

# Documentation of Public Meetings

## Project Location

Collin County

Proposed Improvements to US 380

Collin County, Texas

0135-11-022, 0135-02-059, 0135-03-048, 0135-04-032, 0135-05-026

## Project Limits

Denton County Line to Hunt County Line

## Meeting Locations

Meeting #1 – Sheraton McKinney, 1900 Gateway Blvd., McKinney, TX 75070

Meeting #2 – Princeton High School, 1000 E. Princeton Dr., Princeton, TX 75407

Meeting #3 – Lorene Rogers Middle School, 1001 Coit Rd., Prosper, TX 75078

## Meeting Dates and Times

Meeting #1 – Thursday, April 26, 2018, 6:00 p.m. to 8:00 p.m.

Meeting #2 – Tuesday, May 1, 2018, 6:00 p.m. to 8:00 p.m.

Meeting #3 – Thursday, May 3, 2018, 6:00 p.m. to 8:00 p.m.

## Translation Services

Sign language (requested for Meeting #1 only)

Spanish (available at all three meetings, but not requested)

## Presenter

Ceason Clemens, TxDOT APD

## Elected Officials in Attendance

Meeting #1	Meeting #2	Meeting #3
Hon. Keith Self, Collin County Judge	Hon. Diane Piwko, Farmersville Mayor	Hon. Jeff Hodges, Prosper Town Council
Hon. Duncan Webb, Collin County Commissioner	Hon. Julia Phillips, Lowry Crossing City Council	
Hon. Diane Piwko, Farmersville Mayor	Hon. David Kleiber, Princeton City Council	

Meeting #1	Meeting #2	Meeting #3
Hon. Julia Phillips, Lowry Crossing City Council	Hon. Mike Guillen, Princeton City Council	
Hon. La'Shadiion Shemwell, McKinney City Council	Hon. Rich Hooper, Princeton City Council	
Hon. Tracy Rath, McKinney City Council	Hon. John-Mark Caldwell, Princeton Mayor	
Hon. Charlie Phillips, McKinney City Council		
Hon. George Fuller, McKinney Mayor		
Hon. Kimberly Barrow, New Hope Town Council		
Hon. Jess Herbst, New Hope Mayor		

#### Total Number of Attendees (approx.)

Meeting #1 – 423

Meeting #2 – 426

Meeting #3 – 271

#### Total Number of Commenters

Meeting #1 – 67

Meeting #2 – 105

Meeting #3 – 46

Total Number of Surveys – 4,452

## A1 Comment Response Matrix

## Comment Response Matrix

	Commenter Name	Date Received	Source	Comment Topic	Response
1	A van Rooyen	5/17/2018	Electronic Survey	Q: What is your interest in this study? A: Property Owner	Comment noted.
				Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
				Q: Do you have any concerns with the existing US 380? A: No	Comment noted.
				Q: If US 380 is congested, what alternative routes do you take? A: Custer	Comment noted.
				Q: What solutions would you suggest in the US 380 Corridor? A: Make current 380 wider, only a few places towards 75 need to be moved, the road should go east. Moving it solve none of the problems, only cause more	Comment noted. Alignment options and roadway configurations are still being evaluated.
				Q: Do you support the building of a freeway regardless of alignment? A: Yes, but not regardless of alignment	Comment noted.
				Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment	Comment noted.
				Q: Which alignment(s) do you prefer in McKinney? A: Green	Comment noted.
				Q: Which alignment(s) do you prefer in Princeton? A: Green	Comment noted.
				Q: Which alignment(s) do you prefer in Farmersville? A: Green	Comment noted.
2	Aaron	5/3/2018	Electronic Survey	Q: What is your interest in this study? A: Property Owner	Comment noted.
				Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
				Q: Do you have any concerns with the existing US 380? A: No	Comment noted.
				Q: If US 380 is congested, what alternative routes do you take? A: I don't see it as congested	Comment noted.
				Q: What solutions would you suggest in the US 380 Corridor? A:	No answer provided.
				Q: Do you support the building of a freeway regardless of alignment? A:	No answer provided.
				Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment	Comment noted.
				Q: Which alignment(s) do you prefer in McKinney? A: Green, Pink	Comment noted.
				Q: Which alignment(s) do you prefer in Princeton ? A: Green, Pink	Comment noted.
				Q: Which alignment(s) do you prefer in Farmersville? A: Green, Pink	Comment noted.

## Comment Response Matrix

	Commenter Name	Date Received	Source	Comment Topic	Response
				Q: What is your interest in this study? A: Nearby resident	Comment noted.
				Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
				Q: Do you have any concerns with the existing US 380? A:	No answer provided.
				Q: If US 380 is congested, what alternative routes do you take? A:	No answer provided.
				Q: What solutions would you suggest in the US 380 Corridor? A:	No answer provided.
				Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment	Comment noted.
				Q: Which alignment(s) do you prefer in McKinney? A: Green, Pink	Comment noted.
				Q: Which alignment(s) do you prefer in Princeton? A: Green, Pink	Comment noted.
				Q: Which alignment(s) do you prefer in Farmersville? A: Green, Pink	Comment noted.
				Q: What is your interest in this study? A: Nearby resident	Comment noted.
				Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
				Q: Do you have any concerns with the existing US 380? A: People drive too fast for the amount of traffic/stops. US 380 is becoming too populated with residential and commercial developments for people to be driving 60-70mph.	Comment noted.
				Q: If US 380 is congested, what alternative routes do you take? A:	No answer provided.
				Q: What solutions would you suggest in the US 380 Corridor? A: Build a new freeway as far north in Collin County (Celine) as possible. No part of the current 380 should become a freeway. Once built, trucking should be limited along US380 to prevent US380 from becoming a freeway.	Comment noted. Alignment options are still being evaluated.
				Q: Do you support the building of a freeway regardless of alignment? A: No. Our neighborhood backs up to US380 near Coit Rd so I do not want 380 to turn into a freeway. There's already enough traffic, and accidents frequently occur due to the high-speed nature of traffic flow. I support the building of new freeway as far to the north as possible so traffic is eased on 380. I would prefer 380 to resemble Preston Rd (45mph limit) rather than a freeway. I would like to lower the speeds on the current 380 once a new freeway is built to the north.	Comment noted. Alignment options are still being evaluated and any future improvements will be designed to enhance safety.
				Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: I Do Not Support Building a Freeway	Comment noted.
				Q: Which alignment(s) do you prefer in McKinney? A: Red	Comment noted.
				Q: Which alignment(s) do you prefer in Princeton? A: Blue	Comment noted.
				Q: Which alignment(s) do you prefer in Farmersville? A: Blue	Comment noted.

## Comment Response Matrix

	Commenter Name	Date Received	Source	Comment Topic	Response
				Q: What is your interest in this study? A: Nearby resident	Comment noted.
				Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
				Q: Do you have any concerns with the existing US 380? A: No	Comment noted.
				Q: If US 380 is congested, what alternative routes do you take? A: None it's never that bad	Comment noted.
5	Aaron Holle	5/18/2018	Electronic Survey	Q: Do you support the building of a freeway regardless of alignment? A: No	Comment noted. Initial traffic analysis does show that travel times would likely be reduced should a freeway be constructed and traffic signals eliminated. However, if TxDOT opts to not move forward with constructing a freeway, we will continue to find ways to enhance safety and improve traffic flow.
				Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment	Comment noted.
				Q: Which alignment(s) do you prefer in McKinney? A: Green, Pink	Comment noted.
				Q: Which alignment(s) do you prefer in Princeton? A:	No answer provided.
				Q: Which alignment(s) do you prefer in Farmersville? A:	No answer provided.
				Q: What is your interest in this study? A: Commuter, Property Owner, Nearby resident	Comment noted.
				Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
				Q: Do you have any concerns with the existing US 380? A: Timing of lights causes back ups.	Comment noted.
				Q: If US 380 is congested, what alternative routes do you take? A: There is no alternative east west freeway this far north.	Comment noted.
				Q: What solutions would you suggest in the US 380 Corridor? A: Build a other east west freeway 10 to 15 miles north of 380	Comment noted. Alignment options are still being evaluated.
				Q: Do you support the building of a freeway regardless of alignment? A: Yes	Comment noted.
				Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Blue Alignment	Comment noted.
				Q: Which alignment(s) do you prefer in McKinney? A: Blue	Comment noted.
				Q: Which alignment(s) do you prefer in Princeton? A: Blue	Comment noted.
				Q: Which alignment(s) do you prefer in Farmersville? A: Blue	Comment noted.

10	Aaron Swain	4/27/2018	Electronic Survey	<p>Q: What is your interest in this study? A: Commuter, Nearby resident</p>	<p>Tucker Hill's position is NO to all alignments due to potential loss of homes and devaluation of our neighborhood as a whole and adverse environmental and health implications. Notwithstanding our recommendation, if any freeway construction occurs on the existing 380 footprint adjacent to Tucker Hill, it must impose minimal right-of-way and noise pollution by means of cantilevered access lanes; a depressed throughway; and sound barriers. Also, if any bypass option is chosen, it must be located as far west of Tucker Hill as possible; west of future Stonebridge; not on or bordering Tucker Hill.</p> <p>Q: What is your interest in this study? A: Commuter, Nearby resident</p>

	Commenter Name	Date Received	Source	Comment Topic	Response
				Q: What is your interest in this study? A: Commuter, Business Owner, Property Owner, Nearby resident	Comment noted.
				Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
				Q: Do you have any concerns with the existing US 380? A: Traffic Noise Lack of barriers between directional lanes Turn lanes into businesses Speeding	Comment noted.
				Q: If US 380 is congested what alternative routes do you take? A: Preston to whatever E/W street needed Rock hill to tollway White to 75	Comment noted.
				Q: What solutions would you suggest in the US 380 Corridor? A:	No answer provided.
19	Adam Khashtehdel	5/3/2018	Electronic Survey	Q: Do you support the building of a freeway regardless of alignment? A: No	Comment noted.
				Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment, None	Comment noted.
				Q: Which alignment(s) do you prefer in McKinney? A: Green, Pink, None	Comment noted.
				Q: Which alignment(s) do you prefer in Princeton? A: Green, Pink, None	Comment noted.
				Q: Which alignment(s) do you prefer in Farmersville? A: Green, Pink, None	Comment noted.
				Q: What is your interest in this study? A: Other (please specify), commuter, property owner, and nearby resident	Comment noted.
				Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
				Q: Do you have any concerns with the existing US 380? A: Between the Dallas North Tollway and 75 has become increasingly more heavily traveled and the number of near collisions has become more frequent. The commuter traffic that mixes with the local/shopper traffic is dangerous. Given the local college, shopping, high-school and new residential development this would be a prime area to develop separated bike lanes that allow for controlled traffic of bikes without having to share a lane (or a painted separated shoulder lane) with the fast moving automobile traffic.	Comment and suggestion for separated bike lanes noted. Any future improvements will be designed to enhance safety.
				Q: If US 380 is congested, what alternative routes do you take? A: Eldorado Pkwy is my only other known option unless I wanted to take 121 farther south of my target destination and then the Dallas North Tollway back north... very expensive option.	Comment noted.
				Q: What solutions would you suggest in the US 380 Corridor? A: I see re-alignment freeway as the long term solution and possibly some select grade separated intersections to improve safety in areas.	Comment noted.
				Starting to divert 380 north at Custer is I think a minimum point. Diverting north around Prosper (or improving the east-west roadway north of Prosper) would be even better given the development underway and coming soon in this area).	Comment noted.
				A: Yes. Especially if it provides freeway traffic north of McKinney to keep the heavy commercial development and residential areas to the slower stop and go pace traffic and the long-distance faster moving traffic separated.	Comment noted.
				Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Red Alignment	Comment noted.
				Q: Which alignment(s) do you prefer in McKinney? A: Blue	Comment noted.
				Q: Which alignment(s) do you prefer in Princeton? A: Yellow	Comment noted.
				Q: Which alignment(s) do you prefer in Farmersville? A: Blue	Comment noted.

			Q: What is your interest in this study? A: Nearby resident	Comment noted.
			Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
			Q: Do you have any concerns with the existing US 380? A:	No answer provided.
			Q: If US 380 is congested, what alternative routes do you take? A: Custer South to 121	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A:	Comment noted.
			Q: Do you support the building of a freeway regardless of alignment? A: It is separate from the current US 380. With all the businesses going on 380, having it be a highway would become unsafe for traffic pulling in and out. On top of the fact there are young kids going accessing 380 to get to school in the mornings and afternoons.	Comment noted. Alignment options and roadway configurations are still being evaluated. Any future improvements will be designed to enhance safety. Additionally, a freeway would limit access to the roadway to only on and off ramps and does not have signalized intersections.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Blue Alignment	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: Blue	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A: Blue	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville? A: Blue	Comment noted.
			Q: What is your interest in this study? A: Property Owner	Comment noted.
			Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: I avoid going past Hwy 5 when driving west.	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A: Airport Blvd/Industrial Blvd to get to Allen/Plano; Hwy 5/Wilmette/Hardin to get west of 75	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A: McKinney bypass immediately; Princeton bypass in the next few years; wait and see how Farmersville fairs, no need to improve Farmersville in the foreseeable future	Comment noted.
			Q: Do you support the building of a freeway regardless of alignment? A: No. Three lanes each direction with routes around congested area.	Comment noted.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: Do Not Support Building a Freeway	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: Blue	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A: Blue	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville? A: I Do Not Support Building a Freeway	Comment noted.

Commenter Name	Date Received	Source	Comment Topic	Response
			Q: What is your interest in this study? A: Commuter, Nearby resident	Comment noted.
			Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: Growth and congestion	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A: Virginia Parkway or Eddardo	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A: none at this time	Comment noted.
			Q: Do you support the building of a freeway regardless of alignment? A: about 50/50, generally support it but first time been faced with it in my backyard so concerns with property value, noise, access to and from my neighborhood	Comment noted. Any future improvement projects would include assessment of the potential impact on the human and natural environments.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: None	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: None	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A: None	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville? A: None	Comment noted.
			Q: What is your interest in this study? A: Property Owner	Comment noted.
			Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
			Q: Do you have any concerns with the existing US 380? A:	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A:	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A: Build Over bridges in 380 itself.	Alignment options and roadway configurations are still being evaluated.
			Q: Do you support the building of a freeway regardless of alignment? A: No. This would raise the noise pollution and air pollution. This project would not make "McKinney Unique by nature". We want to preserve the nature	Comment noted. Any future improvement projects would include assessment of the potential impact on the human and natural environments.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment, I Do Not Support Building a Freeway	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: Green, Pink	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A: Do Not Support Building a Freeway	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville? A: Do Not Support Building a Freeway	Comment noted.

## Comment Response Matrix

	Commenter Name	Date Received	Source	Comment Topic	Response
				Q: What is your interest in this study? A: Property Owner	Comment noted.
				Q: How often do you drive on the existing US 380? A: Monthly	Comment noted.
				Q: Do you have any concerns with the existing US 380? A: Yes, heavy traffic. Traffic lights	Comment noted.
				Q: If US 380 is congested, what alternative routes do you take? A: None	Comment noted.
				Q: What solutions would you suggest in the US 380 Corridor? A: Broaden with fewer street lights - free flow of traffic	Comment noted.
				Q: Do you support the building of a freeway regardless of alignment? A: Yes	Comment noted.
	Akthar Goolam	5/15/2018	Paper Survey	Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment	Comment noted.
33				Q: Which alignment(s) do you prefer in McKinney? A: Red	Comment noted.
				Q: Which alignment(s) do you prefer in Princeton? A: Green, Pink	Comment noted.
				Q: Which alignment(s) do you prefer in Farmersville? A: Blue	Comment noted.
				Q: What is your interest in this study? A: Commuter, Property Owner, Nearby resident	Comment noted.
				Q: How often do you drive on the existing US 380? A: Weekly	Comment noted.
				Q: Do you have any concerns with the existing US 380? A: The speed limits and traffic are too high. People are having far too many accidents along this corridor. The signal lights seem too far apart and do not accommodate the neighborhoods that access them. If you have to stop at any of these intersections along 380 you run the risk of being struck by the traffic that comes up behind you before you can accelerate to a safe speed. Particularly the intersection at 380 and Ridge. Why don't you extend the blue route to Custer Road instead?	Comment noted. The suggestion to extend the blue route to Custer Road will be considered.
				Q: If US 380 is congested, what alternative routes do you take? A: Unfortunately I would take Virginia which is very near my house	Comment noted.
				Q: What solutions would you suggest in the US 380 Corridor? A: Add an alternate north of 380 and extend the blue or red line down onto Custer Road instead of Stonebridge or Ridge.	Comment noted. Alignment options are still being evaluated.
				Q: Do you support the building of a freeway regardless of alignment? A: No. But I can not stop progress now can I?	Comment noted.
				Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Blue Alignment, The Red Alignment, I Do Not Support Building a Freeway	Comment noted.
				Q: Which alignment(s) do you prefer in McKinney? A: Blue	Comment noted.
				Q: Which alignment(s) do you prefer in Princeton? A: Yellow	Comment noted.
				Q: Which alignment(s) do you prefer in Farmersville? A: Blue	Comment noted.

Commenter Name	Date Received	Source	Comment Topic	Response
			Q: What is your interest in this study? A: Computer, Property Owner, Neighbor, resident	Comment noted.
			Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: The number of traffic lights and increasing number of residential areas opening up all along 380.	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A: The primary alternative route would be 75, down to the I-21 tollway, but I don't want to pay the tolls so I just take the access streets, which has numerous traffic lights along it as well.	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A: I really like the flyover approach that is being implemented at Preston and 380. If that same approach could be implemented as much as possible along 380, but at least at Custer, that would greatly reduce my drive time.	Comment noted. Alignment options are still being evaluated.
			Q: Do you support the building of a freeway regardless of alignment? A: Not sure what "regardless of alignment" means, but I do support the building of a freeway. I do not want it to be a toll. At all. Not even a little bit. If that's what you're asking.	Comment noted.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: Green, Pink	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A: None	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville? A: None	Comment noted.
			Q: What is your interest in this study? A: Erwin Park flying field user	Comment noted.
			Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
			Q: Do you have any concerns with the existing US 380? A:	No answer provided.
			Q: If US 380 is congested, what alternative routes do you take? A: Wilmeth Rd .-or- TX 5 To Sam Rayburn Tollway	Comment noted.
			The location of Erwin Park was taken into consideration when draft alignments were developed. None of the proposed alignments directly impact Erwin Park. The proposed blue alignment option is adjacent to the southern property line but does not cross into the park. Any future improvement projects would include assessment of the potential impact on the human and natural environments. TxDOT attempts to avoid and/or minimize impacts to parks as much as practicable.	
			Q: Do you support the building of a freeway regardless of alignment? A: Yes	Comment noted.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A: Green, Pink	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville? A: None	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville? A: None	Comment noted.

			Q: Which alignment(s) do you prefer in Farmersville? A:	No answer provided.
			Hello Stephen - I have a question regarding the new corridor alignment options being proposed and out for public comment. More specifically, I want to ask if there are currently any changes proposed at the intersection of US 380 and Coit Rd. in Prosper? In reviewing the 5 different alignment options, it appears there aren't any changes proposed to that intersection at this time, but not sure if existing Right of Ways will be widened or if there is a potential after the interchange there. Thank you.	If a freeway is built at the intersection of US 380 and Coit then the intersection would become a grade separated interchange. This would require more right of way.
49	Alex Chu	5/7/2018 Email	Q: What is your interest in this study? A: Nearby resident	Comment noted.
			Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: It is very prone to congestion, and has too many stoplights	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A: Taylor Burke	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A: Lights based on the current flow of traffic, overpasses for busier intersections	Comment noted. Traffic analysis indicates that providing overpasses, also known as grade separated intersections, along the existing US 380 would still experience a failing level of service for congestion and delay.
			Q: Do you support the building of a freeway regardless of alignment? A: Yes, it seems inevitable	Comment noted.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment	Comment noted.

	Alexa Skauge	NA	Comment Form	Tucker Hill's position is NO to all alignments due to potential loss of homes and devaluation of our neighborhood as a whole and adverse environmental and health implications. Notwithstanding our recommendation, if any freeway construction occurs on the existing 380 footprint adjacent to Tucker Hill, it must impose minimal right-of-way and noise pollution by means of cantilevered access lanes; a depressed roadway and sound barriers. Also, if any bypass option is chosen, it must be located as far west of Tucker Hill as possible; west of future Stonebridge; not on or bordering Tucker Hill.

			Q: How often do you drive on the existing US 380? A: Weekly	Comment noted.
56	Alexander Harper	5/19/2018 Electronic Survey	Q: Do you have any concerns with the existing US 380? A: 380 can become a bit congested around the intersection with State Highway 75 but clears up considerably farther West.  Q: If US 380 is congested, what alternative routes do you take? A: If am going out towards Denton sometimes I'll take State Highway 121 to the Dallas North Tollway.  Q: What solutions would you suggest in the US 380 Corridor? A: Adding lanes through more congested areas would certainly help.  Q: Do you support the building of a freeway regardless of alignment? A: Not sure	Comment noted. Comment noted. Comment noted. Comment noted.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: Green, Pink	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A: Green, Pink	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville? A: Green, Pink	Comment noted.
			Q: What is your interest in this study? A: Computer, Business Owner, Property Owner, Nearby resident	Comment noted.
			Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: Safety. Speed limit is too high. Traffic light timing is terrible. Speed of traffic, accidents daily, and amount of drivers.	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A: Down Custer, ridge or stonebridge to a different east west road.	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A: Slow down traffic expand OTHER ROADS, not 380. 35 to austin isn't even 6 lanes everywhere. There are too many homes and businesses on 380 to expand it more. Studies have shown adding lanes does not even improve traffic flow. If this is a 10-15yr plan. What about self driving vehicles (not a supporter of this, just an observation) that will supposedly improve traffic flow. Blue and yellow would be ideal for me and my family.	Comment noted. Alignment options are still being evaluated.
57	ALEXANDER MILANO	5/1/2018 Electronic Survey	Q: Do you support the building of a freeway regardless of alignment? A: No. Absolutely not. Traffic needs to be slowed. The worst traffic on 380 that i ever see is at preston, the (ol)road and just east and west of 75 (college to the east and hardin to the west) Other areas are fine between mckinney and prosper. People need to slow down and traffic lights need improved timing and sensors.	Comment noted.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Blue Alignment/ Do Not Support Building a Freeway	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: Blue, Blue/ Do Not Support Building a Freeway	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A: Blue/ Do Not Support Building a Freeway	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville? A: Blue, None, I Do Not Support Building a Freeway	Comment noted.

			Q: What is your interest in this study? A: Nearby resident. Regularly go to the park	Comment noted.
			Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
			Q: Do you have any concerns with the existing US 380? A:	No answer provided.
			Q: If US 380 is congested, what alternative routes do you take? A:	No answer provided.
			Q: What solutions would you suggest in the US 380 Corridor? A:	No answer provided.
			Q: Do you support the building of a freeway regardless of alignment? A: No. I don't believe that 380 should go through Erwin Park. It is a place everyone loves and likes to spend their time at. It shouldn't be taken away to build roads.	The location of Erwin Park was taken into consideration when draft alignments were developed. None of the proposed alignments directly impact Erwin Park. The proposed blue alignment option is adjacent to the southern property line but does not cross into the park. TxDOT attempts to avoid and/or minimize impacts to parks as much as practicable.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment	Comment noted.

			Q: What is your interest in this study? A: Commuter	Comment noted.
			Q: How often do you drive on the existing US 380? A: Weekly	Comment noted.
			Q: Do you have any concerns with the existing US 380? A:	No answer provided.
			Q: If US 380 is congested, what alternative routes do you take? A:	No answer provided.
			Q: What solutions would you suggest in the US 380 Corridor? A:	No answer provided.
			Q: Do you support the building of a freeway regardless of alignment? A:	No answer provided.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment, The Red Alignment	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: Red	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A: Blue	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville? A: Blue	Comment noted.
			Q: What is your interest in this study? A: Nearby resident	Comment noted.
			Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: Of course! Traffic is hideous	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A: Virginia Pkwy	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A: Send everyone back to California. Don't let anymore people move here.	Comment noted.
			Q: Do you support the building of a freeway regardless of alignment? A: Yes build a freeway but alignment definitely matters	Comment noted.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A:	No answer provided.
			Q: Which alignment(s) do you prefer in Princeton? A: Green, Pink	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville? A: Green, Pink	Comment noted.

Commenter Name	Date Received	Source	Comment Topic	Response
			Q: What is your interest in this study? A: Business Owner, Property Owner, Nearby resident	Comment noted.
			Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: Yes, the 380HWY that already exists needs overpasses at the lights to make the highway more efficient	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A: I do not take alternate routes	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A: Widening of the existing 380HWY and passes at the lights. If you added overpasses at the lights it would help so much.	Comment noted. Traffic analysis indicates that providing overpasses, also known as grade separated intersections, along the existing US 380 would still experience a failing level of service for congestion and delay.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: NO	Comment noted.
			Q: Do you support the building of a freeway regardless of alignment?	Comment noted.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: Green, Pink	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A: Green, Pink	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville? A: Green, Pink	Comment noted.
			Q: What is your interest in this study? A: Nearby resident	Comment noted.
			Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: The traffic is getting bad and will only be more of an issue as the area grows. My personal concern is safety as I use the road every day and my kids will eventually drive it as well.	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A: I usually take Virginia (to the south) or Lake Forest (to the north).	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A: I would like to see 380 stay on 380 and the focus move to building the Outer Loop sooner to alleviate some of the traffic. I recently saw that one of the options goes through or very close to Erwin Park. I would like to see Erwin Park preserved.	Comment noted. Initial traffic analysis taking into account future population projections indicates that even with the construction of the Collin County Outer Loop and other planned roadway improvements within the study area, US 380 would still experience a failing level of service for congestion and delay. The location of Erwin Park was taken into consideration when draft alignments were developed. None of the proposed alignments directly impact Erwin Park. The proposed blue alignment option is adjacent to the southern property line but does not cross into the park. TxDOT attempts to avoid and/or minimize impacts to parks as much as practicable.
			Q: Do you support the building of a freeway regardless of alignment? A: Yes, I think it is unavoidable with the local growth.	Comment noted.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: Pink	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A: Pink	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville? A: Pink	Comment noted.

A: None, I Do Not Support Building a Freeway</p>	<p>Interchanges will occur at arterial streets. No interchanges will occur at local or collector roadways.</p> <p>Comment noted.</p> <p>Comment noted.</p> <p>Comment noted.</p> <p>Comment noted.</p>

	Commenter Name	Date Received	Source	Comment Topic	Response
			Good Morning, I have been reviewing the various materials posted on the Keep It Moving Dallas site related to the US 380 feasibility studies/Collin County. Before I complete the survey, I have a few questions: Blue and Yellow Route Options 1. Would these proposed options connect with existing US 380 at Stonebridge Drive? Please address this question.  2. If so, would the traffic light remain in place at the intersection?  3. What is the expected impact on the traffic count on Stonebridge Drive?		<p>Stonebridge Drive would intersect at the minimum the eastbound and frontage road. It would be determined in schematic development if Stonebridge Drive would continue under or over US 380 intersecting the east and westbound frontage roads.</p> <p>The placement of traffic lights is unknown at this phase of project development. Alignment alternatives are still being evaluated.</p> <p>TxDOT would expect Stonebridge traffic to increase at the normal growth rate expected in Collin County. There might be a slight increase due people choosing to use US 380 as opposed to Virginia Parkway.</p> <p>A traffic noise analysis would be conducted during the environmental study stage of project development, after a preferred alignment has been identified and a schematic design has been prepared. The study would be conducted in accordance with federal regulations and TxDOT's Guidelines for Analysis and Abatement of Roadway Traffic Noise. Based on the findings, noise abatement barriers would be proposed for locations that meet federal and TxDOT criteria in terms of noise reduction, cost and constructability. The results of the traffic noise study and the locations and characteristics of any proposed noise barriers would be shared with the community before preparing the final design.</p>
99	Amanda Batson	5/15/2018	Email	<p>5. What techniques will be used to reduce and/or eliminate light pollution impacting the Villages at LaCima and the night sky along the updated US 380?</p> <p>6. How would such a connection impact the entrance to Stonebridge Ranch and the environment in/around Lake LaCima?</p> <p>7. Would there be any changes to Stonebridge Drive within the Stonebridge Ranch community?</p> <p>Red Route Options 1. What is the expected impact on the traffic count on Ridge Road?</p> <p>2. What noise abatement techniques will be used to minimize the traffic noise along Ridge Road and the surrounding neighborhood communities?</p> <p>3. What techniques will be used to reduce and/or eliminate light pollution impacting the neighborhoods along Ridge and the night sky along the updated US 380?</p> <p>4. Would there be any changes to Ridge Road within the Stonebridge Ranch community?</p> <p>ROW Preservation/Acquisition 1. Would the land use planning and purchase process include use of eminent domain?</p> <p>2. With new alignment of existing US 380, how will expansions impact environmentally sensitive areas and those controlled by the Corps of Engineers?</p> <p>Thank you for your pending responses and for including the community feedback in the planning process.</p>	<p>Placement of lighting would be determined during final design, in coordination with the local government.</p> <p>Impacts to the Stonebridge Ranch entrance would be considered during the schematic design. Impacts to the environment would be evaluated during the environmental assessment stage of the project development.</p> <p>No. TxDOT is only proposing work on US 380. There would be work at the intersections of US 380 and city streets.</p> <p>There should be no impact on Ridge Road.</p> <p>A traffic noise analysis would be conducted during the environmental study stage of project development, after a preferred alignment has been identified and a schematic design has been prepared. The study would be conducted in accordance with federal regulations and TxDOT's Guidelines for Analysis and Abatement of Roadway Traffic Noise. Based on the findings, noise abatement barriers would be proposed for locations that meet federal and TxDOT criteria in terms of noise reduction, cost and constructability. The results of the traffic noise study and the locations and characteristics of any proposed noise barriers would be shared with the community before preparing the final design.</p> <p>Placement of lighting would be determined during final design, in coordination with the local government.</p> <p>No. TxDOT is only proposing work on US 380. There would be work at the intersections of US 380 and city streets.</p> <p>All right-of-way acquisitions would be performed according to the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, as amended. When acquiring right-of-way, TxDOT compensation is determined based on an independent appraiser and fair market value.</p> <p>Environmental impacts will be assessed in detail after a preferred alternative is identified and the project moves forward to schematic design. Coordination with the U.S. Army Corps of Engineers (USACE) has been initiated regarding the proposed alternatives and will continue to take place throughout the environmental assessment process. Any impacts to USACE property and environmentally sensitive areas would be minimized to the extent practicable and mitigated if necessary. Appropriate USACE permits would be acquired for any impacts to waters of the U.S. or wetlands.</p>

## Comment Response Matrix

	Commenter Name	Date Received	Source	Comment Topic	Response
				Q: What is your interest in this study? A: Commuter, Property Owner, Nearby resident	Comment noted.
				Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
				Q: Do you have any concerns with the existing US 380? A: Yes the congestion and there are no alternative routes out of Princeton	Comment noted.
				Q: If US 380 is congested, what alternative routes do you take? A: I do not have very many options	Comment noted.
				Q: What solutions would you suggest in the US 380 Corridor? A:	No answer provided.
100	Amanda Devine	5/1/2018	Electronic Survey	Q: Do you support the building of a freeway regardless of alignment? A: Yes	Comment noted.
				Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment, The Yellow Alignment	Comment noted.
				Q: Which alignment(s) do you prefer in McKinney? A: Blue, Red	Comment noted.
				Q: Which alignment(s) do you prefer in Princeton? A: Green, Pink	Comment noted.
				Q: Which alignment(s) do you prefer in Farmersville? A: Blue	Comment noted.
				Q: What is your interest in this study? A: Property Owner	Comment noted.
				Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
				Q: Do you have any concerns with the existing US 380? A: yes, the existing US 380 needs to be decongested. Via more lanes, over/under like Preston and 380 is constructing or some other way along the existing path.	Comment noted.
				Q: If US 380 is congested, what alternative routes do you take? A: I don't	Comment noted.
				Q: What solutions would you suggest in the US 380 Corridor? A: Complete the Outer Loop. Double deck 380. Do over under interchanges like Preston and 380 is currently constructing.	Comment noted. Initial traffic analysis taking into account future population projections indicates that even with the construction of the Collin County Outer Loop and other planned roadway improvements within the study area US 380 would still experience a failing level of service for congestion and delay.
101	Amanda Ellis	4/26/2018	Electronic Survey	Q: Do you support the building of a freeway regardless of alignment? A: no. I do not support CR 123 being an alignment route. It will bottle neck at Prosper. It seems as though 3/5 options are for CR 123 without regard to future traffic considerations. Completion of the Outer loop should take top alignment route priority. Otherwise, there will be too many large roads in too close proximity.	Comment noted. Alignment options are still being evaluated.
				Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment	Comment noted.
				Q: Which alignment(s) do you prefer in McKinney? A: Green, Pink	Comment noted.
				Q: Which alignment(s) do you prefer in Princeton? A: Green, Pink	Comment noted.
				Q: Which alignment(s) do you prefer in Farmersville? A: Green, Pink	Comment noted.

## Comment Response Matrix

	Commenter Name	Date Received	Source	Comment Topic	Response
				Q: What is your interest in this study? A: Property Owner	Comment noted.
				Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
				Q: Do you have any concerns with the existing US 380? A: In certain areas, yes. The area around 75, Preston and DNT are heavily congested. All other areas are fine.	Comment noted.
				Q: If US 380 is congested what alternative routes do you take? A: Take back roads to the South such as White and Virginia Parkway.	Comment noted.
				Q: What solutions would you suggest in the US 380 Corridor? A: Additional overpasses or duplicate what was done with George Bush Turnpike between 75 and DNT.	Comment noted.
				Q: Do you support the building of a freeway regardless of alignment? A: No.	Comment noted.
				Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment	Comment noted.
				Q: Which alignment(s) do you prefer in McKinney? A: Green, Pink, I Do Not Support Building a Freeway	Comment noted.
				Q: Which alignment(s) do you prefer in Princeton? A: Green, Pink, I Do Not Support Building a Freeway	Comment noted.
				Q: Which alignment(s) do you prefer in Farmersville? A: Green, Pink, I Do Not Support Building a Freeway	Comment noted.
				Q: What is your interest in this study? A: Commuter, Property Owner, Nearby resident	Comment noted.
				Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
				Q: Do you have any concerns with the existing US 380? A: There is a lack of adequate turn lanes to help with traffic flow (into neighborhoods/businesses along 380). The road does not support the number of cars efficiently and safely!	Comment noted.
				Q: If US 380 is congested, what alternative routes do you take? A: Custer, 123/Bloomdale, 164, 943, Wilmeth	Comment noted.
				Q: What solutions would you suggest in the US 380 Corridor? A: Make 380 a freeway (NOT a tollway though). At a minimum proper turn lanes need to be added into neighborhoods and businesses along 380. BUILD OUT the arterial roads north of 380 to 4-6 lanes NOW ... Wilmeth, Bloomdale/123 and 146-L from Preston Road to US 75. These arterial roads would help tremendously with the traffic on 380. The residents north of 380 do not have east/west roads that are not deteriorating to travel east/west besides 380.	Tolling is not being considered as an option for funding. Comment and suggestions for improvements to other roadways noted.
				Q: Do you support the building of a freeway regardless of alignment? A: No, I support the freeway on the current footprint of 380, I do not support a freeway in my backyard!	Comment noted.
				Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment	Comment noted.
				Q: Which alignment(s) do you prefer in McKinney? A: Green, Pink	Comment noted.
				Q: Which alignment(s) do you prefer in Farmersville? A: Green, Pink	Comment noted.

A: I Do Not Support Building a Freeway</p> <p>Q: What is your interest in this study? A: Property Owner</p> <p>Q: How often do you drive on the existing US 380? A: Weekly</p> <p>Q: Do you have any concerns with the existing US 380? A: Countless accidents. It's a very dangerous highway with high speeds for all of the residential areas/businesses that are being put in. With all of the housing additions going up in Princeton, it's going to be that much worse.</p> <p>Q: If US 380 is congested, what alternative routes do you take? A: Sometimes I will go up Bethany through Lucas. But, that area is becoming just as bad.</p> <p>Q: What solutions would you suggest in the US 380 Corridor? A: There definitely needs to be some type of intersection barriers or protected turn lanes. Ideally, a turning into an actual "highway" with service roads would be the best solution.</p> <p>Q: Do you support the building of a freeway regardless of alignment? A: Yes</p> <p>Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment</p> <p>Q: Which alignment(s) do you prefer in McKinney? 108	Amanda Hurbut	5/11/2018	Electronic Survey	<p>Q: What is your interest in this study? A: Commuter, Property Owner, Nearby resident</p> <p>Q: How often do you drive on the existing US 380? A: Daily</p> <p>Q: Do you have any concerns with the existing US 380? A: Yes! It is extremely dangerous with high speeds and many lights controlling the traffic.</p> <p>Q: If US 380 is congested, what alternative routes do you take? A: I would love to take roads north of McKinney that run east to west. However, the city of McKinney has not build these out. The farm roads are just that - farm roads. The towns of Prosper and Celina at least have roads north of 380 that run east to west. McKinney is way behind the game on this and I believe that is why we are seeing so much congestion. I would take Wimber - not build out Bloomdale over to Custer. Even Laird Howell. Yet, there are residences and lots of people commuting from these areas. We just need a basic infrastructure.</p> <p>Q: What solutions would you suggest in the US 380 Corridor? A: Fix 380 on 380. Build our roads that run east to west of 380. Wilmett, Bloomdale, Laird Howell, etc. Why should we even consider building a bypass when we don't even know how having actual roads in this area will affect congestion and traffic?</p> <p>Q: Do you support the building of a freeway regardless of alignment? A: No absolutely not. I do not support a freeway anywhere but on 380. This is based upon my experience with 380 in the town of Denton. Denton has a north and south loop that was created to help divert traffic. The south loop has businesses along it is it is just as congested as 380. The north loop is empty. It was meant to serve as a way for commuters to bypass the busy 380 intersections in Denton. But the problem is that no one uses it. It sits empty most of the time and thus the loop never actually solved the problem of the congestion and traffic on 380. I am only in favor of fixing 380 on the existing 380. I realize this will affect businesses, but businesses are some of the main reasons why 380 is starting to get busy.</p> <p>Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment</p> <p>Q: Which alignment(s) do you prefer in McKinney? A: Green, Pink</p> <p>Q: Which alignment(s) do you prefer in Princeton? 110	Amanda Matherly	5/1/2018	Electronic Survey	<p>Q: What is your interest in this study? A: Property Owner</p> <p>Q: How often do you drive on the existing US 380? A: Daily</p> <p>Q: Do you have any concerns with the existing US 380? A: The traffic is terrible. Drivers are constantly distracted and not paying attention to the changing lights while driving at high speeds. The school busses dropping off kids is becoming an issue when drivers don't pay attention to the sudden stop.</p> <p>Q: If US 380 is congested what alternative routes do you take? A: 546, Bridgefarmer, 407, Monte-Carlo. If coming from Dallas, will opt to drive through Wylie if traffic is too bad</p> <p>Q: What solutions would you suggest in the US 380 Corridor? A: The bypass from Hwy 5 through to CR 456 should alleviate a lot traffic from 121.</p> <p>Q: Do you support the building of a freeway regardless of alignment? A: I don't know that widening 380 is going to be a viable solution</p> <p>Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: None</p> <p>Q: Which alignment(s) do you prefer in McKinney? A: Blue, Red</p> <p>Q: Which alignment(s) do you prefer in Princeton? 			Q: What is your interest in this study? A: Commuter, Property Owner	Comment noted.
			Q: How often do you drive on the existing US 380? A: Monthly	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: The speed of traffic is very high as well as the amount of congestion on the road.	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A: Tollway, Preston Rd, Custer Rd, other side streets	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A: Expand the existing lanes, lower the speed, overpasses to relieve congestions.	Comment noted.
			Q: Do you support the building of a freeway regardless of alignment? A: No	Comment noted.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment, Do Not Support Building a Freeway	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: Green, Pink, I Do Not Support Building a Freeway	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A: Green, Pink, I Do Not Support Building a Freeway	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville? A: Green, Pink, I Do Not Support Building a Freeway	Comment noted.
			Q: What is your interest in this study? A: Commuter, Property Owner, Nearby resident	Comment noted.
			Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
			Q: Do you have any concerns with the existing US 380? A:	No answer provided.
			Q: If US 380 is congested, what alternative routes do you take? A:	No answer provided.

Commenter Name	Date Received	Source	Comment Topic	Response
			Q: What is your interest in this study? A: Property Owner, Nearby resident	Comment noted.
			Q: How often do you drive on the existing US 380? A: Weekly	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: No	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A: Eldorado or Virginia	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A: Lower toll road costs or take tolls away so people will be more apt to take other freeways besides 75.	Tolling is not being considered as an option for funding for this project.
Amie Lyman	5/15/2018	Electronic Survey	Q: Do you support the building of a freeway regardless of alignment? A: No	Comment noted.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: Do Not Support Building a Freeway	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: Do Not Support Building a Freeway	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A: Do Not Support Building a Freeway	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville? A: Do Not Support Building a Freeway	Comment noted.
			Q: What is your interest in this study? A: Commuter, Property Owner, Nearby resident	Comment noted.
			Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: None.	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A: Most of my daily driving is going North/South and not East/West.	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A: Keep it as is. The position of our neighborhood, Tucker Hill, is NO to all alignments due to potential loss of homes and devaluation of our neighborhood along with adverse environmental and health implications. Notwithstanding our recommendation, if any freeway construction occurs on the existing Hwy 380 footprint adjacent to Tucker Hill, it must impose minimal right-of-way and noise pollution by means of cantilevered access lanes, a depressed throughput, and sound barriers. Also, if any bypass option is chosen, it must be located as far west of Tucker Hill as possible; west of future Stonesbridge; and not on or bordering existing or future neighborhoods of Tucker Hill.	Comment noted. Any future improvement projects would include assessment of the potential impact on the human and natural environments.
Amie Voigt	5/17/2018	Electronic Survey	Q: Do you support the building of a freeway regardless of alignment? A: No, I feel that Hwy 380 is no different than Northwest Hwy. in Dallas and think the future growth of Collin County would be better served by another route running North/South as opposed to East/West since the outer loop will be built.	Comment noted. Initial traffic analysis taking into account future population projections indicates that even with the construction of the Collin County Outer Loop and other planned roadway improvements within the study area, US 380 would still experience a failing level of service for congestion and delay.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: None, I Do Not Support Building a Freeway	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: Do Not Support Building a Freeway	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A: None, I Do Not Support Building a Freeway	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville? A: None, I Do Not Support Building a Freeway	Comment noted.

				Q: What is your interest in this study? A: Commuter, Nearby resident	Comment noted.
				Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
				Q: Do you have any concerns with the existing US 380? A: Yes it is very unsafe. I fear for mine and my children's life daily	Any future improvements will be designed to enhance safety.
				Q: If US 380 is congested, what alternative routes do you take? A: Try to take back roads but there are not many choices	Comment noted.
				Q: What solutions would you suggest in the US 380 Corridor? A:	No answer provided.
152	Amy Kennedy	5/15/2018	Electronic Survey	Q: Do you support the building of a freeway regardless of alignment? A: Yes	Comment noted.
				Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment	Comment noted.
				Q: Which alignment(s) do you prefer in McKinney? A: Green, Pink	Comment noted.
				Q: Which alignment(s) do you prefer in Princeton? A: Green	Comment noted.
				Q: Which alignment(s) do you prefer in Farmersville? A: Green	Comment noted.
				Q: What is your interest in this study? A: Property Owner, Nearby resident	Comment noted.
				Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
				Q: Do you have any concerns with the existing US 380? A: Traffic and the amount of accidents between Princeton and McKinney	Comment noted. Any future improvements will be designed to enhance safety.
				Q: If US 380 is congested, what alternative routes do you take? A: There are none for me	Comment noted.
				Q: What solutions would you suggest in the US 380 Corridor? A: Adding a lane if possible each way or offering a new roadway to the frisco/mckinney area that is so hugely growing	Comment noted.
				Q: Do you support the building of a freeway regardless of alignment? A: Yes as long as effected residents are compensated fairly if directly effected with their actual homes	All right-of-way acquisitions would be performed according to the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, as amended. When acquiring right-of-way, TxDOT compensation is determined based on an independent appraiser and fair market value.
				Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Red Alignment	Comment noted.
				Q: Which alignment(s) do you prefer in McKinney? A: Blue, Red	Comment noted.
				Q: Which alignment(s) do you prefer in Princeton? A: Green	Comment noted.
				Q: Which alignment(s) do you prefer in Farmersville? A: Blue	Comment noted.

			Q: What is your interest in this study? A: Property Owner	Comment noted.
			Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
			Q: Do you have any concerns with the existing US 380? A:	No answer provided.
			Q: If US 380 is congested, what alternative routes do you take? A:	No answer provided.
			Q: What solutions would you suggest in the US 380 Corridor? A:	No answer provided.
			Q: Do you support the building of a freeway regardless of alignment? A:	No answer provided.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A:	No answer provided.
			Q: Which alignment(s) do you prefer in McKinney? A:	No answer provided.
			Q: Which alignment(s) do you prefer in Princeton? A:	No answer provided.
			Q: Which alignment(s) do you prefer in Farmersville? A:	No answer provided.
			Q: What is your interest in this study? A: Commuter, Property Owner	Comment noted.
			Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: yes, congestion near Hwy 75. Placement of traffic lights and potential widening and/or bypass options	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A: Hardin to White. It is mostly clear west. Going East, I detour at Hardin to reach Hwy 75 south	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A: This is a revised response from a prior survey before realizing the implications. My position is NO to all alignments due to potential loss of homes and devaluation of our neighborhood as a whole and adverse environmental and health implications. Notwithstanding my recommendation, if any Freeway construction occurs on the existing 380 footprint adjacent to Tucker Hill, it must impose minimal right-of-way and noise pollution by means of cantilevered access lanes; a depressed throughput; and sound barriers. Also, notwithstanding my recommendation, if any bypass option occurs, it must be located as far west of Tucker Hill as possible; west of future Stonebridge; not on or bordering Tucker Hill.	Comment noted. Any future improvement projects would include assessment of the potential impact on the human and natural environments.

Date Received	Commenter Name	Source	Comment Topic	Response
			Q: What is your interest in this study? A: Other (please specify). Property Owner + Business Owner	Comment noted.
			Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: Some traffic backups	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A: Hwy 5, 75 or 121	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A: Modify 380 to a tollway with frontage roads.	If the decision is made to construct a freeway, frontage roads are planned to be included. Tolling is not being considered as an option for funding.
			Q: Do you support the building of a freeway regardless of alignment? A: No, our property has both our business and home located on property. La Cour Venue is an indoor venue with 4 Outdoor entertaining spaces used to host weddings and various events. The outdoor areas are used for ceremonies, dining and dancing, so the 2 proposed bypasses running directly beside our property would destroy our business, as the noise would deter anyone interested in renting the event spaces.	Comment noted. Any future improvements would consider the potential impact on the human and natural environments, including noise impacts.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: Green, Pink	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A: Blue	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville? A: Green, Pink	Comment noted.
			Q: What is your interest in this study? A: Commuter, Property Owner, Nearby resident	Comment noted.
			Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: Safety, traffic, time,	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A: None bc I need 380 to get to where I need to be. Sometime Hardin to white.	Comment noted. Alignment options and roadway configurations are still being evaluated.
			Q: What solutions would you suggest in the US 380 Corridor? A: Make an interstate option with over and underpasses to take off lights and turning into/off of.	Comment noted.
			Q: Do you support the building of a freeway regardless of alignment? A: Yes	Comment noted.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment, The Blue Alignment, The Red Alignment	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: Green, Blue	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A: Green, Pink, Blue	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville? A: Green, Pink, Blue	Comment noted.

## Comment Response Matrix

180	Andrea Evans	5/14/2018	Electronic Survey	<p>Q: What is your interest in this study? A: Commuter, Property Owner, Nearby resident</p> <p>Q: How often do you drive on the existing US 380? A: Weekly</p> <p>Q: Do you have any concerns with the existing US 380? A: No</p> <p>Q: If US 380 is congested, what alternative routes do you take? A: HWY 21</p> <p>Q: What solutions would you suggest in the US 380 Corridor? A: Instead of a dog leg around McKinney why not have a proper loop starting at DNT taken the route further north of current 380. Where your demographic map shows the largest population growth.</p> <p>Q: Do you support the building of a freeway regardless of alignment? A: No, absolutely NOT!!!</p> <p>Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Blue Alignment</p> <p>Q: Which alignment(s) do you prefer in McKinney? A: Blue</p> <p>Q: Which alignment(s) do you prefer in Princeton? A: Blue</p> <p>Q: Which alignment(s) do you prefer in Farmersville? A: Blue</p> <p>Q: What is your interest in this study? A: Commuter, Property Owner</p> <p>Q: How often do you drive on the existing US 380? A: Daily</p> <p>Q: Do you have any concerns with the existing US 380? A: The construction and semi traffic is horrible.</p> <p>Q: If US 380 is congested, what alternative routes do you take? A: Lake Forest to 121; Virginia to 75</p> <p>Q: What solutions would you suggest in the US 380 Corridor? A: Widening the existing 380 - less homes are affected by this.</p>	<p>Comment noted.</p>
181	Andrea Horvath	5/3/2018	Electronic Survey	<p>Q: Do you support the building of a freeway regardless of alignment? A: I support of the building of a freeway if it keeps the same footprint of 380 (not a bypass) and sound walls are built to protect neighborhoods.</p> <p>Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment</p> <p>Q: Which alignment(s) do you prefer in McKinney? A: Green, Pink</p> <p>Q: Which alignment(s) do you prefer in Princeton? A: Green, Pink</p> <p>Q: Which alignment(s) do you prefer in Farmersville? A: Green, Pink</p>	<p>Comment noted. Noise analysis will be conducted as part of the environmental assessment process for this project, after selection of a preferred alternative and development of a schematic. Noise abatement measures, including barriers, would be considered for impacted properties. Barriers would be constructed if the analysis determines they are reasonable and feasible from noise reduction, constructability, and cost perspectives.</p> <p>Comment noted.</p> <p>Comment noted.</p> <p>Comment noted.</p> <p>Comment noted.</p>

182	Andrea Loker	5/15/2018	Electronic Survey	<p>Q: What is your interest in this study? A: Commuter, Nearby resident</p> <p>Q: How often do you drive on the existing US 380? A: Weekly</p> <p>Q: Do you have any concerns with the existing US 380? A: Past 15 yrs highway is now a local road. Either drop the speed to 35mph. Or Build a bridge to 75 for traffic needing north or south access to other connecting highways or Dallas north tolway. Depending on the location.</p> <p>Q: If US 380 is congested, what alternative routes do you take? A: Virginia, alma, Custer/lake forest, ridge road, service road on 75 to any other alternate streets to avoid 380 During rush hour, Christmas shopping and trade days, weekend shopping before 630 pm.</p> <p>Q: What solutions would you suggest in the US 380 Corridor? A: Think long term! All past efforts were short term! Review population growth, new communities under construction, why does everything need to be flat? Go Up. Make Local only lanes and include bridge like Preston from 121. Seems to work for this road, use feeder bridges to move heavier traffic up and around and lower decks of traffic move at slower speeds with more traffic lights.</p> <p>Q: Do you support the building of a freeway regardless of alignment? A: Yes! Get on it Already!</p> <p>Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment</p> <p>Q: Which alignment(s) do you prefer in McKinney? 187	Andrew Busbee	4/26/2018	Electronic Survey	<p>Q: What is your interest in this study? A: Nearby resident</p> <p>Q: How often do you drive on the existing US 380? A: Daily</p> <p>Q: Do you have any concerns with the existing US 380? A: It's no worse than Preston road, which is a major North/south route I take daily, and that is not being considered for expansion. Yes, it has its high traffic times, but for the most part it is not terrible. My concern is more with the impact to property owners and residents who will be financially impacted by a highway in their front or back yard. Use the existing corridor and stop putting the burden on property owners to take a hit.</p> <p>Q: If US 380 is congested, what alternative routes do you take? A: If congested I will take Frontier Parkway which only has 2 stop signs. It is an easy East/West alternative, and once the outer loop is created I will become a primary route for us.</p> <p>Q: What solutions would you suggest in the US 380 Corridor? A: Clearly the grade separated intersections are the best choice for the residents of the area and taxpayers in McKinney. The road already exists, and the impacts to the citizens will be minimized. The outer loop will take a significant portion of the east/west traffic. Building another east/west highway (bypass) that will impact residential property only a couple miles away from the outer loop does not make sense. Focus on getting the outer loop up and running versus doing a short term solution that will not be needed once the loop is created. It will have destroyed property values and cost taxpayers \$\$\$ for nothing.</p> <p>Q: Do you support the building of a freeway regardless of alignment? A: No, I do not. The cost seems to outweigh the benefits. We should be focusing on building the outer loop which will become a major east/west artery. The outer loop will take a significant portion of the east/west traffic, and building another east/west highway that will impact residential property only a couple miles away does not make sense. Focus on getting the outer loop up and running versus doing a short term solution that will not be needed once the loop is created. It will have destroyed property values and cost taxpayers \$\$\$ for nothing. McKinney is supposed to be "Unique by Nature," but 3 of the proposed routes go right through some of the most picturesque parts of the area.</p> <p>Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: I Do Not Support Building a Freeway</p> <p>Q: Which alignment(s) do you prefer in McKinney? A: I Do Not Support Building a Freeway</p> <p>Q: Which alignment(s) do you prefer in Princeton? A: I Do Not Support Building a Freeway</p> <p>Q: Which alignment(s) do you prefer in Farmersville? A: I Do Not Support Building a Freeway</p> <p>Q: What is your interest in this study? A:</p> <p>Q: How often do you drive on the existing US 380? A: Safety</p> <p>Q: Do you have any concerns with the existing US 380? A:</p> <p>Q: If US 380 is congested, what alternative routes do you take? A:</p> <p>Q: What solutions would you suggest in the US 380 Corridor? A:</p> <p>Q: Do you support the building of a freeway regardless of alignment? A:</p> <p>Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: Blue, Yellow</p> <p>Q: Which alignment(s) do you prefer in McKinney? A: Blue</p> <p>Q: Which alignment(s) do you prefer in Princeton? A: Blue, Yellow</p>	<p>Comment noted.</p> <p>Comment noted.</p> <p>Comment noted. Any future improvements will not be implemented without thorough consideration of the potential impact on the human and natural environments.</p> <p>Comment noted.</p> <p>Comment noted. Our traffic analysis indicates that this option would provide a slight improvement to traffic, but would still operate at a failing level of service. Initial traffic analysis taking into account future population projections indicates that even with the construction of the Collin County Outer Loop and other planned roadway improvements within the study area, US 380 would still experience a failing level of service for congestion and delay.</p> <p>Comment noted.</p>

		Q: Which alignment(s) do you prefer in Farmersville? A: Blue, Yellow	After reviewing the 5 available plans, the only one that I didn't like was the "Red" plan. The Red plan appears to impact more homes negatively than the other bypass options. I am also in support of a bypass option over a construction project along 380 as the disruption to an already terrible traffic situation would be compounded by construction, a growing population, and current business development. I have been involved in 3 major traffic accidents on 380, one of which required me to take an ambulance to the ER. In each collision, I was stopped at an intersection and waiting for the light to change. Please choose byway option "Blue" or "Yellow" and start building sooner rather than later.	Comment noted.  Comment noted.

Commenter Name	Date Received	Source	Comment Topic	Response
			Q: What is your interest in this study? A: Property Owner, Nearby resident	Comment noted.
			Q: How often do you drive on the existing US 380? A: Monthly	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: Not really.	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A: None. I frequent the businesses on 380	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A: Overpasses to skip the lights while using the same footprint that already exists. Similar to the area down by Frisco's mall	Comment noted.
			Q: Do you support the building of a freeway regardless of alignment? A: I could see building a freeway a little farther north that connects the DNT, 75, and 35.	Comment noted.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: Green, Pink	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A: Green	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville? A: Green, Pink	Comment noted.
			Q: What is your interest in this study? A: Commuter, Property Owner, Nearby resident	Comment noted.
			Q: How often do you drive on the existing US 380? A: Weekly	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: Too many stop lights to make it an effective path from my house to work. The congestion forces multiple cycles of the stoplight at certain intersections.	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A: Proper Trail - It runs directly behind my house and only has 2 stops between Lake Forest and Preston, however is a very poor road from Heatherwood subdivision to Custer. I would rather take 380 if it were a highway.	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A: Make 380 a highway, maybe even elevated to have less impact on the 380 businesses.	Comment noted.
			Q: Do you support the building of a freeway regardless of alignment? A: No, the freeway needs to be in the pink and green alignments only to be most effective and direct	Comment noted.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: Green, Pink	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A: Green, Pink	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville? A: Green, Pink	Comment noted.

191	Andrew Griffin	5/2/2018	Electronic Survey	<p>Q: What is your interest in this study? A: Nearby resident</p> <p>Q: How often do you drive on the existing US 380? A: Daily</p> <p>Q: Do you have any concerns with the existing US 380? A: The amount of 18-wheelers and other large vehicles. They can impede the flow of traffic when there are too many. Perhaps cities could implement a rule to keep large vehicles within the right two lanes, leaving the leftmost lane open for passing traffic.</p> <p>Q: If US 380 is congested, what alternative routes do you take? A: I don't. I have to sit through the traffic. If I am in McKinney I might take Virginia.</p> <p>Q: What solutions would you suggest in the US 380 Corridor? A: Grade separated intersections at points like Custer, lake forest, hardin, etc. and a multi level interchange at highway 75.</p> <p>Q: Do you support the building of a freeway regardless of alignment? A: Yes, 100%. McKinney is going to be a big city, and we need big city infrastructure.</p> <p>Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment, The Blue Alignment</p> <p>Q: Which alignment(s) do you prefer in McKinney? A: Blue</p> <p>Q: Which alignment(s) do you prefer in Princeton? A: Green, Pink</p> <p>Q: Which alignment(s) do you prefer in Farmersville? A: Green, Pink</p> <p>Q: What is your interest in this study? A: Commuter, Nearby resident, MHS District Employee</p> <p>Q: How often do you drive on the existing US 380? A: Daily</p> <p>Q: Do you have any concerns with the existing US 380? A: Too many stop lights.</p> <p>Q: If US 380 is congested, what alternative routes do you take? A: Eldorado, Wilmeth rd, White ave, Virginia</p> <p>Q: What solutions would you suggest in the US 380 Corridor? A: US 380 should be a tollway, with no stop lights. Straight through.</p> <p>Q: Do you support the building of a freeway regardless of alignment? A: NO</p> <p>Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment</p> <p>Q: Which alignment(s) do you prefer in McKinney? A: Green, Pink</p> <p>Q: Which alignment(s) do you prefer in Princeton? A: Green, Pink</p> <p>Q: Which alignment(s) do you prefer in Farmersville? A: Green, Pink</p>	<p>Comment noted.</p> <p>Comment noted.</p> <p>Suggestion to restrict select vehicle type traffic has been noted.</p> <p>Comment noted.</p> <p>Our traffic analysis indicates that this option would provide some benefit but would still operate at a failing level of service.</p> <p>Comment noted.</p> <p>Tolling is not being considered as an option for funding. The free way options presented would have no signalized intersections.</p> <p>Comment noted.</p> <p>Comment noted.</p> <p>Comment noted.</p> <p>Comment noted.</p>
192	andrew hansen	5/9/2018	Electronic Survey	<p>Q: What is your interest in this study? A: Green, Pink</p>	Comment noted.

193	Andrew Harsch	5/15/2018	Electronic Survey	<p>Q: What is your interest in this study? A: Commuter, Property Owner, Nearby resident</p> <p>Q: How often do you drive on the existing US 380? A: Weekly</p> <p>Q: Do you have any concerns with the existing US 380? A:</p> <p>Q: If US 380 is congested, what alternative routes do you take? A:</p> <p>Q: What solutions would you suggest in the US 380 Corridor? A:</p> <p>Q: Do you support the building of a freeway regardless of alignment? A:</p> <p>Q: If US 380 is constructed as a freeway, which alignment do you prefer? A:</p> <p>Q: Which alignment(s) do you prefer in McKinney? A:</p> <p>Q: Which alignment(s) do you prefer in Princeton? A:</p> <p>Q: Which alignment(s) do you prefer in Farmersville? A:</p> <p>Q: What is your interest in this study? A: Commuter, Property Owner, Nearby resident</p> <p>Q: How often do you drive on the existing US 380? A: Daily</p> <p>Q: Do you have any concerns with the existing US 380? A: West of Lake Forest, the daily traffic patterns are not heavy, even during rush hour times. East of Lake Forest, the addition of right-hand turn bays along with improved traffic signaling control would alleviate the majority of the congestion, which is less about the volume of cars and more about their movement patterns - braking when someone wants to turn right with no dedicated right-hand turn lanes, etc.</p> <p>Q: If US 380 is congested, what alternative routes do you take? A: I usually stay put. Taking any side roads usually wind up taking more time than just waiting.</p> <p>Q: What solutions would you suggest in the US 380 Corridor? A: Better signal control. There are numerous technology companies who have produced AI-based software that have proven to alleviate traffic pattern congestion significantly. West of Lake Forest, more right-hand turn bays for retail entry.</p> <p>Q: Do you support the building of a freeway regardless of alignment? A: No. Consider what the 307.5 interchange did to downtown/deep ellum/fair park? McKinney's "Unique By Nature" motto implies that we consider more creative and innovative ways to solve problems such as traffic than just plropping a freeway down.</p> <p>Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: I Do Not Support Building a Freeway</p> <p>Q: Which alignment(s) do you prefer in McKinney? A: I Do Not Support Building a Freeway</p> <p>Q: Which alignment(s) do you prefer in Princeton? 				Q: What is your interest in this study? A: Property Owner, Nearby resident	Comment noted.
				Q: How often do you drive on the existing US 380? A: Weekly	Comment noted.
				Q: Do you have any concerns with the existing US 380? A: Concerned that there is no alternate East-West route in case of an accident or construction. That more houses mean more people trying to cross busy streets. A big new high school right on the highway so lots of kids trying to cross the street.	Comment noted.
				Q: If US 380 is congested, what alternative routes do you take? A: No good alternative unless go South to Lewisville.	Comment noted.
				Q: What solutions would you suggest in the IUS 380 Corridor? A: A highway without lights alongside roads with plenty of traffic lights.	Comment noted.
				Q: Do you support the building of a freeway regardless of alignment? A: Yes	Comment noted.
				Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment	Comment noted.
				Q: Which alignment(s) do you prefer in McKinney? A: Green, Pink	Comment noted.
				Q: Which alignment(s) do you prefer in Princeton? A: Green, Pink	Comment noted.
				Q: Which alignment(s) do you prefer in Farmersville? A: Green, Pink	Comment noted.
				Q: What is your interest in this study? A: Commuter, Business Owner, Property Owner	Comment noted.
				Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
				Q: Do you have any concerns with the existing US 380? A: yes, congestion; Traffic is very bad during commuting times; current commuter times are very bad and appear to be getting worse.	Comment noted.
				Q: If US 380 is congested, what alternative routes do you take? A: I do not have any other options due to my home & business location.	Comment noted.
				Q: What solutions would you suggest in the US 380 Corridor? A: I am in support of expanding the footprint of the current 380 corridor. The 380 bypass options will cause me to lose my home, animal stables, and home based business, take or build on the 'yellow' route or expand existing 380 route on the south side (pink). The Red or Blue routes run directly over my home and business. I would be forced to find a new home.	Comment noted. Alignment options are still being evaluated.
				Q: Do you support the building of a freeway regardless of alignment? A: I support the building of the freeway aligned within its current footprint. I only support it if it's expanded on the existing corridor or 'yellow' option. Collin County needs better access and support the building of a Freeway	Comment noted.
				Q: Which alignment(s) do you prefer in Princeton? A: The Green/Pink Alignment, The Yellow Alignment	Comment noted.
				Q: Which alignment(s) do you prefer in McKinney? A: Green, Pink	Comment noted.
				Q: Which alignment(s) do you prefer in Princeton? A: Green, Pink, Yellow	Comment noted.
				Q: Which alignment(s) do you prefer in Farmersville? A: Green, Pink, Yellow	Comment noted.

## Comment Response Matrix

	Commenter Name	Date Received	Source	Comment Topic	Response
				Q: What is your interest in this study? A: Commuter, Business Owner, Property Owner, Nearby resident	Comment noted.
				Q: How often do you drive on the existing US 380? A: Weekly	Comment noted.
				Q: Do you have any concerns with the existing US 380? A: Not particularly	Comment noted.
				Q: If US 380 is congested, what alternative routes do you take? A: 121	Comment noted.
				Q: What solutions would you suggest in the US 380 Corridor? A:	No answer provided.
203	Andrew Smith	5/17/2018	Electronic Survey	Q: Do you support the building of a freeway regardless of alignment? A: yes	Comment noted.
				Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment, The Yellow Alignment	Comment noted.
				Q: Which alignment(s) do you prefer in McKinney? A: Green, Pink	Comment noted.
				Q: Which alignment(s) do you prefer in Princeton? A: Green, Pink	Comment noted.
				Q: Which alignment(s) do you prefer in Farmersville? A: Green, Pink	Comment noted.
				Q: What is your interest in this study? A: Nearby resident	Comment noted.
				Q: How often do you drive on the existing US 380? A: Weekly	Comment noted.
				Q: Do you have any concerns with the existing US 380? A: as it gets towards 75 it becomes very congested	Comment noted.
				Q: If US 380 is congested, what alternative routes do you take? A: SRT 121, Eldorado or Virginia	Comment noted.
				Q: What solutions would you suggest in the US 380 Corridor? A: widen it near McKinney	Comment noted.
				Q: Do you support the building of a freeway regardless of alignment? A: As long as it is a FREEWay. We are fed up with toll roads.	Tolling is not being considered as an option for funding.
				Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment, The Blue Alignment	Comment noted.
				Q: Which alignment(s) do you prefer in McKinney? A: Green, Pink	Comment noted.
				Q: Which alignment(s) do you prefer in Princeton? A: Green, Pink	Comment noted.
204	Andrew Tate	5/15/2018	Electronic Survey	Q: Which alignment(s) do you prefer in Farmersville? A: Green, Pink	Comment noted.

A: Daily</p> <p>Q: Do you have any concerns with the existing US 380? A: Yes, as someone who drives it everyday, there is already a lot of traffic and congestion. The amount of traffic signals makes it almost not drivable during rush hour. A signal bypass option is needed (whether it's a freeway or overpass &amp; underpass at select intersections). There are intersections without decel lanes, which is dangerous at the speeds people are travelling. The number of intersections, volume of traffic, and speeds which people drive don't make 380 feel safe... seems like there are always accidents.</p> <p>Q: If US 380 is congested, what alternative routes do you take? A: Virginia Pkwy / Eldorado Pkwy</p> <p>Q: What solutions would you suggest in the US 380 Corridor? A: I think a freeway is needed... options to bypass traffic signals with overpass / underpass. Better timing of signals for now. More medians and better landscaping.</p> <p>Q: Do you support the building of a freeway regardless of alignment? 			Q: What is your interest in this study? A: Property Owner	Comment noted.
			Q: How often do you drive on the existing US 380? A: Weekly	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: Yes. It's a dangerous road. There no center divider. I believe this road needs to be a limited access highway	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A: There are not really any alternates	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A: Widening it. Have a southern route and possibly a northern route.	Comment noted.
			Q: Do you support the building of a freeway regardless of alignment? A: No. Alignment is important	Comment noted.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: Pink	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A: Pink	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville? A:	No answer provided.
			Q: What is your interest in this study? A: Commuter, Property Owner, Nearby resident	Comment noted.
			Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: Congestion	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A: Back roads north of 380	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A: Bypass	Comment noted.
			Q: Do you support the building of a freeway regardless of alignment? A: Yes	Comment noted.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Red Alignment, The Yellow Alignment	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: Red	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A: Yellow	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville? A: Yellow	Comment noted.

				Q: What is your interest in this study? A: Property Owner, Nearby resident	Comment noted.
				Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
				Q: Do you have any concerns with the existing US 380? A: Yes. Heavy traffic and a lot of wrecks at Tremont. Too many work construction trucks and traffic. We also have a lot of wrecks at our neighborhood entrance- 380 and tremont	Comment noted.
				Q: If US 380 is congested, what alternative routes do you take? A: Prosper trail or Virginia	Comment noted.
				Q: What solutions would you suggest in the US 380 Corridor? A: Tucker Hill's position is NO to all alignments due to potential loss of homes and devaluation of our neighborhood as a whole and adverse environmental and health implications. Notwithstanding our recommendation, if any freeway construction occurs on the existing 380 footprint adjacent to Tucker Hill, it must impose minimal right-of-way and noise pollution by means of cantilevered access lanes; a depressed highway; and sound barriers. Also, if any bypass option is chosen, it must be located as far west of Tucker Hill as possible; west of future Stonebridge; not on or bordering Tucker Hill. Don't do it!	Comment noted. Any future improvement projects would include assessment of the potential impact on the human and natural environments.
				Q: Do you support the building of a freeway regardless of alignment? A: No	Comment noted.
				Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Yellow Alignment, I Do Not Support Building a Freeway	Comment noted.
				Q: Which alignment(s) do you prefer in McKinney? A: Blue, I Do Not Support Building a Freeway	Comment noted.
				Q: Which alignment(s) do you prefer in Princeton? A: I Do Not Support Building Freeway	Comment noted.
				Q: Which alignment(s) do you prefer in Farmersville? A: I Do Not Support Building a Freeway	Comment noted.
				Q: What is your interest in this study? A: Commuter	Comment noted.
				Q: How often do you drive on the existing US 380? A: Weekly	Comment noted.
				Q: Do you have any concerns with the existing US 380? A:	No answer provided.
				Q: If US 380 is congested, what alternative routes do you take? A: 75 and back roads	Comment noted.
				Q: What solutions would you suggest in the US 380 Corridor? A:	No answer provided.
				Q: Do you support the building of a freeway regardless of alignment? A: No	Comment noted.
				Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment	Comment noted.

224	Angela Moss	5/13/2018	Electronic Survey	<p>Q: What is your interest in this study? A: Nearby resident</p> <p>Q: How often do you drive on the existing US 380? A: Daily</p> <p>Q: Do you have any concerns with the existing US 380? A: It is congested and dangerous at times</p> <p>Q: If US 380 is congested, what alternative routes do you take? A: Rockhill Parkway to North Dallas Tollway, Virginia, Eldorado, or 121 to 75</p> <p>Q: What solutions would you suggest in the US 380 Corridor? A: I would be opposed to any change in alignment that would bring the bypass west of Custer Rd.</p> <p>Q: Do you support the building of a freeway regardless of alignment? A: Yes but I request consideration of the impact of the proposed by pass on First Street, Prosper Trail and Frontier Parkway in Prosper due to possible "cut through" traffic to connect with proposed by pass versus expanding the current alignment of 380</p> <p>Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: None</p> <p>Q: Which alignment(s) do you prefer in McKinney? A: None</p> <p>Q: Which alignment(s) do you prefer in Princeton? A: None</p> <p>Q: Which alignment(s) do you prefer in Farmersville? A: None</p> <p>Q: What is your interest in this study? A: Nearby resident</p> <p>Q: How often do you drive on the existing US 380? A: Weekly</p> <p>Q: Do you have any concerns with the existing US 380? A: No concerns.</p> <p>Q: If US 380 is congested, what alternative routes do you take? A: Take no alternate route.</p> <p>Q: What solutions would you suggest in the US 380 Corridor? A: Increase the lanes in their current location.</p>	<p>Comment noted.</p>
225	Angela Nyberg	5/14/2018	Electronic Survey	<p>Q: Do you support the building of a freeway regardless of alignment? A: Do not support any alignment that would go through anyone's existing personal home -- if that person will not willingly agree to cash price offered by the state for their personal property. We watched a single mom be bullied out of her home so that the Trinity Falls development could go in. That is no morally right.</p> <p>Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment</p> <p>Q: Which alignment(s) do you prefer in McKinney? A: Green, Pink</p> <p>Q: Which alignment(s) do you prefer in Princeton? A: Green, Pink</p> <p>Q: Which alignment(s) do you prefer in Farmersville? A: Green, Pink</p>	<p>Comment noted. All right-of-way acquisitions would be performed according to the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, as amended. When acquiring right-of-way, TxDOT compensation is determined based on an independent appraiser and fair market value. Relocation assistance could also be provided. Discussions with property owners concerning the acquisition of their property will not occur until after the environmental document and preliminary schematic are approved and the right-of-way maps have been prepared.</p> <p>Comment noted.</p> <p>Comment noted.</p> <p>Comment noted.</p> <p>Comment noted.</p>

				Q: What is your interest in this study? A: Property Owner, Nearby resident	Comment noted.
				Q: How often do you drive on the existing US 380? A: Weekly	Comment noted.
				Q: Do you have any concerns with the existing US 380? A: Yes, it seems unable to handle the amount of increasing traffic, there are frequent auto accidents, etc. I think US 380 should be a freeway, like 75 or 635 in Dallas, or a tollway. At the very minimum, I think overpasses for major intersections should be put into place (grade separated intersections), but that's really just a temporary fix because the traffic is going to keep increasing. Q: If US 380 is congested, what alternative routes do you take? A: I often take Rock Hill across Frisco to/from Preston and the DNT instead of driving across 380. I also go south and take Eldorado sometimes.	Comment noted. Alignment options and roadway configurations are still being evaluated.
226	Angela Sherer	5/15/2018	Electronic Survey	Q: What solutions would you suggest in the US 380 Corridor? A: Make 380 a freeway raised, limited access freeway with on/off ramps and service road) or tollway. I am not opposed to the by-pass with the current proposed alignments, but request consideration of the impact of the proposed by-pass on First Street, Prosper Trail, and Frontier Parkway in Prosper, due to possible "cut through" traffic. Q: Do you support the building of a freeway regardless of alignment? A: I support building a freeway or a tollway, whichever gets the biggest improvement for traffic and future capacity done. However, I'm opposed to any change in the proposed alignments that brings a by-pass or major traffic west of Custer Road as it reconnects to 380. Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment	Comment noted.
				Q: Which alignment(s) do you prefer in McKinney? A: Green, Pink	Comment noted.
				Q: Which alignment(s) do you prefer in Princeton? A: Green, Pink	Comment noted.
				Q: Which alignment(s) do you prefer in Farmersville? A: Green, Pink	Comment noted.
				Q: What is your interest in this study? A: Commuter, Property Owner, Nearby resident	Comment noted.
				Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
				Q: Do you have any concerns with the existing US 380? A: Yes. However, my concerns are mentioned as part of this study.	Comment noted.
				Q: If US 380 is congested, what alternative routes do you take? A:	No answer provided.
				Q: What solutions would you suggest in the US 380 Corridor? A: Yes	No answer provided.
				Q: Do you support the building of a freeway regardless of alignment? A:	Comment noted.
				Q: Which alignment(s) do you prefer in McKinney? A: Blue, Red	Comment noted.
				Q: Which alignment(s) do you prefer in Princeton? A: Blue	Comment noted.
				Q: Which alignment(s) do you prefer in Farmersville? A: Blue	Comment noted.

			Q: What is your interest in this study? A: Property Owner, Nearby resident	Comment noted.
			Q: How often do you drive on the Existing US 380? A: Daily	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: Too much traffic congestion and seemingly many accidents	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A: Virginia if heading east; different side roads if heading west	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A:	No answer provided.
			Q: Do you support the building of a freeway regardless of alignment? A: not sure	Comment noted.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Yellow Alignment	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A:	No answer provided.
			Q: Which alignment(s) do you prefer in Princeton? A:	No answer provided.
			Q: Which alignment(s) do you prefer in Farmersville? A:	No answer provided.
			Q: What is your interest in this study? A: Computer, Property Owner, Nearby resident	Comment noted.
			Q: How often do you drive on the Existing US 380? A: Weekly	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: With all the new businesses being built along 380 in McKinney, I feel like speeds need to be reduced to increase safety.	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A: take Virginia if in town. If I'm travelling North, I take 75 and the cut across to 1-35 if needed.	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A: Decreased speeds in busy areas, no hills in the road to block drivers view of traffic ahead.	Comment noted.
			Q: Do you support the building of a freeway regardless of alignment? A: No. Placement is important.	Comment noted.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: Green, Pink	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A: Green, Pink	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville? A: Green, Pink	Comment noted.

			Q: What is your interest in this study? A: Property Owner, Nearby resident	Comment noted.
			Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: Yes, it is very dangerous for our new and young drivers driving to McKinney north high school. The speed limit should be dropped to 45 to reduce accident risk with so many people turning off and stopping at lights. The speed limit needs to be dropped to 45MPH with so many people turning into businesses and stop lights. It is a dangerous road to have highway speeds.	Comment noted.
237	Ann Collins	5/17/2018  Electronic Survey	Q: If US 380 is congested, what alternative routes do you take? A: 121  Q: What solutions would you suggest in the US 380 Corridor? A: Make a larger arterial junction at Custer. Preserve the 4 lanes of Stonebridge ranch and Ridge road. There are 2 WALKING elementary schools and a middle school on those roads. It is crazy to add 6 lanes to roads with walking schools on them- That is not unique or keeping in nature. Make elevated roadway to drive straight over existing traffic lights, but keep enough lanes left on the ground for those who need to go short distance down 380. Q: Do you support the building of a freeway regardless of alignment? A: No, it all depends on the alignment. Yes, if it is a true freeway, and not freeway speed limits with street lights and cross traffic.	Comment noted.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment, The Blue Alignment, The Red Alignment	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: Green, Pink, Blue, Red	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A: Green, Pink, None	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville? A: Green, Pink, None	Comment noted.
			Q: What is your interest in this study? A: Reader	Comment noted.
			Q: How often do you drive on the Existing US 380? A: Daily	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: Too much traffic and not enough traffic lanes	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A: Virginia	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A: Add more lanes to 380 or create a 121 type freeway	Comment noted.
			Q: Do you support the building of a freeway regardless of alignment? A: Yes and no	Comment noted.
238	Ann Fifeet	5/16/2018  Electronic Survey	Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment	Comment noted.

	Ann Glazer	5/14/2018	Electronic Survey	Since 1981, my family has owned and farmed a piece of land that would be cut in half by the red alternative and within a quarter mile of the yellow one. The Little Farm is over 350 acres with three houses. It was the first certified organic farm in Collin County and in the first class of certified organic farms in Texas. We have raised organic cattle, pigs, sheep, chickens, and turkeys. There is an orchard and 100 year old pecan trees. It would be impossible to continue to farm with a highway dividing it in two. Two of the houses and the pecan grove are in the direct path. We strongly feel that the red and yellow proposed improvements to us 380 would destroy what our family has worked for over 35 years to create. Thank you for considering these comments in your decision.	Comment noted. Any future improvement projects would include assessment of the potential impact on the human and natural environments.
	NA	Comment Form		Q: What is your interest in this study? A: Business Owner, Property Owner, Nearby resident	Comment noted.
				Q: How often do you drive on the existing US 380? A: Weekly	Comment noted.
				Q: Do you have any concerns with the existing US 380? A: Traffic is ridiculous at 380/75 and 380/DNT	Comment noted.
				Q: What solutions would you suggest in the US 380 Corridor? A: Create a bypass that would affect the fewest residents/businesses/parks	Comment noted. Any future improvement projects would include assessment of the potential impact on the human and natural environments. TxDOT attempts to avoid and/or minimize impacts to residences, business, and parks as much as practicable.
240	Ann Hiner	5/15/2018	Electronic Survey	Q: Do you support the building of a freeway regardless of alignment? A: No, only if the alignment is agreed upon by residents	Comment noted.
				Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment	Comment noted.
				Q: Which alignment(s) do you prefer in McKinney? A: Green, Pink	Comment noted.
				Q: Which alignment(s) do you prefer in Princeton? A: Green, Pink	Comment noted.

## Comment Response Matrix

			Q: Which alignment(s) do you prefer in Farmersville? A: Green, Pink	Comment noted.

Commenter Name	Date Received	Source	Comment Topic	Response
			Q: What is your interest in this study? A: Property Owner	Comment noted.
			Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: Yes	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A: I don't have an alternate route. I live on 380.	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A: A bypass to the North of 380	Comment noted.
			Q: Do you support the building of a freeway regardless of alignment? A: I support a bypass north of 380.	Comment noted.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Red Alignment	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: Red	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A:	No answer provided.
			Q: Which alignment(s) do you prefer in Farmersville? A:	No answer provided.
			Q: What is your interest in this study? A: Property Owner	Comment noted.
			Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: YES The speed limit is excessive. The truck traffic is a total free for all - any weight, size, travelling at speeds in excess of 65mph, moving in and across all lanes of the road with little regard to vehicles trying to share the road.	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A: None. Travel it daily without congestion. If anything I take alternate route to avoid the speed and the unsafe travel of the trucks.	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A: Reduce the speed limit to 40 or 45 mph. Sync traffic signals to the new posted speed limit. Enforce the posted speed limit. Add acceleration and deceleration lanes. Restrict truck traffic - lane restrictions and time restrictions (i.e. only allowed between the hours of 6pm-8am)(trucks must travel in the right lane only). Widen and extend use of other existing east/west roads: 1st Street from Preston dead ends into Custer - continue that through. Preston Trail widen through. Frontier Pkwy widen through. Extend use of existing North/South roads: Stonebridge Dr., Ridge Rd.	Speed limits are based on actual speeds observed as part of speed studies. Suggestions to reduce speed limits, sync traffic signals and restrict truck traffic noted.
			Q: Do you support the building of a freeway regardless of alignment? A: No, absolutely not. There has yet to be shown maximized and efficient use of existing roads. There is so much that can be improved upon without having to take the unnecessary measure, adverse impact, and excessive cost of constructing a freeway through residential areas. Please fix what exists.	Comment noted.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: None, I Do Not Support Building a Freeway	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: None, I Do Not Support Building a Freeway	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A: None, I Do Not Support Building a Freeway	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville? A: None, I Do Not Support Building a Freeway	Comment noted.

	Commenter Name	Date Received	Source	Comment Topic	Response
243	Ann Radcliffe	5/18/2018	Electronic Survey	<p>Q: What is your interest in this study? A: Nearby resident</p> <p>Q: How often do you drive on the existing US 380? A: Weekly</p> <p>Q: Do you have any concerns with the existing US 380? A: Congestion in key areas many hours of the day. intersections most affected are DNT, Preston, Custer, all intersections one mile east and west of 75. Much of this congestion is a direct result of allowing larger shopping centers being allowed to be built without fixing the infrastructure.</p> <p>Q: If US 380 is congested what alternative routes do you take? A: I do not travel 380 near 75 intersection. I will take White or Wilmeth to avoid this cluster F***.</p> <p>Q: What solutions would you suggest in the US 380 Corridor? A: First, this project is at minimum 10 years too late in developing a plan. Take action now and put a moratorium on all development adjacent to 380. Bypasses similar to the one in Denton, have to be built because of irresponsible planning by cities/txdot. But these bypasses only work if limited development occurs. Lessons still haven't been learned as Denton ISD was allowed to build Ray Braswell High School and Stadium on the corner of Navo Road and 380. What!!!?? Horrible decision that will result in horrible traffic and unsafe conditions for all... students, parents, commuters. The new proposed bypasses would potentially help with the irresponsible development that resulted in outrageous congestion but at a cost to other's homesheads, parks or businesses. This is a sad situation that the surrounding cities and Texdot FAILED their citizens. I would support a bypass only if those properties are compensated above market value. YOU (cities/TxDOT) caused the problem with inadequate, incompetent planning. YOU should pay those directly affected. If you don't build a bypass, any improvement to 380 near the 75 intersection is a band-aid.</p> <p>Q: Do you support the building of a freeway regardless of alignment? A: It doesn't have to be a freeway, just a higher speed/volume roadway with limited development. AND it better not be a &amp;%\$* toll road!!! A freeway has the word FREE in it and we are tired of being taxed/tilled everywhere we go. Texas is now the known as Taxes!! The plan is to build the Collin County Outer Loop just north of this project sometime in the future (again, waiting too long to build this!). That outer loop should be the freeway while 380 should be a higher speed roadway with limited developments adjacent to it.</p> <p>Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Blue Alignment, The Red Alignment, The Yellow Alignment, I Do Not Support Building a Freeway</p> <p>Q: Which alignment(s) do you prefer in McKinney? A: Blue, Red, I Do Not Support Building a Freeway</p> <p>Q: Which alignment(s) do you prefer in Princeton? A:</p> <p>Q: Which alignment(s) do you prefer in Farmersville? A:</p> <p>Q: What is your interest in this study? A: Property Owner</p> <p>Q: How often do you drive on the existing US 380? A: Weekly</p> <p>Q: Do you have any concerns with the existing US 380? A: 75/380 is a mess. We need an underpass like they made at Spring Valley and 75. Let the through traffic go through. I think the biggest problems are on 380 from Lake Forest to Highway 5.</p> <p>Q: If US 380 is congested, what alternative routes do you take? A: We LOVE to take the back roads through Prosper/County/Mckinney. It's absolutely beautiful out there.</p> <p>Q: What solutions would you suggest in the US 380 Corridor? A: As mentioned above, I think an underpass could be a viable option at 75/380. Also, perhaps 380 needs to become an actual highway so folks travelling from Frisco through Mckinney don't have to mess with any traffic lights.</p> <p>Q: Do you support the building of a freeway regardless of alignment? A: Not regardless of alignment, no.</p> <p>Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment</p>	<p>Comment noted.</p> <p>Comment noted.</p> <p>Comment noted.</p> <p>Comment noted.</p> <p>Comment noted. TxDOT does not issue building permits or determine where development is allowed to occur; building permits are generally issued by local municipalities. All right-of-way acquisitions would be performed according to the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, as amended. When acquiring right-of-way, TxDOT compensation is determined based on an independent appraiser and fair market value. Relocation assistance could also be provided. Discussions with property owners concerning the acquisition of their property will not occur until after the environmental document and preliminary schematic are approved and the right-of-way maps have been prepared. Any future improvement projects would include assessment of the potential impact on the human and natural environments. TxDOT attempts to avoid and/or minimize impacts to residences, businesses, and parks as much as practicable.</p> <p>Tolling is not being considered as an option for funding. Initial traffic analysis determined that even with the construction of the Collin County Outer Loop and planned roadway improvements from study area municipalities and Collin County, that based on future population projections, US 380 would still experience a failing level of service for congestion and delay.</p> <p>Comment noted.</p> <p>Comment noted.</p> <p>No answer provided.</p> <p>No answer provided.</p> <p>Comment noted.</p>

				Q: What is your interest in this study? A: Commuter	Comment noted.
				Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
				Q: Do you have any concerns with the existing US 380? A: Very busy and too small to handle traffic	Comment noted.
				Q: If US 380 is congested, what alternative routes do you take? A: Virginia- also congested	Comment noted.
				Q: What solutions would you suggest in the US 380 Corridor? A:	No answer provided.
251	Annette Zimmer	5/15/2018	Electronic Survey	Q: Do you support the building of a freeway regardless of alignment? A: Yes	Comment noted.
				Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Blue Alignment, The Red Alignment	Comment noted.
				Q: Which alignment(s) do you prefer in McKinney? A: Blue, Red	Comment noted.
				Q: Which alignment(s) do you prefer in Princeton? A: Green, Pink	Comment noted.
				Q: Which alignment(s) do you prefer in Farmersville? A: Green, Pink	Comment noted.
				Q: What is your interest in this study? A: Commuter, Property Owner, Nearby resident	Comment noted.
				Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
				Q: If US 380 is congested, what alternative routes do you take? A: The New Hope Road	Comment noted.
252	Annie Jones	5/14/2018	Paper Survey	Q: What solutions would you suggest in the US 380 Corridor? A: 1 - We need a I-35 - 30 East-West bypass to the north of Hwy 380. 2 - We need to reduce speed inside all city limits to 45 and under. 3 - It needs noise abatement. Even with the present Hwy 380, in Princeton, we can't sleep with the windows open because of the noise. We live in the Forest Grove subdivision.	Comment and suggestions noted. A traffic noise analysis would be conducted during the environmental study stage of project development, after a preferred alignment has been identified and a schematic has been prepared. The study would be conducted in accordance with federal regulations and TxDOT's Guidelines for Analysis and Abatement of Roadway Traffic Noise. Based on the findings, noise abatement barriers would be proposed for locations that meet federal and TxDOT criteria in terms of noise reduction, cost and constructability. The results of the traffic noise barriers and the locations and characteristics of any proposed noise barriers would be shared with the community before preparing the final design.
				Q: Do you support the building of a freeway regardless of alignment? A: Yes, but not in the middle of the cities: the green & pink alignments are awful & would be way too expensive to displace all those businesses.	Comment noted.
				Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Blue Alignment	Comment noted.
				Q: Which alignment(s) do you prefer in McKinney? A: Blue, Red	Comment noted.

			Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: No.	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A: El Dorado, Virginia, 121	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A: Tucker Hill's position is NO to all alignments due to potential loss of homes and devaluation of our neighborhood as a whole and adverse environmental and health implications. Notwithstanding our recommendation, if any freeway construction occurs on the existing 380 footprint adjacent to Tucker Hill, it must impose minimal right-of-way and noise pollution by means of cantilevered access lanes; a depressed roadway; and sound barriers. Also, if any bypass option is chosen, it must be located as far west of Tucker Hill as possible; west of future Stonebridge; not on or bordering Tucker Hill. None needed with existing roads and planned outer loop. Leave it as is.	Comment noted. Any future improvement projects would include assessment of the potential impact on the human and natural environments.
258 Aojing Lu	5/15/2018	Electronic Survey	Q: Do you support the building of a freeway regardless of alignment? A: No. Outer loop only	Comment noted. Initial traffic analysis taking into account future population projections indicates that even with the construction of the Collin County Outer Loop and other planned roadway improvements within the study area, US 380 would still experience a failing level of service for congestion and delay.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: Do Not Support Building a Freeway	Comment noted.

			Q: What is your interest in this study? A: Commuter, Nearby resident	Comment noted.
			Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: Lots of accidents, Traffic exceeds roads abilities	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A: I-1461	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A: Over passes	Comment noted. Traffic analysis indicates that providing overpasses, also known as grade separated intersections, along the existing US 380 would still experience a failing level of service for congestion and delay.
			Q: Do you support the building of a freeway regardless of alignment? A: No	Comment noted.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: Green, Pink	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A: Green, Pink	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville? A: Green, Pink	Comment noted.
			Q: What is your interest in this study? A: Nearby resident	Comment noted.
			Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: Yes, too much traffic	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A: Virginia or Eldorado	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A: Build a bypass but come out further west of Custer	Comment noted.
			Q: Do you support the building of a freeway regardless of alignment? A: No	Comment noted.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: Do Not Support Building a Freeway	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: Do Not Support Building a Freeway	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A: Do Not Support Building a Freeway	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville? A: Do Not Support Building a Freeway	Comment noted.

275	Ashley	5/15/2018	Electronic Survey	<p>Q: What is your interest in this study? A: Property Owner</p> <p>Q: How often do you drive on the existing US 380? A: Daily</p> <p>Q: Do you have any concerns with the existing US 380? A: improper timing of lights, Hazardous Material transportation, Truck Traffic</p> <p>Q: If US 380 is congested, what alternative routes do you take? A: Typically stay on 380. Congestion clears after 75' interchange</p> <p>Q: What solutions would you suggest in the US 380 Corridor? A: Review all options. I believe there are many options/technologies that available . Such as roundabouts, Intelligent Traffic Lights.</p> <p>Q: Do you support the building of a freeway regardless of alignment? A: NO</p> <p>Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: None</p> <p>Q: Which alignment(s) do you prefer in McKinney? A: None</p> <p>Q: Which alignment(s) do you prefer in Princeton? A: None</p> <p>Q: Which alignment(s) do you prefer in Farmersville? A: None</p> <p>Q: What is your interest in this study? A: Commuter</p> <p>Q: How often do you drive on the existing US 380? A: Daily</p> <p>Q: Do you have any concerns with the existing US 380? A: There are not enough lanes. Daily congestion at airport road and 380. We need a quicker less contested way to 75 that is NOT A TOLL ROAD!!!</p> <p>Q: If US 380 is congested, what alternative routes do you take? A: I have no alternate route</p> <p>Q: What solutions would you suggest in the US 380 Corridor? A: How about a double decker road like Austin has? No toll road!!!</p> <p>Q: Do you support the building of a freeway regardless of alignment? A: As long. As it's not a toll road</p> <p>Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment</p> <p>Q: Which alignment(s) do you prefer in McKinney? A: Green, Pink</p> <p>Q: Which alignment(s) do you prefer in Princeton? A: Green, Pink</p> <p>Q: Which alignment(s) do you prefer in Farmersville? A: Green, Pink</p>	<p>Comment noted.</p>

			<p>Q: What is your interest in this study? A: Commuter, Property Owner</p> <p>Q: How often do you drive on the existing US 380? A: Daily</p> <p>Q: Do you have any concerns with the existing US 380? A: The amount of accidents on 380 in Princeton. I am concerned with the build up if traffic at high travel times and the amount of accidents that occur in the Princeton area.</p> <p>Q: If US 380 is congested, what alternative routes do you take? A: Virginia pkwy</p> <p>Q: What solutions would you suggest in the US 380 Corridor? A: The outer loop is the only viable option. The loop would be the best option in my mind as it will impact communities the least. At this time the loop and expanding the current 380 are the best options for my neighborhood. Blue, yellow and red put my community in a pocket surrounded by 75 and a freeway. The blue option puts a freeway directly in front of an elementary school.</p> <p>Q: Do you support the building of a freeway regardless of alignment? A: No, blue, yellow and red place our neighborhood in a pocket of 75 and the 380 proposed. Blue places a freeway right in front of an elementary school and right next to houses and a park. We already have automobile noise from 75 and it is loud, add 380 then we will never have peace and quiet. Putting the freeway will force people to move from their homes and that is not easy as you cannot find a comparable house for price in this area.</p> <p>Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: None, Do Not Support Building a Freeway</p> <p>Q: Which alignment(s) do you prefer in McKinney? A: None, I Do Not Support Building a Freeway</p> <p>Q: Which alignment(s) do you prefer in Princeton? A: Green, Pink</p> <p>Q: Which alignment(s) do you prefer in Farmersville? A: Green, Pink</p> <p>Q: What is your interest in this study? A: Commuter, Property Owner, Nearby resident</p> <p>Q: How often do you drive on the existing US 380? A: Daily</p> <p>Q: Do you have any concerns with the existing US 380? A:</p> <p>Q: If US 380 is congested, what alternative routes do you take? A: Bridgefarmer, Highway 5</p> <p>Q: What solutions would you suggest in the US 380 Corridor? A: Improve existing layout, add lanes and center barrier</p> <p>Q: Do you support the building of a freeway regardless of alignment? A: Yes</p> <p>Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment, The Red Alignment</p> <p>Q: Which alignment(s) do you prefer in McKinney? A: Green, Pink, Red</p> <p>Q: Which alignment(s) do you prefer in Princeton? A: None</p> <p>Q: Which alignment(s) do you prefer in Farmersville? A: Green, Pink</p>	<p>Comment noted.</p>

			Q: What is your interest in this study? A: Commuter	Comment noted.
			Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
			Q: Do you have any concerns with the existing US 380? A:	No answer provided.
			Q: If US 380 is congested, what alternative routes do you take? A: I can't, really. I drive from UNI to Celina. There's not really any other way to get there that's faster.	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A: DNT/380 construction is taking too long. The amount of congestion is worse than before you guys started tearing it up.	Comment noted.
			Q: Do you support the building of a freeway regardless of alignment? A: No, I think that the existing 380 needs to be widened, and shouldn't divert from its existing alignment.	Comment noted.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: Green, Pink	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A: None	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville? A: None	Comment noted.
			Q: What is your interest in this study? A: Commuter	Comment noted.
			Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: Not enough traffic lights at major intersections which causes too many wrecks. Especially in front of the new apartment communities.	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A: 455	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A: Adding traffic lights in front of apartment communities. Adding toll road in the middle or on top of 380.	Comment noted. Tolling is not being considered as an option for funding.
			Q: Do you support the building of a freeway regardless of alignment? A: No	Comment noted.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment	Comment noted.

## Comment Response Matrix

	Commenter Name	Date Received	Source	Comment Topic	Response
				Q: What is your interest in this study? A: Commuter, Business Owner, Property Owner, Nearby resident	Comment noted.
				Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
				Q: Do you have any concerns with the existing US 380? A: How close the lanes are to each other- oncoming traffic/head on collisions. Turn lanes into businesses Speeding Traffic	Comment noted.
				Q: If US 380 is congested, what alternative routes do you take? A: Rock hill to tollway. Preston to whatever street I needed to go E/W Virginia	Comment noted.
				Q: What solutions would you suggest in the US 380 Corridor? A: A very northern (Laude Howell) access road/bypass	Comment noted.
				Q: Do you support the building of a freeway regardless of alignment? A: No	Comment noted.
				Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: I Do Not Support Building a Freeway	Comment noted.
				Q: Which alignment(s) do you prefer in McKinney? A: I Do Not Support Building a Freeway	Comment noted.
				Q: Which alignment(s) do you prefer in Princeton? A: I Do Not Support Building a Freeway	Comment noted.
				Q: Which alignment(s) do you prefer in Farmersville? A: I Do Not Support Building a Freeway	Comment noted.
				Q: What is your interest in this study? A: Commuter, Property Owner, Nearby resident	Comment noted.
				Q: How often do you drive on the existing US 380? A: Monthly	Comment noted.
				Q: Do you have any concerns with the existing US 380? A: If there's a wreck, it backs up everything	Comment noted.
				Q: If US 380 is congested, what alternative routes do you take? A: A bunch of the backroads. Whatever google maps tells me - Preston/Coit, Virginia.	Comment noted.
				Q: What solutions would you suggest in the US 380 Corridor? A: A better highway system.. more lanes? Or a better alternate so 380 is the only highway to rely on in that area	Comment noted.
				Q: Do you support the building of a freeway regardless of alignment? A: No	Comment noted.
				Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment	Comment noted.
				Q: Which alignment(s) do you prefer in McKinney? A: Green, Pink	Comment noted.
				Q: Which alignment(s) do you prefer in Princeton? A: Green, Pink	Comment noted.
				Q: Which alignment(s) do you prefer in Farmersville? A: Green, Pink	Comment noted.

				Q: What is your interest in this study? A: Nearby resident	Comment noted.
				Q: How often do you drive on the existing US 380? A: A couple times a year	Comment noted.
				Q: Do you have any concerns with the existing US 380? A:	No answer provided.
				Q: If US 380 is congested, what alternative routes do you take? A:	No answer provided.
				Q: What solutions would you suggest in the US 380 Corridor? A:	No answer provided.
288	Ashley Patton	5/18/2018	Electronic Survey	Q: Do you support the building of a freeway regardless of alignment? A:	No answer provided.
				Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment	Comment noted.
				Q: Which alignment(s) do you prefer in McKinney? A: Green, Pink	Comment noted.
				Q: Which alignment(s) do you prefer in Princeton? A:	No answer provided.
				Q: Which alignment(s) do you prefer in Farmersville? A:	No answer provided.
				Q: What is your interest in this study? A: Commuter, Nearby resident	Comment noted.
				Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
				Q: Do you have any concerns with the existing US 380? A: Yes, not enough stoplights going East on 380 after you leave Farmersville going towards Greenville.	Comment noted.
				Q: If US 380 is congested, what alternative routes do you take? A: I have no choice but to take 380 to get to my job. It's always congested.	Comment noted.
				Q: What solutions would you suggest in the US 380 Corridor? A: More lanes, more stoplights in these small towns like Princeton and Farmersville.	Comment noted.
				Q: Do you support the building of a freeway regardless of alignment? A: Yes,	Comment noted.
				Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment, The Blue Alignment, The Red Alignment, The Yellow Alignment	Comment noted.
				Q: Which alignment(s) do you prefer in McKinney? A: Green, Pink, Blue	Comment noted.
				Q: Which alignment(s) do you prefer in Princeton? A: Green, Pink, Blue	Comment noted.
				Q: Which alignment(s) do you prefer in Farmersville? A: Green, Pink, Blue	Comment noted.

				Q: What is your interest in this study? A: Business Owner, Property Owner, Nearby resident	Comment noted.
				Q: How often do you drive on the existing US 380? A: Weekly	Comment noted.
				Q: Do you have any concerns with the existing US 380? A:	No answer provided.
				Q: If US 380 is congested, what alternative routes do you take? A:	No answer provided.
				Q: What solutions would you suggest in the US 380 Corridor? A:	No answer provided.
294	Ashlie Brewer	5/17/2018	Electronic Survey	Q: Do you support the building of a freeway regardless of alignment? A: No	Comment noted.
				Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: I Do Not Support Building a Freeway	Comment noted.
				Q: Which alignment(s) do you prefer in McKinney? A: I Do Not Support Building a Freeway	Comment noted.
				Q: Which alignment(s) do you prefer in Princeton? A: I Do Not Support Building a Freeway	Comment noted.
				Q: Which alignment(s) do you prefer in Farmersville? A: I Do Not Support Building a Freeway	Comment noted.
				Q: What is your interest in this study? A: Commuter, Property Owner, Nearby resident	Comment noted.
				Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
				Q: Do you have any concerns with the existing US 380? A: yes - very dangerous between Princeton and Airport Rd. Constant wrecks. Very dangerous to turn onto FM 1827: Traffic coming at you at 60 mph & you are sitting at the light waiting to turn.	TxDOT plans to construct a safety improvement project to add a raised median on US 380 from FM 1827 to CR 985; this project will be letting for bids in August 2018, and construction is anticipated to begin during the fall of 2018. In addition, TxDOT is currently developing a project to widen US 380 from Airport Road in McKinney to 4th Street in Princeton from 4 lanes to 6 lanes.
				Q: If US 380 is congested what alternative routes do you take? A: In New Hope, I drive FM 2933 from FM 1827 or Buck Board Trail Dr/FM 2933/Mahatirre Rd to Hwy 5.	Comment noted.
				Q: What solutions would you suggest in the US 380 Corridor? A: Please do not go through New Hope.	This study has not proposed any alignment options through New Hope town limits.
				Q: Do you support the building of a freeway regardless of alignment? A: yes	Comment noted.
				Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Blue Alignment	Comment noted.
				Q: Which alignment(s) do you prefer in McKinney? A: Blue	Comment noted.
				Q: Which alignment(s) do you prefer in Princeton? A: Blue, Yellow	Comment noted.
				Q: Which alignment(s) do you prefer in Farmersville? A: Pink, Blue, Yellow	Comment noted.

306	b gamrod	5/11/2018	Electronic Survey	<p>Q: What solutions would you suggest in the US 380 Corridor?</p> <p>A: Build wider hwy on road east of airport. Widen that and run parallel to 380. Hook in to 380 in Lavon area.</p> <p>Q: Do you support the building of a freeway regardless of alignment?</p> <p>A: No. That's stupid. Just build something to do something is really dumb. Keep this process going.</p> <p>Q: If US 380 is constructed as a freeway, which alignment do you prefer?</p> <p>A: The Green/Pink Alignment, The Blue Alignment</p> <p>Q: Which alignment(s) do you prefer in McKinney?</p> <p>A: Green, Pink</p> <p>Q: Which alignment(s) do you prefer in Princeton?</p> <p>A: Green, Pink</p> <p>Q: Which alignment(s) do you prefer in Farmersville?</p> <p>A: Green, Pink, Blue</p> <p>Q: What is your interest in this study?</p> <p>A: Property Owner, Nearby resident</p> <p>Q: How often do you drive on the existing US 380?</p> <p>A: Daily</p> <p>Q: Do you have any concerns with the existing US 380?</p> <p>A: of course</p> <p>Q: If US 380 is congested, what alternative routes do you take?</p> <p>A: side roads</p> <p>Q: What solutions would you suggest in the US 380 Corridor?</p> <p>A: by-pass</p> <p>Q: Do you support the building of a freeway regardless of alignment?</p> <p>A: yes</p> <p>Q: If US 380 is constructed as a freeway, which alignment do you prefer?</p> <p>A: The Green/Pink Alignment, The Blue Alignment</p> <p>Q: Which alignment(s) do you prefer in McKinney?</p> <p>A: Blue</p> <p>Q: Which alignment(s) do you prefer in Princeton?</p> <p>A: Blue</p> <p>Q: Which alignment(s) do you prefer in Farmersville?</p> <p>A: Green</p> <p>Q: What is your interest in this study?</p> <p>A: Property Owner, Nearby resident</p> <p>Q: How often do you drive on the existing US 380?</p> <p>A: Weekly</p> <p>Q: Do you have any concerns with the existing US 380?</p> <p>A: Congestion, large commercial vehicles and the speed at which they go thru congested area. Hard to get in and out of businesses along the route. The traffic lights do not appear to be timed right. With the new businesses going in at Hardin and 380 it will only get worse.</p> <p>Q: If US 380 is congested, what alternative routes do you take?</p> <p>A: Wilmett if I am going east or to 75, or take Hardin down to Virginia.</p> <p>Q: What solutions would you suggest in the US 380 Corridor?</p> <p>A: It would be good to finish out Wilmett to the West and Hardin to the North, to allow alternate routes. Turn lanes are an excellant way to keep the traffic flowing. The blinking turn arrows were also a great idea. They are underused because I don't think many people understand them. Maybe some public info adds might help get the word out.</p> <p>Q: Do you support the building of a freeway regardless of alignment?</p> <p>A: Full disclosure has not been provided setting out what the "freeway" comprises so I am not able to answer the question.</p>	<p>TxDOT studied a new location freeway south of US 380. The volumes were too low to justify of freeway. Therefore TxDOT did not include this alignment as one to be studied further.</p> <p>Comment noted.</p>
307	B Westbrook	5/15/2018	Electronic Survey	<p>Q: What solutions would you suggest in the US 380 Corridor?</p> <p>A: The Green/Pink Alignment, The Blue Alignment</p> <p>Q: Do you support the building of a freeway regardless of alignment?</p> <p>A: yes</p> <p>Q: If US 380 is constructed as a freeway, which alignment do you prefer?</p> <p>A: The Green/Pink Alignment, The Blue Alignment</p> <p>Q: Which alignment(s) do you prefer in Princeton?</p> <p>A: Blue</p> <p>Q: Which alignment(s) do you prefer in Farmersville?</p> <p>A: Green</p> <p>Q: What is your interest in this study?</p> <p>A: Property Owner, Nearby resident</p> <p>Q: How often do you drive on the existing US 380?</p> <p>A: Weekly</p> <p>Q: Do you have any concerns with the existing US 380?</p> <p>A: Congestion, large commercial vehicles and the speed at which they go thru congested area. Hard to get in and out of businesses along the route. The traffic lights do not appear to be timed right. With the new businesses going in at Hardin and 380 it will only get worse.</p> <p>Q: If US 380 is congested, what alternative routes do you take?</p> <p>A: Wilmett if I am going east or to 75, or take Hardin down to Virginia.</p> <p>Q: What solutions would you suggest in the US 380 Corridor?</p> <p>A: It would be good to finish out Wilmett to the West and Hardin to the North, to allow alternate routes. Turn lanes are an excellant way to keep the traffic flowing. The blinking turn arrows were also a great idea. They are underused because I don't think many people understand them. Maybe some public info adds might help get the word out.</p> <p>Q: Do you support the building of a freeway regardless of alignment?</p> <p>A: Full disclosure has not been provided setting out what the "freeway" comprises so I am not able to answer the question.</p>	<p>Comment noted.</p>

315	Barbara Glazer Rosenblatt	NA	Comment Form	<p>For 35 years our family (now 3 generations) has farmed 350 acres northeast of McKinney using strict organic methods, reclaiming land that had fallen fallow from years of cotton. When my mother established The Little Farm in 1881, she was well ahead of her time, certifying the farm as organic, first of its kind in Collin County and among the first in Texas. Over the years, she has raised organic chicken, cattle, pigs, bees, sheep, turkey and pecans. Her gardens and orchard produces a wide variety of organic vegetables and fruit. The land, barns and 3 houses represent a remarkable place that we hope to preserve. The red option of the proposed 380 expansion would divide the property and destroy the farm as it now exists. The yellow option brings the highway very close to one of the houses currently occupied. I strongly oppose these alternatives and hope you will seriously consider the impact of the red and yellow plans when weighing the feasibility of all the alternatives proposed to accommodate the incredible growth of the area. Thank you.</p>	<p>Comment noted. Any future improvement projects would include assessment of the potential impact on the human and natural environments.</p>
316	Barbara Jones	5/9/2018	Electronic Survey	<p>Q: What is your interest in this study?  A: Commuter, Property Owner</p> <p>Q: How often do you drive on the existing US 380?  A: Daily</p> <p>Q: Do you have any concerns with the existing US 380?  A: Traffic congestion won't go away, the population is just going to keep growing if we think long term.</p> <p>Q: If US 380 is congested, what alternative routes do you take?  A: 121</p> <p>Q: What solutions would you suggest in the US 380 Corridor?  A:</p> <p>Q: Do you support the building of a freeway regardless of alignment? 321	Barbara Sano	5/1/2018	Electronic Survey	<p>Q: If US 380 is congested, what alternative routes do you take?  A: Usually will go on Eldorado to the south.</p> <p>Q: What solutions would you suggest in the US 380 Corridor?  A: Do a bypass and not bypass a freeway through McKinney, such as what was done in Denton. When we go that direction to see my daughter, we always use the bypass.</p> <p>Q: Do you support the building of a freeway regardless of alignment?  A: Not through the heart of McKinney businesses.</p> <p>Q: If US 380 is constructed as a freeway, which alignment do you prefer?  A: None</p> <p>Q: Which alignment(s) do you prefer in McKinney?  A: None</p> <p>Q: Which alignment(s) do you prefer in Princeton?  A:</p> <p>Q: Which alignment(s) do you prefer in Farmersville?  A:</p>	<p>Comment noted.</p> <p>Comment noted.</p> <p>Comment noted.</p> <p>Comment noted.</p> <p>No answer provided.</p> <p>No answer provided.</p> <p>No answer provided.</p>
		NA	Comment Form	<p>I am a resident of Tucker Hill - My position is NO to all alignments due to potential loss of homes &amp; devaluation of our neighborhood as a whole and adverse environmental and health implications. Notwithstanding my recommendation if any freeway construction occurs on the existing 380 footprint adjacent to Tucker Hill, it must impose minimal right-of-way and noise pollution by means of catlevered access lanes; a depressed thoroughfare, and sound barriers. Also, if any bypass option is chosen, it must be located as far west of Tucker Hill as possible, west of future Stonebridge, not on or bordering Tucker Hill.</p> <p>Q: What is your interest in this study?  A: Property Owner</p> <p>Q: How often do you drive on the existing US 380?  A: Daily</p> <p>Q: Do you have any concerns with the existing US 380?  A: Yes, it's very loud, extremely congested. I try to avoid it at all costs, except in the middle of the night.</p> <p>Q: If US 380 is congested, what alternative routes do you take?  A: I'm at Hardin and Buchanan, in President's Point subdivision. I take Taylor Burke to the 75 service road, then turn left or right on 380 if I need to visit a business there. When I can, I avoid 380 completely by making a u-turn at 75 and traveling up the service road and then cutting to the right. (For example, to get to Walmart or Sam's Club.) If I need to travel all the way to McDonald St, for example, I take Taylor Burke to Community to Wilmette and drive all the way up.</p> <p>Q: What solutions would you suggest in the US 380 Corridor?  A: I have no idea how to solve the problem, but STOP MAKING THE PROBLEM WORSE; stop bringing in new businesses on 380! For example, all the businesses about to open at Hardin and 380. Who okayed this fiasco?? What businesses in their right mind would want to move to that location?</p> <p>Q: Do you support the building of a freeway regardless of alignment?  A: Not sure what that could possibly mean.</p> <p>Q: If US 380 is constructed as a freeway, which alignment do you prefer?  A: The Blue Alignment</p> <p>Q: Which alignment(s) do you prefer in Farmersville?  A: Blue, Red</p> <p>Q: Which alignment(s) do you prefer in Princeton?  A: None</p> <p>Q: Which alignment(s) do you prefer in Farmersville?  A: None</p>	<p>Comment noted.</p>
322	Barbara Zuniga	5/15/2018	Electronic Survey	<p>Q: What is your interest in this study?  A: Commuter, Property Owner, Nearby resident</p> <p>Q: How often do you drive on the existing US 380?  A: Daily</p> <p>Q: Do you have any concerns with the existing US 380?  A: 1) 75 &amp; 380 congestion. 2) lights not synchronized for be the flow.</p>	<p>Comment noted.</p> <p>Comment noted.</p> <p>Comment noted.</p>

323	Baron Truesdell	5/15/2018	Electronic Survey	<p>Q: If US 380 is congested, what alternative routes do you take?  A: Surface &amp; I21 depending on destination. Many times just avoid 75 &amp; 380.</p> <p>Q: What solutions would you suggest in the US 380 Corridor?  A: Congestion could be reduced by synchronized timing the lights with a look of 60 mph away from 75. I've seen this done effectively. Also the solution used on 75 &amp; Spring Valley with the tunnel might be an option to look at.</p> <p>Q: Do you support the building of a freeway regardless of alignment?  A: Overpasses would help for sure. My experience in large city shows that a freeway needs to be about every 10 miles. A freeway needed to be constructed earlier with a simple east to west flow. The alignment needs to be more linear or another route for a freeway found.</p> <p>Q: If US 380 is constructed as a freeway, which alignment do you prefer?  A: None</p> <p>Q: Which alignment(s) do you prefer in McKinney?  A: None</p>	<p>Comment noted.</p> <p>Comment and suggestion to synchronize signal timing noted.</p> <p>Comment noted. 328	Barry Sangani	NA	<p>I am currently the owner of approximately 1 mile of frontage on US Hwy 380 between Colt &amp; Preston Roads. It is my opinion that the right-of-way should be acquired as soon as possible before the city of Frisco requires only a 65' reservation strip when properties are being proposed for development. Should these projects be constructed, it will cost more money to buyout businesses, leases and demolish structures for any future road improvement.</p> <p>I am also currently in the process of having Hillcrest and Highway 380 will be torn out, subsequently wasting existing infrastructure &amp; money. Keep in mind there are no alternative routes proposed for this section of Highway 380.</p> <p>My opinion regarding the alignment of US 380 is the blue route on the map that I can see, which it goes from the Custer Road to Bloomdale and it goes past the 75 and it comes down before New Hope, that's the best route that I can think of.</p>	<p>Comment noted.</p> <p>Comment noted.</p> <p>Comment noted.</p>
329	Barry Sangani	5/26/2018	<p>Comment Provided to Court Reporter</p> <p>My name is Barry Sangani, and my address is 4541 Lancelot Drive, Plano, Texas 75024. My opinion regarding the alignment of US 380 is the blue route on the map that I can see, which it goes from the Custer Road to Bloomdale and it goes past the 75 and it comes down before New Hope, that's the best route that I can think of. If you want to contact me, my number is 214-208-0222.</p>	<p>Comment noted.</p>
330	Barton C. Allen DDS	5/3/2018	<p>Comment Form</p> <p>My concern is there is no coordination between this plan or project and other infrastructure improvements in the area (i.e., widening Custer/1st Street Prosper/Prosper Trails) - all I was told is they are separate projects as is the "outer loop". I know each must play out one its own but what the consumer needs to know is the big picture. And that when one is done the next one doesn't require redoing more inconvenience and \$\$\$, if pressed I would be in favor of the red plan but really need more info.</p> <p>Q: What is your interest in this study?            A: Commuter, Nearby resident</p> <p>Q: How often do you drive on the existing US 380?            A: Daily</p> <p>Q: Do you have any concerns with the existing US 380?            A: Too many lights, too much truck traffic, insufficient shoulders &amp; turn lanes, and cannot handle the current traffic much less continuing growth to the region.</p> <p>Q: If US 380 is congested, what alternative routes do you take?            A: Prosper Trail, Virginia Parkway, Eldorado Parkway, &amp; 121</p> <p>Q: What solutions would you suggest in the US 380 Corridor?            A: Remove stop lights. Direct connectors to all major grade-separated highways (DNT, I35, Loop 288, &amp; 75). Direct connectors where necessary for other major intersecting roads (420, 289, Custer, 78, 377, 720). Direct route should've been set aside 20-30 years ago like 82 is up north, 380 should continue as a grade separated highway from US 287 in Decatur to I-30 in Greenville.</p> <p>Q: Do you support the building of a freeway, regardless of alignment?            A: Yes! This should already be set aside with the frontage roads in place like 121 was years ago. Then the highway would be easy to build.</p> <p>Some people may be mad but this must be done for the greater good of the region.</p> <p>Q: If US 380 is constructed as a freeway, which alignment do you prefer?            A: The Blue Alignment, The Red Alignment</p> <p>Q: Which alignment(s) do you prefer in McKinney?            A: Blue, Red</p> <p>Q: Which alignment(s) do you prefer in Princeton?            A: Blue, Yellow</p> <p>Q: Which alignment(s) do you prefer in Farmersville?            A: Blue, Yellow</p> <p>Q: What is your interest in this study? 		Survey	<p>Q: Do you support the building of a freeway regardless of alignment?</p> <p>A: If you "do something no matter what," I'd almost say yes. But I think there's always a choice and the alignment studies need to take into consideration all pros and cons.</p> <p>Q: If US 380 is constructed as a freeway, which alignment do you prefer?</p> <p>A: The Blue Alignment, The Yellow Alignment</p> <p>Q: Which alignment(s) do you prefer in McKinney?</p> <p>A: Blue</p>	Comment noted.
			<p>Q: Which alignment(s) do you prefer in Princeton?</p> <p>A: Blue, Yellow</p> <p>Q: Which alignment(s) do you prefer in Farmersville?</p> <p>A: Blue, Yellow</p>	Comment noted.
			<p>Q: What is your interest in this study?</p> <p>A: Property Owner, Nearby resident</p> <p>Q: How often do you drive on the existing US 380?</p> <p>A: Weekly</p>	Comment noted.
			<p>Q: Do you have any concerns with the existing US 380?</p> <p>A: Yes, TxDOT feasibility study and its recommendation(s).</p> <p>Q: If US 380 is congested, what alternative routes do you take?</p> <p>A: Virginia Parkway, Eldorado Parkway and Stacey Road depending on my destination.</p> <p>Q: What solutions would you suggest in the US 380 Corridor?</p> <p>A: A Limited Access Highway is needed to relieve traffic.</p>	Comment noted.
			<p>Q: Do you support the building of a freeway regardless of alignment?</p> <p>A: I absolutely oppose the Blue, Red and Yellow bypass alignments, and any configuration that would venture further to the west and closer to Custer Road. Under no circumstances would I support a McKinney bypass entering the Town of Prosper. I do support a combination Green and Pink alignments building out University (US 380) to a limited access highway/freeway. Another alternative alignment that should be considered is following TxDOT's proposed RED alignment (McDonald Street/Highway 5 to Monte Carlo Blvd), from US 380 to US 75. It would then continue northwest with a proposed new alignment from US 75 and join the Collin County Northern Outer Loop at its most southeasterly point west of Lake Forest Dr., CR 167, and County Road 125.</p> <p>Q: If US 380 is constructed as a proposed new alignment from US 75 and join the Collin County Northern Outer Loop at its most southeasterly point west of Lake Forest Dr., CR 167, and County Road 125.</p> <p>Q: Do you have any concerns with the existing US 380?</p> <p>A: It is fine and needs to have the lights timed better.</p>	Comment and alignment suggestion noted.
337	5/12/2018	Ben Phuett Electronic Survey	<p>Q: Which alignment(s) do you prefer in Farmersville?</p> <p>A: Green, Pink</p> <p>Q: What is your interest in this study?</p> <p>A: Property Owner</p> <p>Q: How often do you drive on the existing US 380?</p> <p>A: Daily</p>	No answer provided.
			<p>Q: Do you have any concerns with the existing US 380?</p> <p>A: It is fine and needs to have the lights timed better.</p> <p>Q: If US 380 is congested, what alternative routes do you take?</p> <p>A: bloomdale road to custer</p>	Comment and suggestion to improve signal timing noted.
				Comment noted.
				Initial traffic analysis taking into account future population projections indicates that even with the construction of the Collin County Outer Loop and other planned roadway improvements within the study area, US 380 would still experience a failing level of service for congestion and delay. Any future improvement projects would include assessment of the potential impact on the human and natural environments.
4/27/2018		Electronic Survey	<p>Q: What solutions would you suggest in the US 380 Corridor?</p> <p>A: I would recommend we explore using the outer loop and not have it impact so many neighborhoods in North McKinney</p>	

	Commenter Name	Date Received	Source	Comment Topic	Response
				<p>Q: Do you support the building of a freeway regardless of alignment?  A: No, we should explore widening the existing 380 and line the lights better to help traffic flow through the 75 corridor</p> <p>Q: If US 380 is constructed as a freeway, which alignment do you prefer?  A: The Green/Pink Alignment</p> <p>Q: Which alignment(s) do you prefer in McKinney?  A: Pink</p> <p>Q: Which alignment(s) do you prefer in Princeton?  A: Pink</p> <p>Q: Which alignment(s) do you prefer in Farmersville?  A: Pink</p>	Comment noted.
338	Ben Silver	4/26/2018	Comment Form	<p>I would welcome the pink &amp; green alignment as the other alignments go right next to my house in Heatherwood. The other alignments are going to devalue people's homes and cause noise pollution. If the City knew this back in 2009 why allow Heatherwood to expand up to Bloomdale Rd. This is a travesty for those people that live in areas north of 380.</p>	<p>Changes in property values are driven by value associated with site specific factors such as accessibility, safety, noise, visual amenities, proximity to shopping, community cohesion and business productivity. TxDOT cannot reasonably foresee which of these impacts will impact the value of the subject property in a negative or positive way.</p> <p>A traffic noise analysis would be conducted during the environmental study stage of project development, after a preferred alignment has been identified and a schematic has been prepared. The study must would be conducted in accordance with federal regulations and TxDOT's Guidelines for Analysis and Abatement of Roadway Traffic Noise. Based on the findings, noise abatement barriers would be proposed for locations that meet federal and TxDOT criteria in terms of noise reduction, cost and constructability. The results of the traffic noise study and the locations and characteristics of any proposed noise barriers would be shared with the community before preparing the final design.</p> <p>Comment noted. Initial traffic analysis taking into account future population projections indicates that even with the construction of the Collin County Outer Loop and other planned roadway improvements within the study area, US 380 would still experience a failing level of service for congestion and delay.</p>
				<p>Not one solution talks of using the outer loop which would be the best option.</p> <p>Q: What is your interest in this study?  A: Commuter, Nearby resident</p> <p>Q: How often do you drive on the existing US 380?  A: Weekly</p> <p>Q: Do you have any concerns with the existing US 380?  A: Needs to be added to to reduce traffic. I cut through neighborhoods often to avoid the traffic on 380</p> <p>Q: If US 380 is congested, what alternative routes do you take?  A: Depends on where I'm going but usually 121 to 75N or frontier</p> <p>Q: What solutions would you suggest in the US 380 Corridor?  A: No clue</p>	<p>Comment noted.</p> <p>Comment noted.</p> <p>Comment noted.</p> <p>Comment noted.</p> <p>Comment noted.</p>

	Commenter Name	Date Received	Source	Comment Topic	Response
				Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment	Comment noted.
				Q: Which alignment(s) do you prefer in McKinney? A: Green, Pink	Comment noted.
				Q: Which alignment(s) do you prefer in Princeton? A: Green, Pink	Comment noted.
				Q: Which alignment(s) do you prefer in Farmersville? A: Blue	Comment noted.
				Q: What is your interest in this study? A: Property Owner, Nearby resident	Comment noted.
				Q: How often do you drive on the Existing US 380? A: Daily	Comment noted.
				Q: Do you have any concerns with the existing US 380? A: The current 380 alignment is just fine. Congestion is only a concern from 7am to 9am and 4pm to 6pm due to commuter traffic. If McKinney would stop putting a traffic light every 100 yards and would finally start improving other east-west roads there would be no need for all this. If any improvement is needed, there is plenty of room along the current 380 alignment to widen the existing highway.	Comment noted.
				Q: If US 380 is congested, what alternative routes do you take? A: Virginia Parkway/Eldorado Parkway	Comment noted.
				Q: What solutions would you suggest in the US 380 Corridor? A: Use the current alignment, which has plenty of available space along its sides, to widen and improve current 380. Why is TxDot hellbent on putting a freeway in hundreds of peoples backyards and confiscate private citizens property for a freeway that has a current alignment. The only bottleneck on US380 is between Custer Road and Highway 5 in McKinney and those bottlenecks could easily be remedied if the city of McKinney would give up its opposition to this scenario.	Comment noted. Alignment options are still being evaluated.
				Q: Do you support the building of a freeway regardless of alignment? A: No, the cost of the proposed freeway will far exceed the 1.5 billion USD mark. With the Collin County Outer Loop in the works there is absolutely no need to spend that amount of money and commit Collin county residents to such a huge expense.	Comment noted.
				Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: I Do Not Support Building a Freeway	Comment noted.
				Q: Which alignment(s) do you prefer in McKinney? A: I Do Not Support Building a Freeway	Comment noted.
				Q: Which alignment(s) do you prefer in Princeton? A: I Do Not Support Building a Freeway	Comment noted.
				Q: Which alignment(s) do you prefer in Farmersville? A: I Do Not Support Building a Freeway	Comment noted.
				Q: What is your interest in this study? A: real estate agent	Comment noted.
				Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
				Q: Do you have any concerns with the existing US 380? A: no	Comment noted.
				Q: If US 380 is congested, what alternative routes do you take? A: go south	Comment noted.
				Q: What solutions would you suggest in the US 380 Corridor? A: widen 380	Comment noted.
				Q: Do you support the building of a freeway regardless of alignment? A: no	Comment noted.
				Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment, The Red Alignment	Comment noted.

349	Beth Malakoff	5/10/2018	Electronic Survey	I am a resident of the Timberidge neighborhood. I am AGAINST both Red & Blue Plans. Both plans put us within a very close proximity to 380, both endanger children of Prosper's future high school. They also do little to aid in traffic relief west of Custer on 380, which is extremely busy and congested. The "curve" of both the red and blue plans that connect the road to the current 380 seems premature.	Comment noted.
350	Beth Owens	4/26/2018	Comment Form	I am a resident of the Timberidge neighborhood. I am AGAINST both Red & Blue Plans. Both plans put us within a very close proximity to 380, both endanger children of Prosper's future high school. They also do little to aid in traffic relief west of Custer on 380, which is extremely busy and congested. The "curve" of both the red and blue plans that connect the road to the current 380 seems premature.	Comment noted.
351	Beth Price	5/14/2018	Electronic Survey	Q: What solutions would you suggest in the US 380 Corridor? A: Small roads such as Stonebridge or Ridge should not be used as intersecting roads. Only major roads such as Custer that do not go through neighborhoods should be considered Q: Do you support the building of a freeway regardless of alignment? A: No	This study has not proposed any options or changes to Ridge Rd. or Stonebridge Dr. Comment noted. Comment noted.

361	Betty Buckland	5/15/2018	Electronic Survey	Q: What is your interest in this study? A: Property Owner  Q: How often do you drive on the existing US 380? A: Weekly  Q: Do you have any concerns with the existing US 380? A: Unsafe  Q: If US 380 is congested, what alternative routes do you take? A: I don't take alternative routes as this hasn't been an option.  Q: What solutions would you suggest in the US 380 Corridor? A: I do not want traffic routed through Ridge or Stonebridge Drive. They are both heavily populated areas and increasing traffic would be dangerous for families/pets. I do support a freeway option if this doesn't propose increasing routes through these populated suburban areas.  Q: Do you support the building of a freeway regardless of alignment? A: No  Q: If US 380 is constructed as a freeway, which alignment do you prefer? A:  Q: Which alignment(s) do you prefer in McKinney? A:  Q: Which alignment(s) do you prefer in Princeton? A:  Q: Which alignment(s) do you prefer in Farmersville? A:  Q: What is your interest in this study? A: Property Owner  Q: How often do you drive on the existing US 380? A: Daily  Q: Do you have any concerns with the existing US 380? A: Yes it's not wide enough  Q: What solutions would you suggest in the US 380 Corridor? A: Widen what we have	Comment noted.  This study has not proposed any options or changes to Ridge Rd. or Stonebridge Dr. Any future improvement projects would include assessment of the potential impact on the human and natural environments.  Comment noted.  Comment noted.  Comment noted.  Comment noted.  Comment noted.  Comment noted.  Comment noted.  Comment noted.  Comment noted.
362	Betty Dean	5/7/2018	Electronic Survey	Q: Do you support the building of a freeway regardless of alignment? A: No  Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment	Comment noted.  Comment noted.

	Commenter Name	Date Received	Source	Comment Topic	Response
				Q: Which alignment(s) do you prefer in McKinney? A: Green	Comment noted.
				Q: Which alignment(s) do you prefer in Princeton? A: I Do Not Support Building a Freeway	Comment noted.
				Q: Which alignment(s) do you prefer in Farmersville? A: I Do Not Support Building a Freeway	Comment noted.
				Q: What is your interest in this study? A: Property Owner	Comment noted.
				Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
				Q: Do you have any concerns with the existing US 380? A: Too many big trucks, 18 wheelers. Need a truck route that goes around McKinney not thru it. It is not safe for all the drivers especially teenagers.	Comment and suggestion to divert truck traffic noted.
				Q: If US 380 is congested, what alternative routes do you take? A: 75 to 121 or side streets like Virginia Parkway.	Comment noted.
				Q: What solutions would you suggest in the US 380 Corridor? A: Like I said, a truck route around the city like Denton has.	Comment and suggestion for a truck route noted.
				Q: Do you support the building of a freeway regardless of alignment? A: Only if it gets rid of thru traffic.	Comment noted.
				Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Red Alignment	Comment noted.
				Q: Which alignment(s) do you prefer in McKinney? A: Red	Comment noted.
				Q: Which alignment(s) do you prefer in Princeton? A: Blue	Comment noted.
				Q: Which alignment(s) do you prefer in Farmersville? A: I Do Not Support Building a Freeway	Comment noted.
				Q: What is your interest in this study? A: Property Owner	Comment noted.
				Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
				Q: Do you have any concerns with the existing US 380? A: Yes its a very dangerous road to travel on. And extremely congested. There is so much traffic it takes forever to get around McKinney and more houses just keep going up. Its effecting quality of life in this town. I live north of 380. 380 is a very dangerous road. And now with more stores going in it is only going to get worse. Doesn't seem to matter where you go in McKinney you are stuck in traffic. And yet more houses keep getting built. What a mess. It is effecting quality of life in this town	Comment and suggested roadway configuration noted. Tolling is not being considered as an option for funding.
				Q: If US 380 is congested, what alternative routes do you take? A: Lake forest and or hardin to white or Virginia and jordan and wilmett	Comment noted.
				Q: What solutions would you suggest in the US 380 Corridor? A: Follow the 121 structure minus tolls. Taxes are plenty high enough already. 380 needs to be wider with feeders on the sides. People trying to get to 75 get stuck in store traffic. Its not an easy fix but maybe with sticking with the format of other roads. Do the one way sides and a larger 2 way in the middle like 121. Some people travel on 380 just to get to 75. And are stuck in all the store traffic. But no tollway.	Comment and suggested roadway configuration noted. Tolling is not being considered as an option for funding.
				Q: Do you support the building of a freeway regardless of alignment? A: Depends on the specifics. Not if it effects my neighborhood in McKinney. If it effects 380 only then yes. But not looking forward to MORE construction for years and years. Maybe roads should of been fixed first before adding movie theaters and more stores. Depends on the specifics.	Comment noted. Any future improvement projects would include assessment of the potential impact on the human and natural environments. TxDOT makes every effort to minimize impacts during construction of its projects.
				Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment	Comment noted.
				Q: Which alignment(s) do you prefer in McKinney? A: Pink	Comment noted.

Commenter Name	Date Received	Source	Comment Topic	Response
			Q: Which alignment(s) do you prefer in Princeton? A: Pink	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville? A: Pink	Comment noted.
			Q: What is your interest in this study? A: Nearby resident	Comment noted.
			Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: The current 380 has way too much traffic. I support the ByPass idea 100%. Even if the current 380 was widened, that is only one road. By adding the bypass, now two routes. Big accident, you have an option.	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A: Not a lot of choices. Going west from McKinney using Virginia as far as I can. Going east Industrial .just few options.	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A: Bypass is best. Yellow route preferred but others are doable.	Comment noted.
			Q: Do you support the building of a freeway regardless of alignment? A: Yes, 100% Yes!	Comment noted.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Yellow Alignment	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: Red	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A: Yellow	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville? A: Blue	Comment noted.
			Q: What is your interest in this study? A: Commuter, Property Owner, Nearby resident	Comment noted.
			Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: Safety, traffic count/congestion and stoppages/mobility between Custer and 75	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A: Travelling east....Virginia Pkwy, Wilmeth Rd, Travelling west, Virginia/Rockhill Rd.	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A: Express route/loop north of existing 380/south of Outer Loop) that spans from Custer in the west to 78 in the east. Very similar to proposed "Yellow Alignment" in TxDOT study.	Comment noted.
			Q: Do you support the building of a freeway regardless of alignment? A: With the growth of the county and specifically northern McKinney, support building of the freeway.	Comment noted.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Blue Alignment, The Red Alignment, The Yellow Alignment	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: Blue, Red	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton ? A: Blue, Yellow	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville? A: Blue	Comment noted.

Commenter Name	Date Received	Source	Comment Topic	Response
			Q: What is your interest in this study? A: Property Owner	Comment noted.
			Q: How often do you drive on the existing US 380? A: Monthly	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: No	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A:	No answer provided.
			Q: What solutions would you suggest in the US 380 Corridor? A: Make bypass starting at tollway through farmerville. A: No	Comment noted.
			Q: Do you support the building of a freeway regardless of alignment? A: No	Comment noted.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: Do Not Support Building a Freeway	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: None, Do Not Support Building a Freeway	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A: Do Not Support Building a Freeway	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville? A: Do Not Support Building a Freeway	Comment noted.
			Q: What is your interest in this study? A: Computer, Property Owner, Nearby resident	Comment noted.
			Q: How often do you drive on the existing US 380? A: Weekly	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: There is too much congestion and traffic lights are slowing the travel. The junction of 380 and 75 is a mess.	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A: Virginia a Parkway, which is starting to get more congested.	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A: Make 380 a full freeway/tollway like I-21. We need another east/west tho rough fare in Collin County and most of the growth will be above 380.	Comment noted. Tolling is not being considered as an option for funding.
			Q: Do you support the building of a freeway regardless of alignment? A: Yes, but prefer it to be on the existing route.	Comment noted.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment	Comment noted.

			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: Q: Which alignment(s) do you prefer in McKinney? A: Q: Which alignment(s) do you prefer in Princeton? A: Q: Which alignment(s) do you prefer in Farmersville? A:	No answer provided. No answer provided. No answer provided. No answer provided.
			Q: What is your interest in this study? A: Property Owner Q: How often do you drive on the Existing US 380? A: Daily	Comment noted. Comment noted.
			Q: Do you have any concerns with the existing US 380? A: Congestion Q: If US 380 is congested, what alternative routes do you take? A: Virginia	Comment noted. Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A: Not going through stonebridge Q: Do you support the building of a freeway regardless of alignment? A: No	Comment noted. This study has not proposed any alignment options going through the Stonebridge neighbourhood. Comment noted.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: I Do Not Support Building a Freeway	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: I Do Not Support Building a Freeway	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A: Q: Which alignment(s) do you prefer in Farmersville? A:	No answer provided. No answer provided.
374	Bill McMillan	5/18/2018 Electronic Survey	Tucker Hill's position is NO to all alignments due to potential loss of homes and devaluation of our neighborhood as a whole and adverse environmental and health implications. Notwithstanding our recommendation, if any freeway construction occurs on the existing 380 footprint adjacent to Tucker Hill, it must impose minimal right-of-way and noise pollution by means of cantilevered access lanes; a depressed thoroughway; and sound barriers. Also, if any bypass option is chosen, it must be located as far west of Tucker Hill as possible; west of future Stonebridge, not on or bordering Tucker Hill. Q: What is your interest in this study? A: Nearby resident	Comment noted. Any future improvement projects would include assessment of the potential impact on the human and natural environments.
			Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: Yes, rush hours is terrible	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A: Q: What solutions would you suggest in the US 380 Corridor? A: Better signal control and coordination	No answer provided. Suggestion for improved signal timing noted.
			Q: Do you support the building of a freeway regardless of alignment? A: Not sure.	Comment noted.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Blue Alignment	Comment noted.
376	Bill Strohmeyer	5/17/2018 Electronic Survey

			Q: Which alignment(s) do you prefer in McKinney? A:	No answer provided.
			Q: Which alignment(s) do you prefer in Princeton? A:	No answer provided.
			Q: Which alignment(s) do you prefer in Farmersville? A:	No answer provided.
			Q: What is your interest in this study? A: Property Owner, Nearby resident	Comment noted.
			Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: yes congested	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A: usually go to the south to Virginia. However, if I have business or shopping on 380 I just stay on.	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A: Make 380 more efficient - 1. create turn lanes 2. go over or under at major intersections 3. build out East & West arterials - Bloomdale & Wilmeth. This is probably the jurisdiction of McKinney but if these roads were built out to 4 or 6 lanes a great deal of local traffic would be diverted from 380. 4. widen 380 where possible	Suggestion for turn lanes noted. Traffic analysis indicates that providing overpasses, also known as grade separated intersections, along the existing US 380 would still experience a failing level of service for congestion and delay.
			Q: Do you support the building of a freeway regardless of alignment? A: No, this gives you free license to do anything that may harm existing neighborhoods	Comment noted.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: Green, Pink	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A:	No answer provided.
			Q: Which alignment(s) do you prefer in Farmersville? A:	No answer provided.
			Q: What is your interest in this study? A: Property Owner	Comment noted.
			Q: How often do you drive on the existing US 380? A: A couple times a year	Comment noted.
			Q: Do you have any concerns with the existing US 380? A:	No answer provided.
			Q: If US 380 is congested, what alternative routes do you take? A:	No answer provided.
			Q: What solutions would you suggest in the US 380 Corridor? A: Pink or Green	Comment noted.
			Q: Do you support the building of a freeway regardless of alignment? A: The Green/Pink Alignment	No answer provided.
			Q: Which alignment(s) do you prefer in McKinney? A: Green, Pink	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A: Green, Pink	Comment noted.

395	Deeby Eyring	7/17/2018	Survey	Q: Do you support the building of a freeway regardless of alignment? A: no	Comment noted.
				Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: I Do Not Support Building a Freeway	Comment noted.
				Q: Which alignment(s) do you prefer in McKinney? A: I Do Not Support Building a Freeway	Comment noted.
				Q: Which alignment(s) do you prefer in Princeton? A: Green, Pink	Comment noted.
				Q: Which alignment(s) do you prefer in Farmersville? A: Green, Pink	Comment noted.
				Q: What is your interest in this study? A: Nearby resident	Comment noted.
				Q: How often do you drive on the existing US 380? A: Weekly	Comment noted.
				Q: Do you have any concerns with the existing US 380? A: Too much traffic and construction	Comment noted.
				Q: If US 380 is congested, what alternative routes do you take? A: side/back roads	Comment noted.
				Q: What solutions would you suggest in the US 380 Corridor? A: Stop all the development	Comment noted.
396	Bobette Mauck	4/26/2018	Electronic Survey	Q: Do you support the building of a freeway regardless of alignment? A: No	Comment noted.
				Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment	Comment noted.
				Q: Which alignment(s) do you prefer in McKinney? A: Green, Pink, None, I Do Not Support Building a Freeway	Comment noted.
				Q: Which alignment(s) do you prefer in Princeton? A: Green, Pink	Comment noted.
				Q: Which alignment(s) do you prefer in Farmersville? A: Green, Pink	Comment noted.
				Q: What is your interest in this study? A: Commuter, Nearby resident	Comment noted.
				Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
				Q: Do you have any concerns with the existing US 380? A: Slight congestion, but just needs to be wider and not moved	Comment noted.
				Q: If US 380 is congested, what alternative routes do you take? A: none, I take it	Comment noted.
				Q: What solutions would you suggest in the US 380 Corridor? A: just widen existing road	Comment noted.
				Q: Do you support the building of a freeway regardless of alignment? A: no, not regardless I support it to widen and use existing roadway	Comment noted.
397	Boddie Wilson	5/7/2018	Electronic Survey	Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment	Comment noted.

Commenter Name	Date Received	Source	Comment Topic	Response
			Q: Which alignment(s) do you prefer in McKinney? A: Green, Pink	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A: Green, Pink	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville? A: Green, Pink	Comment noted.
			Q: What is your interest in this study? A: Commuter, Property Owner, Nearby resident	Comment noted.
			Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: Yes, major concerns with loss of homes, devalued property values, noise, air pollution, congestion, and elimination of safe access to walking and biking paths	Any future improvement projects would include assessment of the potential impact on the human and natural environments.
			Q: If US 380 is congested, what alternative routes do you take? A: Tucker Hill is located in US 380 being the only exit from our community. We must take it regardless of any other route we may later take.	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A: No bypass. Reduce speed limits and provide better monitoring and segregation of truck traffic to righthand lanes. And if a bypass is the only option, Tucker Hill's position is NOT to all current alignments due to reasons listed previously. Notwithstanding our recommendation, if any freeway construction occurs on the existing 380 footprint adjacent to Tucker Hill, it must impose minimal right-of-way and noise pollution by means of cantilevered access lanes; a depressed thoroughway and sound barriers. Also, if any bypass option is chosen, it must be located as far west of Tucker Hill as possible; west of future Stonebridge; not on or bordering Tucker Hill.	Comment and suggestion to monitor/restrict truck traffic noted. Any future improvement projects would include assessment of the potential impact on the human and natural environments.
			Q: Do you support the building of a freeway regardless of alignment? A: NO. Absolutely Not.	Comment noted.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: None, I Do Not Support Building a Freeway	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: None, I Do Not Support Building a Freeway	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A: I Do Not Support Building a Freeway	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville? A: I Do Not Support Building a Freeway	Comment noted.
			Q: What is your interest in this study? A: Property Owner, Nearby resident	Comment noted.
			Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: It will become more crowded over time	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A: Not many options. Sometimes Virginia, but it is a mess from construction right now.	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A: I would propose a northern route connecting 75 with what will be the eventual extension of the Dallas North Tollway. I am not in favor of any route that turns north so close to Stonebridge Drive.	Comment and alignment suggestion noted.
			Q: Do you support the building of a freeway regardless of alignment? A: No	Comment noted.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: I Do Not Support Building a Freeway	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: I Do Not Support Building a Freeway	Comment noted.
398	5/15/2018	Bogdan Djurdjulov  Electronic Survey	Q: What is your interest in this study? A: Commuter, Property Owner, Nearby resident	Comment noted.
399	5/18/2018	Bonnie Bovaird  Electronic Survey	Q: How often do you drive on the existing US 380? A: Daily	Comment noted.

## Comment Response Matrix

	Commenter Name	Date Received	Source	Comment Topic	Response
				Q: Which alignment(s) do you prefer in Princeton? A: I Do Not Support Building a Freeway	Comment noted.
				Q: Which alignment(s) do you prefer in Farmersville? A: I Do Not Support Building a Freeway	Comment noted.
				Q: What is your interest in this study? A: Property Owner, Nearby resident	Comment noted.
				Q: How often do you drive on the existing US 380? A: Weekly	Comment noted.
				Q: Do you have any concerns with the existing US 380? A: speed limit to fast with so many cars	Comment noted.
				Q: If US 380 is congested, what alternative routes do you take? A: Virginia to 75, El Dorado to 75 or Ridge to Stacy	Comment noted.
				Q: What solutions would you suggest in the US 380 Corridor? A: do not make Ridge a feeder with 6 lanes. Has an elementary and middle school on Road	This study has not proposed any options or changes to Ridge Rd.
				Q: Do you support the building of a freeway regardless of alignment? A: no	Comment noted.
				Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Blue Alignment, The Yellow Alignment	Comment noted.
				Q: Which alignment(s) do you prefer in McKinney? A: Blue	Comment noted.
				Q: Which alignment(s) do you prefer in Princeton? A: Blue	Comment noted.
				Q: Which alignment(s) do you prefer in Farmersville? A: Blue	Comment noted.
				Q: What is your interest in this study? A: Commuter, Nearby resident	Comment noted.
				Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
				Q: Do you have any concerns with the existing US 380? A: Very congested and too many accidents. Only going to get worse with increased population expected.	Comment noted.
				Q: If US 380 is congested, what alternative routes do you take? A: Virginia, in McKinney, to 75	Comment noted.
				Q: What solutions would you suggest in the US 380 Corridor? A: A new route west of Stonebridge, even west of Custer.	Comment noted.
				Q: Do you support the building of a freeway regardless of alignment? A:	No answer provided.
				Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Blue Alignment	Comment noted.
				Q: Which alignment(s) do you prefer in McKinney? A:	No answer provided.
				Q: Which alignment(s) do you prefer in Princeton? A:	No answer provided.
				Q: Which alignment(s) do you prefer in Farmersville? A:	No answer provided.

406	Brack Salver	5/15/2018	Electronic Survey	<p>Q: What solutions would you suggest in the US 380 Corridor?</p> <p>A:</p> <p>Q: Do you support the building of a freeway regardless of alignment?</p> <p>A:</p> <p>Q: If US 380 is constructed as a freeway, which alignment do you prefer?</p> <p>A: The Green/Pink Alignment</p> <p>Q: Which alignment(s) do you prefer in McKinney?</p> <p>A: Green, Pink</p> <p>Q: Which alignment(s) do you prefer in Princeton?</p> <p>A: Green, Pink</p> <p>Q: Which alignment(s) do you prefer in Farmersville?</p> <p>A: None</p>	<p>No answer provided.</p> <p>No answer provided.</p> <p>Comment noted.</p> <p>Comment noted.</p> <p>Comment noted.</p> <p>Comment noted.</p> <p>Comment noted.</p> <p>Comment noted.</p>
407	Brad Chaney	5/16/2018	Electronic Survey	<p>Q: What is your interest in this study?</p> <p>A: Commuter, Raytheon employee, M/F rider at Erwin</p> <p>Q: How often do you drive on the existing US 380?</p> <p>A: Monthly</p> <p>Q: Do you have any concerns with the existing US 380?</p> <p>A: Heavy traffic throughout the day makes it hard to get around.</p> <p>Q: If US 380 is congested, what alternative routes do you take?</p> <p>A: I usually take White Avenue vs taking 380 coming into work at Raytheon. Leaving work for lunch is painful on 380.</p> <p>Q: What solutions would you suggest in the US 380 Corridor?</p> <p>A: Widen existing 380, some form of flyover lanes across intersections to keep traffic moving.</p> <p>Q: Do you support the building of a freeway regardless of alignment?</p> <p>A: Unsure, need to see the details and impact to adjacent businesses.</p> <p>Q: If US 380 is constructed as a freeway, which alignment do you prefer?</p> <p>A: The Green/Pink Alignment</p> <p>Q: Which alignment(s) do you prefer in McKinney?</p> <p>A: Green, Pink, Blue</p> <p>Q: Which alignment(s) do you prefer in Princeton?</p> <p>A: Green, Blue</p> <p>Q: Which alignment(s) do you prefer in Farmersville?</p> <p>A: Green, Pink, Blue</p>	<p>Comment noted. Traffic analysis indicates that providing overpasses, also known as grade separated intersections, along the existing US 380 would still experience a failing level of service for congestion and delay.</p> <p>Comment noted.</p>
408	Brad Dart	5/16/2018	Electronic Survey	<p>Q: What is your interest in this study?</p> <p>A: Commuter, Property Owner, Nearby resident</p> <p>Q: How often do you drive on the existing US 380?</p> <p>A: Weekly</p> <p>Q: Do you have any concerns with the existing US 380?</p> <p>A: 1. Unsynchronized traffic lights 2. Parking in the medium over/around Lake Lavon. Very dangerous to have vehicles slow to almost a stop in the passing lane just to pull into the medium. 3. Heavy truck traffic (CMV's should be restricted during rush hours)</p> <p>Q: If US 380 is congested, what alternative routes do you take?</p> <p>A: PGBT to 78 or 121 to 78</p> <p>Q: What solutions would you suggest in the US 380 Corridor?</p> <p>A: Construct a new freeway north of New Hope, Princeton, and Farmersville</p> <p>Q: Do you support the building of a freeway regardless of alignment?</p> <p>A: No; Yes</p>	<p>Comment noted.</p> <p>Comment noted.</p> <p>Comment noted.</p> <p>Comment and alignment suggestion noted.</p> <p>Comment noted.</p>

Commenter Name	Date Received	Source	Comment Topic	Response
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Blue Alignment	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: Blue, Red	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A: Blue, Yellow	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville? A: Blue, I Do Not Support Building a Freeway	Comment noted.
			Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: My only concern is that it is the only E/W thoroughfare through McKinney	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A: That's the problem. The outerloop route would help a lot. If McKinney would build just one road (Wilmett, Bloomdale, Laud Howell, through the city many people would take those roads instead of 380.	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A: Keep existing alignment but build additional thoroughfares	Comment noted.
			Q: Do you support the building of a freeway regardless of alignment? A: I would support a freeway with existing alignment	Comment noted.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: Green, Pink	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A: Green, Pink, Blue	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville? A: Green, Pink, Blue	Comment noted.
			Q: What's your interest in this study? A: Property Owner, Nearby resident	Comment noted.
			Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: Congestion is getting worse.	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A: Go south to 121 or take other East-West routes (Virginia Street, Main Street, Eldorado).	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A: Keep 380 on the present path but expand the number of lanes.	Comment noted.
			Q: Do you support the building of a freeway regardless of alignment? A: No. If the "alignment" involves re-routing 380 closer to residential areas than it already is, I am against any change. You should focus on completing the new loop between Celina and Prosper first and foremost.	Comment noted.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: Green, Pink	Comment noted.

				Q: How often do you drive on the existing US 380? A: Weekly	Comment noted.
				Q: If US 380 is congested, what alternative routes do you take? A: Prosper Trail to Preston or Tolway. Cont to Virginia or Custer down to 121	Comment noted.
				Q: What solutions would you suggest in the US 380 Corridor? A: It needs to expand and continue as a larger road system (interstate) through McKinney to 75	Comment noted.
				Q: Do you support the building of a freeway regardless of alignment? A: Alignment matters for quality of life for neighborhoods near 380. I do not support an alignment that will negatively impact the value of neighborhoods and investments near Custer and Bloomdale (CR 123) due to McKinney's poor planning and lack of willingness to expand 380 as it should be from Denton to 75.	Comment noted. Any future improvement projects would include assessment of the potential impact on the human and natural environments.
				Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment	Comment noted.

			Q: Which alignment(s) do you prefer in Farmersville? A: Green	Comment noted.
			Q: What is your interest in this study? A: Property Owner, Nearby resident	Comment noted.
			Q: How often do you drive on the existing US 380? A: Weekly	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: Yes there is too much congestion and the lights make it take forever to get anywhere. McKinney to Denton takes way too long.	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A: 121, or if I am going across McKinney from my house at Eldorado/Ridge I take Eldorado to 75 and go north, which is less convenient than if 380 were a great highway.	Comment noted.
423	Brandie Sellers	5/14/2018  Electronic Survey	Q: What solutions would you suggest in the US 380 Corridor? A: Make a highway NOT a tollroad which goes north of existing 380 near Stonebridge and Tucker Hill and other residences	Tolling is not being considered as an option for funding. Any future improvement projects would include assessment of the potential impact on the human and natural environments.
			Q: Do you support the building of a freeway regardless of alignment? A: I think for the future of our area it is necessary	Comment noted.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Blue Alignment	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: Blue	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A: Blue	Comment noted.

## Comment Response Matrix

Commenter Name	Date Received	Source	Comment Topic	Response
			Q: Which alignment(s) do you prefer in McKinney? A: Green, Pink	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A:	No answer provided.
			Q: Which alignment(s) do you prefer in Farmersville? A:	No answer provided.
			Q: What is your interest in this study? A: Property Owner	Comment noted.
			Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: Fatalities. Speed limit with SEVERAL neighborhoods entering on to it. Limited protected crossings. People driving in the turn lane.	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A: Monte Carlo, Bridgefarmer	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A: Median, reduced speed limit, police presence, more stoplights	Comment noted.
			Q: Do you support the building of a freeway regardless of alignment? A: Yes	Comment noted.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: Green, Pink	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A: Green, Pink	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville? A: Green, Pink, Blue	Comment noted.
			Q: What is your interest in this study? A: Commuter, Property Owner, Nearby resident	Comment noted.
			Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: The level of fatalities on this highway are insane. We need more lanes. We also need alternate routes. I live in Paloma creek and the only way to the Dallas N toll way is on 380 until you get to 423 then you can take that to panther creek. We need an alternate route that would allow residents an option off of this dangerous route.	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A: Panther creek, eldorado, but they don't go past 423 for through traffic.	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A: Expand the road to 4 lanes in each direction. Add alternate roads that run parallel to 380 for the full length of the highway. If it needs to be north due to the lake so be it.	Comment and alignment suggestion noted.
			Q: Do you support the building of a freeway regardless of alignment? A: I would need to see what it would entail.	Comment noted.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: Green, Pink	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A: Green, Pink	Comment noted.

			Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: No. There is traffic, but I feel it is what I expect it to be.	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A: Wilmette in McKinney to the north or Virginia/Rockhill to the South.	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A: Adding in more overpasses where feasible to allow thru traffic to flow on 380.	Traffic analysis indicates that providing overpasses, also known as grade separate intersections, along the existing US 380 would still experience a failing level of service for congestion and delay.
436	Bree Kihm	5/4/2018  Electronic Survey	Q: Do you support the building of a freeway regardless of alignment? A: No.	Comment noted.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: Pink	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A: Pink	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville? A: Pink	Comment noted.
			Q: What is your interest in this study? A: Nearby resident	Comment noted.
			Q: How often do you drive on the existing US 380? A: Weekly	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: Yes, too many construction trucks, wrecks, congestion.	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A: Side roads, Virginia, Hardin, White, etc. Anyway to get around.	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A: Keep 380 on 380.	Comment noted.
			Q: Do you support the building of a freeway regardless of alignment? A: No	Comment noted.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: Green, Pink	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A: Green, Pink	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville? A: Green, Pink	Comment noted.
			Q: What is your interest in this study? A: Property Owner	Comment noted.
			Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: Yes, traffic is getting heavy and will continue with the growth of the county.	Comment noted.

438	Brenda istre	5/12/2018	Electronic Survey	<p>Q: If US 380 is congested, what alternative routes do you take?  A: I usually take Custer, Lake Forest, or Preston when 380 is congested.</p> <p>Q: What solutions would you suggest in the US 380 Corridor?  A: I am not opposed to the 3 bypass options presented in the recent meetings.</p> <p>Q: Do you support the building of a freeway regardless of alignment?  A: I do not want to see a highway that will crossover Custer and connect into Prosper. Plus I am concerned with people using Prosper Trail and Frontier as shortcuts to the bypass.</p> <p>Q: If US 380 is constructed as a freeway, which alignment do you prefer?  A: The Green/Pink Alignment, The Red Alignment</p> <p>Q: Which alignment(s) do you prefer in McKinney?  A: Green, Pink</p> <p>Q: Which alignment(s) do you prefer in Princeton?  A: Blue</p> <p>Q: Which alignment(s) do you prefer in Farmersville?  A: Blue</p>	<p>Comment noted.</p>
439	Brenda Perkes	4/26/2018	Comment Form	<p>Access roads need to be built on both sides of any proposal. It is much harder to retrofit service roads after the fact. Review the debacle encountered retrofitting attempts on US Hwy 280 in Birmingham, Alabama for a very similar situation as you have w/ Hwy 380.</p> <p>Q: What is your interest in this study?  A: Property Owner</p> <p>Q: How often do you drive on the existing US 380?  A: Daily</p> <p>Q: Do you have any concerns with the existing US 380?  A: Too much congestion</p> <p>Q: If US 380 is congested, what alternative routes do you take?  A:</p> <p>Q: What solutions would you suggest in the US 380 Corridor?  A:</p>	<p>Comment noted.</p> <p>Comment noted.</p> <p>Comment noted.</p> <p>Comment noted.</p> <p>No answer provided.</p> <p>No answer provided.</p>
440	Brenda Schafake	4/29/2018	Electronic Survey	<p>Q: Do you support the building of a freeway regardless of alignment?  A: It is inevitable, but I do not support thoughts of a tol road. I do believe that with the congestion, there needs to be a smooth alignment. So many outsiders moving in the area and by not having a smooth alignment, this will prove to have more wrecks and stop n go congestion with the incoming drivers.</p> <p>Q: If US 380 is constructed as a freeway, which alignment do you prefer?  A: The Green/Pink Alignment</p> <p>Q: Which alignment(s) do you prefer in McKinney?  A: Red</p> <p>Q: Which alignment(s) do you prefer in Princeton?  A: Blue</p> <p>Q: Which alignment(s) do you prefer in Farmersville?  A: Green, Blue</p> <p>Q: What is your interest in this study?  A: Nearby resident</p> <p>Q: How often do you drive on the existing US 380?  A: Daily</p> <p>Q: If US 380 is congested, what alternative routes do you take?  A: I take 121 to 35 or 75 north.</p>	<p>Tolling is not being considered as an option for funding.</p> <p>Comment noted.</p> <p>Comment noted.</p> <p>Comment noted.</p> <p>Comment noted.</p> <p>Comment noted.</p> <p>Any future improvement projects would include assessment of the potential impact on the human and natural environments. Acquisition of new right-of-way to accommodate improvements would be minimized to the extent practicable.</p> <p>Comment noted.</p>

441	Brenda Watson	5/14/2018	Electronic Survey	<p>Q: What solutions would you suggest in the US 380 Corridor?</p> <p>A: Instead of going wider, there needs to be a plan to make HOV lanes of 3 or more people going down the middle that are stacked on top of each other. These can be toll lanes that are paid for. This would elevate the need to expand and take peoples businesses and homes.</p> <p>Q: Do you support the building of a freeway regardless of alignment?</p> <p>A: I don't care about taking people's land first, then taking business land, then taking business land, then traffic, then how pretty the freeway looks in that order.</p> <p>Q: If US 380 is constructed as a freeway, which alignment do you prefer?</p> <p>A: I Do Not Support Building a Freeway</p>	Comment and roadway configuration suggestion noted. Tolling is not being considered as an option for funding.
				<p>Q: Which alignment(s) do you prefer in McKinney?</p> <p>A: I Do Not Support Building a Freeway</p>	Comment noted.
				<p>Q: Which alignment(s) do you prefer in Princeton?</p> <p>A: I Do Not Support Building a Freeway</p>	Comment noted.
				<p>Q: Which alignment(s) do you prefer in Farmersville?</p> <p>A: I Do Not Support Building a Freeway</p>	Comment noted.
				<p>Q: What alignment(s) do you prefer in Ennis?</p> <p>A: I Do Not Support Building a Freeway</p>	Comment noted.
				<p>Q: How often do you drive on the existing US 380?</p> <p>A: Weekly</p>	Comment noted.
				<p>Q: Do you have any concerns with the existing US 380?</p> <p>A: no</p>	Comment noted.
				<p>Q: If US 380 is congested, what alternative routes do you take?</p> <p>A: 121</p>	Comment noted.
				<p>Q: What solutions would you suggest in this study?</p> <p>A: Commuter, Nearby resident, Ennis Park</p>	Comment noted.
				<p>Q: How often do you drive on the existing US 380?</p> <p>A: Weekly</p>	Comment noted.
				<p>Q: Do you have any concerns with the existing US 380?</p> <p>A: no</p>	Comment noted.
				<p>Q: If US 380 is congested, what alternative routes do you take?</p> <p>A: 121</p>	Comment noted.
				<p>Q: What solutions would you suggest in the US 380 Corridor?</p> <p>A: NO</p>	Comment noted.
				<p>Q: Do you support the building of a freeway regardless of alignment?</p> <p>A: The Green/Pink Alignment</p>	Comment noted.
				<p>Q: Which alignment(s) do you prefer in McKinney?</p> <p>A: Green, Pink</p>	Comment noted.
				<p>Q: Which alignment(s) do you prefer in Princeton?</p> <p>A: Green, Pink</p>	Comment noted.
				<p>Q: Which alignment(s) do you prefer in Farmersville?</p> <p>A: Green, Pink</p>	Comment noted.
				<p>Q: What alignment(s) do you prefer in Ennis?</p> <p>A: Green, Pink</p>	Comment noted.
				<p>Q: How often do you drive on the existing US 380?</p> <p>A: Daily</p>	Comment noted.
				<p>Q: Do you have any concerns with the existing US 380?</p> <p>A: No</p>	Comment noted.
				<p>Q: If US 380 is congested, what alternative routes do you take?</p> <p>A: To get to south of McKinney I take 380 &amp; go down lake Forrest to 121 or take 380 or backroads to the Dallas tollway</p>	Comment noted.
				<p>Q: What solutions would you suggest in the US 380 Corridor?</p> <p>A: Opening up Virginia wider so we have another way to travel parallel to 380</p>	Suggestion to make other roadway improvements noted.
				<p>Q: Do you support the building of a freeway regardless of alignment?</p> <p>A: No</p>	Comment noted.

			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: Pink	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A: Pink	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville? A: Pink	Comment noted.
			Q: What is your interest in this study? A: Property Owner, Nearby resident	Comment noted.
			Q: How often do you drive on the Existing US 380? A: Daily	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: Yeah it needs a few more lanes. Just widen if.	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A: 121 and 75. Or Virginia.	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A: Widen it or put it underground.	Comment noted. Alignment options and roadway configurations are still being evaluated.
			Q: Do you support the building of a freeway regardless of alignment? A: Not keep it where it is. Don't put it north and ruin the homes and countryside.	Comment noted. Any future improvement projects would include assessment of the potential impact on the human and natural environments.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: None	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: None	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A: Yellow	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville? A: None	Comment noted.
			Q: What is your interest in this study? A: Property Owner, Nearby resident	Comment noted.
			Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: Traffic is intense...especially prior to 75. The back ups can be ridiculous.	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A: There really are no good alternatives routes	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A: All of Collin county needs to take the approach Prosper has taken and expand 380	Comment noted.
			Q: Do you support the building of a freeway regardless of alignment? A: I am opposed to a freeway along the bloomdale route. This would be very close to many residential neighborhoods and would likely not solve the 380 congestion issues as it is so far out of the way. I feel that the best solution is to find a way to expand 380 throughout all of Collin county.	Comment noted.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: Green, Pink	Comment noted.

				Q: How often do you drive on the existing US 380?	A: Comment noted.
				Q: Do you have any concerns with the existing US 380?	A: Comment noted.
				A: There are insufficient connected sidewalks for pedestrians.	
				Q: If US 380 is congested, what alternative routes do you take?	A: El Dorado, Wilmett, White
				Q: What solutions would you suggest in the US 380 Corridor?	A: Any future improvement projects would include assessment of the potential impact on the human and natural environments.
				A: Buying up property along the pink/green alignment would probably lead to the most disenfranchisement of the community that this would ultimately, ostensibly serve. That said, all of the alignments share the same issue: they necessitate automobile traffic. High density, public transportation could be scalable to increasing population which would both alleviate burdens on existing roadways and decrease the likelihood that we have to visit this again in 20 years when we reach capacity. A combination of street widening plus public transit will best answer our traffic problems.	Northern extensions of existing and future rail corridors are being evaluated by others; however, transit options are not included in the proposed project. Any future improvement projects would include assessment of the potential impact on the human and natural environments. Transit is considered and included in NCTCOG's MTP. Transit is part of solution, but freeways will also be needed to serve traffic demand.
				Q: Do you support the building of a freeway regardless of alignment?	A: No. We cannot have an attitude of "we need it at all costs" which seems to be implied here. The presentation slides seem to favor this as the "only" option downplaying (disregarding?) the benefits of public transport/pedestrian ways.
				Q: If US 380 is constructed as a freeway, which alignment do you prefer?	A: Comment noted.
				Q: Which alignment(s) do you prefer in McKinney?	A: Comment noted.

				Q: Do you have any concerns with the existing US 380? A: Not in McKinney	Comment noted.
				Q: If US 380 is congested, what alternative routes do you take? A: Virginia, Hardin,	Comment noted.
				Q: What solutions would you suggest in the US 380 Corridor? A: Widening of Virginia is a start. Connecting Harden to a E/W road that goes S of Trinity Falls.	Comment and suggestion for improvements to other roadways noted.
				Q: Do you support the building of a freeway regardless of alignment? A: No.	Comment noted.
				Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment	Comment noted.
				Q: Which alignment(s) do you prefer in McKinney? A: Green, Pink, I Do Not Support Building a Freeway	Comment noted.
				Q: Which alignment(s) do you prefer in Princeton? A: Green, Pink, I Do Not Support Building a Freeway	Comment noted.
				Q: Which alignment(s) do you prefer in Farmersville? A: Green, Pink, I Do Not Support Building a Freeway	Comment noted.
				Q: What is your interest in this study? A: Property Owner, Nearby resident	Comment noted.
				Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
				Q: Do you have any concerns with the existing US 380? A: Yes it is horribly congested at HWY 75 and needs to have elevated access roads for easy onboarding/off boarding rather than backing up at the light	Comment noted.
				Q: If US 380 is congested, what alternative routes do you take? A: None.	Comment noted.
				Q: What solutions would you suggest in the US 380 Corridor? A: Focus on improving the outer loop and the congestion will remedy itself. The loop needs to be the top priority. If there is any new access roads made, it will only bottleneck and congest again once it reaches the highway	Initial traffic analysis taking into account future population projections indicates that even with the construction of the Collin County Outer Loop and other planned roadway improvements within the study area, US 380 would still experience a failing level of service for congestion and delay.
				Q: Do you support the building of a freeway regardless of alignment? A:	No answer provided.
				Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment	Comment noted.
				Q: Which alignment(s) do you prefer in McKinney? A: Green, Pink	Comment noted.

				Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment	Comment noted.
				Q: Which alignment(s) do you prefer in McKinney? A: Green, Pink	Comment noted.
				Q: Which alignment(s) do you prefer in Princeton? A: Green, Pink, Blue, Yellow	Comment noted.
				Q: Which alignment(s) do you prefer in Farmersville? A: Green, Pink, Blue, Yellow	Comment noted.
				Q: What is your interest in this study? A: Nearby resident	Comment noted.
				Q: How often do you drive on the Existing US 380? A: Monthly	Comment noted.
				Q: Do you have any concerns with the existing US 380? A: Yes, it is usually faster to go south to George Bush when going north through Denton.	Comment noted.
				Q: If US 380 is congested, what alternative routes do you take? A: GB, SRT, 82	Comment noted.
				Q: What solutions would you suggest in the US 380 Corridor? A: a freeway	Comment noted.
468	Brian Hanchey	5/16/2018	Electronic Survey	Q: Do you support the building of a freeway regardless of alignment? A: Mostly, I'd like to see parts like Erwin maintained.	The location of Erwin Park was taken into consideration when draft alignments were developed. None of the proposed options directly impact Erwin Park. The proposed blue alignment option is adjacent to the southern property line but does not cross into the park. TxDOT attempts to avoid and/or minimize impacts to tanks as much as practicable.
				Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Blue Alignment, The Red Alignment, The Yellow Alignment	Comment noted.
				Q: Which alignment(s) do you prefer in McKinney? A: Red	Comment noted.
				Q: Which alignment(s) do you prefer in Princeton? A: Blue	Comment noted.
				Q: Which alignment(s) do you prefer in Farmersville? A: Blue	Comment noted.
				Q: What is your interest in this study? A: Commuter, Property Owner, Nearby resident	Comment noted.
				Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
				Q: Do you have any concerns with the existing US 380? A: If I'm on 380, my primary drive is between FM423 and US 75. Currently, the only congestion is between Preston and Dallas North Tollway so no current concerns.	Comment noted.
				Q: If US 380 is congested, what alternative routes do you take? A: Rockhill to Dallas North Tollway starting wherever the congestion begins when going West	Comment noted.
				Q: What solutions would you suggest in the US 380 Corridor? A: Possibly an overpass at Custer and 380 similar to overpass at Preston and 380.	Comment noted.
				Q: Do you support the building of a freeway regardless of alignment? A: Yes, agree with alignment options 3-5	Comment noted.
				Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Yellow Alignment	Comment noted.
				Q: Which alignment(s) do you prefer in McKinney? A: Blue	Comment noted.

	Commenter Name	Date Received	Source	Comment Topic	Response
				Q: Which alignment(s) do you prefer in Princeton? A: Blue	Comment noted.
				Q: Which alignment(s) do you prefer in Farmersville? A: Pink	Comment noted.
				Q: What is your interest in this study? A: Commuter, Business Owner, Property Owner	Comment noted.
				Q: How often do you drive on the Existing US 380? A: Weekly	Comment noted.
				Q: Do you have any concerns with the existing US 380? A: Yes, it is becoming way to congested.	Comment noted.
				Q: If US 380 is congested, what alternative routes do you take? A:	No answer provided.
				Q: What solutions would you suggest in the US 380 Corridor? A: I believe 380 should be a highway/freeway with frontage roads to allow for better travel. This should be extend at least from East side of McKinney to I-35.	Comment noted.
				Q: Do you support the building of a freeway regardless of alignment? A: Yes, but obviously alignment is important.	Comment noted.
				Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment, The Blue Alignment	Comment noted.
				Q: Which alignment(s) do you prefer in McKinney? A: Blue	Comment noted.
				Q: Which alignment(s) do you prefer in Princeton? A: Green, Pink	Comment noted.
				Q: Which alignment(s) do you prefer in Farmersville? A: None	Comment noted.
				Q: What is your interest in this study? A: Property Owner	Comment noted.
				Q: How often do you drive on the existing US 380? A: Weekly	Comment noted.
				Q: Do you have any concerns with the existing US 380? A: Too many lights. The way 380 has evolved makes me believe removing lights and adding a non-stop highway is impossible. I would hope some form of slightly more north non-stop highway would be in the works. This would help those looking to travel directly across City, and County, lines to do so without the congestion on the current 380 route.	Comment noted.
				Q: If US 380 is congested, what alternative routes do you take? A: Currently I do not have a viable option. I would be traveling from McKinney to Cross Roads, Denton or Decatur. For these locations, 380 is my only option West.	Comment noted.
				Q: What solutions would you suggest in the US 380 Corridor? A: Got no more than 5 miles north of the current 380 and build a freeway that can connect I35 to HWY75, if not go further West and East of mentioned HWY's.	Comment noted.
				Q: Do you support the building of a freeway regardless of alignment? A: The Blue Alignment, The Yellow Alignment	Comment noted.
				Q: Which alignment(s) do you prefer in McKinney? A: Blue, Red	Comment noted.
				Q: Which alignment(s) do you prefer in Princeton? A: Blue, Yellow	Comment noted.
				Q: Which alignment(s) do you prefer in Farmersville? A: Blue	Comment noted.

476	Brianna Larsen	5/14/2018	Electronic Survey	<p>Q: What solutions would you suggest in the US 380 Corridor?</p> <p>A: A bypass north of 380 makes sense but Only if it is connecting at a more commercial based road in place such as Custer Rd. Tying into Stonebridge Dr which is currently residential will be a disaster, and it's not a major thoroughfare to have good southbound options after coming off the bypass.</p> <p>Q: Do you support the building of a freeway regardless of alignment?</p> <p>A: the residential areas already in place should not be forced to now sit so close to a major freeway. A bypass of sorts is needed to ease congestion and give alternate routes but only in the way that residential areas will be least impacted</p> <p>Q: If US 380 is constructed as a freeway, which alignment do you prefer?</p> <p>A:</p> <p>Q: Which alignment(s) do you prefer in McKinney?</p> <p>A:</p> <p>Q: Which alignment(s) do you prefer in Princeton?</p> <p>A:</p> <p>Q: Which alignment(s) do you prefer in Farmersville?</p> <p>A:</p> <p>Q: What is your interest in this study?</p> <p>A: Nearby resident</p> <p>Q: How often do you drive on the existing US 380?</p> <p>A: Weekly</p> <p>Q: Do you have any concerns with the existing US 380?</p> <p>A: No. It's already been widened. Too many houses being put into one area at one time is what is causing the congestion.</p> <p>Q: If US 380 is congested, what alternative routes do you take?</p> <p>A: Side streets, usually Virginia Parkway, connecting to one of the many streets that intersect depending how far I need to go.</p> <p>Q: What solutions would you suggest in the US 380 Corridor?</p> <p>A: Stop overcrowding the area. While progress is important, jamming houses on every available spot of land and flooding people into the area are what's causing the problems. 380 was not as bad as it is now just three years ago.</p> <p>Q: Do you support the building of a freeway regardless of alignment?</p> <p>A: No</p> <p>Q: If US 380 is constructed as a freeway, which alignment do you prefer?</p> <p>A: I Do Not Support Building a Freeway</p> <p>Q: Which alignment(s) do you prefer in McKinney?</p> <p>A: I Do Not Support Building a Freeway</p> <p>Q: Which alignment(s) do you prefer in Farmersville?</p> <p>A: I Do Not Support Building a Freeway</p> <p>Q: What is your interest in this study?</p> <p>A: Property Owner, Nearby resident</p> <p>Q: How often do you drive on the existing US 380?</p> <p>A: Daily</p> <p>Q: Do you have any concerns with the existing US 380?</p> <p>A: Lots of accidents and lots of traffic</p> <p>Q: If US 380 is congested, what alternative routes do you take?</p> <p>A: Hwy 5 if possible</p> <p>Q: What solutions would you suggest in the US 380 Corridor?</p> <p>A:</p> <p>Q: Do you support the building of a freeway regardless of alignment?</p> <p>A:</p>	<p>Comment noted.</p> <p>Any future improvement projects would include assessment of the potential impact on the human and natural environments.</p> <p>No answer provided.</p> <p>No answer provided.</p> <p>No answer provided.</p> <p>No answer provided.</p> <p>Comment noted.</p> <p>Comment noted.</p> <p>Comment noted.</p> <p>Comment noted.</p> <p>Comment noted.</p> <p>TxDOT does not decide where housing developments are placed. However, any future road improvement projects would include assessment of the potential impact on the human and natural environments.</p> <p>Comment noted.</p> <p>No answer provided.</p> <p>No answer provided.</p>

			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: Green, Pink	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A:	No answer provided.
			Q: Which alignment(s) do you prefer in Farmersville? A:	No answer provided.
			Q: What is your interest in this study? A: Commuter	Comment noted.
			Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: Yes, over populated	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A: Hardin to Winnieith, not many choices	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A:	No answer provided.
			Q: Do you support the building of a freeway regardless of alignment? A: Yes	Comment noted.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Blue Alignment, The Red Alignment	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: Blue, Red	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A: Blue	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville? A: Blue	Comment noted.
			Q: What is your interest in this study? A: Nearby resident	Comment noted.
			Q: How often do you drive on the existing US 380? A: Weekly	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: Yes, through McKinney there are many hazards that cause accidents. There are very fast drivers, few turn lanes, and few right turn offs to businesses and developments.	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A: I take the 75 or the 121	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A: I think the bypass is a silly idea for many reasons. That whole NW sector is supposed to be nature and housing. There's a huge flood plain that would cost so much to go through financially and environmentally. I really think something should be done with the existing 380 footprint. I have no idea what, I am trying to find out how much ROW currently exists and how much is needed. The outer loop and some combo of 380 improvements would help this situation. I'm really hoping the existing 380 gets improved shortly and not in 10 years. That road is dangerous.	Any future improvement projects would include assessment of the potential impact on the human and natural environments. Roadway configurations and the right of way required are still being evaluated.
			Q: Do you support the building of a freeway regardless of alignment? A: I support building a freeway on the existing 380 footprint. Not bypasses that seem to be silly and costly.	Initial traffic analysis taking into account future population projections indicates that even with the construction of the Collin County Outer Loop and other planned roadway improvements within the study area, US 380 would still experience a failing level of service for congestion and delay. The current US 380 ROW is usually around 180' wide.

				<p>Mr. Endres,  I was at the Sheraton presentation and I saw your presentation (I think it was you) at the McKinney City Council Work Session. I have a few questions for you that I hope you or someone else can answer for me.  McKinney only:  Is there a map that shows the ROW you've got now through the whole McKinney section of 380? If so, can I get it? If not, you must have some sort of list somewhere that would tell us this?</p> <p>Can you then tell us the ROW you'd need to stay on 380 for either of the freeway options (I think pink and green)?</p> <p>At the CC work session on Monday, many points were made about there being no issues of ROW on the west of McKinney, just on the east? I'd like the above information to check on the accuracy of those statements and to find out exactly where the issues on the 380 would be.</p> <p>Since McKinney CC made it appear they were fine with an elevated option, is that something you'd consider at this point?</p>	<p>TxDOT ROW maps can be requested through an open records request. Visit <a href="https://www.txdot.gov/app/cg/contact_us/form/openrecords.htm">https://www.txdot.gov/app/cg/contact_us/form/openrecords.htm</a> or call the Public Information Office at (214)320-4480.</p> <p>Alignment options and roadway configurations are still being evaluated.</p> <p>Comment noted. Alignment options and roadway configurations are still being evaluated. Please see response above regarding open records request.</p> <p>Alignment options and roadway configurations are still being evaluated.</p>
	NA	Email		<p>Lastly, we have real safety issues on the 380 right now, what can be done in the short term to help that situation since it looks like any of these changes will be about 10 years away?  Thank you for your time,  Bridgette Wallis  McKinney resident</p> <p>Q: What is your interest in this study?  A: Business Owner, Property Owner, Nearby resident</p> <p>Q: How often do you drive on the existing US 380?  A: Weekly</p> <p>Q: Do you have any concerns with the existing US 380?  A: Big trucks at high rates of speed, noise pollution</p> <p>Q: If US 380 is congested, what alternative routes do you take?  A: Virginia</p> <p>Q: What solutions would you suggest in the US 380 Corridor?  A: overpasses</p> <p>Q: Do you support the building of a freeway regardless of alignment?  A: not sure, not if it affects home owners</p> <p>Q: If US 380 is constructed as a freeway, which alignment do you prefer?  A: The Green/Pink Alignment</p> <p>Q: Which alignment(s) do you prefer in McKinney?  A: Green, Pink</p> <p>Q: Which alignment(s) do you prefer in Princeton? 				Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
				Q: Do you have any concerns with the existing US 380? A: Yes, US 380 should be controlled/unlimited access highway.	Comment noted.
				Q: If US 380 is congested, what alternative routes do you take? A: I use US 380 or other arterial roadways.	Comment noted.
				Q: What solutions would you suggest in the US 380 Corridor? A: Widening, multi-level roadways, provide additional arterial roadways that can hold more traffic.	Comment and suggestion for improvements and/or construction of additional arterial roadways noted.
			Electronic Survey	Q: Do you support the building of a freeway regardless of alignment? A: I support the improvement of the existing highway 380, not a bypass.	Comment noted.
		5/9/2018	Bryan Kile	Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment, None	Comment noted.
				Q: Which alignment(s) do you prefer in McKinney? A: Green, Pink	Comment noted.
				Q: Which alignment(s) do you prefer in Princeton? A: Green, Pink	Comment noted.
				Q: Which alignment(s) do you prefer in Farmersville? A: Green, Pink	Comment noted.
				The disappointment that I feel in this situation is beyond description. In 2017, McKinney revised the same alignment along CR 123, where I recently built my families forever home. At the time, McKinney tabled the "Bypass" option, leaving the decision to TXDOT. In the proposals today (04/26/18), it is clear that TXDOT is merely picking up the bypass option (3 out of 5 plans) and leading the way with it. This decision is apparent! The lack of concern by both McKinney engineers & TxDOT engineers is appalling and I guess if it isn't in your backyard, then it doesn't matter! I would appreciate any consideration for alignments that don't affect residences. The bypass only benefits big business!	Comment noted. Alignment options and roadway configurations are still being evaluated.
		4/26/2018	Comment Form	Q: What is your interest in this study? A: Commuter, Property Owner, Nearby resident	Comment noted.
				Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
				Q: Do you have any concerns with the existing US 380? A: Only the congestion around 380 & 75	Comment noted.
				Q: If US 380 is congested, what alternative routes do you take? A: If I'm going to 75 380 is usually the best route regardless, otherwise Custer to 121 or Prosper Trail to Preston	Comment noted.
				Q: What solutions would you suggest in the US 380 Corridor? A: Not running a freeway right behind my house would be a good start.	Any future improvement projects would include assessment of the potential impact on the human and natural environments.
			Electronic Survey	Q: Do you support the building of a freeway regardless of alignment? A: No	Comment noted.
				Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment	Comment noted.

510	C D Crossley	5/18/2018	Electronic Survey	<p>Q: If US 380 is congested, what alternative routes do you take?</p> <p>A: I have no choice but to use 380 to get out or return to my subdivision. Since cars are traveling at 50 mph whenever I need to go anywhere I have started going right (east) even when my final destination requires me to go west. I then turn right at Beauchamp Blvd (near the Wal-Mart) and make a u-turn so I can have a protected left turn onto 380. But despite doing that I have had several close calls returning home as I have had others who do not have the right of way make left turns in front of me. Also have encountered cars coming head on toward me in the Center Turn Lanes as I am stopped in the left turn lane for turning into my subdivision. There are no alternative routes that will get me home.</p> <p>Q: What solutions would you suggest in the US 380 Corridor?</p> <p>A: I know the plans are years away but something needs to be done now. Speed limit is 60 mph hour on the stretch of 380 where the entrance/exit to my subdivision is located. I think a stoplight is needed and the speed needs to be reduced to 45 mph. This is in the city limits of Princeton. As of today there have been 9 wrecks in Princeton and surrounding area on 380 so far in the month of May and the month is not over. Something needs to be done now or there will be more lives lost. I know the big improvements are probably ten years away but something has to be done now.</p> <p>Q: Do you support the building of a freeway regardless of alignment?</p> <p>A: Yes. It appears city leaders have not planned ahead as they keep allowing more businesses to locate along 380 in Princeton which probably makes the building of a freeway more difficult. As it is now I am grateful every time I reach my destination when I leave my community and relieved when I once again return home. But I am always aware of the dangers in anytime I have to go or return to my abode. Safety should be the deciding factor. And, I fear many residents or those using this stretch of 380 do not understand how to use the Center Turn Lane...I know there is no easy solution. I just want to live.</p> <p>Q: If US 380 is constructed as a freeway, which alignment do you prefer?</p> <p>A: None</p> <p>Q: Which alignment(s) do you prefer in McKinney?</p> <p>A: None</p> <p>Q: Which alignment(s) do you prefer in Princeton?</p> <p>A: Green, Pink, Blue</p> <p>Q: Which alignment(s) do you prefer in Farmersville?</p> <p>A: None</p> <p>Q: What is your interest in this study?</p> <p>A: Property Owner</p> <p>Q: How often do you drive on the existing US 380?</p> <p>A: Monthly</p> <p>Q: Do you have any concerns with the existing US 380?</p> <p>A: MINIMAL</p> <p>Q: If US 380 is congested, what alternative routes do you take?</p> <p>A: None. I just deal with it.</p> <p>Q: What solutions would you suggest in the US 380 Corridor?</p> <p>A: More info is necessary</p> <p>Q: Do you support the building of a freeway regardless of alignment?</p> <p>A: More info is necessary</p> <p>Q: Which alignment(s) do you prefer in McKinney?</p> <p>A: None</p> <p>Q: Which alignment(s) do you prefer in Princeton?</p> <p>A: None</p> <p>Q: Which alignment(s) do you prefer in Farmersville?</p> <p>A: Daily</p>	<p>Comment noted.</p> <p>TxDOT plans to construct a safety improvement project to add a raised median on US 380 from FM 1827 to CR 985; this project will be letting for bids in August 2018, and construction is anticipated to begin during the fall of 2018. In addition, TxDOT is currently developing a project to widen US 380 from Airport Road in McKinney to 4th Street in Princeton from 4 lanes to 6 lanes.</p> <p>Initial traffic analysis does show that travel times would likely be reduced should a freeway be constructed and traffic signals eliminated. However, if TxDOT opts to not move forward with constructing a freeway, we will continue to find ways to enhance safety and improve traffic flow.</p> <p>Comment noted.</p> <p>No answer provided.</p> <p>Comment noted.</p> <p>No answer provided.</p> <p>Comment noted.</p> <p>Comment noted.</p> <p>No answer provided.</p> <p>Comment noted.</p> <p>Comment noted.</p>

514	Caitlin Skidmore	5/10/2018	Electronic Survey	<p>Q: What solutions would you suggest in the US 380 Corridor?</p> <p>A: I do think a freeway would be helpful. In McKinney, where the route will affect what seems to be the most already-populated areas, I think the blue or yellow (which is not an option on the next page for McKinney), but I would choose it along with blue) routes would be best. These routes have the smallest effect on current desirable neighborhoods and also keeps the retail that is new and/or under construction that will keep more dollars here in McKinney v. going to Allen or Frisco, etc. for Hobby Lobby, TJ Maxx, etc.</p> <p>Q: Do you support the building of a freeway regardless of alignment?</p> <p>A: No, not regardless of the alignment.</p>	Comment noted.
				<p>Q: If US 380 is constructed as a freeway, which alignment do you prefer?</p> <p>A: The Blue Alignment, The Red Alignment, The Yellow Alignment</p>	Comment noted.

			NO to widening 380! YES to 380 Regional Transportation Bypass	
517	Cameron	5/4/2018 Electronic Survey	Surrounding towns Prosper and Frisco are in support of widening 380 which if extended through McKinney would destroy a huge part of Tucker Hill as well as Stonebridge Ranch, Auburn Hills, Meadow Ranch Estates, Ridgcrest, Buckner Place, and many nearby businesses. While not all of these areas are in the Northridge District, we support the City of McKinney in their efforts to protect these areas. However, the bypass must also protect McKinney's main assets in the Northridge District, Tucker Hill and the well established Stonebridge Ranch. This is why we are in favor of the bypass starting WEST of Custer and utilizing as much open, undeveloped space as possible to provide the thoroughfare. Extending slightly west into Prosper accounts for less than 4% of the total distance of the bypass while both saving money and preserving homes, making this option (the dark red line on the map) the best solution for the City of McKinney and the region as a whole.	Petition in response to alignments publicly presented by others received and comments noted.

			Q: Which alignment(s) do you prefer in McKinney? A: Blue	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A: Blue	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville? A: Blue	Comment noted.
			Q: What is your interest in this study? A: Commuter, Nearby resident	Comment noted.
			Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
			Q: Do you have any concerns with the existing US 380? A:	No answer provided.
			Q: If US 380 is congested, what alternative routes do you take? A: Coit, Custer, 289,	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A: More over passes like the new one at Preston & 380.	Comment noted.
			Q: Do you support the building of a freeway regardless of alignment? A: No. Putting a freeway in where people have their homes and personal property is not ok.	Any future improvements will not be implemented without thorough consideration of the potential impact on the human and natural environments.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: Green, Pink	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A: Green, Pink	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville? A: Green, Pink	Comment noted.
			Q: What is your interest in this study? A: Nearby resident, Erwin park trail user	Comment noted.
			Q: How often do you drive on the existing US 380? A: Weekly	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: Lots of lights making slow	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A: None	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A:	No answer provided.
			Q: Do you support the building of a freeway regardless of alignment? A: No,	Comment noted.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment	Comment noted.

				Q: Which alignment(s) do you prefer in McKinney? A: Green	Comment noted.
				Q: Which alignment(s) do you prefer in Princeton? A: Green	Comment noted.
				Q: Which alignment(s) do you prefer in Farmersville? A: Green	Comment noted.
				Q: What is your interest in this study? A: Commuter	Comment noted.
				Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
				Q: Do you have any concerns with the existing US 380? A: There needs to be a concrete median divider to prevent people using the middle turn lane as a lane to drive in. So many accidents could be prevented this way. All the 18 wheelers are a concern as well, but not really sure where else they could drive.	Comment noted. TxDOT plans to construct a safety improvement project to add a raised median on US 380 from FM 1827 to CR 985; this project will be letting for bids in August 2018, and construction is anticipated to begin during the fall of 2018.
				Q: If US 380 is congested, what alternative routes do you take? A: Bridgewater to Airport Drive. There aren't many alternatives.	Comment noted.
				Q: What solutions would you suggest in the US 380 Corridor? A: Concrete median barriers, widen each side to three lanes, maybe even a frontage road?	Comment noted. TxDOT plans to construct a safety improvement project to add a raised median on US 380 from FM 1827 to CR 985; this project will be letting for bids in August 2018, and construction is anticipated to begin during the fall of 2018. In addition, TxDOT is currently developing a project to widen US 380 from Airport Road in McKinney to 4th Street in Princeton from 4 lanes to 6 lanes.
				Q: Do you support the building of a freeway regardless of alignment? A: Possibly. Maybe.	Comment noted.
				Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Red Alignment	Comment noted.
				Q: Which alignment(s) do you prefer in McKinney? A: Blue	Comment noted.
				Q: Which alignment(s) do you prefer in Princeton? A: Blue	Comment noted.
				Q: Which alignment(s) do you prefer in Farmersville? A: Blue	Comment noted.
				Q: What is your interest in this study? A: Property Owner	Comment noted.
				Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
				Q: Do you have any concerns with the existing US 380? A: Speed limit too high.	No answer provided.
				Q: If US 380 is congested, what alternative routes do you take? A:	Comment noted.
				Q: What solutions would you suggest in the US 380 Corridor? A: Something north. Connect 75 to DNT	Comment noted.
				Q: Do you support the building of a freeway regardless of alignment? A: Only if it connects directly to DNT	Comment noted.
				Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: None	Comment noted.
				Q: Which alignment(s) do you prefer in McKinney? A: None	Comment noted.

				Q: Which alignment(s) do you prefer in Princeton? A: Blue	Comment noted.
				Q: Which alignment(s) do you prefer in Farmersville? A: Blue	Comment noted.
				Q: What is your interest in this study? A: Nearby resident	Comment noted.
				Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
				Q: Do you have any concerns with the existing US 380? A: Poor signal timing, lack of flashing yellow lights for turns	Comment noted.
				Q: If US 380 is congested, what alternative routes do you take? A: Virginia Rockhill	Comment noted.
				Q: What solutions would you suggest in the US 380 Corridor? A: Flashing yellow lights for all turns off of 380	Comment and suggestion for lights noted.
				Q: Do you support the building of a freeway regardless of alignment? A: No	Comment noted.
				Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Blue Alignment	Comment noted.
				Q: Which alignment(s) do you prefer in McKinney? A: Blue	Comment noted.
				Q: Which alignment(s) do you prefer in Princeton? A: Yellow	Comment noted.
				Q: Which alignment(s) do you prefer in Farmersville? A: Blue	Comment noted.
				Q: What is your interest in this study? A: Commuter	Comment noted.
				Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
				Q: Do you have any concerns with the existing US 380? A: Yes - Difficult to drive East to McKinney. I avoid intersection of 380 & 75	Comment noted.
				Q: If US 380 is congested, what alternative routes do you take? A: I will go south from Prosper on Coit, Independent, Custer, Ridge Road and maybe Hardon. Then I drive East on Virginia Pkwy, El Dorado or Stacy. Then I go North on 5 to Industrial Rd, and then Airport Rd to 380 East	Comment noted.
				Q: What solutions would you suggest in the US 380 Corridor? A: Blue	Comment noted.
				Q: Do you support the building of a freeway regardless of alignment? A: I support Blue, Red and Yellow - in that order: do not support Pink or Green.	Comment noted.
				Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Blue Alignment, The Red Alignment	Comment noted.
				Q: Which alignment(s) do you prefer in McKinney? A: Red	Comment noted.
				Q: Which alignment(s) do you prefer in Princeton? A: Blue	Comment noted.
				Q: Which alignment(s) do you prefer in Farmersville? A: Blue	Comment noted.

				Q: Which alignment(s) do you prefer in Princeton? A: Green	Comment noted.
				Q: Which alignment(s) do you prefer in Farmersville? A: Green	Comment noted.
				Q: What is your interest in this study? A: Property Owner	Comment noted.
				Q: How often do you drive on the existing US 380? A: Weekly	Comment noted.
				Q: Do you have any concerns with the existing US 380? A: Very congested. Traffic backs up in the one turn lane at Airport and 1827 at most times of the day creating hazardous conditions. Most immediate hazardous condition that should be addressed.	Comment noted.
				Q: If US 380 is congested, what alternative routes do you take? A: There really isn't a good alternate route	Comment noted.
				Q: What solutions would you suggest in the US 380 Corridor? A: Freeway	Comment noted.
				Q: Do you support the building of a freeway regardless of alignment? A: Yes	Comment noted.
				Q: If US 380 is constructed as a freeway, which alignment do you prefer? A:	No answer provided.
				Q: Which alignment(s) do you prefer in McKinney? A:	No answer provided.
				Q: Which alignment(s) do you prefer in Princeton? A:	No answer provided.
				Q: Which alignment(s) do you prefer in Farmersville? A:	No answer provided.
				Q: What is your interest in this study? A: Business Owner. Property Owner. Nearby resident	Comment noted.
				Q: How often do you drive on the existing US 380? A: Weekly	Comment noted.
				Q: Do you have any concerns with the existing US 380? A: Traffic congestion near I75 and soon at Dallas North Tollway	Comment noted.
				Q: If US 380 is congested, what alternative routes do you take? A: Virginia	Comment noted.
				Q: What solutions would you suggest in the US 380 Corridor? A:	No answer provided.
				Q: Do you support the building of a freeway regardless of alignment? A: Yes	Comment noted.
				Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Blue Alignment, The Red Alignment	Comment noted.
				Q: Which alignment(s) do you prefer in McKinney? A: Blue, Red	Comment noted.
				Q: Which alignment(s) do you prefer in Princeton ? A: None	Comment noted.
				Q: Which alignment(s) do you prefer in Farmersville? A: None	Comment noted.

	Commenter Name	Date Received	Source	Comment Topic	Response
				Q: What is your interest in this study? A: Commuter	Comment noted.
				Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
				Q: Do you have any concerns with the existing US 380? A: Unsafe, needs median barriers	Comment noted.
				Q: If US 380 is congested, what alternative routes do you take? A:	No answer provided.
				Q: What solutions would you suggest in the US 380 Corridor? A: Bleed most of the traffic off by spur towards 211 toll way	Comment noted.
				Q: Do you support the building of a freeway regardless of alignment? A: Yes	Comment noted.
				Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Blue Alignment, The Red Alignment	Comment noted.
				Q: Which alignment(s) do you prefer in McKinney? A: Red	Comment noted.
				Q: Which alignment(s) do you prefer in Princeton? A: Blue	Comment noted.
				Q: Which alignment(s) do you prefer in Farmersville? A: Blue	Comment noted.
				Q: What is your interest in this study? A: Property Owner	Comment noted.
				Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
				Q: Do you have any concerns with the existing US 380? A: No, but I understand the growing population and the need for alternatives for bypass traffic.	Comment noted.
				Q: If US 380 is congested, what alternative routes do you take? A: Wilmett, Harden, White.	Comment noted.
				Q: What solutions would you suggest in the US 380 Corridor? A: Complete the planned Outer Loop between I-35 and US 75 would create a much needed northern thoroughfare. The time to reach the planned Outer Loop from US 380 and I-35 would take minutes, contributing to lessened traffic congestion. – A portion of the Outer Loop east of US 75 has already been completed, so we hope you'll collaborate with our neighboring cities to finish the work already planned.	Comment noted. TxDOT continues to plan its projects along with city, county, and agency partners.
				Q: Do you support the building of a freeway regardless of alignment? A: No	Comment noted.
				Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment, None	Comment noted.

			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: Green, Pink	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A: Green, Pink	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville? A: Green, Pink	Comment noted.
			Q: What is your interest in this study? A: Commuter, Nearby resident	Comment noted.
			Q: How often do you drive on the Existing US 380? A: Daily	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: High congestion. Many lights. I commute to Denton and it often takes an inordinate amount of time to just exit McKinney	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A: For my daily commute, I don't take alternative routes. I stay on the road and hope it clears up. When I'm travelling toward 75, I will often drive down Taylor Burke to get to the freeway instead of 380.	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A:	No answer provided.
557	Catherine Dutton	5/12/2018	Electronic Survey	Q: Do you support the building of a freeway regardless of alignment? A: Yes.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment, The Blue Alignment, The Yellow Alignment	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: Blue, Red	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A: Green, Pink, Blue, Yellow	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville? A: Green, Pink, Blue, Yellow	Comment noted.
			Q: What is your interest in this study? A: Commuter, Property Owner, Nearby resident	Comment noted.
			Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: Yes, congested and too many traffic lights.	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A: Little alternatives available, commute requires some travel on 380.	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A: Expand existing with some possible bypass areas	Comment noted.
			Q: Do you support the building of a freeway regardless of alignment? A:	No answer provided.
558	Catherine Frank	5/1/2018	Electronic Survey	Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment, The Blue Alignment
			Q: Which alignment(s) do you prefer in McKinney? A: Green	Comment noted.

Commenter Name	Date Received	Source	Comment Topic	Response
			Q: Which alignment(s) do you prefer in Princeton? A: Green	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville? A: Green	Comment noted.
			Q: What is your interest in this study? A: Commuter, Property Owner, Nearby resident	Comment noted.
			Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: Traffic and the number of accidents, especially at Airport Rd. and Lake Forest	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A: White Ave to Tennessee	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A: Better timing on traffic lights and reduced speed west of Hardin	Comment and suggestion for improved timing of traffic lights and reduced speeds noted.
559	Catherine Winegard	5/7/2018 Electronic Survey	Q: Do you support the building of a freeway regardless of alignment? A: A freeway yes but it should in no way infringe on the area surrounding Erwin Park	The location of Erwin Park was taken into consideration when draft alignments were developed. None of the proposed alignments directly impact Erwin Park. The proposed blue alignment option is adjacent to the southern property line but does not cross into the park.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: Green, Pink	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A: Green, Pink	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville? A: Pink	Comment noted.
			Q: What is your interest in this study? A: Property Owner, Nearby resident, 380 is right behind my home in stonebridge	Comment noted.
			Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: Yes car accidents behind my home	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A: Virginia Rd	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A: Bypass North of Bloomdale in McKinney and Frontier Pkwy in prosper	Comment noted.
			Q: Do you support the building of a freeway regardless of alignment? A: No	Comment noted.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Blue Alignment, The Yellow Alignment	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: Blue	Comment noted.

			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: I Do Not Support Building a Freeway	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: I Do Not Support Building a Freeway	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A: I Do Not Support Building a Freeway	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville? A: I Do Not Support Building a Freeway	Comment noted.
			Q: What is your interest in this study? A: Property Owner, Nearby resident	Comment noted.
			Q: How often do you drive on the Existing US 380? A: Weekly	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: too congested and the putting in of costco and other big stores will bring more traffic	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A: virginia. It is too congested most days	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A: light timing	Comment noted.
			Q: Do you support the building of a freeway regardless of alignment? A: no	Comment noted.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: Red	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A: Pink	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville? A: Pink	Comment noted.
			Q: What is your interest in this study? A: Property Owner, Nearby resident	Comment noted.
			Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: Yes. It already gets congested during rush hour. Then it is only going to get worse when all of the new development is completed at the intersection of 380 & Hardin	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A: It depends on my final destination, but I usually check Eldorado and/or Virginia.	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A: Widen it and add a lane on both sides.	Comment noted.
			Q: Do you support the building of a freeway regardless of alignment? A: No.	Comment noted.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: Green, Pink	Comment noted.

				Q: Which alignment(s) do you prefer in Princeton? A: Green, Pink	Comment noted.
				Q: Which alignment(s) do you prefer in Farmersville? A: Green, Pink	Comment noted.
				Q: What is your interest in this study? A: Nearby resident	Comment noted.
				Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
				Q: Do you have any concerns with the existing US 380? A: Congestion and dangerous	Comment noted.
				Q: If US 380 is congested, what alternative routes do you take? A: Lake Forest, Ridge	Comment noted.
				Q: What solutions would you suggest in the US 380 Corridor? A: Make 380 into a highway	Comment noted.
				Q: Do you support the building of a freeway regardless of alignment? A: No	Comment noted.
				Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment	Comment noted.
				Q: Which alignment(s) do you prefer in McKinney? A: Green, Pink	Comment noted.
				Q: Which alignment(s) do you prefer in Princeton? A: Green, Pink	Comment noted.
				Q: Which alignment(s) do you prefer in Farmersville? A: Green, Pink	Comment noted.
				Q: What is your interest in this study? A: Collin County resident	Comment noted.
				Q: How often do you drive on the existing US 380? A: Weekly	Comment noted.
				Q: Do you have any concerns with the existing US 380? A: Increasingly crowded with commercial traffic	Comment noted.
				Q: If US 380 is congested, what alternative routes do you take? A: Virginia	Comment noted.
				Q: Do you support the building of a freeway regardless of alignment? A: No	Comment noted.
				Q: What solutions would you suggest in the US 380 Corridor? A: Widén 380, last option would be a loop much like the one north of Denton but ONLY if it left Erwin Park intact; Loop for commercial traffic such as the one north of Denton	Comment noted.
				Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment	Comment noted.
				Q: Which alignment(s) do you prefer in McKinney? A: Green	Comment noted.
570	Cathy Weatherly	5/10/2018	Electronic Survey	Q: Do you support the building of a freeway regardless of alignment? A: No	Comment noted.
571	Cecilia Hardin	5/7/2018	Electronic Survey	Comment noted. Alignment options are still being evaluated. The location of Erwin Park was taken into consideration when draft alignments were developed. None of the proposed alignments directly impact Erwin Park. The proposed blue alignment option is adjacent to the southern property line but does not cross into the park. Collin County Outer Loop is planned; however initial traffic analysis taking into account future population projections indicates that even with the construction of the Collin County Outer Loop and other planned roadway improvements within the study area, US 380 would still experience a failing level of service for congestion and delay.

				Q: Which alignment(s) do you prefer in Princeton? A:	No answer provided.
				Q: Which alignment(s) do you prefer in Farmersville? A:	No answer provided.
				Q: What is your interest in this study? A: Nearby resident	Comment noted.
				Q: How often do you drive on the existing US 380? A: Weekly	Comment noted.
				Q: Do you have any concerns with the existing US 380? A: I understand that we need alternate routes for the growing traffic in these areas that are exploding with new population - obviously 380 is already existing, but needs to keep up with traffic growth.	Comment noted.
				Q: If US 380 is congested, what alternative routes do you take? A: Depending on where I am going - I may sometimes go all the way to Sherman and take 82.	Comment noted.
				Q: What solutions would you suggest in the US 380 Corridor? A: I wish I had some solutions - there are just so many people moving in and all the new and growing business in the Frisco area.	Comment noted.
				Q: Do you support the building of a freeway regardless of alignment? A: I would like to understand more about the alignment in my area...Heritage Ranch in Fairview, I already have a gazillion planes and jets taking off above my head every day and into the night....I am very concerned about the noise of the airport and then a major freeway on top of that sending my property values down the drain.	Comment noted. A traffic noise analysis would be conducted during the environmental study stage of project development, after a preferred alignment has been identified and a schematic has been prepared. The study would be conducted in accordance with federal regulations and TxDOT's Guidelines for Analysis and Abatement of Roadway Traffic Noise. Based on the findings, noise abatement barriers would be proposed for locations that meet federal and TxDOT criteria in terms of noise reduction, cost and constructability. The results of the traffic noise study and the locations and characteristics of any proposed noise barriers would be shared with the community before preparing the final design.
				Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Yellow Alignment	Comment noted.
				Q: Which alignment(s) do you prefer in McKinney? A: Blue	Comment noted.
				Q: Which alignment(s) do you prefer in Princeton? A: Yellow	Comment noted.
				Q: Which alignment(s) do you prefer in Farmersville? A: Blue	Comment noted.
				Q: What is your interest in this study? A: Property Owner	Comment noted.
				Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
				Q: Do you have any concerns with the existing US 380? A: Too congested between Custer and Princeton	Comment noted.
				Q: If US 380 is congested, what alternative routes do you take? A: Wilmeth Road 94.3 to 164 to Lake Forest, and vice-versa	Comment noted.
				Q: What solutions would you suggest in the US 380 Corridor? A: Avoid impact to existing neighborhoods, Potential developments can always work around the corridor, existing homeowners cannot.	Any future improvement projects would include assessment of the potential impact on the human and natural environments.
				Q: Do you support the building of a freeway regardless of alignment? A: Yes	No answer provided.
				Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment, The Yellow Alignment	Comment noted.
				Q: Which alignment(s) do you prefer in McKinney? A: Green, Pink, Blue	Comment noted.

578	Chad Rowell	5/22/2018	Electronic Survey	<p>Q: Do you have any concerns with the existing US 380?</p> <p>A: Congestion during high traffic times</p> <p>Q: If US 380 is congested, what alternative routes do you take?</p> <p>A: New Hope Road, Monte Carlo</p> <p>Q: What solutions would you suggest in the US 380 Corridor?</p> <p>A: We need to provide better alternatives to US 380 in order to get to McKinney, Allen, or Anna from Princeton. I believe adding freeways or major highways in addition to the current 380 would be helpful. We need to lessen the traffic on 380, which may not be possible due to our growth, but I fear we will have major and worse issues on 380 if construction begins without valid alternatives during construction. If possible, I would suggest leaving 380 as it currently is, while you build alternative routes to and from Princeton, then after completion (if necessary), begin making adjustments to 380.</p> <p>Q: Do you support the building of a freeway regardless of alignment?</p> <p>A: No, if you convert 380 into a freeway I believe it would be disastrous for Princeton. There is too much already built up on 380 through Princeton to move forward with this. I support the building of a freeway if it takes a northern route where there is still open land.</p> <p>Q: If US 380 is constructed as a freeway, which alignment do you prefer?</p> <p>A: The Blue Alignment, The Red Alignment, The Yellow Alignment</p> <p>Q: Which alignment(s) do you prefer in McKinney?</p> <p>A: Blue</p> <p>Q: Which alignment(s) do you prefer in Princeton?</p> <p>A: Blue, Yellow</p> <p>Q: Which alignment(s) do you prefer in Farmersville?</p> <p>A: Green, Pink, Blue, Yellow</p> <p>Q: What is your interest in this study?</p> <p>A: Commuter, Property Owner, Nearby resident</p> <p>Q: How often do you drive on the existing US 380?</p> <p>A: Daily</p> <p>Q: Do you have any concerns with the existing US 380?</p> <p>A: yes Congestion</p> <p>Q: If US 380 is congested, what alternative routes do you take?</p> <p>A: 121</p> <p>Q: What solutions would you suggest in the US 380 Corridor?</p> <p>A: More lanes</p> <p>Q: Do you support the building of a freeway regardless of alignment?</p> <p>A: no, I support but not regardless of alignment</p> <p>Q: If US 380 is constructed as a freeway, which alignment do you prefer?</p> <p>A: The Green/Pink Alignment</p> <p>Q: Which alignment(s) do you prefer in McKinney?</p> <p>A: Green, Pink</p> <p>Q: Which alignment(s) do you prefer in Princeton?</p> <p>A: Green, Pink</p> <p>Q: Which alignment(s) do you prefer in Farmersville?</p> <p>A: Green, Pink</p> <p>Q: What is your interest in this study?</p> <p>A: Business Owner, Property Owner, Nearby Resident</p> <p>Q: How often do you drive on the existing US 380?</p> <p>A: Daily</p> <p>Q: Do you have any concerns with the existing US 380?</p> <p>A: I really have zero concerns with 380 and I drive on it daily. If it is backed up for some reason, I take Hwy 5, 121, or I-75. Too many stop lights.</p>	<p>Comment noted.</p> <p>Comment noted.</p> <p>Initial traffic analysis does show that travel times would likely be reduced should a freeway be constructed and traffic signals eliminated. However, if TxDOT opts to not move forward with constructing a freeway, we will continue to find ways to enhance safety and improve traffic flow. Staging of projects will be considered in future phases of project development.</p> <p>Comment noted. Alignment options are still being evaluated.</p> <p>Comment noted.</p>
579	Chad Taylor	5/16/2018	Electronic Survey	<p>Q: Do you have any concerns with the existing US 380?</p> <p>A: Daily</p>	Comment noted.

580	Chad Teague	5/8/2018	Electronic Survey	<p>Q: If US 380 is congested, what alternative routes do you take?  A: Hwy 5, 121, I-75</p> <p>Q: What solutions would you suggest in the US 380 Corridor?  A: I don't really see a problem with 380. Like any road, it gets a little congested at 5:00 pm, but not to the point that we need to put money into fixing a problem that doesn't exist. Have an overpass over 380 to bypass lights and congestion</p> <p>Q: Do you support the building of a freeway regardless of alignment?  A: I do not support building a freeway. According to the McKinney Chamber of Commerce, approximately 100,000 people leave McKinney every day to go south towards Dallas/Plano. Most of the solutions presented for 380, and 380 itself, go East to West where relatively very few people are traveling. I know there is growth to the north and east of McKinney; however, those individuals are going to be traveling north to south and not east to west. I have property and a business, La Cour Venue, along the red and yellow options. These options don't really seem to divert the flow of traffic at all in my opinion. They are simply bypassing McKinney altogether and not providing an efficient solution to what some people view as a problem. If 380 is not widened, people are still going to congest the area by going to those businesses. The red and yellow options would destroy my business; an event venue where patrons are seeking something outside of the city away from traffic and amongst the trees McKinney has built their reputation on all these years. No.</p> <p>Q: If US 380 is constructed as a freeway, which alignment do you prefer?  A: The Green/Pink Alignment</p> <p>Q: Which alignment(s) do you prefer in McKinney?  A: Green, Pink</p> <p>Q: Which alignment(s) do you prefer in Princeton?  A: Green, Pink</p> <p>Q: Which alignment(s) do you prefer in Farmersville? ## Comment Response Matrix

Commenter Name	Date Received	Source	Comment Topic	Response
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment, None, I Do Not Support Building a Freeway	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: None, I Do Not Support Building a Freeway	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A: None, I Do Not Support Building a Freeway	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville? A: None, I Do Not Support Building a Freeway	Comment noted.
			Q: What is your interest in this study? A: Property Owner, Nearby resident	Comment noted.
			Q: How often do you drive on the Existing US 380? A: Daily	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: excessive congestion	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A: Co 88 FM 423, FM 1461 Fish trap Rd., Preston Rd.	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A: More alternative routes	Comment noted.
			Q: Do you support the building of a freeway regardless of alignment? A: yes	Comment noted.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Red Alignment	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: Red	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A: Green	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville? A: Blue	Comment noted.
587	Charles Clark	5/11/2018 Paper Survey	The greenline wiper out Hilltop Storage & Hilltop Plaza & corner of Bridge Farm (Northeast) and my car lot at 4225 Hwy 380 north side north west corner of 380 & Bridge Farmer which is our also Hill Top Storage address 4169 E University Pkwy will take entry & office and possible 1 row of self storage.	Comment noted.
588	Charles Douglas	4/26/2018 Comment Form	Q: What is your interest in this study? A: Property Owner, Nearby resident	Comment noted.
			Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: Congested, no effective traffic controls upon entering, or exiting 380. Abnormal amount construction commercial trucks. Seems to be no speed control.	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A: No other way out of Tucker Hill.	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A: Develop a North Bait ByPass. Specifically at Tucker Hill. No alignments due to potential loss of homes and devaluation of our neighborhoods a whole. In the event, any freeway construction occurs on the existing 380 footprint adjacent to Tucker Hill, it must impose minimal right of way and noise pollution by means of cantilevered access lanes, a depressed through-way, and sound barriers. Also, if any bypass option is chosen, it must be located as far west of Tucker Hill as possible, west of future Stonebridge, not on property bordering Tucker Hill.	Comment noted. Any future improvement projects would include assessment of the potential impact on the human and natural environments.
589	Charles Henry	5/14/2018 Electronic Survey	Q: Do you support the building of a freeway regardless of alignment? A: No	Comment noted.

			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A:	No answer provided.
			Q: Which alignment(s) do you prefer in McKinney? A: I Do Not Support Building a Freeway	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A: I Do Not Support Building a Freeway	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville? A: I Do Not Support Building a Freeway	Comment noted.
			Q: What is your interest in this study? A: Nearby resident	Comment noted.
			Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: Too much traffic, no bypass	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A: Wilmeth to Hardin/Wilmeth to Hwy 5	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A: Finish out the Collin County "Outer Loop" to east side of Princeton, and to west side near 380 / Custer Rd	Comment noted.
			Q: Do you support the building of a freeway regardless of alignment? A: No	Comment noted.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: I Do Not Support Building a Freeway	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: I Do Not Support Building a Freeway	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A: I Do Not Support Building a Freeway	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville? A: I Do Not Support Building a Freeway	Comment noted.
			Q: What is your interest in this study? A: Property Owner	Comment noted.
			Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: Would support widening the highway along its current route.	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A:	No answer provided.
			Q: What solutions would you suggest in the US 380 Corridor? A: Widen the existing highway.	Comment noted.
			Q: Do you support the building of a freeway regardless of alignment? A: No. I would not support the building of more freeways through county roads/ farmland.	Comment noted.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: Green	Comment noted.
591	Charles Johnson	4/27/2018	Electronic Survey	

Commenter Name	Date Received	Source	Comment Topic	Response
			Q: Which alignment(s) do you prefer in Princeton? A: Green	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville? A: Green	Comment noted.
			Q: What is your interest in this study? A: Commuter, Property Owner	Comment noted.
			Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: Yes, it is congested; however, construction on 380 through McKinney would be a nightmare for years to come.	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A: Taylor Burke to 75 Service Road or Wilmette to Hwy 5	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A: Building the loop around McKinney to get some of the thru traffic off of 380	Comment noted.
			Q: Do you support the building of a freeway regardless of alignment? A: Not on 380 - By the time it is finished it would already be outdated.	Comment noted.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: I Do Not Support Building a Freeway	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: Blue	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A: Yellow	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville? A: Blue	Comment noted.
			Q: What is your interest in this study? A: Property Owner, Nearby resident	Comment noted.
			Q: How often do you drive on the existing US 380? A: A couple times a year	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: Dangerous and congested	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A: Virginia Pkwy or Eldorado	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A: No good solution for access route through the heart of McKinney	Comment noted.
			Q: Do you support the building of a freeway regardless of alignment? A: No	Comment noted.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Yellow Alignment	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A: None	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville? A:	No answer provided.

				Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
599	Charlette L Vitz	5/7/2018	Electronic Survey	Q: Do you have any concerns with the existing US 380? A: Yes. When Laude Howell was closed off it caused more traffic and more big trucks. With so many lights it is hard with all the big trucks slowing down traffic if they stop or light. Then you have other big truck not stopping going thru at high rate of speed. It also causes fast drivers to change in and out of lanes so they can go speed limit or faster. Another suggestion is no yielding on Stonebridge and 380. You only have so much time to get thru light turning off 380 to Stonebridge and when someone is making U-turn you almost rear-end or get re-ended from car behind you since you slow down so they can make u-turn. When you are on Stonebridge and you are turning right on 380 and you have to yield to people making u-turn it is so dangerous. Everyday I see a near miss.  Q: If US 380 is congested, what alternative routes do you take? A: I am going from Stonebridge to Highway 5 so any other route I would take like Virginia would have construction and traffic.  Q: What solutions would you suggest in the US 380 Corridor? A: I think it should go Preston and connect to Laude Howell to connect across to 75. I have lived off 380 for 20 plus years and it was not this bad until Laude Howell was closed off. Could Dallas tollway some how exit to 75. Maybe Preston or Cott	Initial traffic analysis does show that travel times would likely be reduced should a freeway be constructed and traffic signals eliminated. However, if TxDOT opts to not move forward with constructing a freeway, we will continue to find ways to enhance safety and improve traffic flow.  Comment noted. Alignment options are still being evaluated.
600	Charlie Phillips	4/26/2018	Electronic Survey	Q: Do you support the building of a freeway regardless of alignment? A: No... I live in Wren Creek and the noise from loud cars and big trucks echo all day and night. I wish there was a noise limit like there use to be on all vehicles. We also hear big trucks breaking at lights or down shifting. The walls on 380 that back up to our neighborhood do not make a difference so having a freeway would be worse.  Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: None, I Do Not Support Building a Freeway  Q: Which alignment(s) do you prefer in McKinney? A: None, I Do Not Support Building a Freeway  Q: Which alignment(s) do you prefer in Princeton? A:  Q: Which alignment(s) do you prefer in Farmersville? A:  Q: What is your interest in this study? A: Other (please specify), City Councilman At Large  Q: How often do you drive on the existing US 380? A: Weekly  Q: Do you have any concerns with the existing US 380? A: Traffic congestion  Q: If US 380 is congested, what alternative routes do you take? A: Virginia Parkway  Q: What solutions would you suggest in the US 380 Corridor? A: Build a second level of freeway as an expressway through McKinney so local traffic can access the lower level	Any future improvement projects would include assessment of the potential impact on the human and natural environments, including noise analysis and consideration of noise abatement measures, if warranted.  Comment noted.  Comment noted.  No answer provided.  Comment noted.  Comment noted.
				Q: What is your interest in this study? A: Nearby resident	No answer provided.  Comment noted.

			Q: Which alignment(s) do you prefer in Farmersville? A: Blue	Comment noted.
			Q: What is your interest in this study? A: Property Owner	Comment noted.
			Q: How often do you drive on the existing US 380? A: Weekly	Comment noted.
			Q: Do you have any concerns with the existing US 380? A:	No answer provided.
			Q: If US 380 is congested, what alternative routes do you take? A:	No answer provided.
			Q: What solutions would you suggest in the US 380 Corridor? A:	No answer provided.
613	Cheryl Russell	5/17/2018  Electronic Survey	Q: Do you support the building of a freeway regardless of alignment? A:  Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Blue Alignment, The Red Alignment, The Yellow Alignment  Q: Which alignment(s) do you prefer in McKinney? A: Red	No answer provided.  Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A: Blue	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville? A: Blue	Comment noted.
			Q: What is your interest in this study? A: Business Owner	Comment noted.
			Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: Traffic volume, although that is good for our business.	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A: Highway 5 or Custer	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A: I think a bypass to the north of 380 from Princeton to Denton would be a great solution, as long as the existing stretch of 380 is left alone. Construction is the greatest deterrent to business!	Comment noted. Alignment options are still being evaluated.
			Q: Do you support the building of a freeway regardless of alignment? A: I would like to see 380 as it exists now left alone, regardless of whether a freeway is added. Construction on our busy stretch of 380 would oblige some of the many businesses, just as it did when 75 was under construction.	Any future improvement projects would include assessment of the potential impact on the human and natural environments.
614	Chery Schmoyer	5/17/2018  Electronic Survey	Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Blue Alignment  Q: Which alignment(s) do you prefer in McKinney? A: Blue	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A: Blue	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville? A: Blue	Comment noted.
			Q: What is your interest in this study? A: Nearby resident	Comment noted.

617	Chris	5/9/2018	Electronic Survey	<p>Q: If US 380 is congested, what alternative routes do you take?</p> <p>A: Limited choices for moving East/West both for 380 and Collin county in general. I do whatever Waze tells me to do.</p> <p>Q: What solutions would you suggest in the US 380 Corridor?</p> <p>A: Whoever these Collin County "anti-toll" people are, they do not have a full understanding that the greater majority, often the silent majority, just want options to move. Congestion costs state taxpayers tens of millions of dollars annually, and TxDot needs every available option on the table for funding, building, and maintaining roads. That should include tolling where appropriate, and it is not always appropriate. However, to remove that option entirely is a mistake. The population can only grow so far north, and eastern Collin county is about to experience explosive growth. With that growth will come change. As to the people attempting to stand in the way of 380 expanding or realignment, get on board with the growth, it is inevitable. Plan and act accordingly.</p> <p>Q: Do you support the building of a freeway regardless of alignment?</p> <p>A: Unequivocally.</p> <p>Q: If US 380 is constructed as a freeway, which alignment do you prefer?</p> <p>A: The Green/Pink Alignment, The Blue Alignment</p> <p>Q: Which alignment(s) do you prefer in McKinney?</p> <p>A: Green, Pink, Blue</p> <p>Q: Which alignment(s) do you prefer in Princeton?</p> <p>A: Green, Blue</p> <p>Q: Which alignment(s) do you prefer in Farmersville?</p> <p>A: Green, Blue</p> <p>Q: What is your interest in this study?</p> <p>A: Nearby resident</p> <p>Q: How often do you drive on the existing US 380?</p> <p>A: Daily</p> <p>Q: Do you have any concerns with the existing US 380?</p> <p>A: No, its perfectly fine.</p> <p>Q: If US 380 is congested, what alternative routes do you take?</p> <p>A: I never take alternative routes.</p> <p>Q: What solutions would you suggest in the US 380 Corridor?</p> <p>A: None.</p> <p>Q: Do you support the building of a freeway regardless of alignment?</p> <p>A: No I do not.</p> <p>Q: If US 380 is constructed as a freeway, which alignment do you prefer?</p> <p>A: The Green/Pink Alignment</p> <p>Q: Which alignment(s) do you prefer in McKinney?</p> <p>A: Green, Pink</p> <p>Q: Which alignment(s) do you prefer in Farmersville?</p> <p>A: Green, Pink</p> <p>Q: What is your interest in this study?</p> <p>A: Nearby resident</p> <p>Q: How often do you drive on the existing US 380?</p> <p>A: A couple times a year</p> <p>Q: Do you have any concerns with the existing US 380?</p> <p>A:</p> <p>Q: If US 380 is congested, what alternative routes do you take?</p> <p>A:</p>	<p>Comment noted.</p> <p>Comment noted. ## Comment Response Matrix

Commenter Name	Date Received	Source	Comment Topic	Response
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: Green, Pink	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A: Green, Pink	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville? A: Green, Pink	Comment noted.
			Q: What is your interest in this study? A: Commuter, Property Owner, Nearby resident	Comment noted.
			Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: More development is going to drive more stoplights and traffic, which will greatly increase the time to drive it	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A: Virginia pkwy	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A:	No answer provided.
			Q: Do you support the building of a freeway regardless of alignment? A:	No answer provided.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Blue Alignment	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: Blue	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A: Blue	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville? A: Blue	Comment noted.
			Q: What is your interest in this study? A: Commuter, Nearby resident	Comment noted.
			Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: Existing issues are with the I-385 traffic light causing such a large back up all times of the day. I also have a concern about the new change to 380/423 EB with the traffic shift of 2 turn lanes, there is not adequate room to shift back to normal traffic lanes after the intersection.	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A: There are no options between Denton and DNT. Fishtrap is technically an option but often worse than 380	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A: The current plan appears to be a great option but by time it completes in 7 years with the current proposal, it could be too little too late? We do need more options north and south of 380 to ease local traffic. The lake impacts quite a bit obviously, but the lack of side roads connection east and west is an issue	Comment noted.
			Q: Do you support the building of a freeway regardless of alignment? A: I do support a freeway	Comment noted.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment, The Blue Alignment	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: Blue, Red	Comment noted.

Commenter Name	Date Received	Source	Comment Topic	Response
			Q: Which alignment(s) do you prefer in Princeton? A: Green, Blue	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville? A: None	Comment noted.
624	Chris Byford	4/26/2018 Comment Form	Blue and red options are terrible, please no! Yellow better than "blue and red" but not good.	Comment noted.
			Q: What is your interest in this study? A: Commuter, Nearby resident	Comment noted.
			Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: The congestion and safety of the highway are of most concern to myself and my family.	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A: sometimes take TX-78 to George Bush Turnpike or detour down different Collin County Roads.	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A: I think the highway needs to be realigned and make portions of the existing highway Business 380.	Comment noted.
			Q: Do you support the building of a freeway regardless of alignment? A: I am in support of a freeway, but not in its current alignment. Cities that are just now growing will have significant losses in homes and businesses. It could be detrimental to the economy.	Comment noted. Alignment options are still being evaluated.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Blue Alignment, The Yellow Alignment	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: Blue	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A: Blue, Yellow	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville? A: Blue, Yellow	Comment noted.
			Q: What is your interest in this study? A: Commuter, Property Owner, Nearby resident	Comment noted.
			Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: Due to the time of my usual commute, I don't experience the traffic too much on 380. However, I am aware that the traffic is a growing problem. My main issues are safety, congestion between Preston and the DNT and at the 75/380 interchange.	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A: There are no alternative routes when leaving my neighborhood. If I'm experiencing congestion at the DNT/380 interchange, I go south on Preston and then west on one of the main streets to get to the tollway. There aren't any good alternative routes to the north. If I experience congestion at 75/380 I cut through major streets to the north or south depending on where I am going. If you are going to Princeton or Denton (longer distances on 380), from McKinney, there really are not good alternative routes.	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A: My frustration is that it seems that we've waited too long to come up with a solution. Someone is going to be tremendously impacted by any of the routes I see. As I stated earlier in my comments, there are not ANY true alternate routes to the north due to the lack of development. I would like to see more options to the north to alleviate some of the traffic in addition to some by-passes or possibly a limited access freeway.	Comment noted. Alignment options are still being evaluated.
			Q: Do you support the building of a freeway regardless of alignment? A: Not necessarily. I see the need, but my neighborhood (Tucker Hill) will be ruined by some (maybe all) of the current proposed alignments. Many people in the neighborhood just purchased their homes to find about this only a few months after that purchase. Some of the alignments will ruin the amenity/community center and pool as well as recently developed commercial area.	Any future improvement projects would include assessment of the potential impact on the human and natural environments.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Blue Alignment	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: Blue, None, Do Not Support Building a Freeway	Comment noted.
625	Chris Calverley	5/13/2018 Electronic Survey		
626	Chris Clark	5/1/2018 Electronic Survey		

	Commenter Name	Date Received	Source	Comment Topic	Response
				Q: Which alignment(s) do you prefer in Princeton? A: Blue	Comment noted.
				Q: Which alignment(s) do you prefer in Farmersville? A: Blue	Comment noted.
				Q: What is your interest in this study? A: Business Owner, Property Owner	Comment noted.
				Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
				Q: Do you have any concerns with the existing US 380? A: It does get very congested at 75	Comment noted.
				Q: If US 380 is congested, what alternative routes do you take? A: Virginia or exit north	Comment noted.
				Q: What solutions would you suggest in the US 380 Corridor? A: A bypass would be fine as long as it doesn't interfere or infringe on Erwin Park	Comment noted. The location of Erwin Park was taken into consideration when draft alignments were developed. None of the proposed alignments directly impact Erwin Park.
627	Chris Curran	5/15/2018	Electronic Survey	Q: Do you support the building of a freeway regardless of alignment? A: Not at the expense of Erwin Park	The location of Erwin Park was taken into consideration when draft alignments were developed. None of the proposed alignments directly impact Erwin Park. The proposed blue alignment option is adjacent to the southern property line but does not cross into the park.
				Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment, The Red Alignment	Comment noted.
				Q: Which alignment(s) do you prefer in McKinney? A: Pink	Comment noted.
				Q: Which alignment(s) do you prefer in Princeton? A: Pink	Comment noted.
				Q: Which alignment(s) do you prefer in Farmersville? A: Pink	Comment noted.
				Q: What is your interest in this study? A: Nearby resident	Comment noted.
				Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
				Q: Do you have any concerns with the existing US 380? A: None at this time	Comment noted.
				Q: If US 380 is congested, what alternative routes do you take? A: White Ave which is very rarely traveled	Comment noted.
				Q: What solutions would you suggest in the US 380 Corridor? A: Limit growth to McKinney. Getting as big as you can is not healthy to a city. The future traffic and school problems can be limited by having responsible growth instead of this race to big numbers. Ask yourself why 300K ppl in McKinney is your goal. Really...ask yourself.	Comment noted.
				Q: Do you support the building of a freeway regardless of alignment? A: No	Comment noted.
628	Chris Davis	5/9/2018	Electronic Survey	Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment	Comment noted.
				Q: Which alignment(s) do you prefer in McKinney? A: Green	Comment noted.
				Q: Which alignment(s) do you prefer in Princeton? A: I Do Not Support Building a Freeway	Comment noted.
				Q: Which alignment(s) do you prefer in Farmersville? A: None	Comment noted.

	Commenter Name	Date Received	Source	Comment Topic	Response
				Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment	Comment noted.
				Q: Which alignment(s) do you prefer in McKinney? A: Green, Pink	Comment noted.
				Q: Which alignment(s) do you prefer in Princeton? A: Green, Pink	Comment noted.
				Q: Which alignment(s) do you prefer in Farmersville? A: Green, Pink	Comment noted.
				Q: What is your interest in this study? A: Nearby resident	Comment noted.
				Q: How often do you drive on the existing US 380? A: Weekly	Comment noted.
				Q: Do you have any concerns with the existing US 380? A: Congestion.	Comment noted.
				Q: If US 380 is congested, what alternative routes do you take? A: live north of 380, therefore I take an east/west route that is north of 380	Comment noted.
				Q: What solutions would you suggest in the US 380 Corridor? A: Improve the tertiary east/west options both North and South of 380.	Comment noted.
				Q: Do you support the building of a freeway regardless of alignment? A: No	Comment noted.
				Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment	Comment noted.
				Q: Which alignment(s) do you prefer in McKinney? A: Green, Pink	Comment noted.
				Q: Which alignment(s) do you prefer in Princeton? A: Green, Pink	Comment noted.
				Q: Which alignment(s) do you prefer in Farmersville? A: Green, Pink	Comment noted.
				Q: What is your interest in this study? A: Property Owner, Nearby resident	Comment noted.
				Q: How often do you drive on the existing US 380? A: Weekly	Comment noted.
				Q: Do you have any concerns with the existing US 380? A: Too many accidents	Comment noted.
				Q: If US 380 is congested, what alternative routes do you take? A: Virginia	Comment noted.
				Q: What solutions would you suggest in the US 380 Corridor? A: A by pass far north of current 380	Comment noted.
				Q: Do you support the building of a freeway regardless of alignment? A: No	Comment noted.
				Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: I Do Not Support Building a Freeway	Comment noted.
				Q: Which alignment(s) do you prefer in McKinney? A: I Do Not Support Building a Freeway	Comment noted.

## Comment Response Matrix

Commenter Name	Date Received	Source	Comment Topic	Response
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: Green, Pink	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A: Green, Pink	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville? A: Green, Pink	Comment noted.
			Q: What is your interest in this study? A: Business Owner	Comment noted.
			Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: Many safety problems with this road! And massive congestion at times for a road without any alternative without going 15 miles out of the way	Comment noted. Any improvements would be designed to improve safety.
			Q: If US 380 is congested, what alternative routes do you take? A: There are no good ones only for small sections of of	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A: A bypass from 1869 and 69 in Greenville just south of blue ridge to Weston road through prosper and tie in 35 over ray Roberts dann	Comment noted. Alignment options are still being evaluated.
647	Chris Russmann	4/29/2018	Electronic Survey	Q: Do you support the building of a freeway regardless of alignment? A: Yes
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: Blue, Red	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A: Blue, Yellow	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville? A: Blue	Comment noted.
			Q: What is your interest in this study? A: Commuter, Property Owner, Nearby resident	Comment noted.
			Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: High traffic intersections (380/Custer, 380/Lake Forrest, etc)	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A: Other secondary roads	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A: More bypass ramps similar to the one being constructed at 380/Preston	Comment noted.
			Q: Do you support the building of a freeway regardless of alignment? A: Yes	Comment noted.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment, The Yellow Alignment	Comment noted.
648	Chris Scherer	5/18/2018	Electronic Survey	Q: Which alignment(s) do you prefer in McKinney? A: Green

Commenter Name	Date Received	Source	Comment Topic	Response
			Q: Which alignment(s) do you prefer in Princeton? A: Yellow	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville? A: Yellow	Comment noted.
			Q: What is your interest in this study? A: Property Owner	Comment noted.
			Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: Yes, ongoing wrecks in front of our neighborhood.. Tucker Hill. Also, if expanded, noise & reduction in property value: Too many accidents at 380 & Tremont. Trucks run signal light & speeding	Comment noted. Any future improvement projects would include assessment of the potential impact on the human and natural environments. Enforcement of traffic laws is the responsibility of local police departments.
			Q: If US 380 is congested, what alternative routes do you take? A: Stonebridge, Custer, Lake Forest, Hardin, Ridge Rd	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A: Tucker Hill's position is NO to all alignments due to potential loss of homes and devaluation of our neighborhood as a whole and adverse environmental and health implications. Notwithstanding our recommendation, if any freeway construction occurs on the existing 380 footprint adjacent to Tucker Hill, it must impose minimal right-of-way and noise pollution by means of cantilevered access lanes; a depressed highway; and sound barriers. Also, if any bypass option is chosen, it must be located as far west of Tucker Hill as possible; west of future Stonebridge; not on or bordering Tucker Hill. Build Yellow illustrated route to Custer & NOT Stonebridge	Comment noted. Any future improvement projects would include assessment of the potential impact on the human and natural environments.
649	Chris Self	5/14/2018  Electronic Survey	Q: Do you support the building of a freeway regardless of alignment? A: NO	Comment noted.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: None, The Yellow Alignment	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: None	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A: None, Yellow	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville? A: None, Yellow	Comment noted.
			Q: What is your interest in this study? A: Property Owner	Comment noted.
			Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: No, currently it could use some relief at the Industrial and 380 interchange. A: None.	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A: None	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A: Relief from Industrial Rd to 75, especially at Industrial.	Comment noted.
650	Chris Shook	5/22/2018  Electronic Survey	Q: Do you support the building of a freeway regardless of alignment? A: No.	Comment noted.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: Green, Pink	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A: Green, Pink	Comment noted.

658	Christie Stanfield 5/16/2018	Electronic Survey	<p>Q: What is your interest in this study?</p> <p>A: Commuter, Nearby resident</p> <p>Q: How often do you drive on the existing US 380?</p> <p>A: Daily</p> <p>Q: Do you have any concerns with the existing US 380?</p> <p>A: No</p> <p>Q: If US 380 is congested, what alternative routes do you take?</p> <p>A: Virginia, White</p> <p>Q: What solutions would you suggest in the US 380 Corridor?</p> <p>A: By pass for those heading towards major freeways like 75. So much traffic those heading toward 75 or Tollway.</p> <p>Q: Do you support the building of a freeway regardless of alignment?</p> <p>A: Not happy more construction is being proposed considering 380 was just expanded. Should have done this before expanding 380. That would save tax payer money and frustration to commuters. Now it's proposed to potentially deconstruct and rebuild what was just completed.</p> <p>Q: If US 380 is constructed as a freeway, which alignment do you prefer?</p> <p>A: The Green/Pink Alignment</p> <p>Q: Which alignment(s) do you prefer in McKinney?</p> <p>A: Green, Pink</p> <p>Q: Which alignment(s) do you prefer in Princeton?</p> <p>A: Green, Pink</p> <p>Q: Which alignment(s) do you prefer in Farmersville?</p> <p>A: Commuter, Nearby resident</p> <p>Q: How often do you drive on the existing US 380?</p> <p>A: Daily</p> <p>Q: Do you have any concerns with the existing US 380?</p> <p>A: My only concern is the need for bigger turn lanes...or even double turn lanes. With cars turning off 380, it can back it up a bit as not all can get through with one green turn signal.</p> <p>Q: If US 380 is congested, what alternative routes do you take?</p> <p>A: When 380 is congested I take Lake Forest up to Virginia or Eldorado to cut across. I also sometimes take 123/Bloomdale but really 380 is not congested all the time... I just give myself more time knowing I could be stopped at lights on 380 when traveling that way.</p> <p>Q: What solutions would you suggest in the US 380 Corridor?</p> <p>A: I think 380 should be fixed ON 380. Adding another highway would take away homes- which is not necessary- and the lifestyle I want for my family as it would back up to my neighborhood (Heathenwood) and not ideal for my children to live so close to a freeway. The noise, traffic, and comment noted. Any future improvement projects would include assessment of the potential impact on the human and natural environments.</p>	<p>Comment noted.</p>

				<p>Q: Do you support the building of a freeway regardless of alignment?</p> <p>A: No. I think building 380 into more of a freeway is ok, but no additional freeway needed. The "bypass" won't give as much relief as more retail comes to McKinney...they will be stopping there anyway. Don't do anything additional just work on improving 380 ON 380. Pushing back.</p>	Comment noted.
				<p>Q: If US 380 is constructed as a freeway, which alignment do you prefer?</p> <p>A: The Green/Pink Alignment</p>	Comment noted.
				<p>Q: Which alignment(s) do you prefer in McKinney?</p> <p>A: Green, Pink</p>	Comment noted.
				<p>Q: Which alignment(s) do you prefer in Princeton?</p> <p>A: Green, Pink</p>	Comment noted.
				<p>Q: Which alignment(s) do you prefer in Farmersville?</p> <p>A: Green, Pink</p>	Comment noted.
				<p>Q: What is your interest in this study?</p> <p>A: Commuter, Nearby resident</p>	Comment noted.
				<p>Q: How often do you drive on the existing US 380?</p> <p>A: Daily</p>	Comment noted.
				<p>Q: Do you have any concerns with the existing US 380?</p> <p>A: Too congested</p>	Comment noted.
				<p>Q: If US 380 is congested, what alternative routes do you take?</p> <p>A: Drive through the city on Virginia or take Hwy 121</p>	Comment noted.
				<p>Q: What solutions would you suggest in the US 380 Corridor?</p> <p>A:</p>	No answer provided.
				<p>Q: Do you support the building of a freeway regardless of alignment?</p> <p>A: Noll!</p>	Comment noted.
				<p>Q: If US 380 is constructed as a freeway, which alignment do you prefer?</p> <p>A: I Do Not Support Building a Freeway</p>	Comment noted.
				<p>Q: Which alignment(s) do you prefer in McKinney?</p> <p>A: I Do Not Support Building a Freeway</p>	Comment noted.
				<p>Q: Which alignment(s) do you prefer in Princeton?</p> <p>A: I Do Not Support Building a Freeway</p>	Comment noted.
				<p>Q: Which alignment(s) do you prefer in Farmersville?</p> <p>A: I Do Not Support Building a Freeway</p>	Comment noted.
				<p>Q: What is your interest in this study?</p> <p>A: Property Owner, Nearby resident, Live in Tucker Hill</p>	Comment noted.
				<p>Q: How often do you drive on the existing US 380?</p> <p>A: Daily</p>	Comment noted.
				<p>Q: Do you have any concerns with the existing US 380?</p> <p>A: YES, To many trucks and the speed is too high!</p>	Comment noted.
				<p>Q: If US 380 is congested, what alternative routes do you take?</p> <p>A: We don't have any alternatives because we only have one entrance into Tucker Hill.</p>	Comment noted.
				<p>Q: What solutions would you suggest in the US 380 Corridor?</p> <p>A: Tucker Hill's position is NO to all alignments due to potential loss of homes and devaluation of our neighborhood as a whole and adverse environmental and health implications. Notwithstanding, our recommendation, if any freeway construction occurs on the existing 380 footprint adjacent to Tucker Hill, it must impose minimal right of way and noise pollution by means of cantilevered access lanes, a depressed through way, and sound barriers. Also, if any bypass option is chosen, it must be located as far west of Tucker Hill as possible; West of future Stonebridge, not on or bordering Tucker Hill.</p>	Comment noted. Any future improvement projects would include assessment of the potential impact on the human and natural environments.
				<p>Q: Do you support the building of a freeway regardless of alignment?</p> <p>A: NO</p>	Comment noted.

## Comment Response Matrix

	Commenter Name	Date Received	Source	Comment Topic	Response
				Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
				Q: Do you have any concerns with the existing US 380? A: There's too many lights which aren't synchronized or intelligent. Some days my commute is five minutes longer because I sit at red lights with absolutely no traffic.	Comment noted.
				Q: If US 380 is congested, what alternative routes do you take? A: Virginia Parkway	Comment noted.
				Q: What solutions would you suggest in the US 380 Corridor? A: Reduce red light intersections by going under them. Synchronize all red lights. Add sensors and tune them to minimize needless red light waiting.	Comment noted.
5/7/2018	Electronic Survey			Q: Do you support the building of a freeway regardless of alignment? A: No	Comment noted.
				Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment	Comment noted.
				Q: Which alignment(s) do you prefer in McKinney? A: Green, Pink	Comment noted.
				Q: Which alignment(s) do you prefer in Princeton? A: Green, Pink, Blue	Comment noted.
				Q: Which alignment(s) do you prefer in Farmersville? A: Green, Pink, Blue	Comment noted.
				Q: What is your interest in this study? A: Commuter, Property Owner, Nearby resident	Comment noted.
				Q: How often do you drive on the existing US 380? A: A couple times a year	Comment noted.
				Q: Do you have any concerns with the existing US 380? A: Yes, it's dangerous.	Comment noted.
				Q: If US 380 is congested, what alternative routes do you take? A: Stacy or SH121	Comment noted.
				Q: What solutions would you suggest in the US 380 Corridor? A: Freeway, or turn lanes to access local businesses along 380 between I-75 and Preston Rd. as well as a concrete median	Comment noted. TxDOT plans to construct a safety improvement project to add a raised median on US 380 from FM 827 to CR 985; this project will be letting for bids in August 2018, and construction is anticipated to begin during the fall of 2018.
5/15/2018	Christopher Bandy			Q: Do you support the building of a freeway regardless of alignment? A: Yes, I believe that will help for future growth in traffic and make 380 safer.	Comment noted.
				Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment, The Blue Alignment, The Red Alignment, The Yellow Alignment	Comment noted.
				Q: Which alignment(s) do you prefer in McKinney? A: Green, Pink	Comment noted.
				Q: Which alignment(s) do you prefer in Princeton? A:	No answer provided.
				Q: Which alignment(s) do you prefer in Farmersville? A:	No answer provided.
				Q: What is your interest in this study? A: Commuter, Property Owner, Nearby resident	Comment noted.
				Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
				Q: Do you have any concerns with the existing US 380? A: None right now. Too many stop lights in the future once traffic gets worse.	Comment noted.

Christopher Giese	5/10/2018	Electronic Survey	<p>Q: If US 380 is congested, what alternative routes do you take? A: El Dorado or Sam Rayburn Tollway</p> <p>Q: What solutions would you suggest in the US 380 Corridor? A: Build 380 to function similarly to Sam Rayburn Tollway but no tolls.</p> <p>Q: Do you support the building of a freeway regardless of alignment? A: No</p> <p>Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment</p> <p>Q: Which alignment(s) do you prefer in McKinney? A: Green, Pink</p> <p>Q: Which alignment(s) do you prefer in Princeton? A: Green, Pink</p> <p>Q: Which alignment(s) do you prefer in Farmersville? A: Green, Pink</p> <p>Q: What is your interest in this study? A: Commuter, Nearby resident</p> <p>Q: How often do you drive on the existing US 380? A: Daily, Weekly</p> <p>Q: Do you have any concerns with the existing US 380? A: No but y'all are coming with good ideas to reduce traffic and make good businesses succeed! Just no way into the new shopping complex on Preston, have to make a wrap around on Custer to inter, expected see an outstanding improvement over the next few years. Doing an amazing job bringing more businesses out there...just need to get the highway fixed! Awesome job getting a bridge over Custer and Dallas North Toll way, gonna be a big improvement!</p> <p>Q: If US 380 is congested, what alternative routes do you take? A: I take the main roads Custer independence Cott Preston or 720</p> <p>Q: What solutions would you suggest in the US 380 Corridor? A: Have two turn lanes for both sides and make more bridges on busy streets to reduce traffic, possibly make tunnels for miles to have more traffic. Make those toll roads to bring in more ideas and strategies. Should make 380 a toll way all the way through. Could also reduce alot of traffic, save lives, and alot of money in the long run. Have shorter lights to decrease back ups, make it even. Also depends on which light Preston and Custer last 3 seconds so not that short. Maybe a minute for each light make it worth the wait, but not too long. Also, do more green arrows for turn lanes, yell lights are a waste with consistent traffic. I waited 3 lights on Custer I was backed up so far.</p> <p>Q: Do you support the building of a freeway regardless of alignment? A: Yes</p> <p>Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment, The Blue Alignment, The Red Alignment</p> <p>Q: Which alignment(s) do you prefer in McKinney? A: Green, Pink, Blue, Red</p> <p>Q: Which alignment(s) do you prefer in Princeton? A: Blue</p> <p>Q: Which alignment(s) do you prefer in Farmersville? A: Green, Pink, Blue</p>	<p>Comment noted.</p>

## Comment Response Matrix

	Commenter Name	Date Received	Source	Comment Topic	Response
				Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: None, I Do Not Support Building a Freeway	Comment noted.
				Q: Which alignment(s) do you prefer in McKinney? A: None, I Do Not Support Building a Freeway	Comment noted.
				Q: Which alignment(s) do you prefer in Princeton? A: None, I Do Not Support Building a Freeway	Comment noted.
				Q: Which alignment(s) do you prefer in Farmersville? A: None, I Do Not Support Building a Freeway	Comment noted.
				Q: What is your interest in this study? A: Commuter, Nearby resident, parks and rec lover, trail runner	Comment noted.
				Q: How often do you drive on the Existing US 380? A: Weekly	Comment noted.
				Q: Do you have any concerns with the existing US 380? A: Not enough lanes from Denton Co to Collin Co., too many driveway entrances, not enough/lack of turn lanes, light cycles not coordinated, lack of alternative routes	Comment noted.
				Q: If US 380 is congested, what alternative routes do you take? A: To the south the only options are Eldorado or Virginia *If* you're able to make it to a north/south street to get off 380. to the north, there isn't any!	Comment noted.
				Q: What solutions would you suggest in the US 380 Corridor? A: 1st Street needs to be completed (and improved where needed) east beyond Custer and west all the way to FM 377! North/South feeders (ex: Teel) need to be built to allow traffic to flow through when 380 is blocked (Hello, 380/Tolway concrete barriers!!!) and provides a safer route for school buses - gets them off dangerous 380. 380 is a major east/west traffic mover. Local traffic needs alternative routes so that long distance travelers can move quickly through the region. (Even been in TXOU weekend 380 traffic? NIGHTMARE!) Also need limited access. Less like Preston Rd. and more like Hwy 82.	Comment noted.
				Q: Do you support the building of a freeway regardless of alignment? A: YES	Comment noted.
				Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment	Comment noted.
				Q: Which alignment(s) do you prefer in McKinney? A: Green, Pink	Comment noted.
				Q: Which alignment(s) do you prefer in Princeton? A: Green, Pink, Blue	Comment noted.
				Q: Which alignment(s) do you prefer in Farmersville? A: Green, Pink, Blue	Comment noted.
				Q: What is your interest in this study? A: Property Owner	Comment noted.
				Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
				Q: Do you have any concerns with the existing US 380? A: Yes, card are running the new red light put in.	Comment noted.
				Q: If US 380 is congested, what alternative routes do you take? A:	No answer provided.
				Q: What solutions would you suggest in the US 380 Corridor? A: Tucker Hill's position is NO to all alignments due to potential loss of homes and devaluation of our neighborhood as a whole and adverse environmental and health implications. Notwithstanding our recommendation, if any freeway construction occurs on the existing 380 footprint adjacent to Tucker Hill, it must impose minimal right-of-way and noise pollution by means of cantilevered access lanes; a depressed highway, and sound barriers. Also, if any bypass option is chosen, it must be located as far west of Tucker Hill as possible; west of future Stonebridge, not on or bordering Tucker Hill.	Comment noted. Any future improvement projects would include assessment of the potential impact on the human and natural environments.
				Q: Do you support the building of a freeway regardless of alignment? A: No	Comment noted.
688	Christy Bowers	5/14/2018	Electronic Survey

				Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: I Do Not Support Building a Freeway	Comment noted.
				Q: Which alignment(s) do you prefer in McKinney? A: I Do Not Support Building a Freeway	Comment noted.
				Q: Which alignment(s) do you prefer in Princeton? A: I Do Not Support Building a Freeway	Comment noted.
				Q: Which alignment(s) do you prefer in Farmersville? A: I Do Not Support Building a Freeway	Comment noted.
				Q: What is your interest in this study? A: Nearby resident	Comment noted.
				Q: How often do you drive on the existing US 380? A: Monthly	Comment noted.
				Q: Do you have any concerns with the existing US 380? A: Too many stoplights.	Comment noted.
				Q: If US 380 is congested, what alternative routes do you take? A: 121	Comment noted.
				Q: What solutions would you suggest in the US 380 Corridor? A: Tollway	Comment noted. Tolling is not being considered as a funding source for this project.
				Q: Do you support the building of a freeway regardless of alignment? A: No	Comment noted.
				Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment	Comment noted.
				Q: Which alignment(s) do you prefer in McKinney? A: Green, Pink	Comment noted.
				Q: Which alignment(s) do you prefer in Princeton? A: Green, Pink	Comment noted.
				Q: Which alignment(s) do you prefer in Farmersville? A: Green, Pink	Comment noted.
				Q: What is your interest in this study? A: Property Owner	Comment noted.
				Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
				Q: Do you have any concerns with the existing US 380? A: Yes,	Comment noted.
				Q: If US 380 is congested, what alternative routes do you take? A: There are none I know to take. I tough it out or stay home.	Comment noted.
				Q: What solutions would you suggest in the US 380 Corridor? A: From Airport Road through to Lake Laven bridge should be widened, fill the center left turn only lane into median with vegetation & mark designated, protected left turn lanes. An overhead freeway from Monte Carlo through Princeton with entrance/ exit ramps with service roads to connect to secondary farm roads. Or an outside freeway loop around through the north countryside.	Comment noted. Alignment options are still being evaluated.
				Q: Do you support the building of a freeway regardless of alignment? A: No. I live in Creekview across from Walmart and the situation is already impacting our neighborhood. I live on the west side & have been told for going on 6 years there was going to be a new road behind my house. If the proposals eliminating all the new businesses near us plus many of the houses on the south side of our development are enacted I would lose my home, my investment & that would make me very uneasy. Building a freeway which would displace homeowners is great numbers is a poor solution.	Any future improvement projects would include assessment of the potential impact on the human and natural environments.
				Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Blue Alignment, The Yellow Alignment	Comment noted.
691	Christy Wallace	5/5/2018	Electronic Survey		

Commenter Name	Date Received	Source	Comment Topic	Response
			Q: Which alignment(s) do you prefer in McKinney? A: Blue	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A: Blue, Yellow	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville? A: Blue	Comment noted.
			Q: What is your interest in this study? A: Commuter, Property Owner, Nearby resident	Comment noted.
			Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A: Eldorado or Preston.	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: The traffic lights can be long!	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A: No traffic lights.	Initial traffic analysis does show that travel times would likely be reduced should a freeway be constructed and traffic signals eliminated. However, if TxDOT opts to not move forward with constructing a freeway, we will continue to find ways to enhance safety and improve traffic flow.
			Q: Do you support the building of a freeway regardless of alignment? A: As long as it does not encroach in neighborhoods.	Comment noted.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: Green, Pink	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A: Green, Pink	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville? A: Green, Pink	Comment noted.
			Q: What is your interest in this study? A: Nearby resident	Comment noted.
			Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: Crowded, slow, dangerous, hard to get on/off near 75 & stores	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A: Wilmette to N Community White Hardin	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A: Make it a raised freeway with limited access. Keep current location DON'T destroy Erwin Park! That is a precious, irreplaceable resource	Comment noted. Alignment options and roadway configurations are still being evaluated. The location of Erwin Park was taken into consideration when draft alignments were developed. None of the proposed alignments directly impact Erwin Park. The proposed blue alignment option is adjacent to the southern property line but does not cross into the park.
693	5/9/2018	Electronic Survey	Q: Do you support the building of a freeway regardless of alignment? A: Not regardless, no. No blank slate but Yes, it needs to improve and it will cost \$	Comment noted.
693	5/9/2018	Electronic Survey	Q: If US 380 is constructed as a freeway, which alignment do you prefer? A:	No answer provided.
693	5/9/2018	Electronic Survey	Q: Which alignment(s) do you prefer in McKinney? A:	No answer provided.

			Q: Do you have any concerns with the existing US 380? A: The existing 380 is not engineered properly to handle traffic flow. It needs to be improved.	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A: White and El Dorado for east / west travel.	Comment noted.
703	Cindy Gamble	5/14/2018	Electronic Survey	Comment noted. Alignment options and roadway configurations are still being evaluated. Any future improvement projects would include assessment of the potential impact on the human and natural environments. Northern extensions of existing and future rail corridors are being evaluated by others; however, transit options are not included in the proposed project.  Initial traffic analysis taking into account future population projections indicates that even with the construction of the Collin County Outer Loop and other planned roadway improvements within the study area, US 380 would still experience a failing level of service for congestion and delay.
704	Cindy Hicks	5/6/2018	Electronic Survey	Q: What solutions would you suggest in the US 380 Corridor? A: 1) Focus on immediate progress on the Collin County Outer Loop. Otherwise we will end up land locked as development moves rapidly northward. 2) Focus on significant improvements to the current route of US 380. I do not in any way support the 380 bypass approach. Immediate focus should be on how to improve the current route for 380. Consider grade separated intersections, improved right of way, improved right turn and exit lanes, widening. 3) Consider mass transit options. 4) Consult with experts in dense urban settings regarding best practices for freeways and traffic flow. What can we learn from others that have gone before us successfully? 5) Consider impact not just on traffic / drivers. Also consider how to maintain the beauty of McKinney, avoid impact to current property owners, avoid negative environmental impacts.

Commenter Name	Date Received	Source	Comment Topic	Response
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A:	No answer provided.
			Q: Which alignment(s) do you prefer in Princeton? A: Green, Pink	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville? A:	No answer provided.
			Three of the proposed options north of Princeton affect our house and divides our property. My wife and I raises horses and over the 23 years have established a barn, fencing and pastures to meet our needs. No amount of money could get us to the same point was we are now in our seventies.	Comment noted. Any future improvement projects would include assessment of the potential impact on the human and natural environments.
			Q: What is your interest in this study? A: Property Owner	Comment noted.
			Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: Too much traffic adds to travel time.	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A: None.	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A: I would think a northern route that connects US 75 and US 78 that is a separate road from HWY 380 would allow the cross traffic between McKinney and points east.	Comment noted. Alignment options are still being evaluated.
			Q: Do you support the building of a freeway regardless of alignment? A: Not regardless of alignment because three of the proposed routes would destroy our home and make the remaining property totally useless as all access would be block-by-the-proposed-access-roads for the freeway.	Comment noted. Alignment options are still being evaluated.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A:	No answer provided.
			Q: Which alignment(s) do you prefer in Princeton? A: Green	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville? A:	No answer provided.
			Q: What is your interest in this study? A: Commuter, Nearby resident	Comment noted.
			Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: back up	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A: none unfortunately	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A: I am not sure	Comment noted.
			Q: Do you support the building of a freeway regardless of alignment? A: as long as it is NOT a tolway	Comment noted. Tolling is not being considered for the proposed project.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment, The Blue Alignment	Comment noted.

756	Corrie brock	4/28/2018	Electronic Survey	<p>Q: Which alignment(s) do you prefer in McKinney?</p> <p>A: Red</p> <p>Q: Which alignment(s) do you prefer in Princeton?</p> <p>A: Blue</p> <p>Q: Which alignment(s) do you prefer in Farmersville?</p> <p>A: Blue</p> <p>Q: What is your interest in this study?</p> <p>A: Nearby resident</p> <p>Q: How often do you drive on the existing US 380?</p> <p>A: Daily</p> <p>Q: Do you have any concerns with the existing US 380?</p> <p>A: Safety of drivers</p> <p>Q: If US 380 is congested, what alternative routes do you take?</p> <p>A: I go down lake forest or just continue on 380.</p> <p>Q: What solutions would you suggest in the US 380 Corridor?</p> <p>A: Widening 380 and not creating a bypass in my backyard. The people complaining about the traffic would not benefit from this bypass. It disrupts homes and lives and does not address the issues with 380. Widen it if possible so that people can still access what is needed off of these roads.....</p> <p>Q: Do you support the building of a freeway regardless of alignment?</p> <p>A: Absolutely not. The freeway would be directly behind my home and in my neighbors front yards. I understand growth, but utilize existing outlets and those like the outer loop to alleviate traffic. Cutting a route through neighborhoods and planned schools is not the best answer. We didn't build here to be disrupted by a freeway. There is no benefit to the citizens of McKinney to build this freeway here. Use the outer loop or widen 380. Leave it out of my backyard for the sake of my little children.</p> <p>Q: If US 380 is constructed as a freeway, which alignment do you prefer?</p> <p>A: I Do Not Support Building a Freeway</p> <p>Q: Which alignment(s) do you prefer in McKinney?</p> <p>A: I Do Not Support Building a Freeway</p> <p>Q: Which alignment(s) do you prefer in Princeton?</p> <p>A: I Do Not Support Building a Freeway</p> <p>Q: Which alignment(s) do you prefer in Farmersville?</p> <p>A: I Do Not Support Building a Freeway</p> <p>Q: What is your interest in this study?</p> <p>A: Commuter, Property Owner, Nearby resident</p> <p>Q: How often do you drive on the existing US 380?</p> <p>A: Daily</p> <p>Q: Do you have any concerns with the existing US 380?</p> <p>A: Yes</p> <p>Q: If US 380 is congested, what alternative routes do you take?</p> <p>A: First Street, Preston Road</p> <p>Q: What solutions would you suggest in the US 380 Corridor?</p> <p>A: Make it a Freeway with limited access</p> <p>Q: Do you support the building of a freeway regardless of alignment?</p> <p>A: Yes</p> <p>Q: If US 380 is constructed as a freeway, which alignment do you prefer?</p> <p>A: The Green/Pink Alignment</p> <p>Q: Which alignment(s) do you prefer in McKinney?</p> <p>A: Green, Pink</p>	<p>Comment noted.</p>

			Q: Which alignment(s) do you prefer in Princeton? A: Green, Pink	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville? A: Green, Pink	Comment noted.
			Q: What is your interest in this study? A: Property Owner, Nearby resident	Comment noted.
			Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: I don't mind 380 (in my area) as is, honestly. The McKinney portion of 380 is very drive-able! Towards Denton it can get squirrelly but otherwise a great road option.	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A: I don't - just leave earlier :)	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A:	No answer provided.
758	Cortnie Davis	5/13/2018  Electronic Survey	Q: Do you support the building of a freeway regardless of alignment? A: Homeowners should not be displaced to accommodate freeways.	Comment noted.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment, I Do Not Support Building a Freeway	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: Green, Pink	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A: Green, Pink	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville? A: Green, Pink	Comment noted.
			Q: What is your interest in this study? A: Property Owner, Nearby resident	Comment noted.
			Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: Yes, to many traffic light now, there use to be 3/4 traffic lights between Hwy 75 and Preston, now there is almost 3 times that number.	Initial traffic analysis does show that travel times would likely be reduced should a freeway be constructed and traffic signals eliminated. However, if TxDOT opts to not move forward with constructing a freeway, we will continue to find ways to enhance safety and improve traffic flow.
			Q: If US 380 is congested, what alternative routes do you take? A: TaylorBurke or Harden down to HWY 121	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A: More lanes with less traffic lights	Comment noted.
			Q: Do you support the building of a freeway regardless of alignment? A: no	Comment noted.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Blue Alignment, The Red Alignment	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: Blue	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A: Green, Pink	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville? A: Green, Pink	Comment noted.

			Q: Which alignment(s) do you prefer in McKinney? A: Green, Pink, I Do Not Support Building a Freeway	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A: I Do Not Support Building a Freeway	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville? A: I Do Not Support Building a Freeway	Comment noted.
			Q: What is your interest in this study? A: Nearby resident	Comment noted.
			Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: Too many commercial trucks.	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A: Virginia	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A: Have trucks and commercial vehicles not stopping between Custer and 75 make a mandatory turn onto Custer and then 121 back to 75.	Comment noted.
			Q: Do you support the building of a freeway regardless of alignment? A: No	Comment noted.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: None	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: None	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A: None	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville? A: None	Comment noted.
			Q: What is your interest in this study? A: Property Owner	Comment noted.
			Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: The speed limit is too high. People run red lights constantly and there have way too many traffic accidents at our entrance/exits.	Comment noted. Enforcement of traffic laws are the responsibility of local police departments.
			Q: If US 380 is congested, what alternative routes do you take? A: Lake forest, Custer, Stonebridge	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A: Tucker Hill's position is NO to all alignments due to potential loss of homes and devaluation of our neighborhood as a whole and adverse environmental and health implications. Notwithstanding our recommendation, if any freeway construction occurs on the existing 380 footprint adjacent to Tucker Hill, it must impose minimal right-of-way and noise pollution by means of cantilevered access lanes; a depressed throughway, and sound barriers. Also, if any bypass option is chosen, it must be located as far west of Tucker Hill as possible; west of future Stonebridge, not on or bordering Tucker Hill.	Comment noted. Any future improvement projects would include assessment of the potential impact on the human and natural environments.
			Q: Do you support the building of a freeway regardless of alignment? A: The freeway would support would be out further and coming at least from 75 to the tollway. One of the worst areas is through Prosper to the tollway and when this freeway dumps onto 380 east of the intersection of Custer and 380 it will be a nightmare. I think it would help to enlarge the width of some of the other east/west roads first as well as to take Stonebridge north of 380. Custer is proposed to widen and that should help people have other options. Just doesn't make any sense to have a bypass for the portion of 380 just for McKinney and not to North Dallas Tollway. The bottleneck where it is proposed to land at 380 will be unbearable. How is it Prosper can just say no?	Comment noted. Alignment options are still being evaluated.
781	Cynthia Hall Ashby	5/13/2018	Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: None	Comment noted.

	Commenter Name	Date Received	Source	Comment Topic	Response
				Q: What is your interest in this study? A: Property Owner, Nearby resident	Comment noted.
				Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
				Q: Do you have any concerns with the existing US 380? A: My concern is with the speed at which vehicles travel down this highway. It is congested at times, but what highway isn't. 380 is just as big as the DNT and other freeways in the area.	Comment noted. Enforcement of traffic laws is the responsibility of local police departments.
				Q: If US 380 is congested, what alternative routes do you take? A: I rarely take alternate route because 380 is congested. If I do take an alternate route I typically take Custer or the DNT (travel to Plano area).	Comment noted.
				Q: What solutions would you suggest in the US 380 Corridor? A: Make improvements to 380 and build routes north of 380 to reach other areas. DNT and Custer can be made larger to accomodate this. Also, if a bypass is needed it seems natural that the bypass run west of Tucker Hill/Stonebridge close to Custer road.	Comment noted.
	Damon Villar	5/15/2018	Electronic Survey	Q: Do you support the building of a freeway regardless of alignment? A: I do not support any of the alignments due to potential loss of homes and devaluation of our neighborhood as a whole and adverse environmental and health implications. If any freeway construction occurs on the existing 380 footprint adjacent to Tucker Hill, it must impose minimal right-of-way and noise pollution by means of cantilevered access lanes, a depressed throughway, and sound barriers. Also, if any bypass option is chosen, it must be located as far west of Tucker Hill as possible, west of Stonebridge and not on or bordering Tucker Hill.	Comment noted. Any future improvement projects would include assessment of the potential impact on the human and natural environments.
800				Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: None	Comment noted.
				Q: Which alignment(s) do you prefer in McKinney? A: None	Comment noted.
				Q: Which alignment(s) do you prefer in Princeton? A: None	Comment noted.
				Q: Which alignment(s) do you prefer in Farmersville? A: None	Comment noted.
			NA	Comment Form	Tucker Hill's position is NO to all alignments due to potential loss of homes and devaluation of our neighborhood as a whole and adverse environmental and health implications. Notwithstanding our recommendation, if any freeway construction occurs on the existing 380 footprint adjacent to Tucker Hill it must impose minimal right-of-way and noise pollution by means of cantilevered access lanes; a depressed throughway, and sound barriers. Also, if any bypass option is chosen, it must be located as far west of Tucker Hill as possible, west of future Stonebridge, not on or bordering Tucker Hill.
				Q: What is your interest in this study? A: Property Owner, Nearby resident	Comment noted. Any future improvement projects would include assessment of the potential impact on the human and natural environments.
				Q: How often do you drive on the existing US 380? A: Weekly	Comment noted.
				Q: Do you have any concerns with the existing US 380? A: traffic, better timing with the lights	Comment noted.
				Q: If US 380 is congested, what alternative routes do you take? A: backroads, Virginia	Comment noted.
				Q: What solutions would you suggest in the US 380 Corridor? A: Fix the lights	Comment noted.
801	dan doyle	5/14/2018	Electronic Survey	Q: Do you support the building of a freeway regardless of alignment? A: No	Comment noted.
				Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: I Do Not Support Building a Freeway	Comment noted.
				Q: Which alignment(s) do you prefer in McKinney? A: I Do Not Support Building a Freeway	Comment noted.
				Q: Which alignment(s) do you prefer in Princeton? A: I Do Not Support Building a Freeway	Comment noted.

Commenter Name	Date Received	Source	Comment Topic	Response
			Q: Which alignment(s) do you prefer in Farmersville? A: I Do Not Support Building a Freeway	Comment noted.
			Q: What is your interest in this study? A: Nearby resident	Comment noted.
			Q: How often do you drive on the existing US 380? A: Monthly	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: Yes	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A: 121	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A: Widen and put in a concrete divider	Comment noted.
802	5/14/2018	Electronic Survey	Q: Do you support the building of a freeway regardless of alignment? A: No, DO NOT destroy Erwin Park for a concrete freeway!!!! We are losing all access to nature. Collin county is wasting a resource.	The location of Erwin Park was taken into consideration when draft alignments were developed. None of the proposed alignments directly impact Erwin Park. The proposed blue alignment option is adjacent to the southern property line but does not cross into the park.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: Green, Pink	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A: Green, Pink	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville? A: Green, Pink	Comment noted.
			Q: What is your interest in this study? A: Commuter, Recreation	Comment noted.
			Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: Too many stoplights with no overpasses or way to smoothly avoid the lights at any given intersection.	Initial traffic analysis does show that travel times would likely be reduced should a freeway be constructed and traffic signals eliminated. However, if TxDOT opts to not move forward with constructing a freeway, we will continue to find ways to enhance safety and improve traffic flow.
			Q: What solutions would you suggest in the US 380 Corridor? A: Something similar to what was done at Spring Valley Road @ Highway 75 where through traffic bypasses the lights (sadly \$\$\$), keeping slower vehicles from using all lanes, or a bypass of McKinney presumably to the north.	Comment noted.
			Q: Do you support the building of a freeway regardless of alignment? A: I'm unsure. I would hate to destroy a quiet public use space for a freeway - at least without the comparable recreation of another.	Comment noted.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: Green, Pink	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A: Green, Pink	Comment noted.
			Q: What is your interest in this study? A: None	Comment noted.
			Q: What is your interest in this study? A: Commuter, Property Owner, Nearby resident	Comment noted.

Commenter Name	Date Received	Source	Comment Topic	Response
			Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: Yes, it is too congested and once you pass airport road going East if there is a wreck it is extremely difficult to make it to Princeton	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A: You can go through Lucas or go around New Hope	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A:	No answer provided.
804	Dan Smith	5/2/2018  Electronic Survey	Q: Do you support the building of a freeway regardless of alignment? A: YES	Comment noted.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Blue Alignment, The Red Alignment	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: Red	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A: Blue, Yellow	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville? A:	No answer provided.
			Q: What is your interest in this study? A: Property Owner, Nearby resident	Comment noted.
			Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: Yes, there are some congestion points and lack of bicycle lanes	Comment noted. Any new roadway improvements would consider the addition of bicycle and pedestrian accommodations.
			Q: If US 380 is congested, what alternative routes do you take? A: 54/3168/166/146/1 Preston or DNT	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A: outer loop at north end of Collin county - pull people north to go Hwy across vs coming south to 380	Comment noted.
			Q: Do you support the building of a freeway regardless of alignment? A: yes with the correct alignment	Comment noted.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment	Comment noted.

			Q: Which alignment(s) do you prefer in McKinney? A:	No answer provided.
			Q: Which alignment(s) do you prefer in Princeton? A:	No answer provided.
			Q: Which alignment(s) do you prefer in Farmersville? A:	No answer provided.
			Q: What is your interest in this study? A: Commuter, Employed in the area	Comment noted.
			Q: How often do you drive on the existing US 380? A: Weekly	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: Speed and congestion lead to some close calls with accidents because of the slow incoming and off-turning traffic as well as the limited use of medians	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A: I do not take any alternative routes as I do not know of any.	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A: Medians, more limited access like no driveways but still have turns on to streets	Comment noted.
			Q: Do you support the building of a freeway regardless of alignment? A: Yes, I believe something needs to be done as the community around grows	Comment noted.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Blue Alignment, The Yellow Alignment	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: Blue	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A: Blue, Yellow	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville? A: Blue, Yellow	Comment noted.
			Q: What is your interest in this study? A: Property Owner	Comment noted.
			Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: I believe the current US 380 speed limit should be reduced to 45 mph or less from 75 to Custer Road. I also believe large vehicles, trucks, hazardous vehicles should not be allowed to travel on this road. Speed limit needs to be lower, too many racks at traffic light and people speeding	Comment and suggestion to restrict select vehicle traffic noted.
			Q: What solutions would you suggest in the US 380 Corridor? A: I take the roads that go north and south, I believe that if these roads were improved as they are planned that this would help greatly in the congestion on 380; Virginia Parkway	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A: Tucker Hill's position is NO to all alignments due to potential loss of homes and devaluation of our neighborhood as a whole and adverse environmental and health implications. Notwithstanding our recommendation, if any freeway construction occurs on the existing 380 footprint adjacent to Tucker Hill, it must impose minimal right-of-way and noise pollution by means of cantilevered access lanes; a depressed roadway and sound barriers (walls/trees). Also, if any bypass option is chosen, it must be located as far west of Tucker Hill as possible; west of future Stonebridge; not on or bordering Tucker Hill. Build a highway further north by Melissa and Anna That would go all the way from 75 to the toll road. Do not let large trucks drive on 380, they cost so much.	Any future improvement projects would include assessment of the potential impact on the human and natural environments.
			Q: Do you support the building of a freeway regardless of alignment? A: No . I only support it if it is further north. Do not support it being on the other side of our neighborhood. I do not support Adding to 380	Comment noted.

			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: None, I Do Not Support Building a Freeway, The Blue Alignment	Comment noted.	
			Q: Which alignment(s) do you prefer in McKinney? A: None, I Do Not Support Building a Freeway, Blue	Comment noted.	
			Q: Which alignment(s) do you prefer in Princeton? A: None, I Do Not Support Building a Freeway, Blue	Comment noted.	
			Q: Which alignment(s) do you prefer in Farmersville? A: None, I Do Not Support Building a Freeway, Pink	Comment noted.	
		NA	Comment Form	Tucker Hill's position is NO to all alignments due to potential loss of homes and devaluation of our neighborhood as a whole and adverse environmental and health implications. Notwithstanding our recommendation, if any freeway construction occurs on the existing 380 footprint adjacent to Tucker Hill it must impose minimal right-of-way and noise pollution by means of cantilevered access lanes; depressed Stonebridge, not on or bordering Tucker Hill.	Comment noted. Any future improvement projects would include assessment of the potential impact on the human and natural environments.
			Q: What is your interest in this study? A: Property Owner, Nearby resident	Comment noted.	
			Q: How often do you drive on the existing US 380? A: Weekly	Comment noted.	
			Q: Do you have any concerns with the existing US 380? A: Yes, with the amount of lights and the current speed limits it creates an unsafe environment.	Comment noted.	
			Q: If US 380 is congested, what alternative routes do you take? A: 121, hwy5 or side streets.	Comment noted.	
			Q: What solutions would you suggest in the US 380 Corridor? A: Widen US 380 in its current route.	Comment noted.	
			Q: Do you support the building of a freeway regardless of alignment? A: No.	Comment noted.	
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A:	No answer provided.	
			Q: Which alignment(s) do you prefer in McKinney? A:	No answer provided.	
			Q: Which alignment(s) do you prefer in Princeton? A:	No answer provided.	
			Q: Which alignment(s) do you prefer in Farmersville? A:	No answer provided.	
			Q: What is your interest in this study? A: Commuter, Property Owner, Nearby resident	Comment noted.	
			Q: How often do you drive on the existing US 380? A: Daily	Comment noted.	
			Q: Do you have any concerns with the existing US 380? A: Turn lanes back up and stop traffic. All it needs is to be widened and have dedicated longer turn lanes	Comment noted. Alignment options are still being evaluated.	
			Q: If US 380 is congested, what alternative routes do you take? A: Virginia	Comment noted.	
			Q: What solutions would you suggest in the US 380 Corridor? A: Put the bypass miles north instead of putting a major highway in people's backyard and harming noise, air and light quality.	Comment noted.	
		Electronic Survey	Q: Do you support the building of a freeway regardless of alignment? A: Yes, but not in our backyards. Don't put our mortgage underwater	Comment noted.	
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment, The Yellow Alignment	Comment noted.

			Q: Which alignment(s) do you prefer in McKinney? A: Green, Pink	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A: Green, Pink	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville? A: Green, Pink	Comment noted.
			Q: What is your interest in this study? A: Commuter, Business Owner, Property Owner, Nearby resident	Comment noted.
			Q: How often do you drive on the Existing US 380? A: Daily	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: Way to crowded at Preston rd and 75 HWY.	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A: I normally go north at Hardin and cut over to 75.	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A: Make a by pass that is a little north. Like at 123rd and Lake Forest. Or make Frontier Parkway go all the way through to 75.	Comment noted. Alignment options are still being evaluated.
824	5/8/2018	Electronic Survey	Q: Do you support the building of a freeway regardless of alignment? A: Yea	Comment noted.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Blue Alignment	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: Blue	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A: Blue	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville? A: Blue	Comment noted.
			Q: How often do you drive on the Existing US 380? A: Weekly	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: Commuter, Property Owner, Nearby resident	Comment noted.
			Q: How often do you drive on the Existing US 380? A: Yes too congested. I drive out on the way to avoid it. Yes. Needs to be a freeway similar to Hwy 121.	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A: From my home I take wilmeth/back roads to 75 and the reverse to get home. 124 east bound to 161 to lake forest north to 164 east to 943 south to wilmeth east to 75. This is more miles, same amount of time, much less hassle. most of the congestion issues would be solved by building out wilmeth and bloomdale into 4-6 lanes from 75 and west.	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A: Make 380 similar to 121 and build out wilmeth bloomdale and roads north that flow east west to relieve congestion. turn 380 into a limited access freeway similar to 121 with high count of access lanes. build out wilmeth, custer, lake forest, bloomdale, and one additional road north of bloomdale into 4-6 lanes west of 75 to allow flow into growing population NW of 75/380. I do not want a bypass that destroys neighborhoods and the reason we moved to McKinney from Allen in the first place.	Comment noted.
5/14/2018	5/22/2018	Electronic Survey	Q: Do you support the building of a freeway regardless of alignment? A: No. - support expanding 380. No - I support the building of a freeway along the 380 current path, not through or next to my neighborhood. A: The Green/Pink Alignment	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: Green, Pink	Comment noted.

## Comment Response Matrix

## Comment Response Matrix

	Commenter Name	Date Received	Source	Comment Topic	Response
				Q: Do you support the building of a freeway regardless of alignment? A: No	Comment noted.
				Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: None	Comment noted.
				Q: Which alignment(s) do you prefer in McKinney? A: None	Comment noted.
				Q: Which alignment(s) do you prefer in Princeton? A: None	Comment noted.
				Q: Which alignment(s) do you prefer in Farmersville? A: None	Comment noted.
				Q: What is your interest in this study? A: Erwin park user	Comment noted.
				Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
				Q: Do you have any concerns with the existing US 380? A: Lights, too many cars	Comment noted.
				Q: If US 380 is congested, what alternative routes do you take? A: 121	Comment noted.
				Q: What solutions would you suggest in the US 380 Corridor? A: Not to invade Erwin park (it's beautiful and peaceful) and no place in the area like it., build to accommodate not the current growth but future.	The location of Erwin Park was taken into consideration when draft alignments were developed. None of the proposed alignments directly impact Erwin Park. The proposed blue alignment option is adjacent to the southern property line but does not cross into the park.
835	Darby Stewart	5/15/2018	Electronic Survey	Q: Do you support the building of a freeway regardless of alignment? A: Not near Erwin park. May be one further north with no lights	The location of Erwin Park was taken into consideration when draft alignments were developed. None of the proposed alignments directly impact Erwin Park. The proposed blue alignment option is adjacent to the southern property line but does not cross into the park.
				Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment	Comment noted.
				Q: Which alignment(s) do you prefer in McKinney? A: Green	Comment noted.
				Q: Which alignment(s) do you prefer in Princeton? A: Blue, None	Comment noted.
				Q: Which alignment(s) do you prefer in Farmersville? A: None	Comment noted.
				Q: What is your interest in this study? A: Property Owner	Comment noted.
				Q: How often do you drive on the existing US 380? A: Weekly	Comment noted.
				Q: Do you have any concerns with the existing US 380? A: Yes	Comment noted.
				Q: If US 380 is congested, what alternative routes do you take? A: Virginia	Comment noted.
				Q: What solutions would you suggest in the US 380 Corridor? A:	No answer provided.
	Darin Morse	5/16/2018	Electronic Survey	Q: Do you support the building of a freeway regardless of alignment? A: Yes	Comment noted.
836				Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Blue Alignment	Comment noted.

			Q: Which alignment(s) do you prefer in Farmersville? A: Blue	Comment noted.
Major Darion Culberson on behalf of Town of Fairview	5/18/2018	Letter	This letter serves as an official letter of opposition to the red route to Spur 399 East and South of the McKinney airport by the Town Council of the Town of Fairview, as acted upon at the Mat 1st, 2018 Town Council meeting. A unanimous vote was cast to oppose this portion of the red route for the following reasons:  This route potentially impacts two tracts of land owned by the Town highlighted in white, an 83-acre tract that is currently designated as a nature preserve in the town's master plan, and a 76-acre tract that is master planned for a soccer complex. Trails are planned on the 83-acre parcel and phase 1 of the soccer complex exists on a portion of the 76-acre tract.  Additionally, since this route is proposed within the Wilson Creek floodplain, the proposed roadway would require elevation. An elevated roadway would contribute noise pollution that currently does not exist to our residents on the south side of Wilson Creek. While we trust that the necessary environmental studies will be conducted, the impacts to the environment are also of concern. We are opposed to any portions of the red route North of the existing US 380 if they contribute to the necessity of this route south of the airport.	Comment noted. TxDOT will continue to work with Fairview to address concerns.
837			It's apparent that the need of Westbound US 380 traffic to connect to Spur 399, SH121 and US 75 are not contingent upon this southern red route, as demonstrated on all 4 of the other proposed routes. The red route around the airport to the east would add significant length and cost to the road that would not be incurred with the other 4 alternatives.  Neighboring towns, such as Fairview, should not be forced to bear the brunt of a lack of previous planning for the US 380 corridor. It appears that the airport is driving some of the routing decisions. A new elevated roadway south of the airport, in conjunction with the airport, would simply add to more quality of life issues for our residents.	Comment noted. TxDOT will continue to work with Fairview to address concerns.
Darla I Hopson	5/18/2018	Electronic Survey	Q: Thank you for your consideration of our concerns. A: Property Owner  Q: What is your interest in this study? A: Weekly, Daily, Monthly  Q: How often do you drive on the existing US 380? A: Elderado; North and South road, Custer and Lake Forest. I then get on Eldorado on Virginia for east bound.  Q: Do you have any concerns with the existing US 380? A: Speeding; Yes, it is too congested with big trucks making runs out of and to Denton. Passenger cars plus big trucks going to fast and both driving aggressive. Try to avoid it using any available alternative.  Q: If US 380 is congested, what alternative routes do you take? A: Elderado; North and South road, Custer and Lake Forest. I then get on Eldorado on Virginia for east bound.  Q: What solutions would you suggest in the US 380 Corridor? A: Widen and build overpasses at lighted intersections for through way traffic pls; would be happy to pay toll to save our northern neighborhoods and trees. We do need a solution. But not at the cost of raking people's homes and land away. Stop building houses where there are no roads to support the population. Greed caused this. Make 380 a double with the upper being a toll road or carry it far enough NORTH that people who just invested ALL their hard earned money into a new home or land that has been in their families for generations to build a road. I would have purchased in another town had I known this was coming. Speeds on 380 should be lowered and enforced with STEEP fines as a deterrent. I would gladly pay a toll fee to keep our home and beautiful surroundings. It's why we chose McKinney as our home.	Comment noted. Any future improvement projects would include assessment of the potential impact on the human and natural environments. Alignment options and roadway configurations are still being evaluated. Tolling is not being considered as an option for funding.
838			Q: Do you support the building of a freeway regardless of alignment? A: NO. The red and blue alignments will never be acceptable.	Comment noted.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment, None, Do Not Support Building a Freeway	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: Green, Pink, None, I Do Not Support Building a Freeway	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville? A: Green, Pink, None, I Do Not Support Building a Freeway	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville? A: Green, Pink, Blue, None, I Do Not Support Building a Freeway	Comment noted.

Commenter Name	Date Received	Source	Comment Topic	Response
			Against red & Blue! We are seniors, just moved in our last home. Pls!	Comment noted.
			Q: What is your interest in this study? A: Nearby resident	Comment noted.
			Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: Speed control especially truck traffic. Congestion at tollway and Preston as corridor develops	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A: Custer to I-21	Comment noted.
839	5/11/2018	Paper Survey	Q: What solutions would you suggest in the US 380 Corridor? A: The Dallas area is essentially a series of concentric loops. It would seem thru 380 corridor given the existing amount of development to treat the area between N Dallas Tollway and 75 as a freeway similar to Northwest Highway in Dallas. Buy ROW to the north in more rural part of county near Celina to build a limited access highway that can be returned to 380 east of 75 and west of N Dallas Tollway. Less intrusive to existing development, and fulfills primary goal of East/West access to N Dallas Tollway and lesser extent 75.	Comment noted. Alignment options are still being evaluated.
			Q: Do you support the building of a freeway regardless of alignment? A: No	Comment noted.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Blue Alignment	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: Blue, None	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A:	No answer provided.
			Q: Which alignment(s) do you prefer in Farmersville? A:	No answer provided.
			Q: Do you have any concerns with the existing US 380? A: Commuter	Comment noted.
			Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: Congestion and safety, primarily.	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A: There really aren't any alternatives, which is part of the problem. There needs to be more North-South routes. This would help with the congestion problems on 380	Comment noted.
		Electronic Survey	Q: What solutions would you suggest in the US 380 Corridor? A: 6 lanes with raised medians, like what has been done on the west side of McKinney from 75 to Preston Road	Comment noted.
840	4/26/2018		Q: Do you support the building of a freeway regardless of alignment? A: Again, I don't feel that a freeway is needed, if there were more north-south options	Comment noted.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: None	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: Green, Pink	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A: None	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville? A: Blue	Comment noted.

842	Darrell Hale	4/30/2018	Electronic Survey	<p>Q: What is your interest in this study? A: Commuter, Property Owner</p> <p>Q: How often do you drive on the existing US 380? A: Daily</p>	<p>Comment noted.</p> <p>Comment noted.</p>

	Commenter Name	Date Received	Source	Comment Topic	Response
843	Darren Thompson	5/4/2018	Electronic Survey	<p>Q: Do you have any concerns with the existing US 380?</p> <p>A: Extremely heavy at 75 intersection. Too many lights that do not seem to give long enough right away to main thoroughfare.</p> <p>Q: If US 380 is congested, what alternative routes do you take?</p> <p>A: Wilmett</p> <p>Q: What solutions would you suggest in the US 380 Corridor?</p> <p>A: Add a lane and elevate the intersections. It is the intersections that slow down everything and create much worse traffic. This would get results closer to an actual freeway without demolishing all the businesses or by doing a bypass which does the same to residential.</p> <p>Q: Do you support the building of a freeway regardless of alignment?</p> <p>A: No</p> <p>Q: If US 380 is constructed as a freeway, which alignment do you prefer?</p> <p>A: The Green/Pink Alignment</p> <p>Q: Which alignment(s) do you prefer in McKinney?</p> <p>A: Green, Pink, Red</p> <p>Q: Which alignment(s) do you prefer in Princeton?</p> <p>A: Green, Pink</p> <p>Q: Which alignment(s) do you prefer in Farmersville?</p> <p>A: Blue</p> <p>Q: What is your interest in this study?</p> <p>A: Property Owner</p> <p>Q: How often do you drive on the existing US 380?</p> <p>A: Daily</p> <p>Q: Do you have any concerns with the existing US 380?</p> <p>A: I worry about reduced quality of life and pollution as my house is very near Bloomdale Rd. I live in Robinson Ridge. I also worry about property values being greatly affected by the proposed bypass.</p> <p>Q: If US 380 is congested, what alternative routes do you take?</p> <p>A: I have never had an instance where I had to take an alternate route and I commute daily through 380. If I were to take one I'd take Lake Forest Dr.</p> <p>Q: What solutions would you suggest in the US 380 Corridor?</p> <p>A: Fix 380 ON 380. This will be the best alternative in long term as there will be greater economic opportunities for development along 380. You can't put a bandaid on the city of McKinney's lack of good planning 10-15 yrs ago. Doing these alignments on the proposed routes will affect MANY homeowners that chose these areas due to their rural feel and nice scenery. The alignments will end up feeding into 380 anyway which is your main bottleneck. It's just not fair at all for us property owners.</p> <p>Q: Do you support the building of a freeway regardless of alignment?</p> <p>A: I'm not that familiar with the freeway option so can't comment. I'm more concerned about the alignments.</p> <p>Q: If US 380 is constructed as a freeway, which alignment do you prefer?</p> <p>A: The Green/Pink Alignment</p> <p>Q: Which alignment(s) do you prefer in Farmersville?</p> <p>A: Green, Pink</p> <p>Q: Which alignment(s) do you prefer in Princeton?</p> <p>A: Green, Pink</p> <p>Q: What is your interest in this study?</p> <p>A: Commuter, Travel between US 75 and Prosper regularly</p> <p>Q: How often do you drive on the existing US 380?</p> <p>A: Weekly</p> <p>Q: Do you have any concerns with the existing US 380?</p> <p>A: Unsafe, congested at intersections, lack of sidewalks, no safe accommodations for bicycles, too many driveways and signals for a high speed highway.</p>	<p>Comment noted.</p> <p>Comment noted.</p> <p>Comment noted. Alignment options are still being evaluated.</p> <p>Comment noted.</p> <p>Any future improvements will be designed to enhance safety.</p>
844	Darryl Colon Garcia	5/7/2018	Electronic Survey	<p>Q: Do you have any concerns with the existing US 380?</p> <p>A: Unsafe, congested at intersections, lack of sidewalks, no safe accommodations for bicycles, too many driveways and signals for a high speed highway.</p>	

## Comment Response Matrix

845	Dave Carter	5/16/2018	Electronic Survey	<p>Q: If US 380 is congested, what alternative routes do you take?  A: There isn't a good alternative!</p> <p>Q: What solutions would you suggest in the US 380 Corridor?  A: Add elevated tolled express lanes - 2 or 3 in each direction for long distance travel. Build tax supported limited access main main lanes plus frontage roads with sidewalks/trails.</p> <p>Q: Do you support the building of a freeway regardless of alignment?  A: No. The freeway needs to stay along the existing alignment. That is the way it should have always been planned.</p> <p>Q: If US 380 is constructed as a freeway, which alignment do you prefer?  A:</p> <p>Q: Which alignment(s) do you prefer in McKinney?  A:</p> <p>Q: Which alignment(s) do you prefer in Princeton?  A:</p> <p>Q: Which alignment(s) do you prefer in Farmersville?  A:</p> <p>Q: What is your interest in this study?  A: Commuter, Nearby resident</p> <p>Q: How often do you drive on the existing US 380?  A: Daily</p> <p>Q: Do you have any concerns with the existing US 380?  A: Yes, heavily congested especially during peak hour traffic, lack of turning lanes into major intersecting streets and high accident rates</p> <p>Q: If US 380 is congested, what alternative routes do you take?  A: Virginia Parkway, Wilmeth Road</p> <p>Q: What solutions would you suggest in the US 380 Corridor?  A: Widen existing 380 corridor to accommodate a freeway section with frontage roads</p> <p>Q: Do you support the building of a freeway regardless of alignment?  A: Yes, but want on current alignment</p> <p>Q: If US 380 is constructed as a freeway, which alignment do you prefer?  A: The Green/Pink Alignment</p> <p>Q: Which alignment(s) do you prefer in McKinney?  A: Pink</p> <p>Q: Which alignment(s) do you prefer in Princeton?  A: Green</p> <p>Q: Which alignment(s) do you prefer in Farmersville?  A: Pink</p> <p>Q: What is your interest in this study?  A: Property Owner, Nearby resident</p> <p>Q: How often do you drive on the existing US 380?  A: Daily</p> <p>Q: Do you have any concerns with the existing US 380?  A: Yes - heavy congestion and daily accidents create a very driving environment</p> <p>Q: If US 380 is congested, what alternative routes do you take?  A: Virginia Parkway, Wilmeth Road</p> <p>Q: What solutions would you suggest in the US 380 Corridor? 	Commenter Name	Date Received	Source	Comment Topic	Response
				Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment, The Blue Alignment, The Red Alignment	Comment noted.
				Q: Which alignment(s) do you prefer in McKinney? A: Green, Pink, Blue	Comment noted.
				Q: Which alignment(s) do you prefer in Princeton? A: Green, Pink	Comment noted.
				Q: Which alignment(s) do you prefer in Farmersville? A: Green, Pink	Comment noted.
				Q: What is your interest in this study? A:	No answer provided.
				Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
				Q: Do you have any concerns with the existing US 380? A:	No answer provided.
				Q: If US 380 is congested, what alternative routes do you take? A:	No answer provided.
				Q: What solutions would you suggest in the US 380 Corridor? A:	No answer provided.
				Q: Do you support the building of a freeway regardless of alignment? A:	No answer provided.
				Q: What solutions would you suggest in the US 380 Corridor? A: The Green/Pink Alignment	Comment noted.
				Q: Which alignment(s) do you prefer in McKinney? A: Green, Pink	Comment noted.
				Q: Which alignment(s) do you prefer in Princeton? A: Green, Pink	Comment noted.
				Q: Which alignment(s) do you prefer in Farmersville? A: Green, Pink	Comment noted.
				like the pink or green. I drive 380 from McKinney to Greenville every day. This seems like the fastest way through for folks going a long distance i.e. not local.	Comment noted.
				Q: What is your interest in this study? A: Nearby resident	Comment noted.
				Q: How often do you drive on the existing US 380? A: Weekly	Comment noted.
				Q: Do you have any concerns with the existing US 380? A:	No answer provided.
				Q: If US 380 is congested, what alternative routes do you take? A: Virginia	Comment noted.
				Q: What solutions would you suggest in the US 380 Corridor? A: It's called growth zone the land accordingly	Comment noted. Zoning is determined by local municipalities.
				Q: Do you support the building of a freeway regardless of alignment? A: No	Comment noted.
				Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: I Do Not Support Building a Freeway	Comment noted.

			Q: Do you have any concerns with the existing US 380? A: Too many lights	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A: 121	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A: Make it Highway with frontage roads similar to 121, NO TOLLS	Comment noted.
862	5/1/2018	Electronic Survey	Q: Do you support the building of a freeway regardless of alignment? A: Yes	Comment noted.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment	Comment noted.

	Commenter Name	Date Received	Source	Comment Topic	Response
				Q: Which alignment(s) do you prefer in McKinney? A: Green	Comment noted.
				Q: Which alignment(s) do you prefer in Princeton? A: Green	Comment noted.
				Q: Which alignment(s) do you prefer in Farmersville? A: Green	Comment noted.
				Q: What is your interest in this study? A: Property Owner, Nearby resident	Comment noted.
				Q: How often do you drive on the Existing US 380? A: Daily	Comment noted.
				Q: Do you have any concerns with the existing US 380? A: Yes too much traffic; Congestion is bad	Comment noted.
				Q: If US 380 is congested, what alternative routes do you take? A:	No answer provided.
				Q: What solutions would you suggest in the US 380 Corridor? A: using the existing loop that is under development...land is already purchased and should be finished; Please take the route that least effects land owners north of 380	Comment noted. Alignment options are still being evaluated.
				Q: Do you support the building of a freeway regardless of alignment? A: Yes as long as it takes the route of effecting the least amount of land/home owners! Depends on which plan you adopt!	Comment noted.
				Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment, The Blue Alignment	Comment noted.
				Q: Which alignment(s) do you prefer in McKinney? A: Green, Pink, Blue	Comment noted.
				Q: Which alignment(s) do you prefer in Princeton? A: Green, Pink, Blue	Comment noted.
				Q: Which alignment(s) do you prefer in Farmersville? A: Green, Pink, Blue	Comment noted.
				Q: What is your interest in this study? A: Property Owner	Comment noted.
				Q: How often do you drive on the Existing US 380? A: Daily	Comment noted.
				Q: Do you have any concerns with the existing US 380? A: Yes, it's gotten very congested, especially where it intersects US 75.	Comment noted.
				Q: If US 380 is congested, what alternative routes do you take? A: If going East, I go via County Road 943.	Comment noted.
				Q: What solutions would you suggest in the US 380 Corridor? A: I would like to see 380 double decked, with the upper deck being for express/through traffic. It could start around Custer, go OVER 75, and then go back to surface highway past 5 (McDonald).	Comment noted. Alignment options are still being evaluated.
				Q: Do you support the building of a freeway regardless of alignment? A: Not regardless. Sorry, but it needs to make sense and affect residential areas minimally.	Comment noted.
				Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: None	Comment noted.
				Q: Which alignment(s) do you prefer in McKinney? A: None	Comment noted.
				Q: Which alignment(s) do you prefer in Princeton? A: None	Comment noted.
863	David Bruce	5/10/2018	Electronic Survey		
864	David Burgess	4/27/2018	Electronic Survey		

	Commenter Name	Date Received	Source	Comment Topic	Response
				Q: Which alignment(s) do you prefer in Farmersville?	Comment noted. A: None
				Q: What is your interest in this study?	Comment noted. A: Commuter, Nearby resident
				Q: How often do you drive on the existing US 380?	Comment noted. A: Daily
				Q: Do you have any concerns with the existing US 380?	Comment and suggestion for a flashing light has been noted. A: Traffic safety could be improved at Tremont and 380 by installing a flashing yellow warning light that would alert travelers to an upcoming red light. This would give them time to slow down and stop rather than trying to accelerate through a red light.
				Q: If US 380 is congested, what alternative routes do you take?	Comment noted. A: 380 is not congested when I use it.
				Q: What solutions would you suggest in the US 380 Corridor?	Comment and suggestions for improvements including a warning light at US 380 and Tremont noted. Any future improvement projects would include assessment of the potential impact on the human and natural environments. Alignment options and roadway configurations are still being evaluated. A: My position, consistent with Tucker Hill's position, is NO to all alignments due to the potential loss of homes and devaluation of our neighborhood as a whole and adverse environmental and health implications. While I support neither the expansion of 380 nor the addition of a bypass, I do recommend improving 380 by means such as grade-separated intersections, adaptive traffic signal control systems, increased and enhanced turn bays, improved on-site traffic circulation, and an upgraded US-75 interchange that could include roundabouts. Safety would also be improved at 380 and Tremont by installing a warning flashing yellow light ahead of the intersection, (Notwithstanding my recommendation, if any freeway construction occurs on the existing 380 footprint adjacent to Tucker Hill, it must impose minimal right-of-way and noise pollution by means of cantilevered access lanes, a depressed highway, and landscaped sound barriers. Adverse impacts on existing homes and home values are not acceptable. Ingress/egress off of Stonebridge would be required first. Also, notwithstanding my recommendation, I fully bypass occurs, it must be located as far west of Tucker Hill as possible; and neither on nor bordering Tucker Hill).
				Q: Do you support the building of a freeway regardless of alignment?	Comment noted. A: No. NONE of the existing alignment proposals is acceptable. If a freeway is to be constructed, it must be done as a bypass in the immediate vicinity of Custer Road.
				Q: If US 380 is constructed as a freeway, which alignment do you prefer?	Comment noted. A: None, I Do Not Support Building a Freeway
				Q: Which alignment(s) do you prefer in McKinney?	Comment noted. A: None, I Do Not Support Building a Freeway
				Q: Which alignment(s) do you prefer in Princeton?	Comment noted. A: None, I Do Not Support Building a Freeway
				Q: Which alignment(s) do you prefer in Farmersville?	Comment noted. A: None, I Do Not Support Building a Freeway
					Comment noted. Any future improvement projects would include assessment of the potential impact on the human and natural environments. Tucker Hill's position is NO to all alignments due to potential loss of homes and devaluation of our neighborhood as a whole and adverse environmental and health implications. Notwithstanding our recommendation, if any freeway construction occurs on the existing 380 footprint adjacent to Tucker Hill, it must impose minimal right-of-way and noise pollution by means of cantilevered access lanes; a depressed highway, and sound barriers. Also, if any bypass option is chosen, it must be located as far west of Tucker Hill as possible; west of future Stonebridge, not on or bordering Tucker Hill.
					Comment noted. Any future improvement projects would include assessment of the potential impact on the human and natural environments. Tucker Hill's position is NO to all alignments due to potential loss of homes and devaluation of our neighborhood as a whole and adverse environmental and health implications. Notwithstanding our recommendation, if any freeway construction occurs on the existing 380 footprint adjacent to Tucker Hill, it must impose minimal right-of-way and noise pollution by means of cantilevered access lanes; a depressed highway, and sound barriers. Also, if any bypass option is chosen, it must be located as far west of Tucker Hill as possible; west of future Stonebridge, not on or bordering Tucker Hill.
				Q: What is your interest in this study?	Comment noted. A: Property Owner
				Q: How often do you drive on the existing US 380?	Comment noted. A: No
				Q: Do you have any concerns with the existing US 380?	Comment noted. A: South on Custer to 121
				Q: What solutions would you suggest in the US 380 Corridor?	Comment noted. A: If it must be expanded then widen 380. Don't do bypass North.

## Comment Response Matrix

Commenter Name	Date Received	Source	Comment Topic	Response
	Survey		Q: Do you support the building of a freeway regardless of alignment? A: No	Comment noted.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: Green, Pink	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A: Green, Pink	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville? A: Green, Pink	Comment noted.
			Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: Yes of course. And Txbot is already proposing to widen Hwy 380 from FM 1827 to CR 985.	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A: The locals have taken this route for years and the police department deports traffic this way when there is an accident on Hwy 380. From Hwy 380 turn on CR 337, then CR 407 through Monte Carlo Blvd. continue on CR 464 and FM 1377 to CR 496, then CR 561 and onto CR 559 at the bridge on Hwy 380.	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A: I would suggest another route outside the 380 corridor. There is an alternate route just north of all the cities involved in this study that could run from east county line to west county line. This route is predominately a rural sector of Collin County which goes through open, undeveloped areas. Due to the fact that it is undeveloped, it would be less disruptive and catastrophic to the public as a whole, with much less disruption of homeowners and business owners. It would definitely have less significant impact than the proposed improvement plan. The construction of a major freeway in this rural section north of Hwy 380 would obviously allow for faster completion of the project with less public disruptions and inconveniences. The freeway could handle more traffic, offer a smoother flow of traffic, decrease hours of travel and hours of congestion delay. And it would of course alleviate the congestion of Hwy 380 which is the main concern and goal. Trying to reconstruct and widen a roadway into a major freeway in already highly populated, developed areas with just one very congested roadway to travel from McKinney to Farmersville is in my mind ludicrous. We know the area is exploding with growth and our roadways are congested, crowded and insufficient. These proposed improvements offered by Txbot are at best lacking and do not address the broader future vision. A major freeway that goes from east county line to west county line would surely be adequate, sufficient, and relieve other roadways as well. It would certainly meet the future transportation needs of Collin County as a whole.	Comment noted. Alignment options are still being evaluated.
			Q: Do you support the building of a freeway regardless of alignment? A: Do not support a major freeway in the 380 Corridor regardless of alignment. There is a better alternative. One that has less significant impact and will better meet the future transportation needs of Collin County as a whole.	Comment noted.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: None	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: None	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A: None	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville? A: None	Comment noted.
			Q: What is your interest in this study? A: Property Owner	Comment noted.
			Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: Yes the speed limit is too high through existing residential & commercial zones and truck traffic is too heavy through the same zones.	Comment noted.

Commenter Name	Date Received	Source	Comment Topic	Response
868 David Cota	5/11/2018	Electronic Survey	<p>Q: If US 380 is congested, what alternative routes do you take?  A: It depends on whether I'm traveling north or using 380 locally. Since I live on 380 alternatives for local usage are limited. If I'm going out of town and traveling north, I will take 289 north to Hwy 82 instead of using 380.</p> <p>Q: What solutions would you suggest in the US 380 Corridor?  A: Create an outer loop primarily for truck traffic and east/west traffic from 75 to 35 far enough north and west of Tucker Hill so as not to impact our development. No existing residential developments or businesses along 380 should be impacted. Since 380 from 75 to 35 has developed into a residential/commercial zone over the past 20 years, it is important to push east/west &amp; heavy truck traffic north of this zone. This will then allow the speed limit to be reduced to 50 mph for safety reasons.</p> <p>Q: Do you support the building of a freeway regardless of alignment?  A: No</p> <p>Q: If US 380 is constructed as a freeway, which alignment do you prefer?  A: I Do Not Support Building a Freeway</p> <p>Q: Which alignment(s) do you prefer in McKinney?  A: I Do Not Support Building a Freeway</p> <p>Q: Which alignment(s) do you prefer in Princeton?  A: I Do Not Support Building a Freeway</p> <p>Q: Which alignment(s) do you prefer in Farmersville?  A: I Do Not Support Building a Freeway</p> <p>As a resident of Tucker Hill I am opposed to all current alignments due to potential loss of homes and devaluation of our neighborhood as a whole and adverse environmental &amp; health implications. If any freeway construction occurs on the existing 380 footprint adjacent to Tucker Hill, it must impose minimal right-of-way &amp; noise pollution by means of cantilevered access lanes, a depressed highway; and sound barriers. Also, if any bypass option is chosen, it must be located as far west of Tucker Hill as possible; west of future stonebridge parkway, not on or bordering Tucker Hill.</p> <p>Q: What is your interest in this study?  A: Property Owner, Nearby resident</p> <p>Q: How often do you drive on the existing US 380?  A: Daily</p> <p>Q: Do you have any concerns with the existing US 380?  A: Congestion of 380 continues to increase and alternate solutions will be required</p> <p>Q: If US 380 is congested what alternative routes do you take?  A: None, 380 is my only option</p> <p>Q: What solutions would you suggest in the US 380 Corridor?  A: A by-pass that offloads traffic prior to Custer and routes thru traffic to the north</p> <p>Q: Do you support the building of a freeway regardless of alignment?  A: No freeway along existing 380. Freeway ok on north bypass</p> <p>Q: If US 380 is constructed as a freeway, which alignment do you prefer?  A: The Blue Alignment, I Do Not Support Building a Freeway</p> <p>Q: Which alignment(s) do you prefer in McKinney?  A: Blue, Red</p> <p>Q: Which alignment(s) do you prefer in Princeton?  A: Blue</p> <p>Q: Which alignment(s) do you prefer in Farmersville?  A: Green, Pink, Blue</p> <p>Q: What is your interest in this study?  A: Commuter, Business Owner, Property Owner, Nearby resident</p> <p>Q: How often do you drive on the existing US 380?  A: Daily</p> <p>Q: Do you have any concerns with the existing US 380?  A: Yes, high traffic volume</p>	<p>Any future improvement projects would include assessment of the potential impact on the human and natural environments.</p> <p>Comment noted.</p>

876	David Gunnels	5/7/2018 Electronic Survey	The Red option is the worst for existing neighborhoods and should NOT be chosen.	Comment noted. Any future improvement projects would include assessment of the potential impact on the human and natural environments.
877	David Hawkins	4/26/2018 Comment Form	Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: 380 is unsafe outside of Tucker Hill as currently implemented. A flashing warning light ahead of the stop light would help to alert drivers that they will need to slow down and stop.	Any future improvements will be designed to enhance safety. Suggestion for a flashing light has been noted.
			Q: If US 380 is congested, what alternative routes do you take? A: It is not congested when we use it.	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A: Note: Having had time for further in-depth review of all options, I am hereby amending my previous survey votes. My position, consistent with Tucker Hill's position, is NO to all alignments due to the potential loss of homes and devaluation of our neighborhood as a whole and adverse environmental and health implications. While I support neither the expansion of 380 nor the addition of a bypass, I do recommend improving 380 by means such as grade-separated intersections, adaptive traffic signal control systems, increased and enhanced turn bays, improved on-site traffic circulation, and an upgraded US-75 interchange that could include roundabouts. Safety would also be improved at 380 and Trenton by installing a warning flashing yellow light ahead of the stoplight to alert travelers to the need to come to an upcoming stop (rather than speeding up through the intersection). Notwithstanding my recommendation, if any freeway construction occurs on the existing 380 footprint adjacent to Tucker Hill, it must impose minimal right-of-way and noise pollution by means of cantilevered access lanes; a depressed thoroughway; and landscaped sound barriers. Adverse impacts on existing homes and home values are not acceptable.	Comment noted. Any future improvement projects would include assessment of the potential impact on the human and natural environments.
878	David J Johnson	5/13/2018 Electronic Survey	Q: Do you support the building of a freeway regardless of alignment? A: No. NONE of the existing proposed alignments is acceptable. A different alignment (e.g., a bypass at Custer Road) would be needed in order to implement a freeway solution.	Comment noted.

Commenter Name	Date Received	Source	Comment Topic	Response
			<p>Q: If US 380 is constructed as a freeway, which alignment do you prefer?  A: None, I Do Not Support Building a Freeway</p> <p>Q: Which alignment(s) do you prefer in McKinney?  A: None, I Do Not Support Building a Freeway</p> <p>Q: Which alignment(s) do you prefer in Princeton?  A: None, I Do Not Support Building a Freeway</p> <p>Q: Which alignment(s) do you prefer in Farmersville?  A: None, I Do Not Support Building a Freeway</p>	Comment and alignment suggestion noted.
			<p>Q: What alignment(s) do you prefer in Tucker Hill?  A: None, I Do Not Support Building a Freeway</p> <p>We just bought a new home in Tucker Hill. Any alignment that widens the existing 380 and cuts into the Tucker Hill neighborhood is completely unacceptable. An option such as the "blue alignment" that does not disturb Tucker Hill is the only viable choice. Tucker Hill is the crown jewel of McKinney and it must be protected.</p>	Comment noted.
			<p>Q: What is your interest in this study?  A: Commuter, Nearby resident</p> <p>Q: How often do you drive on the existing US 380?  A: Weekly</p> <p>Q: Do you have any concerns with the existing US 380?  A: The speed of the traffic for the amount of new businesses that are being built. The traffic buildup around 380/75, 380/Preston, 380/Tollway, 380 between FM23 and FM720.</p> <p>Q: If US 380 is congested, what alternative routes do you take?  A: There isn't a good way. I just deal with the traffic.</p> <p>Q: What solutions would you suggest in the US 380 Corridor?  A: Northern loop between McKinney (75) and Denton (288).</p> <p>Q: Do you support the building of a freeway regardless of alignment?  A: Absolutely</p>	Comment noted.
879	David J McGill	5/15/2018	<p>Q: If US 380 is constructed as a freeway, which alignment do you prefer?  A: The Blue Alignment, The Yellow Alignment</p> <p>Q: Which alignment(s) do you prefer in McKinney?  A: Blue</p> <p>Q: Which alignment(s) do you prefer in Princeton?  A: Yellow</p> <p>Q: Which alignment(s) do you prefer in Farmersville?  A: Yellow</p> <p>Q: What is your interest in this study?  A: Other (please specify). Property owner and nearby resident (Tucker Hill)</p> <p>Q: How often do you drive on the existing US 380?  A: Daily</p> <p>Q: Do you have any concerns with the existing US 380?  A: Yes, the road is too fast, too noisy, and too busy passing by Tucker Hill.</p> <p>Q: If US 380 is congested, what alternative routes do you take?  A: We have no alternatives into our neighborhood.</p>	Comment noted.
880	David Johnson	4/26/2018	<p>Q: What solutions would you suggest in the US 380 Corridor?  A: What must NOT happen is for the existing 380 to be widened, thereby cutting into the crown jewels of McKinney (Tucker Hill). The neighborhood would be destroyed. The place we chose to live out our last years would be decimated. The only option is to use the blue alignment or yellow alignment, provided it does not cut into Tucker Hill.</p> <p>Q: Do you support the building of a freeway regardless of alignment?  A: Absolutely not. Only the blue alignment is acceptable (or yellow alignment, provided it does not cut into Tucker Hill). With that, the existing 380 road should be restricted for certain trucks and should have its speed limit reduced. There are many, many accidents at the intersection of Tremont and 380. We chose to move to Tucker Hill because it was so remarkably beautiful. The widening of 380 in any way that cuts into the Tucker Hill neighborhood is a non-starter.</p>	Comment noted. Any future improvement projects would include assessment of the potential impact on the human and natural environments.

				Q: Which alignment(s) do you prefer in Princeton? A: None	Comment noted.
				Q: Which alignment(s) do you prefer in Farmersville? A: None	Comment noted.
				Q: What is your interest in this study? A: Property Owner	Comment noted.
				Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
				Q: Do you have any concerns with the existing US 380? A: Noise in back yard semi trucks coming through our fence	Comment noted.
				Q: If US 380 is congested, what alternative routes do you take? A: White, Ridge, El dorado, Virginia	Comment noted.
				Q: What solutions would you suggest in the US 380 Corridor? A: Freeway, where we live in Kensington our backyard is on 380 and we dont even have a turn in lane there are wrecks 2 to 3 times a day something has got to be done	Comment noted. Any future improvement projects would be designed to enhance safety.
				Q: Do you support the building of a freeway regardless of alignment? A: Yes	Comment noted.
				Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment	Comment noted.
				Q: Which alignment(s) do you prefer in McKinney? A: Green, Pink	Comment noted.
				Q: Which alignment(s) do you prefer in Princeton? A: None	Comment noted.
				Q: Which alignment(s) do you prefer in Farmersville? A: None	Comment noted.
				Q: What is your interest in this study? A: Nearby resident	Comment noted.
				Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
				Q: Do you have any concerns with the existing US 380? A: No - Leave as is..... seems to flow fine.	Comment noted.
				Q: If US 380 is congested, what alternative routes do you take? A: I have rarely seen it congested except at 75. Have used Wilmethe or Bloomdale Roads when I know 75/380 might be congested.	Comment noted.
				Q: What solutions would you suggest in the US 380 Corridor? A: More left/right turn lanes into business and neighborhoods on 380. Also should look to build alternate/parallel routes to the north at Frontier Parkway or Bloomdale Road.	Comment noted.
				Q: Do you support the building of a freeway regardless of alignment? A: No - absolutely not on 380!! This would be an economic disaster for homes and business that have already invested to be there. 380 does not need to be a freeway. Too much business development and housing already exists along 380 in McKinney. The horse has left the barn. Move North for alternate routes	Comment noted. Alignment options are still being evaluated.
				Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: I Do Not Support Building a Freeway	Comment noted.
				Q: Which alignment(s) do you prefer in McKinney? A: I Do Not Support Building a Freeway	Comment noted.
				Q: Which alignment(s) do you prefer in Princeton? A: Blue	Comment noted.
				Q: Which alignment(s) do you prefer in Farmersville? A:	No answer provided.

	Commenter Name	Date Received	Source	Comment Topic	Response
				Q: What is your interest in this study? A: Property Owner	Comment noted.
				Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
				Q: Do you have any concerns with the existing US 380? A: It has far too much traffic each day. With the increase in population and the addition of major businesses along US 380, the number of cars and overall traffic just continues to get worse.	Comment noted.
				Q: If US 380 is congested, what alternative routes do you take? A: Cross US 380 on Community or Hardin to then use Eldorado, White or Virginia to move East or West. Sometimes just using Highway 5 to go south is better.	Comment noted.
				Q: What solutions would you suggest in the US 380 Corridor? A: With the increased growth of Collin County and the McKinney area, I believe that the new 380 Bypass should be significantly North (by many miles) of the existing 380 corridor.	Comment noted.
885	David L Routhzahn	5/9/2018	Electronic Survey	Q: Do you support the building of a freeway regardless of alignment? A: No I do not. If it significantly interrupts existing roads where there is already high populations or schools or businesses, that is a poor choice.	Comment noted.
				Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Red Alignment, The Yellow Alignment	Comment noted.
				Q: Which alignment(s) do you prefer in McKinney? A: Red	Comment noted.
				Q: Which alignment(s) do you prefer in Princeton? A: Blue, Yellow	Comment noted.
				Q: Which alignment(s) do you prefer in Farmersville? A: Blue	Comment noted.
				Q: What is your interest in this study? A: Commuter, Property Owner	Comment noted.
				Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
				Q: Do you have any concerns with the existing US 380? A: Have it go WAY North of Stonebridge Ranch!	Comment noted.
				Q: If US 380 is congested, what alternative routes do you take? A: Tollway	Comment noted. Tolling is not being considered as a funding source for this project.
				Q: What solutions would you suggest in the US 380 Corridor? A:	No answer provided.
				Q: Do you support the building of a freeway regardless of alignment? A: No. Stick to the northerly route!	Comment noted. Alignment options are still being evaluated.

889	David Mince	5/13/2018	Electronic Survey	<p>Q: What solutions would you suggest in the US 380 Corridor?</p> <p>A: Improvements to Custer Rd North of 380</p> <p>Q: Do you support the building of a freeway regardless of alignment?</p> <p>A: Depends on the alignment. I do not support any alignment that would include a bypass option that impacts Custer or areas West of Custer.</p> <p>Q: If US 380 is constructed as a freeway, which alignment do you prefer?</p> <p>A: The Green/Pink Alignment, The Blue Alignment, The Red Alignment, The Yellow Alignment</p> <p>Q: Which alignment(s) do you prefer in McKinney?</p> <p>A: Green, Pink, Blue, Red</p> <p>Q: Which alignment(s) do you prefer in Princeton?</p> <p>A: Green, Pink</p> <p>Q: Which alignment(s) do you prefer in Farmersville?</p> <p>A: Green, Pink, Blue, Yellow</p>	<p>Comment noted.</p>
890	David Morton	5/17/2018	Electronic Survey	<p>Q: What is your interest in this study?</p> <p>A: Property Owner</p> <p>Q: How often do you drive on the existing US 380?</p> <p>A: Weekly</p> <p>Q: Do you have any concerns with the existing US 380?</p> <p>A: Evroute through traffic off existing road</p> <p>Q: If US 380 is congested, what alternative routes do you take?</p> <p>A: Virginia once its done</p> <p>Q: What solutions would you suggest in the US 380 Corridor?</p> <p>A: Thru route north in current farm area Stonebridge to three lanes if really needed Do not change Ridge</p> <p>Q: Do you support the building of a freeway regardless of alignment?</p> <p>A: yes</p> <p>Q: If US 380 is constructed as a freeway, which alignment do you prefer?</p> <p>A: The Blue Alignment</p> <p>Q: Which alignment(s) do you prefer in McKinney?</p> <p>A: Blue</p> <p>Q: Which alignment(s) do you prefer in Princeton?</p> <p>A: Green, Blue</p> <p>Q: Which alignment(s) do you prefer in Farmersville?</p> <p>A: Green</p> <p>Q: What is your interest in this study?</p> <p>A: Nearby resident</p> <p>Q: How often do you drive on the existing US 380?</p> <p>A: Weekly</p> <p>Q: Do you have any concerns with the existing US 380?</p> <p>A: Needs to be widened</p> <p>Q: If US 380 is congested, what alternative routes do you take?</p> <p>A: Depends on where at on 380. Numerous reroutes available.</p> <p>Q: What solutions would you suggest in the US 380 Corridor?</p> <p>A: Widen the existing road to match tollway designs</p>	<p>Comment noted.</p>
891	David Nelke	5/10/2018	Electronic Survey	<p>Q: Do you support the building of a freeway regardless of alignment?</p> <p>A: No... absolutely DO NOT touch the Erwin Park area or other recreational areas along the corridor!</p>	The location of Erwin Park was taken into consideration when draft alignments were developed. None of the proposed alignments directly impact Erwin Park. The proposed blue alignment option is adjacent to the southern property line but does not cross into the park.

## Comment Response Matrix

	Commenter Name	Date Received	Source	Comment Topic	Response
				Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment	Comment noted.
				Q: Which alignment(s) do you prefer in McKinney? A: Green, Pink	Comment noted.
				Q: Which alignment(s) do you prefer in Princeton? A: Blue	Comment noted.
				Q: Which alignment(s) do you prefer in Farmersville? A: Blue	Comment noted.
				Q: What is your interest in this study? A: Commuter, Nearby resident	Comment noted.
				Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
				Q: Do you have any concerns with the existing US 380? A: Noise. We live in La Cienega and don't want it so close.	Comment noted.
				Q: If US 380 is congested, what alternative routes do you take? A: Virginia east to 75 or west to Dallas N Toll	Comment noted.
				Q: What solutions would you suggest in the US 380 Corridor? A: Not sure. It seems it's the only way to go west to east up here.	Comment noted.
				Q: Do you support the building of a freeway regardless of alignment? A: No but understand something might need to be done.	Comment noted.
				Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment, The Blue Alignment	Comment noted.
				Q: Which alignment(s) do you prefer in McKinney? A: Green, Blue	Comment noted.
				Q: Which alignment(s) do you prefer in Princeton? A: Green, Blue	Comment noted.
				Q: Which alignment(s) do you prefer in Farmersville? A: Green	Comment noted.
				Q: What is your interest in this study? A: Commuter, Nearby resident	Comment noted.
				Q: How often do you drive on the existing US 380? A: Weekly	Comment noted.
				Q: Do you have any concerns with the existing US 380? A: Congested	Comment noted.
				Q: If US 380 is congested, what alternative routes do you take? A: 121	Comment noted.
				Q: What solutions would you suggest in the US 380 Corridor? A: Reroute further north	Comment noted.
				Q: Do you support the building of a freeway regardless of alignment? A: Yes	Comment noted.
				Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Red Alignment	Comment noted.
				Q: Which alignment(s) do you prefer in McKinney? A: Red	Comment noted.

				Q: Which alignment(s) do you prefer in Princeton? A:	No answer provided.
				Q: Which alignment(s) do you prefer in Farmersville? A:	No answer provided.
				Q: What is your interest in this study? A: Commuter, Nearby resident	Comment noted.
				Q: How often do you drive on the existing US 380? A: Weekly	Comment noted.
				Q: Do you have any concerns with the existing US 380? A: Absolutely. It is miserable to drive this road.	Comment noted.
				Q: If US 380 is congested, what alternative routes do you take? A: The only other option is to drive down the DNT to either PGBT or I-35 to I-30.	Comment noted.
				Q: What solutions would you suggest in the US 380 Corridor? A: A bypass to the North or install overpasses and exits for cross traffic to reduce stoplights.	Comment noted. Alignment options are still being evaluated.
				Q: Do you support the building of a freeway regardless of alignment? A: I'm not sure. It would depend on location and direction	Comment noted.
				Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment, The Blue Alignment, The Red Alignment	Comment noted.
				Q: Which alignment(s) do you prefer in McKinney? A: Blue	Comment noted.
				Q: Which alignment(s) do you prefer in Princeton? A: Blue	Comment noted.
				Q: Which alignment(s) do you prefer in Farmersville? A: Blue	Comment noted.
				Q: What is your interest in this study? A: Nearby resident	Comment noted.
				Q: How often do you drive on the existing US 380? A: Weekly	Comment noted.
				Q: Do you have any concerns with the existing US 380? A: It is congested and it will become more congested.	Comment noted.
				Q: If US 380 is congested, what alternative routes do you take? A: Take 543 to 168 to 166/Lake Forest	Comment noted.
				Q: What solutions would you suggest in the US 380 Corridor? A: I recommend the Bloomdale path to connect with 195 east to 75 and then continue to Princeton by passing the north edge of New Hope.	Comment noted.
				Q: Do you support the building of a freeway regardless of alignment? A: Yes	Comment noted.
				Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Blue Alignment, The Yellow Alignment	Comment noted.
				Q: Which alignment(s) do you prefer in McKinney? A: Blue	Comment noted.
				Q: Which alignment(s) do you prefer in Princeton? A: Blue	Comment noted.
				Q: Which alignment(s) do you prefer in Farmersville? A: Green, Pink	Comment noted.

896	David Priestley	5/15/2018	Electronic Survey	<p>Q: What is your interest in this study?            A: Nearby resident</p> <p>Q: How often do you drive on the existing US 380?            A: Daily</p> <p>Q: Do you have any concerns with the existing US 380?            A: Current road is dangerous and accident prone. Construction has increased this risk</p> <p>Q: If US 380 is congested, what alternative routes do you take?            A: first street to Preston</p> <p>Q: What solutions would you suggest in the US 380 Corridor?            A: I have significant concerns regarding any proposal that adjusts the bypass to come closer to Custer Road. Any increase in traffic on the local residential streets due to cut over drivers to avoid congestion is extremely dangerous and detrimental to the community.</p> <p>Q: Do you support the building of a freeway regardless of alignment?            A: no - I have significant concerns with some of the alignment proposals that move toward Custer road</p> <p>Q: If US 380 is constructed as a freeway, which alignment do you prefer?            A: The Green/Pink Alignment</p> <p>Q: Which alignment(s) do you prefer in McKinney?            A: Green</p> <p>Q: Which alignment(s) do you prefer in Princeton?            A: Blue</p> <p>Q: Which alignment(s) do you prefer in Farmersville?            A:</p> <p>Q: What is your interest in this study?            A: Nearby resident</p> <p>Q: How often do you drive on the existing US 380?            A: Daily</p> <p>Q: Do you have any concerns with the existing US 380?            A: Too many signals, a lot of construction traffic, too much regular traffic with no viable alternative routes. It is the only viable route going east from McKinney.</p> <p>Q: If US 380 is congested, what alternative routes do you take?            A: I usually take Wilmeth to Hwy 5/Hwy 75 or go down community to White. I also take FM 546 when I need to go to East.</p> <p>Q: What solutions would you suggest in the US 380 Corridor?            A: Extend state Hwy 121 to the Princeton area. Eliminate the many of the traffic signals along 380 between state hwy 5 and Hardin Blvd. Go the bypass route as upgrading the current 380 to a Hwy through the main part of McKinney would destroy too many businesses that provide services to McKinney. Extend and expand Wilmeth so that it can offload some of the traffic from the 380.</p> <p>Q: Do you support the building of a freeway regardless of alignment?            A: Yes.</p> <p>Q: If US 380 is constructed as a freeway, which alignment do you prefer?            A: The Blue Alignment, The Yellow Alignment</p> <p>Q: Which alignment(s) do you prefer in McKinney?            A: Blue, Red</p> <p>Q: Which alignment(s) do you prefer in Princeton?            A: Blue, Yellow</p> <p>Q: Which alignment(s) do you prefer in Farmersville?            A: Blue</p> <p>Q: What is your interest in this study?            A: Property Owner, Nearby resident</p>	<p>Comment noted.</p> <p>Comment noted.</p> <p>Comment noted.</p> <p>Any future improvement projects would include assessment of the potential impact on the human and natural environments.</p> <p>Comment noted.</p>

			Q: Do you have any concerns with the existing US 380? A: No	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A: n/a	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A: Tucker Hill's position is NO to all alignments due to potential loss of homes and devaluation of our neighborhood as a whole and adverse environmental and health implications. Notwithstanding our recommendation, if any freeway construction occurs on the existing 380 footprint adjacent to Tucker Hill, it must impose minimal right-of-way and noise pollution by means of cantilevered access lanes; a depressed throughput, and sound barriers. Also, if any bypass option is chosen, it must be located as far west of Tucker Hill as possible; west of future Stonebridge; not on or bordering Tucker Hill.	Comment noted. Any future improvement projects would include assessment of the potential impact on the human and natural environments.
5/16/2018		Electronic Survey	Q: Do you support the building of a freeway regardless of alignment? A: No	Comment noted.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: None, I Do Not Support Building a Freeway	Comment noted.

			Q: Which alignment(s) do you prefer in Farmersville? A: Blue	Comment noted.
			Q: What is your interest in this study? A: Property Owner	Comment noted.
			Q: How often do you drive on the existing US 380? A: Weekly	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: Yes! The traffic moves entirely too fast close to our residential areas and speed is never enforced enough. As a homeowner, I am concerned my property values will decrease with the continued growth.	Any future improvement projects would include assessment of the potential impact on the human and natural environments. Enforcement of traffic laws is the responsibility of local police departments.
			Q: If US 380 is congested, what alternative routes do you take? A: Virginia pkwy, stonebridge,	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A: Please move the traffic north! Our small town feels has disappeared.	Comment noted.
			Q: Do you support the building of a freeway regardless of alignment? A: I support a highway but only further NORTH!	Comment noted.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Blue Alignment	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: Blue	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A: Blue	Comment noted.

917	Dawnda Daniel	5/11/2018	Electronic Survey	<p>Q: What solutions would you suggest in the US 380 Corridor?</p> <p>A: More overpasses</p> <p>Q: Do you support the building of a freeway regardless of alignment?</p> <p>A:</p> <p>Q: If US 380 is constructed as a freeway, which alignment do you prefer?</p> <p>A: The Green/Pink Alignment</p> <p>Q: Which alignment(s) do you prefer in McKinney?</p> <p>A: Green, Pink</p> <p>Q: Which alignment(s) do you prefer in Princeton?</p> <p>A: Green, Pink</p> <p>Q: Which alignment(s) do you prefer in Farmersville?</p> <p>A: Green, Pink</p>	<p>Comment noted.</p> <p>No answer provided.</p> <p>Comment noted.</p>
918	Dayn Jackson	5/15/2018	Electronic Survey	<p>Q: Do you have any concerns with the existing US 380?</p> <p>A: It is becoming more congested and with all the traffic lights along the way, the semi-trucks that use it really slow the traffic flow.</p> <p>Q: If US 380 is congested, what alternative routes do you take?</p> <p>A: If I am trying to get to Hwy-75, I may take a southbound road like Hardin Rd or Community Ave to get to White Ave and the then merge onto Hwy-75 at White Ave. If I am going East and want to avoid major congestion, I would take Custer Rd going southbound to Hwy-121 and use the frontage road or toll road.</p> <p>Q: What solutions would you suggest in the US 380 Corridor?</p> <p>A: The Red Route would be my first option. There is way too much traffic on 380 near the Hwy-75 corridor and widening 380 through that area would only exacerbate the current situation. There is so much traffic in the morning at that location that often the platoon of vehicles will extend from one signal light to the next with cars stopped in the intersections even on green lights. Any you want to add even more traffic by widening 380 through that section? The Green Route does not seem like a feasible solution.</p> <p>Q: Do you support the building of a freeway regardless of alignment?</p> <p>A: NO! My home is in La Cima Manor near Stonebridge/380). A freeway would add additional traffic volume, noise, access roads, and negatively impact the value of my property.</p> <p>Q: If US 380 is constructed as a freeway, which alignment do you prefer?</p> <p>A: Do Not Support Building a Freeway</p> <p>Q: Which alignment(s) do you prefer in McKinney?</p> <p>A: Red, I Do Not Support Building a Freeway</p> <p>Q: Which alignment(s) do you prefer in Princeton?</p> <p>A: Blue</p> <p>Q: Which alignment(s) do you prefer in Farmersville?</p> <p>A: Blue</p> <p>Q: What is your interest in this study?</p> <p>A: Commuter, Property Owner</p> <p>Q: How often do you drive on the existing US 380?</p> <p>A: Weekly</p> <p>Q: Do you have any concerns with the existing US 380?</p> <p>A:</p> <p>Q: If US 380 is congested, what alternative routes do you take?</p> <p>A: Back roads</p> <p>Q: What solutions would you suggest in the US 380 Corridor?</p> <p>A:</p>	<p>Initial traffic analysis does show that travel times would likely be reduced should a freeway be constructed and traffic signals eliminated. However, if TxDOT opts to not move forward with constructing a freeway, we will continue to find ways to enhance safety and improve traffic flow.</p> <p>Comment noted.</p>

	Commenter Name	Date Received	Source	Comment Topic	Response
				Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
				Q: Do you have any concerns with the existing US 380? A: Certainly. And TxDot is already proposing to widen Hwy 380 from FM 1827 to CR 985.	Comment noted.
				Q: If US 380 is congested, what alternative routes do you take? A: The locals have taken this route for years and the police department detours traffic this way when there is an accident on Hwy 380. From Hwy 380 turn on CR 337, then CR 407 through Monte Carlo Blvd. continue on CR 461 and FM 1377 to CR 486, then CR 561 and onto CR 559 at the bridge on Hwy 380. This route bypasses Hwy 380 east of FM 1827 all the way to the bridge at Lake Lavon.	Comment noted.
				Q: What solutions would you suggest in the US 380 Corridor? A: I would suggest a completely different route. A major freeway that runs from the east county line to the west county line. It would be more than sufficient to handle the outrageous population growth in our County. It would address the issue of our crowded roadways now and certainly be adequate to support future transportation needs. We are all too familiar with completing roadways to only begin reconstructing them again soon thereafter because they were inadequate to accommodate the traffic. I believe this improvement plan is just a quick fix for now. Soon it will not be able to accommodate the growth coming to our area if the numbers predicted are anywhere close. However, a new major freeway north of Hwy 380 will definitely meet our growing transportation needs. It would be easier to access the county, traffic flow would be smoother, travel time and congestion delays would be less, displaced homeowners, business owners and stakeholders would be less because it mostly a rural undeveloped, open area. There are definitely more advantages to construct a new freeway than reconstruct the existing roadway to a freeway with bypass loops. Just the sheer impact to the residents, business owners, travelers, displaced homeowners, closed businesses, and the economic impact would be a living nightmare. In my opinion, a new major freeway north of Hwy 380 running from east county line to west county line in a predominately rural section of Collin County would have significantly less impact to our area than the proposed plan. It just makes sense.	Comment noted. Alignment options are still being evaluated.
	DEBBIE COPELAND	5/18/2018	Electronic Survey	Q: Do you support the building of a freeway regardless of alignment? A: I do not support a freeway regardless of alignment with this proposed plan. I would support a new major freeway north of Hwy 380 in the predominately rural section of Collin County which goes through open, undeveloped areas. Due to the fact that it is undeveloped, it would be less disruptive and catastrophic to the public as a whole, with much less displacement of homeowners and business owners. Because it would have significantly less impact than the proposed improvement plan, I would definitely be supportive of that.	Comment noted.
				Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: None	Comment noted.
				Q: Which alignment(s) do you prefer in McKinney? A: None	Comment noted.
				Q: Which alignment(s) do you prefer in Princeton? A: None	Comment noted.

			Q: Which alignment(s) do you prefer in McKinney? A: None, I Do Not Support Building a Freeway	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A: None	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville? A: None	Comment noted.
			Q: What is your interest in this study? A: Property Owner	Comment noted.
			Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: Today traffic is increasing but is manageable. Most of the traffic congestion is near the I-75 intersection.	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A: none	Comment noted.
940	Deborah L. Phillips	5/12/2018 Electronic Survey	Q: What solutions would you suggest in the US 380 Corridor? A: I am opposed to any change in proposed alignments that brings the By-Pass west of Custer Road as it reconnects to 380. I would request consideration of the impact of the proposed by pass on First Street, Prosper Trail and Frontier Parkway, in Prosper due to possible "cut through" traffic to connect with proposed by pass versus expanding the current alignment of 380.	Comment noted. Alignment options are still being evaluated.
			Q: Do you support the building of a freeway regardless of alignment? A: I do not support any alignments that would impact Custer Road or impact traffic on Prosper Trail and Frontier Parkway.	Comment noted.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: I Do Not Support Building a Freeway	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: I Do Not Support Building a Freeway	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A: I Do Not Support Building a Freeway	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville? A: I Do Not Support Building a Freeway	Comment noted.

947	Debra & Paul Campbell	5/1/2018 Comment Form	Please leave Tucker Hill alone. We are retired - have lived in Tucker Hill less than a year - and this is the first time we have heard about a freeway in our front yard. We are disappointed with our developer - builder (Darling) & the City of McKinney that this was being considered. We might have considered "Proper" if we knew all of the facts. Q: What is your interest in this study? A: Commuter, Property Owner, Nearby resident Q: How often do you drive on the existing US 380? A: Weekly Q: Do you have any concerns with the existing US 380? A: Amount of traffic and traffic noise Q: If US 380 is congested, what alternative routes do you take? A: There isn't any Q: What solutions would you suggest in the US 380 Corridor? A: Widen existing road or create northern bypass route like the yellow alignment option. Q: Do you support the building of a freeway regardless of alignment? A: No	Comment noted. Alignment options and roadway configurations are still being evaluated. Comment noted. Comment noted. Comment noted. Comment noted. Comment noted.
948	Debra Dahlen	5/4/2018 Electronic Survey	Q: If US 380 is congested, what alignment do you prefer? A: The Green/Pink Alignment, The Yellow Alignment Q: Which alignment(s) do you prefer in McKinney? A: Blue Q: Which alignment(s) do you prefer in Princeton? A: Yellow Q: Which alignment(s) do you prefer in Farmersville? A: Yellow	Comment noted. Comment noted. Comment noted.
			Q: What is your interest in this study? A: Commuter, Nearby resident	Comment noted.

	Commenter Name	Date Received	Source	Comment Topic	Response
949	Debra Praschan	5/11/2018	Electronic Survey	<p>Q: How often do you drive on the existing US 380? A: Weekly</p> <p>Q: Do you have any concerns with the existing US 380? A: Congestion</p> <p>Q: If US 380 is congested, what alternative routes do you take? A: There isn't a good one.</p> <p>Q: What solutions would you suggest in the US 380 Corridor? A: Please complete the already planned outer loop.</p> <p>Q: Do you support the building of a freeway regardless of alignment? A: No</p> <p>Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment</p> <p>Q: Which alignment(s) do you prefer in McKinney? ## Comment Response Matrix

Commenter Name	Date Received	Source	Comment Topic	Response
			Q: Which alignment(s) do you prefer in Farmersville? A: Blue	Comment noted.
			Q: What is your interest in this study? A: Property Owner	Comment noted.
			Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: 380 is busy. The large trucks are a big problem using all lanes. They should only be in the right lane and it should be enforced.	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A: I live in Tucker Hill and 380 is our only way out of the neighborhood.	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A: I don't support turning 380 into a freeway.	Comment noted.
			Q: Do you support the building of a freeway regardless of alignment? A: A bypass around the city for those people traveling through.	Comment noted.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: I Do Not Support Building a Freeway	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: None	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A: None	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville? A: None	Comment noted.
			Q: What is your interest in this study? A: Commuter, Nearby resident	Comment noted.
			Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: 380 is very dangerous! We live in Creekview across from Walmart in Princeton. It is hard to get in and out of our neighborhood. There are many accidents and have been quite a few fatal accidents on 380. When traffic backs up people drive down the highway on the shoulders and in the turning lane so they don't have to wait.	Any future improvements will be designed to enhance safety.
			Q: If US 380 is congested, what alternative routes do you take? A: Take Fm 75 North of Princeton to CR 408 to 1827 to Fm 2933 to CR 331 to get to McKinney when 380 is congested and also I take that route every evening to avoid traffic and very careless drivers.	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A: Medians or dividers in the Highway and lower speed limits. No left turn from the Walmart Parking lot in Princeton to go West toward McKinney. More law enforcement on a consistent basis.	Comment noted.
			Q: Do you support the building of a freeway regardless of alignment? A: I'm not sure. I can't picture 380 as a freeway. There is not enough room and there are already too many businesses to make room for a freeway. A freeway North of Princeton would displace too many families and from the looks of the maps the roads would be too curvy.	Comment noted.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Blue Alignment	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: Blue	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville? A: Blue	Comment noted.
			Q: What is your interest in this study? A: Nearby resident	Comment noted.

965	5/11/2018	Survey	Q: Do you support the building of a freeway regardless of alignment? A: Yes  Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment  Q: Which alignment(s) do you prefer in McKinney? A: Green, Pink	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A: Green, Pink  Q: Which alignment(s) do you prefer in Farmersville? A: Green, Pink	Comment noted.
			Q: What is your interest in this study? A: Nearby resident, User of Erwin Park	Comment noted.
			Q: How often do you drive on the existing US 380? A: Weekly	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: no	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A: the freeway, Sam Rayburn	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A: Adding more lanes to 380, clearing up the intersection at Hwy 75 exit ramp south. This seems to be the biggest bottle neck now.	Comment noted.
Dennis Brown	5/11/2018	Electronic Survey	Q: Do you support the building of a freeway regardless of alignment? A:  Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment  Q: Which alignment(s) do you prefer in McKinney? A: Green, Pink	No answer provided.
			Q: Which alignment(s) do you prefer in Princeton? A: Green, Pink  Q: Which alignment(s) do you prefer in Farmersville? A: Green, Pink	Comment noted.
			Q: What is your interest in this study? A: Property Owner	Comment noted.
			Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: Safety suggestion - add deceleration/acceleration lanes for existing subdivisions and all future high traffic shopping centers.	Comment noted. Any future improvements will be designed to enhance safety.
966	5/16/2018	Electronic Survey	Q: If US 380 is congested, what alternative routes do you take? A: SH 121, Rockhill Rd, Main St  Q: What solutions would you suggest in the US 380 Corridor? A: Coordinated intersection signalization to MOVE traffic along existing 380 between McKinney & Denton, especially during peak driving times. Greater effort to move traffic thru major intersections using traffic cameras & adding 2-lane turn lanes (both left & right) with appropriate "slack" lanes also added where necessary. Accelerate construction of "Outer Loop." First using frontage roads (then adding limited access roadway in center - similar to FM 99 around outer Houston). Ask North Central Texas Council of Governments to involve Prosper, Celina, Melissa, etc., to pursue east/west corridor development (such as Virginia/Eldorado) to connect between DNT & US 75... Accelerate Extension of DNT to Outer Loop... Forget pursuit of multi-color alternate up/down routes for 380. (I submit that residents prefer direct routes, not all those variations.)	Comment noted.

## Comment Response Matrix

Commenter Name	Date Received	Source	Comment Topic	Response
			Q: Do you support the building of a freeway regardless of alignment?	
			A: 380 is already a divided 6-lane roadway for good portion. Acquiring ROW, re-routing traffic during construction, creating loss of revenue for existing businesses during construction period, etc. seems like a very inefficient use of tax-payer money...Suggest major money be spent on Outer Loop with plan to accommodate greater amount of traffic, and subdivision & shopping center development.	Comment noted.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer?	
			A: None, I Do Not Support Building a Freeway	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney?	
			A: None, I Do Not Support Building a Freeway	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton?	
			A: None, I Do Not Support Building a Freeway	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville?	
			A: None, I Do Not Support Building a Freeway	Comment noted.
			Q: What is your interest in this study?	
			A: Commuter, Business Owner, Property Owner, Nearby resident	Comment noted.
			Q: How often do you drive on the existing US 380?	
			A: Daily	Comment noted.
			Q: Do you have any concerns with the existing US 380?	
			A: NO	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take?	
			A: 121	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor?	
			A: Complete outer loop	Comment noted.
			Q: Do you support the building of a freeway regardless of alignment?	
			A: NO	Comment noted.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer?	
			A: I Do Not Support Building a Freeway	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney?	
			A: I Do Not Support Building a Freeway	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton?	
			A: I Do Not Support Building a Freeway	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville?	
			A: I Do Not Support Building a Freeway	Comment noted.
			Q: What is your interest in this study?	
			A: Property Owner, Nearby resident	Comment noted.
			Q: How often do you drive on the existing US 380?	
			A: Daily	Comment noted.
			Q: Do you have any concerns with the existing US 380?	
			A: No, The amount of traffic is acceptable to me. I travel to Hardin and then south to White which takes me to Hwy 75 where I go south to Richardson	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take?	
			A: I take Virginia Hwy to get to 75.	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor?	
			A: I would leave the 6 lanes US 380 the way it is. Any freeway in lieu of the current 380 would destroy the character of McKinney, i.e. split it into a North McKinney and a South McKinney, much like 75 does with East McKinney and West McKinney. The reduction in travel time anticipated in 20 years is not worth destroying a city character.	Comment noted.
			Q: Do you support the building of a freeway regardless of alignment?	
			A: NO, for the reasons previously stated	Comment noted.

			Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: The current form of US 380 in Princeton causes a lot of congestion and flow problems. US 380 in Princeton is rather dangerous for traffic that must turn left (even with a middle turning lane). Coming out of Cypress Bend subdivision, is a difficult and dangerous proposition that can take several minutes to turn onto US 380.	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A: I do not have an alternative route as my subdivision immediately borders US 380.	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A: Widen US 380 to six lanes. I would also have turning lanes separate from the traffic that is already moving 60+ MPH.	Comment noted.
			Q: Do you support the building of a freeway regardless of alignment? A: Yes, but we should keep the number of displaced residents and businesses to an absolute minimum.	Comment noted.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment, The Blue Alignment, The Red Alignment, The Yellow Alignment	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: Green, Pink, Blue, Red	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A: Green, Blue, Yellow	Comment noted.

				Q: Which alignment(s) do you prefer in Princeton? A: Blue	Comment noted.
				Q: Which alignment(s) do you prefer in Farmersville? A: Blue	Comment noted.
				Q: What is your interest in this study? A: Commuter, Nearby resident	Comment noted.
				Q: How often do you drive on the existing US 380? A: Weekly	Comment noted.
				Q: Do you have any concerns with the existing US 380? A: No	Comment noted.
				Q: If US 380 is congested, what alternative routes do you take? A: George Bush	Comment noted.
986	Diane Nestande	5/14/2018	Electronic Survey	Q: What solutions would you suggest in the US 380 Corridor? A: Just don't take away Erwin Park!!	The location of Erwin Park was taken into consideration when draft alignments were developed. None of the proposed alignments directly impact Erwin Park. The proposed blue alignment option is adjacent to the southern property line but does not cross into the park.
				Q: Do you support the building of a freeway regardless of alignment? A: No	Comment noted.
				Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment, I Do Not Support Building a Freeway	Comment noted.
				Q: Which alignment(s) do you prefer in McKinney? A: Green, Pink, I Do Not Support Building a Freeway	Comment noted.
				Q: Which alignment(s) do you prefer in Princeton? A: Green, Pink, I Do Not Support Building a Freeway	Comment noted.
				Q: Which alignment(s) do you prefer in Farmersville? A: Green, Pink, I Do Not Support Building a Freeway	Comment noted.
				Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
				Q: What is your interest in this study? A: Property Owner	Comment noted.
				Q: Do you have any concerns with the existing US 380? A: not at this time, but as McKinney grows, it will become an issue.	Comment noted.
				Q: If US 380 is congested, what alternative routes do you take? A: Virginia Pkwy or Eldorado	Comment noted.
				Q: What solutions would you suggest in the US 380 Corridor? A: a loop around McKinney	Comment noted.
				Q: Do you support the building of a freeway regardless of alignment? A: No, only if it would be a loop around McKinney	Comment noted.
				Q: Which alignment(s) do you prefer in McKinney? A: The Blue Alignment, The Red Alignment	Comment noted.
				Q: Which alignment(s) do you prefer in Princeton? A: Blue	Comment noted.
				Q: Which alignment(s) do you prefer in Farmersville? A: Blue	Comment noted.

			3. even on pink & green alignment, consider bringing outer loop in at an angle.	Comment noted.
	NA	Comment Form	Tucker Hill's position is NO to all alignments due to potential loss of homes and devaluation of our neighborhood as a whole and adverse environmental and health implications. Notwithstanding our recommendation, if any freeway construction occurs on the existing 380 footprint adjacent to Tucker Hill, it must impose minimal right-of-way and noise pollution by means of cantilevered access lanes; a depressed highway, and sound barriers. Also, if any bypass option is chosen, it must be located as far west of Tucker Hill as possible; west of future Stonebridge, not on or bordering Tucker Hill.	Comment noted. Any future improvement projects would include assessment of the potential impact on the human and natural environments.
990	5/16/18	Electronic Survey	<p>Q: What is your interest in this study?</p> <p>A: Property Owner</p> <p>Q: How often do you drive on the existing US 380?</p> <p>A: Daily</p> <p>Q: Do you have any concerns with the existing US 380?</p> <p>A: Yes, traffic is too fast and needs to be slowed by setting the traffic lights and lowering the speed limit. Limiting the truck and hazardous materials traffic should also be done to protect residents along the route. Our neighborhood has only one entrance/exit and it is onto 380. If traffic is stopped or stalled at that entrance/exit, we have no way out. That has already happened with some traffic accidents. If hazardous materials were involved, our neighborhood could not have been evacuated.</p> <p>Q: If US 380 is congested, what alternative routes do you take?</p> <p>A: Custer, Ridge and now Colt since it opened up</p> <p>Q: What solutions would you suggest in the US 380 Corridor?</p> <p>A: Utilize Custer going north to the outer loop that is already being planned and built.</p> <p>Q: Do you support the building of a freeway regardless of alignment?</p> <p>A: No, absolutely NOT!</p> <p>Q: If US 380 is constructed as a freeway, which alignment do you prefer?</p> <p>A: None, I Do Not Support Building a Freeway</p> <p>Q: Which alignment(s) do you prefer in McKinney?</p> <p>A: I Do Not Support Building a Freeway</p> <p>Q: Which alignment(s) do you prefer in Princeton?</p> <p>A: I Do Not Support Building a Freeway</p> <p>Q: Which alignment(s) do you prefer in Farmersville?</p> <p>A: I Do Not Support Building a Freeway</p> <p>Q: What is your interest in this study?</p> <p>A: Nearby resident</p> <p>Q: How often do you drive on the existing US 380?</p> <p>A: Daily</p> <p>Q: Do you have any concerns with the existing US 380?</p> <p>A: Yes, excess traffic and dangerous conditions.</p> <p>Q: If US 380 is congested, what alternative routes do you take?</p> <p>A: Taylor Burke or Willmeh depending on where I am going. I often go to a different destination that doesn't require driving on 380</p> <p>Q: What solutions would you suggest in the US 380 Corridor?</p> <p>A: Better timed lights for existing roadway. This would cut down on frustration and hopefully cut down on the red light turner.</p> <p>Q: Do you support the building of a freeway regardless of alignment?</p> <p>A: The, it entirely depends on the alignment. Using the existing alignment or even the ones that shift the road 400 ft north or south would greatly affect many sales tax generating businesses as well as a large number of existing homes.</p> <p>Q: If US 380 is constructed as a freeway, which alignment do you prefer?</p> <p>A: The Blue Alignment, The Red Alignment</p> <p>Q: Which alignment(s) do you prefer in McKinney?</p> <p>A: Blue, Red</p>	<p>Comment noted. Any future improvements will be designed to enhance safety.</p> <p>Comment noted. Any future improvements will be designed to enhance safety.</p> <p>Comment noted.</p> <p>Comment noted. Alignment options are still being evaluated. Initial traffic analysis taking into account future population projections indicates that even with the construction of the Collin County Outer Loop and other planned roadway improvements within the study area, US 380 would still experience a failing level of service for congestion and delay.</p> <p>Comment noted.</p>
991	5/16/2018	Electronic Survey	<p>Diane Toty</p> <p>Q: Do you support the building of a freeway regardless of alignment?</p> <p>A: The, it entirely depends on the alignment. 1002	Dominic Brown	5/18/2018	Electronic Survey	<p>Q: What solutions would you suggest in the US 380 Corridor?            A: Widen Virginia Parkway &amp; Eldorado Parkway. To add conduits to both streets via South Stonebridge Drive, Ridge Road, Lake Forrest Drive &amp; Hardin Blvd should be increased between them as those routes currently have high traffic areas. Thus minimizing the reduction of their property values.</p> <p>Q: Do you support the building of a freeway regardless of alignment?            A: No</p> <p>Q: If US 380 is constructed as a freeway, which alignment do you prefer?            A: The Green/Pink Alignment</p> <p>Q: Which alignment(s) do you prefer in McKinney?            A: Green, Pink</p> <p>Q: Which alignment(s) do you prefer in Princeton?            A: Green, Pink</p> <p>Q: Which alignment(s) do you prefer in Farmersville?            A: Green, Pink</p> <p>Q: What is your interest in this study?            A: Commuter, Nearby resident</p> <p>Q: How often do you drive on the existing US 380?            A: Daily</p> <p>Q: Do you have any concerns with the existing US 380?            A: Traffic congestion which needs more right turn lanes, timed traffic signals and flyovers for busy intersections.</p> <p>Q: If US 380 is congested, what alternative routes do you take?            A: At this time there are no good alternative routes since east-west roads like Wilmett, Bloomingdale, and Laud Powell do not "go through"</p> <p>Q: What solutions would you suggest in the US 380 Corridor?            A: Complete Outer Loop to direct more "non-local" east-west traffic off of US380; complete Wilmett, Bloomingdale and Laud Powell so that "local" east-west traffic has alternate routes from US380. More right turn lanes and flyovers for busy intersections.</p> <p>Q: Do you support the building of a freeway regardless of alignment?            A: No - people and the delivery of goods will continue to change over the next few years where less vehicles and roadways will be needed, less commuters as more work from home</p> <p>Q: If US 380 is constructed as a freeway, which alignment do you prefer?            A: I Do Not Support Building a Freeway</p> <p>Q: Which alignment(s) do you prefer in McKinney?            A: I Do Not Support Building a Freeway</p> <p>Q: Which alignment(s) do you prefer in Farmersville?            A: I Do Not Support Building a Freeway</p> <p>Q: What is your interest in this study?            A: Property Owner, Nearby resident</p> <p>Q: How often do you drive on the existing US 380?            A: Weekly</p> <p>Q: Do you have any concerns with the existing US 380?            A: congestion, Speed vs. congestion and the number of stops. Very unsafe. I try not to use it.</p> <p>Q: If US 380 is congested, what alternative routes do you take?            A: 121</p> <p>Q: What solutions would you suggest in the US 380 Corridor?            A: Open McKinney Princeton and prosper a connect with 380 on feeders . need a 121 style freeway with adequate access roads</p> <p>Q: Do you support the building of a freeway regardless of alignment?            A: yes</p>	<p>Comment noted. Alignment options are still being evaluated.</p> <p>Comment noted.</p>

				Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment, The Blue Alignment	Comment noted.
				Q: Which alignment(s) do you prefer in McKinney? A: Green, Pink, Blue	Comment noted.
				Q: Which alignment(s) do you prefer in Princeton? A: Green, Pink, Blue	Comment noted.
				Q: Which alignment(s) do you prefer in Farmersville? A: Green, Pink, Blue	Comment noted.
				Q: What is your interest in this study? A: Property Owner, Nearby resident	Comment noted.
				Q: How often do you drive on the Existing US 380? A: Daily	Comment noted.
				Q: Do you have any concerns with the existing US 380? A: It is too busy.	Comment noted.
				Q: If US 380 is congested, what alternative routes do you take? A: We have not alternate route. Our development only enters / exits at US380.	Comment noted.
				Q: What solutions would you suggest in the US 380 Corridor? A: Any of the proposed northern bypasses for the Hwy 5 to Custer Road section.	Comment noted.
				Q: Do you support the building of a freeway regardless of alignment? A: No, I could not support widening the existing US380 from Hwy 5 to Custer Road.	Comment noted.
				Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Blue Alignment	Comment noted.
				Q: Which alignment(s) do you prefer in McKinney? A: Blue	Comment noted.
				Q: Which alignment(s) do you prefer in Farmersville? A: Blue	Comment noted.
				Q: What is your interest in this study? A: Property Owner	Comment noted.
				Q: How often do you drive on the existing US 380? A: Weekly	Comment noted.
				Q: Do you have any concerns with the existing US 380? A: Not really	Comment noted.
				Q: If US 380 is congested, what alternative routes do you take? A: Virginia Parkway or Eldorado Dr.	Comment noted.
				Q: What solutions would you suggest in the US 380 Corridor? A: Non, keep it the way it is	Comment noted.
				Q: Do you support the building of a freeway regardless of alignment? A: No	Comment noted.
				Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: I Do Not Support Building a Freeway	Comment noted.
				Q: Which alignment(s) do you prefer in McKinney? A: I Do Not Support Building a Freeway	Comment noted.

			Q: Which alignment(s) do you prefer in McKinney? A: Blue, Red	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A: Blue, Yellow	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville? A: Blue, Yellow	Comment noted.
			Q: What is your interest in this study? A: Nearby resident	Comment noted.
			Q: How often do you drive on the existing US 380? A: Weekly	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: Yes, there is way too much traffic for this old road to handle and out of frustration, people drive to dangerously.	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A: I don't have another route that I can take to get where I need to go.	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A: I would love to see it made into a with four lanes in either direction due to the fast growth in McKinney and other areas along the 380 corridor.	Comment noted.
			Q: Do you support the building of a freeway regardless of alignment? A: I'm not sure about that - something needs to be done, but I don't like the use of imminent domain unless people are paid a beyond fair amount of money for their property. Moving from our homes can be very emotional and difficult for some people.	Comment noted.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: Green, Pink	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A: Green, Pink	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville? A: Green, Pink	Comment noted.
			Q: What is your interest in this study? A: Property Owner	Comment noted.
			Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: Congested fast and dangerous	Any future improvements will be designed to enhance safety.
			Q: If US 380 is congested, what alternative routes do you take? A: None available for my neighborhood	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A: A loop similar to Denton North 288, but freeway	Comment noted.
			Q: Do you support the building of a freeway regardless of alignment? A: Depends on alignment	Comment noted.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Blue Alignment	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: Blue	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A: Blue	Comment noted.

				Q: Which alignment(s) do you prefer in Farmersville? A: Blue	Comment noted.
1031	Doug Ayers	NA	Comment Form	Tucker Hill's position is NO to all alignments due to potential loss of homes and devaluation of our neighborhood as a whole and adverse environmental and health implications. Notwithstanding our recommendation, if any freeway implementation occurs on the existing 380 footprint adjacent to Tucker Hill, it must impose minimal right-of-way and noise pollution by means of cantilevered access lanes; a depressed roadway, and sound barriers. Also, if any bypass option is chosen, it must be located as far west of Tucker Hill as possible; west of future Stonebridge, not on or bordering Tucker Hill.	Comment noted. Any future improvement projects would include assessment of the potential impact on the human and natural environments.
				Q: What is your interest in this study? A: Business Owner, Nearby resident	Comment noted.
				Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
				Q: Do you have any concerns with the existing US 380? A: Yes - To congested	Comment noted.
				Q: If US 380 is congested, what alternative routes do you take? A: Virginia Hwy / Rock Hill Road, Panther Creek, Fish Trap Rd	Comment noted.
				Q: What solutions would you suggest in the US 380 Corridor? A: By Pass	Comment noted.
				Q: Do you support the building of a freeway regardless of alignment? A: Yes	Comment noted.
				Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Red Alignment	Comment noted.
				Q: Which alignment(s) do you prefer in McKinney? A: Green, Pink, Red	Comment noted.
				Q: Which alignment(s) do you prefer in Princeton? A: Blue, Yellow	Comment noted.
				Q: Which alignment(s) do you prefer in Farmersville? A: Blue	Comment noted.
				Q: What is your interest in this study? A: Property Owner	Comment noted.
				Q: How often do you drive on the existing US 380? A: Weekly	Comment noted.
				Q: Do you have any concerns with the existing US 380? A: There is heavy traffic but it's not the worst road around.	Comment noted.
				Q: If US 380 is congested, what alternative routes do you take? A: 982 & Parker Rd	Comment noted.
				Q: What solutions would you suggest in the US 380 Corridor? A: My first suggestion would have been to plan this a decade ago. If you can't support traffic without disturbing the property of long time land owners then you should forget the new road and work with the road we have	Comment noted. Any future improvement projects would include assessment of the potential impact on the human and natural environments.
				Q: Do you support the building of a freeway regardless of alignment? A: NO, not regardless of alignment	Comment noted.
				Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment, I Do Not Support Building a Freeway	Comment noted.
				Q: Which alignment(s) do you prefer in McKinney? A:	No answer provided.
				Q: Which alignment(s) do you prefer in Princeton? A: Green, Pink, I Do Not Support Building a Freeway	Comment noted.
				Q: Which alignment(s) do you prefer in Farmersville? A:	No answer provided.

1038	Doug Pemberton	5/9/2018	Electronic Survey	<p>Q: If US 380 is congested, what alternative routes do you take? A: Virginia or Eldorado</p> <p>Q: What solutions would you suggest in the US 380 Corridor? A: Need a total bypass. Today there were just too many heavy duty trucks causing slowness, congestion, and danger.</p> <p>Q: Do you support the building of a freeway regardless of alignment? A: Yes to building a freeway, but it needs to bypass current 380</p> <p>Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Blue Alignment</p> <p>Q: Which alignment(s) do you prefer in McKinney? A: Blue</p> <p>Q: Which alignment(s) do you prefer in Princeton? A: Blue</p> <p>Q: Which alignment(s) do you prefer in Farmersville? A: Blue</p>	<p>Comment noted.</p>
1039	Douglas Batson	5/17/2018	Electronic Survey	<p>Q: What is your interest in this study? A: Property Owner, Nearby resident</p> <p>Q: How often do you drive on the existing US 380? A: Weekly</p> <p>Q: Do you have any concerns with the existing US 380? A: Dangerous when traffic is heavy.</p> <p>Q: If US 380 is congested, what alternative routes do you take? A: Virginia, Bristol, Custer</p> <p>Q: What solutions would you suggest in the US 380 Corridor? A: A loop to the north needs to begin at Custer, not Stonebridge or Ridge. Stonebridge and Ridge were built as Boulevards not major traffic thoroughfares like Custer. Further, and very important, if Stonebridge becomes the connector to 380 and a loop to the north, the number of people that cut through the LaCima Village neighborhoods via Custer / Bristol / Watch Hill and Stonebridge will rise dramatically. It is already a dangerous neighborhood problem.</p> <p>Q: Do you support the building of a freeway regardless of alignment? A: No</p> <p>Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: None</p> <p>Q: Which alignment(s) do you prefer in McKinney? A: None</p> <p>Q: Which alignment(s) do you prefer in Princeton? A: None</p> <p>Q: Which alignment(s) do you prefer in Farmersville? A: None</p> <p>Q: What is your interest in this study? A: Erwin Park enthusiast</p> <p>Q: How often do you drive on the existing US 380? A: Daily</p> <p>Q: Do you have any concerns with the existing US 380? A: Congestion</p> <p>Q: If US 380 is congested, what alternative routes do you take? A: 121</p> <p>Q: What solutions would you suggest in the US 380 Corridor? A: The Pink or Green proposed bypass</p>	<p>Comment noted. Alignment options are still being evaluated.</p> <p>Comment noted. It is already a dangerous neighborhood problem.</p> <p>Comment noted.</p>

## Comment Response Matrix

	Commenter Name	Date Received	Source	Comment Topic	Response
1040	George Party	5/15/2018	Survey	Q: Do you support the building of a freeway regardless of alignment? A: No	Comment noted.
				Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment	Comment noted.
				Q: Which alignment(s) do you prefer in McKinney? A: Pink	Comment noted.
				Q: Which alignment(s) do you prefer in Princeton? A: Pink	Comment noted.
				Q: Which alignment(s) do you prefer in Farmersville? A: Pink	Comment noted.
				Q: What is your interest in this study? A: Property Owner, Nearby resident	Comment noted.
				Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
				Q: Do you have any concerns with the existing US 380? A: Yes. It is completely congested from Hardin to Highway 5. It is becoming congested near Custer.	Comment noted.
				Q: If US 380 is congested, what alternative routes do you take? A: Hardin south to White. Wimberth east from 75.	Comment noted.
				Q: What solutions would you suggest in the US 380 Corridor? A: Accelerate the timeline on building the outer loop. Add an extra lane on both sides above the number planned. Widen Frontier Pkwy (1461) considerably. Make the widened portion run from the Dallas North Tollway all the way to US-75.	Comment noted. Initial traffic analysis taking into account future population projections indicates that even with the construction of the Collin County Outer Loop and other planned roadway improvements within the study area, US 380 would still experience a failing level of service for congestion and delay.
				Q: Do you support the building of a freeway regardless of alignment? A: No.	Comment noted.
				Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment	Comment noted.
				Q: Which alignment(s) do you prefer in McKinney? A: Green, Pink	Comment noted.
				Q: Which alignment(s) do you prefer in Princeton? A: Green, Pink, Blue	Comment noted.
				Q: Which alignment(s) do you prefer in Farmersville? A: Green, Pink, Blue, Yellow	Comment noted.
				Q: What is your interest in this study? A: Commuter, Property Owner, Nearby resident	Comment noted.
				Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
				Q: Do you have any concerns with the existing US 380? A: Large volume of traffic, needs to be configured as a highway instead of all the traffic lights.	Comment noted.
				Q: If US 380 is congested, what alternative routes do you take? A: Any of the side roads that intersect 380	Comment noted.
				Q: What solutions would you suggest in the US 380 Corridor? A: Create a formal highway with on and off ramps.	Comment noted.
				Q: Do you support the building of a freeway regardless of alignment? A: Yes	Comment noted.
				Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment, The Blue Alignment, The Red Alignment	Comment noted.

## Comment Response Matrix

	Commenter Name	Date Received	Source	Comment Topic	Response
				Q: Which alignment(s) do you prefer in Farmersville? A: Blue	Comment noted.
				Q: What is your interest in this study? A: Commuter	Comment noted.
				Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
				Q: Do you have any concerns with the existing US 380? A: Far too much high speed traffic that interferes with residential access from growing residential and business development between Custer Road and US 75.	Comment noted.
				Q: If US 380 is congested, what alternative routes do you take? A: There are no other feasible routes at this time. The only exit from our development (Tucker Hill) dumps directly onto 380. The traffic control at our development's entrance clearly favors east/west traffic at times of the day when commuters/travelers vie for travel space on 380.	Comment noted. Alignment options are still being evaluated.
				Q: What solutions would you suggest in the US 380 Corridor? A: If land is available, build east/west overpasses with frontage roads providing reasonable entry/exit to/from businesses and residential areas situated along 380.	Comment noted.
				Q: Do you support the building of a freeway regardless of alignment? A: ???	Comment noted.
				Q: If US 380 is constructed as a freeway, which alignment do you prefer? A:	No answer provided.
				Q: Which alignment(s) do you prefer in McKinney? A:	No answer provided.
				Q: Which alignment(s) do you prefer in Princeton? A:	No answer provided.
				Q: Which alignment(s) do you prefer in Farmersville? A:	No answer provided.
				Q: What is your interest in this study? A: Commuter, Property Owner, Nearby resident	Comment noted.
				Q: How often do you drive on the existing US 380? A: Weekly	Comment noted.
				Q: Do you have any concerns with the existing US 380? A: Traffic congestion is inevitable with the future increases in population.	Comment noted.
				Q: If US 380 is congested, what alternative routes do you take? A: Virginia Pkwy, El Dorado Dr., or 121.	Comment noted.
				Q: What solutions would you suggest in the US 380 Corridor? A: I believe the yellow route option will likely provide the best traffic flow to free up some of the traffic on 380 itself; however, will the present day route of 380 through McKinney be turned into a business route?	Comment noted. Alignment options are still being evaluated. Roadway designations have not yet been decided.
				Q: Do you support the building of a freeway regardless of alignment? A: Yes, because this is really the only way the traffic congestion is going to be manageable with the increased population.	Comment noted.
				Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Yellow Alignment	Comment noted.
				Q: Which alignment(s) do you prefer in McKinney? A: Blue	Comment noted.
				Q: Which alignment(s) do you prefer in Princeton? A: Yellow	Comment noted.
				Q: Which alignment(s) do you prefer in Farmersville? A: Blue	Comment noted.
				Q: What is your interest in this study? A: Nearby resident	Comment noted.

1051	Dustin James	5/17/2018	Electronic Survey	<p>Q: What solutions would you suggest in the US 380 Corridor?</p> <p>A: Wouldn't it be best to have a train follow 380? So what you get 380 bigger and more lanes/loops. Where are all those people going to go when they get on 75, Dallas North Tollway, 121, 635? Are you going to expand all of those too?</p> <p>Q: Do you support the building of a freeway regardless of alignment?</p> <p>A: No! Too many tax dollars! Eminent Domain is something no one wants any part of! Too much growth, equals public transportation. 121 went from 2 lanes to 6 lanes and it is bumper to bumper at peak times. It will be outgrown by the time it's built!</p> <p>Q: If US 380 is constructed as a freeway, which alignment do you prefer?</p> <p>A: I Do Not Support Building a Freeway</p> <p>Q: Which alignment(s) do you prefer in McKinney?</p> <p>A: I Do Not Support Building a Freeway</p> <p>Q: Which alignment(s) do you prefer in Princeton?</p> <p>A: I Do Not Support Building a Freeway</p> <p>Q: Which alignment(s) do you prefer in Farmersville?</p> <p>A: I Do Not Support Building a Freeway</p> <p>Q: What is your interest in this study?</p> <p>A: Property Owner</p> <p>Q: How often do you drive on the existing US 380?</p> <p>A: Daily</p> <p>Q: Do you have any concerns with the existing US 380?</p> <p>A: Existing 380 is busy but it is only because there are currently no good east west routes to the north.</p> <p>Q: If US 380 is congested, what alternative routes do you take?</p> <p>A:</p> <p>Q: What solutions would you suggest in the US 380 Corridor?</p> <p>A: Expand current footprint of 380.</p> <p>Q: Do you support the building of a freeway regardless of alignment?</p> <p>A: No, do not destroy neighborhoods and green space to put in a freeway because of poor planning on the part of past McKinney City Leaders. Keep 380 where it is.</p> <p>Q: If US 380 is constructed as a freeway, which alignment do you prefer?</p> <p>A: The Green/Pink Alignment</p> <p>Q: Which alignment(s) do you prefer in McKinney?</p> <p>A: Green, Pink</p> <p>Q: Which alignment(s) do you prefer in Princeton?</p> <p>A: Green, Pink</p> <p>Q: Which alignment(s) do you prefer in Farmersville?</p> <p>A: Green, Pink</p> <p>Q: What is your interest in this study?</p> <p>A: Commuter, Property Owner, Nearby resident</p> <p>Q: How often do you drive on the existing US 380?</p> <p>A: Daily</p> <p>Q: Do you have any concerns with the existing US 380?</p> <p>A: Traffic</p> <p>Q: If US 380 is congested, what alternative routes do you take?</p> <p>A: No options</p> <p>Q: What solutions would you suggest in the US 380 Corridor?</p> <p>A: More thorough access</p> <p>Q: Do you support the building of a freeway regardless of alignment?</p> <p>A: No</p>	<p>Comment noted. Alignment options are still being evaluated. Northern extensions of existing and future rail corridors are being evaluated by others; however, transit options are not included in the proposed project.</p> <p>Comment noted.</p>

			Q: Which alignment(s) do you prefer in Princeton? A:	No answer provided.
			Q: Which alignment(s) do you prefer in Farmersville? A:	No answer provided.
			Q: What is your interest in this study? A: Commuter, Business Owner, Property Owner, Nearby resident	Comment noted.
			Q: How often do you drive on the Existing US 380? A: Daily	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: I have a home right off the 380 that has no sounds barrier an the traffic noise can be very loud, adding to this traffic in any way without some kind of sound reduction is not something I want.	Any future improvement projects would include assessment of the potential impact on the human and natural environments, including a traffic noise analysis and consideration of noise abatement measures, if warranted.
			Q: If US 380 is congested, what alternative routes do you take? A:	No answer provided.

1063	E R Griggs	5/15/2018	Paper Survey	<p>Q: What is your interest in this study? A: Nearby resident</p> <p>Q: How often do you drive on the existing US 380? A: Daily</p> <p>Q: Do you have any concerns with the existing US 380? A: congestion &amp; noise</p> <p>Q: If US 380 is congested, what alternative routes do you take? A: no other choice &amp; dead end road</p> <p>Q: What solutions would you suggest in the US 380 Corridor? A: Concerns with intersection at 490. Already impossible, to pull out onto 380 during rush hour. With population growth in increases traffic. Not only for those on 490 &amp; 491, but also at Princeton lakes.</p> <p>Q: Do you support the building of a freeway regardless of alignment? A: yes</p> <p>Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Blue Alignment</p> <p>Q: Which alignment(s) do you prefer in McKinney? A: Blue</p> <p>Q: Which alignment(s) do you prefer in Princeton? A: Blue</p> <p>Q: Which alignment(s) do you prefer in Farmersville? A: Blue</p> <p>Q: How often do you drive on the existing US 380? A: Weekly</p> <p>Q: Do you have any concerns with the existing US 380? A: My major concern is the amount of 18 wheel trucks and the fact that they travel in all three lanes. When we come to a stop light, it typically takes 2 or 3 cycles before I can get through because the truckers can't get off the line or up to speed to catch the next light. So if you get stuck at one light, you will get stuck at all the lights through McKinney (if the trucks are driving in all three lanes).</p> <p>Q: If US 380 is congested, what alternative routes do you take? A: typically just take Virginia as the construction traffic is more tolerable as it's for just a short section and if the cycle of lights is better to get through.</p> <p>Q: What solutions would you suggest in the US 380 Corridor? A: I would prefer people stop moving here and development to slow, but alas, God has different plans. I had studied the traffic before we moved here 2 years ago.</p>	<p>Comment noted.</p> <p>Comment noted.</p> <p>Comment noted.</p> <p>Comment noted.</p> <p>Any future improvements will be designed to enhance safety.</p> <p>Comment noted.</p>

			Q: Which alignment(s) do you prefer in McKinney? A: Blue, Red, None, I Do Not Support Building a Freeway	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A:	No answer provided.
			Q: Which alignment(s) do you prefer in Farmersville? A:	No answer provided.
1067	Ed Dull	4/26/2018 Comment Form	380 & Custer west to Little Elm is currently clogged and very dangerous. The outer loop from 75 west to 289 or DNT would relieve the through traffic. Thus keeping 380 more for local traffic.	Comment noted. Initial traffic analysis taking into account future population projections indicates that even with the construction of the Collin County Outer Loop and other planned roadway improvements within the study area, US 380 would still experience a failing level of service for congestion and delay.
1068	Ed Kaylor	5/7/2018 Electronic Survey	Q: What is your interest in this study? A: Commuter, Nearby resident  Q: How often do you drive on the existing US 380? A: Daily  Q: Do you have any concerns with the existing US 380? A: Traffic flow at major intersections. With new Prosper HS @ Coit and 380 this will impact traffic at this intersection at peak times.  Q: If US 380 is congested, what alternative routes do you take? A: Virginia, Preston, Custer.	Comment noted.
1069	Ed lee	5/8/2018 Electronic Survey	Q: What solutions would you suggest in the US 380 Corridor? A: Overpasses at major intersections; loop around intersections with overpasses.  Q: Do you support the building of a freeway regardless of alignment? A: Possiblly.  Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Blue Alignment, The Red Alignment  Q: Which alignment(s) do you prefer in McKinney? A: Blue, Red  Q: Which alignment(s) do you prefer in Princeton? A: Blue, Yellow  Q: Which alignment(s) do you prefer in Farmersville? A: Blue  Q: What is your interest in this study? A: Property Owner  Q: How often do you drive on the existing US 380? A: Daily  Q: Do you have any concerns with the existing US 380? A: Yes, should have planned ahead. Made a divided highway with overpasses and service road.  Q: If US 380 is congested, what alternative routes do you take? A: Not really any good alternatives.	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A: The Green/Pink Alignment, The Blue Alignment  Q: Which alignment(s) do you prefer in McKinney? A: Pink, Blue	No answer provided.

				Q: Which alignment(s) do you prefer in Farmersville? A: None	Comment noted.
				Q: What is your interest in this study? A: Commuter, Property Owner, Nearby resident	Comment noted.
				Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
				Q: Do you have any concerns with the existing US 380? A: Yes, it is very congested especially around 75	Comment noted.
				Q: If US 380 is congested, what alternative routes do you take? A: Depends on where I am going, but most of the time there are not alternate routes. If coming from the south I take White Ave, or Virginia/Louisiana. Some times I take Wilmett if coming from the north.	Comment noted.
				Q: What solutions would you suggest in the US 380 Corridor? A: A loop/bypass would be nice, to route the through traffic around and keep 380/University available for traffic specific to University	Comment noted. Alignment options are still being evaluated.
				Q: Do you support the building of a freeway regardless of alignment? A: Yes, it needs to be done. I know there are a lot of residents who purchase what they thought of as country home, but progress is inevitable. They do not want a route running through their neighborhoods, but have no concerns for the residents currently affected by the continuing of 380 congestion.	Comment noted.
				Q: Which alignment(s) do you prefer in Princeton? A: The Blue Alignment, The Red Alignment	Comment noted.
				Q: Which alignment(s) do you prefer in McKinney? A: Blue, Yellow	Comment noted.
				Q: Which alignment(s) do you prefer in Farmersville? A: Blue	Comment noted.

Commenter Name	Date Received	Source	Comment Topic	Response
			Q: Do you have any concerns with the existing US 380? A: 380 is a dangerous highway which I avoid as much as possible. Construction, highway posted speed and number of stop lights and intersections makes it undesirable. Addition to that is the congestion at 380 and 75.	Comment noted.
1074	Edward Hodnicki	5/16/2018 Electronic Survey	Q: If US 380 is congested, what alternative routes do you take? A: take White and do a u turn at 380 when needing to go to Hoe Depot, Office Depot or other stores. If not, select another location.	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A: Need more over passes along 380. You can't have cars and trucks traveling at 60 miles an hour stopping every 1/4 mile.. Insane drive. You can lower speeds, time lights to better support travel or build overpasses where possible to eliminate the constant stop and go. At the intersection of 380 and 75, heading east bound, eliminate the traffic light for Racecar and back entrance into the shopping strip. Q: Do you support the building of a freeway regardless of alignment? A: Yes. Commuters need it...	Comment noted. Alignment options are still being evaluated. Traffic analysis indicates that providing overpasses, also known as grade separated intersections, along the existing US 380 would still experience a failing level of service for congestion and delay.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Blue Alignment	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: Blue	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A: Blue	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville? A: Blue	Comment noted.
			Q: What is your interest in this study? A: Property Owner	Comment noted.
			Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: Yes. 1) Multiple accidents weekly. 2) Large trucks blocking all 3 lanes from Preston through I-75. 3) Excessive speeding. 4) Loud traffic noise 24x7. TRUCKS & Traffic signals that are NOT synchronized. In order to keep the traffic moving.	Comments noted.
			Q: If US 380 is congested, what alternative routes do you take? A: I must use 380. There are no alternate routes in or out of my subdivision. We are sometimes trapped in the subdivision while frequent traffic accidents are being cleared. Virginia Pkwy	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A: 1) KEEP THE TRAFFIC MOVING BY TIMING THE LIGHTS! Please please please do a feasibility study. 2) DOT signs forcing all 10,000 GVW trucks to route around 380. Limit traffic to cars and small trucks only. Commercial vehicles with business in the corridor can get permits to use 380 on an as needed basis. Sync the lights, enforce truck traffic.	This project is a feasibility study. Suggestions to evaluate timing of signals will be considered.
			Q: Do you support the building of a freeway regardless of alignment? A: No. Regardless of alignment is a blank check. Show me the options and I'll weigh in.	Comment noted.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Blue Alignment. None. I Do Not Support Building a Freeway	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: Blue. None. I Do Not Support Building a Freeway	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A: Blue. None. I Do Not Support Building a Freeway	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville? A: Blue. None. I Do Not Support Building a Freeway	Comment noted.
			Q: What is your interest in this study? A: Nearby resident	Comment noted.
			Q: How often do you drive on the existing US 380? A: Weekly	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: Traffic.	Comment noted.

1076	Edward Thompson	5/15/2018	Electronic Survey	<p>Q: If US 380 is congested, what alternative routes do you take?  A: Virginia Parkway</p> <p>Q: What solutions would you suggest in the US 380 Corridor?  A: Any of the proposed solutions are fine with me but partial to red route.</p> <p>Q: Do you support the building of a freeway regardless of alignment?  A: Yes.</p> <p>Q: If US 380 is constructed as a freeway, which alignment do you prefer?  A: The Red Alignment</p> <p>Q: Which alignment(s) do you prefer in McKinney?  A: Red</p> <p>Q: Which alignment(s) do you prefer in Princeton?  A: Blue</p> <p>Q: Which alignment(s) do you prefer in Farmersville?  A: Blue</p> <p>Q: What is your interest in this study?  A: Nearby resident</p> <p>Q: How often do you drive on the existing US 380?  A: Weekly</p> <p>Q: Do you have any concerns with the existing US 380?  A: The area on and off of 75 is usually so crowded that it's quicker and easier to take surface streets, so residential areas around Louisiana/Virginia get a lot of traffic.</p> <p>Q: If US 380 is congested, what alternative routes do you take?  A: Wilson Creek and Redbud, or Wadill.</p> <p>Q: What solutions would you suggest in the US 380 Corridor?  A: A better on/off ramp is needed at 75. Major construction to turn 380 into a true highway with service roads could eventually benefit the area, but that would take many years and a lot of annoying construction. Local businesses would also take a hit.</p> <p>Q: Do you support the building of a freeway regardless of alignment?  A: Yes, as long as construction is undertaken with minimal traffic impact (road closures at night, etc.)</p> <p>Q: If US 380 is constructed as a freeway, which alignment do you prefer?  A: The Green/Pink Alignment</p> <p>Q: Which alignment(s) do you prefer in McKinney?  A: Green, Pink</p> <p>Q: Which alignment(s) do you prefer in Princeton?  A:</p> <p>Q: Which alignment(s) do you prefer in Farmersville?  A:</p> <p>Q: What is your interest in this study?  A: Nearby resident</p> <p>Q: How often do you drive on the existing US 380?  A: Daily</p> <p>Q: Do you have any concerns with the existing US 380?  A: Way too much traffic!!!!</p> <p>Q: If US 380 is congested, what alternative routes do you take?  A: Unfortunately there are no good viable alternatives, but I sometimes use Eldorado Pkwy just to avoid 380.</p> <p>Q: What solutions would you suggest in the US 380 Corridor?  A: Fly-overs.</p>	<p>Comment noted.</p>
1077	Elaine Carter	5/15/2018	Electronic Survey	<p>Q: If US 380 is congested, what alternative routes do you take? 1079	Elen Reynolds	N/A	Comment Form  My position is "NO" to all alignments submitted for consideration by TxDOT. If construction occurs on Hwy 380 it should include below grade road bed and cantilevered service road lanes. The southern ROW line presented should be moved south of the current sound barriers and "NOT" at the current sound barriers. If any bypass is chosen it should be routed west of the Soil Conservation Service Site la Reservoir.	Comment noted. Comment noted.
1080	Elijah	5/15/2018	Electronic Survey  Q: What is your interest in this study? A: Commuter, Outdoorsman/Trail Runner  Q: How often do you drive on the existing US 380? A: A couple times a year  Q: Do you have any concerns with the existing US 380? A: Too many stop lights  Q: If US 380 is congested, what alternative routes do you take? A: 635  Q: What solutions would you suggest in the US 380 Corridor? A: Fewer intersections where you have to stop as you're going west toward 287  Q: Do you support the building of a freeway regardless of alignment? 			Q: What is your interest in this study? A: Nearby resident	Comment noted.
			Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: US 380 does not rise any concerns for me. I enjoy taking 380, for I feel safe and the road is smooth. I wish, however, that the trees aligning this highway would not be demolished.	Any future improvement projects would include assessment of the potential impact on the human and natural environments.
			Q: If US 380 is congested, what alternative routes do you take? A: Sometimes I choose to take Virginia, but I am never forced to choose one or the other due to congestion. Usually, 380 is a faster route.	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A: I suggest the planting of more trees or greenery on the sides and in the medians of US 380. I feel as if US 380 has taken away a lot of what makes McKinney unique: nature.	Comment noted.
			Q: Do you support the building of a freeway regardless of alignment? A: No.	Comment noted.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: Green, Pink	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A: Green, Pink	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville? A: Green, Pink	Comment noted.
			Q: What is your interest in this study? A: Commuter	Comment noted.
			Q: How often do you drive on the existing US 380? A: A couple times a year	Comment noted.
			Q: Do you have any concerns with the existing US 380? A:	No answer provided.
			Q: What solutions would you suggest in the US 380 Corridor? A:	No answer provided.
			Q: Do you support the building of a freeway regardless of alignment? A:	No answer provided.

1099	Elizabeth Wang	5/14/2018 Electronic Survey		Tucker Hill's position is NO to all alignments due to potential loss of homes and devaluation of our neighborhood as a whole and adverse environmental and health implications. Notwithstanding our recommendation, if any freeway construction occurs on the existing 380 footprint adjacent to Tucker Hill, it must impose minimal right-of-way and noise pollution by means of cantilevered access lanes; a depressed highway, and sound barriers. Also, if any bypass option is chosen, it must be located as far west of Tucker Hill as possible; west of future Stonebridge; not on or bordering Tucker Hill.
1100	Ella Skauge	NA Comment Form		Comment noted. Any future improvement projects would include assessment of the potential impact on the human and natural environments.

				Q: Which alignment(s) do you prefer in Farmersville? A: Blue	Comment noted.
				I live in Tucker Hill and would be directly affected by all 5 alignments as presented. We moved into this neighborhood in November, 2016 and two months later started to hear rumblings about 380 being turned into a Limited Access Freeway. My husband and I were shocked and very dismayed as we chose this neighborhood because it is truly unique to all of north Texas. If you have never been to Tucker Hill you should visit it and realize its one-of-a-kind nature. Every home has a very prominent front porch which allows us to sit and "meet and greet" our neighbors as they walk by. There is a true sense of community which I have not felt in any of my previous neighborhoods. Our home is close enough to 380 that if a freeway were constructed we would end up with a sound barrier so close to our driveway would have to be careful not to run into it as backed out of my driveway. That is not at all what we want for this neighborhood or for the value of my home which I love. Tucker Hill's position is to say NO to all alignments as currently presented due to loss of homes and home valuations and the adverse effect to overall quality of life. There are ways to improve 380 from Reston Road to 75 other than a freeway (widening where necessary utilizing the current grassy median and at major intersections use grade separation flyover lanes, build right turn lanes at all turnoffs, etc.). Improvements on 380 and the build out of Wilmett and Bloomdale to six lane arterials as well as widening all of the north/south routes north of 380 would go a long way to help the flow of traffic. It is up to Collin County planners to begin the transformation of these highways BEFORE they allow the rate of growth as predicted. Thank you for your consideration! [REDACTED]	Comment noted. Alignment options and roadway configurations are still being evaluated. Any future improvement projects would include assessment of the potential impact on the human and natural environments.

				Q: What is your interest in this study? A: Property Owner, Nearby resident	Comment noted.
				Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
				Q: Do you have any concerns with the existing US 380? A: Speeding, careless weaving drivers! Excessive speed, excessive truck usage	Comment noted.
				Q: If US 380 is congested, what alternative routes do you take? A: typically do not have to go very far on 380, and will take the nearest north/south route.	Comment noted.
				Q: What solutions would you suggest in the US 380 Corridor? A: There are areas that could be widened in the business district. I live on the first block of Tucker Hill closest to 380. Since my home would be directly impacted either by being torn down or have a sound barrier right at my back alley driveway an expansion of the current roadway would be totally unacceptable. The reason we purchased in Tucker Hill less than 18 months ago was because it was a truly unique neighborhood. We had no idea that an expansion of 380 was being planned and were not told of this when we purchased. We understand 380 does need traffic relief and could be in favor of a bypass that would run as close to Custer road northbound as is feasible. Reduce/enforce speed limits, coordinate lights, better limit truck traffic.	Comment noted.
				Q: Do you support the building of a freeway regardless of alignment? A: NO Obviously it could not support the freeway using the current 380 route as my home is a stones throw to 380 now, it would be devastating for my home value and for one of the prettiest neighborhoods in North Texas. With all of the current and planned new build of commercial developments it seems ludicrous to wipe out so much of that in order to retrofit a freeway in the current space. I am in favor of any alignment that takes the traffic further north as that is where future development will occur anyway.	Comment noted.

## Comment Response Matrix

Commenter Name	Date Received	Source	Comment Topic	Response
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment, The Blue Alignment, The Red Alignment	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: Blue	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A: Green	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville? A: Blue	Comment noted.
			Q: What is your interest in this study? A: Commuter, Nearby resident	Comment noted.
			Q: How often do you drive on the existing US 380? A: Weekly	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: Yes, the traffic conditions are concerning and they backed up traffic in the afternoons are a nightmare.	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A: We avoid 380 at those times when possible. South on +23 to Panther Creek and Eldorado are good options.	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A: The infrastructure should have been planned before the explosion of new neighborhoods and businesses. The lack of planning is a headache for all in this area	Comment noted.
			Q: Do you support the building of a freeway regardless of alignment? A: No.	Comment noted.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: Green, Pink	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A: Green, Pink	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville? A: Green, Pink	Comment noted.
			Q: What is your interest in this study? A: Property Owner	Comment noted.
			Q: How often do you drive on the existing US 380? A: Monthly	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: Not particularly	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A: El Dorado	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A: Make it more of a "Main Street" with urban, multi-use development. We need public transportation options!	Northern extensions of existing and future rail corridors are being evaluated by others; however, transit options are not included in the proposed project. Transit is considered in NCTCOGs MTP.
			Q: Do you support the building of a freeway regardless of alignment? A: Absolutely not. A freeway will destroy Old Town McKinney. The reason there has been such a popular resurgence down there is because it is NOT part of the freeway storm that is North Dallas. Walking, trolleys, biking... all of these things are integral to daily life down there. A freeway will not solve the problem, it will exacerbate the issue.	Comment noted.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: I Do Not Support Building a Freeway	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: I Do Not Support Building a Freeway	Comment noted.
1114	Emily Helyey	5/12/2018	Electronic Survey	
1115	Emily Hornsby	5/10/2018	Electronic Survey	

Commenter Name	Date Received	Source	Comment Topic	Response
			Q: Which alignment(s) do you prefer in Princeton? A: I Do Not Support Building a Freeway	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville? A: I Do Not Support Building a Freeway	Comment noted.
			Q: What is your interest in this study? A: Property Owner	Comment noted.
			Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: 380 is wide enough but the roadway doesn't provide enough space for traffic when exiting the roadway. 380 is highly inefficient. Please see solutions comment for concerns in report. The traffic is getting heavier with each new commercial development. Cars slow to near stop before turning in to a right hand parking lot of business causing all cars traveling on 380 behind them to slam on their breaks. The accidents out front of my neighborhood, Tucker Hill, are almost daily and it's only a matter of time before someone is killed by the numerous red light runners at the intersection.	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A: South to Virginia or Eldorado. 121 or a southern surface street (Virginia or Eldorado); I take Custer or Lake Forest down to Virginia.	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A: Improve the existing infrastructure with adaptive traffic signal control systems, relocated driveways, increased and enhanced turn bays, improved on-site traffic circulation at retail centers and grade separated intersections at Hardin, Lake Forest and Custer. Please see Google slides for recommendations. <a href="https://docs.google.com/presentation/d/1z9sKIB-EAnpDTjEPV84EbjEiFVEy26Bv/8040izv5Y">https://docs.google.com/presentation/d/1z9sKIB-EAnpDTjEPV84EbjEiFVEy26Bv/8040izv5Y</a> ; The addition of right turn bays in front of every retail parking lot so cars can safely exit the flow of traffic. Providing commuters with a nonstop toll road or freeway loop to cut across the northern part of the metroplex.	Comment and suggestions for adaptive traffic signal control systems, relocated driveways, increased and enhanced turn bays, improved on-site traffic circulation, and grade separated intersections noted. Alignment options are still being evaluated. Tolling is not being considered as an option for funding.
			Q: Do you support the building of a freeway regardless of alignment? A: Tucker Hill's position is NO to all alignments due to potential loss of homes and devaluation of our neighborhood as a whole and adverse environmental and health implications. Notwithstanding our recommendation, if any freeway construction occurs on the existing 380 footprint adjacent to Tucker Hill, it must impose minimal right-of-way and noise pollution by means of cantilevered access lanes; a depressed highway, and sound barriers. Also, if any bypass option is chosen, it must be located as far west of Tucker Hill as possible; west of future Stonebridge; not on or bordering Tucker Hill; support building the outer loop, connecting 121 and optimizing the existing alignment of 380. 380 should function more like Preston Road in Frisco. Yes	Any future improvement projects would include assessment of the potential impact on the human and natural environments. Initial traffic analysis determined that even with the construction of the Collin County Outer Loop and planned roadway improvements from study area municipalities and Collin County, that based on future population projections, US 380 would still experience a failing level of service for congestion and delay.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Blue Alignment, None, I Do Not Support Building a Freeway	Comment noted.

				Q: What is your interest in this study? A: Daily	Comment noted.
				Q: Do you have any concerns with the existing US 380? A: The amount of users creates extreme congestion most of the business day on week days. The lights and other people turning off the road sneak up on people and I see accidents at least twice a week due to this.	Comment noted.
				Q: If US 380 is congested, what alternative routes do you take? A: Eldorado or Virginia	Comment noted.
				Q: What solutions would you suggest in the US 380 Corridor? A: creating a freeway to cut down on stop and go traffic due to stop lights	Comment noted.
				Q: Do you support the building of a freeway regardless of alignment? A: Yes, a freeway would allow for less stop and go traffic, making commuting a much more enjoyable experience.	Comment noted.
				Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment	Comment noted.
				Q: Which alignment(s) do you prefer in McKinney? A: Green, Pink	Comment noted.
				Q: Which alignment(s) do you prefer in Princeton? A: Green, Pink, Blue	Comment noted.

			Q: Which alignment(s) do you prefer in Farmersville? A: Green, Pink, Blue	Comment noted.
			Q: What is your interest in this study? A: Commuter, Property Owner, Nearby resident	Comment noted.
			Q: How often do you drive on the existing US 380? A: Weekly	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: No	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A: There are countless other options. Any other major street in McKinney is an option. 121, eldorado, Virginia, taking any perpendicular crossroad to circumnavigate the traffic. But traffic is rarely bad enough for me to really have to go out of my way.	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A: Just widen it by one lane on each side. Traffic really isn't that bad on 380 though. However, I would be more in favor of widening 380 than making Virginia wider. I would hate to see eldorado and Virginia become as high volume as 380 as they are through the center of town and are among old neighborhoods. People who live on these roads do so because they are sweet neighborhoods, and are away from the heavier traffic of 121 and 380. If you widen 380 to ease the traffic, more people would opt to take 380 and would not congest Virginia And eldorado. The city could save money by widening 380 more if it is already a main inter-city highway instead of widening all other east-west roads. The reason people have started taking Virginia more is because there is less traffic. If 380 were widened, people would stay on 380 to get places. But if you leave 380 as it is, people will fill up Virginia, and you will widen it, and then they will fill up eldorado and you will widen it. The other option would be to make 380 a traffic light-less Highway, and build a smaller access road system off of it that runs to the stores and neighborhoods that line it, just like 121. Diverting the highway through McKinney's parks is a huge mistake. The coziness and beauty of McKinney is why people move here. You will lose so much of our charm, uniqueness, and worth if you continue to tear down our trees, parks, and natural lots. We will look just like any other Piano or Richardson soon.	Comment noted. Alignment options are still being evaluated.
			Q: Do you support the building of a freeway regardless of alignment? A: No, my support of the building of a freeway is contingent on alignment. It is directly connected to the alignment. You will lose support if you make the wrong decision and divert it through our park.	Comment noted.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment, None, I Do Not Support Building a Freeway	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: Green, Pink, None, I Do Not Support Building a Freeway	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A: Green, Pink, None, I Do Not Support Building a Freeway	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville? A: Green, Pink, None, I Do Not Support Building a Freeway	Comment noted.
			Q: What is your interest in this study? A: Property Owner	Comment noted.
			Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: No	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A: White or Cluster	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A:	No answer provided.
			Q: Do you support the building of a freeway regardless of alignment? A: No	Comment noted.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: I Do Not Support Building a Freeway	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: Blue, I Do Not Support Building a Freeway	Comment noted.
1120	Emily Pennington	5/14/2018 Electronic Survey	Q: If US 380 is congested, what alternative routes do you take? A: Just widen it by one lane on each side. Traffic really isn't that bad on 380 though. However, I would be more in favor of widening 380 than making Virginia wider. I would hate to see eldorado and Virginia become as high volume as 380 as they are through the center of town and are among old neighborhoods. People who live on these roads do so because they are sweet neighborhoods, and are away from the heavier traffic of 121 and 380. 				<p>Q: How often do you drive on the existing US 380?</p> <p>A: Daily</p>	Comment noted.
				<p>Q: Do you have any concerns with the existing US 380?</p> <p>A: Yes - it is becoming a multiple lane scar and barrier cutting across Collin County</p>	Comment noted.
				<p>Q: If US 380 is congested, what alternative routes do you take?</p> <p>A: Virginia, Eldorado, or even 121</p>	Comment noted.
				<p>Q: What solutions would you suggest in the US 380 Corridor?</p> <p>A: Let's not repeat the disaster inflicted on Dallas with I35, I345, I45, I30 and especially 366. TxDOT has already inflicted enough damage on the city of McKinney with its 16+ lane scar called Hwy77 ripping through the town, dividing noise energy and complete with Kriegs lighting that affects neighborhoods for miles around. Let 380 from both east and west feed into a 4 lane 380 and other surface streets in McKinney. A bypass loop could be built far to the north with the least impact.</p>	Comment noted. Any future improvement projects would include assessment of the potential impact on the human and natural environments.
1130	Eric Beeby	5/15/2018	Electronic Survey	<p>Q: Do you support the building of a freeway regardless of alignment?</p> <p>A: Absolutely not!!!!!!!!!!!!!!</p>	Comment noted.

			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment, The Blue Alignment	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: Blue, Red	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A: Blue	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville? A: Blue	Comment noted.
			Q: What is your interest in this study? A: Commuter, Property Owner, Nearby resident	Comment noted.
			Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: Too much traffic through little elm area!!!	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A: I don't really have any alternate routes as the only entrance to my neighborhood is off of 380.	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A: please make it at least 6 lanes and lime the lights better.	Comment noted.
			Q: Do you support the building of a freeway regardless of alignment? A:	No answer provided.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: None	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A: None	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville? A: None	Comment noted.
			Q: What is your interest in this study? A: Commuter, Property Owner, Nearby resident	Comment noted.
			Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A: I will either take Virginia to 75 or just not head east towards downtown at all.	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: The current 380 is already getting too congested. Add in the amount of large truck traffic due to all the construction and it is a frustrating road to drive.	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A: 1) Turn the current 380 in to Business 380 and create a new, main 380 which would bypass the bulk of the city. 2) Turn the lights on Business 380 so that you can actually make more than one green light while doing the speed limit. 3) Consider limiting or preventing all large truck traffic on the current 380 unless they are doing a local delivery.	Comment noted.
			Q: Do you support the building of a freeway regardless of alignment? A: It depends on the alignment. I would rather not have a freeway less than two miles from my house. If it could begin the "bypass" prior to reaching Stonebridge, I would support it.	Comment noted.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Blue Alignment, The Red Alignment, The Yellow Alignment	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: Blue	Comment noted.

Commenter Name	Date Received	Source	Comment Topic	Response
			Q: Which alignment(s) do you prefer in Princeton? A: Blue, Yellow	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville? A: Blue, Yellow	Comment noted.
			Q: What is your interest in this study? A: Nearby resident	Comment noted.
			Q: How often do you drive on the existing US 380? A: Weekly	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: Yes too much traffic	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A: roads to S of 380 both E-W & N-S	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A: need public transportation network double deck through McKinney/75 area	Comment noted.
			Q: Do you support the building of a freeway regardless of alignment? A: Yes	Comment noted.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: Green, Pink	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A: Green, Pink	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville? A: Green, Pink	Comment noted.
1144	Eric Saenger	5/11/2018 Paper Survey	Stephen and Tony, hope you had a great weekend. I'm a Tucker Hill resident and last week I spoke to each of you on the phone and also at the Prosper meeting. As you know we as a neighborhood have been conducting many neighborhood meetings and discussions and one alignment we have been discussing in detail is the pink option (which I believe favors our neighborhood more than the green alignment) along their current 380 path. With that said, Tony one thing you and I discussed was options around a depressed, elevated or grade level highway in certain areas along 380's current path. We as a neighborhood have been discussing the possibility to have 380 depressed along Tucker Hill. Is this an option? if so, what is the minimum footprint in that option and is there a way to get a high level sketch of what that might look like. Another question I have is regarding the feasibility study that was done in August of 2016. In that study there were a couple of things that stood out. 1. The projected traffic growth numbers along 380 didn't change much at all in the long term plan through 2040. So we are curious what changed in the last couple of years to now project the dramatic growth along 380?	TxDOT is open to reviewing/studying the options you describe (depressed, at-grade, or elevated roadway sections), pending more detailed analysis and the completion of our traffic analysis (using a full-build out population in Collin County). To expand on this a bit more, we sized the 350 - 400 wide alignments brought forward to the public meeting with the understanding that the full build-out traffic models (outstanding, not yet performed) could yield significant projected future traffic volumes, necessitating the full 350-400 width. Our traffic modelling team is currently working on these models and expect those results to have a large impact on what size of freeway (# of lanes, width of ROW) is ultimately needed, allowing us to start reviewing freeway typical section options (depressed, at-grade, or elevated). So, until those actions are taken, we unfortunately do not know what minimum width is needed for the corridor.

	Commenter Name	Date Received	Source	Comment Topic	Response
1145	Eric Sellinger	5/7/2018	Email	<p>As far as your second question regarding the traffic from 2016 TxDOT feasibility study, the scope of that project was much more limited and interim focused than the current TxDOT feasibility study. A few different points here.</p> <ul style="list-style-type: none"> <li>The 2016 study took a "bottom up" approach focusing on intersection improvements , which started looking at minor improvements first, gradually increasing in size until grade-separated intersections and freeway options were studied. The traffic volumes used were based on a combination of existing traffic counts from cities and peak hour (rush hour) projections from the North Central Texas Council of Governments (NCTCOG) year 2040 model. Key here is the 2016 study focused on intersections &amp; peak hour volumes, while the current study is focusing more on the corridor as a whole &amp; daily traffic volumes.</li> <li>I'm not sure what scenarios you are comparing, but when comparing the existing 2015 counts (Appendix B-1) to the 2040 alternative 1 "no-build" (Appendix B-3), you won't see a significant increase in traffic volumes because the roadway is at saturation level and cannot accept any more vehicles during the peak period in 2040. Alternative 3 "Freeway with frontage roads" (Appendix B-7) does show a large increase in volumes throughout the corridor as a whole.</li> <li>Finally, we are now using NCTCOG's 2045 model which has adjusted growth rates (up from the 2040 model) to account for the latest population projections. There is also 5 year's worth of additional traffic growth built into 2045 model compared to the 2040 model.</li> </ul>	
				<p>2. There is a schematic (see attached) in that presentation that showed the 6 line divided highway with service roads and in that drawing it appeared to be 250ft in width. I know the lines current depicted in the 5 proposed alignment represents 400ft. What changed there?</p>	Comment noted.
				<p>Q: What is your interest in this study?  A: Property Owner,</p> <p>Q: How often do you drive on the existing US 380?  A: Daily</p>	Comment noted.
				<p>Q: Do you have any concerns with the existing US 360?  A: It is very dangerous with all the construction trucks on the highway. They do not want to stop at any light and often run red lights.</p> <p>Q: If US 360 is congested, what alternative routes do you take?  A: Multiple side roads to get to 75 from Custer Road area.</p>	Comment noted.
				<p>Q: What solutions would you suggest in the US 360 Corridor?  A: Limited access freeway with 3 lanes in each direction so as not to disrupt and homeowners and business owners.</p> <p>Q: Do you support the building of a freeway regardless of alignment?  A: 100% against the by-pass options. Limited access on existing 360 foot print with minimal impact on Tucker Hill since it is the narrowest part.</p> <p>Q: If US 360 is constructed as a freeway, which alignment do you prefer?  A: None</p>	Comment noted. Alignment options are still being evaluated.
				<p>Q: Which alignment(s) do you prefer in McKinney?  A: None</p> <p>Q: Which alignment(s) do you prefer in Princeton ?  A: None</p> <p>Q: Which alignment(s) do you prefer in Farmersville?  A: None</p>	Comment noted.
				<p>Q: What is your interest in this study?  A: Property Owner, Nearby resident</p> <p>Q: How often do you drive on the existing US 380?  A: Weekly</p> <p>Q: Do you have any concerns with the existing US 380?  A: Safety with high speeds, commercial traffic mixed with local traffic.</p> <p>Q: If US 380 is congested, what alternative routes do you take?  A:</p>	No answer provided.

			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: Green, Pink, Blue	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A: Green, Pink	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville? A: Green, Pink	Comment noted.
			Q: What is your interest in this study? A: Commuter, Nearby resident	Comment noted.
			Q: How often do you drive on the Existing US 380? A: Daily	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: The current traffic and construction is slowly increasing my commute time and is making me seek alternate routes to and from work.	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A: I will cut across to Eldorado Pkwy and take it into Frisco for work.	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A: Create a raised highway so that stop and go traffic is eliminated unless you exit to the below service road.	Comment noted.
			Q: Do you support the building of a freeway regardless of alignment? A: I do support it. But do not support potentially forcing people from their homes.	Comment noted.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: Green, Pink	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A:	No answer provided.
			Q: Which alignment(s) do you prefer in Farmersville? A:	No answer provided.
			Q: What is your interest in this study? A: Nearby resident	Comment noted.
			Q: How often do you drive on the Existing US 380? A: Daily	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: It is big enough	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A: Virginia	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A: Use what's already there	Comment noted.
			Q: Do you support the building of a freeway regardless of alignment? A: No	Comment noted.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Red Alignment	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: Red	Comment noted.

Comment Response Matrix

	Commenter Name	Date Received	Source	Comment Topic	Response
1175	Ernest Sgeo	5/17/2018	Survey	Q: Do you support the building of a freeway regardless of alignment?  A: No. The alignment needs to take into account areas of future growth which are north as well as the impact to the quality of life of the already settled neighborhoods. The elimination of water access areas for roads will destroy the communities. I can't say for example that the expansion of 820 near North Richland Hill helped the community. It's not just about traffic expediency. Mega roads negatively affect the fabric of society and in the end makes us all worse off.  Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: None	Any future improvement projects would include assessment of the potential impact on the human and natural environments.
				Q: Which alignment(s) do you prefer in McKinney? A: None	Comment noted.
				Q: Which alignment(s) do you prefer in Princeton? A: None	Comment noted.
				Q: Which alignment(s) do you prefer in Farmersville? A: None	Comment noted.
				Q: What is your interest in this study? A: Nearby resident	Comment noted.
				Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
				Q: Do you have any concerns with the existing US 380? A: lack of lighting, lack of land dividers	Comment noted. TxDOT plans to construct a safety improvement project to add a raised median on US 380 from FM 1827 to CR 985; this project will be letting for bids in August 2018, and construction is anticipated to begin during the fall of 2018.
				Q: If US 380 is congested, what alternative routes do you take? A: Coit and Preston Southbound	Comment noted.
				Q: What solutions would you suggest in the US 380 Corridor? A: widening more lanes and overpasses at major intersections	Comment noted.
				Q: Do you support the building of a freeway regardless of alignment? A: no, must see alignment	Comment noted.
				Q: If US 380 is constructed as a freeway, which alignment do you prefer? A:	No answer provided.
				Q: Which alignment(s) do you prefer in McKinney? A:	No answer provided.
				Q: Which alignment(s) do you prefer in Princeton? A:	No answer provided.
				Q: Which alignment(s) do you prefer in Farmersville? A:	No answer provided.
				Q: What is your interest in this study? A: Property Owner	Comment noted.
				Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
				Q: Do you have any concerns with the existing US 380? A: 380 congestion	Comment noted.
				Q: If US 380 is congested, what alternative routes do you take? A: Taylor-Burk Drive and F5	Comment noted.
				Q: What solutions would you suggest in the US 380 Corridor? A: Prefer the yellow line route	Comment noted.
				Q: Do you support the building of a freeway regardless of alignment? A: Yes	Comment noted.

			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Blue Alignment, The Red Alignment, The Yellow Alignment	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: Blue	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A: Yellow	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville? A: Yellow	Comment noted.
			Q: What is your interest in this study? A: Commuter, Property Owner	Comment noted.
			Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: The current 380 is not enough for the existing developments in the area. Traffic congestion is part of my routine every day and the lack of effective connections to other major tollways such as DALLAS North Tollway is concerning.	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A: I use 75 to Sam Rayburn Tollway.	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A: This should be a freeway/tollway between McKinney and Denton ...even on a northern alignment.	Suggestion for a freeway noted. Tolling is not being considered as an option for funding.
1176	Ernesto Zayas	5/9/2018 Electronic Survey	Q: Do you support the building of a freeway regardless of alignment? A: Yes	Comment noted.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Blue Alignment	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: Blue	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A: Blue	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville? A: Pink	Comment noted.
			Q: What is your interest in this study? A: Commuter, Property Owner	Comment noted.
			Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: Congestion	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A: White, Prosper Trail	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A: Expand Virginia and Eldorado to 6 divided lanes from 75 to DNT	Comment noted.
			Q: Do you support the building of a freeway regardless of alignment? A: No	Comment noted.
1177	Erwin Wardjojo	5/11/2018 Electronic Survey	Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: Green, Pink	Comment noted.

				<p>Q: Do you have any concerns with the existing US 380?</p> <p>A: too much traffic.</p>	Comment noted.
				<p>Q: If US 380 is congested, what alternative routes do you take?</p> <p>A: don't have options</p>	Comment noted.
				<p>Q: What solutions would you suggest in the US 380 Corridor?</p> <p>A: bridges, overpasses</p>	Comment noted.
1186	Fabia Cueva	4/26/2018	Electronic Survey	<p>Q: Do you support the building of a freeway regardless of alignment?</p> <p>A: no</p>	Comment noted.

Commenter Name	Date Received	Source	Comment Topic	Response
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: Green, Pink	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A: Blue	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville? A: Blue	Comment noted.
			Q: What is your interest in this study? A: Property Owner, Nearby resident	Comment noted.
			Q: How often do you drive on the Existing US 380? A: Daily	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: Too many construction vehicles in all lanes. Should be limited. Also all lights should offer left turns on yield to increase traffic flow.	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A:	No answer provided.
			Q: What solutions would you suggest in the US 380 Corridor? A: Limit construction vehicles to one or two lanes and allow turns with yield light instead of sitting and waiting for green.	Comment noted.
			Q: Do you support the building of a freeway regardless of alignment? A: No	Comment noted.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: Pink	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A: Pink	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville? A: Pink	Comment noted.
			Q: What is your interest in this study? A: Other	Comment noted.
			Q: How often do you drive on the existing US 380? A: A couple times a year	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: Started seeing congestion in past 5 years	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A: Take 380 @ the moment.	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A: Long term: Elevated urban freeway conversion with frontage road connectivity. Mid term: Grade separations @ major connections like DNT, Preston, ..... Short term: Signal coordination/stimulus bays/ geometric improvement to intersections	Comment noted. Alignment options are still being evaluated.
			Q: Do you support the building of a freeway regardless of alignment? A: Yes, that's not only going to cater the growing need but will bring economic wealth and development to area	Comment noted.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment, The Blue Alignment	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: Green, Pink, Blue	Comment noted.

1197	Frances van Tassel	5/3/2018	Electronic Survey	<p>Q: Do you support the building of a freeway regardless of alignment?</p> <p>A: No. My rationale is that turning highway 75 into a freeway did nothing for solving the rush-hour congestion along that freeway so I see no logic in thinking that a freeway would solve rush-hour congestion on highway 380. I travel 380 from Custer to Denton almost daily and other than rush hour, there often is little traffic, only increasing numbers of traffic lights. Overpasses could help cut down travel time by avoiding some of those major intersections with traffic lights.</p> <p>Q: If US 380 is constructed as a freeway, which alignment do you prefer?</p> <p>A: I Do Not Support Building a Freeway</p> <p>Q: Which alignment(s) do you prefer in McKinney?</p> <p>A: I Do Not Support Building a Freeway</p> <p>Q: Which alignment(s) do you prefer in Princeton?</p> <p>A: I Do Not Support Building a Freeway</p> <p>Q: Which alignment(s) do you prefer in Farmersville?</p> <p>A: I Do Not Support Building a Freeway</p> <p>Q: What is your interest in this study?</p> <p>A: Commuter, Nearby resident</p> <p>Q: How often do you drive on the existing US 380?</p> <p>A: Daily</p> <p>Q: Do you have any concerns with the existing US 380?</p> <p>A: bottleneck to/from Dallas Tollway; travelling east from Coit to Highway 75 slow due to traffic lights not synchronized.</p> <p>Q: If US 380 is congested, what alternative routes do you take?</p> <p>A: going East from Lake Forest to Highway 75 take Wimeth and back roads; going west to merge into Dallas Tollway. I take Preston south (also gets congested) and then take Rock Hill west to merge into Dallas Tollway. Coming north on Tollway connection to 380 is horrible...</p> <p>Q: What solutions would you suggest in the US 380 Corridor?</p> <p>A: Extend Dallas Tollway north to alleviate traffic going north past 380; improve merging from Dallas Tollway to 380 east by having at least two lanes that don't have to wait for light, just yield. Improve synchronizing for 380 going east from Preston to Highway 85</p> <p>Q: Do you support the building of a freeway regardless of alignment?</p> <p>A: Yes; if the goal is to speed up traffic I am all for it.</p> <p>Q: If US 380 is constructed as a freeway, which alignment do you prefer?</p> <p>A: The Blue Alignment</p> <p>Q: Which alignment(s) do you prefer in McKinney?</p> <p>A: Blue</p> <p>Q: Which alignment(s) do you prefer in Farmersville?</p> <p>A: Blue</p> <p>Q: What is your interest in this study?</p> <p>A: Commuter, Property Owner</p> <p>Q: How often do you drive on the existing US 380?</p> <p>A: Daily</p> <p>Q: Do you have any concerns with the existing US 380?</p> <p>A: Yes. 380 is just a two lane road on each side. My biggest concern is the population is increasing dramatically and my 10 minute commute to work is easily 30 minutes on most days. Second, my other concern is the amount of accidents that happen on the stretch of McKinney and FM 1827 to CR 985; this project will be letting for bids in August 2018, and construction is anticipated to begin during the fall of 2018.</p> <p>Q: If US 380 is congested, what alternative routes do you take?</p> <p>A: 546</p> <p>Q: What solutions would you suggest in the US 380 Corridor?</p> <p>A: An expansion of 380, as well as an alternate route to bypass McKinney.</p> <p>Q: Do you support the building of a freeway regardless of alignment?</p> <p>A: yes.</p>	<p>Comment noted. Traffic analysis indicates that providing overpasses, also known as grade separated intersections, along the existing US 380 would still experience a failing level of service for congestion and delay.</p> <p>Comment noted.</p>
1198	Francisco Britt	5/7/2018	Electronic Survey	<p>Q: Do you have any concerns with the existing US 380?</p> <p>A: Yes. 380 is just a two lane road on each side. My biggest concern is the population is increasing dramatically and my 10 minute commute to work is easily 30 minutes on most days. Second, my other concern is the amount of accidents that happen on the stretch of McKinney and FM 1827 to CR 985; this project will be letting for bids in August 2018, and construction is anticipated to begin during the fall of 2018.</p> <p>Q: If US 380 is congested, what alternative routes do you take?</p> <p>A: 546</p> <p>Q: What solutions would you suggest in the US 380 Corridor?</p> <p>A: An expansion of 380, as well as an alternate route to bypass McKinney.</p> <p>Q: Do you support the building of a freeway regardless of alignment?</p> <p>A: yes.</p>	<p>Comment noted.</p> <p>Comment noted.</p> <p>Comment noted.</p>
1199	Francisco Penalver	5/8/2018	Electronic Survey	<p>Q: Do you have any concerns with the existing US 380?</p> <p>A: Yes. 380 is just a two lane road on each side. My biggest concern is the population is increasing dramatically and my 10 minute commute to work is easily 30 minutes on most days. Second, my other concern is the amount of accidents that happen on the stretch of McKinney and FM 1827 to CR 985; this project will be letting for bids in August 2018, and construction is anticipated to begin during the fall of 2018.</p> <p>Q: If US 380 is congested, what alternative routes do you take?</p> <p>A: 546</p> <p>Q: What solutions would you suggest in the US 380 Corridor?</p> <p>A: An expansion of 380, as well as an alternate route to bypass McKinney.</p> <p>Q: Do you support the building of a freeway regardless of alignment?</p> <p>A: yes.</p>	<p>Comment noted.</p> <p>Comment noted.</p> <p>Comment noted.</p>

	Commenter Name	Date Received	Source	Comment Topic	Response
				Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment, The Red Alignment	Comment noted.
				Q: Which alignment(s) do you prefer in McKinney? A: Green, Pink, Blue	Comment noted.
				Q: Which alignment(s) do you prefer in Princeton? A: Green, Pink, Blue	Comment noted.
				Q: Which alignment(s) do you prefer in Farmersville? A: None	Comment noted.
				Q: What is your interest in this study? A: Commuter, Property Owner	Comment noted.
				Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
				Q: Do you have any concerns with the existing US 380? A: Congestion	Comment noted.
				Q: If US 380 is congested, what alternative routes do you take? A: Custer (24/78) to 121	Comment noted.
				Q: What solutions would you suggest in the US 380 Corridor? A: I personally liked the grade separated intersections option.	Comment noted. Traffic analysis indicates that providing overpasses, also known as grade separated intersections, along the existing US 380 would still experience a failing level of service for congestion and delay.
				Q: Do you support the building of a freeway regardless of alignment? A: I'm hesitant, only because these seem to turn into toll roads and we have too many of those already	Comment noted. Tolling is not being considered as a funding source for this project.
				Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment, The Blue Alignment	Comment noted.
				Q: Which alignment(s) do you prefer in McKinney? A: Green, Pink, Blue	Comment noted.
				Q: Which alignment(s) do you prefer in Princeton? A: Green, Pink, Blue	Comment noted.
				Q: Which alignment(s) do you prefer in Farmersville? A: Green, Pink, Blue	Comment noted.
				Q: What is your interest in this study? A: Commuter, Property Owner, Nearby resident	Comment noted.
				Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
				Q: Do you have any concerns with the existing US 380? A: Not yet.	Comment noted.
				Q: If US 380 is congested, what alternative routes do you take? A:	No answer provided.
				Q: What solutions would you suggest in the US 380 Corridor? A: No traffic lights. More on ramp off ramp	Comment noted.
				Q: Do you support the building of a freeway regardless of alignment? A: Yes	Comment noted.
				Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment, The Blue Alignment	Comment noted.
				Q: Which alignment(s) do you prefer in McKinney? A: Blue, Red	Comment noted.

				Q: What is your interest in this study? A: Commuter, Property Owner, Nearby resident	Comment noted.
				Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
				Q: Do you have any concerns with the existing US 380? A: 1. Too many stop lights 2. Should not have people slowing to turn right off 380 (ie the turn into 3rd Monday trade days etc)	Comment noted.
				Q: If US 380 is congested, what alternative routes do you take? A: None, I just wait	Comment noted.
				Q: What solutions would you suggest in the US 380 Corridor? A: Double Decker highway	Comment noted.
				Q: Do you support the building of a freeway regardless of alignment? A: No	Comment noted.
				Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment	Comment noted.
				Q: Which alignment(s) do you prefer in McKinney? A: Green, Pink	Comment noted.
				Q: Which alignment(s) do you prefer in Princeton? A: Green, Pink	Comment noted.
				Q: Which alignment(s) do you prefer in Farmersville? A: Green, Pink	Comment noted.
1204	Frank Hall	5/7/2018	Electronic Survey	We live in Walnut Grove █ We are living in our "forever home". We are in our late 60's and early 70's. We are too old to start over. Ever since the bypass has come up, we feel like we have a cloud over our head. There are homes for sale in our neighborhood for the first time in years that haven't sold. Our property values have decreased. It is not fair.	Comment noted. Any future improvement projects would include assessment of the potential impact on the human and natural environments.
				Q: What is your interest in this study? A: Nearby resident	Comment noted.
				Q: How often do you drive on the existing US 380? A: Weekly	Comment noted.
				Q: Do you have any concerns with the existing US 380? A: No, it's fine the way it is.	Comment noted.
				Q: If US 380 is congested, what alternative routes do you take? A: I've lived here a long time, so I know which backroads to take if I don't want to use the highway.	Comment noted.
				Q: What solutions would you suggest in the US 380 Corridor? A:	No answer provided.
1205	Fred & Cindy Vogel	4/26/2018	Comment Form	Q: Do you support the building of a freeway regardless of alignment? A: Yes,	Comment noted.
				Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment	Comment noted.

			Q: How often do you drive on the existing US 380?	Comment noted.
			A: Daily	
			Q: Do you have any concerns with the existing US 380?	Comment noted.
			A: The lights are not synched on 380 in Collin County. Fix that problem and 380 would be vastly improved.	
			Q: If US 380 is congested, what alternative routes do you take?	No answer provided.
			A:	
			Q: What solutions would you suggest in the US 380 Corridor?	Comment noted. Any future improvement projects would include assessment of environmental and health implications. Notwithstanding our recommendation, if any freeway construction occurs on the existing 380 footprint adjacent to Tucker Hill, it must impose minimal right-of-way and noise pollution by means of cantilevered access lanes; a depressed Stonebridge Drive; not on or bordering Tucker Hill.
			Q: Do you support the building of a freeway regardless of alignment?	No answer provided.
			A:	
			Q: If US 380 is constructed as a freeway, which alignment do you prefer?	Comment noted.
			A: I Do Not Support Building a Freeway

			Q: Which alignment(s) do you prefer in Farmersville? A: Blue	Comment noted.
1228	Gary Gibson	5/3/2018 Comment Form	My wife and I live at [REDACTED] & have a home and llama rescue farm there. We have lived there 30 yrs and hope to build our dream home and spend the rest of our lives there. Both our parents lived there with us before they passed away-it is like heaven here. High on a hill overlooking the creek and pecan grove. We cannot accept either the yellow or red alignments because they would destroy the peace and quiet of our neighborhood & affect the local flavor of our area-the graveyard, creek, reservoir, horse farms & such. Please-we've lived there & want to die peacefully there.	Comment noted. Any future improvement projects would include assessment of the potential impact on the human and natural environments.
			Q: What is your interest in this study? A: Commuter	Comment noted.
			Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: Volume of traffic; high density of large trucks; rapidly growing population	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A: El Dorado in to McKinney, Sam Rayburn	Comment noted.
1229	Gary Hodge	NA Paper Survey	Q: What solutions would you suggest in the US 380 Corridor? A: Overpasses where possible; additional lanes with dedicated turn lanes; traffic lights that are synched in Denton County; possible tollway? Q: Do you support the building of a freeway regardless of alignment? A: yes	Comment noted. Traffic analysis indicates that providing overpasses, also known as grade separated intersections, along the existing US 380 would still experience a failing level of service for congestion and delay.

				Q: Which alignment(s) do you prefer in Princeton? A: Blue	Comment noted.
				Q: Which alignment(s) do you prefer in Farmersville? A: Blue	Comment noted.
				Q: What is your interest in this study? A: Nearby resident, prosper resident working in piano	Comment noted.
				Q: How often do you drive on the existing US 380? A: Weekly	Comment noted.
				Q: Do you have any concerns with the existing US 380? A: In the mckinney 75 intersection thru Hwy 5 very congested - also the area from 423 thru Hwy 288 loop is congested	Comment noted.
				Q: If US 380 is congested, what alternative routes do you take? A: El dorado, in mckinney for east/west FM roads thru celina up to 423 and west to 35 to get to 35	Comment noted.
				Q: What solutions would you suggest in the US 380 Corridor? A: Bypass in 75 a-area- widening and less traffic lights between 423 and denton	Comment noted.
1231	Gary Jackson	5/3/2018	Electronic Survey	Q: Do you support the building of a freeway regardless of alignment? A: no - I thought we were building a collin county outer loop that would be next "freeway"	Comment noted. Initial traffic analysis taking into account future population projections indicates that even with the construction of the Collin County Outer Loop and other planned roadway improvements within the study area, US 380 would still experience a failing level of service for congestion and delay.
				Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: Do Not Support Building a Freeway	Comment noted.
				Q: Which alignment(s) do you prefer in Princeton? A: Blue	Comment noted.
				Q: Which alignment(s) do you prefer in McKinney? A: Pink	Comment noted.
				Q: Which alignment(s) do you prefer in Farmersville? A: Pink	Comment noted.
				Q: What is your interest in this study? A: Property Owner	Comment noted.
				Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
				Q: Do you have any concerns with the existing US 380? A: No. Most days it is not any busier than any other route.	Comment noted.
				Q: If US 380 is congested, what alternative routes do you take? A: 121, 119 to avoid 121 as much as possible due to the tolls.	Comment noted.
				Q: What solutions would you suggest in the US 380 Corridor? A: widen 380. Or elevate 380 with a bypass. I don't mind the toll roads as long as the FREEways are available too right along with it as what is going on with 635 or 35.	Comment noted. Tolling is not being considered as a funding source for this project.
				Q: Do you support the building of a freeway regardless of alignment? A: NO. Alignment 2 is the ONLY option. Any expansion of 380 should ONLY be along 380. The other proposed routes appear to be haphazard at best.	Comment noted.
				Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment	Comment noted.
				Q: Which alignment(s) do you prefer in McKinney? A: Green	Comment noted.
				Q: Which alignment(s) do you prefer in Princeton? A: Green	Comment noted.
				Q: Which alignment(s) do you prefer in Farmersville? A: Green	Comment noted.

1240	Geoffrey Diener	5/13/2018	Electronic Survey	<p>Q: What is your interest in this study?</p> <p>A: Nearby resident</p> <p>Q: How often do you drive on the existing US 380?</p> <p>A: Daily</p> <p>Q: Do you have any concerns with the existing US 380?</p> <p>A: No</p> <p>Q: If US 380 is congested, what alternative routes do you take?</p> <p>A:</p> <p>Q: What solutions would you suggest in the US 380 Corridor?</p> <p>A: Tucker Hill's position is NO to all alignments due to potential loss of homes and devaluation of our neighborhood as a whole and adverse environmental and health implications. Notwithstanding our recommendation, if any freeway construction occurs on the existing 380 footprint adjacent to Tucker Hill, it must impose minimal right-of-way and noise pollution by means of cantilevered access lanes; a depressed highway, and sound barriers. Also, if any bypass option is chosen, it must be located as far west of Tucker Hill as possible; west of future Stonebridge; not on or bordering Tucker Hill.</p> <p>Q: Do you support the building of a freeway regardless of alignment?</p> <p>A: No; I do not support the building of anything that would have a negative impact on Tucker Hill.</p> <p>Q: If US 380 is constructed as a freeway, which alignment do you prefer?</p> <p>A: The Blue alignment, None</p> <p>Q: Which alignment(s) do you prefer in McKinney?</p> <p>A: Blue, None</p> <p>Q: Which alignment(s) do you prefer in Princeton?</p> <p>A: Blue, None</p> <p>Q: Which alignment(s) do you prefer in Farmersville?</p> <p>A: Blue, None</p> <p>Q: What is your interest in this study?</p> <p>A: User of Erwin Park</p> <p>Q: How often do you drive on the existing US 380?</p> <p>A: Weekly</p> <p>Q: Do you have any concerns with the existing US 380?</p> <p>A:</p> <p>Q: If US 380 is congested, what alternative routes do you take?</p> <p>A:</p> <p>Q: What solutions would you suggest in the US 380 Corridor?</p> <p>A:</p>	<p>Comment noted.</p>

1243	George Lewellyn	5/7/2018	Electronic Survey	Q: How often do you drive on the existing US 380? A: Daily Q: Do you have any concerns with the existing US 380? A: Yes...there have been way to many accidents including fatalities that have significant impact on flow. Additionally too much traffic is on Lake Forest because of the lack of 380 capacity Q: If US 380 is congested, what alternative routes do you take? A: I take Lake Forest, Hardin or Custer as North South routes. Q: What solutions would you suggest in the US 380 Corridor? A: 380 needs to be widened or even have a second level that can separate local from thru traffic. Q: Do you support the building of a freeway regardless of alignment? A: I support a freeway as long as it is not to the immediate North of the Heathenwood community as the traffic will be too heavy and the noise and safety issues will be increased in addition to property desolation. Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment	Any future improvements will be designed to enhance safety. Comment noted. Comment noted. Comment noted. Comment noted.

				Q: Do you have any concerns with the existing US 380? A:	No answer provided.
				Q: If US 380 is congested, what alternative routes do you take? A: Prosper trail to lake ridge Or Virginia.	Comment noted.
				Q: What solutions would you suggest in the US 380 Corridor? A: I think the current alignment is fine. Limited access would be beneficial.	Comment noted.
				Q: Do you support the building of a freeway regardless of alignment? A: Not I do not want a freeway that takes commuters miles out of the current alignment. I don't believe that would benefit anyone, especially considering the future Collin county outer loop alignment would help relieve some of that traffic. I feel that it should be built and 380 in its current alignment should be expanded with limited access.	Comment noted. Initial traffic analysis taking into account future population projections indicates that even with the construction of the Collin County Outer Loop and other planned roadway improvements within the study area, US 380 would still experience a failing level of service for congestion and delay.

Comment noted.
			Q: How often do you drive on the existing US 380? A: Weekly	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: Looking ahead 30 years, my main concern is that it won't be designed big enough to handle the traffic and that it won't be built soon enough. I see 380 as being the next I-635, as being the next I-635... design it big and with provisions for easy expansion later; either time the stoplights or remove them as soon as possible (keep stoplights to an absolute minimum).	Comment noted. Alignment options are still being evaluated.
			Q: If US 380 is congested, what alternative routes do you take? A: Virginia	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A: From above, I see 380 as being the next I-635, which is the new Loop 12. Neither of these was built with the capacity to handle the traffic when they were completed, much less today. Suggestions: design it big and with provisions for easy expansion later; either time the stoplights or remove them as soon as possible (keep stoplights to an absolute minimum).	Comment noted. Alignment options are still being evaluated.
1247	George Moore	5/15/2018  Electronic Survey	Q: Do you support the building of a freeway regardless of alignment? A: Pretty much, yes.	No answer provided.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A:	No answer provided.

1252	Ganzer	Survey	Survey	Q: Do you support the building of a freeway regardless of alignment? A: NO.	Comment noted.
				Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment, The Blue Alignment	Comment noted.
				Q: Which alignment(s) do you prefer in McKinney? A: Green, Pink, Blue	Comment noted.
				Q: Which alignment(s) do you prefer in Princeton? A: None	Comment noted.
				Q: Which alignment(s) do you prefer in Farmersville? A: None	Comment noted.
			Comment Form	I prefer the Blue or Yellow plan. We need to direct traffic North and East from the current 380. I believe that widening the current 380 would be a disaster.	Comment noted.
				Q: What is your interest in this study? A: Commuter, Property Owner, Nearby resident	Comment noted.
				Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
				Q: Do you have any concerns with the existing US 380? A: No	Comment noted.
				Q: If US 380 is congested, what alternative routes do you take? A: I don't find US 380 congested enough to take alternative routes.	Comment noted.
				Q: What solutions would you suggest in the US 380 Corridor? A: Tucker Hill's position is NO to all alignments due to potential loss of homes and devaluation of our neighborhood as a whole and adverse environmental and health implications. Notwithstanding our recommendation, if any freeway construction occurs on the existing 380 footprint adjacent to Tucker Hill, it must impose minimal right-of-way and noise pollution by means of cantilevered access lanes; a depressed highway, and sound barriers. Also, if any bypass option is chosen, it must be located as far west of Tucker Hill as possible; west of future Stonebridge; not on or bordering Tucker Hill.	Comment noted. Any future improvement projects would include assessment of the potential impact on the human and natural environments.
				Q: Do you support the building of a freeway regardless of alignment? A: NO	Comment noted.
				Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: None, I Do Not Support Building a Freeway	Comment noted.
				Q: Which alignment(s) do you prefer in McKinney? A: None, I Do Not Support Building a Freeway	Comment noted.
				Q: Which alignment(s) do you prefer in Princeton? A: None, I Do Not Support Building a Freeway	Comment noted.
				Q: Which alignment(s) do you prefer in Farmersville? A: Property Owner	Comment noted.
				Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
				Q: Do you have any concerns with the existing US 380? A: no	Comment noted.
				Q: If US 380 is congested, what alternative routes do you take? A: Virginia	Comment noted.
				Q: What solutions would you suggest in the US 380 Corridor? A:	Comment noted.

				Q: What is your interest in this study? A: Property Owner	Comment noted.
				Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
				Q: Do you have any concerns with the existing US 380? A: Congestion on 380	Comment noted.
				Q: If US 380 is congested, what alternative routes do you take? A: Taylor-Burk Drive to 75 or Taylor-Burk to Community to White to 75	Comment noted.
				Q: What solutions would you suggest in the US 380 Corridor? A: Yellow Line	Comment noted.
				Q: Do you support the building of a freeway regardless of alignment? A: Yes	Comment noted.
				Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Blue Alignment, The Red Alignment, The Yellow Alignment	Comment noted.
				Q: Which alignment(s) do you prefer in McKinney? A: Blue	Comment noted.
				Q: Which alignment(s) do you prefer in Princeton? A: Yellow	Comment noted.
				Q: Which alignment(s) do you prefer in Farmersville? A: Yellow	Comment noted.
				Q: What is your interest in this study? A: Commuter, Property Owner, Nearby resident	Comment noted.
				Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
				Q: Do you have any concerns with the existing US 380? A: Not really, I wish the traffic was a little lighter, but it's not that bad.	Comment noted.
				Q: If US 380 is congested, what alternative routes do you take? A: Take Custer to Sam Rayburn.	Comment noted.
				Q: What solutions would you suggest in the US 380 Corridor? A: If a freeway or bypass is needed, the most forward-thinking solution would be to continue the DNT further north and then northeast to connect to I-75, around Sherman or Melissa. By the time a bypass is actually completed, the entire area that would be inside such a bypass will need it anyway. An alternative would be to widen Preston north of 380 and then build a connector to 75. The current proposals of widening 380 and/or creating a bypass that connects to 380 east of Stonebridge are too little too late; they would only serve to displace hundreds of residents and business owners for no appreciable gain because all the growth in the next 10-15 years will be west and north of the proposed bypass routes and 380.	Comment noted. Alignment options are still being evaluated.
				Q: Do you support the building of a freeway regardless of alignment? A: I do not support the widening of 380 into a limited access freeway; that will only increase traffic, not alleviate it (just like building bigger and wider freeways in Houston has had the opposite of the intended effect, which could have been predicted by looking at existing studies on the subject -- adding lanes only increases usage and traffic). I can support the building of a bypass if it runs from the DNT north and then northeast to 75. This will have the least detrimental impact to existing homeowners and businesses and will have the greatest benefit to all stakeholders in the long-term.	Comment noted.
				Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: None	Comment noted.
				Q: Which alignment(s) do you prefer in McKinney? A: None	Comment noted.

1277	Glyn Weston	5/14/2018	Electronic Survey	<p>Q: Do you have any concerns with the existing US 380?</p> <p>A: It is extremely dangerous with people doing U turns and crossing 6 lanes of cars.</p> <p>Q: If US 380 is congested, what alternative routes do you take?</p> <p>A: Virginia Parkway</p> <p>Q: What solutions would you suggest in the US 380 Corridor?</p> <p>A: US380 needs to have access roads like the major highway it has become. Basically it needs to be more like US75 or 121. This will improve safety and also the traffic will flow better since there will not be traffic lights or people trying to turn across oncoming traffic.</p> <p>Q: Do you support the building of a freeway regardless of alignment?</p> <p>A: Yes - I think a freeway is the right strategic solution. All other options are really just temporary solutions.</p>	<p>Comment noted.</p> <p>Comment noted.</p>
				<p>Q: If US 380 is constructed as a freeway, which alignment do you prefer?</p> <p>A: The Green/Pink Alignment</p> <p>Q: Which alignment(s) do you prefer in McKinney?</p> <p>A: Green, Pink</p> <p>Q: Which alignment(s) do you prefer in Princeton?</p> <p>A: Green, Pink</p> <p>Q: Which alignment(s) do you prefer in Farmersville?</p> <p>A: Green, Pink</p> <p>Q: What is your interest in this study?</p> <p>A: Commuter, Property Owner, Nearby resident, Ranch owner</p> <p>Q: How often do you drive on the existing US 380?</p> <p>A: Daily</p> <p>Q: Do you have any concerns with the existing US 380?</p> <p>A: From McKinney to Princeton and Texas the posted speed means nothing the traffic is way too much and too fast</p>	<p>Comment noted.</p> <p>Comment noted.</p> <p>Comment noted.</p> <p>Comment noted.</p> <p>Comment noted.</p> <p>Comment noted.</p>
				<p>Q: If US 380 is congested, what alternative routes do you take?</p> <p>A: We have a farm bridge from a road trip to the north we can go the back roads through new Hope when there is a wreck or just too much traffic every time my wife goes one time in the morning. And then again in the afternoon with my daughter to feed and take care of the horses that we have showhorses there's a wreck on 380 just came through from Princeton back to McKinney on Sunday and two people coming from Newhope ran a red light didn't even slow down thank God There was nobody there they pulled out in front of me</p> <p>Q: What solutions would you suggest in the US 380 Corridor?</p> <p>A: I've heard suggestions that there would be a loop to the self or to the north around new Hope Road that would take the commuters and give them a different route that will not fix the problem where the Traffic accidents or I would suggest breaking it down in segments with red lights more patrolling by the highway patrol and local law-enforcement and put some teeth into the phone traffic accidents or I would suggest breaking it down in segments with red lights more patrolling by the highway patrol and local law-enforcement and put some teeth into the tickets.</p> <p>Q: Do you support the building of a freeway regardless of alignment?</p> <p>A: Regardless of what I think one thing I've learned in the construction business is you cannot stop progress no one wants to lose their property or their business but it happens I've been involved with highway work mostly utility relocation For over 10 years and a metroplex 183 121 through Bradford Hearst Eulies and a 35MW project and Ft Worth its a painful process for the people that live in the businesses that are there but everybody benefits when it's over so I'm don't make it But it always comes back thank you</p> <p>Q: If US 380 is constructed as a freeway, which alignment do you prefer?</p> <p>A: The Green/Pink Alignment</p> <p>Q: Which alignment(s) do you prefer in McKinney?</p> <p>A: Red</p> <p>Q: Which alignment(s) do you prefer in Princeton?</p> <p>A: Green, Yellow</p> <p>Q: Which alignment(s) do you prefer in Farmersville?</p> <p>A: Green</p> <p>Q: What is your interest in this study?</p> <p>A: Commuter, Property Owner, Nearby resident, Cyclist</p>	<p>Comment noted.</p> <p>Comment noted.</p> <p>Comment noted.</p> <p>Comment noted.</p>

1283	Grace and James Rooney	5/5/2018	Email	<p>Dear Mr. Endres,</p> <p>I believe you are the gentleman with whom we spoke at the meeting in Prosper last Thursday, 3 May. I wanted to submit my comments, as you suggested. First of all, thank you for your time. I now understand why you were so knowledgeable about the entire project!</p> <p>We live in Phase 4 (the newest, most northern and western section) of Heatherwood, McKinney, which is directly adjacent to CR 123 (Bloomdale), included in three of the 380 bypass proposals. We moved to McKinney in January of 2016, to what we planned would be our retirement home, after a two year search in the DFW metroplex. We chose this location specifically because it was 1.5 miles north of 380, avoiding traffic noise and urban development. These are NEW (two years old) homes at a high cost per square foot. I specifically asked by Highland builder's representative when we looked in this area what, if anything, was planned for CR123. She stated it was privately owned County Road 123 (Bloomdale) currently provides a "country feel" and atmosphere. An entire new area, "Bloomridge" is currently under construction directly west of Phase 4 of Heatherwood, just beyond the greenbelt. Bloomridge will likewise be directly affected negatively by the farmland, with no plans for further development.</p> <p>Highland builder's red proposals. This effect will be not only traffic noise, but property value. Many people who live here "retire" here for the nice environment this area of McKinney offers.</p> <p>PLEASE don't decimate our home value and really pleasant country atmosphere here of Lake Forest/Bloomdale.</p> <p>Sincerely,</p>	Comment noted. Any future improvement projects would include assessment of the potential impact on the human and natural environments.

			Q: Which alignment(s) do you prefer in McKinney? A:	No answer provided.
			Q: Which alignment(s) do you prefer in Princeton? A:	No answer provided.
			Q: Which alignment(s) do you prefer in Farmersville? A:	No answer provided.
			Q: What is your interest in this study? A: Commuter, Property Owner, Nearby resident	Comment noted.
			Q: How often do you drive on the existing US 380? A: Weekly	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: Existing roadway does not have a setback that will allow for expansion. Heavy truck traffic and lots of business access makes the road dangerous.	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A: No alternative route available	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A: Need to connect the outer loop to Denton and the 35 corridor to reduce traffic, finish Dallas North Tollway expansion all the way to outer loop.	Comment noted. Initial traffic analysis taking into account future population projections indicates that even with the construction of the Collin County Outer Loop and other planned roadway improvements within the study area, US 380 would still experience a failing level of service for congestion and delay.
			Q: Do you support the building of a freeway regardless of alignment? A: Yes	Comment noted.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment, The Blue Alignment	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: Green, Pink	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A: Blue	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville? A: Blue	Comment noted.
			Q: What is your interest in this study? A: Commuter, Property Owner, Nearby resident	Comment noted.
			Q: How often do you drive on the existing US 380? A: Weekly	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: Not really but I do hear that it's pretty dangerous with trucks speeding through	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A: I am typically coming north on the tollway so I go to 121/Stonebridge rather than tollway to 380	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A: A raised freeway kind of like 635	Comment noted.
			Q: Do you support the building of a freeway regardless of alignment? A: Yes	Comment noted.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: Green, Pink	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A:	No answer provided.

			Q: What is your interest in this study? A: Property Owner	Comment noted.
			Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: It is very dangerous with all the construction trucks on the highway. They do not want to stop at any light and often run red lights.	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A: Multiple side roads to get to 75 from Custer Road area.	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A: Limited access freeway with 3 lanes in each direction so as not to disrupt and homeowners and business owners.	Comment noted.
			Q: Do you support the building of a freeway regardless of alignment? A: 100% against the by-pass options. Limited access on existing 380 foot print with minimal impact on Tucker Hill since it is the narrowest part.	Comment noted.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: None	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: None	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A: None	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville? A: None	Comment noted.
			Q: What is your interest in this study? A: Property Owner	Comment noted.
			Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: Yes. Congestion at intersections with Preston Rd and all the construction.	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A: Preston Road to Rockhill or North to Frontier Parkway.	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A: Do NOT build any overpasses anywhere near existing developments, especially near First Street and Whitley Place.	Comment noted. Alignment options are still being evaluated.
			Q: Do you support the building of a freeway regardless of alignment? A: No.	Comment noted.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: Green, Pink	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A: Green, Pink	Comment noted.

1306	Gretchen Clark	5/17/2018	Electronic Survey	<p>Q: If US 380 is congested, what alternative routes do you take?  A: There are no alternate routes from my neighborhood.</p> <p>Q: What solutions would you suggest in the US 380 Corridor?  A: Tucker Hill's position is NO to all alignments due to potential loss of homes and devaluation of our neighborhood as a whole and adverse environmental and health implications. Notwithstanding our recommendation, if any freeway construction occurs on the existing 380 footprint adjacent to Tucker Hill, it must impose minimal right-of-way and noise pollution by means of cantilevered access lanes; a depressed Stonebridge; and sound barriers. Also, if any bypass option is chosen, it must be located as far west of Tucker Hill as possible; west of future Stonebridge; not on or bordering Tucker Hill.</p> <p>Q: Do you support the building of a freeway regardless of alignment?  A:</p> <p>Q: If US 380 is constructed as a freeway, which alignment do you prefer?  A: None</p> <p>Q: Which alignment(s) do you prefer in McKinney? ## Comment Response Matrix

Commenter Name	Date Received	Source	Comment Topic	Response
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: Pink	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A: Pink	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville? A: Pink	Comment noted.
			Q: What is your interest in this study? A: Commuter, Property Owner, Nearby resident	Comment noted.
			Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: too many trucks and speed	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A: Work place on 380 so have no alternative	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A: Widen and/or double stack like LBJ or 35 in Austin	Comment noted.
			Q: Do you support the building of a freeway regardless of alignment? A: not sure/question too open ended	Comment noted.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: Green	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A: Green	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville? A: Green	Comment noted.
			Q: What is your interest in this study? A: Nearby resident	Comment noted.
			Q: How often do you drive on the existing US 380? A: A couple times a year	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: It is way over-crowded. Marginally unsafe, inefficient for both business access and transportation.	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A: El Dorado across Frisco, through Little Elm, then over the toll bridge on the lake.	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A: I don't have one! I do know that Collin and Denton Counties do NOT have adequate, rapid east-west freeways. We don't need another toll road, either.	Comment noted. Tolling is not being considered as an option for funding.
			Q: Do you support the building of a freeway regardless of alignment? A: Yes,	Comment noted.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Blue Alignment, The Red Alignment	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: Blue, Red	Comment noted.

## Comment Response Matrix

	Commenter Name	Date Received	Source	Comment Topic	Response
1313	Haley Howard	NA	Paper Survey	Q: Which alignment(s) do you prefer in Princeton?	A: Blue, Yellow Comment noted.
				Q: Which alignment(s) do you prefer in Farmersville?	A: Blue, Yellow Comment noted.
				Q: What is your interest in this study?	A: Property Owner Comment noted.
				Q: How often do you drive on the existing US 380?	A: Weekly Comment noted.
				Q: Do you have any concerns with the existing US 380?	A: Not currently-but do understand growth in area may cause more congestion Comment noted.
				Q: If US 380 is congested, what alternative routes do you take?	A: N/A, take 380, or use county Rd 124 Comment noted.
				Q: What solutions would you suggest in the US 380 Corridor?	A: I suggest finishing the outer loop. It has already been started & is not too far out of the way. Local traffic for McKinney will continue to use 380, I bought a house in TimberRidge to stay on the outside & away from busy streets. The residents in this neighborhood bought or built in this area for this reason. It is not fair to take that away from us. If something needs to be done - change 380 into a hwy. residents off 380 should have known that expansion may need to happen when buying a home directly off 380. Residents in TimberRidge bought for quiet country feel. Please do not that this is away from us. I love my neighborhood as is Comment noted.
				Q: Do you support the building of a freeway regardless of alignment?	A: I support green & pink if needed. But DO NOT support Blue, red or yellow. Comment noted.
				Q: If US 380 is constructed as a freeway, which alignment do you prefer?	A: The Green/Pink Alignment Comment noted.
				Q: Which alignment(s) do you prefer in McKinney?	A: I Do Not Support Building a Freeway Comment noted.
1314	Hall Guzman	5/16/2018	Electronic Survey	Q: Which alignment(s) do you prefer in Princeton?	A: I Do Not Support Building a Freeway Comment noted.
				Q: What is your interest in this study?	A: Nearby resident Comment noted.
				Q: How often do you drive on the existing US 380?	A: Weekly Comment noted.
				Q: Do you have any concerns with the existing US 380?	A: Comment noted.
				Q: What solutions would you suggest in the US 380 Corridor?	A: Comment noted.
				Q: Do you support the building of a freeway regardless of alignment?	A: Don't cut through Erwin park and be hypocritical of the slogan "Unique by nature". You're going to ruin a beautiful park. The location of Erwin Park was taken into consideration when draft alignments were developed. None of the proposed alignments directly impact Erwin Park. The proposed blue alignment option is adjacent to the southern property line but does not cross into the park. TxDOT attempts to avoid and/or minimize impacts to parks as much as practicable. Comment noted.
				Q: Which alignment(s) do you prefer in McKinney?	A: I Do Not Support Building a Freeway Comment noted.

	Commenter Name	Date Received	Source	Comment Topic	Response
				Q: Which alignment(s) do you prefer in Princeton? A: I Do Not Support Building a Freeway	Comment noted.
				Q: Which alignment(s) do you prefer in Farmersville? A: I Do Not Support Building a Freeway	Comment noted.
				Q: What is your interest in this study? A: Nearby resident	Comment noted.
				Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
				Q: Do you have any concerns with the existing US 380? A: Too many lights Accidents daily      Needs to have bridges over lights	Comment noted.
				Q: If US 380 is congested, what alternative routes do you take? A: Fishtrap	Comment noted.
				Q: What solutions would you suggest in the US 380 Corridor? A: Make it a highway without lights but NOT a tollway	Lighting suggestion noted. Tolling is not being considered as an option for funding.
				Q: Do you support the building of a freeway regardless of alignment? A: Yes	Comment noted.
				Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment	Comment noted.
				Q: Which alignment(s) do you prefer in McKinney? A: Green, Pink	Comment noted.
				Q: Which alignment(s) do you prefer in Princeton? A:	No answer provided.

				Q: Which alignment(s) do you prefer in McKinney? A: Green, Pink	Comment noted.
				Q: Which alignment(s) do you prefer in Princeton? A: Green, Pink	Comment noted.
				Q: Which alignment(s) do you prefer in Farmersville? A: Green, Pink	Comment noted.
				Q: What is your interest in this study? A: Commuter, Nearby resident, School bus driver	Comment noted.
				Q: How often do you drive on the Existing US 380? A: Daily	Comment noted.
				Q: Do you have any concerns with the existing US 380? A: Yes it's not big enough. Traffics even late at night.	Comment noted.
				Q: If US 380 is congested, what alternative routes do you take? A: There really aren't many other options. Fishtrap rd	Comment noted.
				Q: What solutions would you suggest in the US 380 Corridor? A: We need an actual freeway that goes west to east.	Comment noted.
				Q: Do you support the building of a freeway regardless of alignment? A: Yes. There really is no other option.	Comment noted.
				Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment	Comment noted.
				Q: Which alignment(s) do you prefer in McKinney? A: Green, Pink	Comment noted.
				Q: Which alignment(s) do you prefer in Princeton? A: Green, Pink	Comment noted.
				Q: Which alignment(s) do you prefer in Farmersville? A: Property Owner	Comment noted.
				Q: How often do you drive on the Existing US 380? A: Daily	Comment noted.
				Q: Do you have any concerns with the existing US 380? A: The traffic congestion is increasing. Our commute has slowly increased in time over the last several years, and the number of traffic accidents has increased as well.	Comment noted.
				Q: If US 380 is congested, what alternative routes do you take? A: We don't really have much of an alternative. If things get really backed up, we will take Bridgefarmer, but we do not travel that route very often. It goes in the opposite direction of our destination.	Comment noted.
				Q: What solutions would you suggest in the US 380 Corridor? A: A bypass north of the existing 380 would be beneficial.	Comment noted.
				Q: Do you support the building of a freeway regardless of alignment? A: To some extent, yes. I don't think simply widening the current road will solve the problem long-term. A freeway does make the most sense.	Comment noted.
				Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Blue Alignment, The Yellow Alignment	Comment noted.
				Q: Which alignment(s) do you prefer in McKinney? A: Blue	Comment noted.
				Q: Which alignment(s) do you prefer in Princeton? A: Blue, Yellow	Comment noted.

				Q: Which alignment(s) do you prefer in Farmersville? A: Blue, Yellow	Comment noted.
				Q: What is your interest in this study? A: Commuter, Property Owner, Nearby resident	Comment noted.
				Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
				Q: Do you have any concerns with the existing US 380? A: This proposed freeway does NOTHING to fix the real issue, which is WEST of the toll way. To the East of the toll way they already have 3 lanes going each way. You need to put your resources to where they are really needed. Traffic flow is a night mare!	Comment noted.
				Q: If US 380 is congested, what alternative routes do you take? A: 423 to Panther Creek	Comment noted.
				Q: What solutions would you suggest in the US 380 Corridor? A:	Comment noted.
				It needs to be widened to cover all the new homes/businesses going in. Traffic is only going to continue to increase.	Comment noted.
				Q: Do you support the building of a freeway regardless of alignment? A: Yes. While I don't look forward to the nightmare of the construction, it needs to be done ASAP!	Comment noted.
				Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment	Comment noted.
				Q: Which alignment(s) do you prefer in McKinney? A: Green, Pink	Comment noted.

			Q: What solutions would you suggest in the US 380 Corridor? A:	No answer provided.
1339	Heather Powell	5/15/2018  Electronic Survey	Q: Do you support the building of a freeway regardless of alignment? A: no	Comment noted.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A:	No answer provided.
			Q: Which alignment(s) do you prefer in McKinney? A:	No answer provided.
			Q: Which alignment(s) do you prefer in Princeton? A:	No answer provided.
			Q: Which alignment(s) do you prefer in Farmersville? A:	No answer provided.
			Q: What is your interest in this study? A: Property Owner	Comment noted.
			Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: Yes impact on Prosper in regards to cut thru traffic issues on First, Prosper Trail and Frontier pkwy; Noise control, traffic issues within Prosper; Just to improve the path between Preston and Dallas toll as quick as possible because the back up is a major problem daily	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A: First, Frontier pkwy and Prosper Trail	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A: By pass needs to be East of Custer towards Tucker Hill and as far as Lake Forest or beyond...Prosper does not want the traffic issues that this by pass would definitely bring upon any community. We bought in to Prosper for the small feel community and were told this was the direction, this by pass would create serious issues for Whitley Place residents and take that small country feel completely away.	Comment noted.
			Q: Do you support the building of a freeway regardless of alignment? A: Yes i support it as long as it does not affect Prosper in any capacity. Keeping it east of Custer is fine. No if it's going to affect the roads close to Prosper. We were told when we bought in to Prosper that US 380 alignment would not affect our neighborhood of Whitley Place. I am concerned that things are changing now so yes I am very concerned.	Comment noted.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment, The Red Alignment, The Yellow Alignment	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: Green, Pink, Blue, Red	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A: Green, Pink, Blue	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville? A: Green, Pink, Blue	Comment noted.

1347	Heather Yates	5/15/2018	Electronic Survey	<p>Q: What solutions would you suggest in the US 380 Corridor?</p> <p>A: Road work was already done threw Farmerville to Greenville I see nothing wrong threw there traffic is not nearly as bad as from fm 982 in Princeton to 289 in prosper especially from bridgefarmer road to airport Rd going threw the country like using county roads I believe will make it worse cause people dont want a major highway that's why they moved into the country is to get away from traffic. I have worked as county worker working on roads I know the only way is to make the road wider for more lanes starting at FM 982. I would do anything threw town that will take away from a lot of people that have business in town especially if you live in Princeton and will make it harder to get in and out if you take away the median that's the only way to get into business in town and are yard</p> <p>Q: Do you have any concerns with the existing US 380?</p> <p>A: Something needs to be done from fm 982 in Princeton to 289 in prosper</p> <p>Q: How often do you drive on the existing US 380?</p> <p>A: Daily</p> <p>Q: If US 380 is congested, what alternative routes do you take?</p> <p>A: County roads</p>	Comment noted. Alignment options are still being evaluated.

## Comment Response Matrix

	Commenter Name	Date Received	Source	Comment Topic	Response
				Q: Do you support the building of a freeway regardless of alignment? A: No cause nothing needs to be done threw the town of Princeton just to fm 982 to McKinney	Comment noted.
				Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Yellow Alignment, I Do Not Support Building a Freeway	Comment noted.
				Q: Which alignment(s) do you prefer in McKinney? A: None, I Do Not Support Building a Freeway	Comment noted.
				Q: Which alignment(s) do you prefer in Princeton? A: None, I Do Not Support Building a Freeway	Comment noted.
				Q: Which alignment(s) do you prefer in Farmersville? A: None, I Do Not Support Building a Freeway	Comment noted.
				Q: What is your interest in this study? A: Property Owner, Nearby resident	Comment noted.
				Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
				Q: Do you have any concerns with the existing US 380? A: Yes. Very busy.	Comment noted.
				Q: If US 380 is congested, what alternative routes do you take? A: Loop around the city.	Comment noted.
				Q: What solutions would you suggest in the US 380 Corridor? A: Highway around the city, but keep it away from the established communities.	Comment noted.
				Q: Do you support the building of a freeway regardless of alignment? A: Not if it is to close to large neighborhoods that have been there for decades.	Comment noted.
				Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Blue Alignment, The Yellow Alignment	Comment noted.
				Q: Which alignment(s) do you prefer in McKinney? A: Blue	Comment noted.
				Q: Which alignment(s) do you prefer in Princeton? A: Blue	Comment noted.
				Q: Which alignment(s) do you prefer in Farmersville? A: Blue	Comment noted.
				Q: What is your interest in this study? A: Commuter, Property Owner, Nearby resident	Comment noted.
				Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
				Q: Do you have any concerns with the existing US 380? A: Yes	Comment noted.
				Q: If US 380 is congested, what alternative routes do you take? A: Virginia Parkway	Comment noted.
				Q: What solutions would you suggest in the US 380 Corridor? A: Lower the speed limit	Comment noted.
				Q: Do you support the building of a freeway regardless of alignment? A: no	Comment noted.
				Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment	Comment noted.

Commenter Name	Date Received	Source	Comment Topic	Response
			Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: It's dangerous. There seems to be a major accident weekly if not more frequently. I can see why my car insurance went up when I moved near 380.	Comment noted. Any future improvements will be designed to enhance safety.
1354	Henry B. Gomez	5/8/2018 Electronic Survey	Q: If US 380 is congested, what alternative routes do you take? A: My wife and I usually just wait in the traffic.	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A: Find a way to add more lanes or add more routes to not spots that aren't just county road options.	Comment noted.
			Q: Do you support the building of a freeway regardless of alignment? A: Anything that would make 380 safer and alleviate congestion would be in favor of. A: The Green/Pink Alignment, The Red Alignment	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: Green, Pink, Red	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A: Green, Pink	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville? A: Green, Pink	Comment noted.
			Q: What is your interest in this study? A: Property Owner, Nearby resident	Comment noted.
			Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: 1) Over crowded 2) Unsafe especially at 380/Custer. 3) truck traffic blocks all 3 lanes instead of just one or two 4) Speed limit is too high for the number of stop lights	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A: Custer south and cut across an east/west route	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A: 1) Widen US 380 2) Put overpass above major intersections 3) Consider an overpass like in Austin in the areas between Hardin and McDonald	Comment noted. Alignment options are still being evaluated.
1355	Henry Bell	5/11/2018 Electronic Survey	Q: Do you support the building of a freeway regardless of alignment? A: Yes	Comment noted.

				Q: What is your interest in this study?	A: Commuter, Property Owner, Nearby resident Comment noted.
				Q: How often do you drive on the existing US 380?	A: Daily Comment noted.
				Q: Do you have any concerns with the existing US 380?	A: Yes 380 is incredibly dangerous. People drive way too fast and some are running lights. There have been way too many accidents to not do something to improve safety. Comment noted.
				Q: If US 380 is congested, what alternative routes do you take?	A: I don't Comment noted.
				Q: What solutions would you suggest in the US 380 Corridor?	A: Tucker Hill's position is NO to all alignments due to potential loss of homes and devaluation of our neighborhood as a whole and adverse environmental and health implications. Notwithstanding our recommendation, if any freeway construction occurs on the existing 380 footprint adjacent to Tucker Hill, it must impose minimal right-of-way and noise pollution by means of cantilevered access lanes; a depressed throughway; and sound barriers. Also, if any bypass option is chosen, it must be located as far west of Tucker Hill as possible; west of future Stonebridge; not on or bordering Tucker Hill. Comment noted.
	Hillary Shieh	5/15/2018	Electronic Survey	Q: Do you support the building of a freeway regardless of alignment?	A: No Comment noted.
				Q: If US 380 is constructed as a freeway, which alignment do you prefer?	A: None, I Do Not Support Building a Freeway Comment noted.

				Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment	Comment noted.
				Q: Which alignment(s) do you prefer in McKinney? A:	No answer provided.
				Q: Which alignment(s) do you prefer in Princeton? A:	No answer provided.
				Q: Which alignment(s) do you prefer in Farmersville? A: Green, Pink	Comment noted.
				Q: What is your interest in this study? A: Commuter, Property Owner, Nearby resident	Comment noted.
				Q: How often do you drive on the Existing US 380? A: Daily	Comment noted.
				Q: Do you have any concerns with the existing US 380? A: Yes	Comment noted.
				Q: If US 380 is congested, what alternative routes do you take? A: Depends on my ultimate destination	Comment noted.
				Q: What solutions would you suggest in the US 380 Corridor? A: -Expand/widen US 380 in its current footprint. -Continue with ongoing development of the outer loop. It makes no sense to build a bypass when the outer loop is in such close vicinity & is already underway. -Preserve the unique nature of the beautiful neighborhoods - family homes - already existing that would be destroyed w/ bypass -All of the bypass options are unacceptable - would put major freeway next to well-developed neighborhoods and schools.	Initial traffic analysis taking into account future population projections indicates that even with the construction of the Collin County Outer Loop and other planned roadway improvements within the study area, US 380 would still experience a failing level of service for congestion and delay. Any future improvement projects would include assessment of the potential impact on the human and natural environments.
			Paper Survey	Q: Do you support the building of a freeway regardless of alignment? A: No. Not regardless of alignment. The green/pink alignment is the only one I support.	Comment noted.
				Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment	Comment noted.
				Q: Which alignment(s) do you prefer in McKinney? A: Green/Pink	No answer provided.
				Q: Which alignment(s) do you prefer in Princeton? A:	No answer provided.
				Q: Which alignment(s) do you prefer in Farmersville? A:	No answer provided.
				Q: What is your interest in this study? A: Property Owner, Nearby resident	Comment noted.
				Q: How often do you drive on the Existing US 380? A: Daily	Comment noted.
				Q: Do you have any concerns with the existing US 380? A: Accidents occurring almost daily	Comment noted.
				Q: If US 380 is congested, what alternative routes do you take? A: Rockhill	Comment noted.
				Q: What solutions would you suggest in the US 380 Corridor? A: Existing 380 should remain a business 380 through McKinney between the Tollway and 75. A new highway should be built outside of business 380 and connect to it at the Tollway.	Comment noted. Alignment options are still being evaluated.
				Q: Do you support the building of a freeway regardless of alignment? A: No. Tucker Hill's position is NO to all alignments due to potential loss of homes and devaluation of our neighborhood as a whole and adverse environmental and health implications. Notwithstanding our recommendation, if any freeway construction occurs on the existing 380 footprint adjacent to Tucker Hill, it must impose minimal right-of-way and noise pollution by means of cantilevered access lanes; a depressed throughput, and sound barriers. Also, if any bypass option is chosen, it must be located as far west of Tucker Hill as possible; west of future Stonebridge, not on or bordering Tucker Hill.	Comment noted. Any future improvement projects would include assessment of the potential impact on the human and natural environments.

1388	Hulon Webb	Email	Stephen,	At the Monday, May 14th Collin County Commissioners Court meeting, Judge Self requested that TxDOT include the attached alignment (Another Option, May, 2018.pdf) in TxDOT's study. On April 20, 2016, Judge Self sent the attached letter (1-Letter from Collin County.PDF) to the Mayor of Prosper. In the letter was a map depicting the US 380 corridor along the current alignment. In response to the letter, the Town Council of the Town of Prosper Approved the attached Resolution (... - RES 17-29 - 4_11_2017.pdf), supporting the LAR's through the Town of Prosper from FM 1385 to Custer Road, in its current alignment. The Town Council does not support any alignment that would deviate from the current alignment of US 380 within the Town's corporate limits. I believe you have heard this before in previous meetings with the Town, but I wanted to provide you with documentation to reiterate this point in response to the request made at the May 14th Collin County Commissioners Court meeting.
			If you have any questions, comments, or concerns, please let me know.	
			Thanks.

Isaac Neal	5/12/2018	Electronic Survey	Mrs. Ragion, My name is Isaac Neal and I live in Princeton. I was unable to attend the community meetings regarding the alignment of the 380 project. Were there any close up maps that would show how far the green and pink alignments would extend throughout the city? I live in the Cypress Bend community and just wanted to know close 380 could possibly be moved toward my house. Thanks.	Maps and all public meeting materials presented are available at Drive380.com
		Email	Q: What is your interest in this study? A: Nearby resident	Comment noted.

			Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: I am routinely on 380 several times per day. Congestion is mostly commuter/rush hour traffic.	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A: Woodlawn/Throckmorton, Wilmette, Hardin	Comment noted.
1403	J David Thompson	5/15/2018	Q: What solutions would you suggest in the US 380 Corridor? A: Keep 380 as the major east/west corridor; follow the examples of Frisco and Prosper, and make 380 a better thoroughfare through McKinney, and Princeton) with overpasses; limitation of stoplights, or convert to limited access freeway.	Comment noted. Alignment options are still being evaluated. Initial traffic analysis taking into account future population projections indicates that even with the construction of the Collin County Outer Loop and other planned roadway improvements within the study area, US 380 would still experience a failing level of service for congestion and delay.
			Q: Do you support the building of a freeway regardless of alignment? A: No; there is no traffic study (certainly not published traffic studies) which document the necessity, advisability, or effectiveness of a northern 380 bypass. Most rush hour traffic on 380 and 75 is trying to go to Dallas or Plano (where the jobs are); a southern bypass makes sense; a northern bypass does not make sense or hold promise for decreasing rush hour congestion. The Council of Governments has approved and mapped out the Outer Loop (a northern bypass); the Outer Loop should be completed.	Comment noted.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment, The Blue Alignment	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: Green, Pink, Blue	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A: Green, Pink, Blue	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville? A: Green, Pink, Blue	Comment noted.
			Q: What is your interest in this study? A: Property Owner	Comment noted.
			Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: More and more congestion on 380.	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A: Virginia or Ridge	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A:	No answer provided.
	J Kuehler	5/18/2018	Q: Do you support the building of a freeway regardless of alignment? A: Yes; not sure what other option would work since you cannot add lanes.	Comment noted.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: Green	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A: Blue	Comment noted.
			Q: What is your interest in this study? A: Commuter, Property Owner	Comment noted.
			Q: How often do you drive on the existing US 380? A: Weekly	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: Slow traffic	Comment noted.

	NA	Comment Form		<p>My wife and I have lived at our current home since 2003. We are in our 70's and I am a veteran. We've experienced the growth and seen 380 expanded to 6 lanes. During that expansion TxDOT put sound barriers behind our neighborhood. Now the sound barrier and our quality of life are being threatened. We live on a section of 380 that is heavily populated with homes and apartments. We don't have a unified voice like some of the vocal groups and land owners - but I think TxDOT needs to consider how many families will be affected in our area. Please consider us and if this expansion must happen - choose a by-pass that will take 380 west of Stonebridge Dr. like the blue or yellow.</p> <p>Q: What is your interest in this study? A: Nearby resident</p> <p>Q: How often do you drive on the existing US 380? A: Daily</p> <p>Q: Do you have any concerns with the existing US 380? A:</p>	<p>Comment noted.</p> <p>Comment noted.</p> <p>No answer provided.</p>

			Q: Which alignment(s) do you prefer in McKinney? A: Pink	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A: Blue	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville? A: Blue	Comment noted.
			Q: What is your interest in this study? A:	No answer provided.
			Q: How often do you drive on the existing US 380? A: A couple times a year	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: Too fast - would like the speed limit lowered around residential & business	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A: Virginia Rock Hill Prosper Trail	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A: Please stay away from Heatherwood subdivision Too dangerous of a road so close to family neighborhood & elementary school.	Comment noted. Any future improvement projects would include assessment of the potential impact on the human and natural environments.
Jackie Taylor	5/11/2018	Paper Survey	Q: Do you support the building of a freeway regardless of alignment? A: NO	Comment noted.
1423			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A:	No answer provided.
			Q: Which alignment(s) do you prefer in Princeton? A:	No answer provided.
			Q: Which alignment(s) do you prefer in Farmersville? A:	No answer provided.
	4/26/2018	Comment Form	Please stay away from Heatherwood	Comment noted.
			Q: What is your interest in this study? A: Protecting Erwin Park	Comment noted.
			Q: How often do you drive on the existing US 380? A: Weekly	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: Not particularly.	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A: Side streets like Hardin & Lake Forest, or 75 & then another exit.	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A:	No answer provided.
Jackson Douglas	5/18/2018	Electronic Survey	Q: Do you support the building of a freeway regardless of alignment? A: No.	Comment noted.
1424			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: Green, Pink	Comment noted.

	Commenter Name	Date Received	Source	Comment Topic	Response
				Q: Which alignment(s) do you prefer in Princeton? A: Green, Pink	Comment noted.
				Q: Which alignment(s) do you prefer in Farmersville? A: Green, Pink	Comment noted.
				Q: What is your interest in this study? A: Nearby resident	Comment noted.
				Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
				Q: Do you have any concerns with the existing US 380? A: No	Comment noted.
				Q: If US 380 is congested, what alternative routes do you take? A: Virginia	Comment noted.
1425	Jackson Gamble	5/14/2018	Electronic Survey	Q: What solutions would you suggest in the US 380 Corridor? A: Not killing Erwin park	The location of Erwin Park was taken into consideration when draft alignments were developed. None of the proposed alignments directly impact Erwin Park. The proposed blue alignment option is adjacent to the southern property line but does not cross into the park. TxDOT attempts to avoid and/or minimize impacts to parks as much as practicable.
				Q: Do you support the building of a freeway regardless of alignment? A: No	Comment noted.
				Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment	Comment noted.
				Q: Which alignment(s) do you prefer in McKinney? A: Green, Pink	Comment noted.
				Q: Which alignment(s) do you prefer in Princeton? A: Green, Pink	Comment noted.
				Q: Which alignment(s) do you prefer in Farmersville? A: Green, Pink	Comment noted.
				Q: What is your interest in this study? A: Commuter, Nearby resident	Comment noted.
				Q: How often do you drive on the existing US 380? A: Monthly	Comment noted.
				Q: Do you have any concerns with the existing US 380? A: The construction seems unorganized on it and causes heavy traffic in peak hours	Comment noted.
				Q: If US 380 is congested, what alternative routes do you take? A: If 380 is congested I take FM 287 to US 82	Comment noted.
1426	Jackson Porter	5/16/2018	Electronic Survey	Q: What solutions would you suggest in the US 380 Corridor? A: Organize the construction along the highway and invest in finishing quickly rather than creating unnecessary bypasses	Comment noted. Any future improvement projects would include assessment of the potential impact on the human and natural environments. TxDOT attempts to avoid and/or minimize impacts to parks and wildlife preserves as much as practicable.
				Q: Do you support the building of a freeway regardless of alignment? A: As long as it will actually help without sacrificing any parks or wildlife reserves	Comment noted.
				Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment	Comment noted.
				Q: Which alignment(s) do you prefer in Princeton? A: Green, Pink	Comment noted.
				Q: Which alignment(s) do you prefer in Princeton? A: Green, Pink, Blue	Comment noted.

Commenter Name	Date Received	Source	Comment Topic	Response
			Q: Which alignment(s) do you prefer in Farmersville? A: Green, Pink, Blue	Comment noted.
			Q: What is your interest in this study? A: Property Owner, Nearby resident	Comment noted.
			Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: Yes, with all the new businesses coming the traffic will be congested along with the accidents.	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A: Virginia Parkway or El Dorado	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A: I would be ok with adding additional lanes.	Comment noted.
			Q: Do you support the building of a freeway regardless of alignment? A: No, I live right off of 380 and don't want to have it become a freeway. My sons' school is right off Ridge and that is just too close	Comment noted.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: None, I Do Not Support Building a Freeway	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: I Do Not Support Building a Freeway	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A: Green, Pink	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville? A: Green, Pink	Comment noted.
			Q: What is your interest in this study? A: Property Owner, Nearby resident	Comment noted.
			Q: How often do you drive on the existing US 380? A: Weekly	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: Yes,	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A: City streets, Virginia	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A: Fix 380 ON 380 or do the outer loop. The outer loop if possible... keep the trend going of the Loops, (loop 12, 635, even George Bush is a "loop") Less impact on existing infrastructure. BUT please fix existing where needed	Comment noted.
			Q: Do you support the building of a freeway regardless of alignment? A: Yes traffic needs to be taken care off... give and take on both sides.	Comment noted.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: Green, Pink	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A: Green, Pink	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville? A: Green, Pink	Comment noted.
			Q: What is your interest in this study? A: Property Owner, Nearby resident	Comment noted.

## Comment Response Matrix

Commenter Name	Date Received	Source	Comment Topic	Response
			Q: Which alignment(s) do you prefer in McKinney? A: Green, Pink, Blue	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A: Blue	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville? A: Blue	Comment noted.
			Q: What is your interest in this study? A: Property Owner	Comment noted.
			Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: Not much. Except coming out of McKinney it gets bad	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A: None	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A: The Blue Maper corridor	Comment noted.
			Q: Do you support the building of a freeway regardless of alignment? A: yes	Comment noted.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A:	No answer provided.
			Q: Which alignment(s) do you prefer in McKinney? A:	No answer provided.
			Q: Which alignment(s) do you prefer in Princeton? A:	No answer provided.
			Q: Which alignment(s) do you prefer in Farmersville? A: Blue	Comment noted.
			Q: What is your interest in this study? A: Property Owner	Comment noted.
			Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: With no median there have been several cross lane head on wrecks over the years. No current protection of a median for children getting on and off school buses. Lower speed limit needed between Princeton and McKinney	Any future improvements will be designed to enhance safety. TxDOT plans to construct a safety improvement project to add a raised median on US 380 from FM 1827 to CR 985; this project will be letting for bids in August 2018, and construction is anticipated to begin during the fall of 2018. Comment about speed limit has been noted.
			Q: If US 380 is congested, what alternative routes do you take? A: 982 to Lucas, then to Allen, Plano or Dallas	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A: A southern and northern side bypass, and completion of the Collin County outer loop	Comment noted. Alignment options are still being evaluated.
			Q: Do you support the building of a freeway regardless of alignment? A: No, would still not keep up with growth and detract from the small areas community appeal that has attracted most to the area. A Lake Lavon bridge from 982 to Wylie would relieve more traffic long term, along with a north connection to the outer loop and a southern bypass around Princeton and East McKinney	Comment noted.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Red Alignment	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: Red	Comment noted.

	Commenter Name	Date Received	Source	Comment Topic	Response
				Q: Which alignment(s) do you prefer in Princeton? A: Yellow	Comment noted.
				Q: Which alignment(s) do you prefer in Farmersville? A: Blue	Comment noted.
				Q: What is your interest in this study? A: Nearby resident	Comment noted.
				Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
				Q: Do you have any concerns with the existing US 380? A: Yes	Comment noted.
				Q: If US 380 is congested, what alternative routes do you take? A: None available. 380 is the only ingress from the Tucker Hill neighborhood	Comment noted.
				Q: What solutions would you suggest in the US 380 Corridor? A: New bypass alignment away from the Tucker Hill neighborhood	Comment noted.
				Q: Do you support the building of a freeway regardless of alignment? A: No	Comment noted.
				Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: I Do Not Support Building a Freeway	Comment noted.
				Q: Which alignment(s) do you prefer in McKinney? A: None; I Do Not Support Building a Freeway	Comment noted.
				Q: Which alignment(s) do you prefer in Princeton? A: I Do Not Support Building a Freeway	Comment noted.
				Q: Which alignment(s) do you prefer in Farmersville? A: I Do Not Support Building a Freeway	Comment noted.
				Q: What is your interest in this study? A: Property Owner	Comment noted.
				Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
				Q: Do you have any concerns with the existing US 380? A: Too much through traffic, especially large 18-wheel vehicles	Comment noted.
				Q: If US 380 is congested, what alternative routes do you take? A: Either Stonebridge or Custer to Virginia or El Dorado	Comment noted.
				Q: What solutions would you suggest in the US 380 Corridor? A: No to all alignments due to potential loss of homes and devaluation of our neighborhood as a whole and adverse environmental and health implications. Notwithstanding our recommendation, if any freeway construction occurs on the existing 380 footprint adjacent to Tucker Hill, it must impose minimal right-of-way and noise pollution by means of cantilevered access lanes; a depressed throughway; and sound barriers. Also, if any bypass option is chosen, it must be located as far west of Tucker Hill as possible; west of future Stonebridge; not on or bordering Tucker Hill.	Comment noted. Any future improvement projects would include assessment of the potential impact on the human and natural environments.
				Q: Do you support the building of a freeway regardless of alignment? A: No. If freeway a must, then it should be depressed with an overpass so school buses, emergency and private vehicles can head east	Comment noted.
				Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: I Do Not Support Building a Freeway	Comment noted.
				Q: Which alignment(s) do you prefer in McKinney? A: I Do Not Support Building a Freeway	Comment noted.
				Q: Which alignment(s) do you prefer in Princeton? A: I Do Not Support Building a Freeway	Comment noted.

			Q: Which alignment(s) do you prefer in Farmersville? A: I Do Not Support Building a Freeway	Comment noted.
			Q: What is your interest in this study? A: Property Owner	Comment noted.
			Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: Too many 18-wheelers; Numerous accidents as we exit our development onto 380, most involving 18-wheelers.	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A: Either Stonebridge or Custer to Virginia or El Dorado; Only option is to enter 380	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A: No to all alignments due to potential loss of homes and devaluation of our neighborhood as a whole and adverse environmental and health implications. Notwithstanding our recommendation, if any freeway recommendation occurs on the existing 380 footprint adjacent to Tucker Hill, it must impose minimal right-of-way and noise pollution by means of cantilevered access lanes; a depressed thoroughway; and sound barriers. Also, if any bypass option is chosen, it must be located as far west of Tucker Hill as possible; west of future Stonebridge; not on or bordering Tucker Hill; Ban 18-wheeler through traffic; Eliminate 18-wheeler traffic by directing them to an alternate route.	Comment noted.
1451	James Fish	5/10/2018  Electronic Survey	Q: Do you support the building of a freeway regardless of alignment? A: No.	Comment noted.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Blue Alignment; I Do Not Support Building a Freeway	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: Red; I Do Not Support Building a Freeway	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A: Blue; I Do Not Support Building a Freeway	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville? A: Blue; I Do Not Support Building a Freeway	Comment noted.
			Q: What is your interest in this study? A: Nearby resident	Comment noted.
			Q: How often do you drive on the existing US 380? A: Weekly	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: I won't go to the stores on 380 and 75 on weekends because there is too much traffic. We do not need another tollway.	Comment noted. Tolling is not being considered for this project.
			Q: If US 380 is congested, what alternative routes do you take? A: Virginia Parkway, El Dorado	Comment noted.
1452	James Gebhart	5/15/2018  Electronic Survey	Q: What solutions would you suggest in the US 380 Corridor? A: Freeway is a good alternative.	Comment noted.
			Q: Do you support the building of a freeway regardless of alignment? A: Yes	Comment noted.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: Pink	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A: Pink	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville? A: Pink	Comment noted.

			Q: How often do you drive on the existing US 380? A: Weekly	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: To congested	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A: Virginia or Eldorado	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A: Build a freeway	Comment noted.
			Q: Do you support the building of a freeway regardless of alignment? A: yes	Comment noted.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Blue Alignment, The Red Alignment, The Yellow Alignment	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: Blue, Red	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A: Blue	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville? A: Blue	Comment noted.
			Please fasttrack the widening of US380 between Denton and McKinney with the overpasses that are listed in the current project. This should have been started several years ago as the population growth has exploded on US380.	Comment noted.
1471 James Peeeteerson	5/14/2018	Electronic Survey	Also the center turn lanes throughout the state should be abolished and never used again as they are unmanageable by law enforcement and due to misuse and disregard to traffic laws are a constant source of injury or death almost daily.	Comment noted. TxDOT plans to construct a safety improvement project to add a raised median on US 380 from FM 1827 to CR 985; this project will be letting for bids in August 2018, and construction is anticipated to begin during the fall of 2018.
			Q: What is your interest in this study? A: Commuter, Property Owner, Nearby resident	Comment noted.
			Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: Yes. The speed is too fast for a road with frequent traffic lights. However, the time it takes to travel on 380 is way too long for the short distances being traveled. This really needs to become a fully functioning highway with service roads or if the lights will persist then please lower the speed limit to something around 45 mph.	Comment noted.
1472 James Petrey	NA	Email	Q: If US 380 is congested, what alternative routes do you take? A: I do not have any options but to take 380, I am stuck in the Paloma Creek hoa off of 380. The only exit we have is 380. I am strongly considering selling my home this November once I will have been there 2 years to move closer to work. It takes me 30 minutes to an hour depending on traffic to travel 10 miles down 380 towards loop 288 every day to and from work. MY work commute is right at 30 miles but often takes me 1 hour and 15 minutes to 2 hours each way. 2/3's to 3/4's of that time is dedicated to the awful 380 congestion during rush hours in the morning and afternoon.	Comment noted.

1473	James Pisaniich	5/8/2018	Electronic Survey	<p>Q: What solutions would you suggest in the US 380 Corridor?</p> <p>A: 1. make it highway with service roads. 2. put in bypass roads that will allow traffic to continue to flow without the need to stop at a light (see Preston and 380). 3. Add additional lanes to all surrounding roads such as FM-720 that is only 1 lane each way and really needs to be 3 lanes each way with an additional turning lane. 4. Additional roads that do not exist to for those living on 380 to get to the nearby cities/towns. For example 380 and FM-423 is continuously clogged because it is the only way that about 10,000 homes in the area have to get to Frisco, Little Elm, Plano, Dallas etc. We have no other choice but to sit through the congestion. We previously had access to "fishtrap" road as a parallel to US-380 but that has since been closed down to prevent through traffic and only made the traffic on 380 worse. find it ridiculous that we only have FM-423 and FM-720 as routes to Little Elm from 380. There needs to be an additional road that is parallel to 423 and 720 (North/South access).</p> <p>Q: Do you support the building of a freeway regardless of alignment?</p> <p>A: yes, build a freeway and build it now. Please please please build a freeway. I would prefer that is is in the same location as the current US-380 or if not then the access to said new freeway be very close.</p> <p>Q: If US 380 is constructed as a freeway, which alignment do you prefer?</p> <p>A: The Green/Pink Alignment</p> <p>Q: Which alignment(s) do you prefer in McKinney?</p> <p>A: Green, Pink</p> <p>Q: Which alignment(s) do you prefer in Princeton?</p> <p>A: Green, Pink</p> <p>Q: Which alignment(s) do you prefer in Farmersville?</p> <p>A: Green, Pink</p> <p>Q: What is your interest in this study?</p> <p>A: Property Owner</p> <p>Q: How often do you drive on the existing US 380?</p> <p>A: Daily</p> <p>Q: Do you have any concerns with the existing US 380?</p> <p>A: Yes, the traffic is heavy! Too many cars and GRAVEL TRUCKS!</p> <p>Q: If US 380 is congested, what alternative routes do you take?</p> <p>A: There aren't any! I just get off at US-75. I get on at Lake Forest-380 (BAD_BAD INTERSECTION) and then get off at HARDIN and head toward US-75</p> <p>Q: What solutions would you suggest in the US 380 Corridor?</p> <p>A: Run it farther North from Custer to East of McKinney!</p> <p>Q: Do you support the building of a freeway regardless of alignment?</p> <p>A: YES!</p> <p>Q: If US 380 is constructed as a freeway, which alignment do you prefer?</p> <p>A: The Blue Alignment, The Red Alignment</p> <p>Q: Which alignment(s) do you prefer in McKinney?</p> <p>A: Blue, Red</p> <p>Q: Which alignment(s) do you prefer in Farmersville?</p> <p>A: Yellow</p> <p>Q: Which alignment(s) do you prefer in Farmersville?</p> <p>A: Blue</p> <p>Q: What is your interest in this study?</p> <p>A: Commuter, Property Owner, Nearby resident</p> <p>Q: How often do you drive on the existing US 380?</p> <p>A: Daily</p> <p>Q: Do you have any concerns with the existing US 380?</p> <p>A:</p> <p>Q: If US 380 is congested, what alternative routes do you take?</p> <p>A:</p>	<p>Comment noted.</p> <p>No answer provided.</p> <p>No answer provided.</p>

			Q: What is your interest in this study? A: Commuter, Property Owner, Nearby resident	Comment noted.
			Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: number of accidents	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A: Virginia, 121	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A: Traffic flow and safety improvements on current 380. Fast-track construction of outer loop and other east/west roads (e.g., Wilmethe, Bloomdale, Frontier). Improve east / west roads north and south of 308; convert current 380 to limited access business Hwy; build outer loop north and designate as Hwy 380 that trucks must use.	Comment noted. Initial traffic analysis determined that even with the construction area municipalities and Collin County that based on future population projections, US 380 would still experience a failing level of service for congestion and delay..
			Q: Do you support the building of a freeway regardless of alignment? A: No	Comment noted.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: None, I Do Not Support Building a Freeway	Comment noted.

			Q: Which alignment(s) do you prefer in Princeton? A: Green	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville? A: Green	Comment noted.
			Tucker Hill's position is NO to all alignments due to: 1) potential loss of homes 2) devaluation of our neighborhood as a whole 3) adverse environmental and health implications. Notwithstanding our NO recommendation, if any freeway construction occurs on the existing 380 footprint adjacent to Tucker Hill, it must impose minimal right-of-way and noise pollution by means of camouflaged access lanes, a depressed throughway, sound barriers, and extensive landscaping for aesthetics. NO bypass option is acceptable. TxDOT must incorporate the City of McKinney's overall plan into their analyses and building timeline before further decisions are made. The 380 project appears to be an independent project from the outer loop and expansion/widening of other East-West roads (e.g., Wilmethe, Bloomdale, Frontier). Without a comprehensive plan in close coordination with McKinney the current 380 options are shortsighted and may even worsen the problem.	Comment noted. Any future improvement projects would include assessment of the potential impact on the human and natural environments.

1498	Jane	5/14/2018  Electronic Survey	Q: How often do you drive on the existing US 380? A: Daily  Q: Do you have any concerns with the existing US 380? A: Congested, the median is dangerous in some places that don't have grass or curbs. Too many stop lights and not correctly timed to keep traffic flowing. Currently they're putting in sidewalks & I just can't believe you're wanting to put pedestrians right next to this busy highway! That's clearly unsafe & waste of taxpayer money.  Q: If US 380 is congested, what alternative routes do you take? A: There aren't many alternatives once you're on it. Some North or South alternatives are just as bad & time consuming.  Q: What solutions would you suggest in the US 380 Corridor? A: Make it a "real" highway with service roads. AND NOT A TOLL ROAD!!! I'm tired of the roads & I used to drive 121 until NTTA took over that route.  Q: Do you support the building of a freeway regardless of alignment? A: Yes, unless the "alignment" is not a ridiculous one.  Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment	TxDOT plans to construct a safety improvement project to add a raised median on US 380 from FM 1827 to CR 385; this project will be letting for bids in August 2018, and construction is anticipated to begin during the fall of 2018.  Comment noted.  Comment noted.  Comment noted. Tolling is not being considered as an option for funding.  Comment noted.

			Q: How often do you drive on the existing US 380? A: Weekly	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: Too much traffic on a highway with 55 mph speed limit, no right turn lanes, and horrible intersections.	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A: Virginia, Bloomdale (CR 123/Prosper Trail), El Dorado	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A: Make 380 a freeway and keep it in the current pathway with NO bypass.	Comment noted.
			Q: Do you support the building of a freeway in the current pathway? Then, if we can't come to an agreement, I would be willing to consider other options that don't impact many homes or pull a bypass along side neighborhoods.	Comment noted.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: Green, Pink	Comment noted.
	4/26/2018	Electronic Survey		

Commenter Name	Date Received	Source	Comment Topic	Response
		Blue, Red, and Yellow Preliminary Bypass Alignments		
		The Blue, Red and Yellow Proposed Bypass Alignments should all be rejected as a preferred alignment.		
		Key Factors supporting the rejection of the three proposed bypass alignments for a limited access highway or freeway are:		
		Engineering Analysis - Negative Impact - The Blue, Red and Yellow Proposed Bypass alignments through the City of McKinney would likely be assigned a lower Engineering Service Level Rating than Green and Pink alignments. A lower service rating for the bypass alignments will require lower speed limits to levels closely matching University Drive (US 380).		Comment noted.
				Additional traffic modeling is currently underway.
		Traffic Analysis - Negative Impact - Traffic will be able to flow freely through McKinney, but less than freeway speed (See comments in Engineering Analysis).		LOS is not tied to incidents and all alignments will be designed with safety as the utmost importance.
		During heavy traffic period slowing to negotiate bypass curves, traffic may jump on the service roads to move more quickly. The bypass alignment may also impose additional traffic on Prosper Trail and Frontier Parkway as drivers discover the short cuts from Preston Road to the bypass at Bloomdale west of Custer Road and continue on to US 75. The short cut will avoid the signaled intersection at Preston Road and US 380.		Part of the goal of this project is to prepare a project implementation report which would outline specific actionable items to improve the safe of the existing and proposed US 380 corridor(s). If a bypass alignment were to be chosen, short term and mid-term safety improvements would be proposed to improve the existing US 380 alignment.
		*Safety and Crash Data - Negative Impact - A freeway corridor will provide significant safety improvements with no signalized intersections. However, a lower Engineering Service Level Rating will be required to reflect the risk crashes related to the Bypass design. The increased traffic imposed on Prosper Trail and Frontier Parkway may also increase safety risk to the Town of Prosper residents between Preston Road and the proposed bypass (see Traffic Analysis). Finally, the bypass proposals do nothing to address the negative traffic safety and crash impacts related to left turns and, in limited cases, u-turns as drivers attempt to ingress and egress commercial establishments along University Drive.		Since the existing US 380 capacity (6-lane arterial) would be maintained with a bypass alternative, less than 350 – 400 of ROW may be needed for the bypass alignment. Pending full build out traffic modeling will help us determine this.
		*Right-of-way requirements - Negative Impact - The preliminary requirements for a freeway with two lane service roads is between 350 to 400 feet. Unlike the incremental impacts associated with the Pink and Green preliminary alignment, the bypass proposals negative impacts are transformative (see Residential and Commercial Developments).		A traffic noise analysis would be conducted during the environmental study stage of project development, after a preferred alignment has been identified and a schematic has been prepared. The study would be conducted in accordance with federal regulations and TxDOT's Guidelines for Analysis and Abatement of Roadway Traffic Noise. Based on the findings, noise abatement barriers would be proposed for locations that meet federal and TxDOT criteria in terms of noise reduction, cost and constructability. The results of the traffic noise study and the locations and characteristics of any proposed noise barriers would be shared with the community before preparing the final design.
		Residential and Commercial Developments - Negative Impact - Existing neighborhoods will be transformed by the negative impacts imposed on the peaceful and tranquil family homes. These properties experience highway noise that never anticipated when they acquired their property. It will also transform the plans for the development of residential properties with high density projects adjacent to the proposed bypass right-of-way. Commercial development may occur along the development, but at the expense of commercial properties and business along University Drive.		Local governments regarding this proposed project has not indicated that plans for residential development would be changed to high density projects if a bypass is constructed.
		*Social and Community Impacts - Negative Impact - The social and community negative impacts will be significant. Again, unlike the incremental changes imposed by the Pink and Green preliminary alignment, the changes along the bypass right-of-way will be transformative. In addition to the transformation of the properties adjacent to the community is forever changed.		Any future improvement projects would include assessment of the potential impact on the human and natural environments, including social and community impacts.
		Environmental Impacts - Negative Impact - The negative effects traffic noise and pollution generated by a limited access highway are obvious. The imposed negative impacts are unnecessary when a more reasonable alternative exists with the Pink and Green preliminary alignment.		A traffic noise analysis would be conducted during the environmental study stage of project development, after a preferred alignment has been identified and a schematic has been prepared. The study would be conducted in accordance with federal regulations and TxDOT's Guidelines for Analysis and Abatement of Roadway Traffic Noise. Based on the findings, noise abatement barriers would be proposed for locations that meet federal and TxDOT criteria in terms of noise reduction, cost and constructability. The results of the traffic noise study and the locations and characteristics of any proposed noise barriers would be shared with the community before preparing the final design.
		Cost and Economic Impact - Negative Impact - Comparatively, the cost to build one of the bypass alignments is significantly less than the pink and green proposed alignment. However, the proposed bypass alignments do not fully address the City of McKinney's safety and mobility issues for University Drive, or the long-term expectations and needs of the community.		While construction cost estimates have been performed, ROW costs and displacement cost along the existing US 380 alignment are higher than along the bypass. More detailed cost estimates are underway.
		Position Statement	"A combination of the Pink and Green Preliminary Alignments should be adopted as the preferred alignment and move on to more advanced phases of project development, and The Blue, Red and Yellow Proposed Bypass Alignments should all be rejected."	Comment noted.

			Q: Do you have any concerns with the existing US 380? A: It's very dangerous road with a lot of accidents and fatalities.	Comment noted.
1508	5/17/2018	Electronic Survey	Q: If US 380 is congested, what alternative routes do you take? A: There aren't really any good alternate routes to take to get to and from Princeton	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A: A loop around Princeton, New Hope and McKinney.	Comment noted.
Janet Kennedy			Q: Do you support the building of a freeway regardless of alignment? A: I'm not sure if I would support a freeway if it runs along the current alignment. I would have to have specific details about that before deciding, specifically about noise abatement, traffic signals, service roads and access.	Comment noted. Alignment options and roadway configurations are still being evaluated. A traffic noise analysis would be conducted during the environmental study stage of project development, after a preferred alignment has been identified and a schematic has been prepared. Based on the findings, noise abatement barriers would be proposed for locations that meet federal and TxDOT criteria in terms of noise reduction, cost and constructability. The results of the traffic noise study and the locations and characteristics of any proposed noise barriers would be shared with the community before preparing the final design.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Blue Alignment, The Yellow Alignment	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: Blue, Red	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A: Blue, Yellow	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville? A: Green, Pink, Blue, Yellow	Comment noted.
			Q: What is your interest in this study? A: Property Owner	Comment noted.
			Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: Yes, speed limit should be reduced as traffic gets heavier.	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A: Virginia Pkwy.	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A: Anything that will NOT negatively impact our neighborhood in Tucker Hill!!! Not to infringe on the established community.	Comment noted. Any future improvement projects would include assessment of the potential impact on the human and natural environments.
1509	5/17/2018	Electronic Survey	Q: Do you support the building of a freeway regardless of alignment? A: NO	Comment noted.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: I Do Not Support Building a Freeway	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: I Do Not Support Building a Freeway	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A: I Do Not Support Building a Freeway	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville? A: I Do Not Support Building a Freeway	Comment noted.
Janet Magana			Tucker Hill's position is NO to all alignments due to potential loss of homes and devaluation of our neighborhood as a whole and adverse environmental and health implications. Notwithstanding our recommendation, if any freeway construction occurs on the existing 380 footprint adjacent to Tucker Hill, it must impose minimal right-of-way and noise pollution by means of cantilevered access lanes; a depressed Stonebridge; not on or bordering Tucker Hill.	Comment noted. Any future improvement projects would include assessment of the potential impact on the human and natural environments.
1510	Janet Swain	NA	Q: What is your interest in this study? A: Commuter, Property Owner, , Nearly resident	Comment noted.

1511	Janice Cabral	5/14/2018	Electronic Survey	<p>Q: How often do you drive on the existing US 380? A: Daily</p> <p>Q: Do you have any concerns with the existing US 380? A: Too many stop lights. Would be great to have a straight freeway or toll road (prefer “free”way of course) directly to DNT (selfishly this is the route I take). However, it is already hard to get onto 380 during rush hour. Will have to plan the entry/exit onto the freeway property.</p> <p>Q: If US 380 is congested, what alternative routes do you take? A: None. Just suffer through it.</p> <p>Q: What solutions would you suggest in the US 380 Corridor? A: Freeway/tollway. Need ample opportunities for exit off the main road though, especially with new business's popping up everywhere.</p> <p>Q: Do you support the building of a freeway regardless of alignment? A: I wouldn't go that far. I would like to see alignment first. What areas are being impacted? Is it the shortest distance between two points? How far on the service road to get on/off? Cost implications?</p> <p>Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment</p> <p>Q: Which alignment(s) do you prefer in McKinney? A: Pink</p> <p>Q: Which alignment(s) do you prefer in Princeton? A: Pink</p> <p>Q: Which alignment(s) do you prefer in Farmersville? A:</p> <p>Q: What is your interest in this study? ## Comment Response Matrix

	Commenter Name	Date Received	Source	Comment Topic	Response
1515	Comments from Survey	Survey		Q: Do you support the building of a freeway regardless of alignment? A: No	Comment noted.
				Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment	Comment noted.
				Q: Which alignment(s) do you prefer in McKinney? A: Green, Pink	Comment noted.
				Q: Which alignment(s) do you prefer in Princeton? A: Green, Pink	Comment noted.
				Q: Which alignment(s) do you prefer in Farmersville? A: Green, Pink	Comment noted.
				Q: How often do you drive on the existing US 380? A: Weekly	Comment noted.
				Q: Do you have any concerns with the existing US 380? A: Wretchedly times traffic lights that cause stop and go traffic and add to the pollution. Not enough lanes for the quantity of traffic.	Comment noted.
				Q: If US 380 is congested, what alternative routes do you take? A: Backroads or down to I-21	Comment noted.
				Q: What solutions would you suggest in the US 380 Corridor? A: Underground through lanes like 635	Comment noted.
1516	Janine Stevens	5/16/2018	Electronic Survey	Q: Do you support the building of a freeway regardless of alignment? A: Yes	Comment noted.
				Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment, The Blue Alignment	Comment noted.
				Q: Which alignment(s) do you prefer in McKinney? A: Green, Pink, Blue	Comment noted.
				Q: Which alignment(s) do you prefer in Princeton? A: Green, Pink, Blue	Comment noted.
				Q: Which alignment(s) do you prefer in Farmersville? A: Green, Pink, Blue	Comment noted.
				Q: What is your interest in this study? A: Nearby resident, Lowry Crossing City Secretary, BDC Board	Comment noted.
				Q: How often do you drive on the existing US 380? A: Weekly	Comment noted.
				Q: Do you have any concerns with the existing US 380? A: Center lane is not utilized properly & should be eliminated.	Comment noted. TxDOT plans to construct a safety improvement project to add a raised median on US 380 from FM 1827 to CR 985; this project will be letting for bids in August 2018, and construction is anticipated to begin during the fall of 2018.
				Q: If US 380 is congested, what alternative routes do you take? A: FM 546	Comment noted.
			Paper Survey	Q: What solutions would you suggest in the US 380 Corridor? A: - Alternate alignment North of 380, a bypass per se. Eliminate center turn & use concrete barriers to help with head on collisions - Possible lane expansion E. & W.	Comment noted.
1517	Janis Cable	5/14/2018		Q: Do you support the building of a freeway regardless of alignment? A: No. Alignment must NOT disrupt economic impact of the cities with businesses along 380. Especially smaller communities like Lowry Crossing, Princeton & Farmersville.	Comment noted.
				Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Yellow Alignment	Comment noted.

	Commenter Name	Date Received	Source	Comment Topic	Response
				Q: Which alignment(s) do you prefer in McKinney? A: Blue, Red	Comment noted.
				Q: Which alignment(s) do you prefer in Princeton? A: Yellow	Comment noted.
				Q: Which alignment(s) do you prefer in Farmersville? A: Blue, Yellow	Comment noted.
				Q: What is your interest in this study? A: Nearby resident	Comment noted.
				Q: How often do you drive on the existing US 380? A: Weekly	Comment noted.
				Q: Do you have any concerns with the existing US 380? A: Yes, with new shopping centers (McKinney area) the traffic flow pattern will shift again, I admit I have not studied to see if right turn lanes into these facilities have been added as an easement to the main traffic flow lanes, if not they should be considered and added	Comment noted.
				Q: If US 380 is congested, what alternative routes do you take? A: Depend on Waize to work around	Comment noted.
				Q: What solutions would you suggest in the US 380 Corridor? A: Additional study for alternative transit options (rail etc)	Comment noted.
				Q: Do you support the building of a freeway regardless of alignment? A: It is clear the increase of people in the area will need a solution. It will be difficult to come up with a solution everyone is happy with, the more you build to the North the more it will grow so finding a balance to maintain current dedicated open space (Erwin Park) and what the increased traffic will have on the ecosystem should be a priority. Besides a highway solution are there other considerations for alternative transportation and tying into rail systems? Less reliance on highway and better transit options?	Northern extensions of existing and future rail corridors are being evaluated by others; however, transit options are not included in the proposed project. Any future improvement projects would include assessment of the potential impact on the human and natural environments. TxDOT attempts to avoid and/or minimize impacts to parks as much as practicable.
				Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment	Comment noted.
				Q: Which alignment(s) do you prefer in McKinney? A: Green, Pink	Comment noted.
				Q: Which alignment(s) do you prefer in Princeton? A: Green, Pink	Comment noted.
				Q: Which alignment(s) do you prefer in Farmersville? A: Green, Pink	Comment noted.
				Q: What is your interest in this study? A: Nearby resident	Comment noted.
				Q: How often do you drive on the existing US 380? A: Monthly	Comment noted.
				Q: Do you have any concerns with the existing US 380? A:	No answer provided.
				Q: If US 380 is congested, what alternative routes do you take? A:	No answer provided.
				Q: What solutions would you suggest in the US 380 Corridor? A:	No answer provided.
				Q: Do you support the building of a freeway regardless of alignment? A:	No answer provided.
				Q: If US 380 is constructed as a freeway, which alignment do you prefer? A:	No answer provided.
				Q: Which alignment(s) do you prefer in McKinney? A:	No answer provided.

1524	Jared Christensen	4/26/2018	Electronic Survey	<p>Q: Do you have any concerns with the existing US 380?</p> <p>A: Not especially. Studies consistently show that building wider roads does not improve traffic, only makes it worse. I think existing 380 will self-regulate along those lines.</p> <p>Q: If US 380 is congested, what alternative routes do you take?</p> <p>A: Lake Forest to 121; 380 to Hardin to White to 75</p> <p>Q: What solutions would you suggest in the US 380 Corridor?</p> <p>A: I feel that if a freeway is what's going to happen, then a bypass that impacts as few businesses and homeowners as possible is what should be built.</p> <p>Q: Do you support the building of a freeway regardless of alignment?</p> <p>A: I feel that 380 is close enough to 121 that making 380 a comparable freeway is overkill. The bypass options are not appealing to me, but they are better than the huge disruption that would be caused by changing 380 between Custer and 75. I am wondering why no options much further to the north have been explored -- something up toward Melissa or Anna.</p> <p>Q: If US 380 is constructed as a freeway, which alignment do you prefer?</p> <p>A: I Do Not Support Building a Freeway</p> <p>Q: Which alignment(s) do you prefer in McKinney?</p> <p>A: Blue, Red</p> <p>Q: Which alignment(s) do you prefer in Princeton?</p> <p>A: Blue</p> <p>Q: Which alignment(s) do you prefer in Farmersville?</p> <p>A: Blue</p> <p>Q: What is your interest in this study?</p> <p>A: Nearby resident</p> <p>Q: How often do you drive on the existing US 380?</p> <p>A: Daily</p> <p>Q: Do you have any concerns with the existing US 380?</p> <p>A: Yes, too many lights and congestion</p> <p>Q: If US 380 is congested, what alternative routes do you take?</p> <p>A: Side routes through Prosper</p> <p>Q: What solutions would you suggest in the US 380 Corridor?</p> <p>A: North or Laud Howell</p> <p>Q: Do you support the building of a freeway regardless of alignment?</p> <p>A: No</p> <p>Q: If US 380 is constructed as a freeway, which alignment do you prefer?</p> <p>A:</p> <p>Q: Which alignment(s) do you prefer in Princeton?</p> <p>A:</p> <p>Q: Which alignment(s) do you prefer in Farmersville?</p> <p>A:</p> <p>Q: What is your interest in this study?</p> <p>A: Commuter</p> <p>Q: How often do you drive on the existing US 380?</p> <p>A: Daily</p> <p>Q: Do you have any concerns with the existing US 380?</p> <p>A: congestion, people using turning lane and shoulders as lanes to travel on.</p> <p>Q: If US 380 is congested, what alternative routes do you take?</p> <p>A: alternate routes are even longer than congestion on 380. I'm forced to sit and wait.</p>	<p>Comment noted.</p>

## Comment Response Matrix

Commenter Name	Date Received	Source	Comment Topic	Response
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Blue Alignment, None	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: Blue, None	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A: Yellow	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville? A: Blue	Comment noted.
			Q: What is your interest in this study? A: Property Owner	Comment noted.
			Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: No	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A:	No answer provided.
			Q: What solutions would you suggest in the US 380 Corridor? A:	No answer provided.
1529	Jared Schreher	5/17/2018 Electronic Survey	Q: Do you support the building of a freeway regardless of alignment? A: No	Comment noted.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: I Do Not Support Building a Freeway	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: I Do Not Support Building a Freeway	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A: I Do Not Support Building a Freeway	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville? A: I Do Not Support Building a Freeway	Comment noted.
			Q: What is your interest in this study? A: Commuter, Property Owner, Nearby resident	Comment noted.
			Q: How often do you drive on the existing US 380? A: Weekly	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: No, but I do not travel the road during peak commute times.	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A: Virginia Parkway	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A: Utilizing existing right of way where possible to minimize both land purchase and total maintenance costs.	Comment noted.
1530	Jared Wright	5/10/2018 Electronic Survey	Q: Do you support the building of a freeway regardless of alignment? A: No.	Comment noted.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: Green, Pink	Comment noted.

1533	Jason Blake	5/16/2018	Electronic Survey	<p>Q: What is your interest in this study? A: Property Owner</p> <p>Q: How often do you drive on the existing US 380? A: Weekly</p> <p>Q: Do you have any concerns with the existing US 380? A: Too many stop lights</p> <p>Q: If US 380 is congested, what alternative routes do you take? A: Hwy 121</p> <p>Q: What solutions would you suggest in the US 380 Corridor? A: The best solution would be to create a Bypass using the Outer Loop. It isn't really that far north of 380 and most of the right away is already determined. I do not think that the route should follow the Red or Yellow Line. In particular the red and yellow line portion just west of Hwy 75 goes right across a large portion of Honey Creek. This area is a huge animal habitat for Deer, Wood ducks, woodpeckers, birds of all kinds, and so much other wildlife. Building a Freeway or overpass there would absolutely upset the ecosystem there and will cause un-repairable damage. The construction alone will drive away the wildlife and no amount of efficient or modern engineering can build through that area without permanently damaging the ecosystem. The car fumes and noise will chase the animal life away and they will not return. There are definitely more options like leaving it at Hwy 380 or using the Blue Line. Damaging more wet areas takes away from what makes McKinney unique. Pick a route around 75 that does not take away and damage the valuable greenbelt and wet areas.</p> <p>Q: Do you support the building of a freeway regardless of alignment? A: Yes, I think you need to expand Hwy 380 right where it is. Just because various cities were short sighted or possibly more interested in real estate tax and sales tax dollars and they didn't enforce larger setbacks does not mean that the rest of the community has to be burdened with their mistakes. The local Cities need to take on some of the blame and make it right by losing some of their right away and tax dollar income along Hwy 380.</p> <p>Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment, The Blue Alignment</p> <p>Q: Which alignment(s) do you prefer in McKinney? A: Green, Pink, Blue</p> <p>Q: Which alignment(s) do you prefer in Princeton? 			Q: Which alignment(s) do you prefer in Princeton? A: Green, Pink	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville? A: Green, Pink	Comment noted.
			Q: What is your interest in this study? A: Property Owner	Comment noted.
			Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: Too much traffic, too many stoplights, too many big trucks,	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A:	No answer provided.
			Q: What solutions would you suggest in the US 380 Corridor? A: Make 380 another toll road all the way from Princeton to Benton	Comment noted.
			Q: Do you support the building of a freeway regardless of alignment? A: No	Comment noted.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Blue Alignment	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: Blue	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A:	No answer provided.
			Q: Which alignment(s) do you prefer in Farmersville? A:	No answer provided.
			Q: What is your interest in this study? A: McKinney Resident	Comment noted.
			Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: It is congested due to the lack of alternate routes, especially lack of freeway	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A: Depends on the destination. Parallel roads when local. 121 to 35 if west and no good alternative going east.	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A: Complete the outer loop	Comment noted.
			Q: Do you support the building of a freeway regardless of alignment? A: No. It's gone too long without being addressed and now there are some options on the table that would be too disruptive to business or neighborhoods and some that seem non-sensical (routing way off current 380 for short distances) I think completing the outer loop is a better use of funds.	Comment noted.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A: Green, Pink	Comment noted.
1546	Jay Franklin	5/16/2018 Electronic Survey	Q: What alignment(s) do you prefer in Farmersville? A: No	Comment noted.
1547	Jay Halderman	5/15/2018 Electronic Survey	Comment noted. Initial traffic analysis taking into account future population projections indicates that even with the construction of the Collin County Outer Loop and other planned roadway improvements within the study area US 380 would still experience a failing level of service for congestion and delay.

## Comment Response Matrix

Commenter Name	Date Received	Source	Comment Topic	Response
1000	2018-07-09	Survey	Q: Do you support the building of a freeway regardless of alignment? A: sure	Comment noted.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: Pink	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A: Blue	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville? A: Blue, None	Comment noted.
			Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: Regardless of the alignment chosen, the exit ramp from US-75 N to US-380 needs to be expanded to 2 lanes. Traffic backs up on US-75 N causing commuters to have to slow from 70 MPH to STOPPED. Also, the service road between the exit ramp and US-380 should have the westbound turn lanes extended south to where the exit ramp enters the service road to ease traffic merging.	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A:	No answer provided.
			Q: What solutions would you suggest in the US 380 Corridor? A: An elevated level roadway (long bridges) similar to that of I-35 through Austin, TX. This would allow for traffic to bypass downtown areas via an elevated limited access roadway and avoids having to completely redefine downtown areas via a ground-level, width expanded roadway. An elevated roadway along the existing alignment would also avoid displacing residents living to the north of US-380 that do not want a new highway running though their property. From the currently provided alignment options, believe a combination of the BLUE and YELLOW alignments for the McKinney area is the best option, described as follows: Follow the BLUE alignment from the split to the north off existing US-380 @ Airport Dr. At SH-5 follow the YELLOW alignment to cross US-75 @ FM-543. Finally, follow the YELLOW/BLUE alignment until it rejoins with existing US-380.	Comment noted.
			Q: Do you support the building of a freeway regardless of alignment? A: I believe a limited access roadway would definitely be beneficial for traffic flow. However, the alignment selected would still need to make sense for the community and local residents whose property would be impacted by the roadway.	Comment noted.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Blue Alignment, None	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: Blue, None	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville? A: Yellow	Comment noted.
			Q: What is your interest in this study? A: Nearby resident	Comment noted.
			Q: How often do you drive on the existing US 380? A: A couple times a year	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: No	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A:	No answer provided.
			Q: What solutions would you suggest in the US 380 Corridor? A: Dont go through Erwin Park with the construction.	Comment noted.

1556	5/16/2018	Survey	Q: Do you support the building of a freeway regardless of alignment? A: No	Comment noted.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: Green	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A: Green	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville? A: Green	Comment noted.
			Q: What is your interest in this study? A: Commuter, Property Owner, Nearby resident	Comment noted.
			Q: How often do you drive on the Existing US 380? A: Daily	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: Can back up near FM 1827 and Airport. Lots of accidents and too many people run the red light at 1827 especially large trucks. Our end of 380 isn't too bad but it's treacherous west of the DNT.	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A: Sam Rayburn tollway, neighborhood streets through McKinney and Frisco	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A: Make it a proper highway with over/underpasses.	Comment noted.
1557	5/10/2018	Electronic Survey	Q: Do you support the building of a freeway regardless of alignment? A: I do not like rerouting the existing 380 up north. I'm not interested in looping around the city.	Comment noted.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: Green, Pink	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A: Green, Pink	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville? A: Green, Pink	Comment noted.
			Q: What is your interest in this study? A: Property Owner	Comment noted.
			Q: How often do you drive on the Existing US 380? A: Monthly	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: Yes	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A:	No answer provided.
			Q: What solutions would you suggest in the US 380 Corridor? A: Not sure	Comment noted.
			Q: Do you support the building of a freeway regardless of alignment? A: No	Comment noted.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Yellow Alignment	Comment noted.
1558	5/16/2018	Electronic Survey

			Q: Which alignment(s) do you prefer in McKinney? A: I Do Not Support Building a Freeway	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A:	No answer provided.
			Q: Which alignment(s) do you prefer in Farmersville? A: None	Comment noted.
			Q: What is your interest in this study? A: Property Owner, Nearby resident	Comment noted.
			Q: How often do you drive on the Existing US 380? A: Daily	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: It's 25 yards from my bedroom window!!! Too many cars	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A: Eldorado or Virginia	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A: Go around 380 from Custer with a road that connects to 75. Yes only if it goes around all the housing additions and hospitals on 380 . Too many housing additions that nearly touch 380 from Custer to Lake Forest plus a major hospital; Whatever helps the flow.	Comment noted. Alignment options are still being evaluated.
			Q: Do you support the building of a freeway regardless of alignment? A: Yes if it goes around the housing additions and hospitals on 380 from Custer to Lake Forest. Not down 380 from Custer to Lake Forest. No freeway from Custer to Lake Forest; If no a home owner. Guess we'll have to move	Comment noted.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Blue Alignment, The Red Alignment, The Yellow Alignment, I Do Not Support Building a Freeway	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: Blue, Red, I Do Not Support Building a Freeway	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A: Blue	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville? A:	No answer provided.
			Q: What is your interest in this study? A: Property Owner	Comment noted.
			Q: How often do you drive on the Existing US 380? A: Daily	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: extreme congestion, especially between Hardin and US 380	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A: White Ave	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A: Bypass	Comment noted.
			Q: Do you support the building of a freeway regardless of alignment? A: no, avoid current housing additions	Comment noted.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Red Alignment	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: Red	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A: Blue	Comment noted.

			Q: Do you have any concerns with the existing US 380? A: Many accidents. People drive like it's a freeway but there's lots of local traffic. Very bad and dangerous combination.	Any future improvements will be designed to enhance safety

	Commenter Name	Date Received	Source	Comment Topic	Response
1565	Jeanne Cummings	5/18/2018	Electronic Survey	<p>Q: If US 380 is congested, what alternative routes do you take?            A: avoid 380 at all costs, always because it's dangerous.</p> <p>Q: What solutions would you suggest in the US 380 Corridor?            A: Remove a freeway north, reduce speed limits on 380 so that it's safer for local traffic. More businesses are being built along the road and there will be more and more local, stop and go traffic. It's not the place for high speed through traffic. The combination of cross traffic and speed is so dangerous!!!!!!</p> <p>Q: Do you support the building of a freeway regardless of alignment?            A: No. Freeway should not go through current location. Bad idea.</p> <p>Q: If US 380 is constructed as a freeway, which alignment do you prefer?            A: The Red Alignment</p> <p>Q: Which alignment(s) do you prefer in McKinney?            A: Red</p> <p>Q: Which alignment(s) do you prefer in Princeton?            A: None</p> <p>Q: Which alignment(s) do you prefer in Farmersville?            A: None</p> <p>Q: What is your interest in this study?            A: Commuter, Property Owner, Nearby resident</p> <p>Q: How often do you drive on the existing US 380?            A: Daily</p> <p>Q: Do you have any concerns with the existing US 380?            A: Accidents and congestion; We need a center divide to reduce the accidents. Increase the size of the 380 from 2 lanes to 4 lanes</p>	Comment noted.
1566	Jeanne Ingebretsen	5/22/2018	Electronic Survey	<p>Q: If US 380 is congested, what alternative routes do you take?            A: New hope to back side of Princeton and Farmersville ; I go thru new hope , back roads in Princeton and Farmersville to arrive on 78</p> <p>Q: What solutions would you suggest in the US 380 Corridor?            A: Expand width ; Increase lanes from 2 on each side to 4 on each side to start. Remove all semi traffic to a truck frontage road.</p> <p>Q: Do you support the building of a freeway regardless of alignment?            A: No</p> <p>Q: If US 380 is constructed as a freeway, which alignment do you prefer?            A: The Green/Pink Alignment</p> <p>Q: Which alignment(s) do you prefer in McKinney? 	Commenter Name	Date Received	Source	Comment Topic	Response
1570	Jefferson	Survey		Q: Do you support the building of a freeway regardless of alignment? A: Yes  Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Blue Alignment	Comment noted.
				Q: Which alignment(s) do you prefer in McKinney? A: Blue	Comment noted.
				Q: Which alignment(s) do you prefer in Princeton? A: Blue	Comment noted.
				Q: Which alignment(s) do you prefer in Farmersville? A: Blue	Comment noted.
				Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
				Q: Do you have any concerns with the existing US 380? A: All of the lights going through McKinney	Comment noted.
				Q: If US 380 is congested, what alternative routes do you take? A: Head on hwy 78 south to 544 or Bush Turnpike. Have only experienced congestion east of Lake Lavon once...caused by a wreck.	Comment noted.
				Q: What solutions would you suggest in the US 380 Corridor? A: If transportation changes described by Stanford University futurist Tony Seba at <a href="https://youtu.be/2b3tqYDwf0">https://youtu.be/2b3tqYDwf0</a> take place, you might not need the expanded road.	Comment noted.
1571	Jeff Box	5/7/2018	Electronic Survey	Q: Do you support the building of a freeway regardless of alignment? A: No. Hard to see that traffic from east of Lake Lavon will ever be heavy enough to justify the red/yellow/blue routes south of Farmersville.  Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment	Comment noted.
				Q: Which alignment(s) do you prefer in McKinney? A: Green, Pink	Comment noted.
				Q: Which alignment(s) do you prefer in Princeton? A: Green, Pink	Comment noted.
				Q: Which alignment(s) do you prefer in Farmersville? A: Green, Pink	Comment noted.
				Q: What is your interest in this study? A: Commuter, Property Owner, Nearby resident	Comment noted.
				Q: How often do you drive on the existing US 380? A: Weekly	Comment noted.
				Q: Do you have any concerns with the existing US 380? A: there are too many traffic lights west of DNT. Traffic around 380 and us75 is always heavy, and usually bad. The 3 lanes between Hardin and Custer seem to flow/pretty well most days though.	Comment noted.
				Q: If US 380 is congested, what alternative routes do you take? A: Virginia or Eldorado	Comment noted.
				Q: What solutions would you suggest in the US 380 Corridor? A: I like the "red route" suggestion. It seems to be starting the beginning of a McKinney loop.	Comment noted.
				Q: Do you support the building of a freeway regardless of alignment? A: not necessarily, however that may end being necessary for Denton-McKinney traffic volumes.	Comment noted.
				Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Red Alignment	Comment noted.

			Q: Which alignment(s) do you prefer in McKinney? A: Red	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A: Green, Pink, Blue	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville? A: Green, Pink, Blue	Comment noted.
			Q: What is your interest in this study? A: Nearby resident	Comment noted.
			Q: How often do you drive on the existing US 380? A: Monthly	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: yes, any routes that would take away land from Erin Park area	The location of Erin Park was taken into consideration when draft alignments were developed. None of the proposed alignments directly impact Erin Park. The proposed blue alignment option is adjacent to the southern property line but does not cross into the park. TxDOT attempts to avoid and/or minimize impacts to parks as much as practicable.
			Q: If US 380 is congested, what alternative routes do you take? A: south on either the tollway, preson, or Lake Forrest	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A:	No answer provided.
			Q: Do you support the building of a freeway regardless of alignment? A: no	Comment noted.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: Green, Pink	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A: Green, Pink	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville? A: Green, Pink	Comment noted.
			Q: What is your interest in this study? A: Nearby resident	Comment noted.
			Q: How often do you drive on the existing US 380? A: Monthly	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: Very dangerous road with too many big rigs driving too fast	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A: don't have an alternative because live in Tucker Hill	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A: Eliminate big rigs from being able to use 380 and reduce speed limit to 40mph	Comment noted.
			Q: Do you support the building of a freeway regardless of alignment? A: No	Comment noted.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Blue Alignment	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: Blue	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A: Blue	Comment noted.

			Q: How often do you drive on the existing US 380? A: Weekly	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: Lots of lights	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A: 121	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A: Expand	Comment noted.
1575	Jeff Fene	5/14/2018  Electronic Survey	Q: Do you support the building of a freeway regardless of alignment? A: No	Comment noted.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: Green, Pink	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A: Green, Pink	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville? A: Green, Pink	Comment noted.
			Q: What is your interest in this study? A: Property Owner	Comment noted.
			Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: No, the main problem with highway 380 is in Denton County. Adding a "freeway" around McKinney is not the issue at all and will not help the real problem of congestion on Highway 380 from DNT to US377 in Cross Roads. Collin county is already building an overpass on 380 at the Preston intersection and there appears to be work at 380 and the DNT intersection. The issue is clearly 380 in Denton county and not 380 from Custer to McKinney. I have found very minimal traffic from Custer eastbound on highway 380 to McKinney and 6 lanes divided will be sufficient for several decades and if not forever.	The scope of this study is through Collin County. TxDOT is currently conducting a similar feasibility study in Denton County.
			Q: If US 380 is congested, what alternative routes do you take? A: 380 is not congested from Custer to McKinney. I am positive a traffic survey would indicate as such. The minor congestion on 380 is at 75 Southbound in the morning rush hour, improving this turn lanes would fix this issue and not a freeway. The majority of traffic originates from Lake Forest eastbound and any bypass would not address the correct issue. Building a loop around McKinney similar to 288 Northbound in Denton at this point would be a significant waste of tax payer dollars. The bypass in Denton did not work to reduce traffic congestion on 380 in Denton. Loop 288 has very minimal traffic on it, so it is reasonable to deduce building a similar road in McKinney would have similar results. Also, there are several alternatives to 380 in McKinney such as, Virginia, El Dorado, and even Custer to Highway 121.	Building a loop around McKinney similar to 288 Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A: Do not make a bypass road for McKinney for US380. TxDot should address the issues of 380 from DNT to Cross Roads. Also, once the construction is complete at the intersections of Preston and DNT on 380 the commuters will be more likely to commute southbound on the DNT and not even use US75 through McKinney. Do not make the huge mistake like Denton did. The significant growth is not in McKinney or Denton cities proper. The growth is in Prosper, Little Elm, Savannah, Providence Village, Paloma Creek, and Cross Roads that border 380. The best solution for 380 would be to build an alternative route about 5 miles north connecting McKinney and through all the above stated cities to Denton. This would without a doubt fix the problem on 380. I would encourage TxDot to build this road north of 380 before all the neighborhoods and business are built. Building a controlled access freeway North of 380 and parallel from McKinney would definitely fix the problem. The North Texas Tollway authority has already identified this need for a freeway between McKinney and Denton to run parallel and north of US380. I would suggest a joint venture between TxDot and the NTTA to complete this road.	Comment noted.

				Q: Do you support the building of a freeway regardless of alignment?	
				A: No. A freeway as proposed through McKinney is not a good idea and would have minimal effect on traffic. Just look at Loop 288 in Denton that was suppose to ease traffic on 380 in Denton. I was not successful and Denton county ended up improving highway 380 in Denton to reduce traffic. Do not make the same mistake. Do it the right way and build a freeway that is parallel to US380 and North to connect McKinney, Prosper, Dallas North Tollway, Savannah, Paloma Creek, Providence Village, and Cross Roads Texas. This is the fix for the growth on Highway 380, not bypass roads for cities that are seeing the smallest amount of growth. Please.	Comment noted.
				Q: If US 380 is constructed as a freeway, which alignment do you prefer?	Comment noted.
				A: I Do Not Support Building a Freeway	Comment noted.
				Q: Which alignment(s) do you prefer in McKinney?	Comment noted.
				A: I Do Not Support Building a Freeway	Comment noted.
				Q: Which alignment(s) do you prefer in Princeton?	Comment noted.
				A: I Do Not Support Building a Freeway	Comment noted.
				Q: Which alignment(s) do you prefer in Farmersville?	Comment noted.
				A: I Do Not Support Building a Freeway	Comment noted.
				Q: What is your interest in this study?	Comment noted.
				A: Property Owner	Comment noted.
				Q: How often do you drive on the existing US 380?	Comment noted.
				A: Daily	Comment noted.
				Q: Do you have any concerns with the existing US 380?	Any future improvement projects would include assessment of the potential impact on the human and natural environments.
				A: Very busy! But do NOT want it to cut through our beautiful new neighborhood of Pecan Ridge! Our property worth would definitely go down!	
				Q: If US 380 is congested, what alternative routes do you take?	Comment noted.
				A: Back roads; Virginia or Eldorado	Comment noted.
				Q: What solutions would you suggest in the US 380 Corridor?	Comment noted.
				A: Just NOT going through neighborhoods!	Comment noted.
				Q: Do you support the building of a freeway regardless of alignment?	Comment noted.
				A: Yes, but no... NOT regardless of alignment....	Comment noted.
				Q: If US 380 is constructed as a freeway, which alignment do you prefer?	Comment noted.
				A: The Green/Pink Alignment	Comment noted.
				Q: Which alignment(s) do you prefer in McKinney?	Comment noted.
				A: Green, Pink	Comment noted.
				Q: Which alignment(s) do you prefer in Farmersville?	Comment noted.
				A: None	Comment noted.
				Q: What is your interest in this study?	Comment noted.
				A: Property Owner	Comment noted.
				Q: How often do you drive on the existing US 380?	Comment noted.
				A: Daily	Comment noted.
				Q: Do you have any concerns with the existing US 380?	Comment noted.
				A: Congestion and dangerous.	Comment noted.
				Q: If US 380 is congested, what alternative routes do you take?	Comment noted.
				A: NA	Comment noted.

## Comment Response Matrix

	Commenter Name	Date Received	Source	Comment Topic	Response
				Q: Do you support the building of a freeway regardless of alignment?  A: I see the need for it to help the area, but fear that because traffic would divert to it, it would become a main artery in the area and would quickly get used heavier than what is being planned for.	Comment noted.
				Q: If US 380 is constructed as a freeway, which alignment do you prefer?  A: The Green/Pink Alignment	Comment noted.
				Q: Which alignment(s) do you prefer in McKinney?  A: Green, Pink	Comment noted.
				Q: Which alignment(s) do you prefer in Princeton?  A: Green, Pink	Comment noted.
				Q: Which alignment(s) do you prefer in Farmersville?  A: Green, Pink, Yellow	Comment noted.
				Q: What is your interest in this study?  A: Property Owner, Other	Comment noted.
				Q: How often do you drive on the existing US 380?  A: Daily	Comment noted.
				Q: Do you have any concerns with the existing US 380?  A: Only that it is becoming more and more congested.	Comment noted.
				Q: If US 380 is congested, what alternative routes do you take?  A: Coit south or Custer south	Comment noted.
				Q: What solutions would you suggest in the US 380 Corridor?  A: Another east/west option further north. More lanes in the current north/south roads	Comment noted.
1581	Jeff Hodges	5/11/2018	Paper Survey	Q: Do you support the building of a freeway regardless of alignment?  A: Yes	Comment noted.
				Q: If US 380 is constructed as a freeway, which alignment do you prefer?  A: The Red Alignment	Comment noted.
				Q: Which alignment(s) do you prefer in McKinney?  A: Green, Pink, Blue, Red	Comment noted.
				Q: Which alignment(s) do you prefer in Princeton?  A: Green, Pink, Blue, Yellow	Comment noted.
				Q: Which alignment(s) do you prefer in Farmersville?  A: Green, Pink, Blue	Comment noted.
				Q: What is your interest in this study?  A: Nearby resident	Comment noted.
				Q: How often do you drive on the existing US 380?  A: Weekly	Comment noted.
				Q: Do you have any concerns with the existing US 380?  A: The number of accidents and fatality of a neighbor about 4 years ago at 380 and lake forest	Comment noted.
				Q: If US 380 is congested, what alternative routes do you take?  A: Virginia	Comment noted.
				Q: What solutions would you suggest in the US 380 Corridor?  A: A limited access road further to the north	Comment noted.
				Q: Do you support the building of a freeway regardless of alignment?  A: It's too late to turn 380 into a limited access freeway, this should have been addressed 5+ years ago. The best solution now would be a limited access road further to the north.	Comment noted.
1582	Jeff Hoffmeister	5/17/2018	Electronic Survey	Q: If US 380 is constructed as a freeway, which alignment do you prefer?  A: The Blue Alignment	Comment noted.

Jeff Walker	5/15/2018	Electronic Survey	<p>Q: Do you have any concerns with the existing US 380?</p> <p>A: Sync the lights better between dnt and 75 so traffic doesn't have to stop. Also, traffic backs up real bad on 380 westbound at dnt turning left (south) onto dnt, can you build a ramp into dnt or overpass? Also, traffic backs up real bad on 380 eastbound at 75 turning right (south).</p>	Comment noted.

1594	Jeff Whanger	5/18/2018	Electronic Survey	<p>Q: If US 380 is congested, what alternative routes do you take? A: El Dorado or main.</p> <p>Q: What solutions would you suggest in the US 380 Corridor? A: Build the outer loop instead. This will put through traffic on that freeway instead of 380. Also maybe sync traffic lights. Keep it as is, build out to the north and connect it to 75 with a new freeway. Don't impose on existing neighborhoods and businesses. Take the through traffic elsewhere.</p> <p>Q: Do you support the building of a freeway regardless of alignment? A: No.</p> <p>Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: I Do Not Support Building a Freeway</p> <p>Q: Which alignment(s) do you prefer in McKinney? A: I Do Not Support Building a Freeway</p> <p>Q: Which alignment(s) do you prefer in Princeton? A: I Do Not Support Building a Freeway</p> <p>Q: Which alignment(s) do you prefer in Farmersville? A: I Do Not Support Building a Freeway</p> <p>Q: What is your interest in this study? A: Nearby resident</p> <p>Q: How often do you drive on the existing US 380? A: Daily</p> <p>Q: Do you have any concerns with the existing US 380? A: 380/75 bottleneck.</p> <p>Q: If US 380 is congested, what alternative routes do you take? A: Virginia Pkwy/other side roads.</p> <p>Q: What solutions would you suggest in the US 380 Corridor? A: Bypass</p>	Comment noted.
1595	Jeff Young	5/15/2018	Electronic Survey	<p>Q: Do you support the building of a freeway regardless of alignment? A: Yes</p> <p>Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Red Alignment</p> <p>Q: Which alignment(s) do you prefer in McKinney? A: Red</p> <p>Q: Which alignment(s) do you prefer in Princeton? A: Blue</p> <p>Q: Which alignment(s) do you prefer in Farmersville? A: Blue</p> <p>Q: What is your interest in this study? A: Commuter, Property Owner, Nearby resident</p> <p>Q: How often do you drive on the existing US 380? A: Daily</p> <p>Q: Do you have any concerns with the existing US 380? A: It is highly congested.</p> <p>Q: If US 380 is congested, what alternative routes do you take? A: I will take Wilmeth Road or back roads north of 380 but south of Wilmeth.</p> <p>Q: What solutions would you suggest in the US 380 Corridor? A: Create some frontage roads and new right hand turn lanes as well as bypass access if at all possible.</p>	Comment noted.

1590	2017/07/10	Survey	<p>Q: Do you support the building of a freeway regardless of alignment?</p> <p>A: Not if it disrupts current homeowners and their property/homes.</p> <p>Q: If US 380 is constructed as a freeway, which alignment do you prefer?</p> <p>A: I Do Not Support Building a Freeway</p> <p>Q: Which alignment(s) do you prefer in McKinney?</p> <p>A: I Do Not Support Building a Freeway</p> <p>Q: Which alignment(s) do you prefer in Princeton?</p> <p>A: Blue</p> <p>Q: Which alignment(s) do you prefer in Farmersville?</p> <p>A: Blue</p>	<p>Comment noted.</p>
1597	5/15/2018	Jeffrey Davis	<p>Q: What is your interest in this study?</p> <p>A: Commuter, Nearby resident</p> <p>Q: How often do you drive on the existing US 380?</p> <p>A: Daily</p> <p>Q: Do you have any concerns with the existing US 380?</p> <p>A: Number or stoplights currently on it.</p> <p>Q: If US 380 is congested, what alternative routes do you take?</p> <p>A: Tollways, El Dorado pkwy or Virginia pkwy</p> <p>Q: What solutions would you suggest in the US 380 Corridor?</p> <p>A: Creating more turn lanes that help decreases slowdowns and bottlenecks</p> <p>Q: Do you support the building of a freeway regardless of alignment?</p> <p>A: If it minimizes disruptions</p> <p>Q: If US 380 is constructed as a freeway, which alignment do you prefer?</p> <p>A: The Blue Alignment, The Red Alignment</p> <p>Q: Which alignment(s) do you prefer in McKinney?</p> <p>A: Blue, Red</p> <p>Q: Which alignment(s) do you prefer in Princeton?</p> <p>A: Blue</p> <p>Q: Which alignment(s) do you prefer in Farmersville?</p> <p>A: Blue</p> <p>Q: What is your interest in this study?</p> <p>A: Property Owner</p> <p>Q: How often do you drive on the existing US 380?</p> <p>A: Daily</p> <p>Q: Do you have any concerns with the existing US 380?</p> <p>A: yes, it has too many large trucks on the road and poses a hazard for other car drivers</p> <p>Q: If US 380 is congested, what alternative routes do you take?</p> <p>A: no alternative available. I live in Tucker Hill. Only access to neighborhood if from 380.</p> <p>Q: What solutions would you suggest in the US 380 Corridor?</p> <p>A: Tucker Hill's position is NO to all alignments due to potential loss of homes and devaluation of our neighborhood as a whole and adverse environmental and health implications. Notwithstanding our recommendation, if any freeway construction occurs on the existing 380 footprint adjacent to Tucker Hill, it must impose minimal right-of-way and noise pollution by means of cantilevered access lanes; a depressed throughway, and sound barriers. Also, if any bypass option is chosen, it must be located as far west of Tucker Hill as possible; west of future Stonebridge, not on or bordering Tucker Hill.</p> <p>Q: Do you support the building of a freeway regardless of alignment?</p> <p>A: no</p>	<p>Comment noted.</p>

				Q: Do you support the building of a freeway regardless of alignment? A: yes	Comment noted.
				Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment	Comment noted.
				Q: Which alignment(s) do you prefer in McKinney? A: Green	Comment noted.
1599	Jeffrey Giangreco	5/17/2018	Electronic Survey		
1600	jeffrey lewis	5/14/2018	Electronic Survey		

	Commenter Name	Date Received	Source	Comment Topic	Response
				Q: Which alignment(s) do you prefer in Princeton?	A: No answer provided.
				Q: Which alignment(s) do you prefer in Farmersville?	A: No answer provided.
				Q: What is your interest in this study?	A: Nearby resident, Regularly use Erwin Park
				Q: How often do you drive on the existing US 380?	A: Weekly
				Q: Do you have any concerns with the existing US 380?	A: US 380 can get busy, but nothing like the parking lot that 75 is through Plano
				Q: If US 380 is congested, what alternative routes do you take?	A: Virginia
				Q: What solutions would you suggest in the US 380 Corridor?	A: Widen 380 if easements allow
				Q: Do you support the building of a freeway regardless of alignment?	A: 121 is adequate for travel east to west for a major freeway. I am concerned about the impact to local home owners and Erwin park
				Q: If US 380 is constructed as a freeway, which alignment do you prefer?	A: I Do Not Support Building a Freeway
				Q: Which alignment(s) do you prefer in McKinney?	A: I Do Not Support Building a Freeway
				Q: Which alignment(s) do you prefer in Princeton?	A: I Do Not Support Building a Freeway
				Q: Which alignment(s) do you prefer in Farmersville?	A: I Do Not Support Building a Freeway
				Q: What is your interest in this study?	A: Nearby resident
				Q: How often do you drive on the existing US 380?	A: Daily
				Q: Do you have any concerns with the existing US 380?	A: There appears to be a lot of accidents on 380 and Lake Forrest, 380 and Custer.
				Q: If US 380 is congested, what alternative routes do you take?	A: It depends on which way I am coming. I will take Preston road if headed east bound and Lake Forrest if I am coming west bound.
				Q: What solutions would you suggest in the US 380 Corridor?	A: Create double turn lanes on major roads leading north and south. Time the signal lights better.
				Q: Do you support the building of a freeway regardless of alignment?	A: No I do not.
				Q: If US 380 is constructed as a freeway, which alignment do you prefer?	A: The Green/Pink Alignment
				Q: Which alignment(s) do you prefer in McKinney?	A: Green, Pink
				Q: Which alignment(s) do you prefer in Princeton?	A: Green, Pink
				Q: Which alignment(s) do you prefer in Farmersville?	A: Green, Pink

1605	Jena Georgopoulos	5/17/2018	Electronic Survey	<p>Q: Do you have any concerns with the existing US 380?</p> <p>A: No</p> <p>Q: If US 380 is congested, what alternative routes do you take?</p> <p>A: Highway 75 or roads such as Virginia or Eldorado</p> <p>Q: What solutions would you suggest in the US 380 Corridor?</p> <p>A:</p> <p>Q: If US 380 is constructed as a freeway, which alignment do you prefer?</p> <p>A: The Green/Pink Alignment, I Do Not Support Building a Freeway</p> <p>Q: Do you support the building of a freeway regardless of alignment?</p> <p>A: No</p> <p>Q: Which alignment(s) do you prefer in McKinney?</p> <p>A: Green, Pink, I Do Not Support Building a Freeway</p> <p>Q: Which alignment(s) do you prefer in Princeton?</p> <p>A: Green, Pink, I Do Not Support Building a Freeway</p> <p>Q: Which alignment(s) do you prefer in Farmersville?</p> <p>A: Green, Pink, I Do Not Support Building a Freeway</p> <p>Q: What is your interest in this study?</p> <p>A: Nearby resident</p> <p>Q: How often do you drive on the existing US 380?</p> <p>A: Daily</p> <p>Q: Do you have any concerns with the existing US 380?</p> <p>A: No, except that it has been under construction for at least the last 2 years and seems like it will never be completed.</p> <p>Q: If US 380 is congested, what alternative routes do you take?</p> <p>A: Preston or Colt to Rockhill Rd or Eldorado; If the DNT were extended into Celina/beyond (as was originally planned) then other streets would also be an option to get to the DNT instead of just 380.</p> <p>Q: What solutions would you suggest in the US 380 Corridor?</p> <p>A: Finishing the construction so its closed to 1 lane (or 2 lanes with no shoulder). Finishing the DNT so there's not a permanent backup at the 380/DNT interchange. Installing better traffic lights at 380 &amp; Preston Rd - it is almost impossible to see if they are red or green unless you are right under them (not sure why) which is a dangerous situation and really slows down traffic. Improving the traffic flow around 75 &amp; 380, which is always a congested mess.</p> <p>Q: Do you support the building of a freeway regardless of alignment?</p> <p>A: Maybe somewhere else, but freeways always make property values decrease and generally worsen the area, bringing in traffic, crime, etc. of formerly good, safe residential areas becoming deviated and rundown when a new freeway is built.</p> <p>Q: If US 380 is constructed as a freeway, which alignment do you prefer?</p> <p>A: I Do Not Support Building Freeway</p> <p>Q: Which alignment(s) do you prefer in McKinney?</p> <p>A: I Do Not Support Building a Freeway</p> <p>Q: Which alignment(s) do you prefer in Princeton?</p> <p>A: I Do Not Support Building a Freeway</p> <p>Q: Which alignment(s) do you prefer in Farmersville?</p> <p>A: Commuter, Property Owner</p> <p>Q: What is your interest in this study?</p> <p>A: Daily</p> <p>Q: How often do you drive on the existing US 380?</p> <p>A: Congested, so much construction, only 2 lanes each direction, needs to be overpasses at DNT intersection</p>	<p>Comment noted.</p> <p>Comment noted.</p> <p>No answer provided.</p> <p>Comment noted.</p>
1606	Jeni Woods	5/3/2018	Electronic Survey	<p>Q: Do you have any concerns with the existing US 380?</p> <p>A: Congested, so much construction, only 2 lanes each direction, needs to be overpasses at DNT intersection</p>	Comment noted.

Commenter Name	Date Received	Source	Comment Topic	Response
			Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: Safety concerns	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A: Virginia Rd	Comment noted.
1616	Jennifer	5/17/2018 Electronic Survey	Q: What solutions would you suggest in the US 380 Corridor? A: Medians for safety	Comment noted. TxDOT plans to construct a safety improvement project to add a raised median on US 380 from FM 1827 to CR 985; this project will be letting for bids in August 2018, and construction is anticipated to begin during the fall of 2018.
			Q: Do you support the building of a freeway regardless of alignment? A: Not Regardless of alignment	Comment noted.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Blue Alignment, The Red Alignment	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: Blue, Red	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A: Blue	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville? A: Blue	Comment noted.
			Q: What is your interest in this study? A: Property Owner, Nearby resident	Comment noted.
			Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: Yes. Poor timing of traffic lights leads to congestion and traffic backup. The intersection at 380/75 is complete mess due to people waiting till the last minute to merge into right turn lane because of traffic backup from shopping center. : Lights are poorly timed. Lack of right turn lanes clogs intersections. Backup from traffic near 75 because everyone tries to merge at the last minute.	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A: South on Hardin to White going eastbound. Wilmette road coming westbound from 75 ; Take Hardin to White/Community going east. Go north behind Collin college going west.	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A: Improve timing of traffic lights so you don't have to stop and wait at each intersection. Implement right turn lanes at 380/75 similar to the way flow in 3 lanes at intersections instead of backing up due to people turning right. Add an additional right turn lane at 380/75 to relieve the intersection is at Custer/H21.; Add more right/left turn lanes to improve traffic flow. Reconfigure the 380/75 intersection.	Comment noted.
			Q: Do you support the building of a freeway regardless of alignment? A: No. If Prosper has voted not to allow the freeway through their city, I don't see why McKinney has to pick up the slack. It makes the most sense to implement a "freeway" coming from the DNT --> 75, otherwise you are just pushing the congestion west of Custer as there is more development in that area, and disproportionately negatively impacting McKinney residents to the north/south of 380.	Comment noted.
1617	Jennifer Allison	5/15/2018 Electronic Survey	Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: None, I Do Not Support Building a Freeway	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: None, I Do Not Support Building a Freeway	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A: None, I Do Not Support Building a Freeway	Comment noted.
			Q: Which alignment(s) do you prefer in Farmersville? A: I Do Not Support Building a Freeway	Comment noted.
			Q: What is your interest in this study? A: Commuter, Property Owner, Nearby resident	Comment noted.

Commenter Name	Date Received	Source	Comment Topic	Response
			Q: What is your interest in this study? A: Commuter, Property Owner	Comment noted.
			Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: Backups from light to light. Need flyovers	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A: Virginia or Bloomingdale	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A: Fly overs or finish the outer loop	Comment noted. Traffic analysis indicates that providing overpasses, also known as grade separated intersections, along the existing US 380 would still experience a failing level of service for congestion and delay. Initial traffic analysis taking into account future population projections indicates that even with the construction of the Collin County Outer Loop and other planned roadway improvements within the study area, US 380 would still experience a failing level of service for congestion and delay.
			Q: Do you support the building of a freeway regardless of alignment? A: NO.	Comment noted.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: Green	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A:	No answer provided.
			Q: Which alignment(s) do you prefer in Farmersville? A:	No answer provided.
			Q: What is your interest in this study? A: Property Owner	Comment noted.
			Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
			Q: Do you have any concerns with the existing US 380? A: Traffic congestion at intersection of 380 & 75, and continuing congestion east of 75 to Princeton	Comment noted.
			Q: If US 380 is congested, what alternative routes do you take? A: Bloomingdale/Wilmeth or White St.	Comment noted.
			Q: What solutions would you suggest in the US 380 Corridor? A: Flyovers at major intersections similar to 380 & Preston Rd. (289) and complete the outer loop.	Comment noted. Traffic analysis indicates that providing overpasses, also known as grade separated intersections, along the existing US 380 would still experience a failing level of service for congestion and delay. Initial traffic analysis taking into account future population projections indicates that even with the construction of the Collin County Outer Loop and other planned roadway improvements within the study area, US 380 would still experience a failing level of service for congestion and delay.
			Q: Do you support the building of a freeway regardless of alignment? A: absolutely not. If there HAS to be a freeway, support pink or green only. 1 100% oppose all bypass alignments.	Comment noted.
			Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment	Comment noted.
			Q: Which alignment(s) do you prefer in McKinney? A: Green, Pink	Comment noted.
			Q: Which alignment(s) do you prefer in Princeton? A:	No answer provided.
			Q: Which alignment(s) do you prefer in Farmersville? A:	No answer provided.

				Comment noted. Any future improvement projects would include assessment of the potential impact on the human and natural environments.	
		4/26/2018	Comment Form	I live in the Timberbridge Community (Unincorporated McKinney) as it is now 380 runs South of ? . I can hear the 380 traffic from my house. I absolutely do not want the Blue plan. It will create 380 traffic in close proximity to my north, my west and to the south. would be surrounded by 380 traffic noise on 3 sides. The red plan is also bad as it would have traffic noise on two sides of me. Both of those plans would also have students taking the freeway to get to the high school opening 2023. I believe the green plan is the best option.	A: traffic noise analysis would be conducted during the environmental study stage of project development, after a preferred alignment has been identified and a schematic has been prepared. The study would be conducted in accordance with federal regulations and TxDOT's Guidelines for Analysis and Abatement of Roadway Traffic Noise. Based on the findings, noise abatement barriers would be proposed for locations that meet federal and TxDOT criteria in terms of noise reduction, cost and constructability. The results of the traffic noise study and the locations and characteristics of any proposed noise barriers would be shared with the community before preparing the final design.
				Q: What is your interest in this study? A: Business Owner, Property Owner	Comment noted.
				Q: How often do you drive on the existing US 380? A: Daily	Comment noted.
				Q: Do you have any concerns with the existing US 380? A: Not safe, big semis drive dangerously. Our kids have to cross 380 or take it to get to high school AND middle school from our neighborhood.	Any future improvements will be designed to enhance safety.
				Q: If US 380 is congested, what alternative routes do you take? A: Virginia Pkwy or Eldorado Pkwy or White.	Comment noted.
				Q: What solutions would you suggest in the US 380 Corridor? A: Make into a freeway or tolway like 121.	Comment noted.
				Q: Do you support the building of a freeway regardless of alignment? A: yes	Comment noted.
				Q: Which alignment(s) do you prefer in McKinney? A: Green, Pink	Comment noted.
				Q: Which alignment(s) do you prefer in Princeton? A: Green, Pink	Comment noted.
				Q: Which alignment(s) do you prefer in Farmersville? A: Green, Pink	Comment noted.
				Q: What is your interest in this study? A: Property Owner, Nearby resident	Comment noted.
				Q: How often do you drive on the existing US 380? A: Weekly	Comment noted.
				Q: Do you have any concerns with the existing US 380? A: Between 75 and Hardin very congested	Comment noted.
				Q: If US 380 is congested, what alternative routes do you take? A: Any way to avoid the area.	Comment noted.
				Q: What solutions would you suggest in the US 380 Corridor? A: Widening the road with turn lanes for left turn and right turn.	Comment noted.
				Q: Do you support the building of a freeway regardless of alignment? A: No	Comment noted.
				Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: The Green/Pink Alignment	Comment noted.

1647	Jennifer Sanders	5/9/2018	Electronic Survey	<p>Q: How often do you drive on the existing US 380? A: Daily</p> <p>Q: Do you have any concerns with the existing US 380? A: Yes - congestion, addition of businesses</p> <p>Q: If US 380 is congested, what alternative routes do you take? A: Lake Forest, Hardin, White, 121</p> <p>Q: What solutions would you suggest in the US 380 Corridor? A: Improve existing 380 Corridor by adding overpass lanes (as what was done at Preston) for thru traffic or underpass lanes (as was done on 635).</p> <p>Q: Do you support the building of a freeway regardless of alignment? A: No</p> <p>Q: If US 380 is constructed as a freeway, which alignment do you prefer? A: None</p> <p>Q: Which alignment(s) do you prefer in McKinney? A: None</p> <p>Q: Which alignment(s) do you prefer in Princeton? A: None</p> <p>Q: Which alignment(s) do you prefer in Farmersville? A: None</p> <p>Q: What is your interest in this study? A: Commuter, Business Owner, Property Owner, Nearby resident</p> <p>Q: How often do you drive on the existing US 380? A: Daily</p> <p>Q: Do you have any concerns with the existing US 380? A: Yes. The speed is high through heavily populated areas.</p> <p>Q: If US 380 is congested, what alternative routes do you take? A: Virginia/Custer</p> <p>Q: What solutions would you suggest in the US 380 Corridor? A: Blue route using Custer. The businesses along Custer are more suitable for a freeway.</p> <p>Q: Do you support the building of a freeway regardless of alignment? A: I support the best option. You have too many schools and neighborhoods on the other proposed routes.</p> <p>Q: If US 380 is constructed as a freeway, which alignment do you prefer? A:</p> <p>Q: Which alignment(s) do you prefer in McKinney? A:</p> <p>Q: Which alignment(s) do you prefer in Princeton? A:</p> <p>Q: Which alignment(s) do you prefer in Farmersville? A:</p>	<p>Comment noted.</p>
