

Section 4(f) and Chapter 26

Build Alternative Protected Properties

Six U.S. Army Corps of Engineers properties are located along the existing and proposed US 380 for a total of 22.93 acres of right of way.

1 Lavon Lake Wildlife Management Area Section 4(f) and Chapter 26

- Approximately 22.93 acres of permanent easement.
- Design includes mainlanes with no frontage roads within the property.

2 Lavon Lake Vegetative Management Area Section 4(f) and Chapter 26

- Approximately 1.07 acres of permanent easement.
- Reduced roadway side slope through retaining walls along the eastbound mainlanes and frontage road.
- Parallel ramp design for the eastbound frontage road entrance ramp to the mainlanes.

3 Lavon Lake Low Density Recreation Section 4(f) and Chapter 26

- Approximately 0.29 acres of permanent easement.
- Reduced roadway side slope through retaining walls along the eastbound mainlanes and frontage road.
- Parallel ramp design for the eastbound frontage road entrance ramp to the mainlanes.

4 Twin Groves Park Section 4(f) and Chapter 26

- Approximately 0.02 acres of right of way and 0.53 acres of permanent easement.
- Alignment shifts south by utilizing a retaining wall along the westbound frontage road to reduce the roadway side slope.
- Parallel ramp design for the westbound frontage road entrance ramp to the mainlanes.

5 6 Caddo Park and Caddo Park Lavon Lake Historic District Section 4(f) and Chapter 26

- Approximately 0.17 acres of proposed easement would be required.
- Alignment shifts south by utilizing retaining walls along the westbound mainlanes and frontage road to minimize the acquisition of land.

The design within all protected properties has been minimized as much as feasibly possible.
