The proposed improvements are to construct Ferguson Parkway along its existing location and extend its limits on a new location route from Elm Street to the Collin County Outer Loop within the City of Anna as a 4-lane divided urban roadway (6-lane ultimate). Urban paving, facilities for pedestrians and bicyclists, hydrology and hydraulics for crossing culverts, a new bridge crossing of Slayter Creek, and connections with local side streets would be involved in this approximately 1.5-mile design.

The proposed project would, subject to final design considerations, require 28.95 acres of additional right of way and potentially displace one residence and no non-residential structures. Relocation assistance is available for displaced persons and businesses. Information, services and benefits for those displaced and other affected property owners, as well as information about the tentative schedule for right-of-way acquisition and construction, can be obtained from the City of Anna Public Works Office by calling 214-901-4616.

The proposed project would potentially involve construction in wetlands. The proposed project would also potentially involve an action in a floodplain.

Any environmental documentation or studies, any maps and drawings showing the project location and design, tentative construction schedules, and other information regarding the proposed project are on file and available for inspection Monday through Friday between the hours of 8 a.m. and 5 p.m. at the City of Anna Municipal Complex, 120 W 7<sup>th</sup> Street, Anna, TX 75409. Project materials are also available online at [www.annatexas.gov/ferguson](http://www.annatexas.gov/ferguson). These materials will also be available in hard copy form for review at the in-person option.

The virtual public meeting and in-person option will be conducted in English. If you need an interpreter or document translator because English is not your primary language or you have difficulty communicating effectively in English, one will be provided to you.
