

Project Location, Need and Purpose

- Project Limits:
 - From IH 635 to Bass Pro Drive, Dallas County
 - Project length – Approximately 5.5 miles
 - No additional right of way (ROW) or easement would be required to implement the proposed design changes.
- Need for the Project:
 - To improve traffic flow through the project area, alleviate congestion, improve operations and mobility, and reduce existing traffic bottlenecks.
- Project Purpose:
 - To improve traffic operations in this area by adjusting the locations of IH 30 ramps and adding auxiliary lanes to facilitate weaving for traffic entering and exiting IH 30 and its frontage roads, and reducing existing bottlenecking.
