

Proposed Roadway- From IH 20 to FM 148

■ Project improvements would include:

- Widening approximately 1.07 miles of FM 1641.
- Roadway reconstructed to an urban 4-lane section with a two-way-left-turn-lane.
- Two northbound and two southbound 12-foot wide travel lanes with a 20-foot wide two-way-left-turn-lane.
- Shared use path for bicycles and pedestrians in each direction.
- Proposed ROW width from 130 to approximately 155 feet.
