**DEPARTMENT OF TRANSPORTATION**

Federal Highway Administration

Environmental Impact Statement: Dallas And Ellis Counties, Texas

**AGENCY:** Texas Department of Transportation (TxDOT), Federal Highway Administration (FHWA), Department of Transportation.

**ACTION:** Federal Notice of Intent to prepare an Environmental Impact Statement (EIS).

**SUMMARY:** The FHWA, on behalf of TxDOT, is issuing this notice to advise the public that an EIS will be prepared for a proposed transportation project to construct a six-lane new location frontage road system between United States 67 (US 67) and Interstate 35 East (IH 35E) through Dallas and Ellis Counties, Texas.

**FOR FURTHER INFORMATION CONTACT:** Carlos Swonke, Division Director, TxDOT Environmental Affairs Division, 125 East 11th Street, Austin, Texas 78701; Phone (512) 416–2734; email: carlos.swonke@txdot.gov. TxDOT’s normal business hours are 8:00 a.m.–5:00 p.m. (central time), Monday through Friday.

**SUPPLEMENTARY INFORMATION:** The environmental review, consultation, and other actions required by applicable Federal environmental laws for this project are being, or have been, carried out by TxDOT pursuant to 23 U.S.C. 327 and a Memorandum of Understanding dated December 16, 2014, and executed by FHWA and TxDOT.

TxDOT will prepare an EIS for the proposed construction of a six-lane new location frontage road system for the portion of the proposed Loop 9 Southeast roadway system between United States 67 (US 67) and Interstate 35 East (IH 35E) through Dallas and Ellis Counties, Texas, which is known as “Segment A.” The project is approximately 9.4 miles in length and would pass through the communities of Cedar Hill, Midlothian, Ovilla, Glenn Heights, and Red Oak. The new location frontage road system would include an eastbound and westbound frontage road facility, each consisting of three 12 foot (ft.) lanes, an 8-ft inside shoulder, and an 8 ft. outside shoulder for bicycle accommodations within the rural section of the proposed roadway. The proposed project ROW would include a median (358 to 512 ft. wide) that would accommodate the future construction of an ultimate access-controlled mainline facility. Construction of the ultimate access-controlled mainlane facility would be based on projected traffic and funding and would require additional environmental analysis prior to construction.

The EIS will evaluate a range of build alternatives and a no-build alternative. Possible build alternatives include the three alternatives developed to date to be considered and evaluated in the EIS. In general, from Tar Road to approximately 0.9 miles east of S. Joe Wilson Road, a distance of approximately 2.8 miles, three build alternatives are being considered. East and west of these limits, each alternative shares a common alignment to the project termini.

Alternative 1 (2.78 miles), the northernmost alternative, diverges from the common alignment at Tar Road heading east, then immediately turns northeast before crossing S. Joe Wilson Road and converging back with the common alignment.

Alternative 2 (2.76 miles), the central most alternative, diverges from the common alignment at Tar Road heading east, then immediately turns northeast before crossing S. Joe Wilson Road. After S. Joe Wilson Road, the alternative continues in a northeast direction before converging back with the common alignment.

Alternative 3 (2.84 miles), the southernmost alternative, diverges from the common alignment at Tar Road and
keeps east for a distance of 0.8 miles centered on existing Knight Street. At the end of Knight Street, the alternative shifts northeast before crossing S. Joe Wilson Road and converging back with the common alignment. 

TxDOT will issue a single Final Environmental Impact Statement and Record of Decision document pursuant to 23 U.S.C. 139(n)(2), unless TxDOT determines statutory criteria or practicability considerations preclude issuance of a combined document. In accordance with 23 U.S.C. 139, cooperating agencies, participating agencies, and the public will be given an opportunity for continued input on project development. A public scoping meeting is planned for Summer 2019. An agency scoping meeting will also be held with participating and cooperating agencies. The agency and public scoping meetings will provide an opportunity for the participating/cooperating agencies and public to review and comment on the draft coordination plan and schedule, the project purpose and need, the range of alternatives, and methodologies and level of detail for analyzing alternatives. In addition to the agency and public scoping meetings, a public hearing will be held. Public notice will be given of the time and place of the meetings and hearing.

Issued on: May 14, 2019.

Michael T. Leary,
Director, Planning and Program Development, Federal Highway Administration.

For further information contact: For FHWA: Ms. Theresa Claxton; Planning and Program Management Team Leader; Federal Highway Administration; Tennessee Division Office; 404 BNA Drive, Building 200, Suite 508; Nashville, Tennessee 37217; Telephone (615) 781–5770; email: Theresa.Claxton@dot.gov. FHWA Tennessee Division Office’s normal business hours are 7:30 a.m. to 4 p.m. (Central Time). You may also contact Ms. Susannah Kniazewycz, Environmental Division Director, Tennessee Department of Transportation (TDOT), James K. Polk Building, Suite 900, 505 Deaderick Street, Nashville, Tennessee 37243–0334; Telephone (615) 741–3655, Susannah.Kniazevycz@tn.gov. The TDOT Environmental Division’s normal business hours are 8 a.m. to 5 p.m. (Central Time).

Supplementary information: Notice is hereby given that FHWA and other Federal agencies have taken final agency actions subject to 23 U.S.C. 139(j)(1) by issuing licenses, permits, and approvals for the following highway project in the State of Tennessee: Southern Extension of SR–186 and the US 45 Bypass, Project Number HPP–NHE–1(225), PIN 109926.00, Madison County, Tennessee. The proposed action will improve local and regional mobility by providing an alternate route for through traffic separate from the developed commercial corridor along existing US 45. The Selected Alternative proposes the construction of two roadway sections within the project. The southern portion of the Bypass from north of Edwards Drive to Boone Lane consists of two 12-foot travel lanes in each direction, 6-foot inside shoulders, 12-foot outside shoulders, and a variable width depressed grass median, within an approximate 250-foot right-of-way (ROW). The northern portion of the Bypass from Boone Lane to Airways Boulevard consists of two 12-foot travel lanes in each direction, 7-foot inside shoulders, 12-foot outside shoulders, and center concrete barrier, within an approximate 200-foot ROW. Portions of the corridor include: (1) An interchange with ramps on the southern terminus of the project at US 45/South Highland to provide unimpeded access for traffic on the existing US 45/South Highland continuing north on the proposed Bypass; (2) Access via at-grade intersections for several local roads intersected by the proposed Bypass route, including: Raines Springs Road, D Street, Boone Lane, Riverside Drive, and Existing US 45 Bypass; (3) SR 18 Realignment (Raines Springs Road) from the existing SR 18 intersection with Old Malesus Road to north of the proposed US 45 Bypass. Raines Springs Road would be widened to two 12-foot travel lanes with a 12-foot center turn lane.

The actions by the Federal agencies, and the laws under which such actions were taken, are described in the Environmental Assessment (EA) for the project, approved on May 20, 2013, the Reevaluation of the EA approved on July 18, 2018, and in the FHWA FONSI issued on February 14, 2019, and in other documents in the FHWA project records. The EA, Reevaluation, FONSI, and other project records are available by contacting FHWA or TDOT at the addresses provided above. The FHWA EA, Reevaluation, and FONSI can be viewed and downloaded from the project website at https://www.tn.gov/tdot/projects/region-4/state-route-186-us-45-bypass-southern-extension, or viewed at the Jackson Planning Department, City Hall, 111 East Main Street, Suite 201, Jackson, Tennessee 38301, the TDOT Region 4, Administrative Building, 300 Benchmark Place, Jackson, Tennessee 38301, or the Jackson-Madison County Library, 433 East Lafayette Street, Jackson, Tennessee 38301.

This notice applies to all Federal agency decisions that are final as of the issuance date of this notice and all laws under which such actions were taken, including but not limited to:

2. Air: Clean Air Act [42 U.S.C. 7401–7671(q)].
