

Project Coordination Request for Historical Studies Project

[Reset Form](#)

Main CSJ: 0047-06-158; 0047-06-163; 0047-07-232

District personnel should complete this form with all appropriate documentation attached. ENV-HIST staff review is contingent on provision of an active CSJ (or equivalent if the project is not a construction project) against which environmental work can be charged. District personnel shall ensure project description information in ECOS is complete and accurate prior to submitting the PCR to ENV-HIST. District personnel shall attach ENV project description from WPD I screen to this form. District-provided responses should reflect known data about the project and identify any limitations that hindered provision of the requested information. ENV-HIST staff will review the PCR form and attached information per established Documentation Standards. This review will result in:

- ENV-HIST environmental clearance of the project; OR
- ENV-HIST identification of additional technical studies required for clearance; OR
- ENV-HIST rejection of the PCR for failure to meet specific Documentation Standards and instructions on how to address the rejection.

This form specifies minimally required information needed to properly facilitate ENV-HIST's review process. Please submit all relevant documentation with this PCR at one time.

NOTE: * If this project information changes over the course of design OR if the funding source changes, then HIST requires re-coordination.

No If FHWA funded, does the project conform to the type listed in Appendix 4 and the Historic Resources Toolkit?
OR
Does this historic coordination apply to the Antiquities Code as referenced in the Historic Resources Toolkit?
