

Proposed Typical Section – CR 400 (Myrick Lane)/CR 452 to FM 546

- The proposed FM 982 roadway between CR 400 (Myrick Lane)/CR 452 and FM 546 would consist of four 12-foot-wide lanes, two lanes in each direction, with a raised concrete median that would vary up to 20 feet wide.
- A 10-foot-wide shared use path with buffer would be constructed along both sides of the roadway.
- Proposed drainage would consist of curb and gutter.
