

Documentation of Public Meeting

Project Location

Dallas County

Interstate 345 (I-345) CSJ: 0092-14-094

Project Limits

I-30 to Woodall Rogers Freeway (SPUR 366)

Meeting Date, Times, and Location Tuesday, Dec. 3, 2019

6:00 pm. to 8:00 p.m. CityPlace Conference Center Lakewood Room, First Floor 2711 N. Haskell Avenue Dallas, Texas 75204

Translation Services

No services available but presented documents were available in English and Spanish

Presenters

Ms. Ceason Clemens, P.E.

Elected Officials in Attendance

Dr. Theresa Daniel – Dallas County Commissioner, District 1
Erin Moore – Representative of Dallas County Commissioner Dr. Theresa Daniel, District 1
Kelvin Bass, Representative of Senator Royce West, District 23

Total Number of Attendees (approx.)

178

Total Number of Commenters

493

1	Anonymous	Electronic	12/3/2019	Q: What best describes your interest in I-345?	Comment noted.	
		Survey		A: Commuter/traveler through Downtown Dallas, Walk/bike under 345		
				Q: How often do you use I-345?	Comment noted.	
				A: Monthly		
				Q: When do you use I-345?	Comment noted.	
				A: Other		
				Q: Why are you using I-345?	Comment noted.	
				A: Travel to/from recreation activities, Travel to/from entertainment		
				Q: When I-345 is experiencing delays, which alternate route(s) do you use?	Comment noted.	
				A: Woodall Rodgers Freeway (Spur 366), Transit/Other transportation mode, Local Streets, Cesar Chavez, Ervay		
				Q: What mode of transportation do you use?	Comment noted.	
				A: Drive my car, Walk, Ride services (Uber, Lyft, taxi, etc.)		
				Q: Please identify your areas of concern on the map.	Comment noted.	
				A: Design Issue: The entire highway cuts through our downtown, not only creating pollution in neighborhoods but		
				preventing economic growth and opportunity for South Dallas by preventing density and access to CLOSE jobs and		
				workforce housing.		
				Q: Do you have concerns with the existing configuration of I-345?	Comment noted.	
				A: Yes. The highway should be removed. Alternative traffic options have been studied, and CityMap itself reported that		
					traffic would not increase (even on Woodall Rogers) as a result. By creating affordable housing options, reconnecting	
				neighborhoods, and allowing more businesses to thrive near the CBD, we are redefining the potential of downtown Dallas		
				and it is much needed for intentional growth.	Comment noted.	
				Q: If improvements are made, what are your priorities for I-345? A: Removal and move to a boulevard system to reconnect neighborhoods and encourage economic development	Comment noted.	
				A: Removal and move to a boulevard system to reconnect neighborhoods and encourage economic development		
				Q: What alternatives do you suggest for I-345	Comment noted.	
				A: removal

Comment Number	Commenter Name	Source	Date Received	Comment Topic	Response		
						Q: Please identify your areas of concern on the map. A: Bike/Ped Issues: Lots of dangerous pedestrian areas around/underneath 345 and near on/off ramps. Comments: 345 separates Downtown and Deep Ellum (and neighborhoods beyond), making it harder than necessary for pedestrians, commuters of all sorts, and businesses; so much lost revenue from lack of grade-level, storefront viewing and walkability of area. We should be moving away from vehicle traffic and towards alternative, greener methods of transportation. Design Issue: Narrows quickly. Design Issue: Not great visibility or merge opportunity, Safety Issue: Hard to merge from 366 onto 75; hard to get over to exit to 30 coming south on 345. Traffic Issue: Always traffic here.	Comment noted.
				Q: Do you have concerns with the existing configuration of I-345? A: Yes. 345, as configured, creates an unnecessary, unnatural barrier between Downtown and Deep Ellum, which prevents easy flow of people, culture, and ideas between two historically socioeconomically, racially, and ethnically diverse areas. There are 245 acres of virtually unusable land under I-345 that should be reconfigured to parks, storefronts, and cultural gathering spots. We need to be moving our collective transportation plans away from a vehicle-centric approach which is unfortunately well-represented by I-345 to a more multi-modal, pedestrian, and green transportation focus.	Comment noted.		
				Q: If improvements are made, what are your priorities for I-345? A: For it to be removed and replaced with streets that facilitate walking and other, low-speed forms of transportation, as well as business and public space designations.	Comment noted.		
				Q: What alternatives do you suggest for I-345 A: Low-speed boulevards and city streets with ample sidewalks and protected lanes for other, non-vehicle modes of transportation.	Comment noted.		
				Q: I am interested because I am a A: Local Resident	Comment noted.		
				Q: Please provide contact information to stay informed A:	Comment noted.		
				Q: Do you have other comments? A: No response provided	No response provided.		
				Q: Zip Code A: 75208	Comment noted.		
				Q: How did you hear about this survey? A: Public Meeting	Comment noted.		
3	Kennedy Bower	Electronic Survey	12/3/2019	Q: What best describes your interest in I-345? A: Reside Near I-345, Commuter/traveler through Downtown Dallas, Potential business or property owner near I-345, Walk/bike under 345, commute to/from South Dallas	Comment noted.		
				Q: How often do you use I-345? A: Daily	Comment noted.		
				Q: When do you use I-345? A: Morning Rush Hour, Midday, Afternoon Rush, Evening	Comment noted.		
				Q: Why are you using I-345? A: Travel to and from work, Travel to/from recreation activities, Travel to/from entertainment	Comment noted.		
				Q: When I-345 is experiencing delays, which alternate route(s) do you use? A: I-35E, Local Streets, 635 and Loop 12 aren't located near the area i am	Comment noted.		
				Q: What mode of transportation do you use? A: Drive my car, Carpool with others, Ride services (Uber, Lyft, taxi, etc.)	Comment noted.		
			Q: Please identify your areas of concern on the map. A: Bike/Ped Issues: What bike lane? Safety Issue: traffic and lack of walkability create huge safety issues. Traffic Issue: There is always congestion here with the multiple lanes and entrance/exit ramps.	Comment noted.			
					Q: Do you have concerns with the existing configuration of I-345? A: Yes, as I'm sure everyone does. The highway is always congested and not efficient to the hold the traffic it needs.	Comment noted.	

Comment Number	Commenter Name	Source	Date Received	Comment Topic	Response										
				Q: If improvements are made, what are your priorities for I-345? A: Better flow, more walkability for pedestrians, easy and quick access to and from South Dallas to Northern areas	Comment noted.										
				Q: What alternatives do you suggest for I-345 A: I am not a professional, but I do believe the highway provides needs to many residents in Dallas and outside of Dallas. I hope there is a solution that supports the people who use it most.	Comment noted.										
				Q: I am interested because I am a A: Local Resident	Comment noted.										
				Q: Please provide contact information to stay informed A:	Comment noted.										
				Q: Do you have other comments? A: No response provided	No response provided.										
				Q: Zip Code A: 75215	Comment noted.										
				Q: How did you hear about this survey? A: Public Meeting	Comment noted.										
4	Jack Socki	Electronic Survey	12/3/2019	Q: What best describes your interest in I-345? A: Reside Near I-345, Commuter/traveler to downtown Dallas, Commuter/traveler through Downtown Dallas, Walk/bike under 345	Comment noted.										
				Q: How often do you use I-345? A: Never	Comment noted.										
				Q: When do you use I-345? A: No response provided	No response provided.										
				Q: Why are you using I-345? A: I don't use it.	Comment noted.										
				Q: When I-345 is experiencing delays, which alternate route(s) do you use? A: I take public transit. I don't use it or have any	Comment noted.										
				Q: What mode of transportation do you use? A: Public transit (rail, bus), Bicycle, Walk, Ride services (Uber, Lyft, taxi, etc.), Scooter	Comment noted.										
				Q: Please identify your areas of concern on the map. A: Bike/Ped Issues: Very dangerous to ride under here.	Comment noted.										
														Q: Do you have concerns with the existing configuration of I-345? A: It is very ugly. It divides the neighborhood. It has destroyed the livability of the area around it. It acts as a noose around downtown. It needs to be removed. I think that even having a roadway go through it is too much. it should be converted into a linear park.	Comment noted.
				Q: If improvements are made, what are your priorities for I-345? A: My priority is to have it be as safe and nice to be around as possible. My priority is for it to be removed.	Comment noted.										
				Q: What alternatives do you suggest for I-345 A: A linear park. remove the entire thing.	Comment noted.										
				Q: I am interested because I am a A: Local Resident	Comment noted.										
				Q: Please provide contact information to stay informed A: Jack Socki	Comment noted.										
				Q: Do you have other comments? A: Please demolish this monstrosity and save our city.	Comment noted.										
				Q: Zip Code A: 75208	Comment noted.										
				Q: How did you hear about this survey? A: No response provided	No response provided.										
5		Electronic Survey	12/3/2019	Q: What best describes your interest in I-345? A: Reside Near I-345, Commuter/traveler through Downtown Dallas, Property Owner Near I-345	Comment noted.										
				Q: How often do you use I-345? A: Weekly	Comment noted.										
				Q: When do you use I-345? A: Midday, Evening	Comment noted.

				A: Public Meeting	
7	La Sheryl Walker	Electronic	12/3/2019	Q: What best describes your interest in I-345?	Comment noted.
		Survey		A: Reside Near I-345, Commuter/traveler to downtown Dallas, Commuter/traveler through Downtown Dallas, Property	
				Owner Near I-345, Potential business or property owner near I-345, Walk/bike under 345	
				Q: How often do you use I-345?	Comment noted.
				A: Daily	
				Q: When do you use I-345?	Comment noted.
				A: Midday, Evening, Late Night	
				Q: Why are you using I-345?	Comment noted.
				A: Travel to/from recreation activities, Travel to/from entertainment, Travel to malls and shopping areas	Common and
				Q: When I-345 is experiencing delays, which alternate route(s) do you use?	Comment noted.
				A: Local Streets, Gaston or Live Oak to Greenville Ave, Skillman or A Q: What mode of transportation do you use?	Comment noted.
				A: Drive my car	Comment noted.
				Q: Please identify your areas of concern on the map.	Comment noted.
				A: Design Issue: Want to know how traffic will be re-routed from 45 South to 75 South. Traffic Issue: Traffic Congestion	comment noted.
				Q: Do you have concerns with the existing configuration of I-345?	Comment noted.
				A: no	
				Q: If improvements are made, what are your priorities for I-345?	Comment noted.
				A: That there is still a good way to access 75 north coming from the 45 south and vice versa.	
				Q: What alternatives do you suggest for I-345	Comment noted.
				A: I think it is fine how it is. any other routes to me will take drivers out of their way. I think maybe a tunnel deeper	
				underground might work. That would allow drivers to stay on that route and still be able to drive north or south without	
				being redirected to a loop or something.	Comment and
				Q: I am interested because I am a A: Local Resident	Comment noted.
				Q: Please provide contact information to stay informed	Comment noted.
				A.	Comment noted.
				Q: Do you have other comments?	Comment noted.

				Q: How did you hear about this survey?	Comment noted.
				A: Public Meeting	
8		Electronic	12/3/2019	Q: What best describes your interest in I-345?	Comment noted.
		Survey		A: Reside Near I-345, Commuter/traveler to downtown Dallas, Walk/bike under 345, Planner/Community Advocate	
				Q: How often do you use I-345? A: Monthly	Comment noted.
				Q: When do you use I-345?	Comment noted.
				A: Midday, Afternoon Rush	Comment noted.
				Q: Why are you using I-345?	Comment noted.
				A: Work-related (freight, etc.)	
				Q: When I-345 is experiencing delays, which alternate route(s) do you use?	Comment noted.
				A: Local Streets, Columbia/Abrams/Skillman	
				Q: What mode of transportation do you use?	Comment noted.
				A: Public transit (rail, bus)	
				Q: Please identify your areas of concern on the map.	Comment noted.
				A: Bike/Ped Issues: Area with ramps is hostile to people walking or biking. Bike/Ped Issues: Extreme width of right-of-way	
				breaks urban fabric and discourages use of transit or walking. Design Issue: Intersection is not well designed and creates	
				confusion for people driving, walking, using the transit station, or biking. Traffic Issue: This interchange seems to have traffic	
				congestion at every part of the day. This is a major issue for especially when there are little other alternatives in part because of a broken and modified grid.	
		1 1		INACQUEA OT 2 PROKAN 2ND MODIFIED GRID	

Comment Number	Commenter Name	Source	Date Received	Comment Topic	Response	
				Q: Do you have concerns with the existing configuration of I-345? A: Yes, I have concerns with the existing configuration of I-345. Though an important connection it also acts as an extended on-ramp that with cars constantly exiting and entering the freeway. In addition to taking many acres of developable land, it is also unsightly and inefficient. The highway separates two important Dallas neighborhoods with many on the periphery that would benefit from being better connected. Development patterns beyond Central Dallas encourage driving and removing a key connection will have negative implications for many. This is worrying especially as TXDOT has continually dedicated itself to the movement of private vehicles and not of people.	Comment noted.	
				Q: If improvements are made, what are your priorities for I-345? A: (1) Better connections (2) Improved mobility (3) Public land for public good	Comment noted.	
				Q: What alternatives do you suggest for I-345 A: Highway Removal, Tunnel, or depressed highway	Comment noted.	
				Q: I am interested because I am a A: Local Resident	Comment noted.	
				Q: Please provide contact information to stay informed A:	Comment noted.	
				Q: Do you have other comments? A: No response provided	Comment noted.	
				Q: Zip Code A: 75219	Comment noted.	
9	Toylor Hoon	Flootronic	12/3/2019	Q: How did you hear about this survey? A: Public Meeting Q: What best describes your interest in I-345?	Comment noted. Comment noted.	
9	Taylor Henry	Electronic Survey		A: Reside Near I-345, Commuter/traveler to downtown Dallas, Walk/bike under 345 Q: How often do you use I-345?	Comment noted.	
				A: Never Q: When do you use I-345?	No response provided.	
				A: No response provided Q: Why are you using I-345?	No response provided.	
				A: No response provided Q: When I-345 is experiencing delays, which alternate route(s) do you use?	No response provided.	
				A: No response provided Q: What mode of transportation do you use?	Comment noted.	
				A: Public transit (rail, bus), Bicycle, Walk Q: Please identify your areas of concern on the map.	Comment noted.	
				A: Bike/Ped Issues: bike lane intersects the off-ramp. Bike/Ped Issues: bike line intersects the on-ramp Q: Do you have concerns with the existing configuration of I-345?	Comment noted.	
					A: I live downtown, and I don't really use I-345 for commuting. I only pass under it as I travel to places east of downtown. I ride the bus to my job in Lakewood which passes under; I walk to Deep Ellum for social outings to pass under; the bike route to work passes under as well. As I see the East Quarter reviving, I'm concerned I-345 is a dead end.	
				Q: If improvements are made, what are your priorities for I-345? A: I think the improvement would be an alternative route for travelers through downtown.	Comment noted.	
				Q: What alternatives do you suggest for I-345 A: I suggest connections to highways outside the city center for travelers not traveling into the city, but rather passing through. For the city center, a tear-down and surface improvements for new roads and infrastructure for mixed-use buildings could expand safety for pedestrians and reduce car travel for local trips. Many trips which should be local foot traffic, bikes, and scooters end up being dangerous to compete with car traffic entering and exiting the highway or causing a dead zone to exist for what could be a full development transitioning central business district into Deep Ellum.	Comment noted.	
				Q: I am interested because I am a A: Local Resident	Comment noted.	
				Q: Please provide contact information to stay informed A:	Comment noted.

				Q: When I-345 is experiencing delays, which alternate route(s) do you use?	Comment noted.
				A: I-35E, Local Streets	
				Q: What mode of transportation do you use?	Comment noted.
				A: Drive my car	Comment noted.
				Q: Please identify your areas of concern on the map. A: Design Issue: Current redirected Northbound traffic to Lamar is a MAJOR congestion issue at peak times of the morning.	Comment noted.
				The closure of Pennsylvania was not helpful. Safety Issue: heavy truck traffic, high commuter traffic for nearby schools,	
				annual Fair traffic. Traffic Issue: Traffic approaching I 30 is a constant source of heavy traffic during peak hours. Most	
				weekday mornings, exiting Northbound at Lamar takes as long to exit the ramp as it takes to drive from I20 to that exit. On	
				weekends, the main concern is traffic exiting to Woodall Rogers to gain access to I35 North.	
				Q: Do you have concerns with the existing configuration of I-345?	Comment noted.
				A: Yes, I have major concerns. Having driven this route for the past 27+ years, I have come to understand the impact of	Comment noted.
				greater traffic volume and less attention to expansion in this area. Closing off any area of this already congested route does	
				not seem feasible. I am eager to hear of the plans and would like to be kept abreast of the study as it moves forward. Using	
				the only other main highway (I35) to get to South Dallas does is not a viable/reasonable option - as traffic is not better.	
				Q: If improvements are made, what are your priorities for I-345?	Comment noted.
				A: Expansion, improvement to the exits to lessen the heavy backup that seems to have increased over the past several years	
				as traffic approaches Lamar and I30. Perhaps having HOV lanes in the AM Northbound lanes would help, or an overpass	
				directly to Woodall Rogers that avoids the traffic leading to I-75 North.	
				Q: What alternatives do you suggest for I-345	Comment noted.
				A: Again, an overpass that leads traffic directly to Woodall Rogers and a separate path to northbound I-75 traffic. In	
				addition, the amount of backup for traffic exiting at Lamar might be lessened with multiple lanes exiting instead of one.	
				Q: I am interested because I am a	Comment noted.

				Q: Please identify your areas of concern on the map. A: Comments: I live in east Oak Cliff. Here is the rundown of crossing the river logic: Exit for 345 looks slow? Let me try I-30. I-30 exit looks terrible? Let me try MLK to cross the river. Sometimes this deferral of suffering in traffic results in me going all the way to Loop -12 before I finally exit to go home. I think a lot of people do some variation of this logic when trying to cross the river from the north. Comments: If you just want to go directly south on I-45, no problem really, even in evening rush hour. It's the exits for 175, I-30, and MLK that jam it up. Design Issue: Only the left most lane makes it through downtown. Surface streets are more consistent if you want to stay in the same lane. Design Issue: To continue north beyond Uptown on US 75, you must switch to the leftmost lane relatively quickly. Very risky during heavy traffic. Design Issue: Very short time frame to merge/switch. Safety Issue: Cars come in way too fast to feel comfortable crossing at night. Traffic Issue: Every time I trick myself into using this route, I instantly regret it. The traffic jams on this exit frustrate me because I stay at near stand still, mostly due to people going eastbound on I-30 when I just want to go west. I take it because it requires less thought than making a turn or two on surface streets or not running to Target at 6pm, not because its faster or less frustrating. Traffic Issue: This has become a popular place for the homeless to consistently ask for change because it's so slow. Might as well make it a street if we sit here either way.	Comment noted.
				Q: Do you have concerns with the existing configuration of I-345? A: It's fast when I don't need it to be and slower than streets when I need it the most. But worse than the streets is that once you commit to an exit/route, you are stuck and wondering if the other 6 options would have been better.	Comment noted.
				Q: If improvements are made, what are your priorities for I-345? A: Minimize weaving, reduce the number of exits. Minimize right of way if you want to keep it. Improve pedestrian crossings.	Comment noted.
				Q: What alternatives do you suggest for I-345 A: I would say go ahead and remove it, and coming from the south, start reducing highway lanes starting from Lamar going north. It always looks like a good idea to use until I'm stuck on it. Might was well add some more street options, housing, and jobs. If you keep a version of it, add a variable toll of some sort. I don't care whether it's slow (streets) or fast (narrow, variable toll option), as long as it's consistent.	Comment noted.
				Q: I am interested because I am a A: Commuter	Comment noted.

				A: Drive my car, Ride services (Uber, Lyft, taxi, etc.)	
				Q: Please identify your areas of concern on the map.	Comment noted.
				A: Bike/Ped Issues: It's difficult to walk from Deep Ellum to the Arts District because of the overpasses. Safety Issue:	
				Homeless people take shelter under the overpasses and it's unsafe walking. Traffic Issue: the traffic merging to US75 is very	
				heavy and backs up on ramps.	
				Q: Do you have concerns with the existing configuration of I-345?	Comment noted.
				A: It is cutting off East Dallas from Downtown and Uptown on valuable land. It is also very congested onto 75.	
				Q: If improvements are made, what are your priorities for I-345?	Comment noted.
				A: Build it underground like the rest of 75 so that area can be developed around parks and historic properties. Or Divert the	
				traffic if suitable routes are found.	
				Q: What alternatives do you suggest for I-345	Comment noted.
				A: I think putting the highway under ground or demolishing them are the best options I can think to do.	
				Q: I am interested because I am a	Comment noted.

				Q: What mode of transportation do you use?	Comment noted.
				A: Drive my car	Comment noted.
				Q: Please identify your areas of concern on the map.	Comment noted.
				A: Intersection Issue: It's not a secret that getting on I-30 W is horrible. Traffic Issue: The Bryan Street Exit Only sign begins	
				far too early, and people bunch up in the left lane thinking the Exit Only is quick.	
				Q: Do you have concerns with the existing configuration of I-345?	Comment noted.
				A: Removing it is NOT a good option with thousands of people on it traveling each day. Adding stop lights to that would be	
				a disaster.	
				Connecting Dallas to Old East Dallas visually/easily would be great. The Woodall Rogers model might be the best idea. Sink	
				it and put a walkable deck park/retail/restaurant area there.	
				it and pat a walkable deak parky retaily restaurant area there.	
				You could really highlight the history of that part of town - it is where the first railroad came to Dallas and changed it from a	
				town to a city. It is where the first Union Station was. Dallas owes almost everything it has to the railroad; that could easily	
				be brought to life with a decked over, sunken 345.	

Comment Number	Commenter Name	Source	Date Received	Comment Topic	Response
				Q: If improvements are made, what are your priorities for I-345? A: Link Dallas back to Old East Dallas.	Comment noted.
				Have a solid plan and (duh) interrupt people's lives as little as possible. The Horseshoe has been relatively painless.	
				Have a website showing what it will look like and what the progress is on a weekly/bi-weekly basis.	
				Work with the City of Dallas and what its citizens want; we drive it every day. Learn from Dallas' history of the "Central Track" and how future development could enhance the past with the best technology.	
				Q: What alternatives do you suggest for I-345 A: Of what I have seen, sinking it and putting a deck atop it like on Woodall Rogers seems the optimum plan.	Comment noted.

				A: Drive my car, Bicycle, Walk	
				Q: Please identify your areas of concern on the map. A: Bike/Ped Issues: dangerous to cross under highway on foot. many columns, lots of places for people to hide. Needs better lighting. Bike/Ped Issues: Intersection unfriendly to bikes. Bike/Ped Issues: We need consistent dedicated bike lanes and sidewalks. Comments: Removal of I-345 is the only logical option when considering the forthcoming change in vehicular transportation with automation and self-driving cars. Experts agree that in the future there will be much less personal vehicle ownership. Why make a massive investment now for an outmoded transportation method and system that will continue to be a massive barrier and physical barrier that separates the city. Design Issue: high speed ramp dumps off onto street, hard for cars coming off the highway to slow down sufficiently. Design Issue: The highway physically separates downtown from Deep Ellum. It creates a large and wide area that is unfriendly to walking and cycling. Intersection Issue: DART, on ramps, and surface streets creates a really difficult intersection. impossible to cross on foot. Safety Issue: No sidewalk	
				Q: Do you have concerns with the existing configuration of I-345? A: Yes. It divides Deep Ellum from Downtown, creating a massive barrier and dangerous separation that will continue to depress the surrounding areas and keep our city separated and compartmentalized.	Comment noted.
				If crossing from Downtown to deep ellum, the way the freeway crosses the streets diagonally creates a very long crossing under the highway with poor sidewalks and inconsistent lighting. It is an unsafe place, preventing people from walking downtown to Deep Ellum, which is a relatively short distance that should be easily walkable.	
				Q: If improvements are made, what are your priorities for I-345? A: In order of priority: 1.Complete removal. 2. if complete removal is absolutely not possible, create a tunnel (similar to what was done in downtown Seattle) to carry traffic that is not exiting downtown or Deep Ellum.	Comment noted.
			Q: What alternatives do you suggest for I-345 A: Complete removal or subterranean.	Comment noted.	
			I do not believe a "below grade" option is sufficient, because the area actually connected by deck parks would be minimal compared to the overall length. Tunnels or complete removal are the only viable options for the future health of the city.		
				Q: I am interested because I am a A: Local Resident	Comment noted.

				Q: Please provide contact information to stay informed	Comment noted.
				Q: Do you have other comments?	Comment noted.
				A: I am an architect and urbanist, and through all of my training and professional experience has led me to understand the extreme negative effects of highways on urban communities.	
				Cities that are forward-looking and planning for the future are re-thinking a car-centric transportation philosophy and	
				embracing mulit-modal strategy for creating sustainable transportation systems for entire regions. I-345 is a vestige of outmoded thinking and the new design must look to the future and employ best practices to create vibrant cities. I strongly	
				advocate for complete removal of I-345

				a curve is problematic. Safety Issue: Homeless encampments is a concern for safety as well as open drug use and sale. Traffic Issue: Merging with multiple on ramps in a curve is difficult.	
				Q: Do you have concerns with the existing configuration of I-345?	Comment noted.
				A: The elevated highway divides neighborhoods and creates a personal safety concern. Q: If improvements are made, what are your priorities for I-345?	Comment noted.
				A: Reconnecting south side neighborhoods to the economic development north of I-30 and improve traffic flow through better street design, transportation alternatives, more walkable neighborhoods, and increased housing density.	
				Q: What alternatives do you suggest for I-345	Comment noted.
				A: I'm in favor of the tear down option and the removal of the eyesore that is I-345 which detaches the local community from neighboring communities and allows commuters to skip local businesses in favor of quickly exiting the CBD for the	
				suburbs.	
			Q: I am interested because I am a A: No response provided	No response provided.

				A: Design Issue: The streets underneath I345 are dark, deserted, and not friendly to walking between deep ellum and	Comment noted.
				downtown. I am willing to bike across, but not walk. I used to office at Perkins+Will. It is off Pearl St, very close to Deep	
				Ellum; however it psychologically felt very far and no one would walk there. Intersection Issue: when going north, everyone	
				on the right is trying to get to the left, and everyone on the left is trying to get to the right lanes. Safety Issue: going south	
				on 75: it is super dangerous to merge onto Woodall rogers. I know people who have been injured from sitting in stopped	
				traffic waiting to get on Woodall Rogers, and getting hit from behind due to high speed traffic. Traffic Issue: going north,	
				1345 is usually pretty clear, but it clogs up once it joins with 175.	
				Q: Do you have concerns with the existing configuration of I-345?	Comment noted.
				A: Seems very underutilized for the amount of valuable space it takes up!	
				Would love this area to be a asset of the city that we can be proud of. Dallas shouldn't be know for it's freeways - it should	
				be known for its great places made for people!	
				Q: If improvements are made, what are your priorities for I-345?	Comment noted.
				A: Connecting downtown to adjacent neighborhoods.	
				Properly considering the needs of those who live near this area, versus prioritizing those of the larger region (ie:	
				commuters).	
				Consideration of walk and bike infrastructure and experience.	
				Safety for all modes of transit: whether walk, bike, public transit, or drive.	
				Q: What alternatives do you suggest for I-345	Comment noted.
				A: I favor removal, if the traffic can be routed in other ways. I think one alternative that should be considered is the TUNNEL.	
				This would allow for traffic to flow like the Below Grade model, but would stitch the neighborhoods together like the	
				Removal model. However, we may not need as much traffic flow, and the removal could suffice.	
				I do feel that the more roads we build the more cars will come. Building freeways cannot be a method to alleviate traffic.

				Q: Please identify your areas of concern on the map.	Comment noted.
				A: Comments: huge swath of land here underneath the bridge that is being wasted; can be utilized for things like affordable	
				housing which is one of the biggest issues facing our city, increased public/mixed spaces, areas zoned for new small	
				business, etc. Traffic Issue: Entering 30W from 75/345S in the morning (I used to do this but not anymore as I moved) is	

Comment Number	Commenter Name	Source	Date Received	Comment Topic	Response
				Q: Do you have concerns with the existing configuration of I-345? A: The way it is elevated as a long bridge over 1.4 miles of land really puts that stretch of land to waste, economically speaking. It is currently useless. I understand that the stretch of bridge carries a lot of traffic daily, so I understand the need to continue to have traffic flow through this area. If you move the bridge below grade, ideally in a tunnel, it frees up the land above for affordable housing (one of the biggest problems facing our city amid higher housing costs and selling out to high end residential development), jobs through new business development in the newly available areas, and community/public/mental health through the availability of land for new parks, public spaces, mixed use spaces.	Comment noted.
				Q: If improvements are made, what are your priorities for I-345? A: Making the most amount of surrounding land available for development, primarily affordable housing and public spaces, while inflicting the minimal amount of disruption to traffic flow.	Comment noted.
				Q: What alternatives do you suggest for I-345 A: The way it is elevated as a long bridge over 1.4 miles of land really puts that stretch of land to waste, economically speaking. It is currently useless. I understand that the stretch of bridge carries a lot of traffic daily, so I understand the need to continue to have traffic flow through this area. If you move the bridge below grade, ideally in a tunnel, it frees up the land above for affordable housing (one of the biggest problems facing our city amid higher housing costs and selling out to high end residential development), jobs through new business development in the newly available areas, and community/public/mental health through the availability of land for new parks, public spaces, mixed use spaces. 				Q: What mode of transportation do you use?	Comment noted.
				A: Drive my car	
				Q: Please identify your areas of concern on the map.	Comment noted.
				A: Safety Issue: On-ramp is uphill and often requires stop. No where to go if 2 lanes are occupied and merger fails to yield.	
				Traffic Issue: everyone goes into 1 lane because of rare exit to bryant street. There should be only main street, 75, i-30, i-45	
				exits	
				Q: Do you have concerns with the existing configuration of I-345?	Comment noted.
				A: It should only be a connector. Only 1 off ramp to main street/downtown	
				Q: If improvements are made, what are your priorities for I-345?	Comment noted.
				A: It should be constructed for future traffic growth in mind. Able to accommodate greater flow but also not be the city	
				divider that it currently isput it below grade and develop a city park.	
				Q: What alternatives do you suggest for I-345	Comment noted.
				A: .put it below grade and develop a city park. Open up the city to ped/bike traffic.	
				Q: I am interested because I am a	Comment noted.

				A: No, I don't. Leave it alone!	
				Q: If improvements are made, what are your priorities for I-345?	Comment noted.
				A: Add an HOV lane, Improve the exit and on ramping through downtown	
				Q: What alternatives do you suggest for I-345	Comment noted.
				A: I feel that a visual improvement to I-345 would be worth exploring. Perhaps adding some landscape design that's native	
				to our region would be great. I like the idea of a something sculptural like the Hunt Bridge

				Q: What mode of transportation do you use?	Comment noted.
				A: Drive my car	
				Q: Please identify your areas of concern on the map.	Comment noted.
				A: Design Issue: Utilizing alternatives is difficult. Downtown streets do not run north to south or east to west. Rather streets	
				run at diagonals (e.g. southeast to north east), often are not parallel either, cross streets (southeast to northwest) are	
				occasional and also do not run parallel, and there is not much of a pattern to which streets are one way or and which are	
				two way. Even traveling short distances is inefficient. It does not seem that removal of the freeway will make for efficient travel. Rather it would just disperse the traffic into the labyrinth I described. That's not the way I'd like to see traffic jams	
				eliminated. I'm open to being convinced otherwise but I don't by the removal of the freeway to be a good solution presently.	
				committee. The open to being convinced otherwise but I don't by the removal of the freeway to be a good solution presently.	
				Q: Do you have concerns with the existing configuration of I-345?	Comment noted.
				A: Per the design issue I described in previous question I do not see the efficiency of traveling on side streets. Furthermore,	
				around the city is a bit ridiculous also considering the size of DFW. Therefore I do not see the wisdom in removing the	
				freeway. My present opinion is it should be kept in some form, underground or above. What was done at Klyde Warren park	
				was a nice solution but I recognize the need to be conscious of taxpayer funds.	
				Q: If improvements are made, what are your priorities for I-345?	Comment noted.
				A: An efficient way to travel first and foremost for all constituents of the state, citizens of Dallas and others commute to the	
				area or passing through. If that can be accomplished in a way that would encourage economic development, then that's a	
				secondary plus.	
				Q: What alternatives do you suggest for I-345	Comment noted.
				A: Keep the freeway I'm some form.	comment noted.

				A: Bike/Ped Issues: Insufficient bike lanes, heavy traffic on Ross. Safety Issue: Confusing exits and merge from 75. Safety	
				Issue: Homeless camps under bridges. Unsafe for walking or biking.	
				Q: Do you have concerns with the existing configuration of I-345?	Comment noted.
				A: Yes. Elevated freeways kill neighborhoods and are incubators for crime, violence and drug trafficking. The path of I-345	
				through downtown and Deep Ellum is largely a no-man's land.	
				Q: If improvements are made, what are your priorities for I-345?	Comment noted.
				A: Aesthetics are important so that the area, which is adjacent to our Arts District and Deep Ellum entertainment district, is	
				not foreboding but inviting. Sound is also an issue. Short of burying it in a tunnel I don't know what to suggest.	
I I		1 1

				Q: How did you hear about this survey? A: Other Social Media Posting	Comment noted.					
109	Anonymous	Electronic Survey	12/3/2019	Q: What best describes your interest in I-345? A: Commuter/traveler through Downtown Dallas	Comment noted.					
				Q: How often do you use I-345? A: Daily	Comment noted.					
									Q: When do you use I-345? A: Morning Rush Hour, Midday, Afternoon Rush, Evening, Late Night	Comment noted.
										Q: Why are you using I-345? A: Travel to and from work, Travel to/from recreation activities, Travel to/from entertainment
				Q: When I-345 is experiencing delays, which alternate route(s) do you use? A: Local Streets, I cannot list all of the streets as there are too	Comment noted.					
				Q: What mode of transportation do you use? A: Drive my car	Comment noted.					
						Q: Please identify your areas of concern on the map. A: Traffic Issue: This hwy was built to enable residents from eastern Dallas county to have access to 75 without taking local streets that primarily funneled traffic into downtown. If you remove 345 and try to funnel the westbound Dallas traffic off I-30 through local streets to 75/45, you'll have the same problems (only worse) that occurred in the 1970's.	Comment noted.			
				Q: Do you have concerns with the existing configuration of I-345? A: No. It allows westbound traffic who are trying to reach 75 and/or 45 a faster route without having to travel 25 mph through local streets in the area.	Comment noted.					
				Q: If improvements are made, what are your priorities for I-345? A: Widen the lanes to allow for higher traffic flow. Or at least build an upper deck for through traffic.	Comment noted.					
				Q: What alternatives do you suggest for I-345 A: None. Leave it as is or improve it to allow for higher traffic volume/flow. If you remove it, you'll create a traffic nightmare for Eastern Dallas residents and those coming from surrounding counties.	Comment noted.					
				Q: I am interested because I am a A: Local Resident	Comment noted.					
				Q: Please provide contact information to stay informed A: No response provided	No response provided.					

Comment Number	Commenter Name	Source	Date Received	Comment Topic	Response			
				Q: Do you have other comments? A: Stop building toll roads and hov lanes in Dallas County. We don't like or need them. Instead why don't you structure Dallas highways as in Austin? An upper deck for through traffic and a lower deck for access to local roads/streets in and around Dallas.	Comment noted.

				A: Bike/Ped Issues: Poor bike and bed lanes. Bike/Ped Issues: Poor bike lanes. Traffic Issue: Excessive traffic northbound in	comment noted.
				the mornings creates safety risk. Traffic Issue: Frequent backup from I30 westbound creates safety risk	
				Q: Do you have concerns with the existing configuration of I-345?	Comment noted.
				A: Make the underpasses much safer for bicycles and pedestrians. This is a critical thoroughfare for connecting areas north	
				of downtown to south. It would be a nightmare to shuffle this through traffic onto Woodall Rodgers and then onto I-35/I-30	
				which are already over congested. The interchange around Woodall Rodgers and I-35 may be the most risky and unsafe	
				interchange I've ever seen. I avoid it at all costs.	
				Q: If improvements are made, what are your priorities for I-345?	Comment noted.
				A: Widen the Road. Remove the bottlenecks where it reduces lanes at the intersections of Woodall rogers and I-30. Fix the	comment noted.
				underpasses for bikes and pedestrians.	
					Comment noted.
				A: Take it below grade like central and Woodall rogers. But I'm guessing the cost would be astronomical so wouldn't be	
				practical. In that case, leave it in place as a thoroughfare and make incremental improvements.	
				Under no conditions should this route be removed as a thoroughfare as this will isolate south of downtown and further	
				increase the chaos (if that is possible) on Woodall rogers and I-30.	
					Comment noted.

				space that connects with Deep Ellum, Comments: This exit only ramp should stay. It makes going into downtown and deep	
				Ellum from 75 much easier. Traffic Issue: Need to do something with this on ramp with people trying to get off and on 75	
				together.	
				together.	
				Q: Do you have concerns with the existing configuration of I-345?	Comment noted.
				A: It should be made similar to Klyde Warren. There is no way local streets would be able to handle 180k cars plus doing so	
				would make it incredibly dangerous for people walking to work in the area. The best option would be to have an area like	
				Klyde Warren in its place where it goes underground and then trolleys/subway running from downtown to deep Ellum so	
				people can go to lunch in deep Ellum. It's too far to walk, and hot, to walk from downtown to deep Ellum but would be	
				extremely convenient to have a trolley running back and forth.	
				Q: If improvements are made, what are your priorities for I-345?	Comment noted.
				A: There should still be a connection from 75 to 45 via an option like Klyde Warren to be able to get to Houston. Other	
				traffic can use side streets.	
				Q: What alternatives do you suggest for I-345	Comment noted.
				A: Klyde Warren park option to connect 75 and 45. Run trolleys from downtown to deep Ellum.

128	Kimberly Smith	Electronic	12/3/2019	Q: What best describes your interest in I-345?	Comment noted.
	•	Survey	, ,	A: Commuter/traveler to downtown Dallas, Walk/bike under 345	
				Q: How often do you use I-345?	Comment noted.
				A: Daily	
				Q: When do you use I-345?	Comment noted.
				A: Midday, Evening	
				Q: Why are you using I-345? A: Travel to/from recreation activities, Travel to/from entertainment	Comment noted.
				Q: When I-345 is experiencing delays, which alternate route(s) do you use?	Comment noted.
				A: Local Streets	comment noted.
				Q: What mode of transportation do you use?	Comment noted.
				A: Drive my car	
				Q: Please identify your areas of concern on the map.	Comment noted.
				A: Safety Issue: It is difficult to determine where I can go or who has the right of way. Traffic Issue: It is hard to get on to IH-	
				30 going East most of the traffic seems to want to go IH-30 West. Traffic Issue: This area back ups	
				Q: Do you have concerns with the existing configuration of I-345?	Comment noted.
				A: I think the Live Oak Ramp is redundant. There should be more lights under the bridge to encourage safe pedestrian	
				passage.	
				I think IH-345 is needed as an aerial structure! Putting 180,000 cars on local streets would not be a long term solution,	
				however it should be more limited access with less ramps to local streets.	
				Q: If improvements are made, what are your priorities for I-345?	Comment noted.
				A: Ramps should be looked at to reduce the number. Amenities under the bridge to allow pedestrian a clear path from	comment noted.
				Downtown to Deep Ellum.	
				Q: What alternatives do you suggest for I-345	Comment noted. TxDOT is working closely with the City of Dallas. The feasibility study will look at
				A: I think to answer this correctly 'we the people' need to know where people are heading when they are using 345. If	traffic data including traffic counts and patterns as a part of the study process. This
				people are using 345 to connect 45 and 75, it seems to be needed. If people are using 345 to connect 30 and 75, it seems to be needed. If people are using it to avoid the Canyon, to connect 30 and 35, it might still be needed since there is heavy	information will be presented during the public meeting process and in the final study report.
				traffic using that connection, too.	
				If it is used as a bypass for 175 and 35, the proposed Riverfront extension on the City's Thoroughfare Plan should be looked	
				at to determine if that is a feasible connection through the Trinity Forest.	
				Local roads cannot handle the 180,000 vpd!

				Q: What mode of transportation do you use?	Comment noted.
				A: Drive my car, Carpool with others	Comment notes.
				Q: Please identify your areas of concern on the map.	Comment noted.
				A: Safety Issue: When coming from Woodall Rogers, and going to I-45 South, you have to cross several lanes of traffic in a	
				short distance, Traffic Issue: Backup from merging traffic	
				Q: Do you have concerns with the existing configuration of I-345?	Comment noted.
				A: There's just a lot of backup that flows onto 345, which causes some lanes to be stopped while others are flowing. There's	
				also a need to cross several lanes in short distances at different points.	
				Q: If improvements are made, what are your priorities for I-345?	Comment noted.
				A: Traffic flow from/to different freeways	
				Q: What alternatives do you suggest for I-345	Comment noted.
				A: Maybe separated, flyover paths from high-traffic endpoints? The example I'm most familiar with is going from Woodall	
				Rogers to I-45 South. This would be similar to a project in Grapevine where 114 South has a dedicated path to 360/121.

				Q: What mode of transportation do you use?	Comment noted.
				A: Drive my car Q: Please identify your areas of concern on the map.	Comment noted.
				A: Comments: could it possibly BE any uglier? I know there's a silly plan to put soccer fields below it but why not get rid of it	
				and put the fields beside the road like normal? This was 'old' progress where everything could be solved with another	
				freeway. Now people want to walk/bike/drive on normal streets and interface with other people - not other cars,	
				Comments: this thing appears to bi-sect Dallas and prevents people from getting from place to place, rather than facilitate.	
				It's a total pain to navigate. Blocks off the Farmer's market, makes it impossible to use some of the best parts of Dallas	
				Q: Do you have concerns with the existing configuration of I-345?	Comment noted.
				A: As mentioned before, I-345 appears to bisect Dallas so that the east can't reach the west and vice versa. The shadows of	
				the freeway basically condemn everything below and around it. If it were gone, not only would light and trees flourish but	
				neighborhoods would be reborn. Just because we made a mistake in the 70's doesn't mean we have to keep it now.	
				Q: If improvements are made, what are your priorities for I-345?	Comment noted.
				A: to open up the neighborhoods on both sides to renewal, innovation.	
				Q: What alternatives do you suggest for I-345	Comment noted.
				A: surface streets could absorb the traffic. Saw a presentation about the downtown freeway they did away with in San Fran	
				or Seattle - can't remember. Results? traffic just disappeared. no noticeable increase on other freeways or other roads. People just didn't go that way. It can work here too

				A: Drive my car Q: Please identify your areas of concern on the map.	Comment noted.
				A: Design Issue: too many people bottlenecked to go on to Woodall Rodgers, Design Issue: too many slow moving tractor trailers making it hard to exit off on MLK. Basically too many people. Traffic Issue: Cars Merging on to 345/45 going south. I 30 confusion. Traffic Issue: Merging issues with traffic going south. Cars in Left lanes don't realize they need to be in right lanes to get on to Woodall Rodgers. Main problem too many people	
				Q: Do you have concerns with the existing configuration of I-345? A: There is too much traffic moving thru area now that more people are living downtown. The merging traffic from Woodall Rodgers to the transition to I 30 is too short to navigate with heavy traffic. Stop building hi density apts. and businesses in the area. No one ever thinks of the impact of hi density housing and office buildings on an area until after it becomes a picture of the impact of his density housing and office buildings on an area until after it becomes a picture of the impact of his density housing and office buildings on an area until after it becomes a picture of the impact of his density housing and office buildings on an area until after it becomes a picture of the impact of his density housing and office buildings on an area until after it becomes a picture of the impact of his density housing and office buildings on an area until after it becomes a picture of the impact of his density housing and office buildings on an area until after it becomes a picture of the impact of his density housing and office buildings on an area until after it becomes a picture of his density housing and office buildings on an area until after it becomes a picture of his density housing and office buildings on an area until after it becomes a picture of his density housing and office buildings on an area until after it becomes a picture of his density housing and office buildings of his density housing his density housing his density housing his density his density housing his density his density his density his den	Comment noted.
				nightmare. When the 345 was added, I am sure no-one in their right mind ever thought people would be living down in deep ellum You need to keep 345 for people going south on 75 to 45. There needs to be a separate transition from Woodall Rodgers to I 30 that doesn't merge with 345. It needs to have its own flow. There are always accident there from all the merging. There should be a new road that transitions on I 45 from downtown that is separate fro 345, then rename it 75, because that is really what it is, a continuation of I 75 south. Going North is not as bad, but there is a bottleneck from the	
				merging of Woodall rogers and Lemmon ave exit. Poor planning or no planning when you let developers keep building Hi density housing. The people have to go somewhere.	
				Q: If improvements are made, what are your priorities for I-345? A: No response provided	No response provided.

				Q: Please identify your areas of concern on the map. A: Bike/Ped Issues: Biking/walking under a highway sucks. Design Issue: Funnels two streets worth of traffic onto Ross. Design Issue: GROSS. Intersection Issue: Horrible intersection. Traffic Issue: Combination of traffic light and DART crossing not being aligned causes traffic on this par of Routh to back up almost all the way to Ross. Traffic Issue: Traffic unloading onto Bryan Street	Comment noted.
				Q: Do you have concerns with the existing configuration of I-345? A: It makes getting in and out of downtown a nightmare due to converging traffic patterns and the disruption of surface streets. It is also unsafe under the overpasses due to poor lighting, signage and sidewalks. It is an eyesore and spending one present or future dollar to repair or replace it based 25+ years from now traffic projections is a dollar wasted.	Comment noted.
				Q: If improvements are made, what are your priorities for I-345? A: Bring it below grade and remove all exits.	Comment noted.
				Q: What alternatives do you suggest for I-345 A: Tear it down.	Comment noted.

				Q: What alternatives do you suggest for I-345 A: None. Below-grade would aesthetically look better, but will only exacerbate delays while construction and will lead to the same issues that proponents of removing the highway have argued (highway imprint). And removing will be a transportation headache. Using "boulevards" does not align with the mission of the roadway. I-345 serves not only as a stretch of road to connect 45 to 75 and Woodall, but it also serves as a legitimate alternate route to I-35 and Singleton. Leave I-345 as it is and address other priorities in the city.	Comment noted.

		Survey		A: Reside Near I-345, Commuter/traveler to downtown Dallas, Property Owner Near I-345	
				Q: How often do you use I-345?	Comment noted.
				A: Daily	
				Q: When do you use I-345?	Comment noted.
				A: Morning Rush Hour, Midday, Afternoon Rush, Evening, Late Night	Community and a standard and a stand
				Q: Why are you using I-345?	Comment noted.
				A: Travel to and from work, travel to/from school, Travel to/from recreation activities, Travel to/from entertainment	Comment noted.
				Q: When I-345 is experiencing delays, which alternate route(s) do you use? A: Local Streets	Comment noted.
				Q: What mode of transportation do you use?	Comment noted.
				A: Drive my car	Comment noted.
				Q: Please identify your areas of concern on the map.	Comment noted.
				A: Design Issue: It would be helpful to have an access to the Arts District - maybe on Ross? - from 345. The only easy access	Comment noted.
				to Uptown right now is via 75 with a U-Turn, which means that people who live north have easy access to uptown and	
				downtown and people who live south or East have to make a big effort. Design Issue: There does not need to be a dedicated	
				exit lane for Bryan Street. There's hardly any traffic that gets off there. Safety Issue: The merge lanes onto I-175 are a	
				nightmare. I have narrowly avoided many accidents here. It's unsafe for merging traffic from 30 to have to immediately	
				merge out of the exit only lanes onto 175, Safety Issue: The yield onto Elm Street is dangerous and has low visibility into	
				oncoming traffic. Traffic Issue: There is always traffic northbound onto the I-30 ramps. The merge is also dangerous and the	
				visibility is poor. It would be better to have a dedicated lane between I45 and I30 to allow a continuous flow of traffic.	
				Q: Do you have concerns with the existing configuration of I-345? A: I'm concerned about the infrastructure, which is clearly aging. I also think that 345 cuts the rest of the city off from Fair Park and south/southeast Dallas, which has really hampered development there. To get to a client in Fair Park, coming from Far East Dallas, I have to get off at First street and do a series of loops back and forth under 345. It doesn't make any sense.	Comment noted.
				Q: If improvements are made, what are your priorities for I-345?	Comment noted.
				A: There needs to be a replacement for 345 in some capacity, and that replacement cannot be side streets. Using side	
				streets is NOT feasible for this volume of traffic. I'd like to see easier access to downtown, Fair Park, and 45, and an updated map that doesn't have strangely placed, illogical exit only lanes and poorly designed intersections	
				map that doesn't have strangery placed, mogical exit only lanes and poorly designed intersections	
				Q: What alternatives do you suggest for I-345	Comment noted.
				A: I'm not sure but would like to see a few different options presented

				Q: Please identify your areas of concern on the map.	No response provided.
				A: No response provided	The responde promaca.
				Q: Do you have concerns with the existing configuration of I-345?	Comment noted.
				A: Yes it's disruptive to growth of the city. I think it should be torn down and traffic rerouted. You Can then develop local	
				boulevard and streets and enhance community growth.	
				Q: If improvements are made, what are your priorities for I-345?	Comment noted.
				A: Make it safer. Its a race track that scares many drivers as they try to find the proper lanes	
				Q: What alternatives do you suggest for I-345	Comment noted.
				A: Tear it down. Reroute using other interstates. Make local street /boulevard to encourage Dallas community growth	
				Q: I am interested because I am a	Comment noted.
				A: Local Resident	
				Q: Please provide contact information to stay informed A:	Comment noted.
				Q: Do you have other comments? A: No response provided	No response provided.
				Q: Zip Code A: 75204	Comment noted.
				Q: How did you hear about this survey?	Comment noted.
				A: Newspaper/TV Story	
182	Shawna Batteford	Electronic	12/3/2019	Q: What best describes your interest in I-345?	Comment noted.
		Survey		A: Reside Near I-345, Commuter/traveler through Downtown Dallas, Walk/bike under 345	Comment noted
				Q: How often do you use I-345? A: Weekly	Comment noted.
				Q: When do you use I-345?	Comment noted.
				A: Morning Rush Hour, Midday, Afternoon Rush, Evening	Comment noted.
				Q: Why are you using I-345?	Comment noted.
				A: Travel to/from recreation activities	
				Q: When I-345 is experiencing delays, which alternate route(s) do you use?	Comment noted.
				A: I-35E, Woodall Rodgers Freeway (Spur 366), Local Streets, Service Road, Ross, Haskell	
				Q: What mode of transportation do you use?	Comment noted.
				A: Drive my car	
				Q: Please identify your areas of concern on the map.	Comment noted.
				A: Bike/Ped Issues: Sidewalks end and no ramps available/Dark under bridge/Homeless. Comments: Isolated areas under or	
				around bridge causing disconnection and discouraging pedestrians between Deep Ellum and Downtown. Traffic Issue:	
				Normally congestion onto I30. Q: Do you have concerns with the existing configuration of I-345?	Comment noted.
				A: Mainly traffic congestion and underpasses that discourage pedestrians.	Comment noted.
				Q: If improvements are made, what are your priorities for I-345?	Comment noted.
				A: Safety and improvements for lighting/sidewalks under overpass.	
				Q: What alternatives do you suggest for I-345	Comment noted.
				A: Go underground similar to Woodall Rodgers Freeway, connect downtown to surrounding neighborhoods - what a	
				success!	
				Q: I am interested because I am a	Comment noted.
				A: Local Resident	
				Q: Please provide contact information to stay informed	Comment noted.

				Q: Please identify your areas of concern on the map.	No response provided.
				A: No response provided	
				Q: Do you have concerns with the existing configuration of I-345?	Comment noted.
				A: I think that there is a tremendous opportunity (urban, tax dollars to city, quality of life) to be realized by trenching or	
				putting the road at grade.	
				Q: If improvements are made, what are your priorities for I-345?	Comment noted.
				A: 1. Put it at grade if research shows it a responsible traffic movement.	
				2. If (1) is not 'responsible', then trench 2 lanes below grade each way.

				Q: Please identify your areas of concern on the map.	Comment noted.
				A: Safety Issue: Under bridge at night walking between Farmers Market and Deep Ellum is a safety concern and not really	
				feasible because of those concerns	
				Q: Do you have concerns with the existing configuration of I-345?	Comment noted.
				A: safety concerns under I-345, specifically at night; no connectivity, downtown to deep ellum	
				Q: If improvements are made, what are your priorities for I-345?	Comment noted.
				A: address safety concerns; connect deep ellum to farmers market, east quarter and ultimately downtown.	
				Q: What alternatives do you suggest for I-345	Comment noted.
				A: Depending on feasibility, removal of raised highway and either tunneling (maybe not feasible) or using egress to 45/75	
				that is less divided would be ideal. This side of the city (and the city and it's tax payers in general) would benefit from re-	
				development that this would incentivize between Farmers Market/Downtown/Deep Ellum. It is already started with East	
				Quarter, Deep Ellum, and Farmers Market. A solution with 345 could have a similar effect to Klyde Warren Park between	
				Uptown and Downtown.

				Q: Please identify your areas of concern on the map.	Comment noted.
				A: Comments: I-45 to US-75 should be one highway, with one name, it is very confusing going from I-45 to 345 to 75. I know	
				there is probably some official reason it can't be I-45 to McKinney but maybe rename the whole thing maybe after	
				someone. Design Issue: Going under I-345 really cuts the energy of Deep Ellum from Farmers Market area. The painted	
				pillars help but it still feels very odd. Traffic Issue: Having to keep getting over to the left lane, then the	
				left lane just to proceed to go north on 75 (if coming off of 30 Westbound to I-345 north)	

Comment Number	Commenter Name	Source	Date Received	Comment Topic	Response	
				Q: Do you have concerns with the existing configuration of I-345?	Comment noted.	
				A: It is confusing for drivers having to keep going to the left lane just to proceed north.		
				It cuts downtown off from the east side and is ugly as sin		
				Q: If improvements are made, what are your priorities for I-345?	Comment noted.	
				A: Improve east Dallas connection with downtown. Make 345 less of an eyesore somehow or get rid of the whole thing		
				Q: What alternatives do you suggest for I-345	Comment noted.	
				A: Put it underground Tear it down - seriously, traffic will adjust

				Q: Please identify your areas of concern on the map. A: Comments: Taking the highway underground here would create new space for green space and retail just like Klyde Warren park. Comments: Taking the highway underground here would create new space for green space and retail just like Klyde Warren park. If the highway were brought underground, Ross Ave and Deep Ellum could be connected to downtown much like Downtown Boston and Boston's North End were connected when the highway was brought underground. An incredible green space was created that completely transformed the area. Design Issue: This is not a safe well lit intersection for pedestrians. Putting the highway under ground would connect the neighborhood and Deep Ellum with downtown Dallas. Intersection Issue: This intersection causes major problems during rush hour that could be alleviated if the highway was underground here. Intersection Issue: This intersection needs to be continuous so that all of the Bryan Place neighborhood can benefit from the beautiful park. Intersection Issue: This intersection needs to be fixed so that Ross is a continuous street. Safety Issue: This is not a safe well lit intersection for pedestrians. Putting the highway under ground would connect the neighborhood and Deep Ellum with downtown Dallas., Safety Issue: This overpass is a major safety hazard for residents in the Bryan Place neighborhood who would otherwise be able to walk to work or play downtown. It is not well lit and does not appear safe for pedestrians. Traffic Issue: Ross Avenue should be a continuous street with San Jacinto as the street merging. This would alleviate major traffic issues.	
		A: The comple possibl the eas	Q: Do you have concerns with the existing configuration of I-345? A: The highway acts as a barrier between downtown and the Bryan Place/Deep Ellum neighborhoods. Ross Avenue is completely cut off from downtown and redevelopment has suffered because of it. If I345 were brought underground and possible a green space like Klyde Warren were developed it would create an incredible connection between Deep Ellum and the east side of downtown. I would personally walk to work significantly every day and walk to my favorite downtown restaurants and shops more often.	Comment noted.	
				Q: If improvements are made, what are your priorities for I-345? A: I want I345 to be underground so that it no longer acts as a barrier between Bryan Place/Ross Avenue/Deep Ellum and Downtown.	Comment noted.

Comment Number	Commenter Name	Source	Date Received	Comment Topic	Response					
				Q: What alternatives do you suggest for I-345 A: Putting I345 underground would completely energize east and south downtown Dallas and significantly improve Ross Avenue (east), Bryan Place, Deep Ellum, Swiss Avenue, and Live Oak (east). It could also create an incredible green space which would provide a much needed park in our area. Deep Ellum is already growing but with this addition, it would make East Downtown and Deep Ellum a no brainer for even more new developments in multifamily, office space, retain, and entertainment. People would want to live in east downtown again.	Comment noted.					
				Q: I am interested because I am a A: Local Resident	Comment noted.

				A: Travel to and from work, Travel to/from recreation activities, Travel to/from entertainment Q: When I-345 is experiencing delays, which alternate route(s) do you use? A: Transit/Other transportation mode, Local Streets	Comment noted.					
					Q: What mode of transportation do you use? A: Drive my car, Bicycle, Walk Q: Please identify your areas of concern on the map. A: Bike/Ped Issues: Walking from downtown to Deep Ellum and vice-versa is dangerous, awkward, and absolutely In places, sidewalks literally disappear and give way to on ramps. Q: Do you have concerns with the existing configuration of I-345? A: Yes. It is dangerous and terrifying to walk between downtown and Deep Ellum. To have adjacent neighborhood dead center of a major city be blocked off from each other in this way seems insane. I've made that walk many till because it's less than a mile and it feels silly and wasteful to drive such a short distance. It's a minor miracle I have been run over by a car.				Q: What mode of transportation do you use?	Comment noted.
							A: Bike/Ped Issues: Walking from downtown to Deep Ellum and vice-versa is dangerous, awkward, and absolutely terrifying.	Comment noted.		
						Q: Do you have concerns with the existing configuration of I-345? A: Yes. It is dangerous and terrifying to walk between downtown and Deep Ellum. To have adjacent neighborhoods in the dead center of a major city be blocked off from each other in this way seems insane. I've made that walk many times because it's less than a mile and it feels silly and wasteful to drive such a short distance. It's a minor miracle I haven't yet been run over by a car. When I lived in the Cedars, I drove on 345 frequently to access Central and reach the north side of town. Driving on 345 is	Comment noted.			
					Q: If improvements are made, what are your priorities for I-345? A: I'd like to see it torn down and replaced with a speed-limited boulevard or buried. At the very least, remove the on and off-ramps leading into downtown and Deep Ellum. There are better access points to those neighborhoods for cars, and the safety of pedestrians crossing should be more important.	Comment noted.				
				Q: What alternatives do you suggest for I-345 A: I answered this under "priorities."	Comment noted.

				Q: When I-345 is experiencing delays, which alternate route(s) do you use? A: I-30, I-35E, Woodall Rodgers Freeway (Spur 366), Local Streets	Comment noted.					
				Q: What mode of transportation do you use? A: Drive my car, The other options would either take hours longer o	Comment noted.					
				Q: Please identify your areas of concern on the map. A: Comments: Basically, while there's some congestion around exits, I-345 seems to me to be working much better than most of the other expressways near downtown – the congestion I'm noting on this map is much less problematic than many	Comment noted.					
					or most of the other exits and entrances to/from, e.g., I-30 just south of downtown, or the highways just west of down town, or Woodall Rogers. For one thing, unlike many sections of those other sections, the lines of sight are MUCH better on I-345 — you can see where you're going, and you can see the traffic you need to merge into or through. Design Issue: I avoid the entrance ramp from Good-Lattimer onto Woodall Rogers, as it is difficult or impossible to see the traffic you're					
					trying to merge into until you're on top of each other; it's also not easy to accelerate up that steep slope so as to match the speed of the traffic you're trying to merge into. Design Issue: There tend to be back-ups here where cars going South on 1-345 are trying to merge onto I-30 in either direction.					
				And just before these exits, also heading south on 1-345, re- the Bryan St. exit, it's frustrating that there's no legal way to get onto Pearl going South without circling a block.						
				Q: Do you have concerns with the existing configuration of I-345? A: Not really. There are many sections of the expressways near Dallas that are problematic or downright scary; I-345 seems to me to be one of the sections that works best.	Comment noted.					
									Q: If improvements are made, what are your priorities for I-345? A: Maybe do something to the exits so traffic trying to exit doesn't get backed up – but this probably has more to do with expanding the off-ramps and/or the expressways/streets the ramps lead into.	Comment noted.
				Q: What alternatives do you suggest for I-345 A: Leave it alone, and concentrate resources on fixing the other expressways and streets.	Comment noted.					
				Q: I am interested because I am a A: Commuter	Comment noted.

				Q: Please identify your areas of concern on the map.	Comment noted.
				A: Comments: This questions assumes we have issues or concerns. I like the feasibility of using I-345 to get from I-45	55
				through downtown on to highway 75. If it is removed then how will I-45 connect to Hwy 75? Why would we not want a fly	
				over? No one would want to go through lights in town as the old central expressway used to do near the Framer Market.	
				Only developers would like to see this area developed. If you are traveling on I-45 you want a direct connection to I-30, I-35	
				and Hwy 75. Trucks, buses, and passengers vehicles traveling from Houston sometimes go to town with the appropriate	
				exits or pass town. To try to connect I-45 to Hwy 75 with city streets is a HUGE mistake if that is the plan?	
I		ı l			

Comment Number	Commenter Name	Source	Date Received	Comment Topic	Response
				Q: Do you have concerns with the existing configuration of I-345? A: No. I am sure it could be made more efficient but the route is necessary to connect Dallas with all of I-45 south. No One wants to go through town. Think of the congestion of traffic in town. It might be desirable now to assist town in its redevelopment, but in 10 years it will be another spot for a tie-up of cars coming through. Please do not get rid of I-345. Make the route easier or increase the potential for more traffic, but please do not eliminate this roadway.	Comment noted.
				Q: If improvements are made, what are your priorities for I-345? A: If there are higher standards for entrance and exit ramps that should be incorporated that would be most important. The patterns of traffic flow may need to be improved, but they are not bad now. Lighting and marking of the roadway for nighttime driving can always be improved.	Comment noted.
				Q: What alternatives do you suggest for I-345 A: I would suggest a higher bridged road if I had to change something with development under the road way of parks or parking for the surrounding areas. I do not care for surface or underground or submerged routes as the costs would seem to be much higher. Developing the under the highway for parks or parking or generalized green space for future developments would be advisable. Portland, Oregon has had some unique ideas with bridge/pedestrian interfacing. If submerging the roadway was not too expensive, an extended Clyde Warren Park prototype would be a high consideration.

				Q: When I-345 is experiencing delays, which alternate route(s) do you use?	Comment noted.
				A: I-30, Local Streets, Good-Latimer, Hall St	
				Q: What mode of transportation do you use?	Comment noted.
				A: Drive my car	
				Q: Please identify your areas of concern on the map.	Comment noted.
				A: Design Issue: Eastbound traffic on Main has to turn right then make a tight U-turn to continue on Main. Intersection	
				Issue: At grade railroad crossing at busy intersection causing congestion issues. Sometimes have waits > 5 minutes due to	
				multiple trains crossing. Safety Issue: At grade railroad crossing by Baylor ER frequently blocks ambulances. Safety Issue: At	
				grade railroad crossing next to fire station frequently delays emergency response.	
				Q: Do you have concerns with the existing configuration of I-345?	Comment noted.
				A: Current configuration works very well. Eastbound traffic on Woodall Rodgers needs a better way to exit to Deep Ellum.	
				Q: If improvements are made, what are your priorities for I-345?	Comment noted.
				A: Since the exit lanes from northbound 345 to Woodall Rodgers were changed traffic entering from the northbound service	
				road between Good Latimer and Ross has to make a dangerous, blind merge. Another lane or improved line of sight is	
				needed. Improved access from eastbound Woodall Rodgers to exit to Deep Ellum/East Dallas.	
				Q: What alternatives do you suggest for I-345	Comment noted.
				A: Current configuration is fine. If money were no object then trench or tunnel would be acceptable. I would prefer leaving it	
				as is to avoid years of construction. Removing the highway is NOT an acceptable alternative.

					Comment noted.
				A: Bike/Ped Issues: Bryan street stops at the highway, this would be my most direct walking or bicycling route into	
				downtown. Because it stops here, I have to walk further to adjacent, busier streets, if I want to go to downtown. This means	
				I normally drive or uber instead of walk/bicycle if I go to downtown. Bike/Ped Issues: It's very unpleasant, noisy and feels	
				very unsafe to walk or bicycle under highway - if I did not have to travel under the highway, I would usually walk or bicycle,	
				rather than drive to downtown. This is a real barrier. Bike/Ped Issues: San Jacinto street stops at the highway, this would be	
				a direct walking or bicycling route into the arts district. This means I have a tendency to drive or uber instead of	
				walk/bicycle. Bike/Ped Issues: Swiss Avenue is a great route into downtown for bicyclists but it stops at the highway.	
				Bicyclists then need to use adjacent, much busier roads to cross under the highway. This makes cycling to downtown very	
				unattractive. Design Issue: Applies to the whole stretch of highway - it is a real eyesore and affects all the surrounding streets with a great deal of noise. There is very little development near the highway because it is so unattractive. It makes	
				this whole area dead, even though it's right in the heart of the city. It's a really terrible place for a highway.	
				and whole area dead, even though it's right in the fleart of the city. It's a really terrible place for a highway.	

Comment Number	Commenter Name	Source	Date Received	Comment Topic	Response
				Q: Do you have concerns with the existing configuration of I-345? A: Yes, I do not believe any highway should run right through the middle of a city. It discourages people from walking, cycling and using the public space. This, in turn, makes this whole area of the city feel intimidating, empty and depressing. People living here choose to drive instead of walk or bicycle, contributing to local traffic. Noise from the traffic affects everyone living several blocks away. Every route running across the highway is either blocked or very time consuming to navigate (you have to wait a long time at cross walks because there is so much priority given over to cars). The highway does so much damage to the city and this damage is such a high price to pay for the small benefits it adds to people driving through the center of Dallas.	Comment noted.
				Q: If improvements are made, what are your priorities for I-345? A: Getting rid of it would be a huge improvement. There are many alternative driving routes and the increase in local walking/bicycling/scootering will offset a lot of the additional traffic. Putting I-345 underground would be great, but I imagine it would be way to costly to be feasible.	Comment noted.
				Q: What alternatives do you suggest for I-345 A: Either nothing or putting it underground. It really shouldn't be there.	Comment noted.
				Q: I am interested because I am a A: Local Resident	Comment noted.
				Q: Please provide contact information to stay informed A: Q: Do you have other comments?	Comment noted.

				Q: What mode of transportation do you use?	Comment noted.			
				A: Drive my car, Walk, Ride services (Uber, Lyft, taxi, etc.), Scooter				
				Q: Please identify your areas of concern on the map.	Comment noted.			
				A: Bike/Ped Issues: There should be a bike path running underneath 345 on Commerce that connects Downtown and Deep				
				Ellum. Design Issue: This on ramp to 345 from Commerce is duplicitous and should certainly be removed. Safety Issue: There				
				is not lighting underneath 345 at night which makes it feel very dangerous for pedestrians or scooter users				
				O. Da var have a grant with the artistical and investigated 1.2452	Command maked			
				Q: Do you have concerns with the existing configuration of I-345? A: I believe that I-345 serves as a barrier that has been destructive to the neighborhoods around it. My opinion is that it	Comment noted.			
				should be a beautifully paved boulevard or put underground. While expensive, Dallas needs to think bold and for the next				
							generation. Dallas can be more competitive as a city on a national level by having a thriving urban core and not succumbing	
				to being a commuter city in and out of the suburbs. This will improve connectivity and density for people of all walks of life.				
				Q: If improvements are made, what are your priorities for I-345?	Comment noted.			
				A: Improvements to me should be a complete redesign or tear down. Anything short would be very shortsighted for Dallas				
				long term. This city needs to think about future generations and what Dallas wants to look like from an urban design				
				standpoint.				
				Q: What alternatives do you suggest for I-345	Comment noted.			
				A: I suggest tearing it down and creating a well designed boulevard or going below grade with the highway. There is no way				
				that I-345 should remain above ground and continuing to disrupt the communities and neighborhoods that it divides.

				Q: What mode of transportation do you use? A: Drive my car	Comment noted.
				Q: Please identify your areas of concern on the map.	Comment noted.
				A: Bike/Ped Issues: Feeling unsafe to travel beneath I-345; loud noise from above; traffic speeding from off-ramps; lack of	
				development; lack of lighting; wide right-of-way. Safety Issue: Driving, cycling or walking along Main/Elm/Commerce is dangerous at ramp intersections; traffic going to/from I-345 to local streets exceeds local street speed limits and drives	
				more aggressively.	
				Q: Do you have concerns with the existing configuration of I-345?	Comment noted.
				A: The right-of-way is too wide for an urban facility; on/off ramps cause traffic traveling to/from I-345 to drive too fast and	
				aggressive compared to local traffic; pedestrian/bicycle travel underneath I-345 is very unpleasant and feels unsafe; inhibiting development and density within the urban core and divides the CBD from Deep Ellum and East Dallas.	
				Q: If improvements are made, what are your priorities for I-345?	Comment noted.
				A: I-345 should be completely removed.	
				Q: What alternatives do you suggest for I-345 A: If the I-345 facility must remain, the facility should be buried beneath grade through cut-and-cover and tunneling methods	Comment noted.

					Comment noted.
				A: Design Issue: Ross underpass is dark and foreboding. (There's a reason fairy tales say trolls live under bridges: they're scary!) Intersection Issue: Also a design issue. The LACK of an intersection that results from cutting off cross-streets like	
				Bryan and San Jacinto destroys the physical integration of downtown and Old East Dallas, which adversely affects work	
				spaces, living areas, and pedestrian, bike, and vehicle access.	
				spaces, fiving areas, and pedestrian, sinc, and venicle access.	
					Comment noted.
				A: Yes. It destroys connections between downtown and Old East Dallas, which has numerous adverse effects on those parts	
				of town.	
				Q: If improvements are made, what are your priorities for I-345?	Comment noted.
				A: Remove it; substitute a suitable street and restore the cross streets that connect downtown to Old East Dallas.

				A: Monthly	Comment noted.
				Q: When do you use I-345?	Comment noted.
				A: Other	confident floted.
				Q: Why are you using I-345?	Comment noted.
				A: Travel to/from recreation activities, Travel to/from entertainment	
				Q: When I-345 is experiencing delays, which alternate route(s) do you use?	Comment noted.
				A: Local Streets, I-345 underpass, Cesar Chavez, connection roads	
				Q: What mode of transportation do you use?	Comment noted.
				A: Drive my car	
				Q: Please identify your areas of concern on the map.	Comment noted.
				A: Comments: Homeless persons frequent the underpass as a place of shelter. If they are removed, they quickly return to	
				loiter, set up camps and litter the area. Safety Issue: The on ramp to I-345 from the underpass causes severe safety issues	
				when those on ramping cut to I-30. Even though there is a sign that says not to do this, it happens very frequently and is	
				dangerous. Traffic Issue: Those merging onto i-345 from Woodall Rodgers create traffic issues as two lanes from Woodall	
				Rodgers must merge seamlessly with those on I-345 exiting to Live Oak.	
				Q: Do you have concerns with the existing configuration of I-345?	Comment noted.
				A: Yes. 1-345 cuts off use-able land and space in and around downtown, the Farmer's Market, Deep Ellum and East Dallas. It	
				is also attractive for homeless folks to litter, set up camp and loiter without being checked. Additionally, the traffic caused	
				by mergers and those seeking to get through Dallas as fast as possible creates safety issues on the highway.	
				Q: If improvements are made, what are your priorities for I-345?	Comment noted.
				A: A complete overhaul and demolition of the above ground structure. It cuts off parts of the city that should be naturally	
				linked.	
				Q: What alternatives do you suggest for I-345	Comment noted.
				A: Perhaps bury I-345 as Woodall Rodgers and portions of 635 are. Alternatively, reroute the highway portion of traffic.	
				Q: I am interested because I am a	Comment noted.

				A: No response provided	
				Q: Do you have concerns with the existing configuration of I-345?	Comment noted.
				A: I feel like the only answer that is ever brought up when it comes to issues of traffic and congestion in Dallas is to build	
				more highways. We should be moving people out of their single person vehicles and into public transportation! Take money	
				away from building more and more highways and put that money into expanding public transportation services like trains,	
				subways, carpool incentives, and park and rides!	
				Q: If improvements are made, what are your priorities for I-345?	Comment noted.
				A: Less carsmore public options like trains, carpool incentives, moving people from cars to bikes, walking, scooters.	
				Q: What alternatives do you suggest for I-345	Comment noted.

				Q: What mode of transportation do you use? A: Drive my car	Comment noted.
				Q: Please identify your areas of concern on the map.	Comment noted.
				A: Bike/Ped Issues: The block after block of dirt and empty space under the freeway is very pedestrian unfriendly and a	
				magnet for homeless encampments. Comments: The freeway is an ugly eyesore and has destroyed the cohesiveness of	
				neighborhoods and nothing has been done to try to tie them together. Just a literal wasteland. Design Issue: Ross Ave	
				should be a welcoming gateway between the Arts District and Old East Dallas. Instead, it's a dark, dump. The sketchy art	
				work there is not even close to enough. It needs light and sound and color. The City and neighborhood has tried to improve	
				the situation with art. TXDOT has been extremely unhelpful. Other cities have used art to transform blight to light. Not here.	
				O. Da vary have a consequent the the artistics and forward to a fit 2452	Comment acted
				Q: Do you have concerns with the existing configuration of I-345? A: Yes. It completely destroys the fabric of this part of the City. It is dirty, unsightly, unwelcoming. It is not pedestrian or bike	Comment noted.
				friendly just cars coming from every direction FAST. Homeless camps all over.	
				Therea, in just out of coming the most of	
				Street traffic is of course a concern, and I live in the area. But a lot of people, myself included will go up I 345 to get on	
				Woodall Rodgers to cut over to I 35. It's not really shorter. But it seems like it is. Just knowing we have no choice by to head	
				down I 30 would send a lot of traffic that way. People will reroute.	
				Q: If improvements are made, what are your priorities for I-345?	Comment noted.
				A: Tear it down.	comment noted.
				Q: What alternatives do you suggest for I-345	Comment noted.
				A: First, tear it down. If you can't do that, then spend some serious money to landscape and activate all the dead space	
				under there. TXDOT has done nothing to improve it, neither has the City. How about art work. Lots of it. Austin and San	
				Antonio have great examples of transforming space under roadways. But all that is a back up. Getting rid of something that	
				shouldn't have been there to begin with is the best way to go.	
				Q: I am interested because I am a	Comment noted.

				Q: Please identify your areas of concern on the map. A: Comments: Area attractions should be easy to enter and leave as a result of good highway signage. If you have never seen this done go to Harrisburg PA. Even visitors can find their way around. Comments: Could downtown by sectioned out so that we know which exit to take for major roads so that we don't have to know all the ins and outs of all the streets entering downtown to get around. Comments: Could the Arts District be designed with one or two main ways into it so that people who are entering the district can easily find their way out at the evening with even one cocktail. Place signage so that drivers can find their way easily back to the expressway out of downtown. Comments: This area is so much better than it was. Can be now define the access roads in and out of Oak Cliff? Design Issue: I am very concerned that Woodall Rogers will not slow traffic by substituting Woodall Rogers exits as access to all of downtown. Design Issue: I often come south on 75 and then go west on I-30 to Ft Worth. How will this connect easily. Please be generous with your signage. Intersection Issue: See comment in Design Issue.	
				Q: Do you have concerns with the existing configuration of I-345? A: I-345 works well as a link between I-75 and I-30. If it is to be taken down, we need to use this as an opportunity to clean up the maze that is downtown. If we do not do it now and by taking I-345 down, we will be forever stuck with a city that does not work for everyone.	Comment noted.
				Q: If improvements are made, what are your priorities for I-345? A: If we just move traffic around in order to take 345 down so that we have a larger downtown, we need to identify and correct the other deficiencies in the downtown area.	Comment noted.
				Q: What alternatives do you suggest for I-345 A: I have not been given enough info to answer this question.	Comment noted.

				Q: When I-345 is experiencing delays, which alternate route(s) do you use?	Comment noted.
1				A: I-30, I-35E, Woodall Rodgers Freeway (Spur 366), Local Streets, Pacific Ave, Ross Ave Harwood St	
				Q: What mode of transportation do you use?	Comment noted.
				A: Drive my car, Public transit (rail, bus), Walk, Uber and Lyft	
				Q: Please identify your areas of concern on the map.	Comment noted.
				A: Design Issue: I-345 is starting to deteriorate due to its age and is in need of repairs and improvements.	
				Q: Do you have concerns with the existing configuration of I-345?	Comment noted.
				A: Yes. It's old an decrepit and is deteriorating. It needs expense repairs and improvements to continue handling all the	
				traffic volume it currently carries to this day.	
				Q: If improvements are made, what are your priorities for I-345?	Comment noted.
				A: Better interaction with existing street surface grid below. Not to widen the lanes on it any more than it already is at the	
				moment. Better designed entrance ramps and exit ramps.	
1				Q: What alternatives do you suggest for I-345	No response provided.

				Q: Please identify your areas of concern on the map. A: Bike/Ped Issues: Biking/walking to downtown from north of I-345 (especially on Ross Ave) can be difficult, it is unsightly, and is poorly lit. There are frequently homeless people under the bridge and if I am walking alone I do not feel safe walking under the bridge. Tearing this I-345 down and replacing it with a normal city street or Boulevard makes the most sense for our city/downtown in my opinion. Comments: "old east Dallas" (AKA this area north east of I-345 Dallas off of Ross, live oak, and Bryant st. is divided by I-345. As a home owner it would increase property values to tear it down. People using this to commute can use other highways. Its time Dallas started making decisions to make our city better and stop trying to cater to the suburbs. We, the citizens of Dallas pay our taxes so our city can be the best it can be not so someone living in Mesquite and commute easier to their job in the suburbs north of Dallas. Comments: I-345 is literally cutting downtown and deep ellum in half. It is blocking potential economic growth in this region. Design Issue: Bryan St. not connecting under I-345 is another flaw that blocks pedestrian and bike traffic to and from downtown for people living and enjoying local businesses in this part of Dallas. Safety Issue: VERY poorly lit under the bridge at night side walks very close to the roads. dangerous as a pedestrian at night due to general other people/crime potential and also for cars that don't see u		
				Q: Do you have concerns with the existing configuration of I-345? A: My concern is that it exists as an elevated highway that is dividing multiple neighborhoods. All of these local neighborhoods are growing, and that will continue to happen with the extra land freed up that is under I-345 allowing more growth potential and increased property values. It will connect Old East Dallas and Deep Ellum back to Downtown and the Arts District if it is torn down.	Comment noted.	
						Q: If improvements are made, what are your priorities for I-345? A: To tear it down and either not replace it with anything and make adjustments to streets already in place or replace it with a major city street/boulevard that is street level.
				Q: What alternatives do you suggest for I-345 A: Either nothing and clear up the land, or a large city street/boulevard.	Comment noted.

				Q: Please identify your areas of concern on the map. A: Bike/Ped Issues: negative effect on the feel of the neighborhood with a large highway looming overhead. Safety Issue: vagabonds and suspect characters lingering underneath the highway where there is no commercial/residential activity due to the highway overpass.	Comment noted.
				Q: Do you have concerns with the existing configuration of I-345? A: yes. The elevated highway cuts off access and flow between Deep Ellum and Downtown and wastes such precious land near downtown for development and growth of the city	Comment noted.
				Q: If improvements are made, what are your priorities for I-345? A: land development and connection of deep ellum to downtown for city continuity	Comment noted.
				Q: What alternatives do you suggest for I-345 A: underground highway with covered park like Klyde Warren or at least dropped down to street level and made into avenues to better allow connection of deep ellum to downtown	Comment noted.
				Q: I am interested because I am a A: Local Resident	Comment noted.

Q: Zip Code A: No response provided	ovided.
A: No response provided. Q: How did you hear about this survey? No response pro	ovided
A: No response provided.	ovided.
309 Electronic 12/4/2019 Q: What best describes your interest in I-345? Comment noted	d.
Survey A: Reside Near I-345, Commuter/traveler to downtown Dallas, Walk/bike under 345	
Q: How often do you use I-345? Comment noted	d.
A: Weekly	
Q: When do you use I-345? Comment noted	d.
A: Midday, Afternoon Rush, Evening	
Q: Why are you using I-345? A: Travel to and from work, Travel to/from recreation activities Comment noted	J.
Q: When I-345 is experiencing delays, which alternate route(s) do you use? Comment noted	4
A: Local Streets	*
Q: What mode of transportation do you use? Comment noted	d.
A: Drive my car	
Q: Please identify your areas of concern on the map. Comment noted	d.
A: Bike/Ped Issues: I live next to 345. I often walk underneath it to and from downtown, Safety Issue: Lately, there are	
encampments that spring up under 345, sometimes attracting aggressive individuals, aggressive pan handlers to our	
neighborhood. Traffic Issue: 345 keeps all that traffic off the surface streets making our neighborhood less hectic	
Q: Do you have concerns with the existing configuration of I-345? Comment noted	d.
A: I've noticed when I drive on it, it is confusing. A lot of cars change lanes suddenly to get to their exit, causing near	
accidents or accidents. I like having the Bryan Place exit as it feeds directly into our neighborhood, making it easier to get	
home.	
Q: If improvements are made, what are your priorities for I-345? Comment noted	d.
A: Keep the traffic out of our neighborhood. It's loud as it is but, I'd rather have all those cars up there than down here with us. Keep an exit to the east side so residents don't have to either head into downtown or wait to exit until Hall/Lemmon.	
us. Keep an exit to the east side so residents don't have to either head into downtown or wait to exit until Hall/Lemmon.	
0.146.1.16.1.245	
Q: What alternatives do you suggest for I-345 A: I'd prefer it basically stay as is with some updates for traffic flow safety, modernization.	J.
A. Tu prefer it basically stay as is with some upuales for traffic flow safety, modernization.	
Q: I am interested because I am a Comment noted	d.
A: Local Resident	
Q: Please provide contact information to stay informed Comment noted	d.

				A: Drive my car	
				Q: Please identify your areas of concern on the map.	Comment noted.
				A: Safety Issue: Unsafe to walk under bridge at night. Traffic Issue: High traffic area entering access road. Traffic Issue: High	
				traffic intersection in AM and PM work traffic and Hall street is only one lane .	

Comment Number	Commenter Name	Source	Date Received	Comment Topic	Response
				Q: Do you have concerns with the existing configuration of I-345?	Comment noted.
				A: Yes I do believe it divides the two areas	
				Q: If improvements are made, what are your priorities for I-345?	Comment noted.
				A: Allowing the two areas to be connected better without taking away options for all of the commuters that use it every day	
				Q: What alternatives do you suggest for I-345	Comment noted.
				A: I like the idea of burying it similar to Klyde Warren. That would alleviate the connection issue and allow commuters the	
				ability to continue using it	
				Q: I am interested because I am a	Comment noted.

				A: Bicycle	Comment noted.
				Q: Please identify your areas of concern on the map.	Comment noted.
				A: Bike/Ped Issues: Cars entering and exiting ramps speed and run light making walking/biking from East Dallas into	
				Downtown dangerous.	
				Q: Do you have concerns with the existing configuration of I-345?	Comment noted.
				A: Yes, it blocks East Dallas and Deep Ellum from the rest of Downtown Dallas. It also poses a safety risk to cyclists and	
				pedestrians trying to cross.	
				Q: If improvements are made, what are your priorities for I-345? A: The ramp should be torn down and replaced with a ground level road with speed limits that are safer for pedestrians and	Comment noted.
				cyclists.	
				Q: What alternatives do you suggest for I-345	Comment noted.
				A: People trying to cross over downtown without stopping (only passing through) should take alternate routes.

				Q: Do you have other comments?	Comment noted. TxDOT regularly reviews its existing infrastructure to ensure it is still meeting
				A: This whole process seems to be a land grab initiated by developers, funded by wick Allison. Very unfair to residents of south Dallas. Also, shocking to spend this much money when there are so many other infrastructure needs	the needs of the traveling public. As part of this proactive review process, TxDOT is facilitating a feasibility study . A decision regarding long term plans for I-345 has not been made. The feasibility study will assess several conceptual alternatives for I-345 and will incorporate stakeholder input,
					traffic data, current and future development plans, environmental impacts, and other factors. TxDOT has a process that must be followed when determining whether or not a road should be decommissioned, and a feasibility study must be performed.

				Q: What mode of transportation do you use?	Comment noted.
				A: Walk, Ride services (Uber, Lyft, taxi, etc.)	
				Q: Please identify your areas of concern on the map.	Comment noted.
				A: Design Issue: I-345 cuts across two popular areas of the city - downtown and Deep Ellum. Making these walkable would	
				enhance the vibrancy of our city. Design Issue: I-345 makes it impossible for San Jacinto to go straight so it had to be re-	
				routed into Ross. Safety Issue: Walking under I-345 is dark and unsafe when it is not light outside. There is always	
				trash/debris under the overpass and it very much inhibits pedestrian travel to/from downtown and the Arts District.	
				Q: Do you have concerns with the existing configuration of I-345?	Comment noted.
				A: Yes, I'd like to see it all become a park.	
				Q: If improvements are made, what are your priorities for I-345?	Comment noted.
				A: Removing it or making it below-grade.

				Q: What mode of transportation do you use?	Comment noted.
				A: Drive my car	
				Q: Please identify your areas of concern on the map.	Comment noted.
				A: Comments: Elevated freeway is blocking development of downtown and preventing connections between downtown and	
				Deep Ellum. Traffic Issue: Traffic gets backed up during rush hour.	
				Q: Do you have concerns with the existing configuration of I-345?	Comment noted.
				A: There is too much weaving around, and traffic gets too backed up during rush hours. In addition, as the neighborhoods	
				on either side of the freeway develop, the existing of I-345 is significantly impacting their ability to continue growing in to one continuous urban area.	
				Q: If improvements are made, what are your priorities for I-345?	Comment noted.
				A: Enabling the downtown and Deep Ellum neighborhoods to continue developing while still allowing traffic to freely flow	Comment noted.
				from south of downtown to north of downtown and the suburbs beyond.	
				Q: What alternatives do you suggest for I-345	Comment noted.
				A: I'd suggest a submerged rebuild similar to Woodall Rogers. Remove most of the ramps so that 345 mostly services traffic	
				bypassing downtown and allow deck parks to be built on top.

				Q: Please identify your areas of concern on the map. A: Comments: This map is useless and is difficult to use. What exactly are you attempting to do here?	Comment noted. The map in the survey is designed to allow the user to identify various issues about the corridorincluding bicycle/pedestrian, intersection, safety, and design issues.
				A. Comments. This map is useless and is difficult to use. What exactly are you attempting to do here:	about the corndorincluding bicycle/pedestrian, intersection, safety, and design issues.
				Q: Do you have concerns with the existing configuration of I-345?	Comment noted.
				A: The existing configuration works and it keeps a lot of traffic off of local streets. Local streets are already overwhelmed	
				during rush hour due to construction and general traffic. Eliminating I-345 would cause even more traffic on local street and	
				further congest existing highways.	
				Q: If improvements are made, what are your priorities for I-345?	Comment noted.
				A: Have a valid reroute of traffic without overwhelming existing roads.	
				Q: What alternatives do you suggest for I-345	Comment noted.
				A: Provide a safe walkway over/under I-345.	
				Q: I am interested because I am a	Comment noted.

				Q: What mode of transportation do you use?	Comment noted.
				A: Drive my car	
				Q: Please identify your areas of concern on the map.	Comment noted.
				A: Traffic Issue: We need freeway speed access from north Dallas to and from south Dallas.	
				Q: Do you have concerns with the existing configuration of I-345?	Comment noted.
				A: I-345 will approach its structural design life and has some deterioration that reduces general safety. The status quo can	
				not be sustained without some remedial or replacement efforts to I-395.	
				Q: If improvements are made, what are your priorities for I-345?	Comment noted.
				A: Suggest replacing current I-395 with a below grade freeway speed system, similar to the improvements on US 75 Central	
				Expressway north of Woodall Rodgers to I-635.	
				Q: What alternatives do you suggest for I-345	Comment noted.

				Q: Why are you using I-345?	Comment noted.
				A: Travel to and from work, Travel to/from recreation activities, Travel to/from entertainment	
				Q: When I-345 is experiencing delays, which alternate route(s) do you use?	Comment noted.
				A: Local Streets, Lamar, Akard, or Riverfront	comment noted.
				Q: What mode of transportation do you use?	Comment noted.
				A: Drive my car	comment noted.
				Q: Please identify your areas of concern on the map.	Comment noted.
				A: Design Issue: Elevated highway near condos and homes suppresses value and tax base. Design Issue: The exit here and	
				street level street design is very confusing. Removing the highway to create a parkway/Blvd would create logistical street	
				design. Also, number of lanes available are way too much for the traffic. Safety Issue: Panhandlers lining exit to 30W when	
				traffic backed up.	
				Q: Do you have concerns with the existing configuration of I-345?	Comment noted.
				A: Yes. It's ugly, strangles the connection between downtown, Deep Ellum and Fair Park. During most morning commutes,	
				the speed on 345 is no faster than Lemmon Ave (or other larger streets).	
				Q: If improvements are made, what are your priorities for I-345?	Comment noted.
				A: Removal. We need a community/Dallas focused system, not something designed for moving suburban commuters faster	
				home. Let them take Dart.	
				Q: What alternatives do you suggest for I-345	Comment noted.
				A: Make it a parkway with timed lights and connections to the local neighborhoods. Slow traffic down, let me explore	
				neighborhoods and shop locally, plant trees and help alleviate the concrete heat during the summer.	
				Q: I am interested because I am a A: Local Resident	Comment noted.

				Q: What mode of transportation do you use?	Comment noted.
				A: Drive my car	
				Q: Please identify your areas of concern on the map.	Comment noted.
				A: Design Issue: Merging traffic, North Bound Traffic from I 30 east single lane must Merge into 2 lanes from North bound	
				from I 30 west bound or forced to exit left. Design Issue: Must continue to merge left to avoid exit to 366. Design Issue: On	
				ramp back up with right lane merge. Design Issue: This ramp should be reduced to 1 lane, to allow for merging traffic from	
				south bound 345 to west bound 30, currently must yield to north bound 45 to west bound 30. Traffic Issue: Merging traffic	
				from 366.	

Comment Number	Commenter Name	Source	Date Received	Comment Topic	Response
				Q: Do you have concerns with the existing configuration of I-345?	Comment noted.
				A: Traffic using 366 instead of I30 to I35 interchanges causes the backups on I345, the I30 / I345 Interchange need to be	Comment noted.
				redesigned. Most of the problems seem to be the Canyon.	
				Q: If improvements are made, what are your priorities for I-345?	Comment noted.
				A: Equalize lane distribution for interchanges from and to I30 east and west to I345 North and south.	Comment noted.
				Q: What alternatives do you suggest for I-345	Comment noted.
				A: Reduce Dual lane ramps from I30 West to I345 North to 1 lane to allow single lane ramp from I30 east to I345 North

				Q: Please identify your areas of concern on the map. A: Design Issue: Overall the design of I-345 is poor. It's hard to exit and enter from downtown. It seems that it's a By-Pass not meant for Downtown traffic. It need to go!!!! Intersection Issue: Poor design!!!! This Dart crossing is a nightmare. The traffic light and trains and intersection are not in sink. This intersection can take up to 12 mins to cross. I understand the darts train issue, but the light @ the crossing are a mess. Safety Issue: Tons of accidents under bridge due to poor visibility and drivers driving the wrong way on streets (at least 2 a week). Traffic Issue: This is where the parents drop off and pickup their kids for the Uplift Prep School. Headed North on South Good Latimer just before Elm Street is extremely busy and frustrating when school begins and lets out. Traffic laws being broken by the second.	Comment noted.
				Q: Do you have concerns with the existing configuration of I-345? A: My opinion is that the interstate system is meant to encourage business and help develop communities. I-345 by-passes and divides these two reasons for being. It does not serve downtown Dalla, it by-passes it. It does not help grow communities, it divides them.	Comment noted.
				Q: If improvements are made, what are your priorities for I-345? A: My priorities would be to allow better access to the rest of the interstate system from downtown and to get rid of the eyesore that is I-345.	Comment noted.
				Q: What alternatives do you suggest for I-345 A: I would bury it or Klyde Warren Park (KWP) it with good access to downtown and the surrounding communities. Pennies on the dollar for the future growth and development of this city. In my view, this is the only option.	Comment noted.
				Q: I am interested because I am a A: Local Resident	Comment noted.
				Q: Please provide contact information to stay informed A:	Comment noted.
				Q: Do you have other comments? A: I both live, work and own property within a stones throw of I-345. I think this is an opportunity to do something great.	Comment noted.
				Q: Zip Code A: 75226	Comment noted.
				Q: How did you hear about this survey? A: Public Meeting	Comment noted.

				Q: How often do you use I-345? A: Weekly	Comment noted.
				A: Morning Rush Hour, Midday, Afternoon Rush, Evening	Comment noted.
				Q: Why are you using I-345? A: Work-related (freight, etc.), Travel to/from recreation activities	Comment noted.
				Q: When I-345 is experiencing delays, which alternate route(s) do you use? A: Woodall Rodgers Freeway (Spur 366), Transit/Other transportation mode, Local Streets	Comment noted.
				Q: What mode of transportation do you use? A: Drive my car, Public transit (rail, bus), Walk	Comment noted.
				Q: Please identify your areas of concern on the map. A: Bike/Ped Issues: Every street intersection is a danger to pedestrians and bikes. Bike/Ped Issues: The Ross intersection is very dangerous for bikes. Comments: This whole spaghetti of elevated highways and ramps is a directional nightmare. I can never figure out how to navigate it correctly. Traffic Issue: The Connection from 345 to 30 is almost always terrible.	Comment noted.

Comment Number	Commenter Name	Source	Date Received	Comment Topic	Response	
				Q: Do you have concerns with the existing configuration of I-345? A: The existing configuration is confusing and takes up far too much space. Most of the time, I don't even bother with it and simply take the surface streets. Further, being a pedestrian or biker in this area is extremely dangerous. There are many blind turns for drivers trying to beat red-lights. Their is little ROW for anything other than fast moving cars.	Comment noted.	
				Q: If improvements are made, what are your priorities for I-345? A: Safety (not just for cars) and economic development should be the top priorities. This area should be one of the most economic diverse engines in the state.	Comment noted.	
				Q: What alternatives do you suggest for I-345 A: The highway should go away. It's an anachronism. The economic potential for the area is so huge that it should be allowed to prosper. There are plenty of options for cars to drive through -literally hundreds of lanes of options for through traffic. Vehicle speed should be the last concern for designers in this area.	Comment noted. TxDOT is working closely with the City of Dallas during the feasibility study process. The City sets economic development policy and priorities. TxDOT has a process that must be followed when determining whether or not a road should be decommissioned, and a feasibility study must be performed.

				Q: Please identify your areas of concern on the map. A: Intersection Issue: Taking down I-345 traffic worse and longer commutes	Comment noted.	
				Q: Do you have concerns with the existing configuration of I-345? A: This is a main connection for carpool/commuters from 45/175 to 75. Trying to divert this much traffic to an already congested I-30 and surrounding corridors would add more time and emissions to the already busy Highways. The positives do NOT out weigh the cones.	Comment noted.

				Q: Please identify your areas of concern on the map.	Comment noted.
				A: Bike/Ped Issues: This intersection is a mess or highway exits, access roads, and train tracks. It is difficult for pedestrians	Comment noted.
				and cyclists to navigate safely. Design Issue: Running an elevated highway through a neighborhood that is redeveloping and	
				bringing a lot to the city is not a good thing. Design Issue: This road totally cuts Deep Ellum off from downtown Dallas. It is	
				also an unsightly eyesore.	
				4.55 4.1 4.1.5. ₀ mily 6,655 6.	
				Q: Do you have concerns with the existing configuration of I-345?	Comment noted.
				A: The elevated highway is an eyesore that has done a lot of damage to this portion of the city once it was built. It has lead	
				to a massive disconnection of these neighborhoods. It would also right a historical wrong from when it was built.	
				Q: If improvements are made, what are your priorities for I-345?	Comment noted.
				A: Below grade or turned into a lower trafficked surface road	Comment noted.
				Q: What alternatives do you suggest for I-345	Comment noted.
				A: Eliminate the elevated highway.

				Q: When I-345 is experiencing delays, which alternate route(s) do you use? A: Local Streets, Military, Scyene, Greenville, Mockingbird	Comment noted.
				Q: What mode of transportation do you use? A: Drive my car, Ride services (Uber, Lyft, taxi, etc.)	Comment noted.
				Q: Please identify your areas of concern on the map. A: No response provided	No response provided.
				Q: Do you have concerns with the existing configuration of I-345? A: No, I-345 is the only highway I can take to get onto 75 or 35 from where I live. (Southeast Dallas) There is no viable alternative to I-345 for me.	Comment noted.
				Q: If improvements are made, what are your priorities for I-345? A: There needs to be some way to efficiently accommodate the traffic that was previously traveling on I-345. There needs to be an efficient and reasonable way for commuters to get to Northeast Dallas from 45 (since 175 is going to route to 45). I am concerned that if the highway is torn down, it will be difficult for Dallas residents of the South to get to other parts of Dallas efficiently.	Comment noted. The feasibility study will assess several conceptual alternatives for I-345 and will incorporate stakeholder input, traffic data, current and future development plans, environmental impacts, and other factors. TxDOT has a process that must be followed when determining whether or not a road should be decommissioned, and a feasibility study must be performed.
				Q: What alternatives do you suggest for I-345 A: I would like to keep I-345. It seems that past poor city planning is now going to impact thousands of Dallas residents if this highway is removed. If it is ultimately removed, there needs to be a viable alternative and we need to be prioritized as residents. It seems nobody cares about the opinions of Southeast Dallas residents because we are typically not decision-makers on transportation. The people who stand to benefit most from the removal do not use I-345 the way that South/Southeast residents do.	Comment noted. A decision regarding the long term plans for I-345 has not been made. TxDOT is working closely with the City of Dallas during the feasibility study process. The feasibility study will assess several conceptual alternatives for I-345 and will incorporate stakeholder input, traffic data, current and future development plans, environmental impacts, and other factors. TxDOT has a process that must be followed when determining whether or not a road should be decommissioned, and a feasibility study must be performed.

				A: Bike/Ped Issues: This area is literally unwalkable and super sketchy. Comments: This area of the highway really cuts off	
				the neighborhoods from the city, without it you would see a huge improvement in development and livability in the area.	
				Safety Issue: Cars coming off the freeway do not notice pedestrians, Safety Issue: Cars entering the freeway do not notice	
				pedestrians	

Comment Number	Commenter Name	Source	Date Received	Comment Topic	Response
				Q: Do you have concerns with the existing configuration of I-345? A: Yes, the road really seems unnecessary. Someone needs to explain to me why you need this much quick access from south Dallas to North Dallas on all sides of the city. Roads like this destroy the urban fabric of Dallas. You wouldn't see something like this in any other major city.	Comment noted.
				Q: If improvements are made, what are your priorities for I-345? A: Put it underground like the major highway through downtown Boston. Works pretty well there and in other mayor cities like Paris.	Comment noted.
				Q: What alternatives do you suggest for I-345 A: Needs to either be eliminated or put underground. All other options are only incremental and will fix zero problems.	Comment noted.
				Q: I am interested because I am a A: Local Resident	Comment noted.

				Q: When I-345 is experiencing delays, which alternate route(s) do you use? A: Local Streets, Gaston, Live Oak and Ross	Comment noted.
				Q: What mode of transportation do you use? A: Drive my car	Comment noted.
				Q: Please identify your areas of concern on the map. A: Safety Issue: One of the I30 entry lanes disappears and people don't realize it. There is often significant back up around 1st ave.	Comment noted.
				Q: Do you have concerns with the existing configuration of I-345? A: no	Comment noted.
				Q: If improvements are made, what are your priorities for I-345? A: Bury it or fix but DO NOT remove it and expect East Dallas local roads and neighborhoods to absorb the amount of traffic and TRUCKS that would then travel through it. DO NOT decide this in a small circle of impact or in a vacuum. One article had lovely boulevard pictures from a city in Canada—-NOT RELEVANT!	Comment noted. A decision regarding the long term plans for I-345 has not been made. The feasibility study will assess several conceptual alternatives for I-345 and will incorporate stakeholder input, traffic data, current and future development plans, environmental impacts, and other factors. TxDOT has a process that must be followed when determining whether or not a road should be decommissioned, and a feasibility study must be performed.

				A: Drive my car, Ride services (Uber, Lyft, taxi, etc.)	Comment noted
				Q: Please identify your areas of concern on the map.	Comment noted.
				A: Bike/Ped Issues: Lots of fast moving cars and not much room for pedestrians. Bike/Ped Issues: No bike lanes to easily	
				cross into downtown. Design Issue: The maze of streets is difficult to navigate.	Comment asked
				Q: Do you have concerns with the existing configuration of I-345?	Comment noted.
				A: Yes. I-345 is an outdated concept that separates downtown from East Dallas. There are many local streets around I-345	
				that are under utilized and could easily handle additional traffic if I-345 were to be replaced with a boulevard.	
				Q: If improvements are made, what are your priorities for I-345?	Comment noted.
				A: The top priority must be to replace it with a boulevard. It would reconnect downtown to East Dallas and allow for	
				additional development and affordable housing. The added property taxes could be used to help repair Dallas' terrible	
				streets	

Comment Number	Commenter Name	Source	Date Received	Comment Topic	Response
				Q: What alternatives do you suggest for I-345 A: There is no other alternative other than replacing it with a boulevard. High speed expressways cutting through the heart of downtown divide neighborhoods.	Comment noted.

				Q: When I-345 is experiencing delays, which alternate route(s) do you use?	Comment noted.
				A: Woodall Rodgers Freeway (Spur 366), Local Streets, Ross, Pearl, Harwood Q: What mode of transportation do you use?	Comment noted.
				A: Drive my car	Comment noted.
				·	Comment noted.
				A: Design Issue: The merge on/exit off to Live Oak are too close together. Safety Issue: I frequently exit Live Oak and it can	
				be exciting if traffic is merging on while I am trying to get off.	
					Comment noted.
				A: Overall it works. I think some of the merge on/exit offs are a little close, but as a throughway between 75 and 45 it is fine.	
				Q: If improvements are made, what are your priorities for I-345?	Comment noted.
				A: That it continue to be an efficient way to get from north Dallas into downtown and south bound interstates.	
				Q: What alternatives do you suggest for I-345	Comment noted.
				A: If money were no object I would take it below grade and put a park over it like Woodall. I realize that the train tunnels	
				may that impossible, but it would be nice to have the throughway and more walkable up top without sketchy bridges. I	
				drive through most often in daytime, but I think evening would feel unsafe.	
				Q: I am interested because I am a	Comment noted.

				Q: What mode of transportation do you use?	Comment noted.
				A: Drive my car Q: Please identify your areas of concern on the map.	Comment noted.
				A: Design Issue: Additional access to southbound IH-45 is needed. Intersection Issue: Many drivers from Woodall Rogers	Comment noted.
				back up traffic here trying to cross several lanes to exit Blackburn. Intersection Issue: People always try to cut across Live	
				Oak to turn left on Pearl. Safety Issue: Many homeless live under IH-345.	
				Q: Do you have concerns with the existing configuration of I-345?	Comment noted.
				A: The elevated structure is not attractive and facilitates homeless camps underneath it. The current lane configurations	
				leaves some ramps under utilized while others are too crowded.	
				O. If improvements are used such at any constraint in faul 24F2	Command material
				Q: If improvements are made, what are your priorities for I-345?	Comment noted.
				A: Keep I-345 as a full limited access highway and bury it like Woodall Rogers. Reconfigure access ramps to match today's	
				traffic patters.	
				Q: What alternatives do you suggest for I-345	Comment noted.
				A: Transit and improved safety for pedestrians should supplement but not replace I-345.

				Q: What mode of transportation do you use? A: Drive my car, Public transit (rail, bus), Scooter	Comment noted.
				Q: Please identify your areas of concern on the map. A: Comments: Seeing downtown and Deep Ellum from both sides of this conjoining highway looks quite pleasing. Design Issue: Terrible for on/off traffic. Exits and multiple joining entrances are too close together to allow for smooth merges from all sides. Intersection Issue: Similar commentary.	Comment noted.
				Q: Do you have concerns with the existing configuration of I-345? A: The exits and entrances were poorly designed for slower driving, less congested traffic. The Bryan Street exit is useless and Deep Ellum (Main St, E) is unequipped for *moving* traffic. Often, traffic is stalled because of drop offs/pick ups.	Comment noted.
				Q: If improvements are made, what are your priorities for I-345? A: Fewer lesser used exits (ex. Bryan St, E), more intention on bringing commuters from one interstate to another.	Comment noted.

Comment Number	Commenter Name	Source	Date Received	Comment Topic	Response
				Q: What alternatives do you suggest for I-345	Comment noted.
				A: Not the street. There are too many cars already passing N/S through Deep Ellum. The street lights are not helpful for	Comment noted.
				efficient passage through the community.

				Q: What mode of transportation do you use?	Comment noted.
				A: Drive my car, Walk, Ride services (Uber, Lyft, taxi, etc.)	- Comment noted.
				Q: Please identify your areas of concern on the map.	No response provided.
				A: No response provided	
				Q: Do you have concerns with the existing configuration of I-345?	Comment noted.
				A: Yes. Reintegrate the grid. Total traffic delays will improve. Downtown, near east Dallas and deep ellum will all me	
				more walkable, livable and workable. Don't subsidize a decision by some to commute to other municipalities by burdening	
				these neighborhoods with a divisive bridge that hurts local land use. And I could care less about whether or not apartments	
				come in. If anything, apartments are better than tents.	
				Q: If improvements are made, what are your priorities for I-345?	Comment noted.
				A: Re-integrate the grid! Get rid of overpass breaking up the city.	
				Q: What alternatives do you suggest for I-345	Comment noted.
				A: Re-integrate the grid! Boulevards or bury. Boulevards cheaper. Anything but rehabbing / status quo / or just moving an	
				exit.	
				Q: I am interested because I am a	Comment noted.
				A: Local Resident	
				Q: Please provide contact information to stay informed A:	Comment noted.

				· · · · · · · · · · · · · · · · · · ·	Comment noted.
				A: Safety Issue: Merging from I-30 to I-345 can be dangerous at the best of times., Safety Issue: People not paying attention	
				to the traffic signs will move multiple lanes to the left when traveling North to avoid the I-35 exit.	
				Q: Do you have concerns with the existing configuration of I-345?	Comment noted.
				A: The existing configuration works well most of the time. Evenings seem to be when people are not paying attention to the	
				north bound exit to I-35 and will travel across multiple lanes without looking for traffic in the lanes they are merging into.	
				Q: If improvements are made, what are your priorities for I-345?	Comment noted.
				A: Better evening lighting and better lane markings would help. More reflective lane markers and more signage showing	
				which lanes are exit only.	
				Q: What alternatives do you suggest for I-345	Comment noted.
				A: You could rebuild it by making it a tunnel instead of a raised highway, otherwise, better lane markings and signage would	
				help.	
				Q: I am interested because I am a	Comment noted.
				A: Commuter	
				Q: Please provide contact information to stay informed	Comment noted.

				Q: What mode of transportation do you use?	Comment noted.
				A: Drive my car	
				Q: Please identify your areas of concern on the map.	Comment noted.
				A: Traffic Issue: Always too much traffic to enter safely. The you have to get in the left lane to get on 75. Traffic Issue: Good Latimer needs to be reworked and streamlined. It is too confusing and old. Traffic Issue: This exit is confusing and hard to	
				understand and people don't stop at the intersection surface streets. Traffic Issue: This is exceedingly dangerous and too	
				much traffic volume.	
				Q: Do you have concerns with the existing configuration of I-345?	Comment noted. A decision regarding the long term plans for I-345 has not been made. The
				A: I don't see how you can eliminate it all together because it connects 30,35 and 45. The volume of traffic is too great for	feasibility study will assess several conceptual alternatives for I-345 and will incorporate
				surface streets. Some of the exits might be closed to consolidate traffic. Add hov lanes for thru traffic from 75 to 45.	stakeholder input, traffic data, current and future development plans, environmental impacts,
					and other factors. TxDOT has a process that must be followed when determining whether or not
					a road should be decommissioned, and a feasibility study must be performed.
				Q: If improvements are made, what are your priorities for I-345?	Comment noted.
				A: It needs to connect North Dallas with the Fair Park	
				And connect 75,30 and 35 traffic with 45.	
				Maybe bury as much as possible.	
				Q: What alternatives do you suggest for I-345	Comment noted.
				A: Widen the surface streets running East and West,	
				Clean it all up and get rid of all the old curbs, concrete medians and little turn medians. Much of that stuff is decades out of	
				date and doesn't help pedestrians and bicyclists. Make sure there is much better lighting and signage underneath the	
				expressway.

524	Ewing Moseley	Written Comment	12/3/2019	Leave I-345 as is and maintain it.	Comment noted.
525		12/3/2019	I live in Ennis, TX. I-345 is vital connection for me and others in my City that either commute to Dallas for work or have business that takes us there frequently. The removal of I-345 would have terrible impact on the growth of Ennis. Please eliminate the removal option from consideration. I am a landscape architect/planner, develop in Deep Ellum and Downtown Dallas is coming, The removal of I-345 it makes no sense and is not necessary. Please feel free to contact me for further input.	Comment noted. A decision regarding the long term plans for I-345 has not been made. The feasibility study will assess several conceptual alternatives for I-345 and will incorporate stakeholder input, traffic data, current and future development plans, environmental impacts, and other factors. TxDOT has a process that must be followed when determining whether or not a road should be decommissioned, and a feasibility study must be performed.	
				This is my second comment. I came to this meeting from Oak Cliff during rush hour and I-345 was shown as the fastest route. I thought it was an ironic example that I-345 is needed. A good test study for the removal folks could be to barricade it off for a month and lets see what happens. My guess is chaos would insure but that is just an option. Weather we like it or not I-345 has become and still is a vital connection point in helping maintain mobility in this area and the state. If it was removed it would simply just increase traffic and engine idling and thus would add significantly to our air quality issues.	Comment noted.
526	Anonymous	Written Comment	12/3/2019	Removal seems like the least attractive option because traffic would get routed through downtown or back onto 30. Below grade looks attractive, keeps traffic flowing but doesn't clog up downtown.	Comment noted. A decision regarding the long term plans for I-345 has not been made. The feasibility study will assess several conceptual alternatives for I-345 and will incorporate stakeholder input, traffic data, current and future development plans, environmental impacts, and other factors.
				Reconstruct and modify looks so-so. Just more of the same.

527	Simbarashe Musarunra	Written Comment	12/3/2019	The current configuration of I-345 has forced a hard dividing line between downtown and Deep Ellum and parts of South Dallas being split. When in the vicinity of I-345 via bike/walking the air quality and noise pollution levels are very undesirable. It seems that much of the congestion on I-345 is a function of poor on ramps and not traffic capacity. A personal preference is to incentivize more modes as opposed to reinforcing the existing status quo of sprawling urbanism by yielding only to the needs of cars.	Comment noted.
528	Tyler Pharr	Written Comment	12/3/2019	I-345 constricts connection of development of Dallas city center. The underutilized land below the freeway is an eye sore and haven for vagabond and homeless. The lack of connection to downtown and Deep Ellum constricts growth of both areas. My recommendation is to drop the highway below grade and put deck park like Klyde Warren over the freeway.	Comment noted. The feasibility study will assess several conceptual alternatives for I-345 and will incorporate stakeholder input, traffic data, current and future development plans, environmental impacts, and other factors.
529	Christopher Ross	Written Comment	12/3/2019	I would like to recommend extending the IH-345 designation from the IH-30/IH-45 interchange up to the TX/OK (red river) State Line (Denison, TX) along the current I-345/US-75 corridor. As far as the current elevated IH-345-IH-45 freeway, I would like to see it rebuilt below grade, starting at the Lamar Street interchange where possible. The current elevated freeway has caused blight in some areas along the corridor and this rebuild may spur new development along the entire corridor. The overall footprint along the corridor.	Comment noted. The feasibility study will assess several conceptual alternatives for I-345 and will incorporate stakeholder input, traffic data, current and future development plans, environmental impacts, and other factors. Your suggestions will be reviewed.
530	Elizabeth Walley	Emailed Comment	12/3/2019	I'm Elizabeth Walley from north Mesquite. I'm going to talk about the tear down of I-345 and the near downtown portion of I 30. You can sink it all below ground or rebuild and improve it. Either one works. Just don't take it away. We are on the east side of Dallas County right near the intersection of I 30 and I 635. Until I retired around 10 years ago I worked in Grand Prairie, so traveled 1-30 through the Mixmaster every workday for 21 years to get to and from work, along with thousands of others. Now, as a retiree, I engage in volunteer activities and travel I-30 to I-345 to points north and west, usually several times a week, along with thousands of others, so I've traveled the path that's being discussed thousands of times and am quite familiar with it. I-345 is part of a loop around downtown Dallas. It's the link in the regional system used by people from the east and south side of Dallas county to get to downtown and to other parts of the county. If it's removed along with the near-downtown portion of I-30 as is being proposed, people from the east side of town will have no reasonable access to downtown or points north, west or south except through side streets. People from the south will be handicapped. This is completely unacceptable. People don't travel I-345 for pleasure. We travel it to get to work. It is also the path people use to get to the main medical district in Dallas. Unthinkable to rip it out without consideration for what it will do to all the commuters who use it. People do not want to stop near downtown for a leisurely coffee and pastry on a tree lined boulevard. We want to get to work. I've heard it said that I-30 was constructed around 50 years ago by plowing through existing residential neighborhoods, dividing and destroying them. This is simply not true. I-30 was built in 1957 on top of an existing highway, US 67. The	Comment noted. A decision regarding long term plans for I-345 has not been made. The feasibility study will assess several conceptual alternatives for I-345 and will incorporate stakeholder input, traffic data, current and future development plans, environmental impacts, and other factors. Interstate 345 from I-30 to Woodall Rodgers Freeway (Spur 366)

Comment Number	Commenter Name	Source	Date Received	Comment Topic	Response
				existing US 67 was already in heavy use in the early 1950's. I-30 is bigger, but the highway was there since long before.	
				If the county had been designed originally with no access for people from the east and south to downtown and other parts of the county, or no loop around downtown Dallas, then residential and business areas would have developed differently. Employment centers would have developed in different places so workers could get to them. But that's not what happened. You can't change the existing access patterns overnight without doing a lot of damage. I can't really comment on truck traffic on I-30 on the east and on I-345 except to say there is a lot of it. Is the proposal to route it also though the side streets along with commuter traffic?	
				One of the things that strikes me is how casually this project, which would so heavily impact people from the south and east side of the county, has made it to the top of the list. I didn't hear any talk about environmental concerns or reuniting neighborhoods or a more leisurely lifestyle when the High Five was being constructed, or when Central Expressway was being widened. The talk then was about how improved access had to be provided for commuters from the north. All I hear in this discussion is how valuable the land beneath 1345 would be for real estate development.	
531	Art Whitmeyer	Written Comment	12/3/2019	I am in favor of removing the I-345 segment in question and replacing with a tunnel as was done in Boston, MA with the elevated highway thus AKA "The Big Dig". This approach would both address the volume of traffic that this segment handles yet tie downtown Deep Ellum and East Dallas together as the project in Boston did with downtown and the North End. I understand this may be one of, if not the most expensive option but overall long term the best benefit overall to the city and folks using it.	Comment noted.
532	William Desmond, Ph.D.	Written Comment	12/3/2019	Can a portion of the highwaysuch as north of I-30 and south of the Woodall Rodgers and Central Expwy junctions be built underground to help satisfy the goal to better connect downtown with Deep Ellum?	Comment noted. The feasibility study will review several conceptual alternatives, those identified through this study process as well as those identified through the Dallas CityMAP study.
533	Michael Dunean	Written Comment	12/3/2019	Removal IS NOT AN OPTION!! If radical reconstruction is required, I prefer the below grade option. Otherwise, leave it alone and do maintenance for the next 25-30 years. I use the spur everyday for my commute to DFW Airport where I work and I live in Casa View near Casa Linda.	Comment noted. A decision regarding the long term plans for I-345 has not been made. The feasibility study will assess several conceptual alternatives for I-345 and will incorporate stakeholder input, traffic data, current and future development plans, environmental impacts, and other factors. TxDOT has a process that must be followed when determining whether or not a road should be decommissioned, and a feasibility study must be performed.
534	Celia Eberle	Written Comment	12/3/2019	My husband and I as well our neighbors in the Ennis area are very concerned about the removal scenario. I-45 is our connection to Dallas and I-345 serves us regularly. In fact, we cannot imagine how we would access the businesses we must frequent without the connection. We would have to spend much more time and fuel tiring to negotiate surface streets and traffic.	Comment noted. A decision regarding the long term plans for I-345 has not been made. The feasibility study will assess several conceptual alternatives for I-345 and will incorporate stakeholder input, traffic data, current and future development plans, environmental impacts, and other factors. TxDOT has a process that must be followed when determining whether or not a road should be decommissioned, and a feasibility study must be performed.
535	Wayne Starks	Written Comment	12/3/2019	I have two properties in the area of I-345. My focus is on quality of build and property value. Currently Deep Ellum is the number one entertainment district. Thousands of Dallas County residents visit the area every day. My preference would be for either the below grade or removal option.	Comment noted.
536	Lane Davis	Written Comment	12/3/2019	Tear it down! Removal, No replacement	Comment noted.
537	Andrew Bennett	Written Comment	12/3/2019	My priorities/hopes as a citizen/resident are the following: -reducing traffic flow/congestion -increasing walkability, neighborhood cohesion -whatever gets us closer to being a cleaner/sustainable city.	Comment noted.

538	Chris Cyrek	Written Comment	12/3/2019	Seven stages of the process - no opportunity to look back and assess the significance of any outcomes effecting negative terms. Look at it. We don't need more traffic. That is looking backwards.	Comment noted. The feasibility study will assess several conceptual alternatives for I-345 and will incorporate stakeholder input, traffic data, current and future development plans, environmental impacts, and other factors
539	Mike Grace	Written Comment	12/3/2019	1. A covered tunnel option with potential funding mechanisms should be exhausted and seriously considered along with land use study performed by an independent entity. 2. TxDOT should develop a metric and matrix for rewarding and prioritizing funding for projects that take a comprehensive approach to mobility, mass transit, and land use frameworks that collectively dovetail to reduce travel demand/miles traveled while encouraging increased density and economic development.	Comment noted. A decision regarding the long term plans for I-345 has not been made. The feasibility study will assess several conceptual alternatives for I-345 and will incorporate stakeholder input, traffic data, current and future development plans, environmental impacts, and other factors. The study team will also look at stakeholder and public input; engineering analysis; traffic analysis; right of way requirements; existing and planned developments; cost and economic impact; other planning efforts; natural and cultural resources; land use and park land; water resources and flood plains; hazardous materials; and social and community impacts.
540	Janay Winston	Written Comment	12/3/2019	The tear down of 345 would have a great impact on the integrity of Dallas. Connecting the downtown and Deep Ellum neighborhoods would help with the revitalization of both. Many studies have shown that reducing the number of highways can help reduce the overall traffic. Leaving the highway will continue the separation of two key areas of Dallas urban core and as the population continues to grow specifically in the urban core we should encourage more shared mobility and less individual car use. The demolition of 345 is a great step in that direct and can serve as a future model for similar projects.	Comment noted.
541	James Ray	Written	12/3/2019	 Thank you TxDOT for engaging the community about this important issue/opportunity. I attended the meeting at St. Phillips and was very alarmed by an elected official with financial/political ties to this potential project take over the meeting. I have no financial interest in this project or the area. I grew up just east of I 345 and believe it essentially kills the neighborhood and potential value (social and financial) that could come by reconnecting E Dallas to downtown. I believe 345 should be removed and converted to a system of blvds. that create and complement and connect neighborhoods. A risen or sunken freeway system would continue to damage the nearby neighborhoods. Note that I would/will encourage the city of Dallas to totally control development stemming from this project via zoning. IE, Dallas needs to leverage this once-in-a-lifetime opportunity to enhance downtown/E Dallas, not to transfer addl wealth to developers. 	Comment Noted.

542	Sandra Stinson	Email	12/3/2019	I attended a public meeting about this Monday evening, and I want to add my personal comments. My husband and I are self-employed. We live in Southeast Dallas and most of our work takes us up to the Richardson/Plano area. We travel this stretch of highway at least 3 times a week. During rush hour, we spend at least an hour traveling up in the morning and closer to an hour-and-a-half coming back south. When the SM Wright project is finished, we might save about 15 minutes. We live off of Hwy 175 and within a mile each of I-20 and I-635. It would be a dreadful delay for us if you removed that stretch of highway completely. Public transportation is not an option since our handyman business requires us to transport tools and materials. But even those few times we have used the DART system, it has taken us more than 2 hours to make the same trip one direction. I-635 is more of a parking lot for us than Hwy 75 N in addition to being a greater distance. We have tried traveling Buckner to Northwest Highway to Hwy 75N. That also takes longer; we often wait through 3-4 traffic light sequences to cross certain of the intersections. Therefore I have major concerns about how traffic would be routed during the construction phase of the options that would take down that section. It seems to me that the best two options currently on the table would be to make necessary repairs on the existing structures in a way that would minimize lane closure, or to adjust the ramps with minimal closures. It looks to me that the other options would require long-term full closure of the highway. That would be no viable option in my opinion. Recently, there was repair work being done on I-20 where the 4 lanes were shut down to one. Even at 9 PM, it took us over an hour in traffic to travel less than five miles to reach our exit. Who wants that if you are trying to get to work?	I am confirming receipt of your e-mail regarding the I-345 feasibility study. TxDOT really appreciates your input regarding the project. There is also a survey that TxDOT has where we are looking for input from the public as well: https://i-345dallas.metroquest.com/ Thank you so much for attending the public meeting this week. At this point in development, TxDOT is really interested in gathering feedback from the public regarding the roadway. Comment noted. A decision regarding long term plans for I-345 has not been made. The feasibility study will assess several conceptual alternatives for I-345 and will incorporate stakeholder input, traffic data, current and future development plans, environmental impacts, and other factors. TxDOT has a process that must be followed when determining whether or not a road should be decommissioned, and a feasibility study must be performed.
543	Sohail Chand	Email	12/3/2019	I would be against removing think 345 which connects 35/40/45 to I-75N. This connector Freeway is not perfect but does provide a more direct route north/south and alleviates a traffic bottleneck that cannot be redirected to city streets - this would negatively impact congestion on the rest of downtown freeways and roads. The false benefit of removing the freeway will do nothing to help connect south Dallas to the city, as the developers are just going to build more million dollar high rises and probably also remove deep ellum buildings to make way for gentrification. Best option would be to keep expand/enhance the Freeway or potentially move it below surface level like Woodall Rogers but then build more parks and green space which is lacking in central downtown Dallas. Thanks.	I am confirming receipt of your e-mail regarding the I-345 feasibility study. TxDOT really appreciates your input your regarding the project. There is also a survey that TxDOT has where we are looking for input from the public as well: https://i-345dallas.metroquest.com/ There is a live survey located here where TxDOT is looking to gather information from the public. 544	Carolyn Sortor	Written Comment	12/3/2019	Gentlemen and Ladies: I have lived on the west side of Dallas for many years and have had to travel to the east side regularly. For most of the last 19 years, the distance between my home and the east side was 7.8 mls. and without traffic takes 12 min. or less; but between the hours of approximately 3 pm and 7 pm, no matter which way I've gone, it's been bumper-to-bumper much of the way and, even with no accidents, it's usually taken 30 to 45 minutes. I have used various GPS's and apps and my own wits to find every possible route. All alternative routes are already jam-packed. The proposal that we should eliminate one of the two main arteries serving that flow and that the traffic will somehow find some other way to go is one of the most ridiculous cons developers have yet proposed - and that's a high (or low) bar. I'd be surprised if the result were less than total gridlock; at the minimum, my 30-to-45-minute commute would at least double or triple. Multiply this by thousands of drivers every day for the life of this boondoggle, and I shudder to think of the lost manhours/productivity, not to mention the additional pollution. No honest official with any knowledge of the situation can support this proposal. Enough with the give-aways to developers.	Comment noted. A decision regarding long term plans for I-345 has not been made. The feasibility study will assess several conceptual alternatives for I-345 and will incorporate stakeholder input, traffic data, current and future development plans, environmental impacts, and other factors. TxDOT has a process that must be followed when determining whether or not a road should be decommissioned, and a feasibility study must be performed.
545	Sheree Landry	Email	12/3/2019	All I can say is "YOU'VE GOT TO BE KIDDING." You can't hardly get into or out of Downtown Dallas anymore and now you want to run more traffic thru the city during rush hour? I finally started taking the train because the traffic is so ridiculous any more. Roads have changed that used to make getting out of the city after work a little easier, but now it's impossible and running more traffic thru downtown would make the commute insane. Lanes have already been removed from Elm Street in order to accommodate drop offs, etc., and which has also made it harder on the buses. The bus routes have changed making it a longer commute and not easily accessible as it used to be. I would definitely say "NO."	I am confirming receipt of your e-mail regarding the I-345 feasibility study. TxDOT really appreciates your input regarding the project. There is also a survey that TxDOT has where we are looking for input from the public as well: https://i-345dallas.metroquest.com/ There is a live survey located here where TxDOT is looking to gather information from the public.
546	John Igou	Email	12/3/2019	As a citizen in the SE section of Dallas the 345 connector is vital. The nonsense that it divides the city from Deep Ellum is evident by the growth of that area. Taking all of the traffic from 345 would only add to the gross gridlock already on the city streets. KEEP 345!! Thank you for your attention.	I am confirming receipt of your e-mail regarding the I-345 feasibility study. TxDOT really appreciates your input regarding the project. I would like to point you towards the following web address: https://i-345dallas.metroquest.com/ There is a live survey located here where TxDOT is looking to gather information from the public. Comment noted: A decision regarding long term plans for I-345 has not been made. 547	Amber Dulek	Email	12/3/2019	Hello, I want to provide direct feedback on this 345 project. This unlabeled highway is a main artery connecting 45 to 75 and 75 to 30. Doing this would be highly impactful, and I fail to understand how anyone benefits. Where does this traffic go? I veto this. I will surely use my vote and social influence to oppose. If TxDOT engineers can fix/rebuild 345, that is ideal, and I'm reasonable where I'd be open to alternative solutions but full-on removal without care for that traffic is irresponsible at best. Best, Amber Dulek	I am confirming receipt of your e-mail regarding the I-345 feasibility study. TxDOT really appreciates your input regarding the project. 550	Dave Rendon	Verbal Comment	12/3/2019	Dave Rendon, R-E-N-D-O-N. My address is . I just would like to go on record that we support tearing down that overpass in between and leaving it open for development. So that way it will connect Deep Ellum and Downtown and really give that area a boost, similar to what happened with Klyde Warren Park.	Comment noted.
551	James Ray	Verbal Comment	12/3/2019	James Ray, R-A-Y, and my address is I guess, is it public comment? Or whatever this is. And a State Senator took over the mic and basically commandeered the entire event. It seemed very nonpartisan and open and just information sharing until this guy stepped up and basically said, all these options aren't good. And the only thing I knew about it is that he was the only one with a financial and political interest in the project. And so I thought it kind of invalidated the event and made me think that this might be more of a show than an actual information gathering thing. So now I'm skeptical and interested in who is actually going to make the decision to design the new project. So I just wanted that to be on record, that I think that was kind of a bad turn, so that's it.	Comment noted. A decision regarding long term plans for I-345 has not been made. The feasibility study will assess several conceptual alternatives for I-345 and will incorporate stakeholder input, traffic data, current and future development plans, environmental impacts, and other factors. TxDOT has a process that must be followed when determining whether or not a road should be decommissioned, and a feasibility study must be performed.

552	Matt Tranchin	Verbal Comment	12/3/2019	My name is Matt, M-A-T-T, Tranchin, T-R-A-N-C-H-I-N. Address: I'm disappointed. The opportunity to educate the public about the conclusions of the city map report are not publicly available. The only station that's focused on the city map simply shows which four options were studied. What isn't clear is what the conclusions of the city map were with regard to those four options. It seems like a missed opportunity that we're not educating the public about a report that required several million dollars, well over a year's worth of time spent, and the contributions of over 100 stakeholders. Moving forward, I would hope that TxDOT's starting point for these very important conversations about the future of I-345 begin where we left off with the city map report. I look forward to seeing these comments reflected in the final meeting on Thursday, and I can't wait to come back.	Comment noted. The purpose of the public meeting was to educate the public about the feasibility study and to solicit their feedback on use, and ideas on alternatives to ensure TxDOT is considering all options when reviewing alternatives. The current study will review the conceptual scenarios developed during CityMAP and refine them into conceptual alternatives based on engineering and current design criteria and will evaluate the environmental impacts of each alternative. Other alternatives developed during the current study will also be considered.
553	Ed Zahra Email	Email	12/3/2019	Dear Travis Campbell, Ceason Clements, It was a pleasure to meet you at the Public Meeting concerning the Interstate 345 Feasibility Study at Cityplace, Tuesday December 3rd. As I mentioned, I have been involved with this project since its announcement in 2012 attending the CityMap meetings. Even though I voiced the same concerns about the meeting results, the four scenarios all miss what I think is both an economical and neighborhood friendly solution.	Thanks so much for the e-mail and your comments and suggestions. I am including folks from our project team. We would be happy to sit down with you sometime early next year. We'll reach out to you in January to discuss some potential dates.
				Back in 2012-14, I met with Tim Daniel, who like me, supported the TXDOT renovations being done and to leave I 345 as the North/South connector of 75 Central Expressway and I 30/I 45 for these reasons:	Comment noted.
			workforce is essential, local/state government is business friendly, the quality of life is stellar and a strong transfer of the stellar and a strong transfer of the strong transfer o	1. Economic Development thrives in cities like Dallas where: The cost of doing business is competitive, the access to a skilled workforce is essential, local/state government is business friendly, the quality of life is stellar and a strong transportation network is already in place for local, regional, national and worldwide access. Ingress and egress is paramount. To those who want to tear down I345, I ask - where do you put the 187,000 cars per day? In the Mixmaster Canyon, Woodall Rodgers, street level, etc none of which are realistic, feasible options now or in the future.	Comment noted.
				2. Dallas is an inland port logistics center, #3 in the nation with direct routes to Long Beach, Houston, NAFTA, Atlanta, Chicago and our highway system gets a good part of the credit. To take away the North/South I 345 connector would increase truck travel time, fuel costs, etc. that would show up in our cost of goods and local economy. It would also impede the travel time it takes for Southern Dallas residents to reach their employment centers.	Comment noted.
				3. To those who claim I345 divides neighborhoods, look no further than the new Cesar Chavez 6-lane Blvd. that runs from the I-30 Canyon through Deep Ellum to Central Expressway. Then look at the success of the Epic, built right against I345, that will be the new home of Uber's 3,000 employees. There is no basis to this charge.	Comment noted.
				4. CityMap 4 Scenarios - 1. No Build (At least develop land under roads per concepts attached), 2. Below Grade Freeway (At least with current elevated roads, noise is above ground level, if below grade the noise level will be unbearable - have you ever stood at the corner of Park Lane and Central Expwy to witness the roar of the cars?), 3. Removal - Not a realistic solution, 4. Reconstruct and elevate (similar to our span bridge landmark concept).	Comment noted.
			5. Creative 1-345 Options: A. If cost/time is not an issue, rebuild I345 as a visual architectural landmark like the Calatrava Hunt Hill Bridge where business and commercial/residential destinations are developed (Trinity Groves). Build it as a true span bridge (like the Erasmus bridge in over the Rhine River in Rotterdam). This would remove most of the columns that serve as a barrier from Downtown to Deep Ellum. The East skyline view of downtown would be framed by the anchor towers on the North/South ends.	Comment noted.	

Comment Number	Commenter Name	Source	Date Received	Comment Topic	Response
				If cost/time is an issue, then use the land under I345 to become Klyde Warren Park turned upside down. Just like the land under the freeway in Deep Ellum or above like Klyde Warren Park, vacant land can become Bark Parks, parking areas, basketball/volleyball courts, bike trails, sculpture gardens, skateboard parks, tennis courts, Dinosaur Exhibits, fountains, splash parks, murals, etc. What used to be a field of nothing becomes a Field of Dreams - a true people destination that joins Downtown with its eastern neighborhoods but attracts all residents and visitors alike. With all things considered, this is the preferred solution that would ensure citizen and developer support and have attached initial concepts to show you our thinking.	Comment noted.
				The I345 project is a chance for the City of Dallas to think creatively and to act on some Texas-sized ideas that would benefit all. Let's plan to meet at your office when it's convenient for you. Happy Holidays and to a great 2020,	Comment noted.
554	Chuck Hixson	Written Comment	12/3/2019	Please consider and include in TxDOT plans and construction of new roadway and route of future I-345 the existing EPIC development in Deep Ellum bounded by Swiss Avenue, Main Street, Good Latimer Exp'wy and I-345. EPIC development, owned and managed by Westdale Real Estate Investment and Management, can provide site surveys, site plans, building design and footprints, etc for TxDOT review and reference. I am employed by Westdale as vice president. www.westdale.com	Comment noted.
555	Erica Stubbs	Written Comment	12/3/2019	Would like I-345 to remain as-is.	Comment noted.
556	Dharmesh Patel	Written Comment	12/3/2019	I support the removal of I-345. I would like to see less barriers surrounding downtown and better connectivity to surrounding areas.	Comment noted.
				If removing the highway is not possible, then I'd like to see it reworked to be much less intrusive. Perhaps double-decked or maybe have flexible lanes that switch with rush hour traffic.	Comment noted.
				Whatever option is chosen, please consider reconnecting our downtown and strengthening our urban core. Thank you!	Comment noted.
557	Ed Zahra	Written Comment	12/3/2019	I believe that there are more creative and cost efficient options than the CityMap 4 scenarios: 1. No Build- at least develop land under I 345 to be a Klyde Warren Park turned upside downvacant land can be reclaimed as Baseball/Basketball Courts, Bark parks, Skateboard Parks, Bike Trails, Sculpture Gardens, Fountains, etc. 2. Below Grade Freeway - At least with current elevated Lanes, noise is above ground le, if below ground level traffic noise would be unbearable. Have you ever stood at Park Lane and Central Expressway? The roar of the below grade traffic is disturbing. 3. Removal - Not a realistic option when having to redirect over 187,000 cars per day, disruption of Commercial Truck routes and accessibility of Southern Dallas workforce. 4. Reconstruct and elevate 0 If time and budget funding not a concern, develop a architectural Landmark Span bridge similar to the Erasmus bridge in Rotterdam. 5. The development of vacant land under I-345 is my preferred solution would ensure citizen, resident, and developer support.	Comment noted. The current study will review the conceptual scenarios developed during CityMAP and refine them into conceptual alternatives based on engineering and current design criteria and will evaluate the environmental impacts of each alternative. Other alternatives developed during the current study will also be considered.

558	Elizabeth Walley	Written	12/3/2019	I'm Elizabeth Walley from north Mesquite. I'm going to talk about the tear down of i-345 and the near downtown portion of i 30. You can sink it all below ground or rebuild and improve it. Either one works. Just don't take it away. We are on the east side of Dallas County right near the intersection of i 30 and i 635. Until I retired around 10 years ago I worked in Grand Prairie, so traveled 1-30 through the Mixmaster every workday for 21 years to get to and from work, along with thousands of others. Now, as a retiree, I engage in volunteer activities and travel I-30 to I-345 to points north and west, usually several times a week, along with thousands of others, so I've traveled the path that's being discussed thousands of times and am quite familiar with it. I-345 is part of a loop around downtown Dallas. It's the link in the regional system used by people from the east and south side of Dallas county to get to downtown and to other parts of the county. If it's removed along with the near-downtown portion of I-30 as is being proposed, people from the east side of town will have no reasonable access to downtown or points north, west or south except through side streets. People from the south will be handicapped. This is completely unacceptable. People don't travel I-345 for pleasure. We travel it to get to work. It is also the path people use to get to the main medical district in Dallas. Unthinkable to rip it out without consideration for what it will do to all the commuters who use it. People do not want to stop near downtown for a leisurely coffee and pastry on a tree lined boulevard. We want to et work. I've heard it said that I-30 was constructed around 50 years ago by plowing through existing residential neighborhoods, dividing and destroying them. This is simply not true. I-30 was built in 1957 on top of an existing highway, US 67. The existing US 67 was already in heavy use in the early 1950's. I-30 is bigger, but the highway was there since long before. If the county, had been designed originally wi	Comment noted. A decision regarding long term plans for I-345 has not been made. The feasibility study will assess several conceptual alternatives for I-345 and will incorporate stakeholder input, traffic data, current and future development plans, environmental impacts, and other factors. TXDOT has a process that must be followed when determining whether or not a road should be decommissioned, and a feasibility study must be performed.

559	Caroline Sortor	Written	12/3/2019	Gentlemen and Ladies: I have lived on the west side of Dallas for many years and have had to travel to the east side regularly. For most of the last 19 years, the distance between my home and the east side was 6.8 mis. and without traffic takes 12 min. or less; but between the hours of approximately 3 pm and 7 pm, no matter which way I've gone, it's been bumper-to-bumper much of the way and, even with no accidents, it's usually taken 30 to 45 minutes. I have used various GPS's and apps and my own wits to find every possible route. All alternative routes are already jampacked. The proposal that we should eliminate one of the two main arteries serving that flow and that the traffic will somehow find some other way to go is one of the most ridiculous cons developers have yet proposed - and that's a high (or low) bar. I'd be surprised if the result were less than total gridlock; at the minimum, my 30-to-45-minute commute would at least double or triple. Multiply this by thousands of drivers every day for the life of this boondoggle, and I shudder to think of the lost manhours/productivity, not to mention the additional pollution. No honest official with any knowledge of the situation can support this proposal. Enough with the give-aways to developers.	
560	Andrew Wallace	Written Comment	12/3/2019	There are a plethora of other urban highway teardowns both nationally and globally that proved beneficial not only for traffic flow but for the urban vitality of the city as well. Syracuse and Rochester, New York both tore down highways looping around and slicing through their urban cores. As rust belt cities they worshiped the car and are dying by the car. Yet they were still able to throw the yoke off of being burdened by their highway. Other cities such as San Francisco, Seattle, Portland, and Milwaukee have torn down highways and have seen a boom in their economics. There's more to cities and regions than moving cars. There are far more efficient ways of moving people. As Texans, we pride ourselves on our rugged individualism yet we shackle ourselves to our car and lose our individuality. Lets preserve our culture, revitalize our city and free our own region from the hulking behemoth that is I-345.	
561	lan Blair	Written Comment	12/3/2019	Please seriously consider removing I-345. It's stated goal in maintaining continuity has failed with respect to the neighborhood. The frontage roads are confusing and limit circulation to local streetsand businesses. My understanding from CITYMAP is that 35E/366/surface streets can handle current/projected traffic. My vote is to intergrate downtown, deep ellum, and east Dallas with this opportunity.	Comment noted.

NOTICE OF PUBLIC MEETINGS

Proposed Improvements to Interstate 345 (I-345) from I-30 to Woodall Rodgers Freeway (Spur 366)
Dallas County, Texas
CSJ: 0092-14-094

The Texas Department of Transportation (TxDOT) is conducting a feasibility study for improvements to I-345 from I-30 to Woodall Rodgers Freeway in Dallas County, a distance of 1.4 miles. TxDOT will conduct three public meetings to discuss and receive public comments on the feasibility study. All three meetings will present the same information and will be held in an open house format with one formal presentation at 7:00 p.m. The meeting scheduled for December 5 will have three presentation times: noon, 4:30 p.m. and 7:00 p.m. Representatives from TxDOT and project consultants will be available to answer questions about the feasibility study and process. The meeting dates, times, and locations are listed below.

Monday, Dec. 2, 2019

6:00 pm. to 8:00 p.m. Presentation at 7:00 p.m. St. Philip's School and Community Center 1600 Pennsylvania Avenue Dallas, Texas 75215 Served by DART bus route 002 Tuesday, Dec. 3, 2019

6:00 pm. to 8:00 p.m.
Presentation at 7:00 p.m.
CityPlace Conference Center
Lakewood Room, First Floor
2711 N. Haskell Avenue
Dallas, Texas 75204
Served by DART red, blue and orange
rail lines to CityPlace/Uptown Station
and bus routes 036, 409, 521

Thursday, Dec. 5, 2019

10:00 a.m. to 8:00 p.m.
Presentations at noon,
4:30 p.m., and 7:00 p.m.
Sheraton Dallas Hotel
Dallas Ballroom, First Floor
400 N. Olive Street
Dallas, Texas 75201
Served by DART red, blue, green and orange rail lines to the Pearl Street
Station and bus routes 024, 036,

Please note, complimentary parking in the Sheraton Hotel parking garage and the CityPlace Conference Center parking garage C will be provided for meeting attendees. Attendees should bring their parking ticket into the meeting for validation. Validation will be provided for self-parking only.

The purpose of the I-345 feasibility study is to develop and analyze conceptual alternatives for I-345. Attendees will be able to learn about the study process and provide input on the future of I-345.

Maps showing the study location as well as study approach information will be available for viewing at the public meetings. The public meeting notice and venue map will be available online at www.keepitmovingdallas.com or under the Hearings and Meetings Schedule at www.txdot.gov. This and other public information will be on file and available for public inspection at the TxDOT Dallas District Office located at 4777 East Highway 80, Mesquite, Texas 75150.

All interested persons are invited to attend the public meeting. Written comments from the public are requested and will be accepted for a period of 15 calendar days following the meeting. Written comments may be submitted either in person at the public meetings; by mail to the TxDOT Dallas District Office, ATTN: Mr. Travis Campbell, P.E., TxDOT Project Manager, 4777 E. Highway 80, Mesquite, Texas 75150-6643; or via email at 345study@txdot.gov. Written comments must be postmarked by Friday, December 20, 2019 to be included in the public meeting documentation.

The public meeting will be conducted in English. Persons interested in attending the meeting who have special communication or accommodation needs, such as the need for an interpreter, are encouraged to contact the TxDOT Dallas District Public Information Office at (214) 320-4480. Requests should be made at least two days prior to the meeting. Every reasonable effort will be made to accommodate these needs. If you have any general questions or concerns regarding the proposed project or the meeting, please contact Mr. Travis Campbell, P.E., at (214) 320-6100 or via email at 345study@txdot.gov.

The environmental review, consultation, and other actions required by applicable Federal environmental laws for this project are being, or have been, carried-out by TxDOT pursuant to 23 U.S.C. 327 and a Memorandum of Understanding dated December 16, 2014, and executed by FHWA and TxDOT.

AVISO DE RENIONES PUBLICAS

Mejoras Propuestas a la Carretera Interestatal 345 (I-345) desde la I-30 hasta la Carretera Woodall Rodgers (Spur 366) Condado de Dallas, Texas CSJ: 0092-14-094

El Departamento de Transporte de Texas (TxDOT, por sus siglas en inglés) está haciendo un estudio de viabilidad para mejorar I-345 desde I-30 hasta la autopista Woodall Rodgers en el condado de Dallas, una distancia de 1.4 millas. TxDOT llevará a cabo tres reuniones públicas para discutir y recibir comentarios del público sobre el estudio de viabilidad. Las tres reuniones presentarán la misma información y se llevarán a cabo en un formato de casa abierta con una presentación formal a las 7:00 p.m. La reunión programada para el 5 de diciembre tendrá tres horarios de presentación: al mediodía, a las 4:30 p.m. y las 7:00 p.m. Representantes de TxDOT y consultores del proyecto estarán disponibles para responder las preguntas sobre el estudio de viabilidad y sobre el proceso. Las fechas, horarios y localidades de las reuniones son:

Lunes, 2 de diciembre del 2019

De 6:00 p.m. a 8:00 p.m. Presentación a las 7:00 p.m. Escuela y Centro Comunitario St. Philip's 1600 Pennsylvania Avenue Dallas, Texas 75215 Servido por la ruta de autobús de DART 002

Martes, 3 de diciembre del 2019

De 6:00 p.m. a 8:00 p.m.
Presentación a las 7:00 p.m.
Lakewood Room del Centro de
Conferencias de CityPlace, 1er Piso
2711 N. Haskell Avenue Dallas,
Texas 75204
Servido por las líneas roja, azul y
anaranjada de DART a la estación

CityPlace/Uptown y rutas de autobús

Jueves, 5 de diciembre del 2019

De 10:00 a.m. a las 8:00 p.m. Presentación al mediodía, a las 4:30 p.m., y a las 7:00 p.m. Dallas Ballroom del hotel Sheraton Dallas, 1er Piso 400 N. Olive Street Dallas, Texas 75201 Servido por las líneas DART roja, azul, verde y anaranjada a la estación de Pearl Street y rutas de

autobús 024, 036, 084

Tenga en cuenta que se proporcionará estacionamiento de cortesía a los asistentes a la reunión en los garajes del hotel Sheraton y del centro de conferencias de CityPlace. Los asistentes deben traer su boleto de estacionamiento a la reunión para su validación. La validación se proporcionará solo para parqueo de autoservicio.

El propósito del estudio de viabilidad de I-345 es el de desarrollar y analizar alternativas conceptuales para I-345. Los asistentes aprenderán sobre el proceso del estudio y podrán dar su opinión sobre el futuro de I-345.

036, 409, 521

Mapas de la ubicación del proyecto además de la información del enfoque del estudio estarán disponibles para inspección durante las reuniones públicas. El aviso de la reunión pública y el mapa de la ubicación de las reuniones estarán disponibles en el sitio web: www.keepitmovingdallas.com o bajo 'Hearings and Meetings Schedule' en www.txdot.gov. Esta y otra información estará disponibles para inspección pública en la oficina del distrito de TxDOT Dallas en el 4777 E. Highway 80, Mesquite, Texas 75150.

Todas las personas interesadas están invitadas a asistir a la reunión pública. Se solicitan los comentarios escritos del público sobre el proyecto los cuales pueden ser entregados durante un periodo de 15 días después de la reunión pública. Los comentarios escritos puedan ser entregados durante la reunión, enviados por correo al TxDOT Dallas District Office, ATTN: Mr. Travis Campbell, P.E., jefe del proyecto de TxDOT, 4777 E. US Highway 80, Mesquite, Texas 75150, o por correo electrónico a 345study@TxDOT.gov. Los comentarios escritos deben ser sellados por el correo postal a no más tardar el viernes, 20 de diciembre del 2019 para ser incluidos en la documentación de la reunión pública.

La reunión pública se llevará a cabo en inglés. Las personas interesadas en asistir a la reunión que tengan necesidades especiales de comunicación o acomodación, como la necesidad de un intérprete, deben llamar a la oficina de información pública del distrito de Dallas de TxDOT al (214) 320-4480. Las solicitudes se deben hacerce por lo menos con dos días hábiles de anticipación a la reunión. TxDOT hará todo esfuerzo razonable para acomodar estas necesidades. Si usted tiene preguntas generales o inquietudes sobre el proyecto propuesto, se puede poner en contacto con Mr. Travis Campbell, P.E., jefe del proyecto del TxDOT, al teléfono (214) 320-6100 o por correo electrónico a 345study@TxDOT.gov.

La revisión ambiental, consultas, y otras acciones requeridas por las leyes ambientales federales aplicables para este proyecto están siendo o han sido, llevadas a cabo por TxDOT bajo las reglas del Acta 23 U.S.C 327 y un Memorando de entendimiento fechado el 16 de diciembre, 2014 y ejecutado por la FHWA y el TxDOT.

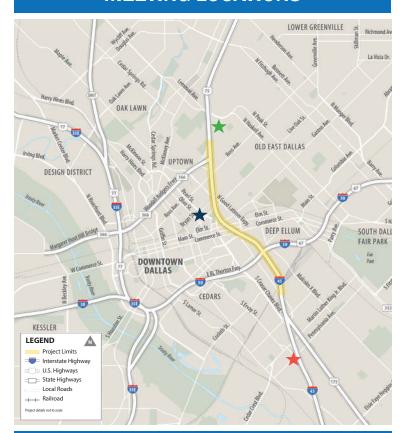

Public Meeting Venue Map

Join TxDOT for a series of public meetings to discuss the future of I-345!

MEETING LOCATIONS

Project Contact: Travis Campbell, P.E. (214) 320-6100 • 345study@txdot.gov

I-345
From I-30 to Woodall Rodgers Freeway (Spur 366)

CSJ: 0092-14-094

★ St. Philip's School & Community Center 1600 Pennsylvania Ave., Dallas, TX 75215

Monday, Dec. 2nd Presentation Time: 6:00 p.m. - 8:00 p.m. 7:00 p.m.

From the North — Take US 75/Central Expressway southbound to Exit 283B/Fair Park/Kaufman/US 175/Martin Luther King Jr. Blvd. Continue on the frontage road to Pennsylvania Ave. and turn right. Continue on Pennsylvania Ave. and St. Philip's School will be on the left.

From the South — Take I-45/Central Expressway northbound to Exit 283B/Pennsylvania Ave./Martin Luther King Jr. Blvd. Continue on the service road to Pennsylvania Ave. Turn left onto Pennsylvania Ave. Continue on Pennsylvania Ave. and St. Philip's School will be on the left.

Served by DART route 002

★ CityPlace Conference Center, Lakewood Room, 1st Floor 2711 N. Haskell Ave., Dallas, TX 75204

Tuesday, Dec. 3rd Presentation Time: 6:00 p.m. - 8:00 p.m. 7:00 p.m.

From the North — Take US 75/Central Expressway southbound to Exit 1B/ Haskell Ave./Blackburn St./Lemmon Ave. Turn left onto Haskell Ave. Take Haskell Ave. to Weldon St. and turn right. The underground parking garage entrance is located to the left. Park in garage C. Take the garage elevator to concourse level C and enter the building through the revolving door. Take the concourse elevator to the ground level.

From the South — Take I-45/US 75/Central Expressway northbound to Exit 1B/ Haskell Ave./Fitzhugh Ave./Blackburn St. Continue on the frontage road to Haskell Ave. and turn right. Take Haskell Ave. to Weldon St. and turn right. The underground parking garage entrance is located to the left. Park in garage C. Take the garage elevator to concourse level C and enter the building through the revolving door. Take the concourse elevator to the ground level.

Served by DART red, blue and orange lines to CityPlace Uptown Station, routes 036, 409, 521
*Parking validation will be provided for self-parking in the underground garage only.

★ Sheraton Dallas, Dallas Ballroom 400 N. Olive St., Dallas, TX 75201 **Thursday, Dec. 5th** 10:00 a.m. - 8:00 p.m.

Presentation Times: 12:00 p.m., 4:30 p.m. and 7:00 p.m.

From the North — Take US 75/Central Expressway southbound to exit 284B/Live Oak St. Continue on Live Oak St. to Olive St. and turn right. The entrance to the parking garage level will be on the left. The Dallas Ballroom is located on the first floor.

From the South — Take US 75/Central Expressway northbound to Exit 284B/Main St. West/Elm St. Follow the signs to Elm St. Take Elm St. to Pearl St. and turn right. Take Pearl St. to Live Oak St. and turn left onto Live Oak St. Take Live Oak St. to Olive St. and turn right. The entrance to the parking garage level will be on the left. The Dallas Ballroom is located on the first floor.

Served by DART red, blue, green and orange lines to Pearl Street Station, routes 024, 036, 084
*Parking validation will be provided for self-parking in the garage only.

NOTICE OF PUBLIC MEETINGS

Proposed Improvements to Interstate 345 (I-345) from I-30 to Woodall Rodgers Freeway (Spur 366) **Dallas County, Texas** CSJ: 0092-14-094

The Texas Department of Transportation (TxDOT) is conducting a feasibility study for improvements to I-345 from I-30 to Woodall Rodgers Freeway in Dallas County, a distance of 1.4 miles. TxDOT will conduct three public meetings to discuss and receive public comments on the feasibility study. All three meetings will present the same information and will be held in an open house format with one formal presentation at 7:00 p.m. The meeting scheduled for December 5 will have three presentation times: noon, 4:30 p.m. and 7:00 p.m. Representatives from TxDOT and project consultants will be available to answer questions about the feasibility study and process. The meeting dates, times, and locations are listed below.

Monday, Dec. 2, 2019 6:00 pm. to 8:00 p.m. Presentation at 7:00 p.m.

St. Philip's School and **Community Center** 1600 Pennsylvania Avenue Dallas, Texas 75215 Served by DART bus route 002

Tuesday, Dec. 3, 2019 6:00 pm. to 8:00 p.m. Presentation at 7:00 p.m. CityPlace Conference Center Lakewood Room, First Floor 2711 N. Haskell Avenue Dallas, Texas 75204 Served by DART red, blue and orange rail lines to CityPlace/Uptown Station

Thursday, Dec. 5, 2019

10:00 a.m. to 8:00 p.m. Presentations at noon, 4:30 p.m., and 7:00 p.m. Sheraton Dallas Hotel Dallas Ballroom, First Floor 400 N. Olive Street Dallas, Texas 75201 Served by DART red, blue, green and orange rail lines to the Pearl Street Station and bus routes 024, 036, 084

Please note, complimentary parking in the Sheraton Hotel parking garage and the CityPlace Conference Center parking garage C will be provided for meeting attendees. Attendees should bring their parking ticket into the meeting for validation. Validation will be provided for self-parking only.

and bus routes 036, 409, 521

The purpose of the I-345 feasibility study is to develop and analyze conceptual alternatives for I-345. Attendees will be able to learn about the study process and provide input on the future of I-345.

Maps showing the study location as well as study approach information will be available for viewing at the public meetings. The public meeting notice and venue map will be available online at www. keepitmovingdallas.com or under the Hearings and Meetings Schedule at www.txdot.gov. This and other public information will be on file and available for public inspection at the TxDOT Dallas District Office located at 4777 East Highway 80, Mesquite, Texas 75150.

All interested persons are invited to attend the public meeting. Written comments from the public are requested and will be accepted for a period of 15 calendar days following the meeting. Written comments may be submitted either in person at the public meetings; by mail to the TxDOT Dallas District Office, ATTN: Mr. Travis Campbell, P.E., TxDOT Project Manager, 4777 E. Highway 80, Mesquite, Texas 75150-6643; or via email at 345study@txdot.gov. Written comments must be postmarked by Friday, December 20, 2019 to be included in the public meeting documentation.

The public meeting will be conducted in English. Persons interested in attending the meeting who have special communication or accommodation needs, such as the need for an interpreter, are encouraged to contact the TxDOT Dallas District Public Information Office at (214) 320-4480. Requests should be made at least two days prior to the meeting. Every reasonable effort will be made to accommodate these needs. If you have any general questions or concerns regarding the proposed project or the meeting, please contact Mr. Travis Campbell, P.E., at (214) 320-6100 or via email at 345study@txdot.gov.

The environmental review, consultation, and other actions required by applicable Federal environmental laws for this project are being, or have been, carried-out by TxDOT pursuant to 23 U.S.C. 327 and a Memorandum of Understanding dated December 16, 2014, and executed by FHWA and TxDOT.

LOCALES

Anticipan impacto en construcción de viviendas y en la renta de apartamentos debido a las consecuencias del tornado de octubre.

¿Cómo afectará el tornado el mercado de viviendas?

Por STEVE BROWN/DMN

Más de tres semanas después de que varios tornados azotaron algunos sectores de Dallas, todavía es muy pronto para evaluar su impacto en el mercado de bienes raíces

La tormenta del 20 de octubre destruyó o dañó miles de casas en una franja que se extendió desde el noroeste de Dallas hasta Richardson y Garland.

Los mercados de bienes raíces de Houston y el sur de Texas se vieron bastante

afectados por los últimos huracanes e inundaciones.

Los daños causados por la tormenta en el área de Dallas no fueron tan extensos, pero de cualquier forma dejarán secuelas.

Los analistas locales creen que la tormenta en Dallas hará aumentar la actividad en construcción de vivienda, venta de inmuebles y renta de apartamentos, solo que no saben en qué medida.

"Mucha de esa gente va a tener que buscar dónde vivir mientras reconstruyen su casa", dijo Paige Shipp de la firma de análisis de vivienda MetroStudy.

"Los más afluentes podrían decidir mejor comprar. Se presume que habrá una baja en inventario de vivienda a corto plazo en el rango de \$500,000 a \$1 millón, y mucha gente en ese rango de precios no quiere rentar".

Los agentes de bienes raíces creen que los residentes cuyas casas quedaron destruidas o sufrieron fuertes daños podrían preferir vender y cambiarse a otra parte que esperar el largo y complicado proceso de reconstruir.

"Yo creo que muchos van a decidir mejor comprar una casa nueva cuando vean el dinero que recibirán de la aseguradora", estimó David Nichols de Allie Beth Allman

"Tengo una clienta que dice que compró esa casa en North Dallas por el patio que tenía v todos esos árboles, que va no están. Ahora quiere cambiarse".

Las compañías de construcción van a aprovechar la súbita disponibilidad de nuevos terrenos en sectores exclusivos de North Dallas si los dueños deciden no reconstruir sus casas.

"En Houston, mucha gente vendió sus propiedades por lo que vale el terreno", dijo el agente Barry Hoffer de Ebby Halliday Realtors.

"Los constructores que anden buscando viviendas demolidas en Preston Hollow y North Dallas podrían encontrar una abundancia de terrenos".

La reconstrucción de cuadras enteras de casas destruidas tensará el mercado de construcción local, que ya de por sí sufre una escasez de mano de obra y un aumento de los costos de construcción.

Un carga manejable

Pero Phil Crone, presidente de la Dallas Builders Association, dijo que el número de casas que tienen que ser remplazadas después de la tormenta es una carga manejable en un mercado que construye casi 80,000 casas y apartamentos al año.

"Visto en su totalidad, no creo que la situación laboral empeore más de lo que ya está", dijo Crone.

"Las principales problemas se darán cuando las ciudades traten de obtener los permisos y aprobación para las demoliciones. Estamos en un mercado laboral difícil, y las cosas son caras. Me preocupa que algunos propietarios no tengan seguro".

Los agentes inmobiliarios dicen que ha habido un repunte de gente que quiere rentar casas en algunos puntos de North Dallas.

Después de la tormenta en Houston, hubo un marcado incremento en la renta de apartamentos.

"En Houston el impacto fue gigante", pero duró poco, comentó Greg Willett, economista en jefe de RealPage, de Richar-

"Aquí podría haber un pequeño aumento en el alquiler de apartamentos".

Pero no será nada como lo que vivieron las comunidades del sur de Texas, dijo Wi-

Beatriz Muñoz (sosteniendo los papeles) busca adoptar y migrar a Leonardo, el hijo que tuvo su exesposo, quien falleció el 1 de noviembre.

Familia de FW quiere adoptar a niño en México

Por IMELDA GARCÍA/AL DÍA

Una familia de Fort Worth quiere adoptar a un niño de dos años antes de un inevitable desenlace. Beatriz Muñoz y sus cuatro hijos quieren recibir a Leonardo, un pequeño que está en la Ciudad de México y cuya madre está cerca de la muerte.

Leonardo es hijo de David Campos, quien fue esposo de Muñoz durante casi 30 años, y murió en México de un paro cardiaco el 1 de

A pesar de que Muñoz y Campos se divorciaron hace cuatro años, ahora ella quiere adoptar al hijo de su ex esposo y traerlo Estados Unidos.

"Fuimos al funeral de David y mis hijos conocieron a su medio hermanito. Ahora lo queremos traer (...); mis hijos quieren que lo adoptemos y pidamos su residencia", dijo Mu-

"Vamos a hacer un fundraising para 'Bring Leo Home' o, como siempre, vamos a vender tamales para poder traérnoslo", dijo Patricia Muñoz, hermana de Beatriz.

Un accidente cambió su vida

La historia de Muñoz y Campos comenzó hace 33 años, cuando se conocieron en la Ciudad de México.

"Me enamoré y me lo traje; nos casamos y aquí formamos nuestra familia", dijo Muñoz, residente de Fort Worth.

Juntos tuvieron cuatro hijos: Karen (31), Da-

vid Morgan (29), Jenny (28) y Melanie (10).

El día a día de la familia era habitual, hasta que hace seis años Campos fue atropellado. Su vida nunca volvió a ser normal.

"Nunca lo pudo superar. A causa del accidente desarrolló una adicción a los opioides,", según Beatriz Muñoz.

Con la adicción, llegó la violencia al matrimonio. Muñoz y Campos comenzaron a tener problemas. Un día llegaron a su límite.

"Fue tanta droga y alcohol y desgraciadamente no aguanté, le tuve que llamar a la policía y lo deportaron", aseguró.

Dos años después de haber sido deportado a México, Campos tuvo a Leonardo, su hijo más pequeño. Pero, el 1 de noviembre, Campos, de 53 años, falleció en la Ciudad de México, víctima de un paro cardiaco.

Hasta allá viajaron sus cuatro hijos y Muñoz, su ex esposa. Allí conocieron a Leonardo.

"La mamá del niño me pidió que lo cuidáramos, porque se va a quedar sin nadie", dijo Beatriz.

Isabel Pérez, la mamá de Leonardo, fue desahuciada hace unos meses por un fallo renal. Ella y su hijo viven con su madre, una mujer mayor que también tiene problemas de salud.

Consultado sobre el caso, el abogado Allan Wernick dijo que podría resolverse en un año, pues los trámites no son complicados.

"Es necesario tener una agencia de adopción que visite la casa, los padres adoptivos necesitan tener un examen de salud, y después puede hacer todo el proceso", dijo Wernick.

AVISO DE RENIONES PUBLICAS

Mejoras Propuestas a la Carretera Interestatal 345 (I-345) desde la I-30 hasta la Carretera Woodall Rodgers (Spur 366) Condado de Dallas, Texas CSJ: 0092-14-094

El Departamento de Transporte de Texas (TxDOT, por sus siglas en inglés) está haciendo un estudio de viabilidad para mejorar I-345 desde I-30 hasta la autopista Woodall Rodgers en el condado de Dallas, una distancia de 1.4 millas. TxDOT llevará a cabo tres reuniones públicas para discutir y recibir comentarios del público sobre el estudio de viabilidad. Las tres reuniones presentarán la misma información y se llevarán a cabo en un formato de casa abierta con una presentación formal a las 7:00 p.m. La reunión programada para el 5 de diciembre tendrá tres horarios de presentación: al mediodía, a las 4:30 p.m. y las 7:00 p.m. Representantes de TxDOT y consultores del proyecto estarán disponibles para responder las preguntas sobre el estudio de viabilidad y sobre el proceso. Las fechas, horarios y localidades de las reuniones son:

Lunes, 2 de diciembre del 2019 De 6:00 p.m. a 8:00 p.m. Presentación a las 7:00 p.m. Escuela y Centro Comunitario St. Philip's 1600 Pennsylvania Avenue

Dallas, Texas 75215 Servido por la ruta de autobús de DART 002

De 6:00 p.m. a 8:00 p.m. Presentación a las 7:00 p.m. Lakewood Room del Centro de Conferencias de CityPlace, 1er

2711 N. Haskell Avenue Dallas, Texas 75204

Servido por las líneas roja, azul y anaranjada de DART a la estación CityPlace/Uptown y rutas de autobús 036, 409, 521

Martes, 3 de diciembre del 2019 Jueves, 5 de diciembre del 2019 De 10:00 a.m. a las 8:00 p.m. Presentación al mediodía, a las 4:30 p.m., y a las 7:00 p.m. Dallas Ballroom del hotel

> Dallas, 1er Piso 400 N. Olive Street Dallas, Texas

Sheraton

Servido por las líneas DART roja, azul, verde y anaranjada a la estación de Pearl Street y rutas de autobús 024, 036, 084

Tenga en cuenta que se proporcionará estacionamiento de cortesía a los asistentes a la reunión en los garajes del hotel Sheraton y del centro de conferencias de CityPlace. Los asistentes deben traer su boleto de estacionamiento a la reunión para su validación. La validación se proporcionará solo para parqueo de

El propósito del estudio de viabilidad de I-345 es el de desarrollar y analizar alternativas conceptuales para I-345. Los asistentes aprenderán sobre el proceso del estudio y podrán dar su opinión sobre el futuro de

Mapas de la ubicación del proyecto además de la información del enfoque del estudio estarán disponibles para inspección durante las reuniones públicas. El aviso de la reunión pública y el mapa de la ubicación de las reuniones estarán disponibles en el sitio web: www.keepitmovingdallas.com o bajo 'Hearings and Meetings Schedule' en www.txdot.gov. Esta y otra información estará disponibles para inspección pública en la oficina del distrito de TxDOT Dallas en el 4777 E. Highway 80, Mesquite, Texas 75150.

Todas las personas interesadas están invitadas a asistir a la reunión pública. Se solicitan los comentarios escritos del público sobre el proyecto los cuales pueden ser entregados durante un periodo de 15 días después de la reunión pública. Los comentarios escritos puedan ser entregados durante la reunión, enviados por correo al TxDOT Dallas District Office, ATTN: Mr. Travis Campbell, P.E., jefe del proyecto de TxDOT, 4777 E. US Highway 80, Mesquite, Texas 75150, o por correo electrónico a 345study@TxDOT.gov. Los comentarios escritos deben ser sellados por el correo postal a no más tardar el viernes, 20 de diciembre del 2019 para ser incluidos en la documentación de la reunión pública.

La reunión pública se llevará a cabo en inglés. Las personas interesadas en asistir a la reunión que tengan necesidades especiales de comunicación o acomodación, como la necesidad de un intérprete, deben llamar a la oficina de información pública del distrito de Dallas de TxDOT al (214) 320-4480. Las solicitudes se deben hacerce por lo menos con dos días hábiles de anticipación a la reunión. TxDOT hará todo esfuerzo razonable para acomodar estas necesidades. Si usted tiene preguntas generales o inquietudes sobre el proyecto propuesto, se puede poner en contacto con Mr. Travis Campbell, P.E., jefe del proyecto del TxDOT, al teléfono (214) 320-6100 o por correo electrónico a 345study@TxDOT.gov.

La revisión ambiental, consultas, y otras acciones requeridas por las leyes ambientales federales aplicables para este proyecto están siendo o han sido, llevadas a cabo por TxDOT bajo las reglas del Acta 23 U.S.C 327 y un Memorando de entendimiento fechado el 16 de diciembre, 2014 y ejecutado por la FHWA y el TXDOT.

NOTICE OF PUBLIC MEETINGS

Proposed Improvements to Interstate 345 (I-345) from I-30 to Woodall Rodgers Freeway (Spur 366) Dallas County, Texas CSJ: 0092-14-094

The Texas Department of Transportation (TxDOT) is conducting a feasibility study for improvements to I-345 from I-30 to Woodall Rodgers Freeway in Dallas County, a distance of 1.4 miles. TxDOT will conduct three public meetings to discuss and receive public comments on the feasibility study. All three meetings will present the same information and will be held in an open house format with one formal presentation at 7:00 p.m. The meeting scheduled for December 5 will have three presentation times: noon, 4:30 p.m. and 7:00 p.m. Representatives from TxDOT and project consultants will be available to answer questions about the feasibility study and process. The meeting dates, times, and locations are listed below.

Monday, Dec. 2, 2019

6:00 pm. to 8:00 p.m. Presentation at 7:00 p.m. St. Philip's School and **Community Center** 1600 Pennsylvania Avenue Dallas, Texas 75215 Served by DART bus route 002

Tuesday, Dec. 3, 2019

6:00 pm. to 8:00 p.m. Presentation at 7:00 p.m. CityPlace Conference Center Lakewood Room, First Floor 2711 N. Haskell Avenue Dallas, Texas 75204 Served by DART red, blue and orange rail lines to CityPlace/Uptown Station and bus routes 036, 409, 521

Thursday, Dec. 5, 2019

10:00 a.m. to 8:00 p.m. Presentations at noon, 4:30 p m., and 7:00 p.m. Sheraton Dallas Hotel Dallas Ballroom, First Floor 400 N. Olive Street Dallas, Texas 75201 Served by DART red, blue, green and orange rail lines to the Pearl Street Station and bus routes 024, 036.

Please note, complimentary parking in the Sheraton Hotel parking garage and the CityPlace Conference Center parking garage C will be provided for meeting attendees. Attendees should bring their parking ticket into the meeting for validation. Validation will be provided for self-parking only.

The purpose of the I-345 feasibility study is to develop and analyze conceptual alternatives for I-345. Attendees will be able to learn about the study process and provide input on the future of I-345.

Maps showing the study location as well as study approach information will be available for viewing at the public meetings. The public meeting notice and venue map will be available online at www.keepitmovingdallas.com or under the Hearings and Meetings Schedule at www txdot.gov. This and other public information will be on file and available for public inspection at the TxDOT Dallas District Office located at 4777 East Highway 80, Mesquite, Texas 75150.

All interested persons are invited to attend the public meeting. Written comments from the public are requested and will be accepted for a period of 15 calendar days following the meeting. Written comments may be submitted either in person at the public meetings; by mail to the TxDOT Dallas District Office, ATTN: Mr. Travis Campbell, P.E., TxDOT Project Manager, 4777 E. Highway 80, Mesquite, Texas 75150-6643; or via email at 345study@txdot.gov. Written comments must be postmarked by Friday, December 20, 2019 to be included in the public meeting documentation.

The public meeting will be conducted in English. Persons interested in attending the meeting who have special communication or accommodation needs, such as the need for an interpreter, are encouraged to contact the TxDOT Dallas District Public Information Office at (214) 320-4480. Requests should be made at least two days prior to the meeting. Every reasonable effort will be made to accommodate these needs. If you have any general questions or concerns regarding the proposed project or the meeting, please contact Mr. Travis Campbell, P.E., at (214) 320-6100 or via email at 345study@txdot.gov.

The environmental review, consultation, and other actions required by applicable Federal environmental laws for this project are being, or have been, carried-out by TxDOT pursuant to 23 U.S.C. 327 and a Memorandum of Understanding dated December 16, 2014, and executed by FHWA and TxDOT.

I-345 Feasibility Study From I-30 to Woodall Rodgers Freeway (Spur 366) - Public Meeting

Monday, December 02, 2019

CSJ: 0092-14-094

Purpose

The Texas Department of Transportation (TxDOT) is facilitating a feasibility study of I-345. This study is just the beginning of a process that will help TxDOT determine the best way to address the needs of the roadway and the traveling public as they plan for current and future development. The purpose of the I-345 feasibility study is to develop and analyze conceptual alternatives for I-345. Attendees will be able to learn about the study process and provide input on the future of I-345.

Description

Interstate 345 (I-345) is located on the east side of Downtown Dallas and carries traffic between I-30, US 75/I-45 and Woodall Rodgers Freeway (Spur 366). More than 180,000 vehicles use the approximately 1.4-mile roadway every day.

Special Accommodations

TxDOT makes every reasonable effort to accommodate the needs of the public. The open house and hearing will be conducted in English. If you have a special communication accommodation or need for an interpreter, a request can be made. If you have a disability and need assistance, special arrangements can also be made to accommodate most needs. Please call the TxDOT Dallas District Public Information Office at (214) 320-4480 at least two working days prior to the meeting. Please be aware that advance notice is requested as some accommodations may require time for TxDOT to arrange.

MOU NEPA Assignment

The environmental review, consultation and other actions required by applicable federal environmental laws for this project are being, or have been carried-out by TxDOT pursuant to 23 U.S.C 327 and a Memorandum of Understanding dated December 16, 2014, and executed by the Federal Highway Administration and TxDOT.

PUBLIC MEETING SERIES SCHEDULED FOR I-345 FEASIBILITY STUDY IN DALLAS COUNTY

Nov. 26, 2019

DALLAS – The Texas Department of Transportation (TxDOT) is conducting a **feasibility study** for **improvements to Interstate 345 (I-345)** from I-30 to Woodall Rodgers Freeway (Spur 366) in Dallas County, a distance of 1.4 miles. TxDOT will conduct **three public meetings to discuss and receive public comments on the feasibility study**. The meeting dates, times and locations are listed below:

Monday, Dec. 2, 6 p.m. to 8 p.m.

- Presentation at 7 p.m.
- St. Philip's School and Community Center 1600 Pennsylvania Avenue, Dallas, TX 75215

Tuesday, Dec. 3, 6 p.m. to 8 p.m.

- Presentation at 7 p.m.
- CityPlace Conference Center, Lakewood Room, first floor 2711 N. Haskell Avenue, Dallas, TX 75204

Thursday, Dec. 10 a.m. to 8 p.m.

- Presentations at noon, 4:30 p.m. and 7 p.m.
- Sheraton Dallas Hotel, Dallas Ballroom, first floor 400 N. Olive Street, Dallas, TX 75201

The purpose of the I-345 feasibility study is to develop and analyze conceptual alternatives for I-345. Attendees will be able to learn about the study process and provide input on the future of I-345.

All three meetings will present the same information and will be held in an open house format with one formal presentation at 7 p.m. The meeting scheduled for Dec. 5 will have three presentation times: noon, 4:30 p.m. and 7 p.m. Representatives from TxDOT and project consultants will be available to answer questions about the feasibility study and process.

Complimentary parking in the Sheraton Hotel parking garage and the CityPlace Conference Center parking garage will be provided for meeting attendees. Attendees should bring their ticket into the meeting for validation. Validation will be provided for self-parking only.

Please see the attached fliers for more information.

For media inquiries, contact TxDOT Public Information Officer Laura Weaver at laura.weaver@txdot.gov or 214-320-4404.

TxDOT PUBLIC HEARING

DECEMBER 3, 2019 - 7:00 P.M.

CITYPLACE EVENTS

2711 NORTH HASKELL AVENUE

DALLAS, TEXAS 75204

```
1
                  MR. DAVE RENDON: Dave Rendon, R-E-N-D-O-N.
2
   My address is
 4
                  I just would like to go on record that we
 5
    support tearing down that overpass in between and
 6
    leaving it open for development. So that way it will
7
    connect Deep Ellum and Downtown and really give that
8
    area a boost, similar to what happened with Klyde Warren
9
    Park.
10
                  (End of comment.)
11
                  MR. JAMES RAY: James Ray, R-A-Y, and my
12
    address is
13
                  So I was at the public comment hearing last
14
   night -- I quess, is it public comment? Or whatever
15
    this is. And a State Senator took over the mic and
16
   basically commandeered the entire event. It seemed very
17
   nonpartisan and open and just information sharing until
18
    this guy stepped up and basically said, all these
19
    options aren't good. And the only thing I knew about it
20
    is that he was the only one with a financial and
21
   political interest in the project.
22
                  And so I thought it kind of invalidated the
23
   event and made me think that this might be more of a
2.4
    show than an actual information gathering thing.
25
    I'm skeptical and interested in who is actually going to
```

1 make the decision to design the new project. 2 So I just wanted that to be on record, that 3 I think that was kind of a bad turn, so that's it. 4 (End of comment.) 5 MR. MATT TRANCHIN: My name is Matt, 6 M-A-T-T, Tranchin, T-R-A-N-C-H-I-N. Address: 9 I'm disappointed. The opportunity to 10 educate the public about the conclusions of the city map 11 report are not publicly available. The only station 12 that's focused on the city map simply shows which four 13 options were studied. 14 What isn't clear is what the conclusions of 15 the city map were with regard to those four options. 16 seems like a missed opportunity that we're not educating 17 the public about a report that required several million 18 dollars, well over a year's worth of time spent, and the

Moving forward, I would hope that TxDOT's starting point for these very important conversations about the future of I-345 begin where we left off with the city map report.

contributions of over 100 stakeholders.

This is my second comment. I lune to this meeting from
Oak Cliff & during Rush hour + Rept I-345 was shown
as the Fastesit route, I thought it was an Ironic Example
that I-345 is Needed. A good test study for the removal
Folks could be to busricade it off for amonth and lets
See what happens, My guess is chaos would insue but that is
just an opinion, Wheath Weather we like it or Not I-345
has become and still is a vital Compection point in helping
maintain mobility in this was and the state. If it was remove
it would simply Just increase traffic and engine idelling and
Thus would add significantly to our Air anality Issues.

I-345 constricts connection of development of Dallas' city center. The understitized land below the freeway is an eye sore and haven for vayabords of homeless. I The lack of connection to downtown of Deep Ellan constricts growth of both area. My recommendation is to drop the highway below grade and put a dech pak like Klyde Warren over the Freeway.

NAME:

CITY:

ADDRESS:

Talk on Removal of I-345

I'm Elizabeth Walley from north Mesquite. I'm going to talk about the tear down of I-345 and the near downtown portion of I30. You can sink it all below ground or rebuild and improve it. Either one works. Just don't take it away.

We are on the east side of Dallas County right near the intersection of I30 and I635. Until I retired around 10 years ago I worked in Grand Prairie, so traveled I-30 through the Mixmaster every workday for 21 years to get to and from work, along with thousands of others. Now, as a retiree, I engage in volunteer activities and travel I-30 to I-345 to points north and west, usually several times a week, along with thousands of others, so I've traveled the path that's being discussed thousands of times and am quite familiar with it.

I-345 is part of a loop around downtown Dallas. It's the link in the regional system used by people from the east and south side of Dallas county to get to downtown and to other parts of the county. If it's removed along with the near-downtown portion of I-30 as is being proposed, people from the east side of town will have no reasonable access to downtown or points north, west or south except through side streets. People from the south will be handicapped. This is completely unacceptable.

People don't travel I-345 for pleasure. We travel it to get to work. It is also the path people use to get to the main medical district in Dallas. Unthinkable to rip it out without consideration for what it will do to all the commuters who use it. People do not want to stop near downtown for a leisurely coffee and pastry on a tree lined boulevard. We want to get to work.

I've heard it said that I-30 was constructed around 50 years ago by plowing through existing residential neighborhoods, dividing and destroying them. This is simply not true. I-30 was built in 1957 on top of an existing highway, US 67. The existing US 67 was already in heavy use in the early 1950's. I-30 is bigger, but the highway was there since long before.

If the county had been designed originally with no access for people from the east and south to downtown and other parts of the county, or no loop around downtown Dallas, then residential and business areas would have developed differently. Employment centers would have developed in different places so workers could get to them. But that's not what happened. You can't change the existing access patterns overnight without doing a lot of damage.

I can't really comment on truck traffic on I-30 on the east and on I-345 except to say there is a lot of it. Is the proposal to route it also though the side streets along with commuter traffic?

One of the things that strikes me is how casually this project, which would so heavily impact people from the south and east side of the county, has made it to the top of the list. I didn't hear any talk about environmental concerns or reuniting neighborhoods or a more leisurely lifestyle when the High Five was being constructed, or when Central Expressway was being widened. The talk then was about how improved access had to be provided for commuters from the north. All I hear in this discussion is how valuable the land beneath i345 would be for real estate development.

(1) Thank you TADOT For engaging the community about this important issue paparamity.
(2) I attended the meeting at St. Phillips and was very alarmed by an elected official
with financial political tres to this potential project takeover the meeting.
(3) I have no financial interest in this project or the orea.
(4) I grew up just east of I 345 and believe it essentially kills the neighborhood
and potential value (social & Firencial) that could come by re-connecting & Dallas to
dountour.
(6) I believe 345 should be removed and convelled to a system of bluds that create
and complement and connect neighborhoods. A usen or sonken freening system
would commute to damage the nearby neighborhoods.
(e) Note that I would full encourage to city of Dallas to taking control development
sterming from this project via zoning. i.e., Dallac needs to leverage this ence-in-a litetine opportunity to enhance downtown /E Dallas, not to transfer add wealth to waster developers.

Good Morning,

I am confirming receipt of your e-mail regarding the I-345 feasibility study. TxDOT really appreciates your input regarding the project.

There is also a survey that TxDOT has where we are looking for input from the public as well:

https://i-345dallas.metroguest.com/

Thank you so much for attending the public meeting this week. At this point in development, TxDOT is really interested in gathering feedback from the public regarding the roadway.

Thank you again for the e-mail,

Travis

This email originated from outside of the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

I attended a public meeting about this Monday evening, and I want to add my personal comments.

My husband and I are self-employed. We live in Southeast Dallas and most of our work takes us up to the Richardson/Plano area. We travel this stretch of highway at least 3 times a week. During rush hour, we spend at least an hour traveling up in the morning and closer to an hour-and-a-half coming back south. When the SM Wright project is finished, we might save about 15 minutes. We live off of Hwy 175 and within a mile each of I-20 and I-635. It would be a dreadful delay for us if you removed that stretch of

highway completely. Public transportation is not an option since our handyman business requires us to transport tools and materials. But even those few times we have used the DART system, it has taken us more than 2 hours to make the same trip one direction. I-635 is more of a parking lot for us than Hwy 75 N in addition to being a greater distance. We have tried traveling Buckner to Northwest Highway to Hwy 75N. That also takes longer; we often wait through 3-4 traffic light sequences to cross certain of the intersections.

Therefore I have <u>major</u> concerns about how traffic would be routed during the construction phase of the options that would take down that section.

It seems to me that the best two options currently on the table would be to make necessary repairs on the existing structures in a way that would minimize lane closure, or to adjust the ramps with minimal closures. It looks to me that the other options would require long-term full closure of the highway. That would be no viable option in my opinion.

Recently, there was repair work being done on I-20 where the 4 lanes were shut down to one. Even at 9 PM, it took us over an hour in traffic to travel less than five miles to reach our exit. Who wants that if you are trying to get to work?

Subject: Future of I-345 in Downtown Dallas

This email originated from outside of the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Dear Mr Campbell:

TxDOT Dallas District Office, ATTN: Mr. Travis Campbell, P.E., TxDOT Project Manager.

I would be against removing think 345 which connects 35/40/45 to I-75N. This connector Freeway is not perfect but does provide a more direct route north/south and alleviates a traffic bottleneck that cannot be redirected to city streets - this would negatively impact congestion on the rest of downtown freeways and roads. The false benefit of removing the freeway will do nothing to help connect south Dallas to the city, as the developers are just going to build more million dollar high rises and probably also remove deep ellum buildings to make way for gentrification.

Best option would be to keep expand/enhance the Freeway or potentially move it below surface level like Woodall Rogers but then build more parks and green space which is lacking in central downtown dallas.

Thanks.

Sohail Chand

TxDOT Dallas District Office ATTN: Mr. Travis Campbell, P.E., TxDOT Project Manager 4777 E. Highway 80 Mesquite, Texas 75150-6643

Re: Proposal to close I-345, the elevated section of highway overlooking Downtown Dallas from the east, north of the I-30 Mixmaster and south of Woodall Rogers Frwy

Gentlemen and Ladies:

I have lived on the west side of Dallas for many years and have had to travel to the east side regularly. For most of the last 19 years, the distance between my home and the east side was 6.8 mis. and without traffic takes 12 min. or less; but between the hours of approximately 3 pm and 7 pm, no matter which way I've gone, it's been bumper-to-bumper much of the way and, even with no accidents, it's usually taken 30 to 45 minutes.

I have used various GPS's and apps and my own wits to find every possible route. All alternative routes are already jam-packed.

The proposal that we should eliminate one of the two main arteries serving that flow and that the traffic will somehow find some other way to go is one of the most ridiculous cons developers have yet proposed – and that's a high (or low) bar. I'd be surprised if the result were less than total gridlock; at the minimum, my 30-to-45-minute commute would at least double or triple. Multiply this by thousands of drivers every day for the life of this boondoggle, and I shudder to think of the lost man-hours/productivity, not to mention the additional pollution.

No honest official with any knowledge of the situation can support this proposal. Enough with the give-aways to developers.

Very truly yours,

Carolyn Sortor

Good Morning,

I am confirming receipt of your e-mail regarding the I-345 feasibility study. TxDOT really appreciates your input regarding the project.

There is also a survey that TxDOT has where we are looking for input from the public as well:

https://i-345dallas.metroquest.com/

There is a live survey located here where TxDOT is looking to gather information from the public.

Thank you again for the e-mail,

Travis

All I can say is "YOU'VE GOT TO BE KIDDING." You can't hardly get into or out of Downtown Dallas anymore and now you want to run more traffic thru the city . . . during rush hour? I finally started taking the train because the traffic is so ridiculous any more. Roads have changed that used to make getting out of the city after work a little easier, but now it's impossible and running more traffic thru downtown would make the commute insane. Lanes have already been removed from Elm Street in order to accommodate drop offs, etc., and which has also made it harder on the buses. The bus routes have changed making it a longer commute and not easily accessible as it used to be. I would definitely say "NO."

As a citizen in the SE section of Dallas the 345 connector is vital. The nonsense that it divides the city from Deep Ellum is evident by the growth of that area. Taking all of the traffic from 345 would only add to the gross gridlock already on the city streets. KEEP 345!!

Thank you for your attention.

This email originated from outside of the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Hello,

I want to provide direct feedback on this 345 project. This unlabeled highway is a main artery connecting 45 to 75 and 75 to 30. Doing this would be highly impactful, and I fail to understand how anyone benefits. Where does this traffic go? I veto this. I will surely use my vote and social influence to oppose. If TxDOT engineers can fix/rebuild 345, that is ideal, and I'm reasonable where I'd be open to alternative solutions but full-on removal without care for that traffic is irresponsible at best.

Best, Amber Dulek

To change this section of highway could be a good idea for traffic flow issues but to get rid of it would cause emeance problems. The issues are for trucking traffic between Houston and East Oklahoma. It also would be a major issue for those of us in the South/East that use it to get from I45 to highway 75 for work, shopping and Doctor visits. I myself am retired but use it at to get to Doctor, appointments, hospitals and to go to East Oklahoma regularly. Please do not take away this major artery.

This email originated from outside of the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Gentlemen and Ladies:

I have lived on the west side of Dallas for many years and have had to travel to the east side regularly. For most of the last 19 years, the distance between my home and the east side was 6.8 mis. and without traffic takes 12 min. or less; but between the hours of approximately 3 pm and 7 pm, no matter which way I've gone, it's been bumper-to-bumper much of the way and, even with no accidents, it's usually taken 30 to 45 minutes.

I have used various GPS's and apps and my own wits to find every possible route. All alternative routes are already jam-packed.

The proposal that we should eliminate one of the two main arteries serving that flow and that the traffic will somehow find some other way to go is one of the most ridiculous cons developers have yet proposed – and that's a high (or low) bar. I'd be surprised if the result were less than total gridlock; at the minimum, my 30-to-45-minute commute would at least double or triple. Multiply this by thousands of drivers every day for the life of this boondoggle, and I shudder to think of the lost man-hours/productivity, not to mention the additional pollution.

No honest official with any knowledge of the situation can support this proposal. Enough with the give-aways to developers.

Very truly yours,

Carolyn Sortor

Dear Travis Campbell, Ceason Clements,

It was a pleasure to meet you at the Public Meeting concerning the Interstate 345 Feasibility Study at Cityplace, Tuesday December 3rd.

As I mentioned, I have been involved with this project since its announcement in 2012 attending the CityMap meetings. Even though I voiced the same concerns about the meeting results, the four scenarios all miss what I think is both an economical and neighborhood friendly solution.

Back in 2012-14, I met with Tim Daniel, who like me, supported the TXDOT renovations being done and to leave I 345 as the North/South connector of 75 Central Expressway and I 30/I 45 for these reasons:

1. Economic Development thrives in cities like Dallas where: The cost of doing business is competitive, the access to a skilled workforce is essential, local/state government is business friendly, the quality of life is stellar and a strong transportation network is already in place for local, regional, national and worldwide access. Ingress and egress is paramount. To those who want to tear down I345, I ask - where do you put the 187,000 cars per day? In the Mixmaster Canyon, Woodall Rodgers, street level, etc. - none of which are realistic, feasible options now or in the future.

- 2. Dallas is an inland port logistics center, #3 in the nation with direct routes to Long Beach, Houston, NAFTA, Atlanta, Chicago and our highway system gets a good part of the credit. To take away the North/South I 345 connector would increase truck travel time, fuel costs, etc. that would show up in our cost of goods and local economy. It would also impede the travel time it takes for Southern Dallas residents to reach their employment centers.
- 3. To those who claim I345 divides neighborhoods, look no further than the new Cesar Chavez 6-lane Blvd. that runs from the I-30 Canyon through Deep Ellum to Central Expressway. Then look at the success of the Epic, built right against I345, that will be the new home of Uber's 3,000 employees. There is no basis to this charge.
- 4. CityMap 4 Scenarios 1. No Build (At least develop land under roads per concepts attached), 2. Below Grade Freeway (At least with current elevated roads, noise is above ground level, if below grade the noise level will be unbearable have you ever stood at the corner of Park Lane and Central Expwy to witness the roar of the cars?), 3. Removal Not a realistic solution, 4. Reconstruct and elevate (similar to our span bridge landmark concept).

5. Creative 1-345 Options:

- A. If cost/time is not an issue, rebuild I345 as a visual architectural landmark like the Calatrava Hunt Hill Bridge where business and commercial/residential destinations are developed (Trinity Groves). Build it as a true span bridge (like the Erasmus bridge in over the Rhine River in Rotterdam). This would remove most of the columns that serve as a barrier from Downtown to Deep Ellum. The East skyline view of downtown would be framed by the anchor towers on the North/South ends.
- *B. If cost/time is an issue*, then use the land under I345 to become Klyde Warren Park turned upside down. Just like the land under the freeway in Deep Ellum or above like Klyde Warren Park, vacant land can become Bark Parks, parking areas, basketball/volleyball courts, bike trails, sculpture gardens, skateboard parks, tennis courts, Dinosaur Exhibits, fountains, splash parks, murals, etc. What used to be a field of nothing becomes a Field of Dreams a true people destination that joins Downtown with its eastern neighborhoods but attracts all residents and visitors alike.

With all things considered, this is the *preferred solution* that would ensure citizen and developer support and have attached initial concepts to show you our thinking.

The I345 project is a chance for the City of Dallas to think creatively and to act on some Texas-sized ideas that would benefit all.

Let's plan to meet at your office when it's convenient for you.

Happy Holidays and to a great 2020,

Ed Zahra
Commercial Real Estate and Economic Development Consultant

Please Print Support the remaral of T-345. I would like to see
our less barriers surrounding downtown and better correctify to surrounding
areas.
If removing the highway is not possible then I'd like to see it reworked to
be much less intrusive. Perhaps double-decked or maybe have flexible
lanes that switch with the rush hour traffic.
Whatever option is chosen please consider reconnecting our downtown
and strengthening our urban core.
Thank you!

Please Print I believe that there are more creative and cost efficient options than
the CityMap 4 Scenarios: 1. No Build- At least develop land under I 345 to be a Klyde
Warren Park turned upside down - vacant land can be reclaimed as Baseball/Basketball
Courts, Bark Parks, Skateboard Parks, Bike Trails, Sculpture Gardens, Fountains etc.
2. Below Grade Freeway - At least with current elevated Lanes , noise is above ground 1
, if below ground level- traffic noise will be unbearable. Have you ever stood at
Park Lane at Central Expressway? The roar of the below grade traffic is disturbing.
3. Removal - Not a realistic option when having to redirect over 187,000 cars per day,
disruption of Commercial Truck routes and accessibility of Southern Dallas workforce.
4. Reconstruct and elevate - If time and budget funding not a concern, develop a
architectural Landmark Span bridge similar to the Erasmus bridge in Rotterdam
5. The development of vacant land under I 345 is my preferred solution - would ensure
citizen, resident and developer support.

Talk on Removal of I-345

I'm Elizabeth Walley from north Mesquite. I'm going to talk about the tear down of I-345 and the near downtown portion of I30. You can sink it all below ground or rebuild and improve it. Either one works. Just don't take it away.

We are on the east side of Dallas County right near the intersection of I30 and I635. Until I retired around 10 years ago I worked in Grand Prairie, so traveled I-30 through the Mixmaster every workday for 21 years to get to and from work, along with thousands of others. Now, as a retiree, I engage in volunteer activities and travel I-30 to I-345 to points north and west, usually several times a week, along with thousands of others, so I've traveled the path that's being discussed thousands of times and am quite familiar with it.

I-345 is part of a loop around downtown Dallas. It's the link in the regional system used by people from the east and south side of Dallas county to get to downtown and to other parts of the county. If it's removed along with the near-downtown portion of I-30 as is being proposed, people from the east side of town will have no reasonable access to downtown or points north, west or south except through side streets. People from the south will be handicapped. This is completely unacceptable.

People don't travel I-345 for pleasure. We travel it to get to work. It is also the path people use to get to the main medical district in Dallas. Unthinkable to rip it out without consideration for what it will do to all the commuters who use it. People do not want to stop near downtown for a leisurely coffee and pastry on a tree lined boulevard. We want to get to work.

I've heard it said that I-30 was constructed around 50 years ago by plowing through existing residential neighborhoods, dividing and destroying them. This is simply not true. I-30 was built in 1957 on top of an existing highway, US 67. The existing US 67 was already in heavy use in the early 1950's. I-30 is bigger, but the highway was there since long before.

If the county had been designed originally with no access for people from the east and south to downtown and other parts of the county, or no loop around downtown Dallas, then residential and business areas would have developed differently. Employment centers would have developed in different places so workers could get to them. But that's not what happened. You can't change the existing access patterns overnight without doing a lot of damage.

I can't really comment on truck traffic on I-30 on the east and on I-345 except to say there is a lot of it. Is the proposal to route it also though the side streets along with commuter traffic?

One of the things that strikes me is how casually this project, which would so heavily impact people from the south and east side of the county, has made it to the top of the list. I didn't hear any talk about environmental concerns or reuniting neighborhoods or a more leisurely lifestyle when the High Five was being constructed, or when Central Expressway was being widened. The talk then was about how improved access had to be provided for commuters from the north. All I hear in this discussion is how valuable the land beneath I345 would be for real estate development.

There are a plethora of other urban highway teardowns both nationally and globally that proved beneficial not only for traffic flow but for the urban vitality of the city as well. Syracuse and Roches New York both tone down highways looping around and slicing down through their urban cores. As sust belt cities they worshiped the car and are dying by the car. Yet they were still able to throw the cores.
public yoke off of being burdened by their highway. Other cities such as San Francisco, Seattle, Portland and Milivaukee have torn down highways and have seen a boom in their economics. There's more to cities and regions than moving cars. There are far more efficient ways of moving people. As Texans me pride ourselves on our rugged individualism yet me shackle ourselves to our car and lose our individuality. Lets preserve our culture, reuntalize our city, and free our region from the hulking behamouth that is 1-345.

Environmental Constraints Map

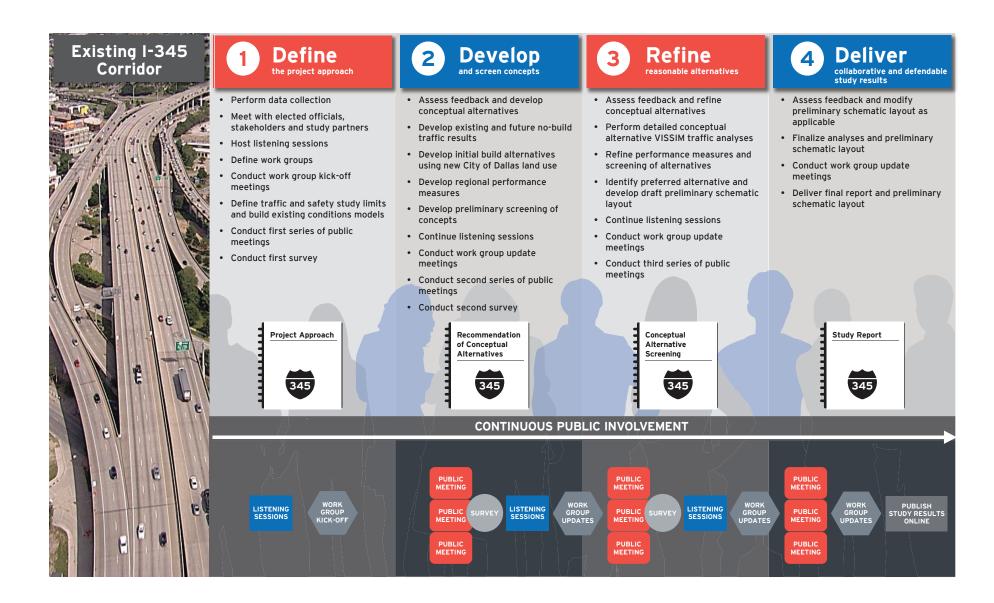

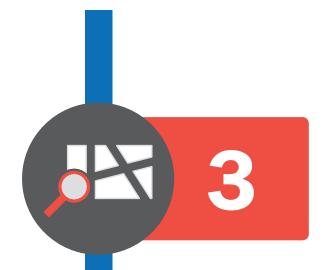

Study Approach

Previously Developed Scenarios

Dallas CityMAP Scenarios

Developing the Scenarios

Between 2014 and 2016, the Dallas City Master Assessment Plan (CityMAP) gathered public input about the future of downtown Dallas to assess challenges, opportunities, and potential solutions for the city's aging interstate corridors and adjacent neighborhoods.

CityMAP developed scenarios based on high-level planning. CityMAP was the "Art of the Possible", and the current study will delve into these scenarios and refine them based on engineering and current design criteria.

Traffic & Safety

Traffic & Safety Data Analysis Approach

What data are we using?

- Stakeholder and public input
- Origin-Destination data
- Peak period intersection traffic counts
- 24-hour mainlane counts
- 24-hour ramp/frontage road counts
- Historical daily TxDOT count data
- Roadside detection device speeds and volumes
- North Central Texas Council of Governments (NCTCOG) regional travel demand model
- Current signal timing plans
- Roadway geometric data
- National Performance Management Research Data Set (NPMRDS) travel time and speed data
- Field travel times
- 2013-2017 crash data from Texas Crash Records Information System (CRIS)
- DART transit operations data
- List of committed transportation improvement projects

How are we using the data?

- Develop traffic models for operational analysis
- Calibrate traffic models to replicate existing traffic operations
- Calculate crash rates
- Determine who uses I-345
- Develop traffic and safety report

ABOUT THE DATA

Historically, origin-destination data has been gathered through manual observations which are expensive and reflect a limited time period and geography. Newer origin-destination data sources use anonymized smart phone and in-vehicle navigation systems to track actual travel routes as well as origins and destinations.

As many as ten travel data collection methods were considered for evaluation for the I-345 Feasibility Study. Ultimately, origin-destination data sourced from smart phones and in-vehicle navigation systems was collected to conduct the travel analysis during weekday and weekend, morning, evening, and daily time periods over a six-month period.

LEVEL OF CONFIDENCE

All potential travel data sources have limitations, either in sample size. representativeness of the sample. travel modes included, or scale of geographic coverage. To fully understand travel behavior in the study area, the data was compared to various benchmark datasets (including Bluetooth data, National Travel Survey Data, North Central Texas Council of Governments (NCTCOG) regional data, and collected vehicle counts) to produce a level of confidence in the data. The origin-destination data used in the I-345 Feasibility Study reflects a 95 percent confidence level with a margin of error of +/- 2 percent.

Interstate 345 Feasibility Study

Understanding Travel Patterns Using Origin-Destination Data

HOW ARE WE USING THE DATA

The key to understanding the implications of changes to the capacity, travel speed, and connections to I-345 in Downtown Dallas is understanding the travel patterns of current and future users of the roadway.

Where are users of I-345 coming from and traveling to? How does this change over the course of a day?

KEY QUESTIONS THE DATA WILL ANSWER

REGIONAL ORIGIN-DESTINATION FLOWS

What are the key travel patterns of the region?

How much of the trip activity is from commuters outside of the study loop?

For those traveling to or from Downtown Dallas, where are they coming from or going to?

I-345 SEGMENT ORIGIN-DESTINATION FLOWS

What are the common travel patterns for current users of I-345?

How many users of I-345 are going to or from Downtown Dallas?

How many users of I-345 originate from outside the study loop or are destined to outside the study loop?

Survey

HOW TO TAKE THE SURVEY

- 1. You may complete the paper survey at the Comment Station or take home and return by mail.
- 2. You may complete the survey at the Metroquest Station.
- 3. You may complete the survey online at *I-345dallas.metroquest.com.*

The survey must be completed by Friday, December 20, 2019.

Court Reporter

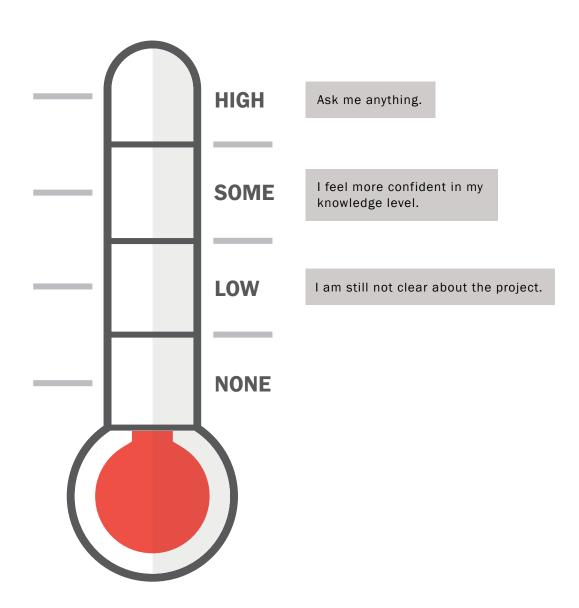

Knowledge Meter

Now, how much do you know about I-345?

Now that you have attended the public meeting, how would you rate your knowledge of I-345? Take a dot and place it near the ranking that best describes your knowledge of the roadway and the project.

Survey

Interstate 345 (I-345) Feasibility Study Survey

What best describes your interest in I-345? Select all that apply.

The Texas Department of Transportation (TxDOT) is conducting a feasibility study on Interstate 345 (I-345) in Dallas County. TxDOT will consider feedback from the public as it develops potential alternatives for I-345. Please take a moment to tell us what you think and help us better understand issues that are important to you. We appreciate your valuable input!

	Reside near I-345 Commuter/traveler to downtown Dallas Commuter/traveler through downtown Dallas Business owner near I-345 Property owner near I-345 Potential business owner or property owner near I-345 Walk/bike under I-345 Other, please list:

Interstate 345 (I-345) Feasibility Study

From I-30 to Woodall Rodgers Freeway

Public Meeting

CSJ: 0092-14-094

Table of contents

- 1 Introduction
- 2 Project Overview
- 3 Dallas CityMAP
- 4 Project Development Process
- 5 Feasibility Study

- 6 Study and Project Goals and Objectives
- 7 Public/Agency Outreach and Involvement
- 8 Next Steps
- 9 Contact Information
- 10 Thank You

Project Overview

- TxDOT regularly reviews its existing infrastructure
- I-345 will reach its current life span in the next 25 years
- The Department is embarking on a feasibility study to plan for the future of the roadway
- This study will incorporate feedback from stakeholders, traffic data and current and future development plans to develop and assess conceptual alternatives

Project Overview - Feasibility Study Location Map

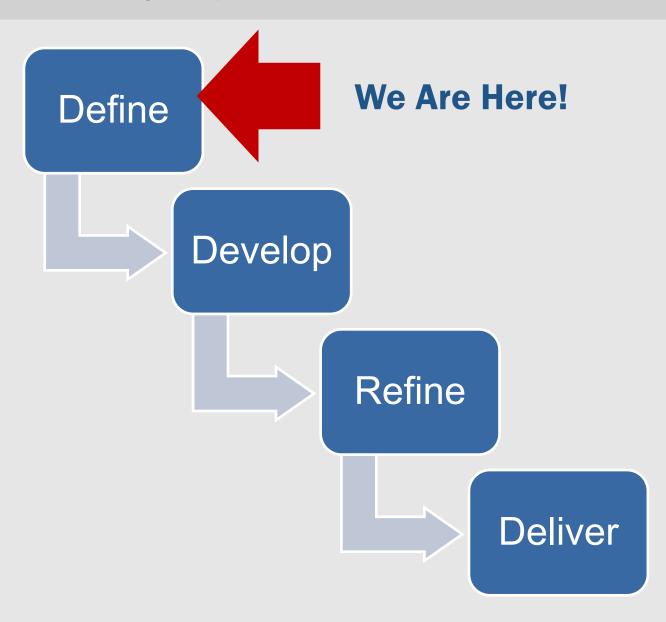

From I-30 to Woodall Rodgers Freeway (Spur 366)

Phase I

(Under Construction)

Project Overview - Project History

- Need identified in 1952
- Original intent of I-345 was to provide a connection from I-45 and I-20 to US 75
- Efforts to obtain interstate designation begin in 1956
- Highway designation received in 1965
- Construction begins in 1968
- Fully opens to traffic in 1973
- Approximately 1.4 miles long
- Designed to maintain continuity of city street grid
- Creative and innovative approach to design, at the time

Interstate 345 under construction in 1969 Source: The Dallas Library

Project Overview - Project History

- Feasibility study conducted in 2012 intended to:
 - improve the structural condition of the bridge
 - reduce maintenance cost
 - reduce the frequency of maintenance and preservation activities
- Stakeholder and public meetings
 held November and December 2012
- Repairs to bridge began in 2014 to extend service life

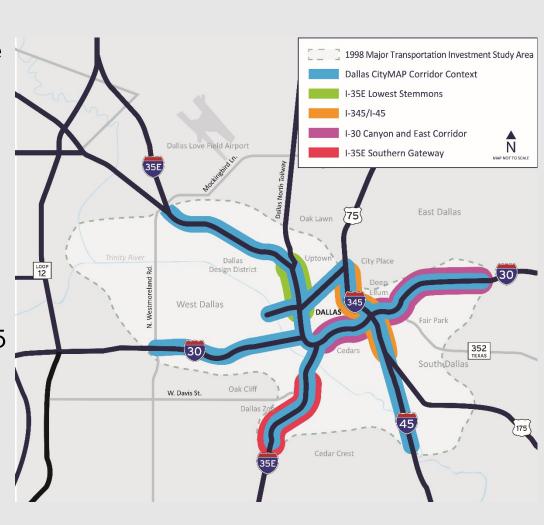

Source: AIA

Dallas CityMAP

- Study that assessed the interstate system surrounding Downtown Dallas
- Developed scenarios for several interstates
- Art of the possible
- Developed four scenarios for I-345
- New, feasible alternatives developed through the current study will also be considered

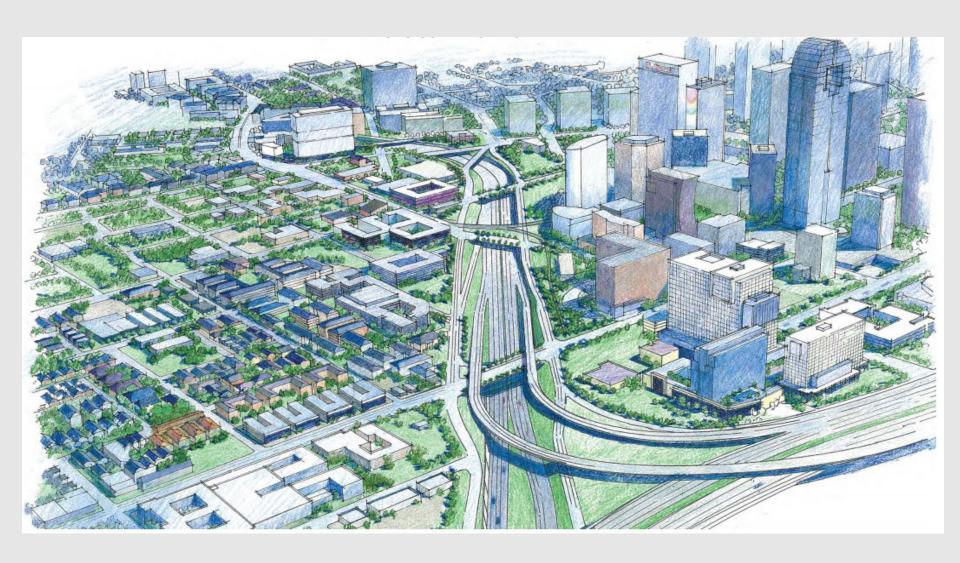

Dallas CityMAP Scenarios - No Build

Dallas CityMAP Scenarios - Below Grade Freeway

Dallas CityMAP Scenarios - Removal

Dallas CityMAP Scenarios – Reconstruct and Elevate with Ramp Modifications

Other Feasible Alternatives

Project Development Process

We Are Here!

Identify Need Feasibility Study Preliminary Design and Schematic

Environmental Study and Documentation

Final Design

Right of Way Acquisition

Construction

Feasibility Study

- Stakeholder and public input
- Engineering analysis
- Traffic analysis
- Right of Way (ROW) requirements
- Existing and planned developments
- Cost and economic impact

- Other planning efforts
- Natural and cultural resources
- Land use and parkland
- Water resources and flood plains
- Hazardous materials
- Social and community impacts

Study and Project Goals and Objectives

Have an inclusive, transparent and collaborative public involvement process

Work collaboratively with stakeholders

Review recommendations from previous studies

Provide the best solution that maintains safety, mobility and operability

Incorporate TxDOT and community goals

Work toward technically preferred alternatives

Public/Agency Outreach & Involvement

Surveys

- Surveys to coincide with public meeting series
- Preferences
- Priorities
- Use of I-345
- Feedback on proposed alternative concepts

Meetings with Key Stakeholders and the Public

- Elected Officials
- Advocacy Groups
- Public Meetings

Other Outreach

- Website: <u>www.345study.com</u>
- Email: 345study@txdot.gov
- Newsletters
- Mailing List
- Presentations
- Press Releases
- Social Media
- Fact Sheet
- Infographics

Next Steps

- Leave your feedback!
- Next series of public meetings
 - Present preliminary traffic analysis
 - Present conceptual alternatives based on stakeholder feedback, traffic data and existing land use and economic development studies/plans

We Want to Hear From You!

Comments must be postmarked or received by Friday, Dec. 20, 2019

Take the survey by Friday, Dec. 20, 2019

PUBLIC MEETING

I-345 IMPROVEMENTS PROJECT

FROM: I-30 TO WOODALL RODGERS FREEWAY (Spur 366)

DALLAS COUNTY, TEXAS

CSJ: 0092-14-094

Monday, Dec. 2, 2019
St. Philip's School and
Community Center
1600 Pennsylvania Ave.
Dallas, Texas 75215
6:00 – 8:00 p.m.
Presentation: 7:00 p.m.

Tuesday, Dec. 3, 2019
CityPlace
Conference Center
Lakewood Room, First Floor
2711 N. Haskell Ave.
Dallas, Texas 75204
6:00 – 8:00 p.m.
Presentation: 7:00 p.m.

Thursday, Dec. 5, 2019
Sheraton Dallas Hotel
Dallas Ballroom
400 N. Olive St.
Dallas, Texas 75201
10:00 a.m. – 8:00 p.m.
Presentations: Noon, 4:30 p.m. and 7:00 p.m.

FORMAL PRESENTATION
BY
MS. CEASON CLEMENS, P.E.

CEASON CLEMENS, P.E., Public Meeting Officer

SLIDE 1 – Title Slide

Good evening ladies and gentlemen. Please be seated and we will begin the formal presentation. My name is **CEASON CLEMENS** and I'm the Deputy District Engineer with the Texas Department of Transportation. Thank you for taking time to be with us and for your interest in the **Interstate 345 Feasibility Study**, which studies **I-345** from its interchange with **I-30** to the interchange with **Woodall Rodgers Freeway**, also known as **Spur 366**.

As you arrived, you were given the opportunity to register your attendance for this meeting at the sign-in table, which allows us to record your participation. You are also invited to make any written comments you may have about the feasibility study using the comment forms provided. There is also a court reporter present to take your verbal comments.

We also have a survey that we would like for you to complete. You can complete here at the computer bank at station 6, on your mobile device or on your computer. We also have paper versions of the survey available that you can complete and mail back to the TxDOT Dallas District. The return address is provided on the survey.

SLIDE 2 – Table of Contents

This open house meeting is being held by TxDOT to provide you with information about the I-345 Feasibility Study and to get your input regarding long term plans for the roadway.

I will begin with an overview of the feasibility study, recap milestones in the project's history and conclude with an outline of next steps.

SLIDE 3 – Project Overview

TxDOT regularly reviews its existing infrastructure to ensure that it is meeting the needs of the traveling public. I-345 is approximately 1.4 miles long and is located within the City of Dallas in Dallas County. The bridges will reach their service life span within the next 25 years.

Because of this, TxDOT is embarking on a feasibility study that will gather stakeholder input, analyze traffic data, evaluate current and future economic development and land uses, study environmental impacts, and will consider many other factors to develop conceptual alternatives for I-345.

Currently, there is no funding available for this project. It takes time to get a project from conception to construction. Therefore, TxDOT is working proactively to develop a plan so that when funding becomes available, we are ready to move forward.

SLIDE 4 - Project Overview - Feasibility Study Location Map

I-345 is located on the eastern side of Downtown Dallas between I-30 and Woodall Rodgers Freeway. The road carries approximately 180,000 vehicles each day. The feasibility study limits are from the I-30 interchange to the interchange with Woodall Rodgers Freeway, also known as Spur 366.

SLIDE 5 – Project Overview – Project Approach

The project team will use a four-phase approach to complete the study: **Define, Develop, Refine, and Deliver**. The project is now in the **define** phase. During this phase, we are hosting public meetings to gain public input, gathering and reviewing traffic data, evaluating economic development and land uses, studying environmental impacts, and collecting data for many factors that will be considered when developing the technically preferred alternative. During the next phase, **develop**, we will assess feedback received from stakeholders to begin developing conceptual alternatives; host another series of public meetings where we will preview the alternatives; present the traffic analyses; and conduct a second survey.

We will then move into the **refine** phase, where we will take your feedback from the second series of public meetings and survey, traffic data and analyses and other information to further refine the conceptual alternatives. And finally, we will **deliver** the study report and a preliminary schematic layout.

SLIDE 6 - Project Overview - Significant Adjacent Projects

The **I-345 feasibility study** is one of many important projects in the region and they are all connected components of a system servicing the North Texas area. As we are planning these projects, we are looking at how these individual pieces affect the greater system. These projects include:

- The recently completed Horseshoe project- I-30 / I-35E interchange
- SM Wright Freeway Phase 1 (US 175), which is currently under construction
- Lowest Stemmons I-35E from I-30 to the Dallas North Tollway, which is currently under construction
- The Mill Creek/Peaks Branch/State-Thomas Drainage Relief Tunnel, also under construction
- SM Wright Freeway Phase 2, which is going to construction spring 2020.
- The Canyon- I-30 from I-35E to I-45, which is under study and fully funded
- DART's proposed D2 line, which is in the study phase, and
- I-30 from I-45 to I-635, which is also under study.

SLIDE 7 – Project Overview – Project History

Planning for I-345 goes back to 1952, when the need for the road was identified. The original intent of I-345 was to provide a connection from I-45 and I-20 to US 75.

Construction began in 1968 and it was fully opened to traffic in 1973.

The 1.4-mile roadway was elevated in order to maintain the connectivity of the city street grid. At the time, the design was considered innovative because of the unique placement of the columns to maintain the continuity of city streets.

<u>SLIDE 8 – Project Overview – Project History</u>

In 2012, TxDOT conducted a feasibility study to evaluate nine alternatives to improve the structural condition of the bridges, reduce maintenance costs and reduce the frequency of maintenance and preservation activities. As part of this feasibility study, stakeholder and public meetings were held in November and December 2012. Based on the recommendations of that study, repairs to the bridge to extend its service life began in 2014.

SLIDE 9 – Dallas CityMAP

In 2014, TxDOT began a study to review the major interstates surrounding and entering Downtown Dallas. The Dallas City Center Master Assessment Process or Dallas CityMAP showed us the "art of the possible."

CityMAP developed potential scenarios based on high-level planning. The I-345 study we're undertaking now will delve deeper into the conceptual scenarios developed during CityMAP, refining them to conceptual alternatives based on engineering and current design criteria and evaluating the environmental impacts of each conceptual alternative.

Dallas CityMAP developed four alternatives for I-345:

- no build
- below grade freeway

- removal, and
- modify existing ramping

New alternatives developed during the current feasibility study will also be reviewed.

We looked at several corridors during CityMAP and the impacts any changes would make on other roadways. The following slides will illustrate the scenarios developed for I-345.

SLIDE 10 - Dallas CityMAP Scenarios - No Build

The first scenario was the no build option. Under the no build scenario, I-345 and the city street grid would remain in their current configuration.

SLIDE 11 – Dallas CityMAP Scenarios – Below Grade Freeway

The second scenario, below grade freeway, would see I-345 reconstructed as a below grade freeway.

<u>SLIDE 12 – Dallas CityMAP Scenarios – Removal</u>

The third scenario completely removes I-345 and modifies the interstate interchanges and the city street grid. These changes would provide surface street connections between the termination of I-45 and Downtown Dallas and US 75 in order to carry the traffic displaced from I-45 and I-345.

SLIDE 13 – Dallas CityMAP Scenarios Elevate with Ramp Modifications

In the fourth scenario, the existing elevated freeway structures would remain and the ramping along the freeway would be modified to free up potential surplus ROW and allow for development opportunities.

SLIDE 14 – Other Feasible Alternatives

As TxDOT goes through this current feasibility study we want to look at other alternatives.

What did we miss? What else should we be looking at? This meeting gives you the opportunity to weigh in on these questions. The best way to provide that input is to complete the survey and/or leave a comment.

SLIDE 15 – Project Development Process

This slide provides an overview of the project development process. Transportation planning can be a long process. Typical project development follows these seven basics steps:

- identify the need
- compete a feasibility study
- preliminary design schematic
- environmental study and documentation
- final design
- right of way acquisition, and finally
- construction

We are currently at the feasibility study stage and want to be ready with a plan once funding becomes available.

SLIDE 16 – Feasibility Study

Many of you may be wondering "what is a feasibility study and what does it entail?" During a feasibility study, we look at many things, including but not limited to:

stakeholder and public input

- engineering analysis
- traffic analysis
- right of way requirements
- existing and planned developments
- cost and economic impact
- other planning efforts
- natural and cultural resources
- land use and parkland
- water resources and flood plains
- hazardous materials, and
- social and community impacts

All of these items will be reviewed during this feasibility study.

SLIDE 17 – Study and Project Goals and Objectives

As we work through the study process, we will have several goals and objectives in mind:

- work with you, our stakeholders, to have an inclusive, transparent and collaborative public involvement process;
- review recommendations from previous studies;
- provide the best solution that maintains safety, mobility and operability;
- incorporate TxDOT and community goals, and finally
- work toward technically preferred alternative

SLIDE 18 - Public/Agency Outreach and Involvement

TxDOT intends to have a collaborative public involvement process. As a stakeholder in this project, you will be able to:

- participate in surveys to gauge your priorities and use of I-345
- attend public meetings, like the one tonight/today, to receive updates and provide input
- access project information from <u>www.345study.com</u>
- join our mailing list for project updates, and
- access this presentation at <u>www.345study.com</u> following the meeting.

The study team will also meet with elected and public officials as well as key stakeholders during the study process.

SLIDE 19 – Next Steps

After the comment period ends, we will review all comments and surveys to begin developing conceptual alternatives.

At the next series of public meetings you will be asked to give input on the developed alternatives.

A final report will be issued once a technically feasible solution is determined.

SLIDE 20- Next Steps

Finally, we ask that you leave your feedback. Your comments and responses to the survey are valuable and will help us move the study forward.

The public comment period for this first series of public meetings ends **Friday**, **December 20**, **2019**. Following this meeting, all comments and questions received during the comment period for this public meeting will be fully considered and responses will be prepared in the project record.

SLIDE 21 – Contact Information

Representatives from TxDOT staff and consultants will remain in the room to continue to provide you with information and answer your questions. Again, I invite you to provide written comments tonight, or meet with the court reporter to make a verbal comment. For those of you who do not want to provide your comments tonight, your written statements will be equally accepted until **Friday, December 20.**

For those of you who wish to submit written comments tonight, comment boxes are located at the comment tables.

Questions and comments may also be mailed to Mr. Travis Campbell, P. E., at the TxDOT Dallas District Office, 4777 East Highway 80 in Mesquite, Texas 75150-6643 or emailed to 345study@txdot.gov.

SLIDE 22 - "Thank You for Your Interest" - Presentation Concluded

We sincerely appreciate your attendance and interest in the I-345 Feasibility Study. Your questions, comments and concerns will receive careful consideration.

Thank you very much. This concludes our formal presentation. Have a good evening.
