

US 380 provides vital connectivity between Collin and Denton counties, similar to I-20 for Dallas and Tarrant counties.

Currently, three major studies are working together to improve this connectivity. US 380 Denton County Feasibility Study and two recently completed studies: the Loop 288 Study in Denton County and the US 380 Collin County Feasibility Study.

This study is anticipated to recommend a solution that has both regional and local benefits.

Regional

Provide regional connectivity by providing an East-West connection serving Collin and Denton Counties.

Further enhance safety as the region grows

Local

Provide reliable travel time and minimize congestion

Enhance driver expectations for travel on US 380

Minimize human and environmental impacts

Provide roadway network reliability
