

Finding of No Significant Impact for a FHWA Project

Proposed Action: FM 548

Project Limits: From North of United States (US) 80 to State Highway (SH) 205

City: Forney

County: Kaufman and Rockwall

State: Texas

TxDOT CSJ(s): 2588-01-017 and 2588-02-008

In accordance with 23 CFR Section 771.119 and Section 771.121, the Texas Department of Transportation (TxDOT) has determined that the FM 548 Roadway Improvement Project will not have a significant impact on the human or natural environment.

This Finding of No Significant Impact (FONSI) for the Preferred Alternative is based on the final Environmental Assessment (EA) dated June 2019 and the entire project record. This decision documents the selection of the Build Alternative, presented in the final EA as the Preferred Alternative, which is described as:

As currently proposed, the Build Alternative would involve two segments. Segment 1 would expand from a two-lane to a six-lane divided urban roadway from US 80 to Windmill Farms Boulevard. Segment 2 would expand from a two-lane to a four-lane (six-lane ultimate) divided urban roadway from Windmill Farms Boulevard to SH 205. Both would have bicycle and pedestrian facilities. Approximately 63.4 acres of new ROW and 8.01 acres of proposed permanent drainage easements would be required for the Build Alternative. The Build Alternative would meet the proposed project's purpose and need by providing a north-south roadway to meet traffic demand and connect local traffic to other roadways. These proposed improvements would allow the roadway to meet current design standards.

The major design features of the proposed project include:

- The construction of an additional lane in each direction of FM 548 with curb and gutter. The proposed design would include 14-foot wide outside lanes designed as a shared-use lane for vehicles and bicycles. The construction would also include six-foot wide sidewalks throughout the length of the project.
- The Build Alternative meets applicable vertical design criteria. It provides desirable sight distance as well as desirable geometry at the intersection with SH 205.

The proposed project is consistent with local and regional land use and transportation plans and policies in the area. It would improve mobility and provide improved system connectivity in the proposed project area.

A Notice of Availability of the draft EA was issued on May 08, 2019.

A public hearing for this project was held on May 28, 2019.

No changes to the draft EA were made as a result of comments received on the draft EA during the posted comment period or from comments made at the public hearing.

Public Hearing Documentation has been prepared and is available for review on request.

The final EA, and reports contained in the file of record have been independently evaluated by TxDOT and determined to adequately and accurately discuss the need, purpose, alternatives, environmental issues, impacts of the proposed project, and appropriate mitigation measures. These documents provide

Finding of No Significant Impact for a FHWA Project

sufficient evidence and analysis for determining that preparation of an Environmental Impact Statement is not required. These documents are incorporated by reference into this decisional document.

Based upon TxDOT's review and consideration of the analysis and evaluation contained in the EA for this project, and after careful consideration of all social, economic, and environmental factors, including input from the public involvement process, TxDOT hereby issues this Finding of No Significant Impact for the FM 548 project from North of US 80 to SH 205.

TxDOT will ensure adherence and completion of all project commitments described in the final EA June 2019 Section 8.0. TxDOT will ensure that any and all local, state, or federal permit requirements and conditions are met and otherwise complied with.

The environmental review, consultation, and other actions required by applicable Federal environmental laws for this project are being, or have been, carried out by TxDOT pursuant to 23 U.S.C. 327 and the Memorandum of Understanding dated December 16, 2014, and executed by FHWA and TxDOT.

Environmental Document Certification Form

[Reset Form](#)

Project Name: FM 548

Control Section Job Number (CSJ): 2588-01-017, etc.

Document Type: EA EIS FONSI

Document Stage: Draft Final

This checklist shall be used to certify that an environmental document is ready for public review (draft documents) or approval (final documents).

When all required items are satisfactorily completed, the District and ENV representatives will sign this form indicating the environmental document is certified and may proceed to public review or is ready for final approval.

This project meets all the following requirements:

- A. A project scope has been completed for the project.
- B. The document has been determined to be administratively complete.
- C. The document meets the requirements of technical review (43 TAC §2.49) as required to date.
- D. The required public participation has been completed as required to date.
- E. All consultation and coordination required for the environmental decision is complete and appropriately documented (for final environmental documents).
- F. Legal Review or Legal Sufficiency Review has been completed, as required.
- G. Current funding has been reviewed, and is as follows:

Re: Request for Project-Level Conformity Determination
Kaufman and Rockwall Counties
CSJ 2588-01-017 and 2588-02-008
FM 548: From North of US 80 to SH 205

Dear Mrs. Maley:

Attached is the copy of the Transportation Conformity Report Form for your review and concurrence.

A project-level conformity determination is requested from you. If you have any questions regarding this project, please contact me at (512) 416-2659.

Sincerely,

DocuSigned by:
Timothy Wood
