Proposed improvements consist of reconstructing US 80 from FM 460 to Spur 557 from a four-lane divided to a six-lane divided highway with auxiliary lanes and a concrete barrier along the centerline. Proposed improvements along Spur 557 also consist of reconstructing Spur 557 from a four-lane divided to a six-lane divided highway with auxiliary lanes and a concrete barrier along the median. Both US 80 and Spur 557's proposed improvements would include adding continuous two to three-lane, one-way frontage roads in each direction along the proposed project to fill existing frontage road gaps and to remove existing two-way frontage roads. Ramping improvements, bridge reconstruction, shared use paths and sidewalks are proposed for both US 80 and Spur 557. The proposed project would, subject to final design considerations, require approximately 56 acres of additional right-of-way and potentially displace two residences, one business, and two non-residential structures (billboards). Relocation assistance is available for displaced persons and businesses. Information about the TxDOT Relocation Assistance Program and services and benefits for those displaced and other affected property owners, as well as information about the tentative schedule for right-of-way acquisition and construction, can be obtained from the TxDOT district office by calling (214) 320-6675 or by visiting the project website.

Any maps and drawings showing the project location and design, tentative construction schedules, and other information regarding the proposed project are available for inspection Monday through Friday between the hours of 8 a.m. and 5 p.m. at TxDOT Dallas District, 4777 E. U.S. Highway 80, Mesquite, Texas 75150. Project materials are also available online at www.KeepItMovingDallas.com/US80-Spur557. These materials will also be available in hard copy form for review at the in-person option.
