

Purpose:

The purpose of the proposed project is to meet local and regional future travel demand by increasing capacity of FM 6; upgrade the transportation infrastructure to meet current FHWA and TxDOT design standards; and improve the safety of the roadway by correcting access conflicts.

Need:

The proposed improvements are needed because the existing two-lane FM 6 roadway between the intersections of SH 78 and Hunt County Line in Collin County is inadequate to meet future traffic volumes, resulting in congestion and reduced mobility, and is a risk to motorist safety because of roadway design deficiencies.
