certain times of day and try to get onto 75 between white and Virginia
Jared Christensen	Not especially. Studies consistently show that building wider roads does not improve traffic, only makes it worse. I think existing 380 will self-regulate along those lines.
Carol King	Very congested. Traffic backs up in the one turn lane at Airport and 1827 at most times of the day creating hazardous conditions. Most immediate hazardous condition that should be addressed.
Gary Pierce	I have few concerns with the current status for US380. BTW, many of questions have the option to "select all that apply" but this form only allows one selection. Go fix your software!!!!
Kendall Laskey	
Melinda Pierce	Not now.
Tim Anders	needs improvement to allow for better traffic flow
Fabia Cueva	too much traffic.
marco cueva	too much traffic, very unsafe
Melissa Hefty	Yes. The lights are horrible.
jim petkovsek	congestion at present time with prospect of increases due to growth
Shelly Spaulding	
Mike Wiles	Congestion
Mary M. Stevenson	I have known (as a professional driver before retirement) that the way the city was growing that Hwy 380 would need fixing soon - that never happened. Even the Mckinney 2040 study didn't take this into account. They said the that this was the State's responsibility to upgrade but we the homeowners and businesses have to deal with the fix when it is mandatory that it be implemented.
Yizhou Yang	Yes.
Jon Dell'Antonia	It is getting busier.
Rebecca Tuterow	Yes, the traffic noise and congestion. Also, it takes more time to get from our neighborhood west to US 75 from 11:00 am to 7:00 pm.
Gerald Tuterow	Traffic congestion, noise in our neighborhood two blocks north of 380
Kendall Laskey	
Kevin Voigt	I reside on Bloomdale Road. Seems 3 of 5 alignments would put my family out of our home.
Tia Laskey	The lack of safety...specifically the big rig trucks
Jeff Gowen	Congestion and dangerous.
Lauren Burnside	There need to be more right turn lanes so people in the right lane do not have to slow down behind people turning. It’s dangerous if people behind a car are not paying attention or going too fast.

Please provide us with your contact information.	If US 380 is congested, what alternative routes do you take?
Name	Open-Ended Response
Phillip Blackmon	
Charlie Philips	Virginia Parkway
Charlie Philips	
Jessica Christensen	Lake Forest or Hardin
Jared Christensen	Lake Forest to 121, 380 to Hardin to White to 75
Carol King	There really isn't a good alternate route
Gary Pierce	In McKinney's Northwest Sector, there are currently few options other than using US380. North of US380, CR123 and Wilmouth, FM543, and FM1461 to Wilmouth. ALL ARE DANGEROUS, WINDING, 2-LANE COUNTRY ROADS THAT CAN BARELY SATISFY THE CURRENT TRAFFIC. Generally, most of the traffic on the west side of McKinney will have to use US380 at some point during their trip.
Kendall Laskey	
Melinda Pierce	east-west streets such as Virginia to the south or C.R. 123
Tim Anders	Virginia, white
Fabia Cueva	don't have options
marco cueva	No alternative
Melissa Hefty	Wilmeth or Virginia
jim petkovsek	virgina pkway, eldorado, hway121
Shelly Spaulding	
Mike Wiles	i don't
Mary M. Stevenson	I go south or north on any avail road away from traffic, backroads. (everybody else is doing the same)
Yizhou Yang	
Jon Dell'Antonia	Virginia Pkwy, ElDorado Pkwy, Hiway 121
Rebecca Tuterow	Sometimes I'll take Hwy 5 north to Wilmeth road to go westward. I'll also take various side streets south towards White Ave. or Virginia.
Gerald Tuterow	Hwy 5 and various side streets, there are not alot of options.
Kendall Laskey	
Kevin Voigt	Wish Collin County would improve the arteries n/s/e/w of 380. In doing so congestion would organically be removed from 380. I believe County plans exists.
Tia Laskey	Virginia
Jeff Gowen	NA
Lauren Burnside	The only other west-east option is taking CR 943. I live in the northwest sector and there are no straight west-east road options north of 380.

Please provide us with your contact information.	What solutions would you suggest in the US 380 Corridor?
Name	Open-Ended Response
Phillip Blackmon	I would build US 380 as a highway, not a bypass or at least follow the same alignment as of today. With the outer loop still going in and the fact that we would have to transition more land I don't understand why you wouldn't use the existing alignment.
Charlie Philips	Build a second level of freeway as an expressway through McKinney so local traffic can access the lower level
Charlie Philips	
Jessica Christensen	better ramps/ interchange to 75
Jared Christensen	I feel that if a freeway is what's going to happen, then a bypass that impacts as few businesses and homeowners as possible is what should be built.
Carol King	Freeway
Gary Pierce	Modify the US380 corridor by adding one lane eastbound and one lane westbound. Build the infrastructure outlined in McKinney's 2004 Master Thoroughfare Plan to provide alternates to using US380 for east-west travel. Concentrate efforts and resources on making the Collin County Outer Loop the major freeway.
Kendall Laskey	
Melinda Pierce	Rght turn lanes. I would not be opposed to widening to 8 lanes, but I would prefer it not become a limited access freeway like 121 with service roads.
Tim Anders	Limited access highway, no bypass
Fabia Cueva	bridges, overpass
marco cueva	
Melissa Hefty	Make it an actual highway. Remove the lights.
jim petkovsek	north options (yellow, red, blue)
Shelly Spaulding	
Mike Wiles	Bypass to the north, but not near Walnut Grove. The yellow option is not acceptable.
Mary M. Stevenson	Suggest that we have a toll (?) express lanes underground like Dallas did with 635. I was skeptical of it before I saw it built and now I love it and it doesn't affect the nearby buildings and I think it helps with keeping the noise pollution down.
Yizhou Yang	Freeway.
Jon Dell'Antonia	Yellow alignment appears to be the most economical and least disruptive to current residential homeowners.
Rebecca Tuterow	I think with the projected increase in Collin County, it would make sense to have a loop to bypass 380.
Gerald Tuterow	Northern freeway alignment
Kendall Laskey	
Kevin Voigt	See above. Always knew Bloomdale/CR123 would be improved. Why build a bypass 1.5 miles north of the problem area. Further, why return the bypass traffic to Custer and 380 creating another bottleneck? Why would this project not be aligned north through undeveloped land and of equal importance...connect to the DNT? Returning traffic to 380 and Custer is extremely short sighted.
Tia Laskey	Bypass
Jeff Gowen	Follow the existing route and either widen or construct "flyover" interchanges.
Lauren Burnside	Connecting Wilmeth road between Hardin and Lake Forest would keep me off 380 daily. Connecting the road would provide the best alternative solution to driving on 380. We don't need a huge bypass bringing traffic through our neighborhood or covering current home or valuable farmland.

Please provide us with your contact information.	Do you support the building of a freeway regardless of alignment?
Name	Open-Ended Response
Phillip Blackmon	No I do not support the bypass alignment options that are outside of the current 380 route.
Charlie Philips	A conditional yes
Charlie Philips	
Jessica Christensen	I do not really support placing a highway where 380 currently goes through McKinney. a bypass loop would impact less established neighborhoods and businesses, but I understand that there will be a future need to do something
Jared Christensen	I feel that 380 is close enough to 121 that making 380 a comparable freeway is overkill. The bypass options are not appealing to me, but they are better than the huge disruption that would be caused by changing 380 between Custer and 75. I am wondering why no options much further to the north have been explored -- something up toward Melissa or Anna.
Carol King	Yes
Gary Pierce	For the construction of a freeway, I support only the Collin County Outer Loop. I do not support changing US380 into a limited access highway or freeway.
Kendall Laskey	
Melinda Pierce	No, I would like to see The Outer Loop several miles to the north be the limited access freeway. There is more undeveloped land there.
Tim Anders	only down the existing footprint
Fabia Cueva	no
marco cueva	no
Melissa Hefty	No
jim petkovsek	no. claims of eminent domain give me nightmares!
Shelly Spaulding	
Mike Wiles	No
Mary M. Stevenson	Yes, underground along with maybe a supplemental express subway to/from Denton.
Yizhou Yang	Yes
Jon Dell'Antonia	No
Rebecca Tuterow	It depends on how it impacts the quality of life in my neighborhood. If it happens, I would like a privacy/sound barrier wall along a freeway.
Gerald Tuterow	Depends on the impact to my neighborhood
Kendall Laskey	
Kevin Voigt	Northern alignment through undeveloped land makes the most sense. This is common across the mid west and to disrupt communities for a "by pass" only 1.5 miles above 380 is nonsensical. The problem is 380 so FIX 380!
Tia Laskey	No
Jeff Gowen	No
Lauren Burnside	Absolutely not!!

Please provide us with your contact information.	If US 380 is constructed as a freeway, which alignment do you prefer? (select all that apply)

Diane Piwko	Other (please specify)				Business owner, Mayor, commuter	Weekly
Steven French	Nearby resident					Daily
Chad Teague	Other (please specify)				Property, Residential and business	Daily

Please provide us with your contact information.	Do you have any concerns with the existing US 380?
Name	Open-Ended Response
upender rao	No
	Not really
Robert Carter	High traffic volume and resulting wrecks.
Ted Sprunger	Too much traffic, especially truck and Semi traffic. Also, as more businesses open (i.e. costco, etc. at Hardin) will be more and more traffic lights, slowing traffic even more.
rick eubank	yes, the intersection at 75 needs to be improved immediately. Northbound 75 exiting to 380 backs up onto 75!
David Sutton	Crashes & Trucks
Brian Swindell	High speeds and too mansy driveways
Suresh Kumar	Could widen it to 6 lanes.
Monte Self	Speeding trucks
Andrew Sisson	yes
WILLIAM SMITH	congestion
Patricia Doyle	A lot of traffic for a limited Road. Lots of development to the east, that has few ways to access Hwy 75
Erin Sisson	it's too congested
Andrew Sisson	It's becoming too congested
Martha Sisseck	Safety - speed limits and lack of medians primarily from New Hope through Princeton area, Congestion, Limited alternative routes
Mac Fosmire	Traffic congestion is a major concern
David	yes -congestion
Donald Martinez	Not really
Bobette Mauck	Too much traffic and construction
Amanda	No
Andrew Sisson	current commuter times are very bad and appear to be getting worse.
Darrell Edwards	Congestion and safety, primarily.
Diane Piwko	Princeton backup
Steven French	
Chad Teague	Too many stop lights

Please provide us with your contact information.	If US 380 is congested, what alternative routes do you take?
Name	Open-Ended Response
upender rao	not decided yet
	Eldorado to DNT
Robert Carter	I use White Ave for east west travel and Hardin for north south travel.
Ted Sprunger	Virginia Parkway, Eldorado
rick eubank	Wilmeth to 5 to CR 274
David Sutton	Virgina
Brian Swindell	SH 121, El Dorado
Suresh Kumar	Sit through traffic
Monte Self	Custer, Ridge, Lake Forest, Preston, Hardin
Andrew Sisson	none
WILLIAM SMITH	side streets
Patricia Doyle	CR. that are available,
Erin Sisson	i do not take alternative routes
Andrew Sisson	I do not have any other options due to my home & business location.
Martha Sisseck	Custer to Stacy to 121, Custer to Virginia to 75, Custer to 121
Mac Fosmire	Virginia Parkway, Wilmeth Rd
David	virginia
Donald Martinez	Custer to 121
Bobette Mauck	side/back roads
Amanda	Wilmeth and White
Andrew Sisson	I do not take alternative routes due to my home address and office location.
Darrell Edwards	There really aren't any alternatives, which is part of the problem. There needs to be more North-South routes. This would help with the congestion problems on 380
Diane Piwko	none
Steven French	Ridge Road, Lake forfest, Custer
Chad Teague	I75, Hwy 5, 121

Please provide us with your contact information.	What solutions would you suggest in the US 380 Corridor?
Name	Open-Ended Response
upender rao	build a new highway
	Take one of the northern routes aroubd already developed McKinney. This would be an opportunity to spur growth North.
Robert Carter	I live in Walnut Grove...a tranquil subdivision at the NE corner of Custer and 380. I am opposed to the Blue Alignment which would be so close to Walnut Grove as to destroy its tranquility.
Ted Sprunger	The bypass is good, but needs to continue north of existing 380 to west of Custer Road before rejoining the existing 380.
rick eubank	Double the exit lane from northbound 75 to 380, Widen the access road on the east side of 75 from the exit to 380. Change the signal timing to increase the time for those exiting 75 to 380. Provide an underrpass for 380 under 75.,
David Sutton	Freeway
Brian Swindell	Restrict access to a minimum number of places. Consolidate driveways and remove many of the center median cuts. Grade separate major cross streets.
Suresh Kumar	Green alignment
Monte Self	Go North on 75 to Laud Howell Pkwy, west to Custer or Independence
Andrew Sisson	expand existing
WILLIAM SMITH	bypass
Patricia Doyle	Widen, enhance flow of traffic both east and west
Erin Sisson	expand on the existing corridor or the 'yellow' option
Andrew Sisson	expand the existing corridor or move to the 'yellow' option
Martha Sisseck	Similar to 121 with feeder roads and overpass, IMMEDIATE NEEDS is medians in the areas that have grown like Princeton and reduced speeds in business and highly residential areas east of 75; ultimately a bypass freeway
Mac Fosmire	Bypass the current alignment for through traffic
David	convince Prosper to get on board and begin shifting 380 north before Custer. Shifting it North as far West as possible will help with congestion in that Custer, Ridge road area. If given the choice the Blue looks the most appealing
Donald Martinez	The more northern routes make the most sense. The existing corridor has too much new development that would be disturbed. If you take the road north, you will create more growth in more rural areas as opposed to disrupting developed land.
Bobette Mauck	Stop all the develoment
Amanda	
Andrew Sisson	I am in support of expanding the foot-print of the current 380 corridor. The 380 bypass options will cause me to lose my home, animal stables, and home based business warehouse.
Darrell Edwards	6 lanes with raised medians, like what has been done on the west side of McKinney from 75 to Preston Road
Diane Piwko	Blue alignment
Steven French	Limited Access Freeway
Chad Teague	Have an overpass over 380 to bypass lights and congestion

Please provide us with your contact information.	Do you support the building of a freeway regardless of alignment?
Name	Open-Ended Response
upender rao	Yes
	No
Robert Carter	I so support the building of a freeway. I think the least intrusive option is to expand the existing 380 into a 6 lane freeway.
Ted Sprunger	Only if it reduces traffic (especially truck traffic) on 380.
rick eubank	yes
David Sutton	Yes
Brian Swindell	No. new location would work best
Suresh Kumar	Yes
Monte Self	NO
Andrew Sisson	no
WILLIAM SMITH	depends
Patricia Doyle	undecided
Erin Sisson	I only support expanding the existing corridor or the 'yellow' option
Andrew Sisson	I only support if it's expanded on the existing corridor or 'yellow' option.
Martha Sisseck	Yes, prefer bypass solution
Mac Fosmire	yes
David	undecided
Donald Martinez	Depended on alignment
Bobette Mauck	No
Amanda	No
Andrew Sisson	I support the building of the freeway aligned within its current footprint.
Darrell Edwards	Again, I don't feel that a freeway is needed, if there were more north-south options
Diane Piwko	yes
Steven French	yes
Chad Teague	No.

Please provide us with your contact information.	If US 380 is constructed as a freeway, which alignment do you prefer? (select all that apply)

Amy Teague	[redacted]	[redacted]		[redacted]	[redacted]
Stephanie Johnson	[redacted]	[redacted]		[redacted]	[redacted]
David Johnson	[redacted]	[redacted]		[redacted]	[redacted]
James Wiggins	[redacted]	[redacted]		[redacted]	[redacted]
Chris Herbst	[redacted]	[redacted]		[redacted]	[redacted]

Please provide us with your contact information.	What is your interest in this study? (select all that apply)					How often do you drive on the existing US 380?
Name	Commuter	Business Owner	Property Owner	Nearby resident	Other (please specify)	Response
Amy Teague	Other (please specify)				Property Owner + Business Owner	Daily
Stephanie Johnson	Other (please specify)				property owner and nearby resident (Tucker Hill)	Daily
David Johnson	Other (please specify)				Property owner and nearby resident (Tucker Hill)	Daily
James Wiggins						Daily
Chris Herbst						Daily

Please provide us with your contact information.	Do you have any concerns with the existing US 380?
Name	Open-Ended Response
Amy Teague	Some traffic backups
Stephanie Johnson	Yes. The road is too fast, noisy, and busy passing by the entrance to our community, Tucker Hill. Many accidents are occurring at this intersection.
David Johnson	Yes, the road is too fast, too noisy, and too busy passing by Tucker Hill.
James Wiggins	Not at this time
Chris Herbst	

Please provide us with your contact information.	If US 380 is congested, what alternative routes do you take?
Name	Open-Ended Response
Amy Teague	Hwy 5, 75 or 121
Stephanie Johnson	We have no alternatives into our neighborhood.
David Johnson	We have no alternatives into our neighborhood.
James Wiggins	one of the parallel roads to the south
Chris Herbst	

Please provide us with your contact information.	What solutions would you suggest in the US 380 Corridor?
Name	Open-Ended Response
Amy Teague	Modify 380 to a tollway with frontage roads.
Stephanie Johnson	The blue, or possibly the yellow if it does not cut into Tucker Hill, alignment option would work. If this alignment were to be done, the speed limit along the existing 380 corridor from Custer through town could be lowered, and restrictions such as no through-trucking could be added. This would reduce traffic congestion, noise, and accident danger. What must NOT happen is to widen 380 as it passes in front of Tucker Hill, destroying part of this lovely neighborhood and shops.
David Johnson	What must NOT happen is for the existing 380 to be widened, thereby cutting into the crown jewels of McKinney (Tucker Hill). The neighborhood would be destroyed. The place we chose to live out our last years would be decimated. The only option is to use the blue alignment (or yellow alignment, provided it does not cut into Tucker Hill).
James Wiggins	Expand existing 380 lanes and overpasses , build a second level if needed.
Chris Herbst	

Please provide us with your contact information.	Do you support the building of a freeway regardless of alignment?
Name	Open-Ended Response
Amy Teague	No, our property has both our business and home located on property. La Cour Venue is an indoor venue with 4 Outdoor entertaining spaces used to host weddings and various events. The outdoor areas are used for ceremonies, dining and dancing, so the 2 proposed bypasses running directly beside our property would destroy our business, as the noise would deter anyone interested in renting the event spaces.
Stephanie Johnson	NO. Only the blue, or possibly the yellow if it does not cut into Tucker Hill, alignment proposals are acceptable. Anything else would destroy one of the most beautiful neighborhoods in the city, Tucker Hill. My husband and I recently purchased our home here with the intention of living out our retirement in this wonderful place. Cutting into our neighborhood is not acceptable.
David Johnson	Absolutely not. Only the blue alignment is acceptable (or yellow alignment, provided it does not cut into Tucker Hill). With that, the existing 380 road should be restricted for certain trucks and should have its speed limit reduced. There are many, many accidents at the intersection of Tremont and 380. We chose to move to Tucker Hill because it was so remarkably beautiful. The widening of 380 in any way that cuts into the Tucker Hill neighborhood is a non-starter.
James Wiggins	Yes but I do not support all of the proposed alignments. One of them comes right through my house which I have spend 50 years paying for and is not considered as part of my retirement. The 380 bypass would destroy my future retirement and ruin my life. I have 30 acres and cant move to something similar without extreme hardship.
Chris Herbst	

Please provide us with your contact information.	If US 380 is constructed as a freeway, which alignment do you prefer? (select all that apply)					
Name	The Green/Pink Alignment	The Blue Alignment	The Red Alignment	The Yellow Alignment	None	I Do Not Support Building a Freeway

How often do you drive on US 380? (Circle any) Daily Weekly Monthly A few times a year Never

1. Do you have concerns with the exisiting US 380?

yes, congestion

2. If US 380 is congested, what alternative routes do you take?

none

3. What solutions would you suggest in the US 380 Corridor?

take or build on the 'yellow' route or expand existing 380 route on the South side (pink).

The Red or Blue routes run directly over my home and business. I would be forced to find a new home.

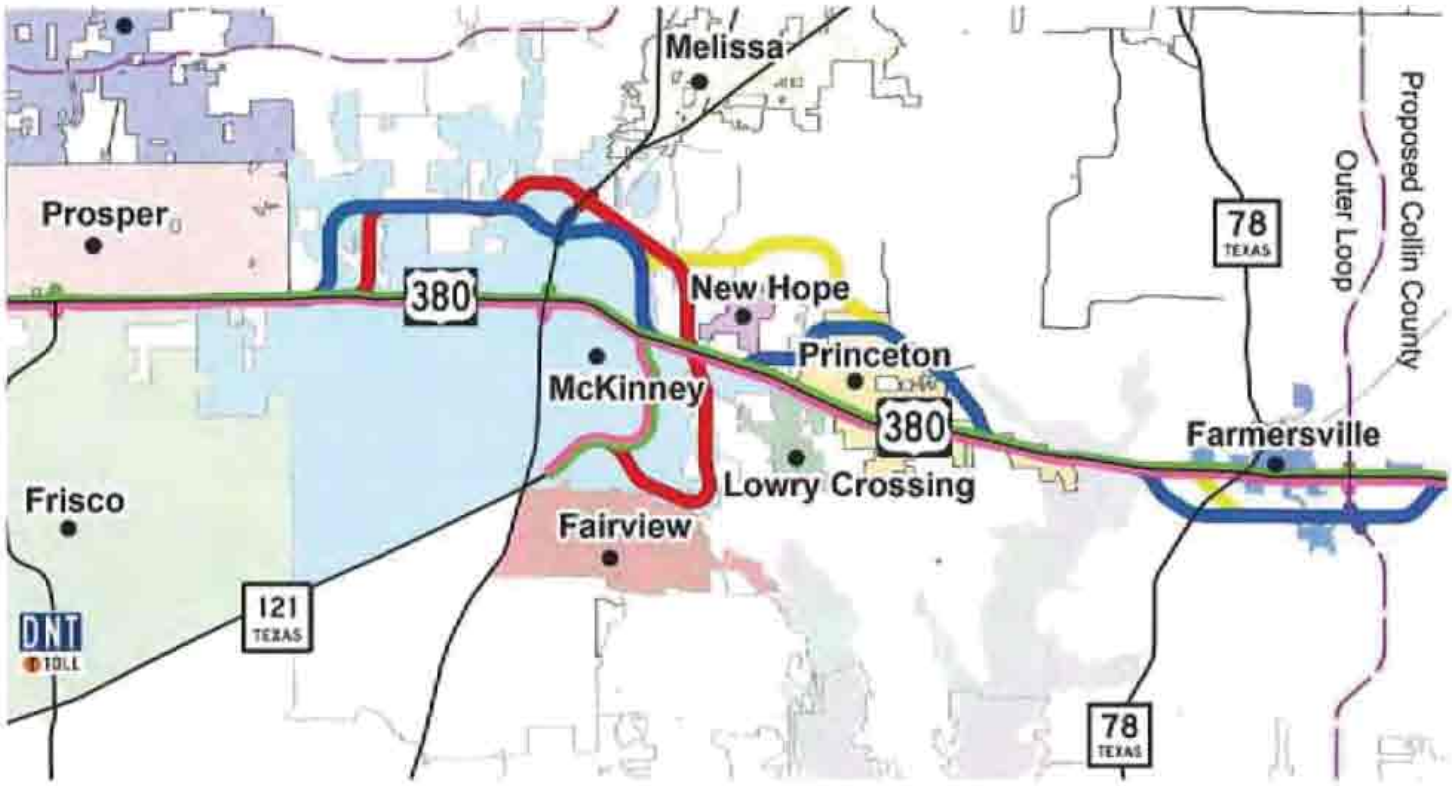

TEXAS DEPARTMENT OF TRANSPORTATION

DRIVE 380
PLANNING FOR THE FUTURE

US 380 Collin County Feasibility Study Survey (Page 2)

4. Do you support the building of a freeway regardless of alignment?

Collin County needs better access and I support the building of a Freeway.

5. If US 380 is constructed as a freeway, which alignment do you prefer?

- X A. The Green/Pink Alignment
- ___ B. The Blue Alignment
- ___ C. The Red Alignment
- X D. The Yellow Alignment
- ___ E. I Do Not Support Building a Freeway.

6. Which alignment(s) do you prefer in: (write all that apply)

A. McKinney (Green, Pink, Blue, Red, and/or None)? yellow, pink, green

B. Princeton (Green, Pink, Blue, Yellow, and/or None)? _____

C. Farmersville (Green, Pink, Blue, Yellow, and/or None)? _____

How often do you drive on US 380? (Circle any) Daily Weekly Monthly A few times a year Never

1. Do you have concerns with the exisiting US 380?

The existing 380 is very dangerous. It needs to have a median in the middle, in Princeton like it does in McKinney. The speed also needs to be reduced to 45.

2. If US 380 is congested, what alternative routes do you take?

The New Hope Road

3. What solutions would you suggest in the US 380 Corridor?

1- We need a I35 - I30 East-West Bypass to the North of Hwy 380.

2- We need to reduce speed inside all city limits to 45 and under.

3- It needs noise abatement. Even with the present Hwy 380, in Princeton, we can't sleep with the windows open because of the noise. We live in the Forest Grove subdivision.

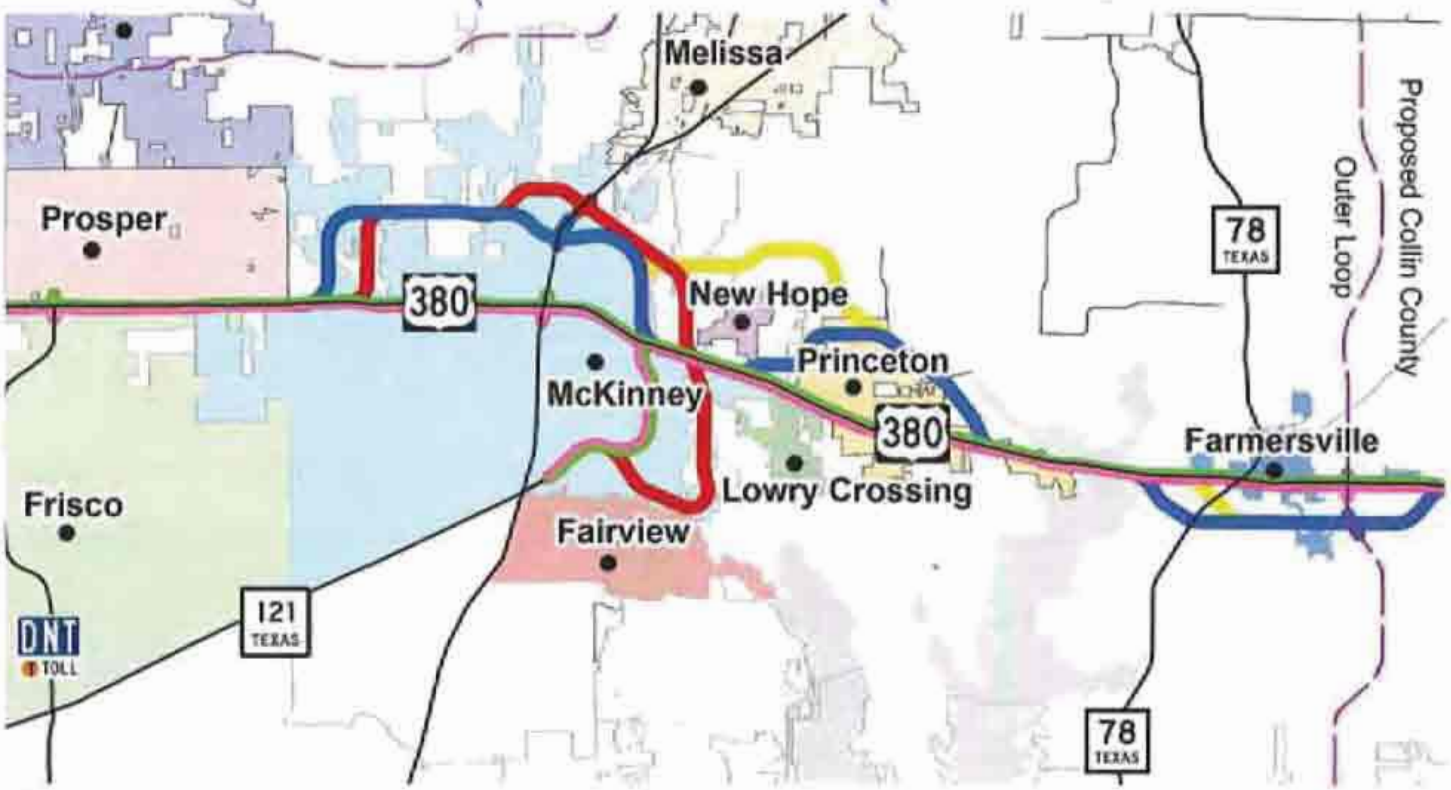

TEXAS DEPARTMENT OF TRANSPORTATION

DRIVE 380
PLANNING FOR THE FUTURE

US 380 Collin County Feasibility Study Survey (Page 2)

4. Do you support the building of a freeway regardless of alignment?

Yes, but not in the middle of the cities; the green + pink alignments are awful + would be way too expensive to displace all those businesses.

5. If US 380 is constructed as a freeway, which alignment do you prefer?

___ A. The Green/Pink Alignment

✓ B. The Blue Alignment

___ C. The Red Alignment

___ D. The Yellow Alignment

___ E. I Do Not Support Building a Freeway.

6. Which alignment(s) do you prefer in: (write all that apply)

A. McKinney (Green, Pink, Blue, Red, and/or None)? blue, red

B. Princeton (Green, Pink, Blue, Yellow, and/or None)? blue

C. Farmersville (Green, Pink, Blue, Yellow, and/or None)? blue

D. I Do Not Support Building a Freeway. ___

How often do you drive on US 380? (Circle any) (Daily) Weekly Monthly A few times a year Never

1. Do you have concerns with the exisiting US 380?

yes congested

2. If US 380 is congested, what alternative routes do you take?

usually go to the south to Virginia. However, If I have business or shopping on 380 I just stay on.

3. What solutions would you suggest in the US 380 Corridor?

make 380 more efficient -

(1) create turn lanes

(2) go over or under at major intersections

(3) build out East & west arterials - Bloomdale & Wilmeth. This is probably the jurisdiction of McKinney but if these roads were built out to 4 or 6 lanes a great deal of local traffic would be diverted from 380

(4) widen 380 where possible

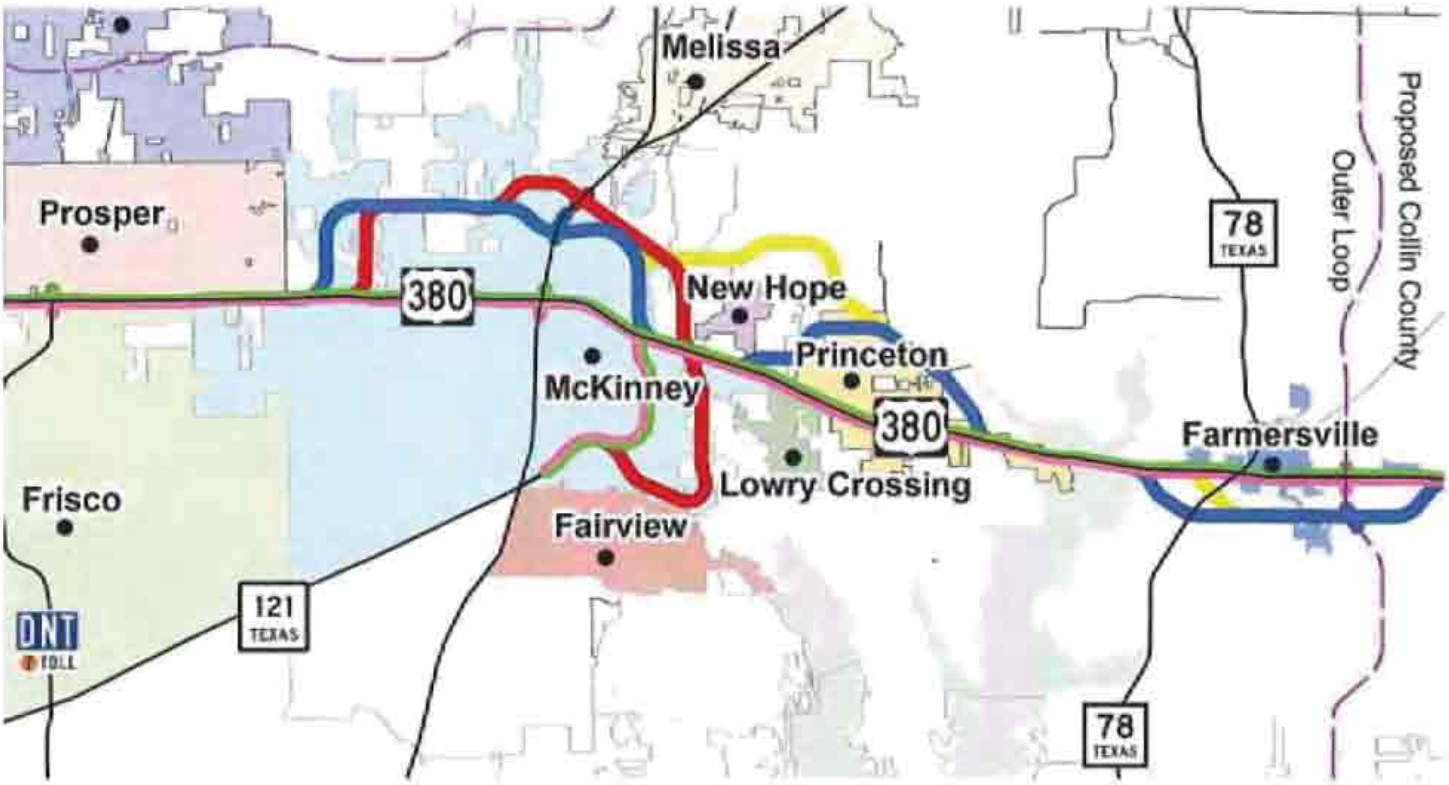

TEXAS DEPARTMENT OF TRANSPORTATION

What is your interest in this study? (Circle any) Commuter Business Owner (Property Owner) Nearby resident Other

How often do you drive on US 380? (Circle any) Daily (Weekly) Monthly A few times a year Never

1. Do you have concerns with the exisiting US 380?

There are insufficient connected sidewalks for pedestrians.

2. If US 380 is congested, what alternative routes do you take?

El Dorado, Wilmeth, White

3. What solutions would you suggest in the US 380 Corridor?

Buying up property along the pink/green alignment would probably lead to the most disenfranchisement of the community that this would ultimately, ostensibly serve. That said, all of the alignments share the same issue: they necessitate automobile traffic. High density, public transportation could be scaleable to increasing population which would both alleviate burdens on existing roadways and decrease the likelihood that we have to visit this again in 20 years when we reach capacity. A combination of street widening plus public transit will best answer our traffic problems.

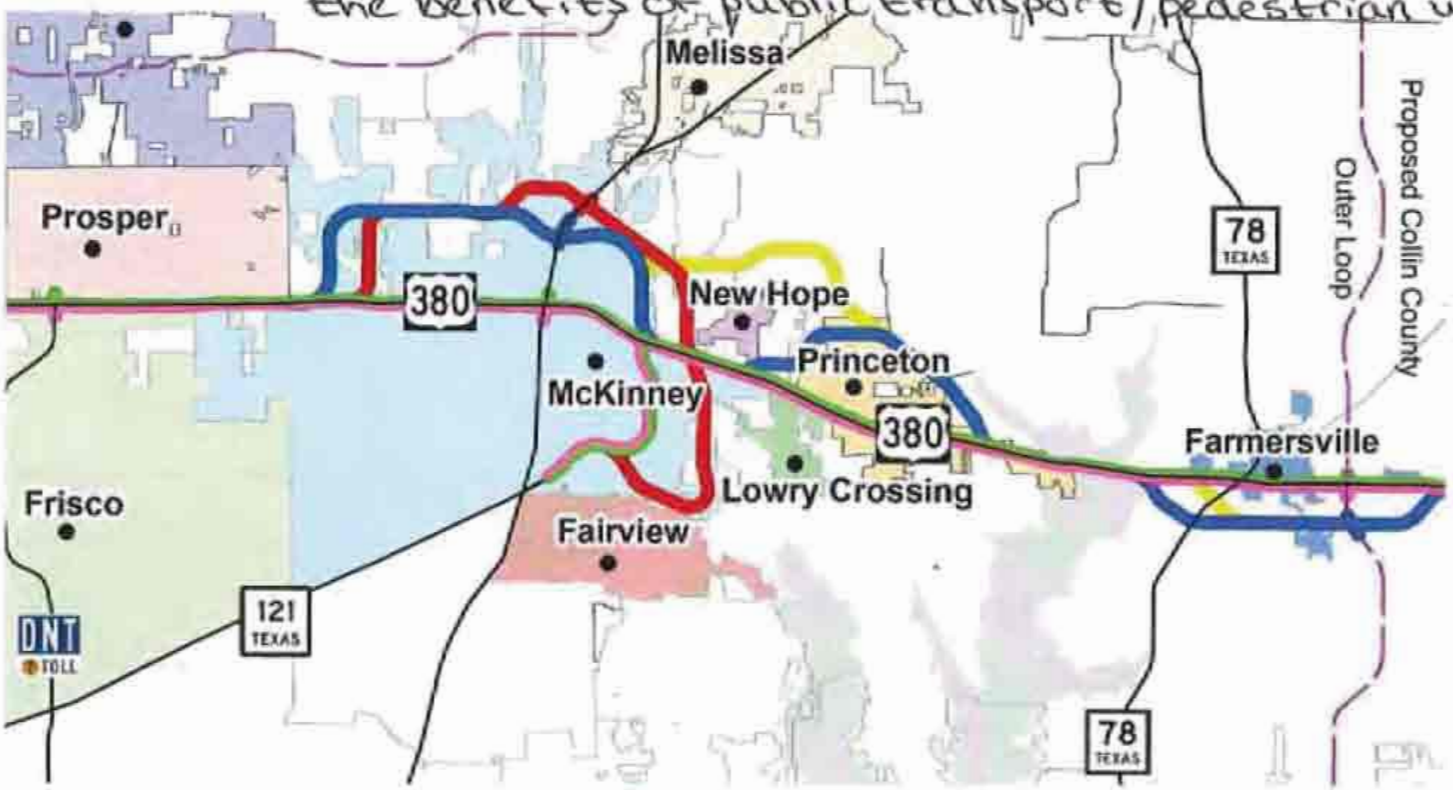

TEXAS DEPARTMENT OF TRANSPORTATION

DRIVE 380 PLANNING FOR THE FUTURE

US 380 Collin County Feasibility Study Survey (Page 2)

4. Do you support the building of a freeway regardless of alignment?

No. We cannot have an attitude of "we need it at all costs" which seems to be implied here. The presentation slides seem to favor this as the "only" option downplaying (disregarding?) the benefits of public transport/pedestrian ways

5. If US 380 is constructed as a freeway, which alignment do you prefer?

___ A. The Green/Pink Alignment

___ B. The Blue Alignment

___ C. The Red Alignment

Z D. The Yellow Alignment

X E. I Do Not Support Building a Freeway.

How often do you drive on US 380? (Circle any) (Daily) Weekly Monthly A few times a year Never

1. Do you have concerns with the exisiting US 380?

Of course! Too Congested, people drive too fast and pass on medians + shoulders

2. If US 380 is congested, what alternative routes do you take?

Any I can find, typically Bridgefarmer to McKinney or Back Rds to New Hope

3. What solutions would you suggest in the US 380 Corridor?

Better Medians

More Police presence in ticketing

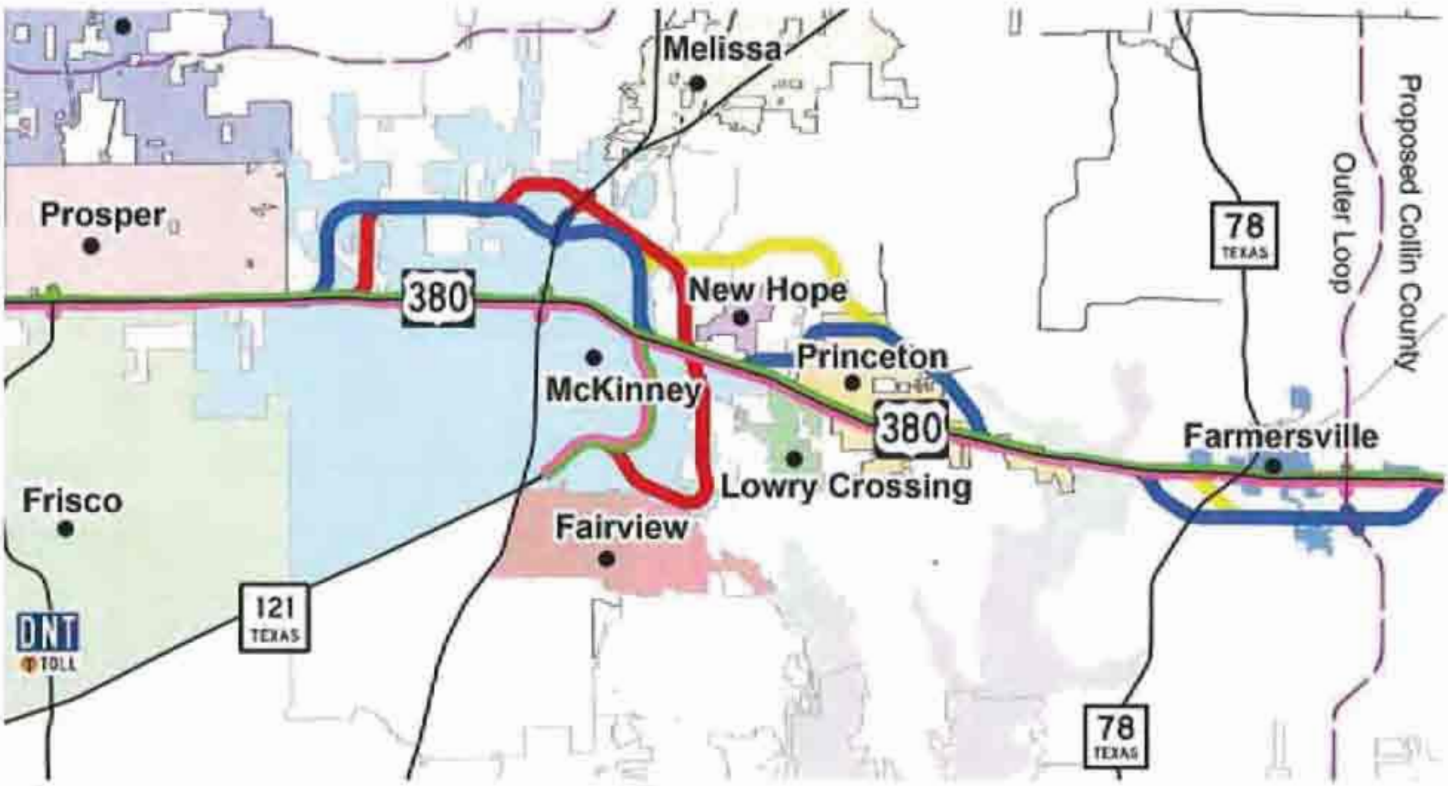

TEXAS DEPARTMENT OF TRANSPORTATION

DRIVE 380

US 380 Collin County Feasibility Study Survey (Page 2)

4. Do you support the building of a freeway regardless of alignment?

No, I support the alignment which affects homeowners the least NOT Commercial interests the most.

5. If US 380 is constructed as a freeway, which alignment do you prefer?

___ A. The Green/Pink Alignment

___ B. The Blue Alignment

___ C. The Red Alignment

✓ D. The Yellow Alignment

___ E. I Do Not Support Building a Freeway.

What is your interest in this study? (Circle any) (Commuter) Business Owner (Property Owner) (Nearby resident) Other

How often do you drive on US 380? (Circle any) (Daily) Weekly Monthly A few times a year Never

1. Do you have concerns with the exisiting US 380?

Yes. It is a dangerous road in Princeton. Too many driveways have been permitted, and there are lots of congestion

2. If US 380 is congested, what alternative routes do you take?

From Princeton I head south on farm to market roads into Parker, and on to Plano.

3. What solutions would you suggest in the US 380 Corridor?

I think an alternate route is needed to relieve traffic on 380. The type of land use, and intensity of development along 380 in Princeton is not conducive to high speeds and large amounts of traffic. An alternative route should be preferred so the current 380 can become a local thoroughfare for Princeton, not a regional highway. If ~~the~~ ~~alignments~~ a freeway is built in the current right-of-way many neighborhoods and businesses would be adversely affected. Put the freeway north of Princeton. In the meantime dedicated left-turn lanes are needed in areas of intense development, like near Wal-Mart in Princeton. That suicide middle turn lane is terrible.

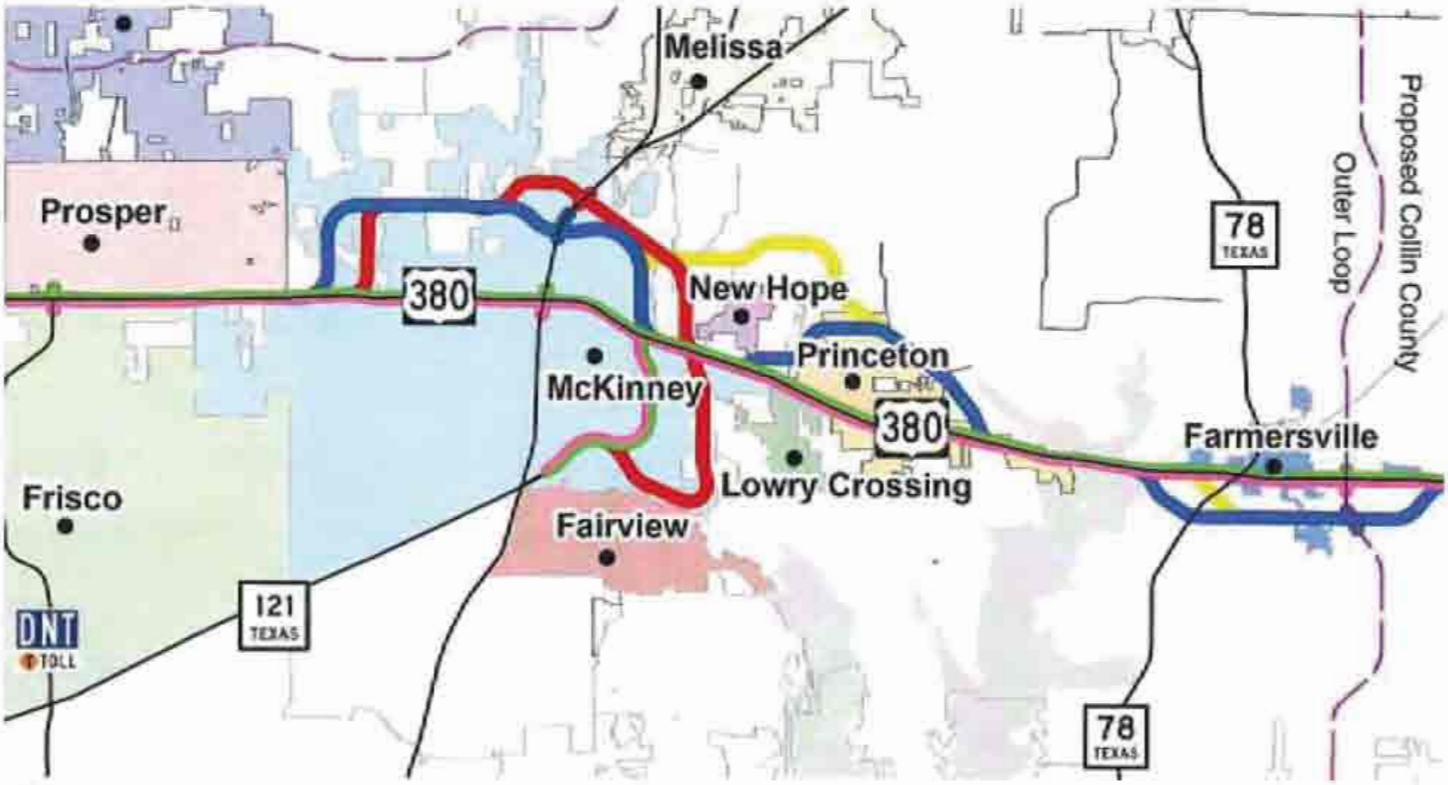

TEXAS DEPARTMENT OF TRANSPORTATION

DRIVE 380

US 380 Collin County Feasibility Study Survey (Page 2)

4. Do you support the building of a freeway regardless of alignment?

No. the alignments cutting through intensly developed areas through McKinney and Princeton are not good. Those areas should be by-passed.

5. If US 380 is constructed as a freeway, which alignment do you prefer?

___ A. The Green/Pink Alignment

X B. The Blue Alignment

___ C. The Red Alignment

___ D. The Yellow Alignment

___ E. I Do Not Support Building a Freeway.

6. Which alignment(s) do you prefer in: (write all that apply)

How often do you drive on US 380? (Circle any) (Daily) Weekly Monthly A few times a year Never

1. Do you have concerns with the exisiting US 380?

OUR MAILBOX IS ON 380 :: TOO MANY ACCIDENTS BETWEEN LAKE LAVON AND HIGHWAY 5 / MURPHY RD

2. If US 380 is congested, what alternative routes do you take?

SOUTH OF 380 ; OFF 982 S TO SYG ⇒ ONLY EASIER EAST/WEST OPTION TO 75/121

3. What solutions would you suggest in the US 380 Corridor?

ALL IDEAS SHOULD ROUTE TRAFFIC (NORTH OF 380) AS GROWTH WILL CONTINUE ACROSS THAT CORRIDOR.

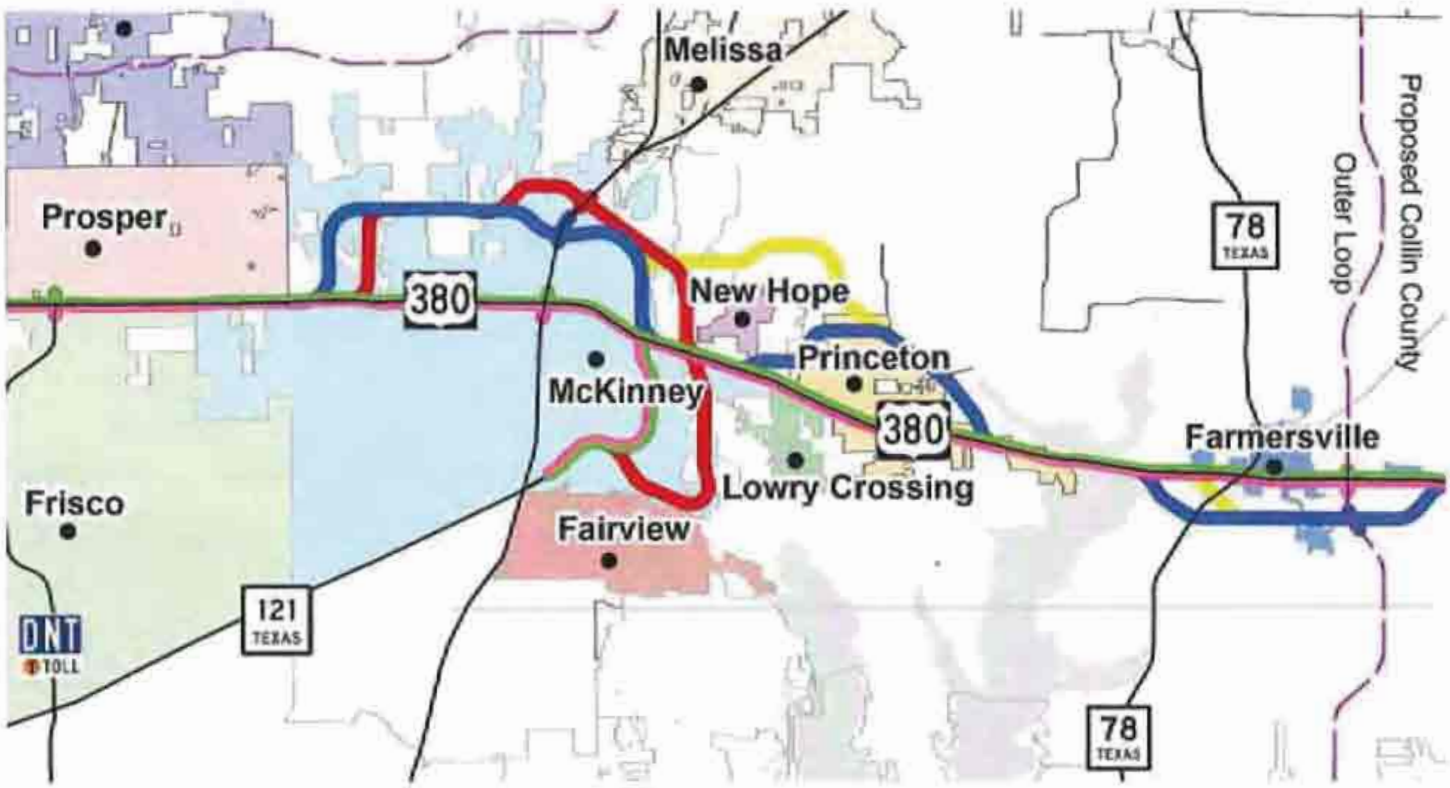

TEXAS DEPARTMENT OF TRANSPORTATION

DRIVE 380

US 380 Collin County Feasibility Study Survey (Page 2)

4. Do you support the building of a freeway regardless of alignment?

NO

5. If US 380 is constructed as a freeway, which alignment do you prefer?

___ A. The Green/Pink Alignment

X B. The Blue Alignment

___ C. The Red Alignment

___ D. The Yellow Alignment

___ E. I Do Not Support Building a Freeway.

6. Which alignment(s) do you prefer in: (write all that apply)

A. McKinney (Green, Pink, Blue, Red, and/or None)? BLUE

B. Princeton (Green, Pink, Blue, Yellow, and/or None)? BLUE

C. Farmersville (Green, Pink, Blue, Yellow, and/or None)? BLUE

D. I Do Not Support Building a Freeway. ___

How often do you drive on US 380? (Circle any) (Daily) Weekly Monthly A few times a year Never

1. Do you have concerns with the exisiting US 380?

Yes, very congested

2. If US 380 is congested, what alternative routes do you take?

Widen 380 as is.

3. What solutions would you suggest in the US 380 Corridor?

Stop building businesses right to the existing 380 curbside. Widen 380 provide adequate access roads and entrance and exit ramps to support business and commuter traffic.

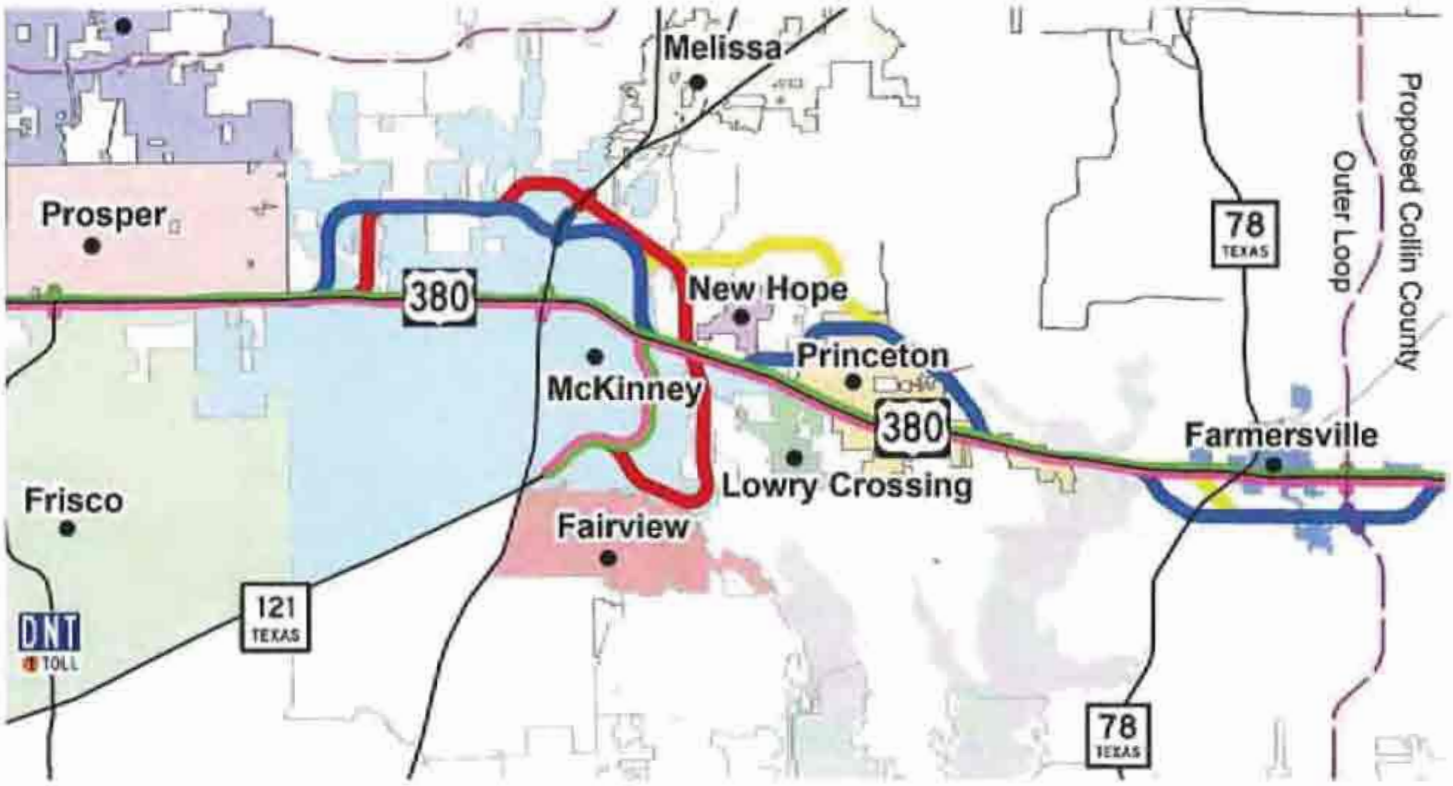

TEXAS DEPARTMENT OF TRANSPORTATION

DRIVE 380

US 380 Collin County Feasibility Study Survey (Page 2)

4. Do you support the building of a freeway regardless of alignment?

No - 380 ~~alt~~ alignment is the ONLY one that makes any sense at all.

5. If US 380 is constructed as a freeway, which alignment do you prefer?

- ✓ A. The Green/Pink Alignment
- ___ B. The Blue Alignment
- ___ C. The Red Alignment
- ___ D. The Yellow Alignment
- ___ E. I Do Not Support Building a Freeway.

6. Which alignment(s) do you prefer in: (write all that apply)

A. McKinney (Green, Pink, Blue, Red, and/or None)? Green / Pink

B. Princeton (Green, Pink, Blue, Yellow, and/or None)? _____

C. Farmersville (Green, Pink, Blue, Yellow, and/or None)? _____

D. I Do Not Support Building a Freeway. _____

How often do you drive on US 380? (Circle any) Daily Weekly Monthly A few times a year Never

1. Do you have concerns with the exisiting US 380?

I do not have any concerns with 380 except for the amount of 18 wheelers / construction trucks on 380. 380 needs a slower speed from Custer East through McKinney.

2. If US 380 is congested, what alternative routes do you take?

Never bothers me

3. What solutions would you suggest in the US 380 Corridor?

- Slower speed limits ☆☆☆
- trucks (ie) 18 wheelers / construction should stay in right hand lane

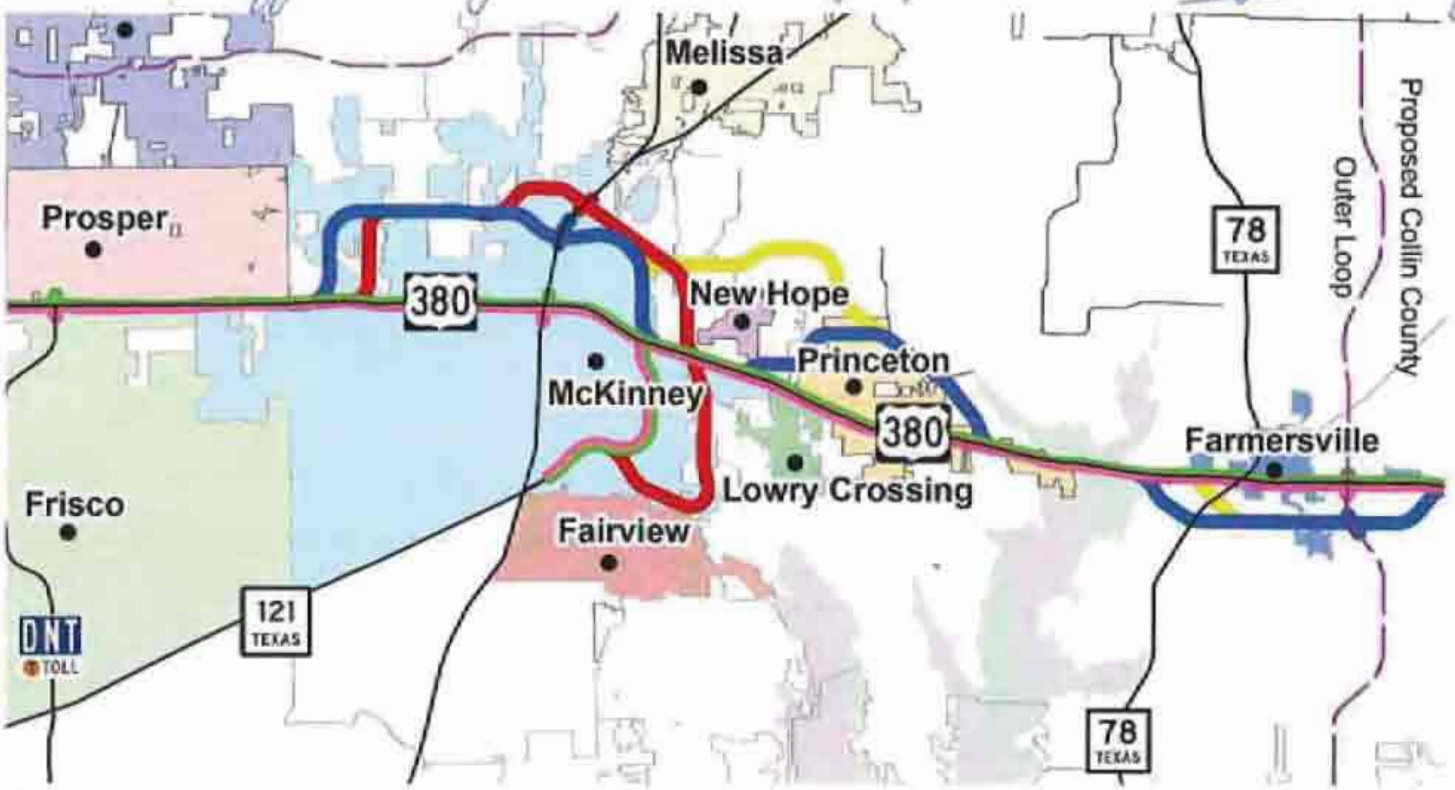

TEXAS DEPARTMENT OF TRANSPORTATION

DRIVE 380

US 380 Collin County Feasibility Study Survey (Page 2)

4. Do you support the building of a freeway regardless of alignment?

There needs to be an outer loop around McKinney instead of adding a freeway (380) OR by pass. Tucker Hill is affected by all these 5 proposals in a negative way

5. If US 380 is constructed as a freeway, which alignment do you prefer?

___ A. The Green/Pink Alignment

___ B. The Blue Alignment

___ C. The Red Alignment

___ D. The Yellow Alignment

✓ ___ E. I Do Not Support Building a Freeway.

How often do you drive on US 380? (Circle any) Daily Weekly Monthly A few times a year Never

1. Do you have concerns with the exisiting US 380?

Yes.

2. If US 380 is congested, what alternative routes do you take?

Depends on my ultimate destination.

3. What solutions would you suggest in the US 380 Corridor?

- Expand / widen US 380 in its current footprint.
- Continue with ongoing development of the Outer Loop. It makes no sense to build a bypass when the Outer Loop is in such close vicinity & is already underway.
- Preserve the unique nature of the beautiful neighborhoods – family homes – already existing that would be destroyed w/ bypass
- All of the bypass options are unacceptable – would put major freeway next to well-developed neighborhoods and schools.

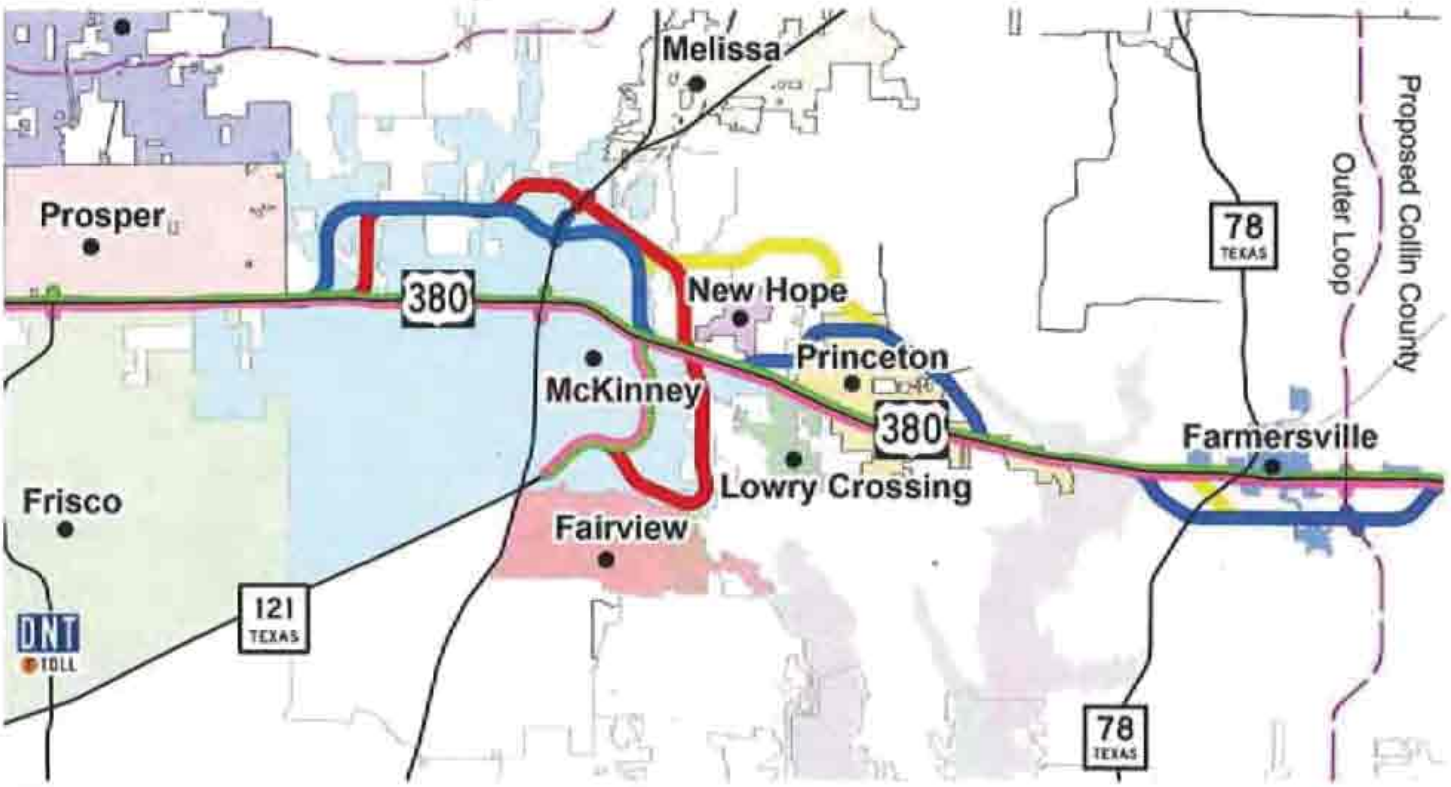

TEXAS DEPARTMENT OF TRANSPORTATION

DRIVE 380

US 380 Collin County Feasibility Study Survey (Page 2)

4. Do you support the building of a freeway regardless of alignment?

No. Not regardless of alignment. The green/pink alignment is the only one I support.

5. If US 380 is constructed as a freeway, which alignment do you prefer?

- ✓ A. The Green/Pink Alignment
- ___ B. The Blue Alignment
- ___ C. The Red Alignment
- ___ D. The Yellow Alignment
- ___ E. I Do Not Support Building a Freeway.

6. Which alignment(s) do you prefer in: (write all that apply)

A. McKinney (Green, Pink, Blue, Red, and/or None)? Green/Pink

B. Princeton (Green, Pink, Blue, Yellow, and/or None)? _____

C. Farmersville (Green, Pink, Blue, Yellow, and/or None)? _____

What is your interest in this study? (Circle any) Commuter Business Owner Property Owner (Nearby resident) Other

How often do you drive on US 380? (Circle any) (Daily) Weekly Monthly A few times a year Never

1. Do you have concerns with the exisiting US 380?

Too much TRAFFIC ... LOTS OF ACCIDENTS

2. If US 380 is congested, what alternative routes do you take?

USUALLY TAKE VIRGINIA PARKWAY

3. What solutions would you suggest in the US 380 Corridor?

LESS RED LIGHTS

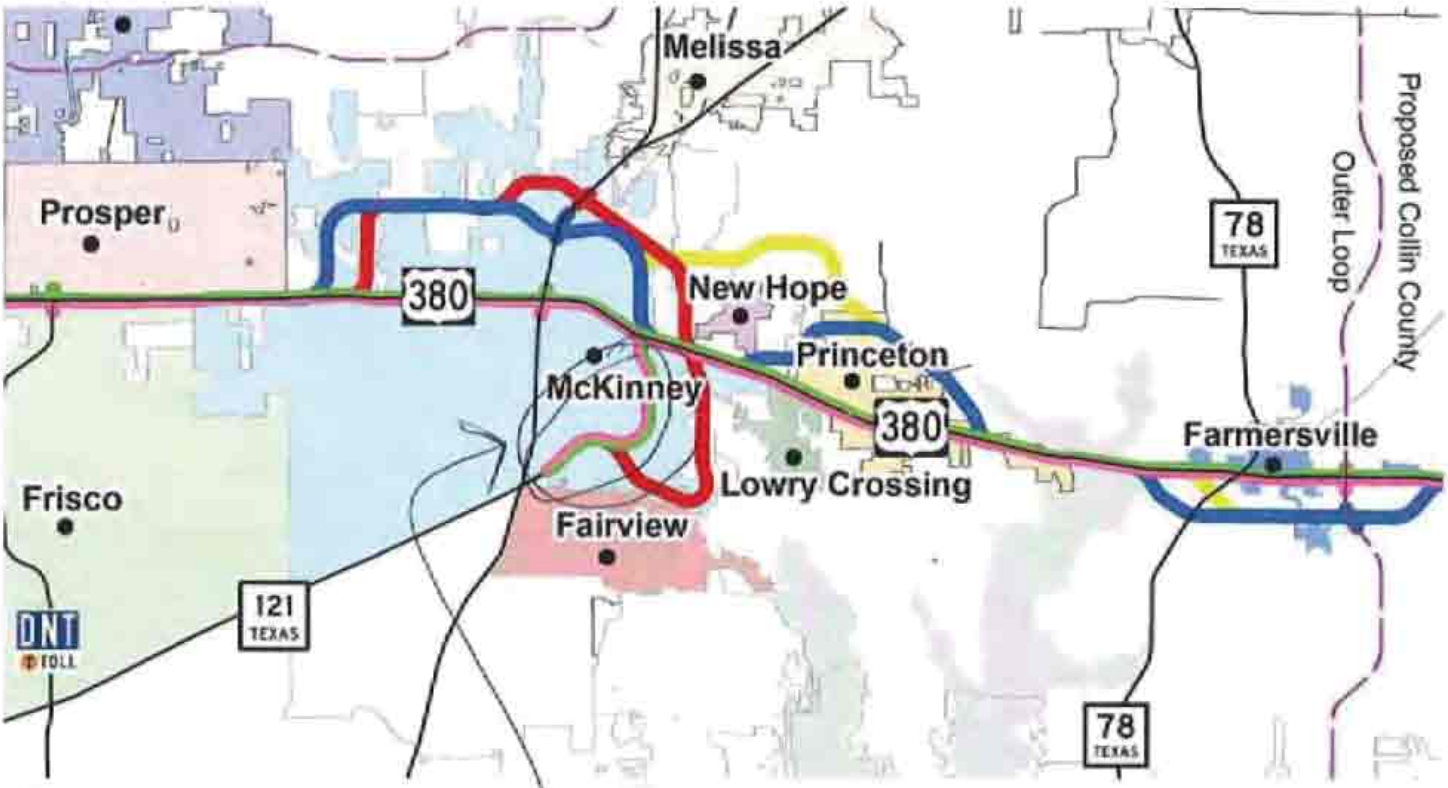

TEXAS DEPARTMENT OF TRANSPORTATION

DRIVE 380

US 380 Collin County Feasibility Study Survey (Page 2)

4. Do you support the building of a freeway regardless of alignment?

YES... BUILD IT ASAP!!!

5. If US 380 is constructed as a freeway, which alignment do you prefer?

- ✓ A. The Green/Pink Alignment
- ___ B. The Blue Alignment
- ___ C. The Red Alignment
- ___ D. The Yellow Alignment
- ___ E. I Do Not Support Building a Freeway.

6. Which alignment(s) do you prefer in: (write all that apply)

- A. McKinney (Green, Pink, Blue, Red, and/or None)? BLUE
- B. Princeton (Green, Pink, Blue, Yellow, and/or None)? YELLOW
- C. Farmersville (Green, Pink, Blue, Yellow, and/or None)? BLUE
- D. I Do Not Support Building a Freeway. ___

How often do you drive on US 380? (Circle any) (Daily) Weekly Monthly A few times a year Never

1. Do you have concerns with the exisiting US 380?

Congestion, noise + ~~Pattern~~ capacity to handle future growth.

2. If US 380 is congested, what alternative routes do you take?

- Custer + Coit down to 121
- Going East/East toll Virginia

3. What solutions would you suggest in the US 380 Corridor?

- Timing of lights
- For large intersections, consider overpass to alleviate congestions.
- Add right turn lanes
- @ 380 + 75, prioritize an interchange to alleviate traffic
- Improve other east/west arterials to provide options to 380

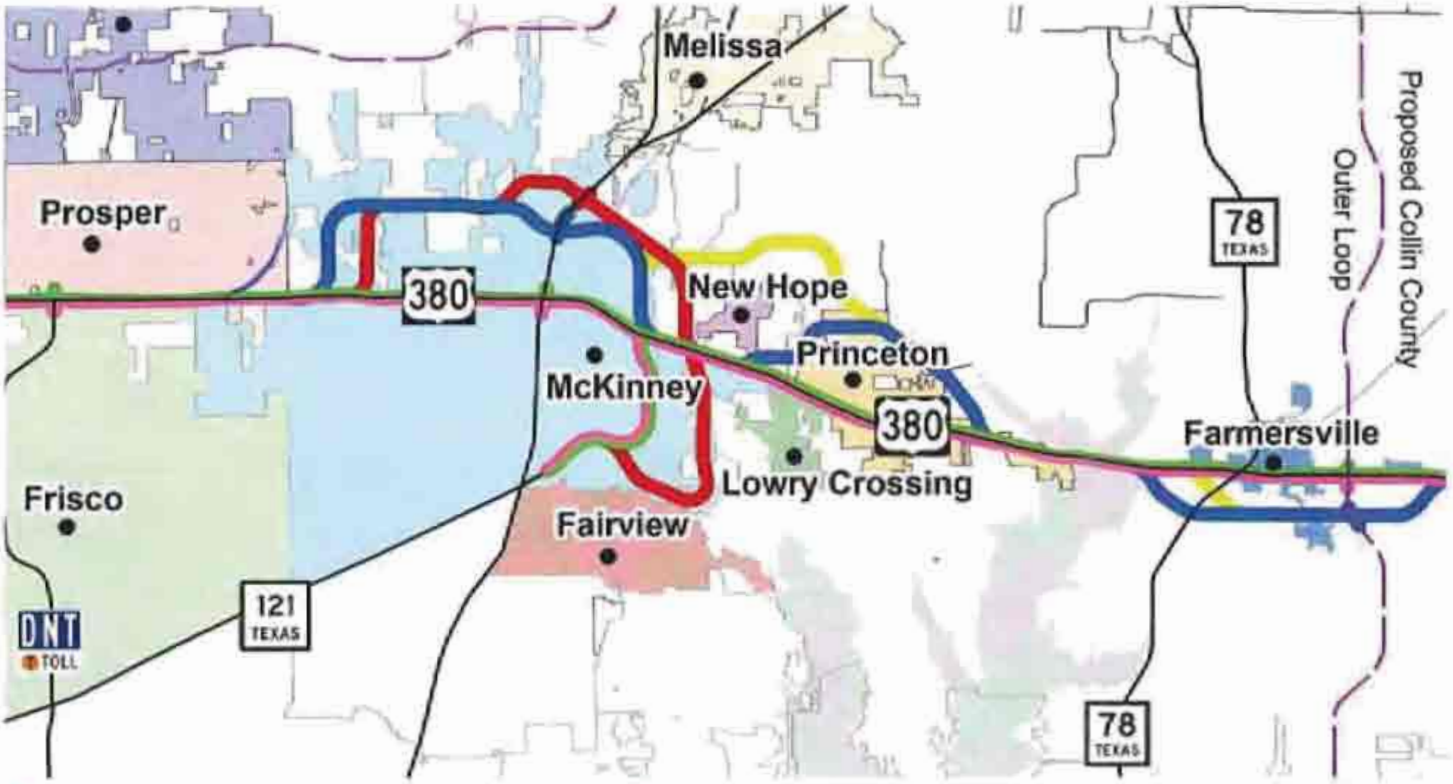

TEXAS DEPARTMENT OF TRANSPORTATION

DRIVE 380

US 380 Collin County Feasibility Study Survey (Page 2)

4. Do you support the building of a freeway regardless of alignment?

Support the idea of a freeway BUT must make sure to avoid properties.

5. If US 380 is constructed as a freeway, which alignment do you prefer?

___ A. The Green/Pink Alignment

___ B. The Blue Alignment

___ C. The Red Alignment

___ D. The Yellow Alignment

___ E. I Do Not Support Building a Freeway.

6. Which alignment(s) do you prefer in: (write all that apply)

A. McKinney (Green, Pink, Blue, Red, and/or None)? None. Need to consider alignment to west of Custer in Prosper

B. Princeton (Green, Pink, Blue, Yellow, and/or None)? _____

C. Farmersville (Green, Pink, Blue, Yellow, and/or None)? _____

D. I Do Not Support Building a Freeway. _____

How often do you drive on US 380? (Circle any) Daily Weekly Monthly A few times a year Never

1. Do you have concerns with the exisiting US 380?

yes- no median, cross traffic making turns, congestion, speed

2. If US 380 is congested, what alternative routes do you take?

lots of back roads but very inconvenient

3. What solutions would you suggest in the US 380 Corridor?

- By-pass!! not redoing the existing road
- The by pass would not interfere with existing traffic
- less homes affected by by-pass
- If they do fix existing road, they need to figure out traffic and the length of time for construction because it will be a nightmare!

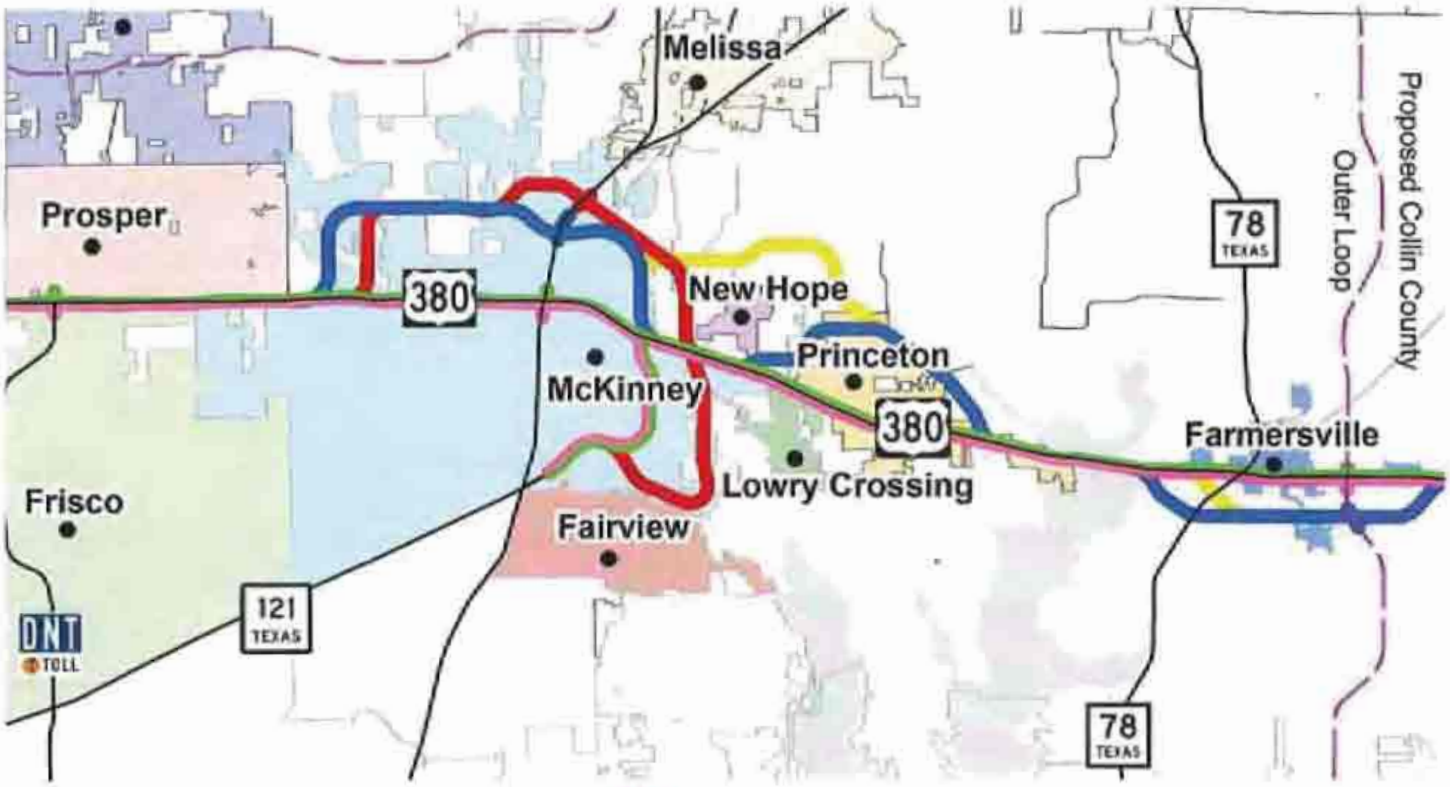

TEXAS DEPARTMENT OF TRANSPORTATION

DRIVE 380

US 380 Collin County Feasibility Study Survey (Page 2)

4. Do you support the building of a freeway regardless of alignment?

yes to some degree

How often do you drive on US 380? (Circle any) (Daily) Weekly Monthly A few times a year Never

1. Do you have concerns with the exisiting US 380?

can be congested during peak hours

2. If US 380 is congested, what alternative routes do you take?

usually just stay on 380 if I have business on 380. Otherwise I go south to Virginia Parkway

3. What solutions would you suggest in the US 380 Corridor?

- make turn lanes to help traffic keep moving
- use over or under passes for through traffic
- widen 380 where you can
- encourage McKinney or whoever is responsible to build out the northern routes, Bloomdale & Wilmeth. We have no easy, local choice to the north of 380, this would help tremendously to ease the traffic on 380

TEXAS DEPARTMENT OF TRANSPORTATION

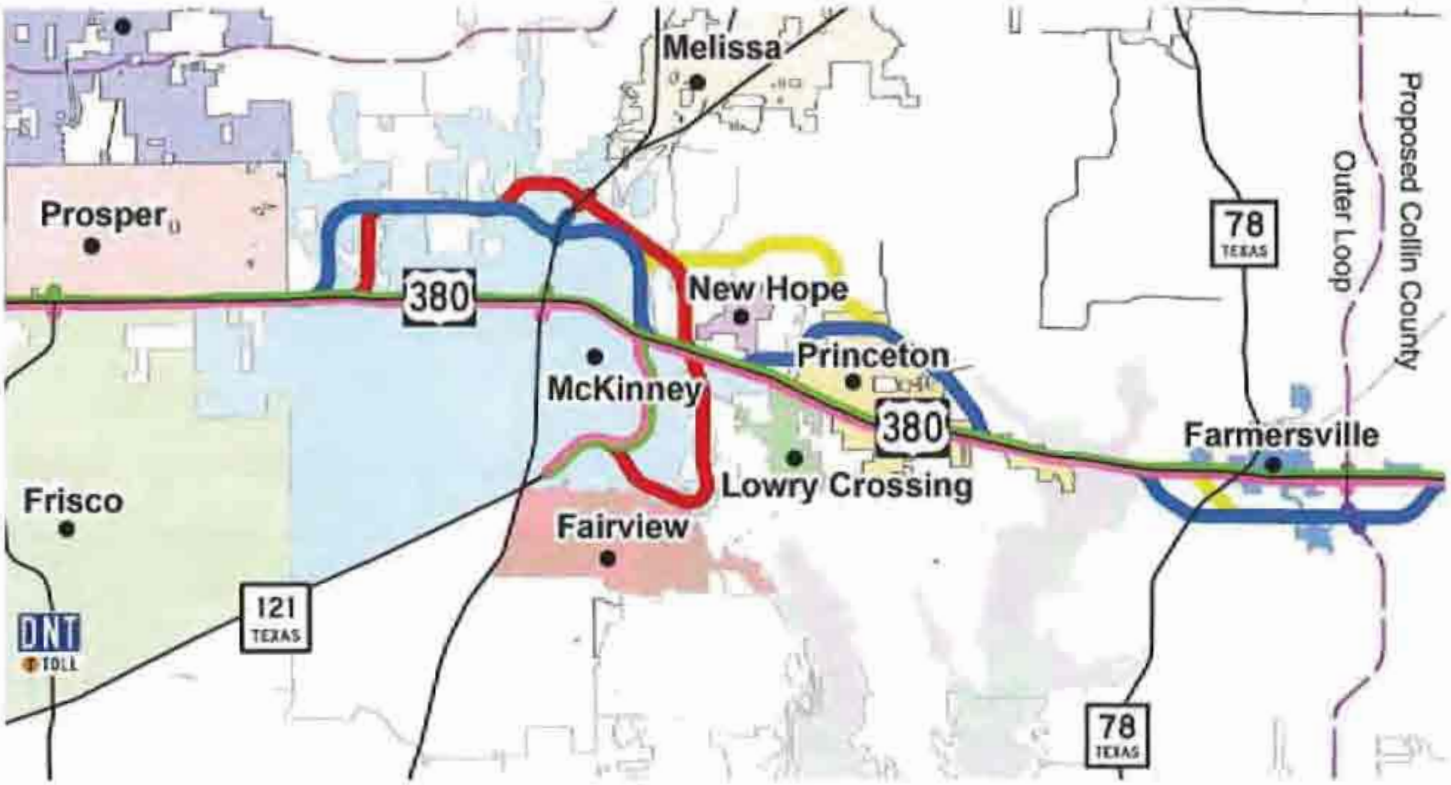

DRIVE 380

US 380 Collin County Feasibility Study Survey (Page 2)

4. Do you support the building of a freeway regardless of alignment?

No, absolutely not

Please do not destroy neighborhoods!

5. If US 380 is constructed as a freeway, which alignment do you prefer? Please spare the neighborhoods on Bloomdale

X A. The Green/Pink Alignment

___ B. The Blue Alignment

___ C. The Red Alignment

How often do you drive on US 380? (Circle any) (Daily) Weekly Monthly A few times a year Never

1. Do you have concerns with the exisiting US 380?

Speeding on Audie Murphy - Farmersville

2. If US 380 is congested, what alternative routes do you take?

None

3. What solutions would you suggest in the US 380 Corridor?

None at this time

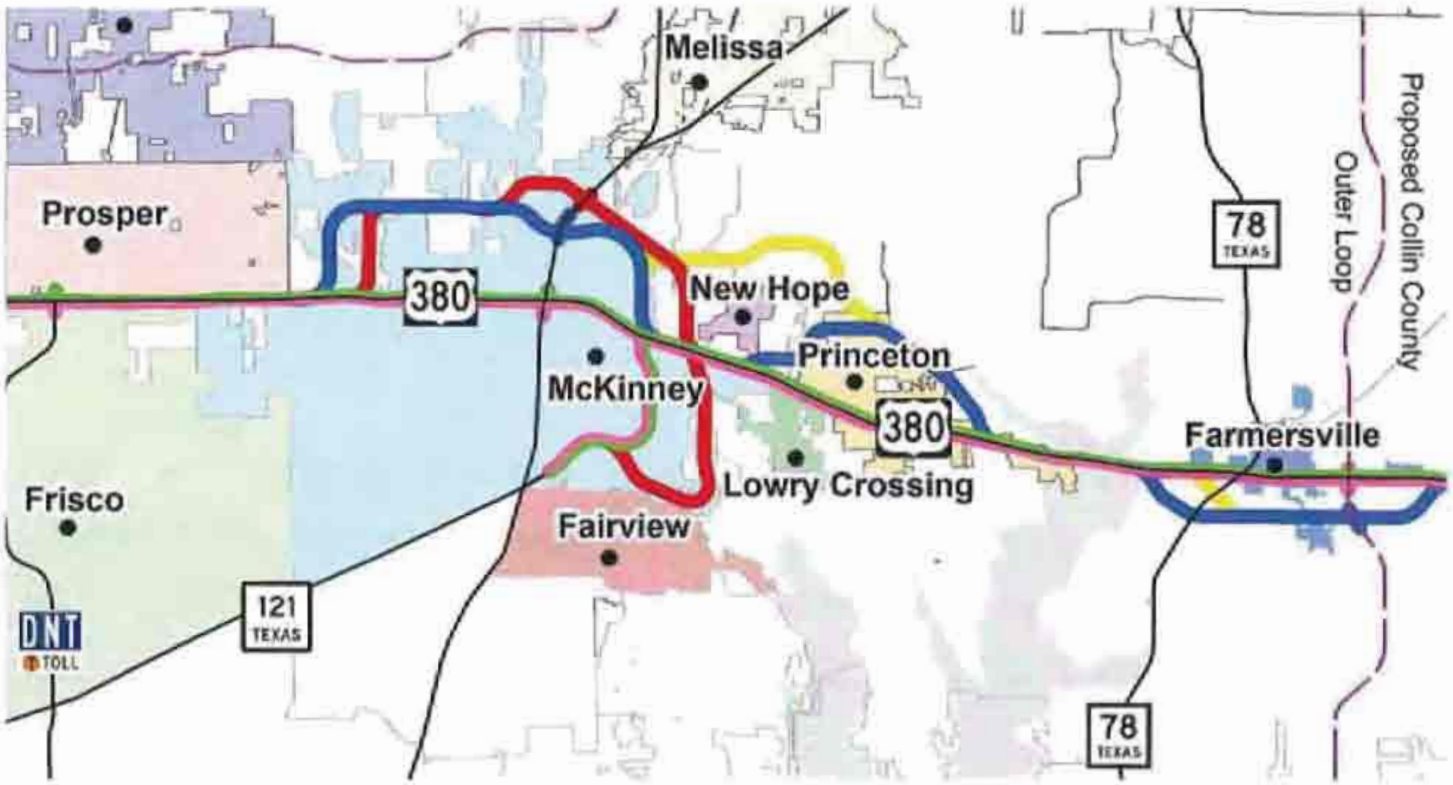

TEXAS DEPARTMENT OF TRANSPORTATION

DRIVE 380

US 380 Collin County Feasibility Study Survey (Page 2)

4. Do you support the building of a freeway regardless of alignment?

YES

5. If US 380 is constructed as a freeway, which alignment do you prefer?

- ✓ A. The Green/Pink Alignment
- ___ B. The Blue Alignment
- ___ C. The Red Alignment
- ___ D. The Yellow Alignment
- ___ E. I Do Not Support Building a Freeway.

6. Which alignment(s) do you prefer in: (write all that apply)

A. McKinney (Green, Pink, Blue, Red, and/or None)? _____

B. Princeton (Green, Pink, Blue, Yellow, and/or None)? _____

C. Farmersville (Green, Pink, Blue, Yellow, and/or None)? _____

D. I Do Not Support Building a Freeway. _____

How often do you drive on US 380? (Circle any) (Daily) Weekly Monthly A few times a year Never

1. **Do you have concerns with the exisiting US 380?**

Yes, how will my commute be affected during construction if this project gets approved?

2. **If US 380 is congested, what alternative routes do you take?**

I take the country road

3. **What solutions would you suggest in the US 380 Corridor?**

Provide affordable mass transit (buses & bus stops in major inner city roads)

Install safe turning lanes, perhaps by adding median barriers or raised medians.

* Building a freeway, in my opinion will only cause increase in more privat vehicles ownership that would lead to more traffic congestion & even noise & air pollution.

+ Maybe come up with some vehicle ownership regulation?

How often do you drive on US 380? (Circle any) (Daily) Weekly Monthly A few times a year Never

1. Do you have concerns with the exisiting US 380?

TRAFFIC IS VERY Heavy

2. If US 380 is congested, what alternative routes do you take?

I go South to White st, Virginia, Eldorado

3. What solutions would you suggest in the US 380 Corridor?

Build Freeway loop as follows - Outer loop - start North of Denton going East between Prosper and Celina to North of Mckinney/south of Melissa, North of New Hope & Princeton & down to 380 at either side of Lake Lavon - See other Side for markup.

This layout would avoid the high cost of tearing up Mckinney.

How often do you drive on US 380? (Circle any) (Daily) Weekly Monthly A few times a year Never

1. Do you have concerns with the exisiting US 380?

Yes, for what has already been completed.

2. If US 380 is congested, what alternative routes do you take?

SRT to DNT to 380

3. What solutions would you suggest in the US 380 Corridor?

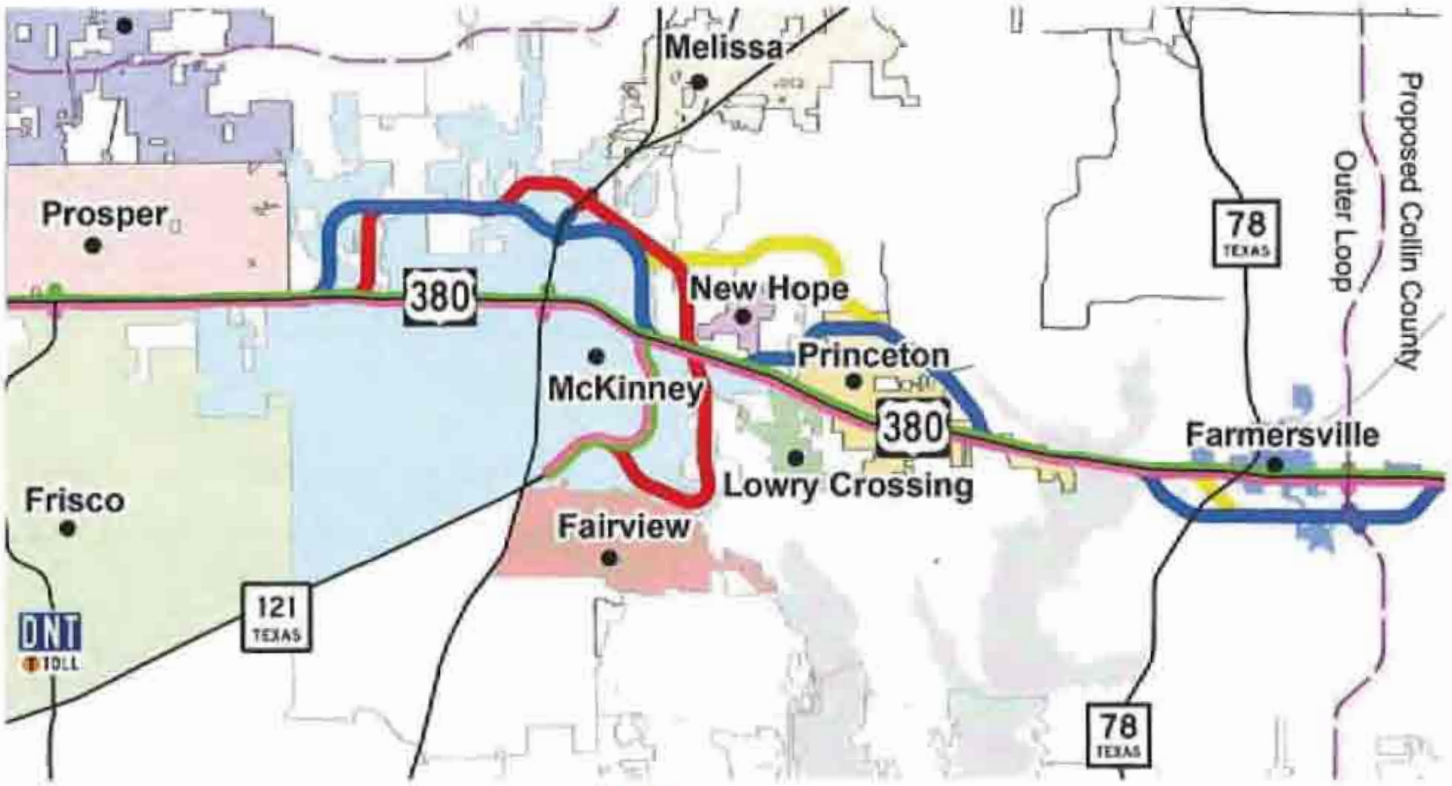

Do not move forward with adding flyons at DNT & Hwy 380. Access roads going N & S already are there. People would just exit future DNT at exit for 380 and come to existing lights and go to their planned route, either east or west on 380. Flyons are a waste of taxpayer money, they cause hazardous driving conditions (freezing) during the winter

How often do you drive on US 380? (Circle any) Daily (Weekly) Monthly A few times a year Never

1. Do you have concerns with the exisiting US 380?

Not enough Pedestrian-friendly features (Pedestrian bridges, hike-bike trails, etc...

2. If US 380 is congested, what alternative routes do you take?

White Rd, Wilmeth, El Dorado

3. What solutions would you suggest in the US 380 Corridor?

Invest in a robust Public transportation System! The problem w/ building a freeway or re-aligning/widening 380 is that it is a temporary fix, like pinching a severed artery. It might do you good for a time, but eventually you'll have to come up w/ a more permanent/useful solution. Building a new road/roads encourages development. This, in turn, brings new people/cars to the region + strains Roadways during peak travel times. It's a positive feedback loop. Training your citizens to use/depend on pub. trans. reduces the need for cars. You need busses! lots of 'em, not those shitty little shuttles.

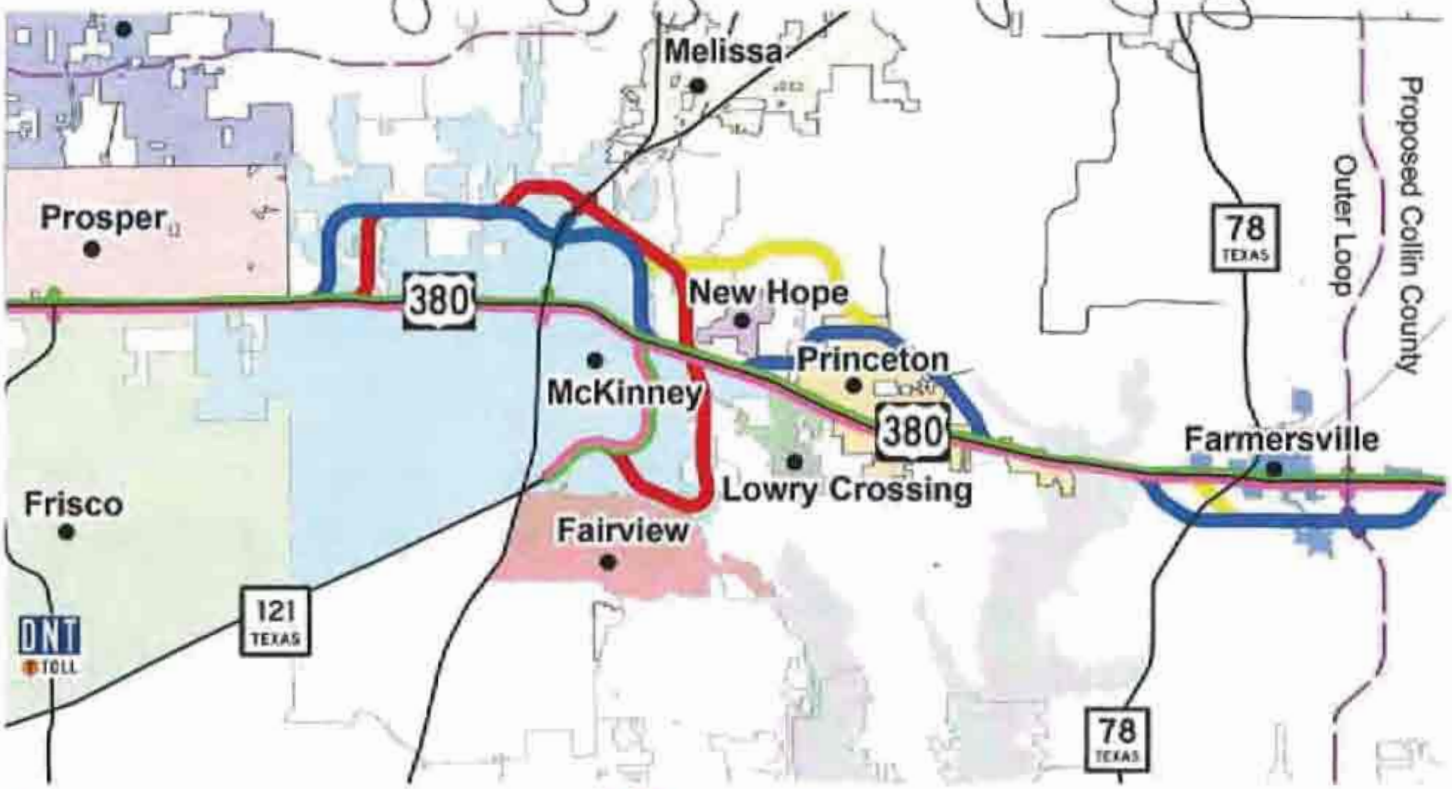

TEXAS DEPARTMENT OF TRANSPORTATION

DRIVE 380

US 380 Collin County Feasibility Study Survey (Page 2)

4. Do you support the building of a freeway regardless of alignment?

You can't reduce a problem of this scale to a simple "yes" or "no" answer, therefore I refuse to respond. If you're going to do it, you're going to do it.

5. If US 380 is constructed as a freeway, which alignment do you prefer?

___ A. The Green/Pink Alignment

What is your interest in this study? (Circle any) Commuter Business Owner (Property Owner) Nearby resident Other

How often do you drive on US 380? (Circle any) (Daily) (Weekly) Monthly A few times a year Never

1. Do you have concerns with the exisiting US 380?

I always have. 380 has always been dangerous but this is probably due to careless drivers

2. If US 380 is congested, what alternative routes do you take?

back roads

3. What solutions would you suggest in the US 380 Corridor?

- double deck through traffic from Hunt Co to Denton on Top
- finish the Outer loop first
- You need to think farther ahead in the future. By the time you begin any of these proposed projects they will be obsolete
- taking traffic off of the main/existing 380 + feeding it back on farther down the highway will only cause congestion where the intersections converge
- focus on the people who currently live here — not on those who may move here in the future

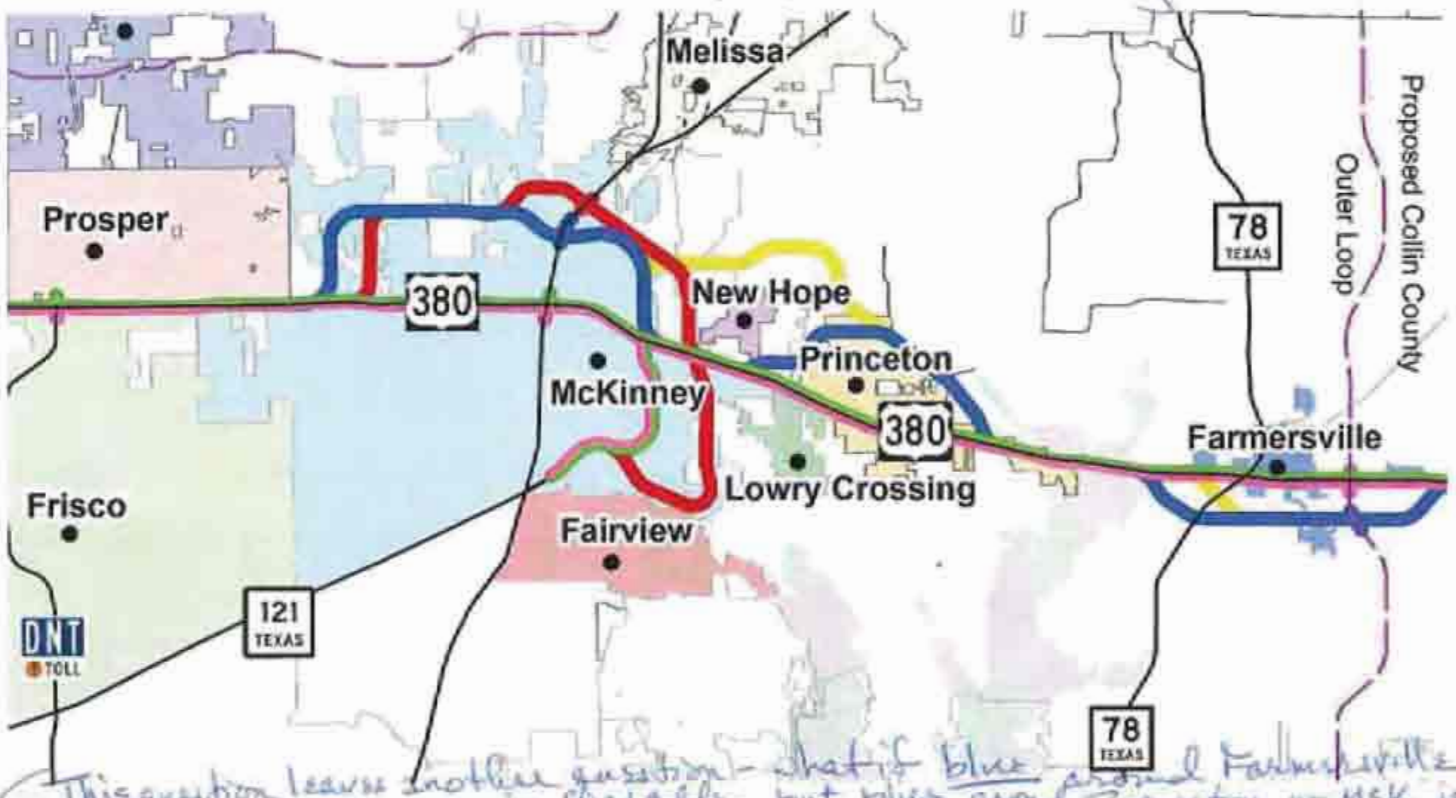

TEXAS DEPARTMENT OF TRANSPORTATION

DRIVE 380

US 380 Collin County Feasibility Study Survey (Page 2)

4. Do you support the building of a freeway regardless of alignment?

No, I am against any and all bypasses. These impact neighborhoods that have been established, some for decades. Think about the people who already live here.

This question leaves another question - what if blue around Farmersville is desirable but blue around Princeton or McK is not?

5. If US 380 is constructed as a freeway, which alignment do you prefer?

___ A. The Green/Pink Alignment

NO ___ B. The Blue Alignment

NO ___ C. The Red Alignment

NO ___ D. The Yellow Alignment

___ E. I Do Not Support Building a Freeway.

6. Which alignment(s) do you prefer in: (write all that apply)

A. McKinney (Green, Pink, Blue, Red, and/or None)? green pink

B. Princeton (Green, Pink, Blue, Yellow, and/or None)? green pink

C. Farmersville (Green, Pink, Blue, Yellow, and/or None)? green pink

How often do you drive on US 380? (Circle any) Daily Weekly Monthly A few times a year Never

1. Do you have concerns with the exisiting US 380?

Yes. Traffic after 4 p.m. going east bound from McKinney is crazy. Too many wrecks

2. If US 380 is congested, what alternative routes do you take?

I often take Airport Road from McKinney & meander through the county.

3. What solutions would you suggest in the US 380 Corridor?

More lanes on 380- divided with a median that cannot be easily crossed. Need sound edging on shoulder so people cannot drive off of the road as easily when intoxicated or sleepy. Ready for 380 to stop killing people.

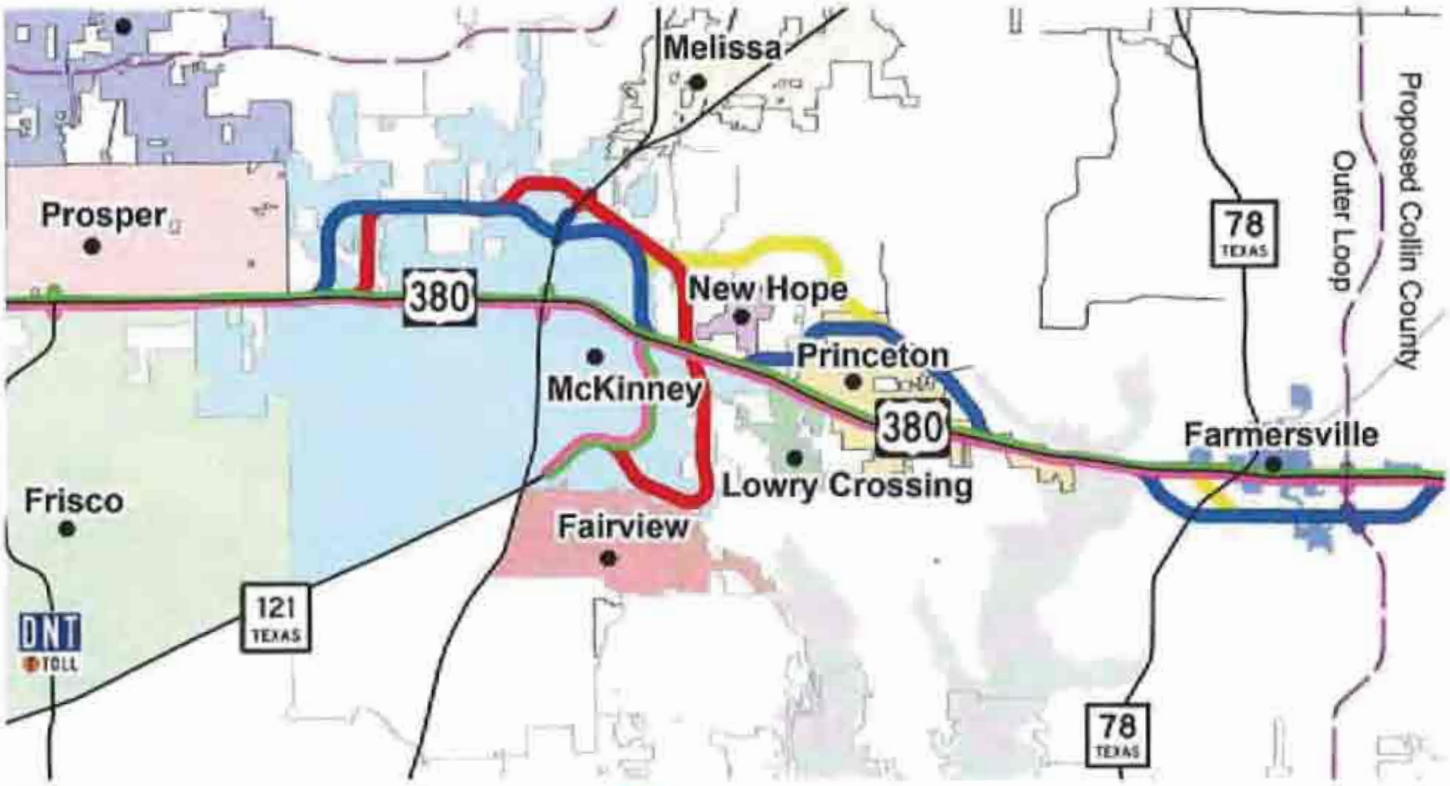

TEXAS DEPARTMENT OF TRANSPORTATION

DRIVE 380

4. Do you support the building of a freeway regardless of alignment?

NO

5. If US 380 is constructed as a freeway, which alignment do you prefer?

___ A. The Green/Pink Alignment

___ B. The Blue Alignment

___ C. The Red Alignment

___ D. The Yellow Alignment

✓ E. I Do Not Support Building a Freeway.

6. Which alignment(s) do you prefer in: (write all that apply)

A. McKinney (Green, Pink, Blue, Red, and/or None)? _____

B. Princeton (Green, Pink, Blue, Yellow, and/or None)? _____

C. Farmersville (Green, Pink, Blue, Yellow, and/or None)? _____

D. I Do Not Support Building a Freeway. ✓

THANK YOU

TEXAS DEPARTMENT OF TRANSPORTATION

WELCOME

US 380 COLLIN COUNTY FEASIBILITY STUDY

DALLAS DISTRICT
PUBLIC MEETING

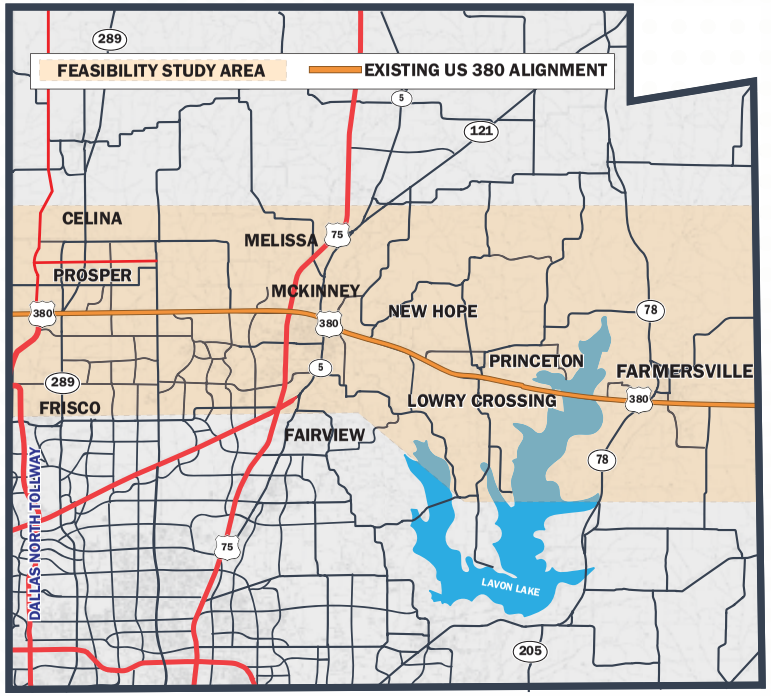

APRIL 26, 2018
6:00 P.M. TO 8:00 P.M.

The environmental review, consultation, and other actions required by applicable Federal environmental laws for this project is being, or has been, carried out by TxDOT pursuant to 23 U.S.C. 327 and a Memorandum of Understanding dated December 16, 2014, and executed by FHWA and TxDOT.

TEXAS DEPARTMENT OF TRANSPORTATION

WELCOME

US 380 COLLIN COUNTY FEASIBILITY STUDY

DALLAS DISTRICT
PUBLIC MEETING

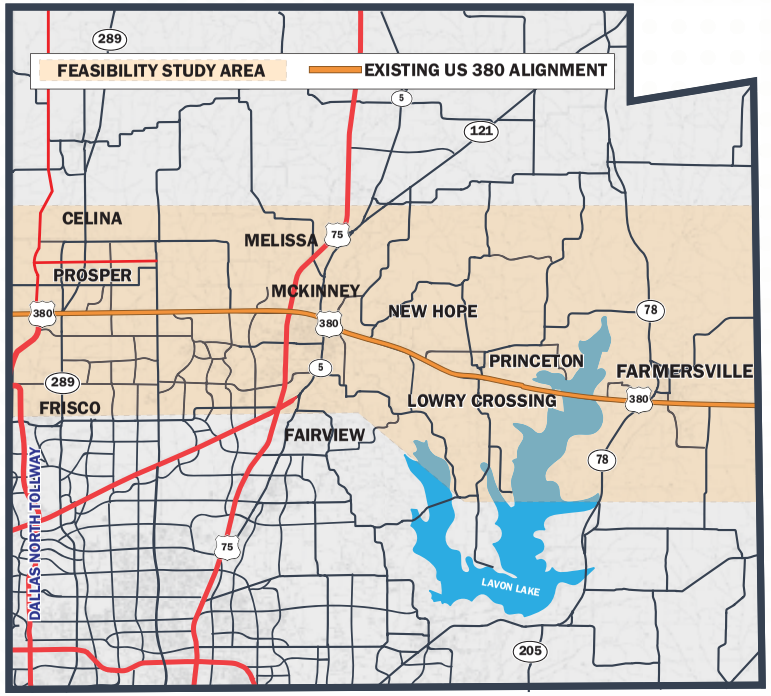

MAY 1, 2018
6:00 P.M. TO 8:00 P.M.

The environmental review, consultation, and other actions required by applicable Federal environmental laws for this project is being, or has been, carried out by TxDOT pursuant to 23 U.S.C. 327 and a Memorandum of Understanding dated December 16, 2014, and executed by FHWA and TxDOT.

TEXAS DEPARTMENT OF TRANSPORTATION

WELCOME

US 380 COLLIN COUNTY FEASIBILITY STUDY

DALLAS DISTRICT
PUBLIC MEETING

MAY 3, 2018
6:00 P.M. TO 8:00 P.M.

The environmental review, consultation, and other actions required by applicable Federal environmental laws for this project is being, or has been, carried out by TxDOT pursuant to 23 U.S.C. 327 and a Memorandum of Understanding dated December 16, 2014, and executed by FHWA and TxDOT.

Presentation at 7:00 p.m.

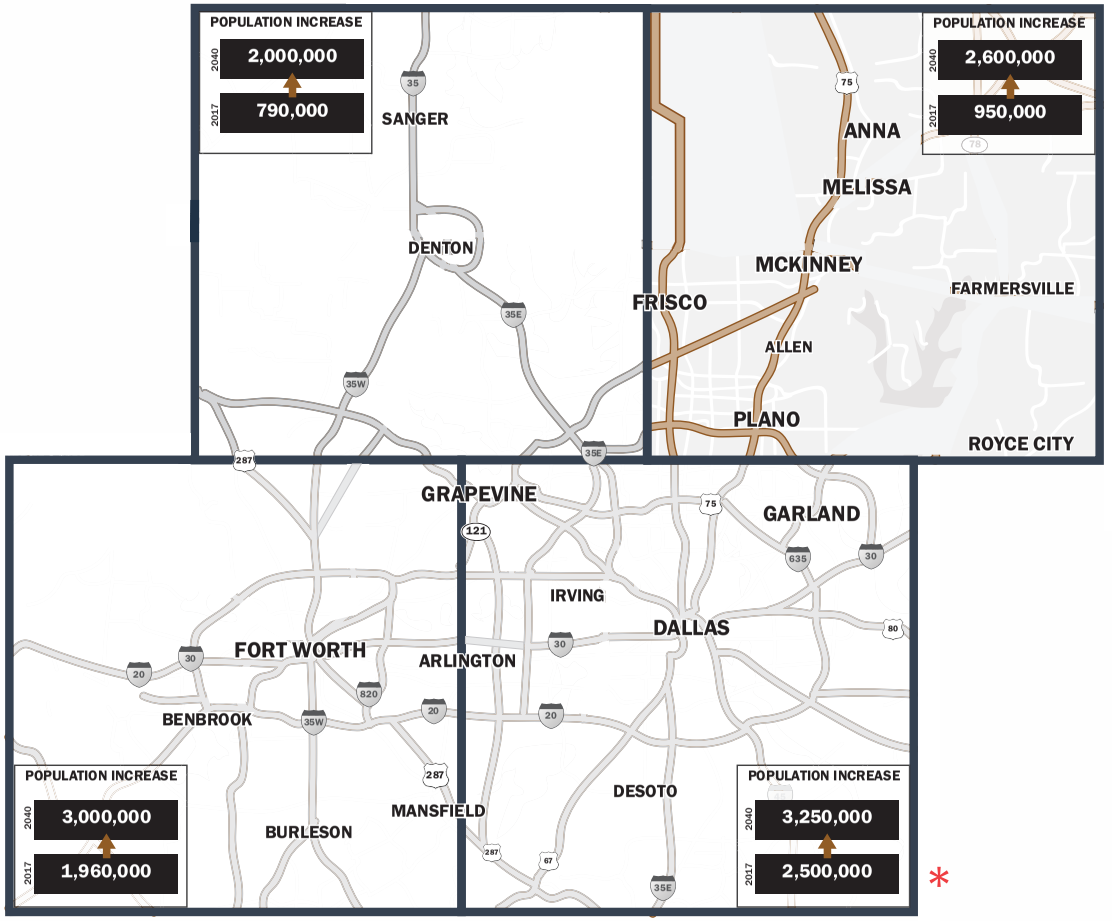

TEXAS DEPARTMENT OF TRANSPORTATION

YOUR COMMUNITY IS GROWING AND THRIVING

In 2017 Collin County's population was 969,603 making it one of the most populous counties in Texas. From 2017 to 2040, Collin County's population is expected to increase up to 166%.

---

* By 2040, Collin County population could be larger than Dallas County was in 2017 - with less infrastructure to support the projected growth.

TEXAS DEPARTMENT OF TRANSPORTATION

TxDOT IS WORKING WITH CITY, COUNTY, AND AGENCY PARTNERS TO UNDERSTAND FUTURE NEEDS.

The goal of the study is to identify a corridor to better serve the community.

This is just the beginning.

ALONG WITH PARTNERS, WE ARE EVALUATING:

- Traffic needs in the future for the area
- ROW preservation/acquisition through land use planning and purchases
- Impacts on the environment including both how a corridor could affect both people who live here and our natural surroundings

TEXAS DEPARTMENT OF TRANSPORTATION

TxDOT HAS DONE EXTENSIVE ANALYSIS OF THE NEED AND POTENTIAL SOLUTIONS.

Planning the next steps for the US 380 corridor will take time
- that is why it is so important that we start NOW to plan for the future.

FEASIBILITY STUDY

CORRIDOR IDENTIFIED

CORRIDOR IS SEPARATED INTO INDEPENDENT PROJECTS AND PRIORITIZED

ENVIRONMENTAL STUDY AND DESIGN SCHEMATIC

FINAL DESIGN, CONSTRUCTION PLANS, COST ESTIMATES, AND UTILITIES COORDINATION

PHASED CONSTRUCTION

FUNDING HAS NOT BEEN IDENTIFIED FOR ANY PHASE PAST THE FEASIBILITY STUDY.
TOLLING IS NOT BEING CONSIDERED AS AN OPTION FOR FUNDING.

ROW PRESERVATION/ACQUISITION THROUGH LAND USE PLANNING AND PURCHASES

WE ARE HERE

INPUT FROM THE PUBLIC IS IMPORTANT AND CONSIDERED BY TxDOT AT EVERY PHASE OF PROJECT DEVELOPMENT

TEXAS DEPARTMENT OF TRANSPORTATION

NO NEW IMPROVEMENTS ON US 380

- Maintains current alignment
- 6 lanes
- Safety concerns
- Rated in engineering terms as an “F” level of service (the worst)

GRADE SEPARATED INTERSECTIONS

- Maintains current alignment but allows drivers to bypass select major intersections
- 6 lanes - frontage road lanes at some intersections
- Restrict access to improve safety
- Rated in engineering terms as an “F” level of service
- $$

FREEWAY

- Multiple alignment options
- 6 lanes - 2 frontage road lanes
- Improvements in safety. No signalized intersections.
- Rated in engineering terms as an “B” level of service depending on alignment
- $$$$$

ALL OPTIONS INCLUDE IMPROVED ARTERIALS AND CONSTRUCTION OF THE COLLIN COUNTY OUTER LOOP.

TEXAS DEPARTMENT OF TRANSPORTATION

EVALUATION CRITERIA:	NO NEW IMPROVEMENTS ON US 380	GRADE SEPARATED INTERSECTIONS	FREEWAY
Enhances Safety	○	◑	◕
Reduces Existing Congestion	○	◑	●
Regional Mobility	○	◔	●
Minimizes Future Congestion Expected from Growth	○	◔	●
Cost	$$$$$	$$$$$	$$$$$
Supports Future Economic Growth	○	◔	●
TOTAL SCORE	◔	◑	◕

TEXAS DEPARTMENT OF TRANSPORTATION

TxDOT NEEDS YOUR HELP AND INPUT TO SHAPE THE NEXT STEPS OF THE STUDY.

EXTENSIVE ANALYSIS POINTS TO A FREEWAY AS THE MOST SAFE AND EFFICIENT OPTION FOR US 380. YOU WILL HAVE AN OPPORTUNITY TO ASSESS DIFFERENT FREEWAY OPTIONS AND ALIGNMENTS.

- There are many ways a freeway could serve the community.
- Some of you may like a freeway along its current alignment, others may think a bypass around some cities would be better.
- Perhaps you prefer going through one community but bypassing another.

TxDOT WANTS TO HEAR FROM YOU.

TEXAS DEPARTMENT OF TRANSPORTATION

WHAT IS A FEASIBILITY STUDY?

- When a project is in the very early stages of development
- Helps determine if the project should move on to more in-depth environmental analysis, public involvement, schematic design, and right-of-way mapping
- Identifies critical elements of engineering, impacts to stakeholders and the public, and the economic feasibility of potential new roadways or improvements to existing roadways

TEXAS DEPARTMENT OF TRANSPORTATION

KEY FACTORS WE'VE EXAMINED

WE HAVE DONE EXTENSIVE ANALYSIS OF THE NEEDS OF THE COMMUNITY AND POTENTIAL SOLUTIONS.

ENGINEERING ANALYSIS

TRAFFIC ANALYSIS

SAFETY AND CRASH DATA

RIGHT-OF- WAY REQUIREMENTS

EXISTING AND PLANNED RESIDENTIAL AND COMMERCIAL DEVELOPMENTS

EXISTING AND PLANNED UTILITIES

COST AND ECONOMIC IMPACT

OTHER PLANNING EFFORTS

NATURAL AND CULTURAL RESOURCES

ENDANGERED SPECIES

LAND USE AND PARKLAND

WATER RESOURCES AND FLOOD PLAINS

HAZARDOUS MATERIALS

SOCIAL AND COMMUNITY IMPACTS

STAKEHOLDER AND PUBLIC INPUT

TEXAS DEPARTMENT OF TRANSPORTATION

MAKE YOUR WAY TO AREA 2

to preview draft alignment concepts and provide your input

TEXAS DEPARTMENT OF TRANSPORTATION

TEST OUT OUR TRAVEL TIME TOOL

Find out just how long your commute could be under each scenario

KEEP IN MIND

Draft alignments are available for your review and comment.

A final alignment has not been chosen. These are conceptual alignments.

It is possible a combination of alignment segments could be merged for comment at our next Public Meeting.

Alignments are being shown with 350 to 400 foot right of way.
Your official comments will help us decide which alignments to further refine.

TEXAS DEPARTMENT OF TRANSPORTATION

HOW TO PROVIDE INPUT

Please fill out a survey about the freeway options for US 380 in Collin County.

YOU CAN PROVIDE INPUT BY:

USING YOUR PHONE
Visit www.Drive380.com
or snap a photo of the
QR Code to access the survey.

USING A COMPUTER
Computers are available here, or
you can fill the survey out at home.
Please complete by May 18, 2018

FILLING OUT
a paper survey or comment form.

PLEASE COMPLETE BY MAY 18, 2018.

US 380 FEASIBILITY STUDY

Collin County

April 26, 2018

WELCOME

US 380 Collin County Feasibility Study

DALLAS DISTRICT
PUBLIC MEETING

APRIL 26 – MAY 1 – MAY 3, 2018
6:00 P.M - 8:00 P.M.

The environmental review, consultation, and other actions required by applicable Federal environmental laws for this project is being, or has been, carried out by TxDOT pursuant to 23 U.S.C. 327 and a Memorandum of Understanding dated December 16, 2014, and executed by FHWA and TxDOT.

Collin County Is Growing And Thriving

Population Growth

24%

INCREASE IN COLLIN COUNTY POPULATION FROM 2010 – 2017

"QuickFacts Collin County, Texas" US Census Bureau, 1 July 2017. Web. 23 April 2018.

166%

PROJECTED INCREASE IN COLLIN COUNTY POPULATION GROWTH FROM 2018 – 2040*

"2014 Texas Population Projections by Migration Scenario Data" Texas State Demographer, WEB. 23 April 2018.
**Aggressive scenario based on observed Collin County growth from 2000-2010.*

"The Dallas-Fort Worth-Arlington metro area added more people between 2015 and 2016 than any other metro in the country." *- Texas State Demographer*

Population Growth

2012

PROJECTED

BUILD OUT

1 Dot = 250 Persons

"Mobility Plan Update", *Collin County*, 2016

US 380 Today

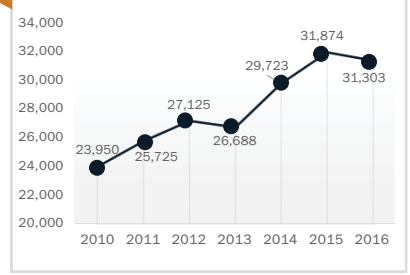

Existing Conditions
4 to 6 lane arterial
Rated in engineering terms as an F level of service (the worst)
Traffic over capacity during rush hours
Right of way between 130’ wide and 180’ wide

Traffic Increases on US 380

Location	Percent Increase (2010-2016)
Princeton	50%
West McKinney	45%
East McKinney	34%
Frisco/Prosper	14%
Farmersville	14%

Average Daily Traffic Count

Traffic volumes across US 380 in Collin County grew by 30% between 2010 and 2016.

Source: TxDOT Historical AADT Counts, 2017

Few Planned Improvements for US 380

Prosper - Frisco

- Widen from 4 to 6 lanes and add access roads
  - Denton County line to east of SH 289
  - Year Open: 2018
- New interchanges along US 380 at DNT & SH 289
  - Year Open: 2028

McKinney - Princeton

- Widen from 4 to 6 lanes with a raised median
  - Airport Road to 4th Street
  - Completion Date TBD

Princeton

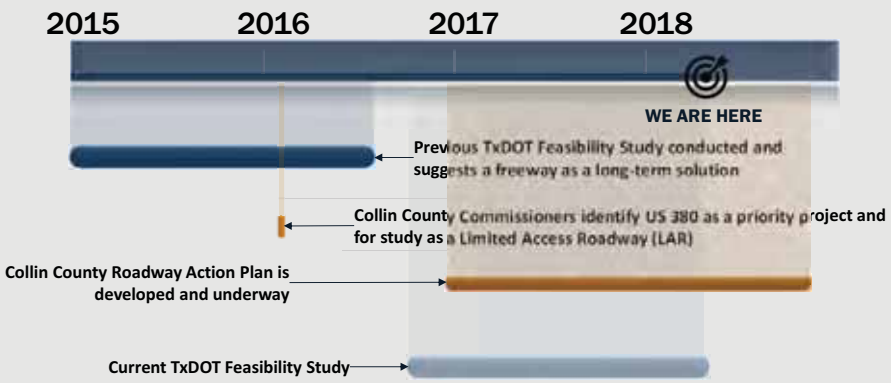

- Add raised median
  - 4th Street to CR 985
  - Undergoing Planning Studies
  - Completion Date TBD

Few additional improvements are planned for US 380 in Collin County between now and 2045.

TEXAS DEPARTMENT OF TRANSPORTATION

US 380 History

Previous US 380 Study Recommendations

2016 TxDOT Feasibility Study

Studied a wide range of potential solutions for US 380 ranging from:

- **Minor improvements**
  - Adding turn lanes
- **Moderate Improvements**
  - Constructing overpasses or underpasses at select intersections
- **Major Improvements**
  - Existing US 380 as a freeway

Final Recommendation:

A freeway "provides the best mobility and safety, and addresses the long term needs of the communities" but "an additional detailed study covering Denton, Collin, and Hunt Counties is likely necessary".

Current US 380 Feasibility Study

Purpose

Analyzed potential roadway options, including improving the existing alignment or utilizing new alignments.

- Helps determine if the project should move on to more advanced phases of project development
- Identifies high level or critical elements of engineering, impacts to stakeholders and the public, and economic feasibility of potential new roadways or improvements to existing roadways
- Not intended to result in detailed design, environmental analysis, or cost estimates

GOAL

Develop an alignment to initiate corridor preservation

Regional Partnerships

Texas Department of Transportation

North Central Texas Council of Governments

US Army Corps of Engineers

COLLIN COUNTY

- PROSPER
- FRISCO
- MCKINNEY
- FAIRVIEW
- NEW HOPE
- LOWRY CROSSING
- PRINCETON
- FARMERSVILLE

Evaluate Modes of Transportation to Relieve Congestion

BIKE/PEDESTRIAN

- Cannot relieve congestion alone
- Bike/Pedestrian facilities will be included in future plans

TRANSIT

- Cannot solely relieve congestion as it only serves a small portion of the trips

ROADWAY

- Variety of options previously studied range from no new improvements to grade separations to freeway alignments

These modes work together to move goods, improve mobility, and provide access to, from, and throughout the area

Possible Options

NO NEW IMPROVEMENTS ON US 380

- Maintains current alignment
- 6 lanes
- Rated in engineering terms as an “F” level of service (the worst)

Possible Options

GRADE SEPARATED INTERSECTIONS

- Maintains current alignment but allows drivers to bypass select major intersections
- 6 lanes – frontage road lanes at some intersections
- Restrict access to improve safety
- Rated in engineering terms as a “F” level of service
- $$

Possible Options

FREEWAY

- Multiple alignment options
- 6 lanes – 2 frontage road lanes
- Improvements in safety. No signalized intersections
- Rated in engineering terms as a “B” level of service depending on alignment
- $$$$$

Draft Comparison of Options

EVALUATION CRITERIA:	NO NEW IMPROVEMENTS ON US 380	GRADE SEPARATED INTERSECTIONS	FREEWAY
Enhances Safety	○	◑	◕
Reduces Existing Congestion	○	◑	●
Regional Mobility	○	◔	●
Minimizes Future Congestion Expected from Growth	○	◔	●
Cost		$$	$$$$$
Supports Future Economic Growth	○	◔	●
TOTAL SCORE	◔	◑	◕

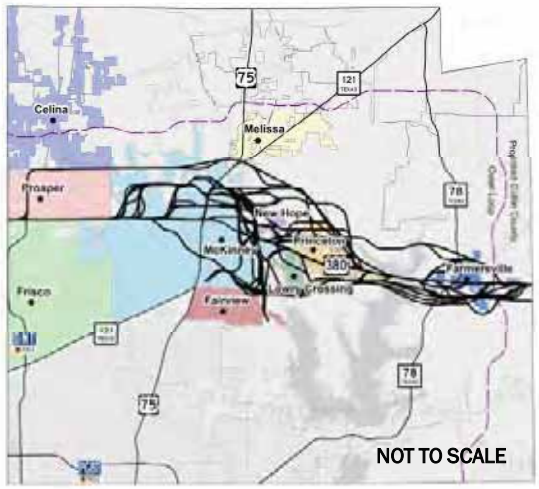

Criteria Rating Scale				
Does not address criteria		Partially meets criteria		Highly meets criteria
○	◔	◑	◕	●

Feasibility Study Key Factors

Draft Freeway Alignment Options

Many alignments have been developed and studied.

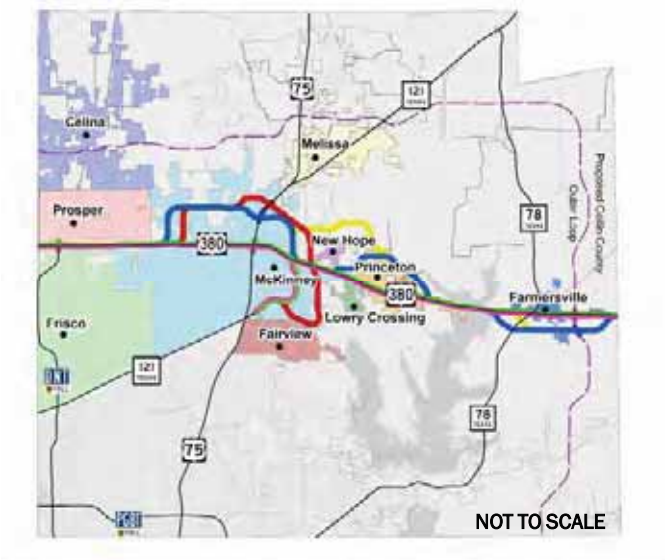

Draft Freeway Alignment Evaluation

NOT ALL OF THESE ALIGNMENTS ARE VIABLE. SOME WOULD:

- impact a significant number of homes and business
- conflict with major future development plans
- impact a floodplains or floodway, parks, and/or federally protected lands
- not provide significant congestion relief
- conflict with regional goals

Alignments presented are those that our study team found to be the most viable transportation options and corridor alignments.

Draft Freeway Alignment Options

Please Consider During Your Alignment Review

We need your input on draft alignments that are available for your review and comment.

PLEASE CONSIDER:

A final alignment has not been chosen. These are conceptual alignments.

It is possible a combination of draft alignment segments could be merged for preferred alignments for comment at our next Public Meeting.

Each concept is being shown today with 350 to 400 foot right of way width.

Help Shape the Feasibility Study

TxDOT NEEDS YOUR HELP AND INPUT TO SHAPE THE NEXT STEPS OF THE STUDY.

- What solutions would you suggest?
- Would you like to see a freeway constructed?
- What is your opinion of the alignments shown?

TxDOT WANTS TO HEAR FROM YOU.

How to Provide Input

FILL OUT A COMMENT FORM

PROVIDE VERBAL COMMENT TO COURT REPORTER

SURVEY: ONLINE OR PAPER COPY

Go online to survey.Drive380.com

Surveys and comment forms must be submitted by

May 18, 2018

to be included in study documentation

Feasibility Study Process

JUNE 2017 – MARCH 2018	APRIL – MAY 2018	SUMMER 2018	FALL 2018	LATE 2018
Initial Data Gathering	Stakeholder input and Public Involvement	Process data/input	Stakeholder input and Public Involvement	Project Implementation Plan
✓ One–on-one meetings with partners ✓ Technical Work Session	✓ Public Meeting and Comment Period ✓ Elected Leader Outreach and Council Presentations ✓ Stakeholder Work Groups	✓ Input analyzed ✓ TxDOT selects alignments for the study team to refine further ✓ Evaluation of alignments	✓ Public Meeting and Comment Period ✓ Key Stakeholder and Elected Leader Outreach	✓ Recommend long and short term improvements as well as regional action items

Alignment trends → 5 alignment options → 2 to 4 alignment options with typical sections → 1 recommended alignment option*

WE ARE HERE

SUBJECT TO CHANGE

Project Development

TXDOT HAS DONE ANALYSIS OF THE NEED AND POTENTIAL SOLUTIONS.

Planning the next steps for the US 380 corridor will take time

-that is why it is so important work begins NOW to plan for the future.
