

# Project Coordination Request for Historical Studies Project

[Reset Form](#)

**Main CSJ:** 0047-06-158; 0047-06-163; 0047-07-232

District personnel should complete this form with all appropriate documentation attached. ENV-HIST staff review is contingent on provision of an active CSJ (or equivalent if the project is not a construction project) against which environmental work can be charged. District personnel shall ensure project description information in ECOS is complete and accurate prior to submitting the PCR to ENV-HIST. District personnel shall attach ENV project description from WPD I screen to this form. District-provided responses should reflect known data about the project and identify any limitations that hindered provision of the requested information. ENV-HIST staff will review the PCR form and attached information per established Documentation Standards. This review will result in:

- ENV-HIST environmental clearance of the project; OR
- ENV-HIST identification of additional technical studies required for clearance; OR
- ENV-HIST rejection of the PCR for failure to meet specific Documentation Standards and instructions on how to address the rejection.

**This form specifies minimally required information needed to properly facilitate ENV-HIST's review process. Please submit all relevant documentation with this PCR at one time.**

**NOTE:** \* If this project information changes over the course of design OR if the funding source changes, then HIST requires re-coordination.

---

  No   If FHWA funded, does the project conform to the type listed in Appendix 4 and the Historic Resources Toolkit?  
OR  
Does this historic coordination apply to the Antiquities Code as referenced in the Historic Resources Toolkit?

---
